

ROTC Cadets Receive 26 Awards In Distinguished Military Ceremony

Distinguished Military Student awards were presented Thursday afternoon to 28 army and air force ROTC cadets, said Maj. William C. Neubauer, associate professor of military science.

Army cadets receiving awards were Richard E. Cavazos, R. D. Christian, Bobby J. Covey, A. A. Crumpler, Volney O. Hildreth, Jack Hopper, Evan O. Jones, O. P. Rodolph, Jack C. Scott, Don F. Tankersley and Leo K. Thurston.

Awards also went to Air Force ROTC cadets Isaac E. Avinger, Homer J. Clements, Bill F. Cox, David P. Frizell, Stanley R. Hazlewood, Harry R. Hamilton, James R. Hewlett, Donny R. Jackson, Glendon T. Johnson, Jeral V. Miller, William G. Solomon, Hubert O. Spraberry, Arledge W. Suggs, Billy F. Sylvester and Harold R. Walthall.

Pre-Registration Reopens Jan. 25

Today is the last day for students now enrolled in school to pre-register for the spring semester, W. G. Harding, assistant to the registrar, said.

Students not now enrolled in school may pre-register in the rotunda of the Ad building Jan. 25.

Students who have pre-registered and have not received their registration packets by Jan. 25, may get them in the Ad building rotunda, Harding added.

The over-all global cost of smoke is approximately \$1,500,000,000 said Robert L. Heilbrunn in a recent article. He based his figures on crop damage, damage to house paint, cleaning bills, and all sorts of smoke damage.

Publications Committee Approves Plan To Send Toreador To Tech Servicemen

A Toreador, free of charge, to all Tech men in the armed forces was accepted as a provisional plan at a Publications committee meeting Tuesday said chairman A. B. Strehli.

The plan, submitted by Toreador business manager Darrel Freeman, is still tentative while waiting for the necessary mailing privileges.

Tech men in the armed forces are asked not to request a Toreador until they have an established address. Besides keeping the men

Student Dozes Through Quiz

Sleeping through class isn't unusual but sleeping through an open book quiz is. Or so thinks Prof. H. F. Godeke, head of the mechanical engineering department.

"In 34 years of teaching I've had a lot of students to sleep through my classes but never through a quiz."

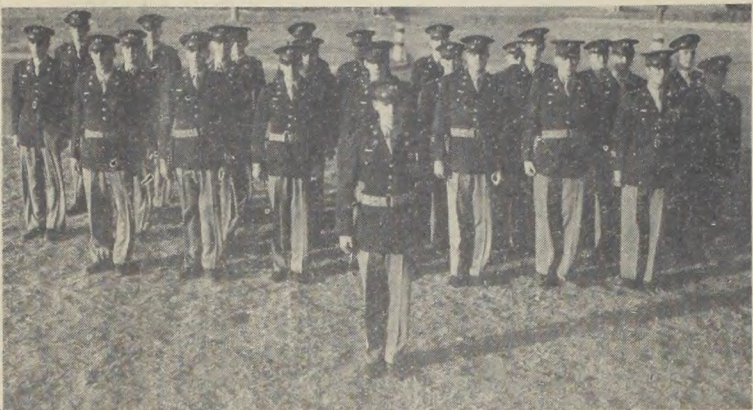

After questions had been distributed and an open book quiz was underway, Godeke noticed one student had lain his head on the book and was fast asleep.

Amused by the young man's daring, Godeke said nothing but did go to Dean Dysart E. Holcomb to show him the phenomenon. During the rest of the hour heads popped in the door to look at the modern Rip Van Winkle who slept unaware of the furor he was causing. Dean Holcomb wanted a picture to preserve the incident but could find no camera.

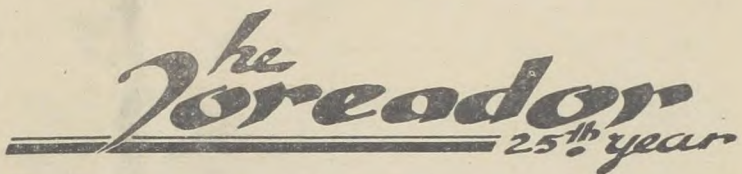

The nine o'clock bell rang but the student still dreamed. In came a new set of students and a new teacher, who did not call Rip's attention to the switch.

"Rip" awoke shortly, closed his book and quietly left the room, glancing shamefacedly at the amused faces.

Dan Stevens from the Flying U Ranch near Deming, N.M., never finishes the first grade, but his intelligence score on the Marine Corps test was 82, worthy of a college graduate. The minimum score is 31.

DISTINGUISHED CADETS—Cadet Colonel Volney O. Hildreth, first row, left to right: Cadet Lt. Col. Evan O. Jones, Cadet Major Jeral V. Miller, Cadet Captain Leo K. Thurston, Cadet Major Jack Hopper, Cadet Captain William G. Solomon, Cadet Lt. Col. David P. Frizell, Cadet Lt. Col. Glendon T. Johnson, Second Row: Cadet First Lt. Isaac E. Avinger, Cadet Captains Carl P. Rudolph, R. D. Christian, Richard E. Cavazos, Stanley E. Hazlewood, Bill F. Cox, Cadet First Lieutenants Harry A. Hamilton, Arledge W. Suggs, Cadet Warrant Officer Hubert O. Spraberry, Third row: Cadet Warrant Officer J. D. Scott, Cadet First Lt. Don F. Tankersley, Cadet Second Lieutenants A. A. Crumpler, Bobby J. Covey, Cadet First Lieutenants James R. Hewlett, Donny R. Jackson, Homer J. Clements, Cadet Second Lt. Harold R. Walthall, Cadet Warrant Officer Billy F. Sylvester. (I. G. Holmes Photo)

Student Enlistments Decrease As Air Force Closes Doors

Volunteer enlistments of Tech men in the armed services was slowed considerably this week with the announcement of new enlistment restrictions for the Air Force. Air Force had been receiving the largest number of volunteers from Tech. A total 225 had enlisted in that service, according to latest reports from the Air Force recruiting station.

That service had been closed after Lackland Air Force base in San Antonio, only Air Force training center for recruits, was overflowed by more than 20,000 new men within the week ending Wed-

nesday. Supplies were being flown to the camp from as far away as Idaho and trains were reported backed up to San Antonio by the influx.

Air Force is still open without a quota to men who have 60 hours in college or prior service in any branch of the service, according to orders from Washington to recruiting officer Sgt. J. A. White.

No restrictions have been placed on Navy enlistments. That branch received 27 men this week. The Marines received three.

Total enlistments of Tech men according to the figures from recruiters is 377. However, figures of the registrar and the deans indicate that many Techsians started to volunteer, but returned to school.

Total withdrawals from the college to enter the service are 293.

Some students are known to have returned to school from the induction station in Amarillo or from induction stations in the area of their homes.

Many of those had gone through the process of withdrawing from college, hence even the figure of 293 enlistments may be high.

Induction of men without 60 hours credit in the Air Force is limited to two per day at the induction stations.

Dean Calls For Work Schedules

Women students who are now employed part time or who plan to be next semester are asked to report to the dean of women's office during scheduled hours next week, Miss Marion Thompson, assistant to the dean, announced.

This procedure is necessary since conditions change from one semester to the next. Applications must be registered or renewed before regular registration begins.

Scheduled hours for the dean's office are from 1:30-4:00 p.m., Wednesday, January 17; 9:00-11:30 a.m. and 1:30-4:00 p.m., Thursday, January 18.

Doctor Wiggins Discusses Draft For Men Students

High Grades May Delay Draft Call

Pres. D. M. Wiggins took an impartial stand Tuesday night in an informal discussion of the existing military emergency and student draft status before approximately 1,200 Tech men in the Gym.

"I did not call you here to argue with you to stay in college," explained Wiggins, "neither shall I attempt to tell a single one of you what I think is the best thing for you to do."

"It is your life and your country and I don't think anyone, not even your parents, should tell you what to do," he continued.

"I wanted to chat with you and discuss facts which may have a bearing on your making a calm, justified decision," he pointed out, "and once that decision is made no one else should violate it."

Wiggins read from an article, "Draft—Who goes in 1951?", which stated, "College sophomores and freshmen are to be up against the draft board after June . . ." In connection with this statement Wiggins said, "Many of the sophomores and freshmen who face draft at the end of the spring semester are slacking off on their work because of this and I cannot find myself believing that a man who does such a thing will be an asset to his country, to Texas Tech or to himself."

"High grades, advanced studies may save off induction for many,

See DRAFT page 7

Campus Parking Regulations Enforced After Two-Month Absence Of Patrolman

Campus parking regulations will be put in effect again Monday, Lewis N. Jones, assistant dean of student life, has announced.

Regulations have not been enforced since before Thanksgiving, because of the absence of a policeman on the campus.

Patrolman William H. Verner is now serving as policeman for the Tech campus and will enforce parking as laid down by the Traffic committee in September.

Area parking as outlined by Jones is as follows by areas:

A—for arts and sciences, business administration, agriculture and home economics students living off campus. Parking lots are behind the Administration, Chemistry and Journalism buildings and between the Library and Chemistry buildings.

B—for engineering students. Parking lots are behind the engineering and Journalism buildings.

C—for men living in Men's Dorms III and IV. Lots are north and west of the dorms.

D—for men living in Sneed and West halls. The lot is west of West hall.

E—for men living in Doak hall. Lot is between Doak hall and Tech Bookstore.

H—for women living in Home Management house and Casa Linda. Lot behind the houses.

K, L—limited parking areas for college employees. K is behind the Agricultural building; L is in front of the Textile building.

V—for visitors. Parking is located beside the Dormitory office, behind the Engineering and Journalism buildings.

T—for construction employees. Lots are near all new buildings under construction.

Meanwhile city construction crews are busy building curb extensions on College avenue to provide protection for persons waiting to cross to the campus or College avenue.

Next project for the city, according to Theodore Forbes, city planning engineer, will be refuge islands in wide streets. College avenue will have such islands. The islands will enable pedestrians to cross to the middle of the street and wait until they can cross to the other curb.

In an effort to keep students conscious of safety on the campus, the safety committee of the student council has displayed crosses at the scene of each campus accident.

William Harold Verner, ex-Tech, has returned as a permanent police officer to enforce traffic regulations on the campus.

He attended Tech as an engineering student in 1939-40, and was a patrolman on the Lubbock police force.

Verner joined the Lubbock police force in 1948 after serving 42 months in the Air Force. Before coming to the campus he patrolled the downtown area covering the theatres.

During his first two days on the campus, Jan. 3-4, Patrolman Verner issued 113 tickets for traffic violations, the majority on parking. "About 80 per cent of the tickets now are for parking violations between the men's dorms," Verner said. The amount of violations since the first two days has dropped considerably, he added.

Verner will aid the Traffic Planning committee in attempting to eliminate weak points of the campus traffic system.

informed on the happenings at their Alma Mater, the Toreadors, circulating throughout the world, will be excellent advertisement for Tech.

A recommendation, submitted by Sue Holmes, Toreador editor, for two associate Toreador editors instead of one was also accepted. The recommendation provides each associate editor with \$20 per month in lieu of the monthly \$30 now given the present associate editor, Jimmie Henley.

Lubbock Engineer Speaks To ASCE

H. N. Roberts, Lubbock civil engineer, was guest speaker at the regular Monday night meeting of the American Society of Civil Engineers. Roberts spoke on the "Ground Water Supply Relative to the Texas Panhandle."

Slides taken in and around Guadalupe City were presented by Roberts who explained the historical engineering methods being used in that area.

Emmett Adair was elected assistant secretary for the ASCE at the meeting to replace Charles Swart in the fall semester.

Reserves Urged To Seek Recall

Company grade Army Reserve officers qualifying for recall are urged to submit applications for active duty immediately, stated Col. C. M. Culp, chief of the Texas Military district, in an information release Jan. 3.

"Every qualified officer that volunteers his services reduces the number that must be ordered to duty involuntarily," Culp pointed out.

Reservists are requested to contact the Reserve Area Instructor office.

DFD Election Fills Office Vacancies

Rheta McMaster, junior from Abernathy, was chosen to replace Freeda Harwell as vice president of DFD Wednesday night. Miss Harwell is transferring to the University of Texas next semester.

Marvel Gibner, sophomore from Spearman, was elected assistant rush captain to replace Phyllis Herrington. Miss Herrington will act as head rush captain, replacing Jo Ann Williams, who will not return next semester.

Elizabeth McCain, sophomore from Plainview, was chosen historian to replace Ann Nelson, who will not return for the spring semester.

SAFETY! First, last and always:

Air Force Schedules Interviews Monday-Friday To Select Cadets

An Air Force Cadet Selection Team will be on the campus Monday through Friday in the Guidance center to interview juniors and seniors interested in officer opportunities in the Air Force.

The team is offering two courses of training to qualified men: 1. Aviation cadet pilot training consisting of one year of intensive schooling in all phases of aviation with commissions as second lieutenants and

Casa Linda Offers Democratic System For Women; Residents Share Expenses

January engineering and physics graduates who are job-seeking may schedule appointments with D. H. Buck, representative of the General Electric company, for Tuesday.

Jobs are available in the training program of the company, and appointments may be scheduled in the Placement office.

Recent statistics show that a foul is committed every 50 seconds in professional basketball.

If you would like to experience dormitory life but cannot afford it, now is your chance. Five vacancies have been listed for Casa Linda next semester.

Casa Linda is a regular campus living unit which houses 18 instead of 300 women students. Run on a co-op basis, it functions through the combined efforts of its residents. Each student takes a turn at the different duties of housekeeping for a short period of time. This makes for a democratic system operated for and by the people who live there.

At the beginning of each year, a business manager and a social director are elected by the students. The main duties of the business manager are to pay the bills, collect funds from the residents, plan the menus and buy the food. The social director supervises the social activities of the group as a whole.

Each student pays \$30 per month. Five dollars of this amount goes for room rent and the remaining \$25 is spent on food. Surplus expense money is divided among the contributors.

Anyone interested in living in Casa Linda should make a written application to the office of the dean of women. A committee, composed of the dean of women, the dean of home economics, the business manager of the house and the

Tech Accountants Elect James Niver President

The Tech Accounting Society met Monday night and elected James Niver as new president replacing Gene Reno, graduating senior.

Other newly elected officers are Lowell Matthews vice president, replacing James E. Hall and Dick Gamble, treasurer, replacing Eli Evans.

The next regular meeting will be Feb. 5.

Commercial Art Exhibition Shows Student Approach

An open house commercial art exhibition was held by the department of architecture Thursday and Friday in XI.

The exhibition emphasized the methods or procedures in the student approach to architectural problems.

SPECIAL PROJECTS OFFICER INSPECTS ROTC

Lt. Col. Carl E. Taylor, Air Force ROTC Special Projects officer, arrived in Lubbock Tuesday night for a one-day formal inspection visit of Tech's ROTC.

Colonel Taylor is attached to Robbins Air Force Base in Georgia.

The social director reviews applications. Applicants are considered for their academic standing and classification, interests, personal qualifications and their need of financial assistance.

Shaving Shortens Study? . . .

With the arrival of dead week, loyal Techsans on the campus are blooming forth in one of the finest traditions on the campus—the growing of dead week beards.

A few villians have been stealthily cultivating their growth in advance of the lawful day. But those stalwart men who are loyal will cheerfully throw out their razors and start with vigor on a short career of making their girls scream, babies cry with horror, and old ladies wonder what the generation is coming to.

A few lucky sons don't need to shave every day and these few miss the pure joy that comes from forgetting the five minute ritual that takes such a hunk out of a man's day.

During dead week it is only logical that men should cut every possible corner in order to make more time available for studying. But wouldn't it be just as offensive, and much more time saving, to leave off baths for this one week?

Tradition-minded Techsans should take in consideration the fact that shaving really takes a very small part of a man's day, and realize the effectiveness of a bathless tradition that would make a "sweepin'" sensation on the campus and save countless minutes for the all important job of studying. (M. H.)

Able As Ever . . .

Remember the days when "Elmer's Tune" was popular; when we wrote long letters to brother out on Guam; when shoes were rationed and chocolate candy was hard to get? That was when Eddie Cantor singing "We Did It Before And We Can Do It Again" was the rage and a vegetable plate was a necessary evil when all the meat coupons had been used.

Yes, those were relatively hard times, now that we remember them. And yet, as a whole, we're no poorer now than we were before Pearl Harbor; we're no unhealthier, no worse dressed; in fact, the average citizen has very few fears to indicate that he suffered any hardships during World War II. Our sacrifices then are almost forgotten after only five short years.

Now we are again called upon to make sacrifices. Wages and prices will be controlled; higher taxes will be levied; many people will work longer hours. Draft expansion is promised, and rationing of consumer goods seems inevitable. It would appear that war with Russia would call for greater sacrifices on our part than we ever thought possible.

We may ask, "Can we do it?" The answer is, of course we can, unless we want a government-controlled economic system permanently.

We would sacrifice much more than we did during World War II to keep from being forced to sacrifice under a communist regime which would inevitably come were we to lose a war against Russia.

The American people are a proud lot. We're proud of everything we have because we have the best. We wouldn't have an educational system, an economic system, a government that didn't merit sacrifice, if necessary, to keep. We have a chance now to prove our confidence in our way of life. We've done it before, and we can do it again—and we will. (G.M.)

Sane Or Insane? . . .

College football in the smaller schools could be almost obliterated and football could become more of a profession in large colleges if the National Collegiate Athletic association follows the suggestions of some member conferences.

The Southwest conference is among those requesting the abolition of the Sanity code which has kept college sports on a semi-professional level.

Abolition of the code would obviously improve football of the richer conferences. In like manner it would decrease the interest in the game in the smaller conferences.

More than a sports program is involved in the decision of the NCAA officials, however. The decision will determine whether schools will be the owner of a professional football team (which is no role for education) or merely leave sports as the predominant part and not the dominating part of a school.

To make no decision on the code will leave colleges the privilege of continuing their abuse of it, increasing its ineffectiveness.

Colleges must decide what is to be dominant. (J. H.)

Little Man On Campus

by Bibler

"Well, guess we may as well get ready—here's Professor Smart with the physics tests."

Henley's Heap

With final examinations only one week away, many students are already anticipating what to do next semester.

For many of the men it is a question of whether to enlist and avoid being called during the semester; to others it is only a question as to what subjects to take. Some men are thinking, "What subjects would help me when I do go to the service?"

The thinking of almost all students has been invaded by the question of the Korean war and what it means to them.

As UN troops surge swiftly backward, we are reminded once again of low spirit of Techsans during the late days of last summer, and how everyone was encouraged as early in this semester the American forces began rolling northward.

Now, more than in August, Techsans' spirits are low. Communism is nearing its first victory by force, after having taken Eastern Europe and China by a more subtle means.

Where will it strike next? Will it again use force, or are there still places it can conquer by "ballot"?

One thing is fairly certain about the next move of the Moscovites; it will find America still unprepared, although preparing.

How long will it be until we again have peace?

Even the Washington analysts of Russian thought would find a guess at an answer difficult, but as we have said several times during this semester we may have peace individually.

It matters not what is happening about us; we can have the peace of mind that comes from an understanding of the teachings of the Prince of Peace.

We'll be called fanatic for repeating it, but we quote from our Nov. 18 column:

"The senator (Lyndon Johnson) may be right in calling for production in the west for defense of America in World War III, but what America most needs is to find a prevention of World War IV."

It is our opinion that only the love that Christ taught is capable of bringing peace to either the individual or to the world. Treaties have failed, wars to end war have failed, the United Nations has failed; but so far as we know the world has never tried following the teachings of Christ.

Do we have the individual peace that is available?

Of the 5,043 Tech students who expressed a preference for some church, it is reasonable to assume that the majority are members of some church.

But, are modern Americans substituting church membership for true Christianity?

Attending church occasionally, we hear preachers call for church members to "live Christianity seven days a week instead of one." Tech pedestrians may often have reason to believe their fellow students are not practicing the altruistic teachings of Jesus.

Perhaps bottling up of Christianity for Sunday use only is a common practice of us all.

Perhaps we should heed the recommendations of the clergy to daily practice what we profess to believe as Christians (i.e., "little Christs") and to read the Bible to better understand the God we claim.

We cannot know whether it will work until we have tried it.

Ex-Tech Student Is Colorado Governor

Republican Daniel I. J. Thornton, former Tech student, was sworn in Tuesday as Colorado's twenty-third governor by Chief Justice Benjamin Hilliard of the Colorado Supreme court.

Governor Thornton's inaugural address was delivered to the joint thirty-eight General assembly on the capitol steps, following a parade escorted by the Colorado Palomino patrol.

About The Campuses

Shelley Furr, former Techsan from Lubbock, now a junior French major at the University of Texas, was crowned sweetheart of the Alpha Tau Omega fraternity at a formal dance December 16 in Austin.

Miss Furr was a Tech beauty in the 1948-49 school year.

Thirty-eight per cent of students polled admitted that they cheated on finals, according to The Varsity News from Detroit. Reporters from this newspaper visited several campuses for the survey.

Over 73 per cent of those quizzed stated that they cheated on examinations other than finals or mid-semester. Those who cheated only "sometimes," totaled 30 per cent, while 23 per cent cheated regularly. Forty-five per cent favored the installation of the honor system.

Limbo, the humor magazine of Southern Methodist university, has died until funds for publication are again available, the Student Publishing company did not approve the budget request made by the editor, Jack Marshall.

Although the magazine is not now being published, the staff is attempting to find another way, such as selling the publication, to continue financing the periodical.

Three professors of Trinity university in San Antonio recently led a discussion on "How to Survive Final Examinations." The meeting was open to all members of the student body.

The manager of the Michigan State Daily had a lot to say when women were allowed to enter the men's union at the University of Michigan. He wrote, "I've quit trying to figure women out. First they wear slacks, steal their brothers' white shirts and get a crewcut; now they want to play billiards in a men's club. Pretty soon they'll want to play football—that might not be such a bad idea at Michigan."

Caruso Record Concert Planned

A concert of Caruso recordings will be presented at 8 p.m. Tuesday in the Museum auditorium.

Richard Alexander, a Tech student, loaned the recordings to the Museum. The records, collector's items, were obtained by Alexander.

Letters To The Editor

THANKS

Dear Editor: On behalf of the Cosmopolitan club I would like to express our sincere appreciation to the Texas Tech student body for their kindness and thoughtfulness to each of the foreign students on this campus who was presented with a fountain pen as a Christmas gift.

This token of remembrance of those of us who spend Christmas far from home holds great significance, in that it was an expression of your warm hospitality and interest in our efforts to seek for the best in life, that we might be better citizens of our respective countries and better citizens of the world. In all of our experiences here at Tech we have all been conscious of the fact that we have much in common, and this thoughtful gift makes it even more ap-

parent. We only hope that we will be able to justify your faith in us, and that we may encourage many more foreign students to come to Tech.

Thomas R. Cleveland.

PARDON, PLEASE

Dear Students: We would like to take this opportunity to offer our apologies to the Texas Tech student body and faculty for our actions at the Hardin-Simmons university campus on Dec. 1.

We realize now that to paint your school emblems on another school's campus involves more than school spirit. It could, in fact, bring discredit to anyone connected with this school.

Although it is too late to correct all of our mistake, we are doing

all that is possible to eliminate any ill feelings that may have developed between the two schools due to our action.

Your consideration is appreciated.

David Bradshaw Thomas Palmer.

HUNGRY

Dear Editor: It seems as though the business on College avenue at night has decreased considerably in the last year. Since I don't own a car, I depend largely on the part of the Avenue within my region for service. However, if you have noticed recently, practically every business house has been closed by 10 or 10:30. If a man, after this time, wants a club steak or a sandwich, wants to return to work shortly

Advertisement for Women's Rush To Be Held Tuesday, January 16, 1951. Includes text about pre-registration, a list of names (alschuler, POTPOUR, Hammer says that girl with a negative personality can be developed in room, etc.), and a Coca-Cola logo.

Women's Rush Week Pre-Registration To Be Held Today In Ad Building

Pre-registration for women's rush week will be held today from 8:22:30 on the first floor of the Administration building, according to Mary Anne Kelley, president of

Women's Inter-Club council. The purpose of the pre-registration is to determine whether or not there will be a spring semester rush week. If a sufficient number of girls do not pre-register, the council will do away with spring rush week entirely. Miss Kelley said.

However, a woman who does not pre-register, is still eligible to register for rush week if there is one. If rush week is held, registration will begin Feb. 1. Convocation will be from 5-7 p.m. Feb. 2 in the Green room of the Recreation hall. There will be no individual club open houses as there have been in the past. Rush parties will be Feb. 3 and 4. Preferential signing will be Feb. 5.

Fashions will feature doubles this spring. There will be twin collars, twin belts, double lapels, double sleeves, double hemlines, and double brims on hats.

alschuler's
POTPOURRI

Hammer says that many a girl with a negative personality can be developed in a dark room.

At the neighborhood box office the other day, confused Cleo was heard asking about that new brassiere film—The Big Lift.

Watch out for the gal who says she loves you from the bottom of her heart. That means there's room up at the top for some other guy.

Respite: The interval between a bachelor's engagement and minister's fatal words.

Her father: Did I see you get fresh with my daughter?
Her date: How should I know? I was concentrating on your daughter, not on what you might be doing.

Mrs. Hester Wins Borden Award

Mrs. Barbara Hester, San Angelo home economics education major, was presented with the \$300 Borden Award for 1950-51 Tuesday night by Dean Margaret W. Weeks, head of the home economics division.

The award was made on behalf of the committee on scholarships and awards at the regular meeting of the Home Economics club. The award is presented annually to the highest ranking senior home economics student on the basis of junior grades. Mrs. Hester has a grade point average of 2.85.

Mrs. Hester is a member of Who's Who in American Colleges and Universities this year and also president of Phi Upsilon Omicron, honorary home economics fraternity.

New Music For Listening Courses Will Be Offered Next Semester

"Our hair is to be a little bit shorter," says Raymond Elliott, assistant professor of music, in speaking of "Music for Listening," one of the two new courses especially designed for non-music majors to be offered by the music department next semester.

The other new course is beginning and intermediate class lessons in piano, voice and band and orchestral instruments. With "only three hours of outside practice," Gene Hammle, head of the music department, laughingly adds.

The beginning class is for persons who have had no previous lessons and the intermediate for those who have studied in the past and want to continue their work.

Along the line of "short hair" the "Music for Listening," a non-technical course utilizing recordings and sound films of music lit-

erature, will have Stan Kenton, Dizzy Gillespie, Burl Ives and George Gershwin for a starting point in listening enjoyment.

Each course meets two hours a week and gives the student one semester hours of elective credit on his degree.

Students who wish to sing in the Festival or General chorus or play in the "B" band may also apply now to Hemmie in X3 for positions without auditioning.

Places are also open in the Texas Tech Men's Glee club, Tech Choir, Tech Concert band and the Madrigal Singers. Auditions for positions may be obtained by contacting Hemmie.

A handbook, entitled "Music for You," will be distributed in the dorms at the beginning of next semester. The circular gives a description of the department's courses.

Baptist Men Name Stanley President

Fred Stanley, junior engineering student of Lubbock, was named president of the Men's Brotherhood of the Baptist Student union Thursday night.

Other new officers for the spring semester are Merl Hill, vice president; Harold W. Harris, secretary; Joe Brod, social chairman; Jimmie Henley, program chairman; Powell Hinson, missions chairman.

Arvids Jauarajs, native Latvian who has moved to Lubbock under the displaced persons program, spoke to the men about life behind the iron curtain.

He told of the methods used by Russia in taking over the Baltic states during 1941.

Gamble Selected Los Cam President

Dick Gamble was elected president of Los Camaradas Wednesday night.

Other officers elected were Gene Garner, vice president; Brad Beedy, secretary; H. A. Tuck, reporter; Joe Overton, sergeant at arms; Marvin Jones, corresponding secretary; Andy Behrends, athletic director.

Dick Gamble was also chosen best member of the club, and Gerald Smith, best pledge.

Women's hats for spring will be larger and more glamorous than last year's hats.

Burgess Chosen Aggie President

Kenneth Burgess was chosen president of the Aggie club at the election of officers Tuesday night in the Aggie auditorium.

Other officers for the spring semester are first vice president, Charles Beedy; second vice president, Brian Boyett; secretary, Tom Cleveland; treasurer, Dudley Montgomery; reporter, Moyland Courtney; marshal, Matt Fuson.

Members also discussed plans for building a trophy case in the Agriculture building for the use of all departments in the agriculture division.

Speech Tournaments Are Scheduled With Distant Colleges Next Semester

Techans who are interested in speech tournaments will be given an opportunity to participate in four contests from Colorado to Florida next semester, according to Dr. Melville Larson, head of the speech department.

The first tournament will be held at Baylor university Feb. 2-3, and will include debate, oratory and extemporaneous speaking.

Contests at the Abilene Christian college Speech Tournament to be held Feb. 9 and 10 will include poetry reading, oratory, after dinner speaking, Bible reading, extemporaneous speaking and radio.

Denver university will be the site of the Rocky Mountain Speech conference on Feb. 15-17. Students may participate in oratory, oral interpretation, newscasting, discussion, after dinner speaking, conventional debate and British style debate.

The Southern Speech association will hold a meet at the University of Florida April 2-6. Contests will be in student congress, debating, oratory, interpretation and after dinner speaking.

Larson stressed the fact that all students are eligible to try out in these fields. Practice group meetings will be held here first, and anyone who is interested should see Dr. Larson at the speech building.

Caruso — through the cooperation of RCA Victor recording company and were made from the original wax discs which were recorded in the early 20th century acoustically rather than electrically. Singing some of the selections with the tenor are Galli-Curci, Madame Schumann-Heink, and Frances Alda.

Profs Attend Ag Workers Meeting In Mineral Wells

T. L. Leach, professor of agricultural education, left yesterday to attend a meeting in Mineral Wells of the Texas Agricultural Workers association, of which he is treasurer.

Accompanying him are E. L. McBride, head of the department of agricultural economics, and Archie Leonard, associate professor of agricultural economics.

Letters —

(Continued from page 4)

and has no available car, where is he to go? Perhaps he wants only a cup of coffee and juke-box music to temporarily get his mind off his work. This further arises the question as to where he is to go to satisfy his desires.

There appears to be some solution, but what is it? I have but one suggestion which is for some college organization to create either a profit or non-profit business for the benefit of Tech students. As to whether it would function properly is questionable.

Bob G. Crocker
D oak hall.

Yes, we have noticed that the Avenue sidewalks are rolled up rather early. Perhaps the Board of Student Organizations or the Lubbock Chamber of Commerce would have replies.—Ed.

SAFETY! First, last and always.

Associated Students Memorial Building University of Washington Seattle, Washington

University of Washington Daily

The Associated Students Memorial Union Building is one of the favorite on-the-campus haunts of students at the University of Washington. That's because the Union Building is a friendly place, always full of the busy atmosphere of college life. There is always plenty of ice-cold Coca-Cola, too. For here, as in university gathering spots everywhere—Coke belongs.

AWS Council Asks Women To Give Financial Support

Each woman student, who is automatically a member of the Association of Women Students on the campus, will be asked to contribute to the financial support of the organization during spring semester registration.

The assessment will be made upon recommendation of the Student Council. Money collected will be used for a number of projects carried on by the AWS council for the benefit of the women students on the campus.

It will help finance a more adequate and effective big-sister program, a better Tech Tips for Fall 1951 and a May Day luncheon honoring incoming AWS officers and seniors. The money will also pay the expenses of two delegates to the Intercollegiate Association of Women Students convention at Purdue university in March.

Claudine Youngs, general chairman of the campaign, has announced that tables will be set up at registration points to collect the money. Each student who contributes as much as fifty cents will be given a membership card.

Fat Stock Show Names Jan. 28 As Tech Day

The Southwestern Exposition and Fat Stock show management in Fort Worth has designated Jan. 28 as Texas Tech-Lubbock day at the show, according to N. C. Fine, assistant dean of agriculture.

The stock show management has set aside some radio tickets for the matinee and evening performances on this date. The \$3 price of the ticket includes general admission to the show grounds. Students may buy tickets in A-201A until Jan. 18.

"As the Tech-Lubbock day comes between semesters, it is anticipated that a number of Techians who live in the Fort Worth area will be able to attend," stated Fine. Several judging teams will also be in Fort Worth on that date.

Women's Dorms Plan Quiet Hours

House Senates of the women's dormitories on the campus are making plans concerning quiet hours for dead week and regularly scheduled exam days, said Dean of Women Margaret Twyman.

Each dormitory will have its own plan which will be enforced so that students may take full advantage of review and study periods. The rules for such a program will be posted on a bulletin board in the dormitory and a punishment system will be devised.

John Hall Elected President Of Socii

John T. Hall is new president of Socii.

Other officers elected Wednesday for the spring semester are John Hill, vice president; Danny Riltter, secretary; Lowell Slaton, treasurer; Bill Holmes, reporter; Sammy Hale, corresponding secretary; Fred McMurry, sergeant-at-arms; Don Pope, pledge captain.

Jackson Addresses State Conference

"Venturing to Work with Lay People in Future Improvement Programs" was the subject for an address by Doyle D. Jackson, education professor, at the annual state conference of the Texas Association of Supervisors and Curriculum Development in Waco Jan. 10-13.

T. B. Livingston, assistant professor of education, was consultant to a work group on elementary education during the conference.

SAFETY! First, last and always.

Brandt Heads APO; Projects Planned

Alpha Phi Omega, service fraternity, elected Floyd Brandt, Pampa senior, president for the spring semester at its last regular meeting.

Brandt, who was first vice president this semester, succeeds Russell Lawson in the presidency. Named first vice president was Jerry Raun. Second vice president elect is Max Hardesty.

Other new officers are Roger Pruitt, corresponding secretary; George Young, recording secretary; Wilson Youngblood, treasurer; James Taylor, sergeant-at-arms; Dick Brooks, historian and reporter; Don White, alumni secretary.

APQ has several projects under consideration for the spring semester. Among them are a drive in conjunction with other campus service clubs to improve collection of empty coke bottles; upkeep of the grounds at Milam's Children's home; construction of a paper mache "Red Raider" to symbolize the spirit of Texas Tech; construction of additional benches on the campus.

Mixed Choir To Make Two-Day Tour; To Sing In Canadian, Pampa, Borger

Tech's mixed choir will make a hurried series of engagements during dead week. Dr. Gene Hemmie, head of the music department, announced.

The group will leave 12:30 p.m. Monday for an appearance before the Canadian Chamber of Commerce that evening. Pres. D. M. Wiggins will be the main speaker at the meeting.

On Tuesday morning the group will appear before Canadian high school, then at 11 a.m. make an appearance at Pampa high school. Before returning to Lubbock Tuesday evening, the group will perform for Borger high school at 2 p.m.

The Madrigal singers under the direction of Ira Shantz will perform at each appearance. Vocal solos by Shantz and piano solos by Herbert Colvin will be featured on the high school programs. The choir will be under the direction of Hemmie.

SAFETY! First, last and always.

Jacque Spurlock Will Head Chaps

Jacque Spurlock of Richland Springs has been chosen president of Las Chaparritas to replace Guida Miller of Amarillo, who will graduate this semester.

Frances Cox of Garden City was elected to replace Miss Spurlock as vice president of the club.

Betty Meriwether of Fort Stockton will replace Miss Cox as AWS representative.

Wiggins Speaks To Aggies; Attends NCAA Meeting

Pres. D. M. Wiggins spoke last night to the Texas Agricultural Workers association meeting in Mineral Wells.

Wiggins has been attending the National Collegiate Athletic association meeting in Dallas.

On Monday he will speak to the Canadian Chamber of Commerce.

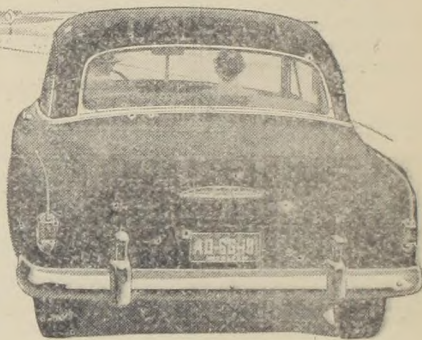

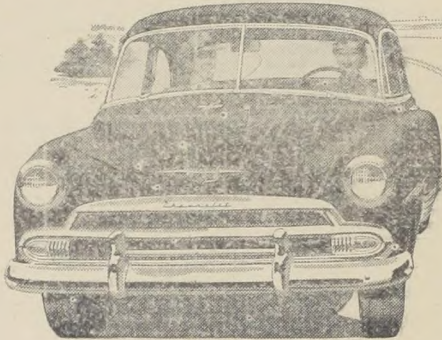

Applied Arts 131 Offered At Night

A new night course, Applied Arts 131, will be offered during the spring semester on Tuesday and Thursday nights from 7-9:30. Miss Martye Poindexter, home economics instructor, has announced.

The course is open to all Tech students as well as business men and women and is in line with the administration's wish to extend the services of the college to the community.

Generally designated as a basic design course, it deals with color, texture and line and teaches the student why some things are in better taste than others. The course will give regular college credit and is a pre-requisite for many arts and crafts courses.

NEW 1951 Chevrolet AMERICA'S LARGEST AND FINEST LOW-PRICED CAR!

It has that longer, lower, wider big-car look!

AMERICAN BEAUTY DESIGN—Brilliant new styling . . . featuring new grille, fender moldings and rear-end design . . . giving Chevrolet that longer, lower, wider big-car look.

AMERICA-PREFERRED BODIES BY FISHER—With strikingly beautiful lines, contours and colors . . . plus extra sturdy Fisher Unisteel construction, and Curved Windshield with Panoramic Visibility.

MODERN-MODE INTERIORS—With upholstery and appointments of outstanding quality . . . and with extra generous seating room for driver and all passengers on big, deep, "Five-Foot Seats."

SAFETY-SIGHT INSTRUMENT PANEL—Safer, more efficient with overhanging upper crown to eliminate reflections in windshield . . . and with plain, easy-to-read instruments in two large clusters.

MORE POWERFUL JUMBO-DRUM BRAKES (with *Dual-Life rivetless brake linings*)—Largest brakes in the entire low-price field . . . giving maximum stopping-power with up to 25% less driver effort—and longer brake life.

IMPROVED CENTER-POINT STEERING (and Center-Point Design)—Making steering extra easy, just as Chevrolet's famous Knee-Action Ride is comfortable beyond comparison in its price range.

Here's America's largest and finest low-priced car—the *newest* of all new automobiles—as trustworthy as it is thrifty to buy, operate and maintain.

New with that *longer, lower, wider big-car look!* New in its strikingly smarter Fisher Body styling and beautifully tailored Modern-Mode interiors! New in safety, new in steering ease, new in feature after feature!

Moreover, it's thoroughly proved in all things, from the finer no-shift driving of its Powerglide Automatic Transmission,* or the finer standard driving of its Synchro-Mesh Transmission to the fleet, frugal performance of its Valve-in-Head engine.

Come in—see and drive *America's largest and finest low-priced car!* Chevrolet for '51—the only car that brings you so many big-car advantages at such low cost!

PLUS TIME-PROVED POWER *glide* AUTOMATIC TRANSMISSION

—proved by more than a billion miles of performance in the hands of hundreds of thousands of owners. *Combination of Powerglide Automatic Transmission and 105-h.p. Engine optional on De Luxe models at extra cost.

MORE PEOPLE BUY CHEVROLETS THAN ANY OTHER CAR!

Murphy To Head Honorary Ag Club

Paul Murphy was named president of the Honorary Agriculture club at the election of officers Tuesday night.

Other officers chosen were vice president, S. L. Mullins; secretary, Palmer Willis; reporter, Brian Boyett; Aggie club representative, Dwane Jones, social director, Kenneth Burgess, and parliamentarian, Glen Lucas.

Plans for gaining admission to Alpha Zeta, national agriculture honor fraternity, were discussed.

Club sponsors are Kirk Turner, Archie Sullivan and L. E. Smith.

Wells To Assume Post February 1

J. Roy Wells will assume duties as assistant to the president on Feb. 1. Mrs. Anna B. Gibson, secretary to the president, announced Thursday.

Wells comes to the Tech post from Sam Houston State college where he has been head of the department of business administration.

Toreador Seeks Student Workers

All students interested in working on The Toreador during the spring semester may make application now to editor Sue Holmes.

Numerous jobs, including those of reporters, photographers and sports editor, will be available to students regardless of their major or classification. Journalism courses are not a prerequisite for working on the newspaper.

Applications may be made in person or by letter to the Editor, The Toreador office, J105.

Marketing Society Elects Bill Clanton For President

Bill Clanton was elected spring semester president of the Marketing society at a meeting Monday night.

Other new officers are Clydene Whitaker, secretary-treasurer; Wanda Behrens, corresponding secretary; Ernest Fisher, reporter; Robert W. Friedberg, instructor in marketing, concluded the meeting with a report on the American Marketing association.

FFA Elects Rucker, Nine Spring Officers

Lee Rucker will serve as president of the Tech FFA chapter for the spring semester. He was elected at a meeting Thursday.

Other officers elected were Dwane Jones, vice president; Darwin Metcalf, second vice president; Charlie Chapman, secretary; Marvin Posey, treasurer; Brian Boyett, reporter; Jack Sageser, sentinel; Bill Harris, Aggie club representative; Homer Harvey, historian; A. J. Turner, parliamentarian.

Sculptural Drawings Shown In Museum Art Gallery

Preparatory sculptural drawings of Ivan Mestrovic, celebrated modern sculptor, will be shown in an exhibit in the art gallery at Tech museum tomorrow through Feb. 11.

Tech

(Continued from page 7)

ling Buffaloes downed New Mexico A&M and New Mexico University in handy fashion and are rated to be contenders with Arizona for the championship.

Six varsity members from last year form the nucleus of the Buff squad. Probable starters are Austell Burrus, 6'4" center; Bill Fricke, 6'1" forward; Dwaine Stewart, 6'3" forward; Mose Hale, 6'1" guard; and Bill Abbott, 5'6" guard.

An early season eastern road trip hit the Buffs pretty hard. It should be remembered, however, that the opposition was first class, most of national rating, and that West Texas suited out only seven men in several games, due to a rash of injury.

Hessler, Towery To Attend Cotton Committee Meeting

Lyle E. Hessler of the cotton research department has announced

that Jack Towery will accompany him to the meeting of the statewide cotton committee of Texas which will meet in Dallas Jan. 17. At the meeting plans will be made

for the cotton research congress. Towery and Thomas Victor Crawley have been added to the staff of the cotton research department for the spring semester. These addi-

tions will enable this department to carry on a more extensive research program, Hessler said.

AVIATION CADETS Get On Top Stay On Top!

WITH A YEAR OF THE WORLD'S FINEST AVIATION TRAINING IN THE U. S. AIR FORCE

Yes, sir—it takes a full year's training as an Aviation Cadet to earn your commission as an officer and pilot in the U. S. Air Force. But that commission is worth its weight in gold.

And when you *strut those wings* and bars for the first time you can be sure that you've had the finest instructors and training equipment that any flying man ever had... that you are ready and able to carry out any mission assigned.

For the Air Force believes being a good pilot is just one of the qualities necessary... you must make a good officer as well... capable of commanding the respect of superiors and subordinates alike... capable of assuming and discharging the responsibilities of your office... capable of being an officer of the U. S. Air Force.

"...a full year's training"

"...win your wings"

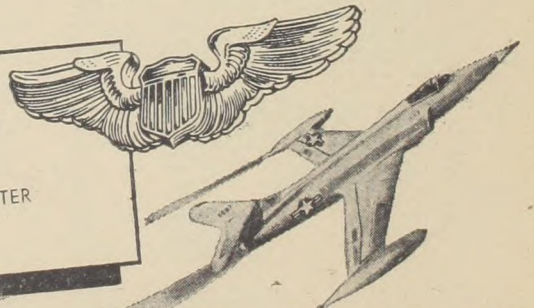

"...get going fast"

So... FIREWALL IT! - NEEDLE IT! CROWD THE MACH!

In jet-pilot language that means... GET GOING AND GET GOING FAST! Your take-off point is the Aviation Cadet Selection Team which will soon visit your own college campus. See if you can qualify. If you can... you're on the way up to the top. First stop... aviation cadet training school. First pay... \$105 a month for one year with all clothing, food, medical and dental care provided free. First commission... 2nd Lt. in the U. S. Air Force Reserve... Beginning salary close to \$5,000 a year. You've got a top job. And with your training and experience you'll stay on top.

Get on Top... Stay on Top... With the U. S. Air Force

Your U. S. Air Force Selection Team will be here
Jan. 15th thru Jan. 19th
STUDENT GUIDANCE CENTER
