

## Final Examination Schedule Released Pages Named For Women's Recognition

**ELEVENTH** annual Women's recognition service honoring 195 Tech women outstanding in scholarship and leadership will be held at 7:15 Tuesday night on the Administration building, according to Deans Mary W. Doak and Margaret W. Weeks will preside at the service.

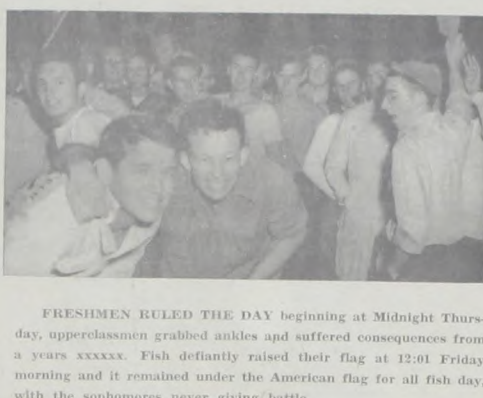

Dressed in white, the honorees and their pages will be preceded as they march onto the green by an orchestra composed of Marjane Dunn, Lafara Harbison, Carolyn Reynolds, Hope Hennington, Barbara Griggs, Wanda Martin, Eloise Adams and Sarah Eliand.

As the names are read, pages will pin red roses on the recognized students. Singing of the college hymn and a reception will close the ceremony.

Women students in the college chorus will sing before and after the service. All participants in the ceremony are to practice at 5 p.m. Monday, according to Dean Doak, general chairman of arrangements.

No student will be recognized unless she has maintained at least a B minus average in all her college work. Recognition, made in business administration classes taught by Mrs. Mamie W. Jackson, have been sent faculty members and parents.

The following freshman girls will serve as pages:

FRESHMEN RULED THE DAY beginning at Midnight Thursday, upperclassmen grabbed ankles and suffered consequences from a years xxxxxx. Fish defiantly raised their flag at 12:01 Friday morning and it remained under the American flag for all fish day, with the sophomores never giving battle.

Corinne Adams, Eloise Adams, Lucille Bonnie Adams, Ruth Alldredge, Thelma Lois Allen, Bonnie Dale Anderson, Mona Armstrong, Dolores Ashley, Helen Atkinson, Lena Austin, Johnnye Lou Bagwell, Jo Ervin Bailey, Anna Frances Baker, Melba E. Bankton, Jacqueline Barry, Billie Beatrice Barry, Mary Ruth Berry, Mary Jean Anderson.

Jolene Bingham, Barbara Blanks, Mary Frances Bledsoe, Nancy Louise Bollinger, Ida Botkin, Sara Bourland, Bobbie Virginia Bowers, Betty Brown, Donella Bruce, Nettie Mae Busby, Adaline Byars, Phyllis Byrd, Tida Camp, Etheimae Campbell, Janice Carmack, Evelyn Carpenter, Joyce Casey, Lois Chambliss, Marion Chandler, Pristinia Chavez, Frances Clark, Ethel Burns.

Bernice Coanougher, Vernell Cockrum, Bettye Louise Colbert, Kidy Belle Cole, Marian Coolidge, Ruth Costello, Eleanor Cotton, Phyllis Crawford, Vera C. Culwell, Katherine Cummings, Oleta Cummings, Marjorie Curry, Lou Virginia, Dacus, Willie May Davies, Helen Davis, Maxine Deardorff, Bernice Douglas, Marjane Dunn.

Maurita Dunn, Mary Lou Edwards, Mary Jane Eger, Glenoidea Edmond, Beth Alyce Fillingim, Beth Floyd, Betty Lou Frazier, Dira Gaither, Ernestine Gambill, Mary Ellen Gething, Gloria George, Joyce Glenn, Tommie Jo Gooch, Mary Elizabeth Grimes, Barbara Hale, Marjorie Hall, Mary Lou Hamilton, Doris Hardin.

## They Can Ration Most Kinds Of Sugar

By FELICIA BOULTER  
Toreador Staff Writer

**SUGAR**—sugar—sugar—before Hitler and Hirohito cast their gloomy shadows on the rosy horizon of American life that "refined product of sugar cane and sugar beet" was just taken-for-granted food substance that everyone sprinkled on breakfast cereal, dumped into three-layer cakes, poured into coffee, borrowed from the neighbor, mixed into countless edibles with a generous hand, and when the supply grew low, off one would trot to the corner grocer with naively a doubt that if he had the pennies, he could get the sugar.

But that was part of the sweet past, and now a sugarless future must be faced—with war ration books issued to every man, woman, and child black and white, is a guarantee that it will be faced without a slip-up. And if the allotted half-pound a week doesn't fill the bill and desserts turn into frothy, tart concoctions resembling appetizers, just remember that the sylph-like figure is dominating the fashion pages anyway. And if you dine for a dash of lime in your victory coke and the management of the avenue drug sees fit to decline, don't forget that where there's a dash of lime there's got to be a dash of sugar. So just tighten your belt and forget it!

But this far-reaching circumstance didn't merely become the order of the day because the Office of Price Administration suggested it. Per usual, red tape was a mile long. The nation-wide project was carried out on the Tech campus on the date and in the manner specified by the government.

From Monday through Thursday of this week for eight hours a day, eight to ten officially designated Techsians supervised the registration of every student over 18 years old and not living at home, each one receiving a ration book entitling them their half-pound of sugar.

Registration slips were filled out by 2100 Tech students and faculty members, complete with their names, address, height, weight, coloring, and sex. And since every specimen of mankind in America participated in a similar registration, there seems to be no need for compiling a 1942 census.

Sugar discussion has monopolized every conversation this week and campus activity has centered in the foyer of the Administration building where the registration has been heard and said so many times, and being as it was not a soughonous sound to begin with, everyone practically cringes when it's mentioned. Strangely enough, it seems to have taken on a sharp rasping sound. It has lost all its romantic implication—and whenever a campus Casanova addresses his girl with the heretofore endearing term, the only result will be an unromantic mental picture of a gunny sack of sugar.

To be expected, there were some bright moments in the routine mass registration. When asked how much sugar they had on hand Tech boys got in the wise-cracking groove and inquired whether they should include their girls. Young married students who pretended to be "up" on domestic affairs looked at each other bewilderingly when asked the same question, neither one remembering to glance in the pantry before registering.

One lassie who couldn't decide whether she weighed 112 or 113 pounds, was sufficiently conscientious to borrow a penny and trot down the hall to check the scales, discovering that she weighed 114.

## Block And Bridle To Hold Annual Banquet Monday

Spencer A. Wells To Be Main Speaker In Women's Dorm No. 2

**SPENCER A. WELLS**, chairman of the Board of Directors, will speak at the tenth annual banquet of the Block and Bridle club being held at 7:30 p.m. May 14 in Women's Dormitory No. 2. He was recently elected an honorary member of the club.

The invocation will be given by Dr. C. E. Hereford of the First Baptist church. Haynes Baumgardner, former president of the club, will welcome the guests and introduce the speaker. W. L. Stangel, head professor of the animal husbandry department and club sponsor will introduce the guests, and Dean A. H. Leidigh will give highlights of the division.

Winners of various judging teams will be announced and awarded. R. C. Mowery, professor of animal husbandry, will introduce winners of the International, American Royal and Junior livestock judging teams. N. C. Fine, assistant professor of animal husbandry, will introduce winners of the National and junior dairy cattle judging teams. Meats judging team winners will be introduced by F. G. Harbaugh, freshman contest winner, Johnnie Starkey; winners of the sophomore contest, Charles McClure, and junior contest, J. P. Sharp.

Installation of new officers will be conducted by Haynes Baumgardner. L. M. Hargrave will be toastmaster.

A plaque awarded by the national organization of Block and Bridle will be awarded the most outstanding boy. The winner will be elected by secret ballot. Wayde Frey, pledge emblem winner, and Mr. Wells, new honorary member, will receive club keys.

## McCoy Crowned Fish Day Queen At Annual Dance

Betty McCoy, Las Vivarachas member from Esalrd, who crowned freshman queen last night by Prexy Everett Dale at the informal dance that climaxed the annual Fish Day activities, when over 500 freshmen took official leave from classes and journeyed to Buffalo lakes for a picnic with all the trimmings.

Presentation of the runner-ups for queen included Jackie Wilkeson, DFD; Marjorie Hall, San Souler; Faith McNeenah, Las Chaparritas.

Although Fish Day plans tattered on the brink of Administrative "shut-down" because of the slow sales of tickets, the required 500 fish came through with their dollars and left for Buffalo yesterday at 12:30 p.m., via trucks. They returned at 9:30 for a breakfast spell before the dance got underway at 9 o'clock at the Double T gymnasium, with Jack York's orchestra "hitting it high."

The picnic was an exclusive freshman activity but upperclassmen were allowed to purchase tickets and attend the dance.

## Accountants Hold Banquet Tonight

Lloyd Croslin To Be The Main Speaker

Officers for the next year will preside at the semi-annual Accounting society banquet to be held Monday in the Mexican Inn at 8 p.m. New president, Lloyd Croslin, will be the toastmaster. A patriotic theme will be carried out in the decorations.

Main speaker of the evening will be Lloyd Croslin, Lubbock assistant district attorney. Haskell Taylor, assistant professor of economics business administration, will introduce the speaker and will also present shingles to outstanding department members for this year. In order to be eligible to receive a shingle, a student must have completed six hours of advanced work and must have maintained a certain average.

About 25 students and guests will attend. Honorary members, Reginald Rushing, assistant professor of economics and business administration, and club sponsors, H. G. Taylor and T. C. Root will also attend.

Officers elected at the last meeting of the club were: Lloyd Croslin, president; Joe Nelson, vice-president; Mary Frances Bell, secretary-treasurer and Eloise Merritt, reporter.

Plans have been discussed for affiliating the Accounting society with the national organization next year. This has been made possible by the recently created department of Commerce.

Students who want to go to the banquet should contact Lillian Horner, president for this year, before Monday noon. This will be the last meeting of the society for this year.

## Full Semester's Work Is Offered During Summer

Plan Designed For Students Who Wish To Finish Early

**THE** summer program of 1942 is designed on much the same plan as that of the regular long sessions, with full offerings in each of the five divisions—agriculture, engineering, home economics and arts and sciences.

The purpose of this change in the summer session is based on the present war emergency. This will enable men students to finish before they are called to service (and the women students will have time to prepare themselves for the positions they will be called upon to fill.)

Plan I consists of two six-week sessions June 3 to July 11 and July 14 to Aug. 21. This program is for juniors, seniors and graduates. Freshmen and sophomores who prefer this plan will be permitted to enroll for it.

Plan II is made up of a six-week term and a nine-week term June 3 to July 11 and July 11 to Sept. 10. High school seniors graduating this spring will be able to finish college in three years by attending this session. All freshman and sophomore courses will be offered these two terms.

In addition to the full offerings of courses several new ones will be introduced for the first time this summer. Many of which have direct bearing on the present emergency and others which stress democracy and are directed toward the period which is to follow.

Recreational activities will be stressed more this summer than before. Entertaining features will be presented three evenings each week on the lawn south of the Administration building. Admission to these programs will be limited to holders of recreation tickets.

## Former Techsan Decorated For Difficult Flight

Capt. Richard T. Kight, Lubbock boy who was awarded the Distinguished Flying cross last week, is a former Tech student. Kight was a mechanical engineer here for two years. He entered Tech in 1933. He left here for Randolph field. After doing preliminary training there, he received his commission at Kelly field in October, 1938.

Kight was the pilot of an army bomber that with seven others in its crew, made a hazardous and technically difficult flight on a vital mission to the Netherlands Indies.

The plane on its mission came through a bombing raid in Java and another time was burned in several places when it was struck by lightning, but returned safely to Washington after completing its mission.

Capt. Kight has recently received promotion from a first lieutenant to captain.

## Allen Elected To Head AH Majors

Initiation services and election of officers for 1942-43 were held at a meeting of the Block and Bridle club this week. New officers are: Nathan Allen, president; John E. Wheeler, vice-president; Edwin Dawson, secretary; Otis Levens, treasurer; Herbert Flowers, reporter; Rhea Mitchell, marshal; James Gunter, parliamentarian, and Aldredge Estes, manager of rodeo.

Twenty-one new members initiated into the club were Nathan Allen, John Bayles, Arthur Bell, Roy Boone, Mac Brandon, Jim Christian, Harold Eastland, Aldredge Estes, Mayde Frey, James Gunter, Hilton Higgins, James Humphreys, Kenneth Lewis, Raymond MacLaughlin, Wesley Martin, Benton Moore, Ross Montgomery, Ernest Sheets, H. G. Spraws, Raymond White and Jap Wilson.

Wayde Frey won the award for having the best pledge emblem which is a large wooden "B".

## Schweitzer, Ely And Roland On Engineer Ballot

In addition to the regular contest program, the Tech engineering society will elect officers for next year at their regular meeting next Monday night. The nominating committee, composed of Edgar Hash, Billy Dick Hickman, and J. W. Slober have submitted the names for the offices of president and treasurer, the only offices open for next year.

Hugh Roland, John Ely and Houston Schweitzer were nominated for president of the society and will be voted on at the meeting.

H. C. Shuler and Jimmy Day were nominated for treasurer to replace J. L. Birdsong who resigned to go to the army.

This year's president, Mack Atchison, urges all engineers to be present at the meeting.

## Examination Week Is May 22-May 28

**SCHEDULES** for final examinations were released from Dean Gordon's office this morning. Although deadweek begins Friday, May 15, it is not officially begun until Monday, May 18. Exams begin at 8 a.m. Friday morning and last until 5 p.m. the following Thursday. Examinations will be held as they have in the past, in the room in which the class meets. In laboratory courses, the exams will be designated by the lecture hours, and will be held in the room where lectures were held unless the instructor specifies a deviation.

The schedule goes as follows:

Friday, May 22, 1942, 8:00-11:00, classes meeting 8:00-9:00 MWF; 11:00-2:00, classes meeting 5:00-6:00 TTS; 2:00-5:00, classes meeting 9:00-10:00 MWF.

Saturday, May 23, 1942, 8:00-11:00, classes meeting 8:00-9:00 TTS; 11:00-2:00, classes meeting 3:00-4:00 MWF; 2:00-5:00, classes meeting 9:00-10:00 TTS.

Monday, May 25, 1942, 8:00-11:00, classes meeting 1:00-2:00 MWF; 11:00-2:00, classes meeting 4:00-5:00 MWF; 2:00-5:00, classes meeting 10:00-11:00 TTS.

Tuesday, May 26, 1942, 8:00-11:00, classes meeting 2:00-3:00 MWF; 11:00-2:00, classes meeting 2:00-3:00 TTS; 2:00-5:00, classes meeting 10:00-11:00 MWF.

Wednesday, May 27, 1942, 8:00-11:00, classes meeting 11:00-12:00 TTS; 11:00-2:00, classes meeting 3:00-4:00 TTS; 2:00-5:00, classes meeting 1:00-2:00 TTS.

Thursday, May 28, 1942, 8:00-11:00, classes meeting 11:00-12:00 MWF; 11:00-2:00, classes meeting 5:00-6:00 MWF; 2:00-5:00, classes meeting 4:00-5:00 TTS.

## Speaker Chosen For Convocation Of Women Studes

Former Texas Editor To Address Coeds In Annex G May 11

**MRS. Minnie Fisher Cunningham** of Washington, D. C., former editor of the Texas Extension Service Farm News, will address the women students at Texas Technological College May 11 on "Opportunities of Women in Defense." Mary W. Doak will introduce the speaker at a women's convocation in Annex G of the Home Economics building at 1 o'clock.

The meeting is sponsored by the division of home economics.

President of College Station for several years, Mrs. Cunningham was an early proponent of women suffrage in Texas, an organizer of the Texas League of Women Voters, and holds membership in American Association of University Women, American Association of Agricultural College Editors, Texas Federation of Women's clubs, and the Business and Professional Women's club. She is now a specialist in the division of information, Agriculture, Adjustment office, U. S. Department of Agriculture.

Mrs. Cunningham was the first woman delegate to be elected at large from Texas in 1920. From 1920 to the time of the adoption of the 19th Amendment to the U.S. constitution, she was president of the Galveston Equal Suffrage association.

Texas women selected the name of Minnie Fisher Cunningham to be placed on the bronze table in Washington for distinguished service in citizenship.

She was a member of the Texas Military Welfare commission during the World War.

For recreation and amusement, Mrs. Cunningham enjoys music and cooking. Farming is her most interesting hobby.

## Civil Engineers Elect Officers

Members of the Tech chapter of the American Society of Civil Engineers held the annual spring picnic last night at Buffalo springs. Only members of the club and sponsor E. V. Middleton, assistant professor of civil engineering, attended. Approximately thirty-five persons were the guests.

Their meeting last Monday night, officers for next year were elected. They are Leroy Foerster, president; Norman Igo, vice-president and John Sparkman, secretary and treasurer.

## Latin Club Gives Picnic May 14

Latin club members will attend a picnic at Mackenzie State park May 14 at which time officers for the coming year will be elected. The group will meet at 6 o'clock in front of the administration building before going to the park.

Those composing a nominating committee are Lilly Merle Bibby, Rex Lowe and Jackson Shaw.

Committees for the picnic are as follows: food, Ruth Gillespie, chairman, Lydia Ann Duff and Edith Poole; transportation, I. D. Walker and Roger Jones; games, Wilma Ruth Forbis, chairman, and Christine Seaman and Edrick Shaw.

Miriam Peckham is club president and Mrs. William Dingus is sponsor.

Earl T. Duke, assistant professor of agronomy, is improving slowly from an appendectomy he underwent almost three weeks ago. He has been ill since the Easter holidays.

Roger Lindsey, former agriculture student who is working with the Soil Conservation Service at Fabens, visited the campus this week.

## College Calendar

- Today, May 9**  
Centaur Dinner Dance, 7:30-12, Hilton  
F. T. A. Picnic, 7:30, Mackenzie Canterbury Club dance, 9-12, Seaman Hall
- Sunday, May 10**  
Men's Inter-Club Council, 2, Dean of Men's Office  
Band Concert, 3:30, Gym
- Monday, May 11**  
Engineering Soc., 7:15, E208  
Double T Ass'n., 7, 208  
Kappa Kappa Psi, 8, T107  
Leta Leales, 5, A. W. S. Office  
Newman Club, 7:30, Newman Hall  
Tau Epsilon Sigma, 8:15, 208  
Tech Acct. Soc. Banquet, 7, Mexican Inn  
I.R.C. Picnic, 8:30  
Block and Bridle Banquet  
Practice for Recognition Service, 5  
French Club Picnic, 6:15, Mackenzie Park
- Tuesday, May 12**  
Biology Club, 7:30, C101  
Sigma Gamma Epsilon, 7:15, C202  
W.R.A., 7:15, 302  
Aggie Club, 7:30, Aggie Pav.  
Debate Club, 7:15, 202  
Phi Upsilon Omicron, 7:30, An G  
S.A.M.E., 7:15, M1  
E. A. Club, 7:15, E208  
Leder Kranz, 7:30, 220  
WOMEN'S RECOGNITION SERVICE, 7:15

### Lively Political Campaign Assured for Texas Voters

The recent senatorial entries of former governors James V. Allred and Dan Moody assure Texas voters of a lively political time this summer despite war conditions on the Corridor or what have you. Moody is one of the few major politicians to ever defeat the Ferguson regime.

Both candidates are known from Maine to Montezuma for their prowess at beating the bushes for the scattered votes and it is very possible that O'Daniel will have to get more than his fiddle and flour sacks to turn them from the polls.

At least there will be no stirring composition by the erstwhile senator as there was in the last race, such as "There Ain't Gonna Be No Runoff Now," or what ever the title of his classical masterpiece was called in public.

With all of the big three out gunning for the little man's vote, Texas politics will take on the appearance of the after-show at Barnum and Bailey's three ring circus, with an added attraction. All candidates have proved their superiority as Texas politicians at one era or another and none has ever been beaten in a state wide race.

With a war to hold the front page headline, few of their oratorical battles will ever gain the reckoned they undoubtedly would had the Slant Eyes held off for another year or so. But the fiery question that Moody and Allred are sure to fire at each other and the flour salesman will surely bet mention in the country weeklys and should O'Daniel assume his attitude of arrogance that he did in his last campaign in refusing to answer Thompson's 13 questions, there is liable to be a different story when the final vote is balloted.

Phrases that should never reach a ladie's ears will be as common as French cooties and American soldiers, and although it won't be "politics as usual," it will be a good thing for those who haven't a clean record to keep their necks in, as former governors Allred and Moody have proved themselves very adept at cooling the bigwigs off.

### Men Students Probably Do Outstanding Work, Too

On Tuesday afternoon 196 women students will be recognized for outstanding work done during the past year at Texas Tech.

As any large undertaking, the Recognition service is by no means perfect. Several women are recognized in the affair who have done nothing particularly spectacular or outstanding, and some who are not honored in the service have certainly contributed worthwhile efforts to making our campus life more enjoyable. Considering all these weaknesses of the service, the traditional occasion means a great deal to the school, to women students, to their parents and to their teachers. Even though many women students laughingly explain that it is more individualized to participate in the service, each feels a certain amount of due pride when an invitation to take part in the spring recognition is received.

Yes, amid the setting of friends, parents and teachers who have assembled on the south green of the Administration, amid the refrains of the college hymn, amid the awards of roses, with the burning torch of AWS, and all the women dressed in white, Recognition service is truly an impressive affair. BUT WHY ARE ONLY WOMEN recognized? Surely men students contribute to and do a little of the outstanding work on the campus.

Perhaps it is because men are prone to hoot at the idea of a masculine recognition service. They do not cherish the idea of wearing white suits and being presented with roses. But a recognition service for men would not have to be organized on the same basis as that of the women's.

Most students concede that the Recognition service is one of the nicest traditions maintained on Tech campus as far as the parents of the enrollees are concerned. Those people who have sacrificed in order that their offspring might have a college education, surely feel proud when they see their daughters given honor for outstanding work. And surely these same parents would enjoy seeing their masculine heirs as well as their feminine offspring receive some credit for collegiate activities.

Perhaps some plan could be arranged to establish a traditional co-educational recognition service. From the standpoint of the students this would likely be the most acceptable plan. Adhering to the old adage "Give credit where credit is due" men students should be recognized in some manner or means.—J.C.

## THE TOREADOR

THE TOREADOR, student newspaper of Texas Technological college, is published every Wednesday and Saturday on the campus of Texas Technological college at Lubbock by students of the Journalism department. Entered as second class matter, October 31, 1925, at the postoffice in Lubbock, Texas, under the Act of March 3, 1879.

Editorial offices, Press Building, Rooms 103, 105. Telephone: college switchboard; Night editor, 8549.

### Techsans Say: Drive For Campus Beautification Is Worthwhile

By CLEM SIMPSON Student Opinion Editor

Would you favor a campus wide beautification project if funds were received through a compulsory twenty-five cent fee?

**MRS. VIRLEA MATTHEWS**, senior education major: Texas Tech needs beautiful grounds to go with the beautiful buildings. I think any student would be pleased to have a part in making it possible—for just 25 cents.

**IDA BOTKIN**, freshman home economics student: Yes. I would favor such a project because we need campus beautification. The project would be worthwhile because the results would be lasting.

**HOMER STINSON**, freshman engineer: I think a campus-wide beautification project would be beneficial and I think a fee of 25 cent very reasonable.

**MALVA CURRY**, freshman B. A. major: The beautification of our campus would be a great benefit to the students who spend from three to four years in college. Flowers and trees would add an atmosphere of friendliness to the campus, thus making it a more pleasant place in which to spend our college days.

**PATTY MEEKMA**, freshman speech major: I certainly would; there is nothing as inviting as a beautiful campus and it should be worth at least 25 cent to any person who is going as much as one semester to Tech.

**GRACE BELLEW**, freshman home economics major: Yes—because I believe every Tech student would like to see the campus more beautiful even though a small fee would be charged.

**MOGUYNETA THOMPSON**, freshman B. A.: Yes. Every student wants to be proud of the campus when he brings his friends here.

### Plant Industry Club Initiates Six New Members

By BILLY NIVIN Ag. Journalism Student

Awards for the freshman-sophomore crops contest were presented Monday night, May 4, at the regular meeting of the Plant Industry club. Formal initiation of the six new members, Robert Armstrong, Robert Montgomery, Norman Jones, Walter Patrick, Earnest Thacton, and Olton Pate was conducted, and medals were presented to the members of the two senior judging teams.

Sixty-one freshman-sophomore students participated in the annual contest held on Saturday, April 25, which is conducted and sponsored by the Plant Industry club. Very keen competition was evident in all phases of the contest with only two points deciding the winner in the entire contest. The contest was divided into two divisions: agronomy and horticulture.

Winners in the horticulture division, and who were awarded medals, were Leroy Scott, first; Walter Patrick, second and Norman Goen, third. Ribbons were awarded for first, second, and third placings in each of the two phases of the contest with Leroy Scott, Walter Patrick, and Norman Goen being first, second and third respectively in the identification phase, and Tolbert Coleman, James Potts, and Wayland Bennett winning the awards in the horticultural practices phase, which included pruning, budding, and grafting.

High individuals in the agronomy division of the contest, who were awarded gold, silver, and bronze medals were Wilson Duffy, first; John Hobgood, second, and Charlie Bucy, third. Agronomic identification ribbons were awarded to Walter Gardener, Leroy Scott, and John Hobgood, and in the judging phase R. V. Ball, Wilson Duffy, and Joe Hill earned the ribbons.

Walter Patrick was high individual in the entire contest and was awarded a soils book. Leroy Scott was second in the contest. Members of the senior national and international judging teams were awarded gold medals. Members who participated at Kansas City, and Chicago were Robert Spenser, Daniel Steen, Burney Ragle, and Aubrey Miller. Members of the Flower Judging team that participated in Chicago were Norman Jones, Mark Miles, and Billy Nivin.

After the regular business session refreshments were served to all members and visitors who attended the meeting.

One hundred fifty soldier-students at Washington State college had their campus residence hall provided by college men, their dining room by co-eds, and their private study building by the institution.

Susie Hoogasian, sophomore at Wayne university, has recorded 150 tales and other bits of folklore belonging to Armenia's past.

George V. Kendall, dean of Wash-college, has been commissioned a lieutenant colonel in the army.

### Campus Camera

### TECHNICAL TIPS FOR TECHSANS

Miss Tech Co-ed, do you go in for fads in hair styles? Maybe that feather-edged hair cut was an economical idea, but too many campus cuties are prone to wear bangs or a victory bob just because roomie or the girl across the hall wears hers that way.

After all, it isn't the hair dress but the becomingness of it which is most important. One should not adopt a certain hair-do, however, simply because it is very becoming and refuse to consider any other. It is fun to experiment and find that one's hair may be worn in many agreeable ways. No one should be hasty about accepting a suggested hair dress for her own personal use until she has studied her own face to decide what will come nearer putting her in the class with "Miss America."

Some pointers on the art of hair dress brought out in costume design class may serve as a guide to co-eds. Faces of all shapes may appear more nearly oval-still considered the ideal by using a suitable hair dress.

The person with a long thin face, for example, will find that a part which divides the face at the center line apparently adds width. One with unattractive nose or irregular features should be hesitant about using the center part, for it tends to emphasize these.

When bangs are worn or the hair is combed low over the forehead, the apparent width of the face is increased. This arrangement also makes the eyes seem larger and more brilliant. When the eyes are exposed so that one's glance travels from ear to ear, the face is made to appear wider.

The person with a long thin face plus a long neck will do well to wear her hair long enough partially to cover the neck, thus making the face and neck appear shorter. She should keep her hair flat on the top and fluffed at the sides.

Advice to the person with the short, broad face is that a high side part definitely makes the face seem longer. Combing the hair back from the forehead adds to the apparent length of the face. The face seems longer and narrower when the hair covers the cheek but reveals the tips of the ears.

The triangular-shaped face has a wide forehead and pointed chin. The lower part of the face may be rounded out by fluffing the hair low at the sides and wearing a very high side part.

Some faces resemble a triangle turned upside down. A low side part with a flat effect on top helps add width to these foreheads. Curls should be kept high above the ears, the ears covered, and the hair kept flat below the ears to decrease apparent width here.

A narrow forehead, prominent cheek bones and a narrow pointed chin make a diamond-shaped face. If your face appears to have this shape, you may create an illusion of the ideal oval by softening the lines of the hair around the forehead and chin to build out these parts. Wear a low side part, brush the hair smooth on top and let it partly cover the cheeks to make them appear narrower.

For the face which is square, the hair should be parted near the center and brushed flat at the temples and up from the forehead. Fluffy curls revealing the tips of the ears soften the square jaw line.

One who has a chin which is too prominent or receding should avoid placing a knot of hair low at the neck for this emphasizes the chin line. A loose hairdress is much better for irregular features because a close hairdress or small fine waves make the features seem larger.

Thus, you can see that by observing simple principles and practicing them, you can make attractive a face which is not shaped according to the ideal. And that is just one more way of outsmarting Mother Nature.—Doris Howell.

### Shutterbugs Are Finding Hobby A Risky Affair

"Are you the spy? What's your nationality? He looks like one to me." Such words are often hurled at Tech camera friends since the war began and spy stories appeared.

One hurried fan tried disguising his camera to look as if he were peddling dope but still it was no go. Another campus shutterbug on a recent trip to Arizona was questioned three times by state officials of two states and was picked up by a prowler car in Tucson as a suspicious character.

In times like these, life for a photographer is a dangerous one, but still daring students may be seen about the campus taking the "little black boxes" and wearing a harried expression. Perhaps the most frequent question asked is "Don't you want to take my picture?" The camera man usually does not have time to explain that it costs money to shoot one of the machines and what would he want with every Lucille, Flo and Mary's picture in the first place.

Anything can go wrong with a camera, (or with the photographer) At the Kemas dance recently, a student photographer posed the students for five minutes, clicked the shutter, then at the mirth of the crowd discovered that he had not used a flash bulb.

The last night of the engineering show several couples cut short at the kissometer when an enterprising photographer popped a bulb and suddenly discovered that he had business in other parts.

The photographer refused to sell his negatives but kept a thriving business selling prints of the pictures. Some time back a journalism student snapped a flash picture of a couple on the campus and heard two pistol bullets whistle over his retreating footsteps. This photographer retired from business shortly and disposed of his camera in preference to other lines of journalistic endeavor.

Camera maniacs on the campus are still existent, though becoming somewhat harder to find due to increasing prices of equipment and fear of being detained by local spy catchers; still shutters continue clicking and campus life goes on with each day bringing some new adventure to the menu of the photo fan.

### Wool Material Sold by Textile Engineering Dept.

Tech students may have one last chance to buy virgin wool material from which to make suits and other clothes this spring. The opportunity will be afforded them by the textile engineering department which is now making 1,000 yards of the cloth.

According to textile engineering professors, it is now impossible to buy this kind of wool anywhere, and the materials made from synthetics do not have the wearing nor warmth qualities of wool.

This project was made possible last week when 450 pounds of wool were received by the department. It was sent to them by Fred Earwood, president of the Texas Sheep and Goat Raisers association. The department will manufacture the cloth, giving Earwood about 200 yards.

Funds gathered from the sale of this material will go to the Textile Engineering society.

### History Profs Attend Meet

Six faculty members of the history department attended the West Texas Historical association's meeting at Abilene last Saturday.

Those attending the meeting were: Dr. W. C. Holden, Dr. S. S. McKay, Dr. O. A. Kinchen, W. C. Loessel and C. D. Eaves.

Dr. McKay and Dr. Kinchen delivered papers on a constitutional amendment movement for Texas

### Musing On Amusements

By Raymond Piller

JAMES Cagney's newest starring picture, "Captains of the Clouds," a stirring story of Canada's heroes of the air, will have its first local showing tomorrow at the Lindsey theatre.

Dennis Morgan, Brenda Marshall, Allan Hale, Reginald Gardner and R. J. Norman head the featured cast of the new picture, which was filmed by Warner Bros. in technicolor. Made with the co-operation of the Royal Canadian Air force, "Captains of the Clouds" was filmed against the authentic backgrounds of the Canadian North woods and the RCAF training field at Uplands. Director Michael Curtiz, the cast, and his crew of technicians travelled more than three thousand miles and spent nearly four months making the picture.

The story of "Captains of the Clouds" tells of the brave devil bush pilots of the North Woods country who join the Royal Canadian Air Force only to find that in spite of their years of flying experience they are not eligible to be fighter pilots because they are too old. Instead they are assigned to teaching jobs. Cagney, as the most individualistic of them all, finds himself constantly in hot water because of his disregard of rules, and his insistence that a good pilot flies "by the seat of his pants." In disgrace, he nevertheless achieves at last his ambition to fight his country's enemies in the sky. Included in the picture is the voice of Winston Churchill delivering a portion of one of his most historic war speeches, the one beginning "We shall never surrender."

Shedding light on a little known phase of police work, "Kid Glove Killer," which opens Sunday at the Palace, takes place in a police laboratory. There Van Heflin and Marsha Hunt portray the work of a police chemist and his assistant in the unraveling of two slayings. The story is built around the election of a mayor and a district attorney on their promise to clean up the city. Those responsible for their election, headed by Lee Bowman, discover they meant their promises. First the district attorney is taken care of, his body being discovered in a lake. The mayor then discovers Bowman's connection with the underworld, and a bomb is discovered in the mayor's automobile. Bowman is tipped off by Miss Hunt that Heflin knows the murderer, and attempts to kill his one time friend. Blocked, he is taken to jail as Heflin and Miss Hunt wind up in each others arms. Sounds like corn but the stellar performances of Heflin and Miss Hunt make it a likeable movie. Lending strength to the leads are Samuel S. Hinds, Cliff Clark and John Litel.

The Lindsey has booked a collection of fine films for the remainder of the month. "Johnny Eager," "Kings Row," "Twin Beds," "Jungle Book," and "Gone With the Wind," are the attractions.

### Coverings Form Basis for Plant Experimentation

Covers for early plants are being used for experimental purposes on projects of the plant industry department. The "hotkaps," which are supplied by the Germain manufacturing company located on the west coast, provide growing conditions equal to a month later in the season.

Last year the same type covers were used on tomatoes planted on the campus, but the rain caused them to slump. The problem has been solved this year by using crossed splints to support the paper. Waxed paper slightly thicker than that used for bread wrappers makes up the cover.

A metal applicator which fits over the paper provides a means of establishing the "hotkap." Edge of the cover extends below the applicator so that when the metal container is pressed down over the plant, the cover extension spreads out and may be covered with dirt to hold it in place.

When the plant grows as tall as the "hotkap," a slit is made in the top; consequently, the cover is never removed. In addition to promoting growth, it prevents wilting of vegetables which have been transplanted. The covers cost one cent each.

Fewer major crimes are committed in China than in other countries, asserts Frank Ki Chun Yee, graduate of the University of California, in his dissertation for his doctor of philosophy degree.

and the territory of Cimmarron. Dr. Holden presided over the afternoon session.

### IRC Concludes Year With Picnic

The last meeting of the International Relations club for this semester will be a picnic at Mackenzie park Monday evening, May 11.

The group will meet at the Double T Bench at 6:15 p. m. to leave for the park.

The club voted to assess each member 25 cents to cover the cost of the outing. Members must turn their money in by noon Saturday.

Mack Kennedy, Ruth Faust, Kara Hunsucker and Dr. Bock, sponsor, will take the money.

### Faculty and Students Give Play for Cadets

Tech students and faculty members presented a program at the Lubbock Army Air Base Wednesday night, May 6, for the cadets.

Mona Pierce, Grady Maples and Dr. Benjamin Bock, instructor in government, gave a one-act play, "The Bachelor."

Robert I. Lockard, assistant professor of architecture and applied arts, presented a "chalk talk."

## Warning To Hirohito: We're All After You!

By VERNON BUNDRANT  
U. S. Marines Corps Reserve

WE'RE all after you Hirohito— from the guys who make sports copy to us who beat it out on the typewriters.

There's some 24 of us who have been connected with Red Raider sports in one way or another just now ready to hop onto your tail.

We're in all branches of the armed forces—the Army, the Navy, the Marine corps, the Air corps. We fly planes, we staff air bases, we sail ships, we man guns. We're officers, real and potential; we're fighting men of the first rank.

Our greatest number is in the Air corps—staff men and flying cadets. In that branch we introduce Lt. Sadie Adkins, Lt. Bauman Roper, Lt. Raymond Flusche, Lt. Charlie Daniel, Lt. Bob Phillips, Lt. Byron Mayfield, Lt. Newman Ledbetter, Lt. J. L. Bates, Lt. Woodrow Ramsey, Capt. Elmer Tarbox, Cadet Joe Pierce (former sports editor), and Privates Pat Farris, Francis Bingham, and Thayne (Red) Amonett.

In the Marine corps, now on active duty, you can look out for Capt. Lonnie McCurry, Sgt. Milton Hill, Private Troy Davis, and Private Robert (Bob) Duncan now in reserve and going on active duty later in the year are Berl Huffman, basketball and gridiron line coach, and your reporter, Privates Wayne Rowden and Ed Harris represent us in the army. And your yellowbellies will have a hard time interfering with the work of Private Clarence Tillery of the signal corps. In the navy you'll contact (however much you dislike the idea) Ensign Art Weber.

## Clubs Complete Softball Series

Playing in round robin fashion, four women's social clubs completed a series of softball games Thursday afternoon on the softball courts at the gym, according to the physical education department for women.

Prior to Thursday Las Vivarachas were in the lead with two wins and no losses, but as THE TOREADOR went to press no information relative to the final results was obtainable.

Umpires and scorekeepers officiating the games are all physical education majors in Tech.

Umpires for the games were Dorothy MacDonald and Louise Bickley, Geraldine Robinson and Elwanda Allen. Scorekeepers were Snow Blackburn and Allie Stewart, Evelyn Taylor and Roberta Harbison.

Standings up to Thursday: (games won on the right):  
Las Vivarachas 2-0  
Ko Shari 0-2  
DFD 1-1  
Sans Souci 1-1

### KNOW HIM?

Pardon the introduction, but that is Hirohito, emperor of Japan. He's the cut we would all like to see—over the sights of a Grandad.

## Freshmen Are Getting Better

UNIVERSITY, LA.—(ACP)—Freshman intelligence is showing an "upward trend" at Louisiana State university, according to figures released after a survey of the freshman division by Dr. E. Donald Sisson, assistant professor of psychology, and Delton C. Beir, graduate student.

Rising from 246 in 1933 to 335 today, the increase occurred after 1936, when the number of new students began to decrease, the report points out. Although the averages of men and women have both shown improvement, the women's averages are higher and the men's averages have shown a greater degree of rise.

During the nine-year period 13,302 freshmen students were tested at the university.

"The Religion of Greece in Pre-historic Times," a volume by Dr. Axel W. Persson, noted Swedish archaeologist, has just been published by the University of California Press.

## New under-arm Cream Deodorant safely Stops Perspiration

1. Does not rot dresses or men's shirts. Does not irritate skin.
  2. No waiting to dry. Can be used right after shaving.
  3. Instantly stops perspiration for 1 to 3 days. Removes odor from perspiration.
  4. A pure, white, greaseless, stainless vanishing cream.
  5. Arrid has been awarded the Approval Seal of the American Institute of Laundering for being harmless to fabrics.

## Raider Netmen Schedule Game With West Texas

### Racquetees Seek Second Victory From Buffaloes

Now thoroughly recovered from the racking trip to the Border conference meet where they copped third place, Tech's netters have a match scheduled this afternoon with West Texas State college in Canyon.

This will be the return engagement for a match here earlier this season in which the scarlet netmen downed the Buffaloes, taking four of six matches.

Those making the trip will be Max Munn, David Storey, Francis Hightower, Lloyd Brunson and Harold Yeager, Coach James G. Allen said.

Next match for the Raider netmen is a return engagement with Abilene Christian college in Abilene, Coach Allen stated. This match is still tentative, he advised.

In their last engagement, Allen's racquetees swamped an inferior team from ACC on the home courts. The Raiders took all of five singles and both doubles matches.

Singles results, with Tech players named first, were:  
Max Munn defeated Pete Jones, 6-4, 6-2; David Storey defeated Gene Hicks, 5-7, 6-1, 6-4; Lloyd Brunson defeated James King, 6-1, 6-1.

Jack Shanks rallied in the last two sets to defeat V. M. Whitesell, 5-7, 6-0, 6-0; and Harold Yeager defeated James LeFan, 6-2, 6-1.

In the doubles, Munn and Brunson teamed to defeat Hicks and Whitesell, 6-0, 8-6, while Shanks and Storey combined to beat Jones and LeFan, 6-2, 6-0.

## Goodrich Joins Air Corps

Raymond Goodrich, government major and president of the senior class, left Thursday to join the Air Corps.

Paul Castleberry, graduate student in the government department, plans to attend the University of Texas Law school when he leaves Tech the first of June.

Eastern Oregon college students have formed their own air raid protection unit and first aid corps.

## Art Institute Sponsors Fourth Annual Exhibit

College Art institute of Tech is currently sponsoring their fourth annual exhibition of children's art in the former Watson's furniture store located one door east of the Broadway theatre. Five hundred and sixty pictures are in the exhibition, which has been held in the West Texas Museum for the past three years, but because of the lack of sufficient space in the Museum another building was found.

All children of the primary and intermediate grades have been invited to send their original paintings and drawings. Judges will give 15 awards, one in drawing and one in painting for each grade, and one grand prize for the best picture in the exhibition. Honorable mentions will be given to other outstanding works.

The exhibition, which lasts from May 1 to May 22, is designed to encourage original and imaginative drawing and painting, and to stimulate expression in art. Prizes will be awarded to those who, in the opinion of the judges, did spontaneous creative pictures. No copies, tracings, or imitative work is encouraged. The children are given full freedom in their choice of

## Double T Follies Not To Be Given

For the first time in years there won't be a Double T show.

Official of the Double T association, Tech athletic fraternity, considered the idea of putting on this year but discarded it in view of "the many other activities going on at this time of the year," Cocky Robbins, member of the Double T follies committee, said.

In former years the Double T follies has been one of the outstanding entertainment attractions of the after-spring-training football season.

Composed entirely of boys, the cast of the follies as simulated that of any theatrical company, and furnished all sorts of ridiculous and more or less refined humor.

Tom Douglas is president of the Double T association.

## War Economics Cause Changes

ANN ARBOR, MICH.—(ACP)—War economics in use of trucks and automobiles are rapidly bearing results at the University of Michigan, according to Edward C. Pardon, superintendent of buildings and grounds, who says when and by whom university-owned vehicles are to be used.

Six heavy trucks of 15 formerly used by the University storeroom and buildings and grounds departments have been put in dead storage for the duration and will be used only in emergency, Mr. Pardon reports.

Similar reductions, he said, may be made in other departments as soon as studies of actual needs are completed.

All university-owned passenger cars and station wagons have been pooled and must be requisitioned for use by staff members.

# Centaur Club To Give Annual Dinner-Dance Tonight

## Senior Members To Be Honored At Formal Dance

Dates To Be Given Gifts Bearing The Centaur's Emblem

The Centaur club will honor graduating members with their annual formal dinner-dance tonight. Dates will be presented with gifts bearing the Centaur emblem. Jack York and his orchestra will play for the dinner and dance from 7:30 to 12:00 in the Hilton hotel ballroom.

Members and dates are: James Allen, Frances Gary; Wayne Fennell, Alice Joyce Bagely; John Robert Moxley, Betty Rhea Caldwell; Jerry Nash, Ginger Blain; Lee Perry, Loraine Clingman; David Williams, Faith McNamara; Dan Van Rodgers, Dorothy Looper; Lloyd Sanders, Martha Herring; Lester Grimes, Mary Jane Kinnard; Joe Nelson, Fannie Dale Cheek; James Stokes, Fannie Dale Cheek; Bedford Raley, Patti Hicks; Omer Whitwell, Gladys Ruth McNamara.

Emory Payne, Dorothy Staton; Jason Allen, Mary Dell Butler; George Deen, Betty Brown; Ted Hackney, Marie Dunham; O. P. Harlan, Jr., Dorothy Miskimins; Johnny Hervey, Frances Lou Deen; Pat Jarrott, Jeanne West; Olin Monk, Ruth Gray; Horace Maddox, Margaret Wagner; Jack McBride, Betty Hurt; Nick Nickelson, Jeanne Stovall; Travis Shelton, Mona Pierce; Blake Wood, LaRue Hall; Earl Neal, Nancy Price.

Ex-members and dates are: Joe Will Triplett, Betty Alice Gordon; Rogstad Zachary, Bernice Keeton; Joe A. Stanley, Mrs. Joe Stanley; Bill Callan, Mrs. Bill Callan; Hershel Maxey, Mrs. Hershel Maxey; Adair Gossett, Mrs. Adair Gossett; Bill Collins, Mrs. Bill Collins; Lonnie Langston, Mrs. Lonnie Langston; Jack Giles, Roberta Owen; Rex Lanier, Mrs. Rex Lanier.

Sponsors are Mr. and Mrs. Bill Pearce and Mr. and Mrs. Robert Newell.

Recognition--

## Visible Signs Indicate Shortage Of Teachers

By KARA HUNSUCKER  
Toreador Staff Writer

"ALL visible signs indicate an ever-increasing shortage of teachers for the next regular school year," according to Dr. D. D. Jackson, director of the Teacher Placement service. "As ranks of men teachers are being rapidly depleted, a greater number of women are to be called into teaching service."

In urging upper-division and graduate students to return to college for summer-session training, Dr. Jackson declares that the most apparent shortages in the high school are in the following fields: coaching, band work, manual training, natural sciences, commercial subjects, mathematics, public school music and speech. In the elementary schools, there is a great need for teachers of public school music, nature study and arithmetic.

**104 Have Enrolled**  
A total of 104 have enrolled in the Teacher Placement service since March 1. Of this number, 82 are women and 22 are men, and 31 renewals are included. Lydia Ann Duff is secretary of the bureau.

The following recent placements have been announced. Mr. and Mrs. Thom Murray of Lubbock to teach at Barstow; Thelma Myers, August, 1940, graduate of Hobbs, N. M., to teach the second grade at Wilson.

Mrs. Dorothy Walker Price of Spur, August, 1938, graduate elect in the fourth grade at Crosbyton; H. L. Lovell Dickens, 1939 graduate, teacher at El Paso; Mrs. Montez Snider Smith of Lubbock, grade teacher at the New Deal Rural school, Lubbock county.

Wilma Dickerson of Lubbock, who received her M. A. degree last August, has been elected seventh grade teacher at Flomot. Bernice Sanderson of Goodland, who will receive her degree this June, has accepted a position in the Fairview school, near Muleshoe.

**Centaur Club To Honor Mothers**

Centaur Club will honor mothers of members and pledges with their annual mothers' day breakfast Sunday morning in the Hilton hotel ballroom.

Guests will be mesdames D. C. Williams, Mary E. Payne, Roy G. Wood, Gerald T. Nash, A. R. Jarrott, E. B. Allen, J. A. Raley, Jr., N. N. Rodgers, O. C. Monk, O. P. Harlan, F. E. Weis, J. M. Stokes, E. W. Finnell, O. S. Hervey, R. D. Moxley, Nita C. Knisley, L. C. Ellis, L. E. Grimes, J. P. Giles, R. P. Nickelson, H. Maddox, J. McBride, F. E. Deen, Shelton Edna Gossett, Newell, Bula Eger and Granville Johnson.

**Blood Tests To Be Given**

College doctors are offering students the last opportunity to take blood tests next week, beginning May 11. It is highly desirable that any Texan who has not undergone a blood test should take advantage of this final chance to do so. The tests will be administered in the medical offices of the library building.

## Mystery-Comedy To Be Presented Thursday Night

By GEM BOB CALLEY  
Toreador Staff Writer

A mystery-comedy entitled "320 College Avenue" concerning a murder at a sorority dance, will be presented at the Lubbock high school auditorium, 8 p.m., Thursday, May 11, by the speech department.

Student Activity ticket holders may secure tickets by taking their books to speech office any time Tuesday, Wednesday, or Thursday morning. General admission will be 35 cents.

Members of the cast are: Leete Jackson, Rex Douglas, Reverdie Ater, Alvin Eden, H. M. Terry, Lehmer Graham, Orville Shofner, Jack Terrell, Louis Beale, Norman Shaw, Ted Alexander, Carson Pierce, Neale Belle Eaton, Kith Coffee, Thelma Crawford, Ruby Cowan, Mona Pierce, Martha Fisk, Ann Moore, Cora Jean Watson, Martha Parnell and Sylva Wheelock.

**Annual Livestock Judging Contest To Start Today**

Three annual livestock judging contests will start at 12:45 p.m. today, it has been announced. Sponsored jointly by the department of animal husbandry and the Block and Bridle club, the contests are the twelfth annual junior livestock, the sixteenth annual freshman livestock, and the third annual sophomore livestock judging contests.

Judging in the junior and sophomore divisions are voluntary, and the best 50 percent of the freshman animal husbandry students are chosen to participate in the freshman contest. By noon Thursday 24 sophomores and 9 juniors had signed to take part in the contest.

Juniors will judge Hampshire breeding ewes, fat lambs, breeding gilts, fat steers, fat barrows, Hereford heifers and Percheron mares. Official judges for the junior contest are Harry Elder, Lubbock, vocational agriculture teacher, and a '35 graduate of Tech; Ray C. Mowery, professor of animal husbandry; Dr. F. G. Harbaugh, associate professor of animal husbandry.

**Awards Given**  
Awards for the junior division are high individual of the contest, gold medal given by the National Block and Bridle club; high individual in beef cattle, book, "Beef Cattle, Their Feeding and Management," high individual in hogs, book, "Pork Production," high individual in horses, book, "The Western Horse, Its Types and Training," high individual in sheep, book, "Productive Sheep Husbandry."

Sophomores will judge breeding classes of Aberdeen-Angus cattle, Hereford, Hampshire, Duroc, Poland China, Hampshire sheep, Ramboulet, South Down, Percheron horses, Jerseys and Holsteins. N. C. Fine, assistant professor of animal husbandry, will act as official judge for the sophomore division.

**Magazines Awarded**  
Awards for the sophomore contest are one-year subscription to "The Short-horn World," two two-year subscriptions to "The Cattleman," a one-year subscription to "American Hampshire Handman," and a one-year subscription to "Texas Sheep and Goat Raiser."

Freshmen will judge dairy cattle, draft mares, fat hogs, fat sheep and fat cattle. Official freshman judges are W. L. Stangel, professor and head of the department of animal husbandry; L. M. Hargrave, vocational agriculture teacher of Friendship and a '35 graduate of Tech; M. J. Williams, vocational agriculture teacher of Shallowater and a '38 graduate of Tech; J. D. Strickland, assistant professor of animal husbandry and a '34 graduate of Tech; W. A. King, area supervisor for the out-of-school youth training program stationed at Lubbock; J. Walter Girst, vocational agriculture teacher of Wilston.

Freshman awards for high men are first high man, gold medal presented by the Tech chapter of the National Block and Bridle club;

second high individual, silver medal given by the Block and Bridle club; third high man, bronze medal, also presented by the club.
