

Raiders win on the road; dump Horns 81-69

By TOMMY LOVE
Sports Editor

The Red Raiders could not have picked a more opportune time to win their first Southwest Conference basketball game on the road, as they dumped Texas University 81-69 Saturday night in Austin.

A loss would have virtually eliminated the Techs from the loop race putting them three games behind the league leading Texas Christian Horned Frogs with seven games left to play.

Tech now trails the Frogs by two games with a 4-3 conference record and have a chance to narrow the gap Tuesday when they host TCU in the Municipal Coliseum.

AGAINST THE Longhorns the Raiders took control midway in the first half and except for a brief scare in the second half had little trouble racing to their third straight loop win.

Tech, who has had some problems with a zone defense in previous contests, faced one again Saturday but had little trouble with it thanks to the fine outside shooting of guard Steve Miller in the first half.

After trading baskets with the Horns for the first nine minutes of play, Tech jumped out into the lead for good, 20-19, on a shot by Miller with 10:35 left in the initial period.

Miller went on to can 12 points for the Raiders in the first half, many of them coming from long range. The six-foot junior college transfer failed to tally in the last half of action.

WITH MILLER HITTING from the outside forward Gene Knolle found room inside to shoot and pumped in 13 points to lead Tech to go to the dressing room with a 44-33 lead at intermission.

In the second half Texas switched to a man to man defense and caught the Raiders sleeping as the Longhorns pumped in eight of the first 10 points scored to cut the lead to five, 46-41.

A full court pass from forward Larry Wood to Knolle for an easy lay-up and two quick goals by 6-3 center Jerry Turner pushed the Raider margin back up to nine, 55-46 with 13:46 left in the game.

The Horns still had a final spurt left in them though as a full court press by Texas began to pay off.

SOPHOMORE CENTER Lynn Howden, 6-7, 200, scored five straight points for the Longhorns and forward Wayne Doyal converted a three-point play with 11:15 to play in the second half to narrow the Tech lead to 57-55.

Howden had a chance to close the gap

even more, less than a minute later, when he was fouled by Wood but missed the first shot of a one-and-one situation.

Raider forward Steve Hardin gave Tech a little more breathing room as he hit two baskets and Turner one before Texas could find the range again.

Howden hit a jump shot with 7:19 left to make the score 64-57 but Knolle came back with two free throws and Turner connected on shot in close to the basket that vaulted Tech back into a comfortable 11 point lead, 68-57.

THE RAIDERS expanded their lead to 79-64 at one point and went on to win the game

going away. Tech head Coach Bob Bass substituted freely in the final minutes of play and won it by 12, 81-69.

"Turner had one of his greatest games for us offensively," Bass said in praise of his 6-3 center. Turner pumped in 18 points for the Raiders, his highest output of the season.

Turner's previous high had been 12 against Arizona University; the only other team Tech has been able to beat on the road this year.

Knolle finished the contest with 20 to take game honors while Turner was second for the Raiders. Other Techs scoring in double figures were Greg Lowery, 14; Miller 12, and Hardin 10.

JERRY TURNER—6-3 center for the Raiders pumped in 18 points and grabbed off 11 rebounds against the Longhorns Saturday; his best effort of the year. Turner's previous high had been 12 against Arizona University.

Pollution Conferences to aid national project

A conference, scheduled for April, will be Tech's contribution to a national movement to educate the public on pollution and its control.

The Tech chapter of Tri-Beta, a national honorary biology fraternity, will sponsor the conference and, to emphasize it, will offer a prize for the best photographic example of pollution in the Lubbock area.

LAST SEPTEMBER, U.S. Senator Gaylord Nelson proposed a national teach-in day for college campuses across the nation. The following month he and

Congressman Paul McCloskey suggested April 22.

Since then a national office run by students and called the Environmental Teach-in Inc. has begun to coordinate the activities all over the United States. Also the government has offered the organization a tax exempt status.

The local organization plans a number of speakers and seminars. The speakers include Dr. Robert Gordon, biology professor, on eutrophication; Dr. Robert G. Rekers, chemistry professor, on herbicides; Dr. Donald Ashdown,

entomology professor, on the case for pesticides; and Dr. Harold Pregne, agronomy professor, on pesticides and absorption.

TWO SEMINARS WILL also be conducted. One will be headed by Dr. Russel W. Strandmann, Prof. of Biology. The other will be conducted by Dr. Robert W. Mitchell, Asst. Prof. of Biology, who has also been appointed to the Texas State Board of Land Resources and Environmental Control.

Also included in the activities will be some films. One is Our Changing Environment: The House of Man — the Myths and Parallels, which deals with man's place in the biosphere. The People Problem is the other film. It deals with birth-control methods.

A spokesman for Tri-Beta emphasized that efforts must be broadened in order to achieve results. All campus and community organizations are invited to co-sponsor this event with Tri-Beta.

First prize in the photographic contest will be \$10, second prize will be \$5, while third prize will be a rusty tin can. Several honorable mentions are also planned.

Duke professor speaks on Australia's problems

A professor from Duke University said Friday that two of Australia's major problems are population and foreign indoctrination.

Harry A. Preston, geophysicist and professor of Commonwealth History at Duke, gave the final speech in Tech's third annual World Affairs Conference.

Preston said that Australia is lucky because of the "present prosperity" and because "Australia has high wage rates, and a high rate of home ownership."

"SINCE WORLD WAR I, the population of Australia has doubled, and the prosperity has been extraordinary," said Preston. "However, in stepping up (higher) education the per cent of native Australians participating is far less than the per cent of immigrants. Will the immigrants mold into Australian indoctrination, or will they come in and change culture?"

In regard to the population problem, Preston asked, "How many can Australia maintain? There is no 'Golden West' like there was in America. Two-thirds of Australia is composed of desert, presenting a serious problem for the expanding population."

Preston suggested that one possible solution would be to utilize nuclear energy to irrigate the unusable land.

Preston concluded by predicting that "Australia and the West will succeed in their goals and Asia will grow into what we want to see in the future."

Nixon nominee for draft post faces trouble

WASHINGTON (AP) — Strong indications that Charles J. DiBona would face difficulties in winning Senate confirmation as draft director may induce him to step down as a possible nominee for the post.

DiBona, 37, was told by the White House several days ago that President Nixon would nominate him to succeed Gen. Lewis B. Hershey as head of the Selective Service System if he, DiBona, would take the job.

Since then, however, Nixon probably has second thoughts because two members of the Senate Armed Services Committee reportedly are opposed to DiBona.

They are Chairman John Stennis, D-Miss. and Sen. Margaret Chase Smith, R-Maine, the committee's ranking GOP member.

Tech loan repayment 10-15 per cent behind

By JULIE McCABE
Staff Writer

Repayment of Tech loans dating back to 1926 are delinquent as much as 10 - 15 per cent, said Thomas P. Stover, director of financial aid.

"In the past seven years since I have been here, though, there has been a delinquency rate of 5 per cent," said Stover.

He explained that the percentage of delinquency would be considered quite high by a bank, but for the type of loans they are, it is actually very low.

Stover said that banks would think of the Tech student loans as high risk, since they are given on the basis of need. "But," he said, "we are not looking to make loans only to those we know can pay them back."

From \$60,000 - 75,000 will be lent out this year from the Tech loans, said Stover. There are about 30 such loans which are received from individuals as memorials and as gifts, donated by professional organizations, by student organizations or by dormitories.

The Texas Opportunity Plan provides for about \$864,655 worth of loans for Tech students, and federal defense loans account for about \$63,000 worth of loans.

The amount of the Tech loans has decreased, explained Stover, because they are short term, having to be paid back within three years of graduation.

The Texas Opportunity Plan loans have to be paid back within five years and the federal loans allow as much as ten years

after graduation for repayment.

Of 642 graduates who received state loans while Tech students, 482 are current on their payments. 123 are from one-five months delinquent and 37 are six or more months delinquent.

Of 1,800 recipients of federal loans who are now in the payment stage, 300 or one-sixth are delinquent.

The task of collecting payments on the loans has recently been transferred from the office of financial aid to the comptroller.

Ad Building's offices undergo remodeling

Norman Igo, director of new construction, said remodeling which was begun last year on the east wing and basement of the Ad Building should be finished within the next 30 days.

The remodeling consists of moving the Planning and Analysis Office and the Office of the Director of New Construction to the basement and the Development and Public Information offices to the second floor of the east wing along with some corridor work in the basement.

AFTER THE WEST Texas Museum moves to its new quarters at 4th Street and

Indiana Avenue the offices of Arts and Sciences will move to the east wing of the old West Texas Museum building, occupying both floors.

Offices of the International Center for Arid and Semi-Arid Land Studies (ICASALS) will take over the first floor of the north wing of the old building, and the offices of the Graduate School will take over the second floor of that wing. The old Planetarium Building will be demolished.

Cost of remodeling the Ad Building and the old West Texas Museum will be approximately \$125,000 with the maintenance department doing all the work

First to head state university

Tech grad gets college post

The first Tech graduate ever to head a major state university will be formally inaugurated as the fifth president of Southwest Texas State University, San Marcos, Saturday.

Dr. Billy Mac Jones, who received his Ph. D. degree in history from Tech in 1963, assumed duties as president of Southwest Texas State Sept. 1, 1969.

Several representatives from Tech will attend the inauguration ceremonies for the longtime educator and former football coach.

Jones spent 1961-63 in residence at Tech to complete work for his doctorate and served as a teaching assistant while here.

"HE WAS A GREAT teacher and leader," said Dr. Seymour V. Connor, Tech history professor under whom Jones studied, "and his dissertation, 'Health Seekers in the Southwest: 1817-1900,' was a major contribution to historical thought on the westward movement in America."

Another tie with Tech was his association with Executive Vice President Glenn E. Barnett when both were at the University of Colorado, Boulder. In 1968 Jones took a leave of absence from Angelo State College to accept administrative internship at the University of Colorado where at the time Dr. Barnett was vice president for student life.

THE NEW SOUTHWEST Texas State president was born in Abilene and attended public school there and at Central High School in San Angelo.

His first undergraduate work was at San Angelo Junior College where as a football player he made the Junior College All-America team as an end.

He received his bachelor's degree in business administration and history from Vanderbilt University, Nashville, in 1950.

Then came the beginning of a coaching and teaching career. For four years he was coach and math teacher at Nashville's Hillsboro High School where he found time to complete his work for a master's degree at Peabody in 1952.

THE NEXT FOUR years he taught history and coached at Middle Tennessee State University, then he became assistant football coach under Jim Myers at Texas A&M University during the 1958-59 season, where he made a reputation as an outstanding recruiter and scout.

"It was in 1959," Dr. Connor said, "that Dr. Jones made a major career decision to quit coaching and go into the administrative field of higher education."

That year he began an association with San Angelo Junior College which lasted, with two or three minor interruptions, until September 1969 when he took over the top position at the San Marcos institution.

AT SAN ANGELO STATE he served successively as instructor in history and director of housing, professor and chairman of the Department of History, director of curriculum development, administrative assistant to the dean and president; and finally, dean of students.

During 1967 he was a Texas Historical Association Fellow, American Council on Education Fellow, and recipient of the \$1,000 Minnie Piper Foundation professorship for outstanding teaching.

He authored "Search for Maturity" in 1965, the fifth volume in the "Saga of Texas" series, and is under contract for a book-length manuscript tentatively titled "Panhandle Anthology," due later this year.

DR. BILLY MAC JONES

Military lists 12,000 families on welfare

WASHINGTON (AP) — The families of more than 12,000 servicemen are on the nation's welfare rolls and receive monthly welfare checks, food stamps, surplus food or other forms of other assistance, the Defense Department reported Friday.

The department said most cases found in a recently completed nationwide survey "result from abnormal family situations, not unique to military service, but representative of society as a whole, and are unrelated to the levels of military compensation."

HOWEVER, PENTAGON officials said the income of an estimated 43,000 military families falls below the acceptable poverty level set by the government.

There are about 3.3 million men and women in the uniformed military. The Defense Department figures confirm the findings of an Associated Press study on October which found that public welfare agencies from New Jersey to California were supplementing allotment checks from Vietnam, paying the rent of married draftees or buying groceries for families whose breadwinners served overseas.

Under congressional urging, Secretary of Defense Melvin R. Laird ordered the Pentagon to determine the number of military welfare cases. Pentagon officials said, however, the findings are inconclusive and the total could be higher.

WITH THE RESULTS of the survey in hand, Pentagon sources said Roger Kelley, assistant secretary of defense for manpower, is expected to announce shortly "a plan to lift the three lower grades of enlisted men from the poverty level."

Another change expected, they said, is the Defense Department's attitude toward food stamps. Their use now is banned in the department's 315 commissaries.

PRESIDENT NIXON'S welfare program,

Editorial

Intramural facilities in near shambles

Intramural facilities are in dire need of improvement.

Tech intramural programs involve more students than almost any other such program in the rest of the nation's universities. Hundreds of Tech men participate in the intramural basketball tournament alone. As spring weather approaches, even more people will be involved as the IM department offers competition in tennis, handball, and several other sports for teams or individuals.

The simple truth is that Tech students respond heavily to the intramural programs. For something so well received by the students, not much is being done to improve the materials they have to work with.

Look at the old barn where teams compete in the basketball tournament. It really looks as if it may just dry up and blow away. The handball courts are ridiculous — but at least there's not much danger of them blowing away. All that could happen in the handball courts would be something like a student succumbing to gas fumes in the court located on the southwest corner. Or maybe a man will just trip on one of the occasional bolts which stick up from the floors near some walls.

Even if a participant braves the dangers of the facilities, he won't find much shower equipment afterward. That being the case, he really can't use the facilities very often unless it's at the end of the day and he can then go home or to his dorm to clean up.

So many people, it seems, would really like to take advantage of better facilities if they were available. Intramural facilities should be available for use by students and faculty at large. In our case, however, there isn't enough equipment to take care of the students who just want to participate in the organized programs.

At Tech, the IM force, headed by Edsel Buchanan, has problems just as baffling as any on the Sunday night program when you consider the amount of participation they draw from the University in relation to the unbelievably few facilities available.

UT office offers students legal aid

AUSTIN (IP) — The purpose of the newly-created Office of Students' Attorney for the University of Texas Students' Association, headed by a private practicing attorney, is to provide continual legal advice for the Students' Association and to act as counsel in matters of contracts, suits, complaints, negotiations and other similar activities.

The Board of Regents has amended the Regents' Rules and Regulations to clarify the constraints on the new office.

The Board specified that the students' attorney could not be employed to act as counsel of record nor represent any student, faculty member or staff member of the UT system in a case of administrative or disciplinary proceeding held by the Regents, the chancellor or by any institution of the system.

The Board further stipulated that the lawyer could not be utilized by students, faculty or staff members in criminal court proceedings. The Regents also barred the students' attorney from participating in any civil suits against the UT system or institution or against any person who is sued in his official capacity as an officer of the system or institution.

The Student Assembly legislation as approved by the Regents calls for the nomination of the attorney by a selection committee composed of the Students' Association president, two faculty members and two students. The nomination is to be submitted to the Student Assembly and then to the Board of Regents for approval.

According to the Student Assembly legislation, the attorney may be dismissed.

Letters

Aggies humiliated

The crowd behavior at the Texas Tech-A&M game in Lubbock was the worst we have ever seen in the Southwest Conference.

With such a fine basketball team as Tech has this year, it is a shame that the fans have to resort to such uncivilized tactics to support their team. The only good thing we can say about the fans is that they left their eggs at home this year.

It is really getting bad when a handful of students who drove 500 miles to see the game can't walk from one side of the gym to the other without being booed by 9,000 spectators, called all kinds of names and having to dodge various objects thrown from the stands.

We'd just like to say that if any Tech students are planning on coming to A&M for the next game, they can rest assured that they won't be humiliated as we were.

We do have one thing here at A&M that Tech could use a little more of — and that's just plain ol' common courtesy.

Has letters About letters

In response to your recent series of articles concerning treatment of American Prisoners of War, I would like to take this opportunity to remind your readers that I still have copies of letters addressed to various important world figures that urge all possible action to protect these men.

These letters are addressed to various diplomats that have some degree of influence over Hanoi, and urge that all possible pressure be brought to bear on North Vietnam to at least live up to the spirit of the Geneva Conventions.

I would be more than happy for anyone interested in signing these letters to contact me. Thank you.

Tech offers new recreation plan

LUBBOCK — Growing opportunities for leisure lead to growing opportunities in recreation. To supply the growing need for leaders in recreation, Tech is offering a revamped, inter-interest curriculum for men and women.

Although students are enrolled in the departments of health, physical education and recreation for Men or Women, they may enroll for as little physical education as an average arts and sciences major.

Each must, however, choose two areas of emphasis — sports, art music, theater arts or park administration.

Dr. Margaret Wilson, chairman of the department of women's health, physical education, recreation explained that current predictions indicate the United States, by 1980, will be short 500,000 people in the field of recreation.

Texas Tech graduates in the field are expected to find jobs in community work, the armed forces, at marinas, at state parks, on pleasure boats or in agencies — the YMCA and YWCA, Girl Scouts, Boy Scouts, Campfire Girls, in homes for the

young and homes for the elderly.

"The new program will allow the graduate to meet civil service requirements," Dr. Wilson said.

Five men and four women now are enrolled in the curriculum and each is expected to serve an internship before graduation.

Portrait given residence hall

LUBBOCK — A portrait of the late Dr. P. C. Coleman of Colorado City, for whom one of Texas Tech's newest residence halls was named, will be presented to the university in ceremonies at 11:30 a.m. Saturday Feb. 7.

Name change voted for Tech C.B.'ers

Double-T C.B.'ers are now the Tech Citizens Radio Society.

The name change was voted on recently by the newly reorganized group.

Members also named Bill Comer, Abilene freshman, president. Skipper Goulet, Midland senior, was tagged vice-president. A secretary treasurer will be selected at the next meeting.

TEXAS CROP AND LIVESTOCK REPORTING SERVICE
Today: Bachelors' and Masters' Degrees: AgEco, AgEd, Crops, Soils, Math, Bachelors' Degrees: IE
Collect, compile, analyze and interpret data relating to agriculture and foods, crops, livestock, and data about other products and agricultural values.

THE TRANE COMPANY
Today and Tuesday: Bachelors' Degrees: CE, EE, IE, ME.
Manufactures and distributes air conditioning, heating, ventilating and heat transfer equipment.

UNITED CALIFORNIA BANK
Today and Tuesday: Bachelors' Degrees: AgEco, AgEd, Econ, Fin, Mgt, Eng, Govt, Hist, Psych, AgEco
Provides the usual financial services, including programs to assist in industrial development, also leasing and computer services.

AETNA LIFE & CASUALTY
Tuesday: Bachelors' Degrees: CHE, CE, EE, IE, ME, PETE, BusEd., Fin, Eco, Mgt., Mkt., Ret., Advt., Engl., Hist., Govt., Journ., Psych, AgEco, AgEd.
Offers a full program of professional assistance, service, and sales in life, casualty, and group insurance.

ANDERSON CLAYTON
Tuesday and Wednesday: Bachelors' Degrees: BusEd., Eco, Fin, Mgt, Mkt., Ret., Advt., Chem., and others if interested in Production and Distribution: IE, Math, CHE, ME
Processing and distribution of food products, seeds, animal and poultry feeds, also a division for warehousing and distribution of merchandise.

DEKALB AgResearch, Inc.
Tuesday: Bachelors' or Masters' Degrees: AgEco, AgEd, Crops, Hort., RangeMgt., and other majors in Agric.

INTERNAL REVENUE SERVICE
Tuesday: Bachelors' Degrees: Acct., BusEd., Eco, Fin, Mgt., Mkt., Ret., Advt.

J. C. PENNY COMPANY, INC.
Tuesday and Wednesday: Bachelors' Degrees: Eco, Fin, Mgt., Mkt., Ret., Advt.
With operations in 49 states, the Penny Company is a general merchandise retailer selling through stores and catalogs.

SANGER-HARRIS
Tuesday and Wednesday: Bachelors' and Masters' Degrees: BusEd., Eco, Fin, Mgt., Mkt., Ret., Advt., CAT, HEED, Engl., Govt., Hist., Journ., Psych.
A traditional department store which offers a wealth of assortment to the retail trade.

TEXAS HIGHWAY DEPARTMENT
Tuesday: Bachelors' Degrees: CHE, CE, Math.
Design and construction of highways.

TOUCHE ROSS & COMPANY
Tuesday and Wednesday: Bachelors' or Masters' Degrees: Acct., Mgt., Mkt., Masters' Degrees: Eco.
Company provides integrated accounting services. Work includes auditing, tax accounting, managerial services.

VETERANS ADMINISTRATION HOSPITAL
Tuesday: Bachelors' Masters' or Doctors' Degrees: Microbiol., Chem., MedTech., F&N, Mgt., PhysEd., Rec., Psych., Soc., Sp&A, CE, EE, IE, ME, Arch.

ALLSTATE INSURANCE COMPANY
Wednesday: Bachelors' Masters' or Doctors' Degrees: or Doctor of Jurisprudence: Law, Acct., BusEd., Eco, Fin, Mgt., Mkt., Ret., Advt., AgEco, AgEd., Engl., Govt., Hist., Journ., Math., Psych., Soc.
A major multiple line insurance company including casualty, life, accident, sickness and liability insurance.

AUSTIN PRESBYTERIAN THEOLOGICAL SEMINARY
Wednesday: Bachelors' Masters' Doctors' Degrees: Art, Biol., Chem., Engl., Languages, Geosci., Govt., Sp, H&PE & Rec., Hist., Journ., Math, Phys., Psych., Soc., Antrh., BusEd., Ed, Engr., HECE.
For such fields of service as: College campus ministries, local church, military chaplaincy, educational ministry, inner-city and urban centered programs, pastoral counseling, teaching in seminary and college, staff training for boards and agencies, youth ministry, experimental ministries.

DEPARTMENT OF STATE
Wednesday: Bachelors' or Masters' Degrees: Engl., BiolSec., Fr., G&S, Latin, Span, Geog., Govt., Hist., Journ., Psych., Soc., Sp, AgEco, BusEd., Eco, Mgt. PubAd., SecAd., HEED, AgEd.

DOWELL
Wednesday: Bachelors' and Masters' Degrees: CE, ME, PETE, Geol., Chem.
Engineered services and products used to increase production from oil and gas wells.

THE EQUITABLE LIFE ASSURANCE SOCIETY OF THE UNITED STATES
Wednesday: Bachelors' or Masters' Degrees: Acct., BusEd., Eco, Fin, Mgt., Mkt., Ret., Advt., Engl., Math, Govt., Hist., Languages, AgEco, AgEd.
A mutual company which provides life, health, and group insurance and annuities.

TEXAS WATER RIGHT COMMISSION
Wednesday: Bachelors' or Masters' Degrees: AgEco, CE, Geol.
The Texas Water Rights Commission administers the water resources of Texas and carries out other responsibilities as creation of water districts; approval of district bonds and Federal projects.

AMOCO INTERNATIONAL OIL COMPANY
Thursday and Friday: Bachelors' Degrees: Acct.
Product research, manufacturing, distributing and marketing of oil and oil products.

ASHLAND OIL & REFINING COMPANY
Thursday: Bachelors' Masters' or Doctors' Degrees: CHE, EE, ME, Chem.
An integrated petroleum company; a manufacturer of chemicals.

AUSTIN PUBLIC SCHOOLS
Thursday: ElemEd., SecEd., SpecEd.

CONNECTICUT MUTUAL LIFE INSURANCE COMPANY
Thursday and Friday: Bachelors' or Masters' Degrees: BusEd., Eco, Fin, Mgt., Mkt., Ret., Advt., Engl., Govt., Hist., Math., Psych., Soc., AgEco, AgEd.
Careers in home office, opportunities in sales, sales management, and in general agencies.

GENERAL DYNAMICS CORPORATION
Thursday and Friday: Bachelors' Masters' or Doctors' Degrees: CE, EE, ME, Phys., Math, IE, Eco, Fin, Mgt., Undifferentiated MBA.
Manufacturer of air and space craft, based on applied and basic research in experimental design techniques in software and hardware development.

GOODYEAR AEROSPACE CORPORATION
Thursday: Bachelors' Masters' or Doctors' Degrees: EE, ME, EngrPhys., Phys.
A selectively diversified plant working on problems in advanced electronics, high performance plastics, aerospace support equipment, and aerospace structures.

THE GOODYEAR TIRE & RUBBER COMPANY
Thursday: Bachelors' Masters' or Doctors' Degrees: CHE, CE, EE, IE, ME, Chem.
Manufacturer of rubber products, metal products, plastics, fibers, and chemical products.

HOUSTON LIGHTING & POWER COMPANY
Thursday and Friday: Bachelors' Masters' or Doctors' Degrees: EE, IE, ME, Acct., BusEd., Eco, Fin, Mgt., Mkt., Ret., Advt.
An investor-owned electric utility company serving the Greater Houston area.

JOHNSON SERVICE COMPANY
Tuesday: Bachelors' Degrees: CE, EE, IE, ME, EngrPhys.
Designs and manufactures automatic control systems for air conditioning, heating, ventilation, and other applications.

PPG INDUSTRIES, INCORPORATED
Thursday: Bachelors' or Masters' Degrees: CHE, EE, IE, ME, Chem., Undifferentiated MBA, Eco, Mgt., GE.
Plans include rubber, group annuity retirement, employee benefit, and other services.

SAN ANTONIO INDEPENDENT SCHOOL DISTRICT
Thursday: ElemEd., SecEd., SpecEd.

SEARS, ROEBUCK AND CO.
Thursday: Bachelors' or Masters' Degrees: BusEd., Eco, Fin, Mgt., Mkt., Ret., Advt., Engl., Govt., Hist., Psych., AgEco, Acct.
A national system of retail stores, catalog order plans, and catalog sales offices.

SOUTHWESTERN LIFE INSURANCE COMPANY
Thursday: Bachelors' Degrees: Acct., BusEd., Eco, Fin, Mgt., Mkt., Ret., Advt., AgEco, Engl, Hist., Govt., Math, Psych.
Plans include rubber, group annuity retirement, employee benefit, and other services.

DART INDUSTRIES, INC.
Friday: Bachelors' or Masters' Degrees: CHE.
Chemicals manufactured for sale to industry. Have entered the consumer market with cosmetics and home furnishings.

FIRESTONE TIRE & RUBBER COMPANY
Friday: Bachelors' Degrees: BusEd., Eco, Fin, Mgt., Mkt., Ret., Advt., AgEco, Engl, Govt., Hist., IndMgt., Acct.
Operations in rubber, metals, plastics, synthetics, and textiles.

Valentine Contest Rules

Students may vote once a day at each merchant's for any of the contestants.

To vote, clip the entire ad of the girl you wish to vote for and deposit it in the voting box of any participating merchant.

Every ballot must have the voter's name and telephone number on the front.

One ballot will be drawn from all ballots cast, and the voter whose name is on this ballot will win \$20.

The girl with the most votes will be Tech's Valentine of 1970.

Voting will stop at noon on Thursday, February 12.

The Tech Valentine and the winning voter will be announced in Friday's University Daily.

Decision of the judges is final.

Sports Comments

by Tommy Love

Three Tech baseball players just received a new lease on life for the summer, and boy what a life it will be.

Jim Montgomery, Max Martin and Don McKee have been selected to play on an American baseball team that will tour Italy this summer in an effort to improve interest in the diamond sport in that country.

Montgomery, who started three years for the Raiders at shortstop, used up his playing eligibility last season and is assisting head coach Kal Segrist with the team this year.

MONTGOMERY was an unanimous choice to the Southwest Conference baseball all-star team last year and finished the season with a .290 batting average; he hit .311 in conference play.

Martin has also played the past two years for the Techs while wearing the "tools of ignorance." Max caught practically every game last year while pounding out a .344 season mark. Although he will never be called a speed demon, Martin hits with such power that he usually has plenty of time to reach base.

McKee, the lightweight of the group, is another two-year starter. Standing only 5-8 and weighing in at 150, Don has been a ball-hawk in the outfield plus a consistent .300 hitter. Last season McKee finished the year with a .325 average.

Another Tech player, Gary Washington, was also selected to the team but already had plans for the summer. Washington was a starting pitcher for the Raiders last year and is expected to help anchor the pitching staff this season.

THE TEAM will consist of 18 or 19 players from all over the country with Chet Morgan, of Seminole, as the coach.

Entry deadline Tuesday for Intramural boxers

Tech Intramurals will sponsor boxing competition, Wednesday, Thursday and Friday in cooperation with the West Texas Golden Gloves.

Entries for the event will be open until Tuesday, Feb. 10; all entries will receive a free physical exam Wednesday to fulfill Golden Glove requirements. Competition will be divided into

According to Montgomery this will be the second or third year for Morgan to take a club to Italy to play and teach baseball.

The players are to meet in New York May 30 and fly to Rome. Morgan is already in Italy preparing the accommodations for the players.

All the expenses of the trip will be paid for by the Italian Olympic Committee, which is sponsoring the team. The players will be living in Italian homes while they tour the country.

THE TEAM will spend approximately 10 weeks in Italy playing clubs from four different divisions, A, B, C and D. The Italian leagues are arranged somewhat like the minor leagues are in the United States.

"We will be playing ball four days a week and helping with a coaching clinic three or four days a week also," Martin said.

When the players are busy helping with the clinic during the day, night games will be played.

The visit will also be more or less a good will tour also.

MORGAN told McKee that on previous tours several Italian players affiliated with the Communist party had changed their ideology through contact with the American team.

"It's not often a guy gets a chance to really do something for his country," McKee said. "I'm really thrilled about making this trip."

The name the team will travel under is The Texas Cowboys. That particular name was decided on because it was felt that most Italians had heard of Texas and associated it with cowboys.

The American team is expected to arrive back in the States around Aug. 15.

team and individual participation.

All participants will fight in the novice division unless indicated otherwise by the individual, wherein he will be placed in the open division.

ITALY BOUND — These three Tech ballplayers, Don McKee, left; Max Martin, center; and Jim Montgomery, right have been selected to play on an American baseball team that will tour

Italy this summer. Montgomery is an assistant coach for the Raiders this season while McKee and Martin have one more year of eligibility left.
