Council Confirms Plans For Train To Houston Game

J. C. Chambers, Student Council president, announced Tuesday that student interest is such that the Council will sponsor the special train to Houston for the out-of-town game Nov. 1.

Chambers stressed the fact that while 300 students are necessary for the trip, there is no limit on the number of students who can go.

The railroad has promised a baggage car for dancing on the way to Houston and to add as many cars as necessary to insure room for all who wish to go.

Tentative plans call for ticket sales to begin Oct. 19 and to end on Oct. 30. The council office will be open 2 to 5 p.m., Monday through Friday during this period to enable students to buy tickets. Approximate cost of the tickets will be \$17, including the railroad fare and a ticket to the game.

Chambers added that students who take the special train will actually pay half fare for the trip, and will not have the added expense of a hotel bill to pay.

Band students will have a concession stand on the train.

The largest crowd ever to witness a football struggle at Texas Tech was the prediction for the Tech-A&M game.

All reserve seats had been sold yesterday and only 2,000 general admission tickets were left, Jimmy Wilson, Tech athletic manager reported. One thousand seats will be roped off in section R, the student's section, and sold to the public.

Long lines of ticket purchasers have been in front of the athletic office and advance sales indicate that a sell-out crowd of 28,000 fans will be on hand for the opening kick-off, Wilson said.

Members of the South Plains A. & M. Ex-student Association made plans for a big Saturday. They will greet the A. & M. band at the Santa Fe station at 3:30 p.m. This is the first appearance of both the Aggie team and band in Lubbock since the fall of 1927. The band will parade from the station to the Lubbock Hotel.

The band will be guests of the local ex-students for two meals and a night's lodging. They will stay at the agriculture machinery building at Tech Saturday night. Cots will be lent them by officials at Reese Air Force Base.

The Aggie ex-students will be hosts at a barbecue on the Tech campus Saturday afternoon. All Aggies and their friends in West Texas have been invited. Tickets, which may be purchased for \$2.50 each, pay for meals for both the purchaser and one band member. Additional plates may be brought for wives and friends for \$1.25 each.

The A. & M. band will be guests at a reception after the game Saturday night in the music building.

Kappa Kappa Psi, national honorary band fraternity for men, Tau Beta Sigma, National honorary band for women, will be the hosts.

They'll be hanging from the rafters! A "standing room only" throng of more than 27,000 fanatic fans

See A&M, Page 7

Students Urged to Get Photos

Many students will find themselves not pictured in the 1954 La Ventana if they do not have their photos made very soon, according to Ted Harrison, yearbook editor.

Only 8 per cent of the fall enrollment had been to Koen's Studio, 2222 Broadway, through yesterday. The photographer estimated that he would have to take 100 students per day in order to finish on time. The studio is open daily 9 a.m. to 6 p.m. except Sunday.

"Shooting has been very slow up till now," said Harrison. "Students have been informed enough about the matter. However, if the photo shooting continues at this slow rate, there will be many people who find themselves on the 'not-pictured' list. Deadlines—to be announced later—are getting close. We urge everyone to get his picture taken as soon as possible."

Yearbook Names Assistant Editor

Shirley Chapman, Lubbock sophomore, will be assistant editor of the 1954 La Ventana, Editor Ted Harrison announced today.

Harrison, senior from Roswell, N. M., was approved as editor by the Board of Publications last spring. He announced other staff members as follows:

Pat Boles, sophomore from Midland, will serve as art editor. Head photographer will be Ben Wilson, Lubbock senior. His two assistants are Buddy Wright, freshman from Amarillo, and Dallas Whaley, sophomore from Lubbock. Juanita Peters, Plainview sophomore, is staff secretary.

There are still some staff positions open, Harrison stated. Students interested in yearbook work may check in La Ventana office, J205, 1 to 5 p.m., Monday through Saturday.

Civil Service Test Dates Announced

Junior Management Assistant examinations will be announced, Wednesday by the United States Civil Service Commission, according to R. D. Mack, government instructor. Closing date for receipt of application is Nov. 12 and the written test will be given Dec. 5.

Appointment may lead to late promotion to jobs as high-level executives and administrators in the Federal Government. Positions to be filled are in Washington, D. C., and throughout the United States and pay entrance salaries of \$3,410 and \$4,205 a year.

Interested students may contact Mr. Mack in the Administration Building for further details.

PEP RALLY

The Saddle Tramps will sponsor a pep rally Friday night at 7 p.m. at the gym. Following the rally a bonfire will be held across the street and it will be sponsored by the Veterans Club.

A new pep squad, under the heading of the Red Shirts will make their debut at the game Saturday night. This group is composed of freshmen boys.

New Song Tops Tech's Hit Parade

If you have been in the Union Building recently you know that a new song has come into popularity on the campus.

The song is sung to the tune of "The Battle Hymn of the Republic." Without further ado here it is:

Mine eyes have seen the milking of the Texas Aggie cow, Mine ears have heard the squealing of the Texas Aggie sow.

So join you loyal Raiders and we'll clean the Aggie's Plow. To HECK with A. & M. chorus—To HECK, To HECK with Texas Aggies.

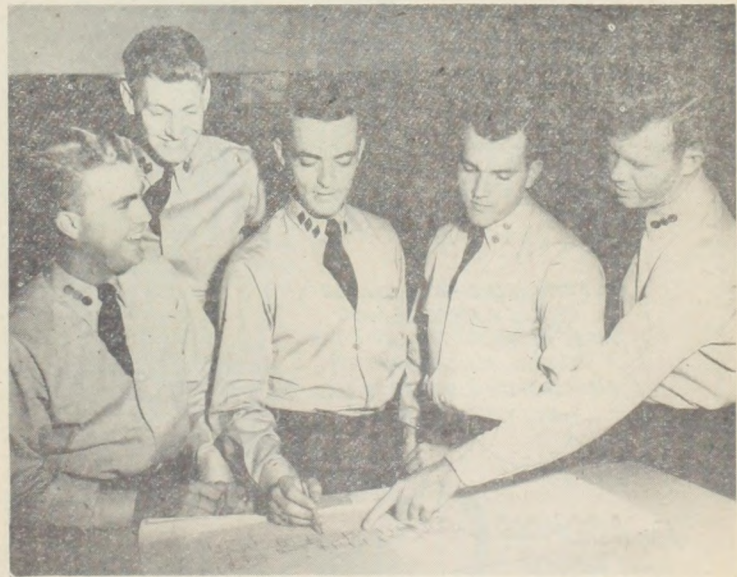

To HECK, To HECK with Texas Aggies. To HECK, To HECK with Texas Aggies. To HECK with A&M.

DEADLINE

Last day to file with the dean requests to make up examinations missed and postponed is Saturday. It is also the last day to remove conditions incurred during the preceding spring semester.

Dr. Gantz, pastor of the First Christian Church here for 10 years, is a graduate of Phillips University, Okla., will speak to Tech students during Religious Emphasis Week, Oct. 19-22.

Dr. Gantz, pastor of the First Christian Church here for 10 years, is a graduate of Phillips University, Okla., will speak to Tech students during Religious Emphasis Week, Oct. 19-22.

TOP BRASS—Air Force ROTC officers for the 1953-54 school year include, left to right: Cadet Captain Marlin Smith, comptroller; Cadet Lt. Col. Decker McKim, vice wing commander; Cadet Col. Brad Wilde, wing commander; Cadet Capt. Morris Turner, information officer; and Cadet Capt. Don Kenner, operations officer. See story page 4.

Holland's Windmills Useful

Glenn Rainer Reports on Holland; Went as Community Ambassador

Ever wonder why Holland has so many windmills?

Glenn Rainer found the answer to this among other interesting aspects of Dutch living during his two-month visit in Holland as Lubbock's community ambassador.

Rainer explains that daily rains in Holland imperil farms and accumulated water is removed with pumps run by windmills. The pumped water provides for cutting wood or grinding wheat. The famous canals then carry off the excess water.

Ten other Americans and Rainer spent three weeks with Dutch families. Each family had a son or daughter of approximately the same age as his guest. With his hosts, the Von Hell family, Rainer toured sections of Holland.

He tells of a visit with a family who has a daughter, Yos, whom he particularly liked.

"The cutest little thing," related Rainer, "but our love affair ended tragically, for I am almost 20 and Yos was only three and could speak no English."

His itinerary included a week's sailing trip on the IJsselmeer (the old Zuider Zee) and a trip planned by the Bakkeveen School of Adult Education along the Rhine River where the group stopped at Dursburg, Cologne and Manheim. One Danish and five English students accompanied the American students on the latter trip.

An interesting aspect of shopping in this country, which is one-twentieth the size of Texas with a population of three million, is that the customer goes to one store for bread, another for meat and another for vegetables.

Rainer explains that though the statistics prove the crowded conditions, the Dutch alleviate any congestion by building their structures two or three stories high. The terrain includes meadows, woods and fields so that one is exposed not only to relaxing beauty, but to variation, says Rainer. "The most basic thing I learned," reported Rainer, "is that in

dealing with economic conditions we think Europe and even some of our own states as being simply statistics. In Holland I learned to respect these conditions as people—not statistics."

Because of its small size, it is possible to visit Holland's three largest cities in one hour by train, Rainer explains. The bicycle, however, is the most common mode of travel since the width of the streets almost prohibits the use of the automobile and short distances from one city to another can be quickly and easily covered via the bicycle.

The Junior Business Administration student left New York July 1 with 800 others on a student ship. He returned Sept. 5.

"Not only did I learn much about human nature in Holland, says Rainer, "but also from the 800 students from various parts of the U. S. who went from here to Europe."

"I gained respect for the type of individual we have here at Tech after my association with people of our own country with differing cultures, education and beliefs," continued Rainer.

The older of the two Von Hell boys told Rainer that college entrance requirements in Holland include four foreign languages.

Edward Smith to Speak at APO Smoker Tomorrow

Edward Smith, director of the Tech Foundation, will speak at the fall smoker of Alpha Phi Omega, men's service fraternity, tomorrow night at 7 o'clock in the Green Room.

Mr. Smith's talk will be delivered to prospective pledges of the fraternity. All men who are interested in working on campus projects are invited by APO members to attend this meeting.

Mr. William Geisert, senior supervisor of the men's dormitories, Tri Delta and Theta members will also be on the program.

knowledge of math through calculus, and chemistry—both inorganic and organic.

"Their high school education is comparable to our college degree," comments Rainer.

The Community Ambassadorship Program which was responsible for Rainer's trip was established in 1948 for the purpose of furthering international relations. Rainer was selected from 35 applicants, five of whom were personally interviewed by representatives from the 20 local civic clubs who pledged financial aid. Rainer sent six stories to the Avalanche-Journal and expects to make some 150 speeches in Lubbock and the surrounding area.

Freshman Class Is Third Largest In Tech History

The present freshman class, numbering 1,900, is the third largest in the history of the college, according to Registrar W. P. Clement. The total college registration count is now 5,404, largest since fall of 1950.

Latest class totals available were: sophomores, 1,097; juniors, 913; and seniors, 916. There are 572 graduate students. The ratio of men to women in the student body is about 5 to 2. The total enrollment is 4.4 per cent larger than the 1952 fall registration.

In analyzing the enrollment, Mr. Clement has said that Tech's registration 10 years from now may reach eight or nine thousand. He points out that the birth rate increased during war years, so that elementary schools are now crowded. In a few years, he notes, these elementary pupils will have matured to college age.

HOW THE STARS GOT STARTED ☆☆☆

Patrice Munsel says: "When I was a kid, I wanted to be a lady football player. Then I dreamed of another career—whistling! Somebody discovered I had a voice, so I took singing lessons. I worked hard at it—then I won the Metropolitan Opera auditions when I was 17."

I STARTED SMOKING CAMELS BECAUSE A FRIEND OF MINE ASKED ME TO TRY THEM. NO OTHER CIGARETTE EVER GAVE ME SUCH PLEASURE. CAMELS TASTE SO GOOD—AND THEY'RE SO MILD!

Start smoking Camels yourself!

Smoke only Camels for 30 days and find out why Camels are America's most popular cigarette. See how mild and flavorful a cigarette can be!

For Mildness and Flavor

CAMELS AGREE WITH MORE PEOPLE THAN ANY OTHER CIGARETTE!

Alpha Phi, Gamma Phi, Alpha Chi

Three more sororities accepted invitations to Tech: Alpha Phi, Sigma Phi and Gamma Phi. Alpha Phi and Sigma Phi have invited to enter the campus during the 1954 year, the exact date to be named later. Gamma Phi will colonize during the 1954 college year.

Representatives of Omega and Delta Gamma sororities who accepted invitations earlier, will be on Tech campus this week for a preliminary procedure to be held in the Dean of Women's office.

They will confer with the administration to set up a method for colonization to begin at once. More than 150 women already in the open rushing list in Neely's office and will be considered in the near future for the new groups.

Alpha Phi was founded at University. The now numbers 50 chapters being at the U. of Texas. There are also groups, comprising 10 living members. Its funds support a foyer, munitions workers' France, and in World War were active in supplying equipment for military forces.

The sorority's chief is its Cardiac Aid. This Foundation supplies "blue baby" surgery at Hospital in Los Angeles. It provides care of the er patients and for the field of causes at heart disease.

Sigma Kappa was Colby College, Waterville, Me. The roster now 61 chapters, some in Canada.

Sigma Kappa's philanthropy is the Maine Mission at Bar Harbor. It is a residential school for the blind. The sorority supports the Maine coast. Annually it plays Santa Claus to youngsters in the During World War of the alumnae and ters prepared over scrapbooks for distribution at military centers. The supported girls from birthplace, Stagra, G. American school in St.

Thetas Give Honoring Ple

Kappa Alpha Theta new pledges with an tea Sunday afternoon at Caprock Hotel.

Guests included representatives of campus sororities and campus officials, and patronesses.

New pledges introduced Beverly Bennett, Gracith Campbell, Dorothy Yancy, Shirley Marlon Evans, Carolman, Kittle Ann Logan, Graham, Mary Gris Morrison.

Patty Pinson, Pat Timney, Charlene Wilbeth Wilson, Betty Sally Wood.

The table was laid with cloth and featured a of silver candelabra presented at installation. The table was banked with PUNCH and chocolate served.

ZETA DANC

Zeta Tau Alpha will first party of the year Dance, at the Caprock from 8:30 to 11:30 day evening.

Alpha Phi, Gamma Phi Beta, Sigma Kappa to Colonize; Alpha Chi Omega, Delta Gamma Begin Work This Week

Three more sororities have accepted invitations to colonize at Tech: Alpha Phi, Sigma Kappa, and Gamma Phi Beta. Alpha Phi and Sigma Kappa have been invited to enter the campus at some time during the 1954-55 college year, the exact date to be determined later. Gamma Phi Beta will colonize during the 1955-56 college year.

Representatives of Alpha Chi Omega and Delta Gamma, two sororities who accepted invitations earlier, will be on the Texas Tech campus this week to begin colonization procedures, according to Dean of Women Marjorie Neely.

They will confer with the college administration and will set up a method for colonization to begin at once. More than 60 college women already have signed the open rushing list in Dean Neely's office and will be eligible for consideration in organization for the new groups.

Alpha Phi

Alpha Phi was founded at Syracuse University. The chapter roll now numbers 50, one of the groups being at the University of Texas. There are also 155 alumnae groups, comprising nearly 20,000 living members. Its scholarship funds support a foyer for women munitions workers at Rouen, France, and in World War II they were active in supplying recreational equipment for American military forces.

The sorority's chief philanthropy is its Cardiac Aid Foundation. This Foundation supplies funds for "blue baby" surgery at Childrens Hospital in Los Angeles, for convalescent care of rheumatic fever patients and for fellowships in the field of causes and cures for heart disease.

Sigma Kappa

Sigma Kappa was founded at Colby College, Waterville, Me., in 1847. The roster now comprises 61 chapters, some of which are in Canada.

Sigma Kappa's principal philanthropy is the Maine Sea Coast Mission at Bar Harbor, Me., serving residents of islands off the Maine coast. Annually the sorority plays Santa Claus to thousands of youngsters in the area.

During World War II members of the alumnae and active chapters prepared over 50,000 USO scrapbooks for distribution in military centers. They also have supported girls from Aristotle's birthplace, Stagira, Greece, at the American school in Salonic.

Gamma Phi Beta

Gamma Phi Beta was founded in 1847 at Syracuse University. It has chapters in colleges and universities in 29 states and Canada. There are 125 alumnae chapters and nearly 30,000 alumnae.

The Tech chapter will be the third in Texas for the sorority. It entered the University of Texas in 1922 and SMU in 1929. It provides loan and scholarship funds. During World War II, it was the only social sorority which sold war bonds. It was awarded two U. S. Treasury citations for raising \$14,745,191 through the sale of bonds.

Gamma Phi Beta owns and maintains two camps for underprivileged girls, giving to 300 girls each year the privileges of summer camp.

Fine Selection

"We feel that Tech will have in these 10 sororities an unusually fine selection," says Dean Neely. "Our sorority expansion plans have been made to take care of the expanding demand for membership on the part of the women on the campus."

Phi Deltas, Sigma Nus, and Kappa Sigs Initiate Pledges, Former Club Members

Three fraternities staged initiations for their pledges this week.

Texas Epsilon chapter of Phi Delta Theta initiated 26 pledges and four former members of Silver Key club Sunday at the home of Parker Prouty, 3019 21st St. Silver Key social club became Phi Delta Theta in the nationalization program.

Pledges initiated were: Jim Alexander, Don Bacon, Bob Beckwith, Jerry C. Brown, Farrell Bryant, Sam Camp, Glenn Cary, Melvin Deardorff, Jerry Ford, Royal Hagerty, Gary Hancock, Ted Harrison, Sam Hodges.

Johnny Jones, Bill Kilpatrick, David L. Larson, David Loughridge, Roy Middleton, Don Mills, I. B. Moreman, G. Decker McKim, Jack Nelson, Danny Owen, C. Jack Pruitt, Ben Wilson, William Burson.

Silver Keys initiated were: Dr. D. M. Wiggins, former president of Tech and now vice president of the Citizens National Bank; Thomas J. Friday; James B. Hall; Billy M. Seales.

Eleven pledges were initiated by the Zeta Pi chapter of Sigma Nu Wednesday night in the Ballroom of the Lubbock Hotel, according to Raymond Mires, president.

Initiates were: Benny H. Brookshire, Patrick Northcutt, James F. Kelly, Jerry C. Ross, Fred Eynzel, James White, Richard A. Triggs, Donald W. Johnson, C. Frank Raser, Charles D. Clark, Donald Jackman.

The Epsilon Phi chapter of Kappa Sigma initiated 13 pledges

Sunday morning in the Lubbock National Bank Building.

They were: Howard Weaver, Wendell Stiles, Charles Skaling, Claude Brown, Joe King, Jackie McCuiston, Bill Flewelling, Craig Stevens, Fulton Smith, Robin Etter, Don Dilly, Spencer Norwood, Dan Glover.

Reception Honors New SAE Chapter; Faculty Advisers Initiated Saturday

An estimated 250 guests attended a reception Sunday afternoon in the ballroom of the Student Union Building honoring active members, alumni and faculty advisers of the Texas Alpha chapter of Sigma Alpha Epsilon.

The reception was the final event of the installation weekend for the new chapter, formerly Adelphi. At the initiation held Saturday afternoon in the parish church of St. Paul's Episcopal Church, M. L. Pennington, Tech's vice president and comptroller, Dr. Fred W. Norwood, associate professor of accounting, George Rogers, supervisor of Gordon Hall, became members and will act as faculty advisers; Louis Stamatakis, supervisor of Sneed Hall, has served as one of Adelphi's sponsors and will continue as an adviser of the SAE chapter. Speakers for the banquet Saturday evening in the Caprock Hotel included Dr. John O. Moseley of the national office of SAE, and Dr. E. N. Jones, president of

THE CAT'S MEOW

By PHYLLIS MARTIN
Toreador Society Editor

Thank heaven for the clowns! You know, people, somebody always has to play the part of a clown to keep the world laughing. Take, for instance, these two: The Bright Light and the Dim Wit. The first made the statement, "A great man once said, 'Laugh and the world laughs with you; cry and you cry alone.'" The second replied, "He lied, the world's full of sadists." See! Always clowning! Be that as it may, the happy people this weekend were: Davis Hopper and Alice Dickson, Melvin Deardorff and Jimmie Lou Brown, Ernest Lokey and Jane Hampton, Kelly Ragland and Janelle Toler, Bobby Butler and Pat Garrett.

Jean Franks and Shirley Dupriest will be a steady couple from now on as of Saturday night. A correction on last week's column: Barbara Saunders and Dave Thomas have moved their wedding plans up to Thanksgiving. Beverly Noble and Phil Cook have announced their engagement. The wedding will be solemnized Friday in Ford Memorial Chapel of the First Baptist Church. The couple is attending Tech.

Yes, a woman must choose; with a man liked by women, she is not sure, and with a man disliked by women, she is not happy.

A bit of enlightenment came our way from a fellow student:

"They say love is blind, but I know lots of fellows who can see twice as much in their sweethearts as I do." We might add facetiously that the female gender is also farsighted.

Incidentally boys, for a pleasing eyelid feast your peepers on the nine beauties pictured in the up-to-the-minute fashions in the Women's News section of Sunday's Lubbock Avalanche. They were: Gloria Patterson, Ann Perkins, Sue Helley, Pat Fralin, Gloria Snell, Joann Hampton, Sandra Shook, Ann Lee Turner, and Nan White.

Blased or otherwise, all women are good, good for nothing or good for something.

Thetas Give Tea Honoring Pledges

Kappa Alpha Theta honored new pledges with an introductory tea Sunday afternoon in the Caprock Hotel.

Guests included representatives of campus sororities and fraternities, campus officials, alumnae and patronesses.

New pledges introduced were: Beverly Bennett, Grace Boles, Ardhin Campbell, Dolly Hart, Vivian Erake, Ann Perkins, Barbara Bridges, Beverly Brooks, Jimmy Lou Brown, Carol Clark, Joan Cheshier, June Coker, Betsy Fonville, Dorothy Kelly.

Cherrille Lemon, Patsy Loke, Dale Mohan, Gloretha Reynolds, Janet Yancy, Shirley Durriest, Marlon Evans, Carolyn Fritshman, Kattie Ann Logan, Marilyn Graham, Mary Gristy, Dorcas Morrison.

Patty Pinson, Pat Randolph, Pat Timney, Charlene Willoby, Elizabeth Wilson, Betty Wood, and Sally Wood.

The table was laid with a yellow cloth and featured a centerpiece of silver candelabra which were presented at installation, with gilded fruit banded at the base. Punch and chocolate eclairs were served.

ZETA DANCE

Zeta Tau Alpha will have the first party of the year, honoring its new pledges with a Starlight Dance, at the Caprock Hotel from 8:30 to 11:30 o'clock Friday evening.

Kay Carter and his band will provide music for the occasion.

Student Fellowship Plans for Banquet

The 13th annual Loyalty Banquet for all members of Westminster Student Fellowship will be held at 6 p.m. Thursday in Fellowship Hall of the First Presbyterian Church.

Rev. J. Paul Stevens from Denton will speak on Christian stewardship. He is director of Christian education for the Synod of Texas of the Presbyterian Church USA.

Jerry Shields, WSF president, will serve as toastmaster, and Marjorie Hendrick and Celia Pember will provide special music. Rev. W. F. Rogan, Presbyterian campus minister, is to introduce special guests and direct the ceremonial, Pilgrimage to the Cross.

Tech mothers from the local Presbyterian churches are in charge of the dinner, with Mrs. Ely Fonville as chairman. Table decorations will be arranged by Don Peterson.

Junior Council Will Meet in Union To Discuss Year's Project Plans

Project plans for the year will be discussed in Junior Council at 7 p.m. Monday in the meeting room of the Student Union Building.

Installation of Gwen Williams, Lubbock arts and sciences student, as secretary, and initiation of Sue Shawver, Megargel business administration student, also will take place.

Junior Council, honorary service organization for junior women, meets on the second Monday of each month.

Bledsoe Officer Candidates Named at Monday Smoker

Candidates for Bledsoe Hall offices were nominated at a smoker Monday evening.

For president, Fred Curry, Greenville junior, and Don Andrews, Brownfield senior, were nominated. Candidates for vice president include Bob Lokey, senior from Vernon, and Mack Noble, senior from O'Donnell. Charles Clarke, Miami sophomore, Howard Parker, El Dorado junior, Jack Davis, Stratford senior, and Paul Griffith, Tula senior will vie for secretary-treasurer.

Elections will be held Thursday by secret ballot.

Tri Delta Entertains Pledges

Phi Eta chapter of Delta Delta Delta held a sponsorship program for pledges at 4:30 o'clock Sunday afternoon in the home of Mrs. Earnestine Stewart, 1905 31st St.

Immediately following the program the members of the sorority and their "little sisters" dined at Phil's Ranch House.

Tau Beta Sigma Will Hold Sale

Tau Beta Sigma, national honorary band fraternity for women, will sponsor a rummage sale Saturday, according to Jimmie Bennett, vice president. A downtown location for the sale was to be secured.

Geology Club Sets Dues Deadline

Oct. 19 is the deadline for paying membership dues, the Geology Club decided at its Monday night meeting in the Museum.

Many Tech Boys Cutting Expenses Now To Bear Strain on Pocketbooks

BY BEVERLY DANIEL
Toreador Staff Writer

Many Tech boys now find themselves cutting down on their dates, movies, malts, and between-meal snacks.

The reason for this sudden austerity program: Teddy bears, teddy bears, teddy bears. Teddy bears may be something you vaguely remember from childhood days, but ask any boy who attended Tech day at the Panhandle-South Plains Fair Friday to tell you about teddy bears.

There was an abundance of bears in the various stands at the Fair Friday morning and, unfortunately, there was still an abundance of them Friday night. This particular bear is very elusive and is one of the few types which cost you every time you try to catch one. Another thing peculiar to these bears is that girls just love them, especially the girl you're dating. One characteristic found in this type of bear, and no other, is varied color. They come in red, pink blue, black, brown, and a variety of others.

How To Catch Bear

There are numerous ways to catch this bear. You can shoot him, knock him down with baseballs, throw dimes at him, shoot darts at him, or throw basketballs at him. It is likely that you will have to try all these ways several times before catching the bear.

And, if you don't catch him, you'd better start practicing and saving money for Tech day at the Fair next year.

Friday Was Tech Day

Although Friday was Tech day at the Fair, with free admission, the number of students who attended was no greater than on the previous days. Perhaps the reason was that most students couldn't wait until the last of the week. Besides hunting teddy bears,

students found many other interesting things to see and do at the Fair. There were daredevil riders and aerial performers to see, breath-taking machines to ride, and games of skill to play.

Tech Dairy Judging Team Will Participate in Contest

Tech's dairy products judging team of four senior dairy manufacturing majors will participate in the Southern Dairy Products Judging Contest to be held at the University of Maryland, College Park, Md. Oct. 23.

They will also enter the International Intercollegiate Dairy Products Judging Contest in Boston, Mass., Oct. 26.

Team members are Robert Williams, Levelland; Brian Gilmore, Lubbock; Lowell Morris, Decatur; and Luther Harvey, Sweetwater. J. J. Willingham, professor of dairy manufacturers, will accompany the team as coach. The team will leave Oct. 18 and will return Nov. 1.

Capa y Espada Will View Slides Presented by Miss Holden Tuesday

The showing of slides taken in Mexico will highlight the Capa y Espada meeting at 7:15 p.m. Tuesday in Ad 217.

Miss Jane Holden, Tech graduate who has been studying for two years in Mexico on a Farmer scholarship, will present the slides. The group will sing Spanish songs and refreshments will be served.

Capa y Espada, a departmental club for those interested in Spanish language and customs, meets the second Tuesday of each month.

Museum Presents Lamesa A. Capella On Twilight Hour

Lamesa A. Capella Choir performed in the Museum Sunday as the first of the fall Twilight Music Hour series.

It was one of two United States high school choirs to be invited last year to participate in the International Music Conference held in Belgium in July under the guidance of UNESCO.

After raising most of the funds to make the journey, the choir canceled the trip in order to donate the money to the Waco tornado relief fund.

Orland W. Johnson is choir director. The choir members, from 14 to 18 years old, rehearse an hour each day.

The next Twilight Music Hour, Opera Once Over Lightly ("Samson and Delilah"), will be held in the Museum auditorium at 4 p.m. Sunday, Oct. 18.

Textile Graduates Work Overseas

Four 1949 textile engineering graduates from Tech are employed by textile concerns in other countries.

Harry Arthur is in charge of a fiber laboratory with the Anderson-Clayton Cotton Company in Osaka, Japan, where he is teaching Japanese cotton-mill men to buy cotton on laboratory specifications. Charles Marth is with the same company, in charge of a similar office at Paris, France.

Isak Pinhas, native of Turkey, has returned to that country where he is employed in the textile field.

Carl Schmidt of Mexico City is now in Colombia, with the Calanese Corporation's sales-service department.

ROTC Sweetheart and Sponsors To Be Formally Presented Oct. 15

The regimental sweetheart and six company sponsors for Army ROTC will be formally presented to the regiment in ceremonies during the drill period on Oct. 15.

Nina Flanagan, brunette freshman from Albuquerque, N. M., was selected regimental sweetheart from a group of 19 candidates in an election in the Gym Thursday afternoon. By a close vote, she defeated Elna Dumagan, junior from Tahoka who was an Army ROTC sponsor last year. Miss Dumagan will serve as sponsor of Co. D.

Colvin Featured as Guest Soloist Of the South Plains Symphonette

Herbert Colvin, Tech piano instructor, appeared as guest soloist with the South Plains Symphonette last night in the Levelland High School auditorium.

Colvin has appeared as soloist with the Lubbock and Midland symphonies and has studied under such famed piano instructors as Dr. Robert Markham and Dean Daniel Sternberg at Baylor University.

Since coming to Tech, Colvin has served as conductor of the South Plains Music Teachers' Association's 24-piano ensemble. He is associate director of the Tech choir and will sing with the Dallas Symphony Orchestra in March.

ROGERS WINS TRIP

Darrell Rogers, freshman agriculture major from Lamesa, has received an all-expense-paid trip to the National Future Farmers of America convention in Kansas City. At the convention he will receive the Santa Fe Railway Educational award for 1953, for outstanding leadership ability in FFA.

Rogers, the son of Mr. and Mrs. Willard Rogers, is state vice president of the FFA.

Other sponsors who will be presented to the regiment are Mary Gristy, sophomore from Wichita Falls, Co. A; Pat Knox, freshman, Austin, Co. B; Ann Perkins, sophomore, from Pampa, Co. C; Darlyne Wood, freshman of Lubbock, Co. E; and Beverly Brooks, junior, San Angelo, Co. F.

Following Thursday's drill, the Army ROTC assembled en masse in the Gym where the 19 candidates, nominated last week by the cadets, were introduced. The balloting followed.

Among the girls presented were Phyllis Martin, Jerry Reeves, Peggy Floyd, Joan Norris, Billie Fred Jameson, Judy LaFever, Helen Hodges, Freddy LaBorne, Donell Phillips, Ann Burleson, Jimmie Lou Brown and Ruth Ann Cummings.

Uniforms

The regimental sweetheart and company sponsors will be presented to the regiment by Regimental Cadet Colonel Everett L. Abernathie. The girls will be attired in military-type uniforms presented to them by the regiment.

The sweetheart and sponsors will represent their respective units in the Homecoming parade, the annual inspection and in other events throughout the year in which the Army ROTC will participate. The girls will also take part in the drill ceremonies each Thursday afternoon.

HALEY INJURES KNEE

J. Evetts Haley, director of the Institute of Americanism, is absent from the campus due to a knee injury. In a letter from Fort Smith, Ark., he explained to college officials that he was injured in a fall from his horse as he was roping a calf. He indicated that he will be unable to resume his duties for several weeks.

The President's office says that no replacement for Mr. Haley has been assigned.

Tech's Placement Service Acts As Liaison for Students, Jobs

"No employer is looking for mediocrity," says Mrs. Jean A. Jenkins, director of the Placement Service at Tech. In hiring new people for an organization, she explains, the employer naturally wants the best man or woman available.

"The student who couples good grades with an active campus life is the one who receives first consideration from the prospective employer," Mrs. Jenkins adds.

As director of the Placement Service, which, incidentally does not "place" anyone, but acts only as a liaison or clearing station between the student and the prospective employer, Mrs. Jenkins knows whereof she speaks. She talks to hundreds of students during the year and arranges hundreds of interviews between them and representatives of business and industries.

Work in Two Categories
The work of the office falls into two main categories. One, work with under-graduate students who need part-time jobs or summer work while at Tech. And second, assistance to upper-classmen who are seeking work which will give them a foot-hold in their chosen career.

The under-graduate needing part-time work fills out a form in the office, listing his qualifications and previous experience and indicating the type of work he desires. The employer, a local firm or individual, or possibly, a campus agency, notifies Mrs. Jenkins' office of an opening, indicating the type of work and the number of hours required. Placement then checks through their applications for the student who possesses the needed qualifications and notifies him of the opening.

Placement's work ends there. It is the student's responsibility to follow up the lead, arranging for an interview and submitting an application.

Local Jobs
Most of the jobs offered locally require from two to four hours per day. These include work in restaurants and cafeterias, and in warehouses, jobs as truck drivers, sales work, and office work for both men and women. The majority of the better office jobs go to upper classmen because of their greater experience.

"The man or the woman with the initiative to follow up leads is the one most likely to find em-

ployment," says Mrs. Jenkins. The process of bringing together prospective employers and graduating students, goes on throughout the school year. Hundreds of businesses and industries scattered throughout the United States send representatives to Tech. These representatives are here only once a year, and January, May and August graduates are notified so that they may arrange for interviews.

Interviews Through Year
These interviews which start in the fall and continue until late spring, often lead to summer work for Juniors, giving them an opportunity to try-out with a firm which appeals to them. The jobs, though related to permanent employment, do not obligate the company or the student in any way. Most of these openings are with large companies with a training program and save time in that program after the student has his degree.

These interviews are not for the purpose of accepting applications from the students, but are of an informative nature. The representative briefs the student

on the kind of work accomplished by his organization, the type of personnel needed, and the minimum qualifications. He answers any questions the student may ask concerning his organization.

Application Through Channels
Any student, interested in a certain industry, who finds that he is qualified, may make application through regular channels which are explained by the representative. The interview here places no obligation on student or company.

On file in the Placement Office are complete dossiers on every upper-classman, giving his grades, activities on and off-campus, instructors' valuation of his work and of his character and personality, plus other information which a prospective employer might desire. They will forward this information to the employer.

To further aid the student, Placement has in their files information on many large companies and suggestions to the student who is choosing his vocation. Also there is information on how to apply for a job.

Two Students Present Program

Dorman Stanley, senior business administration student, and Hardy Clemons, arts and sciences senior, presented the program at a weekly luncheon of the American Business Club last week.

The program included a typical radio skit, a musical recital, and two monologues.

HOME EC ADDS TO STAFF

Three new faculty members have been added to the Home Economics Division.

They are: Arne William Randall, head of applied arts; Mrs. Hattie Charlotte Camp, instructor of child development and family relations; Miss Alberta Morton Curry, teaching fellow of clothing and textiles.

Janeway Returns from Meetings

Ray C. Janeway, Tech librarian, returned last week from Mineral Wells where he attended the planning committee for the 1954 District 6 meeting of the Texas Library Association. He is chairman of the district planning committee. He also attended the Texas Library Association's district meeting in Jacksonville.

Press Club Meets Tomorrow

Officers of the Press Club will be elected at 7 p.m. tomorrow in 3208. Membership is open to anyone interested in journalism activities, Charlie Maple, last year's president, announced today.

Exes Association Re-elects Nolen Swain as President

Nolen Swain was reelected president of the Lubbock chapter of the Texas Tech 1949-51 Exes Association at a recent meeting.

Other officers elected for the year were: Richard Dickey, vice president; Mrs. Tim Hatch, secretary; Ed Cosby, treasurer; Mrs. W. G. McMillan, Jr., reporter.

Plans were discussed for Homecoming and for a social function to be held at a later date.

Dr. Fain Joins Alamos Staff

Miss Patricia Jo Fain, who received a doctor of philosophy degree in chemistry from Tech this year, has joined the Los Alamos staff of the University of California.

Miss Fain, who will work in the laboratory's GMX Division, is a member of the American Chemical Society.

DELEGATES TO MEET

William Breckenridge left today for Clemson College, S. C., where he will represent Tech at the three-day national convention of Tau Beta Pi, honorary engineering fraternity.

The senior electrical engineering student from Fort Worth is a member of the national finance committee.

It's easy as pie!
No entry blanks!
No box tops!

You can cash in again and again!
C'mon, let's go!

TWICE AS MANY AWARDS THIS YEAR

MAKE \$25!

WRITE A LUCKY STRIKE JINGLE

based on the fact that LUCKIES TASTE BETTER!*

From well-known towns to parts unknown,
Most any place you go -
It's Lucky Strike for better taste
With people in the know!

Easiest \$25 you ever made. Sit right down and write a 4-line jingle based on the fact that Luckies taste better. That's all there is to it. More awards than ever before!

Read the jingles on this page. Write original ones just like them—or better! Write as many as you want. There's no limit to the number of awards you can receive. If we pick one of your jingles, we'll pay you \$25 for the right to use it, together with your name, in Lucky Strike advertising.

Remember: Read all the rules and tips carefully. To be on the safe side, clip them out and keep them handy. Act now. Get started today.

My meals, folks say, are flavorful -
They're seasoned perfectly.
For better taste, it's Luckies, though,
That win the cheers - not me!

CLIP OUT THIS INFORMATION

RULES

1. Write your Lucky Strike jingle on a plain piece of paper or post card and send it to Happy-Go-Lucky, P. O. Box 67, New York 46, N.Y. Be sure that your name, address, college and class are included—and that they are legible.
2. Base your jingle on any qualities of Luckies. "Luckies taste better," is only one. (See "Tips.")
3. Every student of any college, university or post-graduate school may submit jingles.
4. You may submit as many jingles as you like. Remember, you are eligible to receive more than one \$25 award.

*TIPS

To earn an award you are *not* limited to "Luckies taste better." Use any other sales points on Lucky Strike, such as the following:
L.S./M.F.T.
Lucky Strike Means Fine Tobacco
Luckies taste cleaner, fresher, smoother
So round, so firm, so fully packed
So free and easy on the draw
Be Happy—Go Lucky
Buy Luckies by the carton
Luckies give you deep-down smoking enjoyment

Intramural Football

Tennis Tournament

Play gets underway in intramural sports program with the following football scheduled: Sigma Nu vs. Alpha Epsilon, Kappa Pi Kappa Alpha, Phi Delta Theta, and Phi Delta Psi. Kappa Alpha Omega vs. Alpha Tau Omega.

Wednesday was the day which to turn in the teams and play on the dormitory. Student leagues was not on Tuesday.

Officials from the physical education department are taking sports

Wednesday, Oct. 7, will register for an intramural tournament in football Monday. Coaches of students may be Phillips, director of sports, at the Gym.

The tournament is for students except varsity players who tried out last year. The first place winners.

A & M —

—the largest football West Texas history— Jones Stadium at 8 p.m. for the invasion of the hated Texas A. & M. Conquerors of Kentucky Georgia 14-12 and tied on 14-14. The Aggies only a touchdown at the end than Texas Tech. Raiders in a grid battle got a long way in defeating "Darkhorse" champion Southwest.

Victorious in three games—over West Texas 46-7, Texas Western, 27-0, Oklahoma A&M, 27-0. Tech's Big Red will for another upset in the renewal of the bitter rivalry.

Building Defeated
As game time neared Witt Weaver and his building against the stack attack which featured balanced line. The Ca sent a flanker to the left to increase the pass which is led by Quarterback Ellis second ranking pass.

Passing Shows Imp
While one group of Raiders been working on defense units have been concealing offense. Much emphasis placed on the Tech stack, which has shown ment.

All three Raider quarterbacks Jack Kirpatrick, Jerry and Buddy Hill—have been, and looking in the process.

Ellis Is Threat
Biggest threat the Aggies will have is Ellis completed 50 percent passes he has thrown yards and three touchdowns together, the Aggies only five touchdowns. Importance is shown clear.

But last week the game in which the Aggies counting showed up as Billy Peterson, Joe Boring, Don Combie Magourik and never showing up well.

Team In Shape
Coach Weaver is expected work this week in to keep the squad in go the Oklahoma A&M. Some of the riders to ing in that game and plenty of battered playing this week.

Guard Don Gray was from the hospital Sunday. Vic Spooner was released. Both were suffering from ailments but have recovered. Spooner is leading again this week.

This may be the open Raiders have been waiting for. It is going to the same \$70,000 and the press has been on the confidence board holding back on. Al year and next year show better. Maybe 1953 or them in the SWC.

Intramural Football Starts Sunday; Tennis Tournament Deadline Oct. 19

Play gets underway in the intramural sports program Sunday, with the following football games scheduled: Sigma Nu vs. Sigma Alpha Epsilon, Kappa Sigma vs. Pi Kappa Alpha, Phi Kappa Psi vs. Kappa Alpha, and Phi Delta Theta vs. Alpha Tau Omega.

Wednesday was the last day in which to turn in the names of the teams and players. Information on the dormitory and independent leagues was not complete late Tuesday.

Officials for the games will be physical education majors and students taking sports officiating.

Wednesday, Oct. 4, is the deadline to register for an intramural tennis tournament in which play will start Monday, Oct. 19. Interested students may see George Philbrick, director of intramural sports, at the Gym.

The tournament is open to all students except varsity lettermen or players who tried out for the varsity squad last year. Trophies will be given to first and second place winners.

A & M — the largest football crowd in West Texas history will pack Jones Stadium at 8 p.m. Saturday for the invasion of proud, undefeated Texas A. & M.

Conquerors of Kentucky 7-6 and Georgia 14-12 and tied with Houston 14-14, the Aggies will rate only a touchdown at the most better than Texas Tech's host Red Raiders in a grid battle which will go a long way in determining the "Darkhorse" champion of the Southwest.

Victorious in three straight games—over West Texas State, 40-7, Texas Western, 27 to 13, and Oklahoma A&M, 27 to 13—Texas Tech's Big Red will be pointing for another upset in this 13th renewal of the bitter rivalry.

Building Defense — As game time neared, Coach Don Witt Weaver and his staff were building against the sharp Aggie T attack which features an unbalanced line. The Cadets often send a flanker to the right or left to increase the passing game, which is led by Quarterback Don Ellis, second ranking passer in the nation.

Passing Shows Improvement — While one group of Raiders have been working on defense, other units have been concentrating on offense. Much emphasis has been placed on the Tech passing attack which has shown improvement.

All three Raider quarterbacks—Jack Kirkpatrick, Jerry Johnson and Buddy Hill—have been tossing arial, and looking pretty good in the process.

Ellis Is Threat — Biggest threat the visiting Aggies will have is Ellis, who has completed 50 percent of the 57 passes he has thrown for 322 yards and three touchdowns. Altogether, the Aggies have scored only five touchdowns, so Ellis' importance is shown clearly.

But last week the ground game on which the Aggies had been counting showed up, with such speedsters as Billy Pete Huddleston, Joe Boring, Don Kaechtic, Connie Magourik and Johnny Salzer showing up well.

Team In Shape — Coach Weaver is avoiding contact work this week in an attempt to keep the squad in good physical shape and to let the wounds from the Oklahoma A&M game heal. Some of the raiders took a bruising in that game and there are plenty of battered players working this week.

Guard Don Gray was released from the hospital Sunday and End Vic Spooner was released Monday. Both were suffering from stomach ailments but have recovered. The co-captains are leading the team again this week.

This may be the opening that the Raiders have been waiting for to make another bid for Southwestern competition. It is guessed that this game is going to gross more than \$70,000 and the small gate proceeds have been one thing that the conference board has been holding back on. Also Tech is fielding one of its best teams this year and next year should be even better. Maybe 1955 or 6 will see them in the SWC.

SPORTS STATIC

By HARRY NOBLE

The Raider underdogs sure gave those Ocies a major pain in the neck with their 27-13 victory last week. Jack did a very fine job of quarterbacking along with his two TD's and three extra points. Jerry Walker and Ray Howard played a good game in the forward wall.

SS — The Raiders will be at home this week to show the local fan just exactly how they play ball. They will meet some more Aggies but this time they are from Texas and may not be so easy to handle.

SS — The coach of the Doak Hall intramural football team said that Doak had the men and the experience to win the tournament and was just waiting to get on the field to prove it. He may do it, too, because he has 35 men working out every afternoon.

SS — Coach Weaver received a very nice write-up in the Fort Worth Star Telegram Monday. The Telegram said that the Raiders looked like they were ready to do a little raiding now after three years under the Weaver regime.

SS — Don Lewis is still the leading ground gainer for the Raiders with 161 yards in 16 tries and is second in scoring with 18 points. Jack Kirkpatrick heads the scoring list with 24 points.

SS — Was over talking to Coach Weaver yesterday and he said that the Raiders were going to have their hands full with the Lone Star Aggies. "The Aggies have one of the best passers that we will meet this year," said the head mentor.

SS — The Aggies will be wearing white jerseys with maroon letters in this tilt.

SS — One of their players, Billy Pete Huddleston, was the fastest man in high school football and he still hasn't slowed down. The Aggies are depending mostly on the aerial attack of Don Ellis who until last week was rated the No. 1 passer in the nation.

SS — Besides their football team they will also bring a fencing team which will meet the fencers of Tech. This is to take place Saturday afternoon.

Kirkpatrick Leads Border Scorers

Leadership in team and individual statistics is spread evenly this week among the seven football members of the Border Conference.

From the standpoint of success, Texas Tech rides high atop the heap as the league's only undefeated eleven. But in the facts and figures department the Red Raiders must share equal billing with the other conference outfits.

In fact, Hardin-Simmons provides the most team and individual statistical leadership despite its fifth-place position in the standings. As a team the Cowboys lead in passing with 304 yards and in total offense with 991. And individually H-S U. boasts Dee Windsor as the leader in passing—182 yards—and total defense—189.

Texas Western, second-ranked team in the conference, leads in punting, with an average of 38.6, and in pass completions with 20. Too, the Miners' Gene Odell tops the BC pass receivers with nine catches.

Tex pace the conference in rushing with 805 yards. And Jack Kirkpatrick of the Raiders leads the loop in scoring with 24 points. Other individual statistical leaders include: Ken Cardella, Arizona U., rushing, 163 yards; and Robert Wheelchel, West Texas, punting, with an average of 40.2 yards per kick.

EX SPEAKS TO AGS — Raymond King, of the Lubbock Cotton Oil Company, spoke to members of Blood and Eridle, honorary animal husbandry club, at their regular meeting Monday night.

New members of the club will be initiated the fourth Monday in October. Fred Boren, assistant professor of animal husbandry, is sponsor of the organization.

Intramurals start next week and everyone should get on a team and try to win their dorm or club a trophy. Mr. Philbrick has spent a lot of his time to promote these intramurals and they are for the students benefit and everyone should take advantage of it.

Congratulations are in order to Mr. and Mrs. James E. Lawlis on the birth of a son, and to Mr. and Mrs. Ronald Rushing for their baby daughter. Both fathers are students at Texas Tech.

Insurance Company To Print Directory

The National Farm Life Insurance Company with its home office in Fort Worth went into the publishing business temporarily for Tech—and for free.

Any income from book sales goes to the Student Union Building and to a scholarship fund. The insurance company is giving Tech its 1953 student directory, a 130-page off-set book of names, addresses, and telephone numbers. The directory also contains data on the faculty and employees of the college.

Virgil Young, Lubbock district

manager, said Tuesday a "sampling" number (500) of the books would be on the campus Wednesday with the rest (1,500) expected by Saturday.

Young said the books would sell for 25 cents, the lowest price charged for the directory at Tech. Forum, senior women's service sorority, did the alphabetizing, and the Aggie Club will handle off-campus sales. The bookstore will be the main distribution center for students and the store-room will handle sales to faculty and employees.

Ruby Jo Popejoy, part-time secretary in the office of the Dean of Student Life, typed the 6000-odd names in alphabetical order for the off-set print job.

Dean James G. Allen, in a statement on the first page said: "The proceeds from the sale of the Student Directory for 1953-54 will be used to set up a National Farm Life Insurance Company scholarship fund. The printing cost of the directories is being defrayed by that company."

The company will publish—free—a directory for each semester for three years, according to its present contract. James E. Beights, assistant district manager who helped get the directory together, is a Tech ex. Dean W. L. Stangel of the Division of Agriculture is chairman of the board of directors for NFLICO.

Music Producers May Enter Contest

Can you and your buddies produce music by tapping on glasses or bells? Are you in a band that blows on combs or that plays saws?

It so, you might be interested in the tenth annual Philadelphia "un-ique outdoor" Music Festival on June 11. Any possible entrants have been asked by the Lubbock Chamber of Commerce to file request to compete.

The Kilgore, Texas, Rangerettes were featured in the 1952 festival, and over the years the series has featured everything from the New York Philharmonic Orchestra and the U. S. Army Band to the Benny Goodman Quartet, "Sugar" Chile Robinson and similar "combos."

Approximately 80,000 persons attend the festival each year.

Pipeline Company Presents Machine

A high-pressure gas receiver has been given to the Tech petroleum department by the Trans-Continental Gas Pipeline Corporation of Houston.

The new equipment will be used in the high pressure gas measurement and regulation lab to study problems concerning the flow of gas through pipelines and the regulation and control of natural gas.

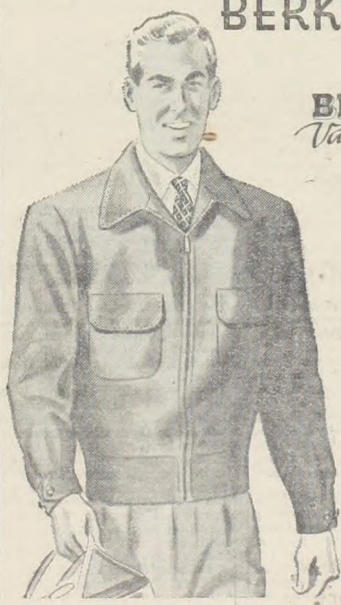

TECH C OF C

Students interested in a softball diamond on the Tech campus, for which the Tech Chamber of Commerce has allotted funds, will be welcomed at meeting of the organization at 7:30 o'clock tomorrow night, according to E. J. Tarbox.

Progress of plans for the diamond will be among the matters discussed.

Scholarship Awards to 71 Students Announced

Awards Range from \$25 to \$2,000; Presented in 'Lump Sum' or Installments

Awards of scholarships with a total value of approximately \$152,000, ranging from \$2,000 to \$25, have been made to 71 students, according to information released by the Faculty Committee on Scholarship and Awards and by division and department heads.

Scholarships are either in lump sum awards or in monthly, semester, or yearly allocations, depending upon the wish of the founder. Recipients include high-ranking high school graduates, music, agriculture, park management and speech students.

Hiram Parks Scholarship

Marie Ramos, freshman from Shallowater, has been awarded the Hiram Parks Scholarship. This scholarship, with a total value of \$2,000, is given to a student of Mexican descent, who is a graduate of a high school in the Panhandle or South Plains area of Texas. The student is given \$500 each year provided he maintains a satisfactory scholastic and citizenship record.

A \$1,200 grant from the Goldthwaite Tex Toro Company of Fort Worth has been awarded to Chester C. Jaynes, graduate student from Lubbock. This is the second grant that Jaynes, a part-time instructor in agronomy, has received from this company. The scholarship is paid in monthly installments.

Two Texas Pacific Coal and Oil Company scholarships of \$750 each have been awarded to Robert G. Hamilton, freshman from Plains, and Connie A. Pruett, sophomore from Andrews. The stipend is payable in 10 installments of \$75 each, distributed equally between the fall and spring semesters.

Southwestern Public Service Award

A scholarship valued at \$750 from the Southwestern Public Service Company for students majoring in mechanical engineering has been awarded to James E. Medford, junior from DeKalb. This award is in six installments of \$80 each and installments of \$135 on Oct. 1 and Feb. 1.

Gevard D. Koeijmans, senior who formerly lived in Belgium, is the recipient of the \$750 Magnolia Petroleum Company scholarship for students majoring in petroleum engineering.

A senior from Lubbock, John L. Vernor, has received the \$500 Atlantic Refining Company Science and Engineers scholarship for students majoring in mechanical engineering.

The Hughes Tool Company scholarship valued at \$500 has been awarded to Jimmy D. Medlin, senior from Grand Junction, Col.

A transfer from Arlington State College, William G. Breckenridge, was awarded the General Electric Company scholarship worth \$500. Breckenridge, a senior, was selected from applicants in colleges and universities of the Southwest.

John B. Strubling, graduate student from Rotan, was awarded the William L. Ellwood Fellowship. This award which is in the amount of \$350 is given to a student majoring in animal husbandry.

Sears-Roebuck Scholarships

A total of eight freshman girls have been awarded the Sears-Roebuck Foundation Scholarships in Home Economics. These scholarships, which are valued at \$100 each, are awarded for the long session and are renewed for the second semester provided the holder of the scholarship maintains a satisfactory record.

The recipients of the Sears home economics scholarships are: Shirley Jean Cocanougher, Friona; Gwendolyn Glown, Lubbock; Genevieve McGuire Seymour; Shirley Metcalf, Aspermont; June Oden, Lubbock; Mrs. Sue Carol Orr, Lubbock; Barbara Thurston, Plainview; Billie Jean Ward, Monahan.

The Lubbock Panhellenic Society scholarship of approximately \$75 was awarded to Belva Sullivan, sophomore from Lubbock. This scholarship is given to the sophomore girl majoring in home economics who made the highest grades in all her work during her freshman year.

Dr. Gene Hemmle, head of the music department, announced the

names of the winners of six music scholarships totaling \$425. They are: Don Elliott, premedical student from Lubbock who was awarded the \$100 South Plains Music Teachers Association scholarship; Bobby Dean Smith, Seagraves freshman, winner of the \$25 Seagraves Music Club scholarship fund; Mrs. Irma Lota Hopp Knowles, Lubbock sophomore awarded the \$60 Lubbock Music Club scholarship.

Three Allegro Music Club scholarships totaling \$210 were awarded. The recipients were: Billy Rex Cormac, sophomore from Amarillo; Alice Ann Yates, junior from Plainview; Alma Jean Porter, freshman from Floydada.

Marilyn Sneath, Plainview sophomore, has been awarded the \$100 Lubbock Chapter of Alpha Lambda Delta scholarship. The student's grade point average and leadership in campus organizations and activities were considered in awarding this scholarship.

Speech Scholarships Announced

A total of five Speech Scholarships of \$100 each have been awarded to the following freshmen: Jeraldine Denton, Childress; Bettie Sue Doggett, Seminole; Shirley Du Priest, Waco; Donell Phillips, Plainview; Sandra Wright, Odessa.

Janece Doggett, junior from Pampa, was awarded the \$80 Mary W. Doak Scholarship and Mary Louise Woods, senior from Lubbock, received the \$50 Business and Professional Woman's Award.

Dunlap Scholarships totaling \$2,100 in value have been awarded to 14 freshmen. These awards of \$150 each were made to: Gladys Bain, Lubbock; Arvella Barrick, Abernathy; Emmitt Booher, Shallowater; Patricia Byrne, Littlefield; James Clifton, Slaton; Frances Copeland, Lockney; Patricia Derrick, Idalou; Alva Jean Ethridge, Ropesville; Harry Love, Anton; Glenda Moses, Ralls; Edward Noble, O'Donnell; Helen Norris, Plainview; Willa Vee Sage, Lubbock; Janet Webster, New Deal.

Hulan Preston, freshman from Lamesa, was awarded the M. L. Sheppard Memorial Scholarship of \$200, and David Clark, junior from Lubbock, received the \$100 David Storey Memorial Scholarship.

The LaVerne Noyes Scholarships went to two Tech students: Anne Witty, Hamilton, freshman, who received \$60, and Robert Culeman, junior from Lubbock, who received \$30.

Agriculture Awards

The Sears-Roebuck Foundation Scholarships in Agriculture went to 12 freshmen and one sophomore. The sophomore is Bobby Ray McGehee of Lampasas who received \$250. The freshmen receiving \$150 are: B. W. Duncan, McLean; Monte E. Griffin, Lamesa; Jerry L. Jetton, Weinert; Allan D. King, Merkel; Charles A. Nelson, Winters;

Richard L. Ridgeway, Brownfield; Denell Rogers, Lamesa; Bill Sherman, Lockney; Jimmy D. Smith, Roscoe; Joe N. Stephens, Lamesa; Jimmy M. Thompson, Wellington; Travis Zelensy, Artesia, N. M.

The \$30 Barton Foundation Scholarship, which is awarded on the basis of outstanding scholastic achievement and citizenship, was given to Dale Basye junior from Lubbock.

There were eight students who received the \$125 Sophomore Scholarships. These scholarships which are made available from the proceeds from the sale of freshman caps are given to students who have completed the freshman year with 30 semester hours or more, a minimum 2.00 grade average, and a high quality of citizenship. Students who received these scholarships are: Walter R. McDonald, Lubbock; Robert Faulkner, Odessa; Millie Hay, Lubbock; Dan Green, Levelland; James C. Wine, Amarillo; James H. Knight, Odessa; Monty Wise, Quitaque; Royal Hagerly, Pass Christian, Miss.

Basso to Appear On Artists Course Concert at 8 P.M.

Jerome Hines, Metropolitan Opera Basso, will open the 1953-54 Artists Course series at 8 o'clock tonight in the Lubbock High School auditorium. Lawrence Hart, accompanist, will play three piano solos.

Hollywood-born Mr. Hines started voice studies at the age of 16 with Gennaro Curi. Two years later, while a freshman at the University of California, he made his appearance in "Cavatore" with the Civic Light Opera Co. As a result of his performance he was engaged by the San Francisco Opera Co. where he made his debut the following season as Monterone in "Rigoletto." Unwilling to leave school where he was majoring in chemistry and mathematics, Hines managed to combine a full-time college program with his voice training.

When he received his B. A. degree in 1943, he had already appeared with the Los Angeles Philharmonic and at the Hollywood Bowl. From graduate studies in physics, he took time off to sing in opera festivals in Montreal and Central City, Col., as well as with the New Orleans Opera.

Winner of the Metropolitan Opera \$1,000 Caruso Award and the first Cornelius Bliss Scholarship, he made his debut with the Met in the 1946-47 season in "Boris Godunoff." Since that time Hines has sung 30 roles there, including that of Swallow in the Metropolitan's premiere of "Peter Grimes," Gurnemanz in "Parsifal" and both King Philip and the Grand Inquisitor in "Don Carlo."

Hurd Will Finish Fresco This Fall

Peter Hurd will return to Lubbock in November to continue work on the fresco paintings in the Museum. His assistants, John Meigs and Manuel Acosta, and his wife and son will accompany him.

His work will be concentrated on five panels. The town builder and cattleman will be painted in the first panel to the right of the South Plains Gallery. In the next panel an early-day cowboy will be painted visiting with the rancher, portrayed in the adjacent part. Above the south door will appear the school teacher and to the right of the south entrance will be the pioneer woman.

Mr. Hurd plans to complete these panels this fall. Everyone is invited to watch the progress of the fresco, according to an announcement from the Museum director's office.

Poetry Contest Open to Students; Entries Must be Made by Nov. 5

Students interested in entering the National Poetry Association's college students' poetry contest have until Nov. 5 to submit manuscripts. Any student attending junior or senior college is eligible. There is no limitation as to form or theme.

Each poem must be typed on printed on a separate sheet and must bear the name and home address of the student, as well as the name of the college he attends. There are no fees or charges. All work will be judged on merit alone. Entries should be addressed to the association at 210 Selby Ave., Los Angeles 34, Calif.

Church Breaks Ground for Home

Student members of the Churches of Christ were invited today by John B. White to attend the ground-breaking ceremonies for the first unit of the brick cottages planned for the Children's Home of Lubbock to be held at 2 p.m. Sunday. The institution is to be located two miles east of Lubbock on U. S. Highway 82.

Theta Sigs Hold Reporting Clinic

A reporting clinic, including reporters from some 240 campus organizations, will be held at 5 p.m. Thursday, Oct. 15 in J208.

Purpose of the clinic is to assist reporters in getting club news into The Toreador in the proper manner. Instruction sheets will be given each club representative present, and brief talks on reporting techniques and deadlines will be presented by Ralph Shelton, Toreador editor, and Dodd Vernon, assistant professor in charge of reporting courses.

Theta Sigma Phi, national honorary fraternity for women in professional journalism, is sponsor of the clinic. A similar type clinic was conducted two years ago.

All club sponsors and presidents are urged to see that at least one representative from their club is present at the meeting. Molly Jordan, Theta Sigma Phi president, announced.

Graduating Engineers To Meet

All engineering seniors who plan to graduate in May will meet in the engineering auditorium at 5 p.m. Friday for a discussion of assistance which the placement office gives to graduating students, announced Dean Holcomb today.

FLAKE BARBER, '53 agricultural education graduate, is employed with the State Department of Agriculture in the Division of Plant Quarantine, Lubbock.

'Road Map of Life' Necessary, Says Pres. E. N. Jones

Persons "not living as Robinson Crusoes" need education as a "road map of life," President E. N. Jones said at the first student convocation of the semester.

The convocation was held in the Gym, Wednesday, Sept. 30, with election of class officers following. Members of the Student Council and leaders of the administrative staff of the college were introduced to new students.

After a number by the Texas Tech Concert Band, under the direction of Dr. D. O. Wiley, band director, Dr. A. W. Young gave the invocation. Dr. G. E. Giesecke, academic vice president presented Dr. Jones, who discussed what there is in education other than book-learning.

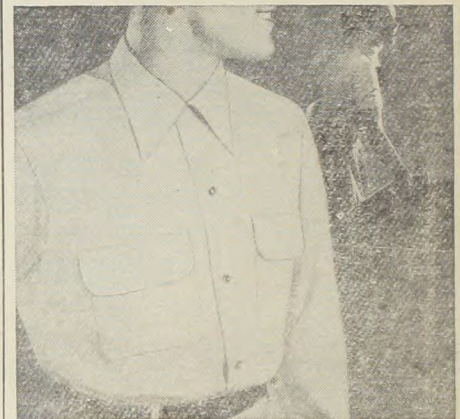

The president expressed the hope that each student will evaluate his education "not in terms of what he gets from it, but in terms of what he gains by it."

J. C. Chambers, president of the Student Association, discussed student government and encouraged student participation in campus elections.

College Men Look "Smoother" Thanks To Arrow Gabanaro

Trim-Fitting Sports Shirt Furthers New Trend To Neatness

One of the most marked changes in campus fashions this year is the switch to the neat sports shirt that fits as well . . . looks as trim . . . as a regular shirt. This change has been brought about by Arrow Gabanaro—a washable rayon gabardine sports shirt in exact collar sizes and sleeve lengths . . . Sanforset® to keep its perfect fit. Available at all Arrow dealers!
