

Former Techsans Join Flying Devils; Replace Burma's Flying Tigers

# THE TOREADOR

Beauty Petitions To Be Presented To Council At Next Meeting Of Group

## The Toreador's Candidate

(Drawn for The Toreador by Bill Evans)

### -For 1943 La Ventana Beauty

No, she is not a beauty, but she has a 2.98 grade point average and as long as scholarship remains a criteria for the judgement of beauty, she will necessarily be a strong contender for full page honors in the 1942 La Ventana.

## Weekly War Films Begin Monday Night

Twenty Week Program Opens With "Target For Tonight"

"TARGET FOR TONIGHT", first of a series of patriotic films, was shown to students and faculty members in the Chemistry auditorium, Monday, October 26.

The film was the story of six men who flew a British bomber to Germany and home again. This is one of the best actual war pictures. The men who were pictured are pilots, observers, gunners, and ground staff of Bomber Command, Royal Air Force. The film was made in England with the cooperation of the R.A.F. Thomas F. Wiesen, acting head of Division of Commerce made a short speech.

Persons present were able to purchase saving stamps and bond order blanks. Sale was under the supervision of Haskell Taylor. No admission was charged and buying got war savings was not compulsory.

Similar programs will be presented each Monday night at 8 o'clock for the next 20 weeks. The films are approximately one hour in length.

These sound films, some of them in color, are supplied by the government and serviced free by the Texas Technological college Film Library. They will be received each week from the office of Information Affairs and the Office of War Information. Many of the films will deal with up-to-the-minute information on war activities in the various areas. Gov. Coke Stephenson and the State department of education are sponsoring the program.

Sponsorship of these programs are being made in the hopes that the people back home will be able to realize what is happening on the war front.

Students and faculty are urged to attend. Notices of specific programs will appear in advance in The Toreador.

The films subjects included: "Mexico Builds a Democracy," "Air Raid Warden," "Western Front," "Winning Your Wings," "The Cassions Go Rolling Along," "Ring of Steel," "Argentina," "Democracy in Action," "Our Neighbors Down the Road," "Men and the Sea," "Ploughs," "Planes and Peace," "Women in Defense," "Citizen Army," "The Marines Have Landed," and "Escape."

## Ellsworth Speaks To Lubbock High School BA Class

J. O. Ellsworth, dean of the Division of Commerce, spoke before two classes in business administration of Lubbock High School, Monday morning, October 26.

The subject of his speech was Personal Business in which he pointed out the basic principles of being a successful business man or woman.

It is the policy of the Division of Commerce to present guest speakers who are heads of large business concerns of Lubbock to speak before the business administration classes. Friday, October 30, George Kuykendall, owner of the Kuykendall Chevrolet Company of Lubbock will speak to the freshman commerce class.

# BEAUTY CANDIDATES ARE CUT TO 32 LAST SUNDAY

## Marine Officers Due Tomorrow

### Reserves Opened For Enlistment While On Campus

**Captain J. L. Clark Heads Staff; Office In Federal Building**

**CAPTAIN John L. Clark, United States Marine Corps Reserve** and staff of a Recruiting party to enlist college students, will be at the Post Office Building, room 217, October 29.

All men interested in enlisting in the Marine Corps Reserve, if they have their papers prepared and are enlisted in college, may complete enlistment that day and avoid the personal expense of a trip to Oklahoma City.

Men students interested in joining this reserve must be over 17 and not over 27 upon graduation. The papers needed before enlistment are as follows: Letters of recommendation as to moral character and qualities of leadership from the dean of their division, one letter from a member of the faculty and letters from at least three citizens of good standing in the applicants' home community. The persons writing the letters of recommendation must use stationery with letterheads.

If the student is a minor he must present to the recruiting officers a written consent from his parents. It is important that all students when writing for reference letters, parent consent, or other such papers shall have the writers of such documents give the student's full and exact name.

A birth certificate and a recent photograph approximately 2 1/2 x 3 inches unmounted, must be presented to this recruiting party.

For full data and instructions regarding these required papers the student should consult Ser. Robert B. Goode, United States Marine Corps Reserve, room 217 Post Office Building at once.

Sergeant Goode will furnish the blanks and give further advice and information to students so that they may have all papers, references, etc., ready for presentation to the Recruiting Party on Thursday, October 29.

In a personal notice to men students, Dr. H. L. Kent, director of Army and Navy Reserve Corps of Tech, stated:

"If you are interested in the Marine Corps Reserve, it will save you time and money to take advantage of this opportunity for enlistment at Lubbock without having to pay your expenses to Oklahoma City and return."

In the receiving line were Mrs. Mary W. Doak, dean of women, Miss Margaret W. Weeks, dean of the division of home economics, Moreene Roberts, Freshman Honor society president, Mrs. Underwood, Evelyn Cooper, Ophelia Mae Beall, Reta Norman, Mrs. Clifford B. Jones, Mrs. Eleanor Chittwood, and Mrs. Roscoe Wilson.

Mrs. William G. Dings and Miss Martye Poindexter, club sponsors, presided at the serving table. Monda Hamilton, Barbara Blanks, Carolyn Reynolds, and Marian Chandler furnished piano selections during the evening.

Those in the house party were Jean Powell, Anna Baker, Helen Davis, Margaret Leonard, Oleta Cummings, Betty Herring, Helen Ball, and Betty Grace Pugh.

### Girls To Have Vice Versa Dances Halloween Night

Come Halloween night and Tech girls will have a chance to watch their boy friend worry about getting "stuck" they can ignore the pleading glances of those lowly males who never tag them, and pay off some of those obligations that, if they've been lucky, have piled up.

Dances will be held from 9 to 12 p.m. in both the girls dormitories. Residents may either bring dates or go stag. Music for this girl's tag dance will be furnished by nickelodeans.

### Tech Religious Emphasis Week Plans; Are Made

Religious Emphasis Week will be jointly sponsored by the Tech Student Religious Council, Student Council and religious groups on the campus this year and will be held from Nov. 30 until Dec. 6.

The Student Council voted to use \$50 in carrying out the plans for the week and are behind the idea one hundred per cent.

The Tech Student Religious Council is trying to secure a guest speaker for the occasion, but have not yet been able to complete their plans.

During Religious Emphasis Week there will be a general Convocation on Monday, Nov. 30 at 11 a.m. Services will be held each evening on the campus for students who wish to attend.

Homecoming plans were approved by the Administrative Council, it was announced by P. B. Shannon, student council president. Plans include a pep rally and bonfire on Friday evening, a Student Convocation and Homecoming parade on Saturday morning, and the annual Homecoming football game on Saturday afternoon.

### Rifle Team Will Enter Contests

"No rabbit shooters allowed," says Captain Weston. Boys' Rifle team will be chosen from sophomore, junior and senior members of the ROTC unit. Freshmen with previous experience such as shooting on high school teams are eligible, but snipping off prairie dog tails at 40 paces or clipping rabbit ears is no go for this squad.

The rifle course is non-credit. It is taught for those boys who enjoy the sport and want to become good marksmen. The hours of instruction will be scheduled to suit the students' time. Competition with other schools will be carried on by mail. Each school records its shooting score and exchanges with the other schools. At the end of the contest the school with the best score is announced as victorious. The schools competing this year have not been announced.

### ROTC Students To Train With Wooden Rifles As Metal Shortage Hits Home

Wooden rifles take the place of real guns in the ROTC department. The guns that have been used for drill were taken over by the government, and the wooden ones replace them. There are about 100 wooden guns in the racks.

### Band Members To Sponsor Dance In Textile Building

Members of Tech bands, A and B, will have a dance Friday night. All band members and dates will dance to recorded music in the Band Hall, Textile building. The dance is scheduled to start at 8:30.

### Phi Psi Elects Pledges

Phi Psi, honorary fraternity for Textile Engineers, names six pledges elected at its last meeting. Those elected to pledge are Morone O. Allen, Jack H. Razorsky, Carlos Rios, Charles L. Harris, Raymond Dehnel, and William T. Settle.

### Elmer "The Great" In China—Four Former Students Are In "Flying Tigers"

FOUR FORMER TECHSANS are now fighting with the "Flying Tigers", the United States Air Forces in China. The "Flying Devils" took over when the "Flying Tigers" were disbanded there last July. The four Techsans, all in the same squadron, are Elmer Tarbox, George and Helen Walker, two new members who were initiated in a sunrise ceremony Saturday morning.

Harris withdrew from Tech in the summer of 1940 as a senior. Cupp received a bachelor of science degree in agriculture in June, 1941.

### Constitutional Amendment To Be Voted On

**Commerce Division Students Will Get Vote Under Proposal**

AN AMENDMENT to the student constitution allowing a voting representation of the Commerce division is being voted upon in this week by members of a student body. Rather than call a convocation, P. B. Shannon, student council president, has announced that a vote will be taken at mealtime in the four dormitories.

For a convocation to transact business, a quorum of fifteen per cent of the student body must be present, since dormitory inhabitants constitute approximately 40 per cent of the student body the council deemed it advisable to take the vote rather than call a special meeting of the student body.

The section to be amended reads as follows: "All legislative power shall be vested in a Student Council, consisting of one senior, one junior, and one sophomore from each of the four main divisions, namely: Agriculture, Arts and Sciences, Engineering, and Home Economics.

Due to the addition of the Division of Commerce this year, the student council wishes to change this section to recognize the new division. When, or if, the amendment is passed the section will read as follows:

All legislative power shall be vested in a Student Council, consisting of one senior, one junior, and one sophomore from each of the five main divisions, namely: Agriculture, Arts and Sciences, Commerce, Engineering and Home Economics.

A representative from this division has been present at this meeting of the council previous to this date, but has not been allowed to vote. After the section is revised the new member will be given a vote in the affairs of the college, and can better represent his division.

### Forum Members Hear Dr. Blitz

Dr. Julian Paul Blitz, head of the music department at Tech reviewed the opera "Katman" at the first Preside Forum of the year Sunday afternoon in the play room of Women's Dormitory No. 2.

Dr. Blitz played records and discussed the first act in detail, then gave a brief review of the rest of the opera.

Forum members had dinner together at noon Sunday at Women's Dormitory No. 2. Special guests were Mrs. Mary W. Doak, and Dr. and Mrs. Blitz. Members attending were Frances Gary, president, Ermael Floyd, Kathleen West, Elizabeth Young, Evelyn Cooper, Georgia Sue Wharton, Mary Meon Stangel, Doris Nell Tippitt, Betty O'Mara, Ophelia Mae Beall, Erlene Dowell, Willouise Humphries, Clara Hunsucker, and Moreene George and Helen Walker, two new members who were initiated in a sunrise ceremony Saturday morning.

### Hairdress Style Through The Ages Shown In Museum

Hair styles of men and women seemed to have changed sexes since 750 B.C. Men wore their hair long and curled then, and the women's hair was cut close to their heads. At least, this is evident in the Etruscan plaques dating back to this period that are now on exhibit in the West Texas Museum, on Tech campus.

These plaques are made out of wood that was treated with a secret formula of that day. A thick coat of slate gray paint is over this wood. In places, this has worn off and the material shows through.

Little is known of the Etruscan civilization. They lived in Etruria, now Tuscany, about the time Rome was founded. They were small in number but very dour.

They traveled a great deal and their greatest service was to pass on to the Latins and Romans the civilization they came in contact with. Their art was highly developed and had a marked influence on Roman art.

### Tech Deans Play Hookey From Clay Modeling Class

How would you like to have the dean of your division in a position where he couldn't talk back to you? Well, that is just what would have happened if all the deans hadn't backed out. The Clay Modeling class was going to make life size models of the deans' faces.

The deans promised to go over to the laboratory, but only Dean Leidigh showed up. The class wondered if the others had suddenly developed "the flu."

The first step in making a model is to lay the "victim" on a table. His face is greased with cold cream, straws are put in his nose so the person can breathe, a wall is built around his face, and plaster of paris is poured on. The model is then helped.

The students had their instructor, R. H. Williams, injest this position and got so scared they didn't want to finish the job. One of the students finally talked them in to finishing it so the poor man wouldn't be doomed to life in a cast of plaster of paris.

When the plaster hardens it is removed and allowed to dry. Then the clay is poured in and stays until hard. It is taken out, baked and glazed. The model is painted and baked again.

### Phi U Initiates Twelve Pledges

**Breakfast Follows Sunrise Ceremony**

TWELVE pledges were initiated by the Omega chapter of Phi Upsilon Omicron, honorary home economics fraternity, in a sunrise service Sunday morning. After the ceremony, members, pledges and alumnae attended a breakfast at the home of Mrs. F. R. Friend, 2005 Broadway.

Miss Jonnie McCreary, head of the Tech department of foods and nutrition, asked an invocation. Miriam Meading gave a toast to new members, and Clara Mueller responded. Alumnae were introduced by Miss Margaret W. Weeks, head of the home economics division. Alma Rhea Eades spoke on "What Phi Upsilon Omicron Means to an Alumna."

Initiates of the organization are An Alexander, Viola Archer, Jean McLaughlin, Iza Patterson, Reuby Tom Rhodes, Jo Bess Goodie, Clara Mueller, Mary Lou Hinson, Dorothy McCarter, Eula Mae Watson, Margaret Asher, and Helen Wismann.

Members are Gwendolyn Lam, Ouida Johnston, Louise Cox, Doris Nell Tippitt, Helen Walker, Erlene Dowell, Ima Niell, Evelyn Woodson, Laurissa Bratton, Marydel Hewkins, Gertrude Parrott, Vera Thormann, Miriam Meading, Mrs. Drucilla Barber, Mrs. Maxine Cardwell, and Mrs. Winifred Nall.

Honorary members are Miss Margaret Weeks, Miss Mabel Erwin, Miss Jonnie McCreary, Miss Martye Poindexter, and Miss Vivian Johnston.

### Book Reviews By IRC Pledges Are Program Feature

Book reviews by pledges composed the program of the International Relations club meeting, Monday night in room 308.

International affairs was the required subject for all new members. Last year the constitution was amended so that no book reviews before any students may be enrolled in the club.

Margaret Long, Mary Gibson, Henry Schwartz and Arthur Garland were the speakers. Remainder of the pledges will appear at the next meeting.

Lt. Benjamin Bock, former sponsor of the organization, has been scheduled to speak. However, army officials had other arrangements. Bock was made honorary sponsor at the first meeting of the year.

IRC is composed of all students interested in world affairs. Officers of the group are Mack Kennedy, president; Douglas Shaver, vice-president; and Kara Hunsucker, secretary-treasurer. H. C. Pender and Byron Abernethy are co-sponsors.

### Students To Vote In November For Sixteen Beauties

**C Average Was Not Considered In First Elimination Process**

THIRTY-TWO girls survived the first step in the elimination process for a final selection of eight La Ventana Beauties. A student committee, appointed by the editor and approved by the student council submitted the names Sunday evening after the 66 nominees present were considered.

Previous rulings disqualified all candidates who were not present at the Sunday meeting, automatically eliminating 71 nominees, or more than fifty per cent. Last session, 100 girls were chosen by the beauty judges.

The same plan, and ten of the present 32 were represented on last year's student ballot. Dorothy Lou Emmitt, Mary Ann Stephenson, Jerry Larrick, Faith McNamara, Marian Rendall, Fannie Dale Cheek, Patsy Baker, Virginia Hall, Gladys Ruth McNamara and Marjorie Hall.

Eight of these ten repeaters were in the sixteen finalists, three were in the final eight. Dorothy Lou Emmitt, senior Home Economics student from Tulsa, continued her perennial bid. She has been a La Ventana beauty finalist the past four years. Mary Ann Stephenson, junior arts and sciences student from Lubbock, has been a beauty the past two years. Three students, Jerry Larrick, sophomore from Wichita Falls; Faith McNamara, San Antonio sophomore; and Marian Rendall, junior candidate from Dallas, were in the final eight girls picked last year by Pinky Toppin.

After the student election in the early part of November, the top sixteen girls will be presented to some nationally known figure for a selection of a final eight. Each of the final eight will be featured in a full page picture, while the other eight will be featured less prominently.

Administrative requirements for a C average were not considered in Sunday's election. Unless a reversal of decision is obtained from the council before the November election, only the names of eligible candidates will appear on the ballot, and sixteen will be picked from the present 32 who meet administrative requirements.

The complete list as nominated by the committee is Patsy Baker, Margaret Ann Bell, Dolores Bizzell, Lou Deane Blair, Mary Dell Butler, Fannie Dell Cheek, Anni Durham, Dorothy Lou Emmitt, Margaret Fagan, Wilma Jean Freeman, Marjorie Hall, Virginia Hall, Lolita Johnston, Mayfair Jones, Martha Kuykendall, Jerry Larrick, Dorothy Loooper, Faith McNamara, Gladys Ruth McNamara, and Marjorie Hall.

## We Petition The Council, But Only As A Last Resort

The Toreador has used the last resort to secure a reversal of decision by the Administrative council. A petition has been circulating over the campus since Sunday noon asking the council to drop the C average requirement and let beauty be judged by beauty alone.

When the petition is presented, we expect the council's reaction to be in accord with the number of students favoring such a ruling, and shall try no further to secure what we believe is right and what the student body favors.

We have already found, by circulating the petition, that the student body is not 100 per cent behind us, nor is the student body in full accord with the Administrative council. But if Tech is to continue to be the "most democratic school in the nation," then the council will heed the number of names favoring the removal of the C average requirement and act accordingly.

With several names appearing more than once on the petition it will mean several hours of checking and rechecking to present an accurate poll of student opinion, that we hope to do. Representing the student body and saying exactly what we thought was the opinion of the majority, The Toreador has certainly enjoyed the "Freedom of the Press."

In no other country could a paper criticize superior official actions as we have done and be allowed to continue unreprimanded. This is TEXAS TECH. A living example of what we are fighting for on foreign battle fronts, of what lives were given for on Bataan peninsula.

As this article is written, we have not yet ever been in contact with a single member of the council, yet we know they have been following our articles by the issue. We know that what we say will be considered for what it is worth, and we have been circulating our petition to enhance the value of our arguments.

Should we find by the time the council meets that the student body as a whole does not favor our proposal, then we shall say so and acknowledge defeat. We shall admit that we have been misguided by our conscience and have been bucking a brick wall.

What we have said in this short campaign was not necessarily our own opinion, but what we believed to be the opinion of the student body. However, we happened to believe everything we said, but it could have been different. Had we thought the C average essential to the requirements of a beauty, but known that the student body felt otherwise, our actions would have been exactly the same. We have asked for students' opinion to be expressed through our columns; that is the purpose of The Toreador.

These columns are still open to student opinions, should you like to air your views, then write us a letter, sign it, and we will print it. If you do not want your name printed, say so in a note to the editor; this paper is devoted to the development of student rights, and every issue is entitled to a fair discussion through its columns.

## Are The Armed Services Pinned Down By The Senate?

The Senate passes the bill for an 18-19 year old draft, and sends it back to the house, but with an added amendment by O'Daniel making it compulsory that this group have at least one year's military training before being sent across for overseas duty.

Military officials and President Roosevelt pleaded with the upper house to forget this amendment as it would put a halter on military movements. Passing 39-31 vote, the senate approved the bill and sent it back to the house for their approval.

As members of the clique to be involved in the new draft laws, we can not see the advisability of such restrictions being placed on military personnel. To date, the army and navy officials have been trying to thoroughly train their divisions despite public opinion which has been clamoring for action. As yet they have not made an all-out offensive because of untrained troops.

Yet the Senate sees fit to hand tie these men, when they have been doing the job all right up until now. Possibly this law would have no effect whatsoever on their actions, but if at some time they can see whereby it would be profitable to send the 18-19 year olds across, they certainly should be free to do so.

Perhaps it is the voice of the voting public that caused such a strange amendment to receive favorable consideration but at any rate it could very easily have disastrous effects on military policies. Nor does such a bill have a good effect on service morale, as many 18-19 year olds dread the training more than the fighting itself and can look forward to KP duty, Guard duty, and all other disciplinary duties with great distaste for a year's training period.

Some people train quicker than others, and it is possible that many 18-19 year old draftees will be ready for foreign service after six months training, others will not be ready after six year's service; it should be left up to the discretion of military authorities as to when they are ready for combat.

## Did You Know-

THAT Texas occupies all of the North American continent except for the small part set aside for the United States, Mexico and Canada.

THAT Texas has the only dusty river in the world which is navigable for mud cats and pedestrians.

THAT Texas is bounded on the north by thirty or thirty-five states, on the east by all the oceans in the world except the Pacific, and on the south by the Gulf and South America and on the west by the Pacific Oceans, the Milky Way and the Sideral Universe.

THAT unless your front gate is 18 miles from your front door you do not belong to society as constituted in Texas.

THAT if all the Texas steers were one big steer, he would stand with his front feet in the Gulf of Mexico, one hind foot in the Hudson Bay and his other in the Arctic Oceans and his tail would brush the mist from the Aurora Borealis.

THAT the sun shines at Amarillo, Texas more than anywhere else in Texas; 81 per cent of daylight hours.

THAT Marlin has a mineral spring in which ordinary glass may be dipped and become a beautiful amber. There is no known reagent which will remove color from the glass.

THAT when Texas Rangers rounded up all the bad men in Kintle county in 1877 there weren't enough men left to make a jury to try them.

THAT the King ranch near Kingsville, Texas, is larger than the state of Delaware.

THAT lightning striking sand hills near Odessa, Texas, shapes the sand into long, jagged chains and transforms it into glass.

THAT the Crown Jewels of Austria are buried in Texas. Authentic reports show that the fortune of the Austrian Maximilian, once King of Mexico, is buried at Castle Gap, near Odessa.

## Pennsylvania College Collects Rare Volumes

A collection of Bibles and other religious books at Pennsylvania State college has been augmented by the addition of 94 volumes of rare religious works.

The addition, comprising a collection secured from the estate of the late Charles S. Plumb, Ohio State university professor, includes six Bibles published before 1501. Three of the Bibles of the collection were printed before Columbus discovered America, while 18 came off the press before the birth of Shakespeare, college library officials said.

The collection is considered one of the outstanding of its kind in the country. The newly acquired collection was presented to the library by Claude G. Aikens of State College in memory of his father, Charles T. Aikens, president of Susquehanna University for 22 years.

## This Collegiate World

(By Associated Collegiate Press)

Marry if you are ready for matrimony, but don't wed if you are not prepared, was the war marriage given to Indiana university co-eds by Mrs. Ruth O. McCarn, counselor to women at Northwestern university.

"There is no simple rule or principle for a good marriage," she said. "There are hazards in all marriages and war increases these hazards. But even so, we marry on faith."

"In the years ahead, it is going to be increasingly difficult to work out our relationships with men due to men and women being called for the armed forces and for industrial defense work," Mrs. McCarn said. "There will be dislocation of families and delinquencies are bound to result."

Mrs. McCarn expressed the hope that all Indiana university co-eds marry. "But marry wisely," she advised. "One of the great advantages of a co-educational institution is that it can serve as a matrimonial bureau."

Prospective fliers in Chicago are invited to call upon sorority girls—for lessons in mathematics.

The pre-army study course is offered by girls of Kappa Gamma sorority to help any air-minded man needing instruction and, possibly, to supply a bit of oomph to induce enlistment of aviation cadets.

The sorority's Northwestern university chapter announced a corps of the more mathematical-minded sisters would act as tutors and coaches to candidates for induction as aviation cadets.

The girls will cover subjects featured in tests of 150 questions, 80 of which must be answered correctly to qualify for training.

## Aircobra Designer Was Not "Cut Out"

Robert J. Woods, whose college professors told him he never would be an aeronautical engineer, is the Youngstown-born designer of the Bell Aircobra and the Bell Aircobra.

Woods was orphaned at 17 and worked to send himself through high school and night school.

When his family's estate was settled, he received \$1,200 and with this money attended the University of Michigan.

One day one of his professors detained him long enough to advise: "Woods, you'd better give up aeronautical engineering and specialize in something else. You're just not cut out for it. You'll never make an aeronautical engineer. It's not in you."

After a series of positions with the Towle Aircraft Co., the Detroit Aviation Corp., Lockheed and Consolidated, Woods went with Bell as a chief engineer, when he was 30.

Minutes later, the Navy team woke up and struck back with all the viciousness of a striking snake. Black passed to Franck on the SMU 37 and he slipped down the field to score the lone Navy touchdown.

In the final period Johnny Colings passed to Jack Moncrief, from the 29, for the second Mustang score. Green again converted.

## In The Editor's Mail

### TE Department Heads Meet In Boston Reunion

It wasn't on the program, but progress of affairs at Texas Tech held a high spot at the semi-annual meeting of the Textile School Deans in Boston last week—at least for four delegates. In fact, there was a reunion of L. E. Parsons, present acting head of Tech's Textile department with former heads E. W. Camp who was the first head of the Textile school coming to Tech in 1925, Carl D. Brandt succeeding Camp, and M. E. Heard who was third successor to head position. The quartet held many a conference on conditions here. On making stops in behalf of college cotton research work, Parsons talked with D. V. Probosco, graduate of Tech who is now with the Philadelphia Textile school. He reports Probosco is writing a series of articles on weaving for publication in textile periodicals.

### Texas University Trains Women For Commandos

A commando-like course in physical training for women at the University of Texas has been set up and new equipment installed to furnish an "obstacle course." The women's war-conditioning course is designed to build up physical strength so that women students will be prepared for whatever war jobs lie ahead, Miss Leah Gregg, associate professor of physical training, explains. The obstacle course includes a window climbing ladder, two balance beams, a series of parallel bars, and a high fence climb. In addition to this, students in the war conditioning classes are required to do regular work and calisthenics.

### Surprising SMU Upsets Stunned Navy Team 21-6

A rejuvenated Southern Methodist Mustang football team, led by Wayne Shaw, upset the powerful Corpus Christi Naval Air Station last Saturday 21 to 6. Neither team scored in the first period, but early in the second Shaw and mates started moving. Shaw passed to end Sid Halliday who moved down to the twenty before being pulled in. McMinn passed to Shaw who ran to the one, and Red Massey bucked it over. Green converted. Minutes later, the Navy team woke up and struck back with all the viciousness of a striking snake. Black passed to Franck on the SMU 37 and he slipped down the field to score the lone Navy touchdown. In the final period Johnny Colings passed to Jack Moncrief, from the 29, for the second Mustang score. Green again converted.

Editor of The Toreador Journalism Department Texas Technological College Dear Editor,

I was enjoying your editorial in favor of voting rights for the eighteen and nineteen year olds very much until I came to those slighting remarks about Senator O'Daniel.

I believe everyone has a right to his own opinion concerning the merits and qualifications of all political figures. However, I deeply resent the implication that anyone who voted for O'Daniel is illiterate and ignorant of state and national politics.

I am certain that O'Daniel is a great, capable, and honest senator. Furthermore I believe I am as intelligent and literate as the person writing the editorial under discussion.

It is time that editors realize that when they insult O'Daniel they insult a majority of the Texas population.

Yours sincerely, Lester Kilpatrick

(Thanks very much for your letter. If we left the implication that ALL O'Daniel voters were illiterate it was a pure mistake on our part. Some people voted for O'Daniel who were prejudiced against his opponents, others were just honest enough to believe that he could do all the things he said he could, (run the government by the Ten Commandments, etc.) We agree that O'Daniel is a great and honest senator, but doubt that he is capable. If by insulting O'Daniel we have insulted the majority of the Texas population, we are sorry, but it is not our duty to hand out roses.

Was very glad to hear that you WERE enjoying our editorial, and hope that our conflict of opinions on a secondary issue did not change your mind on the main issue of the article. —Ed.)

## Raiders Roll Over Lobos To Win 20-0

### Morganmen End Losing Streak In Easy Victory

Victory Bells Are Heard Again As Red Raiders Rout Lobos

The Victory Bells of Texas Tech broke a three week silence last Saturday night following the Red Raiders smashing victory over the University of New Mexico Lobos, 20 to 0. This was the first Raider victory in three weeks, and the second of the season.

With Standerfer, Austin, the Schlinkman leading the scoring early in the second quarter, their lead was never dangerously threatened, and the red-shirted invaders rolled down the field to score once in the third period, and again in the fourth.

Coats, Tech quarterback, set up the first Raider score when he intercepted Bill Jourdan's pass on the Raider 12 yard stripe. On the next play Standerfer sneaked through a gaping hole in the Lobos line and raced to the five, where thinking he had crossed the goal line he stopped. He was tackled immediately by the Lobos. With first and goal, Schlinkman and Standerfer alternated to move the ball down to the one yard line. Schlinkman then bulled his way over, and Coats converted.

In the third quarter Schlinkman took the ball, headed for the sideline, was apparently trapped by the end, and then sliced off tackle to gallop twenty three yards for the second touchdown. Coats again converted.

In the final period Standerfer led the Raiders down the field in their final touchdown drive. After several passes had been thrown, Austin slipped around from his half-back position to take the ball from Standerfer on the ancient, but nevertheless, up to date "Statue of Liberty" play, and race down the sideline for the closing score. The ball struck the goal post on the attempted conversion, and the score remained at 20 for the Raiders, 0 for the Lobos.

This was the second loss in conference play for the Lobos, having dropped a 7 to 0 decision to Texas Mines earlier this season, and the second win for the Raiders. This

### O'Brien, Scott, Shirley, Lend Aid To Raiders

No wonder the Red Raiders of Tech got back into their winning ways at Albuquerque Saturday night! Anne Shirley, a sweetheart of the screen, personally gave the Raiders encouragement and sat in the stands rooting for them.

Then there was the matter of Pat O'Brien, who played Knute Rockne on the screen, sitting on the Tech bench throughout the practice preceding the game, and Randolph Scott in a box seat shouting, "Come On, Raiders." The weather was too bad for the RKO company to work on a picture. It was making at Albuquerque, with Miss Shirley, O'Brien and Scott in starring roles. So when the Raiders reached their hotel and when they were loafing around resting, there was Miss Shirley in the lobby to greet them and give them moral support.

O'Brien devoted his full time to the Raiders, passing up invitations to go to the game with some rich friends in order to ride to the field with the Techs and to sit on the bench throughout the game. He was "football mad," and overcame with enthusiasm for success of the Raiders.

Scott also visited with the Morganmen but went to the game with Arizona friends and sat with them in their box seats.

places the Morganmen in the top position in the Border Conference race, and knocks the New Mecks team from their runner-up position.

The Raiders play, though not up to par, was very satisfactory considering the number of inexperienced men on the squad, and the mounting number of injuries. Of the freshmen making the trip, Nabors, Mason, and Smith showed up well. Coats, who has been ineligible for the Southwest Conference games and has seen little action in the other two conflicts, impressed the fans with his fine defensive work and his blocking.

The Raiders came from the game, for the first time in weeks, with only one serious injury. Pete Blanda, fullback, was knocked out of the game in the opening minutes with a knee injury; but is expected to be ready for action when the Raiders square off against the Rice Owls in Houston this Saturday.

The Raiders returned to Tech Sunday, despite snowstorms which threatened to halt their return.

## Hardin-Simmons Routs Muckers In Easy Victory

Cowboys Are Ranked Among Top Teams In Nation's Football

Hardin-Simmons' Cowboys remained among the nation's select set of unbeaten, untied teams in Abilene Saturday afternoon by overwhelming the Muckers of Texas Tech in the Ranchers' first Border conference game, 39-7.

Rudolph "Little Doc" Mobley raised his total of yards gained to 604 to remain in the rushing leaders of the nation by gaining 170 yards in 14 attempts. Mobley scored the first two HS-U touchdowns before the game was old, one on a 79 yard dash through the middle of the Mucker line.

Mobley scored again in the third period, J. C. Cook intercepted a Mines pass to register six points in the second quarter, and George Walton, freshman back, scored the first two touchdowns in the fourth period on line-bucks.

The Mines' only score came in the closing minutes of the game on a pass, Clark to Humphrey. Interference on the pass gave the El Paso team their score to mar a perfect day for the Ranchers.

Hardin-Simmons made 384 yards rushing and 17 first downs against the Mines' 44 yards rushing and seven first downs.

Coach Jess Neely, pictured at top, and Cecil Grigg, backfield coach at bottom, are the brains behind the Rice Owls, Saturday hosts to the Red Raiders. Neely was formerly head coach over Tech's Dell Morgan.

## Texas Takes Win From Battling Rice Owls, 12-7

Texas University won the first half; Rice Owls won the last half—that was the story in Memorial stadium at Austin Saturday afternoon, but Texas scored a few more points to win 12-7.

The mighty Longhorns held the Rice feathered flock well in hand in the first half, not allowing a single first down, as Roy McKay, Walton Roberts, and Ken Matthews ran the Owls silly. The first Steer score came early in the first quarter on a sustained drive from the Texas 22, with Roberts scoring on a wide end run. McKay missed the try for point.

The second score came on a 24-yard colorful pass from McKay which Schwartz hauled in as he was falling over the goal line. McKay's try for point was blocked. Led by Don Stephens and Dick Dwell, the Owls roared back in the second half to scare the daylights out of Texas. Dwell nassed to Windell Williams for the score. The Owls threatened several times during the last quarter, with Stephens shredding the Texas line, but never could score the winning points.

The Owl punters, Cain and Stoop Dickson, kept the Texas squad on their heels throughout the game, registering a 46.5 average.

## Field Of Texas Is Leading SWC Ball Carriers

The latest Southwest Conference statistics show the following players to be leading their field in the respective divisions. These reports are official up to Saturday, October 17.

LEADING BALL CARRIERS (Netted at least 110 yards)	
Player	School
*McKay	Texas
*Nix	TCU
Kittrell	Baylor
Crain	Baylor
Dickson	Baylor
Maley	Rice
*Forte	Ark
*Raven	Texas
*Minor	Texas
PERFORMANCE OF LEADING BALL CARRIERS LAST WEEK	
Nix	TCU
Kittrell	Baylor
Crain	Baylor
Maley	SMU

## Picadors Invade Hobbs For Game With Army Team

Picadors Have One Win, One Loss; LAFS Credited With Loss

Coaches Polk Robison and Loyce Baillio will lead their charges, the Tech freshman Picadors, in their third game of the season Saturday night at Hobbs, N. M., against the Hobbs Army Flying School.

Six of the Picadors participated in their first game as Red Raiders against the New Mexico Lobos last week. Mick Mason, Jake Rhoads, Carl Smith, Ralph Earhart, Melvin Watson, and Roland Nabors saw action against the Lobos and are expected to lead the freshmen Saturday. The Picadors will be at full strength as the varsity game with Rice has a freshman ban.

Hobbs' Flyers were rather unimpressive in their first game last week against New Mexico Military Institute, a team which Tech's Picadors defeated earlier in the season, losing 61-0, but the Flyers were playing together for the first time and should gain coordination by Saturday.

The Picadors hold a victory and a loss to their credit, the win over NMMI, 20-7, and the loss to Lubbock Army Flying School, 14-0.

LEADING PUNTERS (Punted at least 6 times and averaged 35 yards)

*McKay	Texas
Bagley	TCU
Dickson	Rice
Green	SMU
Welch	A&M
*M. Jones	Ark

PERFORMANCE OF LEADING PUNTERS LAST WEEK

Bagley	TCU
Green	SMU
Welch	A&M

*Sallings	Ark
*Kittrell	Baylor
*Marshall	SMU
Collings	SMU

PERFORMANCE OF LEADING PUNT RETURNERS LAST WEEK

Coleman	Baylor
Daniels	A&M
Kittrell	Baylor
Collings	SMU

LEADING PASSERS (Netted at least 120 yards)

*McKay	Texas
Collings	SMU
Nix	TCU
Coleman	Baylor
Burke	Maley
Elkenberg	Rice
Bagley	TCU

PERFORMANCE OF LEADING PASSERS LAST WEEK

Daniels	A&M
Collings	SMU
Nix	TCU
Coleman	Baylor
Burke	Baylor
Bagley	TCU
Rogers	A&M
Henderson	A&M

## Ex-Techsan Sparks Flyers To 13-7 Win

### McMurry Drive Falls Short In Closing Period

Roger Smith, Dixon Lead Game-Winning Drive At Outset

Lubbock's Flyers from the Lubbock Army Flying School taved off a final rally by the McMurry Indians Saturday night to win 13-7 in Tech stadium over the spirited aggregation from Abilene, who although outweighed heavily by the ponderous Flyers, never stopped fighting.

Roger Smith, ex-Techsan, and Buster Dixon, who played for ACC last year, led the LAFS team to an early lead in the first quarter which they never lost. Soon after the kickoff, the Flyers marched down the field.

for their first score, and Dixon going over from the one. Smith converted to give the Flyers a 7 point lead.

LAFS scored again the next time they got the ball. On a mighty quick-kick from the toe of Smith, Adair of McMurry fumbled on the Indian 19 yard line, W. M. Schmidt, LAFS end recovering. Dixon hit the line for a yard and lofted a pass to Schmidt who galloped over for the last Flyer touchdown. Smith's try for the extra point was wide.

The game was a stalemate from that time until McMurry opened up a razzle-dazzle running and passing attack in the fourth period. Billy Schultz scored the first McMurry touchdown on a brilliant broken field run from the LAFS 45. The next time the Indians received the ball, they went on the march again, going to the LAFS 13 yard line, where the Flyers finally mustered enough strength to ward off the attack.

### Emery Nix Sparks TCU To 21 To 0 Win Over Flyers

The same old story took the spotlight in Pensacola, Florida Saturday as the Texas Christian Horned Frogs hammered out a 21-0 victory over the Pensacola Naval Flyers. It was Emery Nix, the same "Ice Water" kid who led the Frogs to the remainder of their victories this season. He passed and ran the Frogs to another victory to keep their undefeated and untied season intact.

Ably assisted by little Dean Bagley, who seemed to fill Nix's shoes exactly when he replaced Ralph Porter from his own 47-yard line, Nix was in the hair of the Flyers throughout the game. Before the Flyers knew the game was on, Nix heaved a long pass on the first play following the kickoff to fullback Ralph Porter for the initial score. A running attack climaxed by a pass from Nix to end Drummond Slover gave the Frogs their second score a few minutes later.

The Flyers fumbled on their own 35 to set up the last TCU score. A combination running and passing attack followed, with Nix passing for the touchdown, going for the touchdown.

Coed's Corner—

### Coffee Rationing To Slow Down Cramming

—By Kara Hunsucker

NOW COFFEE is to join the ranks of rationed commodities, and this latest innovation caused by the war is likely to play havoc with college students. To those who depended upon the black beverage to remain awake late into the night while cramming for hour quizzes or final exams, the coffee rationing program will loom forth as an influencing part of college life.

Under the planned set-up, which goes into effect November 28, each person is allowed one pound of coffee each five weeks, or approximately a cup a day. For the majority of students, this rationing won't be any worse than that for sugar.

Any girl can be gay in a classy coupe; In a taxi they never fuss; But the girl worth while is the one who can smile, When you're taking her home on a bus.

Hit and Miss—Formerly when a coed heard a knock on her door, she didn't know whether it was an opportunity or a wolf. Now she can be almost certain that it's opportunity. Our tastes changed as we mature. Little girls like painted dolls; little boys like soldiers. When they grow up, the girls like the soldiers and the boys prefer painted dolls.

Coupling at the Co-Op: Bobby White and Jess Ballew; "Tootie" Clark and Marguerite Nobles; Charlie Snure and Janell Shanafelt.

Ruth Campbell became Mrs. Fred Yellon in a ceremony performed Sunday in Amarillo. The couple later left by plane for Washington, where Fred, a lieutenant, is stationed. A popular couple altar-bound on November 8 is Mary Margaret Tunnell and Charlie Stewart, also former Techsians.

SPAFS and LAFS football stars will clash at Tech stadium on Armistice Day, Nov. 11, in the only pigskin review slated for Lubbock on that holiday. The game will be preceded by a special parade. Several Red Raider stars, on in the army, such as "Red" Amosett, will be featured in the gridiron tilt.

The Tech-NMU game had an added attraction Saturday night, with Pat O'Brien, Randolph Scott and Anne Shirley yelling for the Raiders. The three famous stars are making a motion picture near Albuquerque.

### President Jones Honors Tech Art Institute In Tea

Tech Art Institute, a department of the Division of Extension, will open its season's social activities with a tea tomorrow night from 8 to 10:30 o'clock at the home of President and Mrs. Clifford B. Jones.

The program will include two vocal selections, "Les Filles de Cadix" (Delibes) and "When I was Seventeen" (Liljedorn), by Mrs. C. N. Hallmark accompanied by Mary Evelyn Pickle; two piano solos by Miss Pickle, and three selections, "In Old Madrid" (Protere-Garcia), "My Own America" (Allie Wrubel) and "To A Wild Rose" (MacDowell), by the treble cef chorus.

In the receiving line and house-party will be F. A. Kleinschmidt, director of the institute; R. F. Hinchey, Robert I. Lockard, S. J. McFarland, Dr. J. T. Hutchinson, Bert Kahn, and Mrs. Roscoe Wilson, trustees; Ramond H. Williams, J. E. Maisen, Dr. W. C. Holden, Mr. J. S. Allensworth, Mrs. R. G. Porter, Miss Mabel D. Erwin, Miss Martye Poindexter, Dr. Bessie League, and Dr. Mary Louise Breedlove, members of standing committees.

### Aggies Forget Bears; Prepare For Razorbacks

There is one thing very certain and that is that the Arkansas Razorbacks will be putting out all they have to defeat the Texas Aggies on Kyle Field next Saturday, Oct. 31, and shatter their long string conference game defeats which started back in October of 1940. They lost five of six that year; all six in 1941; and all three conference games so far this year. The last time they won from a conference rival was from Baylor, 12-6 on Oct. 12, 1940.

No team gives the Aggies more trouble than do the Razorbacks for, although they have lost the last four games to the Cadets, they have outgained them, out first-downed them, out fought them but not out-scored them.

Over the years since 1903 the Aggies and Razorbacks have met 15 times and to date the series is a tie with each winning seven times and the other ending in a tie.

Here is the all-time record:

Year	A&M	Arkansas
1903	6	0
1910	0	5
1912	27	0
1927	40	6
1928	12	27
1929	12	27
1929	13	14
1930	0	13
1934	7	7
1935	7	14
1936	0	18
1937	13	26
1938	13	7
1939	27	0
TOTAL	189	189

### Compacts To Be Sacrificed For Scrap Metal Pile

American women are urged to give up all their compacts, except one, to the scrap metal drive. Mrs. Mary B. White of the War Production board said most women "have half a dozen compacts, and at least a dozen lipstick holders" and "can't possibly use all of them."

"Sure we'll give our old compacts and lipstick tubes," say girls on Tech campus.

If the following girls' opinions are any indication, a drive for the scrap metal in old lipstick tubes and compacts would net quite a bit of old metal:

Jean Etta Dodge: "Would be willing to part with old tubes and compacts."

Jerry Larrick: "I'd be willing to cooperate with a compact drive for scrap metal."

Bettye Walters: "If I had any extras I would give them."

Iva Ella Brannen: "I would donate all that I had that could be used."

LaVerne Allen: "Give anything but my hairpins."

Juanita Caldwell: "Give lipstick tubes, but I have noticed that my compacts are plastic."

Libby McKennon: "The least any girl could do for her country is give old lipstick tubes and compacts."

When Mary Frances Bledsoe was asked about giving her old lipstick tubes she showed more empties than anyone in the dorm. She said, "I've been wondering what to do with them, now they can be sent to Hitler in a message of good cheer (all wrapped up in a bomb)."

### Fine Is Speaker At Aggie Club Meeting Last Night

Casey Fine, ex-assistant professor in animal husbandry, spoke to member of the Aggie club on Navy V-7 reserve at the regular meeting last night.

Fine received his degree from Tech in 1935 and at the time of his induction into the U.S.N.R., July 1, 1942, was an assistant professor in animal husbandry. He graduated from the U.S.N.R. Midshipmen School in New York City, October 21.

He flew from New York City to Amarillo and will be visiting Lubbock until Saturday. At this time he will continue his journey to the base where he will be stationed.

War Information board sends to Tech library a War News Map each week showing the changes in the war and mentions in print the outstanding events. These maps as they are received are to be placed on display in the glassed-in bulletin board on the main floor of the library.
