Delegates To Attend L.A. Meet

"An interest in Latin-America is what joins the Rocky Mountain Council for Latin American studies together," said Raymond D. Mack, assistant government professor and president of the council, as he prepared to leave today for Albuquerque, N.M., scene of the conference.

Dr. Harley Oberhelmen, assistant professor of foreign languages, will present a paper on "Enrique Amorim and the Rural Novel" in the literature section of the conference.

THE THREE day meeting will be attended by representatives from more than 100 colleges and universities throughout southwestern and mountain states. The representatives will study many areas of Latin-American relations including political relations, music and literature.

Among the principal speakers will be Dr. Arturo Morales Carrión, under secretary of State for the Commonwealth of Puerto Rico, who will be honored at a reception offered by the Hilton Hotels Corporation Friday evening.

OTHER representatives from Tech include Dr. David Vigness, associate professor of history; Dr. Julius Rivera, assistant professor of sociology; Dr. Cecil Johnson, assistant professor of government and foreign studies adviser; Prof. Thomas F. Wiesen, Tech economist and Dr. Oberhelmen.

Dulles Resigns After Illness

(AP) — Cancer forced John Foster Dulles to resign yesterday as secretary of state. A sad, moist-eyed President Eisenhower announced Dulles' decision at a dramatic news conference.

The vacationing President said he had not finally made up his mind regarding a successor to the 71-year-old Cabinet member. He promised to fill the post "as quickly as possible." Reports continued both here and in Washington that Undersecretary Christian A. Herter, 64, is the most likely choice.

In a voice betraying his emotion, Eisenhower told a small group of newsmen that Dulles now is "incapacitated for carrying on the administrative load" of his office, "in addition to assisting in the making of policy."

Eisenhower said at the conference that the latest medical findings on Dulles' condition are not of the kind "that make him helpless." He announced he is keeping Dulles on as a consultant on foreign policy.

Dulles' doctors concluded in Washington Tuesday that his cancer probably had spread to the neck. A February examination disclosed abdominal cancer and Dulles underwent radiation treatments.

For the past several days he had suffered neck pain. That caused him to return to Washington Sunday from Florida, where he had been resting. He re-entered Walter Reed Army Hospital.

TWO DELEGATES TO THE PAN AMERICAN CONFERENCE
... Dr. David Vigness and Mr. R. D. Mack leave today.

New Setup Asked By Student Council

by JAMES HAMM

The announcement of the makeup of the new publications Committee, which takes force next year, by Donnell Echols, student body president, highlighted a Tuesday night Student Council meeting.

The committee, composed of three students and three faculty members, will become part of the Student Constitution if a favorable vote is cast at the next campus-wide election.

Explaining the duties of the department head of journalism, Pres. E. N. Jones told the TOREADOR yesterday

POSITION OPEN

Ralph W. Carpenter, sports editor for next year's TOREADOR, is now taking applications for associate sports editor.

Deadline for applications is May 15. They should be addressed to Ralph W. Carpenter in care of the TOREADOR. The application should include any past sports or journalism experience plus the applicants classification and major.

that, as long as the department head didn't serve as faculty advisor to either the TOREADOR or LA VENTANA, he would serve as a voting member of the committee.

"HOWEVER," Dr. Jones continued, "if he serves as faculty advisor of either or both of the publications, he will serve on the committee as an ex officio member."

The past year, the Publications Committee has been composed of two students and three faculty members, two of which were journalism department personnel.

In previous years, the committee had been composed of six students and six faculty members, with journalism personnel serving as ex officio members.

OTHER DISCUSSIONS in the Student Council meeting centered around the TOYLETDOR, April Fool issue sponsored by journalistic fraternity Sigma Delta Chi.

Stan Powers moved that the Student Council go on record as not being opposed to the TOYLETDOR. Comments from other Council members pointed up the fact that, while some were displeased with the bluntness of some of the stories in the TOYLETDOR, they weren't opposed to the issue as such.

Claude Rogers felt, because of the bad publicity that could result for Tech, the paper's circulation should be limited to Tech.

"WHATEVER we decide, let's let Sigma Delta Chi know where we stand," Bill Dean asserted.

Taking the floor next, Linda Bunger, student member of the publications Committee said: "It's not our place to rule on the TOYLETDOR. We have a Publications Committee to handle questions like that."

Powers' motion died for lack of a second at this point.

BILL PHLUGER, president-elect of the Student Council, **NEW SETUP**, Page 6 . . .

Rolling Wheel Fells Workman

H. L. Robinson, a workman on the new classroom-office building being constructed northeast of the Journalism Building, fell from a scaffold Tuesday breaking his left foot, right knee cap and gashing his head.

ROBINSON is an employee of Lift-Slab Inc. of San Antonio, a sub-contracting company which uses a potential process to lift the concrete slabs into different levels. Roberson was working on one of the scaffolds when a wheel rolled into a chock-hole causing him to lose his balance and fall about 30 feet.

John Frye, foreman for Lift-Slab said that Roberson is now in West Texas hospital.

FRATERNITIES MEET TODAY

Workshop Opens

by JEAN DUNN

An awards banquet at 5:30 this afternoon in Tech Union ballroom will kick off the Inter-fraternity Workshop, scheduled to continue through Saturday.

DR. JAMES G. McLeod, dean of students at Northwestern University, will address the group. He will be introduced by James G. Allen, dean of student life.

Spring officers of the fraternities, their sponsors, and alumni advisors will be honored. Members of the Tech administration will be guests.

FOLLOWING the banquet a smoker will be held in the Rec Hall at 7:30 p.m. At that time Dr. McLeod will address members and pledges of the ten fraternities. Individual and group awards for athletics, scholarship, sportsman-

ship and group participation will be presented.

Dean Allen will present an award to the fraternity with the highest grade-point average for the fall semester.

JAMES E. Whitehead, assistant dean of student life, will present the sportsmanship award.

The president of each fraternity receiving an athletic award will receive it from Bill Dean, Inter-fraternity Council president.

Edsel Buchanan, director of intra-murals, will present the athletic sweepstakes award to the fraternity compiling the highest number of points in intra-mural competition.

Private conferences with Dr. McLeod may be arranged for Friday by groups or individuals on questions concerning various phases of fraternity activities.

Festival Features New York Composer

Vincent Persichetti, noted composer, conductor and teacher of composition at the Julliard School of Music in New York City will be featured as guest conductor at the eighth annual Symposium presented by the Tech music department April 21 through May 3.

THE SYMPOSIUM program includes a lecture; an opera presented by the Tech Opera Theatre; Phi Mu Alpha Sinfonia concert; performances by the Tech Symphony, Band and Choir and a "pops concert" by the Lubbock Symphony.

Persichetti will be guest speaker at a luncheon in Tech Union Workshop Saturday, April 25. Tic-

kets are \$1.40 and reservations may be made at the Music Department.

LUBBOCK CIVIC music organization will join with the college music groups in the Music Festival. The "pops concert" will be Tuesday featuring scores from Broadway musicals. A program sponsored by the Museum Twilight Series will end the 13-day activities.

The Music Festival program will be made up of compositions by modern composers of the popular, religious, jazz and concert idioms, including works by Miss Mary Jeanne Van Appledorn of the Tech music faculty, and Persichetti.

Engineer Goes To Dallas Meet

Lilburn Smith will represent Tech in the student paper contest at the 11th annual southwestern conference of the Institute of Radio Engineers in Dallas today.

SMITH WILL compete with representatives from 13 other schools including Rice Institute, University of Colorado, University of Arkansas, Texas A&M and University of Houston.

Activities begin with a complimentary breakfast for contestants where students receive instructions for the contest to be held in Dallas Memorial Auditorium.

JUDGES ARE three people, not connected with represented schools. Prizes of \$100, \$50 and \$25 will be awarded to students with the three best papers.

Also attending the conference are Professors C. E. Houston and John Craig, and James Clifton, Bob Sikes and Don Thomas, electrical engineering students.

Sigma Delta Chi Installs Officers At Banquet

W. E. Garets, head of the Tech journalism department, was installed as secretary of the West Texas chapter of Sigma Delta Chi, national professional journalism fraternity, at the first annual Founders' Day banquet in the CROCKER Hotel Sunday night.

OTHER OFFICERS installed

were Orlin Brewer, editor of Levelland Sun-News, president; Jerry Hall, regional desk of The Avalanche - Journal, vice president; Kenneth May, regional desk of The Avalanche - Journal, treasurer; and Dorrance Guy, business editor of The Avalanche - Journal, chapter reporter for the SDX national magazine.

Bill Barnard, head of Associated Press in Texas, was speaker for the banquet. He was introduced by C. W. Ratliff, associate editor of The Avalanche - Journal.

MEMBERS OF Sigma Delta Chi, the student and alumni chapters of Theta Sigma Phi, a journalism fraternity for women, South Plains area newsmen, public relations personnel and wives of members were guests at the banquet.

Students Model In Area Show

Crosby County Cotton Week will host the cotton style show, "Cotton Round the Clock," at Lorenzo Friday.

The show, which has been successfully shown in Lubbock and for the Cotton Ginner's Association Convention in Dallas by the Tech girls, will be presented in the Lorenzo High School auditorium at 7:30 p.m. Friday.

MRS. BROXIE ANTHONY, a graduate student of Home Economics, who has narrated Lubbock style shows, will commentate. Mrs. Barbara Smith Hamilton, home economics teacher at Lorenzo and a Tech graduate, is responsible for props and other arrangements.

The Tech models will be guests at a barbeque at Lorenzo preceding the show.

Cadets Pick Sweetheart Tomorrow

"Miss Top Flight" will be announced at the Air Force ROTC Ball tomorrow night. Sabre Flight Drill Team will form honor guards for AFROTC sweethearts from whom the senior cadets elected "Miss Top Flight."

The ball will be in the National Guard Armory from 8 to 11:30 p.m.

Ted Weems and his orchestra will play, featuring vocalist Jean Carter. Although Weems' best-known recordings have been lively, bouncy tunes, his band plays everything from lush ballads to swinging up-tempo music. Other entertainment will be provided by AFROTC Glee Club, Arnold Air Society and Angel Flight.

The ball is sponsored each year by the AFROTC Association. Faculty sponsor is Capt. Robert D. Palmquist, and student dance committee head is Cadet Lt. Col. Jack Drummond. Committee chairmen include Bob Dyer, decorations; Allan Busk, programs; Dale Auten, refreshments and Keith Nutt, publicity.

Meet Pace Set By Kappa Sigs

Kappa Sigma topped the Speech Intramural Tournament with 351 points followed by the Pre-Law Club with 338 points and Phi Gamma Delta holding 268 points.

Pi Beta Phi is fourth with 183 points. Coming up with 143 points is Phi Kappa Psi and Alpha Chi Omega has 95 points.

Finals for the tournament will be at 7 p.m. April 27 in the Speech Bldg.

WINNERS OF THE sweepstakes and the individual trophies will be announced at the "May Day Dance" on May 1 in the Tech Union Ballroom.

Bits From Birdie

by merium jackson

Birdie's weathered the heat, the cold and even April 1 with no permanent damages.

HE WATCHED recently as Mortar Board, dressed in their traditional black caps and gowns tapped 19 new members and Junior Council awakened 20 Tech coeds at an early hour to inform the new members of their selection.

Alpha Psi Omega, national honorary dramatic fraternity, also tapped recently.

LIZ HOYER, senior from Wellington, Kansas; Richard Hopson, Lubbock freshman, and Anne Barasch, graduate from Lubbock became pledges of the group following the final performance of "The Madwoman of Chaillot."

Other Alpha Psis are Arthur Evans, Morris Bruns, Gail Cooper, Dale Torn, Dwayne Cox, Halcyon Hildreth and Anna Margaret McGraw.

RONALD SCHULZ, assistant speech and dramatic professor, is the sponsor of this fraternity.

Birdie also tells me that the Newman Club has plans for the weekend.

SUNDAY NIGHT the club will honor all foreign students on the campus. "Foreign Student Night" will include a social and refreshments. Mandy Moore, social chairman, told Birdie "all foreign students are invited and urged to come to 2305 Main at 7:30 p.m. Sunday."

Pi Phi's will dine and dance Friday night at the Palm Room with music provided by the Sultans of Swing. Dinner will begin at 7 p.m. and dancing at 8 p.m.

BIRDIE TELLS me that the Rodeo Association has already begun plans on the National Intercollegiate Rodeo which will be presented at Tech May 7, 8, and 9.

Rodeo plans will be a part of the business at the meeting of the Association tonight at 7:30 p.m.

Officers will also be elected and membership cards, necessary for attendance at any of the club's social functions, will be distributed.

Nine new members of Beta Alpha Psi, accounting fraternity, were initiated Tuesday night. They are Joan Allen, Tom Anthis, Frank D. Burton, Jack Coffman, Mark Hagstrom, Henry M. Haswell, Hershel M. James, James W. Pattillo and Robert Stewart.

SPEAKER for the occasion was Hugh Newsom, of Dorman & Newsom, Certified Public Accountants. He is also secretary-treasurer of the Lubbock chapter of the Texas Society of CPAs.

Honorary band fraternities will dance in a "Beatnik" atmosphere Saturday night. Kappa Kappa Psi and Tau Beta Sigma have scheduled the annual finale dance at 8 p.m. The dance is open to the Tech Band and by invitation.

A BIG-LITTLE brother western dance will highlight the Phi Kappa Psi's weekend.

The Sunday afternoon will bring a softball game between members and pledges. Umpires for the game will be "Bat" Anderson and "Mag-goo" Cummings.

Losers will treat the winners to supper Sunday night.

Tramps Slate Smoker Monday

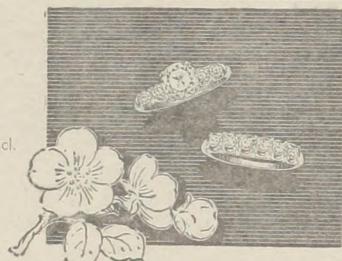

Saddle Tramps will have a smoker Monday at 7 p.m. in the Rec. Hall.

All men who will have completed 30 hours during this semester are invited to attend.

Arch Lamb, founder of the Saddle Tramps, will be the speaker.

Tech Tries To Collect For W.U.S.

There are 84,480 pennies in a mile!

THAT'S ALSO THE number that Tech will try to collect for the World University Service. The WUS was established through the World Student Christian Federation to provide aid for universities in war-torn areas.

Currently, however, the functions of the service have been widened to include help to meet the basic material needs of university communities throughout the world.

TECH'S PART in the drive will include a Mile of Pennies, shoe-shine and carwash booths. The drive will be led by Don Spencer and will number among similar fund raising projects in 39 countries.

WUS funds are distributed on the basis of need and the recipients desire to help themselves.

SUCH PROJETS as student lodging, health, education equipment and emergency student relief will receive aid by WUS.

Tech Rodeo Association's Queen Selection Begins

Competition begins Saturday to select Tech Rodeo Association's 1959 Rodeo Queen. Candidates will appear in a fashion show and personality contest for the first round.

SECOND ROUND consists of a horsemanship contest based on grace, poise and riding ability, to be held April 25. After the second round, six finalists will be chosen and these girls will compete on a penny-a-vote basis for the top honor.

Present entries and their sponsoring organizations are: Le Nora Turner, Sigma Kappa; Leta Merle Roberts, Delta Gamma; Almeida (Skeet) Ratliff, Kappa Kappa Gamma; Margaret Moore, Pi Beta Phi; Verna Ruth Liles, Casa Linda; Barbara Quintanilla, Zeta Tau Alpha; Catherine Clements, Sigma Nu; Ella Marie Williams, Sigma Chi; Linda Osborne, Drane Hall; Jill Jost, Alpha Chi Omega.

Candidates will model rodeo attire and be judged on posture, pleasantness, neatness, figure, and self-confidence. After modeling, the girls will be engaged in conversation by the judges to determine personality point allotment.

Horsemanship contests will take place a week from Saturday at Cowboys' Playground, three and a half miles south of Tahoka Circle on Tahoka highway. There they will be graded on how well they mount and dismount, their poise on the horse, and how well they handle themselves and their mounts. Horses will be furnished for the contestants.

ANY ORGANIZATION wishing to sponsor a contestant who is not already entered may contact Vernon Whitney, PO3-6675, before 10 p.m. tonight.

The fashion show will be open to the public.

FOR GERMAN MEET

Delegates Gather

More than 80 delegates from colleges and universities throughout the state will attend the seventh annual convention of the Texas Association of German Students at Tech Friday and Saturday.

DR. MARGARETHE Sztollargroewel, consul for the Republic of West Germany at Houston, will highlight the convention with an address at the Saturday luncheon in Tech Union ballroom.

Registration begins at 4 p.m. Friday in Tech Union, followed by a reception in the Anniversary Room at 5 p.m., and the opening address will be made at 7:30 p.m. by Sarita Gattis, TAGS president from TCU.

A SERIES OF dramatic and musical presentations will be featured by the various delegations in the Speech Building auditorium Friday and Saturday.

A University of Texas group will present "Maria Stuart," by Friedrich von Schiller, at 7:45 p.m. Friday and at 3 p.m. Saturday. Ad-

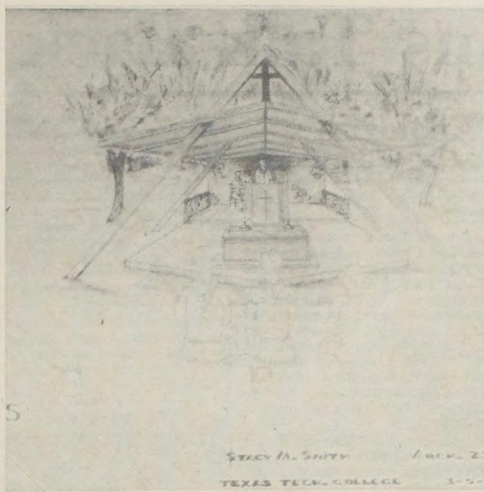

mission will be 50 cents. All other presentations are free.

TCU WILL present Hans Sachs' humorous play "Hofgesind Venerdis," Southwestern University students will follow with "Die Hypnose," by Arthur Schnitzler.

A group of songs by Our Lady of the Lake College at San Antonio will trace the richness of German folk and poetical music. SMU will present "Der Moerder," a mystery play by Curt Goetz. Arlington State College students will give the final play, "Der Schatz," at 11 a.m. Saturday.

HIGH SCHOOL students writing prize winning essays in a TAGS contest will be cited at the Saturday luncheon.

Texas Association of German Students was organized in 1953 to increase interest in the German language and culture among high school and college students. In addition to publishing a German language paper six times a year, TAGS sponsors essay contests for high school students of German.

A WILDERNESS CHAPEL. That's what the Phi Delta Theta's plan to build for the Scouts at Post. Pictured above is the general plan which will be followed in the construction. The Phi Delt "Community Service Day" was instituted in 1956 to provide service to the community and area.

Board Taps 19 Women

In annual tapping ceremonies Tuesday, Tech's Forum chapter of Mortar Board "tapped" 19 girls for 1959-60 membership.

MORTAR BOARD is a national honorary society for senior women. Selection is based on scholarship (1.8 over-all grade average), leadership and service in college student organizations.

New members are: Sherre Smith, Abilene; Cora Jo Lilly, Amarillo; Linda Lu Hagler, Brady; Martha Ann Kaiser, Houston; Gail Petersen, Los Gatos, Calif.; Mary Anne Clifton, Mary Sue Myers Black, Kathryn White, Johanna Zourmas, Dorothy Pijan, Carolyn Porter, all of Lubbock.

JEAN SCHEPERS, McGregor; Billie Jean Stroehle, Memphis; Judy Kelley, Pasadena; Martha Kenley, San Angelo; Karen Frack, Scuin; Mary Ann Lindley, Betty Maloy, Waco; and Linda Buhger, Winters.

Woman's Baseball Continues Today

Women's intramural baseball continues today at 5 p.m. as Pi Beta Phi plays Alpha Chi Omega. Knapp Hall plays the winner of the Kappa Alpha Theta and Delta Delta Delta game.

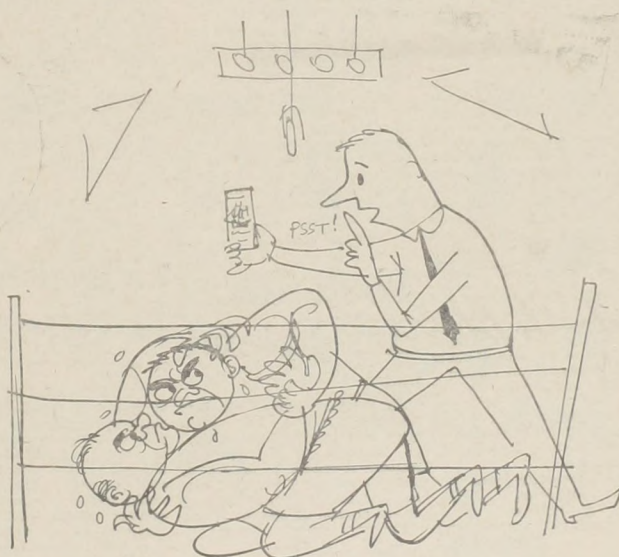

Friday afternoon will see Kappa Kappa Gamma playing the loser of the Knapp Hall game. Loser of the Tri-delta - Theta game plays the loser of Pi Beta Phi vs. A Chi O.

Techsans Talk Back

Staffer Defends President

Editor,

During the past year I have worked on the TOREADOR as sports editor and have also served on the Student Council as B.A. representative.

I DO NOT WISH to comment on the trouble between the Student Council and the TOREADOR other than to say that I sincerely hope that the two can get together and work out the problems that exist for a better Tech. There are points for both ideas and the only way for the air to be cleared is for representatives of both groups to sit down and work the thing out. I think steps are being taken right now to do this.

I would like to comment on several of the letters that have been sent into this paper, particularly in last Saturday's edition. These letters were primarily aimed at Donnell Echols, student body president.

I CERTAINLY believe in the right of any student to have his views published in the TOREADOR. I do not now, and never will, believe in the manner in which the letters attacking Echols were written.

First of all, they did nothing but slander Echols from head to foot. I feel this was most unjustified. Being president of the student body is no easy chore. One certainly can't please everyone. I don't intend to leave the impression that Echols has done a faultless job. Certainly he has made mistakes. But they were honest ones. In my opinion Echols has done an outstanding job. He has represented the students well at all times and has brought nothing but credit to the Student Council and student body as a whole through his actions.

IT IS A LOT easier to write a letter full of criticism and slander than to hold an office, be confronted with all the problems that come to a student president and take the action that will be the most beneficial to the students. This I sincerely believe Echols has done.

It is hard to even visualize the tremendous day-to-day pressure and responsibility that comes with the job of president. As a council member who has worked under and with Echols I can truthfully say to him thanks for a job well done.

THIS IS MORE than I can say to a couple of letterwriters who don't even have the courage to sign their name.

Sincerely yours,
Bill Dean

'Apologize' Says Student

Editor,

I would like to voice my opinion, and I might well add, several other students on the campus of Texas Tech. I don't know what to think of a person who can not take any criticism. I am sure glad to know that we have one person in the world who is perfect, but still better, I am glad to know that he is right here in Texas Tech. That must be very hard to take — that you can not make a mistake.

I personally feel that you should make a public apology to Mr. Echols. You should see that this is between the SDX and Mr. Echols.

AS YOU KNOW the meetings of the Student Council are open. I suggest you attend some of these meetings. You are acting like a child. "Mom, he hit me, call out all of the neighbors and let's get him."

I am not on the student council, neither this year nor next year. I personally saw no wrong in the April Fool edition.

Jack House

EDITOR'S NOTE: Apologize for what? For printing letters I received? Since taking office in the early part of this semester, I have printed every letter I have received, except for some that will appear in future issues.

As far as "blasting" Mr. Echols, the only blasting that was done was in these letters — the TOREADOR has taken no slams at Echols.

I'm sure that both Echols and myself are overjoyed to hear that you find nothing wrong with the April Fool issue.

My reasons for printing letters is because this is the one way that students can comment on campus problems in the TOREADOR, and I shall continue to print them, whether they are derogatory to Echols, the faculty, the administration, traditions or myself.

Toyletdor Has Friend

Editor,

Mr. Echols, in your article about the TOYLETDOR, you stated, quote, "if the TOYLETDOR can't be published in a respectable manner, it should be done away with." I wonder if you have ever heard of the freedom of the press or the freedom of speech; I won-

der if you aren't tired of working under the communistic authority that the administration runs this school with. I wonder if you don't get tired of the administration running this school in a kindergarten type of way when they, the administration, don't even have enough sense to turn off the watering system when it's raining.

WHEN YOU STATED that this critical view of yours was the same as the general campus view you were way off base. The average student accepted the April Fool's edition as it was meant — a joke.

I respect your courage in publishing your views, but I don't agree with them. At least you didn't act like our illustrious President, who sits behind his egotistical view of himself and says, "I have no comment till I speak to my Board of School Relations."

THE TOYLETDOR and TOR-EADOR are for student expression of ideas and the April Fool's edition did just this. Mr. Echols also stated in his article that this year's issue wasn't complimentary to the school in any way. Can you complement an organization that is run by grade school regulations and by people who sometimes I wonder have grade school qualifications?

I believe that Sigma Delta Chi is doing the school a service by the yearly printing of the TOYLETDOR. The Publications Committee won't let the paper say anything that will hurt the administration's feelings during the year. The Publications Committee even puts out a booklet that tells the TOREADOR staff what it can or can't print when it is dealing with the administration.

LOOK INTO THIS Mr. Echols, and see if it isn't true. Another thing Mr. Echols, does the Student Council really have its freedom or are they ruled over, not by yourself, but by an "egg-head"? Mr. Echols wants the college to do away with the TOYLETDOR. I wonder why? Mr. Echols is acting just like Russia did when she refused to let Dr. Pasternak write his controversial views on government.

J. N. Embree

Criticism Is Offered

Editor,

The TOREADOR hit a new low in respect of the students Saturday when it published a letter by F.F. We were shocked when we read in the letter where the writer told Mr. Echols where to go. It seems as Editor of the paper you would accept your responsibilities as a man and as an Editor and see that such phrases as "Go to..." were never printed in your paper.

THE ABOVE LETTER and the others Saturday really hit at the view Echols expressed over the April 1 issue. I have heard a number of students who were disappointed in the paper. Don't they deserve representation too?

I'm in favor of an April Fool's paper, but not like this year's issue. I'm all for fun and humor, but not using this as an excuse for getting back at people and digging them like you did. It hurt the prestige of the TOREADOR considerably.

IT HAS BEEN quite amusing to check the signatures and initials on the letters supporting the Journalism Dept. views in the Student Council - Journalism Dept. battle over the Publications Committee. To the average student it seems as if the majority are supporting the Journalism Dept., but in checking the signatures and STUDENT, Page 5...

TOREADOR

Editorial Page

"A Little Bit"

James Hamm

Some persons avoid conflict in any form, thinking that peace at any cost is better than disagreement.

WHAT THESE persons fail to realize is that only through conflict can progress be achieved. With two elements battling for a favorable position, a compromise between the two must be reached, combining desirable features of both elements.

ALSO, CONFLICT will weed out the weaker members of a disagreement, whether that disagreement be verbal or written arguments, athletic competition, or war.

Conflict will develop and temper a person, argument or theory. Through continuous testing and action, an element will either survive and become stronger or die out.

UNDESIRABLE and weak features of an element will be ferreted out and destroyed by conflict, and the stronger and more desirable elements will be pointed up and made even stronger.

An idea, theory or belief is worthless until it is proven that they will hold up in conflict. A seeming virtue isn't a true virtue until it has been tested by conflict and still remains intact.

A MAN WHO has never stolen because he hasn't been faced with the opportunity to do so and the accompanying battle of morals, is not necessarily a "good" man. However, if he has had the opportunity to steal and doesn't do so, that man then may qualify as being "good."

A way of life or a religion is not worth much until it has been tested by conflict and has proven

that it can withstand pressures, making the adjustments necessary to fulfill the needs of an individual or group of persons, and at the same time retaining most of its original form.

AN ECONOMY or a government must be proven by conflict before they can become powerful and stable. Our United States government has faced a large amount of conflict — internal and external, national and local, armed and relatively peaceful.

The lack of conflict has caused certain elements to weaken slowly, and die within themselves, or be destroyed by a stronger element later on.

HOWEVER, CONFLICT in certain areas would do well to slacken. For instance, wherever an overdose of conflict would cause the loss of human life, it would be better if the conflict were less — such as in a war.

Also, a certain amount of physical comfort is preferable to almost constant conflict — such as standing in a rainstorm just to do battle with the natural elements.

WHERE EXTREME conflict results in the lowering of living conditions for large groups of people, as reactionary free enterprise often results in, a slackening of conflict would be desirable.

But conflict can be curtailed too much, as is the case with the destruction of all or most economic conflict in a communistic or an extreme socialistic country.

CONFLICT IS a powerful force in shaping ideas, ideals, beliefs, religions, theories and persons, and can be used to good advantage when administered in the proper doses.

"DO IT OVER AGAIN --- I TOLD YOU I WOULD NOT ACCEPT A MESSY PAPER."

The TOREADOR, official student newspaper of Texas Technological College, Lubbock, Texas, is regularly published each Tuesday, Thursday and Saturday morning during the two long terms, excepting holidays, by students of the College as an expression of student news and opinion only.

The TOREADOR is financed by a student matriculation fee, advertising and subscriptions. Letters to the editor represent the views of their writers and not necessarily those of the TOREADOR. Letters must be signed, but may be published without signatures in justifiable instances. The views of the TOREADOR are in no way to be construed as necessarily those of the administration.

Entered as second class matter at the Post Office in Lubbock, Texas, under No. 147, dated March 3, 1979.

Firm Grants Tech Strong Microscope

Tech has received an electron microscope 100 times more powerful than the best optical magnifier from the Magnolia Petroleum Co.

THROUGH THE electronic eye of this instrument, which is supervised by the Physics Department, one can see a virus one millionth of an inch in length appear as large as a mosquito.

The seven-foot high instrument also will be used by faculty and students in geology, biology and other departments, according to

Dr. Henry Thomas, Tech physics department head.

THE ELECTRON microscope has important research applications in mineralogy, crystallography, bacteriology, histology and other scientific fields, reports Dr. W. C. Skinner, supervisor in Magnolia's Field Research Laboratory in Dallas.

Skinner, former classmate of Thomas at both Western Kentucky State and Vanderbilt, made a special trip to Tech last week to discuss installation and operation of the microscope.

Student Accusation Is Proved False

(Continued from Page 4)

initials, one notices that Journalism students are writing many of the letters. This is easy to see that if a Journalism student wants to make better grades in his major subjects, he just writes a letter supporting the views of the Dept. head. Billy Ellis may have been doing this Saturday. By the way, Ellis referred to himself as President of the Journalism fraternity he was defending. How does he manage to remain President when he didn't make a one-point last semester?

It has been discouraging to read some of the Editor's comments that have appeared on the bottom of some of the letters. Of course we all know that it is not easy to take criticism, especially when you can get in the last word.

THE FIGHT between the Council and the Journalism Dept. has gone too far. It's time to stop and evaluate, and get something worked out peacefully. Neither one can represent the student, fighting each other like you are doing! With the two of you working together, the students would be well represented. Maybe then we could see that the \$5.00 a semester Union fee and the bookstore profits were being spent for the students, how we can get the name of the instructors printed by the side of the section they teach on the schedules, how to get better food in the dorms, longer holidays and lots of other things.

Your coverage of news has been terrible this year. Each student could probably name several things that have failed to be mentioned in the TOREADOR this year, and not because of lack of space either. Let's take Saturday's paper for instance. A Journalism sorority elected officers and got front page coverage. You forgot to mention that it doesn't have over 5 or six active pledges. Then there was another story about journalism on the front page that puts your department on the back... Last Thursday! We students elected four cheerleaders, but only three got their picture in the paper... You played up the SAE's and 8 (what) winning the tug of war. It was a very poor headline and the SAE's were not the only frat to win. You also failed to mention the Board of Directors meeting Saturday. We can't evaluate the Student Council because you fail to let us know when their meeting is or where it is going to be, or what happens at them.

I HAVE WRITTEN another of the long-winded letters and am sure that your comments at the end may be even longer. But I just want to see if you will take the constructive criticism in this letter and use it as such.

We students look to both the

KOENS STUDIOS

Student Council and the TOREADOR to represent us and keep us informed. Both of you are a necessity and are capable of doing great and creative things. But the littleness on both the Council and the TOREADOR is being brought out in this continued cutthroat fight for self praise.

Richard Holzapfel
Dorm 5

EDITOR'S NOTE: You're right, a few comments should be made.

1. You had some good criticism: 2. Billy Ellis is past president of Sigma Delta Chi, not president

— Ralph Carpenter is president. By the way, Ellis carried a 2.5 at midsemester, after retiring from his job as LA VENTANA, editor.

3. As for your statement that journalism students and TOREADOR staffers had been writing most of the letters to the editor, there have been only two — by Billy Ellis, representing Sigma Delta Chi, and Bill Dean, defending Donnell Echols. Two letters we ran with initials because of the writers' request. Below is a statement signed by a Tech employee, M. A. Winegar, who isn't connected with the TOREADOR or journalism department in any way. The signature was notarized by Flossie Brown: "I have checked the names signed to the two letters run in the April 11 issue of the TOREADOR followed by the initials M. L. and F. F. against the journalism department rolls and the TOREADOR staff roll. Neither student is a Journalism major nor works for the TOREADOR, and one is enrolled for no journalism courses, while the other is taking one journalism course."

TECH'S WOMEN OF THE YEAR

Co-eds Elect Miller

Peggy Miller, Shreveport senior, was named Woman of the Year at the Woman's Day banquet Tuesday night.

Miss Miller, who is president of Tech's Forum chapter of Mortar Board, was also recognized for having the highest scholarship of her sorority, Delta Delta Delta, and her dormitory, Weeks Hall.

DEAN of Women Florence Phillips announced the selection made by Tech women in an all-campus election Tuesday.

The annual banquet climaxed Woman's Day activities with the announcement of top women students and Mortar Board's "tapping" ceremony.

"The Russian Woman" was the topic of the guest speaker, Miss Helen Poe, lecturer and world traveler from Dallas.

"The American woman," said Miss Poe, "has little concept of the Russian woman. Nine out of 10 Russian women work, and no job is too hard for them."

MISS POE continued, "The first day I was in Russia, I saw a young girl up to her waist in mire laying out a sewer pipe. She was about 17 years of age. Mud was all over her face, but she wore a string of yellow beads, reminding herself she was still a woman and still young."

Miss Poe was introduced by Cora Jean McMurty, Barbara McDougall, AWS president, was mistress of ceremonies. Invocation was given by Kathy White.

Doak Hall was presented a trophy for highest scholarship among women's dormitories by Libby Balzer, past president of the Women's Inter-Dormitory Council.

Residents with highest scholarship in each dorm were presented. They were Carol Burrow, Sunny Barrow and Virginia Denson, Doak; Peggy O'Neal, Knapp; Peggy Malinak, Drane; Joyce Nell

Bishop and Anne Spittler, Horn; Peggy Miller, Weeks; and Jane Williams, Casa Linda.

KNAPP HALL was recognized as the freshmen women's dorm with the highest scholarship.

Kappa Alpha Theta was presented a trophy for high scholarship among Tech's 11 social sororities for the second year by Barbara Hawk, past president of Panhellenic.

Those recognized for highest scholarship in each sorority were: Yvonne Skinner, Alpha Chi Omega; Eleanor Clayton, Alpha Phi; Peggy Miller, Delta Delta Delta; Nancy Baldwin, Delta Gamma; Shirley Wyatt, Gamma Phi Beta; Elsa Dockray, Kappa Alpha Theta; Linda Dennis, Kappa Kappa Gamma; Margaret Farrow, Phi

Mu; Peggy Malinak and Peggy O'Neal, Pi Beta Phi; Virginia Denson, Sigma Kappa; and Jean Brown, Zeta Tau Alpha.

The Alpha Lambda Delta Award for highest scholarship by a Tech coed during her college years went to Sunny Barrow, who has a 2.91 grade point average. Mabel Blum presented the award.

LAJUANA RABB recognized four women who are recipients of Delta Delta Delta scholarships: Louise Aguiere, Judy Kelly, Pat Shilcutt and Ruth Ann Strain.

Carolyn McFarland was named recipient of a \$400 Mortar Board scholarship by Hazel Casey, and Linda Dennis was honored for having the highest grade point average among Tech women during her freshman year.

Hand Arts Revealed In Home Economics

Ever wonder what goes into hand and loom weaving? This is one of the many questions that the applied arts department portion of the Home Economics open house will answer April 24 and 25.

THIS YEAR'S open house marks the 30th anniversary of granting degrees in home economics at Tech. The first graduates of this department laid the foundation for this year's theme, "Then Today, Tomorrow."

Applied Arts has a large part in making this dream of years ago

"Moore and Bandera Hats" LYNCH HAT WORKS 1106 AVE. J

come true with their many exhibits and demonstrations of what can be done with just a few ideas and hopes.

"Art for the Public School Teacher" features public school children working under supervision of the art education classes.

FRESHMAN APPLIED arts classes have been working on various types of line and color designs which will be exhibited in room 273 of the Home Economics Building.

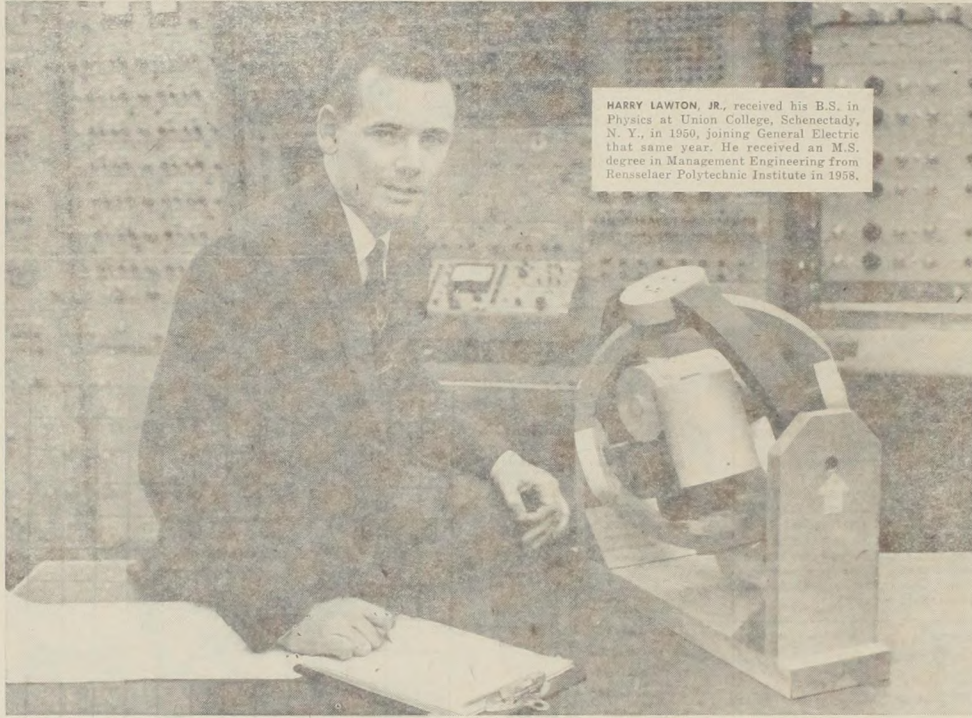

Mosaics, enameling, wall designs, silk screen, sculptures, interior designs and demonstrations on how to make these are shown in the crafts lab in H.E. 275 and 276. The interior design room will highlight room dividers, house plans, with color schemes and furniture arrangements in H.E. 166.

Techniques of weaving and upholstery are the main attraction of the weaving exhibit in H.E. 104.

Open house begins Friday, April 24 from 1 till 5 p.m. and continues through Saturday, April 25, 9 a.m. to 5 p.m.

DR. BILL LOCKHART grins in amazement at some of the work done by his applied arts "pupils," Sylvia McAden and Sandra Dudley, which will be exhibited in the applied arts portion of the Home Economics Open House, April 24 and 25. (Staff Photo)

HARRY LAWTON, JR., received his B.S. in Physics at Union College, Schenectady, N. Y., in 1950, joining General Electric that same year. He received an M.S. degree in Management Engineering from Rensselaer Polytechnic Institute in 1958.

"Long-range programs are important — for both men and missiles"

"In a company dedicated to research and development, a young man's opportunities to learn more — to increase his technical skills — are almost unlimited," says 31-year-old Harry Lawton, Jr., a General Electric engineer engaged in the development of inertial guidance and fire-control systems for ballistic missiles. "And to maintain America's scientific leadership, we're going to need all the technical training and skills we can produce."

"An important aspect of my job at General Electric is the continuing opportunity to learn more. I've been able to continue my education in the company's Physics Program for college graduates. And I also have the advantage of association with top technical experts in my work. Opportunities like this have helped me realize that long-range programs are important — for both men and missiles."

Harry Lawton is one of several hundred technical graduates who are devoting their skills to the develop-

ment of 14 government missile projects to which General Electric is a major contributor. More and more our scientific progress and our national security depend on men like this — men who bring high qualifications to their work and who continue their quest for knowledge, both on and off the job.

General Electric believes that individual initiative and career growth are essential to America's continued technological leadership. To this end, the company encourages all of its employees — including more than 30,000 college graduates — to develop to their fullest capabilities by providing opportunities for increasing knowledge and working skills.

Students Given TDNA Interns

Students chosen for the summer journalism internship program sponsored by the Texas Daily Newspaper Association, were announced this week by W. E. Garrett, head of the journalism department.

CHOSEN FOR the news internship program were Tommy Schmidt, Mason, Abilene Reporter-News; Jim Walsh, Lubbock, Amarillo Globe News and Gerald Fulkerson, Lubbock, Borger News Herald.

New Setup Proposed

(Continued from Page 1)
lect of next year's Student Council, moved that the Council recommend longer spring vacation next year.

"Three or four days can be added to the Easter holiday, and those days made up at the first of the school year," Phluger pointed out.

In other business, Don Spencer, World University Service Committee chairman, reported that the committee's projects were developing well. Two he mentioned were the Mile of Pennies and the Shoe Shine projects.

COMMENTING ON the recent Spring Festival, David Steinman, chairman of the Spring Festival Committee, pointed out that "all that remained for the Spring Festival to be a success was for the event to break even."

Weaknesses pointed out was the lack of attendance at certain events, mainly due to weather, and the disorganized way the barbecue was handled. Also, it was pointed out that the package ticket wasn't too successful.

Claude Rogers moved that a re-evaluation of the committee be made, headed by the three executive officers. The possibility of changing the membership was also discussed. The motion was passed.

Progress Is Our Most Important Product

GENERAL ELECTRIC

Sparks T To Kans

Tech track coach, Don Sparks, and three of his star performers, Dub Thornton, Richard Murphy and James Pettit, left Wednesday for Lawrence, Kan., and the Kansas Relays.

THORNTON, WHO leaped 6 feet 7-8 inches at the North Texas Relays last week to set a new Tech record in winning the meet, will be entered in the hurdle competition. Murphy will enter both the 400 meter hurdle and the high hurdles.

Sparks said that the reason the players were leaving so early was because of the long trip and the fact that they had to be on the field at 9 a.m. Friday for preliminary.

Diamond Results

CINCINNATI (P) — The Pittsburgh Pirates looked anything but nervous Wednesday as they dropped their fifth game in a row before Cincinnati Redleg power, 10 to 6. The Reds got three homers and 10 hits.

CLEVELAND (P) — A two-home run by third baseman Woolden broke a 10th inning tie Wednesday and gave Cleveland Indians a 2-1 victory over the Detroit Tigers. It was the Tigers' fourth straight victory and Indians' fifth loss.

CHICAGO (P) — Kansas City loaded an extra-base bomb Wednesday, including pitcher Bob Grim, grand slam homer, and stayed in Chicago 10-8 Wednesday to beat the White Sox winning streak four.

BOSTON (P) — Jerry Cooney made his big league debut in a ring fashion Wednesday, hitting a long, lofty three-run home run in addition to pitching the Boston Red Sox to a 7-3 triumph over Washington Senators.

Casale, a strong-armed right hander who lives in Brooklyn, one of the longest home runs seen in Fenway Park. It was a high clout which cleared wall screen in left-center and bounced on a roof across Lansdowne street.

New Deadline Set

Edsel Buchanan, intramural sports director, announced Wednesday that the deadline for bowling entries has been extended to Friday.

All students interested should place their entries at the bowling club.

Sparks Takes Three To Kansas Relays

Tech track coach, Don Sparks, and three of his star performers, Dub Thornton, Richard Murphy and James Pettit, left Wednesday for Lawrence, Kan., and the Kansas Relays.

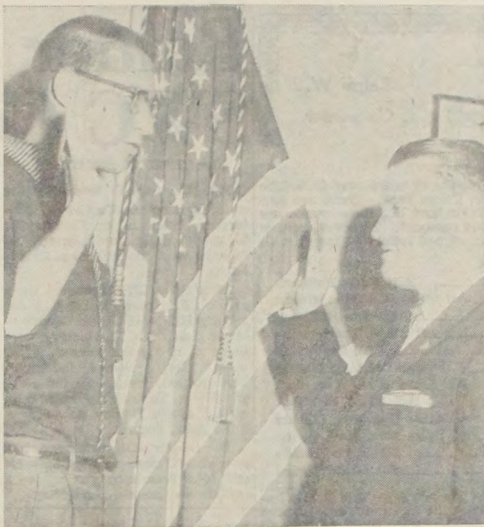

THORNTON, WHO leaped 6 feet 8 7/8 inches at the North Texas Relays last week to set a new Tech record in winning the meet, will be entered in the high jump. Pettit will enter the decathlon competition. Murphy will enter both the 400 meter hurdles and the high hurdles.

Sparks said that the reason the players were leaving so early was because of the long trip and the fact that they had to be on the field at 9 a.m. Friday for preliminaries.

NEITHER Thornton nor Pettit is at full strength. Thornton hurt his leg, apparently trying for a 6-10 leap last week, and has not been able to practice this week.

Pettit sprained an ankle last week, but it is responding to treatment and Sparks thought that it would be all right by Friday. The injury cost Tech points in its effort to finish second to ACC.

MURPHY PLACED third in the Texas Relays in the 400-meter event and might do as well at Kansas after longer work at the distance. He has been practicing steadily, but faces a stiff field. He also will have strong competition in the high hurdles.

THE BIG BOY SIGNS — Wade Wolfe, outstanding performer for Polk Robison's cage crew this season, is shown taking the oath that commits him to six months active duty with the Marine Corp Reserve. He will begin his tour of duty August 5. Maj. Gerald H. Sanders, commanding officer of the 40th Infantry Company Reserve in Lubbock, administers the oath.

BASEBALL FARE

NEW YORK (AP) — Probable pitchers for today's major league games:

- National League**
 - Philadelphia at Milwaukee — Roberts (1-0) vs. Burdette (1-0).
 - Chicago at San Francisco — Anderson (1-0) vs. Jones (1-0).
 - St. Louis at Los Angeles N — Broglio (0-1) vs. Koufax (0-0). Only games scheduled.
- American League**
 - Kansas City at Chicago — Garver (0-1) vs. Wynn (1-0).
 - New York at Baltimore — Dittmar (0-0) vs. Bamberger (0-0).

RALPH'S RAMBLINGS

by
Ralph W. Carpenter

Let's take a closer look at some results of what may indeed be the finest job of recruiting ever done at Texas Tech. There are several players who intend to come to Raiderland but their names are being withheld at this time (for obvious reasons). However, here is a list of high school gridders that have signed letters of intent with the Raiders:

| | |
|--------------------|----------------------------|
| COOLIDGE HUNT | All State Fullback |
| LARRY KIMBERLIN | All State Hon. Men. Guard |
| RICHARD WILLIS | All State Halfback |
| JOHN LOVELACE | All State Quarterback |
| JERRY GARRISON | All State End |
| WINFREY SHIPP | All State 2nd team Tackle |
| LARRY JONES | All State Hon. Men. End |
| BILL HAMMONS | All State Fullback |
| FRANK AYCOCK | All State Hon. Men. Tackle |
| PETE PETERSON | All State Hon. Men. Guard |
| CHARLES HUDDLESTON | All State Tackle |
| CHARLES EDGMON | All State Guard |

This looks like a pretty good start doesn't it? This list is impressive in itself and when you think about the fact that there is more on the way — boy! Personally, we would like to see Joe Ed Pesch, all state halfback from Breckenridge, join this fine list of performers. You Breckenridge students might tell him a few things. It would also be a good idea if we could capture Arlan Flake, Lubbock, and Ronnie Erice, Andrews — two fine quarterbacks.

We may be on our way.

—RWC—

Some high-powered caddies were on hand for the Southwest Conference golf match between Texas Tech and TCU Saturday. Carrying Tech clubs were quarterback Jerry Bell of Ballinger, Tech's quarterback last season, and halfback Ronnie Rice, leading rusher the past two football seasons. Toting the TCU clubs was the husky All-American from TCU, Norman Hamilton, the former TCU tackle now resides in Lubbock.

—RWC—

The Tech coaching staff is sure excited about the new stadium plans and they have a right to be — the new office setup, both in arrangement and location, appears second to none in the Southwest Conference. The new press-box plans look real fine too — it is scheduled to be ready for next season. It would appear that Tech is on the way as far as the stadium is concerned.

—RWC—

With Jay McClure as golf coach, the Texas Tech staff now includes two ex-marines — football assistant Joe Kerbel being the other.

—RWC—

Tech's golf team is making quite a name for itself around the conference this season. Coach McClure is doing a good job with the team. Of course he has some fine material to work with — but it takes both coaching and players to produce a winner. It would be nice if the golfers could capture the SWC golf crown this year — they might just do it.

Netters Meet Baylor Team

Texas Tech's tennis team, undefeated in dual match competition for the season, faces its toughest test of the year against Baylor here Saturday.

COACH PHILBRICK'S Raiders, who have compiled a 5-0-1 record in college dual match play this spring, will be battling to hold on to their third place spot in the conference standings.

The only common opponent of the two teams has been Texas Christian. Baylor beat the Frogs in Waco Tuesday by a 6-0 score, winning all their singles matches in straight sets, and dropping one set in the doubles competition. Tech won almost as handily in Fort Worth, also 6-0, losing only one set in singles matches and talking both doubles matches in straight sets.

BOB MACY, JUNIOR from Coral Gables, Fla., and Danny Scales, Lubbock sophomore, are still undefeated in conference singles. Macy stands 3-0 in No. 1 singles while Scales has won all three of his No. 4 singles matches. Scales and his partner, Phil Meisinger, sophomore from El Paso, held an unblemished No. 2 doubles record in conference play. Meisinger has won two of his three No. 2 singles matches.

JOHNNY KNIFFEN, No. 3 singles player from Clyde, has a 2-1 record in singles.

Raider Golfers Lead SWC Conference Race

by VERNON STEWART

The Tech golf team, sitting squarely atop the Southwest Conference heap, is in Fayetteville today preparing for a match tomorrow with the Arkansas Razorbacks.

THE RAIDERS tightened their grip on first place Monday by defeating SMU 5-1 at the Meadowbrook Golf Club. The victory gave them a 19-5 point record. TCU, 15-8 is Tech's closest challenger. The Horned Frogs defeated Baylor 5½-½ Tuesday to take over second place. Baylor now has a 9½-8 point record.

The match with Arkansas, last year's SWC champion, is the Raiders' lone remaining out of town conference match. According to

Coach Jay McClure, the home course advantage in golf is comparable to the home court advantage in basketball. The Raiders practice at the Meadowbrook course and play all their home matches there.

JOHN PAUL CAIN LED the Raiders against SMU, shooting a one-under par 71 to defeat Mike York, 1 up. York fired a 72.

Cris Blocker shot par golf to defeat David Gray 3-2 and Don Kaplan fired a 75 to trim Jack Little 3-2. Gray shot 75. Little 77.

GENE TETER brought SMU its

lone point. He matched par with a birdie on No. 17 to down John Farquhar, 1 up. Farquhar was one under par.

In doubles, the team of Farquhar-Blocker downed Teter-Gray, 4-3, and Cain and Kaplan beat York and Little, 2-1.

TECH WILL MEET Texas April 25, and Baylor April 27 at Meadowbrook. The SWC tournament determining the individual champion will be played in College Station. McClure thinks any one of the four team members is capable of winning the tournament.

Diamond Nine Battles Buffs In Weekend Tilt

The Raider baseball team, hoping to hit the 500 mark, will put its 2-3 record on the line against West Texas State at Canyon Saturday.

HOUSTON POWELL, with a record of 0-1, will do the mound chores for the Raiders. Bill Curry will be in the bullpen in case Powell falters.

"We have been hitting well, and it looks like we may soon hit our stride," said head coach Beattie Feathers Wednesday. The Raiders have been hampered in practice this spring by bad weather; but Feathers hopes that the rest of the season they will have better weather.

COACH FEATHERS said that they have converted Butch Adams from first baseman to pitcher.

Feathers reported that Adams will strengthen the pitching staff, since they need a left-handed flinger. Adams is also a good hitter and could be used as a pinch hitter.

Feathers received some encouraging news this week when the doctor told Bill Dean, outfielder for the Raiders, that he could start working out with the team again. Dean broke a collar bone earlier this season. Feathers said that it will be a few weeks before Dean will be able to play.

Raider Coach Makes Report

"Our basketball player recruiting looks good at this time," head basketball coach Polk Robison reported Wednesday.

COACH ROBISON reported that he has already signed two boys to come to Tech next fall. They are Tom Patty from Carlsbad, N.M., and Tommy Clark, from Roswell, N.M.

Tom Patty stands 6-5, was an all-state both in basketball and football. Tommy Clark, 6-5, was an all-state selection in basketball.

APRIL 1 WAS the first day college basketball coaches could start signing boys, Robison reported.

The head coach said that they have lined up visits with boys on week-ends from now till school is out. The coach said that a lot of the boys are still participating in spring sports, and they will be unable to talk with them until they finish their high school eligibility.
