

Fidel Passes 'Point Of No Return'

By RON CALHOUN
Chief Editorial Assistant

The recent diplomatic break between Castro's Cuba and the United States has once more raised tensions between the two governments to the boiling point, and has brought the "bearded one's" antics again to the front page headlines of the world's newspapers.

Raymond D. Mack, asst. professor of government at Texas Tech, in an interview with the Toreador Friday, explained and answered a few questions which deal with the circumstances surrounding Castro's past and present position and actions.

Professor Mack has recently attended the annual meeting of the Association for Latin American Studies and, as he put it, "Of course, Cuba was discussed at the meetings, in the halls and in the foyers . . . in many places and ways."

QUESTION: What do the diplomatic breaks, both with the United States and Latin-American countries, seem to indicate in regard to the future of Fidel Castro?

"I would say the prognosis for Castro is bad, chiefly because his regime has relied heavily on the support

of the Latin-American bloc as being the most friendly and sympathetic to his cause.

"But countries such as Mexico and Venezuela are clearly disenchanted. Mexico in particular was the object of Fidel's affection because he patterned his Revolution after the model of Mexico's which occurred in 1910 and which the Mexican's say still continues. Although Marxist thought was prominent in the early years, Mexico is now clearly anti-Communist."

Other Latin-American countries under liberal administrations have in general adopted a policy of "quarantine", at least officially. Riots in the streets of such countries as Ecuador and Venezuela supporting "Fidelismo" are simply manifestations of the ingenuities of Communist agents who are famous for the instant demonstrations.

It seems that one of the chief aims of the Castro movement was that it be acceptable in Latin-America. Support is lacking and, even more so, disappearing. There is excellent reason to believe that this is more than just passive policy. It is rapidly changing into active support of expeditionary forces to oppose Castro.

QUESTION: How will the diplomatic break affect the relationship between the United States and Cuba

as far as the Guantanamo Naval Base is concerned?

"I doubt if it will have any effect unless we want to give it some effect by moving our personnel. Our continuing in Guantanamo serves Castro ideally as being ever-present proof that 'Tio' Sam is ready to gobble the Cuban people up. Thus the continual cry by Castro of 'imminent invasion' is justified in propaganda terms."

QUESTION: Is there any indication of the strength, purpose and organization of the anti-Castro element in the United States, Mexico and Cuba?

"They are stronger and have better organization than most people realize. It was the middle class that gave Castro his power and now they are the ones who are most dissatisfied."

QUESTION: In reviewing the history of the Cuban revolution and its aftermath, what faults and failures can be found with both the U.S. and Cuba which would lead the two countries to their present state of affairs.

"If it were not so tragic, the affairs of the deterioration of relations between the U.S. and Cuba might be thought of as a comedy of errors. And yet, these seem to have a very definite pattern, so well defined that one is inclined to suspect that the series of provocations were planned.

"Beginning with the trials through the series of provocations and retaliations there is this evident pattern that could only lead to diplomatic rupture.

"Once he emerged from the hills it seems to me he became, very shortly afterwards, the captive of men who wished no good to Cuba or Fidel Castro. Today, rapprochement is impossible because of this chain of events.

"Fidel must be the eternal revolutionary—he must wear his fatigues, beard and be free to make his speeches. The routine of government 'chaffs', but others are not so constructed. While Fidel posed and strutted the machinery was set in motion to destroy Castro's ties in the West and in turn destroy Castro."

QUESTION: Could you predict what is in store for Cuba in the future?

"The future of the Cuban people is very bleak. The amateur historian knows that the Soviet Union is interested in wooing the nationalistic yearnings of peoples but it is never a constant lover.

"That Fidel is in trouble, there is no doubt. He has accepted fiscal suicide also, by his concept of the unlimited resources of the Cuban treasury. He is encouraged in this belief by the man who has most to gain, by any development or change in U.S.-Cuban relations, whether to our benefit or Cuba's.

"This man is 'Che' (hey, you) Guevara, who is the chief agent of International Communism and who has little stake in the future of Cuba. He is interested only in the advancement in the fortunes of the Soviet Union, and most assuredly those of 'Che.'

"Thus, if the U.S. with hat in hand attempts reconciliation with Cuba to prevent world war, this would serve the purposes of the Argentine surgeon turned agitator. On the other hand if the Castro movement is defeated by U.S. pressure, then this will become a symbol 'Che' can use wherever he will turn up next."

Taos Ski Spree Nears

By VERN HAMMETT
Toreador Staff Writer

Ticket sales ended Friday for the Texas Tech Ski Club's annual ski trip to Taos, N. M., between semesters. A total

'Harbinger' Sales Begin

Sales of the "Harbinger" magazine, published by Sigma Tau Delta, honorary English fraternity, began Friday at the College Bookstore, Varsity Bookstore, Tech Book and Stationery Center and C&O 125 for 35 cents.

Published in the magazine are short stories, poetry, and essays written by Tech students. First place winners in these three sections are Betty Davies for her poem "The Unblessed Paradise," Charmayne Wilson for her short stories "The Glass Goddess" and "No Longer Any Tears," and Kathryn Barr for her essay "Definition of a Tomboy."

of 123 tickets had been sold by Friday morning, according to Norman Kinzy, Ski Club vice president.

Pre-Ski School will be conducted Monday through Thursday from 7-8 p.m. in the Old Gym. The skiers will be given some hints to make the trip safer and more enjoyable and should come dressed to participate in conditioning exercises.

Chartered buses carrying a portion of the students will leave at 7 a.m. on Jan. 22. The remainder of the students plan to make the trip by private car. The skiers will return to the campus Jan. 25.

Races for beginners, intermediates and experts and other contests and games are on the agenda for the three-day stay at the Hondo Ski Lodge near Taos, New Mexico. The Four Teens, a dance combo, will play nightly during the trip.

Students must have their own insurance for the trip. Arrangements for insurance for a five-day period are being made by the Ski Club.

New Band Features Blazers

By KATY HUNTER
Of The Toreador Editorial Staff

After a year of planning and searching for funds for uniforms, the idea of a band organized especially for basketball games has finally materialized at Texas Tech.

The new 41-piece band will wear bright red blazer jackets for the first time at the Tech-A&M game Friday, Jan. 13. The full uniform will consist of the blazers, black trousers and skirts, with white shirts and black ties.

Dean Killion, band director, said that he and Athletic Director Polk Robison have been working for a year in efforts to get the jackets so a regular basketball band could be organized.

The band, which will be very similar to a large dance band, will play mostly pop music. The instrumentation will be predominately brass, with enough of other types of instruments to add color. The members were selected from qualified volunteers from the concert band and the stage band.

In conjunction with the new basketball band, Killion is planning to introduce a special twirling corps of approximately 15 girls which will perform at the basketball games only.

The corps has not been chosen yet, and girls interested in participating should contact Killion during dead week. The only requirement is that the chosen members register for one of the two bands in the spring semester.

NEW GYM FOR TECH WOMEN

... features improved physical education facilities and expanded office space for instructors.

Women's Gym Opens With More Facilities

The new women's gym was opened December 15 and the men's intramural offices moved into the old women's gym December 17 as Tech campus becomes equipped with more progressive physical educational facilities.

Costing \$289,411 to build, the new women's gym is located in front of the Music Building and across from Knapp Hall. The new gym has a separate office for each instructor, a large room for social dancing, adequate equipment

rooms, an indoor basketball and tennis courts and a large basement room for gymnastics and tumbling.

Outside the new gym are facilities for tennis, archery, and golf. There is also adequate space devoted to volleyball and baseball.

In the old men's gym the intramural directors, their assistants and secretaries have moved into the old women's gym and have plenty of room, according to Edsel H. Buchanan, director of intramurals for men.

There are locker facilities for the intramural staff and officials and in addition there are dressing rooms and showers for the intramural participants.

Beginning next semester classes for physical education—wrestling and weight lifting—will be held in the new intramural offices in the old women's gym.

The Intramural Office wants to remodel the old women's gym as soon as possible by removing the bleachers from the north side of the gym to make room for boxing, wrestling and gymnastic facilities.

Techsians Are Competing In Speech Meet

Twenty-two Tech students are among 280 participating in the fifth annual Golden Spread Forensic Tournament in Amarillo which began yesterday and will continue through today.

The students which represent 30 colleges from seven states are competing in four divisions, debate, poetry reading, original oratory, and extemporaneous speech.

Debaters are using the national topic, "Compulsory Health Insurance", which will be debated the entire year. Following preliminaries Friday and this morning quarterfinals will begin at 11:30 a.m. and semifinals will start at 1:30 a.m. Finals will begin at 7 p.m. with awards being presented to debate champions at 4:30 p.m.

The tournament is sponsored jointly by the Amarillo Chamber of Commerce and Amarillo College and is held in the education building of the First Baptist Church. Jerry McDonough, chairman of the speech department of Amarillo College, is tournament director.

GRADUATES who have purchased a yearbook.... come by room 101 Journalism Bldg. and leave address and \$1.00 to cover mailing and handling.

Telephone engineer Bill Pigott, left, and helicopter pilot plan aerial exploration for microwave tower sites.

"I ENGINEERED MICROWAVE TOWER LOCATIONS ON MY FIRST ASSIGNMENT"

When Bill Pigott knocked on the door of Pacific Telephone, he had two big assets. One was an electrical engineering degree from Seattle University. The other was a craving to jump right into vital engineering problems.

It was not long before Bill was exploring Washington's rugged Cascade Range in a helicopter to find sites for microwave relay towers—part of a multimillion dollar telephone construction job. Today, it's considerable satisfaction to him to see these towers spanning the mountains, knowing that his planning helped put them there.

Other important assignments followed: engineering maritime radio systems, SAGE systems—figuring engineering costs for Air Force Titan missile bases.

"Our people respect a man's engineering training—you really get a chance to show what you've got on the ball," Bill says. "I was up to my neck in tough engineering problems right from the start."

If you want a job where you put your training to work from the day you hang up your hat—you'll want to visit your Placement Office for literature and additional information.

"Our number one aim is to have in all management jobs the most vital, intelligent, positive and imaginative men we can possibly find."

FREDERICK R. KAPEL, President
American Telephone & Telegraph Co.

Texas Tech College BOOKSTORE ON THE CAMPUS

Spring Registration Begins Jan. 26

Registration for the spring semester at Tech will begin Jan. 26 and end Jan. 28. Late registration will begin Feb. 1. Students may pick up their packets from their respective dorm supervisors. Off-campus students' packets may be picked up in the foyer of the Administration Bldg, starting Jan. 18.

The Party's Over!

Final exams, beginning ten days after the end of the Christmas vacation, will welcome returning Tech students. Exam Week will begin Jan. 14 and conclude Jan. 21. Dead Week, period of restricted social activities, will precede finals and begin Jan. 7.

aturday, Jan. 14	
8:00 - 10:30	11 TTS and all classes meeting Sat. only.
1:00 - 1:30	1 MWF and 12 MWF
2:00 - 4:30	All sections of English 131. Room numbers will be announced in respective classes.
Monday, Jan. 16	
8:00 - 10:30	9 MWF
1:00 - 1:30	1-2:30 TT
2:00 - 4:30	All sections of Govt. 233 & 234. Room numbers will be announced in respective classes.
Tuesday, Jan. 17	
8:00 - 10:30	All sections of Math 051, 130, 232, 331. Room numbers will be announced in respective classes.
1:00 - 1:30	3 MWF
2:00 - 4:30	9 TTS
Wednesday, Jan. 18	
8:00 - 10:30	10 MWF
1:00 - 1:30	4 MWF
2:00 - 4:30	All sections of Chemistry 141. Room numbers will be announced in respective classes. All sections of Acct. 244 & 245. Room numbers will be announced in respective classes.
Thursday, Jan. 19	
8:00 - 10:30	All sections of Biology 141 & 142. Room numbers will be announced in respective classes. All sections of Phys. 235 & 236. Room numbers will be announced in respective classes.
1:00 - 1:30	4-5:30 TT
2:00 - 4:30	8 MWF
Friday, Jan. 20	
8:00 - 10:30	10 TTS
1:00 - 1:30	2 MWF
2:00 - 4:30	All sections of Sociology 230. Room numbers will be announced in respective classes.
aturday, Jan. 21	
8:00 - 10:30	11 MWF
1:00 - 1:30	2:30-4 TT
2:00 - 4:30	8 TTS

Classes scheduled for more than one hour will take the first hour of the period on the exam schedule, and two-semester hour courses will take precedence over one-hour courses.

Requested changes in the schedule for individual students will be considered by the Dean of the School in which the student is registered.

EXAMINATION SCHEDULE FOR EVENING PROGRAM COURSES

Monday, Jan. 16	
6:30 - 9:00 p.m.	Classes meeting 6:30-8:00 p.m., MW, and Monday only.
Tuesday, Jan. 17	
6:30 - 9:00 p.m.	Classes meeting 6:30-8:00 p.m., TT, and Tuesday only.
Wednesday, Jan. 18	
6:30 - 9:00 p.m.	Classes meeting 8:00-9:30 p.m., MW, and Wednesday only.
Thursday, Jan. 19	
6:30 - 9:00 p.m.	Classes meeting 8:00-9:30 p.m., TT, and Thursday only.

MEMOS . . .

A CHALLENGE
Phi Kappa Psi challenges Sigma Alpha Epsilon to a downhill and a slalom race at Taos, N. M. Ski Valley during the mid-semester Tech Ski Club ski trip, according to Robert Rodgers, president of Phi Kappa Psi.

JEWISH STUDENT UNION
First meeting of the newly organized Jewish Student Union will be at 7:30 p.m. Sunday. Anyone interested in attending or further information should call Sneed Hall, room 229B.

Dr. Wills Talks At Dames Club

The Texas Tech Dames Club will hold its regular monthly meeting at 7:30 p.m. Monday in the Aggie Auditorium.

Dr. Clarice Wills of the Tech home and family life department will speak to the group on the problems of raising children. Dr. Wills spoke to the club last year also.

Plans for the annual Dinner Dance, scheduled for mid-February, will be discussed and nominations for a sweetheart will be made.

The sweetheart, who will be crowned at the Dinner Dance, will be chosen on the basis of her participation in Dames Club activities. This is the first year that a sweetheart has been chosen.

A door prize, courtesy of Furr Foods, Inc., will be awarded at the meeting. Wives of students in the College of Business Administration will be hostesses.

Mack Takes Treasurer Position In Latin American Conference

R. D. Mack, assistant professor of government, was installed as treasurer of the Association for Latin American Studies at the organization's hemispheric meeting last week in New York City.

He represented Tech and the Rocky Mountain Conference for Latin American Studies at the first annual meeting of ALAS. The organization was formed in 1959 to serve as a central exchange for information and to recognize studies of regional academic groups.

Also attending the meeting from Tech were Dr. Julius Rivera, assistant professor of sociology, who was appointed to the ALAS advisory editorial board for sociology.

Mack also attended the Conference on Latin American History held by the American Historical Association in New York City last week. The discussion centered on the parallels between Cuba's revolution and that of the Mexican Revolution of 1910.

PLEDGES ELECT NEW OFFICERS

Alpha Tau Omega pledge class officers recently were elected. They are Roy Custer, president; Johnny Moffatt, vice president; Johnny Clemmons, secretary-treasurer; and W. C. Eubanks, social chairman.

Nurserymen Meet For Conference

Nurserymen throughout the state will attend an Institute of Management Sunday through Tuesday at Tech. Meetings will be in the Aggie Engineering auditorium and the Tech Union.

Sponsored by the Texas Association of Nurserymen and the Tech horticulture and park management department, the institute program emphasizes sales and personnel management, said Prof. Elo Urbanovsky, head of the Tech horticulture and park management department.

The institute will open with registration from 1 to 5 p.m. Sunday in the Plainsman Hotel lobby.

TECH ADS

Rattan Bar with 2 stools; formica top and front; walnut color in excellent condition. Call SW5-3649 after 5:30 wk days. Blond Burglars, fur, full length, size 14; and a blond cloud No. 9 fur stole. Call SW 5-3649.

New and used Home Trailers reasonably priced. Will accept something of reasonable value on trade-in. Hub Mobile Homes, 4169 19th. Call SW5-3171.

Will accept highest offer for \$81.00 credit at Kings Jewelry. Steve Morrisett, Rm. 221 Thompson.

FROM THE EDITOR

Another Semester Ends Soon

This is our last paper this semester. It looks as though it's about time for final examinations again and all the pain and heartbreak that accompany them. Dead week begins Sunday officially, but, more really, Monday.

Like everybody else, the Toreador staff will attempt to pass their courses and return for the spring semester. Following the exams, many new students will gather at Texas Tech to begin their experiences with higher education. Other students will—it happens this way every year—take early departures from our school and journey to other points in Texas and take up new endeavors.

Looking back over this semester, though, I can see that much progress has been made at Texas Tech.

Things at the Toreador have been good this semester. Certainly we have made mistakes—if we didn't we wouldn't be human—but we have tried to give the student body a good newspaper. We have made our share of friends and enemies. After you have been in this business as long as some of us over here have, you grow to expect things like this. You can't please everybody and we know it. We offer no apologies to anyone.

While I have been occupying the editor's chair I have been exposed to all sorts of people. The majority of them have shown me that they believe in Texas Tech and its future. They are a hard working, dedicated lot. For them, Texas Tech can be thankful.

However, on the other side of the fence, we have a few Tech officials who look on their positions as being personal property and they do

their work in an arbitrary manner. They sometimes forget they work for the State of Texas and Texas Tech and a mighty big part of Tech is the student body. On the other hand, the student body can be thankful for men like President R. C. Goodwin, Vice President Marshall L. Pennington, and many others.

This semester has been a good one. I can't remember when so many good things have happened in such a short time. The spring semester holds promise of being equally good—or better. Study hard, pass your work and be ready for it. Texas Tech is on the move.

For what it's worth, I think that the idea to form a Men's Glee Club at Tech is a sound one. Talk the idea up and pretty soon Tech will have another organization that it can be proud of.

THE EDITOR'S JOY

Getting out this newspaper is no picnic. If we print jokes, people say we are silly. If we don't, they say we're too serious. If we stick close to the office all day, we have to go out hunting material. If we go out and look for it, we have to be on duty in the office. If we don't print contributions, we don't appreciate genius; and if we do print them, the paper is full of junk!

If we clip from other papers we are too lazy to write them ourselves. Now like as not, some guy will say "I DID." *I DID.

Just

IBSON

Ol' Doc hadn't been around in a long time, so it was a more-than-pleasant surprise to see the colorful and roly-poly gent waddle into the room last night with his usual non-committal greeting of, "Howdy!"

(Those of you who don't know Ol' Doc should be introduced: He's a mixture of Santa Claus, Aristotle, Will Rogers and someone's never-erring grandpa; he's short, pudgy and ruddy of complexion with whitening hair and mustache; he inevitably smokes an ancient pipe which never seems to be lighted and yet never appears to go out, and some insist that Ol' Doc gains all his knowledge by puffing on it—and only when folks aren't looking; he's as old as he looks, I guess, but much younger than any of us—at least, that's how he thinks and it's how his heart reveals him! That's Ol' Doc—quite a sage!)

We all greeted him, asked how he'd been, if Santa Claus was good to him, what he'd planned for the new year, AND if he'd listen to our problem. He said he reckoned he'd be glad to help if he could.

So we told him that so-called "Dead Week" was to begin today and explained that it meant there was a restriction against all social activities—dances, frat meetings, club confabs, etc.—supposedly so that all the students could settle down for a week of serious study before Finals on the 14th.

The big problem, someone chimed in, was that most of the instructors had goofed during the preceding semester in planning that which was to be covered in the time allotted, and were using this week to catch up on all the things they'd not taught before. Assignments were usually heavier, papers were always due to be turned in, reports and speeches had to be made by those who'd been by-passed earlier for one reason or another, and a zillion quizzes were scheduled.

Another voice agreed and added that it seemed that everyone knew that this was supposed to be a week dedicated to review of the semester's work—everyone, that is, but the instructors.

(I had to defend this broad coverage of the word "instructors" by noting that I knew of at least one Professor who DID use the week's class meetings for review by giving short quizzes over a third of the material each session, grading the tests in class and then discussing the most prevalent errors committed with the class. It was his contention, I said, that people should learn from exams, not just take them in order to have the proper quota of grades.)

George argued with me that that was only one Prof out of the whole Faculty. He thought it best we push for a name change from "Dead" week to "Review" week, or something like it.

"Wahl," interrupted Ol' Doc, "since ya asked me, I'll tell ya. It just don't seem like it'd be right to change the name—not right off, at least."

He pursed his lips and added, "Nope, it kindly seems t' me that these here now College Fathers know exactly what they're a-doin'. If you fellers (an' th' gals, too, fer that matter) have all these readings, an' papers, an' reports, an' speeches and things to do all at once, in this last week, why, 'pears time that by the time Finals do git here, you'll all be plumb near Dead! An' if'n ya ain't—(he started toward the door) why yer sure to be mighty 'week!'"

SA PREXY REPORTS

'Students, Hold Your Tempers'

By BILL DEAN

Last Monday in Dallas I was very pleased to learn that Texas Tech had won the Sportsmanship Trophy of the Southwest Conference. This trophy is awarded annually to the school which, in the opinion of the other conference schools, has displayed the best sportsmanship, both on and off the field and before, during and after every game. Following every conference game the members of each school's Sportsmanship Committee rates each school and these ratings are the basis for the voting to determine the sportsmanship winner.

The Southwest Conference Sportsmanship Committee was established to further friendly relations and a spirit of co-operation among the conference schools. At its meeting in the fall and spring it discusses sportsmanship at various schools seeking improvement in every case.

The committee has a three-point code which is as follows:

- I. Each Member of Competing Teams Shall Endeavor To:
 - A. Abide By Fair and Proper Means of Conduct As Determined By the Rules of the Contest.
 - B. Treat Contest Officials With Due Respect and Courtesy and Accept the Officials' Decision with Good Spirit.
 - C. Be Gracious in Victory or Defeat.

II. Members of the Student Bodies Shall Endeavor To:

- A. Avoid Discourtesies of Any Sort Toward Their Opponents, other Visitors, and Spectators and Be Good Hosts and/or Guests At All Contests.
- B. Demonstrate Respect for Opponents, Their School Songs, and Their Traditions.
- C. Accept the Official's Decisions with Good Spirit.

III. The Members of the SWCSC Should Use the Committee to Its Fullest Extent in Order To Establish Better Sportsmanship and Better School Relations with Schools Outside the Conference As Well As in the Conference.

This award is an honor to Tech and should be considered so by every student. We should be proud of this type of reputation and try in every way possible to keep it.

Finally, in connection with sportsmanship, I would like to say a few words about conduct at basketball games. This is a problem all over the conference. It appears, in view of our last two home basketball games before the holidays, that it is becoming a problem here.

I do not ever intend to ask students not to yell or even not to boo as basketball games. The cheerleaders have that responsibility and if everyone would yell when

they ask you to and be quiet when they indicate to stop we would have the perfect situation. Unfortunately this does not exist here or anywhere else and probably never will. We can only try.

However, there is something I am going to ask you not to do and it isn't an unreasonable request. Throwing paper, ice, money, etc. has no place at any athletic contest. The biggest danger is that you could seriously injure a player, an official, a coach, or just an innocent bystander. Secondly it is plainly immature. If you haven't passed the stage in your life when you can't control your temper any better than to fly into a temper rage and throw things I hope you don't come to any more basketball games without your mother or father.

Finally, such conduct hurts the reputation of the school and the student body. We are only as good as our weakest student. Everyone can have a good time at a basketball game and let off a lot of steam without throwing anything. Think about it.

There has been such a tremendous response to our Teacher Evaluation program that we have run out of forms and had to order more. We originally planned on 9,000 forms which was more than requested last year. But we had to order 5,000 more to meet the huge response. These forms should have been placed in the campus mail last night and we are sorry for the delay in some cases.

One thing we would like to ask of every instructor is that if you turn the forms back in the small envelopes rather than returning them all in the large one please place your name and course on the outside. We have already received a few with no identification on them and it is going to be difficult to trace these down. In addition we would appreciate any comments from instructors and students alike that would improve this program in future years.

In The Interest Of Fair Play

The following Tech organizations urge members of the student body to refrain from the unsportsmanlike and dangerous practice of hurling debris onto the court at basketball games.

- DAN GURLEY,
President, Texas Tech Double T Assn.
- BILL ROBINSON,
President, Texas Tech Band
- BILL DEAN,
President, Texas Tech Student Assn.
- CHARLES AYCOCK,
President, Saddle Tramps
- RALPH W. CARPENTER,
Editor, Toreador

LITTLE MAN ON CAMPUS

"YOU'RE LATE AGAIN!!"

BOY FINDS 'TEA AND SYMPATHY'

UNDERSTANDING IS OFFERED
... to Tom Lee, played by Bill Leonard, by Laura Reynolds, played by Deanna Muldrow, in "Tea and Sympathy."

Speech Dept. Presents
Former Broadway Hit

"Tea and Sympathy," the second Speech Department production of the year, will be presented at the opening of the second semester from Jan. 26 through Feb. 1.

"Tea and Sympathy" is the story of a lonely and misunderstood youth with artistic sensibilities, who is hazed and kidded by his classmates and the master of the house. The boy finally becomes persecuted by all, including his father, until at last all that understand and give him sympathy is the master's wife.

The play deals with the physical aspects of the resulting relationship, but according to Miss Shirley Cadle, all is handled with taste, delicacy and considerable emotional skill.

Miss Cadle is directing the production with the technical direction by Ronald Schulz. Both are members of the Speech Department faculty. The set design is by Roy Mason, an architecture student.

The cast for the Tech production will be as follows: Laura Reynolds will be played by Deanna Muldrow, Lily Sears by Sandra Clark, Tom Lee by Bill Leonard, David Harris by Jan Grice, and Ralph by Barry Corbin.

The remaining male members of the cast are Al by Rick Malone, Steve by David Lindeman, Bill Reynolds by Charles Fenton, Phil by Glenn Fullerton, and Paul by Bob Burton.

The play, written by Robert Anderson, ran on Broadway for two years. It was directed by Elia Kazan and starred Deborah Kerr and John Kerr.

Deanna Muldrow made her in-

itial debut with the Tech Players in the first production of "Ondine", in which she played one of the Ondines. Sandra Clark has been seen in "Picnic" and in "Ondine." Bill Leonard has appeared in "Picnic", "View from the Bridge", and the "Imaginary Invalid".

Choir Declines
N.Y. Invitation

The Texas Tech Choir declined an invitation extended in the latter part of November to appear in Carnegie Hall in New York in April because of prior commitments and the lack of money.

The choir, asked to sing in a contemporary music series sponsored by the American Contemporary Composers and Conductors Association, needed over \$10,000 to make the trip.

1961: YEAR OF DECISION

Well sir, here we are in 1961, which shows every sign of being quite a distinguished year. First off, it is the only year since 1951 which begins and ends with the Figure 1. Of course, when it comes to Figure 1's, 1961, though distinguished, can hardly compare with 1911, which, most people agree, had not just two, but three Figure 1's! This, I'll wager, is a record that will stand for at least two hundred years!

1911 was, incidentally, notable for many other things. It was, for example, the year in which the New York Giants played the Philadelphia Athletics in the World Series. As we all know, the New York Giants have since moved to San Francisco and the Philadelphia Athletics to Kansas City. There is a movement afoot at present to move Chicago to Phoenix—the city, not the baseball team. Phoenix, in turn, would of course move to Chicago. It is felt that the change would be broadening for residents of both cities. Many Chicago folks, for example, have never seen an iguana. Many Phoenix folks, on the other hand, have never seen a frostbite.

There are, of course, certain difficulties attending a municipal shift of this size. For instance, to move Chicago you also have to move Lake Michigan. This, in itself, presents no great problem, what with modern scientific advances like electronics and the French cuff. But if you will look at your map, you will find that Lake Michigan is connected to all the other Great Lakes, which in turn are connected to the St. Lawrence Seaway, which

in turn is connected to the Atlantic Ocean. You start dragging Lake Michigan to Phoenix and, willy-nilly, you'll be dragging all that other stuff too. This would make our British allies terribly cross, and I can't say as I blame them. I mean, put yourself in their place. What if, for example, you were a British workman who had been saving and scrimping all year for a summer holiday at Brighton Beach, and then when you got to Brighton Beach there wasn't any ocean? There you'd be with your inner tube and snorkel and nothing to do all day but dance the Lambeth Walk. This, you may be sure, would not make you NATO-minded!

I appeal most earnestly to the residents of Chicago and Phoenix to reconsider. I know it's no bowl of cherries going through life without ever seeing an iguana or a frostbite, but I ask you—Chicagoans, Phoenicians—is it too big a price to pay for preserving the unity of the free world? I am sure that if you search your hearts you will make the right decision, for all of us—whether we live in frostbitten Chicago, iguana-ridden Phoenix, or narrow-lapelled New Haven—are first and foremost Americans!

But I digress. We were speaking of 1961, our new year. And new it is! There is, for one thing, new pleasure in Marlboro Cigarettes. How can there be new pleasure in Marlboros when that fine, flavorful blend, that clean easy draw filter, have not been altered? The answer is simple: each time you light a Marlboro, it is like the first time. The flavor is such that age cannot wither nor custom stale. Marlboro never palls, never jades, never dwindles into dull routine. Each pack, each cigarette, each puff, makes you glad all over again that you are a Marlboro smoker!

So, Marlboros in hand, let us march confidently into 1961. May good fortune attend our ventures! May happiness reign! May Chicago and Phoenix soon recover from their disappointment and join our bright cavalcade into a brave tomorrow!

© 1961 Max Schulman

The makers of Marlboro and of the new unfiltered king-size Philip Morris Commander join Old Max in adding their good wishes for a happy and peaceful 1961.

Raiders Battle Owls Here Tonight

by **BILLY PATTON**
Toreador Sports Editor

The wise old Owls from Rice test their wisdom—and their strength—against Texas Tech's Red Raiders in Lubbock Municipal Coliseum tonight as the Raiders seek their second Southwest Conference victory.

The Raiders put one Conference tilt under their belts Tuesday night against SMU, downing the Mustangs 70-68 with a comeback surge in the second half.

RICE, TOO, racked up an early victory by blasting Baylor 70-59 Wednesday night.

Leading the Raiders into the

hardwood warfare will be Del Ray Mounts, scoring at a 22.3 point per game clip through the first ten games of the season and shooting for a repeat of last year's performance, when he was the Conference's leading scorer.

BACKING UP Mounts is Tech's big center, Harold Hudgens, who

rejoined the Tech lineup for the holiday doubleheader after missing five games with an ankle injury. Hudgens has averaged 19.6 points in the games in which he has appeared, plus grabbing an average of 10.3 rebounds per game.

Recordwise, Rice brings a 5-5 season total into tonight's game opposed to Tech's 4-6 season mark.

RICE'S TOTAL of five wins is one more than they achieved all last season, and their one conference win ties last year's season total.

Against Baylor, the Owls followed the scoring punch of Olle Shipley and Mike Maroney, with 13 and 11 points respectively, plus three other men who approached the double-figure mark. Steve Smith hit nine points, and Dick Park and Roland Burris each had eight.

MARONEY is the big man who anchors the Owls with his 6-7, 200-lb. frame, and is the top scorer

among Coach John Frankie's returning players this year. Maroney carried a respectable 42.2 percentage on his field goal attempts last year, and was the team's leading rebounder with 191.

A high school teammate of Maroney's, Olle Shipley, handles his share of the big-man chores. Shipley is 6-6 and weighs 195. Both Maroney and Shipley are juniors.

FOR THE RAIDERS, Mac Percival and Tom Patty will be called upon to put the brakes on Rice scoring, and both men have proved themselves capable of handling defensive chores outstandingly, particularly in the rebound department. Percival leads the Raiders with 91 rebounds, followed by Patty with 85.

Roger Hennig will probably be the fifth starter for Coach Polk Robison's crew, carrying a 9.3 point per game average and ranking third in rebounds with 71.

High School Stars See Tech Athletic Program

Texas Tech will host 25 visiting athletes today as part of their newly expanded recruiting program under the direction of new head football coach J. T. King.

The athletes will gather at the athletic department at 10 a.m. where they will be welcomed by the Tech coaching staff, Tech athletes and members of the student body.

Their weekend stay will be highlighted by a tour of the Texas Tech campus and its academic and athletic facilities. They will be invited to several college parties and other events tonight.

On Sunday morning, those wish-

ing to attend church services in the city will be provided with the opportunity to do so.

With Texas Tech competing in the Southwest Conference for the second year, the school is launching an all-out effort to land the top athletes in the country. The majority of the boys visiting the campus today were all outstanding performers for their high school teams.

Those visiting today are: Leonard Jeter, Robert Burnam, Don Allen, Herby Carr, John Allee, Larry Dykes, Bert Gravitt, Bill Gravitt, Don Baker, Jim Crislan, R. L. Spivey, Marcel Dorethy, John McDaniel, Larry Peden, Reginald Scarborough, Charles Gladson, Ronnie Reager, Robert Sanders, Jerry Cox, Ronnie E. Boyter, Tim Smith, Joe W. Thompson, George Tiffany, Don Sanders, Stanley Sparks, James Eugene Pritchett.

Bowling League Begins With Spring Semester

Entries are being accepted now for open league bowling for next semester by the Men's and Women's Intramural Departments.

Scheduling is now under way for 16 men's teams in two divisions and eight women's teams in one division. The organization will be held to a maximum of twenty-four teams with each team consisting of five members.

This setup will be added to the present bowling program. Special team rates will be given to all teams entering in these intramural divisions. Excluding shoes, the rate will be \$5 per team.

All bowling will be done on Fridays from 5:30 to 8 p.m. at the Lubbock Bowling Club excepting school holidays.

Team trophies will be awarded to all division champions and all members of a winning team will receive individual trophies. In the men's divisions, shoulder patches will be given for series over 550 and games over 200. For series over 450 and games over 170 in the women's division, patches will also be awarded.

Each semester a traveling trophy will be awarded to the All College Champs. By winning the trophy six times a team may secure permanent possession of the award.

Shirts and blouses for the team may be sponsored by the organization for which one bowls.

Entries will close on Feb. 7 with action starting on Feb. 10.

A special organizational meeting will be announced early next semester.

For any additional information Edsel Buchanan, director of intramural program for men, may be contacted.

Tar Heels May Get Suspension

PITTSBURGH (AP)—Is North Carolina next?

A year ago Friday Oklahoma was placed on indefinite probation by the National Collegiate Athletic Association.

The Sooners still are there.

Indiana and Kansas since have joined the list which also includes Auburn, Montana State College and Arizona State University.

It is known the North Carolina Tar Heels have been under investigation for basketball recruiting practices. Coach Frank McGuire has gained renown with his teams loaded with northern imports.

The powerful NCAA Council meets Saturday and Sunday. By Monday night it should be ready to announce if any more colleges have been found guilty of violating the NCAA code.

Fencers Compete

The fall intramural fencing tournament will be held today at 1 p.m. in the intramural building.

Edsel Buchanan, director of the intramural program for men, urged all who plan to participate to be present.

Musicians Perform In Dallas

Tech's Madrigal Singers, a small ensemble composed of six women and four men, will make request appearances at the Texas Music Educators Convention in Dallas, February 10-11, and at the National Convention of Federated Music Clubs in Kansas City, April 20-21.

The group, which sings pre-Baroque (16th and 17th century) music will appear at the luncheon of the Music Educators Convention to give music educators a chance to hear this type of music.

Madrigal singing will be added to the contest list of the University Interscholastic League next year.

In March, the Singers will demonstrate Madrigal singing in the Amarillo and Odessa UIL districts.

At the National Convention of Federated Music Clubs, the Madrigal Singers will appear at a dinner and at one of the lecture series.

The Tech group will be the only musical representative from Texas to sing at the convention.

The singers are Carla Jean Newson, Lubbock; Ann Cooper, Dumas; Judith Simmons, Vernon; Jerry Sizemore, Odessa; Beverly Kimbley, Dumas; Sandra Dowell, Amarillo; Dwayne Hood, Lubbock; Wesley Hopp, Lubbock; Harlan Reddell, Idalou; and Hubert Murphy, Lamesa.
