

# Matadors End Season Against Arizona University At Tucson

**THIRTEEN** members of the Matador squad don Scarlet and Black for the last time against the Arizona Wildcats in the Turkey Day game at Varsity stadium in Tucson. This group has played a leading role in bringing Texas Tech to the top of the grid ladder. When the thirteen marched on the Tech field as first year men, the team was mediocre. Now these Matadors have elevated Tech to national prominence. These boys have done much for the school and Texas Tech is proud of them.

We salute the following who virtually fought their hearts out for Texas Tech: Edward McKeever, Captain Malcolm Martin, Leonard Curfman, Laurence Friddy, Adrian Clark, Elmer Fortner, Gwynn Dowell, D. M. McElroy, Marion Harris, G. B. Morris, Woodrow Wilson, Truett Owen and Braxton Gilmore.

Each Machen, sports editor for the Hardin-Simmons brand, comes forth with some uncalibrated remarks about the Cowboy-Matador skirmish. According to the Ahlenscriber the Mats gained a decisive victory but failed to attain the second objective. Mach says: "This objective was to get Murphy OUT in three minutes. It is a well known fact that Murphy stayed in there 60 full minutes. It is also well known that Murphy played football those 60 full minutes."

We must admit the 60 minutes were plenty full for the Cowboy tackle. But we are forced to disagree that Murphy played football during that time. In the first half the Raiders made 108 yards from scrimmage and 101 of this yardage resulted from going through the position occupied by Murphy. You might ask Murphy, Mach, if he knows the answer to the question he asked Coach Cawthon during the training days here: "Can I make the first string at Texas Tech?"

In another paragraph, the champion of the Ranchers states that the MAROON MAIDENS avenged the 1932 defeat. The Maidens must be plenty tough, Mach, as the Hardin-Simmons bench seemed to be a miniature hospital during the game. Theo Rigby suffered the most serious injury by any Simmons player since 1908, says Machen's Sport Slants.

The much-battered dope bucket took three spins, turned over completely and landed on the heads of the Rice Owls and Southern Methodist this past week-end. Personally we hated to see Jimmie Kirt's feathered flock knocked from their perch. The Matadors may be included on the schedule of Rice Institute next year providing it is satisfactory with Tech coaches. Reports from the gulf city indicate. Should the Birds have gone through an undefeated race, a Matador victory next fall would have added to the fame of the Red Raiders.

## Border Conference Title At Stake When Texans Engage Cats Tomorrow

### Thirteen Members Are Playing Final Game For Cawthon

TEXAS Tech's Matadors, kings of the conference, take on Tex Oliver's title-chasing Arizona university Wildcats at Tucson tomorrow to decide the mythical championship of the Border loop. Thirty Maroon gridders with Coaches Cawthon and Smith and Manager Trenton Davis, arrive in the Arizona city at 5:25 p. m. Wednesday. The Techmen left Lubbock Tuesday afternoon at 2:55 for Arizona.

**Play Last Game**  
Thirteen members of the local squad appear for the Texas institution the last time in the Turkey Day skirmish. This meeting winds up the campaign for both clubs. Comparative scores reveal that a stubborn struggle will be unrecited at Varsity stadium in Tucson. Missions the services of Ted Bland, offensive star, the Cats dropped a 6-0 decision to the Loyola Lions on the home lot. The Mats journeyed to Los Angeles and lost a hard-fought battle to Tom Lieb's machine, 13-7. The league leaders took a resounding 16-8 victory over the Oklahoma City U. Goldenags. The Sooner State lads failed to mark against the invading Red Raiders while the visitors raged up 20 points. Last year the Tech men defeated the Arizonans, 7-0, to take the conference title.

**Bland Is Threat.**  
Ted Bland, sparkplug of the defense, will lead the Wildcat attack against the Matadors. Ron Henderson, pass snatcher supreme, huge Ken Knox, Captain Bud Robinson, Keller wingman and the regular guards, Beeler and Duwe, will pave the way for the greyhound's will-o-the-wisp dashes. Wynne, blocking standout, has been assigned the fullback position for Arizona. Ted Lionberger, who smeared a half dozen Tempe plays behind the line of scrimmage last week will start at center. Robinson especially has attracted attention from critics for his leadership ability and all-around merit.

**Injuries In Camp**  
Injuries have cropped up in the Raider squad. Big Gaines Davis will not see action because of a bad knee. Walker Nichols has been replaced by Woodrow Wilson at a guard post. Nichols received a shoulder injury in the North Dakota affair but will probably see service against the Cats. Outside of this change, the Tech coaches plan to start the first stringers in an effort to take the circuit crown again.

**Probable starting lineups:**  
Texas Tech Position Arizona U.  
Martin (C) LE Robinson (C)  
Williams LT Nolan  
Wilson LG Beeler  
Friddy C Lionberger  
Owen R; Duwe  
Holeomb RT Grogan  
Clark RE Carlyle  
E. Gilmore RE Bland  
Dowell LH Knox  
McKeever R I Wynne  
Curfman F 3 Henderson

Predictions by football experts have been upset all over the country this year. Favorites have fallen each week. Outstanding the past week-end were the defeats handed Rice, Southern Methodist and Army.  
Navy has a new mascot.

## Dakotans Tie Tech Raiders

**"Blond Ghost" Travels 77 Yards For Marker To Knot Count**  
"The Fargo Express" carried the mail to the pay-off station in time to give the North Dakota Bison a tie with Texas Tech's Grid machine before 3,500 fans at Matador field Friday. Fritz Hanson crossed the goal and "Windy" Schollander boot-ed a perfect goal late in the final period to knot the count at 27-27 in the first meeting between the two schools.  
Coach Finnegan's Thundering Herd combined speed with a powerhouse attack to come from behind in the closing stanza. The Buffs thrusted through the line and their passes netted 284 yards against 143 for the locals. Twenty-six first downs were divided evenly between the two teams.  
Upon the fleet feet of Hanson, blond bit of dynamite from Minnesota, rests most of the grid glory gained by the Buffaloes. In their drives the fleet Swede picked up yardage time after time and then climaxed his part by sprinting 77 yards for his third touchdown of the game.  
**Sturgeon Present**  
But not all of the glory gained by the Fargoans belongs to "the Blond Ghost." In front of him were the plowing shoulders and blocking hips of Sturgeon, Captain Olson, Dobervich, Maynard and other Dakota stalwarts. The miniature mountain tackle, Sturgeon, delighted in getting two men at a whack in opening the line.  
On the other hand it was a crippled crew facing the North-erners. Little Walker Nichols, who fought like a tiger, was forced from the game, leaving the Mats without a guard to take his place. Martin's knee handicapped the captain and Big Gaines Davis watched the affair from the bench. McEli- (Continued on page six)

## Freshmen Win Over Baptists In Final Game

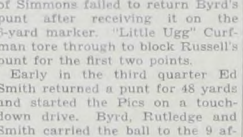

### Picadors Show Power To Take Hardin-Simmons Junior Cowboys

The final chapter of Picador football history for this year was written in an impressive manner as the green-shirted charges of Coaches Virgil Ballard and Elva Baker unleashed a powerful attack in the last half to trample the Hardin-Simmons Fish 18-0, on Tech field Saturday. A handful of on-lookers saw the Picadors start slow but put on speed in the closing stanzas for their fourth victory of the year.  
**Simmons Weak**  
The visitors were unable to dent the staunch Fresh forward wall, losing 62 yards while gaining only 40. Four times the secondary of the Cowboys stood on the edge of their goal deck and thrice Tech stalwarts broke through and downed the Simmons boys for safeties.  
The future Matadors scored in the first minutes of play. Russell of Simmons failed to return Byrd's punt after receiving it on the 6-yard marker. "Little Ugg" Curfman tore through to block Russell's punt for the first two points.  
Early in the third quarter Ed Smith returned a punt for 48 yards and started the Pics on a touch-down drive. Byrd, Rutledge and Smith carried the ball to the 9 after Smith had been brought down on the 26.  
**Bray Makes Safety**  
At the start of the fourth quarter, John Bray, Tech center, brought Russell down behind the goal line for a safety after Simmons had recovered a fumble by Hale on the 5.  
Rayburn Hale almost got away on the following kick-off. The speedy little signal chunter took the ball on Tech's 35, scooted 53 yards up the sideline to the 10-yard line before being stopped by Russell. Wilson shot a pass to Rutledge for another touchdown for the Picadors.

## Charging Tackle

### Arizona Occupies Leading Position In Border Circuit

At the top of the Border conference loop standing is Arizona university, Texas Tech's Turkey Day opponent. The Wildcats have won two games, defeating New Mexico U., 14-6, and taking Tempe, 32-8. Tex Oliver's Cats tied the New Mexico State Aggies.  
Should the Matadors beat the circuit leaders tomorrow, Texas Tech will annex the mythical title.  
**Conference Standing**

### Graduates Of School Secure Various Jobs

#### Engineering Students Are Employed In Mills And Factories

ENGINEERING graduates and former students of Tech are working for oil companies, tire manufacturers, textile mills, and other industries in large numbers, according to Dean O. V. Adams of the engineering division and Dr. Leroy T. Patton, head of the department of geology and geological engineering.

The Texas Highway department employs 45 engineering graduates and the majority of geological engineers are field geologists for oil companies.

#### Pyatt at Houston

Lloyd Pyatt, '31 geology graduate, is a microgeologist for the Barnsdale Petroleum company at Houston. Shelby Read, '33, another geology major, is now studying law at S. M. U. with the intention of specializing in oil and gas law.

Other geologists are traveling for oil companies. They are: Morgan Gist, '32, Gulf Production company, Iraan; J. T. Gist, '29, Phillips Oil company, Stillwater, Okla.; Howard Hopkins, '33, Magnolia Oil company, Henderson; J. Oran Sanders, '29, California Oil company, Iraan; E. A. McCullough, '31, Texas company; G. Conrad Clark, '31, Stanley Oil company; Jack Flowers, Humble Oil company; Homer Roberts, '32, Iron Mountain Oil company; John Lock, '34, Sun Oil company; Malcolm Patterson, '33, Gulf Production company; Wayne Burkhardt, '30, Humble Oil company.

#### With Survey

William W. Walker, '33, and W. T. White, '32, who both received bachelor of science degree in electrical engineering, are employed by the U. S. coast and geodetic survey. Walker is stationed at Washington, D. C., White at Corpus Christi, S. H. J. Womack, E. E. graduate, is working in the bureau of standards at Washington, D. C. Travis E. Cowart, '32, B. S. in M. E., is employed by the U. S. reclamation service at Caruthersville, Mo.

Other engineering graduates working for oil companies are:

James B. Biggers, 1928 graduate in civil engineering, district engineer, Texas Company, Dallas; J. M. Dyer, B. S. in electrical engineering, 1932, employed by an oil company in Waurika, Okla.; William S. Galloway, B. S. in mechanical engineering, 1931, Gulf Production company, Gadsden, Alabama; Willet Kuhn, B. S. in electrical engineering, 1934, employed by production division, Shell Petroleum corporation, Elkhart, Tex.; Louis E. Lahn, B. S. in mechanical engineering, 1931, employed by Texas company, Amarillo; B. L. Manire, B. S. in mechanical engineering, Phillips Petroleum company, Slaton; James Herschel Tadlock, B. S. in electrical engineering, 1933, working for Republic Oil and Refining company, Texas City; Gerald Wherry, B. S. in chemical engineering, 1934, Shamrock Oil company, Shamrock; and J. G. Whitehurst, B. S. in mechanical engineering, working for an oil company in Houston.

#### Many In Textiles

The textile industries have claimed several engineers schooled at Tech. At Goodyear Tire and Rubber company's plant at Rockmark, Georgia, three Tech engineers are employed. These are Clyde Williams, 1930, Winifred A. Wardell, 1930, and Julius J. Love, all holders of bachelor degrees in textile engineering. Three Tech men are also working for the Goodyear factory at Akron, Ohio. They are Basil Hill, 1933, Ray Thomas, 1929, and William Wilden, 1934, all of whom received bachelor of science degrees in textile engineering.

Other textile engineering graduates are D. T. Austin, 1934, textile buyer for a chain of Texas department stores; Rudd H. Hardesty, 1929, employed by Davenport Silk Hosiery Mills, Chattanooga, Tenn.; Don Maddox, 1934, Dixie Mercerizing company, Chattanooga and Sanford Gabrielle, 1934, Du Pont Rayon company, Old Hickory, Tenn.

Dr. Eldon Thorpe, 1927 geological graduate, is research assistant at the University of California, Berkeley, and is author of numerous scientific articles. Eliot Powers, 1932 graduate in the department of geology, is a

### Tech Prof Flies Thru The Air To Attend Classes

He flies through the air with the greatest of ease. This professor from Tech who has students to please: He flies over the plains to address all his classes. The flying professor with briefcase and glasses.

This is the case with Dr. D. D. Jackson, associate professor of education and psychology, who has classes which are held 280 miles apart.

On alternate Wednesdays Dr. Jackson flies from Lubbock to Perryton, in the north Panhandle, to hold an extension class in curriculum construction organized by the Tech extension department. The plane piloted by W. C. Breedlove, manager of the Lubbock Municipal airport, will carry the professor to meet this extension class of 43 students. The cost of traveling there by plane is no greater than by car, and is covered by fees paid by extension students.

Dr. Jackson, unable to make the trip by car and return to Tech in time for his morning classes, decided to fly to Perryton in the afternoon, teach his class and remain there overnight, and fly back in time for his 8 o'clock morning classes at the college.

A bronze plaque in memory of Dr. Charles William Eliot, former president of Harvard university, has been placed in room 11 of Holywell Hall on Harvard campus, where Dr. Eliot roomed as a student.

research assistant at State University of Iowa, Iowa City. Working for national concerns other than the petroleum industries are Hill Garrison, B. S. in mechanical engineering, 1930, employed in the air conditioning department of Curtin-Bacon Company, Kansas City, Mo. Eugene Edwards, B. S. in mechanical engineering, 1933, working for Frigidair company, Fort Worth; M. Zed Glimp, B. S. in electrical engineering, 1929, employed by Westinghouse Electric company at St. Louis, Mo.; A. J. Hewett, B. S. in aeronautical engineering, 1929, working for Truscon Steel company, Youngstown, Ohio; Sam Hopper, B. S. in mechanical engineering, working for York Refrigeration company, Houston; Ted Sams, B. S. in civil engineering, 1928, employed by Truscon Steel company, Chattanooga, Tenn.; Robert L. Taylor, B. S. in mechanical engineering, 1930, employed as mechanical engineer in Westinghouse Electrical and Manufacturing company, South Philadelphia, Pa.; also employed by the Diesel Locomotive division of Westinghouse company is W. M. Tucker, B. S. in electrical engineering, 1929.

### Freshman Has Highest Score

#### Fox Is First In Nation On Psychological Exam Grade

Scoring 320 on a psychological examination, Jack Fox, 17-year old freshman arts and sciences student in Texas Tech, made the highest ranking ever reported on this examination given throughout the nation to freshmen students in colleges and universities.

On a basis of 302, the highest grade made last year, students scoring from 302 up were rated as having a percentile of 99; the average percentile is 50. By this standard, Fox made the highest grade of any student taking the examination since it was begun in 1924, after being prepared by L. L. Thurstone and Thelma Gwinn Thurstone of the University of Chicago.

The examination consists of tests in completion, arithmetic, artificial language, analogies and opposites, with an allotment of 62 minutes for its completion.

Eight other freshmen were scored with a percentile greater than 92, one of whom, Beatrice Seitz of Casa, West Virginia, scored 302 with a percentile of 99. Besides Fox, who is from Childress, and Miss Seitz, these students include: Sally Skelton, Hereford, 98; Helen Hollingsworth, Childress, 95; John McNeil, Lubbock, 95; Conrad Castles, Abilene, 95; H. M. Gibson, Lubbock, 93; Clarence Mast, Lubbock, 93; and Betty Bizzell, Lubbock, 93.

#### Student Teachers

Student teachers of the home economics division started practice teaching in high schools last week. They will take charge of classes in Lubbock and Slaton under the supervision of Miss Vivian Johnson, of the home ec faculty.

The farm management class under the direction of Dr. J. O. Ellsworth made a trip to the Williamson farm in the Wolforth community Wednesday. They made a financial inventory and analysis of the farm.

Miss Jonnie McCrery, head of the foods and nutrition department, is planning to attend the meeting of the State Teachers association in Galveston November 28-30.

### Country Newspaper Editor Gives Impressions Of Tech After Visit

(Editor's Note: A country newspaper man takes a look at Tech! M. S. Sellers, editor and publisher of the Rising Star Record, visited the campus recently and was so favorably impressed with Tech that he carried a two and a half column story in his paper last week about the college. Part of Mr. Sellers' comment follows.)

"... while we think of it we want to mention the entire lack of snobbishness among the student body. Sitting in the saltpit of the administration building we observed hundreds of young men and women scurrying to their classes and from one building to another. One young man would be nattily dressed, while probably the next one would have on corduroys or maybe blue denim pants and a leather jacket, but one appeared to stand just as high as another and all seemed to be friends. At the dorm Cadillac and Model T's were parked along together and the rich man's son rubbed elbows with the farmer's son from out at Podunk—one happy friendly group.

"And to you sport fans who have been throwing the old harpoon into the Texas Tech Matador football team for dirty unethical play we want to say we wish you could have seen the game between the Matadors and the DePaul team from Chicago. Having heard these things for several years we made it a point to observe the play very closely, both line and backfield, and want to say right here that we have never seen a cleaner college football game.

"... we were also greatly impressed by the fine college band of 90 pieces under the direction of Prof. D. O. Wiley, former director of the world famous Simmons Cowboy band. We have seen and heard most of the big college bands of Texas and with one probable exception we have not seen a better one.

"And right here we want to say that Mr. Horne and his staff is building up a journalism department at Tech that is commanding attention all over the Southwest.

"... we had plenty of time to visit and inspect the many fine buildings making up the college plant group, among them being the engineering, in the basement of which is housed the Texas Tech Press and the business and editorial offices of the Toreador, the col-

### Former Tech Students Making High Grades At Galveston School

Former Tech students are making high records in the medical school at Galveston, according to John Hopper, Tech graduate, who is now enrolled in the Galveston school.

In a letter written to Dr. R. A. Shudalter, head of the Tech biology department, Hopper said that he believed all the former Tech students would pass their first term's work, in spite of the fact that 60 out of 100 freshmen at the school were failing.

Former Tech students who are now enrolled in the medical school are Rush Crews, Leslie Hall, Felix Ballenger, R. C. Douglas, Smith, and Albert Schofield.

"I think our Tech boys can stand up with students from anywhere as far as the quality of their previous training is concerned," Hopper wrote.

### Gray Organizes Band Like Business Firm, Members Are Stockholders

GLEN Gray and the Casa Loma orchestra, which holds the record for appearances at college and university functions, present new ideas in band organization as well as popular dance rhythms.

Glen Gray is president of the Casa Loma Corporation in which members of the band are stockholders, drawing quarterly dividends from the profits as well as regular salaries.

New members are added to the band only after they have been passed on by a board of directors on the basis not only of musical ability but congeniality and personality.

This has led to the saying in musical circles that Casa Loma is organized like a business firm and run like a college fraternity.

Originality may be the keynote in their popularity. Casa Loma set a record by playing for more than 70 collegiate affairs in 30 states in three seasons.

The band is now on the air with the Camel Caravan, co-featured with Walter O'Keefe and Annette Hanshaw and broadcast over the Columbia network every Tuesday and Thursday night.

scattered the final 15 for the six points. McElroy converted.

And now comes the finishing touch to the grid melodrama. Taking the snapback on his own 13, the Express emerged from behind perfect blockers, shot through a wide hole made by Schollander and past the Maroon secondary for the final score.

### Fuqua's Orchestra Plays For Dance At Girls' Dorm

With Duane Fuqua's ten piece orchestra furnishing the music, girls living in the dormitory held their first dance in the dining room Saturday evening.

Between 200 and 300 persons were in attendance.

Members of the orchestra are: Cy Tatum, Harry Blocker, Jack Nowlin, Perry Bowser, Jack Helma, Marvin Wheeler, Jack Dallinger, Ronnie Shepherd, Sam Teague and the leader.

### Dr. Standefer

(Continued from Page One) always balance her budget, consequently the people are burdened by an intricate system of taxes.

Because of the numerous officials connected with tax collection, Dr. Standefer surmised that graft would be comparatively easy.

In spite of high living costs and other depressing factors, the Austrians are "carrying on" with a spirit and vigor that is worthy of every commendation. Each night in the beautiful parks of Vienna one may hear the music of world-famous philharmonic orchestras.

The Viennese love their opera and music, often making great sacrifices to preserve the aid and to perfect the new.

Have Wrong View "The Europeans have gained a distorted view of American life through newspapers and movies," Dr. Standefer declared.

He further remarked that every possible precaution should be taken to eradicate this misconception from the minds of contemporary Europeans.

Dr. Standefer concluded by pointing out the approaching crisis that will come to a head in the January "allegiance" election in the Saar Basin. It may be the determining factor in the future of all Europe.

The International Relations group of the A. A. U. W., their president, Mrs. Holt, and Dr. and Mrs. W. A. Jackson were special guests at the meeting.

Just think of it!! 3 meals per day for only \$15.00 a month. At La Fonda, 2406 Main. adv.

### Prexy's Paragraphs

BY BRADFORD KNAPP

"A life well spent and a character well sustained are the best heritage one can leave to posterity."

I thought of these words as I attended the funeral of Mr. C. A. Jones, father of our beloved chairman of the board of directors, Mr. Clifford B. Jones of Spur. If ever a man left such a heritage, certainly he did.

There is every manifestation of love and admiration of the thousands who knew him as a pioneer of West Texas. Such a life is a great contribution, and those of us who had the privilege of knowing him realize the deep and kindly characteristics of this noble man.

In the dictionary "sportsman" is defined to be one who competes fairly in any contest according to the rules and spirit of sportsmanship.

The word "sportsmanship" indicates something far above the mere entering into a contest for the sake of winning. Good sportsmanship carries a meaning of respect for one's adversary and respect for the rules of the game.

A good sportsman never stoops to win by unfair means.

OCCASIONALLY a crowd watching a game is unfair to an official. Both in basketball and football there are rules which permit the officials to penalize the offending team for the action of the crowd itself.

I say these things because I heard some persons, whom I believe not to have been students of this college, "booming" the officials at a recent football game. Last winter I heard a crowd at a basketball game start to "boo" the referee. There are some sports which are scarcely of collegiate character.

### A Secret Panel for a FLATTER FRONT BELOW THE MIDDLE in this New Vassarette

We think this New Vassarette is just about perfect. You see it has a secret inner panel for controlling unruly abdomens. Without the aid of bones . . . and without the loss of freedom! Now you can help yourself to a flatter front, below the waist and still enjoy the delightful comfort of a Vassarette. The New Vassarette girdle (illustrated) slims your hips and glorifies your curves and flatters you beautifully below the waist. The panel is in girdles and all-in-ones, but only in Vassarettes.

### Minutes Of First Tech Directors Meeting Donated By Amon Carter

"No act of my official life has given me greater pleasure than sanctioning the bill establishing Texas Technological college" said Governor Pat M. Neff at the first meeting of the Tech board of directors March 2, 1923 at Sweetwater, Texas.

Amon G. Carter, chairman of the first board, donated a copy of the minutes of this meeting to the Tech library eight years ago. Tech gave Mr. Carter, president and publisher of the Fort Worth Star-Telegram, an honorary LL. D.

Gala Celebration To quote from the minutes: "The city of Sweetwater was decorated for the gala event. National colors were floating over the streets. Since the arrival of the first special train early in the morning from Colorado, bands were parading. Governor Neff and the official party arrived on a special train from Fort Worth and were greeted at the station by bands. Special trains came from Plainview, Lubbock, Colorado, Big Spring, San Angelo, Snyder and Fort Worth. . . . There was general jollification. Newspapers estimated that there were 10,000 persons in Sweetwater during the day.

The crowd met in the county square in the afternoon to formally ratify the action of the Legislature and of Governor Neff in signing the bill. M. G. Rosser, Snyder, presided. Speeches were made by L. T. Carpenter, Dallas, author of the bill; Senator W. H. Bledsoe, Lubbock, author of the Senate bill which was finally signed; R. M. Chitwood, chairman of the house committee on education; J. D. Sandefer, president of Simmons, Abilene; Mrs. W. H. Beale, of Sweetwater and Governor Neff.

Neff Looks Ahead Governor Neff called attention to the fact that the celebration was held on the anniversary of the signing of the Declaration of Independence by the fathers of Texas, and he asserted that even as the adoption of the Independence at old Washington on the Brazos signaled the eternal freedom from the rule of Mexican militarists, so did the enactment of the bill creating the Texas Technological college mark

the declaration of independence of the producers of Texas from Eastern manufacturers, and he hailed the day when Texas mills and spindles would manufacture into the finished product cotton from Texas fields and wool from Texas ranches. The establishment of Texas Tech would bring about this he said, because its students would be able to master the textile arts.

Members Named Members of the first board were: Mrs. C. F. Drane, Corsicana; C. W. Meadows, Waco; Clifford B. Jones, Spur; William P. Hobby, Beaumont; Robert A. Underwood, Plainview; Dr. J. E. Nunn, Amarillo; Amon G. Carter, Fort Worth; J. W. Carpenter, Dallas and Mrs. Charles B. De Groff, El Paso.

The minutes were signed by A. G. Carter and Silliman Evans, acting secretary.

### North Dakota

(Continued from page four) roy saw service but a shoulder slowed up the half.

In the opening quarter, the Raiders got off to a great start. With Dowell passing to McKeever, then to Brax Gilmore and the third time to Adrian Clark, the Techsters placed the oval on Dakota's 25. Big "Mule" Dowell slipped off of right tackle through a gap big as a double door for the first marker Little Adrian Clark, registering for the first time in this campaign, went across in the second quarter after receiving a toss from Dowell. Juicy Owen booted the goal for the point.

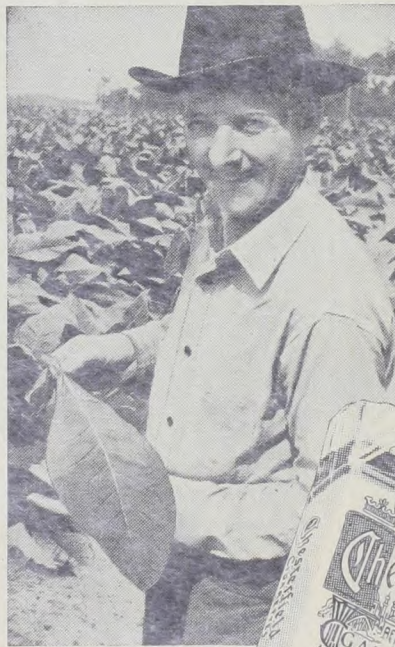

The North Dakotans started a drive immediately after the start of the second period. Hanson sped around end for 13 yards, and the first Buff marker. Big Erickson and Hanson combined their efforts in taking the ball over for the next Bison counter. Hanson made the score. Tech came back to push ahead again. Dowell rifled a pass to Clark who

# Tobacco.. there are just as many kinds as there are kinds of folks

A bale of aromatic Chesterfield Turkish tobacco.

Mild ripe home-grown tobacco used in Chesterfield Cigarettes.

long · short · thick heavy · dark · light all kinds and styles

... but it takes mild ripe tobacco—Turkish and home-grown—to make a milder better-tasting cigarette.

... and that's the kind you get in every Chesterfield package.

Down South in the tobacco country, where they grow and know tobacco—in most places Chesterfield is the largest-selling cigarette.
