

Model U. N. Begins Debate On Friday

By JACQUE GILL and SALLY LONG
Toreador Staff Writers

Resolved: *The United Nations calls upon the Government of Portugal to cease repressive measure and the denial of human rights and freedom in Angola.*

After months of preparation, Tech's Model United Nations will begin debate Friday on the preceding resolution. Sixty-five delegations representing as many nations will answer 10 a.m. roll call.

Divided Into Six Blocs

After the introduction of the resolution, the delegations, divided into six blocs, will present their position papers. Each bloc is limited to one 10-minute, one 7-minute, and three 1-minute speeches. Presentation of position papers will continue throughout Friday.

Hotelet To Speak

At 9:30 a.m. Saturday, CBS U.N. Correspondent Richard C. Hotelet, who has established himself in the top rank of news correspondents and political observers, has trudged beside Nazi troops and been imprisoned by the Third Reich. He emerged to cover the world's top news events. Hotelet will also speak at the closing banquet.

Final Vote Saturday

Saturday's formal debate on the resolution will be limited to four minutes for each nation. Remaining time will be devoted to free debate in which any recognized nation may continue debate. Vote on the resolution will be taken at 4:45 p.m. Saturday.

Open To Public

The Model U.N. is open to the general public, and space for approximately 200

observers will be provided. Patsy Wood-dell, decorations chairman, said, "We plan to set the Union Ballroom up as nearly as possible like the actual U.N. assembly. The authentic U.N. emblem and seating arrangement will be duplicated."

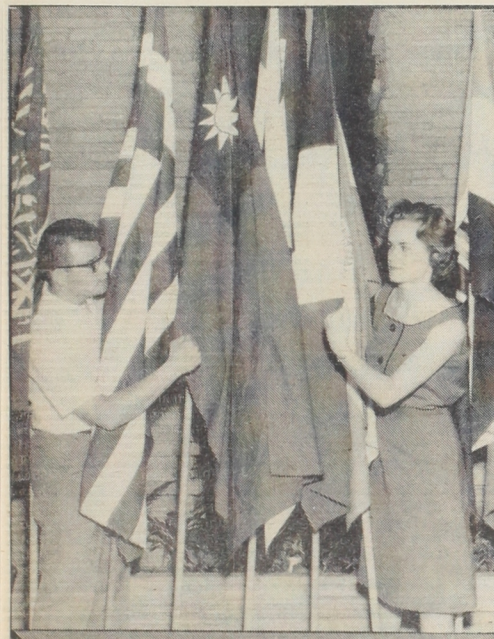

Model United Nations Schedule

FRIDAY, MARCH 29

- 10:00 a.m. First Plenary Session
- Roll Call
- Welcome
- Introduction of Resolution
- 10:30 a.m. Presentation of Position Papers
- 12:00 a.m. Recess
- 1:30 p.m. Second Plenary Session
- Presentation of Position Papers
- 3:30 p.m. Coffee Break
- 3:30 p.m. Presentation of Position Papers
- 5:00 p.m. Break
- 5:10 p.m. Presentation of Position Papers
- 6:00 p.m. Recess.

SATURDAY, MARCH 30

- 9:00 a.m. Coffee and Reception for visiting officials
- 9:30 a.m. Second Plenary Session
- Speaker: Mr. Richard C. Hotelet
- 10:00 a.m. Debate on resolution
- 12:00 a.m. Recess
- 1:00 p.m. Third Plenary Session
- Debate continued
- 2:30 p.m. Caucus Break
- 2:45 p.m. Debate Continued
- 4:45 p.m. Vote on Resolution
- Closing Remarks
- 6:00 p.m. Recess
- 7:30 p.m. Awards Banquet—Coronado Room

MAYBE EVEN FIST SHAKING—Joe Barlow, left, senior speech major and delegation leader for the Soviet bloc, and Karolyn Kirby, senior chemistry major and Portugal delegation leader, will be opposing each other Friday in the Model U.N. The opening debates Friday will climax several months of preparation. —Staff Photo

AP News Roundup

Engravers Extend Newspaper Strike

NEW YORK (AP) — Photoengravers turned down strike settlement terms Wednesday night, indefinitely prolonging New York's multimillion dollar, 110-day newspaper blackout.

The vote of 191 to 111 against the proposed photoengravers' contract terms came as a stunning shock to the industry, which had been geared for a quick resumption of publication. Morning editions had been prepared to go to press within a few hours.

Raiders Damage Russian Freighter

MIAMI (AP)—The Miami News said anti-Castro raiders damaged a Soviet freighter Tuesday night at the Cuban port of Isabela de Sagua, where the Soviet ship Lgov was shot up March 17. A spokesman for an exile group, Commando L, told the News the freighter was left badly in need of repair to keep it from sinking. The raiders were reported to have returned safely to a base "somewhere in the Caribbean."

Launch Preparations Go Smoothly

CAPE CANAVERAL, Fla. (AP)—Pre-launch preparations progressed smoothly Wednesday for the scheduled doubleheader space spectacular Thursday.

If all goes well, the mighty Saturn super-boosters will blast off at 1:30 p.m. EST on the fourth test flight for this booster which in later development will ferry American astronauts to the moon.

On another launching pad more than five miles away, a three-stage Delta rocket was being readied to hoist the Explorer 17 satellite into orbit to measure characteristics of the earth's atmosphere.

The Delta, seeking its 16th straight launching success, was scheduled to be fired at 9 p.m.

Soviet Charges Denied

WASHINGTON (AP)—The State Department speedily denied Wednesday a Soviet charge that the U.S. government is responsible for a recent hit-and-run attack on a Soviet freighter in a Cuban port.

Even before the Kremlin protest had been officially received here, State Department press officer Lincoln White referred newsmen to earlier U.S. condemnations of the March 17 raid by anti-Castro Cuban exiles.

SC Hits Tuition Bill

By CECIL GREEN
Toreador Staff Writer

The proposed bill to raise college tuitions came under fire at Student Council meeting Wednesday night, and limited action was taken against the present bill, but no move was made for or against a tuition hike in general.

"AT PRESENT, the Student Council cannot take a stand either for or against a tuition hike, because we don't have enough information to aid a rational decision — and no one else seems to have any information either," President Charlie Aycock emphasized.

However, definite action was taken against House Bill 963, the bill proposing the raise. Royal Furguson presented a motion which passed unanimously that the SC should take a stand against the bill because:

1. It makes no provision for scholarships to help needy students, and

2. It in no way states how the

money will be apportioned among the state supported schools.

COPIES OF the arguments will be sent to Governor Connally; the committee on revenue and taxation, which is considering the bill; the originator of the bill; and the representatives and senators from the Lubbock area.

Jerry Peirce, chairman of the SC committee investigating the purpose and student opinion on the bill, reported that he had talked with Lt. Gov. Preston and other legislative officials and that even they couldn't definitely say how the money from the bill will be used and who will profit and who will be hurt by the measure.

ALSO IN HIS report, Peirce said that all the officials he had contacted brought out the facts that the tuition in Texas schools is far below those in other schools across the nation, that the state now pays about \$800 dollars yearly per student, and that many people feel that students should help pay a little more of this sum.

THE CLASS officers controversy was touched upon lightly, and Joe Murfee, freshman class president, reported on a recent joint meeting of all class officers.

"We came to an unofficial decision," Murfee said, "that we would like to see the sophomore, junior, and senior class officers remain, but only in an honorary position. They would not have any duties to perform unless a matter came up that was just for their class."

"HOWEVER," HE continued, "we feel that the freshman council should remain as it is in on most aspects of student government and serves as an orientation unit for future campus leaders."

Name Omitted

The name of Lynn Wallace, sophomore coed from Midland, was omitted from the list of cheerleader applicants in Wednesday's election story in THE DAILY TOREADOR.

Woman Editor To Talk At Theta Sig Dinner

Mrs. Emily Lovall, editor of the Otavo County (N.M.) Star, named the "Best Weekly Newspaper in the United States Edited by a Woman" by the National Press Assn., will be guest speaker at the annual Matrix Table dinner here Monday.

HER VISIT to Lubbock is co-sponsored by the Texas Tech and Lubbock Alumnae Chapters of Theta Sigma Phi, national professional journalism fraternity for women.

Honored at the banquet will be

Mrs. Louise C. Allen, associate professor of journalism, who is retiring at the close of the spring semester after 30 years at Tech.

SPEAKING on "Content and Intent," Mrs. Lovall will discuss practical aspects of newspaper work and will analyze the basis on which her paper won the national award.

"In addition to her prowess as an editor, Mrs. Lovall also occupies a unique position in the writing field and her talk is calculated to be of interest to men as well as

women," noted Mrs. James Wentworth, president of the alumnae chapter.

MRS. LOVELL has traveled extensively in this country and abroad and is a regular contributor to the El Paso Herald Post and Denver Post and the New Mexico Magazine.

She has the distinction of being the only woman in the press corps which covered the high altitude balloon tests at Holloman Air Force Base several years ago and her articles concerning the test were published in several daily papers and trade publications.

HER DIVERSIFIED career in communications includes the organization and operation of a radio station in Tucson, Ariz., with Erskine Caldwell and Gene Autry. Tickets to the dinner, which is slated to begin at 7 p.m. in the Tech Union Coronado Room, are \$2.25.

Reservations may be obtained by writing or calling Mrs. Margaret Schrader, Tech Press, or calling extension 4257.

WUS COLLECTION—Ann Weaver, chairman of Women's Residence Council, hands Lee McElroy, co-chairman of World University Service fund drive, a check for \$202.19 from women's dorms. This is the largest single amount collected in making up Tech's \$550.81 total. —Staff Photo

"Quality Jewelers For A Third Of A Century"

City Jail - Paradox Of Atmospheres

By MAX JENNINGS

Toreador Managing Editor

There are no sheets on the beds at the Lubbock city jail. In some cells there are no mattresses. Some of the cells are empty. Other large cells called "tanks" are filled with prisoners, mostly those arrested for drunkenness.

Few Lightbulbs

And there is a smell that lingers in the nostrils long after leaving some of those cells, many of which are dimly lighted from a few naked lightbulbs.

Prisoners sit quietly on their bunks, emotion wiped from their faces, as people file past in the narrow corridors.

But there is more to the Lubbock police department than this.

Spanking New Building

It is housed in a spanking new building, with a huge glass foyer and brightly polished floor. Officers with shiny shoes and heavy pistols amble by, many carrying reports or information for the desk sergeant.

Office girls type endless letters and forms and move from one filing cabinet to another in an air-conditioned inner office.

A radio dispatcher sits in an inner room with several receivers, a couple of microphones and several record files. The desk man fills out a last record before going off duty.

Detectives Neatly Dressed

Detectives, dressed neatly in business suits, talk rapidly to each other as they walk by.

And it all adds up to a vast complex that spells law enforcement for the City of Lubbock.

It's a big job, requiring 182 employees, 42 cars, several motorcycles . . . and 5 dogs. There are several departments, each

with its own speciality, but probably the biggest is the records division.

Special Report Machine

Here a special recording machine can take by telephone the report of an officer making an arrest, including data on the type of offense, location, etc. Other sheets records incoming phone calls and various other reports coming into the office, in addition to the record of radio traffic handled by the dispatcher.

Other files hold accident reports and record and wanted files. The Lubbock department makes a mug shot and fingerprints each person arrested. Copies of the fingerprints and the charge are mailed to Washington and the State Department of Public Safety and go on file there as well as in Lubbock.

Special Criminal Breeds

Lt. S. Smallwood of the department indicated that special breeds of criminals, such as shop lifters, burglars and narcotics pushers, are mugged in color to provide a little more exact identification.

The department is fully equipped to process its own film and prints, including the color work.

A special property room has been set up in the department, and it is used to store all items confiscated by officers. This ranges from big game rifles to liquor to automobile tires, Smallwood said.

Only one officer has a key to the room, and by means of card indexes he can instantly locate any item in the room.

Confiscated Articles Sold

Smallwood said that if items are not picked up in six months, they go on sale, with this money going into the city general fund.

The record of arrests continues back into the jail area itself. Prior to his being placed in a cell, a card containing a brief history and description is filled out on each prisoner. At this time, Smallwood said, all prisoners are given a chance to use the telephone.

First Offenders' Records

He explained that if this is not the first offense, the arrest is added to the department's record on the prisoner. If it's the first arrest, "That's when he starts his record," Smallwood said.

The jail is located on two levels in the rear of the building. The first level is lighted only by artificial light and is used mostly "for sobering up drunks." It has facilities for both men and women prisoners.

The cells contain only metal bunks, some with no mattresses. None have sheets or bedding of any kind. In one corner is a commode without a lid. A single shower with a narrow stall serves several prisoners.

Tanks On Second Level

The second level holds two sets of "tanks" in which several prisoners are placed at one time, usually after they have already been to court.

At the other side of the second floor, completely apart from the adult cells, are the juvenile cells. These cells are more "inviting" and there the faint smell of the other rooms does not linger, simply "because they are not used as much," Smallwood said.

The juvenile department, founded in 1955, has become an integral part of the department, staffed by 10 patrolmen, 3 sergeants and a captain, all working in plain clothes.

In 1962 these men handled a whopping 2,907 juvenile offenders, with 33 per cent of these sent to a training school. "Most of the time it's the same ones," Smallwood said. "They repeat themselves over and over."

The juvenile department, too, has a complete set of records on each offender, varying from curfew violations records to accounts of more serious offenses. But the records on the juvenile are not permanent. "If juvenile records are not criminal records, no matter how you look at it," Juvenile Officer Kenneth Privett explained.

Daily Briefings

Downstairs in the basement, Smallwood explained that police officers are briefed thoroughly prior to coming on duty concerning suspects, stolen cars and other information.

Also required of all officers is regular pistol practice, with each man required to fire 25 rounds per month on the target range in the basement. Ten of these shots are computed for a score, he said.

Canine Corps New

A relatively recent but already proven addition to the police force are the canine units. The dogs, he said, possess amazing intelligence, and their worth has been proved time and again, especially in tracking down burglars and other suspects near the scene of a crime.

Attend Model U.N.

Moving to the center of attention on the Tech campus this weekend will be the Tech Union Ballroom—site of the first annual Model U.N.

Everything in the Ballroom is being arranged to duplicate as nearly as possible the United Nations setup in New York. Each country represented at the mock event will be speaking as its delegates feel actual representatives would.

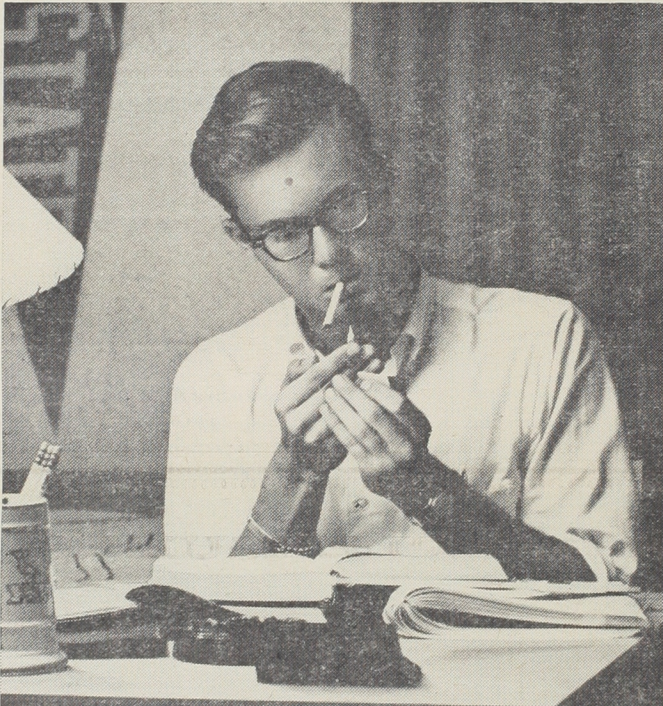

In all, more than 60 countries are represented and views will be given concerning the different countries' views on various international topics.

A highlight of the two-day meet will be a speech Saturday by Richard Hottelet, nationally-renowned news correspondent for Columbia Broadcasting System.

Much time and effort has gone into this program, and the results Friday and Saturday should be extremely interesting.

Visitors are welcome to sit in on the proceedings; it will be time well spent.

Letters To The Editor

Coed Upholds Roomcheck

Editor,

I say hurrah for the rights of the coed of Tech!

I certainly feel that something should be done about the petty restrictions and rules put upon the Tech coed, but I also feel that I absolutely need the protection of the roomcheck.

Until this year, I thought that the roomcheck was an unnecessary and asinine occurrence, put there only so the office girls and authorities could spy on us. This year I came to a rude awakening. I had the luck(?) of getting a roommate that doesn't mind in the least living in a room that resembles a pigsty for all the filth, personal articles and clothes that she allows to pile up on her side of the room. She has never lifted a finger to clean the room since we moved in in September, and she never makes her bed or straightens anything up unless she knows that we are going to have roomcheck—which is once a week and which she gripes about constantly.

You boys say that you wouldn't put up with it and I've heard of cases where physical force was used to teach a roommate neatness and considerateness of this kind. This is fine unless you're a coed, then you can't do something of this sort.

I have nightmares of what would happen if the roomcheck were removed—she would just let the dirt, clothes, books and all her other things pile up until we couldn't even crawl to our beds at night. At least with a roomcheck the seven days' accumulation of refuse and junk is removed to start again on a fairly clean base. What would it be like otherwise?

The girls I've talked to that don't need a roomcheck don't mind the measure. It's the ones that live in the messy rooms that protest and feel infringed upon.

If you print this letter, please withhold my name. Relations between my roommate and me already are strained enough, and besides, I'm a coward and she's bigger than I am.

M.S.

Model U.N. Draws Fire

Editor,

In the interest of the U.N. and the country I represent, Peru, in the forthcoming Model U.N., certain facts should be brought to light. For the United Nations is presently the recipient of criticism from ultra-conservatives, communists, and the uninformed. "The mad have no ears", therefore, this letter is directed to the uninformed and the half-informed.

The Model U.N. will vaguely resemble only one organ, the General Assembly, for many reasons:

1. The sugar-coated pill approach to knowledge.
2. Lack of interest in students.
3. An un-optimistic view of student's abilities in such an undertaking.
4. The extremely short time for portrayal of Assembly sessions.

To quote a hackneyed expression of a well-known Molieresque professor, "The unit must be useful." Therefore, a certain quantity of sophism is necessarily unavoidable in the capsule approach.

However, in trying to depict fidelmente the doctrinalism of Peru, I feel I must scream at every deviation from the U.N. Charter: Articles 9, 21, 97, and 101.

Frank Dietze, Chairman
Peruvian Delegation

Please publish this without deletions. Thanks

Fashion Model
*Glamor, Glamor Everywhere,
 But Sneakers On Her Feet!*

Tech girls are no different from others. They all enjoy "wishing books." This category includes fashion magazines designed to make your pocket book ache. As envious as the clothes are the models that make them attractive.

A particular type of glamor shrouds the modeling profession, but is her job enviable?

THE WOMEN who pose for the photographs have mixed emotions. Some say it's a breeze. Others insist it's strenuous and taxing.

Take the case of one New York model, Bernice Campbell, on location in Newport Beach, Calif. It was mid-winter. Since early morning she had been posing, changing from shorts to swimsuit, to sun dress while the temperature went from comfortable to cold.

IN TALKING about her profession, she said, "Men seem to be attracted to models. It isn't just our looks. There's an aura of glamor about our profession you know... **WHEN VIEWED FROM A DISTANCE.**"

She glanced at her sneakers peaking out from under her high fashion pajamas. She was photographed only from above, the ankles—and comfort is important when you are on your feet all day.

ON LOCATION with Bernice were the male model and the two "model" children who make up the fashion family. All had flown in from New York. For the three days they were on location to use every bit of December sunshine.

After the models posed on a sand dune for the better part of an hour, the photographer was satisfied with the shots and relaxed. But off ducked Bernice behind a sheet held by two assistant photographers, where she changed into a pair of shorts and a cotton top.

THE OUTFIT was cool but so was the weather and after the shooting, an assistant dropped a blanket over her shoulders.

The camera began to click. The photographer burned up four rolls of film, then at 2 p.m. someone sent for sandwiches. After a brief rest the model went back to her makeshift tent for more changes.

FOR THE child model, posing was just as demanding with hours of holding muscle-cramping positions.

The day's shooting over, the photographers packed the gear and started back to New York.

where shooting would begin with another girl stoically doing snow suits in the winter chill of Central Park.

WITH HER job finished, Bernice said, "And none of this is the hardest part. For me it's staying away from those great big dinners. I have to remind myself that a few pounds extra look like tons to a camera lens."

She climbed into a white sports car and roared away with her "model" family.

ON THE subject of enviousness she ended with "it depends on what you want out of life, doesn't it?"

MAKES IT LOOK EASY... but for this model glamor ends at the ankles in this photo, as she is wearing sneakers to ease tired feet.

Got Money? Grades? Think College Cinched? *Kline Sparks Poetry Hour*

So you've got the money, honey (and grades and brains to boot!) — we ain't got the room! Tough bounce.

Over and over, you've heard tales of the bleak future of higher education. Educators anticipating the student explosion of the next few years, say that prospect of overcrowded colleges is no distant nightmare. By 1970, nearly 7 million students will be ready for college. Will colleges have room for them?

Today, with a student population of about half that figure, schools are already filled. How to double their facilities in the next seven or eight years is a staggering problem.

Next to tuition fees, the greatest source of college income is private endowments. This source is shrinking while expenses such as faculty salaries, equipment and services (from administration to custodial) are skyrocketing.

The cost of a four-year college education for 7 million students is \$112 billion. That's billions more than the annual federal budget! It's more than one-fifth of our gross national product, the total value of all goods and services

produced by the entire country.

"Each year \$653.85 of State Legislature appropriated funds is spent on each Tech student," said Bob Price, Tech's assistant auditor. Multiply that figure by Tech's spring enrollment of 10,638 and ask yourself where the money comes from!

Mrs. Alex Kline will speak on "Great Thoughts Through the Ages" at a poetry hour at 4 p.m. today in the Mesa Room of Tech Union.

Mrs. Kline, wife of Rabbi Alex Kline, acquired a Master's degree in classical art and architecture at the University of Pennsylvania.

'Tis Spring And . . .

Bandsman's Fancy Turns Toward Love And Music

By LANE CROCKET

Toreador Staff Writer

In the spring a young man's fancy lightly turns to love. But, in the case of a bandsman, his thoughts turn to love and music.

Why? Because, the spring semester brings to the Music Bldg. a variety of bands—three concert and two stage.

The main Tech concert band is composed of the "top notch" players selected by tryouts and from members of the last year's concert band.

The band rehearses at 1 p.m. each weekday.

Dean Killion directs the band in a repertoire ranging from Rimsky-Korsakoff's "Sheherazade" to Bernstein's "West Side Story." This band specializes in the serious works of great composers, according to Killion.

The concert band leaves April 8 on a three-day tour, performing at Hale Center, Muleshoe, Hereford, Dumas, Borger, Perryton, Phillips, Amarillo and Tulia.

"The main purpose of the tour is to publicize the entire college, because the band is comprised of students from all divisions and departments of the college and through the personal appearances in various high schools, the entire college is afforded valuable publicity," Killion said.

Lubbock audiences will have a chance to hear the band April 18 at Lubbock High School. The band also participates May 1 in a contemporary music symposium here.

The remaining concert bands are signified as varsity bands. One meets at 11 a.m. MWF and the other at 2 p.m. MWF. These bands favor the lighter side of music.

Their repertoire ranges from Wilson's "The Music Man" to Schubert's "Unfinished Symphony."

The 11 a.m. band is directed by Killion, and the 2 p.m. band is directed by Larry Van Weed, instructor of low brass.

The bands present their Spring Concert April 28 in Lubbock Municipal Auditorium. The 96-piece concert band, 116-piece 11 a.m. band and the 75-piece 2 p.m. band will each play.

The bands require no special rehearsals.

The two Tech stage bands meet at 11 a.m. TT.

The "A" stage band plays special arrangements such as Gershwin's "Summertime," under the direction of Killion.

The "B" stage band, directed by Weed, has such special arrangements as Laporta's "Back to the Beat."

"Students are welcome to visit rehearsals," Killion said.

Union Art Contest Slated

CAC approaches again. CAC, or Campus Art Contest, is an annual event directed by Tech Union's Art and Design committee. It enables campus artists to display or sell their work, and to receive recognition and prizes.

"THIS IS ART and Design's biggest event of the year, and we hope to make this year's contest even bigger than usual," committee chairman Ginny Ridge, said. "To interest more students, a photographic category has been added to the usual four divisions, water color, oil, sculpture, and drawing and prints," Miss Ridge added.

ENTRIES deadline is April 17, with prejudging April 18-20. Entrants will be notified of acceptance or rejection by April 22.

Final judging will be April 27, and winners will be announced at a reception April 28. The exhibition will remain on display through May 3.

WORK MUST be done by Tech students while not under class supervision. Each individual is limited to five entries in each division.

Entries must be submitted in a form ready to display. Works available for sale from the exhibition should be marked accordingly.

PRIZES FOR each division are first place, ten dollars and a blue ribbon; second, five dollars and a red ribbon; third, a white ribbon; and honorable mention, a yellow ribbon.

Winners in each division will have their names engraved on a permanent plaque for display in the Union.

Tech Enters S. A. Relays

Brock, Biffle To Pace Tech In San Angelo

Texas Tech will enter seven events at the San Angelo Relays Saturday.

The Tech mile relay team has all indications of being the most certain point-getter, with other threats coming in the persons of Jerry Brock, Fort Worth sophomore, and Ronny Biffle, Anton junior.

Biffle To Run Hurdles

Biffle will run the intermediate hurdles, while Brock competes in his specialty, the mile run.

The mile relay team, strongest of Tech's entries, is composed of Norman Donelson of Stanton, Gary Don Bove of Happy, Richard Vogan of El Paso and Noel Carter of Semmore. Their best time for the season is 3:14.4.

In last weekend's meet against Colorado, the mile-relay team had to hustle to down the Buffaloes in that event, winning in 3:16.8.

Sparks Honorary Referee

Tech Track Coach Don Sparks, has been chosen as the honorary referee at the San Angelo Relays.

Biffle, Tech's top hurdler, was second in both intermediate and high hurdles in the dual meet with Colorado.

The top distance runner for the cinder men, Jerry Brock, was beaten in his specialty, the mile, as he placed second with a slow 4:23.5 into the wind. In the two-mile Brock grabbed the second place laurels again, as he ran the lengthy race in 10:00.6.

Brock's best time in the mile is 4:18.7, while Biffle has run the 330 hurdles in 38 seconds flat.

Other Raider Entries

Other entries for Tech will be in the century, high hurdles, 440 relay and sprint medley.

Walter Cunningham of Galena Park, whose best time in the 100 is 9.9, will carry Tech hopes in that event. He ran a surprising 10.2 against the wind against Colorado last weekend. In that event he was second.

Biffle will run the high hurdles, as he tries to better his best time of 14.6.

Carter, Donelson, Vogan and Cunningham, who were edged against Colorado, will run the 440 relay. Bad passes cost them that race and a lower time. Their fastest time is 42.4, run against Colorado, into the wind and with two bad passes.

Carter, Donelson, Vogan and Bove will try to grab the honors for Tech in the sprint medley. Their best effort in that event is 3:26.6.

Freshmen Idle

The Picadors, resting after their 65-63 upset win over ACC, will be idle this weekend.

Simpkins Journeys To Collegiate Finals

Texas Tech's sophomore swimmer, Phil Simpkins, goes, the 100 and 50 yard events in after National Collegiate honors in Raleigh.

The Houston Flash set a new Southwest Conference record of 48.6 seconds, nearly two full seconds under the old mark, in grabbing the 100-yard freestyle event

Simpkins will be accompanied to Raleigh by Coach Jim McNally, who guided the Red Raiders to a third-place finish in the SWC — behind SMU and Texas—the highest a Tech team has ever placed.

Picadors' Win Skein Snapped

Texas Tech's Picadors' winning streak was broken at five straight Tuesday, as they lost their first game of the season to Odessa College, 6-4, in Odessa.

Odessa used three pitchers to hold the Picador bats to only five hits for the day. Odessa starter Gardner gave way to Dean in the third and Blanchard, the third Odessa hurler of the day came on in the sixth to finish up.

Centerfielder Ronnie Jones hit a bases loaded single in the first inning driving in three Odessa runs and Gardner hit a home run in the third with one man on base to give the Odessa nine an early 5-0 lead.

Pics Score In Sixth

The Picadors got their four runs in the sixth inning on an error and a bases loaded double by Johnny Burns. This was all the Picadors could manage, as the Odessa hurlers were tough in the clutches.

Stan Coffee started for the Pics and was charged with his first loss of the season. He was relieved in the fifth by Rick Frievoegel.

Estes Jury Tries Again

In Federal Fraud Case

EL PASO (AP)—The jury in the Billie Sol Estes federal fraud trial reported Wednesday it was deadlocked. After conferring with U.S. Dist. Judge R. E. Thomason, the jury agreed to continue its deliberations.

Twenty-eight hours after receiving the case, the jury sent this note to the court:

"By common consent, this jury has decided it cannot reach a verdict in this case."

Judge Thomason conferred with counsel in the chambers and then returned to explore the situation with the jury in the courtroom.

Estes and several members of his family were present. There were less than two dozen other spectators in the courtroom.

Executive Platforms Voiced

Furgeson Seeks One-Day Break

In many conversations with Tech students across the campus, I have found a desire for strong programs and for new ideas from the Student Council. With this in mind, I have tried to develop a platform to meet the desired needs of the student body.

Presently Tech is accelerating its academic growth just as fast as its physical growth. In this realm I feel the Student Council can promote activities.

The speaker convocation should be greatly intensified in order that Tech students can get a first hand report on national and international activities. These convocations could help us coordinate our in-class instruction with practical, on-the-spot information.

Since I have mentioned the classroom, let me explain another idea I have in relation to academics. At Tech and at other universities in this nation, grades are of chief importance. Since the pressure to make high grades is so great and since final examinations usually determine a grade to a large extent, I feel that we, as students, should have longer to prepare for our tests.

With this explanation I propose to work for a one-school-day break between dead week and final exam week.

I feel that Tech is definitely a university, and next year, I will work to bring university status to our name. These above four programs are the ones I plan to stress in the realm of academics.

Another realm of the Student Council which has not been examined closely in the past is the area of communications between the Council and the student body. I would like to remedy this problem by printing a column in THE DAILY TOREADOR from the Council.

I also feel that we need to have the executive officers before the students for criticisms and suggestions. This could be accomplished by having monthly meetings in the Union composed of the officers and all students who wish to attend. We would also have these mass meetings in the dorms.

Another area where I feel communications need to be improved is between Tech and other Southwest Conference schools.

With these other programs I have mentioned, I would like to emphasize some of the established programs of the Student Council. The Traffic Program is one that needs continual work and supervision. Our Athletic Recruiting Program is also one which can add strength to our athletic system in future years.

All these programs are the ones that I feel Tech needs to enable it to continue to keep pace with the changing times. Since they are important, I have made them the basic points in my platform.

NOT EVEN WIND CAN STOP 'EM—A strong West Texas wind seemingly proved no obstacle to this couple attending Thursday's campaign rally. Perhaps the girl received a lift to obtain a better view of campaign proceedings or merely to provide a balance against the winds. —Staff Photo

Strickland Sees Small Minority

Will we ever have another chance? If so, when? Do you really care if we have another chance? If so, read on.

Will we let a small minority of students set the policies and procedures of this campus for another term of office? I hope not. Will we continue to permit the leaders to blame the lack of voting on students' indifference? Again I hope not.

The main question is, will we face the following true fact?—We have never had a real reason to vote, mainly because of the self-centered policies and practices of this small minority.

As you read you will be able to understand how my platform isn't constructed to make me sound popular — because frankly, I'm not for everything that is "popular." I stand for the issues that back the rights of every Tech student.

First, I will inform students with a President's Column in THE DAILY TOREADOR, giving factual information of Student Council and administrative decisions and viewpoints.

Secondly, I will earnestly seek possible solutions to the growing parking problem.

Thirdly, I am not completely against a tuition hike if scholarships and other benefits are provided to balance the extra expense, but I will personally lead a campaign against any action that does not enhance the Tech student.

Fourthly, I will use any influence I have to obtain student rates at local theaters.

Other areas of my platform are: further stressing of honors program, hush discontentment about dorm food, reconstruct girls' restriction codes and eliminate out-of-date restrictions, ballot boxes in each dorm, something done about the name change, obtain athletic intergration if Techsians want it and continue study of purposes of class officers.

My platform also includes: unifying Tech organizations to work for advancement of Tech, obtain big - name speakers, raise money for name marker at campus entrance, make Model UN an annual event and work with IFC and Panhellenic to promote TB fund drive.

Let me ask you to study each candidate's platform and make a decision on your own. Then vote.

Prexy Candidates List Qualifications

Royal Furgeson QUALIFICATIONS

- ✓ Two-year member of the Student Council, serving on Publications Committee and Athletic Recruiting Committee
- ✓ Saddle Tramps
- ✓ Who's Who in American Colleges and Universities
- ✓ Varsity Basketball Letterman
- ✓ Interfraternity Council
- ✓ Honors Program in English
- ✓ Leadership Recognition in All-College Service
- ✓ High School Senior Class President
- ✓ Sports Editor of High School Annual
- ✓ National Honor Society
- ✓ High School Varsity Basketball

Gary Strickland QUALIFICATIONS

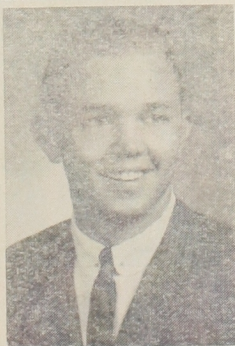

- ✓ Engineering Representative on Student Council
- ✓ Chairman of Class Committee Student Council
- ✓ Co-Chairman of WUS
- ✓ President of Sophomore Class (61-62)
- ✓ Vice President of social Fraternity
- ✓ Activities Chairman of social Fraternity
- ✓ Member of IFC
- ✓ Member of BSO
- ✓ Member of Alpha Phi Omega (service fraternity)
- ✓ On Committees at BSU
- ✓ Participation in advance ROTC
- ✓ Cheerleader in High School
- ✓ Student Council in High School

President's Duties

- Preside over meetings of the Student Association.
- Serve as presiding officer for the Student Council.
- Be chairman of the Executive Committee.
- See that rules and regulations are executed.
- Appoint all committee personnel not otherwise provided for in the Constitution.

STRICKLAND

ROYAL FURGESON FOR

PRESIDENT COMPARE AND VOTE

VP Hopefuls Give Platforms

James Cole

I propose to work for a compulsory evaluation of the faculty in the hope that such evaluations, if required, will make department heads more aware of teacher deficiencies. I also propose to work for increased student voice in the area of determining, to some degree, academic policy.

I propose to do this by working for joint student-faculty committees on which student opinion is voiced as to departmental policies. I propose to work for ad-

ministrative convocations at which the administration explains its policies and then subjects itself to question and answer periods about administrative matters.

I propose to work this summer on the feasibility and value of a book swap and then incorporate it next year if it is a good proposal for Tech students. I propose a very active name change program to the point of student referendum votes.

I propose to study our freshman orientation program and try to come up with a better orienta-

tion into the areas of campus activity, student life, and school spirit.

My qualifications are as follows:

President of Wells Hall in 1961-62, vice president of Men's Residence Council in 1961-62, member of Saddle Tramps, president of BSO in 1962-63, student council in 1962-63, chairman of the traffic committee, member of the elections committee, Who's Who in American Colleges and Universities, 1962-63, College Awards Board member, Tech Union Board member, committee on student organizations member.

Doug Gibbins

I would like to decrease student apathy through more student participation in Student Council and student government.

I propose to do pioneer work toward athletic integration. I also propose to continue and improve upon the athletic academic recruiting program.

I propose to study fraternity and sorority lodging plans and formulate some ideas and plans that would be workable in the future. Also, I would like to find more definite and satisfactory reasons for the tuition hike before we let it be put into effect.

My qualifications are as follows:

Chairman of the special events committee, in charge of the Freshman Dance and Freshman Convocation during freshman year; Games and Tournaments Committee at Tech Union; Wells Hall Social chairman in 1960; Campus Religious Council in 1961; secretary of the Double T Assn.; president of junior class in 1962-63; member of Phi Delta Theta; member of the Saddle Tramps; member of Phi Epsilon Kappa.

Botkin, Cornell Compete

Ronnie Botkin

The position of Business Manager of the Student Association is usually greatly underrated by the average student. Only at election time is anything really heard about the office. The position requires a great deal of work, and only with prior experience on the Student Council and a working knowledge of the duties of the office would anyone be able to do the job correctly and efficiently.

I feel that by being a member of the Student Council and working on the Allocations Committee I have gained the needed experience and knowledge. The responsibilities of the position are great and I think that I will be able to deal with any situation that might arise with the best interest of the students and Texas Tech in mind.

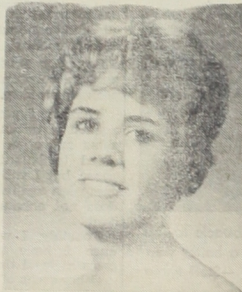

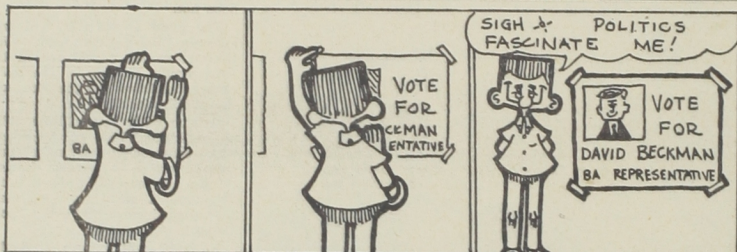

If you choose to select me as Business Manager of the Student Association, I will serve you and this 'university' to the best of my ability.

Jess Cornell is also a candidate for Student Council business manager. His platform does not appear as he failed to submit it to the Toreador by Thursday's deadline.

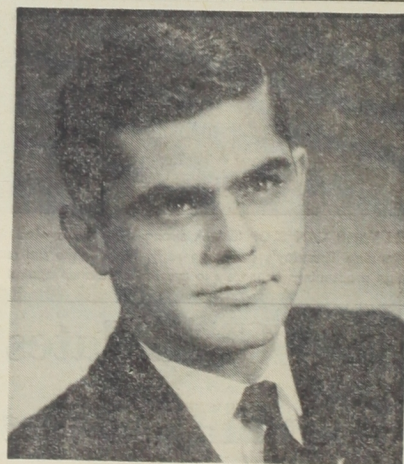

VP Duties

- Perform the duties of the President in the event of his absence or inability;
- Succeed to the Presidency in the event that the office should become vacant;
- Perform such duties as designated by the President or the Council;
- Be in charge of the annual school trip.
- Keep a complete and accurate record of all financial transactions of the Student Association.
- Serve as chairman of the Allocations Committee of the Student Council.
- Direct the financial activities of the varsity yell leaders.
- Educate all yell leader candidates in regard to the responsibilities and limitations of their positions.
- Be responsible for the approval of all money-making activities of the four undergraduate classes.
- Write an article to be printed in the TOREADOR during the month of December of each year to inform all students graduating at the end of the first semester of the deadline for submitting requests to the office of room reservations for the return of their room deposits.

REMEMBER...
TO VOTE!

Pat Hamilton Secretarial Candidate

In both leadership and service capacities, I have served and am serving Texas Tech:

Through school — I have worked in the Home Economics Club,

and am past CANDLE Editor and incoming President of Phi Upsilon Omicron.

Through organizations — I am a member of President's Hostesses, will be a legislator of Doak Hall, and have recently been selected to membership in Mortar Board.

Through Student Council — I have served on the Elections, Current Events, and Allocations committees.

If elected your Secretary, I would like to accomplish the following things during my term of office.

- Continue the present secretary's program of opening up the campaigns and putting the candidates in front of the voters.
- Make arrangements so that all counting of votes can be done by IBM computer. This would insure fast and accurate tabulation of votes.
- Hold Freshman Council elections as early as possible in the fall so they may work on a more united freshman class; they could reserve a section of the football stadium for the freshmen whose enthusiasm might boost our school spirit.

Cecile Camp Secretarial Candidate

My qualifications for Student Council secretary are: EXTENSIVE secretarial training, GOVERNMENT minor, EIGHT consecutive year's service on student councils.

My platform is:
Ready to serve YOU in:
1. Better communications for a better Tech—

- Council members should report back to their organizations
- Minutes of meetings should be printed in the TOREADOR

DOR
2. Fairer elections for a better Tech—

- Re-evaluation of officer qualifications
- Filling cheerleader and class officer vacancies

3. More special events for a better Tech—

- Another all-school program such as the Model U.N.
- Top national speakers

4. Safer traffic for a better Tech—

- Let the students decide

Judy Price Secretarial Candidate

Qualifications:
Student Council 62-63, Elections Committee 62-63, Recognized by Student Council for leadership,

Freshman Council 60-61, Junior Council, Sigma Kappa, Phi Gamma Nu, Pi Delta Phi, President's Hostesses.

As Secretary of the Association, improved communications would be one of my goals. As a member of the election committee this year, lack of student interest in campus elections has been painfully evident. Campus positions are often filled by a very small percentage of voters. Integration of students into Tech's student government could be achieved through a coordinated program with the TOREADOR.

I would also work this summer with IBM in the Engineering Department to set up a program for elections. All elections then would be held on IBM cards and counting would be done electronically.

Office Duties

The secretary's duties are:
KEEP the minutes of meetings of the Student Association and of the Student Council; BE responsible for the maintenance and preservation of the official version of the Student Association constitution and all rules and regulations of the Student Association; SEE that a copy of the official version of the constitution and all rules and regulations of the Student Association remain on file in the office of the president of the college; SEND a copy of the minutes of each meeting to the following: President of the College, Dean of Student Life, Dean of Men, Dean of Women, Student Council sponsor, Vice President and Comptroller, Academic Vice President.

AT all times maintain and preserve the official copies of the Student Association constitution and bylaws in the Student Council office.

Business Manager

WHO WILL IT BE? — Techsians voting by secret ballot today will choose three boys and three girls from the 18 candidates for cheerleaders to rally students behind the Raiders next fall. Run-off elections are set for Monday. —Staff Photo

Cheerleader Candidates And Duties

Candidates for cheerleader are Carolyn Buxton, Linda Edie, Carol Fursman, Gay Gillespie, Jeannine Jones, Nelda McQuien, Camella Moore, Kathy Osthoff, Sandy Sample and Jami Steinhoff.

Other candidates are Myrna Stephenson, Lynn Wallace, Dennis Ashmore, Mike Bohn, Smiley Irvin, James Perry, John Ward and Bobby King.

Those persons elected will:

- Be responsible for all Texas Tech pep rallies
- Coordinate the generation of enthusiasm at all recognized college athletic events
- Be responsible for furnishing a representative to the Southwest Conference Sportsmanship Committee
- Encourage good sportsmanship on the campus
- Be responsible to the business manager for the management of their finances
- Elect, from their number, a

head cheerleader who shall be a male student and shall serve as their chairman.

It Takes More Than Yelling To Be A Tech Cheerleader

Lots of people can yell and cheer with gusto when the Red Raiders go over for a touchdown. Quite a few can turn flips, inspire enthusiasm and attend all athletic events.

But there are a few special qualities, perhaps best classified under the term, gung-ho, that sets a good cheerleader apart from the football crowd.

Special qualities don't include regular cheerleader duties such as coordinating pep rallies and being on hand at ballgames.

One Tech cheerleader called it a year-round job. "A cheerleader must attend teas for visiting athletes, entertain visiting yell leaders and when away, attend all planned functions at other schools," she said.

High on her list on what makes a cheerleader really go is being able to perform yells well, en-

thusiasm, and devotion.

"A good cheerleader above all to develop sportsmanship and his enjoys cheerleading," she reflects. "He should at all times strive to develop sportsmanship and his own potential to its fullest."

Industrial Engineers Win First

Industrial engineering department took its fifth straight first place in the recent Science and Engineering Show.

Industrial engineering exhibits demonstrated techniques in production control, plant design, materials handling, work measurement, statistical quality control, product design, manufacturing analysis and organizations research.

Displays in the 31st SE annual show were judged on appeal to the public, explanation of department curriculum and presentation of exhibits.

The industrial engineering display received 3,705 points of a possible 4,000.

Bud Lanham was chairman of the department's exhibit. American Institute of Industrial Engineers and Alpha Pi Mu set up the displays.

READY TO STOMP—Judy Richards, junior, and Bob Fouts, senior, are all decked out for the Phi Mu western dance 8-11:30 p.m. today. Jimmy Heap's Band will play for the open dance at Vann's Catering Service. —Staff Photo

Delegations Plan Trips

Delegates from Tech's history department will scatter to state and regional history meetings in Austin and Albuquerque this weekend and next.

Four faculty members will represent Tech at the Texas State Historical Assn. meeting this weekend. The Austin meet begins today and continues through Saturday. Dr. David Vigness, department head; Dr. Ernest Wallace, professor; Billy Mac Jones, instructor and Richard Marcum, teaching assistant, will attend.

Tech's chapter of Phi Alpha Theta, history honorary, will send five representatives to a regional meeting in Albuquerque, N.M., Friday and Saturday, May 3-4.

Attending will be Dr. Paul Woods, history professor, and Lt. Col. George R. Hull, professor of air science.

Ronald Benson, teaching assistant, will present a paper on the Hay-Pauncefote treaty.

Nancy Vincent, Alpha Theta president, and Sarah Gaston, Austin junior, are Tech's student representatives.

Why Do You Read So Slowly?

A noted publisher in Chicago reports there is a simple technique of rapid reading which should enable you to double your reading speed and yet retain much more. Most people do not realize how much they could increase their pleasure, success and income by reading faster and more accurately.

According to this publisher, anyone, regardless of his present reading skill, can use this simple technique to improve his reading ability to a remarkable degree. Whether reading stories, books, technical matter, it becomes possible to read sentences at a glance and entire pages in seconds with this method.

To acquaint the readers of this newspaper with the easy-to-follow rules for developing rapid reading skill, the company has printed full details of its interesting self-training method in a new book, "Adventures in Reading Improvement" mailed free to anyone who requests it. No obligation. Simply send your request to: Reading, 835 Diversey Parkway, Dept 9894, Chicago 14, Illinois. A postcard will do.

Zsa Zsa Stars In Union Show

Mel Ferrer and Zsa Zsa Gabor star in "Lili," a technicolor movie, at 4 p.m. and 8 p.m. today and 2:30 p.m. Sunday in Tech Union Coronado Room. The Special Events Committee is sponsor.

Grads Discuss Negro Novelist

Grover Lewis and Nolan Porterfield, graduate English students, will lead the discussion at today's Noon Forum in the Tech Union Blue Room.

Discussion topic is contemporary Negro novelist, James Baldwin. Baldwin is author of "Another Country."

Purdue Prof Lectures On European Market

Competition from the European Common Market will force the U.S. to move rapidly if it is to hold onto its world markets or consider expanding them, according to Dr. James Greene, industrial engineer and visiting lecturer at Tech.

His ideas may carry some special weight since he has recently been a consultant to the European Production Agency, a division of the Common Market's organization.

"The U.S. must find ways to produce goods with more efficiency," he declared. "This presents a challenge to our industrial engineers."

Dr. Greene, a Purdue University professor, is spending three days, Monday through Wednesday, at Tech. He is conducting seminars in general industrial engineering research, production control and operations research.

Positions Open For L-V Staff

Applications are now being accepted for associate editor, copy editor and staff artist for next year's La Ventana.

Students interested in these positions should write a letter giving their qualifications, past experience on an annual or newspaper, why they want the job and any new ideas they may have for next year's La Ventana.

Past experience is not necessary, but preferable. Applications should be turned in to the La Ventana office or to either Johnnie Lu Raborn or Travis Peterson by May 1.

These are paid positions, and applicants should be willing to put in a great deal of time.

HONORARY MEETS

Psi Chi, psychology honorary, will meet at noon today in Tech Union, Elmer's Lounge. The group will initiate members and present a slate of officers. Those attending must sign up in the psychology office, X-31.

SURROUNDED—Carol McCormick, Ennis sophomore, was surrounded by cadets from England's Royal Air Force after their captain said, "If I were you blokes, I wouldn't let these ladies sit alone."

As I see it . . .

by johnnie lu raborn

"You think we speak the same language, but we don't," said one cadet from Cranwell, the Royal Air Force Academy in England. I had to agree with him.

Tech's Angel Flight was visiting the Air Force Academy in Colorado Springs. Some were dated with English cadets, who were also visiting. It was a real education.

For years, I've heard the English stereotype came out with "jolly good," "old chap" and "ra-ther." They are all true with the addition of an occasional "quite" and "Oh, my yes."

In England, you are not "out to lunch" but "around the corner." When we have a lousy date he is called "cull" or "bad head," but Cranwell calls them "grimmies."

'MAKING OUT'

It is a mystery how they got it but "cupeake" is said for "making out." Tennis shoes are called "blimp shoes," and a resounding "dash it" means darn or damn.

We Americans take much for granted. These cadets had never seen a drive-in movie or drive-in restaurant. Motels were also new, for they don't exist in England. Some of the guys got their first taste of pizza, Mexican food and pretzels. They didn't like it.

'STATUS SYMBOL'

It is a status at our Air Force Academy for the "firsties" or seniors to have Sting Ray Corvettes. That vast parking lot is full of them. I didn't see five cars under two years of age. The Cranwell "chaps" find it "marvelous" to get to ride bicycles when seniors. They do have cars, but generally these are somewhere in the 30's models. A car 10 years old is relatively new.

I did notice one thing about the cadets as a group. They abounded with national pride. One said, "There will always be an England." To which some of the U.S. cadets sort of laughed. A Cranwell "troop" recounted with a "Don't scoff at it, national pride is a wonderful thing." Their pride was so emphasized that it made me wonder if we "came over" the same way about our country.

On Saturday night, a formal ball was given for our flight, Cranwell and first classmen (seniors) at the academy.

The British boys taught us one way to live up a rather stiff dance. During one of the songs, one Cranwell "troop" yelled "Ants." The cadets immediately fell down on the floor, rolled over on their backs and kicked their feet and arms into the air. At the sound "dead ants," the legs and arms went stiff. Rather quaint, I'd say, but still effective enough to break everyone up.

GHOUL POOL

The Angels with U.S. Academy dates were wondering that night if they were included in the "ghoul pool." It goes like this. The academy hosts arrangements for blind dates for the formals. Cadets within each squadron enter a "pool" for 25 cents. At the dance, squadron officers act as judges and dance with the dates of each cadet entered in the pool. Afterwards, these officers decide which had the worst date and he wins the money. If we did it here, I would be rich.

AS I SEE IT

Sigma Kappa will choose a "Mr. Pledge" at 8 p.m. today in the National Guard Armory. Mr. Pledge will be chosen from fraternity pledges. The Caravans will play for the all-school dance.

Phi Mu will have a western stomp, 8-11:30 p.m. at Vann's Catering Service. The open dance will feature Jimmy Heap's band. Tech Union also is having a western dance from 8-11:30 p.m. in the Ballroom. Jimmy Mackey is playing.

KAPPA KAPPA GAMMA

An informal "German Beer Garden" will be the setting for the Kappa Kappa Gamma dinner dance at 6:30-11:30 p.m. today.

Delta Sigma Pi will have its Rose Dance from 7:30-12 p.m. Saturday at the Pioneer Hotel.

Newman Club will go on a picnic Sunday to Palo Duro Canyon.

Red-White Skirmish Ends Spring Training

Scarborough, Ben Elledge Opposing QBs

By ARTIE SHAW
Toreador Sports Editor

A pair of shining freshman quarterback prospects will be opposing each other at 4 p.m. in Saturday's final spring training scrimmage.

Featured will be Danny Scarborough of Quanah and Ben Elledge of Brownwood.

The annual contest is the rubber game of the series, as the Reds jumped to a quick two-game advantage, only to have it taken away from them in the last two outings by the underdog Whites.

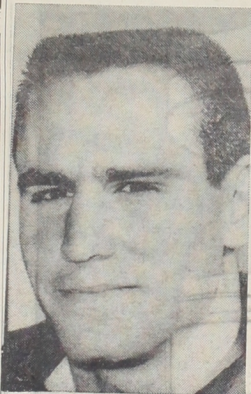

Two upperclassmen quarterbacks, Bill Worley of Midland and James Ellis of Lubbock, underwent knee surgery in December and will probably not see action, although they will be suited.

Statisticians Overworked

With both the Reds and the Whites threatening to "loosen-up" their previously tight offenses, the stress could be worse on the statisticians than on any one else.

Last week the Reds gathered 364 yards of total offense in a losing cause, while the Whites haled and threw for 277 in their 20-12 victory.

Long gainers have been the word of the day thus far, and any

BILL WORLEY

. . . Will not see action

more would be just icing for the cake.

Jim Zanios, Albuquerque fullback, for example, took a handoff from Red quarterback Ben Elledge and raced 52 yards off tackle in a spectacular gainer.

Elledge connected on two long passes, one to all-Southwest Conference end, David Parks, for 44 yards and another to Stimmert halfback, Donny Anderson, for 41 yards.

For the rubber game, each having won two contests, lineups will be exactly the same as last week. There may be a trade at halfback between David Baugh of Rotan, a Red last week and Jimmy Edwards of Roysie City, who played for the White squad last week.

Admission is \$1 for adults, 50 cents for students and Tech students will be admitted by showing their identification cards.

Traffic and Security

The staff is comprised of a chief, 10 commissioned officers, one night sergeant, two radio operators, one secretary, one clerk and two part-time employees. There are three radio-controlled patrol cars. In October, 1962, there were 6,240 cars registered to park on campus.

Tech Linksmen Meet UT At Meadowbrook

Texas Tech, in an effort to get back into the Southwest Conference golf race, engages the University of Texas here on Lubbock's Meadowbrook golf course today.

Tee-off time at Meadowbrook is 12:30 p.m.

Coach Jay McClure's linksmen, 4½-1½ losers to Texas Christian University here Monday, will also be motivated by a desire for revenge. Texas sports five lettermen from the squad that downed the Red Raiders 5-1 in Austin last year.

Texas Tech currently has a 14½-9½ standard. The Raiders lost to Texas A&M, knocked off Rice 6-0 and defeated Baylor 5-1 before dropping the match to TCU.

Texas' players will probably be Bill Munn of Midland, Randy Geiselman of Houston, Oscar Goode of Austin and Pat Thompson of Mission.

Texas Tech golfers for the match will probably be Bruce Dobie of Worcester, Mass., Richard Yates of Corpus Christi, Housty Brewer of Andrews and Jim Davidson of San Angelo.

Yates is Texas amateur champ, and lost his first-SWC match of the year to Jack Montgomery of TCU last week.

Tech Netters Challenge Rice, Texas In Important Matches

Texas Tech tennis players, in their next two matches, have a chance to influence the outcome of the Southwest Conference championship campaign.

In successive matches—against Rice University here Saturday and against University of Texas in Austin Monday—the Red Raiders tackle the teams currently sharing the lead.

Coach George Philbrick's netters, besides playing the role of potential spoilers will be out to guarantee or better their own third place position. Tech is 14-4 following wins over Baylor University 5-1 and Texas Christian University 6-0 and a split with Southern Methodist University 3-3.

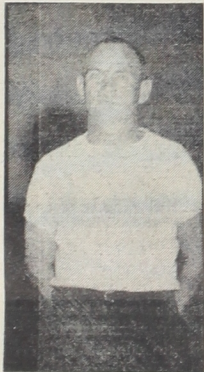

Raiders' netters will be Daryl Allison of Lubbock, Greer Kothmann of Junction, Beau Sutherland of Kerville and Robert Peterson of Wichita Falls.

Rice University is led by the 1962 Southwest Conference finalist in both singles and doubles, Fritz Schunck. The Owls, coached by Sammy Giamalva, are defending Southwest Conference team champions.

Last year Rice downed Tech 6-0, and the Longhorns battled the Raiders to a 3-3 draw.

A re-match of last year's SWC finals doubles match, won by Allison and Sutherland over Schunck and DeEdward Greer, has been virtually ruled out by re-pairings on both teams.

Matches, on the Varsity Courts, will start at 1:30 p.m. The public is invited free of charge, Coach Philbrick pointed out.

GEORGE PHILBRICK

Pics Down AFB, 20-12

Texas Tech's Picadors picked up their eighth win of the season Wednesday as they ran away from Reese Air Force Base, 20-12.

The game, which took three hours and twenty minutes to play, was called at the top of the ninth inning due to darkness. Tech slammed out 17 hits, as converted basketballer Dadid Schmidly picked up his first mound victory of the season. Schmidly pitched the first four innings and left the game with a 15-5 lead. In his four innings stint, Schmidly allowed only four hits, while striking out six and walking three.

The Picadors were led at the plate by second-baseman Buzz Henderson, who collected four hits out of five at bats. Jim Murrell and Ronnie Holly drove in the most runs with five RBI's apiece.

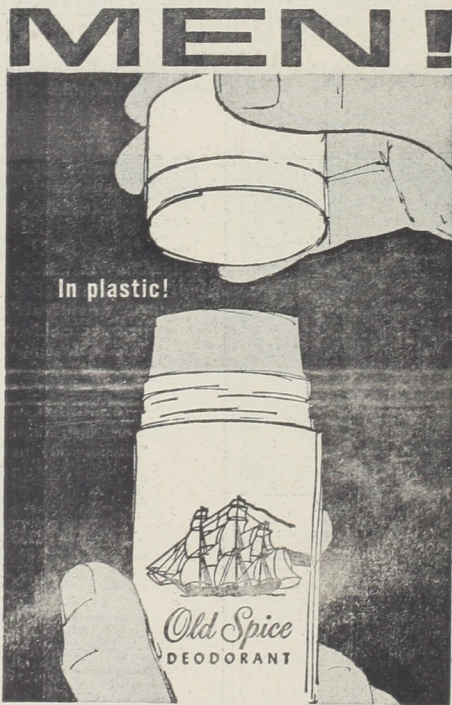

"FLORA-SCENT" makes The Perfect MOTHER'S DAY Gift

Raiders Visit Highlands Nine

Two improved baseball teams—Texas Tech and Highlands University—clash in a doubleheader at Las Vegas today.

Since Texas Tech posted a pair of wins, 5-2 and 3-0, here earlier this month, the Cowboys have won six straight and now are 10-10 for the season.

The Red Raiders have a three-game streak, and five of the six, going for them. Their only loss came at the hands of the Abilene Christian College nine. Other wins are the twin-killing of Highlands and a double victory over ENMU.

★ Sports Shorts ★

If a sports fan wants to stay busy here this weekend, he won't have much difficulty.

Touching off the crowded schedule was an NRA Rodeo, which begins at 8 p.m. Thursday. Other night sessions are carded for tonight and Saturday night. One is also slated for 2 p.m. Saturday afternoon.

★ ★ ★

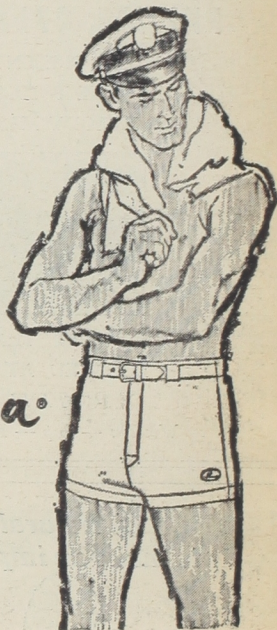

A football clinic gets underway at 2 p.m. today and continues through Saturday. It is being hosted in conjunction with the annual Red-White scrimmage and will include a barbecue tonight and sessions Saturday morning. Head Coach J T King and his staff are holding this clinic for high school coaches.

★ ★ ★

Starting at 1 p.m. Saturday will be finals in the Red Raider Relays, open to state track and field meet qualifiers. The strongest events prior to the start of the Relays appear to be the 100-yard dash, pole vault and high jump.
