

Holiday, Exams Finish Semester

Warnings Issued By DPS Head

The director of the Texas Department of Public Safety recently described the traffic situation in Texas as "critical" at mid-year and appealed to all motorists to make the July 4 holiday weekend the turning point away from a two-year upward trend in fatal traffic accidents.

Col. Homer Garrison Jr. announced that "Operation Motorcade" will be in effect from 12:01 a.m. today through 11:59 p.m. Sunday, in an effort to focus public attention on the added hazards of holiday road travel, and at the same time bring about continued safety consciousness among all drivers. During this three-day period, the DPS estimates that 32 persons will be killed in Texas traffic.

More Patrolmen

As part of this program, he said, additional patrolmen from the DPS License and Weight and Motor Vehicle Inspection Services will join the regular Highway Patrol force for the three-day holiday period.

Garrison added that numerous agencies, organizations and individuals will take part in "Operation Motorcade" in a coordinated attack on traffic accidents. For example, he said the Texas Safety Association will conduct a public information program stressing the need for courtesy and caution on a statewide basis and coordinate local safety council holiday safety emphasis programs.

Conduct Patrol

The Texas Council of Safety Supervisors and the Texas Motor Transportation Association will conduct a "Holiday Road Patrol" in which a fleet of 35 to 40 cars will be used over the state to assist stranded motorists and thus help to relieve highway patrolmen for more enforcement work.

And, the State Highway Department will conduct a continuing information and education program instructing drivers on freeway driving and the need for caution near construction areas.

Accidents Up

In a mid-year summary of the traffic situation in Texas, Garrison stressed that fatal accidents on the streets and highways are up about 14 per cent over 1963—which was the worst year in history for Texas traffic with 2,729 fatalities.

"If this trend continues through the rest of this year, traffic deaths will go over 3,000," he said. "We must break this trend toward ever-increasing fatal accidents which seems to have set in almost exactly two years ago. To do so, we must have public awareness of this dangerous situation and the full cooperation of everyone in saving lives and cutting down on injuries and economic loss."

Offers Ideas

To guard against these most frequent types of fatal mishaps, Garrison offered these suggestions:

- Be sure your equipment—tires, steering gear, brakes, lights, windshield wipers, etc.—are in proper working order at all times.
- Be sure the driver is in good physical and mental condition whenever he takes on the exacting job of driving a motor vehicle.
- Always be on the alert for unexpected actions of other drivers and for other hazards, such as slick pavement, pedestrians, construction areas, etc.
- Reduce speed before entering curves, not after, when it may be too late to retain control.

Seniors Prepare Last Step

With only a weekend break for the Fourth of July holiday, Techsians will buckle down on the books next week in preparation for finals and perhaps for graduation.

Final exams for the first summer session will get underway Thursday morning and are slated to end Friday. Monday is the last day to drop a course.

Seniors Pay

Monday is also an important day for seniors planning to graduate, as that is the last day the individual \$5 graduation fees can be paid at the Comptroller's Office.

Also, persons qualifying for graduation in August have until Monday to file a statement with the dean of their respective school notifying him of their intent to graduate.

Tuesday, July 28, is the last day for second summer session seniors to pay their \$5 fees and take care of pre-graduation necessities.

Session Starts

After exams Thursday and Friday, the second summer session will start July 13 with the 1:30 p.m. registration period.

Don Renner, assistant dean of admissions and registrar, said Wednesday that A & H forms for the second term are now available in the hall outside the Registrar's Office, and that it would speed up the processing of packets if students started filling them out as soon as possible.

However, the cards may be turned in to the Dean of Men's or Dean of Women's Office all through the registration period.

Registration will end the afternoon of the 14th, and classes will start at 7:20 a.m. July 15.

"No student may attend class the 15th unless he has completely finished registering," said Renner, "and this includes paying his fees. If a student sees that he cannot finish before booths and offices close, he should check with the Registrar's Office and explain his situation."

There will be no late registration.

Renner also warned students who were here during the last spring semester to be on the lookout for their registration packets for the next fall semester.

"All of the necessary cards for fall registration were sent to the students along with their parents' copy of their spring grades," he said. "Therefore, students should get these cards and return them before August 1 to insure being placed on the registration list in their scholastic order."

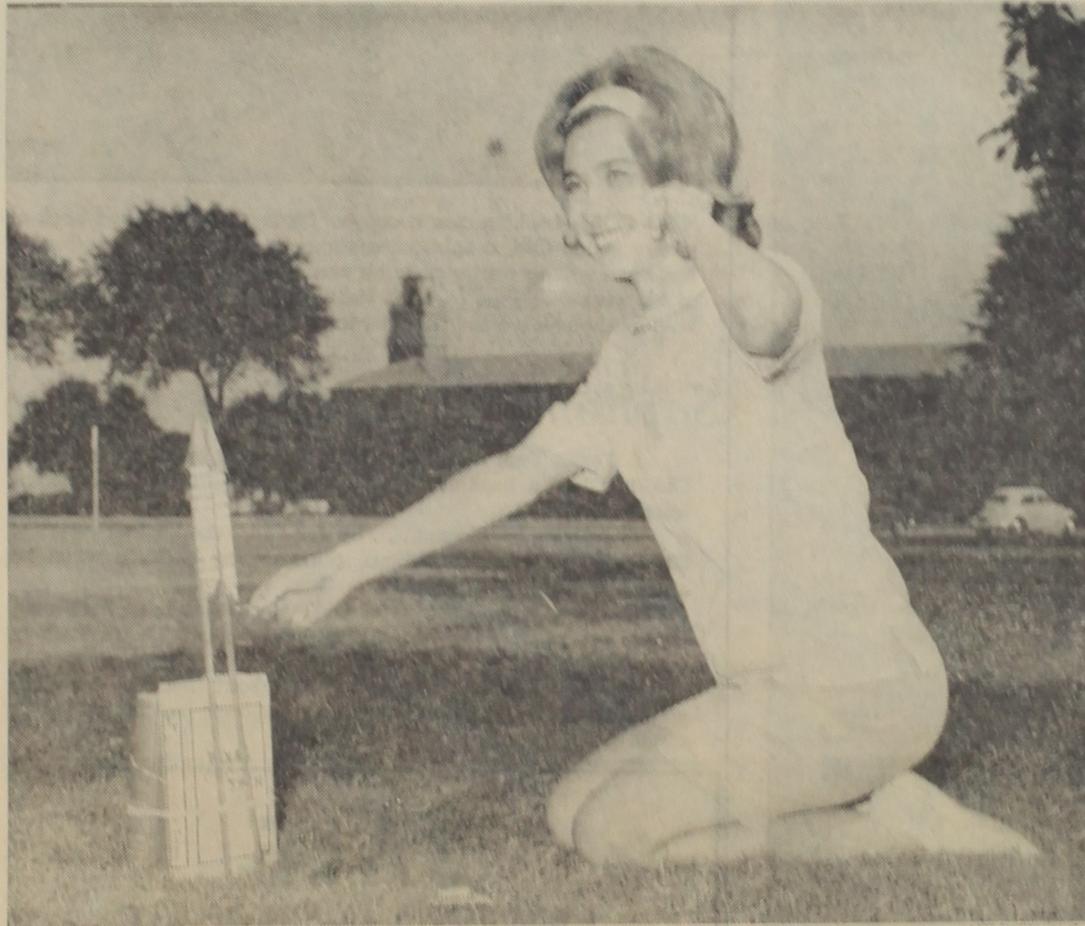

There will be no duplicate packets made up until the last day of fall registration, he added.

Music Camp Opens Here

The junior high and elementary string division of the Texas Tech Summer Music Camp begins Monday.

Registration for the elementary will be at 8 a.m., and at 9 a.m. for junior high. The camp will be held at the Music Bldg. on campus, and classes will be offered in theory, techniques of playing, section rehearsals and full rehearsals.

Recreation for the camp will include a skating party and a swimming party. A concert will be presented on the final evening, July 17, in the Tech Union Ballroom.

BLAST OFF—Patsy Raymond, freshman from Levelland, and one of Tech's flashy majorettes, prepares to put her books into orbit for the Fourth of July weekend. With the Fourth falling on Saturday, students will not get a real holiday but many of them will head for the outdoors leaving their studies behind.

New Twirlers, Majorettes Selected To Brighten Tech's 'Terrific 230'

Frances Whitley of Robstown, Vicki Keene of Lubbock and Claudean Terrazas of Big Spring will handle feature twirling assignments with the 1964-65 edition of Texas Tech's "go-in" band from Raiderland."

Miss Whitley, a freshman, will be featured twirler. She presently holds the Miss Corpus Christi beauty contest title. Misses Keene and Terrazas will be billed as a featured duet with Tech's "Terrific 230" marching band.

New Majorettes

In announcing the results of twirler competition held late in this past spring semester, band director Dean Killion named eight other Tech coeds as majorettes.

Carole Brashear, a Petersburg senior with three years twirling experience with the Raider marching band, was named head majorette.

The group's majorette line will

include juniors Juanna Jo Moore of White Deer and Roxie Ward of Lubbock, sophomore Cheryl Poteet of Olton, as well as freshmen Patsy Raymond and Judy Danner of Levelland, and Judy Stewart and Chris Adrean of Lubbock.

LCC Transfer

Misses Ward and Moore performed as majorettes with the band last year.

Miss Poteet, a transfer to Tech from Lubbock Christian College, currently holds the Miss Olton title. She has been a finalist in

several other beauty contests on the High Plains.

This next year will be the first time that the Tech band has had so many feature twirlers, although the three will work in two different groups, with Misses Keene and Terrazas doing the duet work and Miss Wiley working solo.

During the upcoming football season, the marching band will perform at all of Tech's home games, in addition to making out-of-town trips to Fort Worth and Houston.

Capt. Webb Reassigned To TAC Headquarters

Air Force Capt. James C. Webb, a veteran fighter pilot who holds senior pilot's wings, will soon leave the Texas Tech Air Force ROTC cadre for reassignment to Tactical Air Command Headquarters at Langley AFB, Va.

Capt. Webb's new assignment becomes effective July 31, 1964. He has been an assistant professor of air science at Tech since May, 1960, and has served as commandant of cadets during that time.

Michigan BA

The Air Force career officer is a native of Bryan. He received a bachelor of arts degree in economics from Michigan State University in 1952.

After graduating from the University, Capt. Webb was commis-

sioned an Air Force second lieutenant through the ROTC program. He then completed flight training and returned to Bryan AFB as an instructor.

At Tech, Capt. Webb has been active as sponsor of the Arnold Air Society, national Air Force ROTC cadet honorary. Under his direction the Tech chapter has become area headquarters for units in Texas, Oklahoma, Louisiana and Arkansas.

Shortly after joining the Tech cadre, Capt. Webb completed the Academic Instructors School at Maxwell AFB, Ala.

Capt. Robert Dyer, currently enrolled in the AIS course, will replace Capt. Webb. Dyer's previous assignment was at Yokota AB, Japan.

X-Ray Unit Visits Tech

The Lubbock County Tuberculosis Assn. will bring its chest X-ray mobile detection unit to the Tech campus next Tuesday, Wednesday and Thursday. The unit will be set up north of the Tech Union.

The unit will be operated daily for faculty, students and staff of the college, as well as county residents who come to the campus.

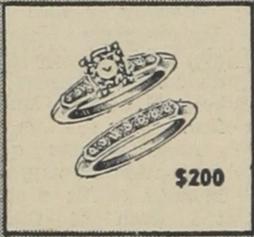

Last Toreador Today

Today's Toreador marks the final edition of the first summer session at Tech. The weekly paper will resume publication Friday morning, July 17. Any campus organization is invited to submit news for publication. Summer editor is Carolene English and Cecil Green is managing editor.

'OLD' POET—Looking over a copy of his recently published book of poetry is Joe Old, a Lubbock sophomore majoring in English. Old has been writing poetry since he was in high school and had some of his work published in the "Harbinger" literary magazine before he published his works in booklet form.

★ ★ ★ ★ ★ Sophomore Publishes Poetry

A Texas Tech sophomore English major from Lubbock, Joe Old, has had a booklet of original poems published and distributed.

Titled simply "Poems . . . by Joe Old," the booklet contains 20 of Old's selected creations, some dating back to when he started writing in high school.

The only other samples of Old's work that have been published before were in the spring "Harbinger," Tech's literary magazine.

The booklets with random poems about theology, criticism and other "ideas" are on sale in all Lubbock bookstores for 35 cents.

School Seeks 100 Teachers For Africa

Teachers College, Columbia University, is seeking American college graduates to prepare for teaching service in the secondary schools of East Africa.

The college has undertaken the recruitment, selection and training of the candidates at the request of the Agency for International Development of the State Department. The teachers are needed in Kenya, Tanganyika, Uganda and Zanzibar.

Need 100

The East African governments have requested more than 100 teachers in the fields of biology, chemistry, English, geography, history, mathematics and physics for employment beginning in the fall of 1964. To date, Teachers College has selected and trained some 400 teachers under this program.

Those interested are urged to apply immediately. Applicants must be United States citizens. Arts and science graduates and graduating seniors with no teaching experience but professionally trained, and certified graduates with no teaching experience and experienced teachers are all eligible to apply for the program.

To Get Training

Accepted candidates will receive training fellowships at Teachers College or Makerere University, Kampala, Uganda, or at both institutions. Upon completion of training, the teachers will receive two-year appointments as salaried education officers in East Africa.

Although preference in selection will be given to applicants who are single, married persons may apply and, if chosen, will receive travel allowances for dependents. However, it is not possible for both husband and wife to be employed with the project.

A brochure with details of the program can be obtained by writing to: Teachers for East Africa, Teachers College, Columbia University, New York, N.Y. 10027.

Union Presents Religion Panel

A panel discussion on "Liberal Religion" is offered by The Tech Union in a luncheon discussion at 12:15 p.m. Tuesday in the Blue Room.

Panel members are Houston Hodges, Ralph Macy, Dr. Arthur Draper and Dr. Winfred Steglich, moderator. Interested students should sign up at the Union newsstand by 10 a.m. Tuesday. Cost of the buffet style luncheon is \$1.

Home Ec Sets 3 Workshops

Two summer workshops are currently in progress at Texas Tech's School of Home Economics on campus.

A three-week workshop in color and design began Monday with 23 county home demonstration agents from Texas and New Mexico enrolled.

A workshop in home economics research methods began Wednesday conducted by Miss Phyllis Drake, associate professor of home and family life at Tech.

The College Workshop for Homemakers, expected to draw more than 200 participants, will begin here Monday.

Carrie Lou Chaney

Mary Broome

Senior, Grad Begin Training For Corps

Two Tech coeds, a senior and a 1964 graduate, will train in California this summer for service in the Peace Corps.

Carrie Lou Chaney, Crane, who received her B.A. degree in May has begun a two-month training program at the University of California at Los Angeles. Mary Broome, Lubbock, is participating in the newly-initiated senior year training program which begins July 13 at the University of California in Berkeley.

Miss Chaney, journalism major and assistant managing editor of the Daily Toreador, has been assigned to a post teaching English in secondary schools at Ethiopia. She will begin her two-year stint with the Peace Corps upon completion of her training in September.

Miss Broome, currently attending the first summer session here, is one of 100 college seniors over

the U.S. accepted for the senior year training.

Her schedule will include 10 hours of daily study including orientation and an introduction to several African languages. She will be teaching English and literature at the high school level when she completes her training following graduation.

She will return Sept. 5 and enroll for her senior year at Texas Tech. Miss Broome is a graduate of Lubbock High School. The English major is a member of the Student Education Assn. and Town Girls.

Peace Corps Gives Exam

Developing nations around the world are asking the Peace Corps for teachers, farmers, carpenters, nurses, engineers, and for Americans with many other skills.

To fill this need, the Peace Corps will give its regularly scheduled placement test in Lubbock at 8:30 a.m. July 11 in Room 16A of the Post Office Bldg., 800 Broadway.

Volunteers for the Corps must be American citizens at least 18 years old with at least the equivalent of a high school education. Questionnaires for the test are available at the Post Office.

Music Camp To Present Concert Today

Culminating two weeks of training at Texas Tech's Summer Music Camp, junior high and elementary band students from the West Texas area will present a combined concert for a stage band and three concert bands at 7 p.m. today in the Tech Union Ballroom.

The concert is admission free and open to the public, with 230 area band students participating in the program.

The Intermediate band, conducted by Everett Maxwell of Abernathy, will perform "Step Along March," Olivadoti; Kinyon's "Carnival for Trumpets" and "Carnival for Percussion;" and "Skaters Waltz" by Waldteufel.

The stage band, conducted by Jerry Bartley of Lamesa and Charles Barton of Lubbock, will present "Theme," Barton; "Richard Diamond," Rugulo; and "Rock Bottom," Brown.

The concert band, conducted by J. W. King Jr. of Hale Center, will perform "Pride and Progress March," Olivadoti; "Sun Valley Overture," Paulson; "Gaslight Gaities," Playhor; "Rumbah Mumbah," Bowles; "Celebration," Playhor; and "The Caissons Go Rolling Along," Ortone.

The Symphonic Band, conducted by Orland Butler of Lubbock, will conclude the concert with "United Nations March," King; "The King and I," Rodgers; "The Green Leaves of Summer," Tiomkin; "Waltzing Winds," Osterling; "Blue Tango," Anderson; and "March for a Festival," Akers.

Today's concert will end the band section of Tech's Summer Music Camp.

Ag School To Sponsor Annual Swine Course

Bob Green, Ainsworth, Iowa, hampshire breeder and commercial swine producer will headline the 16th annual Swine Short Course at Texas Tech Thursday.

The annual one-day event is co-sponsored by the Texas Swine Breeders Assn. and the Tech animal husbandry department.

In announcing the speakers for this year's short course, chairman Dr. Sam Curl, an assistant professor of animal husbandry at the College, said, "We believe that the one-day program we have planned will be both interesting and informative."

Green, as keynote speaker, will discuss "How I Handle My Dry Sows."

Of Green, Dr. Curl said, "He is widely known as an outstanding producer of both seed stock and commercial swine. We are indeed

fortunate that he has accepted our invitation to share his ideas and discuss his management experience at our short course."

This 16th annual short course will also feature a producer's panel of outstanding swine producers. Slides will be shown and management practices will be discussed.

Registration begins at 8:30 a.m. Thursday in the Tech Agricultural Memorial Auditorium. Dr. Ralph M. Durham, professor and head of the animal husbandry department, will preside over the morning session.

Littlefield commercial swine producer Jack Barton will preside over the afternoon's proceedings.

Speakers for this year's event include Green, Dr. Curl, Buddy Winter of Lubbock, Monte Griffin of Lamesa, Roy Poage of Slaton, and Jim Humphries of Dickens.

Associated Press Sports Feature

In thinking of the Texas High School Coaches Association, the first thing that comes to mind is the Texas coaching school.

The association has a membership of more than 4,250—largest organization of its kind in the world—and it derives most of its revenue from fees the coaches pay to attend the school, from exhibitors of sporting goods and from the all-star basketball and football games that draw as high as 6,948 and 22,358 respectively.

Good Profit

It is a going organization. Even a magazine what wasn't designed to make money, but to be its official organ for the membership's benefit, has been paying a profit of \$800 to \$1,200 a year.

The association, organized Nov. 28, 1930, has compiled a nice nest egg in bonds and is in excellent financial shape.

One may wonder what it does with its money except invest it and pay the expenses of maintaining an office staff in Austin. Well, much of the funds that come in go toward taking care of its own.

Gives Money

Over the years the association has paid more than \$32,000 in disability benefits.

An insurance plan was inaugurated in 1942. Forty football players per school come under it, all of whom must be given physical examinations before the policy is effective. Reports of injuries must be made within 30 days.

The plan obligates the association to pay the permanently and totally disabled football player \$1,000 for medical and hospital expenses.

But the association often goes beyond its obligation and pays the boy an additional amount, possibly so much per month for life, if the conditions warrant it.

So, when the next coaching school, scheduled for Fort Worth Aug. 2-6, draws a record attendance (it pulled 3,828 coaches last year at Houston and officials look for more than 3,900 at Fort Worth) it won't be taking in all that money just to sock it away in bonds and pay the small office staff.

Exam Schedule

The examination schedule for the first summer session final exams period has been released by the Office of the Registrar. The times and dates are as follows:

EXAM TIME	FOR CLASSES MEETING
Thursday, July 9	
7:30 - 10 a.m.	9 - 10:30 a.m.
10:30 a.m. - 1 p.m.	10:40 a.m. - 12:10 p.m.
1:30 - 4 p.m.	3 - 4:30 p.m.
Friday, July 10	
7:30 - 10 a.m.	7:20 - 8:50 a.m.
10:30 a.m. - 1 p.m.	1:20 - 2:50 p.m.

Requested changes in the schedule of individual students will be considered by the Dean of the School in which the student is registered.

Examination time for classes having both lecture and laboratory periods will be determined by time of lecture meetings to find corresponding examination period.

Grades Hit Freshmen; Six Ineligible To Play

Five "probable" Red Raider footballers and one freshman basketball star will miss varsity action this next year because of low grades.

The six are James Pool, Ferriday, La.; Danny Ellsworth, Dallas; Randy Hicks, Seminole; Arley Cook, Dangerfield; Charles Mitchell, Childress; and Bob Glover, Dallas.

All of the athletes will be red-shirted next year, with the exception of Pool, a transfer from a Louisiana junior college.

All of the others are freshmen who played on the Picador teams this last year.

Ellsworth was a halfback, Hicks an end, Cook a guard and Mitchell

a halfback. Cook also missed spring training with a leg injury and would have been red-shirted anyway.

Glover was the high-point scorer for the freshman basketball team last season, scoring 267 points in 11 games. He led the team in scoring with an average of 24 points per game.

All-Star Game Slated Tuesday

The annual major league All-Star Baseball Game will get underway Tuesday at Shea Stadium in New York, pitting the top players of the American and National Leagues.

AL manager Al Lopez of the Chicago White Sox is expected to start Whitey Ford, Dean Chance or Camilo Pascual on the mound, while NL manager Walt Alton of the Los Angeles Dodgers is thought to be ready with Sandy Koufax and Jim Bunning.

Old Feud Recalled

One of Ty Cobb's unending feuds with baseball's immortal Babe Ruth was recalled by Fred Haney, general manager of the Los Angeles Angels, in a recent magazine article.

In the late innings of a close game one day, Ruth came to bat with two outs and men on second and third. It was a situation calling for an intentional walk to Ruth. Cobb, managing the team from centerfield, waved to first base and the Babe relaxed.

But the first pitch sizzled over the plate for a strike, and Cobb bawled out his pitcher. The next toss was also a strike, and Cobb promptly fined his pitcher and catcher for disobeying orders.

Then, the new pitcher threw a third strike and left the Babe standing there with his bat on his shoulder. "Cobb had set the whole thing up in advance," said Haney. "It was one of the happiest moments of his life."
