

8' Ugliest Men' In Race

Who is the ugliest man at Tech?

This question will be answered this week by results of the Alpha Phi Omega-sponsored Ugly Man On Campus contest.

Eight men have entered in the title

competition this year. The contestants and their sponsors are Bob Bachman, Alpha Tau Omega; Mike Joplin, Delta Gamma; Jimmie Nelson, Alpha Epsilon; Joe Jefferson, Sigma Chi; Charles Fleming, Kappa Sigma; and Wick Alexander, Drane Hall.

Campus-wide voting will be held today through Thursday. Favorite candidates will be elected at one penny per vote. Voting booths have been set up in the Student Union, Administration Building and all dormitories.

The last vote of the contest will be cast Thursday night at the end of the third inning of an All-Star softball game. The winner will then be presented an Ugly Man mug, and a trophy will be given to the sponsoring organization.

Thursday night's game will be between the top players of the three intramural leagues on campus. The All-Stars will be picked by managers of the Dorm, Independent, and Fraternity league teams.

The Ugly Man contest is an annual Spring project of APO, national service fraternity. Dibrrell Stowell, APO president, announced that proceeds from this year's contest will be added to the \$280 collected last year to finance the building of bleachers for the lighted softball diamond.

Sitterly Named Arnold Air Commanding Officer

Lewis Sitterly will take office Thursday as commanding officer of the Lewis C. Ellis Squadron of the Arnold Air Society.

He was elected at a meeting Thursday night. Retiring commander is Walter R. McDonald.

Registration - Here's How:

Details for the new pre-registration procedure for juniors and seniors were released today by Warren G. Harding, assistant registrar.

According to the non-compulsory procedure, pre-enrollment for the fall semester will be held April

30 through May 5. Students may pick up registration materials from the table in front of the Registrar's Office beginning at 3 p.m. on the day preceding their scheduled registration date.

Alphabetical grouping for registration will be as follows:

Students whose last names begin with:

A, B, F, J, Q, V, register on Monday, April 30.

M, R, L, U, X, Y, Z, register on Tuesday, May 1.

C, D, G, P, register on Wednesday, May 2.

H, E, K, N, O, T, register on Thursday, May 3.

I, S, W, register on Friday, May 4.

Stragglers register on Saturday, May 5.

Those scheduled to register on April 30 may obtain registration forms after 10 a.m. on Saturday, April 28.

Fall class schedules will be handed out to pre-enrollees, but will not be available to other students until summer.

Freshmen and sophomores will continue to register as in the past - the new method was set up for the convenience of upperclassmen and to reduce the heavy registration load next fall.

Look Out, Men: Women's Day Is Around Corner

Women's Day, the day that all Tech coeds wear white, is just around the corner.

May 1 has been designated Women's Day this year by the Association of Women Students. An election for AWS Woman of the year will be held all day, and the winner will be announced at a Women's Day Banquet to be held in the Union Ballroom at 6 p.m.

New members of women's honorary fraternities will be introduced at the banquet along with new dormitory legislators. Special awards for scholarship and leadership recognition will be given by various organizations. AWS officers for 1956-57 will be installed.

Banquet tickets are \$1.50 and may be purchased from an AWS council member. Approximately 600 girls attended the affair last spring.

Sylvia Young and Ann Moffitt are in charge of planning the banquet. Working on publicity are Eileen Jacobson, Jean Elliott, Joan Abel, and Pat Stooksberry. Serving on the committee for decorations and program are LuAnne McNeill, Karen Campbell, Margaret Gibson, Carolyn Reynolds, and Joan Roberts.

Foreign Study Expert To Speak

Mrs. Alice Pratt, assistant director of the Institute of International Education, will address diners at Cosmopolitan Club's second international dinner at 7 p.m. Saturday in the First Christian Church.

A special menu of dishes popular in France, Switzerland, Hungary, India and the Middle East will be featured at the banquet. Dishes will be prepared by club members.

The Institute of International Education, a private agency, is currently assisting approximately 4,000 persons to study in a country other than their own. Mrs. Pratt has been with the Institute since the organization of its regional Southwest office in 1952.

The speaker is concerned with campus and community programs for international students. She visits colleges in the Texas-Arkansas-Louisiana area during each academic year.

LIMIT: ONE! says radiant Judy Hatfield as she receives congratulations after being named 1956 Army ROTC Queen at Tech. The Dallas beauty was chosen over 15 other candidates Saturday night at the Army's Military Ball. Miss Hatfield is an Arts and Sciences freshman. The lucky cadets are, left, Cadet Lt. Reinier Voute, Business Administration sophomore, and Cadet Col. Ellis Huddleston, Agriculture senior, who crowned the new Queen.

Chimes To Announce Forum Tapping Soon

Tapping for Forum, senior women's honorary organization, will be held on an unannounced date between now and May 1, it was revealed today by Forum Vice President Marilyn Sneathen.

The event, during which new members of the highly selective organization are chosen, will be announced by playing of the Matarador Song on chimes from the Administration Building tower. At this time, a procession of Forum members will file to the class of each girl elected to membership and place a symbolic black collar around her neck. The new member will then join the professional.

Forum is the Tech equivalent of Mortar Board, national honor so-

ciety, and membership is considered the highest honor that can be given women students here, said Miss Sneathen. Members are chosen for outstanding qualities of scholarship, leadership and service to the college, she added.

Forum's history goes back to 1927 when it was established by Mrs. Mary Doak, then Dean of Women. The group is now petitioning to become affiliated with Mortar Board.

Panhellenic Plans Annual Workshop

Sorority officers for the 1956-57 school year will participate in the annual Panhellenic Workshop of the Tech Panhellenic Association Saturday in the Union Ballroom from 10 a.m. until 3:30 p.m.

Mrs. E. Richard Heineman, City Panhellenic President, will present the opening address, followed by a luncheon and discussion groups.

The Workshop will be divided into discussion groups according to chapter positions and participants will discuss problems and topics pertaining to their office.

Delegates will be sorority presidents, pledge trainers, scholarship chairmen, social chairmen, senior and junior Panhellenic delegates, chapter alumnae advisors, and alumnae counselors for fall rush.

Chairman of the Workshop Committee is Julia Reed, Pi Beta Phi. Others are Ruth Ann Cummings, Program, Zeta Tau Alpha; Jackie Brooks, Arrangements, Delta Gamma; Dana MacNaughton, Luncheon, Alpha Chi Omega and Joan Knight, Publicity, Gamma Phi Beta.

Panhellenic Advisor is Jacqueline Sterner, Assistant Dean of Women.

SC SLATE FILLING WITH THIRD RUN-OFF AHEAD

Tech's Student Council for 1956-57 should be completed tomorrow when the third election is held to pick representatives to the governing body. Two representatives from Arts and Sciences and one from Agriculture will be selected.

Candidates for the Arts and Sciences positions are Dan Creson, Joan Knight, Wayne James, Dan Law and Mary Ellen Carr.

Agriculture's two candidates are Jim Cloyd and Richard Ligon.

Executive officers and most cheerleaders were picked in a general election two weeks ago. A run-off was held last week to choose most of the council's representatives.

Pi Phi, SAE Sing Way To Inter-Fraternity Win

Pi Beta Phi sorority and Sigma Alpha Epsilon fraternity received first place trophies in Tech's Inter-Fraternity Sing Saturday night.

Second place winners were Kappa Alpha Theta Sorority and Phi Gamma Delta fraternity.

The winners were announced after performances by sixteen Greek letter organizations before an overflow audience in O. L. Slaton Junior High auditorium.

James Carthel, president of Phi Mu Alpha Sinfonia, sponsoring music fraternity, was master of ceremonies.

Dressed in white formal and carrying red carnations, members of the winning sorority sang "People Will Say We're In Love" and a medley of two sorority songs, "Speed Thee My Arrow" and "My Pi Beta Phi Girl." The group was conducted by Marilyn Jenkins and accompanied by Don Armstrong.

The winning fraternity sang "The Ballad of Roger Young" and a Sigma Alpha Epsilon medley. Bob Wham was conductor.

While judges were deciding on winners, Phi Mu Alpha Glee Club sang several numbers.

Judges for the event were Robert Michner, co-ordinator of music in Midland Public Schools; Robert Clinton, choral director in Snyder Public Schools; and Robert Elson, vocal instructor at Tech.

This was the second consecutive win for Phi Beta Phi.

Peace Or WW III Final Vital Issues Topic

"The greatest single problem that confronts our complex age is the spectre of World War III," according to Dr. Lawrence L. Graves, assistant professor of history, who will conclude the final vital issues lecture next Tuesday. His topic will be "Can World War III be Prevented?"

"We who are at Tech, either as teachers or students must do our utmost to promote a generation of responsible leaders in international affairs so that we may deal intelligently with the problems of peace in a nuclear age," he stated. Dr. Graves will speak at 8 p.m. in the Union Ballroom Lounge.

Now completing his first year at Tech, Dr. Graves received degrees at the University of Missouri, the University of Rochester and the University of Wisconsin.

He served as an artillery officer in both World War II and the Korean War.

The purpose of the Vital Issues Lectures, pre-

sented by the Lectures and Debates Committee, is to present to Tech students and faculty, facts, issues and alternative policies on vital issues in order to promote a better understanding of current times.

There have been two other lectures this year. The first was given by Dr. Ivan Little, associate professor of philosophy, on Christian faith and scientific thought. Dr. Little pointed out the problem of communication of ideas which produced the conflict and stressed the need for a new metaphysical system to solve the conflict.

The second lecture was titled "Our Society: A Projection," and was delivered by Dr. William Pearce, head of Tech's department of history. He reviewed prominent social trends in American society and carried the trends to a logical conclusion, stressing the growth of materialism and the prominent role to be played by women in the future.

FOOD SERVICE COUNSEL PLANS WEDNESDAY MEET

An organizational meeting of Tech's new Food Service Counsel will be held at 4:30 p.m. Wednesday in the office of Miss Shirley Schulz, director of food service.

The newly formed council, made up of representatives from each Tech dormitory, will discuss methods of improving food service in the wake of a series of "food strikes" in several dorm dining halls.

TOREADOR

The Toreador, student newspaper of Texas Technological College, is published each Tuesday and Friday on the campus at Lubbock by the associated students of the College, and is financed by student activity fees, advertising, and subscriptions.

Are you playing the right Spalding ball?

For the low handicapper, Spalding's new high-compression AIR-FLITE® offers maximum distance. The exclusive DURA-THIN® cover withstands scuffing and bruising far longer. \$14.75 doz., 3 for \$3.75.

The Spalding KRO-FLITE® couples distance with superb durability. The tough cover will stand up under surprisingly rough treatment and the ball stays round, white and puttable. \$14.75 doz., 3 for \$3.75.

The Spalding OLYMPIC® is a medium-priced ball with a very tough skin. It combines exceptional wearing qualities with a playability usually associated with higher-priced balls. \$11.40 doz., 3 for \$2.85.

Many golfers choose the Spalding HONOR®. Popularly priced, it offers good durability and playability. Like all Spalding balls, it features True Tension winding for extra resilience. \$9.00 doz., 3 for \$2.25.

Get economy and quality in this golf ball. Spalding's VICTOR® is an "economy" ball with plenty of distance. The extra-thick cover promises great durability. \$7.00 doz., 3 for \$1.75.

Fraternity Dance Has French Theme

Old French-style grill work of wrought iron and glowing street lamps created a fascinating background for Sigma Alpha Epsilon's annual "Basin Street" dance Friday night at the Hotel Lubbock.

The ballroom was transformed into a typical French Quarter night club for the gaily-costumed members and guests who brought a touch of old New Orleans to Lubbock.

During intermission, members of the national Greek letter fraternity serenaded two girls recently pinned to SAE members. Serenaded were Jill Merchant of Sweetwater, pinned to J. D. Snyder; and Janis Blair of Texas Christian University in Fort Worth, pinned to Joe Roberson. Bouquets of roses were presented to the girls.

Zeta Tau Alpha Retreat Held

Gamma Tau Chapter of Zeta Tau Alpha had a retreat at Ceta Canyon Saturday and Sunday.

During the two-day retreat, the group had committee meetings, discussions and reports, and a Sunday morning devotion.

Chairmen of committee meetings held Saturday night were Reita Martin, social chairman; Jean Ann Whitehouse, standards chairman; Averill Brinkmann, pledge trainer; Joyce Wright, Big-Little Sister chairman; Sandra Spellman, activities chairman; and Sarah Compton, scholarship chairman.

Pi Kappa Alpha Selects Judy Harms Gardenia Girl

Judy Harms, Business Administration major from Dallas, is the Pi Kappa Alpha Gardenia Girl for April. Cal Mitts presented her with a gardenia at the fraternity party Sunday at Mackenzie Terrace.

IT'S LATER THAN YOU THINK!

All year long you've been promising yourself to go there. Now summer vacation is just around the corner and you still haven't set foot in the place. Shame on you!

But it's not too late. Right now, this very minute, before you weaken, lift up your head and forward march to the place you have been avoiding ever since school began. I refer, of course, to the library.

Now here you are at the library. That wasn't so bad, was it? Of course not! Go inside. What do you see? A sign that says "NO SMOKING." Go outside. Light a Philip Morris. Smoke. Go back inside.

Because now you are ready. Now your trembling resolution is rigid. Now your pulsing psyche is serene. You have been gentled by gentle Philip Morris. You have been tranquilized by a smoke that dotes and pampers and caresses, that lifts the fallen, repairs the shattered, straightens the bent, unravels the knotted, rights the askew, and fastens the unbuttoned.

In the center of the library you see the main circulation desk. Look in the card catalogue for the number of the book you want, write the number on a slip, and hand it to the efficient and obliging young lady at the desk. The efficient and obliging young lady then gives the slip to an efficient and obliging page boy who trots briskly back into the stacks, curls up on a limp leather encyclopedia, and sleeps for an hour or two. Then, puffy but refreshed, he returns your slip to the efficient and obliging young lady at the desk, who tells you one of three things: (a) "Your book is out." (b) "Your book is at the bindery." (c) "Your book is on reserve."

Having learned that the circulation desk hasn't the least intention of ever parting with a book, let us now go into the periodical room. Here we spend hours sifting through an imposing array of magazines—magazines from all the far corners of the earth, magazines of every nature and description—but though we search diligently and well, we cannot find *Mad* or *Confidential*.

Next let us venture into the reference room. Here in this hushed, vaulted chamber, we find the true scholars of the university—earnest, dedicated young men and women who care for only one thing in the world: the pursuit of knowledge.

Let us eavesdrop for a moment on this erudite couple poring over heavy tomes at the corner table. Hush! She speaks:

SHE: Whatcha readin', hey?
 HE: "The Origin of Species." You ever read it?
 SHE: No, but I seen the movie.
 HE: Oh.
 SHE: You like readin'?
 HE: Naah.
 SHE: What do you like?
 HE: Hockey, licorice, girls, stuff like that.
 SHE: Me too, hey.
 HE: You pinned or anything?
 SHE: Well, sort of. I'm wearin' a fellow's motorcycle emblem... But it's only platonic.
 HE: Wanna go out for a smoke?
 SHE: Philip Morris?
 HE: Of corris!

And as our learned friends take their leave, let us too wend our way homeward—a trifle weary, perhaps, but enlightened and renewed and better citizens for having spent these happy hours in the library. Aloha, library, aloha! ©Max Shulman, 1956

The makers of Philip Morris, who sponsor this column, could write volumes about the gentleness of today's Philip Morris, but we'll only tell you this: Take a leaf from our book. Enjoy Philip Morris.

SC Divides

By JOAN ABEL
 (This is a series designed to show the various ways in which the student body is divided. Previous articles will discuss student organizations, A.S.U. and intercollegiate activities.)
 How are such school activities financed? How do the recent home economics and engineering departments pay for their out-of-town trips?
 The Tech Student Council received 7.08 per cent of student activity fee. This amount was allotted \$5.39 in Tech divided among campus organizations dependent on the sale of student books for their operation.
 The Home Economics Department receives 4.41 per cent of the student council all for use in financing the open house, to pay expenses of student delegates to Home Economics conventions for a forenoon scholarship, and award to the outstanding man each year. This year he received \$287.70.
 The student engineering department received 16.18 per cent of the student council allocation which amounts to \$872.12 this year. Tech

SC Divides 7.08 Percent Of Activity Fee

By JOAN ABEL

(Third in a series designed to explain Tech's \$21 non-compulsory activity fee, this article discusses the Student Council's allocation. Future articles will deal with other subsidized activities. A.S.)

How are such school affairs as the recent home economics open house and engineering show financed? Who pays for Religious Emphasis Week? How do the agriculture teams meet expenses for their out-of-town judging trips?

The Tech Student Council received 7.08 per cent of the \$21 student activity fee. This year the council was allotted \$5,390, which it then divided among thirteen campus organizations dependent on the sale of student activity books for their operation.

The Home Economics Department receives 4.41 per cent of the student council allocation for use in financing the annual open house, to pay expenses for student delegates to Home Ec conventions, for a foreign student scholarship, and for an award to the outstanding freshman each year. This year Home Ec received \$237.70.

The student engineering show is financed by 16.18 per cent of the council allocation which amounted to \$872.12 this year. Tech's cam-

pus radio station, KTTC, is allotted 3.31 per cent by the student council. This year office and engineering expenses, records, and intercollegiate broadcasting system dues were paid by \$178.41 from the activity fee sale.

The Student Religious Council, which sponsors Religious Emphasis Week, receives 1.47 per cent of the student council allocation. The SRC portion amounted to \$79.24 this year.

The same percentage, 1.47, is allotted to the Association of Women Students each year. This money, in addition to yearly dues paid by women students, helps finance Dad's Day, Women's Day, a Howdy Party for women students each fall, the printing of Tech Tips, and a reception for women students entering Tech the second semester.

Also, 1.47 per cent of the council allocation is given to the Tech International Relations Club. The IRC in turn helps finance community ambassadors.

The Agriculture judging teams receive 22.79 per cent from the student council for numerous judging trips each year.

"While the money for judging teams affects directly only a very

small group of Techsans, the entire student body benefits from the national and international recognition which the teams bring to the Tech campus in their judging victories," explained Don Brice, Student Council business manager.

Various departmental organizations in the Engineering division receive 3.68 percent of the student council's allocation, which this year was \$98.36. The money is mainly used to send engineering students to meetings and conventions in which they represent Tech.

Tech dramatic teams received \$316.94, or 5.88 per cent from this student council allocation this year. They used the money to present speech plays, which included publicity, costuming, hair-styling, make-up, and stage properties. Students holding activity books may see the speech plays free, while others must pay an admission price.

Also in the speech department, Forensics are allotted the same percentage by the student council. This \$316.94 affords Tech students an opportunity to participate in on-campus and intercollegiate speech activities; to represent Texas Tech in these activities.

The Tech choir and other

'Drane Drag' On Tap At 7 Tonight

choral organizations receive 6.62 percent, or \$356.83, for over sixty public appearances throughout the state during the year. The choirs also serve as publicity agents for Tech.

The student council gives 1.47 per cent of its allocation to the Saddle Tramps, men's service organization, for staging bonfires, pep rallies, goal post decorations, mimeographing school songs and yells, and sending telegrams to the Red Raiders at out-of-town games.

The student council keeps only 25.37 per cent of its activity fee allocation for running the student government on the campus. In addition to financing homecoming, helping to sponsor the annual Varsity Show, and sending delegates to Texas Intercollegiate Student Association conventions, the executive officers' salaries are paid from the student activity fee. The president receives \$45 monthly; vice president, \$30; business manager, \$20, and secretary \$15. A council secretary-typist receives 75 cents per hour.

"Due to a small sale of student activity books last fall, some organizations didn't receive as much as they needed to operate," said Don Brice, council business manager. "However, an estimated \$700 from the spring sale of activity books is in the process of being distributed to these organization, and this allocation will carry most of the groups over this year," he added.

Tonight at 7 o'clock in the dining room of Drane Hall an event to raise money for the dormitory fund will be held.

This event, the "Drane Drag," will feature the "Eight Freshmen." Members of this all-girl orchestra are Marihelen Jones, clarinet, Barbara McDougal and Sue Young, saxophones; Ann Brasher, piano; Barbara Bodenhammer, drums; Patt Cassidy, accordion; Mary Tod Sharrod, trumpet; and Gail Williams, bass.

Members of the chorus line who are being coached by Lucinda Birtciel are Leah Lewis, Peggy Miller, Peggy Malinak, Lane Walker, Margie Gallaher and Diane Wilson.

In addition to the entertainment and dancing, free homemade cake and punch will be available. Admission to the dance is 75 cents stag or couple.

HITCHCOCK THRILLER LAST FOREIGN MOVIE

"The Lady Vanishes" a British film, has been announced as the final foreign movie of this semester, according to Sylvia Young, Union movie committee chairman. The film will be shown Thursday night at 7.

The movie has been designated as movie director Alfred Hitchcock's "most famous thriller." It stars British actors Margaret Lockwood, Michael Redgrave and Dame May Whitty. It is the story of the mysterious disappearance of an elderly woman from an express train.

A Campus-to-Career Case History

Dick Walsh (right) discussing carrier equipment which will provide many additional long distance circuits out of Philadelphia.

"There's opportunity in a growing company"

As an Engineer in the Transmission Section of Bell Telephone Company of Pennsylvania, Richard M. Walsh plans for the future.

"Our group's responsibility," says Dick, "is to see that we have sufficient facilities to handle present and future needs. Telephone usage is growing every year, and we keep up with this growth by keeping ahead of it.

"For instance, to meet the increasing demand for communication circuits in our area, we're adding 70,000 new channel miles this year alone, at a cost of \$3,500,000. Laying new cable will give us 40,000 of those channel miles, and we'll get the other 30,000 through use of carrier equipment, which lets us send a

number of long distance calls on each pair of wires simultaneously.

"Thus, though a cable might have only 300 pairs of wires, we can, with carrier, make it carry over 3000 telephone calls at one time. Using carrier equipment to get extra circuits out of cable—which is expensive to make and lay—is an example of how we engineer to give high-grade service at the lowest possible cost.

"Before I graduated from college I had interviews with twenty-eight companies. Out of all these I chose the telephone company because it had the most to offer in the way of interesting work, training and opportunity. This certainly turned out to be true. In a growing business your opportunities grow, too."

Dick Walsh graduated in 1953 from the University of Delaware with a B.S. in Mechanical Engineering. There are many interesting career opportunities in other Bell Telephone Companies, and in Bell Telephone Laboratories, Western Electric and Sandia Corporation. Your placement officer can give you more information about all Bell System Companies.

It's a pleasure to get to know OLD SPICE AFTER SHAVE LOTION. Each time you shave you can look forward to something special: the OLD SPICE scent—brisk, crisp, fresh as all outdoors... the tang of that vigorous astringent—banishes shave-soap film, heals tiny razor nicks. Splash on, OLD SPICE—and start the day refreshed!

Add Spice to Your Life... Old Spice For Men

SHULTON New York • Toronto

Duncan, Bentley Shine In Drills

No one is likely ever to make Texas Tech fans forget Walt Schlinkman, but a pair of bruising fullbacks from the same Panhandle area may bring back memories in the intra-squad game here Friday night.

In early sessions Wellington's Doug Duncan has been a consistent ground gainer, and Panhandle's Gene Bentley has been using his heft and sprinter's speed to advantage.

Dumas was the home of Schlinkman, who still holds Tech rushing records. On the books are his one-season mark of 871 yards set in 1945 and a one-game mark of 206 yards established against Creighton in 1942. Schlinkman's most spectacular performance was probably his feat against Texas Christian in 1945 when he gained 130 of Tech's 136 yards and scored both touchdowns in a 12-0 Raider victory.

Duncan, a five-foot 11, 190-pounder, was kept out of action

last fall because of a knee operation, but he has regained the form that averaged 100 yards a game for Tech's 1954 freshmen.

ACC, WTSC Play Tennis Here

Texas Tech's netters meet Abilene Christian College here Thursday and West Texas State here Friday.

The ACC match, postponed from last weekend, will be Tech's first outing since defeating Texas A&M 4-2. George Philbrick's Raiders took earlier decisions over ACC and West Texas.

His final season at Wellington he made second team all-state playing for a former Tech athlete, Maxey McKnight.

Bentley, kept out last year with injuries, now weighs nearly 240 pounds. That weight, however, hasn't had a lot of effect on his speed, which in track meets his senior year kept him within 10 yards of Olton's Frank Daugherty in the sprints. Boyd Williams was his coach at Panhandle.

Both just may wind up on the same team in the intra-squad game Friday night, for running behind Duncan, a notch ahead of Bentley, is Billy Joe Gray, 190 lbs, of Nashville, Tenn., who saw considerable action for the Picadors last fall.

Three High School Players Accept Texas Tech Football Scholarships

Three Fort Worth footballers and an Amarillo griddler are among athletes accepting scholarships from Texas Tech, Coach DeWitt Weaver announced Monday. In the group are end Eddie Bloomfield, 195, of Polytechnic High, back Freddie Arnold, 176, of Technical High, and an Arlington Heights lineman, David Slack, 205.

Slack, who played end, guard, fullback, and tailback, made the third all-state team.

Tommy Pace, 195, 6 foot 4 end, twice made all-district for Amarillo High School. He is the second member of last year's Golden Sandie eleven to decide on Tech. Already announced was fullback Jimmy Allison.

7 Raiders To Miss Intra-Squad Game Friday

Two Texas Tech players hurt in early practice sessions have been pronounced ready for action in the Red Raiders' intra-squad game here Friday night.

Once more in the lineup are halfbacks Charles Dixon of McCombs and Jimmy Knox of Graham. Still counted out are ends Jimmy Clark of Sundown and Reese Washington of Whiteface, tackle Harold Goodson of Childress, center Ray Gressett of Artesia, N.M., quarterback Wick Alexander of Amarillo, and halfbacks Milton Vaughn of Littlefield and Hugh Fewin of Burkburnet.

Coach DeWitt Weaver has named coaching assignments for the full-fledged game, but team rosters will not be made up until Wednesday. Bud Sherrad, assisted by Junior Arterburn, will run the Red team, while Beattie Feathers, helped by Red Phillips, coaches the Whites. Tom Hamm will work with both teams.

Weaver said he was extremely pleased with the showing, particularly on defense, at Saturday's scrimmage.

Don Williams of Graham, making a strong bid for starting quarterback, turned in the best run of the day on a 70-yard punt return. He was cleared when all-conference guard Hal Broadfoot of Clyde took out two defenders with one block.
