

Student Finds Bomb At UT

AUSTIN (AP)—A homemade bomb was found in the doorway of a University of Texas sorority house Monday night, starting a police investigation into the third such incident here recently.

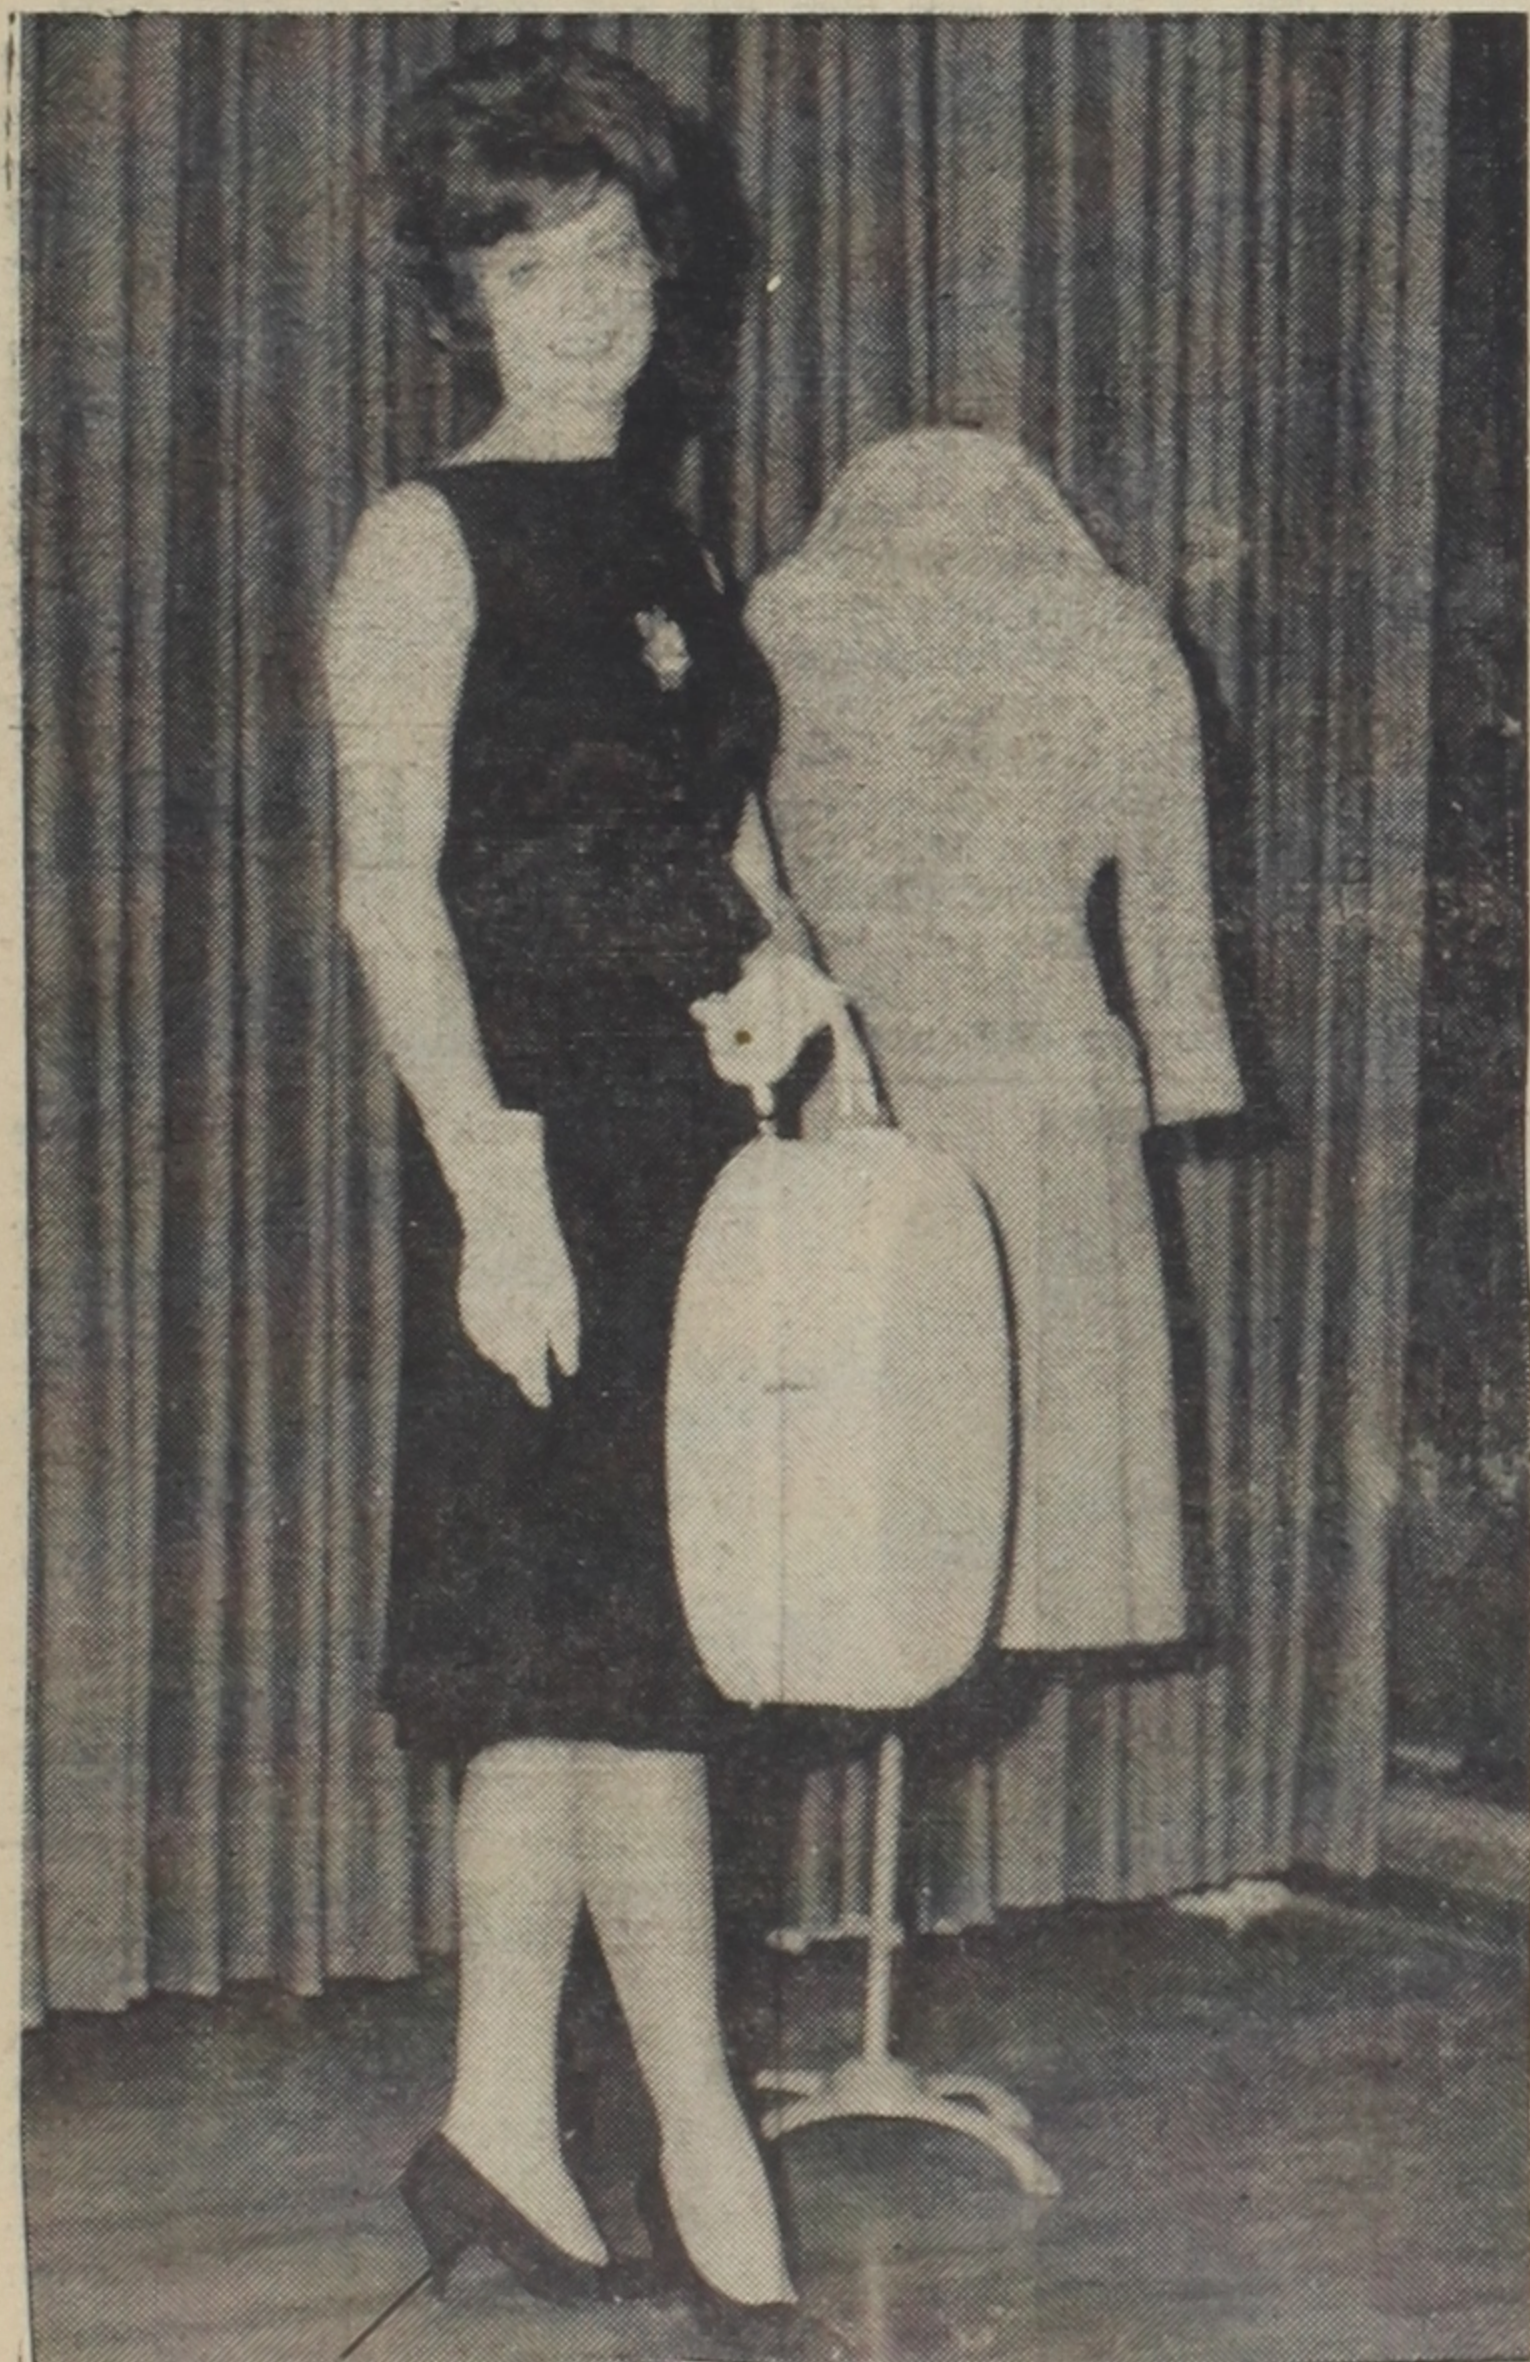

Police said the explosive's fuse was knocked out by Charles Carlisle, a graduate student who was returning his date to the Delta Zeta house around 10:30 p.m.

Best Dressed Coed Named

Judges Pick Clarie Adamson; Carolyn Barre Places Second

By GRETCHEN POLLARD
Assistant Society Editor

BEST DRESSED COED—Clarie Adamson, Abilene sophomore, was named "Best Dressed" Tech coed Tuesday night at the annual Theta Sigma Phi contest. Miss Adamson was picked from a field of 16. Carolyn Barre was runner-up. —Staff Photo by Charles Burdsal

The crowd was hushed. The judges marked their ballots after much deliberation.

The name of Tech's Best Dressed Coed was announced—"Miss Clarie Adamson."

This took place at the Coronado Room of the Tech Union Tuesday night when Miss Adamson, Abilene sophomore, was named Tech's Best Dressed. Miss Carolyn Barre, Yoakum junior, was named alternate.

THE FASHION competition featured 16 Tech women, who modeled in three categories—on-campus attire, off-campus daytime ensembles (luncheon and tea wear) and cocktail clothes.

Miss Adamson and Miss Barre were selected in the semi-final judging along with Miss Judy Fite, Dallas freshman sponsored by Zeta Tau Alpha; Miss Linda McIntosh, Fort Worth senior sponsored by Delta Gamma; and Miss Sarah Williamson, Dallas junior sponsored by Alpha Phi.

"I DON'T KNOW what to say," Miss Adamson exclaimed as she was called on stage as the winner. "I've never been anything before!"

The blue-eyed brunette was sponsored by Delta Delta Delta sorority. She wore as her campus ensemble a charcoal gray tarpoon cloth shift jumper, accented with white stitching. Worn with the jumper was a white long-sleeved Oxford cloth blouse with a round collar.

MAKING HER SECOND appearance before the judges, the fashion minded Tech coed wore an outfit of dull olive green silk broadcloth, three-quarter-length sleeves and a soft pleated collar.

Miss Adamson is an elementary education major, minoring in English. She is a member of the Student Education Assn. and Pre-Law Club.

MISS BARRE, RUNNER-UP, wore three choices from her wardrobe in basic colors—paprika red, charcoal gray and white and black. She was sponsored by Doak Hall and was selected in 1962 as Miss Wool of America. The brown-eyed blonde is majoring in English and hopes to teach on the secondary level.

Judges for the contest, which was sponsored by Theta Sigma Phi, women's honorary journalistic society, were fashion co-ordinators Bill Childres of Dunlap's; Vera Shahan of Vera's Sportswear and H. D. Cambell of the Robert Spence School of Charm. Student judges were Theta Sigma Phi members, Ann Balzer and Alayne Kornbleuh.

TALENT WAS PROVIDED by winners of Raider Rambles, Ann and Jo Ann Reed. Freda McVay of Tech's Information Office, was emcee.

Miss Adamson said she had had previous modeling experience at a charm school.

THE BEST DRESSED WOMAN of Tech will receive a two-week trip to New York where she will compete in the national contest. She also will appear in a full page picture in the 1963 La Ventana.

Troops From Cuba

Russia Withdraws

WASHINGTON (AP) — The Kremlin has told President Kennedy it plans to pull several thousand more Soviet troops out of Cuba by March 15, U.S. sources said Tuesday.

The renewed Soviet assurance of military withdrawal from Cuba reportedly arrived Monday in a diplomatic message handed to the State Department by the Soviet Embassy here.

Message Confirmed

Its general content was confirmed Tuesday by Sen. John Stennis, (D-Miss.), one of a group of congressional leaders of both parties who were summoned to a hastily arranged meeting with the President at the White House Monday night.

Stennis, who is chairman of a Senate subcommittee on preparedness, told a reporter the message from Moscow had been discussed by Kennedy at the secret 40-minute White House session.

Word Withheld

General word of the message was withheld until Tuesday, when it was first disclosed by diplomatic informants.

The continued presence in Cuba of an estimated total of 17,000 Soviet troops and technicians has been of major concern to the Kennedy administration and a prime target of congressional and other critics of Kennedy foreign policy.

Main U.S. focus has been on the approximately 5,000 heavily armed, mobile ground combat

troops the Russians have kept on the Caribbean island. They are organized into four battalions of about 1,200 men each and have been stationed at strategic points.

Not Specific

U.S. diplomats said the Kremlin did not specify exactly how many Russians would be withdrawn. U.S. guesses on what "several thousand" meant ranged all the way from 3,000 to 8,000.

Stennis did not mention any figure. He said "this is an encouraging development, but it is just the first step of many that must be taken before the Cuban threat is cleared up."

Other Congress members expressed varied reactions.

"What's a few thousand?" asked Sen. Barry Goldwater, (R-Ariz.) "There should not be one Soviet soldier or technician left in Cuba."

Continue Pressure

Sen. Loverett Saltonstall, (R-Mass.), said, "I hope this is just a start," adding that this country must "keep up the pressure."

Senate Democratic Leader Mike Mansfield of Montana said

the administration is adopting a wait-and-see attitude toward the promised troop withdrawal.

"As I see it," Mansfield said, "this is a continuation of the start that already had been made with the withdrawal of from 4,500 to 5,000 of the estimated 22,000 Russians in Cuba."

"I hope the withdrawal promise will be complied with shortly and followed up by technician and troops withdrawals until all the Russians are out of Cuba."

Hope All Leave

He added there is only hope—and not any substantial evidence—that the Russians will get all of their men out of Cuba.

Sen. George D. Aiken, (R-Vt.), who attended Monday night's White House conference, said any reduction of Soviet forces in Cuba would be welcomed by this country.

"I don't interpret any such move to mean that the Russians are going to leave Cuba," he added. "They obviously are going to have substantial forces left there which can be used in the training of saboteurs and in preparations to export revolution."

For UT Convention

Profs Choose Four Students

By BRONSON HAVARD
Treador Asst. News Editor

Four students will represent Tech as a University of Texas sponsored conference on "Individualism in the Twentieth Century," in Austin Thursday through Saturday, Ivan Little, assistant dean of arts and sciences, announced late Tuesday.

Roy Cebik, junior philosophy major; Judy McKinnon, senior psychology major; Arthur Chandler, senior English major; and Amon Burton, senior political science major, were selected to be Tech's representatives.

Invited 35 Schools

UT invited approximately 35 colleges and universities in the southwest to attend the annual Challenge Colloquium sponsored by its student union. A letter was sent to Dr. R. C. Goodwin, Tech president, inviting Tech to participate. Dean Little said the invitation was turned over to him and he asked the four department heads to select

one of their most outstanding students.

Outstanding Speakers

Several outstanding persons will speak on individualism, conservatism and liberalism. Russell Kirk, author of the "Conservative Mind," and Upton Sinclair, twice winner of the Pulitzer Prize for literature, will speak. Two other men, Paul Goodman and Eric Jonsson are on the program.

Just returned from representing Tech at the G.E. College Bowl, Cebik will be leaving with the delegation Thursday morning.

Burton is Chief Justice of Tech's Supreme Court; Chandler, co-editor of the spring Harbinger; and Miss McKinnon who is recognized for outstanding achievement in the field of psychology.

Dean Little said that receiving an invitation from UT shows "the university is recognizing us, paying attention to us."

"We're taking our place alongside the other state universities," he added.

Mom Never Told Me About This Type Doll!

By JODY ALLEN
Toreador Copy Editor

There's one of those new-type books out. This one is called DOLLS MY MOTHER NEVER GAVE ME.

What happens is, the authors tell about all sorts of things that go on when one winds up a certain kind of doll.

Like, for instance, when one winds up a Khrushchev doll, it will either take off its shoe and pound it on the nearest table or it will mix up supply orders and send missiles to countries instead of sending them food.

But there's no sense in winding up a beatnik doll, it won't work right, anyway.

If one winds up an Eisenhower doll, it won't do anything.

And if a Jimmy Hoffa doll is wound up, it will organize all the other dolls.

These are just a few of the dolls that the book includes. What might be possible now is to look around

this campus to discover other types of "dolls" and predict what might possibly occur if one were to wind up some of them and observe.

Like, if one were to wind up a freshman doll, it might just possibly turn green.

And if one should wind up a sophomore doll, it would probably go into a slump.

Be careful about winding up a junior doll, because one of those will nearly always run for some kind of an office when wound up the right way.

And then there is the senior doll. There's really not much point in winding up one — this type is usually pretty well broken down at any time of the year.

Wind up a Court Jester doll, and it will play Dixie while the visiting basketball team tries to score a winning free throw. (That really hasn't happened yet, but it's worth a try.)

Wind up a library doll, and it

will tell you that orange and magenta are the new spring fashion colors and, what's more, they look great together!

Wind up a Sneed Hall doll, and it will buy a pair of binoculars and face in a westerly direction.

Wind up a West Hall doll, and it will complain about the Sneed Hall doll buying a pair of binoculars . . . or at least about the fact it is facing in a westerly direction.

And so it goes. It is really quite a grand little game to go around looking for these dolls — and winding them up. The only trick is not to let the "dolls" know that they are being wound up, for that ruins incentive, and they begin acting like people again.

Exes Begin Fund Drive

A two-week fund raising drive for the Tech Loyalty Fund began Monday in Amarillo as part of the College Alumni Support contest.

The contest, among 14 colleges and universities, is based on the percentage of exes contributing to their alma mater. Each of 50 Tech exes will visit half a dozen other former Techsans in the Amarillo drive.

Tech officials at Monday's kick-off meeting were Dr. R. C. Goodwin, president; Tony Gustwick, field secretary of the Ex-Students Association; Marshall Pennington, vice president and comptroller; and Wayne James, executive director of the Ex-Students' Assn.

James said that the combined college effort, begun in 1960, has received more publicity than the drive of any single school—and more money. Texas A&M had the greatest success, but Tech came in third among 20 schools in an Austin drive last year.

Objectives of the program are: dramatizing the value and needs of higher education; increasing the number of donors and dollars for participating schools; demonstrating that private and public schools can work together on common problems and stimulating a healthy competitive spirit among college alumni.

The next drive will begin March 18 in Dallas.

IS YOUR
FUTURE
WORTH A
20 MINUTE
INTERVIEW?

If you are about to decide on your future employment and are graduating with outstanding scholastic achievement in engineering or the physical sciences . . . the Sandia Corporation would like to arrange an interview with you.

At Sandia, you would work in research, design and development, or engineering. Our scientists and engineers are engaged in projects in the fields of solid state physics, plasma physics, materials research, explosives technology, pulse phenomena and radiation damage.

You would work in a modern well-equipped \$120 million laboratory and be associated with some of this

nation's outstanding technical personnel. You would receive liberal benefits which, in addition to insurance, retirement and vacation, include an opportunity for continuing your graduate studies.

You would be employed in sunny, dry Albuquerque, a Southwestern cultural center of over 250,000, or in our laboratory at Livermore, California, with all the advantages of the San Francisco Bay area.

News Briefs

Nominations Due For College Board

Nominations for the College Awards Board — recognizing students making an outstanding contribution to Tech—must be in the office of the Dean of Student Life by Feb. 28.

Applications for these awards, to be presented March 24 at the All College Recognition Service, are available in that office.

Organizations wishing to send a delegate to the B.S.O. retreat in Cloudercroft March 1-3 must register and pay the \$30 fee at B.S.O. office before Monday.

The American Society of Mechanical Engineers will meet in the East Engineering Bldg., room 1, at 7 p.m. Thursday. John Fraizer will speak on "The Wankel Engine" and Kenneth Wilson on "The Transistor Switch Ignition vs. the Point Switch Ignition."

Tech Union's lost and found department has moved to room 204. Hours are 11-12 a.m. and 2-5 p.m. Monday to Friday.

Members of the Double T Assn. are to attend a meeting at 8 p.m. today in the stadium lounge to plan spring events. Members wishing little brothers must be present.

Tech Union will sponsor a jam session with the Sharps at 4 p.m. today in the snack bar.

The Data Processing Center in the School of Engineering marked its first anniversary Monday. According to Gerald Locke the student usage of the center has increased greatly since it opened last year.

Library Wants Two Cards Now

Tech Library's new checking system requires a patron to make duplicate cards each time he takes a book from the library. If he brings the book back to the library to study, he must check it out again as he leaves.

This change in procedure was made because a few students used their own stamps to slip books past the control desk.

James E. Platz, associate librarian, said the library staff realizes the new system "is a nuisance, but there is no other satisfactory answer to the problem."

"We are seriously concerned about the situation and dislike forcing patrons to make out new cards," Mr. Platz said.

'Beauty And The Beast' Applications Due Today

Today is the deadline for entering Alpha Phi Omega's annual "Beauty and the Beast" contest.

Each entry by an organization should include: a \$5 entry fee, an 8x10 photo and an application with the name, classification and major of contestant. Contestants should be single, full-time students. Entries should be turned in at 2628 E. Auburn St.

Balloting will be in Tech Union from 8 to 10 a.m. Thursday and Friday, and 8 to 12 a.m. Saturday. Voting is on cent-a-vote basis. A running account of the standings of all contestants will be kept.

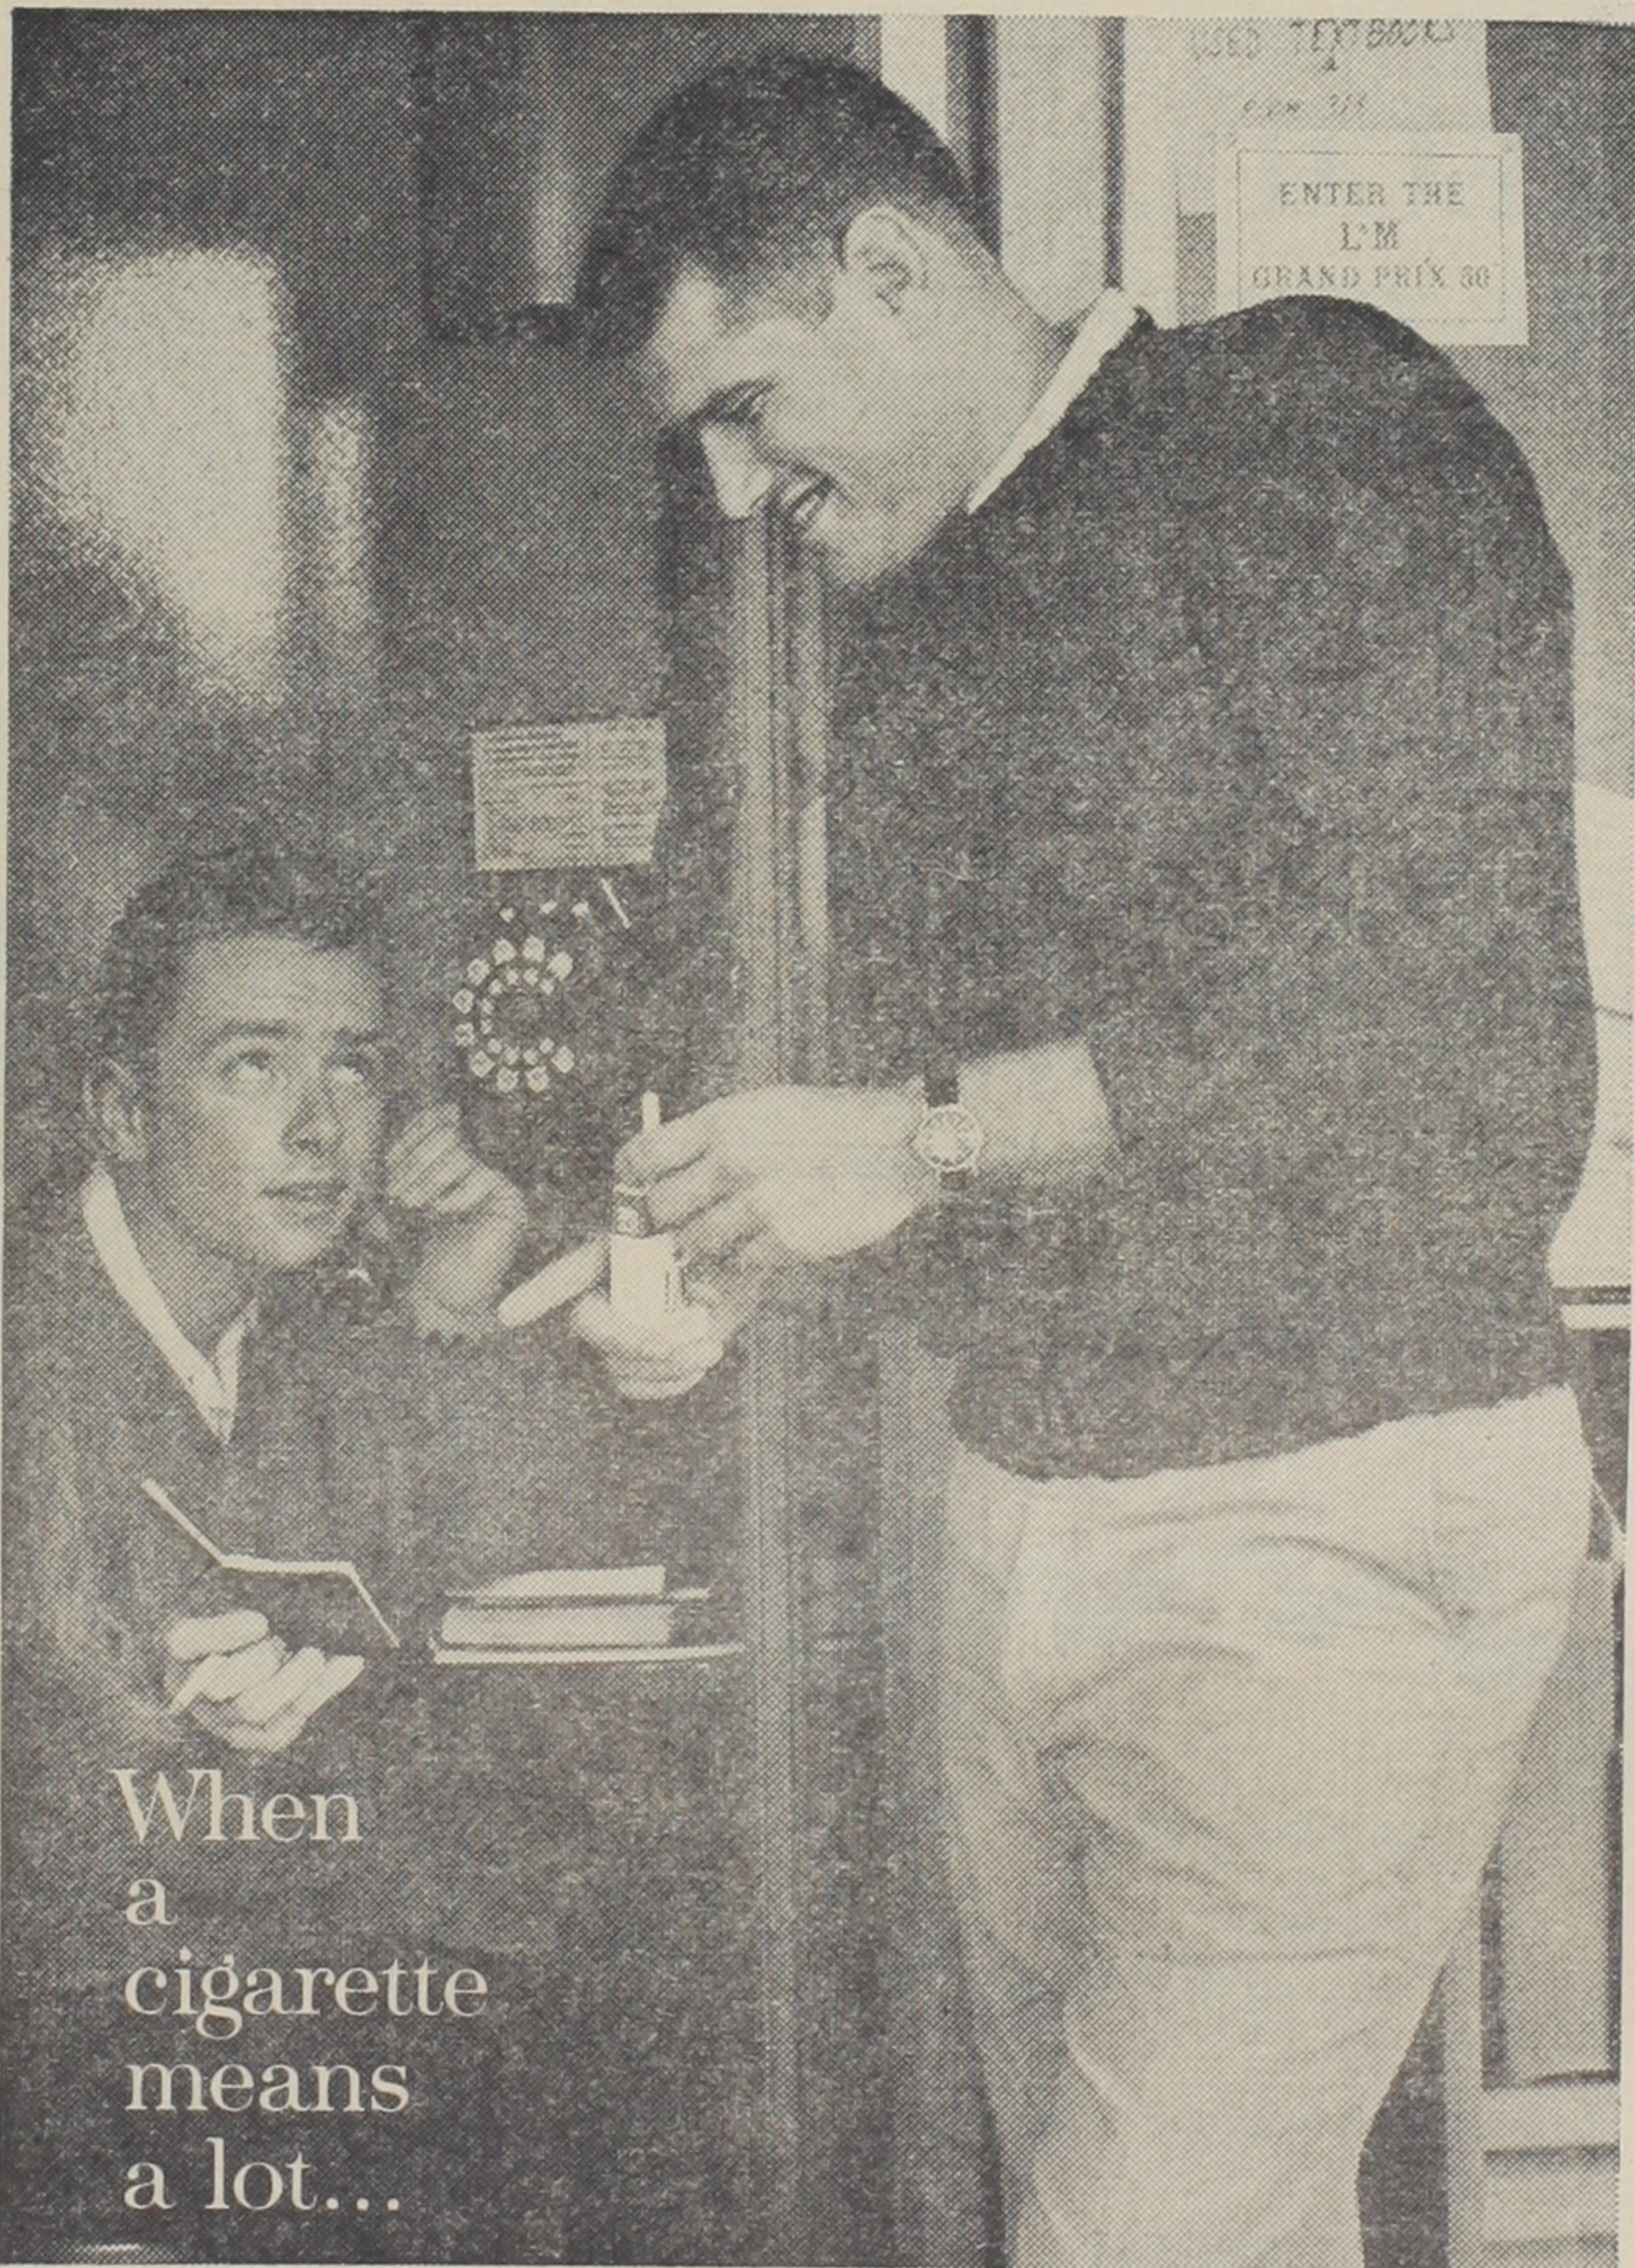

Winners will be announced at the after-game "Beauty and the Beast" dance Saturday night in the Union.

Organizations sponsoring winners will receive 28-inch traveling trophies. Three consecutive wins give the organization permanent possession of the trophy.

SPRING TRAINING

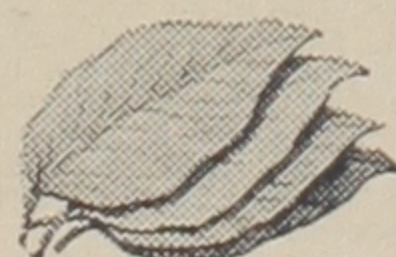

DALLAS (P) — Southern Methodist opened spring football training Tuesday with 75 candidates.

There were 18 lettermen. One other, halfback Don Crowder, missed the workout because of an injury in handball.

"ON THE CAMPUS"

Denney Paces Tech

Hogs Win, 83-78

By RAY FINFER and TOMMY SEAY
Toreador Sports Editors

FAYETTEVILLE, Ark. — With All-America candidate Tommy Boyer leading the line of "gift" recipients, the Arkansas Razorbacks "free" threw the Texas Tech Red Raiders, 83-78, Tuesday night.

Boyer scored 18 of 18 free throws, in addition to six field goals for a total of 30 points. He now leads the nation in free throw percentage with a .930.

The Hogs missed only three free throws while scoring 33 and that

was the difference in the ballgame as the Raiders outshot the Hogs from the field hitting a 44.6 percentage compared to Arkansas' 40.3. Tech hit only 12 of 20 free throws.

Raiders Tie Game

Arkansas led by as many as 11 points during the second half. The Raiders closed the gap and tied the game at 70 all with only minutes left but they could never regain the lead which they had earlier. Arkansas led at half 43-38.

Patty Fouls

Boyer opened the scoring for

Arkansas as he hit one field goal and six consecutive free throws as results of fouls by Tom Patty. Patty was charged with three fouls in the first four minutes of the game and was taken out for the rest of the first half and most of the second. He scored only two points.

Both teams ended up with five players scoring in double figures. Boyer led all scorers with 30, followed by Tech sophomore Harold Denney with 23.

Individual Scores

Other Red Raiders scoring in double figures were Bobby Gindorf, 17; Glen Hallum, 14; Bill Murren, 12; and Sid Wall, 10. Larry Wofford, Jim Magness and Larry Hogue hit 11 each for the Razorbacks, followed by Jim Wilson with 10.

The Red Raiders led in rebounding the first half, taking 24 of 43 field goal attempts off the boards, but the Hogs came back in the second half and ended up with 46 rebounds compared to Tech's 43. Hallum led the Raiders with 12 rebounds and Magness led all players with 13.

TECH ADS

Typing of all kinds: reasonable rates; extremely fast and accurate service. 2312 26th, SH 7-1507.

FOR SALE: Five piece set, Ludwig drums, good condition, \$175. Bob Lynas, SW 9-7078.

Simpkins Continues Breaking Records

Phil Simpkins, who is ranked among the top five swimmers in the nation in the 50 and 100-yard freestyle events, led the Texas Tech swimming team to a 3-3 won-lost record in their swing through Colorado last week.

Simpkins set pool records in both of his specialties at every meet with the exception of one when he was upset in the 50-yard freestyle against Colorado State University on Wednesday. His best times on the tour were a 22.9 in the 50 and a 50.1 in the 100.

Coach Jim McNally's tankmen

brought back victories over Colorado State College, Colorado School of Mines and the University of Colorado, while losing to Colorado State University, University of Denver and University of Nebraska. The 400-yard freestyle relay team set a pool record of 2:28.6 at Colorado State College. The team members are Ron Grim, Dick Hase, Terry Schmidt and Simpkins. Grim also broke his own school record in the 200-yard freestyle when he swam a 1:59.7 against Nebraska and the University of Colorado at Boulder.

GLAD RAGS

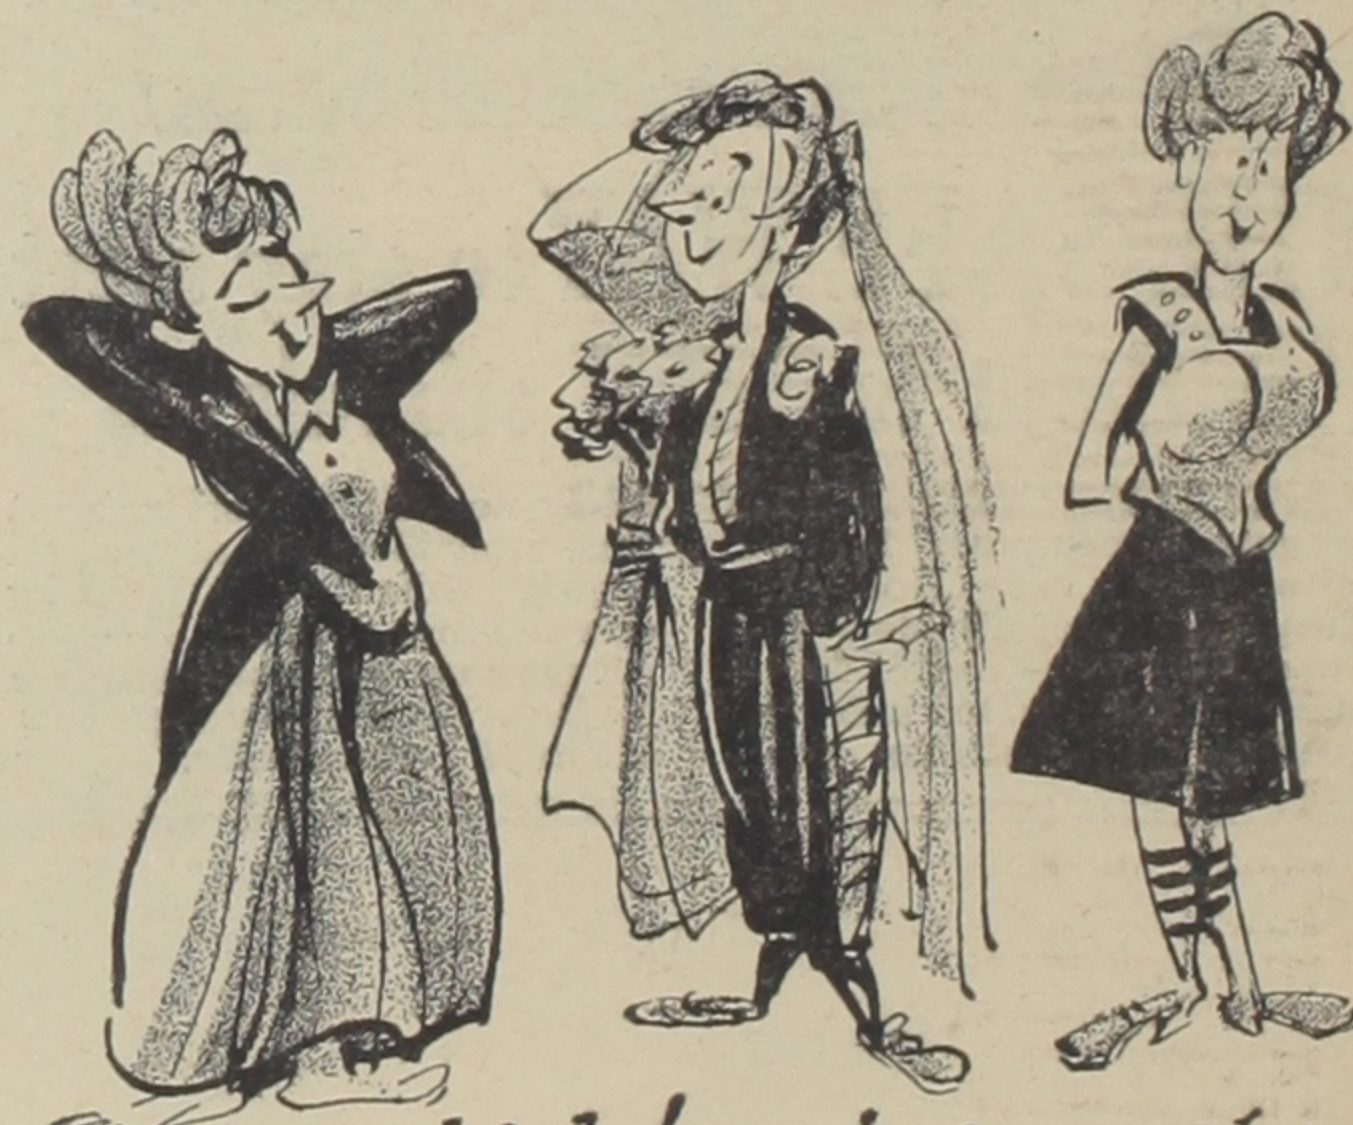

The hounds of spring are on winter's traces. Soon buds the crocus, soon trills the giant condor, soon come the new spring fashions to adorn our lissome limbs.

And what will the American college student wear this spring? Gather round, you rascals, and light a Marlboro Cigarette and enjoy that fine mellow tobacco, that pure white filter, and possess your souls in sweet content, and listen.

As everyone knows, campus fashions have always been casual. This spring, however, they have gone beyond being merely casual: they have become makeshift.

The object is to look madly improvised, gaily spur-of-the-moment! For example, why don't you girls try wearing a peasant skirt with a dinner jacket? Or matador pants with a bridal veil? Or Bermuda shorts with bronze breastplates? Be rakish! Be impromptu! Be devil-take-the-hindmost!

And, men, you be the same. Try an opera cape with sweat pants. Or a letter-sweater with kilts. Or a strait jacket with hip boots. Be bold! Be daring! Be a tourist attraction!

Be rakish! Be impromptu!

But all is not innovation in college fashions this spring. In fact, one of the highlights of the season turns time backward in its flight. I refer, of course, to the comeback of the powdered wig.

This charming accoutrement, too long neglected, has already caught on with in undergrads everywhere. On hundreds of campuses the bossa nova is giving way to the minuet, and patriotic undergraduates are dumping British tea into the nearest harbor. This, as you may imagine, does not sit well with King George III who, according to reliable reports, has been stamping his foot and uttering curses not fit to reproduce in this family newspaper. For that matter, a lot of our own people are steamed up too, and there has even been some talk about the American colonies declaring their independence of England. But I hardly think it will come to that. I mean, how can we break with the mother country when we are dependent on her for so many things—linsey-woolsey, Minié balls, taper snufflers, and like that? She, on the other hand, relies on us for turkeys, Marlboro Cigarettes, and Route 66. So I say, if Molly Pitcher and those other Radcliffe hotheads will calm down, and if gentlemen will cry "Peace! Peace!" we may yet find an amicable solution to our differences. But let not our British cousins mistake this willingness to negotiate for weakness. If fight we must, then fight we will! Paul Revere is saddled up, the rude bridge arches the flood, and the ROTC is armed!

But I digress. We were smoking Marlboro Cigarettes—O, splendid cigarette! O, good golden tobaccos! O, pristine pure white filter! O, fresh! O, tasty! O, soft pack! O, flip top box! O, get some!—we were, I say, smoking Marlboros and talking about spring fashions.

Let us turn now to the season's most striking new feature—pneumatic underdrawers. These inflatable garments make every chair an easy chair. Think how welcome they will be when you sit through a long lecture! They are not, however, without certain dangers. Last week, for example, Rimbaud Sigafos, a sophomore at the University of Pittsburgh, fell out of a 96th story window in the Tower of Learning. Thanks to his pneumatic underdrawers, he suffered no injury when he struck the sidewalk, but the poor fellow is still bouncing—his seventh consecutive day—and it is feared that he will starve to death.

© 1963 Max Shulman

Fashions come, fashions go, but year after year Marlboro Cigarettes, sponsors of this column, bring you the tastiest tobaccos and a pure white filter too. Try Marlboro soon.
