# Rojas Addresses Convocation Today

By BRONSON HAVARD  
Asst. News Editor

Hundreds of Techsans are expected to attend the all-college convocation when classes are dismissed at 10 a.m. for the address of Sergio Rojas in Lubbock's Municipal Auditorium.

Rojas, the former Cuban revolutionary ambassador to Great Britain, is scheduled to address the Tech student body and Lubbock citizens on "Cuba, the Great Communist Conspiracy."

The convocation, sponsored by the Student Council, will be the first since the spring of '61 when Werner von Braun, then director of the United States rocket experimentation, spoke on the space potential of the U.S.

ROJAS WAS appointed by Fidel Castro in January 1959 and served until June 1960 when he broke with the Castro government after a violent meeting with the senior members of the revolutionary Cuban government.

His arrest was ordered but he found political asylum in the Argentine Embassy in Havana. Later he secretly escaped to Buenos Aires, Argentina.

Educated as an economist, Rojas represented Cuba before the Pan American Coffee Board and the Inter-American Coffee Bureau. He was awarded the

Grand Order of the Red Cross for his services to the organization.

DURING THE rebellion against Batista's dictatorship, Rojas was a senior officer in the July 6 movement and aided Castro by making secret political and diplomatic contacts with

American countries, it was reported.

At 9 a.m. there will be a reception for Rojas in the Tech Union to be followed by a press conference. Earlier he will tour the campus according to a schedule arranged by the council committee.

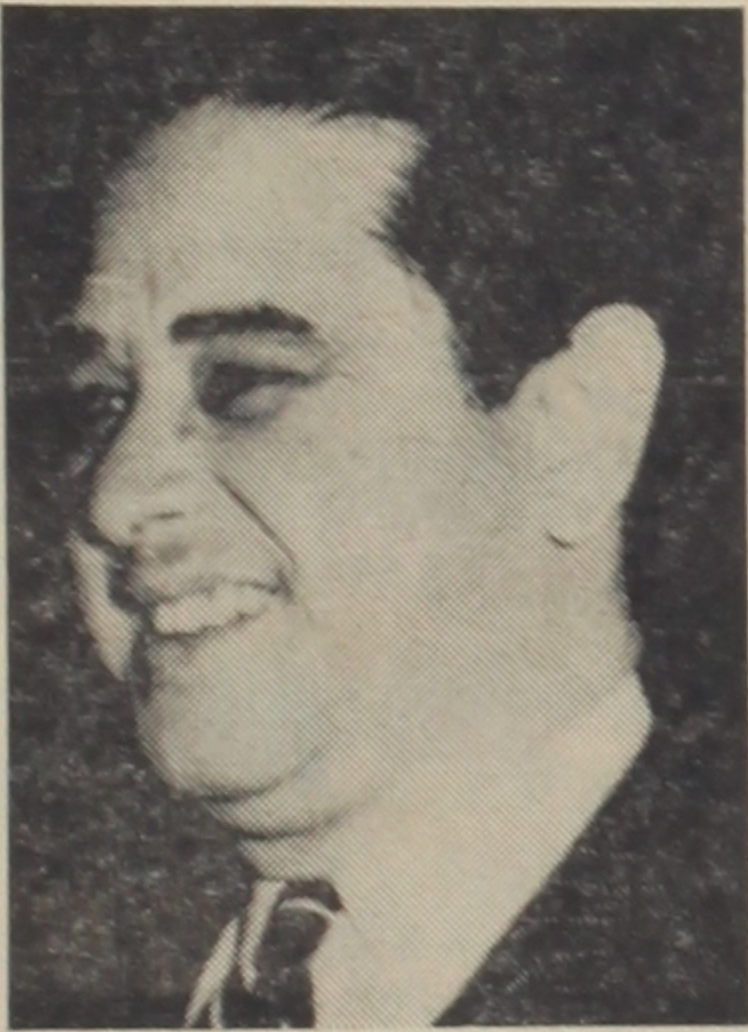

CLASSES WILL be dismissed between 10-11 a.m. by special request of R. C. Goodwin, Tech president, in order that students and faculty may have the rare opportunity to hear a speaker discuss a topic of current importance.

Larry Gibbs, chairman of the Current Events Committee, said Tech is very fortunate in getting a prominent person to speak on a potentially explosive international situation.

GIBBS URGED Techsans to attend the convocation in order that support for the annual convocation can be shown and the administration will dismiss classes for future programs.

Rojas will fly to Fort Worth after the address to speak to the Knife and Fork Club at 7 p.m. in the Ridglea Country Club.

Charlie Aycock, president of the Student Assn., will introduce Rojas. There are no reserved seats.

SERGIO ROJAS

foreign governments to secure armaments.

Rojas is now engaged in confidential activities in Washington, D.C., and is advising the U.S. in conferences with South

"The college students are our favorite audience!" exclaimed Myra Kinch, here for her modern dance company's performance of "The Light Fantastic" in the Tech Union tonight.

The program, in the Ballroom at 7:15 p.m., will begin with a serious dance set to a Walt Whitman poem. The dance will move from a serious tone to straight comedy.

"We enjoy the college audience because they are not afraid to laugh," said Miss Kinch, a small dark woman whose dancing has been hailed "delightful and hilarious" by The New York Times.

Miss Kinch was accompanied by two other dancers in her company, Shirley Jensen and Frank Cataldo, and by her husband and musical director, Manuel Galea, when she visited the Tech Union Monday.

She commented on the large size of Tech's campus and on its beautiful buildings.

She expressed an interest in Tech's modern dance program.

"I hope some of the girls come to see the program," she said. "I would like for them to visit with me backstage after the finale."

Lincoln College in Missouri and Oklahoma College for Women are among the schools the company

has played during its transcontinental tours.

Last year the group performed in Canada's remote Northwest Territory.

"We enjoyed playing to the Eskimo children who were attending school at Fort Smith," said Miss Kinch.

"The children are sent to the base school in the winter and are returned to their igloos in the summer."

Miss Kinch's company travels in two station wagons.

"We had to fly when we toured the Northwest Territory, however," she said, "because they have no roads!"

## Last Chance . . .

Today is the last day to do anything on the Tech Campus . . . well, almost anything.

Today is the last day on which Techsans may change sections and add courses.

It is also the last day to register for the Reading Improvement course offered by the testing and counseling center. Sections which remain open are 3:30-5 MW, 3-4:30 TT and 4:30-6 TT.

# Beauties Vie For Miss Mademoiselle

By LANE CROCKETT  
Treador Staff Writer

Picture an oasis, with a silver moon reflected in the waters, a cool desert wind blowing the tall palm trees, a tent with camels lowing in the background—and a harem of 32 beautiful girls!

Here it is, the 1963 La Ventana Extravaganza. At 8 p.m. Saturday in the Lubbock Municipal Auditorium, ten of the finalists will be named Tech's most beautiful women, and one will be

crowned Miss Mademoiselle — Tech's most beautiful woman.

The theme of the extravaganza is "Caravan." Entertainment will relieve the sequences while contestants are changing from swimsuits to formals. The entertainment promises to be varied and interesting.

The harem of lovelies are: Val Garner, Brownfield, Sigma Kappa; Anita Pace, Lubbock, Delta Gamma; Becky Collins, Ennis, Kappa Kappa Gamma; Mira Taylor, Lubbock, Kappa Alpha The-

ta; Diane Baker, Big Spring, Chi Omega; Gay Gillespie, Odessa, Delta Delta Delta; Judy Richerson, Waco, Kappa Kappa Gamma.

Jan Mayo, Wichita Falls, Delta Delta Delta; Kay Karrh, Hale Center, Delta Delta Delta; Linda Neal, Amarillo, Zeta Tau Alpha; Carol Cannon, Lima, Peru, Pi Beta Phi; Susie Peterson, Pi Beta Phi; Michelle Stephens, Port Arthur, Delta Delta Delta; Carol Leu Burden, Ennis, Delta Delta Delta; Holly Hunt, Anson, Delta

Gamma; Mary Ellen Olson, Bellaire, Delta Gamma.

Caryn Clark, Throckmorton, Delta Delta Delta; Helen Kimbrough, Richardson, Alpha Phi; Ann Courtney, Andrews, Alpha Phi; Janice Marie Fauske, Borger, Delta Delta Delta; Susan Turner, Richardson; Tana Tolleason, Dallas; Susan Wilkinson, Midland, Kappa Kappa Gamma; Jan Cone, Lubbock, Delta Delta Delta; Karen Jobe, Texas City, Arnold Air Society; Carolyn McDuff, Stamford, Angel Flight;

Judy Kay Fite, Dallas, Zeta Tau Alpha; Marilyn Ewell, Houston, Alpha Chi Omega.

Lynda Keeton, Fort Worth, Alpha Chi Omega; Frances Rader, Houston, Horn Hall; Junita Skaggs, Odessa, Horn Hall and Lady (Virginia) Falls, Snyder, Pi Beta Phi.

Gene Price KSEL announcer, will emcee the spectacular.

Ticket sales begin this morning in the foyer of the Tech Union. Admission will be \$1 per person and \$1.50 per couple.

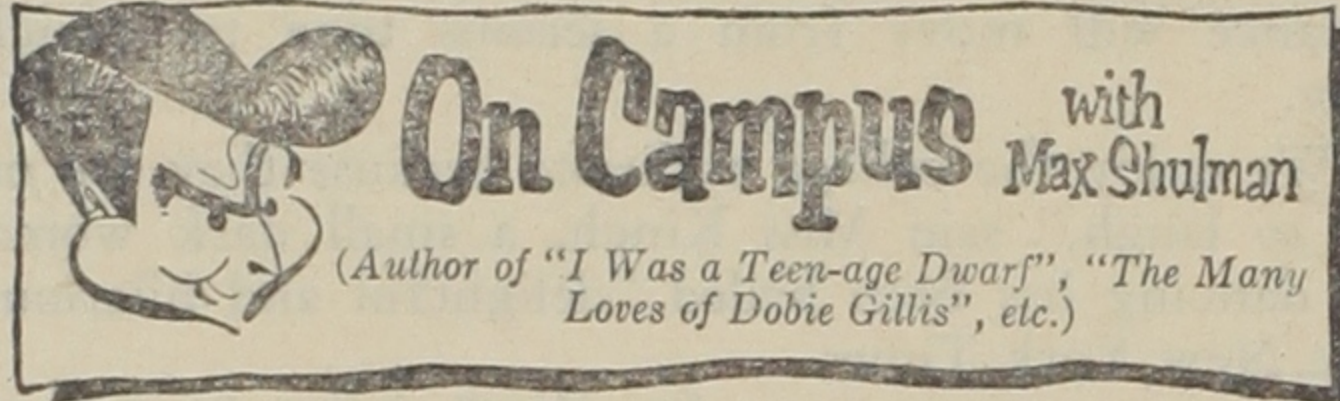

One Of These Is Miss Mademoiselle!

## From The Placement Service

Editor's note—As a service to students seeking jobs upon graduation and to those looking for summer work, The DAILY TOREADOR will run a weekly column listing the names of employers and the dates they will be on campus to interview students. For more information, phone Tech Placement Service, Ext. 4131.

### CALPURNIA, HERE I COME

Now, as the college year approaches its mid-point, one fact emerges clearly: you are all going to flunk everything.

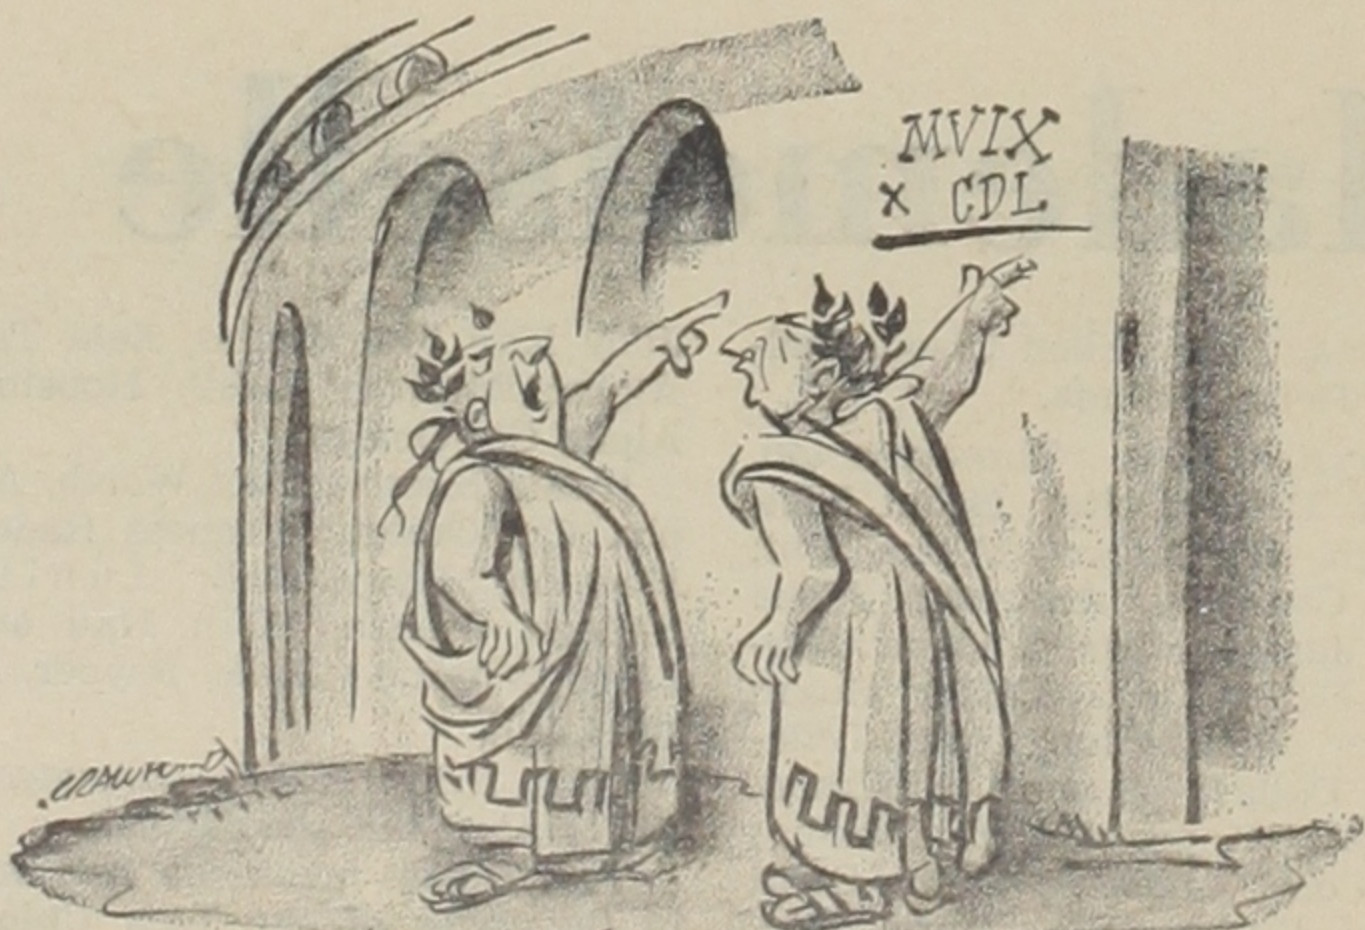

There are two things you can do about it. First, you can marry money. (I don't mean you marry the money itself; I mean you marry a person who has money. Weddings between people and currency have not been legal anywhere in the United States since the Smoot-Hawley Act. Marlboro Cigarettes, on the other hand, are legal everywhere and are, indeed, smoked with great pleasure and enthusiasm in all fifty states of the Union. I bring up Marlboro Cigarettes because this column is sponsored by the makers of Marlboro, and they are inclined to brood if I omit to mention their product.)

But I digress. I was saying you can marry money but, of course, you will not because you are a high-minded, clean-living, pure-hearted, freckle-faced American kid. Therefore, to keep from flunking, you must try the second method: you must learn how to take lecture notes.

According to a recent survey, 123.6% of American undergraduates do not know the proper way to take lecture notes. To illustrate this shocking statistic, let us suppose you are taking a course in history. Let us further suppose the lecturer is lecturing on the ruling houses of England. You listen intently. You write diligently in your notebook, making a topic outline as you have been taught. Like this:

- I. House of Plantagenet.
- II. House of Lancaster.
- III. House of York.

Then you stop. You put aside your pen. You blink back a tear, for you cannot go on. Oh, yes, you know very well that the next ruling house is the House of Tudor. The trouble is you don't know the Roman numeral that comes after III.

They got to arguing...

(It may, incidentally, be of some historical interest to point out that Americans are not the only people who don't know Roman numerals. The Romans didn't know them themselves. I suppose they could tell you how much V or X were or like that, but when it came to real cuties like LXI or MMC, they just flung away their styluses and went downtown to have a bath and take in a circus and maybe stab Caesar a few times.)

(You may wonder why Rome stuck with these ridiculous numerals when the Arabs had such a nice, simple system. Well sir, the fact is that the Emperor Vespasian tried like crazy to buy the Arabic numerals from Suleiman the Magnificent, but Suleiman wouldn't do business—not even when Vespasian raised his bid to 100,000 gold piastres, plus he offered to throw in the Colosseum, the Appian Way, and Charlton Heston.)

(So Rome stuck with Roman numerals—to its sorrow, as it turned out. One day in the Forum, Cicero and Pliny got to arguing about how much is CDL times MVIX. Well sir, pretty soon everyone in town came around to join the hassle. In all the excitement, nobody remembered to lock the north gate and—wham!—before you could say *pecca fortiter*, in rushed the Goths, the Visigoths, and the Green Bay Packers!)

Well sir, that's the way the empire crumbles, and I digress. Let's get back to lecture notes. Let's also say a word about Marlboro Cigarettes. The makers would be so pleased! And is it not fitting that we should please these honest tobacconists—these fine men, fond of square dancing, water sports, protein, and tattoos—these tireless perfectionists who spend all of their days trying to please us—searching everywhere for the best of all possible tobaccos, aging them with patience, blending them with tender, loving care? Marlbors are available in soft pack and flip top box. You will find XX cigarettes in each package.

Marlborum amo, Tom Marlborum amat, Dick Marlborum amat, Harry Marlborum amat, June Marlborum amat, Joan Marlborum amat, Jean Marlborum amat, Jane Marlborum amat, quique Marlborum amat—et Marlborum quoque amabitis.

TO REPRESENT TECH—Five men will represent Tech at the Region Nine Intercollegiate Bowling Tournament in Dallas Feb. 14-16. Shown here are, left to right, first row, Sandy Edwards, Glenn Jennings, Norman Andress, George Stephens and Patsy Wooddell. Back row, left to right, are Mike McDonald, Harvey Stein and the team sponsor, Ronald Burrus. The five boys, being presented trophies by the girls, won high individual honors in the Tech tournament to qualify for the trip. —Staff Photo

## Methodists Choose New Student Center Officers

Roger Smith, senior engineering major from Arlington, was installed as president of the Wesley Foundation at the Methodist Student Center Sunday night.

Other executive officers elected for the spring semester are: Ethelyn Cummings, vice president; Anne West, program coordinator; Sandra Wood, secretary of the Wesley Student-Adult Council.

MSC committee chairmen are Judy Thomas, Dine-a-Mite; Russell Meier, Forum; Ann Duncan, Public Relations; Mike Norris, Publicity; Judy Glover, Spiritual Life and Suzanne Langley, Stewardship.

Co-chairmen of the Personnel Committee are Sharon Green and Senn Slemmons. Jerald Terrell and Jean Wilcox will head the Program Committee; Keitha Davis and Russell Denison are co-chairmen of the Wesley Friendly Committee.

Recreation chairman is Bill Caradine and assistant chairman is Linda Cowan. Jean Jacobs is World Christian Community chairman. Editor of the "Tech Methodist," the Wesley Foundation's

## Seniors Required To Turn In Forms

June may still be several months away, but seniors planning to graduate are encouraged to turn in their personnel information forms to the placement office Feb. 11-13. This step is necessary for graduation.

# Myra Kinch Presents 'The Light Fantastic'

Myra Kinch, one of the leading satirical and dramatic dancers in the country, will be at the Tech Union Tuesday at 7:15 p.m. She has performed featured roles in major moving pictures

productions as well as appearing in plays at the Pasadena Community Playhouse. She also performed in two of her major dance works accompanied by a symphony orchestra at the San Fran-

cisco Memorial Opera House, and choreographed the ballets for the opera Aida. In 1960-61 and again in 1961-62 she made highly successful transcontinental tours. Perhaps she is best-known for

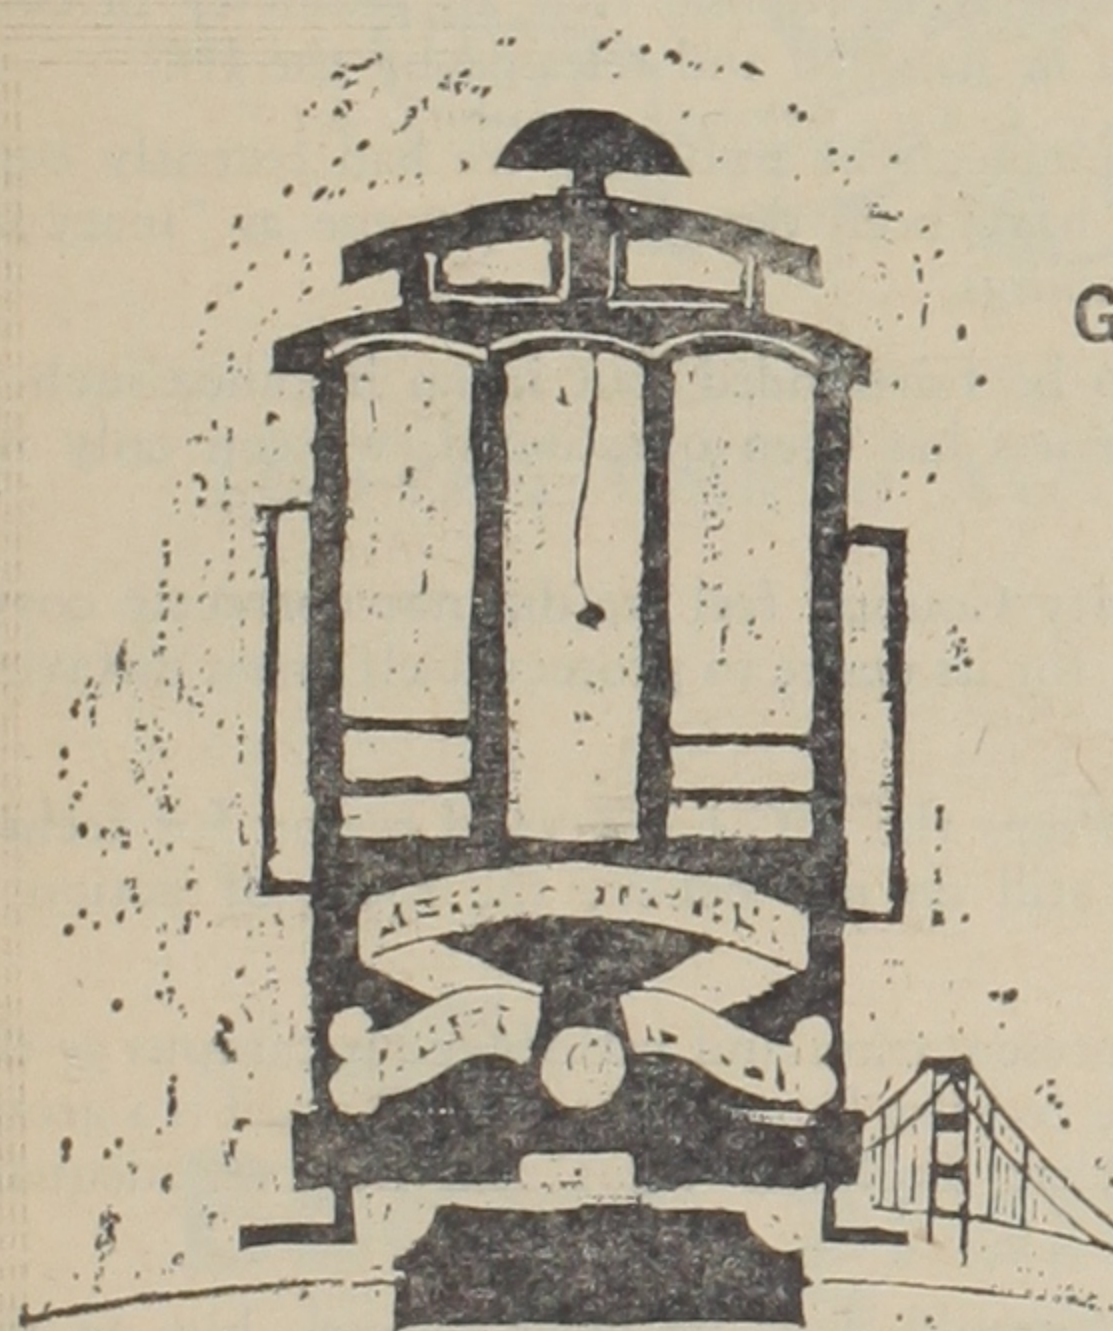

her satirical dances. She has satirized classic ballet with such renditions as "The Sugar Plum Fairy" solo from the "Nutteracker," which she does in the manner of the surrealist painter Salvador Dali.

And her "Giselle's Revenge," which employs the macabre manner of the Cartoonist Charles

Adams, has been called, "The dance world's most delightful bit of ghoulishness."

Myra Kinch and her dance review, "The Light Fantastic" will be presented in the Tech Union Ballroom at 7:15 p.m. tonight.

She will be accompanied by Shirley Jenson, Frank Cataldo and Gunnar Spencer.

## Footnotes

by Miller

The new semester at Tech seems to be announced by dust storms and drama. The winds which whip up billows in the daytime settle down at night, leaving a pleasant evening for students to attend the variety of plays and movies on tap this week.

There is quite a selection to be had. The speech department's "Toys In The Attic" offers an evening of gripping entertainment and is perhaps one of the best performances put on by the department in many years.

For those looking for lighter fare, the Lubbock Theater Centre premieres, "Auntie Mame" at 8:15 p.m. Thursday. "Auntie Mame," from the book by Patrick Dennis, tells of the hilarious life of Mame Dennis, one of the most charming characters to come along in a long while.

And for all Spanish theater

fans, "Dona Rosita, the Spinster" will be performed at 8 p.m. Thursday in the Lubbock Christian College auditorium.

Then, of course, Myra Kinch is presenting her "Light Fantastic" dance review at 7:15 p.m. tonight in the Tech Union Ballroom. One of the nation's leading satirical dancers, she has earned raves as, "Wonderfully batty dancer" (Herald Tribune) and "Wonderful to see" (Grand Rapids, Mich.) It promises to be a good show.

And on top of everything else, the West Texas Museum is exhibiting "The Golden Land" art of Africa and "African Masks" in the Upstairs Gallery. The display includes masks from the collection of Stanley Marcus of Dallas.

Like I said before, it's a full

week.

# Scarlet Scatterings . . .

by Charles Richards

There will never be another day like last Saturday. Unless it's next Saturday.

Of course any time a red-blooded American male has to stay in the same room for five hours with 185 scantily-clad members of the opposite sex, it should have some effect on him.

Not so with me. I watched them walk back and forth in the Aggie Engineering Auditorium. The better-looking ones, in the eyes of the judges, appeared as many as four times.

Richards

Out of the devy of coeds there were quite a few dazzling smiles, but I thought I stood the pace pretty well. It didn't affect me at all, affect me at all, affect me at all, affect . . .

—SS—

Mickey Mantle chews bubble gum.

—SS—

Saturday night's the real test, of course. That's when the 32 finalists will be thinned to 10, and then finally to one—the 1963 Miss Mademoiselle.

If the judges have as much trouble eliminating the girls as the set of judges which judged last Saturday, the La Ventana Extravaganza show may run on for hours.

The original aim of the sponsoring Sigma Delta Chi members—the professional journalistic society at Tech—was to narrow the contestants down to 25 finalists.

The task was too heavy on the five judges—all under 30 years of age—and they finally decided on 32.

—SS—

I had the privilege of talking to a very talented individual Saturday night.

The scene was Lubbock Country Club, and even though this person was not a native American, there was nothing foreign about the way he moved around on the dance floor.

He was from Formosa, and after I talked to him I discovered why he felt at home when the music started. He is a dance instructor at the college he attends.

It seems he likes sports also, and competes in track at his school—UCLA.

His name is C. K. Yang.

—SS—

He's the same C. K. Yang who competed in the indoor track meet on the Tech campus Saturday. The same C. K. Yang who was the world record holder in the pole vault just a week ago.

His trip to Texas Tech didn't turn out to be everything he had hoped. He injured his back severely before competition even started when he hit flat on his back on sawdust that had not been piled high enough.

"I almost decided to not jump anymore," he said, grinning. "But then I thought about my trip—all the way out here for nothing—and I decided to go ahead."

As it was, he jumped 15-6, tying with Rice's Fred Hanson, but got the second place medal because Hanson had fewer misses.

—SS—

Yang thinks that the fiber glass pole is the biggest factor in the new heights that pole vaulters have been attaining lately. The 15-foot mark used to be considered invincible, but since the advent of the fiber glass pole the record has now moved to more than 16-8.

Yang has no doubt at all that the 17-foot standard will topple soon. And although he won't admit it, some observers feel he will be the one to do it.

—SS—

Willie Mays chews bubble gum too.

## On Closed Hearings Ruling

# Was IFC Right?

In its last meeting, the Texas Tech Inter-Fraternity Council approved a series of major changes in its organization and framework, noted in Friday's edition of THE DAILY TOREADOR.

One of these suggested revisions concerns changing the judicial system of the IFC to a "board of inquiry" instead of a court. This is a change which, because of its prosecution techniques, will in all probability allow the fraternity system to function in a proper, more orderly fashion.

The group proposed other changes in the constitution that we wholeheartedly disagree with, however. These changes deal with barring the press from future IFC hearings.

According to one proposal, the hearings would be open only to members of the court, IFC representatives and *anyone else the court deems necessary to attend*.

Is THE DAILY TOREADOR considered in that select group which the court would *deem necessary to attend*?

A second clause we are concerned with is a proposal that all publicity in connection with the Inter-Fraternity Council be handled and released by the IFC.

These rulings are apparently the after-effects of publicity we had recently concerning a case in the IFC. Our accounts have been described by some as "inaccurate" and "sensationalized" among other things.

Our chief goal as newspapermen is to be fairminded, but in an instance such as this, when our integrity and degree of fairness has been questioned, we can only re-evaluate this aim.

If the members of the Inter-Fraternity Council feel we did not correctly cover the stories concerning it, we have respect for its desire to protect itself from unfavorable publicity.

If the court's accusations are true, perhaps the IFC has a valid reason for feeling the way it does. Considering all this, we still do not believe the route of action it has taken is the proper course.

Any organization with as large a representation and influence on campus as the Greeks have is not to be shrugged off. We feel the Inter-Fraternity Council is a group whose decisions are noteworthy enough that Techsians want and deserve adequate publicity concerning it.

There is little likelihood that the IFC would slant its news releases, but on the other hand we have no assurance that the releases would not contain only those things favorable to the council.

Our desire is to carry the truth—not to attack the IFC. We just want to lay the facts out on the table and let Tech students make their own decisions.

The proposals have not yet been submitted to the Committee on Student Organizations for approval. We hope the members of the Inter-Fraternity Council will reconsider their action.

—Charles Richards  
Acting Editor

## In 'Do Or Die' Effort

# Convocation Needs Support

Sergio Rojas, a former member of the Castro government, is scheduled to address the student body at 10 a.m. today on "Cuba, the Great Communist Conspiracy."

Months of preparation by the Student Council Current Events Committee to find a speaker "with something to say" has at last resulted in the continuation of Tech's traditional spring convocation.

Tech has not had an all-college convocation since the spring of '61 when Werner von Braun spoke here. Since that time the Student Council has unsuccessfully sought to bring prominent speakers to Tech.

The traditional convocations are a significant part of this college's academic life. They bring to the campus person-

alities who, by their contact with students, can shed light upon the current events which shape the future of mankind.

Today Tech again will have such a convocation, but if the student body does not show its interest by attending the program, it may be the last. The Council of Deans is not quite sure if the convocation is worth all the trouble.

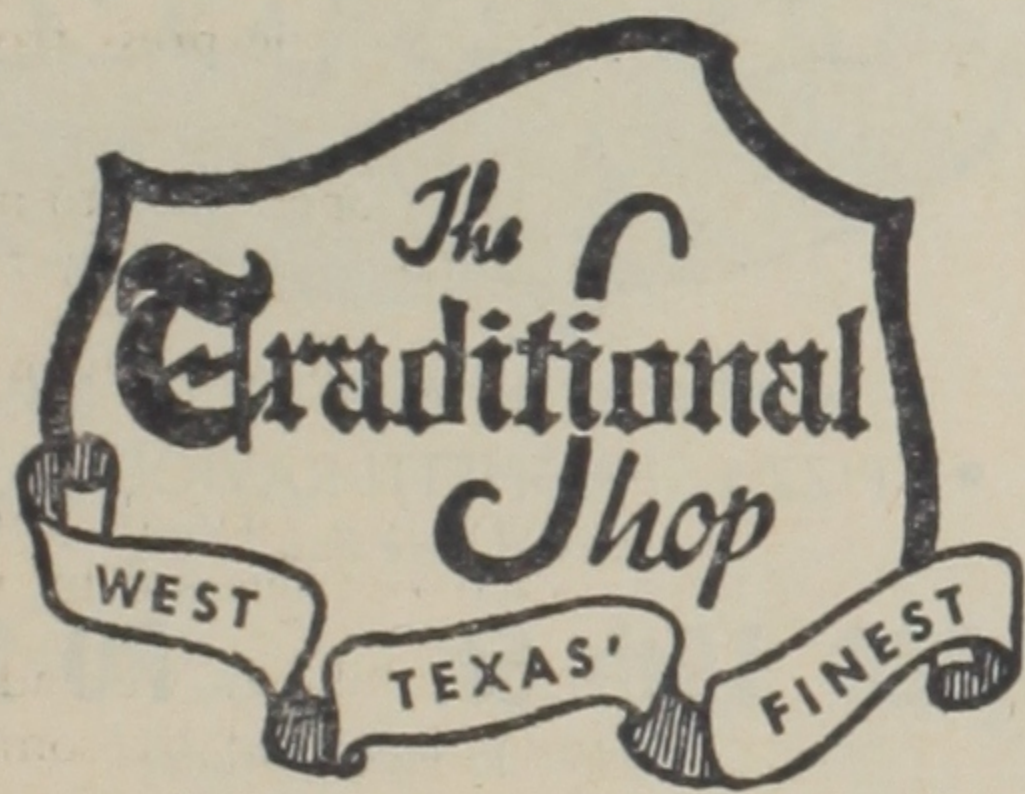

We feel it is.

Attendance will be of added importance on this occasion. Since classes will not be met during the hour, there should be few conflicts.

Hear what Sr. Rojas has to say about the "Sugar Cane Curtain."

—Bronson Havard

**HAPPY OCCASION**—Dedication of the new Catholic Student Center was obviously a happy occasion for (l. to r.) Father George Sallaway, Bishop John Morkovsky, Father William Hanly and Larry Gill, president of the Tech Newman Club. —Staff Photo

## New Student Center Dedicated Monday

A 30-year-old dream became a reality for 700 Tech Catholic students Monday with the dedication of the new Catholic Student Center at 2210 Broadway.

Since the 1930's, officials at St. Elizabeth's Church have been working toward a building for offices, a meeting place for the Newman Club, and a place where Catholic students and their friends can meet.

The dedication of the "dream" was marked by a blessing by Bishop John L. Morkovsky of Amarillo and reading of an evening Mass. Open house was from 6 to 8 p.m. for approximately 40 priests of the Amarillo Diocese, guests from the Texas Tech faculty and board of directors, and the protestant clergy of Lubbock.

Formerly a funeral chapel, the brick building contains a chapel, plus rooms to be used for library, reading rooms, offices, recreational center, classrooms, and living quarters for 12 men students.

Co-chairmen of the house committee are Phil Botik and Jeanie

Gratton, and the Rev. William Hanly, S. A. C., is chaplain for Catholic students.

## To Possible Budget Cut There's A Brighter Side?

There is a brighter side to last week's recommendation by the Legislative Budget Board that Tech's proposed \$215 million budget for 1964-65 be cut \$3.5 million.

Before the final figure is set, the Legislature will also consider figures submitted by the Executive Budget Office and the Texas Commission on Higher Education. Both these agencies have recommended \$19.5 million, a cut of \$2 million.

If the Legislature favors this recommendation over the LBB's, Tech will save \$1.5 million.

Governor Connally's recommendation will also bear weight in the budget considerations. Connally met with heads of Texas colleges and universities January 30. Tech President Dr. R. C. Goodwin and Vice President and Comptroller M. L. Pennington presented their views at the session.

"It would hurt our overall program. As for the staff, it would hurt us in getting new teachers and increasing the salaries of the ones we have," Goodwin said, commenting on the proposed cut.

The biggest slice the LBB

took out of the budget was \$1 million designated for teacher salaries.

All recommendations will be considered by the Senate Finance and the House Appropriations committees. A free conference committee will be created if neither group can produce an acceptable bill.

A bill sent to the Legislature by a free conference committee cannot be altered. It must be either accepted or rejected.

Appropriations for Texas colleges and universities will not be officially considered until late in the legislative session.

## Late Payers Will Be Fined

Those persons not paying room rent by Monday, Feb. 4, will be fined 25 cents per day, according to officials. Payment was due at the beginning of the spring semester and the five days following registration.

Anyone late in paying will be notified by the Office of Room Reservations. A second letter will be sent after two days.

Residents may pay for an entire spring semester's room and board. The total sum for the old dorms is \$264, and \$296 for new dorms.

## Interviews On Campus

Feb. 11-15

**Financial Administration  
Science and Engineering  
Marketing/Systems Engineering  
Programming**

### Careers with a future at IBM:

Advances in data processing at IBM are creating new areas for professional growth for career-minded men and women. Opportunities are in:

- Research
- Development Engineering
- Manufacturing Engineering
- Programming
- Marketing
- Systems Engineering
- Customer Engineering

Qualifications: Bachelor's or advanced degree in Electrical, Mechanical, or Industrial Engineering; Mathematics, Physics, or other Sciences; Economics, Business Administration, Accounting, or Liberal Arts. Our brochures provide the full story.

### World of opportunity at IBM:

IBM develops, manufactures, and markets a wide range of data processing systems and equipment that is performing an increasingly vital role in business, industry, science, and government. Across-the-country operations offer a choice of laboratory and manufacturing locations in:

- Endicott, Kingston, Owego, Poughkeepsie, Yorktown, N.Y.
- Burlington, Vermont
- Lexington, Kentucky
- San Jose, California
- Bethesda, Maryland
- Rochester, Minnesota

More than 190 IBM sales and service offices are located in major cities throughout the U.S.

### Room for advancement at IBM:

At IBM you range beyond academic specialties into exciting new fields. IBM programs include company training courses, tuition-refund courses at nearby universities and schools, and company-paid competitive scholarships for full-time study at a university of your choice. IBM is an Equal Opportunity Employer. Our representatives will be on your campus soon to discuss typical careers, various training programs, the advanced education program, financial rewards, and company benefits. Make an appointment through your placement officer. He can also give you additional information on the career of your choice at IBM.

If you cannot attend the interview, write or call: D. B. Stuart, Br. Mgr., IBM Corp., 1207 13th Street, Lubbock, Texas. PO 2-0855.

# Valentine Dance Scheduled

Valentine's Day is coming early to Tech!

At least this is what you will think if you attend the "Sweetheart Serenade" dance at 7 p.m. Saturday night in the Union Ballroom.

The dance, one in a series of nightclub dances sponsored by the dance committee, promises to be more "swinging" than ever. Even Cupid will want to tap his foot when the Tech stageband puts all romantically inclined couples into a dancing mood.

Decorations will include valentine motifs, of course, and hearts and flowers will be bursting out all over as the ballroom is transformed into a place of romance.

Special entertainment will feature Rita Reynolds, freshman from Wichita Falls, who will sing several songs with a valentine theme. Even the menu will remind couples that it is "sweetheart time," when heart-shaped cherry tarts will be served.

Of special interest will be the "kissing arch"—exactly what its name implies. Couples will be able to dance beneath the romantic atmosphere of the arch while being hidden from the rest of the dancers.

Dress will be semi-formal. "A lot of planning has gone into this dance," Jari Kendall, chairman of the dance committee said. "We feel sure that all who attend will really have a good time." Admission is \$3 a couple. Tickets can be purchased in the Union foyer.

Grab your sweetheart and spend an unforgettable romantic evening at the "Sweetheart Serenade" dance.

IT'S THAT TIME AGAIN—Perry Langenstein, Lubbock freshman, is getting a head start on the upcoming St. Valentine's Day by presenting Patsy Wooddell, Dimmitt sophomore, with a valentine.

## THE BELL TELEPHONE COMPANIES SALUTE: WALTER WILEY

The application of computer techniques to telephone accounting procedures demands imagination and originality. Walter Wiley (B.S., Commerce, 1958) has both in abundance. Walt is a Methods Accountant with Southwestern Bell in St. Louis.

Walt decides how the computer can best handle a task, then writes instructions for both the machine and the people who operate it. Seeing the computer carry out his programs swiftly and at a savings to his company is to Walt both gratifying and rewarding.

Walt qualified for his latest promotion by showing what he could do on earlier assignments. On one, he skillfully supervised a transition from written inventory records to punched cards, training and directing the 20 people needed for the job.

Walter Wiley and other young men like him in Bell Telephone Companies throughout the country help bring the finest communications service in the world to the homes and businesses of a growing America.

## Raiders Hope To Even Loop Record At Hogs' Expense

## Pics Take On All-Stars

The freshman game will precede the varsity's encounter with Arkansas at 8 p.m.

Texas Tech's freshman basketball team, which currently features four players scoring in double figures, will meet the Lubbock All-Stars at 6 p.m. tonight in the Coliseum.

Coach Charlie Lynch's Pica-dors who sport a 6-1 record are led in scoring by Dub Malaise with a 22.9 ppg. average. He is followed by James Adams at 12.0, Dave Olsen, 10.7; Norman Reuther, 10.3 in double figures; Russ Wilkinson, 9.9 and Bobby Measels at 9.7 are close behind.

Leading rebounder is Adams with a total of 71 for an average of 10 per game. Olsen follows closely with 68, then Reuther 53 and Wilkinson at 47.

In last week's games, four new "highs" or "lows" were reached by the freshmen as they drubbed Midwestern's junior varsity, 103-59 and suffered their first defeat at the hands of West Texas State, 94-87.

The new team high included 103 points scored and 41 field goals made against Midwestern and 29 personal fouls in the West Texas State game.

The Lubbock All-Stars are to feature several former Southwest Conference cagers.

### BAPTIST SLATE PARTY

The Baptist Student Union will have its spring semester "welcome party" at 6:30 p.m. Tuesday in the BSU Center, 13th St. and Ave. X. Theme of the party will be "Truth or Consequences."

## Panic When You Talk?

A noted publisher in Chicago reports a simple technique of everyday conversation which can pay you real dividends in social and business advancement and works like magic to give you poise, self confidence and greater popularity.

According to this publisher, many people do not realize how much they could influence others simply by what they say and how they say it. Whether in business, at social functions, or even in casual conversations with new acquaintances, there are ways to make a good impression every time you talk.

To acquaint the readers of this paper with the easy-to-follow rules for developing skill in everyday conversation, the publishers have printed full details of their interesting self-training method in a new book, "Adventures in Conversation," which will be mailed free to anyone who requests it. No obligation. Send your request to: Conversation, 835 Diversey Parkway, Dept. 9892, Chicago 14, Ill. A postcard will do.

By RAY FINFER  
Acting Sports Editor

Texas Tech's Red Raiders will try to even their loop record at 3-3 tonight, as they entertain the Arkansas Razorbacks in the Lubbock Municipal Coliseum at 8 p.m.

Tech brought its conference record up to 2-3, last Saturday night with a 60-59 victory over Baylor in Waco. At the same time Arkansas toppled tough Texas A&M, 66-65. The Hogs have a 3-2 record.

The Raiders will start Harold Denney at center; Glen Hallum, and Bobby Gindorf at forward; and Mike Gooden and Sid Wall at guards.

Arkansas will send out Larry Woiford at center; Jim Wilson and Jim Magness at forwards and Skippy Coffman and Tommy

Boyer at guard. Boyer leads the Hogs in scoring with a 15.5 average followed by Wofford's 11.2 ppg.

It was the final shot by tiny Gooden that won the Baylor game for the Raiders Saturday night. With seconds to go Gooden first lost the ball to give Baylor the lead, and then sank a 20 footer to ice the game. Tom Patty blocked a last second desperation shot by the Bears to finish off matters. Denney led Tech scorers with 18 points.

Tech is the only SWC school with an edge over Arkansas in basketball. The Raiders have won 70 per cent of the conference games from the Hogs for a 7-3 record. Going into the current season Arkansas leads TCU 59-19; Baylor, 55-21; A&M, 56-22; Rice, 52-26; SMU 50-28; and Texas 41-37, in games played.

Counting tournament games Tech holds an 8-5 advantage over Arkansas. The first time the Raiders met the Razorbacks was in 1942, when Arkansas topped Tech 43-38 in the All-College Tournament at Oklahoma City.

Comparative scores for the year seem to indicate that Arkansas will narrow Tech's margin of victory.

Arkansas took SMU, 73-71, while the Raiders lost 70-61. Texas beat the Hogs 69-63 and Tech 78-58. Both Arkansas and Tech beat TCU. Tech won 69-66 and Arkansas, 81-59.

Conference standings show Texas out front with a 5-0 record, followed by Arkansas, Rice and A&M tied for second with 3-2. Tech, Baylor and SMU all hold records of 2-3 and TCU holds on to the last spot with 0-5.
