

Aycock Wins Presidency

By **BILL HEARD**
Toreador Copy Editor

In Wednesday's election that kept a harried squad of vote counters hard at work until past 9:30 p.m., the 1962-63 student council president, vice president, secretary, business manager and a host of finalists for cheerleader positions were picked.

Charlie Aycock, receiving 2295 votes, defeated Dick Perkins, who tallied 1064, for the post of president. Jerry Parsons, running unopposed, was elected vice president.

The 1836 votes cast for Karen Anderson won her the office of secretary. Ginger Butler received 1518 votes. Kenny Abraham, also running unopposed, was elected business manager.

A last minute word-of-mouth campaign to elect Dick Perkins vice president brought in 336 write-in votes. A few write-in votes for other candidates were also cast.

The Elections Committee, headed by Peggy Maloy, requested the Supreme Court to deliver an "advisory opinion" on the legality of write-in voting.

"The Court studied the constitution and bylaws and found no way to count the write-in votes," Miss Maloy said. She explained that it was the final decision of the Elections Committee and not the Supreme Court's decision that declared the write-in votes void. This did not, however, make the rest of a ballot with a write-in vote void. Only the vote for vice president was thrown out.

Miss Maloy hedged when questioned about the basis for the decision made by the Supreme Court on write-in voting. It was based, she explained, on parts of the bylaws rather than the constitution itself. She refused to make a statement on the decision but said she would after receiving an explanatory letter from the Court.

Members of the Elections Committee are Peggy Maloy, chairman; Jane Crockett, Sidney Gibbs, Larry Gibbs, Gin-

ger Butler, Don Rucker, Dick Perkins and John Ward. Runoff elections will be necessary in choosing new cheerleaders. Six boys and six girls will be voted on in the next election.

In the voting for boy cheerleaders Mark Murdock posted the highest amount of votes with 1363; Jim Vick, 1304; Lee Pfluger, 1144; Johnny Appleby 1091; Wendell Newman, 1062; Mark Taylor, 1033; Larry Pelt, 1032; and Larry Gill, 874.

In the runoff will be Murdock, Vick, Pfluger, Appleby, Newman and Taylor.

Voting for girl cheerleaders saw Carolyn Buxton leading with 1356 votes; Marianne McCarthy, 1165; Christie Brown, 991; Polly Dahl, 963; Judy Jackson, 910; Diana Harbert, 893; Jimmie Bibb, 796; Judie Halsey, 769; Carolyn Wood, 683; Dottie Mize, 525.

In the runoff election will be Buxton, McCarthy, Brown, Dahl, Jackson and Harbert.

Engineers Sponsor 30th Annual Show

By **JOE COWEN**
Toreador Staff Writer

Tech's 30th annual engineering show is scheduled for Friday and Saturday.

Displays on the campus will represent the engineering, physics, chemistry, agricultural and geology departments. Exhibits in the architecture and allied arts department will also be shown.

Visitors of the West Texas Museum will view the 26-foot-tall Mercury capsule of the type used by Lt. Col. John H. Glenn in his recent orbital flight. Military science exhibits will include showing of Nike, Little John and La Crosse rockets in front of the Textile Engineering Bldg.

"One purpose of the engineering show," said Kenny Abraham, the show's general manager, "is to display to the public some of the most recent technological developments, and to give them a

preview of greater scientific and engineering advances yet to come."

This year's show is also designed to familiarize the public with Texas Tech's curricula and facilities which are available to engineering students.

"We wish to stimulate interest among visiting high school students in the fields of science and engineering by demonstrating to them the importance of science and technology in this decade of the 'Soaring Sixties,'" Abraham added.

In conjunction with the engineering show, Tech's military science department is sponsoring free airplane rides from 9 a.m. to 5 p.m. Friday and Saturday. Any Army or Air Force ROTC cadet will be allowed to ride.

Tickets for the free ride can be picked up any time after Thursday noon in East Engineering 107. Free bus service to and from the airport will be available.

A 250,000 volt electro-static generator, a small version of the type used to smash atoms, will be demonstrated by electrical engineering students. Students of electrical engineering designed and built the apparatus. Also featured in the electrical engineering department is a light seeking device, electronic robot and a heat sensing machine.

"Mr. Cork," Tech chemistry department's conception of the typical modern man, will point out the chemistry behind such modern innovations as detergents and plastics. "How Mr. Cork Ticks" will be the theme of the bio-chemistry exhibit. Mr. Cork and his scientific examinations can be seen in the Chemistry Bldg.

Methods for remedying technical problems of twentieth century farmers will be demonstrated in the West Engineering Bldg. by America's future agricultural specialists. Farm power and machinery, soil and water conservation methods, farm structures, rural electrification and cotton gin engineering procedures will be explained in the agricultural section.

Tech's department of architecture and allied arts will demonstrate modern methods of presenting architectural and allied art education.

Included in the physics department agenda is a display of man-made lightning, ultraviolet sodium light and other electro-magnetic devices. It will also be demonstrated how fallout radiation is measured in the atmosphere.

The Air Force will display the 70,000-pound Minuteman missile and other modern weapons behind the Museum.

Exhibits in the geology department will involve studies in mineralogy and rock formation.

PREPARING AN EXHIBIT

... for the Home Economics Open House, to be presented Friday and Saturday, is Kay Kagay, junior from Dallas.

Open House Offers 'Home Ec's Image'

"Home Economics 'Image,'" the 1962 Home Economics School Open House, will be presented from 1-5 p.m. Friday and 9 a.m.-5 p.m. Saturday.

"Many people have a mistaken idea about what a home economics education includes; for this reason we decided to build our 1962 show around a theme of images in hopes of giving the public a better idea of one of the newer professional fields," Nickie Woelfel, general chairman of the Open House, said Wednesday.

The six departments of the school—applied arts, child development and family relations, clothing and textiles, food and nutrition, home economics and home management—have joined together to show the people different phases of a home economics education.

Highlights of the two-day open house include fashion shows at 2, 4 and 7 p.m. Friday and 10:30 a.m., 2:30 and 4 p.m. Saturday, featuring garments made and modeled by students in the clothing and textiles department.

Following the style show a skit depicting mistaken ideas which people have about home economics education will be presented by the child development and family relations department.

A luncheon for School of Home Economics exes and graduating seniors will be held in the downstairs Ballroom of the Tech Union at noon Saturday. Tickets are \$1.25 per person.

"We honor all returning students at our open house, but we also hope that it will encourage high school girls to major in this field," Miss Woelfel said. "Our open house has areas of interest for everyone on campus as well as for ex-students and high school girls. We hope everyone will attend."

Dolphins Present Annual Program

Texas Tech's swimming team will present its annual Dolphin Water Show May 5 and 6. The swimming team will add color to the program this year, when 12 girls perform routines.

During the two-hour program of diving stunts there will also be a fashion show, provided by one member from each of the sororities.

Hemphill-Wells will provide the bathing suits for the girls and will also provide a commentator for the program.

The theme of the show this year will be movies, such as "Peter Gunn," "Summer Place" and "Exodus." Music from these movies will be played during the show.

A platform will be built over the swimming pool in the men's gym for the fashion show. During the show there will be clown diving and platform diving. An estimated 20 to 30 persons, including 11 lettermen will perform.

Tech's swimming team will lose only two lettermen next year. They are Jack Shipley and Jim Climer. Tech had 13 dual meets this past season, winning seven and losing six. The team plans to attend 19 dual meets next season. The six schools in competition will be Rice, Baylor, SMU, Texas A&M, Texas Tech and Texas University.

Tech Hosts Interscholastic League

(See Story, Page 5)

Greek Organizations Compete In Inter-fraternity Sing Song

Eleven sororities and four fraternities will participate in an Inter-fraternity Sing Song at 8 p.m. Friday.

Larry Cox, KDUB announcer, will be master of ceremonies at the competition in the Municipal Auditorium.

Sororities participating are Alpha Chi Omega, Alpha Phi, Chi Omega, Delta Delta Delta, Delta Gamma, Gamma Phi Beta, Kappa Alpha Theta, Pi Beta Phi, Phi Mu, Sigma Kappa and Zeta Tau Alpha. Fraternities in competition are Delta Tau Delta, Phi Delta Theta,

Phi Kappa Psi and Sigma Chi. Judges will be Lewis Pipin, Amarillo; A. V. Wall, Brownfield; and Wayne Hinds, Lubbock. The Sing Song is an annual event sponsored by Phi Mu Alpha. Last year's winners are Kappa Sigma and Pi Beta Phi.

EVERBODY'S WONDERING: What happened to the April edition of the **BACCHANAL** magazine featuring Tech as its college of the month and when it finally appears what words of wisdom (?) it'll have to say concerning our alma mater . . . why they stayed up so late Monday night just to see Paul Newman only once on a yearly show that should've been dubbed **WEST SIDE STORY ACADEMY AWARDS SHOW** . . . when the **MAGIC SPELL** will end and the camp will be camouflaged under another dust storm . . . how **DEAD WEEK** can begin in only 26 days when they're just now recovering from the shock of last semester's finals.

AND THEN

IT'S THE RAGE . . . with Tech coeds now to wear matte-finished nail polish that has no shine and pleated culottes that look and act like skirts but aren't really . . . **TO MARVEL** at the ingenuity of the four Tech guys that are bringing the **KINGSTON TRIO** to town . . . **TO FIND** that everyone you're looking for is at singsong practice, an intramural ballgame or riding a bicycle around the circle

AND THEN

EVER THINK ABOUT what happens to all that gold stashed away in your bank account during a school year? The College and University Business magazine says that the **AVERAGE COLLEGE STUDENT** (what ever that is) spends about \$2,500 a year.

Out of this amount about \$2,015 goes to the college in the way of tuition, room and board and fees. (We won't argue this point!) Next come clothes on the expenditure list taking an average bite of \$117 out of the budget. Recreation and textbooks take care of the remainder of cash according to the article.

AND THEN

THE SOCIAL CALENDAR for this big spring weekend sets a rapid pace for collegians out on the town.

TODAY at noon the Tech Stage Band will appear in the snack-bar area of the Union for a **JAM SESSION** at 11 a.m. A **SQUARE DANCE** is in the offing at 7 p.m. tonight at the Union.

The Dolphin Swimming Fraternity begins a **WATER SHOW** at 8 p.m. tonight at the Men's Gym. The show will continue through Saturday. Also on the agenda is a **FIJI-TRI DELT** mixer beginning at 6:30 p.m.

HIGHLIGHTING FRIDAY'S EVENTS is the Phi Mu Alpha singsong from 7 to 11 p.m. at the Municipal Auditorium.

Other activities set for Friday include a **SIGMA KAPPA** retreat and the Tech Accounting Society dinner-dance at the Palm Room.

AND THEN

PI BETA PHI members and dates will be dining and dancing at the Parkway Manor Saturday night at the annual Pi Phi dinner-dance.

Saturday also marks the day for the **AIR FORCE ROTC** formal ball beginning at 8 p.m. in the downstairs Ballroom of the Union.

KAPPA ALPHA members and dates will turn back the pages of time with an **OLD SOUTH BALL** Saturday at the Hillcrest Country Club and parents of **CHI OMEGAS** will be honored this weekend with a coffee Saturday morning and a dinner-dance Saturday night at the Rush Party House.

Members of **PI KAPPA ALPHA** will entertain dates at a lodge Bermuda Party set for 8 p.m. Saturday at the Pike Lodge.

Rodeoers Sign At Tech Union

Entry blanks for prospective contestants in the All-College Rodeo may be obtained each day until the rodeo starts in Rm. 204 of the Tech Union. The rodeo will run April 19-21 in the Lubbock Municipal Coliseum.

Cratus Doughitt, rodeo chairman, announced that plans for the rodeo were well on the way to completion. The performances for the three nights will be at 8:00 with admission prices of \$1 for students, \$1.50 for adults, and 50 cents for children.

Special events will be the Fraternity Wild Mare Race and the Sorority Calf Dressing in which a great deal of interest has been shown. The stock for the rodeo will be furnished by Walter Alsbach, nationally known producer from Almosa, Colo.

A rodeo parade will be held Thursday before the rodeo at 4 p.m. Everyone is urged to attend or participate.

WSO Chooses New Officers

WSO, Women's Service Organization, has announced new officers for the coming year.

Officers elected at the regular meeting Wednesday are Annette Sims, president; Dorothy Hickman, vice president; Jeannie Stark, corresponding secretary; P. O. S. Pierce, recording secretary; Judy Walden, treasurer; and Donna Lovel, pledge trainer.

Gamma Phis Treat Tri Deltas To Meal

Gamma Phi Betas hosted a winter roast Monday night at their lodge for the Delta Delta Delta sorority.

Last spring the Gamma Phi challenged the Tri-Deltas to a scholarship contest for the fall semester, 1961. Losing the challenge by .0046, the Gamma Phi had to treat the Tri-Deltas. The grades of the two groups were Delta Delta Delta: 1.6763, and Gamma Phi Beta 1.6717.

During the get-together Monday, the Tri-Deltas renewed the challenge for the spring semester.

AIR FORCE ROTC BALL—Here is a scene to be repeated Saturday at the annual Air Force ball in the downstairs Union Ballroom. Highlight of the evening will be the naming of "Miss Top Flight" from the current group of sweethearts. Music will be furnished by the Ted Weems orchestra.

Twilight Music Hour Presents Heritage Concert In Museum

Twilight Music Hour, sponsored by the West Texas Museum presents a Music Heritage Concert at 3:30 p.m. Sunday in the Museum Auditorium.

The program opens with "Intrada" by Honegger followed by Debussy's "Rapsodie," featuring Keith McCarty on the saxophone and Mary Helen McCarty at the piano.

Glenn Finney plays the piano in "Vales Nobles et Sentimentales" by Ravel and Bloch's "Concertino" concludes the concert.

The Twilight Music Hour is co-sponsored by Allegro Music Club, Lubbock Music Club, Music Appreciation Club, Past Presidents Assembly and South Plains Music Teachers Assn.

High School Students Flock To Tech For Interscholastic League Contests

By ANN BALZER
Toreador Staff Writer

This weekend Texas Tech will roll out the red carpet for more than 2,500 West Texas high school students when they invade the campus Friday and Saturday for the annual Texas Interscholastic League meet for Region 1.

Students participating in the regional competition are the winners of their district meets. One of the four regions in Texas, this region includes 160 high schools representing 30 districts. This weekend's winners will go to the state-wide meet in Austin.

District winners from Class AA, A and B schools in the Panhandle and South Plains will compete for championships in athletics, literary events, speech, mathematics, journalism, science and drama.

The annual regional meet is under the direction of Dr. Holmes A. Webb, associate professor of education at Tech. Members of the regional executive committee include Webb; Freeman Melton Jr., superintendent of schools, Panhandle; Dr. W. E. Oden, associate professor of government, Tech; Ronald Schultz, associate professor of speech, Tech; Don Sparks, athletic department, Tech; and S. P. Stewart, superintendent of Borden County Schools, Gail.

Students will compete in the following events: track and field, tennis, golf, one act play, debate, extemporaneous speaking, persuasive speaking, poetry interpretation, prose reading, journalism, ready writing, typewriting, shorthand,

number sense, slide rule and science.

During the Interscholastic League meet, the West Lobby of Tech Union will be used as the Information Center for the participating high school students. Results of the contests will be posted there.

Interscholastic Leaguers and other visitors to the campus will be guests at Tech's 30th Engineering-Science Show. The engineering show will feature a giant Mercury space capsule similar to the one in which Lt. Col. John H. Glenn Jr. recently orbited the earth.

"Home Economics' Image," the theme of the school's annual open house will also be open to the visiting teens. Exhibits and displays, as well as fashion shows and skits, will highlight the open house.

The high school students have been invited by the architecture and allied arts departments to attend the 23rd annual Texas Painting and Sculpture Exhibition now on display at the Museum.

The Tech Red Raiders will play an intra-squad football game following the final track event Saturday. Visiting students are invited to attend. There will be no admission charge.

Sports events in golf, track and field and tennis are scheduled to begin Friday morning. Tee off time for the golf meet is 8:30 a.m. at Meadowbrook Golf Course in Mackenzie Park. The plan followed will be 18 holes medal play. Contestants may play one practice round Thursday. Players will be paired according to the individual qualifying

scores from the district contests.

Jay McClure is the director for the golf competition.

Track and field events will begin with field preliminaries at 10 a.m. Friday at the Tech track, located south of the Municipal Coliseum.

Field events will include pole vault, high jump, shot put, broad jump and discus. The running events will begin at 1 p.m. Final track and field events will be on Saturday.

Director for the track and field events is Don Sparks of Tech's athletic department. His assistant will be Leonard Eller.

Boys' and girls' tennis matches begin at 8:45 p.m. Friday at the Tech and Lubbock High School courts. George Philbrick and John Cobb have been named as the directors for the tennis matches.

Competition in the one act play division will be kicked off at 7:30 p.m. Friday at W. B. Atkins Junior High School as the class B schools perform. Rehearsals are to be from 4-7 p.m. Schools wishing to rehearse should report at least 15 minutes prior to their scheduled times. A student stage manager will be there to assist them.

Class AA and A one act play competition will be on Saturday at Wilson Junior High School and W. B. Atkins Junior High School respectively. Ronald Schultz of Tech's speech department is the director for these events.

Other events are scheduled for Saturday. Debate competition has been set for 9 a.m. in Ad Bldg. 321

with Dr. W. E. Oden as director; journalism, 8:30 a.m., Journalism Bldg. 208, W. E. Garets; poetry interpretation, 9 a.m., Ad 271, Mrs. Doris Maxey; prose reading, 9 a.m. C&O 106, Robert Dick; extemporaneous speaking, 1 p.m., Ad 219, Dr. F. Merville Larson; ready writing, 10 a.m., C&O 126, Dr. Lola Beth Green; persuasive speaking, 9 a.m.,

Ad 260, Charles Buzzard; typewriting, 8:45 a.m., C&O 322, Mrs. Dolores Kilchenstein; shorthand, 11 a.m., C&O 226, Mrs. Dolores Kilchenstein; number sense, 10 a.m., Ad 382, C. H. Willingham and Mrs. Mary Strandtmann; slide rule, 11 a.m., Ad 382, Horace Woodward; and science, 8:30 a.m., Chemistry 2, Dr. Sam Lee.

Museum Sponsors Texas Modern Art

The 1961 Texas Painting and Sculpture Annual will be on exhibit beginning today at the West Texas Museum.

This exhibit features paintings and sculptures by artists from all parts of Texas, with prevalence given to modern art. A new type of art work has been added to the exhibits this year—designs made from rusty metals, wire and car fenders.

Every year Texas artists submit their entries to the Texas Annual in hopes their work will be selected for exhibition. Entries numbering 518 were submitted to the 1961 exhibit by artists in 72 Texas towns. The jury accepted 85 works.

The Texas annual art exhibition was begun in 1940 by directors of museums in Houston, San Antonio and Dallas who organized a paint-

ing and sculpture competition open to all artists of the state.

The State Fair of Texas offered an annual Purchase Prize Fund of \$1,000 yearly and the exhibition became a feature at the Dallas Museum of Fine Arts during the Fair. Since then, the Museum of Fine Arts of Houston, Witte Memorial in San Antonio, Beaumont Art Museum and the West Texas Museum in Lubbock have shared the annual art show.

This year prizes for the 23rd competition amounted to \$4,000 of which \$3,300 is money for five purchases for the permanent collections of the sponsoring and exhibiting museums.

The exhibit will be on display through May 13. The Museum is open 8-12 a.m. and 1-5 p.m. Tuesday through Friday; 8-12 Saturday; and 3-6 p.m. Sunday.

Tech Overcomes H-SU, 7-0 For 4th Consecutive Net Win

Coach George Philbrick's Raider netters defeated Hardin-Simmons University, 7-0, here Tuesday to stretch the Texas Tech string of tennis victories to four straight.

Tech downed Southern Methodist 4-2, Texas A&M 6-0 and Baylor 6-0, before meeting the H-SU Cowboys.

In the match Tuesday, Tech won all five singles matches and two

doubles meetings. Daryl Allison defeated Glenn Schmittou 8-6, 6-1; Benny Lawrence defeated Wayne Kiser 6-2, 6-3; and Beau Sutherland defeated Glenn Downhour, 6-3, 6-3.

Don Draper downed John Paylor, 6-3, 6-3 and Jon Gottschall got past Jim Birdwell 7-5, 6-2 to complete the Raider wins in the singles division.

Sutherland - Lawrence defeated Schmittou-Downhour 3-6, 6-2, 6-2 in the regional match of the afternoon. Allison-Draper downed Kiser-Paylor 6-1, 6-3 to give Tech the clean 7-0 victory.

Texas Western has been added to the Tech tennis schedule and the Red Raiders will meet the Miners here at 10 a.m. April 20. The Raiders defeated the Texas Western netters last spring, 5-1.

Intra-squad Scrimmage Attracts Students, Regional Contestants

Persons who attend the Region One (B. A. AA) Meet on the Tech campus Saturday will have an added attraction to attend while they are here.

The Texas Tech football squad

will divide itself into two teams Saturday for their second full-scale scrimmage of the year. There is no charge for admission to the intra-squad game, scheduled to begin at 3 p.m.

Raiders, ENMU Play Saturday Doubleheader

Texas Tech's Red Raiders and Eastern New Mexico University will meet in a baseball doubleheader at Portales, N. M., Saturday.

And even though Tech Coach Berl Huffman isn't expecting the Greyhounds to be pushovers, he has a couple of statistic sheets at hand that make him feel better about the two games.

FOR ONE THING, his Red Raiders already own a pair of decisions over the New Mexico team. ENMU came to Lubbock April 2 and were upended by Tech 2-1 and 5-0, the latter a no-hitter by Ramey Brandon.

The second thing on Huffman's mind is the three-game series with New Mexico Highlands Monday and Tuesday. These matches were played on New Mexico soil also, at Las Vegas, and the Raiders bounced back after an opening loss to take the next two and the series.

The Raiders will be trying to up their mark to 13-7 with dual victories over the Greyhounds Saturday, and on the mound for Tech will be Bill Easterwood and George Nichols. Easterwood (2-1) was the winning hurler in the first game

with ENMU here. Nichols will be making his sixth start. He's 3-2 for the season.

HUFFMAN WILL be pleased if he can get the hitting from Highlands. Charley Harrison, Yippy Rankin and Doug Cannon all hit home runs for the Red Raiders in the Highlands encounters. Although Tech dropped the first game, the Raiders rapped Highlands pitching for 12 hits. Nichols and Roger Mac Evans still turned in good performances in the 8-7 loss, according to Huffman. Frank Ray and Brandon had good hitting and fielding support from their teammates in the other two games to card 4-2 and 5-1 wins.

"BUT WHAT really pleases me," Huffman reported Wednesday, "was the way our infield sparkled all three games. They had timely double plays and just played a great defensive game. They looked so good it gave me a thrill just to watch them. They were really doing the job; there's no doubt about it!"

Next home appearance for the Red Raiders will be a week from today when University of New Mexico moves in for a three game set.

Softball Leaders Emerge

After a full week of softball, the intramural leagues are now shaping up, and leaders are beginning to emerge as the season is heading into the final weeks of play.

In the fraternity league, five games were played Tuesday afternoon. ATO beat Sigma Nu, 6-0, Delta Tau Delta edged the KA's 10-8, Phi Kappa Psi whitewashed the Fijis 16-0, Sigma Alpha Epsilon took the Pikes 8-2 and the Phi Deltas shaved the Kappa Sigs 11-10.

The games scheduled for Wednesday were Fijis-ATO, SAE-Sigma Chi, Phi Deltas-Sigma Nu, Kappa Sig-Kappa Alpha and Pikes-Phi Psi.

In the dorm league, only two games were played Tuesday. Sneed beat Carpenter 14-7, and in the tightly-played Gaston-Thompson game, Gaston won on a two-base error in the first inning, 1-0. With the win Gaston broke a tie for first with Thompson.

The independents played three games on Sunday with Phi Epsilon Kappa taking full command of the league with a win over the Rebels, 5-1. In other contests, Rodeo Club beat Delta Sigma Pi 12-2 and BSU beat the Aces 2-0.

In the intramural's other league, the slow-pitch league, the Newman Club beat the Covtown Nine 4-2 in Monday's action.

12th Inning Homer Gives Boston Win

BOSTON (AP)—Carroll Hardy broke up a magnificent pitching duel with a grand slam home run in the 12th inning Wednesday for a 4-0 Boston Red Sox victory over the Cleveland Indians.

The homer gave Boston its first runs of the season. Cleveland blanked the Sox by the same score in their Tuesday opener.

TWO MEDICAL STUDENTS

... and a friend discuss plans for Saturday's Pre-Medical Day meeting at Tech. The convention is for all area high school and college students interested in pre-medical and pre-dental work.

Delegates Attend Pre-Medical Day

A mass operation involving about 200 students will be performed on the Tech campus Saturday. The fourth annual operation, referred to as Pre-Medical Day, is a regional meeting of all students interested in pre-medical or pre-dental work.

The program includes lectures by staff members from the University of Texas, Baylor and Southwestern Medical Schools, informal question session and a tour of the campus.

An informal luncheon at noon and an awards banquet at 6:30 highlight the day's activities. Any person interested in attending may purchase tickets at the Pre-Medical Society Meeting at 6:45 today in Chemistry 201.

Council Sets Deadline For Bike Race Entries

April 19 is the deadline for entry in this year's little "500" bicycle race. Entry blanks and rules should be requested by each team captain at the Student Council Office.

Entry fee for the event, to be

April 28, is \$5 and is open to both men's and women's organizations.

The following are important dates to remember:

April 19, Noon—deadline for men's entry forms and fees. The form and \$5 fee may be mailed or brought to the Student Council Office and left in Paul Dinsmore's box.

April 21, 2 p.m.—Time trials for boys' teams. (The girls are not required to take a time trial.)

April 25, 5 p.m.—Women's orientation, Chemistry 101. Also deadline for women's applications and fees.

April 26, 5 p.m.—Men's orientation, Chemistry 101. All contestants will have to be checked for physical defects at this time.

April 28, 1 p.m.—The girls race will begin. The boys race will start at 2 p.m.

Entrant information; Boys—Any six men, all Tech students, can enter as a team. Each team will consist of four riders and two pit men. The race will be limited to 30 teams, at the time trials.

A judges committee will determine the manner in which the time trials are held. The starting order of the race will be determined by the qualification time. Each team shall have only one bicycle and one rider in the race at any time. A team may have a sponsor if they desire.

Girls entrant information—Entrants shall be Tech students. Each team may have a sponsor if desired. The team will consist of four riders and two pit men. Each team will have only one bicycle and one rider in the race at any time.

The course for the boys race will be 40 laps, about 25 miles, and will include the Memorial Circle and Soapsuds Pavilion. Soapsuds Pavilion is the curbed area of which stands the Will Rogers Memorial Circle.

Engineers List New Members

A banquet at the Caprock Hotel will honor new members of Tau Beta Pi and Eta Kappa Nu, engineering fraternities, following their initiation Friday night.

Project Mercury will be the topic of guest speaker Cecil Boaz, Bell Telephone representative.

New members of Tau Beta Pi are James C. Pybus and Johnny H. Biffle of Lubbock; James A. Shaden, Houston; Hubbard E. Ferrell, McCamey; Stephen H. Birgel, Reseda, Calif.; Phillip R. Korff, Robstown; Paul S. Breedlove, Henderson; Carlyle Smith, Grand Prairie.

Others are John F. Hunter, Midland; Robert Gross, Lubbock; Robert H. Whigham, McAllen; Larry D. Pope, Pasadena; Richard D. Williams, Farwell; Darwin L. Breeding, Cross Plains; Gerald A. Galbraith, Abilene; Garland E. Robbins, Nederland; Michael N. Kennedy, Ellis G. Campbell, and Thomas A. Hargrave from Dallas.

Eta Kappa Nu new members are Robert Gross, Lubbock; Thomas Hargrave, Dallas; Phillip R. Korff, Robstown; Reagan H. Beene, Dallas; David K. Ferry, San Antonio; Russell R. Hibbs, Lubbock; and Robert M. Silva, Oakland, Calif.

Taylor Initiates 5 In Sigma Delta Chi

Bob Taylor, president of Sigma Delta Chi, professional journalist society, conducted the formal initiation ceremony of five pledges Sunday.

Initiated were Lane Crockett, Ballinger; Bill Heard, Lubbock; Bill McGee, Lubbock; Charles Richards, Jayton; and Jim Richardson, Lubbock.

Tech Student Prove Top Fire Fighters

Fire trucks and sirens aroused many students and curious residents in the new men's dorms Tuesday night when a fire broke out in Wells Hall.

The fire, which occurred about 9:40 p.m., was confined to a second floor room occupied by George Davis and E. L. Dunn. Both occupants were absent from the room at the time of the fire. Davis had just left the room and returned to find it on fire. At the same instant Johnny Johnson, wing advisor, saw he could smell smoke.

When Johnson went to investigate he discovered Davis' room was ablaze. Meanwhile several other students had been aroused by the smoke. While one student went to turn in the fire alarm Johnson and Davis and other wing mates battled the blaze with fire extinguishers and a fire hose.

F. C. Thomas, college fire marshal and assistant director of maintenance and utilities, investigated the fire Tuesday night and Wednesday morning.

"There could be a number of reasons for the fire, but right at the moment we can't pin point the cause," he said. As far as he knows, no other investigation will be made, Thomas continued.

in these cities. I had the opportunity to hear citizens discuss matters which were of vital importance to them."
Whittenburg spent Friday in Amarillo catching up on reading and research. He flew to Dallas Saturday morning, taking Anne with him. They attended a meeting of the Dallas County Conservative Republicans for Whittenburg.
"Politics now means, to me, the way the people govern themselves," Anne said. "I now realize that I know so little about how this is done, and I have been inspired to learn much more."
Anne wishes that "everybody could have a similar experience."

Tech Coed Campaigns With Dad

"I had the most fabulous time of my life," said Anne Whittenburg, a Tech student who spent her spring vacation in an unusual way. Anne, the daughter of Roy Whittenburg, candidate for the Republican nomination for governor, went on a campaign trip with her father.

Anne and her father flew to several Texas cities in a Cessna 210 piloted by her uncle, Jack Liston.

The group began the tour in Houston where Whittenburg spoke at a Republican rally. Anne listened to her father as he talked about the issues of his platform.

Wednesday, Anne accompanied her father as he spent the day "just talking" to the people. "I learned a lot from everyone, just listening," Anne said. "When we would go into a city and talk to people it was simply fascinating to hear them discuss issues."

Anne flew with her father to San Antonio Thursday. They attended a noon meeting of the Junior Chamber of Commerce.

Thursday evening they winged to Abilene where Whittenburg spent several hours talking to people before flying back to Amarillo that night.

"Each of the cities that we visited lives to me and now has a personality and character which is distinct from all others," Anne said. "I didn't feel like a tourist in these cities. I had the opportunity to hear citizens discuss matters which were of vital importance to them."

Whittenburg spent Friday in Amarillo catching up on reading and research. He flew to Dallas Saturday morning, taking Anne with him. They attended a meeting of the Dallas County Conservative Republicans for Whittenburg.

"Politics now means, to me, the way the people govern themselves," Anne said. "I now realize that I know so little about how this is done, and I have been inspired to learn much more."
Anne wishes that "everybody could have a similar experience."

Students File Applications

Students wishing to take the Law School Admission test are urged to apply immediately. This test is designed to benefit the student as well as the law school he is planning to enter.

Applications may be made by filling out an application, available in the government offices, and sending it along with \$10 to the Educational Testing Service in Princeton, New Jersey. It must arrive in Princeton no later than two weeks before the date of the test.

After the application has been received, a ticket of admission giving the exact address of the examination center and the test date will be forwarded. The ticket is required to gain admission.

A partial refund will be made for those registering but not taking the test. One should, however, notify the offices no later than 60 days after the examination date to insure one's refund.

Scores will be sent out three to four weeks after the testing date. Scores may also be sent to three law schools without extra charge. A dollar must accompany each request for an additional transcript after the first three have been sent.

This test is required by most law schools for entrance.

Public Welfare Or Private Insurance?

Medical Care For Aged Presents Problem

By PATSY ROHRDANZ
Treador Staff Writer

As college students and young Americans we should quickly become aware of the nation's fastest-growing economic problem—medical aid for the aged.

In years to come we may be faced with the responsibility of maintaining parents and kin. Along with the increasing vulnerability to long-term illness, the elderly man or woman typically has a greatly diminished ability to pay for medical care.

"The fear of future illness is something that people live with every day," Secretary of Health, Education, and Welfare Abraham Ribicoff said recently. The financial burden placed on the elderly by the high cost of illness has built increasing pressure for Federal solutions to the problem.

Federal medical aid to the aged has been a controversial issue in Congress ever since the 1960 Presidential campaign. In the running battle over medicare, the name given medical aid for the aged, the question of who should pay to provide health benefits for the nation's growing aged population seems to have been settled.

Under both the Kerr-Mills Law and the Administration's proposed King-Anderson program, substantial amounts of money come from Federal funds. And the financial source is the same in both cases: The taxpayer.

While two other programs have been put forward, the battle still remains between the controversial King-Anderson bill, providing medical aid for the aged under social security, and the 1960 Kerr-Mills law which provides for both doctor and hospital bills, but only in those states which vote to foot about one-third of the cost.

The National Association of Blue Shield Plans and the American Medical Association disclosed a plan for a privately financed program for persons 65 and older. This program, designed to head off the Kennedy Administration bill, may go into operation by July 1.

The AMA plan makes no provision for hospital bills and will cost eligible applicants a uniform fee of about \$3 per person per month. This fee will provide full medical and surgical services—but will not include house calls—for single persons with annual incomes of \$2,500 or less and couples whose combined income is \$4,000 or less.

A tentative plan put forward by the American Hospital Association and Blue Cross early in January would supply with Federal support, broad hospitalization benefits at an estimated cost of \$10-\$12 per month to subscribers.

The most controversial plan brought before Congress is HR 4222, the King-Anderson bill—a 67 page master plan for health care of the aged which has rested un-tilly in the files of the House Ways

and Means Committee ever since its introduction early last year. Faced with a key election in the fall, the Kennedy Administration is bending every effort to make the bill's passage a crowning achievement of the Congressional session.

The King-Anderson bill (named after Rep. Cecil King of California and Sen. Clinton Anderson of New Mexico) provides:

—Hospital care in semi-private rooms for up to 90 days a year. The patient, however, would pay \$10 a day for the first nine days. Admission and length of stay to be determined by the physician. The program does not pay the patient's doctor bill.

—Skilled nursing—home care after the patient has left the hospital for up to 180 days.

—Outpatient diagnostic services such as X-ray and blood tests, done at a hospital. To make sure such services are used only when needed, the bill calls for a \$20 deductible to be paid by the patient for each study.

—Payment for visiting or intermittent nursing in the home for up to 240 visits a year.

The plan would be financed by an increase in the social-security payroll tax of one-fourth of 1 per cent for employers and employees. At the same time, the social-security tax base would be raised from \$4,800 to \$5,200 of income. What it amounts to, would be an annual payment of \$13 for every

worker—matched by his employer. Ever since the measure was proposed, hospital care for the aged under social security has been implacably opposed by the 180,000 member American Medical Association. The AMA's prime argument: The King-Anderson measure is the first stealthy step toward socialized medicine.

Proponents of medicare feel that Kerr-Mills might be useful to augment the King-Anderson measure, covering those who are ineligible for social security. But the AMA proposes that Kerr-Mills should be augmented by the voluntary health insurance, especially Blue Cross and Blue Shield.

How this difference will be resolved depends largely on which side succeeds in swaying the votes of the undecided members of House Ways and Means. During their three-week Easter vacation, members of the House Ways and Means Committee will meet their constituents and have a new opportunity to make up their minds.

Which way would you vote?

Career Cues

"Cure for job boredom: I made my favorite pastime my career!"

Richard Bertram, President Bertram Yacht Co., Division of Nautech Corp.

"When you stop to think what percent of our total waking hours is spent bread-winning, you realize how tragic it is for any man to work at an occupation he doesn't enjoy. Besides frittering away life, it reduces chances of success to just about zero. I know... because it almost happened to me!

After college, I did what I thought was expected of me and joined a solid, Manhattan-based insurance firm. I soon found office routine wasn't for me. I lived only for

lunch hour when I could walk to the Battery and mentally sail with the ships that stood out in the Narrows... and for the summer weekends when I could go sailing. Fortunately, the company I worked for is one of the leading insurers of yachts and after two years I was transferred to their Yacht Underwriting Department. Enjoyment and interest in my work improved immediately 100%.

After World War II, I started my own yacht brokerage firm and yacht insurance agency in Miami, combining my marine insurance background with an even closer relationship with boats.

My only problem ever since has been a feeling of guilt that my work was too easy. I love boats and boating people. That affection has paid me rewards way beyond the financial security it has also provided.

The moral's obvious. You have an odds-on chance for success and happiness working at what you enjoy most—what comes naturally! And if it's not just frivolous, your life's work could well be what you now consider just a pastime. It's certainly worth thinking about, anyway!"

Richard Bertram, while still in his early thirties, became one of the country's leading yacht brokers. Today he heads up eight companies covering yacht manufacturing, insurance, repair, storage, finance and brokerage. A resident of Coconut Grove, Florida, Dick became a Camel fan while still in college.

And to make any time pass more enjoyably...

Citizenship, Medal Goes To Circle K

Club Wins Award

Circle K International has been awarded the George Washington Honor Medal for its college campus citizenship program in 1961.

This is the second consecutive year that Circle K has received the Honor Medal for its college campus award, presented by the Freedoms Foundation at Valley Forge.

Circle K is a service club sponsored by a local Kiwanis club which voluntarily assumes the leadership responsibilities in its college campus and host community. It is the fastest growing service organization on college campuses.

Though a relatively new organization—now in its seventh year—it already numbers more than 7,500 members at about 385 colleges throughout the United States and Canada. Seventy-five new clubs were chartered during 1961.

Circle K's work in promoting citizenship by participating in service projects on the campus was singled out for acclaim by the Freedoms Foundation. The George Washington Honor Medal is given the same significance in the community service field as the "Oscar" in the motion picture industry.

Six Attend Air Force Conclave

Six advanced cadets in Texas Tech's Air Force ROTC Corps left Wednesday to attend the 14th National Arnold Air Society Conclave at Los Angeles, Calif., April 11-14.

The students are all members of the Tech Arnold Air Society, AF-ROTC organization. They are accompanied by Lt. Col. George R. Hull, professor of Air Science.

Those attending are Danny Williams, Lubbock; James Murphey, Slaton; James Akers, Odessa; Max Gillaspay, Fort Worth; James Lang-

ley, Mt. Pleasant; and Serge Cherney, Houston.

Highlight of the conclave will be a military ball Saturday night in the Grand Ballroom of the Statler Hilton.

Besides attending the business sessions and lectures, the cadets will participate in several educational and entertaining events.

Trips have been arranged to Disneyland, Pacific Ocean Park, Chinatown, Farmers Market in Hollywood, North American Aircraft Plant, Metro-Goldwyn-Meyer Movie Studios, and the beach.

Five Dorms Elected 62-63 Legislators

Legislators have been named in five women's dormitories. Their selection was made by the dorm councilors after they had been screened by an executive committee.

The new Doak Hall legislators are Elizabeth Blankowski, Carolyn Cleveland, Kay Cravens, Jerry Alyce Hammond, Emily Hejl, Juddie Hopkins, Lynda Jones, Dottie Martha Searcy, Nancy Therrell, Kathryn Timmins, Kay Vick, Nancy Vincent, Sandra Wolfe and Johnnie Yates.

Fulfilling legislator duties in Drane Hall will be Nell Anne Walter, Darlene McDougall, Barbara Sperberg, Gloria Martin, Darlene Parlette, Vera Ann Perrin, Cynthia Strawn, Dianne Taylor, Sue Mithchuson, Janet Hetherington, Sidney Gibbs and Ann Painter.

Knapp Hall's new legislators include Catherine Ramsour, Judy Vilven, Susan Manning, Janice Lippard, Kathy Osthoff, Kay Phelps, Barbara Sue Owen, Ann Mehaffey, Sally Berghane, Elaine Lewis, Carol Roach, Robin Funnell, Carol Lee Page, Carolyn Traylor and

Ernestine Matustik. The legislators for Weeks Hall will be Jeannie Bookout, Jo Ann Caldwell, Judy McKinnon, Jan Kendall, Virginia Falls, Beverl Truett, Alyce Anne Martin, Carolyn Davis, Pat Purcell, Dian Davis, Karen Capps, Ann Dennis, Sue Ring, Janice Bigham, Mary Alice Hill and Karla Dickson.

Legislator duties in West Hall will be filled by Jo Beth Barndonna Dennis, Carolyn Gish, Johette Hassell, Pamela Henry, Susan King, Ann Kollenberg, Bett Newby, Judy Sanford, Beverly Sprabery, Karen Tomfohrde and Ann Wheeler.

Legislator duties include attending all meetings of the dorm legislature and reporting its activities to their wing. They also serve as the voice of those who represent in their wing to the legislature. Other obligations are the responsibility for the maintenance of dorm regulations and standards in the area they represent and reporting to the counselor any need for special help among the girls on their wing.

Techsans Feel Better With Daily Exercises

Don't just sit there, EXERCISE! Phrases similar to this are sweeping the United States and Tech as well. Techsans interested in keeping their bodies in good condition are doing exercises from push-ups and weight-lifting, to bicycle riding and swimming. Some started exercising for the purpose of improving their health and kept it up simply because they were feeling better.

Sitting in front of the television set may make one as smart as Howdy Doody, but exercising will aid in making one feel better.

For centuries the Yogas in the Far East have practiced daily exercise. They believe the mind and body must be in perfect condition before one can be pure spiritually.

These spiritualists have reason for believing the body and mind must be clean before spiritualistic satisfaction is reached. They believe that an impure body and mind will prevent spiritual growth because it would be detracting from their meditating and praying.

They adhere to the belief that

the mind has a great deal to do with the health of the body, and that the body and mind work hand-in-hand for physical and mental purity.

One of the more important exercises is the breathing exercise designed to strengthen the lungs and to prepare the body to use much less oxygen than is normally required.

Musicians all over the world work constantly to develop the lungs and diaphragm to control the amount of air inhaled and exhaled. One of the best examples of breath control is Rafael Mendez, world famous trumpet virtuoso. Mendez can hold one note for over three minutes. He uses what is known in music circles as "circular breathing." In other words he has developed the ability to inhale through his nose while he plays his instrument.

This technique requires a tremendous amount of muscular ordination. Mendez must use facial muscles to push air while he is refilling his lungs with fresh air.

Hypnosis Opens Door To New Medical Aids

By JOE H. COWEN
Toreador Staff Writer

Struck by the mysterious qualities of hypnotism, newspaper writers have for generations made journalistic capital of the subject. Cartoonists, vaudeville artists and radio and television performers have taken every available opportunity to lampoon hypnotism.

Hypnotism is usually defined by psychologists as a heightened state of suggestibility. An English surgeon, James Braid, gave hypnotism its name in the middle of the nineteenth century. Hypnosis is derived from the Greek word *hypnos*, meaning sleep.

Even though hypnotic sleep is common terminology today, investigators are aware that the state of hypnosis is not sleep. Electroencephalographic (brain wave) tracings indicate the hypnotized subject to be awake rather than asleep.

In about 1760 Franz Alton Mesmer introduced Mesmerism, which he called "animal magnetism." Although Mesmer was discredited scientifically, he was the first to exploit the hypnotic phenomena.

Jean Martin Charcot was the first to make a serious scientific investigation of hypnosis; he described three characteristics of the condition tend to convey the impression, rigidity and somnambulism.

Charcot, a neurologist, studying hysteria, found it as common in men as in women and discovered that a cure could be elicited through the proper application of hypnosis.

During the time of Charlot, hypnosis was used to alleviate suffering during various surgical procedures. A number of amputations were performed using no anesthetic other than hypnosis. Also during this period the anesthetic properties of chloroform and nitrous oxide were discovered. These anesthetic gasses almost rang the death knell of the science of hypnosis.

It seems the general consensus of opinion that hypnosis is, in itself, a panacea for various ills and a multitude of sins. Popular articles which have sensationalized the uses of hypnosis and the effects achieved through its application tend to convey the impression that in order to achieve the desired end results, all one must do is find a hypnotist.

Nothing could be further from the truth. Small miracles have been achieved through the effective uses of hypnosis but even greater failures have been elicited through inept techniques.

Many medical practitioners have been trained in the proper use of hypnosis by competent psychologists and are now applying hypnosis to the practice of medicine. Medical and dental applications of hypnosis concern primarily the alleviation of pain by hypnotically induced analgesia or anesthesia. In some instances hypnosis is used to induce a feeling of well-being or a state of tranquility.

Hypnosis is especially useful to the dentist in the relaxation of patients. Capillary bleeding is readily controlled following tooth extractions by the use of proper hypnotic procedures. Such phenomena is made possible through manipulation of the mind's power over the body.

Other physiological functions may be controlled in the same manner; however, suggestions to the hypnotized subject must be made in such a manner as to be semantically concise and in accordance with the individual's religious and moral convictions.

Effective use of hypnosis is an art which must be fitted to the individual personality in much the same way as a suit of clothes is tailored to the individual physique. Range of personality differences is even wider than the range of physical differences, therefore, one individual should not expect the same results from hypnosis as that obtained by another individual.

Union Spots Hop, Movie

The Tech Union has scheduled numerous activities this week, according to Karen Moore, program council chairman.

KSEL disc jockey, Dee Wooten, will be spinning popular platters at the DJ Hop at 7 p.m. today in the upstairs Ballroom. All students are invited to attend.

The Games and Tournaments Committee is sponsoring a Hearts tournament at 7 p.m. today in Room 205 of the Union. There will be four-hand games, each playing for himself. A first place and consolation prize will be given. One must have a 1.00 average to enter the tournament.

The monthly Jam Session, featuring the Tech Stage Band, will be at 11 a.m. today in the Snack Bar area.

A square dance is scheduled at 7 p.m. today in the upstairs Ballroom of the Union. The dance will feature B. E. Terrell of Lubbock as the caller. To refresh a few memories, a brief square dance lesson will be given at the beginning of the informal event.

Skills and Frills, sponsored by the Hospitality Committee, will especially interest the Tech coeds. The program, featuring a speaker on charm, poise and fashion, will be at 7 p.m. today.

Concluding the week's round of activities will be a movie shown at 4 and 8 p.m. Friday and 2:30 p.m. Sunday in the upstairs Ballroom. The movie, "The Man Without a Star," features Kirk Douglas and Jeanne Crain.

Dramatic Fraternity Initiates Six Pledges, Plans Luncheon

Sock and Buskin initiated six spring pledges Sunday at a pledge initiation party in the Green Room of the Theater Workshop.

Pledges initiated were Dan Johnston, Phil Davis, Sammy Bou-Said, Janice Newbill, Jane Spencer and Durward Jacobs. Each pledge had to present a prepared skit.

Jacobs came unprepared and his penalty was to read from the yellow pages in dialect with emotion.

Today at noon other pledges will be initiated at a meeting in the Green Room. Members planning to attend are asked to sign a paper on the bulletin board in the speech department.
