

**LA VENTANA EXTRAVAGANZA BEAUTIES**—These 29 Tech coeds will vie for the coveted title of Miss Mademoiselle Friday night at 7:30 p.m. in the Lubbock Municipal Auditorium. The winner and the nine finalists, along with the Miss Playmate selection, will travel to Ruidoso for a three-day skiing holiday at the Sierra Blanca Corp. resort during spring vacation. Tickets for the Extravaganza, which will feature a variety show as well as the selection of the beauties, are on sale in the Tech Union. Admission is \$1 per person or \$1.50 a couple. The semi-finalists, left to right sitting, are Brenda Rogers, Judy Richerson, Diane Baker, Patti Ayers, Julia Ann Herrell, Latrice Teague, Linda Ann Nolan, Gay Gillespie, Tana Tolleson and Frances Rader. Left to right kneeling are Carole Kay Jobe, Ann Schmitz, Sandy Broxton, Judy Boney, Kay Sanders, Krista Heimberg, Betty Mosher, Nan Taylor,

Jan Mayo and Kay Karrh. Left to right standing are Donna King, Nadyne Faulkenberry, Susan Graham, Holly Hunt, Dottie Gates, Shelia Fletcher, Lady Jane Henry, Judy Roberts and Janette Heflin.

### Left Off Broadway

## Tech Board OK's Turn Onto Campus

Texas Tech's Board of Directors gave its approval Saturday for a left turn off Broadway onto the campus. The City of Lubbock will be in charge of the operation.

In other action, the board unanimously approved a motion to confer an honorary doctor's degree to Congressman George Mahon. The presentation will be made at the May 28 graduation ceremonies.

Loan grants amounting to \$412,000 were accepted by the board. Dr. George Heather, dean of the School of Business Administration, gave a report on activities concerning his school. Heather pointed to the growth of the School of Business Administration, pointing out that there are "several things the school needs for continued growth and progress."

Board member Harold Hinn, Plainview and Dallas, was presented a plaque by Joe Passmore, Tech student, and a delegation from Alpha Phi Omega, for his donation of Christmas lights to the college.

Hinn was also presented a color picture depicting a night scene at Tech during the holiday season. The presentation was made on behalf of the Toreador, La Ventana and the student body.

The directors discussed their meeting dates for the coming year and also voted to continue the same policy in the housing of athletes for the present time.

The board heard a report from W. H. Butterfield, vice president for development at Tech. Butterfield reviewed financial aspects of the new Library. He reported that gifts and firm commitments for the Library now total \$191,500.

Total income for various college projects through the foundation amounted to \$34,979.75 last year, Butterfield reported.

Butterfield also reviewed the football stadium revenue bonds and pointed out that the "payments were coming in fine at this time."

The Board agreed to drop the use of the term "Evening Program," but the class work will continue as usual.

Dr. R. C. Goodwin, Tech president, pointed out that due to an increase in enrollment, Tech was open for classes from 8 a.m. to 10 p.m.

Board members present at the meeting were C. I. Wall, Floyd Woodridge, J. Edd McLaughlin, Alvin R. Allison, Hinn, Manuel DeBusk, Jim Lindsey and Wilmer Smith.

Wright Armstrong of Fort Worth did not attend the meeting. Board members dined with the Tech deans in the Tech Union.

## L-V Editor Encourages Miss Playmate Entries

All male organizations planning to enter a contestant in the Playmate contest must do so by noon Thursday.

Johnny Woody, La Ventana co-editor, urges every male organization to enter a contestant. The dorm pages are being laid out using each dorm's Playmate in the layout.

Pictures and \$1 must be turned in to Journalism 101. The contestant's name, vital statistics, hometown and the sponsoring organization must be written on the back of each picture.

Black and white, glossy print pictures, size 8x10, are required. The La Ventana has made arrangements with Avalon Studio to make such prints for \$2.95. This service is available for organizations who care to use it.

Playmate contestants will rehearse Thursday at 6:30 p.m. in the Municipal Auditorium. At this rehearsal it will be decided whether the girls will wear play clothes or swim suits in the contest.

Miss Playmate will be featured in a three-page fold-out in the Playboy section of the '62 La Ventana. She and all ten finalists in the Miss Mademoiselle contest will win an all-expense-paid ski trip for three days during spring vacation to the Sierra Blanca Corp. ski resort near Ruidoso, N. M.

The theme for this year's Extravaganza will be "Beauty Around the World." Tickets are now on sale in the Tech Union. Admission to the contest is \$1 per student and \$1.50 per couple.

Lubbock, Texas, Tuesday, February 20, 1962

No. 54

## Frogs Hope To Spoil Raiders' Title Hopes

**FORT WORTH**—The Texas Christian Horned Frogs, already out of the Southwest Conference championship race, look for a chance to play the spoiler role again tonight when they face Texas Tech here today. Tipoff time is 8 p.m.

Tech is giving a run for a second consecutive SWC title and a chance for NCAA title hopes. Despite the fact that Coach Gene Gibson's Red Raiders are right in the thick of things with a 7-3 record and in a three-way tie for first, the Lubbock school can't afford another defeat.

One of those three conference losses came at the hands of these same Horned Frogs, who pulled one of the big cage upsets of the year just two weeks ago with a 65-63 win over the Raiders at Lubbock. The other two losses were to Texas A&M and SMU, the two teams currently in the first place deadlock with the Techsians.

A loss by Texas Tech to TCU tonight would be especially disastrous since the Red Raiders are hoping to gain ground on their two co-contenders, also engaged in tough road games tonight. SMU plays Texas on its home court at Austin, and the Texas Aggies test Rice in Houston. Neither Texas nor Rice has lost at home this season. Texas Tech still has to play at Austin and Houston.

This is the situation that sets the stage for Coach Buster Brannon's Horned Frogs, only 3-6 for the campaign, to fill the spoiler cast, but the task may become true only in pre-game speculation, if the Raiders let their emotions be the judge.

Tech showed signs in their impressive 76-64 victory over Arkansas Saturday that they may have regained their old form. In addition, ever since the first game with TCU, the Raiders have been looking forward to the second meeting in order to redeem themselves.

Texas Tech will start 6-10 Harold Hudgens at center, 6-4 Roger Hennig and 6-3 Mac Percival at forwards, and 7' Bobby Gindorf and 5-10 D.J. Ray Mounts at guards.

Opposing this veteran squad—only Gindorf, a junior is not a two-letterman senior—will be a five-man contingent of TCU players that has only two seniors.

Guard Phil Reynolds and forward David War-

nell are the only two seniors in the starting lineup. Another forward, 6-4 Johnny Fowler, is a junior, and 6-1 guard Bobby McKinley and 6-7 center Pete Houck are sophomores.

If the Raiders forget the rest of the Horned Frogs, they'll remember Reynolds. The 6-0 Waxahachie flash connected on a disputed field goal as the buzzer sounded to give TCU the victory margin in the first conflict with Tech.

Reynolds goes into the game as leading scorer in the league, even though he's played one game less than his nearest rivals. He's made 193 points in nine outings in conference competition to boast a 21.4 average. Second in the conference is SMU's Jan Loudermilk who has 191 points in 10 games for a 19.1 mean.

Texas Tech doesn't have a representative in the top five in conference scoring, but both Mounts and Hudgens are in the top ten over the season. Mounts is fifth with 323 points for a 17.0 average, and Hudgens has 321 points for a 16.9 mean. In conference play, both have scored 168 points for 16.8 marks.

Backing up the starting five for the Horned Frogs are a pair of tall junior pivots in 6-9 Alton Adams and 6-7 Don Rosick, Tommy Pennick, Tommy Robbins and Ronald Mayberry at guards and Billy Simmons at forward.

With the five mentioned Texas Tech starters are two sophomores who have been seeing steady action lately, Sid Wall and Mike Farley. Other reserves are juniors Milton Mickey and Gilbert Varnell and sophomores Mike Gooden and Royal Ferguson.

Should the Raiders win tonight, they'll assure themselves of at least a share of the lead. Attention will be shared with the important tilts at Austin and Houston, concerning SMU and Texas A&M. In another game tonight, Baylor will be contesting Arkansas in Fayetteville.

A bigger test for Tech comes Saturday when they meet Texas on the road. TCU will be away from home also, playing at Dallas against SMU. Baylor will go to Rice, and Texas A&M and Arkansas are idle.

## Union Extends Deadline For Dance Instruction

The deadline for enrollment in Tech Union's two ballroom dance classes—beginning and advanced—has been extended to Thursday, Karen Moore, program director, announced this week.

So far, there has not been enough interest to warrant forming the classes, she said.

Instructions will begin at 6:30 p.m. Thursday if enrollment is sufficient. All interested persons may register for either course in the program office of the Union anytime before Thursday night.

The courses include several steps in all popular Latin and American dances. Cost of the course is \$8 per person or \$15 per couple.

PANHELLENIC WELCOMES CHI OMEGA—College Panhellenic Council welcomed the Kappa Zeta Chapter of Chi Omega to Tech with a reception Sunday. All sororities on campus sent representatives. Panhellenic members shown here serving at the reception are (left to right) Nancy Jones, Judy Price, Shelley White, Linda Ryno, Beverly Brown, Myla Henderson, Ann Dennison and Mary Alice Hill.

## Models Show Outfits Of New Bridal Attire

Tech coeds will model the latest fashions in bridal wear from wedding gowns to honeymoon outfits at 7:30 p.m. today in the annual spring Bridal Show at Hemphill-Wells downtown department store.

Featured at the show will be lingerie and wedding veils which were

modeled in recent New York City style shows.

Many types of the latest in wedding gowns have been chosen for the event. Gowns made of fabrics such as linen, silk organza, cotton embroidered organza and lace will be shown in bouffant styles as well as in straight skirts, overskirt and tunic cuts.

Setting off the wedding dresses will be veils which run to \$125 along with the short traditional veils. Chapel trains will also be modeled in the array of bridal apparel.

Besides clothes for the bride, what's what in dresses and suits for mothers of brides and grooms will include those of full length and the shorter bell shape along with the soft, draped effect.

Hues in apricot, deep blue, Nile green and an assortment of other colors will be modeled for brides-to-be. The attendants' dresses will include those of full length and the shorter bell shape along with the soft, draped effect.

After-the-wedding fashions, besides various going away dresses, will be sport outfits for the wedding trip to faraway places.

Wrapping up the show will be a wedding scene which will include all members of a fantasy wedding party.

The Bridal Show will be narrated by Wilma Heaton and is open to the public.

Tech girls who will model are Ethel Glasscock, Carolyn Horschler, Jean Forrest, Denise Rose, Sharyn Bledsoe, Ann McMurray, Judy Graham, Anne Whittenburg, Joy Hamilton, Jan Barton and Judy Jenkins.

## Raider Roundup

### PRE-LAW CLUB

George Dupree, Lubbock lawyer, will be the guest speaker at the Pre-Law Club smoker at 7:45 p.m. Thursday in the Anniversary Room in the Tech Union.

### PHI GAMMA NU

Phi Gamma Nu will hold its business meeting at 5 p.m. today in the Anniversary Room in the Tech Union.

### DOUBLE "T" ASSN.

The Double "T" Assn. will meet at 7 p.m. Thursday in the Double "T" Lounge. Pictures will be taken Wednesday and Thursday, at the Avalon Studio.

### AIEE-IRE

Dale Stephenson, Southwest regional representative of the Power Equipment Division, Allis Chalmers Co., will speak on "Power Sources of the Future" at a meeting of AIEE-IRE at 7:30 p.m. today in the West Engineering Building, Room 211.

### FRESHMAN COUNCIL

The publicity committee of the Freshman Council will meet in the Anniversary Room in Tech Union at 5:00 p.m. Wednesday.

### AMA

There will be a meeting of the American Marketing Assn. at 7 p.m. today in the Tech Union Workroom.

### HOSPITALITY COMMITTEE

Mrs. Arnold Maeker will speak on "Party Poise" at 7 p.m. Thursday in the Tech Union Workroom. Refreshments will be served.

## Techsans Compete For Lubbock's Ambassador

Karolyn Sue Morrow and Richard Lee Brown, two Tech students, were the first to submit applications to serve as Lubbock's 1962 Community Ambassador, a program sponsored by the Lubbock Chamber of Commerce.

A Community Ambassador will be named next month to represent the city on an eight-week trip through a foreign country. The program is open to anyone 19-30 years of age who is a high school graduate and who has lived in the Lubbock Public School District for at least a year.

The Community Ambassador will stay for four weeks with a family in the country selected and will then invite a member of the family to join him (or her) in a four-week tour of the country. About 12 community ambassadors and their guests and counsellors will tour in the group.

Deadline for entries is Saturday. Applications may be picked up and turned in at the Chamber of Commerce Special Events Office, said Mrs. Tom Holden, chairman.

Miss Morrow is a freshman Spanish major at Tech. She has a long record of social, charitable and scholastic accomplishments. One example is her outstanding service in the Pan American Student Forum, a Lubbock Schools program intended to promote better relations between the United States and Latin America. She served one year as a State Executive Committeeman for the Pan American Forum.

"I want to teach Spanish," she said, "and I feel that a thorough knowledge of the language and its idioms and of its peoples and their mannerisms is absolutely essential."

Brown is a junior music major at Tech with many activities in both the music and Spanish fields. Included in his activities are Sig-

ma Delta Pi, Tech honorary Spanish fraternity, and Capa y Espada, Tech Spanish club. He is also a member of the Lubbock Symphony, Lubbock Chamber Music Society, and the Tech Band and Orchestra.

Like Miss Morrow, Brown is also in his fifth year of studying Spanish. In addition, he can speak French and Portuguese. He spent the summer of 1961 studying and observing the Mexican people and culture while studying at Universidad Nacional Autonoma de Mexico.

Brown said that his personal goals for the experiment, if he is chosen, will be to study the civilization, culture and language of the country and then convince his fellow countrymen that there are societies different from ours that we must try to understand.

## Union Announces Winners Of Duplicate Bridge Tourney

Michael Menaul, Buford Terrell, Sidney Barnette and Wayne Miller are the winners of the duplicate bridge tournament held in Tech Union Sunday.

Menaul and Terrell defeated Tommy Anderson and Larry Johnson to capture the North-South division. Barnette and Miller won the East-West division by defeating Carol Bray and Paul Campbell. Trophies were awarded the first place winners.

The top four tables in Sunday's play will participate in the Intercollegiate Duplicate Bridge Tournament to be held Feb. 25 in the Union. They will be competing

## ...BAN CARS!

Mark Twain supposedly said, "Everybody talks about the weather but nobody does anything about it!"

On campus, everybody gripes about the parking problem but little is done about it. The matter becomes more acute each year.

As we see it, there is only one solution to this irritating situation:  
**BAN AUTOMOBILE TRAFFIC FROM THE MAIN PART OF THE CAMPUS!**

The most advantageous way to go about this would be:  
1) to cut out all vehicular traffic from 8 a.m. to 5 p.m. five and one-half days a week on the main portion of the campus (from the south end of the Ad. Bldg. to the north end of the Textile Bldg. and from the west end of the Science Bldg. to Broadway.)

Why do this?

During the day, when classes are the heaviest, students sometimes find themselves spending three or four of the ten minutes allotted for class changes waiting on traffic lights or trying to snake their way through congested lines of cars. A ban on traffic would eliminate this.

Although there have been less than a score of major pedestrian accidents over the last 15 years, elimination of traffic in the heart of the campus would wipe out any hint of this worry from the many that now face Tech officials.

Finally, the elimination of traffic would create a more beautiful campus—one where a stroll would be leisurely, not a game of "walkers' Russian roulette."

Actually, this change will only affect two segments of the campus population—the off-campus students with an automobile and the faculty. As for parking, only the small lot near the library would be eliminated. Since all dormitory students, with cars, are at present required to walk to class from their particular dormitory, we feel that requiring the off-campus drivers to park farther away and walk to class is not unjustified.

Although this is a bare outline of the plan—we believe it deserves further investigation by the Traffic Commission and the Student Council.

It will make for a better Texas Tech. We hope it isn't sent to a committee and allowed to die.

RALPH W. CARPENTER  
—Toreador Editor  
JOHN PETTY

## Toreador Mail Call...

Dear Editor,  
I am not in favor of a name change for Texas Tech. But, if there are enough people who are in favor of it, let's do it right. Let's not compromise and end up with a name that is long, drawn out, and not really satisfactory to anyone. Let's do get a short, appropriate name for our school. Texas State University is a good choice.

Billy Easter  
Asst. Prof. of Elect. Engr.

Dear Editor:  
This is the library. See the big red sign in front of the library? See, see, see. The student cannot find the library without the sign. The sign is very large and red. Red, red, red. There is a tree. Will the tree have a sign too? The sign

is very ugly. Ugly, ugly, ugly. The campus will soon look like a shopping center.

Should a college campus look like a shopping center?

Signed,  
J. Jones  
J. Boggs  
Grade 17-B  
Texas Tech Kindergarten

Dear Editor,  
This letter is addressed to those Tech students and faculty who are not aware of the new movie-showing facilities at the Tech Union; namely—the two completely new Bell and Howell projectors now in use.

Near the end of last semester, a few students voiced their complaints in the Toreador concerning

(1) the Union's use of only one movie projector, i.e.—the seemingly "long" breaks between reel changes,—and (2) of the quality of movies shown. The first problem no longer exists, for the movie audience can now watch a Union film from beginning to end without the previously-mentioned interruptions. To those select "few" who enjoyed the film breaks, allowing them a fast retreat for several furious puffs on a filtered, I can just say, "Que sera, sera."

Concerning the quality of the movies shown, I believe those complaining were referring to the Union's lack of billing first-run films. More careful examination reveals, however, that first-run films are not economically available to the Tech Union on 16MM film, which the projectors use. It is my hope that before long, the film companies will lower the prohibitive high rental-rates of first-run 16MM movies. Meanwhile, the Union is constantly trying to secure not only high-quality films, but films that most Tech students otherwise would have no opportunity to see.

At any rate, I hope this letter will encourage more students and faculty to participate in and enjoy this area of recreation offered by the Tech Union.

Sincerely,  
Charles Tigner

### STRAIGHT MATTER

by Nolan Porterfield

The world seems a bit calmer these days. The Berlin situation has cooled off, there are indications that the reservists called up last fall will be released earlier than expected, Castro's been kicked out of the O.A.S., the Red Raiders are winning a good percentage of the tough ones and I should be devoting this space to spinning sagely witticisms and stirring up controversy over such pertinent campus matters as the name change, student government and the odds against getting a seat in the Student Union at noon. Instead, I'm hauling out my tattered old soap box, provoked by a Sunday dispatch from the Associated Press reporting the U.S. man-in-orbit program to be 20 months behind the original schedule and almost a year behind the Soviet space effort.

Whether John Glenn gets into orbit, however, is not my only concern.

Less than six months ago, a lot of people were seriously wondering if America was becoming a second-rate nation. Most of them stopped asking, as tensions eased and we began to have some success at Cape Canaveral. The question wasn't very valid, anyway. The supremacy of American business, industry and agriculture is obvious from one grand statistic—our Gross National Product, which exceeds every other nation on earth. No other country boasts such great educational, social and cultural advances. We are strong militarily and our scientific accomplishments—though less spectacular than those of the Russians—are significant. We proudly—perhaps too often—boast of "the world's highest standard of living."

But how long will it last? No nation in history, no system of government, however great, has survived indefinitely. Are we witnessing the beginning of the end of ours? There are indications that we may be.

You and I have grown up believing in the invincibility of the United States of America. We've studied the foundations of its great government and have been stirred by the story of our country as the symbol of liberty and freedom and justice and hope. This great bastion of democracy has never lost a war, say the history books, and they've told us of the great men who built America and helped establish democracy as a force in the world. The statesmen and thinkers—Jefferson, Hamilton, Jackson, Clay, Lincoln—were all Americans, and the scientists and inventors too—McCormick, Bell, Edison, Ford, DeForest, Salk. The first man to reach the North Pole, the first man to fly the Atlantic, the fastest man, the deepest man, the first and the best man have somehow always been Americans. But now your children are going to read about some new "first men"—men with strange, foreign names. Gagarin and Titov, for instance. The first men into space, no less. Perhaps the first man on the moon will have a similar name.

Our children are also going to learn that concepts of "liberty" and "justice" and "freedom" are changing too, in many lands where people are more interested in shoes and rice than in big words that nobody bothers to practice.

Our highly vaunted standard of living is in trouble too, as we turn away from reapers and electric lights and polio vaccine and the million great discoveries and improvements that built our nation, to produce battery-powered martini mixers and six-channel stereo. The Edisons, the Fords, the Lindbergs, the Salks have wised up and started making rock-and-roll records, selling insurance and building fall-out shelters. Let somebody else invent, lead, develop. Everybody knows you can't get rich that way.

Of course, I'm not saying anything new—all the great declarations of independence have been written, and Cassandras have been wailing over man's sad plight for centuries. Nor do I have some simple answer, some great solution to propose. But I won't take refuge behind that common excuse that "it's just too complicated for any one person to deal with." Human rights aren't so complicated, nor are the means of preserving them.

## Campus Clubs Seek Aid In 'Books Abroad'

Pilot Club, international women's service club, and Kappa Sigma fraternity, are sponsoring a "Books Abroad" program beginning today and ending March 2.

The drive is in conjunction with the national "Good Neighbor" policy to help three young, struggling colleges in Mexico.

"Books are badly needed by college students and ambitious adults in Mexico who are not as fortunate as the citizens of the United States with well-stocked libraries," said Mrs. Marie Miles, chairman of the Education and International Relations Committee of Pilot Club.

"We should like to make a sizeable offering of books," she continued, "that will be used to keep pace with other countries in this technological and scientific age."

Books are needed in the following subjects:

(1) all branches of science, engineering, medicine, agriculture, home economics (including domestic science, child care, etc.), mathematics and economics;

(2) the English language; composition and rhetoric books, handbooks, workbooks, drill books; and

(3) Spanish grammar and literature books of all levels.

Books may be new or used, paper or hard backs.

Kappa Sigma fraternity members will pick up the books at the offices of faculty members. Students may place them in boxes located in dormitories or at Varsity Book Store.

## Carol Channing Performs On Campus Wednesday

By BILL MCGEE

Toreador Amusements Editor

Municipal Auditorium will ring with laughter Wednesday evening when Carol Channing—sponsored by Civic Lubbock—makes her appearance there.

America's funniest comedienne will make her only West Texas appearance here at 8 p.m. Tickets are on sale daily at the Auditorium Boxoffice. Prices are \$2 to \$4.50.

Having won popular and critical acclaim in legitimate theater, on the nightclub circuit and in a full revue at Tropicana in Las Vegas, Miss Channing has turned her talents for mimicry and comedy to the concert stage.

"Gentlemen Prefer Blondes" was the vehicle for Miss Channing's rise to the big time. She brings to Lubbock's stage her inimitable comic style and "Twelve Gentlemen Who Prefer Blondes."

Vocalist Erik Silyu and pianist Lee Evans will take part in the show. Miss Channing's famous impersonations will be the highlight of the evening. Marlene Dietrich, Judy Garland, Marilyn Monroe and the latest—Brigitte Bardot—will be mimicked in the fiercely funny Channing manner.

Carol Channing is one of those rare performers who can carry a one-woman show for a whole evening. She can evoke laughter just walking onstage.

Her Lubbock performance will be a night long remembered.

## Dr. Smith Speaks On African Tour

"Africa—Savage or Civil" will be discussed by Dr. Mitchell Smith, professor of history, at 7:30 p.m. Wednesday in the Upstairs Ballroom of Tech Union.

While in Africa Dr. Smith visited such countries as Senegal, Sierra Leone, Ghana, Nigeria and Guinea.

The discussion, sponsored by the Cosmopolitan Club, is open to all who wish to attend.

# EXCITING

The element of unknown in oil and gas production becomes less critical when measured against the reliability of Dowell service. Through research and field development, Dowell makes the fracturing and acidizing of oil and gas wells a more exacting science. Still there remains the air of excitement that will always be a part of oil recovery.

As an industry leader, Dowell must rely on the best from every man in the organization. To the man who excels in his field, Dowell has a great deal to offer. As a *mechanical engineer*, in equipment design. As a *petroleum engineer*, in well servicing techniques. As a *chemist*, in research and product development. As an *accountant or management man*, in corporate control. As a *sales representative*, in emphasizing to industry that the Dowell technique is best.

The challenge Dowell offers can provide an exciting future. For full information, write Employment Manager, Dowell, 1579 East 21, Tulsa 14, Oklahoma. Or, contact your school Placement Officer.

# Red Raider Cagers Jell... Then Yell

By CHARLES RICHARDS  
Toreador Sports Editor

The 76-64 victory over Arkansas Saturday in the Coliseum didn't cinch the championship for the Red Raiders, but to hear the shouting in their dressing room you might think so.

Probably the main reason the players were so happy was that it was the first time in more than a month they had managed to come out on top in Lubbock. But

whatever the reason, the win kept Texas Tech in a three-way tie with Texas A&M and SMU for the lead in Southwest Conference warfare.

Mac Percival was one of the happiest with the win. He ran around the room congratulating each of his teammates before he finally sat back in his spot to undress.

"IT'S ABOUT time, isn't it? I think we're just getting our con-

fidence back after last year and looking more like the team of last year. Del Ray Mounds really did fine tonight. I'll take 4 points instead of 24 anytime if we can keep winning... and we're winnin' the rest of 'em!"

Coach Gene Gibson thought his team had been too tense in other games this year and tried to get the team to relax for the game. The whole team echoed the opinion that it had been one of their best games and that they thought Gibson's philosophy had worked.

"We just played loose ball tonight," Mounds offered. "We've been playing too tight before, and we approached it from that angle tonight. The fast break really broke the game open for us. We got lots of easy baskets, and it did the trick."

Roger Hennig felt it was a combination of extra effort and alertness that beat the Razorbacks.

"EVERYONE WAS determined to win this one and was trying real hard. I think we were probably looser tonight than we've ever been. I believe we're going to beat TCU (in Fort Worth today) too. I know we're going to go up there trying harder than we ever have before."

The big man on the team, Harold Hudgens, threw all his praise to Mounds and his hot hitting from the field against Arkansas. He looked at the Jeff of the Mutt-and-Jeff combination and joked, "I'd take it off the boards after

Arkansas shot, throw it to Mounds, then run to the other end, just in time to catch Mounds' shot as it dropped through the net."

But Hudgens sank back after he belittled himself because he had his second straight cold shooting night. "I'm not back on yet," he said, "but I'm glad the team is. I'll let you one thing. From now on, I'll let Del Ray do the shooting and I'll do the rebounding. I can't seem to get the ball to drop in." A quick glance from his teammates indicated they agreed with most of his thoughts, but didn't like his idea of not shooting.

"SAY, HOW did the rebounds come out?" Mounds interrupted

and someone showed him the chart. Tech led 55-39. "Boy, that's great," he continued. "It's unusual to beat Arkansas that bad on the boards."

"It feels great," was the way Bobby Gindorf expressed his feelings. "There are four more conference games left for everybody and the team with the best spirit will win. We came through real well tonight, and I think we'll be all right the rest of the year. We didn't think a lot about Arkansas. We just worked out like we didn't even know we had a game coming up, then went into the game with no pressure. It came through real fine."

We all make mistakes...

## Tech Mile Relay Sets Record In Odessa Indoor Competition

Texas Tech's mile relay four-some ran the fastest time clocked in Texas on boards this year as they led the Red Raider track team to a successful showing in the Odessa Indoor Meet Saturday.

Two firsts, three seconds, four thirds and one fourth were among the awards taken by the Texas Tech track team Saturday in the Odessa Indoor Meet.

The Red Raider mile relay was clocked at 3:28.8 to set a new indoor board record in Texas. Its closest challenger, Howard Payne,

was some 20 yards behind at the finish.

Tech dominated the 60-yard hurdles with senior Bob Swafford of Abilene finishing first followed by teammate Ronnie Biffle of Antone in the runnerup slot. Swafford's time was recorded as 7.3.

Freshman Jimmy Walker of Seminole brought in another Tech second, a 47 ft. 2 in. toss of the shot put.

Tech freshman Richard Vogar was second in the broad jump with a leap of 22 ft. 10 1/2 in., but was injured on the effort. Bill Miller of McMurry set a Texas indoor record with a 24 ft. 10 1/4 in. leap in this same event.

Another of Tech coach Don Sparks' cindermen, Freddie Walker of Spur, copped a fourth place in the 500-yard run.

Running on the Raiders' record-breaking mile relay team were Swafford, Golden, sophomore Don Mason of Brownfield and senior Curtis Hart of Andrews and captain of this year's track team.

For Rent: Room, large, pleasant, quiet, separate entrance, ceramic shower. Double closets, ample drawer-shelf space. \$48.00 optional phone. Heat-care. Local credits. SW9-2381.

Would like to exchange your tax cost for mine. Had mix-up at Avalon Studio. Cost made by "After-Six"; probably has "Dress of Dallas" label inside. Mike Brown, 223 Wells Hall; FO3-9421.

# Showdown Time Nears In 'Mural Basketball

Tuesday night might well be termed showdown time in the dormitory division of Tech's intramural basketball program. Bledsoe and Carpenter Halls, both sporting identical 4-0 records, are to meet at 6:30 in the Intramural Gym in the big battle.

Also scheduled for Tuesday action are Thompson (1-4) and Gordon (0-4), Gaston (2-2) and Sneed (3-1). Of these teams only Sneed is given an outside chance at the dorm title. Sneed's hopes rest on Bledsoe being able to top Carpenter, which would lead up to a title match between Bledsoe and Sneed on February 28. A three-way tie is a highly possible outcome in this division.

Phi Delta Theta and Sigma Alpha Epsilon are contending for the championship of the fraternity league. The Phi Dels, holding a 6-0 mark in the standings, battle Pi Kappa Alpha tonight. SAE is also on tonight's agenda, knocking heads with Alpha Tau Omega.

In other games Kappa Alpha will be seeking its first victory against Phi Kappa Psi while Sigma Nu takes on Phi Gamma Delta. Should things continue as they have been the title holder will not be decided until SAE tackles the Phi Dels in the final game of the season March 1.

Going into Monday night's action the Independent I League had a three way battle for the leadership. The undefeated Hustlers (5-

0) met the second place Rebels (4-1) in the highlighted game while the Phi Epsilon Kappa, then tied with the Rebs, fought the Racketeers, the Misfits contended with Wesley's Wildcats, and the Ringers took on the Newman Club.

The Independent II League also sported a three way battle for the lead before Monday. The Bandits (4-0) held a half-game margin over the Comancheros (4-1) and a full-game bulge over the Scraps (3-1). The Comancheros fought the Scraps and the BSU met the Afterburners according to Monday's schedule.

The Independent III League not only boasts a four way battle for the crown but also a current three team tie for the lead. With only one game to go the Delta Sigma Pi, Rodeo Club and Flintstones are all knotted up in the top spot with 3-1 slates while the Rangers stand within striking distance with their 3-2 showing.

In the leagues final scheduled action tonight the Rangers vie with the Bad Hats, the Flintstones meet Delta Sigma Pi and the Rodeo Clubbers scramble with the Azures.

Sneed currently leads the dormitory B division with their 2-0 mark. Wednesday Carpenter (0-1) will try to change this as will Gaston (0-2) when it meets the Sneed boys next Monday. The wrap-up game will be played February 28 between Carpenter and Gaston.

Undefeated Phi Delta Theta (4-0) holds the top spot in the fraternity B league. Its lone challenger for the crown appears to be Sigma Alpha Epsilon (4-1). Tonight the Phi Dels tangle with ATO's B-teams and Wednesday SAE meets the Dels, Sigma Chi challenges the Pikes, ATO tackles the Fijis and Kappa Sigma battles the Phi Dels.

## In Two Swim Meets

# Tech Takes Victories

Texas Tech swimming teams came out of the weekend with something to show for it, as both freshman and varsity squads took victories over New Mexico teams Saturday. The freshmen beat New Mexico Military Institute, 51-43, and the varsity defeated Eastern New Mexico University, 52-43.

The varsity meet was tied with three events to go, 35-35, but Glen Shoup set a new pool record for the 440-yard backstroke to send the Raiders ahead, 41-38, and from then on they never trailed.

Shoup was also a part of another pool record set in the meet. The Raiders' 400-yard freestyle relay came in with a new mark with Shoup the anchor man. George Steele set still another record with his winning performance in the 200-yard backstroke. Other members of the record-breaking 400-yard freestyle team are Bob Smith, Dick Haase and Bill Spahn.

Jack Shipley took first in the individual 200-yard medley, and finished as high point man in the meet.

ENMU actually outnumbered Tech in first places, six to five, but the Raiders had more depth to take the team championship. In second place finishes, Tech held a six to three lead. A key second place finish came in the diving competi-

tion where Tech's Rick Baird upset ENMU's second-ranked diver, Kenneth Copeland, to take the runner-up shot to ENMU ace Robert Murphy.

In the freshman meet, Ron Grim took three firsts to lead the Tech

swimmers, although one other Picator swimmer set a new school record. Grim won the 220-yard freestyle, the 200-yard butterfly and the 440-yard freestyle. The record came in the 50-yard freestyle by Phil Simpkins of Tech.
