# Rodeo Promises Thrills In \$6,000 Competition

By CAROL LEE PAGE  
Toreador Staff Writer

... and now, folks, comin' out o' chute number two, that four-legged keg o' dynamite, 'Little 8,' ridden by ..."

A few short hours from now, these words will be lost in the roar of the crowd as a wild-eyed Brahma with a hard-riding cowboy on his back leaps from his chute during the annual Texas Tech Rodeo.

More than 250 cowboys and 14 college rodeo teams will be competing for approximately \$6000 in cash and prizes in the National Intercollegiate Rodeo Assn. competition.

A feature of the rodeo will be an electronic scoreboard, the first on the South Plains and the same one used in the National Rodeo Finals. The main purpose for this scoreboard is to inform the spectators of the standings of individual cowboys in each event throughout the rodeo. More important, the electronic timing devices lessen the chance for error.

Bareback bronc riding, saddle bronc riding, bull riding, calf roping, ribbon roping and steer wrestling are the main events for the men. Women will compete in goat tying and barrel race events.

Two special events for sororities and fraternities will add a touch of comedy to the rodeo. Calf-dressing, for sororities, requires a team of four girls to catch a calf, dress it in bloomers and race over the finish line. Fraternities will participate in a wild-mare race in which four team members will catch a wild mare, saddle and ride her to the finish line.

There will be two rounds for the main events and prizes will be given for averages as well as for individual best scores. Six cash prizes and four other prizes—including \$50 belt buckles, \$40 boots, \$20 hats and \$10 shirts—will be awarded for the first six places in each event.

A \$250 saddle will go to the champion all-round cowboy and trophies will be awarded to the best college teams. There will also be trophies for the sorority and fraternity contest winners.

Two Tech rodeo celebrities, Connie Mitchell, rodeo queen, and Ed Workman, national intercollegiate all-round cowboy for two years, will ride in the Grand Entry and participate in the rodeo events each night.

CONNIE MITCHELL  
... Tech Rodeo Queen

The following schools will participate: Sul Ross, winner of its region for the past six years; Oklahoma State University; New Mexico State University; New Mexico Western; West Texas State College; Texas Western College; Lubbock Christian College; and Texas Tech.

Texas Tech, in second place by 50 points, hopes to overtake first place Sul Ross in this week's rodeo. Last week in Canyon, Tech bested Sul Ross in the over-all competition.

The Rodeo, produced by the Tech Rodeo Assn., will kick-off with a parade at 4 p.m. The first performance will be at 8 p.m. today in the Municipal Coliseum. The rodeo will run through Saturday.

Tickets are \$2.50 for reserved seats, \$1.50 for general admission, \$1. for high school and college students and 50 cents for children 6-12. General admission tickets are on sale in the rodeo office, Tech Union 204. Seats may be reserved by calling SW 9-3726 from 1-9 p.m. each day.

## Tech Cagers Await Trial

Texas Tech's "famous five" cagers stepped out from behind bars this Wednesday and went immediately into consultation with their attorneys Dwayne Pruitt, Sara Harriman and Frank Cossey. Bobby Gindorf, Roger "Snake" Hennig, Harold Hudgens, Mac Percival and Del Ray Mounts were all silent about their trial at 7:30 p.m. today in the downstairs Ballroom of the Tech Union.

The five Tech stars have been charged with a \$10,000 armed robbery of the Union.

Arrests of the five students were made Monday afternoon. Gindorf was arrested in the Union about noon, only 40 minutes after the daring daylight robbery. Gindorf was identified as the driver of the car in which the bandits made their getaway. The other four defendants were apprehended later Monday afternoon and charged with armed robbery.

The Toreador was officially informed Wednesday that the \$25,000 bond was raised by head basketball coach Gene Gibson and athletic director Folk Robison. Neither was available for comment at press time.

The change of venue for the trial request has been granted and it has been changed to the downstairs Ballroom from the upstairs Ballroom. The Honorable John Ross Campbell will preside.

## Voters Elect 8 To Council; Run-Offs Will Feature 48

Light voting Wednesday (totaling 2288) named eight students to the Student Council and 48 students to a run-off election.

Royal Furguson was elected from

the School of Arts and Sciences. Twenty-four names will appear in the run-off.

Leading was Ginger Butler with 415 votes, followed by Robert Legg,

319; Susan Ziegler, 315; Carolyn Davis, 310; Cecile Camp, 296; Sydney Gibbs, 271; Jane Batson, 268; Gary Gillespie, 267; Lee McElroy, 249; Judy Price, 247; and Linda Hill, 246.

Also named were Nancy Shoemaker, 245; Mickey Morse, 238; Guy Seibert, 235; Beverly Brown, 219; Jay Vars, 208; Harriett Maxey, 199; Charles Steinmen, 196; Gay Haight, 194; Judy Richerson, 190; Andy Wilson, 184; Jan Mayo, 181; Billy Gayle Wilson, 179; and Nubbin Sears, 176.

No run-off in the School of Agriculture will be necessary. Elected were Bull Snell, 126; James Cole, 119; and Don Rucker, 114.

The School of Home Economics elected no one to the Council. In the run-off will be Nickie Woelfel, 46; Pat Hamilton, 39; and Pat O'Neal, 28.

Two students were named as Engineering representatives. Pam White led with 315 and Gary Strickland followed with 308. Remaining in the running are John Farrell, 241; Dick Perkins, 228; Ken Patterson, 197; John Ward, 195; Jerry Brock, 186; and Jill Loddill, 177.

In addition to these are David Wright, 175; Bill Pearce, 165; Ellis G. Campbell, 151; and David Gattis, 151.

Larry Gibbs with 304 and Kay Armstrong with 297 were elected from the School of Business Administration.

Those in the run-off will be Kent Hance, 275; Linda Montgomery, 262; Tommy Morris, 260; Vernon Walker, 246; Pris Totten, 236; Jim Nelson, 215; Mable Ann Crosssett, 186; Martha Jackson, 167; Jeanette Bell, 140; and Ruth Rush, 104.

## Guilds Replaces Camp As Department Head

Effective July 16, Dr. John C. Guilds will succeed Dr. Truman Camp as English department head, according to Dr. R. C. Goodwin, Tech president.

Dr. Camp recently resigned his post as department head in order to return to full-time teaching at Tech.

A native of Columbia, S.C., Guilds is the author of several articles on American literature which have appeared in scholarly journals.

Dr. Guilds received his B.A. degree from Wofford College, Spartanburg, S. C., and his M.A. and Ph.D. degrees from Duke University, Durham, N. C. He also studied at New York University and the University of South Carolina.

Before coming to Tech in 1956 to serve as English professor specializing in American literature, Dr. Guilds was an instructor at Duke University, assistant professor at Clemson College in South Carolina and associate professor at East Central State College in Ada, Okla.

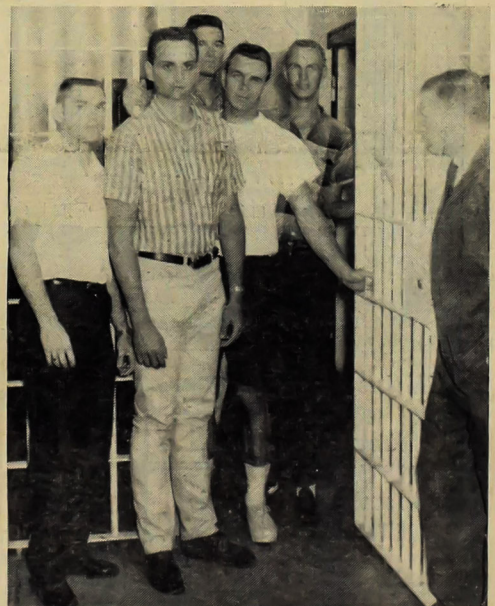

During 1959-60 he was one of the two U.S. scholars teaching at the University of Damascus, Syria's national university, on a Smith-Mundt grant provided by the U. S. Congress.

Presently at Tech Dr. Guilds is a member of the School of Arts and Sciences Honors Council and is counselor for students in the honors program. He also is a member of the Committee on Bibliography for the American Literature Group of the Modern Language Association of America.

DR. JOHN C. GUILDS

... new English department head

OUT ON BAIL

... are five Tech basketball players—Del Ray Mounts, Bobby Gindorf, Harold Hudgens, Mac Percival and Roger Hennig—accused of robbing the Tech Union of \$10,000 Monday.

# Saturday Marks Date For Fiji Olympic Meet

Fifty-four points will be the aim of the 12 sororities that participate in the Fiji Olympics Saturday.

The green in front of Drane Hall will hold prospective entrants from each sorority as the 2 p.m. starting time nears and the girls begin to show their athletic prowess to the school.

The sixth annual olympics will present what chairman Gregg Smith called "different entertainment." "It's just as good a time to watch as to participate," Smith said.

To the team with the most points will go "a traveling trophy." The Pi Phi's hope to grab the trophy permanently by winning first place the third year in a row.

Team trophies will be given to the first, second and third winners.

As each event is won, ribbons will be presented to the individuals. Similar to the International Olympics, the awards will be given to the winners while standing on a three stage podium.

The events for the girls are three-legged race, baseball throw, wheelbarrow race and the egg throw. These will net six points for the first place, four for second and two for third.

Other events are sack race, still race and tug-of-war. Ten points will be given the winners and six for second, four for third.

A sportsmanship trophy will be awarded to one sorority. This is usually the group with the largest team participation.

# Tradition Fills Woman's Day

Woman's Day, a day set aside each year to honor the women of Texas Tech, will be May 1. This is a day filled with such traditions as the wearing of white by all women on campus and the recognition of the outstanding women of the year.

The Toreador for this day will be put out by Theta Sigma Phi, journalism fraternity for women.

On Woman's Day there will be an informal tea for all women held from 1:30-4 in the office of the Dean of Women. That evening there will be a banquet at 6:30 in the Tech Union.

The speaker at the banquet will be Mrs. Grady Gammage, whose husband was the past president of Arizona State University.

Tickets for the banquet will be on sale April 23 through April 30. Tickets may be bought by dorm residents from their AWS representative and by Town Girls from the office of the Dean of Women.

# AND THEN

by BookKout

Among other things budding out on the campus in a bright coat of green is the April **BACCHANAL**. Appearing late but bold just the same, the student humor book features **TECH** as its college of the month.

With this in mind, hundreds of **TECHSANS** have been pouring over its pages to see what Dipso thinks of our far-flung university. (And in case you haven't heard, Dipso is the fat little mascot who looks and acts totally inebriated and who speaks for everything and anything Bacchanal has to say.)

### AND THEN

Aside from its cartoons, jokes and literary masterpieces which have brought quite a few laughs, the Bacchanal **SAYS NOTHING NEW** in its attempt to feature "the real Texas Tech."

In speaking about the "complacent and gleefully satisfied" student body, Dave Crossley, editor of the magazine and commentator on Tech, surveys a multitude of happenings from integration to the "promise" of Will Rogers.

### AND THEN

Crossley seems to have found quite a few **PRaisEWORTHY** qualities at Tech. He speaks highly about the way integration was handled here, of how students are prone to defend Tech and that there are some "Ivy League-type people" walking around on campus. Here he gives quite a few **FACTS** to base his opinions on.

### AND THEN

But some of his comments aren't so objective. In his little **EXPOSE ON RALPH CARPENTER** and the editorial policy of the Toreador, he is careful to leave out pertinent facts and throw in a few carefully selected ones.

He calls Tech students "quiet" and "nonchalant" and evidently he thinks we are **STUPID**, too. Stupid enough not to be able to see a slanted article when we read one.

### AND THEN

**BLASTING** where blasting is due is okay with us, but not when it's based on a **PERSONAL FEUD**. Seems that the Bacchanal editors thought the Toreador's advertising rates were a little too steep, so they prevailed on it's staff to write a feature about the high-flown "purposes" of the humor book.

Since the Toreador is not in the habit of handing out **FREE PUBLICITY** for any and every publication on the market, it made no exception in this case.

**BACCHANAL DIDN'T LIKE IT. NO SIR.** And furthermore they violently disliked Carpenter, who handed out the advertising edict.

### AND THEN

No wonder, then, that the article so **EAGERLY** cites Carpenter's editorials on song changes, Christmas lights and basketball, throwing them in the light of the utterly ridiculous.

With a **TWO-DAY STAY** on the campus, we aren't quite assured that Crossley is an authority on what needs to be commented on and what doesn't.

### AND THEN

Maybe he didn't have time to cover every angle, but even the most casual reader might think an **OBJECTIVE AND UNSLANTED** write-up would mention editorials on such matters as the parking and traffic situation, IFC problems and the answer to an editorial in the Avalanche-Journal concerning Tech, which were all written by Carpenter.

### AND THEN

Taking a look at **WEEKEND HAPPENINGS**, there's a lot to do on the days preceding Easter.

Today is the date for a **SIGMA KAPPA** reception . . . the **WELLS HALL** talent show . . . an **SEA** banquet.

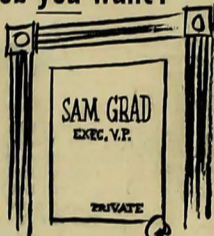

### AND THEN

Included in **FRIDAY'S** talk of the campus is Tech Union's **FRIDAY NIGHT DANCE** . . . the **DELTA GAMMA** "Pinafore Party" . . . a **DELTA TAU DELTA** Rainbow Spring Formal at the Parkway Manor for members, pledges, rushees and dates.

After the **FII OLYMPICS** Saturday afternoon, a few may survive to attend the **SIGMA NU** dinner dance and a **PI BETA PHI** Easter Egg Hunt.

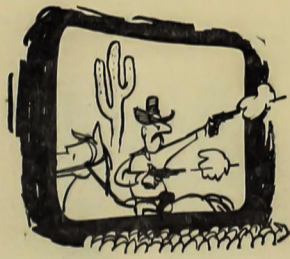

## Check your opinions against L'M's Campus Opinion Poll #20

TEXAS TECH COLLEGE BOOKSTORE

**RUFFLES, BOWS, KNEE-PANTS**—Members of Delta Gamma sorority are inviting everyone to turn back the hands of time and dance to the music of Charlie Hatchett at the annual DG Pinafore Party. Dance time begins at 8 p.m. Friday in the Rec Hall.

## Wells Hall Show Features High School, Tech Talent

Talent from Tech and Lubbock high schools will be featured at the Wells Hall Talent Show at 7:30 p.m. today.

Included on the program will be the Delt Alpine Trio, composed of Bob Black, Ron Logan and Ken Ballard; Benjamin Threet and Clinton Carlisle in a guitar duet; displays of vocal talent; The Fabulous Flames, Tech singing group; and pantomime.

Miss Muncy Reese, West Hall counselor, and Hershel Potts, assistant dean of student life, will participate as judges for the show.

"Everyone is working very hard to make this a great program," said Danny Ringo, chairman of the talent show. "We hope to see everyone turn out for it."

There is no admission charge. Disc jockey Gene Price will be on hand as MC.

## Fraternity Names Pearce President

Phi Delta Theta, men's social fraternity, elected officers for the fall semester. Bill Pearce, Lubbock junior, will serve as president of the group.

Other elected officers are John Compere, vice president; Jim Deen, treasurer; Vince Brown, secretary; Darwin Hilliard, warden; Gary Shores, historian; Charles Steinman, chaplain; and Tony Ullrich, chorister.

## STARTING LINE-UP FOR EASTER IN "TRADITIONAL STYLE."

The Perfect Blend for Warm Weather Living . . . "NATURALLY."

Want to step out in the Easter parade with that self-assuring knowledge that you are correctly attired from head to foot? Then step in Brown's Varsity Shop now for everything it takes to put you at your "Easter Sunday best."

Be sure to see the scrimmage game in Jones Stadium this afternoon at 2:00 p.m.

## Raider Roundup

### DOUBLE T ASSN.

The Double T Assn. will meet at 7 p.m. today in the Double T Lounge.

### TAU BETA PI

Members of Tau Beta Pi will elect new officers at 7 p.m. today in East Engineering 1.

### BSO

Board of Student Organizations will meet at 5 p.m. today in the upstairs Ballroom of the Tech Union.

### FRESHMAN COUNCIL

Freshman Council will meet at 6:30 p.m. today in Ad 260.

## Buy Tech Ads

## KA's Sponsor Easter Party

Sixty "happy hunters" from the Lubbock Day Nursery will search Mackenzie Park at 3:30 p.m. Friday for Easter eggs "laid" by members of Kappa Alpha fraternity.

This will be the first Easter egg hunt sponsored by the KA's. "This is the first time we've tried anything of this sort, but we hope to make it into an annual affair," Tom Gregory explained.

The fraternity members had an Easter egg dyeing party Tuesday where they dyed dozens of eggs and made Easter egg baskets for the children.

Refreshments will be served afterward, according to Jerry Bennington, chairman of the function.

## Student Teaching Deadline Nears

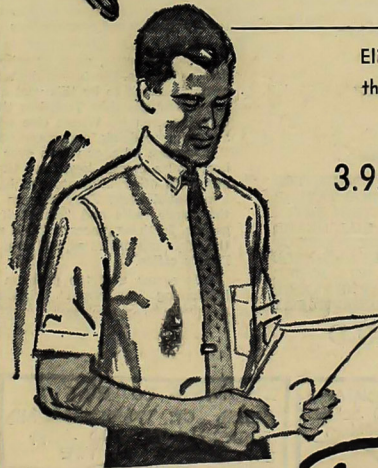

Monday is the deadline for applications for elementary and secondary teaching. Applications should be taken to Ad 254.

# VIEWPOINT

By Bob Taylor

There was a time when peace was peace and war was war and most people knew what was meant by either term. Unfortunately, the two concepts have become so confused and the line dividing them has worn so thin that it is now almost impossible to determine at a given moment whether the world is in a state of peace or war.

When war was war, Americans knew that certain restrictions were expected of them in the interest of national security. When peace was peace, Americans expected to be able to live without such limitations. However, now that we have cold war, limited war, peaceful co-existence, police actions and the countless other variations of the outdated terms, it is difficult for anyone to know just where we stand in relation to the "enemy."

When the United States was engaged in a war that was called a war and was fought like a war and that everyone knew was a war, the American press cooperated willingly with government requests for censorship of vital security information which could prove helpful to our enemies. The danger was real and recognizable and newsmen and newspaper readers alike could understand the necessity for censorship.

At present the United States is not actually, legally, technically engaged in a war. Although she is fighting for survival as a free nation, the U.S. is not fighting a war as defined by conventional standards. It is, therefore, much more difficult to recognize the danger, to determine what information would aid enemy forces or to be convinced that the danger is "clear and present" enough to warrant censorship by the government.

In direct opposition to the whole idea of censorship is the American concept of the people's right to know. Our democratic form of government is based on the premise that an informed public will be able to choose its best leaders. Any information withheld from this public by these elected officials deprives them of their basis for making sound decisions. John E. Moss, chairman of the House special subcommittee on government information, put it this way: "Too often in the past the subcommittee has uncovered information withheld by officials who contended the disclosure would endanger national se-

curity whereas they were merely trying to protect their own political security."

Such a complex problem cannot be solved simply but three guiding principles should be considered:

1.) The government and the press, as well as the public, should realize that although the United States is not fighting a declared war of the conventional type, she is nevertheless engaged in a death struggle with a power sworn to destroy her.

2.) Government officials are representatives of the people and should therefore allow the people to know what is going on, how much of their money is being spent for the defense of their nation, how it is being spent and why.

3.) Newsmen are guardians of the people's interests and watchdogs of government and they thus have the responsibility of finding out all that they can about all areas of governmental operation, of printing that which is news that the people should know and of withholding that which might, in their opinion, be harmful to our national security.

The decision of what to print and what not to print must be decided by someone, and the press, rather than the government, should be this someone. Newsmen should be well enough informed that they will understand the world situation to such a degree that they will censor themselves.

A dog that is crained to a tree to keep it from being run over is likely to bark and strain and fight to get free. A dog that understands the danger of running in front of cars, and is therefore allowed to roam at will, is likely to stay out of their way and cross the street only when it is safe.

On the local scene: Have you noticed how great it is to be out in the warm sun, to see flowers and trees beginning to bloom and to watch girls walking across campus in full, fully, feminine dresses, playing tennis in white shorts or sunbathing in backless swimsuits? It's that swinging time of year when ice, snow and freezing wind are behind us and we can look forward to picnics, homemade ice cream, water skiing, sunburns and the end of school.

One last thought: Boys used to wonder whether or not their girl's hair was actually blonde, but now that a new fashion fad is sweeping the country, they can't even be sure that it's really her hair.

## What Price Increase?

# Kennedy Draws GOP Fire

President Kennedy's recent action directed at the large steel-producing concerns in this county has caused almost as much comment among the GOP members of Congress as did the price hike among the Democratic members.

Aside from the harsh, fighting words the President threw at the companies during a press conference, all the chief executive really did was to direct the Secretary of Defense to buy all the steel used by the armed forces from companies that did not raise their prices.

Although Barry Goldwater termed the president's move as another step toward the socialization of the country, was it really? All the number one citizen was doing was trying to save the taxpayers some money by buying at a store where the dollar would go farther.

And the steel companies? Well, it looks as if they have been on the federal gravy train so long that if they lost any government orders, that six dollars a ton increase spread among the other users would not even begin to make up for what they would have lost.

No, not socialism—just a good old capitalistic tactic called "taking our business elsewhere unless . . ."

JOHN PETTY

—Editorial Assistant

# Toreador Mail Call...

Dear Editor:

After reading your article concerning Open Dances, I have reached the conclusion again that you have taken out your screwdriver and are endeavoring to take the world around Tech apart. You have stated a fact, and stated it well, that the IFC and the administration are at each other's throats about an old problem. Since November, 1960, when District two voted "wet" and the seven mile drive out the "strip" replaced the 42 mile journey to Post, the old problem has become increasingly pressing.

To say that a "small minority" is responsible for the "excessive" drinking is true in a sense. However, this minority seems to be a different group each weekend. The ones that stayed sober and were good representatives of Texas Tech last week may be the very ones to be bailed out of jail next week by Dean Jones. The students that go out to the caliche pits for an evening of serious drinking and end up in various situations that are not up "to College standards" give the fraternity parties bad connotations.

It is good to see the facts in black and white that some parties, open or otherwise, turn into drunken orgies. But is this the real problem? The problem seems to be this vast and ever-expanding metropolis that Tech has the misfortune of being located in. Where else will students who are going to drink, and many will, at parties, in s, at the lake, or where ever they can find a beer and a church key, have the opportunity to mix with other students and have a good time if not at dances? They may go out the strip to the dance halls and "clubs" if they feel dangerous. In these places, a Tech student fits with the other customers as well as a beer bust in the Dean's office.

It seems that the problem might be aided by having "supervised" drinking at registered

parties. Of course getting any kind of confirmation from the administration will be a new problem in itself, but it may be an answer to the problem. If a student gets unruly, it should be up to the fraternity to see that he is taken care of. If it looks as if the student might have trouble getting back to his residence, the fraternity should be held responsible for any thing that happens to him. Of course, for this to work, the administration would have to lay ground rules as to drinking and admit drinking goes on at Tech (and will continue). Drinking in the Ladges should be permitted, with proper supervision. True that the city fathers will look down upon this, but Tech belongs to Texas, not Lubbock.

As you stated, "Its worth a try!"  
Congratulations to Mr. Carpenter and Petty.  
Jim Stiff

Dear Editor,

The campus of Texas Tech was designed for people, not cars. Separation of utilitarian and human activities has through-out the ages been a sign of progress. It was progress when smelly sewer lines were eliminated from Main street and put underground. Electric and gas lines are always separated from people. Cars are more dangerous than gas lines, electric lines, and sewer lines combined.

Since people and cars must be separated, it is obvious that cars must be banned from the circle. Cars can't reach a destination going around a circle; they need a long straight roadway. People do not need to drive through the campus; they need only to drive to and from the campus. The library parking lot could then be put to better use as a landscaped area with some sort of monument on it.

## WEHRLE'S WORLD

# Young GOP's Greet Statewide Candidate

Members of Tech's Young Republican Club joined local GOP's Wednesday at Lubbock Municipal Airport to welcome Demond Barry, candidate for congressman-at-large, to Lubbock.

Barry won legal action against the Teamsters and gained the title of "The Man Hoffa Found Too Hot to Handle."

Barry's visit was timely for the Young Republicans since at 7:30 p.m. today in the Tech Union Workroom, Jack Sharpe, secretary of the Lubbock Central Labor Council, will speak to the club on the "Objectives of the Labor Union."

A question and answer session will follow Sharpe's talk.

After the meeting, election of

next year's officers will be held. Candidates who have announced for office are Harry Newhardt, president; Glenn Looney and Don Schollenberge, vice president; Joy Hamilton and Jill Lobdill, secretary; and Susy Dreschell, assistant secretary. Nominations can also be made at tonight's meeting.

The annual GOP membership drive was launched Wednesday morning. An information booth will be open from 8 a.m. to 1 p.m. today in the Tech Union for interested students. Membership is open to anyone between the ages of 18 and 36.

Information and campaign material about Republican candidates on an area and state level is also available at the booth.

## Lychnos Bid Goes To 21

With a short reading from Plato, 21 students were initiated into Lychnos, Tech honor society, Wednesday.

An organization of Phi Beta Kappa faculty members, Lychnos was formed four years ago to recognize those students whose scholastic achievements qualify them for membership in Phi Beta Kappa.

Speaker for both a 4 p.m. lecture in the Agriculture Auditorium and the following banquet for initiates, Joseph W. Cohen, professor of philosophy at Colorado University, exhorted audiences to adopt an honors program emphasizing "pursuit of knowledge rather than grades alone."

"I have a quarrel with Phi Beta Kappa," the philosopher said; "it uses the traditional methods for scholastic recognition. It's too little, too late, too esoteric, too invisible to the rest of the student body."

Dr. Cohen believes the honors system should have at its heart student-faculty discussion groups called "colloquia" to awaken intellectual research, intelligent conversation, motivation to learn and competitive exchange of ideas.

"Students must be shown a vision, their security in an immature sense of values must be threatened, and they must form the 'friendship of good minds,'" he said.

He stressed that this program should include freshman superior students immediately upon college entrance, should be varied and flexible, should be continuous and visual to all students and should revolve around student-faculty dialogues rather than formal lectures or stilted panel discussion situations.

"Many students come from high school looking for university life, for the very highest in intellectual stimulation... and what do we give them? Orientation week!" he said, indignantly.

Lychnos initiates are Robert W. Bashe, Beverly Biggs, Curtis Bradford, William E. Clark, David Demic, Michael De Sha, Carlyn Grau, Betty Gray, Sherry McGee, Elizabeth Mabry, Jane Merritt, Thomas Nash, Robert Palmer, Miriam Parkinson, Rosemary Patterson, Emily Puckett, Carolyn Schmiech, Vera Simpson, Dorcas Turner, Charmayne Wilson and Charles Kenner.

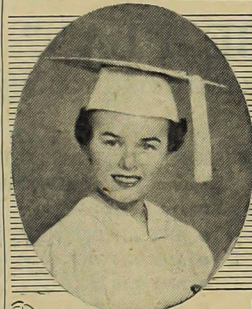

## Panty Raid Strikes SMU Tuesday Night

DALLAS (AP)—"It looked like it was snowing panties," said a policeman of spring's first outbreak of masculine madness at Southern Methodist University Tuesday night.

A crowd of 1,000 boys began congregating at 11:40 p.m., going from dorm to dorm in what officials called "not the biggest" panty raid of the school.

Some girls encouraged the raiders with taunts that the boys were "chicken for not coming in after them." But the response was tremendous, police said, including one or two pairs that looked like they might have been made with a lady elephant in mind.

From the dormitories the mob passed to sorority row where an actual assault was made on a building. School officials and police rushed in to repulse the intruders and to collect names.

# Murdough Announces Retirement

James H. Murdough, one of three remaining original Tech faculty members, announced his retirement as head of the civil engineering department Monday.

Murdough, who has been head of the civil engineering department for 35 years, will resign with emeritus rank May 31.

Dr. R. C. Goodwin, president of Tech, announced Monday that Dr. Keith Marmion will succeed Murdough as acting head of the department.

"I am well pleased that Dr. Marmion is going to take over as department head," Murdough said. "Dr. Marmion is a man of high ideals, with both feet on the ground, and I am sure that the civil engineering department will be well taken care of in his hands," he added.

Murdough, who was named 1961 Engineer of the Year by the South Plains Chapter of the Texas Society of Professional Engineers, received a bachelor's degree from Massachusetts Institute of Technology and a master's degree in civil engineering from the University of Michigan.

Murdough was president of the High Plains Branch of the American Society of Civil Engineers in 1954 and 1955 and is also a member of the American Society of Engineering Education.

He is the author of "Elements of Dynamics," a civil engineering text book and co-author of "Elements of Statics."

Commenting on the growth of Texas Tech since 1925, Murdough said, "I have watched Tech grow from a small country college made up to 1,100 students to a major Texas institution made up of 11,000 students."

"Scholastically," Murdough added, "Tech has made considerable progress in adding new and higher quality courses in every field."

Prior to his work at Tech, Murdough was inspector for the Massachusetts Highway Commission, an instructor at MIT, an instructor at Oklahoma State and a member of the United States Army.

The Murdough chapter of the American Society of Civil Engineers, sponsored by Professor George Whetstone, has been named the outstanding Texas chapter for three consecutive years and has received six commendation awards.

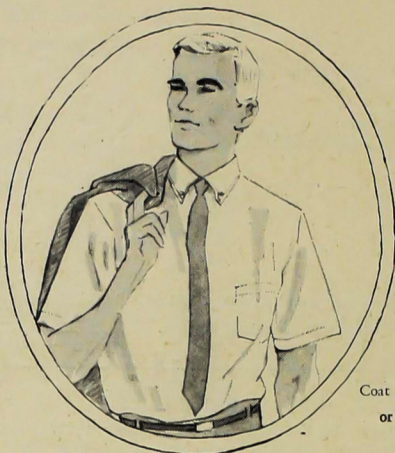

During his active citizenship in Lubbock and West Texas, Murdough has been a member of the American Legion, the Lubbock Rotary Club (where he served two terms as director), a former chairman of the board of deacons of the Presbyterian Church, an original member of the Lubbock City Planning and Zoning Commission and a member of the Board of Adjustment of the City Building Code.

Marmion, who will be new head of the Tech civil engineering department, is a native of Farmington, Iowa, and holds a bachelor of science degree from Denver University and a doctor of philosophy degree from the University of California, Berkeley.

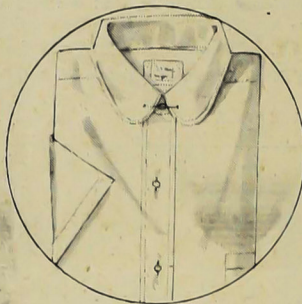

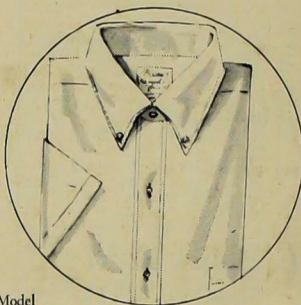

He is also a member of the American Society of Civil Engineers and has been on Tech's civil engineering faculty since 1955.

## Latin Club Elects Next Year's Slate

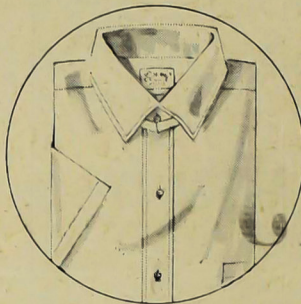

Optimates, Tech's Latin club, has elected its officers for next year. They are James Armstrong, president; Diana Henckel, vice president; Caroline Quede, secretary; and Kirk Whiteside, treasurer.

## Tech Head Announces Promotions

Eighteen Texas Tech faculty members will receive promotions in rank, effective next September. Dr. R. C. Goodwin, Tech president, announced.

The faculty members, their departments, and new rank, include: Levi M. Hargrave, agriculture education, professor; Dr. Frank Hudson, animal husbandry, associate professor; Robert R. Reed, horticulture and park management, assistant professor; Dr. Paul V. Prior, biology, professor; Dr. Raymond L. Davidson, education, professor; Dr. Berlie J. Fallon, education, professor.

Dr. Roger Brooks, English, associate professor; Dr. Mary Sue Carlock, English, associate professor; Dr. Floyd E. Eddleman, English, assistant professor; Dr. Rae L. Harris Jr., geology, associate professor; Corwin C. Reeves Jr., geology, assistant professor; Miss Mary Jeanne van Appledorn, music, associate professor.

James W. Day, physics, professor; Dr. Clarence G. Gardner, physics, associate professor; James D. Howze, architecture and allied arts, assistant professor; Dr. Keith R. Marmion, civil engineering, professor; E. Walter LeFevre Jr., civil engineering, assistant professor; and Levern A. Reis, mechanical engineering, assistant professor.

## Linguists Slate Honor Banquet

The Department of Foreign Languages Annual Awards Banquet is scheduled for 6:30 p.m. April 24 in the downstairs Ballroom of the Tech Union.

Dr. Marshall Nason of the University of New Mexico will speak on "The New Dimension in Foreign Service: Accent on Youth."

Dr. Nason received a Bachelor of Arts degree with a major in political science and Master of Arts from Louisiana State University. He earned a Doctor of Philosophy degree with a major in romantic languages.

He has taught at Louisiana State University and the University of New Mexico and has been a visiting professor at the University of California. He is now Director of the Division of Foreign Studies of the University of New Mexico.

For ten years Dr. Nason served as executive secretary for the Instituto Internacional de Literatura Iberoamericana.

Students of Spanish at Texas Tech know Dr. Nason as the co-author of the Spanish 436 text "Charlar Respasando." He is the author of books and articles dealing with the language and literature of Latin America.

In 1961-62 he served with the Peace Corps as special consultant to the director, Sargent Shriver. He engaged in project exploration in Venezuela and was regional director for Argentina, Chile and Uruguay.

At 10 and 11 a.m. and at 2 and 3 p.m. April 24 Dr. Nason will be in the workroom of the Tech Union where he will discuss informally the work of the Peace Corps. Students and faculty members interested are invited to attend.

At 2 and 3 p.m. there will be a showing of a 50-minute documentary on the Tanganyika project of the Peace Corps in Library 11. Students and faculty are invited to attend the free showing.

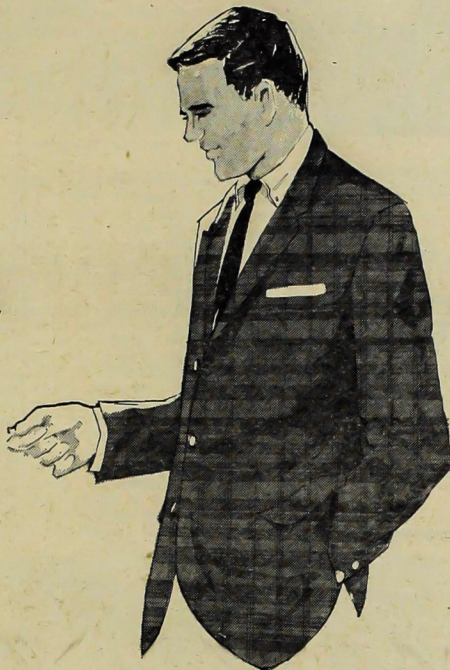

The presentation of the Roscoe Wilson Memorial Scholarship in Foreign Languages will climax the 1962 Awards Banquet. The \$270 scholarship, presented by Dr. John Dowling of the department of foreign languages, is awarded to the outstanding undergraduate major in a foreign language.

Tickets for the banquet are \$1.60

# Kingston Trio Offers Songs, Mirth At Coliseum May 4

The popular Kingston Trio will appear at Tech May 4.

Bob Shane, Nick Reynolds and John Stewart, the individuals who make up the trio will present a concert of folk music to Lubbock at 8:30 p.m. in the Municipal Coliseum.

They will find a warm reception. Tickets are reportedly "selling fast" and may be bought from Dick Perkins, David Black, Jerry Avery or Don Perkins, the four Thompson Hall sponsors.

Since their launching at San Francisco's "hungry i," the Trio has been a favorite of college students across the nation. Their first album, "The Kingston Trio," was a best seller and their single, "Tom Dooley," rocketed them to the top of the hit parade.

Nick Shane, generally called the "runt of the litter," hails from San Diego and is a devoted sports car enthusiast, skeet shooting champ and camera bug. His sense of timing and boundless energy form the springboard for the relaxed clowning which is the hallmark of the trio's performances.

Bob Shane was reared in Hawaii and at first, he entertained only as a leisure-time activity. But during his college days at Menlo Park School of Business Administration, he entertained in campus shows

and when he graduated he began working in his off hours at Honolulu night spots. He soon found himself so much in demand that he decided to return to California to join Nick and form the group that was to become the Kingston Trio.

John Stewart, the newest member of the trio, was a longtime associate and major contributor to their success as a song writer long

before he ever appeared with them publicly. A Civil War buff, he was a member of a singing group called "The Cumberland Three" which toured the country with Shelley Berman and appeared at Tech with Berman last year.

Tickets for the performance go on sale at the Bookstore and the Hi-D-Ho Friday. They are \$2 and \$3.

## Footnotes

by Miller

From "focus" to "Footnotes"— Bill McGee is now occupying the editor's chair and the amusements editorship has a new contributor. When I learned of my new statue, I gave a leap of joy which caused my back to give an alarming twinge (It's been out of joint ever since the day I did a contortionist act trying to make sure my car wasn't parked on the line in front of Drane Hall). I grabbed pencil and paper and was heading for Buffalo Lakes to cover the real amusements when I was informed that this was not what the Toreador had in mind. Oh well—

All Tech music buffs can switch

off the stereo and lean back—it going to be a musical month. The music department is presenting its annual Symposium of Contemporary Music April 25-27. Features will be the Texas Tech Concert Band, directed by Dean Killion; the Tech Orchestra, directed by Paul Ellsworth; the Tech Madrigal Singers, directed by Gene Kenney; and the Tech Opera Theater, directed by Charles Lawrie. The three evening concerts will feature varied trends of contemporary music writing.

On April 27, the Tech Opera Theater and the Madrigal Singers will share a program in the Recital Hall of the Music Building and will present "The Telephone" by Gian-Carlo Menotti and "The Unicorn, the Gorgon and the Manticore."

And, for the barbershop quartet fans, the Lubbock Kiwanis clubs and the Lubbock Chapter of The Society For The Preservation and Encouragement of Barbershop Quartet Singing in America Inc., will sponsor a musical show May 5 in the Monterey High School Auditorium. Featured will be the Evans Brothers Quartet, international quartet champions from Salt Lake City.

And, of course, there's the ever-popular Kingston Trio.

Has anyone seen "Sweet Bird of Youth"? Comments picked up around the campi range from "It's great" to "Wildly overacted."

We'll try in this column to be around whenever and wherever artistic hell breaks loose. Meanwhile, until a bomb levels the Journalism Bldg. or the downtown movies initiate student discount rates, the thought for the week is: Don't hatchet your counts before they chicken.

## Tech Profs Attend Meet

Thirty-seven Tech faculty members will attend professional and academic meetings Thursday, Friday and Saturday in Dallas.

Representatives from history, government and sociology departments and all departments in the School of Business Administration will participate on programs.

Meetings to be attended are the Southwest Social Science Assn., the Southern Business Law Assn., the American Business Writing Assn., the American Marketing Assn., the Southwest Marketing Conference, Plant Managers' Conference and the American Accounting Assn.

At the Southwest Social Assn. meeting, Dr. Lawrence Graves, Tech history department, will read a paper on "Woman Suffrage as a Reform Movement."

George W. Berry of the finance department will present a paper on "Federal Reserve Control Over Other Financial Institutions" at the economics section meeting.

A paper on "Sociology as Applied in Medicine," will be read by Dr. Fred Katz, Tech sociology professor, at the sociology meeting.

Dean S. M. Kennedy of the School of Arts and Sciences and Dean George G. Heather of the Business Administration School will also attend the three-day meetings.

## City Chooses Henry as Community Ambassador

Henry, Tech sophomore, chosen community ambassador from Lubbock for the Experience in International Living Tuesday.

Each summer this organization selects college students from all over the nation in ten-member teams to Europe, South America, and other countries of the world to help improve international relations on a community basis," Henry explained.

As ambassador, Henry will spend three weeks in Argentina with his team members. He will stay in the home of a recommended Argentine family for four weeks, tour Argentina with his team members for three weeks, and may spend one week in any part of South America he wishes.

Sponsored by the Lubbock Chamber of Commerce and 125 civic organizations, the ambassador is chosen by representatives of these clubs. The only requirements for the ambassadorship are two years of Spanish and residence in the Lubbock school district for one year.

Henry was chosen to represent Lubbock from a group of 22 entrants. Other finalists were Cecil Camp, first alternate, Russel Denison and Jimmy Thrush, all Tech students.

Henry, a personnel management major, is a graduate of Lubbock High School. He is a member of Phi Epsilon Sigma, freshmen men's honorary society, and is a pledge of Phi Kappa Psi fraternity.

"Oh, man! with this face custom flowers sure do the job."

# Tech Netters Put Streak 'On The Line' Friday

A pair of winning streaks will be on the line when Texas Tech's tennis team meets the Texas Western net squad here at 9 a.m. Friday.

Texas Western is unbeaten in four starts this season, and Coach George Philbrick's Red Raiders will be seeking their fifth consecutive dual match triumph.

## Titans Sign Star

NEW YORK (AP) — The New York Titans of the American Football League announced the signing of Wayne Fontes, Michigan State halfback, Wednesday.

Fontes was one of the mainstays of the Michigan State defensive platoon last year, and will be used at defensive halfback by the Titans.

Coach Louis Kahn's Miners are Leeland Housman, Robert Macias and Roy Springer, all of El Paso, and Brian Gilley of Fort Stockton. So far they hold decisions over New Mexico State (three) and University of New Mexico. After meeting Texas Tech the Miners will go to Abilene to play Abilene Christian Saturday.

Philbrick will probably use a trio of sophomores—Don Draper of Houston, Benny Lawrence of Amarillo, Beau Sutherland of Kerrville, and a junior, Daryl Allison of Lubbock. After posting a 1-5 record in early season play the Raiders have downed Southern Methodist, Texas A&M, Baylor and Hardin-Simmons. The last three were shutouts.

## In Mackenzie Park Today

# Raiders, Lobos Clash

Ramey Brandon will pitch for Texas Tech against the University of New Mexico in a series opener at Mackenzie Park at 2:30 p.m. today.

New Mexico and Tech will meet again Friday and Saturday. The Saturday game will start at 1 p.m. Junior Lloyd Randel (3-1) of Albuquerque will be the probable starter for the Lobos.

Coach Berl Huffman will start Doug Cannon behind the plate, Bob White at first, Ronnie Ayers at second, Charley Harrison at short, Richard Barker at third, Billy Gayle Wilson in leftfield, Darwin Hilliard in center and Cagle Davis in rightfield.

New Mexico, leading the Sky-line Conference's Eastern Division with a 7-1 mark, has four batters

hitting over .300, paced by shortstop Isidro Rubi of Albuquerque. He is hitting .450, just a bit over the .438 mark compiled by Gary Ness of Las Cruces, who plays first base when he isn't pitching.

Texas Tech, 12-8, has only two

regulars, shortstop Harrison Abilene (.403) and second baseman Ayers of Lubbock (.400) better over .300. As a team the Raiders are batting .264 as compared to New Mexico's .295.

Admission to all games is free.

# Gridders Choose 4 As Raider Captains

Four seniors-to-be will captain the Reds and Whites in Texas Tech's spring training wind-up game in Jones Stadium at 8 p.m. Saturday.

Announced by Coach J T King are center Jerry Elbert of Wellington and tackle Nathan (Sonny) Armstrong of Sweetheart for the Reds and center Dennis Grimes of Seagraves and halfback Charles McIntire of McKinney for the Whites.

Coaches for the game will be John Conley and Jim Wright for the Reds and Merrill Green and Joe Blaylock for the Whites. Willie Zapalac and Head Coach J T King will man the pressbox telephones.

The Reds have a slight edge in experience for the Saturday conflict. Playing for the Reds will be

12 lettermen, one more than the Whites.

Other Reds are ends Larry Dwyer of Lamesa, Jerry Johnson of Gladwin, Ronnie Reeger of Muleshoe, Johnnie Bentley of Fort Worth, Bill McLelland of Ennis; tackles Bill Washerlesky of Bonham, Steve Kett of Weatherford, Reg Dwyer of Snyder, Don Allen of Wichita Falls; guards Eugene Howard of Longview, Ronnie McWilliams of Littlefield, Joe Clanton of Vernon, Richard Willis of Sumner, N.M., Mike Quimby of Kermit, Rusty Owens of Pecos, and Larry Carlisle of Lubbock.

Also centers Larry Peden of Odessa, Jimmy Wells of Dumas, and Ayers of Friona; quarterbacks Don Morrow of Plains, Sam Ornelius of Spearman, Jim Zarn of Albuquerque, N.M., Don Anderson of Stinnett; and fullbacks Leavelly of Lovington, N.M., and Dorothy of Denver City.

"CONVENIENTLY LOCATED FOR TECH STUDENTS—PLENTY OF FREE PARKING"

# Lubbockites Will Speak On Genesis

Mrs. Bryan Edwards, 1961 Lubbock Woman of the Year, will speak at 7 p.m. today in the Union, Rm. 206, on the book Genesis.

This book of the Bible, which gives the key to human history, will be of interest to students of all faiths, according to Mrs. Edwards. Some say that many Americans do not appreciate things of the past. Mrs. Edwards' theory is that Americans have not learned about these things.

She will discuss customs, including marriage laws and the start of government aid. One of the customs she will talk about will be that of the wife owning the home and being responsible for putting it up and taking care of it.

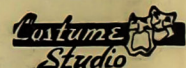

In August, Mrs. Edwards will receive her masters degree in sociology from Tech. She is a '62 Home Economics graduate.

Tech Union Ideas and Issues Committee, sponsor of the Forum, will serve refreshments.

# Playoffs For 'Noche' Continue In Men's Intramural Activities

Playoffs are in full swing this week in the department of men's intramurals at Texas Tech.

Purpose of the eliminations is to determine finalists in various intramural sports. All-college champions in these activities will then be determined May 3 in Municipal Coliseum at Noche de Conquistadores.

Phi Kappa Psi, Kappa Sigma, Bledsoe Hall and Delta Tau Delta are the quarterfinalists in volleyball competition. The Phi Psi's and Kappa Sigma will clash Tuesday at 7 p.m., followed by the Bledsoe-Delta Tau Delta game at 8.

In boxing, preliminaries will start Tuesday and continue next Thursday.

Weightlifting finalists have already been determined by preliminaries. Rodney Pace and Jerry McMahan will compete in the 123 lb. class, Don Nagai and Jim Johnson will vie in the 132 lb. bracket, and Ken Bailey and David Wright will battle for the 148 lb. crown. In the 165 lb. class, Lanny Beaty and James Minor are the finalists and in the 181 lb. division, Jack Nelson was the lone entrant. Ross Woodson and H. L. Daniels are the top two in the unlimited division.

In a new contest called "odd lift" competition, Tom Yamin, Larry Welch, Jay Wightington and Frank Baker are the top four.

Kappa Sigma and Pi Kappa Alpha are the two teams which will meet in the finals of the tug-o-war.

In the softball races, the Newman Club is the champion of the

Slow Pitch League, Phi Epsilon Kappa leads the Independent League, Sigma Alpha Epsilon tops the Fraternity League and Sneed Hall is heading the Dormitory League.

## SCARLET Scatterings...

By CHARLES RICHARDS  
Toreador Sports Editor

Tennis has not been a great spectator sport on the Tech campus in the past, but if Coach George Philbrick and his netters continue at the blistering pace they've been setting they may have to find more seats for the on lookers.

They started out slow, but the Raider netters now have come on to win their last four matches. The last three opponents have failed to score.

It doesn't take a sharp eye to figure out Philbrick's love for the game and his faith in his team. I was in the athletic offices last weekend, and it took just the mention of the sport to get him started.

"I think my boys are coming along real well and improving every day," the popular mentor said. "They want to win, and they're working hard. That's a combination that's hard to beat."

Philbrick believes much of the improvement shown by his Tech team is a direct result of the stiff spring vacation tour through South Texas. In a four-day span, the Red Raider netters played four of the top teams in the United States.

"Even though we lost, the experience was good for us," he explained. "I was afraid to schedule the matches because I thought getting beat so badly might demoralize my players. I went ahead though, and it turned out all right, because they realized how good the competition was, learned a lot and began to improve in the following games."

Tech started the ambitious South Texas swing with Lamar Tech at Beaumont March 27, losing 0-6 and then the next day met Corpus Christi University. The Red Raiders were defeated 6-0 here also, but Philbrick went away fairly content.

"Corpus Christi has two Davis Cup players in the Palafox brothers, and considering that, I thought we played well against them," Philbrick said. Antonio Palafox is rated No. 1 in the nation, and his brother Cabino is in the top 10.

Tech took its only match of the trip when the team went to Edinburg to meet Pan American. Daryl Allison and Don Draper teamed to win the No. 2 doubles to escape another shut-out as Pan American won 5-1, mostly on the efforts of two Australian and two Brazilian players.

Trinity University in San Antonio the next day pitted the Tech netters against such nation-wide stars as Chuck McKinley, Frank Froeling and Cliff Bucholz. The fourth Trinity player was Butch Newman, a former Texas high school champion. This match went to Trinity, also by a 6-0 count.

An attractive home schedule is left for Tech students. It starts with Texas Western tomorrow, but coming fast on the heels are six other Lubbock matches, including rematches with Pan American and Lamar Tech. All games will be played on the courts east of the Men's Intramural Gym.

After Texas Western, will come Abilene Christian, Hardin-Simmons, Texas, TCU and the two South Texas powers to challenge Tech's superiority here, where Philbrick and his netters have yet to lose.

If you're interested in the very best of tennis and a little amusement on the side, the Lamar Tech match May 8 is the one to plan for. Part of their team is a clown star named Driscoll, who combines extraordinary tennis ability with crowd-pleasing antics.

"He puts on a real good show," Philbrick laughed in reference to Driscoll. He told of one occasion a few weeks ago in the Rice Invitational, when Driscoll hit a tremendously high lob to his Baylor opponent, went over to the stands to joke with the spectators, and then ran back onto the court to slam his opponent's return.

If you like your tennis mixed with baseball and track, you'll still be able to work a winning combination somewhere. Both of those sports will also be going on around the campus this weekend.

Baseball action is especially lively, what with the University of New Mexico and Texas Tech engaging in a three-game set here. Spread over three days, just about everybody who has wanted to see the Red Raider baseballers in action should have adequate opportunity to do it. Today's and Friday's games will start at 2:30 p.m., with Saturday's game slated for 1 p.m.

The varsity cinder team will be competing in Lawrence, Kansas, Friday and Saturday, but on the home front the Texas Tech frosh will be running in a meet on the Tech track. Lubbock Christian College and Howard County Junior College will compete with the Picadors.

If you've been on the campus for any measurable length of time during the last week, you couldn't have missed seeing the increase in bicycle traffic. Looks like the "built for two" model is holding its own with the "old fashioned" two-pedal kind.

Competing with the bicycle race for the students' support will be the annual Red Raider Relays, a track meet in which only those athletes who qualified for the state meet may participate.

## Inspection Team Visits Tech, Rates ROTC Battle Groups

The annual federal inspection of the Army ROTC will be today.

An Army inspection team composed of Col. Thomas R. Davis, chief of Army ROTC, 4th Army, San Antonio; Lt. Col. Homer A. Stuverud, A&M College; and Major James C. Grosser, Ft. Bliss, will make an inspection of the Tech Army ROTC division beginning at 1 p.m.

First the team will inspect the fourth battle group. This will be followed by a parade and a review. At 4 p.m. the team will inspect the first, second and third battle groups. A retreat review will follow this inspection.

Each Army ROTC cadet will be inspected and rated. A report on the performance of the division will be made after individual inspection.

Ratings of satisfactory or unsatisfactory will be given in accordance to supply, instruction, ad-

ministration and group performance.

This morning Col. Davis and Col. William M. Brown, professor of military science at Tech, discussed the procedure for the inspection with Dr. R. C. Goodwin, Tech president.

# Spring Brings 'Li'l 500'

By PEGGY BROWNLOW  
Toreador Staff Writer

Spring is drawing nigh—and with spring comes Tech's traditional "Little 500" Bicycle Race. The annual event is set for Saturday, April 28.

The circle will be blocked off at 1 p.m. Saturday for the beginning of the time trials for boys' teams only. All bicycles will be inspected between 1 and 2 p.m. Entrants should meet at 1:45 p.m. to compete in the time trials which begin at 2 p.m.

The purpose of the time trials is to limit entries to 30 teams, ac-

ording to Paul Dinsmore, bicycle race chairman. The trials also provided a time to assign pit positions for the boys' teams.

Trials are run in heats. Each team is required to cycle two laps around the track. A maximum of two riders will be required from each team for the time trials.

Noon today is the deadline for men's entry blanks and \$5 entry fees. Women's orientation and deadline for entry blanks and fees is 5 p.m. Wednesday. Men's orientation is 5 p.m. Thursday. All entry fees and blanks should be mailed or brought to Paul Dinsmore's box at the Student Council Office.

The women's race will begin at 1 p.m. April 28 and men's race at 2 p.m. The women will race around the Memorial Circle. Men's teams will race around both the Memorial Circle and Soapbuds Pavilion. Rules for the races will be available next week.

## Horn Reveals New Officers

With all the suspense and excitement of the real thing, Horn Hall revealed its officers and legislators for the 1962-63 school year in a mock Academy Award ceremony Tuesday night.

Each old legislator, impersonating a movie star, revealed the name of a new legislator as she pulled the name from a sealed envelope.

Named were Rosemary Patterson, Alta McAden, Jane Huffman, Sherry Kemp, Pat Daniels, Trixie Stout, Rose Clark, Pat Mitchell, Kay Sutherland, Peggy Thomas, Val Garner, Nancy Edwards, Tillie Louie, Sandra Jordan, Marti Newman, Martha Fox and Tulisha Shahan.

President of Horn for next year is Marcia Meyers; Dorothy Hickman, vice president; and Carol Bray, AWS representative.

The legislators, elected at large by the dormitory residents, were required to have a 1.00 overall grade average.

## Noted Belgian Lecturer Visits Geology Dept.

Dr. Marius Lecompte, one of Belgium's leading geologists, is a visiting lecturer at Tech this week.

Lecompte spoke Wednesday at an open lecture on the campus, comparing modern reefs with the Paleozoic reefs. Final lectures will be at 4 p.m. today and Friday in Science 153 for Tech science students and faculty members.

Lecompte is director of the Royal Institute of Natural Sciences Laboratory in Brussels, Belgium, and professor of paleontology and geology at the University of Louvain in Louvain, Belgium.

His lectures this week are under auspices of the Visiting International Scientist Program, sponsored by the American Geological Institute.

## 'Fair' Feature Games, Movie

The annual Frantic Fun Fair which will be held in the Tech Union April 28, from 8-12 p.m., will turn the entire Union into a gambling casino of the old South.

Carrying out this theme will be games ranging from bingo to roulette, played with paper money issued at the door. Also included in the entertainment will be a musical show, a movie and a dance.

Prizes will be given throughout the evening including one of \$200 for top gamblers. Refreshments will be served and the "Comtempo" will play for the dance.

## Tech Prof Gets Fulbright Grant

Dr. Elaine E. Boney, assistant professor of foreign languages, has been selected to attend the Summer Seminar for American Teachers of German at Munich, Germany, on a Fulbright Scholarship. Dr. Boney's grant is one of approximately 450 for teaching a participation in seminars abroad included in the education exchange program of the Department of State for 1962-63.

Her selection was made by the Board of Foreign Scholarship, whose members are appointed the President.

Dr. Boney, member of Phi Beta Kappa, teaches German and Russian.

She received the B.A. degree in chemistry from the University of Kansas, the M.A. in German from the University of Wisconsin at the Ph.D. in German from the University of Texas.

The seminar will be held from mid-July to the end of August at Goethe Institute.
