TEXAS TECH, LUBBOCK, TEXAS, APRIL 10, 1928.

NUMBER XXIV.

## Mr. Cecil Horne On Southern Press Program at Waco

JOURNALISTS FROM COLLEGE PAPERS TO TAKE PART IN PRESS MEET.

Mr. Cecil Horne is to leave Lubbock for Waco late in the week where he is to take part in a meeting of the Southern Journalism Conference to be held in that city under the auspices of Baylor University.

Climaxing the second Journalism Week in the Southwest which takes place at Baylor University April 10-13, a meeting of the Southern Journalism Congress, composed of professors of Journalism, directors of publicity, and editors of college papers and magazines, which will be held at 2:30 o'clock Friday, April 13, according to Dr. C. D. Johnson, head of the University Department of Journalism and sponsor of the week. This conclave is to be made an annual event meeting simultaneously with Journalism Week, which was inaugurated in Baylor last year by Dr. Johnson and Sigma Delta Rho, local journalism fraternity.

### Williams on Program

Dr. Walter Williams, Dean of the School of Journalism at the University of Missouri, and ex-president of the Press Congress of the World, who was present at last year's session, will be the chief speaker for the four day event. He will deliver an address Friday morning at 10:30 in Baylor Chapel on "Journalism and the future American Civilization." George B. Dealey, editor of the Dallas News, will follow Dean Williams. A banquet at the Raleigh Hotel at 7:45 Friday evening will mark the close of the week. Invitations and a complete program for the four-day gathering are being sent to newspapers, magazines, and colleges throughout the South. Editors of the leading high school papers in the state will also be invited.

### Loving Cup for Paper

A loving cup will be awarded for the best college daily newspaper in the United States at the closing session of the week. Representative papers from all the 36 colleges publishing dailies are expected to be entered in the national contest.

Tuesday, April 10, has been designated as Magazine Day. T. S. Rorer, head of the annual department of the Southwestern Engraving Company, Fort Worth, will speak at 9

(Continued on Page 2.)

## Tech Wins Many At Plainview's 1st Dairy Show

The first annual dairy show which was held at Plainview recently, and was restricted to 54 counties had a total of 77 exhibitors with 230 individual entries.

Texas Tech with Simms and Stencil were the principal prize winners. Tech exhibited both Jersey and Holstein-Friesians.

Tech won second in the production contest with Sadie Vieman Creamelle Hartog, Grand Champion Holstein cow, being beaten by the grand champion Jersey cow.

The other winnings made by the Tech entries were:

### Jerseys

1. 1st Bull—2 yrs. and under 3.
2. 1st Junior Yearling Heifer.
3. 3 and 4—Cows, 4 yrs. and under 5.

### Holstein Friesian.

1. 1st Bull—2 yrs., under 3 yrs.
2. 1st Jr. Yearling Bull.
3. 2nd and 4th Junior Bull Calves.
4. Senior Champion Bull.
5. Senior Champion Bull.

### Holstein Cows.

6. 1st Cow—5 yrs. and over.
7. 1st and 2nd cow, 4 yrs., under 5.
8. 1st cow, 3 yrs., under 4.
9. 1st cow, 2 yrs., under 3.
10. 1st and 2nd Senior Heifer Calf.
11. 1st Junior Heifer Calf.
12. Senior Champion Cow.
13. Junior Champion Cow.
14. Grand Champion Holstein Cow.

## Council Meets Tonight.

Members of the Student Council are expected to be present at a meeting to be held tonight to discuss and plan for the conducting of the spring elections.

Elections to positions on the various student association projects will take place shortly and the council is to plan for their successful completion.

President Al Jennings especially urges all class presidents to inform their student members of the council to be present tonight as this meeting will in a great measure determine the qualifications for office holders for next year.

## Interesting Map Is Received by College Library

The college library has received an exceedingly interesting and valuable map which will be made available to students as soon as possible. Mr. Clifford B. Jones, chairman of the Board of Directors said in presenting the map to the college:

This map was "prepared by one of our engineers from military surveys and data made in the very early days and recently procured by us from Captain R. G. Carter, U. S. A., retired."

The map shows:

Trail sand routes used by the 4th U. S. Cavalry under command of General Ronald Slidell MacKenzie in its operation against hostile Indians in Texas, Indian territory (New Oklahoma), New Mexico and Old Mexico, during the period 1871 to 1875, inclusive and including:

Old forts, posts and camps; Actions with Indians by 4th U. S. Cavalry 1871 to 1875;

4th Cavalry detachments, 1871 to 1876;

Camps of General MacKenzie's command 1871 to 1876;

The Chisholm Trail from San Antonio to Dodge City and Abilene, Kansas;

The raid into Mexico, May 17th and 19th, 1875;

Identifying by the names of those early years the creeks, springs, lakes, and peaks, particularly of West Texas."

## Moore Complimented On Creative Ability

Notice has been received from Miss Elizabeth Chelsey, vice-president of the Texas Intercollegiate Press Association, that she has received Tech's contributions made to the contests sponsored by that association.

Miss Chelsey noted in her letter an appreciation of a familiar essay submitted by Horace Grady Moore. Mr. Moore has on several occasions had material published in various eastern magazines.

The winners in the T. I. P. A. contest are not to be announced until the final meeting of the association which is to convene in Canyon in April.

Several representatives from Texas Tech are expected to attend the annual convention at that time.

## Kiwanis Club Fetes Tech Judging Team

The members of the Tech Stock Judging Team, and their coach, R. C. Mowery, were guests of the Lubbock Kiwanis Club at a luncheon at the Hotel Lubbock Thursday. The members of the team were R. C. Tom, J. W. Burroughs, Vaughn Corley, Curtis Grimes, and Claude Hope.

After an introduction of the individual members of the team, and a brief resume of the results of the recent contest at Fort Worth, the team provided amusement for the club by staging a mock judging contest, using members of the club as livestock.

## President Paul W. Horn is Guest of Cheri Casa Boys

Pres. Horn was the guest of the boys of Cheri Casa at dinner last Sunday. During the conference, Cheri Casa boys entertained Mr. Sherwood Eddy and Prof. Duflot at a luncheon, held at their dormitory. Following the luncheon the guests addressed the group on pertinent topics.

## Seniors to Meet To-Morrow Night To Perfect Plans

An unforeseen conflict, the terrific gale which blew up about 7 p. m. last Wednesday night, caused the postponement of the Senior Class meeting until tomorrow night. The class is to meet in room 214 at 7:30.

Matters pertaining to the final exercises are to be taken up; especially is the Senior American, final college ball, to be discussed. A full representation is imperative.

President Horn has written the president of the class to advise all seniors "whether graduating in May or August, are invited to take part in the formal and official exercises on May 27 and 28. The official commencement will be on May 28. We would be glad for members of both classes, who have not already done so, to place with our bookstore their order for cap and gown for this occasion."

Members of the class should make an especial effort to be present tomorrow night at the time and place mentioned in the foregoing.

## Talk on Spain is Home Ec. Feature

The Home Economics Club met at the practice house Friday night. The following meetings were announced: "A Trip to Europe," by Miss Weeks on Thursday night, April 19; the annual Home Economics picnic on May 4; and "An Old Fashioned Spelling Bee" on May 15.

It was also decided that the club would entertain the High School home economics club at the practice house the last of April.

There was a short business meeting after which Miss Frances Whatley gave a very interesting illustrated lecture on the Easter customs in Spain.

Easter is an occasion of great importance to the Spaniards and they celebrate a week before Easter and on Easter Sunday the festivities end with a bull fight.

Slides were shown with the lecture which made it more realistic and interesting.

Those present were: Misses Erwin, Weeks, McCreary, Harper, Whatley, Merle Williams, Auvens Huffstetler, Estelle Shepard, Lula Belle Rushing, Floy Anglin, Mrs. Reed and Mrs. Barnett.

## Telephone Company Wants Tech Report

Dr. Horn is in receipt of a letter from the Research Department of the American Telephone and Telegraph Company requesting a copy of the paper written by Drs. George, Young and Mr. Hill, all of the Physics department, in regard to experiments on atmospheric electricity.

Friends who wish to write him may address:  
Mr. Maynard Robinson  
S. S. Waban,  
Rotterdam, Holland.  
Care of American Consul.

## Cooper Invited to Address Scholarship Honor Society Group

Dr. Oscar H. Cooper, head of the department of education of Simmons University, has been invited to address the members of the Texas Tech chapter of the Southern Scholarship Society at a banquet to be held on April 12.

Members of the Society are urged to see Guy Carter to obtain tickets for the banquet. This affair is to be essentially a scholarship banquet, but each member of the society has the privilege of inviting some person who is not a student of the college to come as their guest.

Dr. Granbery, Dr. Evans and Mr. Mills are sponsors of the Society.

## Mr. Evans has Completed Ph. D. Requirements

Mr. A. W. Evans, head of the department of Education, has returned from Austin where he successfully completed examinations for his doctorate at Texas University. Mr. Evans at that time the chief supervisor of Texas High Schools, in 1923 registered for graduate work. He received his Master's degree in June 1924, by taking courses at night and at odd times. Mr. Evans said that throughout this time he did not lose a single day from his regular work while pursuing his studies at the University.

By August, 1925, just before coming to Lubbock to assume his leadership in Tech's Department of Education, he had completed class work requirements for the Ph. D. Degree. During his residency in this city he completed work on his thesis, his subject being:

### Thesis on Costs

"Salary—Instructional Cost Relationships; A study based on 390 Texas High Schools." In his research, Mr. Evans found that as far as costs are concerned, an administration of schools in thinking about costs in Texas schools, can assume that a change in the numbers of classes one taught by an instructor affects a difference of \$280, in the total costs.

For instance if a teacher is getting \$1,400 per year, teaching four classes, if one additional class is added to his total \$280 is deductible from the current cost of operating the school, or he the teacher may be paid an additional salary of \$280 without affecting the cost of operating the school.

### Children are Graduates

Four of Mr. Evan's children are college graduates. Three of them being graduates of Texas University and one of Southwestern University at Georgetown.

## Add New Man to Textile Dept.

Another new professor has been added to the teaching staff of the Textile Department; Mr. E. L. Murphy, a graduate of the New Bedford Textile school at New Bedford, Mass., shouldered the responsibility of directing the Junior textile students in the dyeing and knitting laboratories at the beginning of this term.

Mr. Murphy is the second man to be added to the Textile teaching staff this year; Mr. Harry Garden, a Georgia Tech man, joined the force at the beginning of the Fall Term.

## Dean Gordon Reviews Two Junior Colleges

Dean J. M. Gordon left yesterday for Plainview, where he will inspect Wayland Junior College. Dean Gordon has been appointed by Colby D. Hall, chairman of the committee on standards for the Association of Texas Colleges, to inspect both Wayland College at Plainview and Clarendon Municipal College, of Clarendon.

From Plainview, the Dean will proceed to Clarendon, where he will inspect the college there.

## Tech Students Injured.

Homer Pittman was cut about the face when a coupe driven by Edison Lee, and occupied by D. C. Earnest, Pittman and the driver, crashed into a parked machine on Broadway last Thursday night. Lee was blinded by the lights of an approaching car and did not see the vehicle parked by the curb until the crash came, say occupants of his machine.

Pittman was the most seriously injured of the three boys, but his injuries were limited to flesh and scalp wounds. The other occupants of the machine escaped with bruises. All three of the boys were able to attend classes Friday morning.

## High Lights.

TAKEN AT RANDOM FROM THE CONFERENCE.

The League of Nations is the organization in which the realists believed.—Dr. Caukin.

I am not raising my boy to be a soldier to protect the property of Sinclair and Doheny.—Dr. Hackett.

I do not see any reason why we cannot be friends.—Senator Caru Lara.

Quoting Senator Borah, "It ought to be a crime to defend by force a claim which will not stand the inspection of an arbitrator.—Dr. Hackett.

Are we going to make a world blunder, a war debt?—Sherwood Eddy.

Whatever you may think about machinery and modern means of transportation, it would be a crime to introduce them at once into China.—Miss Anderson.

President Hindenberg is a grand old man. He is loved almost as much by the German people, I won't say quite as much, as Robert E. Lee was after the Civil War.—Sherwood Eddy.

Quoting H. G. Wells, "This is a new age, and we are in it.—Sherwood Eddy.

Japan has made more progress in the past 30 years than any nation in history.—Sherwood Eddy.

I am going to stand for proportional disarmament—the appeal to reason rather than force.—Sherwood Eddy.

We want to collect all the European nations owe us.—Prof. Duflot.

This is the question. Shall America pay her part of the war debt which was incurred while we were getting ready?—Prof. Duflot.

Mr. Provenca has been away from the College for the past week sight-seeing in New Mexico.

The Sophomore Hodge-Podge has been postponed from the latter part of April until some time in May.

## Social Calendar.

TUESDAY  
Freshmen meet at Gym.  
Dramatic Club, 202, 7:30.  
Ag. Club, 7:30.

WEDNESDAY  
La Mesa Redondo, 7-8.  
Press Club.  
Senior Meeting, 7:30, Room 214.

THURSDAY  
Math Club.  
Band Rehearsal, 7:30.

FRIDAY  
Pi Gamma Mu, 8 o'clock, room 214.  
Las Chaparritas Dance.

SATURDAY

## Tech's Interest In World Affairs Shown by Meet

THOUSANDS PARTICIPATE IN FIRST CONFERENCE OF KIND IN LOCALITY.

The International Relations and Foreign Affairs Conference held at Tech last week took on a real air of internationalism with the appearance of Senor R. Cantu Lara, Consul for the Republic of Mexico stationed at Dallas, here last Sunday. Other speakers who assisted in making the affair representative of the American Association were: Dr. Esther Caukin, ciation of University Women; Miss Hattie M. Anderson, of the W. T. S. T. C. at Canyon; Mr. Sherwood Eddy; Dr. Charles W. Hackett, of the University of Texas; Bishop E. C. Seaman, of Amarillo; Mr. J. L. Duflot, professor of Sociology at Canyon; Professor W. A. Stephenson, of Simmons University; and local members of the faculty.

The Conference was opened by Dr. John C. Granbery on Sunday afternoon. Dr. Granbery stated the purpose of the Conference, and added that this, undoubtedly, was the first conference of a similar nature ever to be held in West Texas.

### On Outlawry of War

The subject for the afternoon was "The Outlawry of War—Steps toward World Peace." Dr. Esther Caukin was the first speaker. Dr. Caukin traced the evolution of Democratic government, and said that the world has come to another revolution in which we are beginning to see that we human beings are no more destined to be constantly involved in continual war, than we are destined to bow to a mysterious system called the "Divine Right of Kings."

In conclusion, Dr. Caukin said, "Education is, fundamentally, a continual process. So education will make us unafraid to face new ideas."

Senor Cantu Lara was the next speaker of the afternoon. He pledged friendship for America and said that he could not see why the peoples of the Mexican Republic and the peoples of the United States could not be friends.

### Vested Law Defined

Dr. Charles W. Hackett, of the University of Texas followed Senor Lara. Dr. Hackett traced several of the various doctrines of vested rights which have been promulgated during the past several years. Kellogg, according to the speaker, has set forth the doctrine of vested law which merely means that ownership of property takes precedence over the sovereignty of a people. He referred to the Coolidge doctrine of vested rights which is, in substance, that any property owned in a foreign country is extra territorial property.

Following Dr. Hackett's introductory remarks, Dr. Glass, for years a missionary to China spoke briefly on the three points in regard to China. These were: Treaties, Extra-Territoriality, and Customs Autonomy. He pointed out that practically every treaty with China has been made at the conclusion of some war. China is demanding that these treaties be revised.

In regard to extra-territoriality he said that an American can commit any crime in China without being tried by the Chinese courts. Such crimes are tried by the American counsel or some person whom he has delegated to consider such offenses.

The speaker felt that China should have a right to maintain their own customs and to profit by the collection of such customs.

The concluding speaker during the first meeting was Mr. Sherwood Eddy. Mr. Eddy raised many a question which were to be considered during the course of the Conference. He said "I believe we are living in a decade of history in which the term, the outlawry of war, is receiving the most important consideration to which it is entitled."

In referring to the question of war debts, which was taken up by professor Duflot on the third day, he said "Are we going to make a world blunder a war debt?"

### THE CONFERENCE AND "THE FLY."

With the close of the recent International Relations and Foreign Affairs Conference it is interesting to note the impression made by the conference in the minds of Lubbock people.

Every session during the entire three days was attended by many local townspeople. On Sunday evening a crowd estimated at from twenty-five hundred to three thousand souls were present to obtain a clearer conception of world affairs. The Monday evening meeting was likewise attended by persons having no direct connection with Texas Tech. Indeed, officials who sponsored the conference and arranged for the speakers were optimistic over the reception accorded the meet by local people.

Yet, in the columns of the local newspapers practically as much attention and space was accorded the "Human Fly" as was given the entire affair. Some of the speakers, personages of national wide reputation, were favored by having mention made of their interests in making the first conference on world affairs a success, in this manner, "..... also spoke".

Such lack of respect or rather lack of proportional worth is indeed lamentable in this day when internationalism is the keynote of world thought.

It is not the attention to minimize the "ability" of the "Human Fly", who must be a master in his line, but in the future there is little to look back upon in having seen him scale the Hotel Lubbock. On the other hand, matters brought out at the conference are of great worth in moulding human life and character.

Is the "Human Fly" of more worth to civilization than is Dr. Hackett or Dr. Esther Caukin? Can it be true that American people are more interested in the antics of an acrobat than they are in the settlement of the War Debt? Are the people of Lubbock less interested in the matters of life than they are in one who risks that life?

If the fore-mentioned questions are to be answered as they should be, the local press is not a proper guardian of informational qualities? Such matters should be called to the attention of the editors of the two papers and they should be shown that Lubbock and Texas Tech are vitally alive to the affairs which confront them today.

### FUTURE COLLEGIANS

With the coming of two thousand students to the Tech campus when the District Meet is held here on April 20-21, Texas Tech and its student body will be on trial. Many of the contestants here on these two days will become future college citizens. It is the duty of every man and woman in Tech to see that our college gets the major portion of these contestants.

Texas Tech is the logical college for students from the entire West Texas territory. If Tech impresses these high school students when they are our guests we may rest assured that they will remember their days spent at Tech and Lubbock with a great deal of fondness and when the time comes for them to choose a college for the furtherance of their academic life they will choose this institution.

It will be the duty and pleasure of every member of the student body to show our visitors the campus, the buildings; direct them about the city and give them first hand insight into the realities of a college career. In addition, Tech students and faculty members will assist in judging the various contests, both athletic and literary.

It is a further pleasure and duty to present the best side of our nature to our friends and visitors. Greet them with a smile and do not forget, "Every day is howdy day at Texas Tech."

### Mr. Horne.

(Continued From First Page.)

9 o'clock on "The Methods and Value of Illustrations," followed by a round table discussion and exhibitions of various types of illustrations in college annuals and newspapers. President S. P. Brooks of Baylor University will welcome Journalism Week visitors and present the speakers for the day at 10 o'clock. Peter Molyneux, editor of *Bunker's Monthly*, will speak at 10:30 on "The South, A Virgin Field for a New Magazine." Professor W. H. Vann of Baylor College, Belton, editor of *The Torch Bearer*, will use "The Young Writers of the South" as a subject. Miss Debes Lamar West will

discuss the functions of the Texas for this day at 9 o'clock. A round table discussion of the problems of reporters will follow. At 10:30 W. V. Crawford, Waco Department store manager and formerly Associated Press man with Roosevelt, will speak in "President Roosevelt and His Attitude Toward Newspapers." Richard McCarty of the *Albany News* is on the program at 1:30 and Richard C. Bush, telegraph editor of the *Waco Times Herald*, will talk *Woman's Press Association*, of which she is vice-president. A round table parley on the methods of editing and managing a magazine will follow. Editorial and Business Management Day comes April 11. "Facts vs. Fiction in modern Journalism" by Frank Baldwin, editor of the *Waco News Tribune*, will be the opening address

Mr. John W. Campbell of New York has offered a fund of \$6,000 to be divided among the three students either men or women, of the "Floating University" who accomplishes the greatest service in furthering international friendship on the trip. \$3,000 will be given to the most outstanding student—\$2,000 to the second—and \$1,000 to the third.—Houstonian.

All the world seems to be turning toward internationalism. These college students who have an opportunity to really see the world should be able to do inestimable good toward a furtherance of world peace.

The Scholarship Society of the T. U. is planning a banquet for its members to be given sometime in May according to the president Luther Mansfield.—T. C. U. Skiff.

T. C. U. is to have a scholarship banquet—"Even as you and I".

Tech's first scholarship banquet is booked for April 12.

Dr. Cooper of Simmons University has been invited to address the society.

After many hours of hard labor on the part of the Stone Fort staff, the 1928 Stone Fort is nearing completion.

at 2 o'clock on the "Scope and Methods of News Management," with a general discussion of the status of Texas papers at 2:30.

Horne to Speak on News

The third day of the session will be given over to college journalism. At 9 o'clock Professor Cecil Horne of Texas Technological College, Lubbock, will discuss news from the college point of view, while Professor W. K. Kennedy, publicity director of publicity, Texas University, is to speak at 9:30. Hugh Nugent Fitzgerald, editorial and political writer for numerous Texas papers, speaks at 10:30 on "Politics and Journalism." At 1:30 Dr. Dan Russell, now professor at Texas A. & M., will tell of social conditions in Chicago and their relationship to newspapers. Dr. J. M. McConnell, editor of *The Baptist Standard*, will discuss "Religious Journalism and the New Social Order" at 2 o'clock. The roundtable discussion of this day will be taken by college editors.

J. D. Suggs, editor of the *Pampa Times*, speaks first on the last day of Journalism Week, to be known as Metropolitan Journalism Day. Mrs. Lee R. Roundtree, vice-president of the National Editorial Association and editor of the *Bryan Eagle*, speaks on "Modern Women and Journalism" at 9:30. Following the addresses by Dean Williams and Mr. Dealey, Professor Eric D. Schroeder of C. I. A., and J. W. Riddings, professor of Journalism at T. C. U., Fort Worth, share the 1:30 hour. The Southern Journalism Congress in the afternoon and banquet at 7:45 conclude the four-day session.

James and Barton Atcheson returned Tuesday from Graham, where they were called because of the illness of a relative.

The hard work and hardships connected with the making of an annual will be forgotten, and a feeling of pride will take their place when the finished book comes out, for this year's Stone Fort is going to be the best which has ever been published. A Spanish theme, in keeping with the historical background of Nacogdoches is carried out in the color scheme and in the art section of the book.—Pine Log.

By changing the name "Stone Fort" to La Ventana and Nacogdoches to Lubbock, the foregoing clipping would about state the affairs at Texas Tech. Right here our annual is progressing rapidly and before you realize it the copies of the book will be in the hands of the students.

A special training course in intensive training in coaching is announced this week by Simmons University of this city. The course, which will be open to McMurry students, will begin June 11, and continue through July 14. Students taking this work will receive five term hours on their requirements, credit to be awarded through the McMurry office the same as if the work were done under instructors of this institution.—McMurry War Whoop.

### Dramatic Club Presents "Overtones" To-Night

The Thespian Club will present tonight to members of the Dramatic Club a one act play with an all-girl cast. The play, "Overtones," was to have been presented last meeting; but was postponed, there being given instead three very delightful readings by Misses Huftedler, Hopping, and Crawford respectively. The play was given before the Faculty Club recently and was received very favorably. Dramatic Club members have an unusual treat in store for them tonight, according to reports.

At the last meeting of the club new officers were elected and plans were laid for the spring term. The following officers were elected: Alfred Bingham, president. Hal Lary, vice-president. Willie Pearl Dockery, secretary. H. Y. Price, reporter.

The Dramatic Club plans to have tryouts tonight for the next play to be given, "The Hour Glass," which has a large cast. Students in Dramatic Art classes are directing plays, and the best ones, on being perfected, will be presented to the club. It is requested by club officials that all members desiring to retain their club membership be on hand tonight, which is to be a very important meeting. The club meets promptly at 7:45.

### Home Ec. Items.

On Monday, April 2, the practice house group had as guests to lunch, Dr. Esther Caukin and Miss Weeks. Bishop Seaman, Mrs. Wyatt, and Mrs.

Doak were entertained at dinner on the same day.

The Practice House changed families at the beginning of this term. The present occupants are: Merle Williams, Mrs. E. M. Barnett, Auvana Huffstedler, Ella Brown, and Estelle Shepard.

Miss Weeks went to Brownfield last Saturday and conducted the last of a series of extension classes, which she has been sponsoring for the past few weeks.

An Easter Food sale was held by the Foods Department in the Home Economics Building last Friday. The dainty tarts, delicious candy and attractive hot cross buns attracted much attention and proved quite desirable to the line of customers who visited the table in the corridor during the morning and afternoon.

### Vocational Meet Plans For April Announced

Plans for the second annual Vocational Agriculture judging meet have practically been completed, according to announcements from the office of R. C. Mowery, general superintendent of the contests. They are to be held on April 14, and a large attendance from the surrounding high schools is already assured. The contest will last the greater portion of the day, beginning at eight o'clock Saturday morning when all the contestants will meet in the Pavilion for instructions.

The contestants will be divided into the separate contests, Plant Propagation, Livestock, and Grain Judging, and these groups will be further subdivided into sections to facilitate the handling of the large numbers. The

various divisions of the contest will be in charge of advanced students of the college, working under the direction of Prof. Mowery, and the following officials have been appointed: Tabulating Committee, Elton Mims, Virgil E. Hobby, Sears Anderson; Superintendents, L. C. Jennings, Livestock, Chester Weaver, Plant Production, R. C. Reed, Poultry. The various section leaders will be selected from the members of the Junior Stock Judging Team.

Work will begin in the morning, when the classes will be placed, and work done in Plant Propagation, and reasons will be given in the afternoon, members of the Tech faculty acting as judges.

Prof. Cecil Horne is filling his usual capacity in looking after the housing situation, and suitable entertainment will be provided for the contestants.

### Pres. Horn Speaks to Abilene Audiences

President Paul W. Horn returned last Thursday from Abilene where he delivered two addresses. On one occasion he spoke to the High school students of that city, on the other occasion he addressed the district meeting of the Parent-Teachers Association.

Mrs. Horn accompanied the President to Abilene and return, they motoring down in their car.

### Dr. W. J. Howard DENTIST

Myrick Bldg. Res. 951-W

## NEW SPRING SUITS

Just In!  
We cannot too strongly invite you in to look at the new line of suits we are showing at \$35, as we earnestly believe that they are the best values that have been offered in a long time. A very wide range of patterns and weaves, including the new novelty mixtures. You'll find a lot of quality, service and long wear built into these suits by KIRSCHBAUM, and all have two pants.

See them while they're here at this low price.

**\$35 With Two Pants!**  
**Barrier Bros.**  
DEPENDABLE MERCHANDISE

## W. J. GARRETT

The Ladies' Department Store  
Be sure to visit our new store.  
We have a lot of new goods to show you.

## Year of Math May Be Taken This Summer.

Students may get a full year of mathematics by attending both terms of summer school, regardless of their school, or classification, according to a statement issued from the mathematics department.

Students who intend to enroll as Freshmen engineers this fall should take E100 (solid geometry) the second term. Those students who intend to take major or minor in mathematics should take Math. L231, L232, and L233, as it is a prerequisite to calculus.

The entire course offered is given below. At this time the hours and instructors for the different courses have not been decided upon, but Mr. Michie, Mr. Robinson and Mr. Rees will make up the Mathematics faculty.

Courses to be offered this summer are:

First term:

- L131—Algebra.
  - L132—Trigonometry.
  - L133—Anal. Geom.
  - L232—Algebra.
  - L234—Teachers Course.
  - L235—Teacher's course.
  - L331—Calculus.
  - L337—Theory of Eq.
  - L237—Math of Finance.
- Second Term:
- E100—Solid Geom.
  - E130—Trig.
  - L231—Anal. Geom.
  - L233—Algebra.
  - L236—Teacher's course.
  - L238—Math of Finance.
  - L332—Calculus.
  - L333—Calculus.
  - L338—Theory of Eq.

### Easter Service Held Last Sunday Morning

The Easter Service was well attended last Sunday morning when presented at the college. Music, prayer, psalms, and a talk by the President made up the program.

Dr. Horn referred to the occasion as causing us to remember the promise of eternal life.

## First Track go Yesterday With Houston Cats

  - 880 yard run—Neill, Freeland, Aldridge.
  - Relay—Corley, Hemphill, Smythe, Moore, F. Woolridge, C. Woolridge, Fisher, Murray, Dallas, L. Walker, Hardy.

## Wind Velocity In Lubbock is Not so Great

Contrary to the belief of many of the new students, Lubbock is not the windiest region in the United States—in fact it compares favorably with many other places; during the recent severe windstorm on last Wednesday night, Professor C. H. Mahoney visited the wind gauge on the campus, and calculating the wind velocity, found it to be only 44.8 miles per hour.

This is a comparatively calm period if contrasted with St. Paul with a maximum velocity of 102 miles per hour; Galveston with 91 miles per hour; Cape Hatteras with 105; Buffalo, N. Y., with 90.

Lubbock and West Texas are not so bad after all.

## Junior Prom Success; Mrs. Jennings Queen

The most formal event of the year, the Junior Prom, was a great success from the standpoint of the many dance-lovers of the college. With Mrs. Al Jennings as Queen of the Prom, crowned after the second dance, the affair was a triumph of splendor. Innumerable Japanese lanterns twinkled against the background of sky blue with which the Gym was decorated.

One of the features of the affair was the moonlight waltz when an artificial moon beamed its soft gleam down on the many dancers. The building was darkened and the effect of the whole was most pleasing.

## Pi Gamma Mu To Consider Place Of Social Study

Pi Gamma Mu in regular monthly meeting April 13, is to consider "The Place the Social Sciences should Occupy in our Colleges."

Mr. Evans, of the department of education is to discuss, the increasing interest in the social sciences and the changes brought about in the curriculum due to the increased interest in these sciences.

Mr. Nissley is to discuss, "The Increased Interest in Business Administration," while Mr. Jackson is to call the attention of the society to the question, "What the Social Science departments of Texas Tech should do in order to receive adequate recognition."

## Matador Nine Split With Baylor Bears

Tech lost her first college game with the Baylor Bruins last Friday when the Wacoites pounced upon Hill's offerings to the tune of 15-1. Hill was unable to get the measure of the Baylor batters and this coupled with several costly errors made by his teammates gave the Bears the heavy end of the lop-sided score.

On Saturday the Matadors came back under the hurling of Grey and avenged their defeat for the day before by pouncing out an 8-3 victory over the Bears.

Tech played St. Edwards of Austin yesterday and are to meet the same nine today. Tomorrow and Thursday the Matadors meet Southwestern University of Georgetown in a twin bill.

It is probable that the entire Tech hurling staff will have a try before the six games have been completed.

## Tech Textile School Fame Spreads to Eng.

And still the fame of Texas Tech spreads! The Engineering school recently received a catalogue from the Bury Textile school of England. The English school asked for one of Tech's catalogues in return.

## Two Thousand Studes Here April 20-21

## "Abraham Lincoln"

ONE DAY ONLY

Thursday, April 12

Not a motion picture.

But a stage production.

**Foreign Affairs.**

(Continued From Page 1.)

Sunday afternoon at 6:00 o'clock Mr. Eddy addressed approximately 300 young people at the Methodist church. At this meeting Mr. Eddy seemed to state his philosophy of life; his attitude on religion; his belief in the supremacy of the social group.

**Eddy on World Affairs**

The regular session of the Sunday night meeting was, likewise, devoted to a lecture by Mr. Eddy, who spoke on "The World Situation." He drew on his vast field of personal knowledge to show the present state of unrest in the social world. His points in regard to the potential failure of the Dawes plan; the great loss of man power in France; the revolt of Asia; were all revelations to the audience.

Asia is a hot-bed of revolt, according to Mr. Eddy. The Eastern continent is revolting against political domination by the West; revolting against Western culture; revolting against the Western idea of superiority. Africa is being buffeted about as a political and territorial football by practically all the European nations.

Japan feels our present immigration laws keenly and Mr. Eddy quotes Tagore to bear out the Asiatic point of view. According to the present immigration laws in the United States Jesus Christ would be excluded. First because he would not have money enough to enter the country, second because he was an Asiatic.

**Many Years in India**

Mr. Eddy is well versed in Asiatic politics, having spent fifteen years of his life in India. He has also made numerous trips abroad from time to time and numbers among his friends many influential men and women in practically every country abroad.

Following the Sunday evening lecture, Mr. Eddy conducted a "Question Hour" for approximately two hundred persons who remained to propound questions.

Beginning the second day of the conference the entire student body met in convocations to hear Mr. Eddy.

The speaker made a brilliant appeal the youth of the college, declaring war on all forms of destructive silence. Especially did he point out the errors of silence in regard to sex education.

Meetings were arranged for both men and women to meet later in the day to talk over questions of same sex and correct living. Hundreds of both these connected with the college and from out of town, availed themselves of the opportunity to hear Mr. Eddy on this topic.

Dr. Esther Caukin spoke on the "Evolution and Present Status of the Monroe Doctrine," following the general Convocation on Monday morning. She was followed by Dr. Hackett who presented the "Evolution and Present Status of Pan-Americanism."

In the afternoon Senator Cantu Lara spoke on "Relations between Mexico and the United States." Senator Lara said he looked to a time when strife between the two republics would be at an end.

Professor Stephens, of Simmons, addressed the gathering on the topic, "The Drago Doctrine."

On Monday evening, Dr. Hackett gave an illustrated lecture on the nations to the south of us.

Bishop E. C. Seaman presented various features of the "American Policy in the Caribbean."

Miss Anderson spoke on "The American Policy in China," in which she pointed out the faults of the present

**New Drawing-in Frames Added**

The Textile Engineers are the proud possessors of two new drawing-in frames that have been recently received from England. These machines have been a long felt need in the Textile Department; they will be installed and started working immediately.

policy of extra-territoriality and customs autonomy.

**Dufflot on Debts**

Tuesday afternoon Professor Dufflot of the West Texas State Teachers college spoke on "The War Debts." According to the speaker the question dissolves itself into whether we shall expect Europe to pay our proportionally expense of carrying on the war from the time we formally declared war and the time we actively entered upon the field of battle. War was brought upon us, in the last struggle as our former wars with Tripoli and England in 1812, namely, to protect our ships on high seas, the speaker continued.

Professor Dufflot showed by statistics the probable loss to America in lives lost, men wounded, and the monetary cost, if we had been able to actively participate in the struggle from the moment we declared war. His conclusion seemed to be that we should collect every cent the European nations owe us—but we should first be sure they owe us.

**World Danger Zones**

Sherwood Eddy who had made many friends during his brief stay in Lubbock brought the conference to a close with his talk on "The Three Danger Zones of the World Today." These danger zones are Italy, Russia and China.

Italy is ruled with an iron hand by Mussolini. He has done all any man or super man could do to run the government, to keep balance between capital and labor, but, the speaker continued, Mussolini is the greatest individual menace to world peace today.

**Russia Communist**

In Russia there is very little liberty but there is a frank dictatorship of a class—the working proletariat. The unscientific atheism of the million members of the communist party is a serious deterrent to progress.

The belief that the end justifies the means, is another phase of Russia which met with the disapproval of the speaker.

In speaking of China, Mr. Eddy said, "I regard the Russian influence the most sinister influence in China today." However, he said that China could not become communist for you "can't communize poverty," and all China is very poor.

One thing is taking place in China. A great on-growing peoples revolution. And the speaker pointed out that we should remember that a peoples revolution will succeed.

**To Further Work**

In an effort to perpetuate the work of the conference from year to year, Dr. W. A. Jackson was elected president. He appointed the following committees to work out plans for succeeding conferences; Dr. Granbery, Mr. Ford, Mr. McCollough, Mr. Pender. In an advisory capacity he appointed: Miss Anderson of Canyon, Mr. Stephenson of Abilene, and Dr. Hackett, of Austin who with the president of the A. A. U. W. and the president of the Federated Clubs will serve to make plans and proposals for future meetings.

**Tech Men Aid in Maundy-Thursday Observance**

Dr. F. P. Miller, of El Paso, was here Thursday to deliver the principal address at the Maundy-Thursaday Observance of the Scottish Rites Masons. Some fifty-five men were present at the ceremonial. Men attended who hold memberships in the towns of: San Diego, California; El Paso, Texas; Columbus, Ohio; Dallas, Texas; San Antonio, Texas; Guthrie, Oklahoma; Galveston, Texas; Austin, Texas; Houston, Texas, and Cheyenne, Wyoming.

Men attending the banquet represented the following towns: Brownfield, Slaton, O'Donnel, Crosbyton, Lorenz, Lamesa, Canyon and Columbus, Ohio.

Dr. Miller is a 33 (Hon.) Mason, and is the president of the State Medical Association.

Dean J. M. Gordon was re-elected president of the local organization, R. L. Durham, re-elected vice-president, and Millard F. Swart was elected secretary.

Tech men participating in the observance were: Dean Gordon, W. L. Ray, Carl Svensen, and Harry LeMaire.

**Boyd Marries San Angelo Girl**

Egbert Boyd, son of Mr. and Mrs. W. E. Boyd of Lubbock, formerly of Plainview, was married Saturday, at three o'clock to Miss Dutchie Caver of San Angelo.

Egbert is a senior at Texas Tech College in Lubbock and, upon the completion of his work here plans to go to Galveston where he will enter the medical department of the University of Texas.

With the first of the track meets off hands and with Tech's baseball nine on a long journey away from the home arena, the college has, again, definitely embarked upon a series of sport-fests.

The results of the track meet yesterday will appear in the Toreador next week.

Coach Payne has a corps of new thinly clad out each day and track prospects are indeed bright.

The Waco papers, in accounting for the defeat to the Bruins last Saturday, said that such a defeat was due to the sudden windstorm which blew up during the game.

The inference of course being that the West Texans could play better ball in their usual kind of weather.

Tech is not at all hesitant in taking such a victory—it may come in handy in increasing the total win percentage.

**Target Practice.**

Mrs. Peck: "Henry, did you see anything in the paper about Mr. Blinker running over his mother-in-law?"

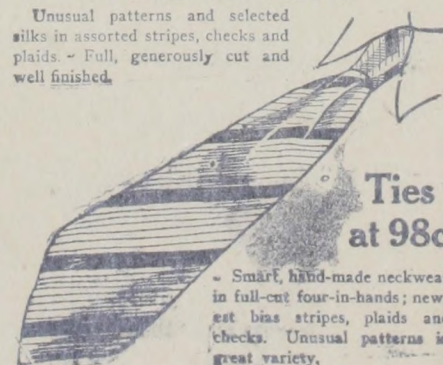

Peck: "Not yet. I haven't come to the sporting news." — Boston Transcript.
