

Three-Day Farmers' Short Course To Start Monday

Hundreds Of People Expected To Gather On Campus To Hear Outstanding Leaders On Program

BY JAMES A. STRANGE
OUTSTANDING PERSONALITIES, a well-planned program, cooperation of many organizations, a large attendance, widespread interest—all these factors are expected to unite in putting over the farmers' and home-makers' short course starting here Monday morning and continuing for three days.

Present indications are that the coming short course, the second in the history of Tech, will be a notable success, according to officials in charge of its promotion. It is expected that there will be at least 1500 visitors here for the occasion, and there is a possibility of twice that number.

Folio 10pt lead—Two-Day Farm

With the opening hour of the meeting only a few days ahead, the program is practically complete, although new and important features are constantly being added.

Outstanding Leaders

It is understood that John Manley, manager of the Oklahoma Wheat Growers' association for nine years and now one of the three directors of the National Wheat co-operative, a \$20,000,000 concern, will be one of the leading speakers of the program. Many other personalities of national-wide importance and influence have already been secured. Among these are Harry Williams, director of the new National Cotton association; M. H. Gossett, president of the Federal Farm Loan bank; and Mrs. Charles Sewell, a director of the American Farm Bureau federation. It is possible that other well-known figures may be added to the impending list to cooperate with them and others in putting over the program.

Lubbock being situated at the cross roads of cotton and wheat, the first day of the men's program is in cooperation with the two marketing associations and will be known as marketing day. Prof. H. J. Bower, head of the department of agronomy in the college and director of the coming short course, will preside. Mr. Williams will be the principal speaker of the day's program. He is himself a pioneer worker in Texas cotton production and marketing. Details of the plans made by the cotton board at the meeting at College Station last week will be given out for the first time by Mr. Williams in his talk. Mr. Manley will also be one of the leading speakers on this phase of the program.

Tuesday will be regarded as Community day and will be devoted to the discussion of community problems.

See SHORT COURSE Page 6

Qualia To Lecture In Religious Series

"Culture and Religion" is the subject of a lecture to be given by Prof. C. B. Qualia at 4 o'clock Sunday afternoon in the chemistry auditorium. The lecture will be the fifth in a general series of lectures on religion as related to other phases of life being given on the first Sunday in each month.

On March 2 Prof. R. A. Studhalter closes the series so far as arrangements have been made, with a lecture on "Biology and Religion." It is understood that a continuation of the series on the same subject or on a different one will be up to the interested public.

Evergreens And Shrubs Received

The horticulture department of the school or agriculture received a shipment of evergreens and shrubs from the Bureau of Foreign Plant and Seed Introduction last Friday.

They are being planted on a plot of ground west of the green house in order to determine if any of these varieties are adapted to this climate. It is hoped that the department will be able to find an evergreen that is suitable for this section. Tech receives a similar shipment from this bureau each year, but the previous shipments have consisted more of fruit trees than ornamentals.

The Bull Wheel

BRAD NUNNELEE calls CAMILLE STOLEBOUGH "Revenge," because revenge is sweet.

WILSON OWEN says that FRANCES FORD will never know any more than anybody else because she tells everybody all she knows.

SWEETNESS says that the mythological conception of a Centaur may be a figure half-man and half-horse but that she thinks they are all horse.

A warm wind from Tennessee has melted the heart of FRANK STONE.

One of those beautiful but dumb freshman girls called for "Pluto's Life" in the library. After searching the catalogue and asking a few questions she went back to the desk and asked for "Plutarch's Lives."

Directors Discuss Coaching Situation

Definite announcement as to the coaching staff of the college for next year will be made within the next two weeks, according to a statement made by Dr. P. W. Horn, president of the college yesterday.

The coaching situation was discussed thoroughly at the meeting of the board of directors of the college at the home of one of the directors Mrs. F. N. Drane, in Corsicana Tuesday. It will be necessary, however, for further investigation to be made before any definite announcement can be given out, according to Dr. Horn.

Dr. Horn has previously announced that it is almost certain that some kind of a change will be made.

To Excavate Ruins On Canadian River

Holden to Direct Expedition Of Students and Members Of Faculty To Unearth Panhandle Ruins

An archaeological expedition into the Canadian river country will be made early this spring by Texas Technological college under the direction of Dr. W. C. Holden, professor of history. The party will consist of several faculty members and advanced students.

Excavations will be made in one of the prehistoric stone slab ruins in the Canadian valley. The exact location of which has not been announced by the director of the expedition. It was indicated however, that the place to be excavated is the largest ruin in the Texas Panhandle. A previous visit by Dr. Holden revealed the fact that this ancient ruin contains many rooms.

These ruins, he says, were built approximately 2,000 years ago by a people about whom exceedingly little is known. Texas Technological college is attempting to unravel the mystery which will, if accomplished, mean a distinct addition to the archaeological knowledge of the Southwest. It is expected that research will show these Canadian ruins to be connected with the high pueblo culture. Dr. Holden says that as to the early inhabitants where they came from, how long they stayed, what they achieved, and what caused them to disappear, and where they went, remain to be determined by the spade of the archaeologist.

Golf Club To Be Formed Tonight

All students in the college interested in golfing have been requested to meet tonight at 6:30 o'clock in room 216 for a short meeting before the basketball game called for the purpose of organizing a golfers' club.

It is understood that a number of students in the college have already demonstrated their interest in such an organization, there being none of the nature at present. Hershel McFarland, Robert Webb, and Thomas Taylor are the promoters of the club. A faculty sponsor for the group will be selected tonight.

Club Pages Now Being Arranged

Club pages in La Ventana must be contracted for by Saturday, February 1, according to Ralph Brandenburg, business manager of the publication. Brandenburg states that the \$15 charge for the page must be paid at that time.

Because of the large number of clubs on the campus there is likelihood that the number to be included in the annual will have to be limited, according to Holmes Webb, editor. Webb says that there has already been a very strong demand for space in the yearbook.

A club desiring to have a group picture rather than individual pictures will have to make special arrangements with the editor and with the photographer to have it taken.

Intramurals Drill Intensively For Gridiron Honors

Large Numbers Of Aggies, Engineers, And Liberal Arts Enter Second Week Of Steady Training

Competition Keen

Higginbotham, Ingerton, And Payne To Be Aided By Varsity Lettermen In Coaching

The sound of the booted pigskin can again be heard on the campus as grid aspirants from the Liberal Arts, Engineers, and Aggie camps prepare for the grid that is to determine the intramural championship of Tech for 1930. Training has already been underway for two weeks and will probably continue for some time yet. The date for the opening of the contests has not been set.

Mentors Coach
The varsity mentors have taken over the coaching duties this year, contrary to previous practice. They are being assisted by lettermen from the varsity squads. Vic Payne and Chubby DeWitt have charge of the Liberal Arts and have about forty-five candidates out for positions.

Grally Higginbotham and Jack Durham are tutoring the Aggies and have a good representation. Rhodes Ingerton and Bill Teal are running fifty Engineers through a tough practice every day in the hope that they can regain the crown that the Liberal Arts wrested away from them last year.

Close Contest
Considering the number of men that are coming out for the various teams and the amount of interest being shown, the championship should be more closely contested this year than ever before. It will be determined as in past years—the school that defeats the other two will be awarded the title.

College Dances To Be Resumed Soon

The first all-college dance of the winter term will be held Saturday night in the gymnasium from 9 until 12 o'clock, according to an announcement by Mrs. Mary W. Doak, dean of women.

All college dances for the first part of the present term have been suspended in order that the floor might be kept in good shape for basketball. It is planned now, however, that the dances will continue in their former order of one every other week.

Frank Stone and his Collegians will furnish music for the coming dance.

Dr. Horn Attends Series Of Meetings

Dr. P. W. Horn, president of the college, has been away on a trip of several days' duration. He addressed the Chamber of Commerce at Quitaque last Thursday night. From there he proceeded to San Antonio to attend the meeting of the state executive committee of the Y. M. C. A. of which he is a member.

Dr. Horn spent Tuesday at the meeting of the board of directors of the college in Corsicana in the home of Mrs. F. N. Drane. He will be the principal speaker at the annual banquet of the Sweetwater club at the Bluebonnet Hotel in Sweetwater tonight.

To Send Big Exhibit To Fat Stock Show

The largest exhibit ever sent from Tech will represent the college at the annual Southwestern Fat Stock Show to be held at Fort Worth March 8 to 15, inclusive. This will be the fourth exhibit the school of agriculture has made at the show.

Livestock loaded out of here March 5 will include two car loads of fat lambs seven fat Aberdeen Angus steers one Percheron stallion and twenty-five Duroc Jersey Hampshire and Poland fat barrows. Sheep will be exhibited only in breeding classes and will include six Hampshires and six Southdowns.

Resume Work of Tech Press Club

Work of the college Press club will be resumed in a meeting Wednesday evening at 7:30 o'clock in room 216 of the administration building. A program arranged by Gordon Dickinson, chairman of the program committee, will be given. The club was reorganized at an informal meeting Wednesday night, January 22. The following officers were elected: H. E. Price, president; E. B. Fincher, vice-president; Ray Foote, secretary-treasurer.

Any students interested in journalism or literary work will be welcome to join the club.

Appears On Artist Course

EFREIM ZIMBALIST

Matadors Win Two From A. C. C. To Sweep Series And Count 9th Victory

Tech Cage Artists Continue Tactics By Defeating Christians 40 to 21 and 35 To 25

By sweeping the two game series with the Abilene Christian College Wildcats, the Tech Matadors retained their clean slate and ran their string of victories to nine straight games. While the club did not show so much stuff in these games as in some previous encounters, the scarlet warriors never lost control of the situation and in neither game was the result ever in doubt.

Practically every man saw service in the Monday night fracas, but the Cats were a more stubborn crew Tuesday and Vic kept his regulars on the floor all evening. Vinzant went out on four personals in the later part of the contest and was replaced by Kline who did some good work. Happy Dalton went in for Bill Maxwell in the second half and played a neat game.

First Game
The first contest was copied by the locals 40 to 21. Maxwell and Fisher raced for scoring honors and Maxwell came out one point ahead with 11 counters. Rip Vanant who seldom takes a crack at the basket shot eight points. Tech was rather slow to get started in this game, but the usual strafe before the half ended. At the end of the first session the count stood 23 to 9. The Abilene crew was never able to do much with this lead until all the regulars were taken out, and then the men who were substituted made it hard for the Purple Lobos to hit the basket. Black was the main scoring threat and the most outstanding man for the visitors in this game.

Second Game
In the second game the Christians put up a much better battle and kept the Matadors hustling hard all evening. In the early stages of the contest it seemed as if the

"What, No Mail For Me?"

Tech Postmistress Reveals That Boys More Anxious For Letters From Girls Than Vice Versa

By EVA ROE WATKINS
"Didn't my package come today? I can't understand. My brother said in a letter I got a week ago that he was sending me some books." Maybe a blizzard has come where brother is, and he decided to wear the boots himself. That incident is typical of the many little stories that Mrs. W. B. Rushing, Tech postmistress, hears each day, and she sighs with her when his boots don't come, or shares Bill's elation when he gets a letter from his girl.

Sweetheart Letters Best
"Tech boys like to get, and appreciate, letters from home, but letters from home, but letters from their sweethearts are the ones that make the world go round," said Mrs. Rushing. On receiving these letters some of the boys grin bashfully, thrust the missive into the nearest pocket, and beat a hasty retreat, but others, so jubilant, let out what could almost be termed a war whoop and start tearing the envelope.

Boys get more kick out of letters from sweethearts than do girls. Either that, or girls are better able to hide their emotions than the boys. A reasonably close observer can be watching a boy's face tell whom the letter is from,

Zimbalist, Renowned Violin Virtuoso, To Play Tuesday

College Sustains Heavy Damage In First Tech Fire

Blaze Found At 3 O'clock Tuesday Morning By The Nightwatchman; Both Of Fire Stations Respond

Origin Unknown

Two Cows And A Calf Are Killed; Milk Room And Equipment Burned; Dairy Barn Badly Damaged

The first fire in the history of Tech occurred Tuesday morning about 3 a. m., destroying the milk room and badly damaging the dairy barn in the school of agriculture. The damage to the buildings and the loss of the equipment has been estimated to be possibly \$10,000, which was only partially covered by insurance.

The cause of the fire has not been ascertained. It started in the boiler room and was soon discovered by Jack Hightower, nightwatchman. The work of firemen from both of Lubbock's fire stations saved the dairy barn from being completely destroyed.

Cattle Lost
Two dairy cows and a calf were smothered by the fumes before they could be removed from the barn. The cows were owned by F. E. Kemp and W. A. King, student members of the dairy association. The calf was owned by the college. The other cattle were not in the barn at the time of the fire.

All equipment of the dairy manufacturing department will have to be replaced. A new roof will be built over the milk room, which was a one-story structure. Window facings will have to be replaced, and a new coat of paint will be added to cover the charred condition. There was no loss of feed in the roof of the barn, but feed in the bins and feed cars was destroyed.

Still In Use
The cows were put in the barn again Wednesday night after the windows were boarded up and a few temporary improvements made. Due to the fact that the light wires were burned, lanterns are being used temporarily for illumination while milking.

A new Laval milking machine costing \$300 was saved from the destructive fire because of the fact that it had not yet been installed. It had been planned to install the machine Monday, but there had been a fortunate delay.

Continue Services
The Bell Ice Cream company has offered its facilities to the dairy products department, and the students dairy association will continue its service as before through the courtesy of the company.

Mrs. Dingus To Talk At Women's Club

Mrs. William Dingus, head of the department of Latin in the college, will talk to members of the Rural Women's club Saturday afternoon at 3:30 o'clock in the district court room of the court house.

Mrs. Dingus will review a book, "Your Money's Worth," which presents the woman's side of high pressure advertising.

Student Shows Art Production

Mrs. Eva Clifton a student in Tech, has by request been showing a number of her oil paintings to a Y. W. C. A. group and to a class in aesthetics of which she is a member.

Mrs. Clifton has never had a lesson in painting, yet her works show unusual talent.

Graduate Studies Organize Society

Graduate students of Texas Tech met Friday evening, January 24, for the purpose of organizing a special society for graduate students. Officers elected by the club were: H. C. Hervey, president; Ann Hammonds, secretary; and Ethel Eagan, vice-president.

Dr. Allan L. Carter, head of the English department, was elected sponsor of this new organization. Dr. J. C. Granbery, head of the history department, discussed the importance of such an organization on the Tech campus. This club will meet the third Friday of each month in room 214 in the administration building at 8 o'clock. The program will be devoted to the discussion of theses that are being prepared by the graduates in the club.

NOVELS ORDERED

A number of novels have been ordered by Dr. A. B. Cunningham's class in structure of the novel. Each member of the class is buying a book; they will be used as a circulating library within the class.

World Famous Violinist To Appear On Third Number of College Artist Course; Marionettes To Follow

BY GORDON DICKINSON
EFREIM ZIMBALIST, the world famous violinist, will appear here on Tuesday, February 4th at eight o'clock in the Tech gymnasium, in the third of a series of artist course numbers being presented by the Texas Technological college.

He is known to the world as Zimbalist, the violin virtuoso, and is ranked as one of the greatest of masters in his particular line. Students of Tech and the citizens of Lubbock are fortunate in having the opportunity to hear this famed artist.

Bay Is Accompanist

Accompanying Mr. Zimbalist will be Emanuel Bay at the piano. A concert grand piano is being shipped from Kansas City especially for this engagement. The program will consist of selections from Mendelssohn, Schubert, Chopin and other great composers.

The violinist's great depth is expressed in his own words, "The violinist who knows only the fiddle," says Zimbalist, "snuffs out from his vision the broader aspects of music. A musician must learn to know almost every sort of music, from the etude to the opera. Then, if he is a violinist, his instrument becomes not merely an instrument but a musical medium. The practice of his instrument the enlargement of his repertoire, the broadening of his musicianship—these are his problems."

Tickets On Sale
Tickets for the concert are on sale at City Drug stores No. 1 and 2. General admission is \$1.50, reserved seats \$2.00 and a limited number of box seats are available at \$5.00. Students who have artist course tickets for the season but wish reserved seats may obtain them by paying \$1.00 extra for this number only. However, those who do a music season tickets may get them for \$1.00 and see this and the two entertainments to follow.

The next number in the artist course, Tony Sarg's Marionettes, will be here either the 25th or 27th of February, the exact date to be announced later. There will be a matinee in the afternoon, and at night Washington Irving's "Rip Van Winkle" will be presented. The matinee is to be composed of short vaudeville skits and prices will be 25c and 50c. Artist course tickets will be good for the night performance only.

Those who saw Tony Sarg's Marionettes last year were very pleased with the quaint antics of his little puppets, and because of this popularity the Tech Artist Course has engaged them again this season.

French Plays To Be Given Monday

Second Year Students Will Appear In Productions; Synopses Of Action To Be Distributed

Two plays, "Le preuve Dangeureux" (The Dangerous Test) and "Le Cousin d'Amérique" (The Cousin from America), will be presented by the French department next Monday night, February 2, at 8 o'clock in the auditorium of the engineering building. There will be no admission charge, but the collection which will be taken will go to the benefit of the college Y. M. C. A.

The plays are each thirty minutes in length. Although the words will be given in French, the audience will be furnished with brief synopses explaining the action.

Parts in the plays will be taken by the following second year students: Henri Mast, Elizabeth Crews, Ellabel Tilly, Laurene Bussey, Julian Williamson, Gordon Mills, William Nolle, Florence Jackson and Mrs. Ova May Eiter.

Parts in the plays will be taken by the following second year students: Henri Mast, Elizabeth Crews, Ellabel Tilly, Laurene Bussey, Julian Williamson, Gordon Mills, William Nolle, Florence Jackson and Mrs. Ova May Eiter.

Leidigh Attends Cotton Body Meet

Dean A. H. Leidigh, of the school of agriculture, went to College Station Thursday to attend a meeting of a committee, which was appointed by Governor Dan Moody at a recent conference in Austin to work out details for a Texas cotton cooperative.

This meeting was called by Governor Moody for Saturday, January 25 and Monday, January 27. It was the first meeting of the committee since appointment three weeks ago when the governor conferred with Alexander Legge, chairman of the Federal Farm Board; Carl Williams, Oklahoma, member of the board; and college heads and bankers.

Other than Dean Leidigh, members of the committee are: Dr. T. O. Walton, president of Texas A. and M. college, chairman; O. B. Martin, College Station; Harry Williams, Dallas, general manager of the Texas Farm Bureau Cotton association; Senator Lawrence Westbrook, Waco.

Postpone Debate With Teachers

Contrary to previous announcement, the debate with Canyon will not be held until the latter part of February or later. However, the debaters of the college are continuing to work out in preparation for the thirty extensive schedule of contests arranged for later in the season.

Snapshot Contest Open To Everyone

Five Dollars is the prize offered for the best snapshot turned into the La Ventana office. Eight other prizes will be given including pictures of Tech athletic teams in action. These pictures will be eight by eleven inches. These snapshots must pertain to student life and scenes about Tech. A selected committee will decide the winners in this contest.

Calendar

THURSDAY, JAN. 30
Sul Ross-Tech game, gym, 8 o'clock.
Clogging club, room 305, 7 o'clock.
Golfer's meeting, room 216, 6:30 o'clock.
FRIDAY, JAN. 31
De Que Dance, Hilton hotel, 9 to 12 o'clock.
SUNDAY, FEB. 2
Lecture, Culture and Religion, by Prof. C. B. Qualia, chemistry auditorium, 4 o'clock.
MONDAY, FEB. 3
Forum, room 102, 7 o'clock.
Y. W. C. A., room 310, 5 o'clock.
Las Pateneras, room 302, 4 o'clock.
TUESDAY, FEB. 4
Zimbalist, gymnasium, 8 o'clock.
F. Worth club, room 214, 7:0 o'clock.
Y. M. C. A. freshman council, room 203, 6:30 o'clock.
Freshman girls' council, room 203, 6 o'clock.
Scurry county club, room 314, 7:30 o'clock.
WEDNESDAY, FEB. 5
Ag club, stock judging pavilion, 7:30 o'clock.
Pre-law club, room 217, 7:30 o'clock.
Choral club, room 302, 7 o'clock.
Press club, room 216, 7:30 o'clock.

The Toreador

Official Publication of the TEXAS TECHNOLOGICAL COLLEGE, Lubbock, Texas

Published Every Wednesday

REPORTERS: Wayne Castleberry, Eva Rob Watkins, Alta Rollins, James Strange, Canon Clements, Claudine Cook, Eugene Adair

Entered as second-class matter October 31, 1925, at the postoffice at Lubbock, Texas, under the Act of March 3, 1879.

Advertising rates: 20c per column inch by contract; 30c per column inch by insertion.

Subscription covered by the Student Activity Fee. By subscription \$1.50 per school year.

The Lecture Series

The fifth of a lecture series on religion will be given by Professor C. B. Qualls in the chemistry auditorium Sunday. The subject of the lecture will be "Culture and Religion."

These lectures may be eagerly hailed as signs of a developing intellectual capacity and curiosity on the part of the school. When college people begin to gather in their off hours to discuss problems of current and lasting importance, it is an indication that they are a part of a real institution of higher learning, not simply incidents in machinery for the conferring of degrees.

Development along two lines is needed for the lecture series: first in student attendance, and second, in their "open forum" aspects. True students will find the discussions interesting and vital. They should at least learn what they are missing. On the second point, those who do attend (and the audience has been encouragingly large, filling the auditorium as they do) ought to take fullest advantage of the opportunity for general discussion given after the formal lecture. On a matter as controversial as religion, many points should be raised that the time allowed for the meetings would have to be extended beyond the hour allotted them.

It is hoped that there will be a demand for such lectures and discussions on other matters as well. The "open forum" of the present series are to be congratulated and commended.

"Water Marks"

"Finds names and foils' faces. Always seen in public places."

The present generation of students is making a unique contribution to those that are to follow: they are starting a tradition that will endure forever—at least as long as the administration building lasts. They are to present an autographed copy of that noble structure to coming generations.

Just as the banks of a stream wear the marks of each high water period, so does each new flood of students leave its marks on the administration building. These "water marks" may be seen everywhere. They range from the names of famous people to the low heights of restroom art. There are math problems, linked and unlinked beads, freehand drawings, addresses, initials, proverbs, poems, rouge stains, cigarette stains, match scratches, tobacco juice stains, curse words, and full names written all over the building. No part is exempt. The violence of the inscriptions increases as one approaches either end of the halls.

Some members of the faculty and administration have made such an impression on certain students that the latter have to write the names of the former on the walls. For example, "P. W. Horn" and Mrs. Doak" are written there. (NOTE: The poem introductory to this editorial does not apply to all, please.) Some of the strong men of the student body are mentioned on the walls, frequently in a girlish handwriting. There are names of the mighty "J. D. Walter," "Dennis Vin Zant, Texas Tech, July 5, 1928," "Al Allison," "Bruce Reed," and "Jelly Brown." And then there are the names "Frances Ford," "Perlimae Marshall," "Carolyn Powell" and "The little suburban dancer—Emma Sue Gunn 1801 College Avenue—some of which appear in true masculine scrawl.

Other "water marks" inscribed on the building and in it are: "Ross Bohannon," "Slim Phipps," "B. V.," "Texas Tech, Bab!" "Hazel D.," "D. L. L." (deeply burned with cigarette stain), "Jessie James," "B. D. Bailey," "2317 17th," "C. H. C. John," "n(n plus 1) (n-1)," "I like goobers," "Beautiful Blanche," "Arthur Greer," "E. D. Boyd," "Class of '20—the only class," "Nashville, Tennessee," "John McCraver, Hell's pit," "Magnolia," "Crawford," "Damn it to Hell," "Anderson, C. T. J." (deeply engraved).

And on, and on, and on. If all the names written and cut on the administration building were printed, it would sound like the student directories for the last four years. If all the proverbs and poems written there were reproduced here, the editor would be turned out of school for indecency.

With all of these inscriptions on the administration building, it is any wonder that a prominent lady educator from California who was here not long ago expressed great surprise on learning that this school is only a few years old?

The mention of the names given above should occasion no embarrassment for they are already sufficiently in evidence. It must be re-

membered, of course, that the fact that a person's name or initials appears on the walls does not mean that he is responsible. But let them who are responsible cut out their hick town high school habits and respect the public property. Girls who have nothing to do but sit around and mark on buildings and furnishings and boys with nothing to do but furnish the inspiration (and the spit in case of tobacco stains) might do well to learn that the school property is theirs only in so far as they use it for legitimate purposes and that defacing public property is not legitimate use of it.

Best meals in Lubbock, just off the campus. Mrs. J. T. Gregory, 2414 13th Street.

To be printed, cut it out!

Several prominent women leaders from over the state and nation will be on the program of the women's division of the Second Annual Texas Tech Farmer's and Homemaker's Short Course to be given here February 3, 4, and 5, according to Miss Margaret W. Weeks, dean of the school of home economics and chairman of the program.

Miss Weeks states that Miss Mayme Lee Hayden, extension specialist in Home Industry of A. and M. college and Mrs. Charles W. Sewell, director of the home community department of the American Farm Bureau Federation of Chicago, will be among those on the program.

This program is given for those who are not resident students and who do not have the opportunity for such instruction. The college extends an invitation to all who are interested in rural progress in West Texas.

Tech Four Years Ago

By SARAH MICHIE

(Compiled from old issues of The Toreador and from newspaper clippings.)

Buffaloes here for cage till. Good game expected at the pavilion tonight. (Ah! Those barbaric days before we had a gym!)

Club presidents discuss greater student socials. Plans were made for an all-college night to be held once each month or at shorter intervals if the students so desired.

Tech dramatists go to Spur Friday evening and present "One Must Marry" their first out-of-town engagement.

Percy Grainger world-famous pianist will appear on the Student Artist Course program.

Cheri Casans serenade College Inn co-eds to the mutual discomfort of both organizations.

Much school rivalry is expected in the proposed special editions of The Toreador. Each school will edit an issue.

Hot grid battle is waged in girls gym. Co-eds go in for football under the direction of Miss Johnny Gilkerson.

Lelesse Hays, who has been teaching at Wolforth since Christmas, visited with her parents here over the week-end.

Doris and Joyce Johnson of Annex A had as their guests their parents, Dr. and Mrs. Johnson of Eastland, last week.

Edith Sanders spent the week-end with her parents in Anton.

Weldon Scarborough, who has been ill during the past week, is back in school.

Eudora Noel, Ralls, Tech student of last year, has registered in the college.

Louise Hardin is ill with measles.

Avord Abernathy, former student of Tech, visited with friends in Lubbock over the week-end.

Gladys Bullard was the week-end guest of her parents in Snyder.

Mrs. Vance Gilbreath and Ruth Gulwell visited in Matador over the week-end as the guests of Mrs. Gilbreath's mother.

Tolay Shipp was back in school Wednesday after an illness of two weeks.

Faye Foote visited with her parents Dr. and Mrs. G. A. Foote in Sudan over the week-end.

Orville Burroughs went to Kress last week where he acted as judge of livestock in a fair.

Lucille Jordan, former Tech student, now teaching in Sudan, was the week-end guest of her parents, Mr. and Mrs. B. T. Jordan.

Mr. W. E. Street, instructor in engineering drawing, who has been ill for the past week, is back on duty.

Florence Pickett, who has been working on an M. A. in Tech, has accepted a position in the school at Happy.

Bob Higginbotham of Amarillo visited in Lubbock over the week-end as the guest of J. W. Timmons.

Rhoda Lou Clark of College Inn, spent the week-end at her home in Meadow.

Lola Mangum, former student who is teaching music in Olton, was the week-end guest of her parents here.

Poster Davis and Lonnie Langston visited in the home of Elizabeth Pickett in Post-City Sunday.

Drama in three acts. Act I: Maid One; Act II: Maid Two; Act III: Maid One; Made One. —The Daily Texan.

Visitor—I hear you have a new little sister. Jimmy—Yes, just two weeks old. Jimmy—No, I wanted it to be a boy, but it came while I was at school.

Prominent Leaders To Take Part In Women's Division Of Short Course

Several prominent women leaders from over the state and nation will be on the program of the women's division of the Second Annual Texas Tech Farmer's and Homemaker's Short Course to be given here February 3, 4, and 5, according to Miss Margaret W. Weeks, dean of the school of home economics and chairman of the program.

Miss Weeks states that Miss Mayme Lee Hayden, extension specialist in Home Industry of A. and M. college and Mrs. Charles W. Sewell, director of the home community department of the American Farm Bureau Federation of Chicago, will be among those on the program.

This program is given for those who are not resident students and who do not have the opportunity for such instruction. The college extends an invitation to all who are interested in rural progress in West Texas.

We told the contractors they could build a new gym for us if they would put it up in eight days," relates Butler S. Smiser, T. C. U. business manager. The last flooring was laid on New Year's night, 1927, and the first basketball game of the 1927 season was played on the floor the next night.

Open Forum

ANIMALIA STUDIORUM Doubtless no Toreador editorial of the current session has evoked more vociferous comments among the faculty than that classic of last week—namely, "Teachers' Pets." In due justice to both parties of the constituency of our college, therefore, it appears somewhat proper to take an excursion into the students' zoo, as well, and make some observations of the specimens therein.

Let it be said first, however, that Tech is to be congratulated upon having at the head of its student publication an editor sufficiently Menckensian that he dares to make an assault upon such a stronghold of dignity and prestige as the college faculty. And, indeed, few conscientious faculty members can read the nine pertinent indictments of this editorial without feeling at least shot at, if not definitely hit. But why should not a spirit of free criticism prevail in a college of this type? Institutions in which the public utterances of criticism on the part of students is either received with intolerance or strictly censored are usually schools where the general level of thinking is about a century behind time. These paragraphs are not written, therefore, in retaliation, but simply to add the side of the case not presented in the editorial.

The most numerous and most ferocious of the beasts in the students' zoo belong to the genus Unpreparedaria. Under this head are those who come to class utterly unable to take any intelligent or even intelligible part in the class discussion and who do not promptly execute written assignments. This is the type of student that throws instructors into veritable convulsions. It is the most serious maladjustment of an instructor can overlook a great many other faults in a prepared student, or one who at least seriously works.

Another genus represented in this zoo is the Intereuphuaria. Species of this class include, among others, the tardareus, the tangentionis, the arguereumix and the blowoffy.

The first through the door fight in the midst of an slogan, disturbing the instructor so that he forgets where he is and never ends it properly. Questions designed to lead instructors off on a tangent and to kill time are the distinguishing feature of the second species. The third kind want to argue in the face of science philosophy and theology itself and refuse to perceive what would be apparent at the slightest whiff of thought, while the fourth, a closely related species, take every possible occasion to place on exhibition their meteoric brilliance and expostulate answers before their much less fortunate classmates have even marshalled their neurons sufficiently to open their mouths, to say nothing of formulating an answer (except when questions are addressed specifically to them).

One more genus represented in the zoo is the Malattitudi, the two main species of which are the Indifferentia and the capwillbustlers. The former sit merrily in their seats with blank, innocent faces, or else they stare fixedly out through some friendly window, which seems to have some strange relief for their woes, while the latter take the most pitifully hopeless and helpless attitude toward their perfectly impenetrable subjects, such that one feels inspired to suggest a hospital for them instead of a college. Some of the Malattitudi go so far as to confess openly to an instructor that they don't like his subject, which is exceedingly poor psychology on their part unless they have confidence in his superhuman integrity.

An old animal in the zoo that we should not fail to notice is the hoodlump, who insists on holding up his hand like a high school pupil whenever a question is put to some other student in the class. The genus of this animal has not yet been determined, though doubtless its ancestry goes far back into geological antiquity, perhaps to the Silurian Period. Many other peculiar biological phenomena abound here whose genealogical affluities can be determined only by further research. The foregoing list must suffice at this stage of our knowledge.

This author, as well as the editor, should make a footnote that their points of criticism are not to be confined to Tech, but that in almost all institutions these types of both students and instructors flourish. This friendly little exchange of criticism between student and instructor should only serve to put both on guard as to their faults and to render them alert to opportunities to enlarge their virtues.

—A Member of the Faculty.

Best meals in Lubbock, just off the campus. Mrs. J. T. Gregory, 2414 13th Street.

To be printed, cut it out!

Several prominent women leaders from over the state and nation will be on the program of the women's division of the Second Annual Texas Tech Farmer's and Homemaker's Short Course to be given here February 3, 4, and 5, according to Miss Margaret W. Weeks, dean of the school of home economics and chairman of the program.

Miss Weeks states that Miss Mayme Lee Hayden, extension specialist in Home Industry of A. and M. college and Mrs. Charles W. Sewell, director of the home community department of the American Farm Bureau Federation of Chicago, will be among those on the program.

This program is given for those who are not resident students and who do not have the opportunity for such instruction. The college extends an invitation to all who are interested in rural progress in West Texas.

We told the contractors they could build a new gym for us if they would put it up in eight days," relates Butler S. Smiser, T. C. U. business manager. The last flooring was laid on New Year's night, 1927, and the first basketball game of the 1927 season was played on the floor the next night.

De Que's Initiate

Pledges Go Thru Freshman Fun

"Hey pledge," is the "all that may be heard any time this week throughout the corridors of the buildings. This week is "Hell Week" for the pledges of the De Que Fellowship, and al-

ready some of the pledges are complaining of sore backs and stiff necks. Most of the pledges are having some difficulty in time it is spelled out on them for the fifth time they learn to spell it with an accented "e" on the last.

And the worst is yet to come. The ritual comes Thursday night, and the presentation at the formal dance at the Matador ballroom Friday night.

"This pledgeship is like the whole freshman year rolled into one week" one pledge was heard to say, "If I ever get over this I will consider myself lucky."

Pat—Eve Mike, I reckon I lost me job—I just dropped a brick an' it's broke.
Mike—Go on; that's nothin'.
Pat—Oh, ain't it? It's broke on the foreman's head!

License Clerk—Yes, I believe we did. Why?
Hattie—Well, what are you going to do about it? He's escaped.

WELCOMING!

EFREM ZIMBALIST

THE GREAT ZIMBALIST

TUESDAY, FEBRUARY 4th., 8 p. m.

TO THE

TECH AUDITORIUM

One of America's foremost artists, Efrem Zimbalist, concern violinist supreme will play to an appreciative audience at the Texas Technological College Auditorium on February the fourth.

Not only one of the foremost concert violinists of the world but possessor of a very expensive violin is Efrem Zymbalist. The violin with which he shall prove his artistic capabilities is worth more than twelve thousand dollars. He is also possessor of many other expensive violins.

Efrem Zimbalist is the husband of Alma Gluck, another accomplished artist of the world. He is young and inspiring to the youth of today. He is a man with a magnanimous personality.

Upon his second visit to Lubbock he shall find many friends listening attentively to his creations. We the people of Lubbock and the students of Texas Tech WELCOME this artist to our city.

Horn Optimistic Of Securing Aid From Legislature

Shortage Of Funds In Next Session Pictured Unless Current Expenses Paid; Meet At Corsicana

Enrollment Given

Gain Of 275 Revealed Over Same Period Last Year; Directors Told Money Is Needed To Meet Expenses

CORSICANA, Jan. 28.—Faced by a shortage of funds in the 1930 session unless current expenses are provided for, directors of Texas Technological college of Lubbock, meeting here today, decided to present their plea to Governor Moody and the legislature during the special session.

Dr. P. W. Horn, president, expressed confidence that the governor and legislature will come to the aid of the institution so it will not be handicapped in its work.

Funds Needed.

Additional funds are needed, according to board members, to care for actual running expenses including faculty, class room facilities and other essentials. Enrollment at the beginning of the second semester was reported to be 2,275, a gain of 275 over the same period last year.

The college lost part of the dairy barn from fire last Tuesday and while some insurance was carried, the sum will not be sufficient to replace the structure, according to T. W. Gaston, business manager of the school.

Resolution of Sympathy.

Resolutions of sympathy and respect were passed by the board on the death of Dr. C. G. Comery of McKinney, a member. Only two members were absent from the board meeting Tuesday.

Other Matters Are Discussed By Board

The request of Professor R. A. Stuhdler, the head of the Department of Biology, for a leave of absence without pay during the spring and summer terms in order that he may continue his work toward his Doctor's Degree was granted by the board of directors Tuesday at its session in the home of Mrs. F. N. Drene in Corsicana.

The Budget.

The budget for the summer school was also discussed by the board of directors and the matter was referred to a committee composed of the president, secretary, and treasurer of the board; however, no definite provisions are to be made until the action of the legislature.

Dr. P. W. Horn Related to the Board of Directors the Condition of the Heating System at Tech.

He pointed out that the heating plant was taxed to its capacity and that the only trouble was caused by a break in the gas line. Although the strain of the new buildings upon the capacity of the plants was very considerable, it is not likely to happen again since there is an appropriation of \$20,000 available at the first of next September for the purpose of making an addition to the heating plant. There is also an appropriation of \$7,000 for additional well which will also be available next September.

Miss Johnson to Teach in Iowa

Miss Vivian Johnson, instructor of foods and home economics education in the school of home economics will teach next summer at the Iowa State Teachers' college at Cedar Falls, Iowa.

Miss Johnson states that she will be there only for the summer and will return to her classes at Tech next fall.

"I like this quaint little mountain village of yours, waiter. I suppose I can get plenty of oxygen here?"

Harold F. Lovitt, Christian Endeavor Secretary, To Address Students At First Presbyterian Church Tonight

Harold F. Lovitt, of Topeka, Kansas, field secretary of the Kansas Christian Endeavor Union will speak at the First Presbyterian church tonight at 7:30 o'clock. Mr. Lovitt, who is touring the entire state during January under the auspices of the International Society of Christian Endeavor will discuss topics of interest to college students and will make plans for the district Christian Endeavor convention which will be held here in April.

Besides the address there will be special music under the direction of Mr. Baumeler, a sing song, and other special features.

Matadors Take 2nd O. C. C. Go

Triumph Over Flashy Team From Oklahoma By 42-24 As Hodges And Maxwell Lead Scoring

By taking the last game 42 to 24, the Tech Matadors made a clean sweep of the series with the Oklahoma Christian Mustangs Wednesday night, January 22. This game was the seventh straight victory for the Scarlet.

While the Tech offense was not working as smoothly as it has in previous games, the Matadors played an all-around good game, and piled up a larger score than in the first encounter with the Mustangs. Tech drew first blood for the first time since the Wayland game. Fisher took the tip-off and passed to Maxwell, who made a perfect angle shot for the first two points. The Tech sharpshooters continued their pace and at the half they were leading by 19 to 6.

The Christians came back strong in the second period and whittled the Scarlet lead to six points. The Tech five rallied however, and after several quick baskets by the brilliant Hodges, were well out to front again. Hodges lead the scoring of the evening with 13 points. Maxwell was second with 11 counters.

Editor Here On Lecturing Tour

Harrison E. Howe, editor and lecturer, will be here March 5 and 6 to lecture on some phase of chemistry. He comes here from the University of New Mexico where he will speak on March 4. He will spend two days here and then go directly to the University of Oklahoma. For several months he has been on a lecturing tour, speaking at the principal universities in Montana, Washington, Idaho, Oregon, Nevada, California and Arizona. After speaking here Howe will tour Oklahoma, Arkansas, Kansas and Iowa. On April 9 he will speak at the convention of The American Chemical Society in Atlanta, Georgia, on the subject "Chemistry Comes South."

Cole Is Released From Sanitarium

Mr. W. C. Cole, manager of the college bookstore, who with his family was in Mexico where he was injured during the holidays in an automobile accident near Snyder has been released from the Lubbock Sanitarium where he has been confined to the bed since the accident. Mr. Cole, who is suffering with a fractured hip, will be tied down with a plaster cast for more than a month longer.

Miss Cole's arm, which was broken near the shoulder, is still carried in an airplane cast, although she has resumed her work as secretary to Mr. T. Cummings, purchasing agent for the college.

Student Leader

HAROLD F. LOVITT

El Toro

BY WILLIAM SEWELL

What about the Staked Plains Conference? Our honest opinion is that it is not the best thing for Tech or any of the other schools at this particular time. Tech refuses to join the T. I. A. A., and yet she would line up with some T. I. A. A. schools that are not exactly the strongest institutions in the loop. It may be true that it would benefit if some schools were to withdraw; but neither Tech nor any other school can afford to sacrifice its athletic standing in order to benefit any conference.

The 1929 football season did not boost our athletic prestige any, and it seems to us that to enter a new conference now would not help the situation a bit.

Tech has been complimented for playing under Southwest Conference rules at her own choosing. To continue in our present status would be far better than to the ourselves up with institutions that in a few years will be as far below us in the athletic scale as we are Notre Dame at the present time.

We will be only too glad to give space in this column to any one who has anything of merit to say on this subject, either pro or con. Let's have your ideas, folks.

Let us get down to the most interesting topic of the day which is basketball. The Scarlet Crew chalked up win number eight and nine to keep their record clear for the season. We don't know how many colleges in the state can boast the same record, but we are of the opinion that they are very few.

The Sul Ross Lobos will be our guests again tonight. Perhaps some are wondering why the boys are being sent through a grind of four straight games—no doubt Vic realized that it would be good preparation for the five game grind that is to come off in Abilene next week. If Tech can go through an undefeated series in Abilene, they will certainly have accomplished a feat worth mentioning. Right now the indications are that we are going to have to do a lot of "mentioning."

Intramural football practice is in full swing. The importance of this activity can not be over-estimated. People may not realize it, but there is much more material in the American college that is undeveloped or covered up than is developed in intercollegiate athletics. Intramural sports help to find this material,

How The Matadors Stand

- Texas Tech 40 Wayland 29 at Plainview.
- Texas Tech 35 Wayland 16 at Lubbock.
- Texas Tech 53 Howard Payne 31 at Lubbock.
- Texas Tech 40 Hoyard Payne 18 at Lubbock.
- Texas Tech 44 Simmons 19 at Lubbock.
- Texas Tech 37 O. C. C. 31 at Lubbock.
- Texas Tech 42 O. C. C. 24 at Lubbock.
- Texas Tech 40 A. C. C. 21 at Lubbock.
- Texas Tech 35 A. C. C. 25 at Lubbock.
- Texas Tech vs. Sul Ross, at Lubbock, Jan. 29 and 30.
- Texas Tech vs. McMurry, at Abilene, Feb. 3 and 4.
- Texas Tech vs. Simmons, at Abilene, Feb. 5.
- Texas Tech vs. A. C. C., Abilene, Feb. 6 and 7.
- Texas Tech vs. W. T. S. T. C. at Lubbock, Feb. 10 and 11.
- Texas Tech vs. W. T. S. T. C. at Canyon, Feb. 19 and 20.

and so far it is about the only method we have of finding it.

Let all those who are not athletically inclined give these boys who are working out for the several school teams some real support, show them that you appreciate their efforts, even if their ability is not on par with some others.

After the Basketball season is over another bunch of thinly clad will appear—this time on the cinder path. It has been said that the prospects are not so bright for a successful track season—but who really knows? Last November they were lamenting our miserable prospects for a good cage team.

After the weather begins to warm up a big some of the boys will drag out their white ducks and rackets, but unfortunately there is no place where they can make use of them. Tech's tennis courts are about as

hot as an iron bridge in a sleet storm on Christmas eve.

Another minor sport is coming into evidence. Those with golf hallucinations will assemble this evening to discuss the prospects for a golf team. There is no reason, unless it be a financial one, why Tech can not have some intercollegiate golf matches this spring at any rate an all-college tournament could be held, which would lend interest as well as locate the premier club wielders.

Another song has appeared. Mr. Marshall's contribution was introduced Monday night at the ball game and was well received. Anyone who submits a lyric is to be congratulated. What we need to do now is to get some organization as to the adoption of an official ballad.

Even though there are some mighty interesting games im-

De Que Club To Have Formal Presentation

De Que pledges will be presented Friday night, January 31, at one of the most elaborate functions of the year in the Matador ballroom in the Hilton Hotel.

The pledges will enter at the west end of the ballroom from flower-scented doors, their ladies meeting them in the center under a spotlight and pinning white carnations on their coat labels which signifies their membership to the club.

Members are: Alvin Allison, president; Frank Stone, vice president; Robert Patterson, secretary-treasurer; Eugene Adair, sergeant-at-arms; Alfred Adkinson, Clarence Hojigas, Leland Mast, Charles Adams, J. W. Timmons, Raymond Best, Arthur Wagborne, K. N. Clapp, sponsor; Wiley Carroll, Faculty Advisor.

Pledges are: Harold Betterworth, Lemis Baker, Van Earl Sams, Del Lindsey, Joe Elyvins, Earl Turner, Harmon Jenkins, Russel Biggs and Clayton Lawrence.

Chaperones for the dance will be: Mr. and Mrs. W. R. Wagborne, Mr. and Mrs. C. H. Mahoney, Mrs. E. T. Adair, Mr. and Mrs. C. L. Adams, Mr. and Mrs. L. H. Allison, Mr. and Mrs. L. S. Mast, Dr. and Mrs. Paul W. Horn, Dr. and Mrs. J. M. Gordon, Mr. and Mrs. J. V. Vinton, Mr. and Mrs. Gaylord Hankins, Mr. and Mrs. Harold H. Griffith, Mr. C. Russell, Miss Ruth Horn, Mr. and Mrs. James G. Allen, and Mrs. Mary W. Donk.

Sunday School Class To Have Party

The Methodist Sunday school class taught by Mrs. William Dingus will have a party tonight at 8 o'clock at Mrs. Dingus' residence 2502 21st street.

This class is composed of young men and young women of the college above the freshman year. All members of the class are invited to attend.

Wranglers Club Holds Meeting

Members of the Wranglers held a meeting in their club rooms at the Bosque Apartments Tuesday evening, January 28, to discuss plans for their first annual banquet and dance which will be held at the Hilton Hotel, February 21.

Christine Carter Entertains Sans Souci

Miss Christine Carter was the charming hostess to a bridge party for the Sans Souci members Saturday afternoon at 3 o'clock in the Aztec room of the Hilton hotel. Centering each table was a vase of

sweet peas in pastel shades, which were later used for table cuts. Miss Virginia Conley received high score and Miss Mary Lee Bardwell high cut.

Special guests for the occasion were: Miss Louise Presbrove, Miss Louise Stevens and Miss Mary Allen.

Pre-Med Club Plans Dance

At the last regular meeting of the Pre-med club, definite plans were made for the first annual dance of the club to be held March 7 in the gym. Roy Hunt and Bob King are in charge of arrangements.

De Que Club Has Informal Dance

Members of the De Que club entertained pledges with an informal dance Thursday night January 16, at the home of Charles Adams, 1317 15th street. Special accordion numbers by Frank Stone and clogging by Harold Betterworth were features of the evening. Funds were served throughout the dance.

Las Chaparritas Entertained At Bridge

Members of the Las Chaparritas were entertained with a delightful party Friday evening at 5 o'clock at the home of Dr. J. T. Hutchinson with Mrs. Ed Allen, Miss Fay Hunt and Miss Marjorie Amisworth as hostesses. Mr. Roy Ingram was awarded high score, while Miss Sarah Michie received low score.

Special guests were Misses La Yerne Yowell, Edith Sanders, Louise Stevens, Louise Presbrove, and Mrs. Roy Ingram.

Las Leales Have Theatre Party

The Las Leales Club entertained Wednesday evening, January 29, with a party at the Lindsey theatre and later enjoyed a salad course at the Loretta.

College Club Announces New Pledges

The College Club will meet tonight at 7:30 o'clock at the Hotel Lubbock. At the last meeting on Thursday, January 23, the following men were pledged: Jack Durham, Walter Castle, and Johnnie Young. Others who have recently been pledged are: John Wulfman, Herman Houk, Earl Jones, Fred Jordan and James Loughridge. After the pledges were given instructions, a business meeting was held, and the following former pledges were taken in as members of the club: Junior Williams, Jean Warnack, Walton Nixon, Hiley Boyd, James Renfro, Blake Smith, C. A. Doose, Hooks Boyd, and Edgar Capleman.

Miss Tatom Hostess To Bridge Party

The Valentine motif was skillfully carried out at a bridge party given in the home of Mr. and Mrs. L. C. Tatom, 2219 15th street, Monday afternoon, January 27, with Miss Melba Mae Tatom as hostess and Mrs. L. C. Tatom and Miss Doris Dell Tatom assisting. After the games a salad course was served, carrying out the color scheme with plate favors of red sweet peas. Miss Evelyn Wilson won high score, and Miss Dorothy Rushing was awarded high cut.

Guests were Misses Martha Alice Penney, Frazier Winston, Vencie Gilkerson, Genevieve Decker, Rose Mary Leaverton, Alice Claire Teague, Louise Bates, Margaret Turner, Evelyn Wilson, Frances Snyder, May Beth Sheeley, Evelyn Stuart, Dorothy Rushing, Jessie Muriel Scoggins, Lois Morrison, Theresa Everhart, Evelyn Rutherford, Sarah Michie, Patti Hopping, Virginia Smallwood, Ada Ruth May, Aileen Graves, Johnny Vee Scott, and Miss Frances Ford as tea guest.

Miss Matthews Entertains Las Leales

Members of the Las Leales Club met at the home of Mr. and Mrs. R. W. Matthews, 2109 18th street, Thursday evening with Miss Oza Matthews as hostess. Miss Eufala Wise, president, called a business meeting from 8 until 9 o'clock, at which time plans for a banquet February 7 at the Hilton were completed, and the remainder of the evening was spent in playing bridge. Refreshments of hot chocolate and date loaf were served. Special guests were Elizabeth Toik and Ruth Waller.

The Laziest Man First Burglar

"Come on, Lefty, let's figure up what we made on this haul."

Second Burglar: "I'm too tired. Let's wait and look in the morning papers."

—McMurry War Whoop.

George Ellis To Introduce Song

George Ellis, who with his Hilton Hotel orchestra furnishes the music for the dances of the college social clubs and for the regular Saturday night dances, has an interesting musical and cultural background.

Mr. Ellis' parents were both accomplished musicians of wide reputation. He was acquainted with the musical tastes and preferences of college students, being a college graduate himself.

Mr. Ellis came to be known all over the Southland because of his broadcasting over K. T. H. S. at Hot Springs, Arkansas. He originated the popular little song about K. T. H. S. with which the station used to end all of its programs.

Mr. Ellis announces that he is going to introduce a very new and original number at the next Saturday night dance at the Hilton. It is entitled "Absolutely, Positively." This little ditty hails from a smart cabaret in New York.

Geological Society Plans Big Banquet

Plans for the First Annual Banquet of the Geological Society were made at a meeting last Monday evening in room D of the chemistry building. The banquet is to be given in the Matador ballroom of the Hilton Hotel by the members of the society for the faculty of the department of geology. Students who are not members of the society but are majoring in geology will also be given special invitations to attend.

Elmer Moore, president of the society, was selected as master of ceremonies for the occasion. Denison Underwood and Clyde Drake were appointed to compose the decorations; committee, and Moe Clark, Clarence Cole and Elliot Powers form the program committee. Final plans will be made at the next meeting which will be held Monday, February 10.

She: "What is this game called golf?"

It is a game where old men chase around little balls when they are too old to chase anything else."

The College Star.

Don't gripe, Mr. Forsberg—even Belshazzar had to put up with handwriting on the bathroom wall.

—The Utah Chronicle.

Tech History Compiled Periodically From News Items Furnished Library By Texas University Clipping Bureau

By CANON CLEMENTS

Clip! Clip! Clip! The University of Texas Student Clipping Bureau is kept busy clipping news items about Texas Tech for Texas Tech. These clippings are received in the library twice each week. Having been approved by Cecil Horne, publicity manager of the college, President P. W. Horn, these clippings are neatly placed in a series of scrapbooks entitled "Texas Technological College Scrapbook" by Sarah Michie, student library assistant. These scrapbooks date from the beginning of the college.

The Clipping Bureau cuts these clippings from widely circulated newspapers of Texas with the exception of local papers which are easily secured by the college library. These clippings deal with every phase of Texas Tech: athletics, extension work, enrollment, honor

rolls, directors, etc. Duplication of subject-matter in the scrapbook is avoided by the placing of only one clipping of a kind in the book. The publicity of the article is given by noting the names of other papers in which the article had been carried. By doing this, the publicity department is able to calculate the publicity the college is receiving throughout the state. Before the college adopted the idea of a scrapbook, news items were collected by Dr. Horn, who had subscribed to the clipping bureau.

The mechanism of the clipping bureau is very interesting. The students, who are assisting in the various topics named by the bureau's subscribers, are paid according to the number of clippings they can find. Thus, the students are able to work their way through college and at the same time do a valuable piece of work.

In speaking of the value of the scrapbook, Miss Elizabeth H. West, Tech librarian says: "The Texas Technological College Scrapbook" will prove to be a large asset to the college library in that it is a source of Tech history."

Baptist Students Plan To Build Hut

Will Be Constructed Near Campus In Spanish Style; Estimated That Structure Will Cost \$1000

Plans for the construction of a Baptist students hut costing \$1,000 are being rapidly completed by the B. S. U. council. An architect's drawing of the proposed structure by Lloyd Russell, senior in the school of engineering, is now on display on the first floor of the administration building in the east rotunda.

At the regular weekly meeting of the B. S. U. council Monday night, a detailed report of the plans for the hut was presented. It is to be an attractive cottage of Spanish style. It includes a large meeting room, a kitchenette, and a restroom. The hut will serve as meeting place for Sunday School class officers and committees and for small social gatherings. It will be located near the campus.

It is understood that Tech is the first state institution in the South to have such a structure for the Baptist students.

Do They Make Good Wives?

Training Of Home Economics Students Qualifies Them For Worst Storms On The Sea Of Matrimony

"Do Home Economics graduates make good wives?" If darling socks, making dresses, cooking pies, buying economically, and studying interior decoration have any bearing on the matter the girls of the home economics school at Tech should be proud. Statistical data on the fate of the graduates is lacking, but there is every indication that they are very much in demand. Four of them have been married since Christmas.

It is hoped in the near future a baby will be added to the practice house. If this is done the technique which has been learned in the classroom may be put into practice.

At the present socks are darned in the clothing classes. There has been a mild protest by the liberal arts students on their method. Holes are torn or punches in good socks. How the liberal arts girl would like to invite the whole class to her home for an afternoon where the practices would be more practical.

Man's favorite dessert is pie, and it is probably for this reason that the Home Economics student cook so many Raisin pie is the favorite. But desserts are not the only things the girls learn to make; the technique of cooking cornbread and beans is also studied.

Need Of Broad Musical Background For Modern Violinist Stressed By Zimbalist

That the modern violinist's musical accomplishments must not be confined to violin mastery in the view of Erem Zimbalist, who plays here on Tuesday, Feb. 4, 8 p. m., at the gymnasium.

"The violinist who knows only the fiddle," says Zimbalist, "is like a man who knows only the aspects of music. It is possible to gain much from the violin the broader aspects of music. It is possible to gain much from the violin but if you play only that instrument and study only its technique you will be in the position of the Englishman in Kipling's poem—'What do you know of England who only England know?'"

"A knowledge of the piano is indispensable for every musician for the piano provides a short cut to acquaintance with almost every form of musical composition. A musician who has not mastered harmony and counterpoint lacks the foundation which enables him to understand masterworks. And finally a musician must learn to

know almost every sort of music, from the song of the symphony, from the opera to the opera. Then, if he is a violinist, his instrument becomes not merely an instrument but a musical medium.

"The old-time fiddler, with his long hair, his bad manners and his incoherent babble about his 'baby,' has passed from the concert stage," says Mr. Zimbalist. "The violinist of today is primarily a musician with a virtuosic command of his instrument."

"The violinist of fiction undoubtedly had a basis in fact, but fact has grown faster than fiction and I do not believe that you will find any of the old-fashioned fiddlers appearing under high class auspices. A violinist who wishes to be at his best always cannot waste time with curious ways of dressing and development of eccentric mannerisms. The practice of his instrument, the enlargement of his repertoire, the broadening of his musicianship—these are his problems. And they consume almost all of his time."

George Ellis To Introduce Song

George Ellis, who with his Hilton Hotel orchestra furnishes the music for the dances of the college social clubs and for the regular Saturday night dances, has an interesting musical and cultural background.

Mr. Ellis' parents were both accomplished musicians of wide reputation. He was acquainted with the musical tastes and preferences of college students, being a college graduate himself.

Mr. Ellis came to be known all over the Southland because of his broadcasting over K. T. H. S. at Hot Springs, Arkansas. He originated the popular little song about K. T. H. S. with which the station used to end all of its programs.

Mr. Ellis announces that he is going to introduce a very new and original number at the next Saturday night dance at the Hilton. It is entitled "Absolutely, Positively." This little ditty hails from a smart cabaret in New York.

Engineers Plan Coming Banquet

J. H. Murdough, head of the department of civil engineering was chosen toastmaster for the annual engineers' banquet at a meeting of the Engineering society Monday night. Tentative plans for the affair were submitted, and the price for plates was set at two dollars. It was decided to announce the date later.

W. A. Wardell was elected first vice-president of the society at this meeting and Fish Brummett was elected second vice-president. These officers are to retain their positions until the winter term of next session.

Several committees organized to make plans for the banquet were announced. The matter of voting on the new constitution for the society was put off until the next meeting. The last important business matter to be taken up was voting on the by-laws composed for the operation of the loan fund.

Y. W. C. A. Plans Program Series

Plans are being made by Y. W. C. A. members with the assistance of the board of management of the organization for a series of programs, the proceeds of which will go toward sending delegates from the college to the Southwest Students' conference at Hollister, Missouri, next spring. These programs which will probably consist of a one-act play, musical numbers, cloz dances, and similar features, will be given in small towns and communities around Lubbock.

At least ten delegates, five of whom will be members of the Y. W. C. A., will represent Tech at the conference. Eleven delegates were sent from the local Christian associations last year. The Y. W. C. A. group will also be represented by its president for next year at the Y. W. C. A. conference at Detroit, Michigan, next April.

All the following happened to a modern young girl in a single day, according to her:

Reporter (rushing into office)—At last, I have a real piece of news! A truck driver got stuck in the mud on the side of the road.

Editor—But what's unusual about that?

Reporter—Well, you see, he pulled over to allow another auto to pass.

—C. I. A. (Denton)

Methodist Church Plans Big Student Conference Here

Delegates Of Three States To Hear Student Leaders Secured For Three-Day Program In February

Plans for a conference of students from the colleges of Western Oklahoma, New Mexico, and West Texas to be held in Lubbock February 21, 22 and 23 are being perfected by a special executive committee acting under the auspices of the Methodist denomination.

Other Churches Co-Operate It had been originally proposed that an inter-denominational conference be held, but complications have insisted that it would be unwise to attempt a meeting of this kind. Although the initiative in the conference is being taken by the Methodist students, the other churches of Lubbock are assisting in entertaining the visiting delegates. There will be no delegates from the various denominations at the meeting and the interest will not be confined to any particular one.

Important speakers who have been scheduled for the conference include Dr. J. M. Culbreath, secretary of the national board of education of the Southern Methodist church, who will take as his subject, "Students and the Church"; Dr. J. S. Seneker, Southern Methodist university who will discuss "Pre-College Students in the Church"; Dr. W. P. King, Dr. W. P. Horn, Mrs. William Dingus and Miss Mary DeBardeleben, Texas Tech; and various other student speakers.

Students To Speak Student addresses will precede each of the lectures and opportunity for discussion will be afforded after each lecture. Students taking part in these discussions are: Robert Martin, H. Y. Price, Alvis Ellis, Lois Cooper, all of Texas Tech; J. C. Portenfield, University of Mexico; Wayne Cook, McMurry college; Miss Madeline Cook, West Texas State Teachers college; and Mr. P. Darcy Bone, Mr. J. E. Shewbert, Jr., and others from Abilene.

Short Course

(Continued from page 1)

fects. D. F. Eaton, Lubbock county agricultural agent, will preside.

On Wednesday a livestock program will be followed. Prof. W. L. Stangel, head of the department of animal husbandry in the college, will act as the day's chairman. Poultry problems, pastures, cow testing by mail, common ailments of farm animals and their control, sheep feeding, and feeding for milk production will be discussed at this time.

Ladies' Program

The three day's program for the ladies will include discussions of such programs as home marketing, the school lunch, decorative features for farm homes, community dinners, selection of ready made clothing, rural social life, and uses of cottage cheese in the home.

Mrs. Charles W. Sewell, director of home community work, American Farm Bureau federation, Chicago, will speak each day to the women and will talk at the men's program on one day. Her expenses will be born by members of different farm organizations. The home economics girls of the college will entertain her while during the three day session at their own expense.

Farmers' Supper

An interesting feature of the meet will be the Farmers Supper, which will be held at the Hotel Lubbock, Monday evening, at 6:30 o'clock. The purpose of this banquet is to build up fellowship. Dr. Paul W. Horn will be the leading speaker of the evening. Tickets for the sup-

Wide Variety Of Collections Found In Tech Museum; Have Been Obtained By Exchange, Field Trips, And Donations

Last year the department of geology at Tech decided to set aside a room in the chemistry building as a museum where articles of interest might be kept for storage and display. The number of articles in the museum has increased a great deal since it was first established, and most of this number has been secured through donations by interested people, faculty members, and students. Field classes in geology have also helped to swell the collection. One of the most interesting means of obtaining specimens is by exchange with people in different parts of the country. Exchanges have been made with the School of Mines of Missouri, Colorado School of Mines, the University of Ohio, and with collectors in Rochester, New York, and in Germany.

Many Vertebrates The museum has a fairly large collection of vertebrates most of which were secured by Dr. Russell formerly of the faculty and an assistant who spent a month in the field on the Spur ranch and other parts of West Texas. This work was made possible under a grant of funds by the board of directors under the chairmanship of Clifford B. Jones. On this trip reptile and amphibian remains and armor, bones, and teeth were found.

There are from 600 to 700 species of invertebrates catalogued, and there are over 2000 specimens in the museum. These materials have been arranged according to the age in which they existed. There is also to be found a representative collection of modern vertebrates. There are life-like models of the frightful dinosaur and extinct horses and skulls of the horse and buffalo.

Prehistoric Circus

West Texas must have looked like a circus headquarters when the prehistoric monster and elephants made this their old stamping ground. Many elephant remains have been found in the Panhandle, and the Tech museum is in possession of about six of these remains. One was found near the present site of the Lubbock cemetery. The jaw of a mastodon containing some well-preserved teeth was found near Crosbyton by Dr. Steinbrook of the geology department and

per will be one dollar, and everyone is eligible to attend. Music will be furnished, making this an unusual attraction.

There has been much help from numerous corporations in laying the plans for these meetings. The Santa Fe and Denver railroads, wheat and cotton marketing organizations, the Texas Farm Bureau federation, the American Farm Bureau federation, the president and director of the State Farm Bureau federation, and Sterling Evans of the extension service of Texas A and M college have all given generous cooperation in this work.

Wide Publicity

With the assistance of newspapers of the state and the Lubbock Chamber of Commerce much advertising has been done toward attracting a large attendance during the three days' meeting.

The college extends an invitation to all that are interested in the development of this program for the welfare of all concerned in the rural progress of West Texas.

Fred Moore, Tech student. The remains of a long-chinned mastodon were brought in by farmers who found them near Roaring Springs. The latest addition to the museum is a tusk shoulder blade, and two well-preserved molar teeth of an elephant. These remains were found in a gravel pit on the Matador ranch near Paducah by Douglas Meador of Matador. These articles were brought in about three weeks ago.

Metallie Ores

There is an interesting collection of metallie ores in the museum, including zinc, copper, iron, and radium ores. There are also several forms of lava on display.

Along with geological material the museum takes care of articles of historical and anthropological interest for the history department. Most of this material has been donated by town people and includes old branding irons, ranch bells, bows and arrows, old-fashioned yoke and pack saddle, and a number of Indian relics found near the Canadian river by Dr. W. C. Holden of the history department. Some of the material in the museum has come through the Plains museum society a recently organized group.

Henninger Talks To Spanish Club

Interesting features of Mexico were discussed by Mr. Carl Henninger associate professor of the department of French at a meeting of the Spanish club last Friday evening. Mr. Henninger spoke on the dress, life, and customs of Mexico and illustrated his lecture with slides.

Among the slides that he showed to the members of the club were: "El Chihuahua," "El Papacatepetl" known as the smoking mountain, "El Estrecho," a peon gathering "saborosa frutas de un arbol de mango," "La Esmeralda Veracruz," "Fiesta de Mexico," "La Piramide del Sol," "Cancun y la Azteca," "La Catedral de Ciudad de Mexico," "Vista de Zaca-tecas, con su antiguo acueducto," and "La Universidad de Mexico."

The club voted to buy a page in La Ventana and to have each member's picture on it. Mrs. E. J. Gates instructor in Spanish, was authorized to collect fifty cents from each member as soon as possible for the purchase of the page. Capa y Espada pins are being ordered for the members of the club and all those who want one are requested to see Mrs. Gates immediately.

Postpone Sock And Buskin Club Meet

Owing to the fact that the Artists course will present Efreu Zimbalist in recital on February 4, the Sock and Buskin club will hold its regular meeting on Monday, Feb. 3. The Thespians Club recital, which was scheduled for Tuesday night also, has been postponed until the following week.

Mr. Carnett says that he places his name on the full page advertisement welcoming Zimbalist for the benefit of good Tech students who do not write hot checks.

Investigate Before You Invest

HERE is a good thing to bear in mind:

When an investment proposition offers big returns with very little chance of loss, it is not necessary to send salesmen around the country letting the public in.

The next time a stranger comes to you with a "sure shot" business opportunity, ask yourself if he isn't going to a good deal of trouble in order to let you make some money. Ask yourself why he didn't let a few big financiers handle it. If a thing is safe for you, it would have been safe for them.

Before you invest, investigate! The Citizens National Bank will be glad to obtain reliable information for you without charge.

CITIZENS NATIONAL BANK

LUBBOCK TEXAS

Tech Wins Series

Continued From Page One

Abilene boys were going to take off to a commanding lead, but the Crimson tightened and soon knotted the count. At the half it was Tech 15, A. C. C. 12.

It was right after the start of the final period that the Tech sees got hot, and the Crimson began to pull away. Hodges, who had accounted for most of the scores in the first half continued his pace and it was not long until the Matadors had established a 12 point lead which was never threatened. That the Wildcats have a host of good material was demonstrated in this game. Numerous subs went in and made things just as tough as the regulars had in the earlier stages of the game. The final score was 35 to 25 in Tech's favor.

This game was characterized by the Christians inability to hit the basket. Their passing for the most part was superior to that of the Matadors, but they were unable to sink the necessary counters.

Clarence Hodges topped the goal shooters of the evening with 18 points.

A new dame any guy can make. The talent comes in giving her the shake. —The Utah Chronicle.
