

The Best Chance You Ever Had To Win Five Dollars Is Here—Get Out Your Camera, Take Some Snapshots And Submit Them To La Ventana.

The TOREADOR

Howdy!

The Cameron Aggies Are Our Guests Tonight And Tomorrow Night—Welcome, Aggies!

Conference To Take Place Of Usual Course

Annual South Plains Farmer's And Home Maker's Conference To Be Held In Aggie Pavilion Feb. 11 And 12

Students Invited

Farmer's Supper Planned For Thursday Evening At Lubbock Hotel; Sessions Will Be From 10 To 4 O'Clock

The Annual South Plains Farmer's and Home Maker's conference, sponsored by the Farm Bureau federation, will hold its first session February 11 and 12 in the Aggie pavilion.

To Hold Supper

A farmer's supper will be held Thursday evening at the Lubbock hotel at which time the following speakers will talk: Dr. J. O. Ellsworth of Tech; L. T. Mayhew, vice-president of the Texas Cotton Growers association; L. J. Tabor, Master of the National Grange association; Sterling C. Evans, District Agent of Extension service; Miss Myrtle Murray, District Home Demonstration agent; John D. Rogers, president of Texas Certified Cotton Seed growers; B. E. Burrows, of the American Cooperative Cotton association; and Lynn Stokes, Manager of Texas Cotton Growers Co. company.

Several Cases Of Flu Are Reported

Several minor cases of flu among Tech students have been reported by the school doctors. Many are confined to their rooms but others are able to attend classes, although slightly attacked. Elmer Rankin and Elmer Faulkner, of Cheri Casa are in bed, and Ross Ayers, attended class Tuesday for the first time in a week.

Mysterious Mike Moser Around

I've been eaves-dropping around this past week and I seen a lot of "mystery" write "mystery" in the papers. The bosses told me they don't print scandal; furthermore, I know a good one on MARY LEE BARDWELL but I just can't afford to tell it.

James G. Holcomb Speaks To Scoury County Students

James G. Holcomb, Tech graduate sponsor, spoke to the Scoury county club at the last meeting. There are 21 members in this organization, all from Scoury county. Fifty per cent of them come from the Snyder high school.

Story Of Tech's Geology Fraternity Told In Official Frat Bulletin

An article on the installation of the local chapter of Sigma Gamma Epsilon fraternity was featured by Mr. E. F. Schramm, grand vice-president of the society in the official fraternity bulletin for November.

Most Tech Students Are Democrats According To Straw Vote In Classes

Roosevelt Is Choice For President; Smith Second

More than 500 Tech students in the government department belong to the "good old Democratic party," according to a recent straw vote taken by members of the classes. Franklin D. Roosevelt is by far the most popular choice for president, with Al Smith a poor second. Hoover is the ranking candidate among the Republicans.

Co-ed Faces Mock Pre-Law Trial

Indicted for the murder of her lover, Elizabeth Dryden, dark haired co-ed beauty, made bond early last night and today was meeting her regular schedule in Tech. With seeming indifference to the curious gazes of the crowd that had gathered in the hope of getting a glimpse of the accused murderess, Miss Dryden walked into her first class this morning and took her seat without embarrassment.

New Orchestra To Play For Events

A new orchestra under the direction of Jack Castel has recently been reorganized. The personnel consists of Jack Castel, piano; Oquin Meyers, Cecil Flynn, J. T. Langham, reeds; Henry Godeke, Bob Karnegie, Brass, and Newell Hughes, drums.

Frosh Group Holds Meet

Mrs. J. C. Granbery speaks on "Personality and the Freshman Commission" last Friday afternoon in 310 of the administration building. The speaker outlined intelligence, a variety of interests, and sincerity as the three essential which make personalities attractive.

Dean Weeks Will Speak At AAUW Tea Given Saturday

Dean Margaret W. Weeks will speak at a tea for all college women to be given at the Hilton hotel Saturday. Her subject will be "The Progressive Nursery School." The local chapter of the A. A. U. W. is sponsoring the social.

Luce Is Winner Of Chess Tournament

Followers of the chess tournament were given surprise this week when William Luce, sophomore engineer, by defeating the veteran Luther Williams in the semi-finals and Riley Millard in the finals, won the fall term chess tournament.

James G. Holcomb Speaks To Scoury County Students

James G. Holcomb, Tech graduate sponsor, spoke to the Scoury county club at the last meeting. There are 21 members in this organization, all from Scoury county. Fifty per cent of them come from the Snyder high school.

National Guard Band Will Play For Cadet Ball

Bids Go On Sale This Week; Cadets May Buy One Bid Only For Friend; Is On Social Calendar

Plans for the military ball to be given on February 22 by the national guard units and the Tech military units are nearing completion. Approval has been received for the affair to be placed on the social calendar, but due to the fact that it will not be held until the time has been set for 8:30 until 11:30 p. m.

Tech Military Classes Plan Reception In Armory; Will Be First Open House Since Armory Established

The 131st P. A. band of Texas National Guard is to furnish music during the reception which is to be held by the Tech military classes and the National guard units. The reception is to be given on February 22, from 5:30 p. m. to 7:30 p. m. in the armory building on College avenue and 10th street.

Tech To Fire Rifle Matches

Matches with the varsity rifle teams of Wisconsin university, Polytechnic Institute of Brooklyn, Iowa State university, Ohio State university, and Minnesota university will be fired this week by the Tech rifle team. These matches are fired on a home and home basis.

Local Rifle Team Members Fire Postal Matches With Several Other Institutions; Plan More Contests

The association was entertained with a complimentary dinner Saturday evening. The speaker at this dinner was H. Y. Benedict, president of the University of Texas. New officers were chosen as follows: Professor Sheer of T. C. U., chairman; Warren Reese, of Houston Junior college, vice-president; and Dr. Edmondson of Texas A. and M., secretary.

Dean Weeks Will Speak At AAUW Tea Given Saturday

Dean Margaret W. Weeks will speak at a tea for all college women to be given at the Hilton hotel Saturday. Her subject will be "The Progressive Nursery School." The local chapter of the A. A. U. W. is sponsoring the social.

Luce Is Winner Of Chess Tournament

Followers of the chess tournament were given surprise this week when William Luce, sophomore engineer, by defeating the veteran Luther Williams in the semi-finals and Riley Millard in the finals, won the fall term chess tournament.

James G. Holcomb Speaks To Scoury County Students

James G. Holcomb, Tech graduate sponsor, spoke to the Scoury county club at the last meeting. There are 21 members in this organization, all from Scoury county. Fifty per cent of them come from the Snyder high school.

Toreador Will Sponsor Election

Some Texas Tech Freshman Will Reign As Queen During The Freshman Dance On March 5

An election, sponsored by The Toreador, is to be held within the next few weeks, at which time members of the first year class will select a queen. Nominations will be made at a special called meeting next Monday night in the chemistry auditorium.

Committee Is Appointed To Plan Courses

Plans for reducing time given to high school mathematics were opposed at the recent Mathematical Association of America which met at the University of Texas in Austin, January 30, according to Dr. F. W. Sparks and Lonnie Langston. A committee was also appointed at this meeting to draw up a suitable curriculum for a course in high school mathematics.

Tech To Fire Rifle Matches

Matches with the varsity rifle teams of Wisconsin university, Polytechnic Institute of Brooklyn, Iowa State university, Ohio State university, and Minnesota university will be fired this week by the Tech rifle team. These matches are fired on a home and home basis.

Local Rifle Team Members Fire Postal Matches With Several Other Institutions; Plan More Contests

Luce Is Winner Of Chess Tournament

Followers of the chess tournament were given surprise this week when William Luce, sophomore engineer, by defeating the veteran Luther Williams in the semi-finals and Riley Millard in the finals, won the fall term chess tournament.

James G. Holcomb Speaks To Scoury County Students

James G. Holcomb, Tech graduate sponsor, spoke to the Scoury county club at the last meeting. There are 21 members in this organization, all from Scoury county. Fifty per cent of them come from the Snyder high school.

Huff And Cooper Plan Unique Annual For 1932

Annual Offers Prize For Best Snapshot Turned In

Ten dollars in prizes will be given the three winners of the snapshot contest being sponsored by La Ventana. The contest started last Monday and will close at midnight, March 5.

Annual Editor

Plans for the 1932 yearbook will be under way, says Editor Red Huff, above. Editor Huff is working out some unique features for the yearbook. He is a senior in the school of liberal arts, member of the Silver Key club and hails from San Antonio.

Recent Economic Conditions Point To Debt Adjustment; Factors To Aid In German Recovery Listed

"Germany is on the verge of turning in the weakest plea of 'We can't pay' to one of 'We will not pay.'" So stated Professor H. R. Nissley in discussing Germany's war debt at the meeting of the International Relations club last Friday evening.

Tech To Join In Celebration

Texas Tech will join Lubbock citizens in a city-wide celebration of the 200th anniversary of George Washington's birthday February 22.

Practice For Minstrel Held

Practice of the program for the second annual Double "T" minstrel is being held daily, the 90 students participating being divided into several groups. The program is to be presented at the Lubbock high school auditorium on February 19.

Sixty-Five Men Students And Twenty-Five Co-eds Practice Each Day On Program To Be Presented On February 19

Practice of the program for the second annual Double "T" minstrel is being held daily, the 90 students participating being divided into several groups. The program is to be presented at the Lubbock high school auditorium on February 19.

Covers Are Already Selected; Feature Proof Here

With the 1932 covers selected and the last of the individual class pictures made, the 1932 La Ventana is well on its way to completion, according to Robert "Red" Huff, editor. The dead line for the club sections has been set for the 15th of this month.

Stangel Plans To Take Class And Visit Station At Spur

Professor W. L. Stangel, head of the animal husbandry department, plans to take his senior class in animal husbandry to the experiment station at Spur Friday to study experimental feeding results on 100 cattle. They will also visit the Fitchfork ranch which is managed by V. V. Parr, an A. & M. graduate, and study the cattle conditions there.

Band Concert Will Not Be Given Until Last Of Month

Harry LeMaire, band director, says the concert to be given by the Matador band will not be given until the last of February. The exact date and the program will be given in next week's paper.

Hodge Podge Bids On Sale

Definite plans for the "hodge podge" were discussed at the meeting held last night by the sophomore class.

To Wear Gingham

The sophomore girls will wear either gingham or linen dresses and the boys will wear corduroy trousers with jackets or sweaters. Sophomore boys will not wear ties.

W. A. A. Initiates Several Members

The W. A. A. initiated new members last Thursday night, in the gymnasium. The initiates were required to bring with them a towel, a safety pin, and either a sack of peanuts or a bar of candy.

France Is Recognized Leader Of Fashion" Says Miss Erwin

Because many of her women dare to wear extreme dress styles, France is today the recognized leader of fashion," said Miss Mabel Erwin, professor of clothing, in an address to the Sorosis club January 26.

ALL-COLLEGE SATURDAY

Sam Shumate and his newly reorganized orchestra will furnish music for the all-college dance Saturday night, according to Lou Edwards. Stags will be admitted for \$1, while couples will be admitted for seventy-five cents.

THE BENEFITS FROM INTRAMURAL

The cleat of the boot against the pigskin revives glorious football days as four Tech teams battle for the Intramural title. Tech and Lubbock football lovers are seeing some real football stars in action, some real team work and an excellent brand of football exhibited as the 1932 intramural football battle wages.

The good derived from these intramural contests can not be overestimated. The fellow who holds to the idea that intramural contests only bring about hard feeling between the various schools and departments and have no real value has no argument if he considers that intramural games give the various players opportunities of knowing each other better, provide a means of exhibiting teamwork and provide recreation for about a hundred young men. Added to this, many varsity stars are discovered in intramural games.

While it is true, the schools of liberal arts, engineering and agriculture, and the army department are much in competition with each other during the intramural season, experience of past years has always proved that a more friendly feeling existed between the various schools and departments after a season of intramural contests.

The Toreador hopes to see the day when intramural activities will be widened, giving more students opportunity to participate. Few activities in the college can work up a better spirit than intramurals.

WANTED, A CLOCK TINKER

Campus clocks are a very disagreeable lot. They seldom agree on the time. For instance those in the chemistry building persist in keeping about four minutes ahead of the ad building clocks. At the same time the ad clocks get to feeling their independence and refuse to stay in march with those in the engineering building.

Added to this, the time piece in room 221 thinks it his duty to stay five minutes ahead of the one in the next room.

No wonder students go around scratching their head and looking at their watches. No wonder students are sometimes late to class, or perhaps walk into the room while the preceding class is still in session.

ALREADY A VETERAN

The manner in which Acting Dean O. V. Adams is handling the business of the Tech school of engineering makes one believe he is already a veteran. Taking the office a month ago, following the resignation of Dean W. J. Miller, Dean Adams is upholding the same high standards the engineering school has always been noted for.

A wide awake man, Dean Adams took advantage of the chance to learn something about the way Tech's engineering school should be run while a professor in the civil department. Assuming the duties of dean was no big change for Dean Adams, for he already knew many of the duties that must be performed.

THE STRAW VOTE

The results of the recent straw vote of government students in Texas Tech were somewhat interesting. Six hundred and twenty-six students expressed their choice for president and most of these indicated their attitude toward party loyalty and the prohibition question.

While The Toreador admits the Tech vote will have no effect on national political plans, we do say that if the opinions of Texas Tech voters can be taken as a criterion of colleges in the Southwest, political leaders will do well to consider the recent Tech straw vote in mapping out their campaigns.

The best thing The Toreador sees about the straw vote is that it indicated most Tech students will vote 'the good old democratic way' this fall. And "that's sumpin'".

Uncle Of Tech Students Dies Last Week In Iowa Mrs. A. Wellenham, 3414 9th street, received word Saturday of the death of her brother, E. B. Morris of Albia, Iowa. Mr. Morris was an uncle of Mrs. Irene Houghes, a junior liberal arts student. Mrs. George S. Berry, a senior in the liberal arts school, and Don Wellenham, president of the Tech Y. M. C. A. and a junior engineer.

TIME AND TIDE BY WILL BRISBARTON

WAR YES, it looks like war with Japan. The world isn't prepared to do much about it—and won't be until sane law and order is established between nations in the form of a world state with executive authority and an international army to back it up to replace our present anarchistic internationalism.

JUSTICE I believe in a perpetual armistice, I believe in being a pacifist, I believe, like Socrates, in philosophical existence; But if JAPAN, believing in none of these things and right can be over-run— Then I would use the "arm" in armistice.

AHEAD I ain't never seen a heathen Jap And bigly I never want to. But if he and his buddies WANT to scrap— Well, any fool knows WHAT they can do.

THEN there is the practical view. We take a look at the fine progress the science of war has made since the last little party in France—the greater development of the airplane, the new discoveries in poison gases that makes probable the suffocating of whole populations, the better understanding of bacteria that will enable the wiping out of populations with new diseases and epidemics, and the increased deadliness of guns and explosives and weapons generally. This second view is ready for come

what may, but has no illusions: Caught like a sap In the ghastly trap Of war as it lulls and rages, Men of all faiths and ages Will stand in horror and shiver And the earth in its orbit will quiver And the pale beaming stars, peering down aghast, Will blink at war's planet-bursting blast.

AND the third view considers the morality of war and the right of a nation to declare war. Like the bee who must die when he stings, war has become virtual suicide. It is a gun that discharges with equal deadliness from the stock as well as the muzzle. Today no nation can war unless near a million breathing, throbbing, sapling forms of classic flesh in the nature of men are laid upon its heathen altar and butchered and mangled and torn into merciful death or left for the torture chambers of life.

Would any government order the execution of a criminal if there were no possible way to execute the criminal without also executing the warden and some innocent citizens at the same time? Imagine it! For every criminal executed two innocent men are also condemned to death. And the government could tell, of course, the innocent men that it was honoring them so to die, for by their death they were able to take the life of an enemy to society. No government would pass such a sentence, you say? Ah, yes, governments do. No nation can go to war, in the name of justice, to punish an alleged offender of right, without purchasing that punishment with innocent lives both in its own country and in the land of the enemy.

One-Man Team Shows Laurels

Here are a few of the reasons why Barney Berlinger, former all-round athletic star of the University of Pennsylvania, earned the title of "the one-man track team." Berlinger is shown at his home in Philadelphia showing his sister, Helene, one of the cups he won while competing with an American track team in South Africa last summer.

Margaret Williams Attends Student Council Meeting

Margaret Williams of the Mathematics department attended a student council of the Diocese of Dallas of the Episcopal church last Saturday and Sunday. There were students there from S. M. U., T. C. U., Baylor Medical College, Texas Military College, O. J. A., and N. T. S. T. C. The Rev. Brooke Stabler, head of student work in the United States also attended.

"The Life Of A Practice House Girl" Is Presented

The Home Economics club met January 28 in the home economics tea room. The freshmen presented "The Life of a Practice House Girl," written by Helen Settle, program chairman. Games were played and Ruth Carter gave a report of the home economics sale.

Spanish Department Gets La Gaceta From Madrid

The Spanish department has subscribed to a literary paper, La Gaceta and has placed it on reserve in the library for the benefit of the students taking Spanish. La Gaceta is published in Madrid and contains literature from the best living authors in Spain and South America.

Miss Virginia Bacon a Senior Student, is Leaving Soon for Washington, D. C.

Miss Virginia Bacon, a senior student, is leaving soon for Washington, D. C. She will accompany her sister, Mrs. B. L. Howell, who is returning home after a visit of several weeks with her father, John F. Bacon, 1632 Broadway.

B. C. networks."

Under The Double "T"

The following is a quotation written by Dick West, sports writer for The Daily Texan:

"Texas Tech, one of the most rapidly-growing schools in the State, will play a very ambitious schedule next year. Baylor, S. M. U., A. & M., Simmons, New Mexico U., School of Mines, Arizona U., and Notre Dame B will be met by the Lubbock lads. The Matadors, although young in big time competition, have put out some fine football teams in the past few years. They are coached by Pete Carlsson and Dutch Smith, former Austin college coach and star, respectively. Thanks Mr. West! We expect Tech to continue its growth in athletics as it has done in enrollment. According to our notion, the "Ambitious schedule" for next year is nothing more than scheduling games with schools in our own class.

Athletes continue their march to Tech. In the last two weeks five new athletes have arrived, who have a state-wide reputation as football players; they are Pierce, Spofford, McKeever, Goode, and Lott. Pierce was regular quarterback with the A. & M. from this year, but did not get to see much service because of an injured shoulder received early in the season. He is fast, shifty, and is adapted to passing. He is apt to be some tough competition for Speed Moffett next year.

Bill Lott is a former all-junior college center and half from Westford Junior college. He played there for two years at the center position. McKeever, Spofford and Goode are all backs who have obtained popularity while playing with junior colleges or high schools. Like Coach Carlsson is not slacking down on the job when it comes to selecting football material for the college. Judging from the weight of grid material that is being collected here Tech will have one of the best football teams in the state next year.

Advocates of the Pop Warner double wing back system must have been satisfied that they were still on the right side Saturday, when the Liberal Arts ran the plays made famous by Warner in a practice game. Time after time the Liberal Arts, using the spins and reverses, ripped off large gains. The game throughout was exciting and as interesting as many intercollegiate contests that spectators pay large sums of money to see. Fans who have not been attending them have been missing a lot of thrills.

Speaking of the intramural games reminds us of an article written by Collier Parris, Lubbock Journal sports editor. The article reads as follows: "Personally we would not give very much for all the intramural games in the country. As a matter of fact we would not walk a pair of blocks to see an intramural game even if we had a free ticket, provided we could elude our professional duties. No, not after seeing 20 games on various gridirons last fall. We like football very much as an intercollegiate sport. But we get very little kick out of seeing teams of the same school clash with each other under the pseudonym of a game."

We wonder if our dear sports editor downtown would change his mind if he would ever happen to come out and see what one of the games is like? To our own personal knowledge he has not attended a single intramural game, but has sent out an assistant to make the report, and as a result. Even the name of the players who made the touchdowns in the last games did not appear in his write-up. It is our opinion that if the intramural games did not happen to be interesting to him he should not be advertising the fact. Such comment is not any too helpful for our coaches. They go through the trouble to get men for football, then the sports editor of our "downtown paper" comes along and just the same as says it does not amount to anything. It takes plenty of guts for a man to stay out for football, and they should be given encouragement, not told that the showings they make each week, after days of hard practice, is uninteresting to the sports editor they are looking to for a writeup of the game.

If we are not mistaken such a statement is certainly out of line for a sports writer to make. A sports writer who thinks anything of his work should be interested in all kinds of sports, at least he should not tell the public about it. It is to his common interest for them to think that he is interested in whatever they do in a sporting way. And in conclusion, it is our understanding that men who are interested in one phase of sports are usually interested in other forms of it, too.

Jay Timmons is looking for help to pay a five dollar debt, that was contracted the night the bondie was built. He is passing the hat around for contributions, and he assures us that all donations will be accepted. So far Dean Gordon, heads the list with 30 cents and Jay comes next with another half.

Matadors Play Two Contests With Aggies

Cameron Team Features Great Teamwork; Is Second Series With Matadors; Split Two Games In Oklahoma

Tonight and tomorrow night the Matadors engage the Cameron Aggies in two cage contests, expected to be hotly contested all the way through. Last week the Matadors split a series of games with the Aggies at Lawton, Oklahoma.

So far this season, the aces of the Aggie cage squad are exhibiting a colorful and superior brand of basketball. Ben Gower, Aggie center from Gould, Oklahoma, where he made the all-regional selected team, is perhaps the two valuable all-around men on the court. The tip-off is under his control in most games unless a player several inches taller and of his same elastic jumping ability gets in the center circle with him. Apparently easy going, Gower is surprisingly active on the offense front, and that he can keep the basket irons red-hot is affirmed by the score book. The towering Howard Counts is the only match for him on the defense. Gower's specialty is standing under the backboards and tipping stray shots into the basket, which he does with uncanny accuracy.

Howell, Esker Good Scorers
Jim Howell, forward, is invaluable at chasing the Aggie score upward. Teamed with Esker, who gets too spectacular for normal blood pressure at times, the two have won plenty of games for the Aggies. Howell has a remarkable shot for the basket, mystifying but, nevertheless, consistent. Esker is a fiend for finding an unguarded path, or making one, to a set-up. With his speed and style, if he did it more often one might get the idea his four team-mates were unnecessary.

The Tech lineup will probably feature Dunn and Tadlock at guards; Fisher at center; and Darr and Hodges or Moody at forwards. The game will begin at exactly 8 o'clock.

Matador Five End Cage Tour

Morganmen End Unfruitful Journey Through Part Of Texas And Oklahoma; Win Only One Game

The Matadors finished one of the most unfruitful cage trips ever made by a Tech team, with a loss to Southeastern Normal, of Durant, Okla., 26 to 27.

In nearly every game the Matadors gained a lead in the early frame only to see it fade away in the final minutes of play. Darr, forward, and Dunn, guard, were the most consistent players throughout the journey. Hodges and Fisher were somewhat handicapped by a slight attack of flu, and were never up to their best form.

The first three games were played in Texas and all of them were lost; one going to T. C. U., 30 to 19, and two were lost to Simmons by scores of 45 to 38, and 35 to 27.

Immediately following their game in Fort Worth with T. C. U., the Matadors left for an invasion of Oklahoma. They played the Southwestern Bulldogs of Weatherford first and came out on the short end of a 28 to 25 score. Curly, forward for the Bulldogs was highpoint man with 15 points, and Darr, Tech forward, came next with 9 points.

OFFICIAL STANDING OF INTRAMURAL FOOTBALL GAMES

Aggies	0	1	1	250

Matadors Win Opener, Lose Last To Lobos

Morgan Plays Two Teams Evenly In Games With New Mexico University Lobos; Churchill Has Fine Squad

In two encounters this week with New Mexico university of the Border conference, a conference which Tech will become an official member of in September, the Matadors managed to gain an even break, winning the first 39 to 33, but coming back in the later to be nosed out 33 to 35. In the second game New Mexico showed a complete reversal of form over that showed the previous night and gave the Morganmen all they had.

In the first game, Monday night, the Matadors started off with blood in their eyes, took an early lead, and steadily increased it. Coach Morgan started Moody and Darr at forwards, and while they were not making shots themselves, these two boys fed the ball to the elongated Matador center, Fisher, who sank several shots with perfect heaves from the side of the court. The burden of the offense rested on the shoulders of Darr, and he got plenty of help from his running mate, Moody.

Coach Morgan made wholesale substitutions at different times during the game. The team featuring Darr and Moody seemed to have the most power. With all hands playing wild swack, ball the Matadors could not be stopped, and showing that they have lots of stuff regardless of the poor showing they have made thus far in the year.

Crews, high point man of the game, garnered 11 points by accurate crisp shots made possible by slipping through the Lobos' secondary defense.

Matadors Jump In Lead
In the second game the Matadors jump into an early lead and were ahead by seven points, but seemed to falter in their stride, and trailed at the half, 23 to 21. From the time the starting lineup was jerked by Coach Morgan, which was led by Darr and Moody at forwards, until the final minutes of when Crews and Fisher seemed to find the range to the basket, the Matadors seemed dead on their feet, and their guarding was woefully weak. With the exception of Darr, Hill, and Dunn the entire two teams used by Morgan seemed off form on defensive work.

There was no denying the men of Coach Tom Churchill once they gained an eight point lead in the second half, although the locals creep into within two points of them in the final minute of play. With 26 seconds left to play Cern, Lobo guard, added an extra point to clinch the battle.

Special Entertainment
The spectators were entertained at the half by a wrestling match between Rob O'Hair and Champ Mast. After two minutes of back slapping, hair pulling, toe twisting, and back bending, Rob pinned Mast to the mat, thereby making himself champion of the night.

Two boxing matches followed; the first was won by Demp Cannon with a technical knockout over One-Round Davis. In the second match, Lott, transfer from Weatherford Junior college, and member of Weatherford's championship team, knocked Too-Tough Luper

teen points, and Hodges was high the second night with sixteen. Esker, red-headed forward of the Aggies, placed second the initial night with 13 points.

The final two games of their journey the Matadors lost, the first going to the East Central Teachers of Ada, Oklahoma, 41 to 24, and the second to Southeastern Normal of Durant, 26 to 27.

Artists Defeat Aggies 13-7; Army Tied By Engineers 7-7; Final Games February 6

Beauchamp, Watkins, Scoggins Star For Artists; Ratliff, Smith Are Aggie Punch-backs.

By WALTER PENDLETON Toreador Sports Staff

Four intramural teams continued their battle for supremacy in the football world of Texas Tech, Saturday. In the initial game of the afternoon the Engineers tied the Army 7 to 7, and in the nighttime, the Liberal Artists trounced the Aggies 13 to 7.

The Aggie gridiron warriors found the evening exceedingly tough against Jack Durham's Liberal Artists, and the best they could do in the way of scoring was to complete a 20-yard pass for a touchdown in the opening minutes of play. In the other three quarters the Artists had their hands full and earned their victory.

The powerful Artist backs, led by Beauchamp, Watkins, and Scoggins, proved too much for the Aggie's weaker line and secondary, though at no time did the Farmers let up, scrapping and fighting all the way, despite seeing numerous gains go against them.

Smith, Ratliff Play Good Game
Little Ratliff, in the Farmer backfield, played a good game, but his size and weight made it impossible for him to travel far against the towering Artist linemen and backs. It remained for Pete Smith, barely recovered from an injured foot, to star against the Artists. Smith charged the heavy Artist line for consistent gains and made the most thrilling run of the game when he took the ball on his 45-yard stripe and ripped off 51 yards through a broken field. He was finally brought down from behind by Beauchamp, Artist quarter.

The Aggie aggregation made their center immediately following the opening kickoff. The Artist tried three unsuccessful times at the line and were then forced to punt into the wind. The Aggies received the ball on the 45-yard line and returned it to the twenty; on the fourth down Ratliff passed to Nor-

man, and then Ratliff drop-kicked the extra point.

The Artist scored their first counter following the kick-off. It resulted from a march the length of the field. Scoggins scored, and then carried the ball across for the extra point.

The teams played along evenly during the second period with no scoring. Then in the third, there was a double exchange of punts after the second half kick-off. Kicking with the wind, Joe Bush, L. A. halfback, booted one to the Aggie 5-yard line where the ball was fumbled. The winners recovered and in two plays had the ball across. Try for extra point was missed.

Beard and Schroeder were the outstanding backs for the Army, and Curtis Ollen loomed above the linemen. Simmons, of the Engineers proved to be the real punch for his team, on offense and the defense.

Engineers Score
The Engineers scored in the second quarter after they had reversed goals, and were benefited by the wind. A blocked punt and a pass counted for six points; then Simmons carried the ball over for the extra point.

Charcoal And Figure Drawing Class Is Organized At Tech

To Lecture On Football

The extension class in charcoal and figure drawing was organized last Tuesday night under the instruction of Professor F. A. Klein-schmidt. It is made up of towns-people and teachers interested in art, but is open to both beginning and advanced pupils, since the work is chiefly individual. The fee is \$10 per term, with an additional laboratory charge of \$2.50. Meetings will be each Tuesday night at 7:30, in the engineering building.

Coach P. W. Cawthon, announces that Clyde Littlefield, head coach at Texas university, has been selected to instruct the track course in the second Texas Tech coaching school, to be held July 18 to 28. Coach Littlefield is completing his twelfth year as coach of Texas university track teams. He has won six championships in the South-west conference.

During Coach Littlefield's service as track coach at Texas university, he won a national championships in the four mile relay at Drake. Three years in succession his team won the medley relay at Kansas university, breaking the world's record. Jim Reese, track star under Littlefield, won the national mile run in 1925, his time being four minutes and eighteen seconds. Haggard, for Texas, set an intercollegiate high jump record in 1926, with a leap of six-foot-seven and one-half inches. Last year, Texas won the 440-yard football relay at the Drake relays.

Littlefield Is Chosen To Give Track Lectures

Littlefield Will Explain Five Man Line Defense; Has Won Six Track And Two Football Championships

Coach P. W. Cawthon, announces that Clyde Littlefield, head coach at Texas university, has been selected to instruct the track course in the second Texas Tech coaching school, to be held July 18 to 28. Coach Littlefield is completing his twelfth year as coach of Texas university track teams. He has won six championships in the South-west conference.

The girls chorus for the negro minstrel to be given by the Double T association on February 19 practices every week day except Saturday in the textile building from 5 to 6. There are 25 girls in the chorus.

and also, the mie-relay.
To Lecture On Football
Coach Littlefield will also give lectures in the five-man-line-defense, which is useful to teams that resort to passes.
Within a short time, Coach Cawthon will announce the entire personnel for the Tech coaching school. It is his plan to select a coach who specializes in the Warner double-wing back formation, and one who can demonstrate the Notre Dame system.
Last year, Tech sponsored the largest coaching school in the United States.

Latin Club Sees Motion Picture

The Latin club held its regular meeting Tuesday, Feb. 2 at 7 in the engineering auditorium. A program of motion pictures, "A Mediterranean Cruise" and "Man's Greatest Heritage" were shown.

Mrs. Wm. Dingus, sponsor of the club, introduced the speaker of the evening, Dr. Swearingen, formerly a professor of Latin at Mississippi college in Mississippi, who spoke concerning his travels in Rome and Italy.

A short business meeting was led by the president, Miss Agnes Klein. At the close of the meeting several Latin songs were sung.

Pre-Laws

(Continued from Page One)

The mysterious death of Garret Smith, 18 year old Sophomore, whose body was found with a bullet hole in the head last week. An inquest was held and a verdict rendered that Smith was killed by an unknown assailant. Coroner Shot Gun Clements, disregarded all intimations of suicide as being unsubstantiated by the evidence.

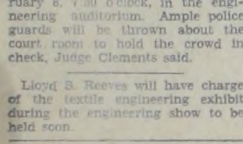

Coming from Rising Star this is the 18 year old brunet beauty's first time away from home.

She is a freshman, and strangely enough is herself aspiring to become a lawyer. She is five feet four and weighs 110 pounds in her stocking feet. She is highly emotional and grave fears were expressed by prosecuting attorney Charles O'Neal as to the likelihood of her creating scenes at her trial.

On the campus she has been extremely popular and it is the contention of the defense that Smith committed suicide after being jilted by the young and alluring beauty. Attorney Glenn Coker, defense counsel said last night he would move to have the indictment quashed on the grounds that one of the grand jurors was also a rejected suitor and preferred the indictment to satisfy a personal grudge. Coker would not divulge the name of the juror referred to.

Judge Clinton Clements, of the Pre-Law District court, has set the mock murder trial for the evening of February 8, 7:30 o'clock, in the engineering auditorium. Ample police guards will be thrown about the court room to hold the crowd in check, Judge Clements said.

Lloyd S. Reeves will have charge of the textile engineering exhibit during the engineering show to be held soon.

SOCIETY NEWS

Silver Key Members Hold Formal Dance

The Silver Key club entertained 200 guests with a formal dance Saturday evening at 9 o'clock in the Matador ballroom of the Hilton hotel.

Club colors of rose and silver were used. Black draperies with miniature half moons and silver keys hung from the windows. Above the orchestra pit hung a huge silver key.

Members and their dates in attendance were: Audrey Brown and Miss Virginia Murray; Harold Ammons and Miss Mary Elizabeth Hogan; Clayton Reed and Miss Florence Moses; Glen Parcell and Miss Cecile Home; Robert Huff and Miss Catherine Jameson; Alfred Jensen and Miss Vonclie Gilkerson; Fred Seely and Miss Francis Ford; Merrill Craver and Miss Anna Lou Bennett; Lou Edwards and Miss Sylvia Wilson; Van Earl Sams and Miss McCha Gilbert; Ellis Foreman and Miss Sue Barton; Dr. W. J. Howard and Miss Mary Lee Bardwell; Kenneth Rollo and Miss Julia Davis; Brooks Penney and Miss Beth Wolfman; Harold Busby and Miss Leona Rogée; Jess Rogers and Miss Louise Sneed; Jay Timmons and Miss Harriett's Roach; Felix Ballenger and Miss Wanda Butler; Raymond Barton and Miss Johanne Jo Whitley; Ned Bradley and Miss Louise Coe; and Ford Benham and Miss Katherine Dohoney.

Have Special Guests Special guests included Mr. and Mrs. James G. Allen and Mr. and Mrs. O. C. Cory, who are sponsors of the organization, and Misses Gertrude Standerfer, Polly Barrow, Mildred Price, Hazel Ligon, Geraldine Durham, Mary Elizabeth Lofland, Rosemary Leaverton, Melba Watson, Mesrs. Milo Fehersbend, Marlin Humphries, Carl Rogers, Edgar Cloce, Rhoe Harris, Sam Hergot, Robert Tracy, Billy Murray, John Rankin, Woodrow Holt, Harold Welch, Harold Reed, Dr. and Mrs. C. M. Ballenger, Mrs. Mary W. Doal, and Mrs. Mary Fulbright.

Dr. and Mrs. Ballenger and son, Felix, and Dr. Howard were at home to Silver Key members, alumni and wives and dates of the clubmen after the dance.

Effie Smith Entertains San Souci Members Effie Smith entertained San Souci and guests with a theatre party, Saturday afternoon at 2:30 o'clock. Guests present were Misses Mary Wilbanks, Evelyn Price, Dorothy Dobbins, Maurine Cook, Julia Davis, Melba Watson, Lenora Brownfield, Mary Elizabeth Hogan, Dorothy Rushing, Mary Lee Bardwell, Catherine Mitchell, Johnnie Jo Whitley, Virginia Bacon, Frances Moxick, Frances Snyder, Wanda Butler, Catherine Jameson, Hazel Katts, Anna Lou Bennett, Lena Bert Medlin, and Rosemary Leaverton.

Tech Faculty Club Members Have Party A progressive house party, the first entertainment of the winter term, was given by the Tech Faculty club Saturday night. The guests were divided into three groups which met alternately at the homes of Mr. and Mrs. W. H. Bledsoe, 1812 Broadway, Dr. and Mrs. W. C. Holden, 3109 20th street and Mr. and Mrs. Carl Svensen, 2102 Broadway.

Musical programs were given in the Svensen and Bledsoe homes. Dancing, "42", and bridge filled the evening at the Holdens.

What They Tell The Editor

Dear Mr. Editor: The fact that there is a limit to all things has moved me to write this "opinion" on Tech's faculty.

Apparently, the profits have turned over a new leaf for 1932. There seems to be a game, quite popular with the faculty members this term, of seeing how much work they can assign to students. This game, though attractive to our faculty group, has met with much favorable criticism among those who "pay" for it.

Can you give me any reason why these lengthy assignments should not be held down to a minimum, at least? If so, I would appreciate the information.

Yours truly, E.

HE AGREES WITH US Dear Mr. Editor: Why don't more "student opinions" appear in your paper? Is spirit so lacking at Tech that the students don't care what happens or what the outcome will be? The "student opinion column," in my estimation, should be the medium through which students may express their opinions on things that vitally concern them. Certainly they have opinions; why don't they express them?

This column is simply a mirror reflecting the actions of the student body. Should it be blank? Very truly yours, B.

Dear B. You may be sure that I agree with you. The Toreador has been asking for student opinion all year, believing that is what it takes to get some spirit in this school. Thanks for your letter and I hope that other students will

Margaret Green, Addie Jeffries, Ruth Jones, Houston Hinson, Louise Lawson, John T. McClain, Mitchell Carderell, Horace Telford, C. O. Bergholm, Shurley Morgan, and Prestwich.

Miss Ena Armstrong Speaks To Members Of Physics Club Miss Ena Armstrong discussed the Michelson-Morley experiment on the velocity of light at the last meeting of the Physics club. Miss Armstrong is secretary of the club. The program for the next meeting was planned. A talk on astronomy will be given along with some other features.

All students interested in physics are urged to attend. According to C. E. Houston, president of the club, the programs are not too complex for freshman and sophomore physics students.

Miss DeBardeleben Gives Party For Tech Methodists Miss Mary DeBardeleben, Tech Bible teacher, entertained her Sunday school class at the First Methodist church in her home at 2017 25th St. last Saturday night. The guests played games and made candy throughout the evening.

Those in attendance were: Elizabeth Montfort, Alvis Ammons, Christine Anderson, Esther Cline, Elizabeth Conner, Louise Douglas, Edith Earnest, Heber Ellsworth,

What They Tell The Editor

Dear Mr. Editor: The fact that there is a limit to all things has moved me to write this "opinion" on Tech's faculty.

Apparently, the profits have turned over a new leaf for 1932. There seems to be a game, quite popular with the faculty members this term, of seeing how much work they can assign to students. This game, though attractive to our faculty group, has met with much favorable criticism among those who "pay" for it.

Can you give me any reason why these lengthy assignments should not be held down to a minimum, at least? If so, I would appreciate the information.

Yours truly, E.

HE AGREES WITH US Dear Mr. Editor: Why don't more "student opinions" appear in your paper? Is spirit so lacking at Tech that the students don't care what happens or what the outcome will be? The "student opinion column," in my estimation, should be the medium through which students may express their opinions on things that vitally concern them. Certainly they have opinions; why don't they express them?

This column is simply a mirror reflecting the actions of the student body. Should it be blank? Very truly yours, B.

Dear B. You may be sure that I agree with you. The Toreador has been asking for student opinion all year, believing that is what it takes to get some spirit in this school. Thanks for your letter and I hope that other students will

Margaret Green, Addie Jeffries, Ruth Jones, Houston Hinson, Louise Lawson, John T. McClain, Mitchell Carderell, Horace Telford, C. O. Bergholm, Shurley Morgan, and Prestwich.

Miss Ena Armstrong Speaks To Members Of Physics Club Miss Ena Armstrong discussed the Michelson-Morley experiment on the velocity of light at the last meeting of the Physics club. Miss Armstrong is secretary of the club. The program for the next meeting was planned. A talk on astronomy will be given along with some other features.

All students interested in physics are urged to attend. According to C. E. Houston, president of the club, the programs are not too complex for freshman and sophomore physics students.

Miss DeBardeleben Gives Party For Tech Methodists Miss Mary DeBardeleben, Tech Bible teacher, entertained her Sunday school class at the First Methodist church in her home at 2017 25th St. last Saturday night. The guests played games and made candy throughout the evening.

Those in attendance were: Elizabeth Montfort, Alvis Ammons, Christine Anderson, Esther Cline, Elizabeth Conner, Louise Douglas, Edith Earnest, Heber Ellsworth,

Latest In Disarmament Is Discussed By YMCA Group

The Christian World education group of the YMCA met at 7:30 p. m. in the "Y" room of the ad building Monday. Glynne R. Coker and Bradner J. Moore led the discussion, the subject of which was "Latest Developments in the Disarmament Conference."

The group meets again Monday, February 8, at the same time and place. The Sino-Japanese situation will be discussed at that time.

Short Story Writing Class Begins Next Monday Night

Dr. A. B. Cunningham will give his first lecture to the recently organized extension class in short story writing next Monday night. The class had its first meeting the first of this week, and is composed chiefly of newspaper people, teachers, and others who are interested in writing. The enrollment is still open, and the fee is \$10 per term.

Harry Bone Will Visit Tech "Y" From Feb. 15 To 17

According to Jack Boyd, director of the Tech YMCA, Harry Bone, secretary of the National Council of the YMCA for Student work, will visit the Tech "Y" February 15-16-17.

Plans are not yet completed for his visit, but it is known that he will speak to various meetings of the local association in addition to several open meetings.

Marvin Knox, student at Texas A. & M., was in Lubbock Sunday visiting Clyde McMahon and Homer Brumley.
