TEXAS TECHNOLOGICAL COLLEGE, LUBBOCK, TEXAS, FRIDAY, JUNE 8, 1945

Number 31

Five New Deans Are Appointed

Artist Courses, Movies, Dances, Are Scheduled

Recreation program for the first six weeks session of summer school has been released from Dean James G. Allen's office. It includes two artist course programs, weekly dances, four picture shows, Tuesday evening band concerts, all-student amateur night and summer Toreadors.

Only students holding recreation tickets will be admitted to the dances, shows and artist course numbers. These tickets also entitle holders to a special menu of 11c plus tax at City Swimming pool and free swimming (with the exception of the tax) at Buffalo Lakes.

Bailey Ireland and his band will play for the Friday night dances held in the gymnasium from 9-11. Summer Toreadors will be available each Friday morning at the booth in the Administration building.

Appearing on the Artist course programs will be Waldemar Geltch, violinist, and duo-pianists Helena Drake and Walter Shaw. Geltch will appear here Wednesday evening, June 13, at the Ad building Green at 8:45 p. m. The pianists will play July 2. Shaw was here once before as a duo-pianist with Braggotte for a Civic Music program.

Last evening "Road to Zanzibar" was shown as the first of the weekly Thursday evening picture shows, presented on the Ad Bldg. Green at 9 o'clock. "Brigham Young, Frontiersman" with Tyrone Power will be shown next Thursday. The other two features will be "Great American Broadcast" with Alice Faye, Jack Oakie and John Payne and "So Proudly We Hail" with Claudette Colbert, Veronica Lake and Paulette Goddard.

Members of summer band school will present concerts Tuesday evenings, June 12, 19, 26 and July 3, each at 8:30 o'clock. Students in the intermediate and college concert bands will take part in the programs.

Entries should be made now by students wishing to participate in Amateur Night, which will be held June 27 on the Green of the Ad building at 8:45 p. m. A student committee will hear preliminary try-outs June 20. First, second and third prizes will be awarded.

Annual Staff Holds Meeting

Merrilyn Snider, editor of the 45-46 edition of *La Ventana*, called the first meeting of her staff yesterday morning. She says that she intends to do as much of the work as possible on the annual this summer, and that there are several positions on the staff to be filled.

877 Students Now Registered

A total of 887 students had completed registration Tuesday, according to Registrar W. P. Clement. Of this number 339 are men and 548 women, approximately five women to every three men.

Of those registered, 408 are enrolled in the division of arts and sciences, 41 in agriculture, 161 in engineering, 147 in home economics, and 130 in commerce.

Students registering after Monday must carry a reduced load and pay a late registration fee, according to the registrar. Tuition fees were assessed this term in accordance with the amount of work registered for, and paid after classes were scheduled.

In the first six weeks session last summer some 812 students were enrolled giving us an increase of 65 over last year.

La Nell Doshier Receives Honor

La Nell Doshier, president of Tech Home Economics club and state president of the College Home Economics' clubs of Texas, has recently been elected secretary of the college division of the American Home Economics association. In this capacity she has been invited to attend the national meeting of the association to be held in Chicago June 14 through 19.

Director of Hogg Foundation Lectures Here

Dr. Robert L. Southerland, director of the Hogg foundation will give a series of lectures in Lubbock June 11-14. The following associations will cooperate in sponsoring a meeting Tuesday at 8:00 P. M. on the lawn of the administration building, Lubbock P-T-A council, Junior Welfare league, Lubbock Woodward, and the Lubbock Ministerial association.

The Hogg foundation is connected with the University of Texas, and its name is derived from the late Governor William Hogg, philanthropist. The purpose of the foundation is to help the mental health of the people of Texas. It has sponsored several mental hygienic projects in Texas.

Dr. Southerland has been dean of men at Bucknell university since 1938, and is the co-author of "Introductory Sociology," with J. L. Woodward. He is a member of the Public Charities association of Pa., American Social Sociology association, Pa., Conference on social work, American Association of University Professors, Phi Beta Kappa, Delta Sigma Rho, Sigma Delta Chi and Tau Kappa Epsilon.

Sixty-four persons had crossed the Atlantic ocean by air before Charles Lindbergh made his solo flight. Several airplanes and the English dirigible, R-34, had made trips across.

Gordon, Leidigh, Doak Retire as Tech Deans

All Three Will Remain as Members of Faculty

The first major changes of administrative deans at Texas Tech was brought about by the retirement of three deans, all members of the original faculty. Their appointment as deans emeritus was announced Monday, May 28, following a meeting of the college board of directors.

The deans are: Dr. James M. Gordon, retiring as dean of arts and science; Mrs. Mary W. Doak, retiring as dean of women; and Prof. A. H. Leidigh, retiring as dean of agriculture. All three changes become effective Sept. 1.

The three deans, relieved of all of their administrative duties, will remain as members of the faculty. Dr. Gordon as professor of philosophy and education, Mrs. Doak as professor of English, and Mr. Leidigh as professor of agronomy. The professorship appointments are for the 1945-46 college year.

Dr. R. C. Goodwin will succeed Dr. Gordon as dean of Arts and Sciences and will also retain his title as professor of chemistry. Mrs. Doak will be succeeded by Mrs. Johnnye Langford, who will also be professor of physical education; and Mr. Leidigh will be succeeded by Prof. W. L. Stangel, who will also retain his title as professor of animal husbandry.

Besides the three major changes, the appointment of Dr. W. C. Holden as dean of the graduate division, succeeding Dr. Goodwin, was also announced. Dr. Holden will retain the title of professor of history.

Professor Stangel, new dean of Agriculture came to Tech from Texas A&M, where he graduated with a bachelor of science degree in animal husbandry in 1914 and served as a member of the agriculture faculty until he came to Tech in 1925. He is married and has two daughters, Mary Menon Stangel, a government employe in Washington, D. C., and Ava Ruth Stangel, junior student at Tech. He is called upon to judge more often than any other man in the state.

Dr. Goodwin, new arts and sciences dean, came to Tech from the University of Florida in 1930, where he taught from 1926 until 1930. A graduate of Brownwood High school, he received his bachelor's degree from the University of Texas in 1923. He was awarded his doctorate at Harvard university in 1926, where he was part time instructor from 1924 until 1926. He came to Tech as professor of chemistry and was made dean of the graduate division in 1938. He has conducted extensive research in chemistry.

Mrs. Langford, former Miss Johnnye Gilkerson, came to Tech from Columbia university, where she studied in 1925 after graduating from the University of Texas in 1924 with a bachelor of business administration degree. She received her master's degree from the University of Southern California in 1929. She married in 1934.

First Tech Deans
Dr. Gordon, retiring arts and sciences dean, is leaving his administrative duties after two decades of active service with the institution. He was one of the first members of the faculty to arrive on the campus in advance of the opening of the fall semester, 1925 and served through the college's early years as dean of men and also dean of the division. He graduated from Trinity university at Waxahachie in 1903 and was an instructor in Latin and Greek at

that institution until 1907 when he attended the University of Chicago where he received his master of arts degree in 1908.

He returned to Trinity as dean and remained until 1916 when he accepted the position of President of Central State Normal, Ada, Okla., where he served until 1920 when he was elected president of Henry Kendall college at Tulsa, now Tulsa university. He resigned this post in 1924 to study at Columbia university and in the spring of 1925 was selected as a member of the first faculty of Tech. He was honored with a LL. D. degree from Trinity in 1919.

Dean Mary W. Doak came to Tech from the University of Texas in 1925, where she had taught English for seven years. She received her M. A. degree from Texas university where she was a member of the university chapter of Phi Beta Kappa. Mrs. Doak is a member of the American Association of University Women, Delta Kappa Gamma, Texas Conference, Modern Language association, and the National and State Association of Deans of Women.

Prof. Arthur Henry Leidigh, dean of agriculture came to Tech in 1925. He was one of the first members of the faculty to arrive on the campus in advance of the opening of the fall semester in 1925. He received his B. S. degree from Kansas State Agriculture college in 1902 and his M. S. degree from Texas A&M in 1923. He was agronomist in charge of soil improvement, at the Texas agriculture experiment station from 1913-23, and assistant director and agronomist from 1923-25 before accepting his present position in 1925.

Marine Corps Now Recruiting

Western division U. S. Marine corps will enlist 30 seventeen-year-old recruits during June. Men enlisted in Texas agree to enlist and called to duty during August or September, according to the Western Marine Recruiting division.

Applicants should write to the Marine Corps, P. O. building, Lubbock, enclosing birth certificate. Necessary papers will be sent at once.

Newman Club Gives Five Books to Tech Library

Tech library has been presented with a set of books by the Newman club, campus Catholic organization, according to Miss Emma L. Main, acting head librarian. The set consists of seven volumes of which five have been published, and are entitled "Our Catholic Heritage of Texas," by Charles E. Castaneda.

Castaneda is preparing the history under the auspices of the Knights of Columbus.

First Artist Course Scheduled for June 13

Waldemar Geltch*
Presents Program

Waldemar Geltch, director of the violin department at the University of Kansas, will present a program here June 13, on the Ad. Bldg. green, in the first of two summer artist course numbers. Recreation tickets will admit students to the performance, and persons without these tickets may attend by paying \$1.00, according to Dean James G. Allen.

Winifred Hill-Gallup will assist him at the piano. His program includes "Much Ado About Nothing," a suite by Korngold in four parts; "Concerto in G Minor" by Bruch; Humoresque by Tor Aulin, "Nocturne" by Henri Ernest, "Dancing Doll" by Poldini-Kreisler, "Bird as Prophet" by Schumann-Auer, "Turkish March" by Beethoven-Auer and "Perpetual Motion" by Ries.

Geltch has appeared in all but three states of the union in over 1,300 concerts, traveling over 250,000 miles filling the engagements. He has played in over 130 colleges, universities, and academies.

He had the distinction of being the first violinist to broadcast a concerto over the air, when he played "Toujours No. 4 in D Minor" over station WJIA in 1922. Geltch has played practically the entire literature for the violin including 36 concertos.

Graduating with highest honors from Chicago Musical College, he won first prize, a diamond medal, in competition with 22 other violinists for playing of the Mendelssohn concerto. The following year as a post-graduate he again won first place for his playing of the Bruch D minor concerto.

Among his teachers were Bernhard Listemann, Emile Sauret, Florian Zetjic and Leopold Auer. He has been head of three state university violin departments, those

WALDEMAR GELTCH

of South Dakota, Wisconsin, and Kansas.

In 1939, he was granted a Sabbatical leave from the University of Kansas which he and Mrs. Geltch spent in Europe. For 8 months they observed musical conditions and visited musical shrines in Italy, Jugo-Slavia, Greece, Turkey, Romania, Hungary, Germany, Denmark, Norway and Sweden. They sailed from Bergen one day before Hitler attacked Poland.

A critic in Providence, Rhode Island, says "No wonder that an audience is driven to demonstration when listening to a thing so human as the appealing penetrating tone that he draws from his violin."

A San Diego paper reads, "Waldemar Geltch, artistic, classical, brilliant, a delightful interpreter of beauty."

In South Dakota it is said, "People scarcely stirred in their seats except to express their enjoyment by enthusiastic applause. Finished and artistic playing. A worthy rival to our greatest violinists. Every number a gem."

Weekly Concerts Given by Band

First of a series of band concerts will be held Tuesday evening, June 12, at 8:30 o'clock east of the Textile Engineering building, according to D. O. Wiley, head of the summer band school.

Featured on the program will be a cornet duet, "Tri Folum" by Eric Leiden, played by Ted Crager and Jack Young.

Both the college concert band with 79 players and the intermediate band of some 50 members will participate in the program. Included in the program of the concert band will be "American" grand march, by Edwin Franco Goldman, an American composer; "In Holiday Mood" by the English composer, Ketelby; "American Legion Forever", a march, by Morton Gould of the United States; and "March Militaire Francaise" by the Frenchman Saint-Saens.

R. A. Dhosche is directing the intermediate band, which will play the first numbers of the concert. Among its selections will be "Lustspiel Overture" by Keller Bella.

Prof. D. O. Wiley says, "This is the best summer school band we have had since '41. There are many fine students enrolled in it."

Men's P. E. Dept. Is Offering Six Summer Sports

Men's physical education department is offering its students a choice of football, basketball, baseball, tennis, golf, and swimming this summer, according to Morley Jennings, head of the department. Dell Morgan, head football coach, will instruct the class in football; Polk Robison, basketball coach, will serve as instructor in that sport; Mr. Jennings will supervise basketball and tennis.

Students enrolled in the swimming section may choose between Buffalo Lake and the City Swimming pool. In cooperation with this plan, the two pools are giving special rates to all Tech students. Managers of the pools will sign students' cards showing length of time spent in swimming.

Golfers will follow a plan similar to that used by swimmers, reporting either to Mackenzie Park or to local Country club.

Jennings says that students must devote at least an hour and a half four days per week in order to receive full credit for the course. One may engage in any combination of sports or devote all his time to one.

7 Girls Enter Tech HM House

Girls who are going to be in the Home economics Home Management house the first term of summer school are: Katie Pettyjohn, Dorothy Emanuel, Mrs. Leo Reithmeyer, Mary Ann Schmidt, Imogene Bell, Kathryn Verner and Mary Pearl Beardon, according to Miss Margaret W. Weeks, dean of the division of home economics.

Yoga is the name given to a winter wheat, first experimented with in Montana.

Library Books Have Many Uses

By LA NELLE KING

Would you like to broaden your social life? Then read Catherine Groves' book, "Get More Out of Life." This book tells you how to solve your problems and whom you should choose to be the family counselor for certain kinds of trouble.

The art of making friends, being a social success and growing old gracefully, are discussed in "How to Be Happy, Though Human," by Walter B. Wolfe.

Between covers of "Victory Over Fear" and "In The Name of Common Sense" may be needed advice to combat fear and cure worries. The former was written by John Dollard and the latter by Matthew Chappell.

These and other volumes dealing with personality are in the library. The samples above concern the adjustment of the individual in society. Other books develop the history of society, outline the importance of group relations and study the fields of child and adolescent psychology.

If it is in good condition, popcorn will expand to as much as 20 times its original size when popped.

Future Growth Predicted for Tech After War

History of College Reviewed Briefly

Pres. W. M. Whyburn, when asked for an estimate on future growth of Tech, stated that he believes that within three years after the war is over, enrollment will be up to 6,500.

Registrar, W. P. Clement, says he believes it will be between 6,000 and 10,000 within three years after the end of the war, depending on the housing facilities the school will be able to offer.

Tech began functioning with an enrollment of 1,043 during the 1925-26 session, having 731 men and 312 women. Until the army and navy changed things there had always been more men than women at Tech. In 1940 Tech's student body averaged about 60 percent men and 40 percent women. Then, in 1942-43 the percentage of men students dropped to 57 and the following year to 42 percent.

The proportion shifted in 1943-44 with women students exceeding men for the first time in Tech history. Enrollment was 1,112 coeds against 816 boys. Despite the lowest enrollment since 1927-28, all geographical extremes on the map of Texas were represented in the student body. Eighteen other states and two foreign countries were also represented.

A review of the enrollment during the past years at Tech seems to bear out the predictions of President Whyburn and Registrar Clement.

There was a normal increase from 1925 to 1929, broken chiefly by the depression of the early 30's. After 1932 enrollment increased steadily until the war began taking its toll in 1940.

Construction of two dormitories on the campus, one for men and one for women, did much to focalize student life. Two more dormitories built in 1939 and 1941 respectively, each with a capacity of 320, made it possible to house more students on the campus, thus increasing school spirit. As a result many campus traditions were established.

Aircrew detachment trainees arrived in March of 1943 and occupied the men's dormitories. All women students were housed in Woman's Dormitory No. 2 and men students were transferred to Women's Dorm No. 1 until they were moved off the campus to make way for reserve engineers in the Army Specialized Training program.

Removal of both military training units in the late spring of 1944 improved housing conditions, although the men's dormitories have not operated to full capacity. Besides the 640 women living in dormitories last fall, 264 lived at home and 450 more lived off the campus in boarding houses and at their homes. Each fall the women's dormitories have a waiting list of 150 girls.

Composing the 1925-26 student body were 901 freshmen. The other 202 students were transfers coming to Tech from 85 different colleges. Out-of-state colleges and universities from which they came were: the universities of Arizona, Arkansas, Kansas, California, Mississippi, Colorado, Illinois and Tennessee; Northeast, Southeast, Central State and East Central State Teachers colleges of Oklahoma, Oklahoma A&M, Tulsa university and Murray State Agricultural of Oklahoma.

Summer Toreador Needs Reporters

Yes, there will be *Toreadors* this summer. We get the news only a few days ahead of you; so the staff scrambled around to get out best paper possible in three days. Due to the lack of time and reporters it was impossible to cover the campus as completely as we would like to have done.

Since we are short on reporters, we would appreciate it if anyone with a good story of news value to Techans would call it in to *The Toreador* office. The smaller size of summer papers warrants only one printing, that is, all four pages are printed at the same time, which lifts our news deadline to 5 p. m. Tuesday.

Some of the staff will be here most of the day Monday through Tuesday to receive your calls. Also, we would like for organizations to appoint a reporter to see that we get news about their activities. The reporter should write up the facts telling the all-important 5 W's and H, the WHO, WHAT, WHEN, WHERE, WHY, and HOW of the story, and bring it over to the editor, or leave it in the *Toreador* mail box in the hall of the Press building.

We have places for general reporters, if you hadn't guessed, students with a fair ability to write and a nose for news. They don't have to be journalism majors, as we will help them get the hang of journalistic style. Those interested see us in room 103 and 105 of the Press building.

We intend to have a column of "Letters To The Editor" and will use letters containing information of interest to the student body.

Let's use the *Toreador* to strengthen school spirit.
The Editor.

Lt. Jim Hart Receives Medal

First Lt. Jim A. Hart, 1934 journalism graduate, has been awarded the Bronze Star medal for heroic achievement near Saarlautern, Germany.

Seeing a squad of Germans advancing on a house which commanded his company's flank, Hart raced the enemy to the building and won. By using hand grenades and carbine fire he killed three and captured the remaining seven Germans.

Hart has been awarded the Purple Heart for wounds received in Germany and also holds the Combat Infantryman badge.

Wayne Kittley Appointed Superintendent Tech Press

Wayne Kittley, senior journalism student from Sudan, has been appointed to fill the position of Superintendent of Tech Press, to fill the vacancy left by Neil Wright.

Tech press prints all college publications, including *The Toreador*, *Texas Tech Alumni News*, and college bulletins.

New Mexico A&M, New Mexico Normal and Montezuma Baptist; Mountain Home Baptist and Arkansas Polytechnic; Notre Dame, Tulane, University of Chicago, University of Los Angeles, Ward Belmont; Georgetown university and Immaculata seminary of Washington, D. C.; Rose Polytechnic (Ind.); St. Ignatius (Chicago); Stillina; Wentworth Military academy, and Young Harris college (Ga.)

1945 Who's Who Lists Whyburn

President William M. Whyburn is listed in the 1945 edition of *Who's Who in America*. First vice-president of the Mathematical Association of America, his reputation in this field lies principally in the branch of applied mathematics.

For three years prior to his coming to Tech as its fourth president, Dr. Whyburn worked in close cooperation with all the major aircraft companies on the west coast in improving the design and construction of aircraft. Until last December he served as chief of the Analysis Section, Third Air Forces, Tampa, Fla.

He was chairman of the department of mathematics at the University of California, Los Angeles, when he was elected president of Tech. Dr. Whyburn has written a number of mathematics text books, and he is a member of American Mathematics society, Phi Beta Kappa, Sigma Xi and National Academy of Science of Peru.

Professor Gordon T. Whyburn, brother of the president, is head of the mathematics department of University of Virginia and is also listed in *Who's Who in America*.

Second Generation Fish Enter Texas Tech

Another step was made in the annals of Tech, the state's fastest growing college, when two freshmen, sons of former students, enrolled for the summer session.

They were Hal McElya of Dallas, 17 year old son of Mr. and Mrs. O. L. McElya; and Jack Sams, 16 year old son of Mr. and Mrs. Ted Sams of Memphis, Tenn.

All four parents of the two boys were in classes at Tech when its doors first opened in 1925. Their sons are the first second generation Techans to come back to their parents alma mater.

Ted Sams is a 1928 civil engi-

neering graduate, one of the first two men to receive a civil engineering degree here. He is now general manager of the Fisher Steel company in Memphis. He was active in football and baseball at Tech.

Mrs. Sams was the former Virginia Griggs of Amarillo. She attended Tech for two years before marrying. Their son Jack is enrolled as a chemical engineer.

O. L. McElya received a civil engineering degree in 1934 after attending school in 1925 and intermittently until graduating.
