

Light Organ, Candy Snatcher Featured In Show

By O. R. WRIGHT

"Watch out for that disintegrator and be sure to turn up that atom pile, I don't want to run out of cosmic power."

A man from Mars talking? No, just a Tech engineer warning his friends of coming events as they prepare for Tech's 24th annual Engineering Show as it opened its doors this afternoon at 2.

That's just a short blurb of what can be heard as each of the engineering departments, chemistry, physics, agricultural engineer-

ing and Army and Air Force ROTC explain about things to come in science and warfare.

A new light organ has been built by a student in the electrical engineering department which will show sound as played from a record player. The electrical engineering department also has radio-controlled cars, man-made lightning, a mind reader, a candy snatcher and a solar-powered radio.

Other engineering departments have displays of a model dam,

atomic power jet car, and a jack-knife derrick used in the South Plains today.

All the student projects are in competition for a trophy from the Ex-Students Association. The award will be presented to the outstanding student project which shows the best skill, design and workmanship. Several commercial exhibits will also be on display in many departments. The Future Farmer of America chapters from South Plains High Schools will have exhibits as part of the agri-

cultural engineering on display. The agricultural engineers also plan to show irrigation systems, farm buildings and farm implements.

The textile engineering department plans to show the cotton manufacturing process from start to finish. It will show visitors the opening of a bale, through a processing mill and to a finished piece of fabric. It also will have displays of new types of cotton fabrics.

Chemical "witchcraft," with color, magic eggs and a show on

the "hydrogen bomb," will lead the chemical engineering displays. They also will show corrosion test and steam distillation of used motor oil.

Included in the atomic-age test, the physics department will show geiger counters, electronic games and other instruments dealing with atoms.

The Engineering Show will be open until 10 p.m. today and tomorrow. It opens at 2 p.m. tomorrow. Six to eight thousand persons are expected to attend the show.

Over 2,000 Students Here For Meet

Annual HE Open House Begins Today

Displays and demonstrations of student work head the attractions of the 19th Annual Home Economics Open House which began this morning and runs until tomorrow night.

Fashion show rehearsals, poster making, and dozens of displays are being featured as the department carries out this year's theme "Home Economics In Action."

A special feature of the two-day meet is a Saturday luncheon to be held in the Union for Home Economics ex-students from the South Plains.

Room arrangements with traditional and contemporary furnishings, art activities for future elementary teachers, and an exhibit of suggested color, line and texture for costume and wood-working, textile and jewelry are included in the departmental displays.

Classes in elementary nutrition and food preparation will meet today and tomorrow from 2-4 p.m. Classes in principles of cookery and institutional organization and management will meet tomorrow from 9-11 a.m. and today from 7-9 p.m. respectively.

The department's annual fashion show, "Togs by Techsians" will be held in room 207 today from 3 to 8 p.m. and tomorrow from 10 to 11 a.m. and 2 and 3 p.m.

Displays depicting the differences in courtship, marriage and family relations developed during the past century is scheduled from 2-5 p.m. and 7-9 p.m. today and from 9 a.m. until noon and 2-5 p.m. tomorrow.

Other exhibits include: Careers in Home Economics, a film, "Careers in Home Economics," pictorial representation of the number of graduates with Bachelor of Science and Masters of Science degrees, and a display of Home Economics teaching materials.

Co-chairman for the open house are Nancy Phillips and Gwen Govens of Lubbock.

Student Union Director Returns From Convention

William D. Scott, Tech Union director, recently returned from the National Association of College Unions convention held at Purdue University, Lafayette, Ind.

The convention was held to discuss problems common to all college unions and union programs.

IT'S A GUSHER . . . Two Tech petroleum engineers are making final preparations on their display of a jack-knife derrick for the Engineering Show.

More than 2,000 high school students converged today at Tech to try for Interscholastic League Region I championships in 14 types of contests.

Hundreds have spent many extra hours outside classes preparing to represent their schools in track and field, tennis or golf.

Others have worked just as long to be at their best in debate, extemporaneous speaking, declamation, journalism, ready writing, one-act plays, poetry reading, number sense, slide rule use, or typing or shorthand.

They are winners in district contests held by more than 140 schools in Panhandle, South Plains and West Texas areas, and will be vying for the right to compete for state titles later this spring in Austin.

Each of the 14 types of contests will be held in AA, A and B divisions, based on school enrollments.

This year winners will receive trophies or medals, according to Dr. O. Merville Larson, Tech speech department head and director-general of the meet. In the past, winners received only ribbons.

An entry fee of \$25 per student will finance the awards, Dr. Larson added.

Almost twice as many Conference B districts will send students to the 1956 Region I meet, Dr. Larson said.

Other changes he noted are that there will be no junior declamation in the Regional Meet, only the senior declamation, and that journalism students will compete only in that field.

The big two-day meet opened at 9 a.m. today when the first ball whizzed off the tee at Hillcrest Golf Course. Warren Cantrell and Bud Sherrod are co-directors for

11 SC Members Named In Election

Eleven Student Council representatives and one cheerleader were picked Wednesday but five candidates in the Arts and Sciences and two in the Agriculture Division must enter another run-off election next Wednesday.

Donnell Phillips defeated Ruth Ann Cummings for one of the remaining cheerleader positions.

William K. Jones, Pat Rainer, Boone Brackett, Wick Alexander and Charlene Williamson were picked as representatives to the council from Arts and Sciences. In the running for the other posts are Dan Creason, Joan Knight, Wayne James, Dan Law and Mary Ellen Carr.

Wallis Champion and Rob Brown were picked as Agriculture representatives. Richard Ligon and Jim Cloyd will meet in the run-off election to pick the final representative.

Joanne Holmes and Benny J. Bedford were selected from a slate of four to complete the list of Business Administration representatives. Three others were named last week.

Averill Brinkmann and Frances Allison defeated two other candidates in the race for the two Home Economics Division posts.

New Registration Procedure Set

During the week April 30 to May 5, students who will be juniors and seniors next fall will be permitted to complete their registration for the fall semester, 1956, except for payment of fees, according to Warren G. Harding, assistant registrar.

"This change is being made for the convenience of upperclassmen

and to reduce the heavy registration load expected next fall," Harding said.

The plan is not compulsory for upperclassmen and they may wait until September to register. Registration for freshmen and sophomores will continue as it has in the past, he explained.

Undergraduate students who

had a minimum of 45 semester hours credit when they enrolled for the spring semester, 1956 will be eligible to pre-enroll. Engineers must have a minimum of 45 semester hours and the approval of the department head for pre-enrollment. Approved lists by engineers will be posted on the departmental bulletin boards prior to the beginning of pre-enrollment, Harding says.

Eligible students may pick up registration materials from the table in front of the Registrar's Office beginning at 3 p.m. on the day preceding their scheduled registration date. Students scheduled to register on Monday, April 30, may pick up registration forms after 10 a.m. on Saturday, April 28.

The steps in the new enrollment plan include: (1) The student will present his ID card and if eligible to enroll will receive a single registration card. (2) He reports to head of his major department for assistance with the approval of his schedule. (3) The academic dean approves the schedule. (4) The schedule is turned in to the academic dean's office and during the summer, registration clerks will pull IBM class cards and class

Special 'Tech Day' Programs Announced

Word has been received from 13 radio stations planning special Texas Tech Day programs May 12, according to L. C. Walker, executive secretary of the Ex-Students Association. In the third annual observance of the event, these and an expected 20 other stations will air 15-minute tape recordings pointing out changes and advancements made on campus in the last five years.

The program will take the form of a visit to Tech by an alumnus. Highpoints will be talks with Pres. E. N. Jones, Dean W. L. Stangel of the Agriculture Division and Coach Polk Robison of the athletic department. Ex-Student Field Secretary Buddy Barron is in charge of preparing the skit in which speech sophomore Bob Sewell plays the part of the

alumnus, "Joe Smith," and Bob Nash of radio station KFYO, an ex-student, portrays Walker. Nash will also cut and edit the tape. Introductory statements have been written by members of the radio and TV continuity writing class of Mrs. Louise C. Allen.

Stations planning to participate to date are located in Lubbock, Seminole, Austin, Hereford, Tula, Floydada, Midland, Colorado City, Dallas, Stephenville, Amarillo, Sherman and Denison. Others in Texas, New Mexico, Oklahoma, Colorado and Wyoming are also expected to carry the program.

Nearly all of the ex-student chapters located throughout the United States will observe Tech Day with a variety of functions ranging from dinner dances to picnics.

Publication Heads To Be Named Wed.

Editors and business managers for next year's La Ventana and Toreador will be selected next Wednesday at a meeting of the Board of Student Publications, stated Miss Marie Miles, acting chairman of the committee at the last meeting.

Barbara Pearce was the one qualified applicant for editor of La Ventana and Ross Short is the applicant for Toreador editor. Helene Edwards, William Boyd, and Dane Grant are being considered for business manager of La Ventana. Seeking the post of business manager of the Toreador are Bill L. Morrow and Floyd Wood.

All applicants for the four positions will be asked to appear before the committee at next week's meeting.

The committee consists of 12 members; six students and six faculty members. Sponsors of both student publications and the head of the journalism department act as ex-officio members.

Sugar The Silver Lining Please . . .

It's always the food. Whether one's in college, the armed forces, or just eating out, it's always the food that bears the brunt of the attack when quiz time rolls around, the leave home falls through, or a business deal fails to materialize.

The felony has been compounded on the Tech campus. Not only is it almost time for finals, but spring has arrived.

Members of the Toreador staff who live off campus ate at different dorms Wednesday night in order to see first hand the why and wherefore of the recent "food strikes."

None of us came out of the cafeteria in ecstasy but we came out full with a good meal under our respective belts.

In talking to different people in the dining halls, it seemed to us that the prime gripes were against the "little things," such as not having sauces and catsup on the table and repetition of meals—fish every Friday.

The Director of Food Service, Shirley Schulz has informed us that the sauces are now being put on the tables. And as for the Friday meal—there's not a eating place in the nature of dorm cafeterias in the U.S. that won't stick a fish in your face on Fridays. (And many with a gruesome sense of humor will smile at you and expect you to like it).

We have a top notch staff of dietitians here at Tech. Five of them are Tech Graduates, with nutrition or institutional management majors, two have received their masters' degrees here in the same course, and one has a master's from Purdue.

They know their jobs, and incidently, these jobs are tremendously difficult. If you don't believe it, sometime try to outguess the appetites of two or three hundred people. Then try to cook a few hundred steaks and cook them in such a way as to please the individuals—well done? rare? medium rare? Then take a few sacks of potatoes and try to get them all seasoned so that they will please each individual. Then, just try to pick another vegetable that they will all like. If you can do this, the number to call is 432. Ask for Shirley Schulz.

One of the boys at Doak hall with whom we ate Wednesday summed it up pretty well. He said, "It's too early for 'panty raids' and too late for anything else. It's just spring."

The food here is probably better than that starting salary after graduation is going to provide, and no matter how bad it is, it's not as bad as you'll get when you begin eating in an army messhall.

There's always a silver lining. It may not taste too good, but it's always there.

—Bob Rooker

AROTC Cadets Honored . . .

Army ROTC cadets stood at parade-rest yesterday afternoon during an award review, and watched five cadets and two Army instructors being decorated.

Awards were presented by Lt. Col. John B. Webb, assistant professor of military science and training.

Richard G. Snyder of Lubbock received the Armed Forces Communications and Electronics Association Honor Award for being the outstanding Army ROTC cadet majoring in electrical engineering.

Charles D. Brooks Jr., Houston, received the Society of American Military Engineers

Senior Medal. He is one of 10 cadets throughout the general military science schools of the United States who will be, or have been, awarded this medal. Hugh W. Fowin, Bunkburnett, received the Society of American Military Engineers Junior Medal for his outstanding achievements in leadership, academic work and other college activities.

Richard L. Ridgway, Brownfield, received the Association of the U. S. Army Award for being the top ROTC cadet in the cadet corps this year.

Billy D. Echols of Lubbock received the Distinguished Military Student Award.

LITTLE MAN ON CAMPUS

By Dick Bisler

"TH' SIGMA PHI NOTHINGS AREN'T PLEDGING TH' SAME CALABER OF BOYS THEY USED TO."

Girls Get In The Act . . .

A noon food strike in Horn Hall Tuesday resulted in a meeting of women's dorm representatives with Miss Shirley Schulz, director of food service, and Vernon Thompson, assistant comptroller. Two representatives from each of the three women's dorms attended the two-hour session, according to Erma Lilly, Horn Hall.

An earlier strike in Gordon Hall brought attention to the food problem, and as the meeting progressed, Knapp Hall residents refused the evening meal.

Pointing out that no representatives from the student body had approached her office before, Miss Schulz expressed appreciation of the opportunity to discuss the difficulties with the students.

Most emphatic of the complaints made to Miss Schulz during the conference was the preparation and repetition of meat dishes. They expressed hope that more variation of meats could be served. Complaints were also voiced about having to wait on food to be prepared late in the dining hour.

Nutrition and finances are the two elements to be considered in the purchase and preparation of foods, Miss Schulz explained. Supplies for all eight dormitories are purchased through the food service office, which tries out different brands of canned foods to find the most nutritional for the money they spend. Choice and good grades of meat are used in dormitory meals, the director stated. Unskilled help and quantity cooking form the reasons for unsatisfactory meat dishes, she added.

Estimates on attendance at meals is based on the number checked through at each dining hour. Due to variations of as many as 100 persons from one day to the next, dietitians cannot prepare for the exact number which appear, and on occasion must prepare extra food when large numbers attend meals.

In answer to requests that some foods be taken from the menus, Miss Schulz advised the women that it is the duty of the food service to make available foods high in nutritional value.

The official gave assurance that sincere efforts will be made to bring the quality of meals up to the standards students request. Establishment of a permanent committee of students from each dormitory to work in conjunction with school authorities on food problems was discussed.

Dorm representatives were: Barbara Pearce and Marguerite Winder, Knapp; Dottie Sue Horchem and Betty McGehee, Drane; Joan Z. Roberts and Erma Lilly, Horn.

'Pulse Taking' Recommended . . .

An early fall meeting to set up methods of "taking the pulse" of Texas opinion on world affairs was recommended today by West Texas citizens attending an international relations conference at Texas Tech.

The group, made up of persons representing world affairs discussion groups in West Texas communities, voted to submit the

recommendation to the West Texas council on adult education.

The group urged that U.S. congressmen representing West Texas areas and the state's U.S. senators be invited to the fall program to meet with community representatives of West Texas and plan a "pulse taking" system.

COLLEGE GRAPEVINE...

Mothball 'Punch' Served At Party

By CLAYNELLE ROOKER

If you think the food situation is bad here at Tech, lend an ear to what happened recently at Michigan State. At a sorority rush party with a winter wonderland theme setting the scene, there sat a bowl with mothballs, simulating snowballs, bouncing in a chemical concoction on the tea table. Mass poisoning almost resulted when an uninformed alum helpfully ladled the seething chemical into the punch glasses.

Of the 664 students interviewed at the University of Texas by the Campus Survey council, 72 percent favor raising academic standards. A breakdown of the 664 indicated that 223 were freshmen, 168 sophomores, 166 juniors, 100 seniors, and 24 graduate students. Although the council does not feel that the survey is conclusive, they do believe that it shows a healthy trend of thought with regard to our ever-increasing problems of education.

Another of the hazards of higher education faced students at Trinity University with the announcement of tuition increases. Students beginning in September will have to pay \$50 more per semester, bringing the yearly cost of education to \$500.

Trustees said the faculty needed more pay and the school more money.

A salve to the wounded scholar was the additional announcement that for every \$500 the student spent on tuition, the university would expend approximately \$795 on education services.

And at Abilene Christian college a tuition raise amounting to \$28 more per semester has been declared, making the annual tuition expenses stand at \$408.

Makes our \$25 a semester fee seem pretty much like a drop in the bucket, doesn't it?

Students at Marquette University get an unlimited amount of cuts during a semester. That is those students who have completed at least 60 credit hours of study and have a B average are allowed the privilege. The purpose of the optional absence system is to give superior students time for more outside reading—and, probably, other outside activities.

Might not be such a bad idea. Could even stimulate some of our "bookline" students to go ahead and study enough to pull down a B rather than settling for a solid C.

Want to enjoy life a little more? Try this recipe for every day of the year. It comes from Alim College and was concocted by Dick Schlueckbier:

- INGREDIENTS
- 1 cup of friendly words
 - 2 heaping cups of understanding
 - 4 heaping teaspoons time an patience
 - pinch of warm personality

INSTRUCTIONS FOR MIXING: Measure words carefully. Ad heaping cups of understanding. Use generous amounts of time an patience. Keep temperature low. DO NOT BOIL. Add dash of humor and a pinch of warm personality. Season to taste wit spice of life. Serve in individual molds.

Tech's department education and secret istration will give according to Mrs. department instru of arrangements.

Music Festival To Be Here

One of the largest music festivals in South Plains history will be conducted May 3-7 when Tech holds its fifth annual Texas Symposium of Contemporary Music.

Highlighting the symposium will be an opera, evening concert of voices, pianos and solo instruments, a band concert and a huge finale concert featuring the Tech choir, orchestra, symphonic wind ensemble and Phi Mu Alpha Glee Club.

The finale — first Tech production in the new Lubbock Auditorium on the campus — will present more than 100 Tech musicians and five conductors.

The five day festival will be directed by the Tech music department.

Opening the symposium will be presentations of the Gain Carlo-Menotti opera, "The Old Maid and a Thief", at 8:15 p.m. May 3-4 in the Music Building Recital Hall. Tech vocal students with leading roles include Carol Schultz of Amarillo, Miss Pinkerton; Ann Hogg, Monahans, Miss Todd; Mary Jane Hartley, Lubbock, Laetitia; and Donald Armstrong, Amarillo.

Bob Robert Elson of the Tech faculty will direct.

An added feature of the opera will be a performance of Bela Bartok's "Sonata for Two Pianos and Percussion." Pianists will be Dallas Haslam, associate professor of music, and Gilbert Finnell, Tech freshman from Lubbock. Percussionists will be Paul Lovett and Ann Dupre of the Lubbock Symphony.

Another added feature will be a Woodwind quintet directed by Keith McCarty and a brass ensemble, directed by Robert Taylor, both are Tech instructors.

The Tech chapter of Mu Phi Epsilon, national honorary music sorority, will present a program of music for voice, piano and solo instruments at 7:30 p.m. May 5 in the Music Building Recital Hall. Conducting glee club members will be Margaret Ammer and Margaret Schindler, senior music majors from Monahans. Annita Powers, senior from Lubbock will direct the club song.

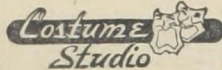

Two Tech faculty members will be presented as composers during the program. They are Paul Ellsworth, whose "Lullaby" and "A Love Song" will be sung by Sandra Hemmle, sophomore from Ar-

lington, and Mary Jeanne van Appledorn, whose song cycle, "Communique," will be sung by Carol Schultz, sophomore from Amarillo.

The Tech Concert Band will perform at 3 p.m. May 6 in the Student Union ballroom, with Alfred Reed of Hansen Music Publications, New York City, as guest conductor-composer-lecturer.

Three Tech music organizations will sponsor the finale concert May 7. They are Phi Mu Alpha Sinfonia, national honorary music fraternity, Tau Beta Sigma, national honorary band sorority, and Mu Phi Epsilon.

Fraternity Sing Slated Tomorrow

Sixteen fraternities and sororities will participate in an Inter-Fraternity sing tomorrow night at 7:30 in the O. L. Slaton Junior High Auditorium, on Ave Q and 33rd street.

Judging, by public school music directors, will be done on the same basis as the Texas Interscholastic League Competition, and first and second place trophies will be awarded to the best fraternity and sorority numbers.

Basis for judging includes tone, intonation, diction, interpretation, artistic effect, selections and appearance.

Competing groups in order of performance are: Phi Gamma Delta, Delta Gamma, Kappa Sigma, Sigma Kappa, Sigma Nu, Alpha Chi Omega, Alpha Tau Omega, Kappa Kappa Gamma, Sigma Chi, Pi Beta Phi, Phi Delta Theta, Alpha Phi, Sigma Alpha Epsilon, Tri Delta, Pi Kappa Alpha, and Kappa Alpha Theta.

Judges are Robert Michner, coordinator of music in Midland Public Schools; Robert Clinton, choral director in Snyder Public Schools; and Robert Elson, vocal instructor at Tech. None of the judges are connected with any of the groups in competition.

Master of Ceremonies will be James Carthel, President of Phi Mu Alpha Sinfonia, National music fraternity sponsoring the contest.

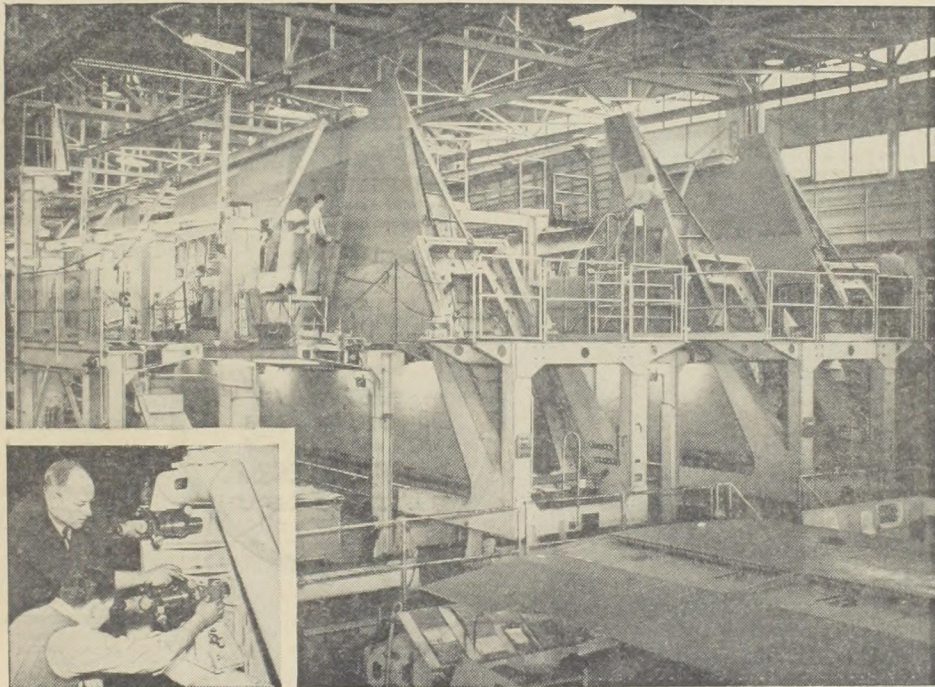

Tradition of the inter-fraternity sing was begun in 1954. A capacity audience at past performances has forced the sponsors to schedule the event off-campus, in order to accommodate the crowd.

"We of Phi Mu Alpha feel this is one of the greatest activities on the Tech Campus," said Carthel. "One of the purposes of our fraternity is to 'advance the cause of music in America' and we are happy to have this opportunity to function at Tech. . . . We wish to thank all the deans, fraternities, and other interested persons who have helped in preparation for the program."

Tech Is Selected Examination Center

Tech has been selected one of 48 test centers in the country for the annual Certified Professional Secretary Examination May 4-5.

Tech's department of business education and secretarial administration will give the tests here, according to Mrs. Nelda Coats, department instructor in charge of arrangements.

Boeing production engineering—precision on a big scale

This Boeing B-52 wing jig is one of a battery of four. Each one is 90 feet long and weighs more than 1,000 tons. Yet many of its tolerances are within 1/1000 of an inch—as close as a fine watch! Almost-absolute accuracy on a tremendous scale like this means that Boeing production engineers face some of the most stimulating challenges in engineering today.

These production engineers are of many types. And, because of steady expansion, Boeing needs more of them: industrial, civil, mechanical, electrical and aeronautical engineers.

There is "growing room" for top-notch production engineers at Boeing's Wichita and Seattle plants. Big programs are now

under way on the airplanes and guided missiles of a few years hence. And Boeing production engineers are responsible for the high quality and continuous development of such industry-leading airplanes as the B-52—famous "Long Rifle" of Strategic Air Command—and the 707—the world's first jet tanker-transport.

At Boeing, production engineers find individual recognition in tightly integrated teams in design-analysis, test, and liaison-service. They find that Boeing is an "engineers' company," with a long-standing policy of promotions from within the organization.

Career stability and growth are exceptional at Boeing, which now employs more than twice as many engineers as at

the peak of World War II. Boeing engineers enjoy a most liberal retirement plan. And life for them is pleasant in the progressive, "just right" size communities of Seattle and Wichita.

There are opportunities at Boeing in design and research, as well as in production. If you want job security, satisfaction and growth, it will pay you to investigate a Boeing career today.

For further Boeing career information consult your Placement Office or write to either:

Newman Club To Honor Grads

Graduating members of the Texas Tech Newman Club will be honored at a communion breakfast Sunday at St. Elizabeth's Parish Hall. The breakfast will follow the usual corporate communion which the members receive each month.

Capt. Robert Shaw, Catholic layman and officer stationed at Reese Air Force Base, will be the guest speaker. Capt. Shaw is a Flying Safety Officer and is a member of the Lubbock Toastmasters Club.

All Newmanites are urged to attend as a group the 8 o'clock mass and the breakfast which will follow, according to Liz Wilson.

PRE-MED BANQUET SET FOR TONIGHT IN UNION

Dr. William Gordon, noted heart specialist of Lubbock, will be the speaker for the Pre-Med Banquet to be held at 6 o'clock tonight in the Union Ballroom.

Tickets, priced at \$1.60 each, may be purchased from Bob Berger and Joe McIlhenny. They are also on sale in Miss Margaret Stuart's office.

'Can-Cans,' Floor Show 'Drane Drag' Features

An all-girl orchestra, homemade cake, and a floor show with "can-can" girls will be feature events of the "Drane Drag" to be held

at Drane Hall at 7 p.m. Tuesday. Barbara Bodenhammer is in charge of the all-girl orchestra, which will be known as the "Eight Freshmen." The girls have been practicing every night with trumpets, saxophones, clarinets, drums, piano, accordion, and even a ukulele. The orchestra will furnish music for part of the dancing; records will be used also.

Lucinda Birtciel is working out the routine for the "can-can" girls and instructing them in their dance.

The "Drane Drag" is being staged to raise money for the Drane Hall dormitory fund, and will be open to all Tech students. The girls have been working on this dance for several weeks, and they are hoping to make this a successful event so that the "Drane Drag" may become an annual project.

Admission is 75 cents stag or drag. Refreshments will be free.

Home Ec Offers 22 Summer Courses

The Home Economics Division of Texas Tech will offer a varied program of 22 courses during the 1956 Summer Session, Dr. Willa Vaughn Tinsley, Home Economics dean, has announced.

Courses for the First Term, June 4 to July 14, will be in the fields of applied arts, child development and family relations, food and nutrition, home economics education, and home management.

Second Term courses, scheduled July 16 to August 24, will be in the areas of applied arts, clothing and textiles, food and nutrition, and home economics education.

Special classes will be offered in food preservation, newer methods of clothing and textiles, elementary home economics teaching, and school lunches, Dean Tinsley added.

A quick glance into the Student Union will reveal the "Eight Freshmen" in the typewriter room, for example, on a pair of well-worn but carefully cared for Steinway pianos. The Arts and Science produces many tradecraft room of the Elements of children's art and modeling clay and puppets and microscopes in the rooms of botany and zoology majors, and geometrical squares tucked away in the combi-math major's room. In geology's room, room may be found in places. Unnamable e of the room of t major. Tennis racket mits and footballs ma among the belongings of a major.

German Students To Attend Meeting

Fourteen German students leave Thursday to attend the annual convention of the Texas Association of German Students. It will be conducted at Southwestern University in Georgetown, according to Prof. T. W. Alexander.

Tech representatives will present two plays and musical numbers at the convention. "Liebe im Schlaf" and "Das Puppenspiel vom Doktor Faust" will be given as they were presented Tuesday at the Liederkrantz Theater. Martha Mack will sing musical selections in German, accompanied by David Lindsey and Jane Breedlove on guitar and piano.

Student representatives to the convention will be: Doyle Carson, Alvin Gregg, Barbara Pearce, Doyle Taylor, Miss Mack, Boone Brackett, Karl Dockray, Homer Franklin, James Wood, Lindsey, Alman Hawkins, Jeannette Reames and Miss Breedlove.

Dockray has served as state secretary for the Texas Associations of German Students this year. Alexander and Miss Elaine Boney, instructor of German, will accompany the students. The group will return Sunday evening.

MARGO THRUSH NAMED SORORITY 'BEST PLEDGE'

Margo Thrush, freshman Business Administration major from Plainview, has been named Delta Delta Delta "Best Pledge" for the week of April 9-14. She was chosen because of her active contribution to the sorority.

Approximately 50 Tri-Delts attended the annual sorority retreat at Crews Adobe Ranch near Childress on April 15 and 16. The group was invited to hold the retreat at the ranch by a Tri-Delt alumna, Mrs. Annie Ruth Bell.

A sunrise service was held Sunday morning by the Rev. Wilson Cole, pastor of the First Presbyterian Church of Childress. In charge of arrangements were Jerry Denton, Margaret Hagan and Jody May.

Aggies' Spring Banquet

Coming Up Tuesday Night

Between 150 and 200 aggies are expected to attend the Aggie Club's second annual spring barbecue at 7 p.m. Tuesday, according to Dr. Wayland Bennett, club sponsor. The event will be held at K. N. Clapp Party House in Mackenzie Park.

"All Aggie Club members are invited," said Dr. Bennett. Tickets may be purchased from any club officer for \$1.

Wayland Mullins, junior agriculture major from Eden, is president of the organization.

Crowning Of Queen Highlights Army ROTC Military Ball; 16 Candidates Vie For Honor Tomorrow Night In Union

Highlighting the Army ROTC Military Ball tomorrow night at a dance in the Student Ballroom at 8 p.m. will be the crowning of the Queen.

The sixteen candidates are either company sweethearts or nominated by a sorority. Each candidate will be presented at the dance, and will be accompanied by

a cadet escort. The queen will then be crowned by a representative of the cadet corp.

Candidates for the honor and their sponsors are: Jean Cross, sophomore from Silverton, 1st Battalion; Theda Howze, freshman from Abilene, Gamma Phi Beta; Margo Thrush, Plainview freshman, 3rd Battalion; Sandra Hampton, Dallas freshman, Pi Beta Phi; Jeri Alexander, Abilene freshman, Company D; Norma Gale Bradley, sophomore from Clovis, Company E; Jan Lewis, Houston freshman, Company A; Jill Dodge, Pasadena freshman, Company B; Betty Harry, sophomore from Lubbock, Company C; Connie Jean Jackson, Lubbock freshman, Company F; Carole Deem, Stamford freshman, Sam Houston Rifles; Judy Hatfield, Dallas freshman, ROTC Regiment; Barbie Bicknell, Dallas freshman, Kappa Alpha Theta; Sue Dickson, Lubbock freshman, Sigma Kappa; Sandra Sherrill, Lubbock freshman, Alpha Chi Omega; and Jackie Reeves, Amarillo freshman, Kappa Kappa Gamma.

Also on the program will be the introduction of the new pledges to the Scabbard and Blade. The Kingsmen will play for the dance. Tickets are \$2.00 a couple.

Phi Gamma Nu Picnic Slated Sunday

Phi Gamma Nu members and pledges, with their dates or guests, are invited to attend the annual sorority picnic to be held from 3 to 6 p.m. Sunday at the Little Party House at Mackenzie Park. Caterers for the event will be Underwood's.

Tuesday, Phi Gamma Nu pledges entertained the members with a program and party in the Student Union. The program depicted the dreams of a secretary. Phi Gamma Nu officers for 1956-57 will be elected at the next regular meeting Tuesday.

Slide Rules, Finger Paints Part Of Tech Trademarks

Trademarks! Mamie has her bangs; Hedda has her hats. Just as these prominent individuals have their trademarks, so do the divisions here on the campus.

A quick glance into a dormitory room will reveal the occupant's major. In the typical Aggie's room, for example, one will find a pair of well-worn boots and a carefully cared for Stetson.

The Arts and Sciences Division produces many trademarks. The room of the Elementary Education major is filled with all types of children's art-finger paints, modeling clay and puppets. Test tubes and microscope slides clutter the rooms of botany, chemistry and zoology majors. Compasses and geometrical squares are tucked away in the corner of the math major's room. In the future geologist's room, rocks of all sizes may be found in all sorts of places. Unnamable contraptions adorn the room of the physics major. Tennis racquets, baseball mitts and footballs may be found among the belongings of a P.E. major.

Any room containing ledgers and shorthand notebooks can easily be identified as that of a B.A. student. A typewriter is usually to be found, but the distinguishing characteristic is the vast number of pencils scattered about.

Occupying a place of honor in the engineer's room is his slide

rule. It is well to look only and not touch, for the engineer considers this his prized possession. Caution should be exercised in entering an engineer's room, for one can never tell what sort of booby trap these mechanically inclined persons might set for unsuspecting visitors.

Tattered and torn magazines, rubber cement and India ink are selected accessories for the H.E. student's room. A white uniform is generally to be found, but no respectable home economist would think of parting with her "file." This is a collection of clippings, booklets and recipes, arranged in some semblance of order.

The next time you walk through the halls of your dormitory, glance in the open doors and look for the Trademarks of Texas Technicians.

Possible design for homogeneous reactor vessel.

Looking for daring engineering?

Here are a few of the many projects Westinghouse offers the young engineer or scientist interested in daring engineering and research:

- First homogeneous or liquid-fuel reactor for full-scale utility power plant (see sketch at left).
- Guided missiles—seeker head and ground control for "Bomarc," in new Electronics Laboratory.
- First steam turbine to operate at 5,000 lbs. pressure, being developed in new \$6 million laboratory of Steam Division.
- New uses for Magamps and transistors such as . . . controls for aircraft power . . . automation for industry.
- Research in nearly perfect vacuums, and near absolute zero temperatures, at new multimillion dollar Central Research Laboratories.
- Transistorized ultrasonic control systems for torpedoes.
- Pioneering in development of new metals and alloys, and metallurgical techniques, at new \$6 million Metals Development Plant.
- Development of world's first industry-owned testing reactor (cost, \$6½ million).

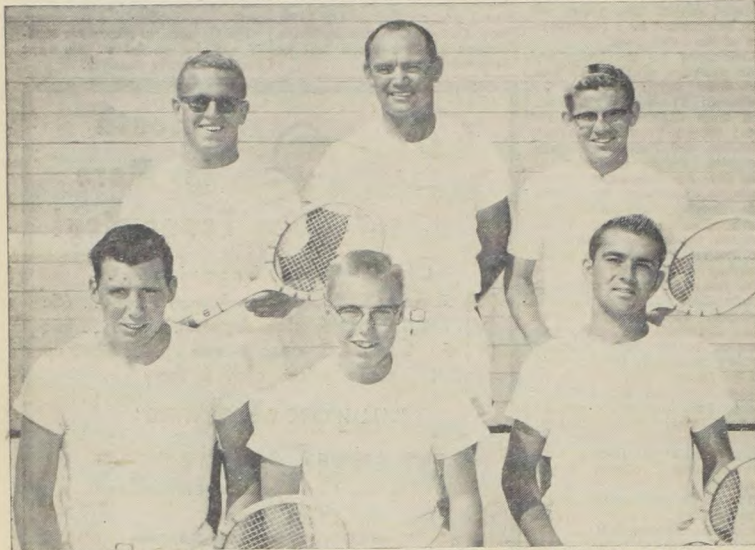

Today, more than ever before, Big things are happening at Westinghouse, and Big opportunities are wide open for you in the field of your choice. And, you can take graduate study, leading to Master's and Ph.D. degrees at 22 leading universities . . . at company expense. Location is no problem, for Westinghouse has 98 plants.

Before you make your decision, phone collect to C. H. Ebert at Westinghouse Educational Center, Pittsburgh . . . EXpress 1-2800, Extension 353. . . he will answer any questions. Or write him at Westinghouse Electric Corporation, Educational Center, Ardmore Boulevard at Brinton Road, Pittsburgh 21, Pennsylvania.

Freshman, Sophomores Pace Red Raider Tennis Team

MEMBERS OF THE RAIDER tennis team are: George Philbrick, and Billy Gowan. Bottom row: Top row, left to right Captain David Kent, Coach Johnny Kniffen, Scott Cantine, and Dick Spiers

By WILBUR JARRETT

"The success of our team is in the fact that the boys never quit fighting or hustling."

These were words of Tennis Coach George Philbrick as he spoke of the sophomores and freshmen on the Tech tennis team which is currently the winningest team on campus this spring.

At the first of the current net season, Coach Philbrick's charges weren't given much chance for a good season because they had lost David Clark, the sensational left-hander who had held the No. 1 singles position for four years.

Now, as the season is three-fourths gone, the Raiders chances for a Border Conference championship look good. Other teams around the Border circuit have stood up and took notice of the fine showing the Raiders have made for themselves. A fine showing it is indeed, because they have compiled seven wins, three losses, and one tie record for the season. To make it seem even more outstanding is the fact they have defeated such powerful teams as Colorado College, current Rocky Mountain Conference Champs, and Texas A&M, a perennial contender in the Southwest Conference.

Tennis Team Faces ACC Wildcats Here

The Tech tennis team will face ACC Wildcats Saturday at the varsity courts at 2 p.m. They have defeated ACC earlier this season.

Next match following this will be the Tech-Hardin-Simmons fracas May 4.

The Border Conference meet will be held on the Tech Campus May 11-12.

The only defeats have been by Baylor, SMU, and Hardin-Simmons. They tied East Texas State. The men responsible for this good showing are sophomores David Kent, team captain; Billy Gowan; Dick Spiers; and freshman Johnny Kniffen and Scott Cantine.

In the words of his coach, Spiers is probably the most improved player of the year. Last season Dick had a so-so season playing No. 4 man on the squad. However, this year he has moved one notch to No. 3 and is winning nearly all of his matches in addition to teaming with Kniffen in doubles.

Philbrick also believes that both Kent, No. 1 singles, and Gowan, No. 2 singles, both have the potential to surpass the feats of the David Clark. There is hardly a hairs difference between the two players. Gowan is the more powerful hitter of the pair, but Kent's game is more polished.

Perhaps, Kent's greatest victory of the season or his career was his upset of Doug Corley, nationally-ranked player from Colorado College, in a gruelling 3-set match.

Kniffen and Cantine both freshmen play No. 4 and 5 respectively. Both have shown up well this season especially in view of the fact they are first-year men and are really inexperienced.

Should Tech get into the Southwest Conference, Tech's tennis teams could more than hold their own with the teams in that league according to Lester Jordan, coach of SMU netters, whose team recently defeated the Techs. Jordan said if Tech got into the conference next year that he figured Tech to finish no lower than second place — quite a compliment.

Speaking of the Southwest Conference, May 12 could be a double red-letter day for the netters and Texas Tech. That day the Raiders will go after their first Border Conference title in six years and elsewhere the Southwest Conference will vote on Tech's admission. If they use the tennis team as any gauge for admission, we're as good as in.

SUBS ARE ALL-COLLEGE VOLLEYBALL CHAMPS

The Subs won the all-college volleyball championship Tuesday night, downing the Spikers, 15-12 and 15-13 in a best two out of three championship match.

Although their opponents rallied each time, the Subs held onto their bare lead in each set for the victory.

Members of the winning team, according to their serving order included Melade De Gaisn, Jim Crawford, J. D. Snyder manager, Bill Harmon, Carey Hobbs, and L. A. Noles.

Tech Meets SAFB Here

The Red Raider pitching staff, has two on the ailing list with sore arms and shoulders.

George Bradley, lefthanded ace of the staff, has a sore shoulder and Joe Lloyd, righthander has a sore arm. This may hamper the Red Raiders tomorrow and Saturday against the tough Sheppard Air Force team from Wichita Falls.

Leo Chase, who has pitched steady ball all year for the Raiders, is expected to be Feathers' choice in the series opener Friday against Sheppard. If Bradley's shoulder is okay by Saturday, he probably will get the starting nod. If not, Paul Hawkins, native of Turkey who made his 1956 season's debut last Monday against the Buffaloes in Canyon, will probably be Feathers' nomination.

Games will be played on the Tech diamond north of the track field. Gametime for both encounters is 3 p.m.

Last Friday, Tech, not playing up to par, and Leo Chase, plagued by the gopher pitch, were defeated in the opening game of the series 7-2. However, in the series finale with George Bradley on the mound, Tech held a comfortable 5-0 lead when high winds forced cancellation of the game. From Wichita Falls, the Raiders invaded Canyon for a one game stand on Monday to defeat the West Texas Buffs in a slugfest, 15-12.

Track Team Takes Weekend Vacation

By JOE HARRISON

Although the Raider track team will not be in action this weekend, Coach Delmer Brown will be busy. He will serve as director of the Interscholastic League Regional meet to be held at the Tech oval Saturday. Some 1,145 area high school athletes are expected to attend. A breakdown shows 845 in Class B, 220 in Class A and 108 AA schoolboys vying for honors.

Coach Brown says he will keep a sharp eye out for prospective material for next year's track team.

The varsity will return to action on May 5 when they journey to Portales, N.M., for the Portales Invitation. A 14-man team will make the trip.

In other weekend action, Raider linksmen will play host to ACC Saturday afternoon at 1 o'clock at the Hillcrest Country Club.

The golf team is paced by John Farquhar, Amarillo; John Paul Cain, sweetwater; Bob Westfall, Amarillo; Don Kaplan, Borger; Dan Whalen, Miami, Fla.; and Bobby Clark, Alice.

Three teams have accepted invitations to the golf tourney to be held as part of the Raider Relays April 27-28, according to Golf Coach Warren Cantrell. Oklahoma A&M, Hardin-Simmons and Odesa College have agreed to send teams while several invitations to Southwest Conference schools have not been heard from.

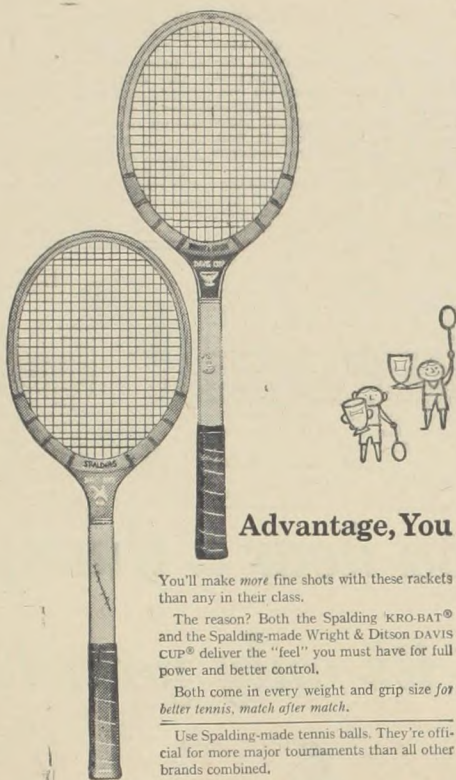

On May 3, 4 and 5, Raider golfers will travel to Athens, Ga., to play in the Southern Collegiate Invitation, one of the most important meets in collegiate competition. It is also the oldest collegiate golf tournament, and will feature top golfers of the nation.

'Prof' D. O. Wiley Is Given Portrait

In honor of 22 years of service by "Prof." D. O. Wiley, director of the Tech band, Kappa Kappa Psi, honorary band fraternity, presented the college with a portrait of Wiley. The painting was presented Wednesday night at a banquet in the Tech band hall.

Myrtle Lee, Big Spring painter, made the portrait of Wiley with-

WILEY PORTRAIT

out his knowledge. He also celebrated his 58th birthday at the banquet when the band sorority, Tau Beta Sigma, gave him a birthday cake.

"I was never so surprised," was the comment he made when Norman Heath of Lubbock, first president of Tech chapter of the fraternity, presented the portrait. A gold plaque naming "Prof." the "Father of the Texas Tech Band" will be put on the painting when it is hung in the band hall.

Gridmen Closeout Third Week's Drill

Tomorrow's football drill will mark the close of the third week of spring practice, with only one week remaining. The annual Red-White game, highlight of the drills, will be played next Friday night in Jones Stadium.

Definite lineups for the intrasquad game have not been completed, but there is a possibility that the first-team line will team with second-string backs to go against the second-team line and first-team backs. However, Coach DeWitt Weaver also has revealed that there is a very good possibility that the two squads will be chosen simply by choosing sides.

With the mid-way point reached, for Red Raider footballers, Coach Weaver reports that spirit is tremendous and that he is reasonably satisfied with progress shown thus far by the team.

Injuries continue to plague the gridlers, but spirit has remained high and workouts have revealed a great deal of desire. Both incentives are surprisingly strong after a number of rough workouts in the early part of the spring practice, Weaver believes.

Lineups in spring drills are strictly tentative and mean nothing definite so far as next fall is concerned. Presently running with the No. 1 unit are: ends Don Waygood and Pat Hartsfield; tackles, Charley Moore and Bob Kilcullen; guards, Hal Broadfoot and Doug Campbell; center, Don Presley; quarterback, Buddy Hill; fullback, Doug Duncan; and halfbacks, Ronnie Herr and Charlie Dixon.

Registration . . .

tickets to match each schedule. (5) Fees will not be paid until after Sept. 1. Sometime between Aug. 15 and Sept. 1, the college Business Office will send the student a bill for fees along with an IBM copy of his schedule. Fees may be paid by mail. (6) Around Aug. 15, a registration packet to include such cards as housing approval, student directory, etc., will be mailed to each student who pre-enrolled.

Pre-enrollment registration dates, according to alphabetical grouping, will be printed in next Friday's Toreador.

2000 Here for Meet . . .

the golf competition, which is conducted for all three divisions — AA, A and B.

Conference B tennis preliminaries were run off at 1 a.m. on Tech courts, with George Philbrick in charge.

The curtain rose on the first Conference B one-act play at 1 p.m. in the Speech Building Auditorium. Preliminary field events for Conference A and B schools started at 1 p.m. in the Tech track and field area and running events for those conferences began there at 1:30 p.m.

At 8 p.m. Conference AA plays will be reeled off there and Conference A* plays will go before the footlights at J. T. Hutchinson Junior High School. Ronald Schulz

Philip J. Boykin, Texas Tech senior from Dallas, has won third place in a Southwest regional student research contest sponsored by the American Institute of Chemical Engineers.

is in charge of the play competition.

The meet gets into full swing tomorrow with action in all contests. First events will start at 8:30 a.m. when journalism contestants of all conferences gather in Journalism Building 208 under direction of Dr. William E. Hall, and Conference B tennis finals get underway on Tech courts.

The following events for all conferences are scheduled at 8 a.m.

Dr. S. M. Kennedy will direct debate contests in Ad Building 321. Senior declamation will be under direction of Miss Patti Grubb in Agriculture Engineering Building auditorium; and poetry reading under Dr. Cecilia Thompson in Agriculture Building auditorium.

Ready writers of all conferences will assemble at 10 a.m. in Library Building 126, with Miss Gussie Teague in charge, and typewriting contestants will gather at the same time in Ad Building 360 with Mrs. Charlotte Ewing in charge, and play will begin in Conference AA and A tennis.

At 11 a.m. shorthand contest-

ants will meet in Ad Building 364 under the direction of Mrs. Isabelle Gillenwater, and number sense participants will gather in Ad Building 210, with Dr. Ralph S. Underwood in charge.

The meet will hit the home stretch at 1 p.m., with extemporaneous speaking contestants meeting in Ad Building 333 (AA), 339 (A), and 341 (B), under Miss Annah Joe Pendleton's direction. The last mathematics event — slide rule — will start for all conferences at 2 p.m. in Ad Building 210, with Dr. Horace Woodward

in charge. Track and field finals for all Conferences begin at 1 p.m. with discus, high jump, broad jump and shot put.

Other finals are scheduled as follows:

1:50, high hurdles; 2, 100-yard dash; pole vault; 2:10, 440-yard dash; 2:20, low hurdles; 2:30, 440-yard relay; 2:40, 880-yard run; 2:55, 220-yard dash; 3:05, mile run; and 3:20, mile relay.

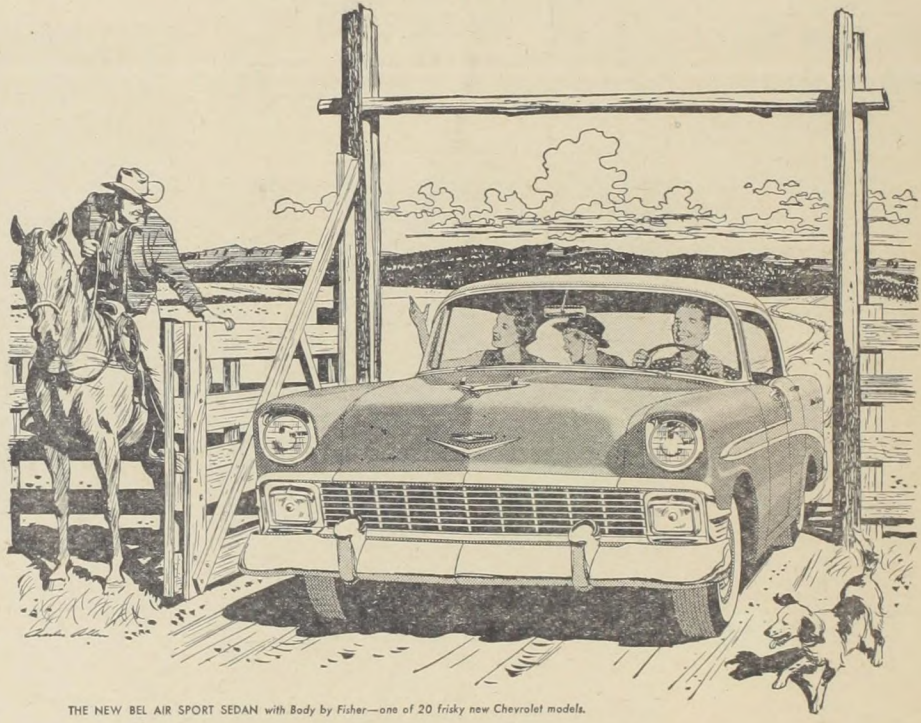

In each event, Conference B will compete first, followed by A and AA.
