

NATIONAL BIBLE WEEK  
By Raymond C. Baker

(Editor's Note: Guest columnist Raymond C. Baker is a former newspaperman who writes widely on economic and industrial subjects.)

The world of books is the most remarkable creation of man. Nothing else that he builds ever lasts; monuments fall, nations perish, civilizations grow old and die out. And after an era of darkness new races build others. But in the world of books are volumes that have seen this happen again and again. And yet live on. Still young, still as fresh as the day they were written, still telling men's hearts of the hearts of men centuries dead.

This poem, "The World of Books," by Clarence Day, was brought to mind by a brochure which came across the writer's desk recently. It described the significance of National Bible Week and told how meaningful the Good Book continues to be to so many people throughout a troubled world.

Everlasting I couldn't help but reflect on Day's last two lines:

Still telling men's hearts  
Of the hearts of men centuries dead.

The Holy Bible, still the best seller of all the books in the world, does just that. Men everywhere down through the centuries have read and re-read the many lessons it teaches, and have become the better for understanding and practicing them.

Many readers of this column will recall that George Peck, whose life was snuffed out a little more than a year ago in an airplane accident at an all too early age, believed with all his heart in the work of The Laymen's National Bible Week, sponsor of National Bible Week. He not only wrote frequently about the Committee's purposes, but gave unstintingly of himself to promote its cause.

ITS WORK

The Committee is a nonsectarian corporation founded in 1940 for the purpose of reawakening religious thinking in every possible way through a program of public education in Bible reading and Bible study and by encouraging church, synagogue and Sunday school attendance to promote a better understanding among all peoples.

In this day of unrest, can there be a more worthy and unselfish cause?

The Committee's list of officer, directors, council members and industry chairmen, all laymen, reads like a roster of the nation's best known business, labor, professional and civic leaders. W. W. Overton, Jr., prominent Dallas, Texas, banker, is national chairman of the 22nd annual observance of Bible Week, October 15 to 21.

"The Bible Builds Bridges-Not Walls" is the theme for this year's observance. Significance of the theme is explained by the Committee in these words:

"Bridges span rivers and chasms, and they are a thing of beauty.

They signify communication, where there was little or none before. Communication also means common understanding, common tradition, common ideas and ideals. Through recorded history, these ends have been best served by the precepts of the Bible for people who have sought enlightenment and a decent philosophy of life.

"Walls, erected by despotic decree, cannot contain people who will risk death or imprisonment rather than be contained by them. Ten million people have burst like a flood through barriers erected by the Red slave empire in various parts of the world. By this fact we know that communism is an abject failure.

"Our nation can help make that failure a rout by inspiring faith and courage among all peoples."

Power of Faith

The God-fearing peoples of East Berlin of Cuba and of other lands seething with hatred and greed have demonstrated by a courage that beggars description that with faith no wall is insurmountable. This is the lesson that the theme of Bible Week teaches.

The Holy Bible inspires, soothes and frees like no other book can. More of us should lift

## Gate To Be Installed At Local Cemetery

The Santa Anna Cemetery Association is presently making plans to install a gate at the entrance of the cemetery. This may sound like a bold act on their part, but when you consider the circumstances, we are of the opinion you will agree with them. We endorse the action of the association and feel the better for all concerned.

During the past several months a lot of night activities have been going on in the cemetery, especially on the weekend. Why people will pick a place such as a cemetery for their immoral activities is really more than we can understand — but it is being done and must be stopped.

There is lots of drinking going on there most every night in the week. It is much heavier on the weekend. Signs indicate there are numerous other immoral activities going on in the cemetery also.

The association has considered ways of stopping these activities, but the gate seems the best method of putting a stop to it. Plans call for the gate to be opened early each morning and closed at or about dark. It will be opened everyday in the week.

Much damage has been done to a number of the markers in the cemetery. Some of the damage has been done by rifle or shotgun blasts. Many liquor and beer bottles and cans have to be removed from the cemetery every week. Other items are also being used to deface markers and other beautification efforts of the cemetery association.

We urge each of you to endorse the plan of the association to install the gate at the cemetery.

## Two Inches of Moisture Falls In This Area

Good rains, amounting to two inches in the immediate area, fell throughout the Central Texas area this week. Reports from nearby areas indicate about the same amount fell generally.

The entire county has been suffering from the lack of rain for the past several months. The southern part of the county has been without rain for a year or better.

Heavy rains are still needed in order to run enough water to fill stock tanks and other water supplies.

## Democratic Rally Held Monday Night

A Democratic rally was held Monday evening in the National Guard Armory. A good crowd was present, considering the weather.

Plans were discussed for the campaign in this area and a second meeting was planned for Thursday evening, October 18.

W. F. Barnes is local chairman of the Democratic Party. M. L. Guthrie Sr., and Allen W. Gill are vice chairmen.

## SECOND SUNDAY SINGING

The regular Second Sunday Singing will be held at the Assembly of God Church Sunday, October 14, from 2:00 to 4:00 p. m. Everyone is invited to attend.

Mrs. James A. Clark of Larsen, Wis., is here spending a two weeks vacation with her mother, Mrs. Vera Shield and friends. She flew to Austin on Saturday of last week and spent the weekend with her sister, Miss Bess Shield, and came here on Monday to stay through the Homecoming.

Mrs. Ross Kelley went to Dallas with her son, Julian, who was here for the Homecoming. She will visit her brother, Jess Hunter, a patient in a Dallas hospital.

Visiting with Mr. and Mrs. B. K. Riggs last week was their son, Bob Riggs of Carlsbad, New Mexico.

it from its place of prominence more frequently and relieve ourselves of the tensions of a modern world by refreshing our memories with the glorious lessons it teaches. As is written in Isaiah 26, 12:

"And the fortress of the high fort of thy walls shall He bring down, lay low, and bring to the ground, even to the dust."

## 315 Register For Homecoming Activities

A total of 315 former students and their spouses registered during the day Saturday at the 10th annual Santa Anna Ex-Student Homecoming. This is several more than registered the previous year, but about the average number who attends each year. As is always the case, a large number were here who did not register, either because they arrived too late or for other reasons.

## Local Group Takes Honors At Waco Fair Last Week

A group of Santa Anna 4-H and FFA boys and girls took a large number of top honors at the Heart 'O Texas Fair in Waco last week. The group took 21 lambs to the show and all of them placed in the money. There were three divisions and some local lambs, were in each division.

There was \$613.00 in prize money in the lamb division. The Santa Anna youths brought home \$264.00 of the amount.

Les Guthrie, son of Mr. and Mrs. M. L. Guthrie Jr., showed the first place fine wool lamb and competed against a first place Southdown from Novice for top honors of the show. As is usual, the Southdown won.

Places for members of the 4-H Club were: Fine wool, Bubba Jones, 2nd, Wade Jones, 14th; Southdown, Bubba Jones, 3rd, Eddie Jones, 13th; Other Grades and Crosses, Darlyne Jones, 3rd and 18th, Eddie Jones 4th.

Members of the FFA showing lambs were: Les Guthrie, first place fine wool and 7th place Southdown; Stanley Hartman, 5th place fine wool and 12th place cross; Joe Ed Wise, 19th place fine wool and 21st place Southdown; Frank Valdez, 4th and 14th place fine wool; Donnie Henderson, 5th place cross and 16th place fine wool; John Dillingham, 6th place cross and 9th place Southdown.

## Services For Mrs. G. B. Smith On Thurs. Afternoon

Funeral services for Mrs. G. B. (Tinnie) Smith, 73, will be held at the First Baptist Church in Santa Anna at 2:00 p. m. Thursday, October 11. Mrs. Smith died early Tuesday morning at her home here. She had been in failing health for some time.

Officiating minister will be the Rev. Raymond Jones, pastor. Burial will be in the Santa Anna Cemetery under the direction of Hesch Funeral Home.

Mrs. Smith was born March 3, 1894 in Williamson County, Texas. She has been a resident of Coleman County for the past 65 years. She was married to G. B. Smith in Santa Anna July 23, 1909. She was a member of the First Baptist Church.

Survivors include the husband of Santa Anna; two sons, Rev. Aubrey Smith of Chico, Calif. and Audus Smith of Odessa; one daughter, Mrs. Leroy York of Abilene; two brothers, Emzy Brown of Santa Anna and Ollie Brown of Waller, Texas; five sisters, Mrs. S. M. Polk of Abilene, Mrs. W. E. Ferguson, Miss Virgie Brown and Mrs. Edd Schrader, all of Santa Anna and Mrs. E. H. Childress of Stamford; six grandchildren and three great-grandchildren.

## Lions Club Light Bulb Sale Set For Oct. 18

The Santa Anna Lions Club light bulb sale will be held Thursday, October 18. Members of the club will be making a canvass of the town throughout most of the day. Everyone who needs, or expects to need, any light bulbs in the near future is requested to make your purchase from a member of the club.

The bulbs come in a sack and sells for \$2.00 included in the bag is five 100-watt bulbs and three 75-watt bulbs.

Team Captains are Allyn Gill and Egean Harris. Gill's team is composed of W. F. Barnes, W. B. Griffin, Fred Murray, John D. Murrell, Norman Hosch, Chester Galloway, Larry Buchanan, Harry Crews, J. L. Boggus, J. W. Kegley, M. R. Simmons, D. H. Moore, W. H. Thate and Thomas Wristen.

Harris' team is composed of Roy Horne, W. R. Mulroy, Cullen N. Perry, Kenneth Bowker, O. L. Cheaney, Raymond Jones, John C. Gregg, Doc Barkley, Bill Cupps, Walter Holt, Lee Strothers, R. C. Smith, A. D. Pettit and Roy Mathews.

Miss Darlene Mercer of Abilene spent the weekend with her parents, Mr. and Mrs. John Gregg and John Wayford.

## Mountaineers To Take Long Trip To Marble Falls

The Mountaineers and their fans will take the longest trip of the season Friday night when they journey to Marble Falls for the second conference game. The map shows Marble Falls to be about 125 miles from Santa Anna and there is just one way to get there without going a good many miles out of the way. That is through Brownwood, Goldthwaite, Lampasas and Burnet, Marble Falls is located 10 miles south of Burnet. So far as we know all the road is in good shape with the exception of about 10 to 12 miles from just out of Brownwood to the Mills County line. This part of the road is under heavy construction but is passable if you take your time and watch the road signs carefully.

An effort is being made to get enough passengers to take a chartered bus, but at this time we are not sure whether the bus will run. If you are interested in going by chartered bus for about \$4.95 per person, call the telephone office for information.

A later report on Page Six of The News, indicates that the break in his right arm is not too serious and there is a possibility he might be able to be back on the lineup for the last two games this season. The break is in the upper part of the right arm and will be in a cast for three weeks. We have also been assured there is no desecration among the members of the team, and this was not their trouble the past week.

Not much is known about the Marble Falls football efforts, other than this year. In their four outings this year, they have lost to Blanco 33-6, Llano 32-0, Johnson City 29-6 and Boerne 22-0. They have scored a total of 12 points while giving up 116 points. So far as we know they do not have any particular outstanding players, but might be in the mood for an upset this week. Any team is capable of pulling an upset at any particular time.

The Mountaineers will be picked to win this game, despite their loss the past week. All the boys are in good shape with the exception of Valdez and all will be ready to give their best when they enter the game Friday night.

It's a long trip to Marble Falls, but we hope to see a large number of fans at the game. We would like to urge you to leave as early as possible and drive carefully. And on the way home, do not doze while driving.

## Class of 1937 Holds Reunion

The Class of 1937 met Saturday, October 6, at the Community Room of the Santa Anna National Bank for a class reunion. The reunion was from 12:00 noon to 2:00 p. m. and was held in connection with the 10th annual Homecoming.

The noon meal consisted of sandwiches, potato chips, pickles, olives, cake, coffee and tea.

Talking over old times, looking at pictures and telling about where each lives, their families and other topics furnished entertainment. A class member, Marilyn (Baxter) Williams of Bethesda, Maryland, called and talked to each member of the class present.

Mrs. Annette (Shield) Clark of Larsen, Wisconsin, received a corsage for coming the greatest distance. Others present and enjoying the occasion were: Anita (Kirkpatrick) Matthews, Longview, Texas; Margaret (Jones) Reid, Austin; Doris (Rollins) Thomas, Cooper, Texas; Allene (Hardy) Schmidt, Coleman; Ruth (Conley) Current, Amarillo; Marjorie (Pope) Brewer of Brownwood; H. W. Kingsbery of Beaumont; Julian Kelley, Dallas; Dolphus Ashmore, Levelland, Texas; Jack Howard, Houston; Rodney Dean, Rockwood; Martha Belle (Harvey) Thompson, Pauline Eubank, Hazel (Gilbert) McCrary and Dan Blake, all of Santa Anna; Mrs. Rodney Dean, Mrs. Dolphus Ashmore and three children and D. K. Current and daughter.

Pictures were made of the group. It was voted to make the class reunion an annual affair, to be held during the homecoming each year.

Attend church regularly.

## New Officers To Head Ex-Student Association

New officers were elected to head the Santa Anna Ex-Student Association at the annual business meeting Saturday afternoon. The officers are: President, Lyndon Haynes of Brownwood; Joyce Smith, First Vice President; Thomas Wristen Jr., Second Vice President; Secretary and Treasurer, Mrs. Lyndon Hayes; Mrs. C. D. Bruce, two-year director; O. L. Oakes and Barbara Kingsbery, one-year directors.

Mrs. Kingsbery is the outgoing president and she automatically serves on the board of directors for one year. The vice presidents move up one place each year and a new second vice president is elected. Also a secretary and treasurer is elected for a one-year term.

All the activities of the day went off as planned, with a large number of exes attending all of them. A good group was present for the morning coffee and a number of the classes held class reunions. Some met in various locations for the noon meal and others met for coffee at various times.

The Homecoming was a very successful event. At least 315 registered during the day and a large number was present who did not have the opportunity to register during the evening hours.

Several classes ending in "3", which will be the honor classes next year, are already in the process of planning class reunions next year. If you are a member of one of the classes ending in "3", join other members of your class in helping to make the next reunion a great one.

## Guard to Have Fed. Inspection Wednesday, Oct. 17

The local National Guard Company will undergo their annual Federal inspection Wednesday, October 17. Time set for the inspection is 7:30 p. m.

The general public is invited to attend and witness the inspection. Lt. Billy J. Harvey, Commander of the local company, urged everyone who is interested in the guard company to be out and witness the inspection.

A staff officer from the Fourth Army Headquarters in San Antonio will make the inspection of the company personnel and equipment.

**RUSK REPUDIATES THE "MEMO"**

Years may pass before historians dig out enough details to put the pieces together and show what actually has happened in the inner councils of our national government that made possible the speech of Secretary of State Rusk in Minneapolis in mid-August. In this speech Secretary Rusk clearly enunciated for the nation a "win" policy in the cold war. He said: "This

global struggle will continue until freedom prevails. Our objective is a victory for all mankind." These are clear, unequivocal statements. But they are a year and a half late.

This is the first instance in a long time in which top government officials have come out declaring our purpose is to win the cold war. What brought about this change, or this breaking of the long silence? Was it the result of pressure and criticism boiling and spewing over from the grass roots? Does the speech really reveal that the great debate within the State Department has been resolved, with advocates of softer terms than "win" and even softer policies losing out?

**Winners Needed**  
The President himself has

occasionally coined a few tough phrases for our side of the cold war, as Mr. Rusk pointed out in his address. But only the military, until Mr. Rusk spoke, has indicated in a clear, straightforward manner that it expects to win and even wants to pursue that course. Such statements from military men were of course severely edited from speeches by censors who were apparently following State Department policy, but the military point of view was clearly evident. The "memo" by Senator Fulbright slowed communication to the public from military experts on Communism, but the message still managed to get through.

It has been awkward in past months that only our military men were speaking of winning the cold war. It would have been more appropriate and more worthwhile if men like Senator Fulbright and Secretary Rusk, who are at the top in determining the nation's foreign policies and interpreting them to the people, had come forth with declarations that would have encouraged our allies and discouraged our Communist foes in the cold war. It is obvious that there has been a sophisticated group in the Administration advocating what Senator Thurmond termed a "no-win" policy.

**The Soft Line**

These men apparently believe that the Communist nations will evolve into peaceful socialist states. Even Under Secretary of State Ball has argued that we should allow the Communist countries to "mellow" rather than keep them alarmed by continual challenge. The Rostov papers, prepared by a White House advisor, followed a similar line. One might expect such thinking to emanate from friends of Khrushchev and Castro, or from some disciplined member of the Communist Party in this country.

Whether the Rusk statement is going to be implemented further by thorough policy overhaul and by subsequent action is now

**PRISON RODEO STAR—**  
Anita Bryant, nationally-famous recording artist, will make a personal appearance at the 31st Annual Texas Prison Rodeo in Huntsville, Sunday, Oct. 14. The popular singer, who rose to fame on the Bob Hope Show, is known as "Miss Coca-Cola" on radio and television. The rodeo also features top inmate riders contesting tough prison stock in what is termed the "World's Wildest Rodeo." The show begins at 2 p.m. and lasts two hours.

Marketing Service, working with growers and the food trade, runs a monthly survey of our nation's supplies of foods.

Is there enough? What foods are more than ample? Texas homemakers and other Americans again can rest assured. There is plenty for all, this October. What's more, supplies of at least 10 foods are in excess of normal trade needs. That means they likely will be among your most economical food buys.

Three items — apples, broiler-fryers and cheese — are featured on AMS's October list of plentiful foods. Supplies are extra-huge. Also plentiful this month are frozen orange juice, cranberries, pears, grapes, potatoes, turkeys and rice.

Menu planners will do well to serve these foods often. Besides offering economy, they enhance fall meals with flavor, nutrition and color.

the question. If decisive attitudes and new actions are not forthcoming soon from the State Department, one must then assume that the Rusk speech at Minneapolis was only political window-dressing to indicate compliance with popular feeling. While this tactic might remove some of the heat, the State Department is going to have a lot more to do before the public will be satisfied.

**Overhaul Needed**

Mr. Rusk must be congratulated for what he has said, encouraged to get on with the job of really meeting the Communist challenge wherever it is presented. Instead of making accommodations and concessions throughout the world, whether President Kennedy and Secretary Rusk can develop a suitable foreign policy for America by listening to the advice of socialists like Arthur Schlesinger, Jr., revisionists like Senator Fulbright, or "no win" theorists like Walt Rostow is extremely doubtful. The Liberal wing has little worthwhile to offer.

The Secretary may have to overhaul the whole Department of State in order to bring about any significant implementation of this new policy. Undoubtedly the people will be behind President Kennedy and Secretary Rusk in such an undertaking. Opposition to the Communists in the cold war may prevent a hot war later. The theory that we should not offend the Russians and not press vigorously the cold war has never been realistic nor has it served our purposes. We need statesmen who believe in America and do not hesitate to call for defeat of Communist aims.

College Station — October is the month of traditional farm abundance. It's the time when Grandpa and Grandma took inventory of their granaries, vegetable and fruit cellars, pantries and larders.

The fall inventory of foods is even more important today than it was in bygone years. Our living is more complex. More of us rely on others to supply our food needs, points out the Texas Agricultural Extension Service. That's why the Agricultural

## You Can't Go With Good And Bad For Long

**THE WEEK'S LETTER:** "I am 16 years old and have a very serious problem with boys. I go with a boy who lives near me but I like two other boys. It happens to me every time that I see a boy that I like—something goes wrong inside of me and I forget about the others. Two very nice boys like me, but I don't like either of them. I don't know why, but I always like the bad boys. I try to forget them and like the good

ones, but I can't. My mother likes the two nice boys. She does not know about the other boys because I think she would say they are not good enough for me. All of these boys attend the same school. What should I do about these fellows?"

**OUR REPLY:** You must begin by realizing the simple facts of life—associating with the bad guys is only going to bring you a barrelful of trouble. And, any time that

you go out with a boy who would not introduce to your mother, there's something wrong with him and you are just asking for disappointment and heartaches—for yourself, and your parents. Get smart before you earn the reputation for being a bad girl (after all, do the good girls go with the bad guys?) and then won't be able to make a choice between the good guys and the bad guys. The two nice boys who like you may not measure up, but there are plenty of good guys in your neck of the woods who have much more on the ball than all the bad boys put together. This is the type of fellow who wouldn't bother to ask you for a date if he didn't think much of the boys you have been with.

One thing is sure: you must choose between the good and the bad before folks begin to think you are bad yourself.

If you have a teenage problem you want to discuss, or an observation to make, address your letter to FOR AND ABOUT TEENAGERS, NATIONAL WEEKLY NEWSPAPER SERVICE, FRANKFORT, KY.

**ROCKWOOD WSCS REGULAR MEETING**

"The Biblical Foundation of Missions" and "Around The Rim of East Asia" was the program introducing the fall study of the "Rim of Asia," led by Mrs. M. A. Richardson at the Rockwood Methodist Church Monday, for the Woman's Society of Christian Service. Mrs. Richardson also discussed the Federation of Methodist Women. Mrs. John Hunter conducted the business session.

Others assisting with the program were Mrs. Cecil Richardson, Mrs. Aubrey McSwain, Mrs. Marcus Johnson and Mrs. Fox Johnson.

Mr. and Mrs. Walter Roach and Terrie of Abilene were week end visitors with her parents, Mr. and Mrs. J. M. House. Mrs. Roach and Terrie stayed to visit this week.

Mr. and Mrs. John Stephens of Bangs were brief visitors with Mrs. R. B. Archer one morning last week.

**Show Exact Amounts Of Cash Wages Paid Household Employees**

Although most employers of household workers in this area are now complying with the social security law and reporting their employees' wages, some are reporting only approximate amounts, R. R. Tuley Jr., Social Security District Manager in Abilene, said today. Exact amounts are needed, he pointed out so that social security benefit payments can be figured correctly when the worker becomes disabled, retires, or dies.

Tuley suggested that housewives keep just a simple record of the cash amounts paid to household workers during each calendar quarter and add up the payments when it comes time to make out the report. The Abilene Social Security District Office has explanatory leaflets which will help the employer to correctly prepare the report, he said.

Any housewife who pays a household worker \$50 or more in a 3-month calendar quarter of the year must send in a quarterly report to the District Director of Internal Revenue. Reports for the July-August-September quarter are due by October 31, Tuley said. He emphasized that it is the amount of cash wages paid, not the hours or days worked, that determines whether or not a household worker must be reported.

Mrs. Ola Niell and Miss Alta of Temple were in Santa Anna for the homecoming and visited with friends and relatives. They returned to their home Monday.

**NEED dessert for company?** It's easy when you have a freezer and can store vanilla ice cream scooped in balls and rolled in coconut, foil-wrapped in it. Serve with caramel or chocolate sauce.

Green beans take on old-fashioned flavor when they're cooked with bacon bits. Serve sprinkled with Parmesan cheese.

Have some broiled fish left over? Combine with extra seafood like a small can of shrimp, canned mushrooms and cream of celery soup thinned with 1/2 cup of cream. Heat in a shallow casserole with buttered bread crumb topping.

**Helen's Favorite:**  
Date Chess Tarts (Serves 8)  
1/2 cup dates, chopped  
1/2 cup butter  
1 1/4 cups sugar  
3 eggs, separated  
1 cup chopped nuts  
1 teaspoon vanilla  
8 unbaked tart shells  
Cream butter with 1 cup sugar. Add beaten egg yolks and 1 stiffly beaten egg white. Stir in nuts, dates and vanilla. Pour into shells and bake in a hot (400°F.) oven for 15 minutes. Make meringue by beating 2 egg whites with remaining sugar; remove tarts from oven and spread with meringue. Return to oven, reduce heat to 325°F., and bake for 15 minutes longer.

Try blending some lime or lemon concentrate into cream cheese and serve this as a topping for fruit salads or just as topping for a fruit cup. The flavor's most refreshing.  
Add leftover apricot or berry jam to milk and serve as a wonderful treat with cooked oatmeal.

**About Your Health**

Austin — If you are a chronic or occasional hay fever victim, you're in excellent company. One of every 20 Americans is.

While the general situation in Texas is better than some states and worse than others, the range of climate and soil conditions here probably does produce a wider-than-average assortment of trees, shrubs and grasses potentially offensive to hay fever sufferers.

Hay fever is one of the allergic diseases. Usually inherited, it is caused by inhaled substances, such as pollen, molds or insect dusts.

The abundance of pecan, oak, elm, cypress and cedar trees in Texas, and widespread Bermuda and Johnson grass, Russian thistle and sage—in addition to ragweed, serve to complicate the pollen-induced hay fever picture in this state.

The production of pollen is part of a plant's seed manufacturing process. "Pollen" is a Latin word which means "fine flour." Granules of pollen are produced in the anthers, the male reproductive parts in plants. The granules are similar to sperm cells of animals in that they have the function of fertilizing the seed.

Plants do not deliver pollen into the air at a constant rate. Most plants, including ragweed, shed more heavily in the morning than in the afternoon. Since the amount of pollen released is greatly stimulated by sunlight, much more is shed on sunny days than when the weather is cloudy.

Other factors which influence the amount of pollen in the air in any given area on any given day are temperature, rainfall, wind velocity and wind direction. If you suffer from hay fever, don't make the mistake of assuming your case is identical to your neighbor's. The investigation into the cause of your ailment must be made by a physician through skin tests. Once the offending substance has been identified, it is frequently possible to get complete or partial relief with injections of a desensitizing agent.

Meanwhile, remember there is more pollen in the country than in the city, less near large bodies of water. Wide open windows will increase the amount of pollen in a room. Room air conditioners with filtering units offer much relief. (A feature from the Health Education Division, Texas State Department of Health.)

**VENTS REMOVE MOISTURE FROM HOMES**

College Station — The approach of cool weather means harvest time, hunting season, and warm glowing fires and heaters. And heaters and open flames mean the return of the annual problem of sweating walls and windows, according to W. S. Allen, extension agricultural engineer, Texas A&M College.

A considerable amount of moisture is given off when open flame heaters are burned, he says. When this moisture contacts a cold surface it condenses to a liquid state, the sweating you see.

To solve this problem all gas stoves, floor furnaces, central heating systems, gas refrigerators, dryers and water heaters should be vented, Allen says. This can best be done in a new house when it is built or when an old one is remodeled, but it is sometimes possible to vent space heaters through a closet or old chimney. But some condensation will occur if the open flame type heater is used.

Allen also suggests the use of good insulation when new homes are built and where practical it can be installed in older houses.

Properly venting of stoves, clothes dryers, water heaters, sinks, dishwashing areas and showers will solve the moisture problem in many homes. Check your appliances today to see if they can be vented to prevent mildew and sweating in those areas of the house where excess moisture occurs, says Allen.

**New Calendar Of Events Ready For Public Use**

Austin — Critics who feel Texans have little appreciation of the finer things in life might study the new Texas Calendar of Events for fall and winter, released this week by the Travel and Information Division of the Texas Highway Department.

More than half the 407 state-wide events listed in the 16-page booklet are in the fine arts field — concert, ballets, operas and stage productions. Leavening is provided by gala festivals such as El Paso's Southwestern Sun Carnival, Ty-

ler's Texas Rose Festival, Edinburg's Pan American Bronco Day's Mission's Texas Citrus Fiesta and Brownsville's Charro Day's.

The unexpected is here too—New Braunfels' Sausage Festival, the Hill Country Sausage (Singing) Festival at Fredericksburg and Corpus Christi's New Years Swim.

October through March events are distributed among 90 Texas communities ranging in size from Houston and Dallas to Bartlett and Lyford. All were submitted by chambers of commerce upon request of the Highway Department, Texas' official travel promotion agency.

Number of events is up 56 over the spring and summer calendar, a record 44,000 copies of which were distributed nationwide.

The complimentary calendars are available to Texans and out-of-state visitors alike through Highway Department's eight Tourist Bureaus, the Travel and Information Division, P. O. Box 5064, Austin and local chambers of commerce.

Visiting with relatives and attending the homecoming during the weekend were Mrs. Bill Pritchard, Sue and Cherie Moore of Post, A3c Robert Pritchard of Amarillo AFB and A3c Frank Gerardi of Dyess AFB, Abilene. They visited in the home of Mr. and Mrs. W. E. Vanderford.

Mrs. Eva Conley and Mrs. Nettie Berry returned to their home in Temple Tuesday afternoon, after visiting with friends and relatives here.

Visitors with Mrs. R. B. Archer Sunday were a nephew, Mr. and Mrs. Othel Curry of Denton. They were here for the Homecoming.

Mr. and Mrs. Allen Pierce and children, Paula Sue and Mark of Austin, were visitors with her parents, Mr. and Mrs. J. W. McClellan, over the weekend and attended the Homecoming. Mrs. Pierce and children stayed over to spend the week.

Measles are killers. In the U. S. alone, one million persons contract measles each year and between 500 and 700 die from the disease. This is far more than polio kills. Children under five are principal victims.

**Laugh Of The Week**

Sure, go ahead and marry her— maybe it'll help your silly stammering!"

**Should Dry Ewes Get Another Chance?**

College Station — Fine wool ewes that have one dry season may deserve another chance, says a new Progress Report 2233, Lamb Series 34, of the Texas Agricultural Experiment Station.

Such ewes that do not lamb in their first season may become as good producers as those that lamb every season. The report explains that under range conditions some ewes may not have sufficient development by their first breeding season to lamb and yet it would not be economical to replace them before they have a chance to develop. However, ewes under farm type conditions should have the necessary growth and should be culled if they do not lamb.

The report points out that mature ewes that had dry years either on range or farm conditions are less satisfactory breeders the following year. The report again recommended that ewes on the range should not be culled for economic reasons but that the ones on the farm type management should be removed from the flock.

The report says that ewes that have twins under either condition were better producers the following seasons.

Therefore, the decision as to

whether to cull or not depends on the conditions under which the animals are raised, the number of ewes available for culling, the cost of the replacements, and the age of the ewes.

For more information on the relation of one dry season to the later productivity of fine wool ewes, write the Agricultural Information Office, College Station, and request the Progress Report 2233, Lamb Series 34.

**ROCKWOOD WMS STUDY MEETING**

"Sharing My Saviour With Those Who Cannot Read," was the theme of the Bible study led by Mrs. R. J. Deal, when the Woman's Missionary Society met at the Rockwood Baptist Church Monday. Mrs. Curtis Bryan, president, presided and introduced Mrs. Parker and served cookies and coffee to Mrs. J. Deal, Ray Caldwell, Bill Bryan, John Hunter, Jack Cooper, Henry Smith and the guest, Mrs. Parker.

## ELECTED TO ORDER OF THE ARROW

Mrs. Rex Golston Sr. received word recently that her son, Rex Jr. and his son, Joe, age 15, were recently elected by secret ballot of the Boy Scout Troop at their California home, to go into the Order of The Arrow, an honor group of Scouts for boys and men, with a limited membership. The two went to their Boy Scout Camp Sept. 29, to receive the honor.

## SUNDAY'S SCRIMM

Rev. ROBERT H. HARPER  
NEW WORLD

IN 1492 Columbus sailed the ocean blue" and discovered a new world beyond the western wave. Though tradition tells us that Leif Erickson visited Greenland and the northern shores of our continent about 1000 A.D., and though the old stone tower at Newport still stands as an enigma, Columbus still ranks as the discoverer.

An Englishman who visited our country not so long ago, according to the story, was not greatly impressed by the achievement of Columbus. Landing at New York, he soon took a train for New Orleans. Accustomed to railway travel in his "tight little isle," he was amazed at the time consumed by the train in reaching New Orleans.

**JUST A THOUGHT:**  
When we face the necessity of admitting fault or correcting some mistake, we should remember that such things are somewhat like a disease—the longer we wait to take action, the more difficult the task becomes.

When at last the train reached New Orleans and he went into the street, he found that a parade was in progress. When told the people were celebrating Columbus Day and was reminded that Columbus had discovered America, he repeated, "discovered America," and added, "Ow could he 'ave missed it?"

Yes, Columbus had a vaster land before him than he knew of when he sailed to the west in 1492; he sailed for India, discovered a new world instead. Let us ever be thankful unto God for the New World.

## Mountaineers Take 36-8 Pounding In Opening Conference Game

The Mountaineers took a tremendous 36-8 pounding from a highly-keyed-up Goldthwaite Eagle eleven in the opening conference game in District 9-A Friday night. Just what was the matter with the Mountaineers is almost anyone's guess as there were several things that could have been wrong with them. At least, they were at their lowest ebb in a long time. It could have been the pressure of the homecoming, maybe they had read their press releases again and Goldthwaite did not, or it appeared to this writer that there might have been some descension in the ranks. Whatever it was, it was disastrous for the Mountaineers and they gave up their first chance in a good many years of winning the district crown.

### VALDEZ INJURED

Frank Valdez, a good lineman and backfield man, suffered a broken arm during the early part of the game, but continued to play in his position at left guard. Coach Smith did not even know of the injury until after the game was over. Valdez will be out for the remainder of the season and will be sorely missed in the games to come.

### NO PENALTIES

This was the first game this year that the Mountaineers did not receive any penalties. During all previous games they have received penalties for various infractions and when a team is really anxious, they are going to suffer some penalties.

Regardless of what the excuses, there is just one thing to do now — and that is to dissolve any difference and get back to play as a team. No one person or ten eleven persons playing as individuals can win a ball game. It takes the united effort of all eleven players to win.

Stewardson's punting was the only thing really outstanding so far as the Mountaineers were concerned. Punting six times, he averaged 30 yards. On one punt he only got 17 yards and on a blocked punt he lost eight yards. However, he had other punts of 40, 70, 60 and 57 yards. One of these was fumbled by the Eagles and recovered by the Mountaineers on the one-foot line, which gave the Mountaineers their only TD of the evening.

### THE GAME

The Mountaineers took the kickoff, returned 14 yards, then gained 12 yards by taking a fourth-down chance and making their first first down. After failing to gain, they punted with the Eagles returning the ball to their 25-yard line. Fifteen plays later they crossed the goal line for their first TD then made the two extra points on a pass. The Mountaineers took the kick off back 16 yards, then gained 3 yards to their 33 as the quarter ended.

The Mountaineers lost back to their 26 and Stewardson punted to the Eagle 2-yard line. The Eagles could not gain and attempted a punt from their end zone. It was a high punt but had no distance and actually lost the Eagles 5 yards, giving the Mountaineers the ball on the Eagle 3-yard line. The Mountaineers lost a yard, gained a yard, lost a yard and failed to connect on a pass, giving the Eagles the ball back on their 4-yard line. The Eagles drove out to the 21, got a 5-yard penalty, then lost back to the 6-yard line. They gained out to the 24, but had to punt with the Mountaineers getting the ball on the Eagle 49-yard line. The Mountaineers gained 2 yards, then lost five and Stewardson got off a bad punt that went only 17 yards. The Eagle quarterback took the punt and returned to the Mountaineer 34-yard line. It just took the Eagles five plays to cross the goal line again, this time on a 10-yard pass. Try for extra points failed.

The Mountaineers took the kickoff back 10 yards, connected with a nice screen pass for 35 yards, gained 9 yards, then had a pass intercepted on the last play of the first half.

The Eagles took the kickoff and returned 11 yards, to their 24. Driving hard, it took them only 12 plays to cross the goal line the third time. The pass attempt for extra points failed.

The Mountaineers took the kickoff back 17 yards, but lost 3, gained 1, then lost 2 on a screen pass and Stewardson punted to the 1-foot line where the Eagles fumbled and a Mountaineer recovery gave the Mountaineers the ball on the 1-foot line. Simmons scored the TD on a keeper through center, then passed to Stewardson for the two extra points. This seemed to revive the Mountaineers for a few minutes.

The Eagles returned the kick off 24 yards, failed to gain, tried a pass that was no good, then Terry McIver intercepted a pass and returned it 10 yards, to the Eagle 20-yard line. A deep pass was ruled incomplete right at the goal line. This might have been interference with the pass receiver, but the officials did not see it that way, so the ball

was returned to the 29. A gain of 2 came next, then another pass attempt failed and the Mountaineers gained a yard on a fourth-down try, with the ball going over. The Eagles made a first down, but had to punt on the next series. The Mountaineers returned 5 yards, gained one yard on the ground and tried two passes, then punted to the 4-yard line with the Eagles returning to their 9-yard line as the quarter ended.

The Eagles drove to the Mountaineer 7-yard line, received a 5-yard penalty, then fumbled with the Mountaineers recovering on the 10-yard line. They gained 3, failed on a long pass, then the Eagles intercepted a pass and returned to the Mountaineer 9-yard line. A 5-yard penalty put them back on the 14. They gained 5, then went wide around right end for the 9 yards and the TD. A pass was good for the two extra points.

On the kickoff, the Mountaineers let the ball roll into the end zone untouched. It still being a free ball, an Eagle fell on the ball for the TD. They went around right end for the two extra points, making their 36 points.

The Mountaineers returned to kick off 10 yards, then gained a yard on their 41, lost back to the 37 and gained to the 43. Stewardson attempted to punt but it was blocked and the Eagles took the ball on the Mountaineer 34-yard line. The game ended with the Eagles on the Mountaineer 26-yard line.

## FOOTBALL ROUND-UP

The Goldthwaite Eagles, Early Longhorns and Burnet Bulldogs proved they are the powers in District 9-A Friday night by lashing their opponents by big scores.

The Eagles played the Mountaineers completely off their feet. Even after getting numerous bad breaks the Eagles kept up their powerful ground attack and gained 21 first downs while the Mountaineers made only 3. The Eagles scored in every quarter behind the powerful Gray, Cagle and Benningfield combinations, backed by a line that was on top of every play. It is our opinion at this time the Eagles and Early Longhorns will play for the district championship. However, Burnet is not to be overlooked and could drop either of the above teams.

The Early Longhorns dropped the Copperas Cove Bulldogs by a 28-0 score. The Bulldogs are the defending champions of District 9-A, but have had very little success this year, winning only one game out of five.

Early's fullback Kenneth Lampkin, top scorer in the district, added 6 points to his total in the first period to start the ball rolling.

The Burnet Bulldogs scored in all four quarters to defeat the Bangs Dragons 38-0 in the conference opener for both teams. Bangs had been selected as the dark horse in the district and appeared they might be a power before the district play got underway. However, they must have showed up about like the Mountaineers Friday night from the report on the game.

Marble Falls took a 22-0 lashing from Boerne Friday night in the only non-conference game by District 9-A members. The Mustangs now have a 0-4 record and are not expected to be much of a contender for anything other than the bottom spot in the district standings.

Austin — With 12 indictments already returned in the East Texas slant-hole investigation, there are strong side-currents growing out of the East Texas scandals.

Rep. Charles Ballman of Borger and his fellow House investigators sent a preliminary report to Speaker James A. Turman and Gov. Price Daniel. They urged "immediate action" on eight changes in or additions to the criminal laws.

They also proposed that a procedure be set up to replace state officials who become ill and unable to handle their duties. This obviously is a reference to Railroad Commissioner Ernest O. Thompson, who has been ill at his home in Amarillo for several months.

A major policy change would be revision of the old "marginal well law" which could be very important to many Texans, particularly in old oil areas.

Present law says that if an oil well cannot make as much as 20 barrels a day, it is a "marginal well" which must be exempt from shutdown days. Thus, a well producing 19 barrels a day will get an allowable of 570 barrels a month. But a well capable of making 1,000 barrels a day will be held to 160 barrels a month — 20 barrels a day times eight producing days.

Committee recommended that marginal wells be held to the same monthly allowable as a non-marginal well in the same field.

Gov. Daniel has been non-committal on the possibility of calling a special session of the Legislature to act on this and other current problem areas. **COMMISSION SHAKEUP**  
Texas Railroad Commission

is under a reorganization study by the Texas Research League. Already changes in procedures are being put into effect.

**COMMISSIONERS**  
Commissioners William J. Murray Jr. and Ben Ramsey named a committee of oilmen headed by James E. Russell of Abilene to advise on revision of rules and procedures which most admit had become too cumbersome and slow.

**PADRE AND MADRE**  
Land Commissioner Jerry Sadler continues his battle against creation of the Padre Island National Seashore.

He has charged that oilmen bidding on state school leases in Laguna Madre did not make big cash bonus offers to the state because of passage of the Padre Island bill.

Sadler intends to oppose legislation to authorize sales of state land in Laguna Madre to the U. S. for the recreation area.

He has hired Captain William C. Russell of Fort Worth, recently retired as director of the Southwest Division of the Coast and Geodetic Survey, to survey the area along the Gulf.

Although the so-called "tidelands" law was passed in 1953, there has not been a settlement between Texas and the U.S. as to where the exact boundary lies. Russell, whose life work has been in coastal surveying, will undertake that chore.

It is made doubly hard because the line is supposed to be three marine leagues off the shore, as it was in 1848 when Texas entered the union. The shoreline has changed considerably in the intervening years.

**BUSINESS PERKS UP**  
Texas business activity rose seven per cent in August over July. And eight per cent above that of August, 1961.

Bureau of Business Research of the University of Texas found this rosier picture in August, after two bad months of decline.

**CASH ON HAND**  
While there has been lots of talk about the state government being in the red, it really never has been.

On August 31, when the fiscal year ended, the State Treasury had a cash balance of more than \$219,000,000.

Deficits have been recurring in one of the state's 380 or so funds — the General Revenue Fund. But the others always have cash balances.

Comptroller Robert Calvert gave Texans some charts. They show where \$1,300,000,000 went last year. Education took 41.01 cents of each dollar, highways took 28.50 cents, public welfare cost 16.29 cents, state hospitals and prisons cost 5.16 cents, and all the rest — Legislature, courts, administrative agencies and everything else — cost 9.04 cents of every dollar.

**LAND SENTENCE**  
A third man's conviction from the veterans land scandals of the mid-1950's was affirmed by the Texas Court of Criminal Appeals.

He was B. R. Sheffield of Brady, who was found guilty by a Hill County jury of "uttering a false instrument" in the case of one of the 54 veterans whose rights were put together to buy a 10,000-acre ranch in Kinney County.

Previous convictions were on former Land Commissioner Bascom Giles and J. T. McLarty. Sheffield recently paid back the Veterans Land Board, with interest, the money he received for the land.

**LOST PARK**  
Back in 1933, Joe Espy of Fort Davis gave the state 169 acres in the Davis Mountains, with a provision that if it were not developed for public recreation he would get it back.

The state failed to develop the land, so Espy sued to get it back. Trial court held that he was entitled to the land, and ordered it returned. The State Parks Board is appealing.

Espy said he would give it to the Parks Board again... if the Board will develop it as a park.

**FEDERAL AID**  
Texas has received \$317,920 from the U. S. Forest Service to be allocated to East Texas counties where national forests are located.

Counties and schools in the

forest areas get 25 per cent of the Forest Service's income from the forests, to help maintain road and school programs.

**BOOK DEFENDERS**  
The men and women who run the public schools came out in strong support of the present method of selecting textbooks in Texas.

Plan has been under attack by some witnesses at recent legislative hearings.

Texas Association of School Boards, meeting in Austin, found no fault in the system by which a textbook committee selects as many as five books for each course, and then local textbook committees decide which of the five they will use.

School board members also took no action on an Ector County proposal that central state purchasing of school buses be ended.

**COLLEGE TAX ILLEGAL?**  
Texas Supreme Court action is expected soon on a case which could upset the junior college set-up in Texas.

Taxpayers' suit from Harris County contends that the Legislature had no constitutional authority to allow the levying of taxes by junior college districts.

Supreme Court has been studying the case since April. Should it agree with the taxpayers, it would take a constitutional amendment to legalize the college districts. Meanwhile, state money might be needed to keep the 32 junior colleges going until the voters have a say on the subject.

**OLD BADGES**  
Texas Rangers have gone back to the old days and old ways.

Old-time Rangers carved their own badges out of Mexican pesos. It was a star within a circle.

A fancy new-style badge was adopted in 1936 when Rangers were put under the Department of Public Safety.

Now they are going back to the old-type badge. But they won't carve their own. All 62 Rangers were issued shiny new ones, ready-made.

**SLOW PICKING**  
Texas Department of Agriculture reports a slow-down in cotton picking. Harvest slowed to 29 per cent, which is the same as this time last year.

Damp weather kept bolls from opening in the South Plains and rains slowed the picking in other areas.

Wet fields also have slowed the sorghum harvest.

**SUMMER READING**  
Nearly 21,000 school-age children in 285 cities earned certificates from the Texas State Library for summer reading.

Boys and girls who read 12 books during the summer, got the awards.

**STUDY COMMITTEE**  
A citizens' advisory committee has been named to help the Texas Legislative Council study the problems of emotionally disturbed children. Rep. C. W. Pearcey Jr. of Temple is chairman.

The study committee was set up after experts advised that Texas has few facilities for curing such disorders.

**GOVERNOR NAMES**  
Governor Daniel named Mack Wallace of Athens as district attorney, to replace Jack Hardee of Athens, who resigned because he is the Democratic nominee for district judge. District is composed of Henderson, Anderson and Houston Counties.

He also named Boyd Hiley of Lamesa to the Egg Marketing Advisory Board, and reappointed Jack Dubose of Gonzales and Marvin Gilbreath of Weimar on that board.

B. H. Dewey of Bryan and Rep. George Hinson of Mineola were named to the Southern Regional Education Board.

**BALLOT ROSTER**  
Secretary of State Frank Lake has certified 24 candidates for statewide office.

Names appearing on the November 6 general election ballot

will include 14 Democratic nominees, eight Republicans and two from the Constitution Party.

In addition, the fate of 14 proposed constitutional amendments will be decided by the voters.

**TWO WITHDRAW**  
Two Constitution party candidates have notified the Secretary of State to withdraw their names from the November election.

They are Ruben Lozano of San Antonio, candidate for Congressman-at-Large and Roy R. Brown of Bonham, candidate for Lieutenant Governor.

**JOBS ON RISE**  
Figures released in Austin by the U. S. Department of Labor show the Texas employment picture to be twice as good as the national average.

Texas' non-agricultural employment increase from 1947 to 1961 was 45.4 per cent, almost double the national average of 23 per cent.

**NEW ERA PREDUCTED**  
Maurice Turner, chairman of the State Parks Board, believes a surge of public interest presages "a mighty effort to modernize Texas' neglected state parks system."

He credits this new interest to a sizeable movement to develop tourism in Texas.

Attendance at Texas state parks increased by some 500,000 persons during the last fiscal year.

In keeping with the national trend, overnight campers increased by more than 100,000.

Total visitation for the fiscal year ending August 31, 1962, was 7,099,672, compared with 6,614,332 for the preceding year.

**SHORT SNOOTS**  
Governor Price Daniel attended his last Southern Governors Conference in Hollywood, Fla., and brought out a report challenging national import policies on oil, saying that the domestic oil industry is hit hard by imports from foreign lands.

Atty. Gen. Will Wilson held that school teachers are not entitled to get their jobs back when they return from military service, such as the recent call-up of part of the Texas National Guard.

It's Time For... EYE CARE

Dr. Newton K. Wesley  
VISION AND DRIVING

It is a common thing to accept vision as part of driving—so common, in fact, that very few of us even think of it. Yet, ninety per cent of driving decisions are based on our ability to see and to react.

A National Safety Council study of 685,000 traffic accidents reveals that nearly nine in ten occurs at speeds below 40 miles per hour. Actually, most accidents happen under "safe" conditions, in clear, dry weather, on straight roads, and low traffic volume.

What causes the trouble? Worry, daydreaming, impatience, and the plain fact that drivers just can't see where they're going. Regardless of the reason, it's your business to see everything necessary to drive without injury to you or anyone else.

Unfortunately, millions of drivers don't know their visual shortcomings. The American Optometric Association points out that one out of every five drivers—with or without glasses—has at least one vision deficiency which affects safe driving.

License tests are not designed to eliminate drivers but to enforce the maintenance of the best possible driving skills and aptitude of each driver.

But the driver can help, too. He can visit his eye doctor at least once every six months. He should remember that he has a legal and moral obligation to employ and maintain the best driving vision possible.

### Farm Bureau To Wage Campaign To Stop Hog Cholera

Waco — The Texas Farm Bureau will use its resources to help wage a campaign to eradicate hog cholera in Texas. The TFB board voted to carry out an educational program among swine producers.

New interstate shipping rules for swine, which will go into effect Nov. 5, will help prevent the spread of hog cholera, a vital step in the campaign to eradicate this \$50-million-a-year disease from the U.S. Last year Congress authorized the USDA to cooperate with states in carrying out a riddance program.

Acceptance of the new shipping regulations by producers of Texas will determine how quickly the program becomes effective.

"It is likely that enforcement of the law will not be pushed until understanding among producers is attained," said Dr. G. H. Wise, in charge of the hog cholera program for the USDA.

The new regulations are concerned with interstate shipment of swine and virulent hog cholera virus. Generally, the regulations prohibit movement of infected or exposed hogs, raw garbage for hogs and virulent virus.
