## Community Choir Plans Cantata

A Christmas cantata, "Christ is Born" by John Peterson, will be presented by the Santa Anna Community Choir, an annual presentation of the interdenominational group. The cantata is being rehearsed by choir members of several local churches with practice sessions held at United Methodist Church at 7:30 p.m. each Wednesday and at First Baptist Church at 6 p.m. on Sunday.

Dr. Bob Sartain, music director at First Baptist Church, will direct the cantata. Leanna Hartman is pianist.

Orabeth McIver is leading the rehearsals at the Methodist Church until the combined group will meet in November.

Singers may choose one rehearsal period a week through October, then the group will meet together on a schedule to be arranged.

Singers from all local churches are invited to take part. The previous programs have included as many as 35 singers from four churches.

## Fiesta de la Paloma Planned County Event September 30 To Have Many Attractions

Fiesta de la Paloma is planned Saturday, September 30, at Coleman, and a number of festivities are on the schedule for Dove Festival.

One of the main attractions of the county event will be the Ladies Division to be held at the Recreation Building at the Coleman Rodeo Grounds. Mrs. Ellis Martin and Mrs. Wesley Smith of Coleman are chairmen of the show.

The eight division chairmen are Mrs. C. W. Hamm, Coleman - Antiques; Mrs. Phil Huggins, Coleman - Ceramics; Mrs. Jewel McMinn, Coleman - Hobbies; Mrs. Charlie Rae, Gouldbusk Home Canning; Mrs. Woodrow Gage, Talpa - Knitting and Crochet; Mrs. Fred Haynes, Trickham - Needlework; Mrs. Randy French, Coleman, Care Center Corner; and Grandparents Brag.

The recreation building will be

open at 8 a.m. Saturday, September 30, and entries must be in place for the judging by 9:15 a.m. The building will be open to the public from 12 noon to 6 p.m. at which time entries may be picked up by exhibitors.

Due to limited space, only one entry is accepted in each division from each individual. All articles must be the work of the exhibitor and must have been completed within the past 12 months.

Other events planned during the day include a youth horse show, a skeet shoot, a dove cook-off, a skateboard contest, flea market, art show and sale, food booths, entertainment, demonstrations and exhibits.

Another new event to be held

will be a beauty pageant to crown "Miss Fiesta de la Paloma" who will reign during the day and present ribbons and awards to the contest winners.

Among the Coleman County girls entered in the contest is Michelle Cozart of Santa Anna, the daughter of Mrs. Janice Cozart, who is sponsored by Coleman Bank. The contest will be held at 9:30 a.m. Saturday, September 30 at the pavilion at the Rodeo Grounds.

The Fiesta will be one of the most entertaining events in Coleman County, and everyone in the area is urged to take part in some way.

Those wanting more information on the contests and activities are asked to contact the Coleman Chamber of Commerce office for entry blanks and information.

Pat (Mrs. R. C.) Smith is neither a fisherman or a carpenter, but items in her garage might indicate otherwise.

It seems that after the Junior-Senior banquet last spring the Smith garage became the final resting place of two good minnow seines and a hand saw. Some of the class members borrowed the items to decorate the school cafeteria Hawaiian style, and the items did not get returned.

Pat does not know to whom the seines and saw belong, but hopes to have the owners come for them at their convenience.

bk

We have had several good pictures furnished us for the Homecoming edition of the News, and we urge those planning class reunions to bring pictures or stories to us as soon as possible.

More groups are planning reunions than ever before, so the 1978 Homecoming should be the best in many years.

bk

For those who have not made a note of the Homecoming, the dates are Friday and Saturday, October 6 and 7 - just two weeks away.

Local ex-students are especially urged to take part in the activities and visit with those from out of town who will be here for the festivities.

## Bears Maul Mountaineers; Eagles To Invade Friday

By Coach Bill Jennings  
Despite a much-improved running game by the Santa Anna Mountaineers, the Baird Bears left town Friday night with a 35-6 victory.

Baird, showing a well-balanced offense, scored in every quarter including two in the second frame. Baird amassed 263 yards rushing and 91 yards passing.

The Mountaineers' lone tally came in the first stanza when Dwayne Warnock scored from one-year out.

Dwayne was the leading ball carrier in the game, carrying the ball eight times for 143 yards.

Mike Warnock rushed 16 times for 42 yards. Much of the offense yardage was made possible by Dick Smith, a senior Tackle, who turned in a fine offensive performance.

The defensive team played well enough to win most of the time, during the game they stopped the Bears for no gain or a loss of yardage 20 times. However, several times on crucial downs the locals slipped up and allowed the Bears to advance beyond the down markers.

Leading defensive players for the Neers were Jerry Don Culpepper with 14 tackles; Wallace Collins with 10 tackles; Bruce Pape with nine tackles and an interception and a fumble recovery; Albert Collins with eight tackles; and Robbie Young with seven tackles.

Also Tommy Harris continued his outstanding play in the secondary making seven tackles, intercepting one pass and recovering a fumble.

The Mountaineers will have another home game Friday night, hosting the Goldthwaite Eagles at 8 p.m. The Class A Eagles are 0-2 for the season, losing to Hamilton last Friday night.

## PUBLIC NOTICE SUMMARY OF PROPOSED CONSTITUTIONAL AMENDMENTS GENERAL ELECTION NOV. 7, 1978

### "The Tax Relief Amendment"

(H.J.R. 1)

H.J.R. 1 proposes an amendment to the Texas Constitution allowing the legislature to exempt intangible personal property, requiring the legislature to exempt certain household goods and personal effects, and allowing the legislature to exempt all or part of the personal property homestead from state and local property taxation.

The amendment requires the legislature to provide for the taxation of farm and ranch land on the basis of its productive capacity instead of its market value and allows the legislature to provide for the taxation of timber land on its productive capacity.

The amendment permits local governments to extend the present exemption of not less than \$3,000 of the residence homestead of persons 65 and older to include certain disabled persons.

The amendment grants an exemption from public school property taxes of \$5,000 of the market value of the residence homestead. It authorizes the legislature to grant an additional exemption from public school property taxes of an amount not to exceed \$10,000 of the market value of the residence homesteads of persons 65 years of age or older and certain disabled persons. If a person 65 years of age or older qualifies for this exemption, the total amount of public school taxes imposed on that person's homestead may not be increased.

The amendment prevents local governments from increasing property taxes unless the governing body provides public notice and conducts a public hearing. The amendment requires the legislature to provide by law for each property owner to receive notice of the revaluation of his property and the amount taxes will be increased.

The amendment limits appropriations from state tax revenue to an amount not to exceed Texas' estimated economic growth rate, with the legislature authorized to make exceptions for emergencies.

The amendment prohibits the statewide appraisal of real property for property tax purposes. Enforcement of uniform standards and procedures for appraisal of property for property tax purposes is required to originate in the taxing

authority where the property tax is imposed.

The wording of the proposed amendment as it will appear on the ballot is as follows:

"The constitutional amendment providing for tax relief for residential homesteads, elderly persons, disabled persons, and agricultural land; for personal property exemptions; for truth in taxation procedures, including citizen involvement; for a redefinition of the tax base; for limitations on state spending; and for property tax administration."

### NUMBER ONE

(S.J.R. 50)

S.J.R. 50 proposes an amendment to the Texas Constitution to delete an archaic reference to the "Deaf and Dumb Asylum." The amendment would allow the State of Texas to purchase products and services done by handicapped individuals in nonprofit rehabilitation facilities without complying with bid requirements applicable to other state contracts. The amendment also would eliminate the formality of the approval of certain state contracts by the Governor, the Secretary of State and the Comptroller of Public Accounts.

The wording of the proposed amendment as it will appear on the ballot is as follows:

"The constitutional amendment deleting the archaic reference to the 'Deaf and Dumb Asylum,' allowing certain products and services of handicapped individuals to be used by agencies and departments of state government, requiring the procurement of other products and services required in the operation of state government to be made under bids awarded to the lowest responsible bidder, making all such procurement processes subject to laws enacted by the legislature, and eliminating the requirement that the Governor, the Secretary of State, and the Comptroller of Public Accounts of Texas be personally involved with such transactions."

### NUMBER TWO

(S.J.R. 55)

S.J.R. 55 proposes an amendment to the Texas Constitution to permit local governments to issue bonds for the reconstruction or acquisition of facilities (land, equipment and improvements) designed to develop employment opportunities. These

bonds would be payable solely from the revenue from the sale or lease of these facilities. The building or acquisition of such facilities must be determined by the local government to be necessary to develop employment opportunities.

The wording of the proposed amendment as it will appear on the ballot is as follows:

"The constitutional amendment to provide that the legislature may permit political subdivisions to issue revenue bonds to develop employment opportunities for its citizens."

### NUMBER THREE

(S.J.R. 44)

S.J.R. 44 proposes an amendment to the Texas Constitution which would allow the legislature to authorize cities and towns to issue tax increment bonds to finance the redevelopment of blighted areas. The bonds are to be paid solely from revenue from municipal tax increments. Payment cannot be made from the revenue of municipal taxes, utilities, or other services.

The wording of the proposed amendment as it will appear on the ballot is as follows:

"The constitutional amendment to give the legislature the power to authorize cities and towns to issue bonds to finance the redevelopment of blighted areas and prohibiting any city or town from granting its money or lending its credit for such purposes."

### NUMBER FOUR

(S.J.R. 53)

S.J.R. 53 proposes an amendment to the Texas Constitution to allow the legislature to exempt from taxation solar or wind-powered energy devices.

The wording of the proposed amendment as it will appear on the ballot is as follows:

"The constitutional amendment authorizing the legislature to exempt from taxation solar and wind-powered energy devices."

### NUMBER FIVE

(H.J.R. 37)

H.J.R. 37 proposes an amendment to the Texas Constitution to grant exclusive jurisdiction to justices of the peace in civil cases where the amount in controversy does not exceed \$200, except where the legislature gives exclusive jurisdiction to another court.

The amendment grants justices of the peace concurrent jurisdiction with county courts where the amount in controversy is between \$200 and \$500, except where the legislature gives the county court exclusive jurisdiction.

The amendment also grants justices of the peace concurrent jurisdiction

with both county and district courts where the amount in controversy is between \$500 and \$1,000, except where the legislature gives the county or district court exclusive jurisdiction.

The wording of the proposed amendment as it will appear on the ballot is as follows:

"The constitutional amendment to extend the jurisdiction of justices of the peace in civil cases."

### NUMBER SIX

(S.J.R. 45)

S.J.R. 45 proposes an amendment to the Texas Constitution to allow the legislature to expand the number of judges on any court of civil appeals. Presently courts of civil appeals are limited to a chief justice and two associate justices. The amendment also would allow the courts to sit in sections, with the concurrence of a majority of the judges sitting in the section necessary to decide a case.

The wording of the proposed amendment as it will appear on the ballot is as follows:

"The constitutional amendment permitting the legislature to increase the number of justices on a court of civil appeals, permitting a court of civil appeals to sit in sections, and requiring a concurrence of a majority of justices to decide a case."

### NUMBER SEVEN

(S.J.R. 48)

S.J.R. 48 proposes an amendment to the Texas Constitution eliminating the State Building Commission and the State Building Fund. The authority of the State Building Commission has been transferred by law to the State Board of Control.

"The constitutional amendment to repeal the constitutional authority for the State Building Commission and the State Building Fund."

### NUMBER EIGHT

(H.J.R. 42)

H.J.R. 42 proposes an amendment to the Texas Constitution allowing certain political subdivisions or districts in the state that can presently issue bonds or other indebtedness or otherwise lend their credit to engage in fire-fighting activities and to issue bonds or otherwise lend their credit to support such activities.

The wording of the proposed amendment as it will appear on the ballot is as follows:

## Self Culture Study Club Opens New Club Year

The Self Culture Club met Wednesday, September 13, in the home of Mrs. W. F. McCary for breakfast and a program. Co-hostess was Mrs. Opal Stockard, who greeted guests as they arrived. Pastel linens and vases of flowers decorated the tables.

Yearbooks were distributed to members. Mrs. Ellis Holden and Mrs. R. D. Murray were accepted as ex-officio members.

It was decided to give the book "Old Forts" to the Santa Anna Library as a memorial to the late Mrs. Henry Newman.

Mrs. Fred Garrett of Coleman was guest speaker. She has visited Bangkok, Thailand twice, and had many lovely things from that country to show the club

members. Among them, hand carved teakwood items, delicate hand-carved jewelry, an elephant bell, and a wedding picture of her son and his lovely wife who lived there.

Also there was a wedding invitation written in the language and style of that country.

Mrs. Norval Wylie gave a resume of the shows playing at the Granbury Opera House during the month of October. A trip was planned for October 27 to see the show and do some sightseeing.

Members present other than those named were Meses. Hardy Blue, C. D. Bruce, F. Cabansag, Earl Chapman, J. C. Mathews, G. A. Morgan, James Spillman, Sidney Tucker, C. P. Wenzel and Norman Walters. Two guests were present, Linnie Bartlett and Mrs. Lee Hunter.

## Preserving, Canning Event Set At Festival

One of the contests of interest to area homemakers for the Fiesta de la Paloma on Saturday, September 30, will be the food preservation and canning competition at the Recreation building at the Rodeo Grounds.

Mrs. Charlie Rae of Gouldbusk is chairman of the contest and has announced the rules for entries.

The divisions include: canned fruits, canned vegetables, pickles, relishes, jams, jellies and preserves.

Only one entry may be made in each of the four divisions, and all entries must be labeled as to contents one-half inch from the bottom of the regulation jar. Pints and quarts will be accepted, and the exhibitor's name must be taped securely to the bottom of the jar.

Ribbons will be awarded for first through third places in each division; an engraved plaque will be given the "Best of Show" entry.

Entries must be received between 8 and 9:15 a.m. September 30 and picked up at the building after 6 p.m. that day.

## Tax Workshops Slated Soon By Extension Service

The Texas Agricultural Extension Service is cooperating with the Internal Revenue Service

in offering 31 Tax Practitioner Workshops across the state, reports Coleman. The nearest workshop to our area will be held in Abilene on the days of November 30 and December 1. These two-day workshops are specifically designed for tax practitioners who work extensively with farmers and ranchers. Topics to be covered include Schedule C & F, Employment and Social Security Taxes, IRA and Keogh Plans are among other topics.

This year three advanced programs will be offered in Houston and San Antonio stressing tax preparation for small businesses also.

For additional information, please contact Coleman County Extension office for a brochure explaining more about the program and registration.

## Park Use Fee Is Changed For Season

The Fort Worth District, U. S. Army Corps of Engineers started its winter season User Fee Collection program Tuesday, September 5, 1978, and will continue to May 1979, District Engineer Col. John F. Wall, said last week. Collection of fees required under Public Law 93-303 enacted in June 1974.

Where economically feasible, fee collection is required under the law at all Federal campgrounds providing tent or trailer spaces, drinking water, sanitary facilities, access roads, reasonable visitor protection, and other facilities. Electrical hookups for campers are available in the winter fee parks.

Electrical hookups in non-fee parks were turned off September 5, for the duration of the winter.

The fees range from \$1 to \$3 per day at designated campsites. Fees of fifty cents per day will be collected for use of electric outlets at the Corps of Engineers' fee areas. Several free camping areas without electrical hookups will be provided at each lake.

Holders of the "Golden Age" passport issued to senior citizens will receive 50 percent reduction on camping and electrical hookup fees at all fee recreational areas.

Included in the 25 parks within the Fort Worth District is Hords Creek Lake, where the winter fee at Lakeside Park will be \$2 for basic family camping and \$2.50 with electric hookup.

## Some WTU Monthly Bills To Reflect Utility Tax

The state's four per cent sales tax on utility bills for residential customers will be dropped after October 1, but an overlap for billing periods beginning during the month of September will cause the tax to appear on all bills received during October and on some received in November.

Fred Foy, supervisor of statistics and state taxes for West Texas Utilities Co., said that instructions issued by the State Comptroller are specific on how the recently approved tax exemptions are to be applied.

"A lot of people apparently think that October billings will not include the tax," Foy said, "but this is not the case."

The law states that the exemptions shall apply to each regular monthly billing period beginning on or after October 1.

This means that if WTU bills a customer for service from any time prior to October 1, the four percent tax will be applied to the total bill.

The tax exemption was enacted during the special session of the legislature this summer and applies to residential use of electricity and natural gas. Residential use is defined as "a family dwelling, a multi-family apartment, a housing complex, or building or portions of a building occupied as home or residence."

The Legislature provided a local option on the one percent city sales tax on utilities, but most towns in the West Texas Utilities service area have indicated they will continue the tax. Junction and Santa Anna are two of the WTU towns that have indicated they would abolish the tax.

## Political Unrest Causes Closure Of SDA College

The Solusi College, a 125-student senior college operated by Seventh-day Adventist Church in Southern Rhodesia, has been closed because of political

unrest in the area, according to word received by Mrs. John Hart, Communications Secretary for the Santa Anna Adventist Church.

She reports that all Adventist missionaries and national workers are reported safe in a telex message from the Trans-Africa Division's president. There are 10 European

and 10 American families at Solusi, all of whom are relocated temporarily. It is expected they will remain on duty in Africa.

In addition to the college, there is a secondary school with 241 members and an elementary school with 232 pupils at Solusi. This station was the first Seventh-day Adventist venture on the continent of Africa. It was established in 1894, three years after Rhodesia was opened to foreign settlement.

## '78 Dove Season One Of Worst

AUSTIN.... Most white-winged dove hunters have suffered through a highly disappointing season this year.

The first weekend of the hunt dawned bright and clear, but the birds simply were not present. The second weekend saw widespread rains that caused stuck vehicles and even poorer hunting.

Jim Dunks, dove program leader for the Texas Parks and Wildlife Department, said the weather and food conditions apparently caused the birds to leave their South Texas haunts just before the season opened. "Large concentrations were seen in Northern Mexico," Dunks added, "but of course that didn't help the hunters in Texas."

Dunks said whitewing movements during early September are even more difficult to predict than the weather. "This doesn't mean the population of birds was down as much as might be indicated by the hunt," said Dunks.

"It means the birds were in the wrong place at the wrong time for the hunters."

Rhodesia and then prime minister of Cape Colony, gave to the Adventists twelve thousand acres for the founding of this college. A training school was started that same year and grew to become the only private post-secondary educational institution in Rhodesia by 1958.

Adventists have nearly 40,000 baptized adult members in Rhodesia with 225 churches.

Last spring the college graduated 36 seniors with degrees and diplomas, 18 in the field of theology. There are three other institutional schools in the area. Word has not been received yet, as to whether they were closed or not.

## Restocking Of Fish Sometimes Recommended

By Bob Pearson

Fish is a subject of much discussion following the rains brought by tropical storm 'Amelia.' Ponds that had gone dry caught water but needed fish, so many pond owners are seeking a source for restocking.

Soil Conservation Service can no longer order fish, but applications are available from the Texas Parks and Wildlife Department.

Largemouth bass fingerlings are delivered in the spring, around April, and channel catfish and sunfish the following August.

Application forms are available from Hatchery Coordinator, Texas Parks and Wildlife Department, 4200 Smith

Jess Howards Sunday afternoon. Hi, Ranie.

Those visiting in the home of Mr. and Mrs. Adolph Kelley over the week were L. V. Cupps, John Naron, and Dutch Campbell.

Mr. and Mrs. Bud Seals of Chattanooga, Tenn. dropped back by and visited Mr. and Mrs. Ercell Ellis Sunday afternoon. Mrs. Fields visited Monday morning with Ann Ellis.

I talked this Monday evening around 4:30 p.m. to my mother, Mrs. Rose Genz. El Freda said she had a beautiful day, and was feeling well. Martin Genz and two sons of Kansas, Herbert Genz and family of Fort Worth came to see her over the weekend and she enjoyed them very much.

For our weather this Monday: The wind has been blowing for two days and drying things out.

School Road, Austin, Texas 78744. The fish will be delivered to 37 locations in the state and purchasers must pick them up at these points.

The fish are stocked at a recommended rate of 50 per surface acre. Bass cost \$2 per surface acre, catfish \$4 and sunfish \$5. There is also a \$2 application charge.

Soil Conservation Service can advise cooperators of the Soil and Water Conservation District in fish pond management and here are some helpful hints from the Parks and Wildlife Department.

Hatchery officials advise pond owners to carefully consider whether their waters actually need to be stocked with fingerlings. "Adding fingerlings to a lake which already has a standing population of fish is expensive and wasteful", points our Hatchery Coordinator Bill Rutledge. "That's simply because the larger fish will eat the smaller ones."

There are two alternatives for the pond owner whose lake already contains fish populations, Rutledge says. Drain the lake or chemically remove all fish and start over with the fingerlings, or stock the lake with larger fish which are available from

commercial fish dealers.

The first alternative takes a long time for the lake to build back up to production, although in the long run it may provide the best fishing. The other alternative is unpopular with many landowners because of the higher cost of the larger-sized fish for stocking.

Newly-impounded lakes are excellent for stocking with fingerlings, since good survival can be expected. Also, while a lake bed is dry, many improvements can be made to the available fish habitat to make it more productive when it fills.

## Stretch your energy dollars - Install an energy-efficient electric heat pump

A heating system that's more than 200% efficient may seem like something out of the future. But it isn't. It's yours today, with the electric heat pump. Because when correctly installed in a properly insulated home, the heat pump produces two units of heat for each single unit of electricity it uses. It transfers heat that's always present in sun-warmed outside air into your home during the winter. And reverses the process, pumping heat outdoors during the summer.

If you have plans to buy, build, or remodel, or are looking for a new heating and cooling system for your home, call a local FACTORY CERTIFIED heat pump dealer or talk with WTU. We will arrange for a WTU heating and cooling specialist to contact you.
