"He Profits Most Who Serves Best"

Statement From Vicksburg Chamber Of Commerce

Contained herein will be a statement of a few pertinent facts regarding the operation of the so-called sales tax in the State of Mississippi, as prepared by the Vicksburg Chamber of Commerce.

This tax is levied in addition to all other forms of taxes heretofore adopted by the state legislature, a majority of which other forms have been increased and none of which have been eliminated or reduced.

The tax is levied against the gross proceeds of all sales of income upon the necessities of life the same as upon luxuries.

The tax is being passed to the consumer either in a known manner or through an increase in the sales price of merchandise or services.

The property owners' tax burden has been increased the same as non-property owners, and the consuming public are not failing to express dissatisfaction.

There is a noticeable increase in out-of-state buying; also in purchases made through mail order houses or from "agents."

There is, especially in the border cities, a noticeable decrease in the volume of business formerly done with consumers living in border cities of adjoining states.

As a state measure it is proving to be detrimental to business in general.

Contrary to promises made, it is now known to be just another means of increasing revenue, in order that expenditures can be continued.

The tax is providing a revenue in excess of that which the proponents of the tax claimed, and in excess of the amount needed "to balance the budget."

A few counties whose past expenditures have resulted in it being impossible to meet obligations and current expenses by other forms of taxes, now advocate an increase in the sales tax with a split between state and county.

This is further proof of the danger arising from the use of "hidden" or "indirect" taxation.

It is evident that necessary, desirable and practical economies in government will not be made if there is employed new forms of taxation, or if there is a mere shifting of the tax burden.

Prohibition Repeal Submitted to States

The Blaine amendment to the United States Constitution, ending the fifteen year regime of federal prohibition was submitted Tuesday to the Forty-eight states for ratification. Secretary of State Stimson mailed copies of the amendment, together with an explanatory letter to the governors of the states, asking them to inform the State Department when the state conventions had acted on the amendment. When thirty-six states have ratified it, the Secretary of State can proclaim it to be in full effect.

For the first time in 157 years of American Constitutionalism a secretary of state has asked the states to decide whether they will strike from the constitution an amendment they previously put on it.

Concern Is Felt On Cermak's Condition

MIAMI, Fla., Feb. 23.—Mayor Anton Cermak, victim of a bullet from an assassin's pistol, continued to cause physicians concern over his condition tonight when his prediction he would show improvement by tomorrow after a troublesome day with intestinal disorders.

One physician described him as "exhausted," but added that he had a natural sleep during the day. Late today Mayor Cermak was moved from his bed long enough to sign a document releasing \$24,000 in pay to Chicago school teachers.

We are sorry that railroad and utility companies, out-of-state mortgage companies, and large owners of land would stoop to advocate a sales tax or any other new taxes now, in order to gain a little temporary advantage in a hoped-for relief of ad valorem taxes. THEY ARE NOT HASTENING THEIR OWN DESTRUCTION.

Message From Hoover Comes As Surprise

WASHINGTON, Feb. 20. (AP)—In a surprise move, President Hoover, by special message today urged upon Congress a broad program for "economic recovery" as possible of enactment within the two remaining weeks of the fast-expiring session.

The president's message, sent to the capitol without advance notice, strongly criticized the domestic allotment plan of farm relief and urged a "temporary easing of marginal lands" instead. It lashed out also at the publicity given to reconstruction corporation loans as "destroying the usefulness" of that organization.

There was but little immediate reaction in the Senate and House already weighted down with their own plans for action during remainder of the session.

Only a handful of members were on the floor when the communication was read to the House. These listened quietly. The usual applause at the conclusion was missing. Speaker Garner sat in the front row, while another presided.

Danger Lurking Thru Sales Tax Legislation

In trying times like these Statesmen arise and come to the aid of their people. Texans have always risen to the occasion when danger threatened, as it does now.

THE MERE OFFICE HOLDER COPIES THE TARTAR OF OLD

Quotations from Arthur Brisbane: "Treating taxpayers as the ancient nomadic Tartars treated their cattle cannot go on forever. The Tartars traveled slowly on their shaggy ponies, driving cows and oxen before them. When they wanted meat they cut a piece off the living animal, and the suffering animal was driven on. When from too much cutting it could walk no longer, it was slaughtered. All cattle could stand that for a little while. None could stand it indefinitely. The government will find that the taxpayers cannot stand the same treatment indefinitely either."

THE DIFFERENCE

Office Holder "New York State finds that it is spending more than it has to spend. Has it planned to cut down expenses? Not Next Monday the Legislature will get a bill suggesting new taxes to meet the deficit, another slice cut from the hip of the tax-paying cow."

Statesman

"New York City wiser than the state, decides that the best way to meet a deficit is to cut expenses. The new Mayor, Mr. O'Brien, notified city officials that \$20,000,000 must be cut off the city's budget, and immediately."

THE CONSUMER THE GOOSE THAT LAYS THE GOLDEN EGG

Remember the consumer is the goose that lays the golden egg. Kill him, and all human endeavor is crippled, and the sources of revenue entirely destroyed. A sales tax of any kind, no matter how small, will hit the common people hardest. The farmer, those who labor for wages, and those who work for salaries, by far the majority of the people. These are the least of all able to pay any further taxes, and they are already the heaviest tax payers we have.

Retrenchment in governmental appropriations, with a determination that the state shall live within its available income, regardless, just as all individuals in all families, all business, and all industry has had to do, will solve the problem of balancing the budget, and help the people to get on their feet, and return to their normal consuming and buying power.

We are sorry that railroad and utility companies, out-of-state mortgage companies, and large owners of land would stoop to advocate a sales tax or any other new taxes now, in order to gain a little temporary advantage in a hoped-for relief of ad valorem taxes. THEY ARE NOT HASTENING THEIR OWN DESTRUCTION.

Legislative Bureau T. P. A. Report On State Affairs

AUSTIN.—The Legislative News Bureau of the Texas Press Association has been established for the purpose of providing an unbiased reporting service on pending tax measures and matters pertaining to governmental costs. The reports will be free from propaganda or editorial opinion. Only facts will be given in order that the people may have definite information, leaving the people to form their own opinions and take such action as seems wise to them. The bureau will not engage in lobbying and will not support or oppose any particular programs, measure of officials.

Total receipts of the State government for the fiscal year ending Sept. 1, 1932, were \$86,175,000.78. Of this amount \$24,175,000.74 came from ad valorem taxes, \$28,213,020.59 from the gasoline tax, while the gross receipts tax yielded \$7,091,299.89.

Other receipts include: Insurance companies occupation, \$2,236,950.37; cigarette, \$3,427,845.42; franchise, \$1,490,349.73; gross receipts, \$1,553,705.88; licenses, \$3,636,619.11; fees and permits, \$1,130,304.55; land sales, rentals and royalties, \$2,355,893.84; interest and penalties, \$3,623,324.22; Federal, county and other aid, \$15,803,685.68.

Above are major sources of income. Principal expenditures follow: judicial, \$2,371,198.93; military and law enforcement, \$1,203,463.22; regulation of business and industry, \$1,137,021.79; development and conservation of natural resources, \$1,973,007.21; highways, \$39,458,336; eleemosynary and correctional, \$5,741,739; public schools, \$23,961,591.44; higher education, \$9,528,277.33; pensions, \$3,562,641.57. Figures are from the Comptroller's office. Items of income and expenditure of less than one million dollars are not included in the above.

Forty-one per cent of all State expenditures are for highways, thirty per cent for public free school and slightly less than ten per cent for colleges and universities. These three items, plus Confederate pensions, care and education of blind, deaf and other wards of the State, account for ninety one per cent of all State expenditures. Hence if all other costs were eliminated, including judiciary, law enforcement, legislative and executive, saving to taxpayers would be less than ten per cent.

The first bill relating to costs of government to be passed by both House and Senate provides for 25 per cent reduction in the pay of Rangers. It takes effect immediately and continues until Aug. 31, 1933. Captains are reduced from \$225 per month to \$170; sergeants from \$175 to \$130; privates from \$150 to \$112.

The House passed the judiciary bill last week providing for 25 per cent reductions in pay of judges and district attorneys, and elimination of assistant district attorneys. The bill applies to district and higher courts.

Aviator Is Held Without Bond In Death Of Woman

HOUSTON, Feb. 20 (AP)—H. M. Edwards, 37, accused of throwing Miss Ivy Young, former dancer, to her death from a seventh floor hotel room, was held without bond today on a charge of murder, pending examining trial tomorrow afternoon.

Edwards, who said he formerly was an aviator in Reno, Nev., declined to discuss the case with newspaper men. To officers, he said merely that his mind had gone "blank" concerning the incident, and that he had no recollection of it.

The woman, registered at the hotel as Mrs. Edwards, plunged from a window in Edwards' room early yesterday morning.

Roosevelt and Lindsay Talk World Issues

NEW YORK, Feb. 20. (AP)—Resumption of war debts discussions today by President-elect Roosevelt and Ambassador Lindsay of Great Britain led the two statesmen into the broad field of world economics.

A carefully worded statement given out by Mr. Roosevelt after the two-hour conference in the closely guarded Roosevelt home on East Sixty-fifth Street disclosed only so much, but it was believed to point to an early world economic conference for all nations.

The president-elect arranged for another early meeting with Sir Ronald Lindsay, who returned here today with latest views of his government.

Mr. Roosevelt also prepared to announce his choice for secretary of state, believed to be Senator Hull of Tennessee—so he and Sir Ronald could confer immediately.

The net result of the second Roosevelt-Lindsay meeting was the putting into motion of machinery required to bring about a readjustment of the whole world economic structure and quick action was believed in prospect.

Second Attempt On Roosevelt's Life Fizzlers

WASHINGTON, Feb. 22 (AP)—Armed with few clues, federal agents tonight were tracking an unknown would-be assassin who directed an explosive to President-elect Roosevelt here.

In the hands of the secret service and post-inspection service was a crudely made apparatus—dangerous, if improperly handled.

Addressed to "Franklin D. Roosevelt, Washington, D. C.," it was seized in the Washington post office as it was loosened from a sack of mail and burst its wrappings. It was postmarked at Watertown, N. Y.

The trail of the sender was sought there. The explosive consisted of a shotgun shell, with wiring shaped as a "J" over the cap. Post authorities estimated it had "one change in ten" of ever exploding, and then only by being dropped in a perpendicular position. Ordnance officers of the navy department, who are charged with destruction of such packages after other agencies have completed their investigation, expressed doubt that fatal injuries could have resulted from an explosion of the shell.

The most serious possible injuries to one improperly handling the package, they said, would probably have been from the blinding effect of the load of shot in the shell or from the brass top of it when carried by the force of an explosion.

Buffalo Community Entertains Singers

Last Sunday the Buffalo community threw open the doors of that good community and entertained singers from various parts of the country.

The Singing got under way shortly after the Sunday School hour, and by noon many good singers were there. A real community table, well laden with fine eats was spread and all invited to partake to the satisfaction of their inward capacity.

The editor made a good hand at the table, being lucky to find just the kind of eats we most relish. We think we overheard some talking about the "man who ate so much." We have an idea who that man was, and it was not one of those who stayed at home until after lunch either.

The large auditorium of the new gymnasium was mostly filled during the afternoon, and judging from the good order and fine attention, the audience greatly enjoyed the splendid singing.

The people of the Buffalo community certainly deserve praise for the way they put it over out there Sunday.

You have been elected a delegate to the "Comic Characters Convention" to be held at the Rockwood School Auditorium Friday night, February 24, at 8:15 o'clock. All expenses paid except a small initial of 10c. 16 and 15c. Rockwood P. O. A.

Congress Votes To Repeal 18th Amendment

WASHINGTON, Feb. 20. (AP)—Congress today proposed to the states that national prohibition, after its 13 years of turbulent trial, be done away with by repeal of the 18th amendment.

The House by a vote of 289-121, fifteen more than necessary, approved the repeal resolution passed last week by the Senate. Under it for the first time in American history, conventions of the people are to decide whether the states shall ratify or reject a change in the constitution.

Thirty-six of the 48 states must ratify to carve the 18th amendment out of the national charter and substitute for it a twenty-first. By its terms, also the ratifications must all occur within seven years from today.

With repeal, the amendment carries a specific prohibition of importation of intoxicating liquors into any states remaining dry.

Immediately after the House vote legislation action was started in more than half a dozen states to make ready for the conventions.

Only one federal formality remains before the states have the question fully in their keeping. The secretary of state must certify the congressional action to the governors. They will inform the legislatures. In many cases the state executives, however, already had taken steps today to rush action.

The official copy of the repeal resolution was delivered to the secretary of state this afternoon and work was begun immediately to mail out copies to the row.

The House approval came in dramatic fashion as the dry majority fought with its back to the wall against the flood of anti-prohibitionists' votes.

HOW TEXANS VOTED

WASHINGTON, Feb. 20. (AP)—Here's how Texas congressmen voted in the House today on submission of repeal of prohibition to the states:

For: Briggs, Buchanan, Cross, Mes, Eagle, Johnson, Jones, Kieberg, Lanham, Mansfield, Rayburn, Sumners, Thomason and Williams.

Against: Blanton, Patman and Sanders.

Suspects Escape Officer's Shots

TEMPLE, Feb. 20. (AP)—Two men in a high-powered automobile escaped tonight after a gun fight with officers laying in wait on Truman Timberlake and red Jennings, escaped convicts who broke away from officers near Waco last night.

About 30 shots were exchanged between occupants of the speeding car and officers. The suspects' car quickly outdistanced the one in which the officers were pursuing.

Appointments For Cabinet Made By Roosevelt Revealed

It was authentically revealed Wednesday that President-elect Roosevelt had appointed those who are to be in his cabinet during his administration. Barring an unexpected shift, three of them are from the east, three from the south, two from the mid-west, and two from the west. It is generally understood that Homer Cummings is slated for governor-general of the Philippines, which puts at rest that the distant relative of the next president, Theodore Roosevelt, Jr., would be left in that place.

Norman H. Davis, by invitation of the president-elect, will remain head of the American delegation to the Geneva Arms Conference.

Only the first two of the ten cabinet members have been formally announced, but the set-up is accepted in Washington as: State, Cordell Hull of Tennessee; Treasury, William H. Woodin of Pennsylvania and New York; War, George H. Dern of Utah; Justice, Thomas J. Walsh of Montana; Post Office, James A. Farley of New York; Navy, Claude A. Swanson of Virginia; Interior, Harold Ickes of Illinois; Agriculture, Henry A. Wallace of Iowa; Commerce, Daniel C. Rogers of South Carolina; Labor, Miss Frances Perkins of New York.

Woodin and Ickes have in past years been identified in Republican causes, and Wallace is the son of the secretary of Agriculture during the Harding Administration.

W. O. W. Elects New Officers

At the meeting of the W. O. W. Hall Saturday night the following officers were elected for the ensuing term: E. D. Ewing, C. C. Marshall, Dugan, Adv. J. J. Greig, Clerk; J. F. Goen, Esq., E. E. Vinson, Watchman; H. C. Duggins, Sentry; and M. C. Hart, auditor.

Lions Club Recommends More Fire Fighting Equipment

After hearing a report by Fire Chief George M. Johnson, relative increased fire insurance premiums, due to inadequate fire fighting equipment, the Lions Club went on record as favoring the purchase of an additional fire truck and pump, and recommend to the City Commission the purchase of same as soon as the City finances will justify.

According to the Fire Chief, the City could purchase a new truck and pump, and save the citizens, who pay the taxes, the price of the truck and several hundred dollars each year in fire insurance premiums. If this be the case, it would be an economical saving to purchase the new truck.

It was suggested, and we think it a timely and good suggestion, that a local fire prevention campaign be carried on in the city and community. Most fires are the result of carelessness and should be prevented. A little carelessness often causes a conflagration that costs thousands of dollars, sometimes things more valuable than money.

The Santa Anna News is very much in favor of the City purchasing additional fire fighting equipment and also the educational campaign to prevent fires.

Mother Garrett, who really is Mrs. W. O. Garrett, was an honored and appreciated guest of the Lions Club at their luncheon Tuesday.

Senate Approves Wagner Measure

WASHINGTON, Feb. 20. (AP)—Despite a blunt warning from the governor of Virginia that federal credit was endangered, the Senate today passed the Wagner bill providing a vast expansion of the government's unemployment relief program.

Carrying an additional \$300,000,000 for relief loans to states and more liberal terms for construction loans, the bill was approved 54 to 16 and sent to the House, where it was expected to receive early consideration.

For your health's sake ask for and get Kruschen at any drug store—the cost for a bottle that lasts 4 weeks is but a trifle and if after the first bottle you are not joyfully satisfied with results—money back.

Should I Become A Teacher? The young man or woman who will graduate from high school this mid-term or in June is faced with an unusual problem. He surely will be puzzled to know which further step is best to take along educational lines. There seems to be one of the largest surpluses of teachers ever known. Thousands will be unable to secure schools. Those who are fortunate enough to get a school will be faced with a diminished income on account of the financial distress in which the states find themselves. This is surely a discouraging outlook for the young person who has ambition to teach. Other professions, too, seem to be overcrowded. There is a surplus of young lawyers who are barely eking out an existence. There are too many doctors for the number of patients; the talking pictures have killed the profession of music, and so on down the line. At this time, we would advise young people to divert their minds toward the field of business. It seems to offer a quicker comeback than most of the professions. Business is dignified. It offers remunerative responsibilities. It is now considered by the masses as one of the few lucrative professions. "If I were starting my career now," says a well known educator, "I would first finish high school and then enter some reputable Business College and get a business training. Then I would become connected with some large business concern and work hard and soon I would find my name listed as one of the executives." Quoting further, "From my knowledge of various Business Colleges, I surely would investigate the Business College at Tyler, Texas. I am told this school is the best in the South." Mrs. Shockley has just received a new shipment of silk dresses. They are beautiful. See them before buying. Mr. and Mrs. W. A. Garms and children left this week for Conroe where they plan to make their home.

Santa Anna Arithmetic Teams Win Seven County Championships. The following quotation is from the Interscholastic Leaguer published by the Extension Department of Texas University at Austin. "Seven years consecutive championships in 'Number Sense' contests is the remarkable record of the seventh graders of the Santa Anna Elementary School. J. C. Scarborough, Superintendent of the Santa Anna Schools, took the trouble to get the above group together, although some of them have already been graduated from high school. He couldn't get all the members of the championship teams together, but he secured a goodly portion of them. "It will be noted that there are three Niells in the group. These Niells are all from the same family, and this might be a note of interest for students of hereditary 'Number Sense' seems to 'run in the family.' "Mrs. Charles W. Evans, whose picture appears in the group, left end of back row, has taught the 1930 team, Freda Bushman and coached each of these teams.

KNOCKER OR BOOSTER?

When the Creator had made all the good things, it seemed there was still some dirty work to do, so He made the beasts, and the reptiles and the poisonous insects; and when He had finished, He still had some old scraps left over that were too bad to be put into the Rattlesnake, the Hyena, the Scorpion, and the Skunk; so He put all these together, covered it with suspicion, wrapped it with jealousy, marked it with a yellow streak, and called it a Knocker.

This product was so fearful to contemplate that He had to make something to counteract it, so He took a sunbeam, put into it the heart of a child, the brains of a man, wrapped it in civic pride, covered it with brotherly love, made it a believer in equality, and justified a worker for and supporter of every good thing in the community, and called it a Booster; and thenceforth mortal man has had the privilege of choosing his associates.

MRS. M. O. CARTER

Thrones that filled the Santa Anna Baptist Church bore silent tribute Thursday afternoon to the beautiful life of Mrs. M. O. Carter, who until her marriage May 29, 1932 was Miss Sadie Mae McClure, only child of Mr. and Mrs. G. R. McClure of Shield.

Mrs. Carter was born in Coleman County, September 10, 1905, and lived most of her life here.

She was graduated from Coleman High School, and attended Howard Payne College at Brownwood two years. She was a member of the Shield Baptist Church and had been a devoted Christian, a teacher, and a consistent tither. When the Death Angel came early February 15, 1933 he carried from us an obedient daughter, a faithful wife, a true friend and a devout Christian woman.

Funeral services were conducted February 16, at the Baptist Church with the pastor, Rev. Hal C. Wingo, officiating. He was assisted by Rev. Edmund Early, Pastor of the Shield Baptist Church, and Rev. P. F. Squyres, Pastor of First Baptist Church, Coleman. The immense floral offering was borne by the boys and girls who had been in the Sunday School class taught by Mrs. Carter before her marriage.

Childhood friends and schoolmates served as pall-bearers.

In the impressive words of Pastor Wingo, "Mrs. Carter is survived by her husband, father and mother, four grandparents, a host of relatives and a multi-

tude of friends."
