NUMBER 20

"He Profits Most Who Serves Best"

## Thousands Sheep Die From Exposure Due to Cold Rains

COLEMAN, May 16.—With the clearing of the sky losses sustained by Coleman county sheep men during the Saturday and Sunday rains and cold weather are being revealed. The loss is not confined to any particular region, but were greater where brush for shelter was scarce. C. W. Hemphill lost from 200 to 500 head at his ranch south of Valera and L. C. and Henry Jamerson lost 500 at Talpa. It has been estimated that from six to seven thousand succumbed in the Talpa section. In some places 60 per cent of the flocks died but the average, as best that can be figured will run from 10 to 15 per cent.

Ed Jones lost six head and was working with them all the time trying to prevent losses. Deaths in flocks under herd were not as great as those on the open ranges. Dr. Jack Gordon lost 40 or more head that had been sheared about a month.

SAN ANGELO, Texas, May 16.—(AP)—Reports received by the San Angelo Times today said thousands of shorn sheep over West Texas were dead or dying from exposure, due to the cold rains over the week-end. One ranch was reported to have lost a thousand head.

## C. C. McDONALD OF WICHITA FALLS TO SUCCEED JED ADAMS

DALLAS, Texas, May 15.—(AP)—The State Democratic Executive Committee today endorsed C. C. McDonald of Wichita Falls by a vote of twenty-four to seven, to succeed Jed C. Adams as national committeeman, when and if, Adams resigns.

A minority, led by Hugh Carney of Atlanta, was defeated in efforts to leave the question of Adams' successor open.

## IT'S "BOULDER DAM"

Hoover's Name Stricken Out of Colorado River Project

WASHINGTON, May 13. (AP)—It's Boulder Dam from now on—the name "Hoover" having been eliminated by officials here from the world's largest water barrier on the Colorado River Project.

Secretary Ickes sent instructions today to the Bureau of Reclamation in charge of the \$165,000,000 construction work, inaugurated under the Coolidge administration, that hereafter the big project is to be known by its original title.

The 730-foot dam was christened Hoover Dam September, 1930, by Ray Lyman Wilbur, who was President Hoover's secretary of the interior.

## SCOUT LEADERS BADLY NEEDED HERE

After next week the schools of Santa Anna and several other communities will be closed for the summer season and several boys and girls will be turned loose with but little responsibility to make the best of it they can. Parents will do their utmost to keep their children in tact, but when children are out of sight, parents do not know where they are or what is going on.

Santa Anna is very much in need of a Boy Scout and Girls Campfire organizations, to help train our youths in something useful during their spare time between school sessions. The writer has never had training in scout work, and is so handicapped with responsibilities of trying to make a living for himself and family he cannot foster an organization, but would to goodness that someone who is able and capable would lend their services to the much needed cause. We would be glad to cooperate in such a manner as we can, and are hoping that someone will come to the aid of the several youths in the community and sponsor such organizations.

It would be better to be affiliated with the national organization, but much good can be accomplished without such recognition. Will some one please recommend the one to take charge of the work, and we will join in an effort to help get them lined up for service.

Mr. Coleman Davis of Summary 1910 came Wednesday night for a few weeks visit in the home of his parents, Mr. and Mrs. W. I. Davis.

## Lawmakers of Texas Don't Want to Quit

AUSTIN, May 13. (AP)—The Texas Legislature seemed merely to "get going good" the past week, which ushered in the fifth month of its session.

The House suddenly decided to pass a bill that would consolidate, abolish and reorganize state departments, one of the biggest pieces of legislation placed before an assembly of this state. The Senate had not made a move toward bringing that proposal to the floor, but it takes sudden notions, too, and it would not be surprising should it decide to do something about the matter.

The question whether wagering on horse races should be legalized was projected into the legislative program again by a rider placed on the departmental appropriation bill that would make it lawful to employ the certificate system of betting on horse races. A board would be set up within the department of agriculture to handle that plan of encouraging the breeding and raising of "fine animals." The House already had, by a few votes, refused to make the permit system of wagering on horse races legal. Advocates of horse racing hit upon the departmental bill rider as a way to bring the subject up for another try.

Probably the outstanding piece of legislation of the past week was passage of resolution submitting to the electorate on next August 26 a proposal that the constitution be amended to permit issuance of \$20,000,000 in state bonds to supplement federal unemployment relief funds.

The bond issue plan at first was received with a cold shoulder, but the legislators gradually warmed to it as business leaders urged it be submitted. The Reconstruction Finance Corporation had notified the governor that unless the electorate was given a chance to authorize the bonds the federal government would withdraw its help at this time.

The House passed a bill providing for an elective highway commission of five members, but it was not to become effective until after the 1934 general election. The Senate had not turned a wheel as yet to get busy on it.

Both Houses had finished a bill raising the production tax on oil concerns.

The Senate had passed over to the House a bill raising the minimum scholastic age from seven to six.

Two houses were at variance over rural school aid, the Senate having passed a bill, calling for expenditure of \$8,000,000 for this purpose the next two years and the House having reduced that amount to \$6,000,000.

## COUNTY ROAD WORK HALTS

Crews Take 15-Day Holiday Under New Economy Plan

After work Monday is completed, the county road crews will be laid off until June 1 under a new economy plan adopted by the Tom Green county commissioners court. Sixteen men will be affected. The half-a-month holiday scheme is to be continued during the summer months. The court, meeting Saturday, approved further bills that had been presented since the regular session last Monday. —San Angelo Standard.

## DRY ACTIVITIES DROP

WASHINGTON, May 13.—(AP)—Prohibition enforcement statistics for the first month of legalized beer and also the first month of A. V. Dalrymple's tenure as director reveal a sharp decline in activities.

Cases in which arrests were made totaled 3,440 during April, the report made public today showed, as compared with 5,463 in March and 4,587 for April of last year.

## FARLEY BRAVE MAN

NEW YORK, May 13. (AP)—Universal return of confidence, "which is gaining momentum every day," is seen by Postmaster General James A. Farley, he said tonight.

"In its wake," he added, "there has been a positive improvement in economic conditions indicating that prosperity, nationwide and world-wide, is speedily returning."

## Miss Effie Baker Is Wed Sunday To Mr. Erby E. Rogers

Brownwood friends of Miss Effie Baker will be interested to learn of her recent marriage which took place last Sunday morning at ten o'clock in Amarillo. She was married to Erby E. Rogers of Electra, a former Howard Payne College student, according to information received here.

Miss Baker is the daughter of Mr. and Mrs. L. L. Baker of this city. Following her graduation from Howard Payne College in 1920 she went as a missionary to Japan. After eleven years in that field she returned to the United States and Brownwood last fall, and has been making her home with her parents here since that time.

Mr. Rogers who is connected with the school system at Electra, Texas will be remembered as a prominent Howard Payne College student, receiving his degree from that institution in 1923. While a student there he received many scholastic honors, prominent among which were the honors he won in debating activities over the state. He has been teaching in Electra for a number of years. —Brownwood Bulletin.

## C. A. Walker to Head Lions Another Year

At the annual election of officers Tuesday, C. A. Walker was elected to head the Club the ensuing year and was also elected delegate to the State Convention to be held at Lubbock next week.

Other officers elected were as follows:

George M. Johnson, 1st vice president; W. H. Thate, 2nd vice president; J. T. Garrett, secretary-treasurer; Calvin Campbell, tall twister; J. M. Binion, lion tamer; W. E. Baxter and Dr. R. Lovelady, former presidents, directors.

The Club as a community asset has not made much of a showing the past year, but such has been accomplished just the same. A Club, to stay together under the present strenuous time is built of the right kind of material to bring about accomplishments when conditions are more ripe and the times more opportune.

The Lions International is a service institution, organized for the purpose of carrying on for betterment in the several hundred communities where clubs have been organized. It is difficult to keep down prejudice at times, but Lions are Lions, and men with jealous and selfish inclinations usually drop out of the realms and the organization is better off without them.

Such conditions as we have been enduring the past three years are very trying, but Lionism has held its own and really prospered in many communities amidst it all.

Those on the outside can hardly appreciate what is being done in the ranks, and it is hard for those on the inside to muster up courage to continue in their efforts against such odds, but true Lions are not quitters. The road to victory is paved with endurance that never fails.

## MASONS — ATTENTION!

Mr. C. R. McHorse, Secretary of Coleman Lodge No. 496, A. F. & A. M., announces that on Saturday night of this week, May 20th, Messrs. G. A. Lucas and A. E. Tate, and Rev. C. S. Heeger, of Dallas, Texas, accompanied by their respective wives, will be present with Coleman Masonic Lodge, and give a program consisting of stereotypical views of Washington, D. C., and of incidents pertaining to the Dedication of the George Washington National Masonic Memorial Temple, taken by Mr. Lucas on the Special Trip taken by Texas Masons to this celebration in Washington last year, and that splendid addresses will be made by the men in the party of Masonic interest.

All Masons in Coleman County, and their families and Lady friends are cordially invited and earnestly requested to attend, and give these visiting brethren and their Ladies a warm welcome, and to enjoy the excellent program which they will present.

G. K. Johnson, W. M.  
C. R. McHorse, Secy.  
E. M. Brown, D. D. G. M.

## President Hurls Peace Challenge to World

WASHINGTON, May 16. (AP)—A forceful call for a realistic world-wide effort to avoid war was flung dramatically into a threatening European situation today by President Roosevelt.

The rulers of 54 nations were told in straightforward terms that the state which blocks the path of progress will be held accountable by all civilization.

Briefly, the chief executive urged adoption of the British arms plan abolishing weapons of offense, even more far-reaching reduction of armaments later, strict observance of treaty limitations on military power in the meantime and, finally, a solemn and definite pact of non-aggression.

To bind the bargain of non-aggression, the president would have the nations "individually agree that they will send no armed force of whatsoever nature across their frontiers."

At the White House late in the day, it was indicated that the United States is willing to alter some of its established practices to conform to the specifications laid down by the president.

Mr. Roosevelt believes that under the proposal banning the sending of armed forces beyond national borders the United States must cease its practice of sending marines into Latin-American countries to aid in keeping order.

The president also sees no reason why consultation with other nations in event of a threat of aggressive war should not be undertaken under the Kellogg-Briand pact to which most of the nations of the world have adhered.

While the White House described the message as aimed at the whole world rather than specific nations, it came on the eve of a declaration of German arms policy by the Nazi chancellor, Adolf Hitler.

Speaker Rainey and others on Capitol Hill were quick to interpret it as directed to a great extent at the Hitler government whose policy has aroused French fears that the rich would rearm despite the Versailles treaty.

On Capitol Hill, the president's surprise move was acclaimed by members of both parties. From abroad came a similarly favorable reaction.

Encouragement was drawn from preliminary dispatches saying the message had been very favorably received by German statesmen, for most of all, official Washington was concerned with the attitude of Hitlerite Germany.

There open rebellion against the restrictive provisions of the Versailles treaty has roused fear of a revived teutonic military power dashing all hope of arms reduction and unified action against the forces of depression.

Ranked by many government officials among the great state papers of American history, the Roosevelt message, sent direct to the sovereigns, or presidents of 54 nations, was dispatched with characteristic and dramatic surprise effect this morning.

It brought forth an ever-increasing train of considerations affecting vitally American foreign policy and the relations of this nation with its neighbors.

The message was seen in official quarters as striking at the roots of strife in the far east, of open war in South America, and of forebodings of another and even more awful conflagration in Europe arising from dissatisfaction with the Versailles treaty.

Telling congress of the action he had taken, the president in a special message said, "The assurance of world political and economic peace and stability is threatened by selfish and shortsighted policies, actions and threats of actions."

"Common sense points out," the president told his fellow rulers, "that if any strong nation refuses to join with genuine sincerity in these concerted efforts for political and economic peace, the one at Geneva and the other at London, progress can be obstructed and ultimately blocked."

"In such event the civilized world, seeking both forms of peace, will know where the responsibility for failure lies."

The four definite points which the president urged were these:

Elimination of the weapons of defense, the importance of immediate action, that while these steps are being taken, no nation shall increase its armaments

## Ernest Lee Womack Vice President of Pi Gamma Mu

Ernest Lee Womack was elected first vice-president of Pi Gamma Mu for next year at Trinity University.

The election of officers for the coming year was held at the last meeting of the society, a formal banquet held at the Golden Pheasant in Dallas. Each year a member of the faculty belonging to the society is elected president and the next office given to a student. Miss Maude B. Davis, Dean of Women was elected president.

Mr. DeWitt McMurry, for over forty years on the staff of the Dallas Morning News was the speaker at the meeting.

## INDICTMENT OF CANNON UPHELD

WASHINGTON, May 15.—(AP)—The indictment of Bishop James Cannon, Jr. and Miss Ada Burroughs, of Richmond, Virginia, on charges of violating the corrupt practices act in connection with the 1928 presidential campaign, was upheld as valid today by the District of Columbia Court of Appeals.

Defendants' counsel planned to appeal the decision to the United States Supreme Court.

## Lions to Meet in Lubbock Next Week

The Lions Club at Lubbock is making great preparations to entertain the State Meeting of the Lions Clubs to meet there next week, May 21, 22 and 23.

A news item from Lubbock this week states that 1,000 or more lions are expected to attend the convention.

## CHICKEN THEVES PLYING THEIR TRADE

Several reports have reached us recently of thievery, many of the incidents reported being chicken stealing. W. S. Stacy, living on one of the Wheeler farms north of the mountain was victimized last Friday night, and relieved of several head of chickens, turkeys and even his bridges, lines and collars.

Several have reported losing chickens and turkeys recently, and special efforts are being made to apprehend the thieves and bring them to justice.

Stealing is about the lowest down profession we know of, and every time we hear of a thief being sent up we feel like singing a song of praise for justice.

## BIRTHDAY PARTY

Little Miss Fredna Watkins celebrated her seventh birthday Thursday afternoon with a party at her home.

The guests began arriving at three o'clock and played various games. Pictures were also taken. After about two hours of playing, refreshments were served. Pink cake and white ice cream was served to the following: Maurice and Maurine Seale, Nell Lowe, Von Don Voss, Mary Joyce Hill, Mary Mag and Hudson Justice, Mattie Bell Beamon, Ruben Rountree, Sybil and Jim Tom Simpson, Frieda and Johnny Simmons, Allie Cille Garrett, Gene Mobley, Fern Bradford, Roy England, George Day, Bobby Gene Fuller, Mary Ruth Lamb, Wilma Jo Spencer, Maudie K. Ashmore and Roberta and Carolyn Conley.

## FIREMEN'S BENEFIT SHOW NEXT WEEK

The Queen Theatre will put on a Firemen's Benefit Show next Wednesday and Thursday nights, under the auspices of the Santa Anna Volunteer company. A portion of the proceeds of the show will go into the treasury of the local firemen's fund.

## PROBITION RALLY

The Santa Anna News has been requested to announce a Prohibition rally will be held at Mayo school house Tuesday May 23rd, at 8 P. M.

## Sunday School Attendance

Christian	32
Methodist	26

above treaty limits, and finally that during this disarmament period, no nation shall send its armed forces across its own frontiers.

## Fine Rains Fall Over Week-end

The prayers of the people were answered here last week-end, when this section of the country was visited with a series of fine rains.

Rain began falling shortly after midnight Saturday night, and continued thru the greater portion of the day Sunday and also Sunday night.

The drought had begun to be somewhat distressing, and full relief was given insofar as moisture is concerned. Small grain, what is left after the February freeze, now promises a fair yield, and other field crops have a wonderful prospect. Cotton planting time has really just arrived, notwithstanding, most people have already planted and many crops were up to stand before the rain. Some of the early planting will probably be worked out and do all right, but in our way of seeing, in this section of the country, May planting, after the full moon, is the most logical time to plant cotton. This is not offered as advice from a successful farmer, but a suggestion.

Many of the earlier planted crops will be to replant, and those who do not have planting seed are handicapped.

Feed crops are looking fine, in fact, the fine season now in the ground will result in the making of some feed without very much more rain, however, other rains will be necessary if bumper crops are harvested.

Oats are now selling at 25c per bushel, maize \$10. per ton, and corn 50c per bushel, as compared to prices from one-third to one-half those prices a few months back. Wheat is also worth more than two times the prices paid a few weeks back, and cotton has just about doubled in price. All farm products are on the increase, livestock, hogs, cattle and sheep are on the upward trend. Those who have succeeded in holding on to a few head of cattle, hogs, sheep and goats may come out at the big end of the horn yet. At any rate, if the writer had any, he would try to stay with them for a little while longer, just to see what would happen under this "New Deal" that is being talked about so much.

It's a cinch no kind of field crops, livestock or other agricultural products could be produced and marketed at profitable prices under the Hoover "prosperity administration."

We ought to apologize for mentioning the name of Hoover, but it still bears down with a sort of lasting impression on our sacred or unsacred memory, if any, and we just can't help but refer to him in certain instances.

Every day in every way, things are looking better. Santa Anna has been sucking the back bit for some time, but we think better things are in the offing. The fine rains this week put new pep and enthusiasm in the farmers, which will reflect its influence into business circles, the Santa Anna Glass factory will soon be reopened for business unless some unforeseen thing happens, and if the First National Bank is not reopened for general business by the time this reaches the reading public, it will be soon thereafter, and with the general trend of rising conditions in the livestock and agricultural lines, the depression is approaching the end in this country. Special legislation, in both state and national houses are favorable to the farmer and laboring classes, and when the laboring class and agricultural class can live and make a profit, other lines will prosper, just as they cease to prosper when labor and agriculture are oppressed. The future outlook, we think, justifies that old saying, "Every day in every way, things are getting better."

## Singing Sunday Afternoon

Next Sunday afternoon there will be a singing at the Plainview school house. Both the Men's and Women's Quartets, from Coleman plan to be present, and other good singers from Coleman, Shields, and other places will attend. A most enjoyable afternoon seems to be in the offing.

The singing will begin at two o'clock, and the afternoon devoted to it instead of the evening beginning at eight o'clock as was previously announced.

You, and especially if you enjoy good singing, are cordially invited to attend.

## San Angelo Wins W. T. C. C. Convention for Next Year

At the closing of the annual session of the West Texas Chamber of Commerce convention in Big Spring Saturday morning, San Angelo was selected for the 1934 convention and Walter D. Cline of Wichita Falls was elected president.

San Angelo entertained the great regional convention in 1923 one of the best sessions the organization has ever held. Here's hoping she pulls another good one, even better than the one dating back ten years into history.

## REV. WOMACK TO ATTEND GENERAL ASSEMBLY

Next Friday morning I expect to start to Columbus, Ohio, to attend the General Assembly as a commissioner from the Brownwood Presbytery.

Mrs. Womack will go along, going by the way of Waxahachie where our son, Ernest Lee, will join us.

We plan to go by the way of Dallas, Texarkana, Little Rock, St. Louis, Indianapolis reaching Columbus the 24th in time for Preassembly Meeting. The General Assembly will open the 25th and close the 29th.

What the General Assembly Does  
It represents in one body all particular churches of the denomination. It consists of a number of ministers and ruling elders from each Presbytery. These commissioners, as they are called, are elected in accordance with a given proportion. They assemble annually and number about 650. They come from every state in the Union and from sixteen foreign countries.

The General Assembly not only represents the interest of the whole of our great Church but is also a bond of union among its widespread constituency. Once a year during its sessions ministers and ruling elders from 46 Synods, 290 Presbyteries meet together for conference and fellowship.

In returning home we plan to come through Kentucky and Tennessee. Perhaps stopping at the writers boyhood home in Tennessee. Then on to Santa Anna being glad to see you, and tell you more about the journey.

M. L. Womack

## MOTOR TRAIN HITS CAR. THREE ARE KILLED

SAN ANGELO, May 15.—(AP)—A motor train striking an automobile at the Washington Drive crossing here late Sunday resulted in the death of Theodore O. Pierce, 30, his wife, 25, Mrs. Pierce's sister, Miss Gladys Clark 28, and the serious injury of Miss Nellie Clark.

Two others were less seriously hurt. The Pierce automobile was dragged more than one hundred feet before the train stopped.

## CONCHO PEAK H. D. CLUB

At a meeting last Friday, May 12, our club met with thirteen old members, five new members, one visitor and Mrs. Brent present. Mrs. R. C. Averett was the hostess. The project for the afternoon was the completion of a foundation pattern for Mrs. W. B. Watson. After the regular business was dispensed with, refreshments of cake and ice cream were served to the group. The next meeting will be with Mrs. W. R. Dale on Friday May 26.

## LINE DEVOTIONAL CLUB

The Line Devotional Club met at the J. D. Williamson, Sr. home last Friday night for a social evening. The program was given by group 2 of which Hettie is captain. The group sang a song first and then the parts of the program were rendered. The program was closed by a prayer by Mrs. Mollie Newman. The games were then entered and enjoyed by everyone. At a late hour angel food cake and strawberry ice cream was served. A most enjoyable evening was reported.

Reporter.

Mr. and Mrs. W. H. Thate spent Sunday in Burkett. Roy McFarland or Brady was in the Mountain City Thursday and paid this office an appreciated call while her eMr. McFarland owns and operates the Help-Self Grocery in Brady and enjoys a fine business.

Santa Anna News

FRIDAY, MAY 19, 1933
S. J. GREGG, Editor & Publisher
Entered as second-class matter at the postoffice, Santa Anna, Tex.

National advertisers are generally accepted as fair barometers to the general condition of times. When you see large advertisements displayed in the local newspapers from foreign advertising customers, you may feel assured that better things are in the offing and better times are not far distant.

In this connection permit us to state that the great Gulf Refining company, not satisfied with the radio broadcasting program of their three grades of gasoline and other Gulf products have connected the newspapers over the country up with their mediums of advertising and are now telling it to the people in their homes thru the columns of country weekly papers throughout the country.

The Continental Oil company have also started out on a real advertising campaign, advertising their highly approved products, germ-processed motor oils and bronze hi-test gasoline.

The Ford Motor company has always valued space in the country weekly newspapers as their most valuable medium to reach the common people with messages about the Ford automobile, (used to be Ford cars) and they have started a series of advertising to help bring the people back into using the Ford as their means of transportation.

Several other good contracts are pending and local merchants should also wake up to the fact that the New Deal means immediate revival of industry and recovery of business.

The merchant who builds the proper foundation by advertising his merchandise and keeping in constant touch with the buying public will find a quicker road to recovery, and the customers more ready to visit their places of business to inspect their lines and make purchases. All together, let's go and join in

helping to pull out of the depression ruts.

Public Utilities Fortnightly points out that a fresh wave of proposed utility anti-merchandising laws swept over the country during the 1933 legislative sessions. In most instances the bills have been defeated. But they will put in an appearance again and there seems to be a good deal of public support behind them. It is an unfortunate fact that much of this support comes from a misunderstanding of actual conditions. The purpose of the bills is to aid the small town dealer and increase his business, but actual experience has shown that this is not accomplished. The press of Kansas and Oklahoma, which states have these laws in effect, is overwhelmingly against them. They have not brought more business to small dealers. They have driven it away from the home community to large stores in cities and to mail order houses. They have materially cut the total sale of electric and gas appliances, and consequently narrowed the field for repairs and sale of parts, which is always a source of profit to the dealer. They have worked against lowering electric and gas rates, inasmuch as reductions usually come from increased sale of service, which is naturally stimulated by added use of appliances. States should be very careful before taking a step that in other states, has apparently failed completely in its purpose, and actually harmed those it was designed to help. —Hamilton Herald Record.

Now that the country is safe for democracy, Jim Farley announces that good republican postmasters will not be given the boot until the end of their terms. And that we ought to make it safe for postmasters.

The president ordered 250,000 unemployed men given jobs in his reforestation army. The press reported a decided inclination to accept the jobs on the part of some of the unemployed. That doesn't sound so good.

GOOD OLD SUMMER

What is the best season of the year? Summer, to most people—though the other seasons, especially spring, have their charms. And the older you get, the more you will like summer, the more you will dread winter.

Spring corresponds to our babyhood. It is the sprouting season, full of hope, dreams, uncertainty, danger of frost.

Autumn is like the waning years of life, when we harvest as we have sown; when we suffer for our negligence and mistakes and are rewarded for our effort. Most of us, when we look backward in the autumn of life, say: "If I only had my life to live over again..."

Winter, of course, corresponds to human death, the hibernating of old growth until new growth is ready to sprout and bud. All three of these seasons are preparatory to or the aftermath of summer. And summer is the period of LIFE—of accomplishment—symbolic of the lives we are living. Lucky are you who have survived the frosts of life's springtime! Your crop of success is started. Toil and weep, for autumn of life will be upon you before you are aware. For results, it's now or never. —Exch.

FRANCE HIKE IMPORT TAX

Levy Hits At United States And Argentina Chiefly

PARIS, May 13. (P)—A new import license tax which importers say is practically prohibitive on some products, was decreed by the government today. The tax hits the United States and Argentina, chiefly in shipments of meats, butter, woods and turpentine.

OUR DEBT BURDEN

Figures on the national debt issued by the Twentieth Century Fund, which is headed by Edward A. Filene of Boston, show in a striking way the enormous burden which the nation is trying to carry out of the depression.

Long term indebtedness in the United States today, according to these figures, amounts to 49 per cent of the national wealth requires 29 per cent of the national income and is one of the major obstacles to economic recovery.

Corporations, government agencies and individuals share in a long term indebtedness of \$134,000,000,000, as compared with \$75,000,000,000 in 1921. Looking at those figures, it is not hard to understand why such a strong demand for inflation has arisen during the last few months.

Immunize Against Diphtheria

AUSTIN, Texas, May 19. Texas loses more than five hundred of its children each year from just one preventable cause, according to Dr. John W. Brown, State Health Officer. Diphtheria, that ever present menace to children, is responsible for this great loss.

Dr. Brown said that all parents would not allow their children to run in front of automobiles or trains but many allow them to run the danger of contracting diphtheria. Children need not have this disease, as it is easily prevented by a simple, harmless treatment with toxoid.

If you have a child six months old or more, take him to your doctor and ask to have him immunized against diphtheria. Do not wait until your child goes to school, as babies and little children need this protection more than children who are going to school.

The treatment consists of two or three injections of toxoid, according to age, one week apart. Fewer do not protect. The doctor can tell if more are needed to protect the child by giving him the Schick test four to six months after the last treatment of toxoid. It takes that long for protection to develop.

There is no guesswork about toxoid, it is a safe and proven preventive. Do not confuse toxoid with anti-toxin, the first prevents a child from catching diphtheria and the second, when used in treatment, cures a child sick with the disease, if given early enough. If your child is sick do not wait but call a doctor at once, as this disease develops rapidly.

If Mr. Roosevelt would pass a law requiring all millionaires to perform manual labor six hours a day they might be willing to get rid of some of their dough in order to be allowed to loaf again.

That 3.2 beer has proven itself nonintoxicating. The country lapped up the entire supply in one day and didn't have a headache the morning after.

If you decide to kill a woman the popular thing to do now-a-days is to stuff her body into a trunk before it is discovered. — makes better news copy.

Why object so strenuously to the word "dictator?" Most of us are married, and know all about it.

These scientists who are speculating on reaching Mars are probably trying to find a worse place to go.

Those republicans in Washington are working wonderfully hard to make this country safe for democracy.

Beer is putting a lot of idle people to work and is reducing a lot of working prohibition agents to idleness.

With poison booze out of the way, we may have to depend on fig-saw puzzles to keep our insane asylums full.

If congress cleans everything up this trip we might economize still further by eliminating the regular session.

If a revolution breaks out there'll be such a demand for troops the government will have to give us all jobs.

It's interesting to note that the depression has not prevented the rah-rah boys from rah-rahing.

There are blessings even for the deaf and dumb. They cannot listen to us bewail economic conditions.

We all have a right to our own thoughts, but there are times when it is not wise to express them.

We're perfectly willing to pay an income tax if the government will guarantee us an income that is taxable.

When the government sends a big crook to jail it ought to include the lawyer who coached him.

How distressing it would be if an absent-minded filling station attendant were to fill your gas tank with beer.

No matter what we may think of them, the Reds adopted a popular color.

Of course, having lifted \$400,000,000 annually from the veterans, the administration will be in better position to cancel the war debts.

Henry Ford
Dearborn, Mich.
May 9, 1933
A great thing has occurred amongst us. We have made a complete turn-around, and at last America's face is toward the future.
Three years---1929 to 1932---we Americans looked backward. All our old financial and political machinery was geared to pull us out of the depression by the same door through which we entered. We thought it simply a case of going back the way we came. It failed. We now realize that the way out is forward---through it.
Thanks for that belongs to President Roosevelt. Inauguration Day he turned the Ship of State around. Having observed the failure of sincere efforts to haul us back the way we came, he designed a new method---new political and financial machinery---to pull us out the way we are going---forward. He is clearing international obstacles out of the way; he does not stand in awe of tariffs. The people begin to feel that he does not take advice from the "interests"; that he has courage and loyalty to work for one supreme interest only---the welfare of the American people. That is a big achievement for two months in office.
And now we all look to what is coming; we grow less and less concerned with what is behind. We are looking for a hand-hold on the haul rope. Every man wants to do what he can, and all he can.
The best thing I can do for the Country is to create industry by building good motor cars. If I knew anything better to do, I would do it. Industry must be my contribution. Motor cars must face ahead to the future, like everything else. They are so much a part of the Nation's daily life that if they lag behind they hold the Country back.
Henry Ford

SENIORS OF '33 COMMANDMENTS TO THE JUNIORS

Dear Juniors: With feeling of sadness, we realize that the parting of the way is near at hand—and with in a comparative short time we will leave the halls of our dear old Alma Mater.

- You will occupy our places next year. Therefore, we feel it our duty to leave to you a few commandments which you must observe if you hope to graduate in 1934. 1. Thou shall have no other thoughts or objects before thee other than completing thy Senior work.

seniors have done this year. Five days shall thou do all thy studying, but on the sixth and seventh day shall thou rest from thy labors and make plenty of Whoopee.

- 4. Honor thy Superintendent and teachers that thy days may be long and pleasant in school which the board, thy friends, hast given thee. 5. Thou shall not kill another's ambition. 6. Thou shall not steal pencils, fountain pens, pages from library volumes, or thy classmates' notebooks.

us, but with a determined countenance assemble thyself immediately in the study hall, that sanctuary of learning, and there pore over thy studies that thou may acquire knowledge more abundantly.

Sincerely believing these commandments will be kept in trust, we wish for every junior an honorable passport from dear old S. A. H. S. in 1934.

THE SENIORS OF 1933.

SOPHOMORE NEWS

After final examinations are over, Santa Anna High School will have a large number of new full-fledged juniors, and the "sophisticated" sophomores of 1932-33 will be no more. Aleene Healen has withdrawn from school, although she will come back to take her final examinations.

THE BOMBER

(By Slim Eastland)

(Written in France during the World War. Eastland is a brother to Mrs. Sam Brewer of this city, who furnished the following poem for publication.)

The poppies gleamed like bloody pools through the cotton-woolly mist. And the captain kept looking at the watch he wore upon his wrist. And there we smoked and squatted, as we watched the shrapnel flame. 'Twas wonderful, I'm telling you, how fast those bullets came.

This lousy bunch of Boches had got us in the rear. Oh, it set my blood a-boiling, and I forgot all my pain, and I started crawling, crawling over all those mounds of slain.

And those devils were so busy they had no eyes for me, and my broken leg was dragging but my right arm it was free. And now they have it all in shape, and swinging nice and clear. And now they are all excited, but I'm drawing near.

away." CORP. JACK (SLIM) EASTLAND Co. D, 18th Reg. Sng., A. E. F. France.

SENIOR DAY

The seniors went to the Colorado River Tuesday, May 9. They left from the high school building. The seniors reported a very enjoyable time because they had plenty to eat, and several went swimming before and after lunch.

After having such a good time on the river the seniors were entertained that night with a party given by Kathryn Creamer. Should anyone wonder why the seniors appeared so sleepy-eyed and sunburned Wednesday morning?

JOKES

Elizabeth Rollins was trying to explain to Merah Brown the meaning of the word miracle. Elizabeth said, "If I fell from the top of an eight story building without being injured, what would it be?" "An accident," replied Merah. "No," said Elizabeth. She repeated the story again and the second time asked what would that be. Merah replied "a coincidence."

have a fight merely to find out who was the better of the two. The one who got enough first was to say the word "sufficient." The fight was fast and furious. Mr. Scarborough finally gave up the fight and said "sufficient."

"That's the word," said Mr. Lock. "I've been trying to think of it for an hour."

BROOKS, COUNTY LINE GEO. HAYNES, CROSS ROADS L. F. HARDING, Distributor Telephones 69 and 313

But I hadn't time to kiss her, for sudden-like I woke. "Come on, my lads!" they shouted, and we climbed out thru the smoke. We spread out in the open: it was like a breath of lead. But the boys they cheered and hollered fit to raise the bloody dander.

Till a Hun's bullet copped them and they lay without a sound. And it's odd we didn't seem to mind those corpses on the ground. And I kept thinking, thinking, as the bullets faster flew. How they hit the best men and let the rotters through.

So indiscriminately like they spare a man of sin. And a rare lad that's a husband and a father gets done in. And while having these reflections and advancing on the run. A bullet hits my shoulder and says I, "that's number one."

Well it downed me for a minute but I didn't lose my head. For I knew that I was needed. I'm a bomber, as I said. I had lost my hat and rifle, but I "carried on" because I had my bombs and knew that they were needed, so they was.

We didn't have no singing now nor many men too cheer. Maybe the shrapnel downed them, chasing out so very near. And the Maxims got us sideways, and the bullets faster flew. And I copped one on my nippers, and I says, "that's number two."

I was glad it was the left one, for I had my bomb, you see. And it would be haard if they were wasted along with me. I had lost my hat and rifle, but I told you that before. So I packed my hand inside my coat and pushed on once more.

Well the rumpus it was wicked, and the men were scarcer yet. And I felt my nerve again, but my jaws were kinder set. And we passed the Boche first trenches which were piled up with the dead. And we started for their second, which was fifty feet ahead.

When something like a hammer smashed me savage on the knee, and down I came all muck and blood, "well, hello number three." So I lay all helpless like, and mighty sick at that. And worrying like the devil, because I'd lost my hat.

And a-thinking of the Mrs. and the letter in which she said, "If you get killed, old timer, let me know that you are dead." And looking at my bombs, that was the hardest blow. To think I'd never had a chance to hurl them at the foe.

And there were all my pals in front fighting all like mad. And me that could have helped them with the bombs that I had. And so I cussed and cussed and had to struggle back again. Into that battered trench, packed solid with its slain.

Now as I lay there swearing at my lot, and wishing I could get rid of those bombs I've got, I see within the door of a shy retiring dug-out. Six Boches all a-grinning, and their captain stuck his head out. And they had a nice machine gun and I guessed what they were at.

And they fixed it on a tripod, and I watched them like a cat. And they got it in position, and they seemed so very glad. Like they had us in a death-trap, which, condemn their souls they had.

"I Want My Telephone put back, please" HARDLY a week passes but that some person who gave up his telephone service in recent months orders it restored. In many cases, people feel that it is false economy to be without a telephone . . . that the small cost of the service is repaid many times each month in convenience, in time and actually in money saved. Some miss the close and personal contact with friends that telephone service makes possible. Others mention the loss of many pleasant, impromptu social "get-togethers" when their friends are unable to reach them by telephone. It is all true . . . what these customer friends of ours say. Telephone service costs so little and its value is so great that in most instances it really doesn't pay to try to do without it. Santa Anna Telephone Co.

WHAT WILL I DO NEXT?

Graduation time is now only a matter of days. Several thousand young men and women will graduate from high school. The next important question arises. What will I do next?

To stop where you are means, of course, that you can make no further advances until you supplement your high school training with something that will give you an earning capacity. The professions are overcrowded. To spend from four to six years' time and the necessary expense incident thereto with no chance to put into profitable use the training seems a waste of time and money.

Teaching offers absolutely no inducement. Law, medicine, and the arts offer but little, if any, greater inducement. At this time, with the upturning of the business trend, and the determined effort on the part of our wonderful President to give us a new deal, argues very strongly in favor of a business training. Such a training may be had in a few months and at a comparatively small expense. It gives one an immediate earning power, and the longer the training is used, the more valuable it becomes. A prominent educator remarked recently, "Now is the time for young men and women to train for business."

Take the advice of this man and plan to prepare yourself for a profession that offers much greater inducement at this time than anything else.

The Tyler Commercial College and School of Business Administration, at Tyler, Texas, offers the young people of the southwest the very best training in business. They will be glad to send you one of their large catalogs free. Write them today using the coupon below.

TYLER COMMERCIAL COLLEGE AND SCHOOL OF BUSINESS ADMINISTRATION, TYLER, TEXAS

KENTUCKY BURLEY TOBACCO

"Direct From Grower To You" Old Kentucky Burley Tobacco is the cream of the finest crops Kentucky's bountiful soil can produce - ripe, rich leaves - smooth and mellow - with that rare old-fashioned flavor and fragrance that only proper "aging" can produce. We bank on it you have never tasted or smoked a finer flavored, more satisfying tobacco in all your life.

Special Offer! FIVE POUNDS SMOKING TOBACCO \$1

Rich, Ripe, Old Fashioned Leaf Our Old Kentucky Burley is no more like manufactured tobacco than day is like night - guaranteed free from chemicals, and all other adulterations that conceal imperfections, delude the sense of taste and undermine the health.

We use the same method our grandfathers used in preparing tobacco for their own use - every trace of harshness leaves it - nothing to "bite" your tongue or parch your taste. Thousands of tobacco lovers the world over swear by its inimitable smoking and chewing qualities.

REDUCE YOUR TOBACCO BILL ONE-HALF. We sell direct from the grower this eliminates the eighteen cents a pound Revenue Tax - all manufacturers' and middlemen's profit thereby effecting a saving to you of 50 per cent or more. No fancy packages, no decorations, just quality and lots of it.

MONEY SAVING PRICE SMOKING 5 lbs. Send us One OR for Dollar Cash CHEWING \$1.00 P. O. or Express Money

Order (no personal checks) and we will promptly ship you a five pound package of "Burley Tobacco."

Five pounds of Old Kentucky Burley will make 40 large packages of smoking or 80 twists of chewing.

Send 35 cents in silver and we will ship Post-Paid - one pound of Burley Tobacco as a trial offer. A trial will convince you.

We have thousand of requests daily for "samples" - our margin of profit is so small we cannot comply with these requests.

We do not ship C. O. D. orders as so would require a large part of clerks. Orders must be in English language.

Independent Tobacco Growers Association

Frankfort, Ky.

THE RULE OF REHOBOAM

My father made your yoke heavy, and I will add to your yoke; my father also chastised you with whips, but I will chastise you with scorpions.

So spoke the young King Rehoboam when he took the throne of Israel upon the death of Solomon. It seems that the Rehoboams have taken charge of the House at Austin. Faced with the urgent need for less taxes they pile on more. Hard times, say the Rehoboams of the House, "are to be cured with harder taxes."

Anybody with the white-collar wages of \$2,500 a year is to feel the blow. Any business prosperous enough to meet its payroll will be staggered afresh with the tax gatherer's demands. Corporations do not vote. All they do is to provide jobs for voters - and voters are so simple-minded that they will tax the possibility of their jobs in blissful ignorance that these jobs now hang by all too slender a thread. Thus do the Rehoboams of Austin reason.

The House was not willing to cut its own salary. The House has refused to enact any of the major reorganizations in the interest of economy as recommended by the Graves committee. The House has been timorous in the presence of lobbying minorities seeking to maintain the old wasteful ways of government and education. The call, therefore, is for these \$10-a-day Horsemen of the Depression to ride roughshod over the last remnant of solvency in Texas with the scourge of Rehoboam.

Some members of the House deserve none of these strictures. Some of them have done their best for the beleaguered taxpayer. Some have a record beyond criticism. But the majority gives character to the group, and the majority has done but little to meet a great emergency. - Dallas News, April 13.

THE WEATHER

It is a common saying that the winters are getting milder and the summers hotter. Now comes along the United States weather bureau, which has been studying the weather conditions directly for more than sixty years and by reference to old records for more than a hundred years back, and confirms the belief that the past few years have been exceptionally mild.

Since 1908 the United States especially that part of it east of the Rockies, has been enjoying the longest "warm spell" in history. The average annual temperature has been steadily rising for twenty-five years. Perhaps it has begun to change. The Winter just passed was not as mild as the last one, which was the mildest in a century. If we have a cool spring, weather sharps say, we may look forward to a cooler Autumn.

Just after the war of 1812 there was a long warm spell, lasting more than ten years. There was another soon after the Civil War. But from 1875 to 1912 the summers kept getting colder.

What causes these fluctuations in average annual temperature is not yet clearly understood, but knowledge of them is important. For one thing, these changes of climate have a decided influence upon agriculture. They determine the length of the growing season. Wheat production has been extending farther and farther north in Canada for a good many years now. A change of only two or three degrees in the average temperature, shortening the growing season, might materially cut down the wheat area of our northern neighbor. Similarly, the northward limit of the cotton belt is fixed by the average annual temperature.

The weather is one topic of perennial interest. Everybody talks about it although, as Mark Twain remarked, nobody ever does anything about it. It is of interest to everybody because it affects everybody. We have heard of lands of perpetual sunshine, in which the temperature never changes from season to season, where nobody ever has to give the weather a second thought. We have often wondered what the people of these sunny isles found to talk about. And we also wonder whether life doesn't get entirely too monotonous where Nature itself never changes.

With 85 hotel size canners and automatic sealers ordered for community canning, Cass county is going in for living at home on a big scale. Neat log houses with board roofs are under construction for housing the equipment. The movement is lead by county farm and home demonstration agents with the cooperation of business men, vocational teachers, and local civic organizations.

Will our jail wardens provide a menu for our rich income tax payers? It would be just as well if those birds had to eat Mulligan stew with the rest of the prisoners.

HOLY CATS, WHAT NEXT?

A bill has been introduced in congress to pay \$9,000 to Mrs. Thomas J. Walsh, widow of the late senator from Montana. It has been the custom to vote a year's pay to the widows of senators who died while in office - but a mighty poor custom.

Mrs. Walsh, who married the late senator but recently, is a Cuban and reputed to be very wealthy in her own right. She does not need the money and is not entitled to it.

If the widows of senators are to be voted funds from the federal treasury, why not be consistent and vote equal funds to the widows of all public officials and employees? Why not vote \$9,000 to the widows of all of our dead people? Why not vote everybody \$9,000?

It would be interesting to know what the widows of our dead soldiers, who receive only a pittance, think of such a scheme.

Take it away from the veterans and their widows and give it to others who have more money than they can legitimately spend!

HOW SHE LOST 29 POUNDS IN 3 MONTHS

"I am using your Kruschen Salts to reduce and I've used a bottle and a half and dieted some and lost 29 pounds in 3 months. I feel so much better and intend to keep on taking the Salts as I was almost 50 pounds overweight." Mrs. Thelma Gravelly, Roseville, Calif. (Jan. 11, 1933).

To lose fat and at the same time gain in physical attractiveness and feel spirited and youthful take one half teaspoonful of Kruschen in a glass of hot water before breakfast every morning.

A jar that lasts 4 weeks costs but a trifle at any drugstore in the world but be sure and get Kruschen Salts the SAFE way to reduce wide hips, prominent front and double chin and again feel the joy of living - money back if dissatisfied after the first jar.

Why Get Up Nights?

Make this 25c Test Physic the bladder as you would the bowels. Drive out impurities and excessive acids that cause irritation burning and frequent desire. Get a 25c test box of BU-KETS, the bladder physic, from any drug store. After four days if you are not relieved of getting up nights go back and get your money. BU-KETS, containing buchu leaves, juniper oil, etc., acts pleasantly and effectively on the bladder similar to castor oil on the bowels. If you are bothered with backache, or leg pains caused from bladder disorders you are bound to feel better after this cleansing and you get your regular sleep. Sold by PHILLIPS DRUG CO.

WHAT THE SENIORS WILL LEAVE SANTA ANNA HIGH

Catherine Ashmore - knowledge to Louise Wilsford. Newah Turney - excess weight to Mary Lee Ford.

Clifford Wheeler - excuse for being late to Alton Diserens. Ruby Williams - pull in English to Bess Inez Shield.

Leon Ward - ability to declaim to Billy Baxter. Eva Nell Arrant - ability to study to J. D. Pieratt.

Edith Watson - attendance every day to Ted Bradford.

STATE FAIR ENLARGING FACILITIES

Many improvements on the grounds of the State Fair of Texas are planned for the next few years, it has been announced here by Otto Herold, president of the exposition. Among the first improvements planned is a Boys and Girls Club Building, which is badly needed. Efforts are being made to erect the building this year. The improvement program will be financed by sale of sustaining membership certificates to the State Fair, and these will entitle purchasers to annual passes for person and car to the exposition for a term of five years.

SCHOLARS

A scholar is the queerest thing, His lessons he forgets; Yet still he thinks he's a monarch, king, In spite of dangers met.

But still he seems so unconcerned, About whether he will or not, Learn the things that have been learned Or get the things that have been got.

When things go wrong in study or class, The teacher acts so strange, She says, "A few demerits, little lass, You do not have most range."

Nevertheless, poor scholar takes

Just what is coming to him, Doesn't say a word for teacher's sake, And for her sake of vim.

Scholars think they're very wise, When to some caper they resort, And when seen by teacher's eyes, Say something odious in retort.

But listen, my dear scholar friend, Here's something that I know, You'll have a teacher till the end, No matter where you go.

A teacher till the end you say? What teacher do you mean? Oh, I know, she's here today, Experience is your scheme.

—A Sophomore.

The man who thinks he cannot be fooled already is.

ANNOUNCING

Mrs. Lola Lightfoot

as the Santa Anna Representative of the

Mitcham Funeral Home

Brownwood, Texas

We are glad to announce to the people of Santa Anna and the surrounding communities that Mrs. Lola Lightfoot will represent our Funeral Home.

Our Ambulance Service

Today the economic conditions are such that it is necessary for many people to be carried to and from hospitals in cars. In many cases we feel sure that this is somewhat injurious to the patient. It is no longer necessary for anyone to do this for we will deem it a privilege to serve everyone with our Golden Rule exclusive Ambulance service. We will be glad to carry any patient any distance for ten cents per mile from Brownwood.

Our Ambulance is never used for a funeral car. It is used only for the transfer of patients and is equipped with hot and cold water, all first aid equipment, cot and stretcher for two patients and seats for two passengers or attendants.

A call to Mrs. Lightfoot is a call to us.

Mitcham Funeral Home

Phone 69

### Coleman Junct'n

Everyone in the community was glad to see the nice rain received first of the week. It gave the farmers a good planting season and revives everything that is already up.

We are sorry to report that A. B. Ripley is back in the Santa Anna Hospital.

Miss Opal Odum visited Sunday night with Misses Velma and Cleo Dunn.

The B. T. S. Social given in the I. V. Sewell home Saturday night proved to be a very enjoyable affair. Ice cream and cake was served to B. T. S. Members.

Emmett and Emiel Grell of Woodward arrived in the community Saturday for a short visit with friends.

Miss Lillian Winslett spent last Thursday night with Misses Mabel and Opal Odum.

Emmett and Hubert Smith of Bee Branch attended the social in the I. V. Sewell home Saturday night.

Raymond Dunn visited Saturday night in Santa Anna with Mrs. Lucy Shamblin and family.

Miss Lena Moore visited Saturday night with Miss Mattie Broocke of Coleman.

Several from this community attended the Commencement Services at Coleman High School Sunday morning. Those to graduate from here are Misses Aleene Ripley, Imogene Ward, and Annie Mae Starnes and Clifton Yancy. Miss Ripley is extended congratulations for being selected valedictorian of her class.

Sunday School and B. T. S. services were omitted Sunday due to unfavorable weather. The regular services will be conducted next Sunday.

Miss Merle Dean Odum of this community was highly honored by being selected valedictorian of South Ward Coleman School.

Ramsey MacDonald from London, Heriot from Paris and a host of others from countries owing Uncle Sam war debts are to "visit Roosevelt"—and we haven't enough money to go around among our own people.

#### STUDENTS ASSEMBLED IN CHAPEL WEDNESDAY MORN

Students of Santa Anna High School assembled in the auditorium Wednesday morning, May 10, at ten o'clock to hear Leon Ward's declamation and a report of the State Track Meet.

The declamation which Leon very ably delivered was "My Home Town." He gave this at Big Spring, Texas in a Home Town Speaking Contest, May 12, 1933. The declamation related some of Santa Anna's past history, present progress, and prophesied future.

Mr. Binion gave a vivid account of the State Track Meet. He impressed upon the hearer's minds that the competition met with was very strong. Clifford Wheeler won three points for his school.

In addition to the Meet, the sights and pleasures of Austin were enjoyed by all our representatives. Including the debate team, Santa Anna High School sent eight representatives to Austin, and we hope to have more next year.

#### CO-SALUTORIANS WILL DELIVER WELCOME ADDRESS

Gus Morgan, upon further computation of the faculty, has been found co-salutatorian with Robert Dempsey. Their averages are exactly the same, making these two the first co-salutatorians Santa Anna High School has seen in many years.

"We are very pleased with this," declared Superintendent Scarborough in chapel last Wednesday morning, "for it does not decrease Roberts glory but does somewhat increase that of Gus." Both are certainly to be congratulated upon their excellent work, for their averages are slightly above ninety-six. Of course, the seniors feel proud of these two industrious members—don't you believe it?

#### "GIRL SHY" IS PRESENTED SATURDAY NIGHT

"Girl Shy" the play presented by the Howard Payne players in the high school auditorium Saturday night, was one of the best presented this year.

The play was given under the auspices of the junior class. Their profit was about three dollars and a half. This will be used to help defray the expenses of the Junior-Senior Banquet.

#### FRESHMAN PICNIC

Members of the freshman class went on a picnic Friday, May 12th, to Idlewild. They left the school house at three o'clock and arrived at the creek at 3:30 o'clock.

Nearly all the group went in swimming. No one came out without being ducked. After swimming they came out and looked for their clothes, as those who didn't go in hid everybody's clothes.

They played games until about six-thirty o'clock when the lunch was spread. The lunch consisted of potato chips, sandwiches, olives, pickles, deviled eggs, cookies, weenies, tomatoes and lemonade.

The group returned about 8:15 o'clock. Everyone had a splendid time. This was the last picnic for the freshman class this year.

The class thanks those who took their cars.

We note with regret, that the president has not introduced a bill to "save the editors."

For ACHEs and PAINs BALLARD'S SNOW LINIMENT Penetrates! Soothes!

#### SANTA ANNA REPRESENTED AT BIG SPRING

Leon Ward represented Santa Anna at Big Spring in the Home Town Contest. This contest took place last Thursday and Friday. Leon spoke last Friday night but met with "stiff" competition. Although Leon did not place in the contest, we are very proud that he went and that Santa Anna was represented.

#### BANQUET TO BE GIVEN FRIDAY NIGHT

Seniors and faculty of the Santa Anna High School will be guests of the junior class Friday night, May the nineteenth, at the Annual Junior-Senior Banquet to be given at the high school.

#### BACCALAUREATE SERMON NEXT SUNDAY NIGHT

Juniors will be in charge of the Baccalaureate Sermon to be given for the Seniors Sunday night, May the twenty-first at the high school. Reverend Hal C. Wingo will deliver the sermon. He will speak on "The Challenge of Youth."

#### SAHS Broadcasting Station

Tune your radios on SAHS station on Monday. The program for today is: "No, that isn't right, Mr. Lock," sung by Emma John Blake.

"We lost in debate," sung by Robert and Lois.

"Why didn't you have your English, Mary Lee?" sung by Mr. Lock.

"Sit down, Jesse and Garland," sung by Mrs. Pieratt.

"Let's get quiet, John W.," sung by Mrs. Bartlett.

"Billy, you may pass the waste basket and take up all the chewing gum (when catching Billy chewing gum)," sung by Mrs. Pieratt.

Yes, there are people honest enough to correctly report their incomes—those who have none.

This is a land of equality where no two people are equal.

The morning after wasn't so bad.

Is there anything just around the corner?

Times are only as hard as you think they are.

It might be well, also, to balance the rubber stamps.

If prosperity is as swift in returning as Washington is in whooping it up, we'll all soon be singing instead of groaning.

That woman who lost \$500,000 worth of jewels in Florida says she didn't—probably for the benefit of the tax assessor.

Nobody wants to be called a gold bug these days. Too many creditors waiting.

We suggest, however, that those foreign statesmen sell the soft soap they are preparing to smear over Mr. Roosevelt and apply the amount on their war debts.

#### Baptist Church

Last Sunday was all with the Baptists of Santa Anna. No services in the morning and very few at night service.

We will have our regular services next Sunday morning, Sunday School at 9:45 and preaching at 11 o'clock, but no preaching at night hour owing to baccalaureate sermon at High School auditorium.

Bring your Baylor College offering Sunday.

We will have our B. T. S. at 7 p. m. promptly so we may get to the High School in time for services there. The pastor will preach on street Saturday afternoon and urges all who can to come and help in that service.

The soul-hungry and sin-sick are invited to all our services with the assurance that we will try to help you in your struggles.

HAL C. WINGO, Pastor.

We had several come in last Friday and Saturday and take advantage of our Special Offer of a One Pound Can of Admiration Coffee with each dollar paid on subscription to the Santa Anna News. If you missed the deal and wish to take advantage of the offer, we are repeating it again this week, and still have several pounds left.

#### QUEEN THEATRE

FRIDAY AND SATURDAY this week

ZANE GREY'S "Heritage of the Desert"

with Randolph Scott

also Sally Blane

NEW SERIAL "Clancy of the Mounted"

SUNDAY & MONDAY Kate Smith

in Hello Everybody

and SCREEN SONG 10c 15c

#### Methodist Church

"Divine Ownership" is the subject for the morning service Sunday. The pastor will occupy the pulpit.

At the evening hour the pastor and congregation will attend the Baccalaureate services at the High School auditorium.

Sunday School at 9:45 a. m. Everyman's Bible Class, a newly organized class for every man in the church and those who do not attend any other Sunday school meets in the auditorium with the pastor as teacher.

Epworth Leagues meet at 7 p. m.

G. A. MORGAN, Pastor. C. B. VERNER, Supt.

#### INTERMEDIATE B. T. S.

The program for Sunday, May 21, is "The Second Period of the Galilean Ministry." The parts are as follows:

In All Galilee—Carmilla Flores

Jesus Chooses the Twelve—Rosalie Niell

Jesus Preaches the Sermon on the Mount—Ruth Niell

His Miracles of Healing—Golda Hardy

John the Baptist's Last Message and Death—Juanita Riordan.

The Anointing of Jesus—Imogene Henderson.

Jesus Still the Tempest—J. W. Davis.

Although we didn't have B. Y. P. U. last Sunday night, please don't forget to come next Sunday night.

METHODIST W. M. S.

Time: 3 p. m. Monday, May 22. Place: Mrs. Thate. Hostesses: Mrs. Thate and Mrs. Mills.

Leader: Mrs. Sealy. Reading: "The Unity of the Church." (1 Cor. 12: 12-18, 27) Leader.

#### Methodist Church

"The Deceitful and the Community Church"—Miss Behta.

Playlet: "A Church Deceitful Conference"—Miss Chandler.

Mrs. Ethridge. Miss Field—Mrs. Boone. Miss Gatewood—Mrs. Morgan. Miss Johnson—Mrs. Verner.

Americans spend \$700,000,000 annually for drugs and medicines. And that's just another reason why every drug store should advertise.

There's nothing wrong with this world, except that it is stark mad and hasn't brains enough to know it.
