SANTA ANNA, COLEMAN COUNTY, TEXAS, FRIDAY, JULY 25, 1930

NUMBER 32

Hudspeth Calls On West Texas To Cast Vote For Jim Young

Saved Cattlemen Millions When He Fought to Force Government to Take Over Range Cattle For Armies

Calling on "every Democrat in West Texas" to vote for Jim Young for Governor, Claude Hudspeth, Congressman from West Texas for 28 consecutive years, has issued from his bed of illness a statement which declares that while Clint Small probably benefitted a hundred people by his riparian land rights bill, Jim Young benefitted and protected millions by his Congressional work for the cattle man and farmer.

Commending Young as a "Christian gentleman and a sterling Democrat" and offering to rise from his bed of illness and meet any speaker who cast any "velled suggestion as to a fly-speck on Jim Young's blameless life, Hudspeth, who served with him in Congress, stated that "if the people of West Texas are as grateful as I have always found them to be, he will receive every Democratic vote in West Texas on July 26th."

He told how Young labored day and night to defend the effort to set an arbitrary price on cotton during the world war, and thus saved millions for the cotton farmer, so that "every cotton farmer in Texas, out of pure gratitude, should remember Jim Young on July 26th."

He told how Jim Young saved the cattlemen millions when he fought to force the government to take over range cattle for the armies at a high price and "When the government commandeered wool, he aided in fixing the price at 50c a pound." "Will this in a measure," he asked, "compare to the bill that reserved to riparian owners a few acres of land in the bed of a creek? Mr. Small, who is running as a West Texas candidate, probably benefitted a hundred, while old honest Jim Young benefitted and protected millions."

Hudspeth also attacked Tom Love's candidacy, calling him "Thomas N. Buncombe Love."

BANKS WILL BE CLOSED ELECTION DAY

The 26th day of July being Election Day and a Legal Holiday, the under-signed banks will be closed.

First National Bank.

COLEMAN WOMAN BURIED AT ROCKWOOD SUNDAY

Miss Alma Robertson, 43, former resident of Coleman, died Saturday afternoon in an Abilene hospital following an extended illness.

She was the daughter of Dr. H. H. Robertson of Coleman, and a sister of Dr. A. H. Robertson of the same city. Her mother died two years ago.

Funeral rites were held from the chapel of the Rockwood cemetery Sunday afternoon.

Coleman County Tax Rate Slashed Last Week by Com. Court

County to Pay \$10,000 to Buy and Fence Right-of-Way For Coleman and Abilene Highway; State Agrees to Improvements

Coleman county tax payers will be glad to receive news of a cut in the tax rate of the county made by the commissioners' court at its regular monthly meeting last week. The ad valorem rate will remain at 25 cents and the road and bridge tax at 15 cents. The jury fund tax, however, was cut from 5 to 3 cents. The road bond issue tax in precinct No. 1 remains at 80 cents, but in precinct No. 2 it was cut from \$1.15 to \$1.10. In road district No. 1 the rate was reduced from 80 to 75 cents but in road district No. 3 it was left at 75 cents. The reductions will result in a saving to Coleman county tax payers of approximately \$10,000 next year.

The court passed an order authorizing the expenditure of \$10,000 for the purpose of paying for and fencing a right of way desired by the state highway commission from Novice to Coleman as a means of completing the highway that will connect Abilene and Coleman. The highway has been completed from Novice to Abilene, part of the way with a ribbon of concrete, but work on this end has been delayed on account of crooks and turns and narrow right-of-way. The action of the court in agreeing to pay as much as \$10,000 for the right-of-way, and fence came after E. C. Edens, S. H. Gray and C. W. Hemphill, local bankers, appeared before the court and agreed to carry county warrants for the amount.

The state highway department has agreed to improve the highway if Coleman county will furnish the desired right-of-way.

Mr. and Mrs. J. G. Sims of Cross Plains were Santa Anna visitors last week.

Texas Is Likely To Gain Three Seats In The Lower House

Texas Gain of 1,945,141 in Population Would Give Additional Seats While Some States Lose Representatives

According to an Associated Press dispatch from Washington the queer quirks performed by "the method of major fractions" as it operates on the state populations in the reapportionment of members of the House of Representatives are going to bring about many seeming inconsistencies.

California with an increase of 3,264,733 in population since the last apportionment of the House was made, likely will receive an addition of nine members to her delegation, while Illinois, with a gain of 1,991,692 people in the same time, will receive no additional members.

Likewise, Michigan with an increase of 2,008,193, may gain four additional members, while Pennsylvania with an increase of 2,387,899 is down to lose one member.

New York, on an increase of 3,495,941 people, will probably be given two additional members, and New Jersey, with a probable gain of 1,401,833, is slated to gain two new members also, while Texas with an increase of 1,945,141 probably will be given three additional Congressmen.

While the population of 37 states already announced, experts have begun figuring on the makeup of the House under the new apportionment law. Some of their calculations made a year ago already have been overturned, the latest developments being in indication that Georgia will lose two Congressmen instead of none as had been previously been figured. New York likely will gain two instead of losing one. Texas might gain three instead of two, and California nine instead of six. Minnesota probably will lose one instead of maintaining her delegation of 10 as at present, and Ohio may gain only one instead of three as had been forecast.

The actual changes in a number of instances can not be determined until the remaining 11 states have reported their population and the method of major fractions put to work.

A tabulation of the actual and estimated increase indicated that in the recasting of the House, the seats must be shifted about among the states to provide equal representation to 31,420,948 persons.

The seats will automatically be changed by the Census Bureau if Congress fails to act in the coming session.

SANTA ANNA SCOUTS ARE OFFERED PART OF CAMP

Rev. Fred Ross of Coleman was in Santa Anna Saturday conferring with local Scout executives and business men in regards to the Boy Scout camp site donated to the Coleman Scouts a short time ago by Lester Cox.

Mr. Cox gave the Coleman Scouts a 99 year lease on a site on his ranch located 35 miles south of Santa Anna on the same distance from Coleman, on the Colorado river. Coleman now desires to make it county-wide and take in Santa Anna Scouts.

Improvements will be built on the site and plans are to make it one of the best camping grounds in this section of the state.

If Santa Anna folks desire to go into the proposition they should express their views to the Scout executives.

OSCAR CALLOWAY SPOKE HERE LAST SATURDAY

Oscar Calloway, of Comanche, spoke to a large crowd on the streets of Santa Anna last Saturday in behalf of the candidacy of James Young for governor.

Mr. Calloway has kept in close touch with all issues of the campaign and his address was of interest to those who heard him. He also spoke at length on the issues of the day, as well as the governor's race.

Mr. Calloway served six years in the House with Young and while an anti-prohibitionist and Young a life-time prohibitionist, he believes him the logical candidate for the nomination.

Mrs. J. W. Kirkpatrick and Miss Kathryn Baxter were Abilene visitors Monday and Tuesday.

Short Course For Farmers To Be Held July 28 to Aug. 1

Five Days Course Promises Series of Addresses and Talks Covering General Field of Agriculture; 500 Expected

Completion of detailed program for the twenty-first annual Farmers Short Course at the A. & M. College of Texas, at College Station, July 28 to Aug. 1, as announced by Extension Service officials, discloses a wide range of discussion in agricultural and home making fields for men and women, boys and girls. Numerous recognized experts, including W. F. Schilling of the Federal Farm Board, Dr. O. E. Baker, bureau of Agricultural Economics of the United States Department of Agriculture, and others will contribute to the general programs, while the group programs will be conducted by specialists of much experience in their respective fields.

All told, the five day gathering promises a series of addresses and talks covering the general field of agricultural endeavor with emphasis on modern methods and particular attention to timely phases. Attendance is expected to be around 5,000 with the representation of 4-H Club boys and girls equalling last year's record of 1,700.

President T. O. Walton of the college will formally open the short course with an address Monday morning, July 28. Director O. B. Martin of the Extension Service will preside at the opening session.

The program has been so planned as to offer sessions of particular appeal to members of every group. Special group sessions for men, boys, women and girls have been worked out and general entertainment features, including historical and agricultural pageant entitled "Texas, The Magnificent," to be presented Thursday night on the lawn at Garton Hall, will augment the more serious group discussions and talks.

A series of general lecture programs dealing with the farm problem from three aspects—efficient utilization of land, efficient distribution of farm products and cutting the costs of production—will be held in the mornings. These discussions are expected to appeal particularly to farmers and county agents. Dean E. J. Kyle of the school of agriculture, A. & M. College, will open this series with a discussion of "The Triangle of Agriculture." Other speakers who will appear in the series of farm problem talks will include: Dr. (Continued on page five)

CHRISTOVAL ENCAMPMENT CATALOGUES NOW READY

Catalogues for the Christoval Baptist Encampment have been completed for their twentieth annual session and those desiring a copy may secure same by writing Rev. W. T. Hamor at Winters, Texas.

The catalogue of thirty-two pages is neat in appearance and contains announcements for the encampment which begins August 1st and continues through the 10th.

Z. A. Parker Injured In Auto Accident Near Hasse Monday

Was On Way Home From Fort Worth When Car Plunged Into Ditch Ten Feet Deep; Is In Serious Condition

Z. A. Parker of Santa Anna was seriously injured and R. H. Milton Calloway of Fort Worth were also injured though not so severely when a light coupe in which they were riding overturned on the highway near Hasse, in Comanche county, at about 9 o'clock Monday night.

The three were coming from Fort Worth. Mr. Parker and Mr. Summer had shipped cattle to the Fort Worth market and were returning home from their trip to the market, and Mr. Calloway was on her way to Llano to visit her father.

The automobile was proceeding at a moderate rate of speed when a tire with only a small amount of air caused the car to plunge over the embankment at a curve into a ditch over 10 feet deep, turning completely over. Mr. Parker who was riding in the rumble seat of the car was injured more than the occupants inside the car.

Mr. Parker was badly injured about the head and neck and was unconscious when carried to a Brownwood hospital. An X-ray was made Tuesday morning, which showed no bones broken.

His daughters, Mrs. L. E. Abernathy of Rockwood, Mrs. Henry Davis of north of town, Mrs. W. B. Sparkman of Santa Anna and his sons, Aubrey of this city and John Lee of Garden City are at his bedside.

His condition yesterday was still reported serious, but if no other complications set in it was thought he would be out of danger in the next few hours.

Leon Ward and Clifford Wheeler left Sunday for Gainesville, where they will work.

Texas Cotton Crop Is Short According To State July Report

Six Per Cent Reduction From Last Year's Acreage Leaves 16,889,926 Acres From Which Crop Will Be Gathered

An outlook for as short a cotton crop as last year's 3,800,000 bales was announced Tuesday by State Agricultural Commissioner George B. Terrell, at Austin. The Texas crop usually is a little over a third of that for the whole country.

But a short crop, Commissioner Terrell says, seems to be the only hope for better prices this fall. Forty per cent of the cotton is very late, much of it is not blooming, not any of the late crop is assured and so it is impossible to estimate the outcome of the crop, he said.

Based on July 15 reports from 200 counties he estimated a six per cent reduction from last year's acreage, including the abandonment. This leaves 16,889,926 acres from which the crop will be gathered.

For an eastern district made up of 49 counties, he reports 92 per cent of last year's acreage and 78 per cent condition. For 22 counties in the northern district, the acreage is 94 per cent and condition 79 per cent; in 44 counties in the western district the acreage is 93 per cent and condition 76 per cent; in 44 central counties the acreage is 95 per cent and condition 81 per cent; in 37 southwestern counties the acreage is 96 per cent and condition 82 per cent and in 58 western counties the acreage is 97 per cent and condition 78 per cent.

The total average is 94 per cent of last year and average condition is 79 per cent.

"Hot dry weather is reported in every district," said Commissioner Terrell.

LINK BETWEEN HIGHWAY 7 AND 107 TO BE FINISHED

Division Engineer A. F. Mournund of San Angelo was in Santa Anna last week checking up on the strip of road on Highway 107, in the southwest part of town, that connects the paving from the edge of town to Main Street on No. 7.

After going over the street and checking the expense Mr. Mournund notified Mayor Baxter that the state would finish the strip.

Work is to start either this week or next and as soon as the road bed has settled it will be topped with a coat of asphalt.

A Deserved Development

It is no mere accident that the growth of many Santa Anna and Coleman county commercial, industrial, ranching and farming institutions run parallel to the growth of the State National Bank. There is an essential relation between these varied lines, based on the bank's capacity for rendering financial counsel and guidance and summed up in the word—

Earl W. Hodges

Earl W. Hodges of New York city was elected president of the International Association of Lions Clubs, a service organization of more than 2,200 clubs and 80,000 members all over the United States and Canada, at their annual meeting in Denver, Colorado, on July 18th.

Mr. Hodges was first vice president of the Lions in 1929-30, and now succeeds Ray L. Riley, who is comptroller of the State of California.

Farm boy, printer's devil, printing office foreman, newspaper owner and publisher, state printing clerk, deputy State Auditor, Secretary of State of Arkansas, director of public utilities for his state, and finally director of public relations for the great Henry L. Doherty interests—that is Earl W. Hodges, the new president of Lions International. He is one of the best known public speakers in the country, and has visited and delivered addresses many times in every state in the Union.

MRS. G. A. CHAMBERS

Mrs. Mary Annie Chambers, 38, wife of G. A. Chambers, Brownwood, who came to Santa Anna four or five weeks ago to try to improve her health, died here early Wednesday morning. Mrs. Chambers had been in ill health the past few years, her death being attributed to tuberculosis.

Mrs. Chambers, nee Mary Annie Hicks, was born December 30, 1891, in Coryell county and was the daughter of Mr. and Mrs. J. H. Hicks. She was married to G. A. Chambers December 8, 1907 and to this union were born two children, Melvin, who died about one year ago, and Pauline, who with her father survives to mourn the death of the wife and mother.

Mrs. Chambers professed faith in Christ when a girl and lived a devout Christian life until her death. She was a member of the Baptist church.

In addition to the immediate family, Mrs. Chambers is survived by her father, J. H. Hicks, of Lampasas, three sisters, Mrs. C. J. Carroll of Lampasas, Mrs. T. V. Bowen of Brownwood, Mrs. George Routh of Santa Anna and two brothers, Vess Hicks of Brownwood and Hillard Hicks of San Benito.

The remains were taken to Brownwood where funeral services were held at 10:30 Thursday morning from the McJanis funeral parlor. Services were conducted by Rev. W. J. Chambers of Lampasas. Burial was in the Greenleaf cemetery.

Misses Clarice Carr, Maurine Bullock, Mary Bess Herndon all of San Angelo, Helen Anderson of Pampa, Mildred Rushing of Waco and Mary Jo Brown of Sipe Springs, were the house guests of Miss Lula Jo Harvey this past week-end.

Plenty Binder Twine. Pure Mexican sisal, 85-pound test. G. W. Faulkner.

TEXAS' FIVE MASTER FARM WOMEN NAMED BY COLLEGE

Names of the five farm women making up the 1930 group of Texas Master Farm Homemakers have been announced by the A. & M. College at College Station as follows: Mrs. John McCarroll, Mobeetle, Wheeler county; Mrs. L. H. Lahe, Mission, Hidalgo county; Mrs. C. B. McBride, Indian Creek, Brown county; Mrs. O. A. Blankenship, Anarillo, Polter county; Mrs. J. L. Lumpkin, Dalby Springs, Bowie county.

These five women will be honored at a special ceremony July 28, during the twenty-first annual Farmers Short Course at College Station by The Farmer's Wife, national farm women's magazine, St. Paul, Minn., in cooperation with the Extension Service of the A. & M. College of Texas.

Among points considered by the state judging committee that selected the women were the farm home plant (not the cost of the house or equipment but how well the homemaker had done with the money at her disposal), managerial ability, health of the family, philosophy of life, family relationships, child training methods, social and recreational development of the family and community activities.

The five women have two to seven children and live on farms of 12 to 640 acres. In most instances they and their husbands have bought and paid for well-improved farms and well equipped homes. The women's achievements as wives, mothers and community builders, however, are considered even more significant by their neighbors.

With the recognition of this group Texas will have fifteen Master Farm Homemakers. Since the Farmer's Wife and co-operating state colleges began the movement three years ago some 280 women in twenty states have been honored. They have organized a National Guild.

MISSING COLEMAN GIRL IS SOUGHT BY OFFICERS

Peace officers and others of West Texas towns and cities have been asked to be on the look-out for Ruby Smith, nineteen year old Coleman county girl, who disappeared under peculiar circumstances from her home about 5 o'clock Saturday afternoon.

Miss Smith, the daughter of R. O. Smith, farmer, presumably left her home on the Smith farm six miles south of Coleman to get the mail and has not been seen since. No reason could be ascertained for the girl wanting to run away from home and for that reason abduction is feared as the cause of her disappearance.

The girl is 5 feet 8 inches tall, weighs about 130 pounds and of dark hair and fair complexion.

THE OLD SONGS

One remarkable feature about the old songs is that there are so many of them. The radio is bringing back many old memories, but best of all, it is showing us what we missed in the "good old days."

The history of a nation is written into its songs. Modern invention enables the world to live again and enjoy the beauties of old. Many of the songs are beautiful with age alone, telling of the desires of the hearts of old, the ambitions and the heartaches.

Mrs. W. A. Petty and Mrs. Blackwell of Houston came in Sunday for a visit with their mother and sister, Mrs. Selbold Rowe, and family.

Mr. and Mrs. W. I. Mitchell, who have been making their home in Coleman the past several months will return to Santa Anna in the near future to live.

FAR AND NEAR

St. Louis, Mo., July 21—Dale Jackson and Forest O'Brine, former holders of the refueling endurance record took off from Lambert-St. Louis field in a Curtiss-Robin monoplane at 7:11 a. m. central standard time today hopeful of staying in the air 30 days (720 hours) thus decisively beating the Hunter brothers mark of 553 hours made in Chicago recently.

Louisville, Ky., July 21—While agricultural experts have been stumping the country preaching the doctrine of lower production as the cure for farm ills, Kentucky farmers have been wondering if they will have any crops at all this year.

Washington, July 21—The cotton spinning industry showed decreased activities during June, as compared with May this year and with June last year.

The census bureau today announced the average number of spindles operated during June was at 76.3 per cent capacity on a single shift basis, compared with 83.6 per cent in May this year and 88.3 per cent in June last year.

Staunton, Va., July 22—James Eads How, "Millionaire Hobo," died in a Staunton hospital today, of pneumonia, "evidently superinduced by starvation," physicians said. How was 56 years old and a member of one of the wealthiest families of St. Louis, where he was born. His grandfather was the distinguished engineer, James Eads, who built the bridge over the Mississippi River at St. Louis.

Washington, July 22—A total of about 122,957,000 people—just a few thousand under 123,000,000—probably will be shown as the population of the United States for 1930 when the U. S. census is taken, as announced here by Director W. M. Stewart of the census.

Amarillo, July 22—Mrs. Geo. W. Alexander, widow of the Dalhart county sheriff slain in a gun fight with the Dellinger brothers near Dalhart, was appointed sheriff at a meeting of the county commissioners Monday.

Washington, July 22—President Hoover said today the London naval treaty approved yesterday by the Senate would secure the full defense of the United States and would dismiss from the minds of the world any idea that this country aimed for imperialistic exploitation. Asserting the pact, which he will sign today, is a great accomplishment, the Chief Executive said it was a matter of satisfaction that it had been carried through step by step with the cooperation of both political parties.

PREACHING AT CLEVELAND

Preaching services will be held at the Methodist church at Cleveland Sunday afternoon, July 27th, at 3:30 o'clock.

All the people of the community are cordially invited.

O. A. MORTON, Pastor.

Mr. and Mrs. C. E. Welch and their daughters, Mrs. C. W. Tierney and Mrs. Ledford and daughter, returned Monday from a few days visit in San Antonio.

Go to church Sunday.

NOTICE

TO MY PATRONS

The Banner Ice Company will begin weighing all ice at dock. This will eliminate all doubts as to correct weight.

We are here to serve you and shall continue to try to please you by giving you good merchandise, good service and good weight.

Remember we hand'e Ice Cream in large or small lots. Call 888 and let us send your cream at once.

THREE NEW TESTS ARE TO START SOUTH OF TOWN

Three drilling machines were moved in and erection started the past week to begin drilling on three different locations south of town as soon as the rigs can be assembled.

Jameson, Pollard and Foster are to drill on the Kingsbery estate, six miles south of town, to a depth to reach the Turner sand.

J. L. Dodgen of Santa Anna, and his associates of Brownwood and Oklahoma are erecting a rig on the John W. Harris estate, in the H. Starnes survey, about four miles south of town. This company will go to the Turner sand with a possibility of drilling deeper.

The States Oil Corporation of Ardmore will drill adjacent to the Gladys Bell acreage on the east, four miles southeast of Santa Anna. This test will go to the Ranger gas pay, or a depth of about 2,300 feet.

The test on the Gerty Long tract east of town being drilled by Kelley & Holliday is now on a fishing job at 1,052 feet.

PIONEER CITIZEN OF BANGS IS FOUND DEAD IN BED

W. L. (Bill) Yarbrough, for many years a prominent citizen of Bangs, was found dead in his bed at home Wednesday morning, death being attributed to heart trouble. Mr. Yarbrough had been ill the past few days but relatives and attendants were not alarmed over his condition.

Mr. Yarbrough was one of the pioneer settlers of Brown county and during the past several decades he had been active in the business and civic affairs of his community. He was past 80 years of age.

Funeral services were held on Thursday afternoon from the Bangs Baptist church with Rev. W. R. Russell conducting. Burial was in the Bangs cemetery.

Mr. Yarbrough is survived by his wife and two children, L. N. Yarbrough of Bangs and Mrs. Patsy Pulliam, with whom Mr. and Mrs. Yarbrough have made their home in recent years.

TO OUR FRIENDS AND CUSTOMERS

Please remember to get your gas and make your other purchases on Saturday as we will not be open on Sunday. Have a fine list of customers, but could use more.

Dr. LeGear is a graduate of the University of Missouri, Columbia, Mo. Thirty-eight years of veterinary work. Eminent authority on diseases and raising of dairy cows, other livestock and poultry. Nationally known lecturer, writer and author.

Editor's Note—This is another story in a series of articles on dairying written by the well known national dairy and poultry authority, Dr. L. D. LeGear, V. S., of St. Louis, Mo. The entire series will appear in this paper. Our readers are urged to read them carefully and clip them out for future reference.

When Science Studies The Cows' Stomach

Modern Feeding Methods are the Result of Experimenting to Find the Proper Combinations

The expression is frequently used that we are living in a laboratory age. Nearly everything we eat and wear and use must first go through several experimental stages.

A few years ago, I visited the factory of a well-known high-priced automobile and was told that every part of the engine was inspected every forty-five minutes during the process of manufacture. Finally, the engine was placed on a testing block and run at full speed continuously for four hours before it was ever put into the finished car.

The average public is not aware of the fact that similar methods have been employed for years in the study of the care and feeding of cattle.

Recently I visited a well-known State experimental station. As we went through one barn I was shown a new born calf and informed that within twenty-four hours it would not be alive. In fact, it was doomed to die before it was even born. The reason for this was that its mother had been fed a certain ration. For twenty years cows fed this ration had not produced a single calf which lived. In every case the offspring would be undersized, abnormal, and, in many cases, blind. The ration was wheat straw, wheat meal, wheat gluten and common salt.

The interesting thing about the experiment was that in this same barn the cows fed with the same ration plus the bone meal and cod liver oil produced good healthy calves which later became large producers of milk.

All through this experiment station similar tests were being made on various combinations of food. By this means the correct feeding of dairy cattle was being reduced to a science. The results of this scientific knowledge are now available to every farmer, and there is little excuse today for the owner of dairy cattle not knowing how to keep his herd on a profitable producing basis.

We have already referred to the dairy cow as an example of a modern machine perfected throughout the years for the manufacture of milk. I think we will have a great regard for the humble cow and will be far more considerate of her comfort and surroundings if we know a little more about the mechanism by which she produces milk.

How many times, for instance, are we neglectful, in cold weather, of water for the cattle? We do not realize that their bodies consist of from 10 to 90 per cent liquid. Water performs many important functions in the body. It dissolves the food, acts as a carrier of food and waste, and is a most important element in the chemistry of the body. Any interference with the normal amount of drinking water may be serious and it should be supplied to live stock in large amounts in all seasons of the year. In the winter time, drinking water should not be cold.

The digestive organs of the cow are extremely interesting. As most of us know, the dairy cow chews her food just enough to moisten it, before she swallows it. It is held in the paunch until she is ready to bring it back in the form of a cud, when she masticates it and mixes it with saliva. This is the first step in the manufacture of milk. A cud will weigh three to four ounces, each one is chewed about a minute before it is returned for digestion.

A cow in reality has four stomachs, each one of which performs a certain function. The first stomach acts as a churn where further mastication takes place. The second apparently has no digestive juices but is a sort of policeman to the food, removing grass, straw, and other foreign objects which may happen to be in it. The third stomach has powerful muscles which

Things Worth Knowing

La Mont-Parnasse is the Paris Latin quarter's new multilingual weekly newspaper.

A man who topped a runaway horse in London streets calmed the animal with a piece of chocolate he had in his pocket.

Red raspberries are the hardest of the brambles, blackberries being most susceptible to adverse climate.

Among the industrial enterprises of ancient Phoenicia was the working of lead mines in Spain from which place they distributed the metal.

Bob White quail is one of the most beneficial birds to agricultural interests, through the efficient assistance it renders in the destruction of obnoxious weeds and insects.

The 25th coast artillery of San Diego, Calif., has been converted from harbor defense to anti-aircraft gun unit.

Rubber half soles that can be cemented to old or new shoes without removing the old sole, are being marketed.

Old tunnels under the streets of Sonora, Cal., dug by miners in the town's halcyon days, are rousing difficulty.

A British airplane carrying twenty passengers and weighing nine tons set a record in flying to Paris in ninety-five minutes. The distance is 200 miles.

The Russian alphabet is to be Latinized so that it will conform to other alphabets in Europe.

Women control 41 per cent of the individual wealth in the United States.

Deaths from heart disease have almost doubled in the last ten years.

Women of ancient Greece used mirrors made of shining bronze sometimes overlaid with silver.

Husbands in the Solomon islands group wear quills in their ears to mark the number of wives they possess.

During the last six years the foreign population in Paris has increased by more than 20,000, an official report reveals.

A laborer of Strling Scotland, was sentenced for selling stolen coats to a tailor, and returning immediately to steal them.

Manua Loa, in Hawaii, is the largest active volcano and mountain mass in the world.

Brazil ranks second to the United States in corn production, second to the African gold coast in cacao, and second to South Africa in diamond mining.

squeeze the moisture out of the food and prepare it for entering the true stomach. From there on the processes are very similar to those in other animals.

It is a fact that this is a more complicated procedure than the digestive process in other animals. Therefore it is very necessary that the cow be quite and comfortable during the period when she is transferring her food into milk. A cow, when disturbed, immediately ceases chewing her cud, which means that at the next milking period her supply will be greatly reduced if the disturbance continues. (Copyright, 1930. (by Dr. L. D. ALFRED IS IN RACE FOR ATTORNEY GENERAL

From bootblack to attorney general, sounding like the plot of an Alger book, is the step that James V. Alfred will have taken if he is elected to that post, according to a news item from Wichita Falls.

Alfred, born in 1899 in Montague county shined shoes in a barber shop and sold newspapers while going to school in Bowie. Later he was substitute mail carrier for his father.

Going to Rice Institute for further education Alfred worked in a Houston filling station to pay school expenses. His schooling was interrupted when he en-

James V. Alfred

tered the service at the age of 19 during the world war.

After the war the Montague county youth studied law at Cumberland and entered the practice of law in Wichita Falls. He was appointed district attorney by Governor Pat Neff and elected to succeed himself.

Resigning from the prosecutor's office Alfred returned to the firm he had been associated with previously—a full partner. He stayed there until he became a candidate for attorney general in 1926.

The campaign four years ago saw nearly as much interest paid to the race for attorney general as to that of governor.

The fact that Dan Moody was stepping out of that office to oppose Gov. Ma Ferguson made it especially attractive.

Alfred carried his county of Montague by a majority of six to one. His total vote in the state was 356,036 but he was defeated by the narrow margin of 4,046. He accepted the result without contest.

In 1928 Young county friends placed his name on the ticket again for attorney general but he withdrew the name, refusing to run against his former opponent for a second term. Alfred has spent the last four years in a general practice of law in Wichita Falls.

OUR TRADE MERIT SPECIALS

Several of the subscribers to our Trade Merit Plan, have suggested that we change the dates from Monday and Tuesday to Friday and Saturday. This is a copyrighted plan, and we took it over and agreed to publish it after the local business people purchased it, and it is supposed to be carried out according to the written orders and agreements, but we have succeeded in securing an order from the Ralph Ross System of the state of Iowa, to change the date to suit the subscribers and to cooperate with them in any way we can in order that the maximum results may be obtained. Therefore, since the general committee for our cow day events have decided to omit a cow day in August, and most all merchandise that is being advertised for leaders are advertised for Friday and Saturday, we have agreed to change the dates from Mondays and Tuesdays to Fridays and Saturdays, and the next special edition will be published next week July 31st, offering TRADE MERIT SPECIALS for Friday and Saturday, August 1st and 2nd. Subscribers please bear this in mind and help us to help you make the plan you purchased worth all we can to the town. Your signed orders are here on file, and the Santa Anna News expects each and every one to live up to their contract. May we have your cooperation.

A QUESTION OF SAFETY

Is your child quick—or dead? This was the rather pertinent inquiry or a warning issued, in connection with National Safety Week.

The reason for it is: Of 19,000 persons killed by automobiles in the United States last year, 5,700 were children.

The assumption then is that the child that is not quick and on the alert every moment of the time spent on the streets, is of few years on earth.

Reckless autoists take this terrible toll of child life, and since they are not being curbed very rapidly, it behooves parents to use the greatest precautions in guarding their children against such an untimely death.

A study of statistics regarding this phase of automobile fatalities shows that the overwhelming majority of youngsters are killed while running errands or going to and from school. The loss of life among children playing in the streets is comparatively small.

No community escapes the blight of this ever present menace. Though accidents are less numerous in small towns, they are no less in proportion to population than in the large cities.

Through speeding, reckless automobile drivers may be punished, the vengeance of the law will not bring back the little life that might have been spared had more care been exercised.

The traffic problem can never be solved by adding to the dents in your fenders, subtracting the nickel from your hub caps, multiplying your complications with other drivers, and dividing your attention between driving and day-dreaming.

In this rushing, workaday world, with all of its hustle and bustle, one of the best mental and physical tonics we know of is that well-known interlocutor's statement in the minstrel show: "Gentlemen, be seated."

Modern youth is resourceful. They sing the "Swing Song" without any stints. But that's nothing. They're singing a lot of modern songs without any stints.

People can't pull together in their pull-me-down politics.

THIS AND THAT

The boss has moved to the farm this week to prove to the farmers of this section that what he has been preaching in the columns of the News for the past several years can be done. Time will tell if he is going to live at home or try to run his face, as in the past, with our local grocer-men. We predict that before the whole thing is over he'll readily understand why farmer Jones wished to trade him a bushel of potatoes for a year's reading and why farmer Smith wanted to swap a watermelon for subscription, and also why he was cussed for advising the farmer to get up every morning at 4 o'clock and milk the cows each evening after dark. Anyway, we'll bet there will be many and many an afternoon as he follows old Beck down the rows, guiding that walking plow, that he wishes he could again enjoy the ink-scented breezes from his oscillating fan as he sat in his office reading his exchanges and writing items for his paper on "how to farm." Anyway, he and family are on the farm now, so if you have any news items of interest just bring them in, wish to pay your subscription or anything on account drop around, but if you wish to collect go to—you'll have to go to the farm.

Tomorrow, yes tomorrow, you will go to the polls to cast your vote for the betterment of Coleman county and the Great State of Texas, that is you should, and we believe you will, do what you deem best to take or keep the rottenness out of county and state government. If you have doubt about some of the offices to be filled, and we are sure you have with so many in the race, go to some reliable friend who knows who from who, and try to get a line-up on said office before going to the polls. The writer of this column, who has lived in Oklahoma the past few years, has seen the legions of governors of that state impeached because of their rottenness, and also witnessed some pretty bad county messes across Red river. We hope that you will go to the polls tomorrow and cast your vote for the men and women you will find on your ballot, who you will have the honor of seeing fill their respective terms of office without impeachment charges being filed.

We did not say anything in this column last week about the nails on Santa Anna streets for fear it would shock somebody's modesty. We were spending most of our idle time fixing flats. However, we do wish to say this week that something certainly should be done to rid our residence streets of them. The writer personally has about cleaned them up in one block where we turn off the pavement to where we live, and you would certainly be surprised at the number we have picked up. Some towns over the state have solved this problem with their Boy Scouts and Santa Anna could do the same thing.

We certainly were surprised last week to read a news item where the army and navy of the United States were purchasing around 6,500,000 pounds of beef from foreign nations. This is enough to make every stock raiser in Texas, and all the United States for that matter, to file a letter of protest with their United States Senator.

Hurrah! Hurrah! A Santa Fe train passed thru Santa Anna first of the week in the early morning hours and only whistled at three crossings—that is only three after they had aroused us out of about forty minutes more of good sleep.

BIG ROAD PROGRAM

America's road building program this year involves an expenditure of \$11 for every man, woman and child in the country. It is expected to reach the tremendous total of \$1,360,025,776. Widening of old roads is an important feature, particularly the addition of shoulders on paved highways.

According to the American Automobile Association, this means at the end of 1930, we will have more than 600,000 miles of paved highways. The federal aid system, consisting of 185,000 miles of important interstate trunk lines, will be about two-thirds completed.

Our highways are the arteries that give life to the nation. They take more money than almost any other item in the budget, and they pay it back more rapidly in social and industrial progress.

Nobody who voted for Hoover because he wanted to abolish poverty knew that indignity would take its place.

Unnecessary Republican worry over who the Democrats will elect in their next losing Presidential campaign.

TALKING ABOUT US

J. J. Gregg, editor and publisher of the Santa Anna News the past fifteen years or so, recently acquired a real farm over in Coleman county, and has yielded to that "back to the soil" urge. Gregg has been somewhat of a farmer, as well as editor, for some years, now, but his latest move established him as a "dirt" farmer of the genuine one-gal-lus sort. As a consequence, his time has been so fully occupied in editing the corn patch, and proofreading the cotton rows, that he has no time to give to such more or less important subjects such as the arrival of new babies, condition of the candidate crop or the social activities of the Smythies and the Smithers.

So, Gregg looked about and found a substitute, an A-1 substitute in L. E. Callan. Now, Loyce Callan has spent a good part of his time hereabouts—in Coleman, Menard and McCulloch county, if memory serves us right—and the only reprehensible act of his life is when he forsook grand old Texas to publish a jam-up weekly paper at Antlers, Oklahoma. Having "done" penance for this act for the past number of years at Antlers, he has now returned to Texas—and to Santa Anna—to redeem and re-establish himself as a Texan with Texas. Under his able direction, the Santa Anna News is maintaining its high standard of excellence, is forging ahead, and is giving the Santa Anna folks an opportunity to decide whether Gregg is better as a one-gal-lus farmer than he was as a two-suspended editor.

Anyway, our best wishes to both the old and the new editor! —Brady standard.

Thanks Harry. We're coming over some day to look the old town—good old Brady town—over and shake hands with the old-timers.

BUYING IN SANTA ANNA

There is no statement more fallacious than "You can buy cheaper out of town." Yet it surely is not uncommon in Santa Anna. Every town and city has its population of mail order and out-of-town buyers, but fortunately for the home-town merchants, the home-town itself and the residents in that town, that proportion of out-of-town buyers is never large.

There may be instances where there have been apparent economies through buying away from home, but how do the books balance at the final reckoning? If the purchases have been made by mail what saving is left after the time, postage and carrying charges are deducted? Is the railroad fare added to the shopping expenses on these bargain hunting excursions to the nearby city or larger town? Is there not also a value in dollars and cents for the worry, delay and disappointment that is inevitable in mail order buying?

There is an unselfish community side of this buying-at-home question which cannot be ignored by good citizens. People who believe in Santa Anna must believe in its merchants who are an integral part of their town; Buying-at-home serves a double purpose when people buy at home, through their buying the home-town merchants prosper, the town prospers because of the prosperity of its merchants, public improvements follow municipal prosperity, and the public benefits from the public improvements. Can anybody afford to trade away from home when there is always a means of getting what they want at home and at as good or better prices than the same goods cost away from home?

Keep on buying at home and the merchants will not stop buying for you.

HEALTH AND MONEY

In addition to his many gifts of charity and other social service, John D. Rockefeller, Sr., one of the richest men in the world, has shown by reaching his 91st birthday anniversary that money doesn't necessarily make men die young. His sober life has served to dispel the thought that wealth either necessarily lowers one's moral standards or contributes to physical decay. It is the use, not the possession, of money that counts for good or evil. The name Rockefeller has been a household word for finance for more than a quarter of a century, notwithstanding some of the events of his life seemed to crush the financial power of others.

There abides in the public mind a conviction that there is considerably more good than bad about the man. Above all he seems not to have grown cynical or sour with age. His official birthday statement was grand and made even beautiful by these phrases: "I have naught but good will toward all I am unspeakably grateful."

Go to Church Sunday.

TEXAS EDITOR IN RACE FOR STATE TREASURER

John E. Davis of Mesquite, widely known Texas editor and legislator, now a candidate for State Treasurer, who has published the newspaper in his home town for the past thirty-one years, enjoys the distinction of having been elected to the Legislature more times than any other person in Texas history. He has represented Dallas county for the past eighteen years, being nominated for his ninth term by a majority of 14,180 over two opponents, which attest his character and standing among those who know him best. He has been chairman of the contingent expense fund of the House for ten years and is often referred to as the "watchdog of the contingent expense fund," because of his careful handling of the expense bills of the House. Born fifty-five years ago, Mr. Davis has spent the greater part of his life in Dallas county, where he has been an active and useful citizen, serving in many capacities without pay, including that of mayor of his town for four terms. The opinion recently expressed by Speaker W. S. Baron that "John E. Davis has the honesty, ability, and industry needed in that office" is one that is shared by his friends in practically every community in Texas.

HAVING "A GOOD FRONT"

"Run down at the heel"—it speaks loudly; your character is judged largely by it; your whole fortune may be dependent upon it; so, young man, young woman, start in right, and never be "run down at the heel."

All of us owe it to ourselves, our families and our friends to dress well. This is not an advertisement for the clothing merchant, or any other merchant; it is a plea for better dress and for what it means. Better dress does not mean that we shall "flower out" in a brand new suit every time that fashion decrees a change; we can dress well by dressing neatly and not fashionably, and we can dress well without expensive clothing. We can be neat in appearance without a new suit; we can be clean; our shoes can be clean—and not run down at the heel—and our hat can reflect good taste.

"The first thing I notice about a woman is her hat and then I look at her shoes," is the observation of a man we know, who dresses well, but not expensively, and whose wife dresses well, but not expensively.

"A good front" gets one by; it carries an introduction by itself; it inspires confidence; it brings business; it is an ambassador of commercial progress; it is vital to a young man or a young woman; it is vital to the middle aged; it is decidedly pleasing in people of old age. We, all of us, like to meet folks with "a good front." We ought to cultivate the habit of always having "a good front," for it will put a man or woman to the front and "a good front" is never "down at the heel."

THE GOOD THAT COMMUNITIES DO

The good that men do live after them.

The good that communities do live with them.

A better sidewalk today helps to make a better and longer-lived citizen tomorrow.

A better community spirit developed this year carries its own momentum over into succeeding years.

The good that communities do helps make the nation better, grander, more powerful and wealthier, for the nation is all of its communities.

All can enjoy the products of the community today, for communities do not have to die to win. When they die they lose.

It is better to build a community slowly, but substantially, than hastily and insecure for the future.

The American gentleman is loosely called "His Majesty" but he is more than that. He is both king and subject. His community, state and national will must be done.

The good that men do lives after them, but the good that communities do lives here and now for our enjoyment, our comfort, our progress and our economic betterment.

A full dinner pail wouldn't go as a campaign slogan nowadays, because too many workmen drop into a tea room or cafeteria for a \$1.25 lunch.

Thoughtful parents are those who try very hard to live up to their children.

Look at a grouch and you won't blame him for being that way.

Movie star says cinema actors should not marry. They don't for long.

If every 50th man is a bootlegger, every 49th is a federal prohibition agent looking for him. Only about 24 of the remaining 48 care a hang whether he is caught or not. And then some people wonder what's wrong with the country.

With all of the marathons, walkathons, non-stop flights, tree settings, etc., going on, the Santa Anna News believes it is justified in looking for more non-stop advertisers and subscribers.

Where there is a deeper depression in business it's too bad for the business man if he does not put forth every effort to make a surer impression upon the buying public.

The country would be better off if there were fewer bathing beauties and more beauties bathing.

What's modern youth going to do when getting thrown in jail is no longer a new thrill?

Mr. and Mrs. Luther Romar and children, who have been visiting relatives here, left for Gainesville Sunday.

Mrs. F. D. Harrison and son are visiting her people in Weatherford.

Chickens Kopt Healthy FREE of Insects STAR Parasite Remover

As a highly concentrated, non-toxic, non-staining compound, recognized for its germ destroying and health building qualities, it gives fowls in their drinking water or in a mash feed one day each week and sprays in nests and on roosts every fifteen days or so, we will positively GUARANTEE it to keep your flock in better health and egg production, eggs will hatch better with a stronger and more vigorous young chick. Also will keep them FREE OF TICKS, mites, fleas and lice bugs or we will refund your money. Begin its use NOW and your flock will be free of disease germs and destructive insects before long, each season. It is so trouble free, use costs less than three cents a year per fowl. Smallpox In Town

On next Saturday you will vote. I take it that you will want to be with the majority. There is no question in my mind now but that Mr. Pearce is the man that I will have to beat, and I am appealing to you to vote for me.

First, because I am the only experienced lawyer in this race, and if you vote for my friend, Orin Newman, you will just waste your vote for he does not expect to be elected. He is only running to get acquainted in the other part of the county. Why do I say this? Simply because he stated that he made \$4,000.00 out of his law practice last year and he could not possibly make more than \$3,000.00 out of the County Judge's office.

I need the office in order that I can be at home. My life is an open book but you do not have a chance to look me up now, and that is my reason to give you this last word.

I married D. A. Paddleford's daughter and will give my wife credit for it if you see fit to elect me.

Mr. and Mrs. W. E. Baxter attended the Baptist services in Bangs last Sunday morning to hear C. C. Baxter of Dublin talk on tithing. Mr. Baxter has been heard many times by radio owners who have tuned in on station K. F. P. L.

Joe Poindexter of Lubbock and his mother from Arlington were week-end visitors here. They were attendants at the Christian church services Sunday, where Mrs. Poindexter was a charter member.

Go to Church Sunday.

FARMERS SHORT COURSE STARTS MONDAY, JULY 23

(Continued from first page)
Gus W. Dyer, Nashville, Tenn.; Dr. O. E. Baker, senior agricultural economist, bureau of agricultural economics, U. S. Department of Agriculture; W. F. Schilling, member Federal Farm Board; John C. Burns, manager Texas Livestock Marketing Association, Fort Worth; Lawrence Westbrook, organization manager, Texas Cotton Cooperative Association, Dallas, and others.

Addresses of general interest, for adults, will be given every night except Thursday night when the out-door pageant with an all-farm cast will be staged. Speakers for these night programs will include Dr. Gus W. Dyer, Nashville, Tenn.; W. F. Schilling, member Federal Farm Board; Mrs. E. E. Davis, Arlington; Hon. Tom Connally, United States Senator for Texas.

Group sessions for subject matter consideration will be held in the afternoons for men, and in the mornings and afternoons for women and girls and for boys. Joint meeting will be held every morning by the boys and girls.

The subject matter programs for men will be given over to discussion of poultry, livestock, field crops and engineering and horticulture.

Homemakers programs for women and girls will feature subjects of especial interest to farm women and girls. Recognition of Texas Master Farm Homemakers will be accorded at the opening of these group sessions Monday morning, July 23.

For the sake of convenience the groups of boys and girls will be divided into sections, the boys into four sections and the girls into five sections. Each section of the boys group will receive the same program in turn as will be the case with the girls group.

Special meetings to be held during the period of the short course and in conjunction with it include County Superintendents Conference, director Prof. W. L. Hughes, department of rural education, A. & M. College; Texas Bookkeepers' Association, July 28-29, Dr. S. W. Bilsing, department of entomology, A. & M. College, in charge; Agricultural Writers Conference, sessions every afternoon, A. D. Jackson, Experiment Station, in charge; Experiment Station Workers, Friday Experiment Station administration building; Extension Workers Conference, daily; cooperative marketing session Monday afternoon, July 23, with W. F. Schilling, member Federal Farm Board, and director of Texas cooperative association taking the leading roles.

The Hayes house in the south part of town is being repainted and otherwise repaired and improved.

"The Shepherd Psalm," by Jene Wingo.

DO YOU WANT TO ATTEND A BUSINESS COLLEGE?

Realizing that a great number of young people are deprived of an opportunity of attending a business college because of the lack of money, our STUDENT LOAN FUND ASSOCIATION was created for the express purpose of furnishing the necessary help to worthy boys and girls.

We have selected the Tyler Commercial College of Tyler, Texas, as the college we can most consistently recommend. This is one of the oldest business schools as well as one of the most widely known for its thorough work and its successful graduates out in the world of business.

We have made arrangements with the Tyler Commercial College by means of which we can take care of a limited number of young people through our loan fund.

If you are in good standing in your community and can furnish the best of references, we shall be glad to help you. We have helped a number of deserving young people in the past who are now independent wage earners and enthusiastic boosters for our Association.

We are especially interested in helping young men and young women who have finished high school or who have been forced on account of financial reasons to drop out of college.

To know more about this Association and our plans it is only necessary to clip the coupon and mail it to us or to Tyler Commercial College. We can then work out a plan whereby you will be enabled to enter the College even though your funds are limited.

Clip the coupon and mail it today either to Tyler Commercial College, Tyler, Texas or to

Miss Josie Baxter visited relatives in Abilene thru the week-end.

Mr. and Mrs. Harmon Marshall are entertaining a new son, born last week. He has been named James Robert.

RANCHER BUYS POLED HEREFORDS OF WHON MAN

Among the recent visitors to the Santa Anna territory was S. M. Prewitt of Pecos, Texas. Mr. Prewitt is one of the leading business men of his town, as well as a large ranch owner. He is gradually stocking his ranch with registered Poled Hereford cattle and while here purchased his second carload of that breed from the Gill Ranch of Whon. In making up his load Mr. Prewitt selected sixteen bulls and nineteen heifers. Most of these cattle were bred on the Gill Ranch twenty miles south of town, while some had been bought from other herds in Texas and Kansas. This gives Mr. Prewitt a variety of bloodlines.

However in making his selection Mr. Prewitt favored the blood of Beau Disturber #81,304 and picked more of his get than that of any other bull. Beau Disturber is the senior herd sire of the Gill Ranch, having been secured at the Fort Worth Fat Stock Show in 1924. He was bred in Illinois by Ralph Painter.

These cattle will be added to the other load that was shipped to Mr. Prewitt from Santa Anna a year ago last February. Mr. Prewitt evidently likes Santa Anna as a place to buy cattle.

BRADY READY TO ENTER TAIN SHEEP-GOAT GROUP

With ten committees of Brady business men and women at work preparing for every courtesy and convenience of the 1,500 members and their families of the Texas Sheep & Goat Raisers association convention to be held there July 30 to August 2 inclusive, the visitors are assured a royal welcome.

A varied selection of entertainment and educational features has been embodied in the four-day program, which has been arranged in cooperation of the local and association's committees.

Jim Harrison and E. C. Eubanks spent the week-end in San Angelo.

Miss Marlon Polk of Abilene is visiting relatives here this week.

The family circle of Joe Flores has been increased by the arrival of a daughter last week.

Rev. M. L. Wornack and family were in Brownwood Monday. Fresh Melons at all times at Herring's Service Station. We deliver. Phone 67. 32-4tp

Mr. and Mrs. Ed Bartlett returned Sunday from a month's visit in Hot Springs, Arkansas.

Rev. and Mrs. Fred Ross of Coleman were Santa Anna visitors Saturday afternoon.

METHODIST CLOSED GOOD REVIVAL AT GOULDBUSH

Rev. O. A. Morton, pastor of the Methodist church on the Rockwood circuit, reports the closing of a very successful revival meeting at Gouldbush last Monday night.

There were thirty-one conversions and reclamations during the revival and twenty-five additions to the churches of the community.

This was a union revival between the Methodist Episcopal Church, South, and the Congregational Methodist Church.

Rev. Mills of the Congregational Methodist assisted in the services.

A complete assortment of Aluminum ware and triple coated Enamel ware. Mickle Hdwe. Co.

Mr. and Mrs. Walker Richardson returned Tuesday from a trip to Fort Worth and Dallas.

Mrs. C. V. McClanahan and children of Tulsa, Oklahoma, are visiting the lady's sister, Mrs. W. S. Stacy, this week.

COTTON ADVANCE TO BE 6 PER CENT WILLIAMS SAYS

Carl Williams, Farm Board member, representing cotton, said Monday cotton cooperatives would advance to the members the largest amounts possible on the 1930 crop, adding that would not be less than 65 per cent of the market value of the cotton and perhaps more.

Williams said his attention had been called to statements that cotton cooperatives would not be able to advance more than six cents a pound this fall.

He said cotton cooperatives in Texas were now advancing nine cents on unclassified cotton at the time of delivery and added all cooperatives would advance the largest possible amount consistent with safety.

REVIVAL AT TRICKHAM IS DRAWING LARGE CROWDS

The Methodist revival meeting at Trickham is progressing nicely and good attendance is reported.

Pastor O. A. Morton is being assisted by Rev. P. T. Stanford, pastor of the Central Methodist church, Brownwood.

The meeting will go on into next week and the folks in that section are invited to attend and take some part.

O. W. Parris and son, Harley, and daughter, Bernice, of Bradshaw visited Santa Anna friends last week-end.

Go to church Sunday.

THAT GOOD GULF GASOLINE

In Business Cars

Salesmen, taxi drivers, professional men and others whose livelihoods depend upon their getting places on time, regardless of weather and road conditions, are immediately won-over to this superior fuel. That Good Gulf Gasoline keeps them moving; cuts delays; saves lubricant and battery; saves carbon removal and other repair expense. Gives greater service at no extra cost.

In Commercial Cars.

Motor Coaches, light delivery trucks, heavy trucks find More Power in That Good Gulf Gasoline ... find better starting, less gear shifting, less lagging on hills; and of course, with less carbonizing and less crankcase dilution, there must also be less time out for repairs and oil-changing.

On this page will be found a list of distributors of That Good Gulf Gasoline who are ready to serve you with courtesy at all times. Courtesy Cards will be honored and your patronage appreciated. There are now 18 service stations in Santa Anna trade territory selling the Superior Products put out by the Gulf Refining Company. In this connection we wish to thank those who have purchased the Gulf Products and made it possible for us to greatly increase the sale in Santa Anna and her trade territory. Call at any of the service stations listed on this page and have your automobiles serviced with those Good Gulf Products.

The Gulf Refining Co. Service Station East Main Street

is in charge of Calvin Campbell, a Santa Anna boy who has been with the agency since it opened in Santa Anna, several years ago, and no better or more courteous service can be had at any service station in town.

The Gulf Refining Co. Service Station West Main Street

is in charge of Reginald Owen, a young man who was reared in and near Santa Anna, and he will give you the very best of service at all times and will greatly appreciate your patronage. Sells Tires and Tubes.

Mosley's Garage

Sells Gulf Products, and is in charge of Charley Mosley, who is known as one of the best automobile mechanics in the county. He will greatly appreciate your patronage and service your car at reasonable prices.

Mathews Motor Company GENERAL GARAGE

Sales and Service for the famous Chevrolet Automobiles and Trucks, sells and recommends that GOOD GULF GASOLINE and other Gulf Products. Joe Mathews, the owner, is always ready to look after your needs in the Garage and Service Station lines, and his employees are courteous and anxious to serve you.

J. W. Taylor

Who operates a Grocery store and Service Station in the Liberty community 6 miles east of town and also at Trickham, sells and recommends that GOOD GULF GASOLINE and other Gulf Products, will appreciate your patronage at either station.

The Herring Service Station

Is in charge of Mr. Herring and his able assistants, who will give you the best of service and will appreciate your patronage. They also sell that GOOD GULF GASOLINE and other Gulf Products.

The Rockwood Motor Co.,

Rockwood, Texas, sells and recommends that GOOD GULF GASOLINE and other Gulf Products, operates a general garage and repair shop, and will appreciate your patronage.

Wood Service Station

Trickham, Tex., is ready to service your car in the proper way, and will appreciate your patronage. They sell and recommend that GOOD GULF GASOLINE and other Gulf Products.

Rev. A. L. Oder

Is in charge of the new Gulf Station north of the new Hi School building sells that GOOD GULF GASOLINE and other Gulf products and will appreciate your patronage. Also sells that good, home-made Ice Cream.

IMPROVED UNIFORM INTERNATIONAL SUNDAY SCHOOL LESSON

(By Rev. P. H. FITZWATER, D. D., Member of Faculty, Moody Bible Institute of Chicago.)
(© 1933, Western Normal Union.)

Lesson for July 27

DEBORAH, A LEADER IN A NATIONAL EMERGENCY

LESSON TEXT—Judges 4:1-24.
GOLDEN TEXT—Say to them that are of a fearful heart, be strong, fear not: behold, your God will come with vengeance, even God with a recompense; he will come and save you.
PRIMARY TOPIC—Deborah a Brave Woman.
JUNIOR TOPIC—Deborah a Brave Woman.
INTERMEDIATE AND SENIOR TOPIC—Notable Women Patriots.
YOUNG PEOPLE'S AND ADULT TOPIC—Women's Influence in Community and National Affairs.

The book of Judges covers the period from the conquest of Canaan and death of Joshua to the judgeship of Samuel. While Joshua and the elders of his generation lived, the people in some measure remained faithful to God, but the very next generation went into apostasy. Their declension may be accounted for by:

1. Their failure to drive out the Canaanites when they took possession of the land. Their failure to carry out this command of God was their undoing.

2. Their amalgamation with the heathen about them was quickly followed by union in marriage.

3. Idolatry. Their intermarriage with the heathen was followed by worship of the heathen gods.

In order to teach this lesson intelligently it is necessary that the teacher have a grasp of the book of Judges from which it is taken. In chapter 2:6-19 is given a synopsis of the book. Observe (1) The sin of the people (vv. 8-13). (2) God's judgment for their sin (vv. 14, 15). (3) Their repentance (3:10). (4) God delivers them at the hands of the Judges (vv. 16-19). A repetition of sin, oppression by the enemy, repentance, and deliverance, is the story of the book of Judges.

I. The National Emergency (vv. 1-3).

1. Lapse into idolatry (v. 1).
Ehud was not only a righteous but a strong ruler. Under his judgeship, freedom had been enjoyed for many years. As soon as he was dead the people turned away from God.

2. The bondage of the people (v. 2).
The Lord abandoned them to be oppressed by Jabin, king of Canaan.

3. The people cried unto God (v. 3).
Affliction brought them to their senses.

II. The Judgeship of Deborah (vv. 4-10).

The great national emergency confronting Israel was met by a woman named Deborah. Her name means "Bee." As suggested by another, she exemplified her name by her industry, sagacity and great service to the public.

1. The place where she judged Israel (v. 5).

It was under a palm tree. She held an open air court for the administration of justice.

2. Her method (vv. 6-10). (1) Her summons to Barak (vv. 6, 7). Barak means "lightning." Deborah, being a prophetess, was able to select a man whose gifts would enable him to rally the forces needed to gain victory over the formidable foe. Deborah gave definite instruction as to the number of men and the strategy to be employed, assuring him that God would deliver Sisera into his hand. (2) Barak's reply (v. 8). He expressed an unwillingness to go unless Deborah would go with him. (3) Barak rebuked (vv. 9, 10). Deborah yielded to his request, but made it plain to him that it would detract from his honor as a conqueror: "for the Lord shall sell Sisera into the hand of a woman."

III. The Defeat of Jabin's Army (vv. 11-18).

Sisera, the captain, gathered a mighty army and went forth, confident of victory over the ill-equipped and undisciplined army of Barak, but he made one sad mistake—he did not consider that it was the Lord's battle (v. 15). Through supernatural interposition the enemy became panic-stricken (25:20).

IV. Sisera Killed by a Woman (vv. 17-24).

In his flight Sisera took refuge in Jael's tent. In the guise of friendship she committed a most heinous murder after inviting him into her dwelling.

V. The Song of Deborah and Barak (ch. 5).

This song was composed and sung in celebration of the marvelous victory which God had wrought. Deborah set forth in the most definite way that the secret of victory was the help of God.

Quick drying enamel for auto and furniture. All colors. Mickie Hardware Co.

M. D. Bubanks left this week for several days visit with relatives and former friends in the state of Tennessee, his former home.

Misses Josephine and Polly White of Charlottesville, Va., left for their home Thursday of last week after a two week visit with their mother, Mrs. Jos. I. Patterson, and family.

S. J. R. No. 7. PROPOSING A CONSTITUTIONAL AMENDMENT TO BE VOTED ON NOVEMBER 4, 1930.

Be it resolved by the Legislature of the State of Texas:

Section 1. That Section 11 of Article VII of the Constitution of the State of Texas be amended so as to read as follows:

Section 11. In order to enable the Legislature to perform the duties set forth in the foregoing section, it is hereby declared all lands and other property heretofore set apart and appropriated for the establishment and maintenance of the University of Texas, together with all the proceeds of sales of the same, heretofore made or hereafter to be made, and all grants, donations and appropriations that may hereafter be made by the State of Texas, or from any other source, shall constitute and become a permanent university fund. And the same as realized and received into the Treasury of the State (together with such sums belonging to the fund, as may now be in the Treasury), shall be invested in bonds of the United States, the State of Texas, or counties of said State, or in school bonds of municipalities, or in bonds of any city of this State, or in obligations and pledges issued by the Board of Regents of the University of Texas, or secured by such obligations and pledges, for the construction of dormitories and other buildings for the use of the University of Texas, or in bonds issued under and by virtue of the Federal Farm Loan Act approved by the President of the United States, July 17, 1916, and amendments thereto; and the interest accruing thereon shall be subject to appropriation by the Legislature to accomplish the purpose declared in the foregoing section; provided, that the one-tenth of the alternate sections of the lands granted to railroads, reserved by the State, which were set apart and appropriated to the establishment of the University of Texas, by an act of the Legislature of February 11, 1858, entitled "An Act to establish the University of Texas," shall not be included in, or constitute a part of, the permanent university fund."

Sec. 2. Said proposed amendment shall be voted on by the electors of this State qualified to vote on constitutional amendments at an election to be held throughout the State on the first Tuesday after the first Monday in November, 1930.

(A correct copy.)

JANE Y. McCALLUM, Secretary of State.

she says Argotane has been worth a hundred dollars a bottle to her. I don't think I ever saw anybody improve like she did after she got started taking it. Her appetite came back in a very short time and she can eat anything she pleases, and as much as she wants and it never gives her any trouble at all. Her stomach seems to be in a healthy condition, she sleeps sound and that nervousness has left her entirely. She goes about her house work now with her old-time strength and energy, and says she is in better health generally than she has been in a long time. We are glad to have this opportunity to recommend Argotane.

Genuine Argotane may be bought in Santa Anna at the Phillips Drug Store.

Lewis T. Nordyke, of John Tarleton College, Stephenville, spent Saturday here in the interest of the college. He was also a guest in the home of Dr. Jason Tyson.

WORTH A HUNDRED DOLLARS A BOTTLE

Brownwood Contractor Praises Argotane For Wife's Improvement

"My wife has taken four bottles of Argotane, and says that it has been worth a hundred dollars a bottle to her," said W. E. Smart, a well known contractor residing at 2301 Coghlin Ave., Brownwood, Texas.

"For fifteen years," he continued, "my wife had suffered a great deal on account of the condition of her stomach. Her appetite was poor and the little she forced down disagreed with her and caused gas to form on her stomach, and she would be miserable for hours afterwards. She was very nervous and hardly ever got a very good night's sleep and would feel so tired and worn out in the morning she could hardly get out of bed. I couldn't find any medicine that would help her at all, and she continued to lose in weight and strength until she was hardly able to keep on her feet.

"I fully agree with her when she says Argotane has been worth a hundred dollars a bottle to her. I don't think I ever saw anybody improve like she did after she got started taking it. Her appetite came back in a very short time and she can eat anything she pleases, and as much as she wants and it never gives her any trouble at all. Her stomach seems to be in a healthy condition, she sleeps sound and that nervousness has left her entirely. She goes about her house work now with her old-time strength and energy, and says she is in better health generally than she has been in a long time. We are glad to have this opportunity to recommend Argotane.

Genuine Argotane may be bought in Santa Anna at the Phillips Drug Store.

Lewis T. Nordyke, of John Tarleton College, Stephenville, spent Saturday here in the interest of the college. He was also a guest in the home of Dr. Jason Tyson.

CHECK UP ON YOUR SCHOOL AND SEE IF NEED TRANSFER

In order to avoid parents paying the amount equal to the per capita students that have finished their school work in their home district should transfer to a higher school of their choice.

This transfer should be made before August 1st.

Below is a list of schools in Coleman county as classified by the county board:

Schools Assigned Seven Grades
Mayo, Featherston, Camp Colorado, Cotton, Viets, Milligan, Turner Ranch, Mt. Vale, Union Hill Grape Creek, Folk, Longview, Lone Star, Miller, Indian Creek.

Schools Assigned Eight Grades
(If fewer than forty pupils, Ninth Grades).

Oak Grove, Independence, Plainview, Comal, Cleveland, Mukewater, Leadav, Starbuck, Hill, Red Bank, Elliott,

TEXAS COTTON CROP SHORT ACCORDING TO FIGURES

(Continued from first page) stoner Terrell, "and cotton is falling for moisture. Only a few counties report any rain in July. Cotton is good in only a few counties. Insect damage is very small though considerable boll weevil damage is reported in the southwest district.

"Domestic consumption and exports of cotton have decreased 1,822,193 bales during the last ten months, and may reach two million bales by the close of the cotton year, August 1. This is one of the causes of the low price of cotton. There may be other contributing causes."

On other crops Commissioner Terrell reports:

"Corn is reported good from Austin south to the coast and some counties of central and north Texas report good corn. The average yield per acre of corn and oats is 20 bushels. Grain, sorghums and hay have increased in acreage and the condition is fairly good, but the late hay crops will be short unless general rains come soon.

"Wheat is poor generally because of the extreme drought in March and April. The estimated yield is eight bushels an acre."

TO THE VOTERS OF COLEMAN COUNTY

Because I have been unable to see each of you personally, I am taking this method of soliciting your support for County School Superintendent.

I believe that I am thoroughly competent to efficiently supervise the rural schools of Coleman county and each and every vote cast for me will be very greatly appreciated.

Respectfully,
Mark M. Sheffield.

Watts Creek, Anderson, Live Oak Line, Red Wire.

Schools Assigned Nine Grades
Bowen, Bee Branch.

Schools Assigned Nine Grades
(If fewer than sixty pupils, Ten Grades).

Junction, Concho Peak, Liberty, Echo.

Schools Assigned Ten Grades
Glen Cove, Silver Valley, Rae, Shield, Voss, Brown Ranch, Central, Hardin, Whom, White Chapel, Goldsboro, Trickham, Leedy, Loss Creek, Rockwood.

Schools Assigned Eleven Grade
Burkett, Novice, Valera, Gouldbusk, Talpa, Buffalo, Coleman, Santa Anna.

TOAST IS DRUNK BY LONE MEMBER OF FAMOUS CLUB

A weary old soldier slipped a toast in Stillwater, Minn., Monday, faithfully fulfilling his covenant with the dead and writing the final chapter in the saga of the Bull Run Club.

About the long table, which had Charley Lockwood at its head, stood 33 vacant chairs, each with a bow of black, as the 87-year-old veteran of the Civil War drank wine in memory of his comrades, fulfilling a vow of 45 years' standing.

His thin face was touched with an expression of deep solemnity as Lockwood repeated a bit of verse and poured from the bottle set aside at the organization meeting of the club a swallow of the amber liquid. He quaffed it as the members had decreed when they first met July 21, 1885, to observe the anniversary of the Battle of Bull Run in which they fought together.

Each year there was a reunion and each year there were more vacant chairs, but Monday was the first when only one veteran appeared. With his promise kept, Lockwood closed the records of the club and prepared to return to his home at Chamberlain, S. D., where he will there be remembered as the last member of the famous club to reach.
