A CHARITABLE NATION

The Red Cross figures that Americans have given \$250,375,000 to relieve war distress in the European countries.
Cynics, with acid temperaments, comment that this is only \$3.75 for each of us. A liberal estimate.
However, it is equivalent to 600,000 men donating their entire fruits of their labors for a whole year.

This isn't bad, considering the libels about Americans being selfish.
It would be a very cold day in August before other nations would do as much for us.

W. E. Vanderford was in the city Saturday.

Plan For Proposed "Dick Watkins Home" in Texas For Wornout Presbyterian Ministers.

(By Rev. R. Welton Oakes, B. Sc. Santa Anna, Texas.)
In some city of Central or Southwest Texas, preferably Austin, the Capital, or San Antonio, the Metropolis, let 50 or 100 acres be procured by bonus or purchase, as a Synod of Texas this Fall may select, upon which tract the "Home" be maintained with help of home labor, let an "Administration Building" be erected the first floor of which be a "Dining Room" and "Kitchen," the second floor be "Office" and "Store Room" the third and last floor be a "Prophet's Chamber" for official visitors only.

Near such "Administration Building" let there be an "Auditorium" for Synodic, Chautauqua and State gatherings, in which Sabbath Worship and Sunday school be maintained.
Such a "Home" be composed of "Cottages" or "Bungalows" as needed, composed of "Bedroom," "Bath" and "Parlor." The first built be a "Poindexter Cottage," a "Bacon Cottage," a "Little Cottage," a "Manton Cottage," a "J. Frank Smith Cottage," a "Spencer Cottage," a "Collier Cottage," a "Templeton Cottage," a "Preston Cottage," and "Lena Boyd Cottage."

Such "Cottages" could be added in coming ages, and would hasten return to the "Mother Church" Southern Presbyterian ministers and laymen who "Succeeded" over causes which finally provoked the foolishly unfortunate Civil War between the sections of 1861-1865, when the North and South substituted the American Ballot with the sectional bullet, in which test the decision as both litigants were equally afflicted with the worth and worthlessness of insane partisan Sanits and Sinners. Now independent thinkers must agree the "Mason and Dixon Line" was never a correct division of "Goats" from "Sheep" of true Americanism.

But such students of current problems ask why allow the North grow fat upon expense money from pockets of Texans? With such a "Home" at Austin or San Antonio, Texas, with our good hospital in New Orleans, La., wornout servants of American Presbyterianism, recommended by any Presbytery in Texas, may receive the best the South affords without expenditure of money or muscle. Dividing such undertaking into "Regional representatives of Presbyteries," could Texas Synodic cause of Home Missions have a nobler history or more fruitful prophecy than the object of a "Dick Watkins Home," here outlined? Believing in rule of educated masses rather than autocratic rule of self-appointed classes, the author submits this "Plan" to the common public, for corrections and criticisms of educated Texans. Rev. J. H. Tate, S. C., reports Abilene Presbytery acted officially last spring.—Exchanges please copy.

B. I. CLUB

Last Friday at an appointed hour, the members of the B. I. Club gathered one by one at the home of Miss Ruby Brannan for another afternoon of pleasure and work. Those without needles and such were furnished with such weapons of fancy work, and numerous admiring "ohs" and "ahs" were heard when someone discovered another exquisite piece of fancy work.

After the usual round of conversation and fun, refreshments entered in the guise of sandwiches, ice tea and olives, all the credit being given the hostess for preparing such masterpieces in the culinary art.

Miss Lucille Barnes will be our honored hostess next Friday, and each Ider, who is industrious also, will come for another good time, for the interest and enjoyment increases with each gathering.

Mr. R. T. Rountree's new house in the north part of town is nearing completion.

A. & M. WILL WELCOME FARM BOYS DURING JULY

College Station, Texas, June 29.—A. & M. will welcome the farm boys of Texas into its portals on July 3, and during the four weeks following all its facilities for instruction in the many different phases of agriculture will be used in teaching the boys the elementary and practical things relating to farm life.

The short course has been provided to meet the needs of the boys who have not had access to schools of sufficient grade to enable them to enter college courses. Members of the faculty of the agricultural engineering faculty will impart to them the elementary knowledge required for the operation of farm tractors, gasoline engines and other kinds of farm machinery. The boys will be taken into the fields and shown practical demonstrations covering the important methods of tillage, use of fertilizers and manures, crop rotation and seed selection. By a study of the methods used in the dairy department they will learn something of judging, feeding, breeding, care and management of dairy cattle and the same methods relating to beef cattle and poultry will be studied. In fact all the important divisions of agriculture will be taken up by the boys.

Every boy between the ages of fourteen and eighteen is eligible for the short course. Although a special effort is being made by the county agents to have club boys attend the course will not be restricted to club members. It is for all Texas boys.

NATIONAL CAREFUL CROSSING CAMPAIGN

"The startling increase in the number of accidents on railroad crossings has made it necessary to make it a nation-wide effort to educate the public in becoming more cautious through a Careful Campaign, carried out by the Safety Section of the American Railway Association," said the General Manager of one of the principal railroads in this region.
"People hurry along and often fail to notice signals and warnings when approaching railroad crossings," he said. He also cites a recent case on his territory to illustrate this.
"On June 2nd, two days after the Campaign started, a Ford car struck the forward end of the tender of the first locomotive on a double header special Shriners' train for California, at a crossing in a town in Colorado. The wigwag signal at the crossing was operating, the train whistled for the crossing and the train bell was ringing, but the driver of the Ford car gave no heed and hit the tender on the crossing. Of the three men in the car, one was instantly killed, another died later, and the third was seriously injured. The coroner held an inquest and rendered a verdict: "Accidental death by striking train."
"Precautions taken by the railroad to protect this crossing were of no avail, because the driver of the car took no notice of the signals or warnings."
"Railroads give the up-keep of their track careful attention and maintain the crossings in good condition. Numerous automatic crossing signals have been installed for the protection of people using the public highways. By cooperation the public can aid in reducing crossing accidents materially."

HOW WE DO THINGS

Surgeon have operated successfully in a case of acute appendicitis on a man taken from the death house at Sing Sing.
They believe he will have fully recovered when the time come to electrocute him.

Of course, it wouldn't do to let the man die of natural causes. That would be a reflection on our humanity.

We must care for him nicely, and then kill him legally on a day fixed by a judge in a court of law.

THE DAY THAT NEVER DIES

No day of the Christian calendar is on a par with that of Christmas, but next to it the Fourth of July is the one most indelibly fixed in the minds of all American people.

It signifies LIBERTY, and liberty is our most cherished inheritance, bequeathed to us by our sturdy forefathers and maintained by our own strength and determination.

July 4th is a great day for flag waving, speech making and general jollification. It is our method of signifying our undiminished admiration and gratitude to the heroes of 1776 who won imperishable fame by freeing our struggling colonies from the oppressive rule of a foreign king.

Great events of history become dim in the minds of men as time flies on, but Independence Day remains forever green in memory, and the deeds of its creators never die.

Attention, Americans! Right hand, Salute!

CALM ATMOSPHERE MOST IMPORTANT IN APPLYING CALCIUM ARSENATE FOR POISONING BOLL WEEVILS

A calm atmosphere is the most important thing to be considered when applying calcium arsenate to cotton to control the boll weevil—more important than dew or other moisture on the cotton plants. This statement is made by the specialists of the United States Department of Agriculture who, at the Delta Laboratory at Tallulah, La., worked out the calcium arsenate system of control. Success depends, they point out, on getting all the plant surfaces thoroughly covered with the fine particles of poison dust. The dust comes out of the machine in a cloud and hangs in the air for some time before settling. If the wind blows during this time much of it never settles where it is wanted, but drifts beyond the cotton to other crops or to weed patches or is dissipated by the wind. It is not always possible, of course, to get a perfectly calm atmosphere at the time the dusting must be done, but the specialists urge that the absence of wind be made a primary consideration.

MIXED RELATIONS

When his father married his wife's mother at Beloit, Wis., William Geist's wife became his stepmother and his mother-in-law became his stepmother.

Now Mrs. Geist's husband is her brother, her father-in-law is her father, and her mother has become her mother-in-law.
Don't go any further with this, for if you do you may land in an asylum.

Mrs. Fred England of Winters spent last week with her parents, Mr. and Mrs. A. B. Dodgen. Mr. England motored down Saturday night and their sister, Miss Florence Dodgen, returned home with them for a visit.

THE TEXAS FARMER IN PIONEER DAYS

Mr. Geo. W. Tyler, of Belton, was a Texas pioneer farmer and he tells in the Monthly Magazine Section of the Santa Anna News to be issued July 7, how his father and other pioneer farmers cultivated the land in the 40's and 50's, plowing altogether with one oxen and mowing the grain with scythes (or cradles). Our black lands, writes Mr. Tyler, were once regarded as worthless prairie until the introduction of barb wire which afforded a practical means of fencing the prairie lands. GOVERNORS ENDORSE CITIZENS MILITARY TRAINING CAMPS

Governor Neff of Texas has given to the press a story and forceful endorsement of the Citizens Military Training Camps which should have weight with every red-blooded American regardless of his politics. Thirty-eight governors of States have endorsed the 1921 training camps, and over 40 state governors have expressed their strong support of the 1922 camps of the Training Camps as a national educational institution.

Governor Neff's statement is as follows:

"I heartily indorse and bring to the attention of the people of Texas the opportunity presented to them by the Citizens Military Training Camps which will be conducted at regular army posts in all sections of the United States from July 27 to August 26, without cost or military obligation to those attending. This will furnish a month of healthful, manly, out-of-doors military training for physically fit male citizens between the ages of 17 and 27 years, and ex-service men up to 35 years.

"The purpose of the government in holding these camps annually is to bring together young men of all types, both native and foreign born, to develop closer national and social unity, to teach the privileges, duties and responsibilities of American citizenship; to show the public by actual example that camp instruction of the kind contemplated will be to the liking of their sons, that it will develop them physically, mentally and morally, and will teach Americanism in its true sense."

BILL OGDEN HATCHES FIRST TURKENS HERE

(Brady Sentinel)
To Bill Ogden, of the Commercial National bank force, goes the honor of hatching the first Turkens in this city. The Turken is a cross between the turkey and chicken recently developed by a Californian. Mr. Ogden purchased a setting of the eggs and out of the number which were sent set under a hen has six little Turkens. Pictures of the grown bird show a rather large ungainly looking fowl, but it is said that they are hardy and that they grow to maturity quickly. It is believed that the new fowl will soon come into popular favor.

TOM STOBAUGH SELLS HIS BUSINESS AT ROCKWOOD. WILL RETURN TO BRADY

(Brady Sentinel)
Tom Stobaugh was over from Rockwood Tuesday and stated that he had sold his business at Rockwood to T. R. Kennedy, former merchant at that place, and that he with his family would move back to Brady shortly after July 1. Mr. Stobaugh owns a residence here, purchased last year, and the many friends of the family will be glad to learn that they are returning here to make their future home. Mr. Stobaugh still owns his farm just across the river in Coleman county, and will continue to look after that.

MANY NORMAL SCHOOLS IN PROGRESS

Austin, Texas, June 28.—Registration in the Summer Normal of the University of Texas has reached a total of 521 students, and will probably reach 600, according to Superintendent Norman Crozier, director. Although the increase in enrollment for the Normal has not been as great as that of the Summer School of the University, it compares favorably with the registration figures of the twenty other normals now being conducted in Texas. Normals are also being held in Corpus Christi, Denton, Arlington, Weatherford, Palacios, San Marcos, Waco, Huntsville, Meridian, Tehuacana Ballinger, Stephenville, San Antonio, Marshall, El Paso, Comanche, Canyon, Belton, Alpine and Athens.

"Smiles."

Last Friday afternoon, in the Ladies' Parlor of the First Baptist church, Miss Edna McDaniel of the Texas University, addressed the T. E. L. class on organized work. Miss McDaniel in her gifted way, pointed out the duties of the class as a whole, and the responsibilities of each officer. Having been reared in Santa Anna, Miss Edna was not among strangers, and at the close of the meeting a social hour was held and refreshments served. Each one went away with a broader vision of the things that make up the worth while life.

SECRET OF HAPPY MARRIAGE

In the forthcoming issue of our Magazine Section of July 7 date is an article written by Kathleen Norris, entitled, "Secret of Happy Marriage." The writer is of the opinion that the average bride is bewildered with the glamour of her wedding day and expects an easy, joyful time all the rest of her life. "In fact," explains Mrs. Norris, "successful marriage lies in service and in motherhood, and in work, mixed with thoughtfulness and tenderness for the husband."

AS THE EDITOR SEES IT

The most desirable of reputations are the easiest to lose. It requires years of correct living to build them up, and but an incautious moment to destroy them.

Too many men seem to forget that they are judged not by what they really are, but by what they seem to be. Their actions and their words are the only things that count.

The little things of life are of vast importance. They indicate the character that lies beneath the polished surface, and it is from them that the most lasting impressions are formed.

A sanctimonious countenance is not indicative of a clean heart. It is a cloak under which many disreputable deeds are performed.

A cheerful smile, a truthful tongue, and an honest heart are all that any person requires.

Character is built from these, and reputation is but the aftermath of character.

J. J. GREGG, Editor and Publisher
Friday, June 30, 1922.

Entered at the Post Office at Santa Anna, Texas, as Second Class Mail.

The News editor made an overland trip to Fort Worth and several in-between towns the latter part of last week, returning home Monday. Crop prospects are about the same throughout the part of Texas traversed, and unless rain falls immediately in most places we visited, crops are going to suffer considerably for the lack of moisture.

We deem it unnecessary to call attention to the change in appearance of the News this week. In the future our reading matter will appear in larger print and we feel sure the change will meet the approval of our readers.

How will you spend the Fourth of July next Tuesday? Some, of course, will pass the day without giving particular notice to its existence or meaning, while others will celebrate and observe the day in the proper and patriotic manner of observance. The writer has always looked upon the Fourth of July as being one of the most worthy national holidays that has ever been declared such by proclamation or act of legislation.

Mrs. C. A. Peters, R. N., from Brownwood is nursing Mrs. Harrod in the local hospital. Mrs. Harrod, who was taken suddenly ill Sunday morning, had to be rushed to the hospital Monday morning for an emergency operation. She is resting well at this time but her condition is critical.

The News is not carrying much advertising just at this time, but the attention of our readers is especially invited to those who do advertise, and if you find it convenient, pay them a call when in town.

W. W. Hunter registers a protest concerning a mention that was made of him last week in the Roun-Up, wherein, it was stated that Bailey Barton, of the Barton Bros. Ranch, helped W. W. Hunter haul the rock to build the Santa Anna mountain. Mr. Hunter says that he built that mountain and Mr. Barton had nothing to do with it. Well, we don't care, he did a pretty good job of it and if we ever decide to have one built he will have a chance at the job.

LITERARY WAGES

Charles Dickens was a newspaper hack-writer. His best stuff was churned out at top speed for the daily papers of London, and he had to work incessantly in order to keep up with the press.

For all of this, Dickens was paid next to nothing. At an auction sale of the library of the late Theodore N. Vail in New York city the other day, ten pages of the original manuscript of a Dickens story sold for \$1,200.

But this is not much more than Dickens would get if he were writing today. Modern civilization rewards artists in their lifetime, not after their death. Quantity production makes this possible.

Today business is the patron of art and literature, the position formerly held by kings and noblemen.

RED BANK HAPPENINGS

It seems that summer is coming right along, and makes one think of fish line, a can of bait and a shady place to fish, but if every one has the writer's luck it wouldn't do much good for them to fish.

Picnics are quite the fashion now. W. H. Pender and family, L. M. Culbreth and family, Mrs. S. Stapleton and children spent Saturday fishing on Home Creek they caught some nice fish, also the shower of rain.

Money Never Saves Itself

IF YOU WANT to have money you must do the saving yourself. Money doesn't care who gets it or keeps it. The best way to save money is to have a bank account. Deposit your savings and forget to draw them out. They grow more rapidly than you would think. Soon you will be earning money with money instead of by your daily toil. That is the road successful men travel.

What is your living expense bill per month? Open a checking account and pay ALL of your bills by check. Then you will always know where you stand. It is the SAFE way, decidedly convenient and satisfactory.
