POLITICAL ANNOUNCEMENTS

The News has been authorized to announce the following candidates for office subject to action of the Democratic primaries in July 1922:

- For Congress, 17th District W. J. CUNNINGHAM
For County Judge S. J. PIERATT
For Public Weigher, Precinct No. 2 W. M. BELL
For Tax Collector J. C. LEWIS
For County Treasurer MRS. LELLA COLLINS

The Republicans are having a hard time. They do not seem to be able to make up their minds on this bonus bill.

Swat the flies. The best way to swat them is to prevent their coming into existence. You can do that by keeping the premises clean.

When the Democratic Executive Committee meets June 12th it will be presented with a petition signed by more than Fifty Thousand petitioners in Texas, requesting that an amendment be placed on the primary ballot legalizing the sale of light beer and wines in Texas.

THE DALTON WILDCAT OIL WELL
The Dalton wildcat oil well proves up a newly discovered oil field in Palo Pinto county. The story of drilling this well is full of human interest.

Few people outside of the town of Edwardsville, Illinois, knew there was such a man as Thomas Williamson of that place, until this little toast of his to Motherhood was put in print.

"When you and I first saw the light of day, nestling in mother's arms, looking up into her face, we formed our highest ideal of womanhood; smiling back she implanted within us the seed from whence grew all that was good, noble and uplifting.

The News editor and foreman went to Bangs Monday and brought back a load of fine berries. The Bangs Berry and Fruit Association did a little advertising and publicity work this season and informs us that the results were very satisfactory.

J. B. Dibrell Jr., of Coleman has filed his name with the executive committee for a place on ticket as a candidate for Congress of the 17th district.

Worlds Champion Typist Visited Tyler Commercial College, Tyler, Tex. Mr. Geo. L. Hossfeld of New York City, the worlds champion typist visited Tyler Commercial College, Tyler, Texas April 18, 1922 and demonstrated to the Student body his ability and accuracy as a typist.

Mr. Hossfeld says in a letter to the college: New York, N. Y. April 18, 1922 Tyler Commercial College, Tyler, Texas. Gentlemen:

In reference to the demonstration giving at the Tyler Commercial College, I would say that it was a source of great pleasure to talk to the student body. The demonstration itself was one that I really enjoyed giving, and as I noticed, received great attention. This makes a demonstration.

Your respectfully, Geo. L. Hossfeld. Young people who wish to secure the very best training possible where they will receive more for their money, should write Tyler Commercial College at once for full information concerning their courses of General Business, General Railroad, General Banking, Bookkeeping, Shorthand, Business Administration and Finance.

THE FINAL MYSTERY

What does it feel like to die? This question aroused intense curiosity in T. B. Wagelius, a brilliant young chemist and psychic investigator of Brooklyn, N. Y.

Locked in his laboratory, young Wagelius rigged up an apparatus that whirled an anaesthetic drug into an inhaler attached to his nostrils. This had an automatic register. With each successive experiment, Wagelius went one drop of drug nearer death.

And if they did not fear death, many people would have little or no incentive to right living. Rest assured that it is for the good of the world and the human race that we are not permitted to know what is beyond death's door.

PRESS SERVICE OF THE TEXAS PUBLIC HEALTH ASSOCIATION

Austin, Texas—The decline in the death rate from tuberculosis shows that this disease is coming under control. It is advisable for everyone to take an interest in the tuberculosis situation," states D. E. Bred, Executive Secretary of the Texas Public Health Association.

If there isn't some good in everyone, what are they here for? Anybody can point out anybody else's bad qualities. If you want to distinguish yourself go around pointing out good qualities.

BELGIUM LEADS THE WAY

We hear a great deal about the economic depression of various European countries, but little is heard of Belgium. The tiny nation which suffered most during the world war seems to have come to work and is saying very little about it—and seems to be forging ahead.

Five years ago Belgium floated a bond issue in this country, with the stipulation that after five years a portion of the bonds could be retired each year at the rate of 110. Financial papers last week carried the announcement that a number of these bonds, determined, by lot, were to be retired next month and that the money is already on deposit in New York banks for the purpose.

PIONEER DAYS IN BELL COUNTY In the Santa Anna News, Monthly Magazine of June 9th, is the story of Mrs. John Blackburn's pioneer life in Bell County.

\$365 IN PRIZES FOR BEST RHYMES

A new contest is just being started which will interest everyone who reads this paper. Anyone can enter this Contest—anyone can win! All it is necessary to do is to write a 4-line rhyme on Dr. Price's Phosphate Baking Powder, using the label of the Dr. Price can (front and back).

As Dr. Price's Phosphate Baking Powder sells for only 25 cents a 12 oz. can, some rhymes could play up the great economy of this pure and wholesome baking powder.

All rhymes must be received by July 1, 1922. Only words appearing on the label of the Dr. Price can (front and back) may be used. These words may be used as often as desired, but no other words will be allowed. If you haven't a can of Dr. Price's, you can see one free at almost any grocery's.

Austin, Texas, June 8.—H. G. James,

professor of government in the University of Texas, has been granted a year's leave of absence, and left last week for New York where he will take a steamer for South America.

There is no such thing as luck to the fellow who is always unlucky.

Congress, however, is composed of so many light weights that we hardly realize that we have it on our hands.

"IT'S THE SAME WAY HERE"

Lubbock Avalanche:—The people of Texas are going to have to get out of that old rut, in matters of education if they expect to cope with the big educational institutions of the north and east.
