LESSON FOR SEPTEMBER 25

REVIEW.

GOLDEN TEXT—As we have therefore opportunity, let us do good unto all men especially them who are of the household of faith.—Gal. 6:10.

REFERENCE MATERIAL—Gal. 5:1-10

PRIMARY TOPIC—Stories of Paul.

JUNIOR TOPIC—Serving Jesus.

INTERMEDIATE AND SENIOR TOPIC—Living for Jesus.

YOUNG PEOPLE AND ADULT TOPIC—Sacrificing for Jesus.

Two methods may profitably be employed in the review of the lessons of the Quarter. First, a biographical sketch of the Apostle Paul, such as his birth, home training, education, conversation, teaching and missionary work. Second, the leading teachings of the lessons, which may be made prominent by summarizing the facts of each lesson and stating the most vital teaching thereof. The first method can be used in reviewing the lessons in all departments and grades and can be easily adapted by any teacher. The second method will be preferred by many in the senior and adult classes.

The following is given by way of suggestion:

Lesson 1. Paul was born at Tarsus of Hebrew parentage. Being brought up in a pious home, he was thoroughly imbued with the spirit of devotion to the Scriptures. He was educated at Jerusalem under the tutelage of Gamaliel. The chief text book was the Bible. In addition to his religious training he was taught a trade which came in very useful later, enabling him to support himself while preaching the gospel.

Lesson 2. In Paul's training as a Pharisee, he was taught to love his own nation, to love God's law, and to be zealous toward God, that is, to have a passion for God and His work.

Lesson 3. Paul's burning hatred of Jesus incited him to endeavor to stamp out the Nazarene heresy. While on the way to Damascus, with authority to arrest and imprison the believers, men and women, he was stricken with blindness and fell to the earth, and Jesus spoke to him from heaven, saying, "Why persecutest thou me?" In response to the heavenly instruction he went to Damascus where Ananias baptized him, and he received his sight and was filled with the Holy Spirit.

Lesson 4. Paul straightway preached Christ in the synagogue. Like every one who is really converted he began to tell of the newly found Saviour. After a lengthy sojourn in Arabia he visited Jerusalem where he was befriended by Barnabas when suspected by the disciples.

Lesson 5. When the religious awakening at Antioch had come to the attention of the Jerusalem church, Barnabas was sent to inspect it, and seeing help was needed he brought Paul from Tarsus to be his helper.

Lesson 6. After teaching a year at Antioch, the Spirit moved the church to send forth Barnabas and Paul to evangelize the heathen. The church sent her best men.

Lesson 7. As Paul and Barnabas were preaching at Iconium, an attempt was made to worship them as gods. Their efforts were frustrated by the fact of Paul. Soon after this Paul was stoned, showing that satanic worship can soon be turned into satanic hate.

Lesson 8. Paul's preaching the grace of God to the heathen brought on a controversy in the church at Antioch. The question in dispute was: "Shall Gentiles be required to keep the Mosaic law as a condition of salvation?" The decision was in favor of Paul, and so Paul and Barnabas were free to begin their second missionary journey.

Lesson 9. The Spirit forbade Paul to tarry longer in the provinces of Asia preaching the Gospel, and by a vision of a man from Macedonia pleading for help, he was called into Europe.

Lesson 10. The casting out of a demon from a young woman resulted in landing Paul and Silas in jail. They were miraculously delivered and the jailer was converted.

Lesson 11. Being driven out from Thessalonica and Berea, Paul went to Athens where he preached the gospel on Mars' Hill. The result of his preaching here was that some mocked, some procrastinated, and some believed.

Lesson 12. Paul in this lesson sets forth the grand principles which should govern the believer's life, the sum and substance of which is: "Whether therefore ye eat, or drink, or whatsoever ye do, do all to the glory of God."

The Name of Jesus.

MATHEWS-HOBGE WEDDING

On Thursday evening, September the fifteenth, at eight o'clock at the home of the brides mother, Mrs. Mary L. Hodge.

Miss Lorena Kate Hodge and Mr. Joseph Chambers Mathews were united in marriage, Rev. John Power officiating.

The bride was handsomely attired in a French blue coat suit with hat and accessories to harmonize. She carried an arm bouquet of pink rosebuds and ferns. The house decorations were cut flowers and ferns, the bride's chosen flowers.

Mrs. J. B. Denman played Lohengrin's wedding march with violin obligato by Miss Mabry Mitchell.

Miss Mary Honea sang "At Dawning" in a sweet voice. Dainty little Frances Louise Adams carried the ring in a large pink rosebud.

An informal reception followed, and ice cream and angel food cake was served.

The out of town guests were Field Hodge, Mrs. C. H. Connell and Dr. and Mrs. J. T. Mathews.

The bride has grown to young womanhood in this city and is loved by hosts of friends for her pleasing personality. The groom is the son of Dr. and Mrs. J. T. Mathews of Santa Anna, and is associated in business with E. M. Boon of this city.

Mr. and Mrs. Mathews went immediately to their new home on Durham Street.—Brownwood Bulletin.

Dallas, Texas, Sept. 21, 1921.—The first football game ever played between an Eastern Institution and one of the Southwest is to be staged at the Dallas Fair, October 15th.

The game will be played by Baylor University, Waco, Texas, and Boston College, Boston, Mass. Boston has not lost a single game in the past two years and each year has taken one from YALE. Baylor's squad now in training, gives promise of a strong team

and those best informed in football circles are expecting the boys of the Southwest to give the Easterners a hard fight. The game will be staged in the new stadium which has a seating capacity of 16,000, and every indication is that the teams will play to a full house.

There will be a return game at Boston in 1922 at Braves Field, the largest baseball park in the world, seating 50,000 people. The Boston authorities state that this game will be witnessed by at least 40,000 lovers of football.

The cash guarantee on each of these games is the largest ever made or received by any team in the Southwest, being \$7,000 in each case. Tickets to the game at Dallas are now on sale to present and former students of the competing institutions and will be thrown open to the public on Oct. 1st. Prices range from \$1.50 to \$3.00, and tickets may be secured by addressing Mr. B. F. Silbert, 1004 Commerce St., Dallas, Texas.

Eating For the Doctor

WHEN people buy poor or "cheap" food they are unconsciously eating for the benefit of the doctor. The "cheap" stuff with which they load their stomachs breeds disease in time.

Eat for your own benefit by eating food that is beneficial in its action. We have a store full of such food.

There would be less stomach trouble in the world today if people were as careful of the food they eat as they are of the clothes they wear. Most people pass up the "cheap" suit and buy a good one, because they know it is the only kind that will give satisfaction. It is even more essential to pass up "cheap" food and buy something good, for that is the only kind that is conducive to better health.

And if this little lecture on foodstuffs has impressed you, come to us for the better kind. We have it at the right price.

Such as:

Good Old Cake Flour per 100 lbs.	\$4.20
Sugar, per 100 lbs.	7.50
25 pound Bag Sugar	1.90
Sweet Potatoes, per bushel	1.75
The best Smoked Bacon, per lb.	.23
Salt Bacon at per lb.	.16
No. 3 Tubs at	1.00
No. 2 Tubs at	.85

Call and get prices before you buy that next bill, we can save you money on everything good to eat.

The demand for Ford Cars of all types is greater now than ever before; yet, due to tremendously increased production it is possible to secure reasonably prompt delivery—if you act at once.

T. E. Brazelton of Galveston, Industrial Agent for the Gulf, Colorado & Santa Fe Railway Company, was here this week looking after the company's interest, and was also getting information and other data of value concerning the different formations found in the wonderful mountain bordering Santa Anna on the north. During an interview with one of the News force, Mr. Brazelton stated that if Santa Anna had an adequate gas supply for industrial purposes, it would only be a short time until large manufacturing industries would be locating here, which is a fact. Men of means and finances are looking toward the great southwest for locations for many different industries, and the town or place that prepares to supply them with water, fuel and other necessities will sooner or later have the opportunity of getting some of these industries. The Santa Anna mountain is known far and wide for its different formations, and some great manufacturing industries could be brought to this point through the efforts of a Commercial Club working to this end. Is it possible that we have all we want here and have no dream of hope to ever realize bigger and better things. A town quits growing when the people quit trying, but as long as they try they are bound to grow. LET'S GROW some more.

The editor took a spin last Friday after getting the News mailed out to our several hundred readers, visiting and looking after business matters in the towns of Brownwood, Comanche, Dublin, Stephenville, De Leon and Rising Star, returning Tuesday of this week. To say we had a good time would be only referring to the part of the trip we were not traveling, for no one could have a good time traveling over such roads as we have between here and Stephenville. The sections we visited are hard hit this year, due to boll weevils, drouth and other calamities crops are very short and business is reported dull. We took some notes on the trip and intended to write a little wit and humor just for a change, but due to being taxed beyond our capacity in other work, we will pass that for some future time.

Cheating a lawyer, we suppose, might be classed as the impossible sin.

Santa Anna, Sept. 20, 1921. Mr. Editor:

According to your request I will endeavor to tell you what I think would be the greatest benefit to Santa Anna. If every citizen would clean up his lot or lots, that would help the looks of the town more than anything else, except moving the gins out of the city limits. They send out enough smoke and dust to ruin the looks of residences and churches for several blocks away from them and must be very unhealthy.

They should be moved out as soon as the ginning is over. The cotton wagons going to and from the gins keep our streets in a bad shape all the time. I wish others would tell what they think on this subject.

Mrs. A. G. Weaver.
Thanks Mrs. Weaver for your expression. So far you are the only reader we have who responded to our appeal for expressions. You are right, the gins should be moved out of town.—Editor.

THIS MAN PETERS HAS BAD HABIT OF SUDDENLY "DYING"

Members of the American Legion in Brownwood will find much of interest in the following story clipped from the Santa Anna News of this week:

"A young man by the name of Peters was seen to fall in the western part of town Monday evening in such a manner as to excite two small boys, who hurried to their mother with the news. The lady coaxed the boys to take a stand by the road and stop the first auto party passing and have the mto report the matter to the authorities in town. Soon Judge S. J. Pieratt and Dr. Holland went out to the scene and found the young man in an almost dying condition. He was brought to town, medical aid administered, and soon he was sufficiently recovered that there was hopes for his recovery. Found on his person was an honorable discharge from the U. S. Marines, with an excellent deportment. The American Legion took charge of the victim placed him in the local Hospital where he remained for several days, until his condition was such that he could continue his journey. Considerable difference of opinion has been expressed as to the cause of the young man's troubles. Papers show that he gives his address as Fort Worth, Texas, but in case of death or accident, notify a lady, we suppose a sister, living at Bonham, Texas. No valuables were found on his person."

Peters "died" here a few days ago, but was resuscitated in a local hospital where he was taken by the American Legion. His sudden attack here, he said, was superinduced by lack of nourishing food. The Legion paid his hospital bill and the doctor bill was contributed by the physicians called into his case, and after he had been outfitted in clean and neat clothing he was given a permit to go on his way rejoicing.

At his present rate of travel, as indicated by the Santa Anna story, he is due to fall "unconscious" again within the next two or three days, probably at Sweetwater or maybe San Angelo, according to the local Legionaries.—Brownwood Bulletin.

Dr. Hales can not give more than one day from his Brownwood office and in order that he may be able to serve all patients satisfactorily, he requests that they come as early as possible or better, make engagement with Mrs. Comer Blue for an hour, either by card, in person or by telephone. Here Sept. 27th. 37-2t

ARE WE DEGENERATING?

The constant and unending stream of murders, robberies, pilferings, breaches of trust, divorces, scandals, and other off-colorings of humanity portrayed in the daily press lead many to the belief that the American people as a race are deteriorating.

Certainly the indictment is terrific and appalling, with but limited corrective methods applied.

It does not necessarily imply, though, that the people as a whole are failing to keep moral pace with the times. It is probably no more than the placing of emphasis on the weaker side of humanity, whereas the better side attracts but little attention.

When men and women of the present generation were young there was not so much publicity as there is today. The latest scandal was not smeared all over the first page of the morning paper, ready to be read at the breakfast table. The daily press did not go into every sensational detail then, as is too often done now.

The morbid curiosity was existent then as much as now, but the press was more considerate in the matter of publishing nauseating details and placing them before the young children of the day. It was not the custom of the time.

We have many millions more people than we had fifty years ago, hence there is naturally more crime to be expected and chronicled. Then, too, the freedom of the press makes it appear even more numerous than it really is.

Regardless of the moral filth that is paraded before the public day after day we do not believe the American people are degenerating. A certain noise making and stench producing minority are, but the people as a class are as clean minded as any people on earth—more so than those of some nations we might mention.

A strengthening and tightening up of law and order would be beneficial, and that will come in time, just as it did in the old frontier days when the six-gun ruled.

The law abiding element will stand just about a certain amount of skulduggery and ruffianism, and then its patience will snap.

When the debris is cleared away we will be morally cleaner, healthier and better in every way.

The American mind rises above a continual state of debauchery.

OUR BIG FOUR

The appointment of Secretary of State Hughes, Senator Lodge, Senator Underwood and Elihu Rott to represent the United States at the coming disarmament conference places our national interests in the hands of able and experienced men.

They are not men who can be bluffed, cajoled or hoodwinked.

They are not men who will exchange something for nothing, nor will they expect it of others.

We believe them to be men who will go into the conference with open minds, clear consciences, and two great objects in view—the limitation of armaments and the settlement of the far eastern questions on an equitable basis that is fair and just to all nations and to all peoples.

If the delegates from other countries come to us in the same spirit there is hope that some good may result from the conference. But if they come as they went to Paris, with the secret determination to wrest every possible advantage for their own governments regardless of the rights of others, then the conference is foredoomed to failure and the only thing left for our country to do will be to train armies and manufacture munitions of war.

In such contingency it will be a case of fight or perish.

If it is true that an ounce of prevention is worth a pound of cure it would seem that our doctors might find it more profitable to adopt the Chinese method of keeping people free from disease, instead of effecting a cure after they become sick.
