TWO FIRES OCCUR HERE WITHIN WEEK

With two fires recorded against Santa Anna during the week past, and two others since the first of the year, it seems now is the proper time for all citizens to check their properties very carefully for any possible fire hazards. In so doing we may preserve our property and help maintain a low insurance rate for the town.

Sunday afternoon about four o'clock fire completely destroyed a house in the east part of town owned by J. L. Parker of Dryden, Texas. The loss, estimated at \$500, was covered by insurance.

Connally Introduces Measure to Revise Freight Rate Slate

Washington, Feb. 20. (AP)—Senator Connally (D-Tex.) introduced today a bill he said was designed to correct the inequalities and discriminations in freight rates in Texas and the Southwest territory.

One provision was that the Interstate Commerce Commission investigate and determine the inequalities in freight rates between different sections of the United States.

The commission would readjust rates and determine the extent to which free movement of the traffic involved in such investigation will be promoted or encouraged by removing such inequalities between interterritorial rates and rates upon the same classes of traffic in a lower rated territory.

Connally said that when the Interstate Commerce Commission begins hearings on Feb. 27 on several similar bills, it is his purpose to thoroughly examine all of the measures and endeavor to work out one upon which all can unite and make a concerted drive for its enactment.

Death Penalty

Opinions differ on the death penalty and Governor O'Daniel is entitled to his own, as are others. Many of us would award the supreme punishment as jurors who would refuse indignantly to throw the death switch. A great many will do both. But in considering the question of punishment of any nature, the final result will be taken into consideration.

The death penalty as inexorably applied will reduce the sort of crime that is atoned for. That our own death penalty has not been as successful in curtailing capital offenses as is the case in Great Britain is due, most certainly, to the subject conceding to our failure to prove consistent trackers and punishers. There is at least one instance on record where a man who thought he was justified in killing another would not slay him in Canada because he was assured that British law would hang him. He did kill his man in this country and was acquitted. Criminals who have slain callously have expressed satisfaction on conviction that they committed murder in non-death-penalty states. Would they not have hesitated before losing a lethal weapon if the death chair loomed beyond it?

"Thou shalt not kill" is a stern warning too often disregarded in this country. Approximately 8,000 Americans are annually the victims of murder or non-negligent manslaughter. Approximately 8,500 American women are annually the victims of rape or offense that like murder calls for death in capital punishment states. Too little sympathy is accorded the helpless objects of attack. Too much is wasted in the perpetrators. Or are we mistaken and are there millions of them each year 16,500 instances of justifiable murder. If we had the most trying of all tasks to a decent, civilized person. But it is much less difficult to away from the sunlight the offender who will continue to harry society if he is left free outside? Long since an understanding legal code prepared the way for

DON'T TRY TO TREAT COUGHS WITH HOME-MADE REMEDIES

Coughs Are Danger Signs, Treat Them Accordingly. If you are suffering with a cough of long-standing, and do not know its cause, go to see your doctor immediately. You might have a serious ailment. Even coughs due to cold or exposure often lead to serious complications by breaking down your resistance. For the latter type cough there is a medicine, compounded by a great scientist, fortified with both Vitamins "A" and "D," given to the world by a great laboratory and sold by leading druggists under the name of Mentho-Mulsion, at an all-time low price of 75c. Although home remedies are sometimes effective, many of them have been proven merely superstition, so why take chances when Mentho-Mulsion is sold under an iron-clad guarantee of satisfaction or your money back by SPENCER PHARMACY.

LOOK AHEAD

Many people are out of jobs; yes, countless thousands. But it isn't because there aren't enough jobs. There are many jobs which need to be filled but the person long ago, or maybe a few years ago didn't look ahead to see what circumstances he would have to adapt himself to.

Many opportunities are wasted. When a person goes to school, either in grammar, high schools, or places of higher learning, that person should be looking ahead to see what he will be worth. He should train himself for that work while there is an opportunity. The person who has to work for what he gets usually looks ahead, while the person who is living off someone else's resources thinks nothing about the future.

Look ahead! Don't stay in the present or the past!

REPRESENTATIVES FOR WHO'S WHO CHOSEN

In a state-wide survey, the results of which will be placed in "Who's Who in Texas High Schools," the faculty chose five seniors to represent Santa Anna. Each school was allowed representatives according to enrollment.

We are very glad that the representative members of our high school, and especially of the senior class, shall be known throughout Texas.

SCHOOL BOARD MAKES VALUABLE ADDITION TO LIBRARY

The Santa Anna High School Library has been greatly enriched by the addition of a complete set of 24 volumes of the 1937 revised edition of the Encyclopaedia Britannica. WHO'S WHO IN THE SENIOR CLASS

Mary Louise Curry, who play the melophone in the band, began her school career as one of the first students of our class.

Mary Louise has been a very popular student. She was an honor student in the seventh grade and is still an honor student. She is vice-president of the Scribblers Club, reporter of the band and was an outstanding character in the play "Spanish Onion."

Mary Louise is going to enter Daniel Baker College next September. She plans to major in English and play in the band. Several weeks ago she remarked to a group of girls, "My high school education would have been incomplete had I not been in the band."

Wyndell Rowe, whose delight is having fun, entered our class when we were in the second grade under the direction of Miss Eunice Wheeler. Wyndell plans to go to Texas Tech. He will major in history and some day he wants to be an athletic coach. During his high school career he has lettered four years in tennis and track, two years in football, playing an end position, and two years in basketball. He was secretary of the freshman class and was a character in the junior play "Dotty and Daffy" and in the senior play, "High Pressure Homer." His favorite sport is football and collecting pictures of prize fights is his hobby.

Helen Oakes entered this class as one of its first students. In her freshman year she was FFA Sweetheart. In 1936 she was a drummer of the pep squad, and in 1937-38 she was football sponsor. She had a part in the junior play "Dotty and Daffy." Helen has served as president of the Home Making Club for two years and this year she was in the race for D. A. R. representative.

Helen enjoys horseback riding as a sport, and collects negro dolls as a hobby. She says, "I would like to attend the University of California, major in dramatics and then I would like to study to be a dress designer." Wanda Sanders entered our class when we were sophomores. She has been a very popular student. She has served as assistant drum major for two years. In 1936 she was elected "Miss Santa Anna" and entered a contest at Coleman. She was in the play "High Pressure Homer."

Wanda says, "I would like to attend a college, study voice and become a great singer." She has several hobbies, her favorite being keeping a diary, and her sport is horseback riding. Dorothy Sumner, one senior who enjoys studying, has attended Santa Anna schools since 1928. She has been an outstanding member of our class. She has been class president for four years, was salutatorian in the seventh grade, represented the school in public speaking last year, is president of the Spanish Club, a member of the debate and Scribblers clubs, was in the race for D. A. R. representative, and was selected by the faculty as one of the seniors to be placed in the Who's Who in Texas High Schools.

Dorothy's hobby is making speeches and she says, "I am going to attend Howard Payne College four years, University of Texas Law School two years, then I'm going to hitch my wagon to a star and teach law because therein I see, at present, the greatest need for service. However, interest changes with experience. My highest ambition is to get a degree of L. L. B. and L. L. D. Such ambitions as we seniors anticipate could not be realized without the fine foundation which the Santa Anna Public School system has given us."

SANTA ANNA H. D. CLUB MEETS FRIDAY

Plans for a celebration for the fourth anniversary of the Santa Anna H. D. Club, to be observed in March, were discussed when the regular meeting of the club was held Friday, Feb. 17, at the home of Mrs. F. Goen.

Committee chairmen appointed for the affair are Miss Ellen Richards, program; Mrs. R. F. Watson, publicity; Mrs. S. K. Moredock, recreation; Mrs. John Williams, refreshment; and Mrs. J. K. Harrison, clean-up.

Mrs. W. E. Vanderford explained her method of making a frame garden and growing post hole tomatoes. Frames up to five feet wide and 12 to 18 inches high, are most convenient for cultivation. Sub-irrigation can be furnished with tin cans by alternating slightly different sizes. She advised a good grade of wall canvas, not Lurlop, for covering and showed how it could be hooked on nails at each end to keep it from being blown off. A rotation of vegetables, planting another as soon as one is through bearing, will give a garden the year round.

To grow post hole tomatoes dig a hole 16 inches deep, put fertilizer in the bottom of the hole, plant tomato seed and cover with two inches of dirt. As the plant grows, add dirt until it reaches the top of the ground. Thus a good root system and a healthy vine will be produced, Mrs. Vanderford concluded.

The club voted to help carry out the Highway and Home Beautification project advanced by Mrs. R. C. Gay. Poppies and redbud cuttings will be used.

Due to unfavorable weather Miss Trowbridge postponed the kitchen demonstration until March 2. Since this demonstration is to be the beginning of three years of work in kitchen improvements, it is a very important meeting. She requests that all members be present, as the main points for the year's work will be outlined.

The hostess assisted by Mrs. Vanderford served hot chocolate and cakes to five members and one visitor, Miss Trowbridge.

The next meeting will be at the City Hall on Thursday, March 2, 2:30, when the agent will give the kitchen improvement demonstration. Members please take notice of the change of date for the meeting.
