"He Profits Most Who Serves Best"

VOLUME LV.

SANTA ANNA, COLEMAN COUNTY, TEXAS, FRIDAY, JUNE 14, 1940

NUMBER 24.

This Week in Our Town

"Still a radical?" enquired a good friend Monday. "Yes," we replied, "if by being radical you mean opposed to everything destructive or injurious to the people." Quite a stand, at that—it gets a fellow in dutch with lots of people who differ with you either sincerely or otherwise. A man stopped his paper last year because he disagreed with us on something or other. But that is a laugh—he reads his neighbor's paper.

"Well, they'll reduce the relief roll when they start putting the young men in the army," stated the owner of the Wilson Laundry one day this week. Correct! Part of the relief money would go to the soldier and the rest of the cloth and equip him—go into salaries and payrolls and turn over and over, doing good. This for good or otherwise work as paying a pauper wage per month a dime or helping government get rid of money is not in it with soldiering.

"Heard about the big gas engine company wanting to give the city a municipal light plant for nothing?" asked a business man in our block yesterday. We hadn't here—but had heard of the proposition down at Raymondville two years or so ago. Raymondville had a huge squabble over the proposition but it was climaxed by level headed business men figuring out salaries, up-keep, income, loss and quality and dependability of the municipal-political service. We do not know what Santa Anna spends for juice, but unless the plant is an outright gift—and that is an impossibility—a little checking might uncover something. The kind of plant a town this size can afford to buy would be costly in service and money. About the time it was paid out it would be worn out. Someone is going to make a big commission—or is trying to.

"Don't forget to mention Rip Ragsdale having the interior of the bakery painted," said Loyd Burris, dry goods merchant, last Monday. We had noted it. Rip is showing a progressiveness of the right kind. Good products from neat and clean sources go farther in service to the public. The bakery has been painted inside and out. Ragsdale's place of business, like his bakery products, are all to the good.

"Don't know whether he's going fishin', or just makin' out like he is" commented Arthur Turner the other day when Arch Hunter came along with a hand full of fishing poles. Later Arch was seen starting out, but he must have had just plain fishermen's luck: we saw no sign of fish.

"Whatcha goin' to do now that the skatin' rink's gone?" Mr. Verner asked Mr. Harper Wednesday. Harper didn't know, it appeared. Possibly they and Ed Harris can start a horseshoe tournament or suppin. Those boys must have their fun.

Oil Briefs

Robert McKissick and others of Austin have added a large producer in the Novice field in the No. 2 J. P. Morris, which flowed 71 barrels of oil on a two hour Railroad Commission gauge to rate 852 barrels daily. Gardner pay sand was drilled from 3,541-78 feet, drilling stopping at 3,572. The well is 1,774 feet from the north, and 1,719 feet from the west line of section 17-2-2H&TC.

McKissick and associates have spudded No. 3 Morris, using rotary equipment. Location is 447 feet from the south, 2,173 feet from the west line of section 17-2-2H&TC. Anzac Oil Corp. and others' No. 1 J. B. McCord, 2,196 from the south, 2,200 feet from the east line of BBB&C survey 703, shut down for orders at 2,069 ft. States Oil Corp. and others No. 1 Jack Coker, south offset to the same operators' No. 2 Morris, had drilled to 2,200 feet. It is 407 feet out of the northwest corner of J. L. Taylor survey 117. Robertson and Bradford of Haskell plan to drill another test well in the Morris ranch, in the north survey, it is reported.

Elgean Shield Is Staff School Graduate

Captain Elgean Shield, commanding officer of Coleman's Company B, 142nd infantry, Texas national guard, was one of the officers in the special class which graduated from the command and general staff school of the U. S. army at Fort Leavenworth, Kan., on Monday. Graduation exercises were held in the war department theater on the Kansas post.

Issue, Not Personalities Bais of Race For Office, Says Sadler

Reiterating his statement that this was a campaign of issues and not of personalities, Jerry Sadler took to task other gubernatorial candidates who were injecting personalities into the campaign.

"The issue," Sadler said, "is whether the voters want to elect O'Daniel and a sales tax, or elect Jerry Sadler and pay old age pensions with a tax on oil, gas and sulphur. That is the issue—a sales tax versus a tax on oil and gas and sulphur." Sadler seeks the governor's office on a platform of sane taxation, a plan to tax oil two and one fourth cents additional per barrel, tax natural gas at the rate of one cent per thousand and cubic feet and to place an additional tax of 22 cents per ton on sulphur. Sadler's plan would give schools more than \$5,000,000 in new money and if matched by federal funds, would give Texas more than \$53,000,000 for the payment of old age pensions and other social security obligations of the state.

County to Be Represented at Sonora Roundup

Much interest is being shown in the annual Roundup and Agricultural program next Monday and Tuesday, June 17-18. Williamson, director of extension service, A. B. Conner, Director of the Experiment Station, and other notable will be on hand to discuss many phases of farm and ranch problems.

Those who plan to attend the meeting include D. D. Steele, FSA executive, Dr. D. B. Sprott, Ed Gann, Jim Gill, J. W. Vance and others. Anyone interested in making the trip should contact the county agent.

New Schedule For Grasshopper Poison Distribution

Due to the great demand throughout the county for government grasshopper poison three days a week have been set for its distribution at the Coleman Cooperative gin. The distribution depot will be open on Tuesdays, Thursdays and Saturdays from eight to five o'clock. Farmers will furnish the syrup and half of the filler (bran, hulls, etc.). Mr. George Speed will be in charge of the mixing station.

Second Half Tax Payment Is Due On June 30th

People who have taken advantage of the two-part method of paying taxes are required to have the second payment made to the county tax assessor-collector not later than June 30th, or be penalized; for the taxes will be delinquent after that date.

Ex-Texas Rangers To Meet in Santa Anna June 27 and 28

The Texas Ex-Ranger Association will meet in its twenty-first annual reunion in Santa Anna June 27-28.

The sessions will be held in the Texas Ex-Ranger memorial building, permanent home of the Ex-Rangers, completed and dedicated a little more than a year ago. The old gentlemen will be in camp at the building on the night of the 26th ready to receive their friends. They cordially invite the people of Santa Anna and the surrounding territories to visit with them both nights of their stay here.

One of the highlights of the two-day program will be a visit from Capt. M. L. Crimmins of San Antonio, who will tell about the adventures of Capt. Jack Hays, famous Ranger who patroled the Hill Country of Texas prior to the Civil War.

The Turner orchestra of November and Mrs. Florence Dibrell of the recreation staff will be on hand to play the piano. The high school band, official Ex-Ranger band will also supply music.

Their ranks are thinning fast. Three of their number having passed on since the meeting last year, but the old fire and spirit of Ranger days will endure to the last man.

The picture shows Jerry Sadler, member of the Railroad Commission of Texas, delivering to the West Texas Chamber of Commerce and the Freight Rate Equality Federation, at the WTTC's recent Big Spring convention, an order requested by these organizations in their campaign for freight equality for Texas.

Effect of this and a commission order of last October abolishing all differential freight rate territory in Texas, will be an annual saving of \$25,000,000 to the people of Texas, according to Sadler. The two orders are in direct sequence to a hearing last June before the commission in which the WTCC and FRET sweepingly pleaded for the equating of all class and commodity rates in Texas with the so-called Official Territory east and north, with total estimated saving of \$100,000,000 annually in transportation costs. Eligible families who have not applied for mattress making materials under the Department of Agriculture's program for aiding low income farm families should do so in the next few days or they will lose their opportunity to participate. Saturday, June 15 is the last day for applications in Coleman County and these should be made at the County Home Demonstration Agent's office.

Heart o' Texas News Briefs

Eleven McCulloch County youths have joined the United States army since the recruiting station was opened in Brady two weeks ago by Sgt. Curtis Brasington.

Inquiries to the Brownwood Chamber of Commerce regarding Lake Brownwood and Lake Brownwood State park are indicative of a bumper summer crop of vacationists. In the last two weeks the body has received 14 inquiries from 13 cities and towns scattered over Texas.

The Brown County chapter of the Red Cross has remitted a total of \$1,409.91 to the war relief fund of the national organization. Clyde McIntosh, treasurer of the chapter reports.

A secret committee to pass on all information of a "subversive nature" and to take such action as it deems advisable toward subduing "fifth column" activities was favored at a meeting of Legionnaires and ex-service men in Brady and every citizen in the county was asked to report any conversation or action of a suspicious nature.

The population of Brown county has been increased 109 persons during the last six months by the margin of births over deaths, according to vital statistics reports filed with the county clerk. Statistics gave the county a total of 208 births and 99 deaths.

Thirty University of Texas geology students have opened a summer field camp in Brady for map making. Later they will go to Carlsbad Caverns, St. Helena canyon and the Big Bend of the Rio Grande.

Under recent changes in the table of organization of the War Department, the band section of the Brownwood Service Company of the National Guard has been designated as the Band, 142nd infantry, and will be a separate unit thus giving four units to the city of Brownwood.

SUBMARGINAL AND EXPLOITIVE FARMING HAVE IMPOVERISHED BOTH LAND AND PEOPLE

One reason that America has various practices and the work a farm problem is that too much is spreading to include pasture land that should never have and range lands.

THE COMPULSORY MILITARY training idea will go against an American line of thought, but with Americans' awakening, to the possibilities of the future, it is not unlikely that only the conscientious objectors - real and otherwise - will register an objection.

LEAVING OUT THE QUESTION of whether the Jehovah's Witnesses are sincere in their religious beliefs, it appears most ludicrous for them to talk about their rights under the Constitution when they deny anyone a right to say they may do this or may not do that.

Mrs. F. Goen Hostess to Santa Anna H. D. Club

"Personality is defined as the characteristics which make a person individual, or different from any other person," stated Mrs. F. Goen, hostess at a meeting of the Santa Anna H. D. Club Friday afternoon June 7.

For that reason it seems like a paradox to try to classify all women into a few set types. The general classifications have much in common but serve as a starting point for an analysis, Mrs. Goen emphasized.

Plans were discussed and committees were selected for the next area meeting to be held June 21. Mrs. S. K. Moredock is chairman and Miss Ellen Richards and Mrs. John Newman are co-workers.

Mrs. R. F. Watson was elected as representative to council, June 29, to compete for a delegate to go to the A & M Short Course in July. Mrs. Jess Moore was elected alternate.

Mrs. Fred Rollins announced that the mattress center opened Thursday, June 6, with much interest shown and all participants doing active work.

The hostess served delicious fruit punch and cake to eleven members and Mrs. A. L. Oder, a visitor.

Mrs. Jess Moore will be hostess when the group meets Friday, July 5, at her home. She will demonstrate the cooking of orange bread and Boston baked bread.

Mrs. Powell is Hostess to Buffalo H. D. Club

Mrs. Garland Powell named Mrs. L. D. Sanderson birthday guest of honor at her home Friday, June 7, when members of the Buffalo Home Demonstration Club met for the program on "Correct Posture".

Mrs. William R. Brown led the group in the singing of "Faithful Forever" and "South of the Border". Patsy Farren played several accordion numbers.

The club voted to sponsor an ice cream and cake supper at the school gymnasium June 19. The candidates are invited.

Orders for 150 fresh pineapples were taken if the county council secures a truck load. Council report was given by Mrs. Gladys Harding and Mrs. Roger George was selected as candidate for one of the twelve delegates to go to A. & M Short Course in July.

"The Part Feet Play in Correct Posture", was discussed by Mrs. O. W. Myers, Jr. "The foot supports the weight of the body, the stress on the bones and ligaments being equal to 250 tons for every mile walked," she stated.

Gift packages were opened by Mrs. Sanderson. Seated at the table were fifteen members and one visitor, Miss Patsy Farren.

Next meeting will be with Mrs. Jack Thigpen at her home June 21 for the program, "Living Together in the Family".

Area 1 To Meet June 21

Shorage in the kitchen, ventilated pantries, and built-in cabinets will be discussed by the county agent, Miss Christene Trowbridge, when the Santa Anna H. D. Club is hostess to Area 1, meeting Friday June 21, 2 o'clock. Buffalo, Liberty, Trickham and Live-at Home Clubs are represented in this area. All members are urged to attend and visitors are welcome.

Mr. and Mrs. John Pearce entertained members of the young people's department of the Baptist Sunday School with a chicken barbecue at their home Saturday evening.

The group was entertained by singing and talking records made by George Havins, grandson of the Pearce's, who is a member of the cast of a motion picture being made in which Gene Autry stars.

Supper was served from tables in the natural outdoor living room, the menu consisting of barbecued chicken, salad pickles and cakes.

TRUTH about ADVERTISING

By CHARLES B. ROTH

HOSS TRADIN'

MY FRIEND asked me if I would go with him to buy a horse. I went. We traipsed from one dealer's to another. One man asked us \$300 for a horse. The next man had a horse which looked no better, but his price was \$450. Before the afternoon was over we had seen horses ranging in price all the way from \$150 to \$14,000.

Now, the \$14,000 horse was a much better animal than the \$150 horse. No use to deny that. But nowhere along the line did we find a stabilized market.

Had we bought we would have been paying a price which the seller thought his horse was worth. There was no market authority we could consult which would tell my friend whether he was being overcharged or undercharged.

That same evening I went out to buy a small household item—one which is advertised in all the newspapers. I knew what the market price would be: advertising had told me.

With confidence I asked the clerk for what I wanted and put my 25 cents down on the counter. Had he said: "I am sorry, sir, but the price is 50 cents," I would have left and gone somewhere else.

What assurance have I, as a consumer, that someone won't take advantage of me and overcharge me in this bold way?

My only assurance is the advertising which I read in the newspaper. That is my market and my buyer's guide. It tells me the price I must expect to pay. Let the seller who tries to charge me more beware.

It also tells me what quality I may expect. Let the seller who tries to give me a poorer substitute beware.

So you see that advertising stabilizes prices and enables me, no matter how inexperienced I am in business, to buy with the same expertise and assurance of a professional buyer who spends his life buying for a large concern.

No one objects to paying the established price for something he wants. But all of us hate to be robbed by an unscrupulous man who, taking advantage of our ignorance, "soaks us good and plenty."

The way to avoid being "soaked" in this complete way is to buy advertised goods from merchants who advertise.

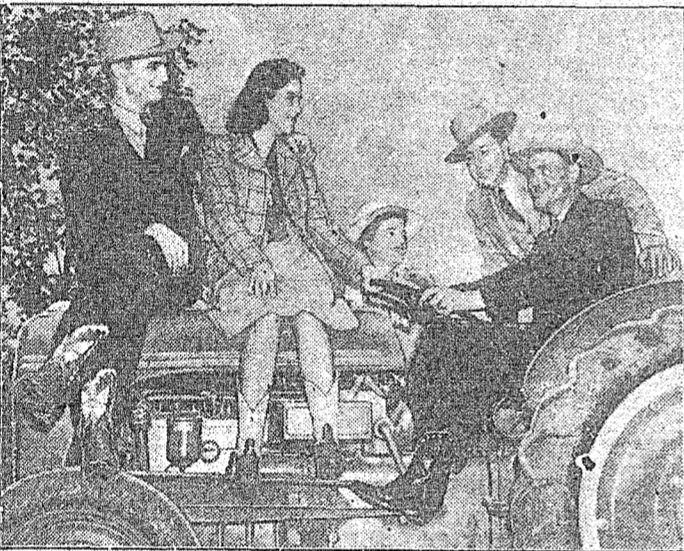

There was a time in America when there were no set prices. Each merchant charged what he thought "the traffic would bear." Advertising came to the rescue of the consumer. It led the way to the established prices you pay when you buy anything today—except, perhaps, horses.

Having Wonderful Time at Folksy Fair

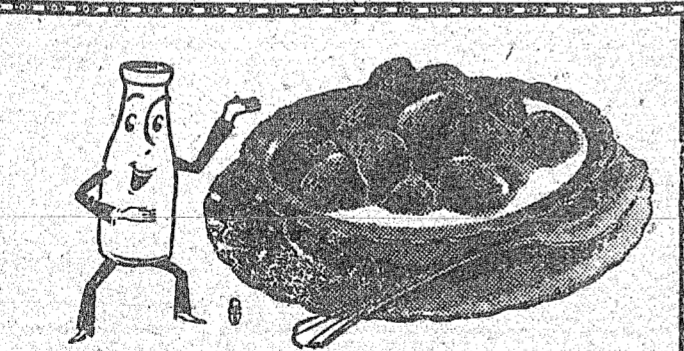

WEST TEXAS's typical American family are having fun at the folksy World's Fair in New York, and here they are returning to the popular Ford Exposition. Left to right we have: Johnny, 13; Margaret-Jean, 16; Mrs. D. E. Leathers and (in driver's seat) Mr. Leathers. Looking over his shoulder is C. S. Carroll, their escort. They're trying out the new lightweight Ford tractor. This powerful, inexpensive machine will, in the opinion of Henry Ford, eliminate farm drudgery and bring home people back to the land.

The Leathers were chosen as the typical American Family of West Texas. Thus they won their jaunt, with everything free. As you can see by this photo, they're having a mighty good time of it—as everybody does at this year's big make-yourself-at-home Fair.

The high hats and high prices of last year are gone. Many of the best shows are free—among them "A Thousand Times Neigh," the hilarious new Ford Playhouse. There's a motion picture, too, and the show takes place every hour. Dinner at the Fair costs as little as 30 cents. The Mayor of New York's committee gives out lists showing where to rent a previously-inspected room for \$1 a night.

Those enjoying the courtesy were Mr. and Mrs. Ford Barnes, Lovelady, Jake Barnes, Talmage Rev. S. R. Smith, Wilyne Rags-

Turner, Edwin Hunter, Larry dale, Betty Jo Reid, Alice Jane Smith of Brownwood and Bob Pearce.

AMERICAN BOY MAGAZINE COMPANION TO THOUSANDS

Hundreds of thousands of boys and young men read THE AMERICAN BOY Magazine every month and consider it more as a living companion than as a magazine.

"It's as much a buddy to me as my neighborhood chum," writes one high school senior. "THE AMERICAN BOY seems to understand a boy's problems and considers them in such a sympathetic and helpful way. It gives advise and entertaining reading on every subject in which a young fellow is interested. It is particularly helpful in sports. I made our school basketball team because of playing tips I read in THE AMERICAN BOY."

Many famous athletes in all sports credit much of their success to helpful suggestions received from sport articles carried in THE AMERICAN BOY Magazine. Virtually every issue offers advise from a famous coach or player. Football, basketball, track, tennis, in fact every major sport is covered in fiction and fact articles.

Teachers, librarians, parents and leaders of boys clubs also recommend THE AMERICAN BOY enthusiastically. They have found that as a general rule regular readers of THE AMERICAN BOY advance more rapidly and develop more worthwhile characteristics than do boys who do not read it.

Trained writers and artists, famous coaches and athletes, explorers, scientists and men successful in business and industry join with an experienced staff to produce in THE AMERICAN BOY, the sort of reading matter boys like best.

THE AMERICAN BOY sells on most newsstands at 20c a copy. Subscription prices are \$2.00 for one year or \$3.50 for three years. Foreign rates 50c a year extra. To subscribe simply send your name, address and remittance direct to THE AMERICAN BOY, 7430 Second Blvd., Detroit, Michigan.
