He Profits Most Who Serves Best

VOLUME LVI

SANTA ANNA, COLEMAN COUNTY, TEXAS, FRIDAY, OCT. 24, 1941

NUMBER 43

## This Week in Our Town

**JAMES OTMER OF BELTON IS** the new man on the Santa Fe force. He is night clerk taking Rampke's place, the latter being transferred to Silver Valley recently. Otmer is living over at Staff Baxter's.

**SEEMS THERE IS A STORY IN** Otmer's coming to the Baxters'. Think he is the one who started to pull a handkerchief out of his pocket—and a mouse appeared in full flight.

**TWO SOLDIER BOYS WHO** were discharged, and are going back home are going to be really missed. They are Sterling Rohde, San Antonio, and Frank Capone, Newark, N. J. These boys made a host of friends in Santa Anna and their future visits here will be awaited with pleasure, and a genuine welcome accorded them.

**IF WE ARE NOT MISTAKEN WE** knew Rohde's father in New Braunfels away back in 1905-6. We were working for A. C. Coers on the New Braunfels Herald, housed in a little wooden building near the jail. (No reflection in that!) Now, once-upon-a-time-State Adjutant of the American Legion, Scruggs, is editor of the Herald.

**LIONS ATTENDING THE REG-**ular luncheon meet this week listened to two teams tell lies. Both sides told such whoppers. It is questionable as to which side won. The Taltwister did not get to talk, but was talked about aplenty.

**ROY REID SAYS IT NEVER** falls—when he puts on a sale it rains. It rained a little last Wednesday when he was planning his advertisement; it did a little sprinkling Tuesday night after trying to rain every day since the past Wednesday: by the time the News is out it may be pouring down.

**NEWCOMERS TO SANTA ANNA** this week are Mr. and Mrs. Emil Greene of Kansas. Among other newcomers are Mr. and Mrs. Dayle Smith of McAllen—said not to be THE Mrs. Dayle Smith, oil seeker, nor the Dayle Smith of Coleman, oil and gas dealer. THE Dayle Smith is from Mission and McAllen, and the Dayle Smith here has to do with oil well drilling. Bring on the other Dayle Smiths

**RELATIVE WE DIDN'T HAVE** a recollection of dropped in on us yesterday — Dempsey Burton of Belton, who married a pretty little cousin of ours, making a "cousin-in-law" out of him. If that is far-fetched, it makes no difference; he's a good scout.

**OZRO EUBANK, EXPERT IN** wool warehousing and selling, and Oscar Cheaney's right bower, reports selling 50,000 pounds of wool to R. L. Vaughn of San Angelo. This leaves another 50,000 in the warehouse for Ozro to take care of for the time being. Santa Anna wool growers did well this year.

**JOHN WILL VANCE, AIDED** and abetted by his better half, merit the honors heaped upon them Wednesday night, according to all reports. We have not visited their place, but the many friends paint word pictures of their accomplishments.

**THAT CC BANQUET-MEETING** was one of the finest get-together meetings we have seen in Santa Anna. A lot of that spirit would make Santa Anna into a thriving metropolis almost overnight.

**CUMB. PRES. CHURCH**  
Rev. and Mrs. D. O. Bryson will be in Santa Anna Sunday morning, Oct. 26, to preach the service at the Cumberland Presbyterian Church.  
Sunday evening there will be a Union Service also in charge of Rev. D. O. Bryson.  
Dr. Bryson is a South American Missionary, on a leave of absence at the present time.

## C. C. Sec'y. H. S. Pearson Reports on Late Activity

### WOOL TOPS FROM NEW TEXAS PLANT SHIPPED

Last week the first carload of wool tops ever shipped from Texas left the plant of Robert E. Pent in New Braunfels headed for eastern worsted manufacturers and initiating the start of a new industry.

Wool tops are the fine grades of wool from back and sides of sheep and the process of separating this wool from the whole fleece by repeated combings is the work of the plant.

Wool in the grease, received at the plant, is graded by an experienced grader, then scoured, and the scoured wool goes through seven mechanical operations including a second washing before finally wound into nine-pound balls ready for the worsted manufacturer. A by-product of the plant the shorter figures, will be sent to yarn manufacturers but the principal product will be the fine combings.

Pent is sole owner of the plant. A native of Bucks County, Pennsylvania, he has spent 22 years in the wool industry. His head wool grader is Thomas F. Rowe who came from Philadelphia and James H. Kershaw, plant superintendent, came from Massachusetts. The plant at present employs 13 men. It plans to use a double-shift as soon as operations are running smoothly. On present basis the plant can handle 900,000 pounds of wool a year, but is designed to handle 2,000,000.

Because worsted is in demand for uniforms of soldiers the production of wool tops is classed as a defense industry, the plant has had no difficulty in getting machinery.

### TREAT PEACH TREES FOR BORERS

Peach trees have caused great loss of trees and fruit in many orchards in Coleman County. The Extension Entomologist, Cameron Siddall, gives the following suggestion:

"Paradichlorobenzene Method: No preparation of the soil is necessary except to break the crust for 15 to 18 inches around the tree and to remove any grass and weeds. PDB crystals should be placed in a circle around the tree, about three inches from the base. For mature trees of average size, 1 oz. of weight should be used; for unusually large trees an ounce and a half is sometimes needed; for trees four to five years old, 3-4 of an ounce; and for trees one to three years of age, 1/2 ounce, or slightly less, should be used. Immediately after the crystals have been applied, they should be covered with several shovelfuls of dirt and the dirt packed with the back of the shovel to make a cone-shaped mound. The material should be applied between October 20 and November 5. After about 6 weeks, the mound of earth should be torn down and the residue of crystals removed."

### VACANCIES IN AIR CORPS GROUND FORCES

Sergeant William J. Hess of the U. S. Army Recruiting Station, County Court House, Comanche, Texas announces that there are a large number of vacancies open for the ground force of the Air Corps, and in many other branches of the service where the educational and physical requirements are much less than for Aviation Cadets any young men who are interested in enlisting in any part of the regular Army are invited to call at the Army recruiting office in the basement of the Comanche County Court House, in Comanche, Texas. Sergeant Hess, also said that he would be at the Postoffice in Coleman, every Thursday morning from 10 to 12 a. m.

## Heart o' Texas News Briefs

Austin Bridge Company, Dallas, has been given the contract for a general overhauling of the bridge on the San Saba River at Voca. The contract calls for the repair and tightening of the bridge for the sum of \$800. Work will begin at once, and is to be completed by Dec. 1st.

With \$20,000 already pledged by Woman's Missionary Union organizations of Texas, Howard Payne College has launched a drive to obtain funds for the construction of a modern boys' dormitory. The District 16 W. M. U. Organization, including nine Baptist Associations, has pledged \$10,000 to the building fund, as has the State W. M. U. group.

Asserting America was the last stronghold of religious freedom, former Gov. Pat M. Neff, president of Baylor University, told the Texas State Baptist Student Union Convention the United States would keep Hitler from making the world a cemetery of dead nations. "The glory of our flag," Neff told the students in an address Saturday night, "is that any boy or girl born beneath the Stars and Stripes can rise to any honor or in the land." President W. R. White of Harlin-Simmons University said that a Christian nation might be justified in war when the abolition of Christianity was threatened by totalitarian powers.

Radio program from the Armory Building in Santa Anna on Friday, October 31, at 1 p. m. Tune in and listen to these little boys and girls programs.

is a truck farmer as well as a ginner. A sweet potato, weighing 6 lbs., grown in his garden, is on exhibit at the bank.

The Roads and Highways Committee recently held an interesting meeting with the City Commissioners and commissioner John Williams. The Committee learned that all is being done that is possible for the streets of our city and the roads leading into our city with the funds available. There was also found to be existing, \$30,000 delinquent taxes. Boy, lots of streets could be smoothed with that money as well as relieve the school of several burdens. What are we going to do about it?

### PRICE OF U. S. WHEAT DOUBLE FOREIGN PRICE

Texas wheat farmers selling wheat protected by the AAA wheat program are receiving approximately twice as much as growers in other major wheat producing countries, P. C. Colgin, commodity loan supervisor of the state AAA, has announced.

The average farm price of wheat in Texas is about \$1.05 and the average farm price in the United States is about 90 cents, he said.

The average price received by Canadian growers is about 47 cents (U. S. money) while Australian growers have been receiving 51 cents per bushel. Returns to Argentina growers are from 42 to 45 cents per bushel.

Marketing quotas on wheat, acreage allotments, the loan program and import embargoes account for the price United States' Farmers are receiving, Colgin said in pointing out that this year is the first time in history that domestic wheat prices have exceeded foreign wheat prices by more than the tariff without threats of large imports.

The import embargo applied last May is not only stopping imports but making the price spread possible, the AAA official said.

"So attractive is our wheat price not that Canadians - if there were no embargo restrictions - could ship their wheat to a United States port of entry, pay the duty of 42 cents a bushel, and still have a margin of 15 cents per bushel over Canadian prices," Colgin said.

This indicates the price of wheat in the United States is approximately 57 cents a bushel higher than foreign wheat, but the difference in the average price and 57 cents is what farmers would be receiving if there were no farm program to protect the U. S. price, he said.

The average American will consume 3,000 pounds of meat during a reasonable life expectancy. Assuming that appetites also are average, this poundage will include six steers, five sheep, three calves and 39 hogs.

## Vance Award is Bright Highlight of C. C. Banquet

At the high school luncheon on Wednesday evening, October 22, 103 people gathered together at the annual meeting and banquet of the Santa Anna Chamber of Commerce.

The high-light of the program was the honor bestowed upon Mr. and Mrs. John Will Vance, farmer-ranchers of the Sheld's Community, by presenting them with the Master Farmer Award, a beautiful plaque. The presentation was made by Eugene Butler, Editor of the Progressive Farmer, assisted by Ford Barnes, President of the Coleman County Feeder-Breeder Association and W. I. Glass, District Manager of the A. & M. Extension Service.

Rep. Will Chambers was the principal speaker of the evening and the theme of his talk was, "Importance of Chambers of Commerce to All Business and Industry." Mr. Chambers cited this need even before the beginning of our United States and said there was even more need of these organizations now.

Other guests included Miss Hill, noted Texas Farm writer; Miss Day, County Home Demonstration Agent; D. D. Steele, County Agent and Mrs. Steele; Commissioner John Williams and seven out of town Home Demonstration ladies who entertained with several songs that were highly enjoyed.

J. M. Binion, formerly of Santa Anna and now V. A. instructor of Brownwood, did a most capable job as Master of Ceremonies.

### TOO MUCH RAIN FOR COTTON

West Texas farmers and ranchers can testify that there has been too much rain for the good of the cotton crop. Cotton growers were on their home stretch of harvesting their crop last week when the rains started again. Picking has been plagued all fall by rains. Given fall weather this week, cotton pickers will make the fields look just about clean. With the staple suffering severely last week, some of the cotton went as low as 12 1/2 cents. Earlier in the fall, when the grade was good the general price ranged around 15 cents and was up to 17 in instances. Cotton seed dropped to \$7, mainly due to so much moisture.

There are plenty of pickers available and most of the cotton is open. This week is all that is needed for bulk of the crop to be gathered.

### GAME SIGNS AVAILABLE

The Game Conserve Sub Committee with Garland Abbey, as chairman, is encouraging the conservation of game throughout the county. Many farmers and ranchmen have already signed up for this protection and have put up game preserve signs on their places.

Those cooperating in this program to protect and preserve the game on their land is cooperating with the A and M College and the Texas Fish Game and Oyster Commission. Those wishing to secure further information should see either the chairman of the committee or the county agent.

Three St. Louis research scientists last week forecast an influenza epidemic this winter which may be as severe and widespread as that of 1918 and 1919.

### 4-H CLUB RALLY DAY TO BE HELD SATURDAY

Coleman County 4-H Club picnic and Rally Day is scheduled to be held at the Coleman City Park Saturday, Oct. 25th.

Parents of Club members are urged to attend as the celebration is in honor of new clubs and new members.

The program of the day's activities is as follows: Registration will begin at 9 a. m. at the City Park. A ten cent registration fee will entitle you to a 4-H badge and free picture show.

Recreation: 10 to 11 a. m. under the direction of sponsors of the clubs.

Programs: 11 a. m. to 12 noon — songs — Dr. I. Q. Contest (Double or nothing with Jack Pot going to the 4-H Council).

Awards will be made to the Club having highest percentage of members present. Come and help your club to be a winner. Picnic Lunch: 12 noon to 12:45 p. m.

Picture show: Dixie Theater 1 to 3:30 p. m. Your badge is your ticket to the show.

All club members will bring picnic lunch of sandwiches, cookies or cake, and fruit. A serving committee will be in charge and receive the lunches at the registration table. Cold drinks will be sold by Crossroads 4-H Club.

### INTERNATIONAL OPPORTUNITY HOME

There has been started a movement by sympathetic lovers of children to establish a home for dependent youngsters throughout the world, where boys and girls will be reared under as perfect conditions as are humanly possible.

In this home, which is to be located in the Heart of Texas, these children will be given proper clothing, proper instruction, fresh air, sunshine, and freedom from fear twenty-four hours a day.

When there have been war, famine, earthquake, pestilence or other disasters America has always been the good Samaritan in offering financial aid. In most cases our motives have been misunderstood. There seems to be a feeling among other nations that any aid the United States offers has strings attached. The symbol of America in the minds of the majority of the world is a big fat hog with a golden apple in its mouth.

People of the warring nations will be invited to send their homeless children to the International Opportunity Home where they will be given every care and reared under the concepts of brotherly love.

Those now donating money to be sent out of the country for the aid of children in foreign lands will be invited to turn the funds into this school in America.

The plan of financing this project is this: School children of the United States will be asked to contribute 1 cent per month to a fund to maintain the Home. This could bring in \$300,000 a month, since there are thirty million school children.

However, the very launching of such a tremendous project is in itself no easy thing and funds to complete the survey will have to be raised by outright subscription. All appeals have been met with open-handed generosity that proves beyond any doubt that at present those people of Texas and later we know of the United States and the whole world will carry this inspiring work to the success it so richly deserves.

## Coleman Co. News Briefs

Coleman County residents were honored Friday, October 17, with a broadcast over Station KGKO, Fort Worth. The broadcast arranged and presented by Ted Gouley stressed the agricultural possibilities in this county. A short summary of the historical highlights of the county's past and a brief look into the future farming and ranching possibilities of the county was made.

Carmen Neal, 19, member of Co. A, 142nd Infantry at Camp Bowie, was killed in an automobile accident three miles west of Valera early Sunday. The car in which Neal and three other soldiers were riding went into a ditch and overturned three times. Neal's relatives reside in Brownwood. A Brownwood Funeral Home was in charge of arrangements.

Sixteen states are represented in the first class of cadets undergoing primary training at the Coleman Flying School, according to information released by Lieut. L. L. Crenshaw, Tennessee and Alabama, with ten cadets each head the list.

Eleven-year-old Orin Newman, Jr., of Coleman tooted the trumpet section of the University of Texas at the Texas-Arkansas football game at Austin Saturday. He was selected for the signal honor from among 3,500 high school musicians who were guests of the university for annual band day.

There are more and better turkeys in the county this year than for most any year recently. County Agent D. D. Steele believes. The quality is better, says Steele, because of the better feeding conditions in the county this year. The good price paid for eggs last year caused an increased interest in the birds at that time and also caused an increase in their number this year, according to Steele.

Clyde Kelley, of Cross Plains has purchased the Purity Bakery in Coleman from L. O. Cathery and changed the name of the institution to the City Bakery. The bakery is located in front of the Dixie Theatre.

Supt. S. R. Hale, of the Coleman County Electric Coop. Inc., was advised from Washington a week ago of the approval of a 70,000 REA allotment for extension of project lines in the area known as section D. The appropriation will be used to construct 120 miles of extension lines in Coleman, Concho, Runnels and Callahan counties and will serve 200 additional members. The cooperative now has 1325 members on 820 miles of line. It was organized in 1938.

Recently elected president of Stoddard Hall, a senior residence, Miss Edna Clarke, daughter of Mr. and Mrs. A. Clark of Coleman, will represent her dormitory on Student Council, the student executive body of Texas State College for Women Denton. Miss Clarke will be in complete charge of student activities in the dormitory and will preside at all house meetings. She is a senior student, majoring in sociology and a sister of Wilbur Clarke of the Coleman Gas Co. of Santa Anna.

### Church of Christ

Bro. J. N. Cowan of Dublin will preach at the Church of Christ Sunday, 10:30 A. M. and Sunday night, Oct. 26, 1941.

A report on the cotton spinning industry for June shows 104,662,016 active spindle hours in the state for the month. The average hours per spindle in Texas was 431 — slightly above the national average of 408 hours per spindle.

RABID POWR SOCIALISTS are fighting the bill that will place the northwest federal developments in the hands of a three-man board. They fear such a board would act on economic rather than political grounds and would not attempt to destroy private industry. Seemingly the fight on the power industry is being waged by men who want some kind of dictatorship in this country, with themselves as the dictators. It is estimated that in the last six or seven years the investments of the Federal government have been five times as great as private investments in new enterprise. Let that trend go on, and it is clear that government will own or dominate the bulk of the property of this country.

Mrs. Meek Byres and Mrs. Charles Brinkley visited Mrs. Allison Hagler, Friday.

ASKS COLEMAN CO. FARMERS TO RAISE MORE FOODSTUFF

Coleman County farmers were asked today to do their part in the "Food-For-Freedom" campaign by increasing their production of milk by 2,257,000 pounds and eggs by 176,000 dozen in 1942.

Tentative production goals set for the county were announced by the Coleman County USDA Defense Board as follows:

- 24,827,000 pounds of milk, increase of 2,257,000 pounds over 1941.
  - 1,318,000 dozen eggs, increase of 176,000 dozen over 1941.
  - 10 percent increase over 1941 in number of hogs for market or to be slaughtered on the farm.
  - 1500 farm gardens for 1942, in crease of 66 percent over 1941.
  - 8900 acres of corn for 1942, in crease of 100 acres over 1941.
  - Oats, barley and grain sorghums 8% increase over 1941.
  - 200 acres of vegetables for sales in 1942.
  - 100% increase in peanuts harvested.
  - 8910 milk cows in 1942, in crease of 240 head over 1941.
  - An increase of 19% in beef cattle marketed, including calves over 1941.
  - Increase of 6% in sheep and lambs over 1941.
- These goals are minimum rather than maximum goals, G. E. Abney, Chairman of the County Board pointed out. Perhaps the farmers of the county can produce more than enough to meet the goals. If they can then that's all to the good. The county USDA Defense Board will consider the goals which were submitted to us by the State USDA Defense Board and if the local situation seems to warrant increasing the goals or if it seems necessary to reduce some of them then we will do so.
- The principal factors to consider in setting the goals the board chairman said are the ac-

tual productive capacity and outlets in the county. It is important, he pointed out, that the State Board and the Secretary of Agriculture know definitely just how much production of the needed foods can be expected.

"We have been promised that the U. S. Department of Agriculture will use its power to maintain fair prices for the products needed in the Battle of Feed," Mr. Abney declared. "Production of these foods is important—just as important as winning battles on the sea and on the land. I know that Coleman County farmers will do their part in the production of the greatest food crop in American agricultural history."

The County USDA Defense Board met Wednesday and studied the tentative production goals for the county. From that meeting will go a report to the State Board stating the goals as agreed upon by the county group. From now until Nov. 1, ground-work for the farm-to-farm canvass, on production pledges will be laid. During the first three weeks of November AAA county and community committeemen, working with and assisted by the USDA Defense board, will contact every farmer and ranchman in the county with a farm plan sheet. In addition to information concerning allotments, soilbuilding allowance, etc., which has appeared on farm plan sheets in the past, the form this year will include a production pledge on the products needed in the Food-For-Freedom campaign, the county chairman said.

MARINE CORPS SEEKING MORE RECRUITS HERE

In keeping with the latest Marine Corps policy, of making the U. S. Marine Corps available to young men of a greater area, a representative of the U. S. Marine Corps recruiting service will open a temporary recruiting office in the Post Office, Coleman, Texas, for a period of several days, October 22 through October 29th, for the purpose of accepting applications for enlistment in the Marines.

Men accepted will be furnished transportation to Dallas for final examination and enlistment and from there sent to San Diego, California, for a 7 weeks training period. After completing this training they may request assignment to any of the various branches of the Marine Corps. Aviation, radio, parachute troops, tank units, sea duty and many more. To be eligible for enlistment, one has only to pass a normal physical examination, be single and have no grammatical or its equivalent young men between

17 and 30 including those who have registered for selective service are urged to see the recruiting officer while he is in or near your city, and learn of the many advantages offered by the Marine Corps. The regular enlistment is for a period of four years, or you may enlist in the Marine Corps Reserve, with active duty, for the duration of the National Emergency Only.

Also very effective for younger women to relieve monthly cramps. Follow label directions. WORTH TRYING!

**GAS RECYCLING PLANT  
ERECTED IN COLEMAN CO.**

Due to be ready for operation this month is a model representing and gas recycling plant now being installed, in the N. Novice field of Coleman County by Robertson & McKissick company and the States Oil Corporation.

The plant, a \$70,000 outlay of the most modern equipment, is unique in that it will serve to repressure the oil reservoir in one of West Central Texas' deep est fields.

Installation was under the supervision of J. Davis Collett, Jr., consulting engineer of Houston.

It is so constructed that it can also be used for the extraction of natural gasoline from the gas before it is returned to the oil sand.

The plant's first gasoline output will average about 150 gallons daily enough to pay for its operation.

Heart of the pressure maintenance plant is the central power; two 300-horse power Ingersoll Rand eight-cylinder, three-stage compressors designed

water, and to accomplish this successfully the system must be capable of holding water even when the hardest rains fall.

Terracing is only part of a complete and coordinated conservation farming system, it is explained.

A leak in a terrace causes concentration of water that may rush across a field and start a dangerous gully. Fowler warns. When the top terrace breaks, usually all terraces below it are washed out.

Both the height and width of most terraces can be maintained by relatively simple methods, according to the District Supervisor. Back furrowing toward the center of the terrace ridge when the crop is off the ground usually will keep the terrace up to the proper height and will broaden it to the point where it can be farmed over with practically all types of equipment.

"All plowing of terraced fields should be done parallel with the terraces," he emphasized.

If more height is needed on a terrace, the back furrow should be overlapped on the peak of the structure and the following

woolen clothing. This is especially important, because prices of woolen goods are higher than in the last few years.

Here are some suggestions she make for judging quality in wool:

First, look for a firm weave. Second, look for some "give" or "spring" in the cloth. Woolen fabrics have a soft woolly nap over the surface, but for good wear they must have a firm weave as a foundation underneath, she says. Poor quality wool feels lifeless and often hard and scratchy.

The specialist cautions that it does not always pay to buy the best quality woolen goods. This depends on the use to be made of the fabric. For example, coats for young and growing children likely will soon be outgrown, so a consumer may invest in an expensive-wearing fabric. On the other hand, men's overalls go out of style fast and give long wear. In such cases it will probably be an excellent quality wool.

Mr. and Mrs. Kenneth Brunsen visited in Cooke County over the weekend.

Mr. and Mrs. John Geer and family visited relatives in Bangs Sunday.

Mr. and Mrs. Odell Box and son of Santa Anna visited Mr. and Mrs. S. A. Moore Sunday.

Mr. and Mrs. M. F. Blanton and family visited Mrs. S. L. Blanton of Santa Anna Sunday.

Mrs. John Geer visited Mrs. Hugh Phillips Tuesday.

Mr. and Mrs. S. H. Blanton and daughter Fay of Owens, attended church at Cleveland Sunday.

Mr. and Mrs. Rachel Cupps and daughter visited Mr. and Mrs. Elmer Cupps Sunday.

Mrs. G. O. Welch and Mrs. Amanda Perry visited Mrs. John Geer Monday afternoon.

Allene Phillips visited Mrs. N. P. Woodruff of Santa Anna Wednesday night.

Discovery of a new member of the ever-growing family of B vitamins, known collectively as the Vitamin B complex, has been made by Roger J. Williams of the University of Texas. It has been named folate acid.

**Your Electric Servant**

*—Is Classified as a "National Defense Utility"—*

This Company is serving Camp Barkeley, Abilene; Goodfellow Field, San Angelo; Bruce Field, Ballinger, Arledge Field, Stamford; Victory Field, Vernon; and other associated and cooperative projects, all of which are defined as National Defense Premises.

The Company, therefore, is classified as a National Defense Utility, and its property is protected by an Act of the Congress of the United States (Chapter 926-3D, Session 76 Congress) approved April 20, 1918; and Texas Labor-Violence Law (H. B. 800) passed by the Legislature on April 4, 1941.

**Section 5 of the Federal Law reads as follows:**

"That whoever, with intent to injure, interfere with, or obstruct the national defense of the United States, shall wilfully injure or destroy, or shall attempt to so injure or destroy, any national-defense material, national-defense premises, or national-defense utilities, as herein defined, shall, upon conviction thereof, be fined not more than \$10,000 or imprisonment not more than ten years, or both."

**Section 1 of Texas H. B. No. 800 reads as follows:**

"It shall be unlawful for any person by the use of force or violence, or threat of the use of force or violence, to prevent or to attempt to prevent any person from engaging in any lawful vocation within this state. Any person guilty of violating this Section shall be deemed guilty of a felony and upon conviction thereof, shall be punished by confinement in the State Penitentiary for not less than one (1) year nor more than two (2) years."

ished by confinement in the State Penitentiary for not less than one (1) year nor more than two (2) years."

**Section 2 of Texas H. B. No. 800 reads as follows:**

"It shall be unlawful for any person acting in concert with one or more other persons to assemble at or near any place where a 'labor dispute' exists and by force or violence prevent or attempt to prevent any person from engaging in any lawful vocation, or for any person, acting either by himself or as a member of any group or organization, or acting in concert with one or more other persons, to promote, encourage, or aid any such unlawful assemblage. Any person guilty of violating this Section shall be deemed guilty of a felony, and upon conviction thereof shall be punished by confinement in the State Penitentiary for not less than one (1) year, nor more than (2) years."

In these times of national emergency, it is the patriotic duty of every American to report any act or plot which endangers the country's safety. Thus, Your Electric Servant feels free in requesting that you report to local law enforcement agencies or to the nearest WTU office, any person or persons violating or planning to violate any of the provisions of the above acts, of which you have any knowledge.

may irritate the Heart  
Gas trapped in the stomach or gut may act like a hair-trigger on the heart action. At the first sign of distress smart men and women depend on Jell-O Tablets to get gas free. No laxative but made of the fastest-acting medicine known for symptomatic relief of gastric hyperactivity. If the FIRST TRIAL doesn't cure that gas better, return bottle to us and receive DOUBLE MONEY BACK. See all drug stores.

or smokes as a precautionary measure for women who want to be clean, dainty—for women troubled by offending odor or discharge.

Some products may be harmful to delicate tissues. But not Lydia E. Pinkham's Sanative Wash! Pinkham's Sanative Wash is gaining great favor because it's NOT a harmful germicide. Instead—it's a mighty effective "bacteriostatic" (the modern trend). It not only discourages bacterial growth and infection but thoroughly cleanses, deodorizes. Very soothing—relieves minor irritations and discharge and has a tonic effect on delicate membranes. Inexpensive! All druggists.

LEGION PLANS NAVY RECRUITING

Governor Coke R. Stevenson at his desk in the reception room of the Governor's office, Austin, discusses plans for immediately recruiting two companies for service in the United States Navy or Naval Reserve in Texas with The American Legion, Department Commander Andrew Dilworth of San Antonio and Capt. H. W. Underwood, United States Navy, commanding the Naval ROTC Unit at the University of Texas. The campaign was started by the American Legion in response to a telegram from Secretary of Navy, Legionnaire Frank Knox, asking the American Legion to "recruit a minimum of one company consisting of not less than 140 men . . . The Navy has 338 ships in commission and 353 building. Need for men is obvious," said the telegram in part.

Commander Dilworth wrote the Secretary of the Navy "Texas will recruit two companies of 140 men each from the Houston and Dallas recruiting area."

Capt. Underwood said "The Naval ROTC unit of the University of Texas is anxious to make any contribution to the success of this campaign."

"I am ready to do all I can for the War and Navy Departments and all-out defense as urged by President Roosevelt, in fact I think I am about two jumps ahead," said Governor Stevenson.

Each American Legion Post is requested to send to the nearest Naval Recruiting Station or sub-station, at least one recruit for the Navy or the Naval Reserve on or before October 27. Fitting ceremonies will be held on October 27 either at Austin, or Houston and Dallas with high State, Navy and American Legion officials participating.

Governor Stevenson issued a proclamation calling upon Texas citizens to observe Navy Day, October 27 "For it was in October, 1775 that our forefathers . . . came to the conclusion we must have a Navy to maintain peace."

THIS WEEK IN DEFENSE

Information Released by the Government and Reviewed by the National Defense Advisory Committee of the National Editorial Association.

Aid to Britain and Russia

The American Red Cross instructed the British Red Cross to forward immediately to Russia 300 tons of medical supplies. The American Red Cross will send replacement supplies to Britain.

OPM announced 1914 military aircraft

OPM announced 1914 military aircraft were delivered during September—a new monthly record. The War Department announced it will allow Army aviation cadets 30 hours credit for flight training prior to enlistment—thereby cutting in half the flying time necessary in the Army to win wings. Mimic air raids began along the East coast from Boston to Savannah to test ability of civilian spotters and their communication system.

Labor

The President, in a message to the AFL convention in Seattle, said the time has come when Federal mediation machinery "must be used . . . before any recourse is taken to a strike or lockout." He said organizational rivalries and jurisdictional conflicts must be discarded for the duration. Labor Secretary Perkins told the meeting "it is of extreme importance that trade-unions develop in the near future a pattern of self-imposed discipline." She said the closed shop, closed memberships and high dues should be "restudied with a view to the public welfare" and to provide for those

war economic tools. Under Secretary of Commerce Chatfield Taylor told the group "we must not repeat the mistake of Versailles, of stressing territorial and political adjustments and asking little provision for the basis of sound trade and economic reconstruction." He said England and the U. S. must set the trade pattern because only they have the productive facilities, natural resources and capital necessary for world economic order.

**Labor Safety**  
Navy Secretary Knox told the 30th National Safety Congress in Chicago a killed or injured worker is as much loss to defense as a wounded soldier, because "we have no time to train replacement workers." He said time lost through injuries last year would have built 45 warships, 75,000 fighter planes or 15,000 heavy bombers. "Then think of what chiseling strikes cost the nation!" —Editor

**Helping South America**  
Speaking in Boston, Coordinator of Inter-American Affairs Rockefeller said the U. S. "has practically taken up the slack left in the trade of the 20 Republics due to their loss of the continental European markets," by increasing import purchases from \$450,000,000 to nearly a billion dollars a year. He said the \$700,000,000 made available to S. America for loans is being used by Latin countries to build up industries and agriculture "worth fighting for." He said only \$37,000,000 is currently not repaid and that not all funds available were borrowed.

FARMERS RECEIVE IRISH POTATO ALLOTMENTS

The Irish potato is up for new consideration under the 1942 AAA farm program, according to Fred Rennels, assistant AAA administrative officer in Texas. For the first time, Texas potato growers will receive allotments, yields and conservation payments for complying with provisions of the AAA program he said. The 1942 acreage allot-

ment has been announced at 60,238 acres and a yield of 82 bushels per acre. The allotment includes commercial and noncommercial growers but yields will be set only for commercial farms, the AAA official said. Basis for the Texas allotment is the acreage of commercial and non-commercial potatoes harvested during 1936-1904 with a trend adjustment based on the 1940 and 1941 acreage.

Rennels pointed out that commercial potato farms on which an average of three or more acres were harvested during 1939 to 1941 or on which three or more acres will be harvested in 1942. Conservation payments, to be earned only on commercial farms, will be based on acreage allotments and normal yields. Deductions for exceeding allotments will be approximately ten times the regular payment rate.

Allotments will not be established for farms having a harvested acreage of less than three acres and no penalties will be made on these farms, he said.

## Social Notes

### MYSTIC WEAVERS CLUB

Mrs. Lewis Bobo was hostess on Friday afternoon, Oct. 17, honoring members of the Mystic Weavers' Club.

Marigolds and zinnias added the floral note in the entertaining rooms where guests enjoyed the club diversion of needlework.

During the afternoon a letter to club members from Mrs. Sam Presley was read. Members regret losing Mrs. Presley who has moved to Pecos to make her home.

Refreshment plates held delicious chicken, salad sandwiches, potato chips, gherkins, fruit punch and peach short cake, topped with whipped cream.

Present for the afternoon to enjoy Mrs. Bobo's hospitality were: Mesdames C. A. Crump, Harry Caton, Bud Crump, Mark Davis, Theo. Mc Caughan, Lovell Richardson, Jesse Howard, Virgil Priddy, Miss Mamie Turner and Patsy and Peggy Crump.

### NEEDLECRAFT CLUB

The Needlecraft Club met this week with Mrs. Harry Caton in the home of her mother, Mrs. T. T. Perry.

Marigolds and Spanish Daisies formed the floral decoration.

A salad course was served to Mesdames W. R. Kelley, W. E. Watkins, P. H. Upton, L. E. Abernathy, J. R. Gipson, T. T. McCreary, J. R. Bahister, W. R. Brown, T. T. Perry and the hostess.

### Heart of Texas Garden Club

The District meeting of the Heart of Texas Garden Club will be held Friday, October 31, at Comanche, with headquarters at the First Methodist Church. The president, Mrs. Mildred Baze, of Mason, will preside.

Guest speaker for the occasion will be Mrs. Walter Crow, of Dallas, well-known lecturer on arrangements and demonstration of fruits and vegetables. Mrs. Crow is a professional speaker and comes highly recommended in this line of work.

Delegates to the District meeting are expected from San Saba, Lampasas, Coleman, Brady, Llano, Goldthwaite, Santa Anna, Brownwood, Mason, DeLeon, Hamilton.

### Self Culture Club

Mrs. W. R. Kelley will be hostess to the Self Culture Club on

### McCREARY-MARTIN

Miss Nancy McCreary, daughter of Mr. and Mrs. Cecil McCreary of Rockwood became the bride of First Sgt. Melvin Martin of Fort Morgan, Colo., Oct. 11 at 7:30 P. M.

The ceremony was held in the first Baptist Church Parsonage at Abilene. Rev. Jenkins read the impressive ring ceremony.

Those attending the bride and groom were: Corp. Jerry DeRose of Grand Junction, Colo., Miss Billie Craft, Swen-

son, Texas; Corp. Jesse East, Denver, Colo., Miss Francis Beight of Abilene and Sgt. and Mrs. Bayne Ashley of Fort Morgan, Colo.

The bride wore a rosewood, alpaca crepe dress with black accessories.

Mrs. Martin is a graduate of Rockwood High School and has been attending Draughn Business College in Abilene.

Sgt. Martin is a graduate of Fort Morgan High School and at present he is First Sgt. of Company "K" 157 Inf., Camp Barkley.

The couple will make their home in Abilene.

## Church Societies

### Baptist Girls Class Meets

The 16 year Girl's Class of the local Baptist Church were entertained Monday evening in the home of Mary Ellen Mitchell.

Games and singing were enjoyed, after which the girls made candy. While the candy cooled officers for the year were elected.

The young hostess served a delicious drink and candy to

Mrs. E. D. McDonald. Fire posters were displayed by the Ward School children as part of Fire Prevention Week. "The Home in the National Picture," was the title of the panel discussion led by Mrs. Preston Bailey.

Loans on 1941 wheat to Texas farmers total 18,698, according to the Commodity Credit Corporation. Of the 12,958,820 bushels covered by loan, only about half a million bushels are stored on farms.

**CARD OF THANKS**  
I wish to thank my dear friends for the beautiful bushels covered by loan, only and interest shown during my illness.  
Mrs. W. B. Brown

## Boy Scouts

### CUB SCOUT NEWS

The Santa Anna Cub Scouts are to have their pack meeting October 29.

Mr. Bill Davis, the new Scoutmaster, will have charge of the theme for discussion which will be, "Live and Help Live."

All Cub Scouts are urged to be present. New members are cordially invited to attend.
