Army To Aid Civilians In Scrap Drive

CAMP BOWIE, Oct. 21.—The Army will continue to aid civilians in the current scrap drive in the Camp Bowie area, it was announced today.

Operating under authority of Headquarters, Eighth Service Command, Col. Frank E. Bonham, Camp Commander, has named Major Edwin L. Glasgow, A. to act as co-ordinator of the scrap metal collection activities for the counties of Brown, Coleman, Mills, Sanaba, McCulloch, Llano, Gillespie, and Mason. He is expected to continue the good work already done by Capt. L. H. Holton of the Fourth Motor District.

"The collection of scrap metals and other materials depends almost entirely upon the loyalty and efforts of the civilian population," Major Glasgow said. "Various civilian agencies already have done a splendid job but more scrap is urgently needed."

"There must be enough scrap iron and steel in the reserve pile to insure continuous operation of steel mills for months to come, and now is the time to collect it while enthusiasm is high."

"In this connection the Army authorities stand ready to assist with trucks or other facilities where necessary. This assistance can only be offered, of course, where metals are being collected by civic or charitable organizations and funds used for philanthropic purposes, or where scrap actually is being donated to the Army for sale by the Army," Major Glasgow concluded.

Organizations needing assistance to move scrap, or individuals donating any considerable amount to the Army, are requested to contact Major Glasgow, telephone 790, at Camp Bowie, immediately.

ROCKWOOD BOYS ARE IN ENLISTED RESERVE CORPS

Charles Maness and James R. Stafford of Rockwood have enlisted in the Enlisted Reserve Corps at John Tarleton Agricultural College, according to a recent news release from the office of Lt. J. D. McCullough, Enlistment Officer at Tarleton.

The Enlisted Reserve Corps was set up during the past summer by the Army, Army Air Corps, Navy, Naval Air Corps, Marines, and Coast Guard; and units were established in various colleges throughout the country, particularly those already offering military training. The primary objective of the Enlisted Reserve Corps is to discover and train adequate supply of potential officer material for the armed forces well in advance of the actual need for replacement officers. It is the policy of the Reserve Board to keep those enrollees in school who prove by their "satisfactory progress" in their academic work that they are potential officer material.

Any college student who can meet the physical requirements and who is over eighteen years of age may enlist in the Reserve Corps. When a student is enlisted, his name is removed from the files of his local draft board, and he is subject by call only by the branch of the armed service in which he is enlisted.

According to information received this week, John M. Barber of Shield has reported for duty at Camp Beauregard, La., and is now in the armed forces of the United States Army.

Mr. and Mrs. C. M. Williams and daughter of Portales, New Mexico; Mrs. R. M. Spence and daughter of Pocomo, Calif.; and Mr. and Mrs. W. W. Sudduth and son of Eldorado are visiting the ladies' parents, Mr. and Mrs. Amos Taylor and other relatives.

Mr. and Mrs. Roy Reid went to Dallas this week the main object being to purchase more merchandise for their store.

Funeral Services For J. A. Pye Are Held Sunday

Funeral services were held at the Pioneer Funeral Home in Coleman Sunday at 3 P. M. for J. A. Pye, who passed away at his home here Friday evening.

Deceased was born in Madison County, Texas March 23, 1871 and died October 16, 1942. He was a farmer, and moved here six years ago.

He is survived by the widow and seven children as follows: Mrs. Joe Smith of Angleton, Andy Pye of Ft. Worth, Miss Pauline of San Angelo, Miss Ernestine, Katy, Virgil and Joan of Santa Anna. He is also survived by five daughters by a former marriage: Mrs. W. H. Holloway, Brentwood, Calif.; Mrs. Ada Ledbetter, Waco, Mrs. Bessie Adams, Bennington, Okla., Mrs. Lela Waldrip, Rosharon, Texas, and Mrs. F. E. Brice, Rosharon.

Services were in charge of Rev. Cox, pastor of the Assembly of God Church.

Interment was made in the Santa Anna cemetery.

E. F. Land Is Buried Tuesday

Funeral services were held at the Presbyterian Church Tuesday morning, October 20, 1942, at ten o'clock for E. F. Land, 84, who died Saturday in a Fort Worth Hospital.

The following information was furnished this office. E. F. Land was born February 4, 1858, at York, South Carolina. He was married to Miss Emma Henrietta Keller of York, South Carolina in January 1890.

The family moved to Santa Anna in 1903 and purchased raw land in the Mahoney pasture, about four miles south and west of town. They improved the land, built a home, and reared their family, three sons and one daughter, all of whom are useful and respected citizens here.

The children are James N. Land of Pittsburg, Pa., Edward Roy Land of Fort Worth, Lee Land of Dallas, and Mrs. J. W. Carrell of Fresno, Calif. The three sons were here for the funeral but Mrs. Carrell was unable to come.

The widow, the four children, seven grand-children and one sister, Mrs. N. O. Jackson of York, S. C., survive.

Palbearers were T. J. McCaughan, J. T. Oakes, J. W. McClellan, Ed Schrader, Clinton Lowe and Jim Strickland.

Flower ladies were Mrs. Jack Woodward, Mrs. T. J. McCaughan, Mrs. M. L. Guthrie, Mrs. Chas. Oakes, Mrs. Ed Schrader and Miss Valma Strickland.

Funeral services were conducted by the pastor, Rev. M. L. Womack, and interment was made in the Santa Anna Cemetery.

HENRY FORD LEE DIES IN BROWNWOOD HOSPITAL AFTER LONG ILLNESS

Henry Ford Lee, Brownwood service station operator for a number of years, died Saturday afternoon, October 17, 1942 in a Brownwood Hospital after a lengthy illness.

He is survived by his father, A. D. Lee; one sister, Mrs. Hilton Bates, and one nephew, all of Brownwood.

Funeral services were held at the Central Methodist Church in Brownwood at 4 P. M. Sunday, conducted by the pastor, Chet C. Henson.

Henry Ford Lee was a nephew and namesake of the late Henry Vollettine of Santa Anna.

Hubert Smith, accompanied by his young bride of two weeks, of Monument, N. M., are spending a few days with Hubert's parents, Mr. and Mrs. Turney Smith before Hubert's induction into the Army.

Second Lieutenant Barry A. Sullivan, adjutant of the 92nd Reconnaissance Battalion at Camp Campbell, Ky., was promoted to the rank of First Lt. on October 5. Lt. Sullivan recently was married to Miss Zelda Ruth Moseley, formerly of Santa Anna.

Lions Endorse Continued Drive For Scrap Metal

Following the luncheon at the Lions Club Tuesday at noon Ernest Lee Womack gave a very interesting talk on the Constitution, its history and the several amendments. Mr. Womack has made a special study of the Constitution of the United States and its relations to local governments and has some valuable information concerning same.

The time is short if we have our show before gas rationing goes into effect, so let's get busy and start the movement at once and carry it on to a successful conclusion.

The Club voted unanimously to endorse the continuance of the scrap metal drive, which is being urged by the Federal Government, State and local committees.

Trucks are available from Camp Bowie to haul scrap in under certain conditions explained elsewhere in this paper.

In the absence of President Roy Reid, Prof. D. D. Byrne presided over the meeting.

TECHNICIANS FOR ARMY AIR FORCE CAN ENLIST IN BROWNWOOD TODAY

To make enlisting more convenient for those men who are interested in becoming aircraft mechanics specialists, a recruiting officer will spend all day Thursday and Friday, October 22-23, in Brownwood at Hotel Brownwood.

Men who wish to become members of the army air force ground crews, whether married or single, between the ages of 18-50, may discuss the advantages of "joining up" with Lieut. Graham of the Army Air Force. Hours for interviews will be between 9:00 A. M. and 10:00 P. M.

The opportunity to enlist for duty with the possibility of being stationed near home is one of the principal features of the intensive campaign for airmen mechanics being conducted by the Army Air Force.

"We need technicians of all sorts," Lieutenant Graham stated. "Gas meter repairmen, refrigerator servicemen, auto radio installers, jewelers, motor assemblers and men of many other mechanical aptitudes may not know it, but the army air corps has a definite place for them. Any physically fit man who is mechanically minded and willing to help grease 'em, gas 'em, and repair 'em, to 'keep 'em flying' will be welcome to our ground crews."

See Lt. Graham at Hotel Brownwood, Brownwood, Texas, Thursday and Friday, October 22-23.

You can't carve anything out of rotten wood.

Shall We Have Our Annual Poultry Shows?

It seems to us Santa Anna should go right on and hold her Annual Poultry Show this year. All State exhibits have been postponed for the duration of the war, but small units where people can attend, exhibit and encourage such industrial sidelines as poultry should be encouraged.

The time is short if we have our show before gas rationing goes into effect, so let's get busy and start the movement at once and carry it on to a successful conclusion.

The site for the Dairy Show and Exhibits will be at the Powell-Cavanaugh building, according to Charles Pitts, Chairman of the arrangement committee. The dairy cattle will be exhibited in the open, just east of the building, and the exhibits will be in the west side of the building. The program is complete with a large display of exhibits being planned by the Home Demonstration Club women, according to Mrs. R. T. Ransberger, Chairman of the Educational Exhibits Committee, and Mrs. Ray Jameson, Chairman of the Dairy Products Exhibits.

There will also be cattle judging contests for adults and juniors; and a moving picture show on dairying. Charles Wilson, Chairman of the Exhibits Committee, is anxious to have as many commercial exhibits displayed as possible. Those wishing space should see him at once.

The Foods Committee, headed by Mrs. Willie Henderson, will serve lunch at the Dairy Show. The Boys' 4-H Club members will serve cold drinks.

BOBBY JOE CHEANEY PLEDGES TO KEMAS CLUB

LUBBOCK, Oct. 17. — Bobby Joe Cheaney of Santa Anna is one of 26 men students at Texas Technological college who took the pledge oath to Kemas club Wednesday night. He is the son of Mr. and Mrs. O. L. Cheaney and is a freshman architecture student in the division of engineering.

Approximately 100 men students signed preference cards for the seven men's clubs on the campus, at a convocation which followed a week's rush activities.

Jess Howard and son Donald Ray, J. D. Howard and V. L. Grady attended the funeral of Mrs. Emmett Howard in Lubbock Wednesday. Friends and relatives here are in sympathy with Mr. Howard in his grief over the loss of his young wife.

Mountaineers To Play Cross Plains Here Tonight

Santa Anna was dropped from the unbeaten class in Football District 9-A last week when they suffered a humiliating defeat at the hands of the powerful Ballinger Bearcats. Tonight, however, they expect to bounce back into the win column when they meet the Cross Plains Buffaloes at Mountaineer Field. Ballinger has the Mountaineers completely outclassed but Santa Anna and Cross Plains are evenly matched and tonight's game should prove to be one of the most interesting games of the season for Mountaineer fans. Cross Plains hasn't won a conference game this season so they are really going to be trying to win this game but the local boys are equally determined to win.

The Mountaineers have only a slim chance of winning the district championship now, but finishing ahead of Coleman would be next best, so you can be sure the boys will be doing their best tonight and in all their other games this season.

A good crowd is expected to attend the game tonight as this will be one of the top home games of the season.

The Mountaineers are all in good shape, have been working out every day and will be ready to corral those Buffaloes.

The boys will appreciate seeing a big crowd out to help them win this game so let everyone who can attend. Let's show the boys the whole town's backing them.

Fight 'em, Mountaineers!

Probable Starting Line-Up

Position	Player
Left End	Bible
Left Tackle	McCarrell
Left Guard	Johnson
Center	Casey
Right Guard	Nolan
Right Tackle	D. Avant
Right End	J. Deal
Quarterback	Haynes
Fullback	England
Right Halfback	J. Avant
Left Halfback	H. Cupps

District Standing

Team	W	L	T
Ballinger	2	0	0
Brady	2	0	0
Coleman	2	0	0
Santa Anna	2	1	0
Winters	1	1	1
Mozelle	0	2	1
Cross Plains	0	4	0

It is very gratifying to have our former subscribers call and order the News to come to them regular again. It gives us renewed encouragement and determination to put our best into our work and give our readers the best service possible.

The last week in this month we will rework our mailing list and publish the names of new and renewal subscribers up to that date.

Transportation Committee For Farmers Set Up

Headed by Ozro Eubank as chairman, Otis Powers, Ben Cox, T. L. Sparkman and C. F. Cavanaugh compose the farm transportation committee to assist farmers in filling out certificates of war necessity on trucks and pick-ups.

A telegram from B. F. Vance at A and M College to Mr. Eubank Wednesday clarifies the situation relative to detachable farm trailers, which states, "Certificates of war necessity not required for detachable farm trailers."

Thursday, Friday and Saturday of this week the committee will have representatives at Santa Anna, Trickham, Whon and Rockwood to assist anyone needing help in filling out his certificate.

Ed Featherston will assist at Trickham and Whon and J. B. Hodges will assist at Rockwood. Each owner of trucks and pickups will receive by mail a certificate form with instructions and a self addressed envelope, and those who can fill out the certificates without help should do so and get them in the mail at once.

By all means attend to the matter at once as a war measure and requirement.

High School Honor Roll Is Announced

The High School Honor Roll for the first six weeks of school has just been announced by Prin. A. D. Donham. Twelve seniors, fourteen juniors, seventeen sophomores and six freshmen are on the list. They are:

Seniors: Lucile Newman, Ruth Morris, Mary Ellen Mitchell, Mary Mills, Omelia Hartman, Wanda Woods, Maxine Williams, Velma Stewardson, Frances Stafford, Arvella Shamblin, Edwina Schrader, Maxine Rushing.

Juniors: Jo Ann Baker, Bettye Blanton, Kathryn Bagby, Wendolyn Campbell, Elvie Ray Cozart, J. Cecil Grantham, James Eubank, Otis Woods, Frances Stewardson, Marjorie Oakes, June Newman, Oma Dean McDonald, Billie Faye Lewellen, Louise Lane.

Sophomores: Garland Arrant, Faye Boyd, Betty Ruth Douglas, J. D. Dunn, Elizabeth Eeds, Mary Jo Harris, Doris Jane Henderson, Donald Ray Howard, Charlie Mae Medcalf, Kenneth Morelock, Gerald Post, Betty Pritchard, Loyce Richardson, Joyce Richardson, Evelyn West, Glenn Smith, Douglas Johnson.

Freshmen: Calice Jane Overby, Sybil Simpson, Billy Mulroy, W. H. Blake, Evelyn Bruce, Alice Anna Guthrie.

RUSH FOR DRIVERS LICENSES NOW ON

AUSTIN, Oct. 22.—In a last minute rush, 20,000 Texans a day are applying for drivers licenses, State Police Director Homer Garrison said today.

No old style licenses—the ones with two detachable segments—will be good after Nov. 1. The law provides that, unless the holders of these old licenses get their applications for renewal into the mail before midnight of Nov. 1, they will have to take an examination.

So many people have waited until near the deadline to file their application that "we are just about snowed under," Drivers License Chief J. B. Draper said. While the Drivers License Division is able to issue 10,000 renewals a day, it may be three or four weeks before late applicants get back their licenses.

Mr. and Mrs. Nye Reid and daughter of Austin were visitors in the E. K. Jones home Saturday and Sunday. Mrs. Jones returned home with them and will visit relatives in Houston before returning to her home.

Rev. and Mrs. S. R. Smith returned Thursday after a visit with their daughter, Mrs. Al Sadler in Carlisle, Arkansas. Mrs. Smith had spent two weeks with her daughter.

Final Plans Are Made For Dairy Day Show Sat.

At a meeting of the Chairmen of the various Committees working on the Dairy Day Show, final arrangements were made for the Show, which will be held at the Powell-Cavanaugh building next Saturday, October 24. Elmer Blackwell, president of the Coleman County Dairy Improvement Association, was in charge of the meeting.

The Show this year is streamlined to meet the educational needs of the dairy industry. Members of the various Home Demonstration Clubs will have educational exhibits, and many merchants are planning to have commercial exhibits according to Charles Wilson Chairman of this committee. Prizes in war savings stamps will be given the winners in the educational exhibits contest.

R. A. Finney, Chairman of the Finance Committee reported that the merchants were responding wholeheartedly in supporting the Dairy Show.

The Program committee, with D. D. Steele as Chairman, has outlined the following program for the Day:

10 A. M. - 12 Noon: Dairy judging contest for both adults and juniors, including men, women, boys and girls. W. R. Selman, who is in charge of the judging, urges that everyone enter this contest and learn more about dairy cattle. Ten dollars in war savings stamps will be given the winners.

12 Noon - 1 P. M.: Home Demonstration Women will serve lunch.

1 P. M. to 3 P. M.: Classification of dairy cattle by E. R. Eudaly, and judging of dairy products by G. G. Gibson.

3 P. M. to 4 P. M.: Picture show on various phases of dairying. J. H. Greenway will be in charge of the picture shows and assures every one that the pictures will be both entertaining and instructive.

4:30 P. M. to 5 P. M.: Awarding of prizes to the winners.

More than forty posters have been made and distributed throughout the County by 4-H Club members and other groups.

18-19 YEARS OLD MAY ENLIST FOR SERVICE

Local Recruiting Officer, Sergeant William J. Hess, now has the authority to enlist 18 and 19 year old men for direct service for the Infantry, Tank Destroyer Command, Camp Hood, Texas. This is a chance for Texas boys to enlist directly in a Texas Camp if they meet the qualifications.

Men 18 and 19 years old can be enlisted directly for the branch of service they desire and be guaranteed that they will be assigned to that particular branch. In all probability this will not be true if Congress makes a provision to include men of 18 and 19 years of age in the Selective service age limit.

Last week Miss Luella Chambers sent a bank check signed by her father, Clem Chambers in 1870 to the Baylor Museum in Waco. The check was drawn on the Flint and Chamberlain Bank, the first one established in Waco.

Miss Glenda Jean Herring returned to Waco Monday after spending the week-end here with home folks. Miss Herring has completed her training as sheet metal worker and is now employed as a sheet metal worker in Airfield No. 1, Aircraft Field, Waco, Texas.

Mrs. Mary Knox of Kerrville is visiting her sister Mrs. G. W. Jennings of the Cleveland community. This is their first meeting in twelve years.

Miss Bess Inez Shield of Austin is visiting her sister Mrs. Al Sadler in Carlisle, Arkansas. Mrs. Smith had spent two weeks with her daughter.

MEN FROM CAMP BOWIE AMONG NATION'S HEROES

Only a year ago, a rugged and bluff soldier was camp commander at Camp Bowie. Then he was sent away to the far Philippines, and few words have filtered back concerning him or his fate.

This soldier was Colonel Keatie L. Berry, and when last heard from he was in the midst of the fighting on Bataan. He had gone to the Philippines to help General Douglas MacArthur train native troops for the inevitable war with Japan. Not long after he arrived there the war in all its fury came to the Pacific.

A penciled will written on the back of the last letter home, and an earlier package containing a gift of coconut syrup sent to a friend here—these and little else came through before Homma's slanted invasionists swept over the foxholes of Bataan and blotted out the fate of so many Americans.

The silence of the Pacific closed down on Col. Berry as it did on the famous "Lost Battery" of artillerymen from Camp Bowie.

These immortals—a pitiful force to meet the full fury of the Japanese explosion in the China Sea—were at sea when Pearl Harbor was blasted, and they made their way to Java, where they were fighting like the men of Texas have always fought when they were last seen by a fleeing American correspondent.

Some day the stories of these Camp Bowie men will be written fully, and we can rest assured that—whatever their fate—it will be a chapter of bravery and sacrifice in the face of terrific odds.

Men like Col. Berry and the "Lost Battery" members are not forgotten here. And the deeds of the thousands of other men of Camp Bowie who go forth to all of the world's fronts will be followed closely by their friends and loved ones here.

One day, perhaps, they'll come back home for a grand reunion and we may be able to hear their stories in their own words.

Who else can tell those stories? —Brownwood Bulletin.

—For Victory: Buy Bonds—

Fire Insurance Commission Issues Statement

AUSTIN, Oct. 19.—Because the purchase of some types of new stoves is now limited by government order, Marvin Hall, State Fire Insurance Commissioner, declares it is more important than ever to carefully check stoves and heating equipment before they are placed in use for the winter.

"Our used stoves can't be replaced," he said, "and this will require us to get the best service possible out of what we have until the war is over. Fire losses in other years—times when used stoves could be replaced with new ones—have always shown an increase at this season.

"This can be charged to carelessness and hurried installation of stoves at the beginning of fall. It is more important than ever for us to see that our heating equipment is in good condition and will not cause a destructive fire."

To more strongly fortify the "home-front" against fire, Hall recommended:

Carefully check chimneys and flues for holes through which sparks may escape, especially in the attic and at the roof line; clean thoroughly to prevent flue fires. Examine stoves and old pipes for rust holes and loose joints.

Set stoves and furnaces a safe distance from combustible walls and ceilings or protect with shields of asbestos, metal over asbestos or metal separated from combustible surface by an air space.

If metal pipes pass through walls or ceilings protect the woodwork with a ventilated thimble. Use metal mats under stoves.

Ash cans should be of metal and kept covered. Do not place cans near wooden fences, walls or other combustible materials.

Place screens in front of all open fires. Be sure that window curtains and other combustible household furnishings will not become ignited by keeping them a safe distance from the stove or fire.

Before connecting gas heaters see the tall burners are clean and adjusted for the correct mixture of air and gas. Avoid the use of rubber hose

connections; use metal connections instead. Never use matches when hunting gas leaks. To detect gas leaks use soapy water and small bubbles will form at the point where gas is escaping.

Cleveland News

Mr. and Mrs. Clifton Williams and family of New Mexico visited Sunday and Sunday night with Mr. and Mrs. Jess Williams.

Those visiting Mr. and Mrs. M. F. Blanton Sunday were Mr. and Mrs. Joe Phillips and family, Miss Fannie Blanton of Coleman and Mr. Andy Anderson of Camp Bowie.

Mr. and Mrs. Douglas Penny visited Mr. and Mrs. S. A. Moore Sunday afternoon.

Miss Ovella Cupps of Abilene visited with her parents, Mr. and Mrs. Elmer Cupps Thursday and Friday of last week.

Mr. and Mrs. John Geer and children Freddie Marie and Orrella and Mr. Hugh Phillips attended the funeral of Mrs. E. C. Brusenhan of Coleman Friday afternoon.

Mr. and Mrs. M. F. Blanton were Brownwood visitors Friday.

Those visiting Mr. and Mrs.

Jess Williams Tuesday were Mrs. Elgie Spence and daughter Linda of Los Angeles, Calif., Mrs. Amos Taylor, Mr. and Mrs. Hugh Phillips, Mrs. Jewell Sudduth and daughter of El-dorado.

Mr. and Mrs. John Geer and family visited relatives at Concord and Bangs Sunday.

Mrs. Armon Vardeman and daughter of Albany visited with her parents, Mr. and Mrs. Claude Phillips last week.

Whon News

(Sue Holmes)

We have had a very large rain this week here.

Ida Herring has come home from her visit at Amarillo and said she enjoyed it very much.

Miss Cleo Fay Smith is returning to Nixon Clay College after a visit with her parents here.

Ida Herring and Kate Holmes visited Mrs. Rolet and Miss Johnson Monday night.

Mrs. E. L. Fivash visited in Whon last week-end.

Miss Vera Paye Tisdal spent last week-end with her parents.

If you want to keep a lemon indefinitely, marry him.

Be sure to attend the Union services at Cumberland Presbyterian Church Sunday night.
Ernest H. Wylie, Pastor.

CHURCH OF CHRIST TO HAVE SERVICES SUNDAY

Bro. Eubank of Mullen will preach at the Church of Christ Sunday morning, October 24 at 10:30. Everybody is invited to hear him.

CARD OF THANKS

We wish to express our thanks to the good neighbors and friends for the many favors, gifts and expressions of sympathy following our misfortune in the fire last Sunday. Words are inadequate to express our gratitude to you so graciously supplied needs of our home and relief of such a burden.

from Santa Anna, Leedy and Trickham communities were valuable and abundant.

May God bless you all in our prayer.
J. M. Rouse and family

Victory Leaders Get In the Scrap

College Station, Oct. 21.—Mobilization of farm and ranch families through the neighborhood leader system has contributed a great deal to the success of the various salvage campaigns in rural areas, according to reports reaching H. H. Williamson, director of the A. and M. College Extension Service, from county workers.

The "human chain" has been used to advise and encourage rural families in the contribution of scrap iron, rubber, and left-over fats. For example, Victory leaders aided in the collection of more than 900 tons of scrap on Wharton County farms during the summer.

Scrap-free farms in Gray County are posting signs which read: "This farm has no scrap. It's gone to slap the dirty Jap." Mrs. Foreman Stubbs, Alameda community Victory leader, is the author of the sign. Thirty-two Gray County farms qualified to post the marker in September. Farmers in Dallam County have contributed an average of one ton of scrap metal per farm.

Proceeds from scrap collection in the Judson community of Gregg County were used to finance a community fish fry. The \$18 which remained in the fund was donated to the USO, Hewitt H. Wheelers, father of Menard County's national hero, was principal speaker at a scrap rally at the Menard football stadium. Members of the audience were sold war savings bonds and stamps as they left the field.

Here are other "salvage" reports. Terry County's per capita collection of rubber averaged 20 pounds. A total of 542 pounds of leftover fats was collected in San Saba County in one week. Victory leaders in Madison, Grimes, and Washington counties are leading drives to collect tin cans. Grimes County met its first month's quota of nine tons in short order.

Mrs. J. B. Chambers Sr. paid Miss Luella Chambers a short visit Sunday while enroute to her home in Harlingen, after visiting her son, Col. C. H. Chambers of Fort Bliss.

Uncle Sam Needs Your

SCRAP

Before the Snow Flies

We've all heard a lot lately about the need for scrap metal. Probably you've already done something about it. But every one of us has got to do more. **MUCH** more. **AND DO IT QUICK!**

Here's Why

This war is swallowing steel like a quicksand. We need scrap metal to make steel . . . steel for more tanks . . . more planes . . . more ships . . . more guns . . . and more shells. It's our job to supply our boys and allies with all these things they *must* have to smash the Axis on land, at sea, and in the air.

Scrap Is Precious

Steel for tanks, planes, ships, etc., is made by melting old scrap metal with pig iron—about half and half. The pig iron is made from iron ore that comes from mines. But that precious scrap—THAT'S got to come from us folks here on the Home Front.

What Is Scrap?

Scrap is ANY old thing, made out of iron or steel, that we don't absolutely need. It is anything from a hairpin to a busted steam boiler . . . from a paper weight to a cracked rail. It is old machinery, pipe, tools, flat-irons, auto parts, screws, nuts, bolts, bathtubs, lawnmowers, stoves, tanks, metal barrels, iron fences—and what have you.

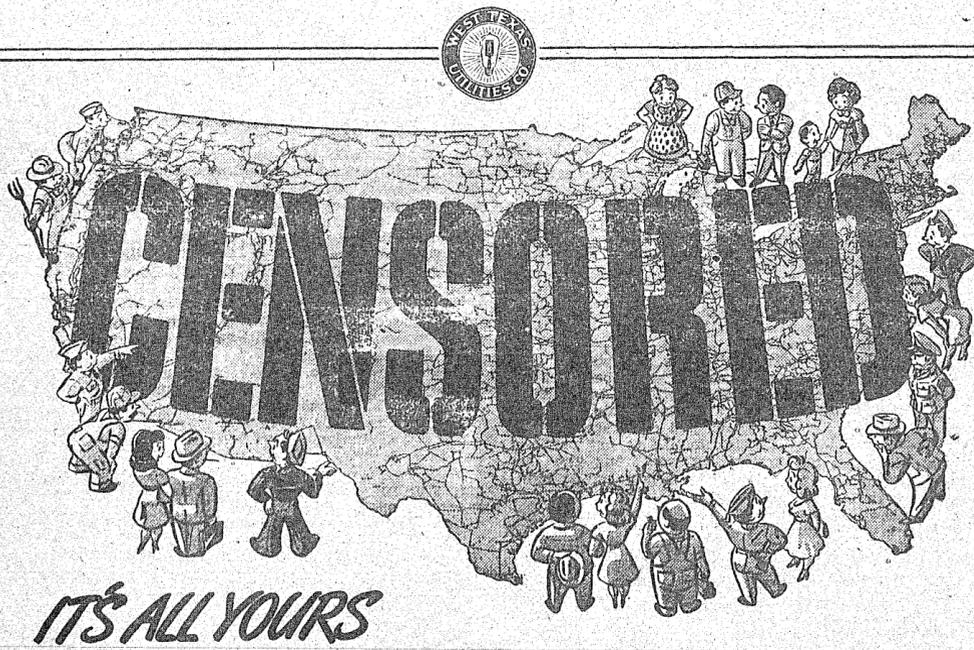

Where Is It?

This old scrap is everywhere. It is in cellars, attics, closets, alleys, auto graveyards, fields, garages, barns, and factories. We've all got SOME, be it little or much. A typical town family is said to have about 70 pounds lying about; a farm family, nearly 750 pounds. In ten months after Pearl Harbor the Santa Fe scraped together 210,716,000 pounds of scrap. A pound here, a ton there. That's how it mounts up.

Scrap Means Steel... Steel Means Victory Sell It or Give It... But Get It In

Steel is the only language those bandits in Tokyo and Berlin understand. Let's give them plenty of talk . . . in their language. Every county, city, and town is having a scrap drive. Watch your local newspapers on how to get in it. Sell what you have, or give it away—but *get it in!* And now's the time, before snow flies! Your scrap can save American lives and help shorten this war. Every pound you turn in helps.

SANTA FE SYSTEM LINES

... and the Japanazis Have Nothing Like It!

You: And, pray tell, what is it we have that the Japanazis have nothing like—and is censored?

Reddy: It WAS a road map of Uncle Sam's electric power. It DID show how high voltage transmission lines criss-cross the country—carrying power to busy war plants and to 27 million homes. It's censored as to location of cities and plants because we're glad to cooperate in concealing information that might aid the enemy.

You: What else can you tell me about it?

Reddy: This: It's the greatest electric system in the world. No other nation has anything like it. The famous British "grid system" could be dropped into one small section. It carries more power than all the Axis countries combined.

You: And how did we obtain it?

Reddy: This nation-wide transmission net work was put together in peacetime to serve you and all Americans. It was built with the savings of the people it serves . . . individual citizens, churches, colleges, sav-

ings banks, insurance companies, all of whom invested their savings in sound electric securities. It is operated under the American system of free enterprise by men and women trained and experienced in good business management. Their success depends on bringing the greatest service to the greatest number of homes at the lowest possible cost.

You: H-u-u-m-m. Quite different from the Nazi system. Under the Japanazis, and their system of political management and state slavery, the individual, or his institutions, is nothing. Only bureaucrats and political favorites have anything to hope for.

Reddy: Yes. And in the long run, that won't win wars! Here in West Texas . . . in this whole country . . . everybody has a personal stake in Victory—and in preserving the American way of living which has made us the strongest nation on earth!

West Texas Utilities Company

FREE GRADING SCHOOL WACO OCT. 26 AND 27

COLLEGE STATION, Oct. 21. A turkey grading school, sponsored by the U. S. Department of Agriculture, will be held at Waco on October 26 and 27. George P. McCarthy, poultryman for the A. and M. College Extension Service, announces. Lester Kilpatrick of the Agricultural Market Administration will be in charge. The school will be open to any one desiring to attend.

Students attending the schools are taught by a practical method which gives them opportunity first to see how grading is done, then they do it themselves under the supervision of specialists. To obtain a license for grading the student must pass a rigid examination. After receiving a license he works under supervision of federal-state authorities.

Chulle went to San Antonio where he enlisted in the Army Air Corps.

U. D. C. MEETS TUESDAY WITH MRS. WEAVER

The U. D. C. met in the home of Mrs. Ollie Weaver Tuesday, Oct. 20 at 3 P. M. The program was as follows: Song: "America." Prayer: By Chaplain. Song: "Maryland, My Maryland."

Achieving Women of this South: Miss Dora Kirkpatrick. Loyalty of the Freed Slaves: Miss Luella Chambers. Religion in the Southern Army: Mrs. A. L. Oder. The hostess served cake and hot chocolate to Meses, J. R. Banister, Campbell, Kingsbery, Teagle, Taylor, Oder, Seth Risinger, Weaver, and Miss Luella Chambers and Miss Dora Kirkpatrick.

C. W. Lowery has been confined to his room with a minor but not pleasant illness this week. Mrs. Lowery and the other employees are carrying on, but will welcome his recovery and return to the store.

GEORGE GARRETT IS BURIED IN COLEMAN OCTOBER 12

Funeral services for George W. Garrett, 59, ranchman and sportsman, resident of Coleman County for about a half century, were held at four o'clock Monday afternoon, October 12, 1942, from the family residence, 615 South Goncho Street, with the Rev. Robert F. Jones of Harlingen, formerly of Coleman, officiating. The Rev. M. L. Womack, pastor of the Santa Anna Presbyterian Church, and the Rev. John Mueller, pastor of the Coleman Presbyterian church, assisted.

While in ill health for several years, Mr. Garrett's death was sudden. He died in Coleman, Texas, on Oct. 11, 1942. During his 50 years' residence in Coleman he had made a wide circle of friends.

He was a member of the Presbyterian Church. Survivors include his widow, Mrs. Edie Delleney Garrett; a daughter, Mrs. Patsie Garrett Mellen of Coleman; one brother, Robert Garrett of Columbus, New Mexico; one sister, Miss Eudora Garrett of San Antonio, Texas; and his mother, Mrs. W. O. Garrett of Santa Anna.

Pallbearers included Johnnie Warren, George Robey, Kirkland Baker, Harry Thompson, Lucien White, Charles Hemphill and Dolph Lewis.

Floral tributes were handled by Mrs. R. E. L. Zimmerman, Mrs. Maynard Gaines, Mrs. Alma Brown, Mrs. Raymond Brookshire, Mrs. Johnnie Warren, Mrs. C. R. McHorse, and Mrs. Maggie Owens.

Funeral arrangements were made by J. E. Stevens Company.

Honorary pallbearers included Dr. R. Bailey, Paul Duke, Sam Gray, Fred Estes, R. E. L. Zimmerman, Dale Smith, W. J. Coulson, Maynard Gaines, Raymond Brookshire, Sgt. A. Adamson, Johnnie West, Jimmie Phillips, Oplin Saunders, Harry Thompson, Charles Polk, D. P. Rockmaker, Joe Peas, Frank McCreary, Homer Schulz, Buster Watson, Tom Williams, Mr. Dickenson, Mr. Stafford, W. P. Stobaugh, Joe Dibrell, J. K. Baker, Matt Estes, C. H. Shore, R. V. Wood, E. P. Scarborough, R. A. Ray, Claude McHorse, W. A. Powell, A. Mayers, Louie Zweig, Sam T. Dowdy, Elmer Simpson, Walter Samuels, D. B. Allen, Grover Arnold and Dave Arnold.

Out of town friends and relatives here to attend the services were Mr. and Mrs. Robert Garrett, Bobara Ann and Billy Jack of Columbus, N. M., Miss Eudora Garrett, Miss Fannie Faye Brigham and Miss Gladys Rose, all of San Antonio, Mr. and Mrs. Roy Garrett of Brownwood, Mrs. W. M. Delleney of Marlin, Mrs. Mamie Delleney and Miss Marie Delleney of Denton, Miss Viola Penrod of Dallas, Mr. and Mrs. Jack Bothwell of Thornton, Mr. and Mrs. Rupert Delleney of Calvert, Mr. and Mrs. William Byerly and Mrs. L. F. Bird of Blanket, Mr. and Mrs. R. H. Womack of Cross Plains, Mrs. Lora Brown and Miss Lorena Brown of Mineral Wells.

W. D. ARMSTRONG OF BROWNWOOD PASSES AWAY

BROWNWOOD, Oct. 16.—W. D. Armstrong, 72, business man and civic leader, died in a hospital Friday morning. He had been ill for some time.

A native of Belton, Mr. Armstrong had been in business in Brownwood for more than 40 years. He and his wife, Dr. Mollie W. Armstrong, celebrated their fiftieth wedding anniversary in March.

Mr. Armstrong had twice been president of the Texas Jewelers Association.

Surviving are his widow, member of the State Board of Examiners in Optometry; a son, Wright Armstrong, St. Louis, Mo., general agent of the Burlington Railroad; a sister, Mrs. L. L. Mallow, Brownwood, and three grandchildren.

Funeral services were held at the First Methodist Church at 3:30 p. m. Saturday with the pastor, Rev. Leslie A. Roine, officiating. Burial was at the Greenleaf Cemetery.

CARD OF THANKS

This note to express our sincere appreciation to all of those kind friends for all those kindnesses shown and tokens of sympathy upon the passing of our husband and father, Mr. E. F. Land.

Back Our Boys in Blue!

Typhus Fever On Increase In State

AUSTIN, Texas, Oct. 22.—Reports coming in to the State Health Department indicate an increasing incidence of typhus fever throughout the State without any particular regard to urban or rural population.

Inasmuch as nearly 900 cases of typhus fever have already been reported in Texas this year, Dr. Geo. W. Cox, State Health Officer, is urging full cooperation from all communities whether large or small in a campaign to exterminate rats and thus control the increasing prevalence of typhus.

"It must be kept in mind that the rat acts as a reservoir of the typhus germ and the rat flea is the means by which the type of typhus found in Texas is transmitted to man. Rats are liable to travel many miles from one community to another, and it is therefore obvious," Dr. Cox said, "that it will be necessary to make the rat extermination program cover the entire state."

Dr. Cox has recommended a four-point extermination program in addition to the already widely used poisoning campaigns, which he believes, will assure more than temporary typhus control. This program includes: first, making food inaccessible to rodents through proper garbage collection and disposal; second, rat-proofing of homes and other buildings; third, keeping at least two traps set and baited in every home which is not rat-proofed; fourth, proper educational measures.

Concerning the educational campaign, Dr. Cox pointed out that since the typhus fever rat is known to inhabit practically every section of the state, it will take state-wide cooperation to exterminate it. In order to do this, the public must become adequately acquainted with the habits of the rat and the various control measures that may be applied.

The State Department of Health has moving picture films on this subject and has issued a bulletin outlining rodent control measures. This bulletin will be mailed free upon request, Dr. Cox said.

A WAR MESSAGE to Truck Owners and Drivers

America's truck transportation system is faced today with a critical situation; and the Office of Defense Transportation is asking the help of every truck owner and driver.

With less than a 3 months' supply of new trucks to serve our civilian needs for the duration, we must squeeze every possible mile out of the 5,000,000 trucks now on the road. That's why your government is asking YOU to join in a nation-wide movement to conserve all existing trucks and tires through the program of the U. S. Truck Conservation Corps.

HERE'S HOW YOU CAN HELP

AS A TRUCK OWNER — SEE THAT:

- Your truck receives thorough, mechanical checkups regularly
- Your truck is never overloaded
- Your drivers report daily on the condition of their trucks
- Only experienced, competent drivers are allowed to operate your trucks
- Broken or worn-out parts are immediately turned in for scrap if they cannot be repaired

AS A TRUCK DRIVER — SEE THAT:

- You take every precaution to avoid accidents
- You start and stop more gradually and spare your tires, clutch, engine as well as save gasoline
- You report conscientiously on the condition of your truck every day
- You check tires daily for cuts, bruises, glass or other damage
- You avoid unnecessary delays that slow our war effort

HUMBLE STATIONS ARE COOPERATING

Humble stations are official stations where you may join the U. S. Truck Conservation Corps and receive the Corps insignia for your truck. Humble dealers are pledged to cooperation in the program of regular inspections and systematic preventive care. So drive in to your nearest Humble station soon, sign up to do your part in this important work—and let regular Humble service help you fulfill your pledge to—KEEP 'EM ROLLING LONGER!

For high achievement in the production of war equipment.

HUMBLE OIL & REFINING COMPANY

Just received a shipment of Wolverine Work Shoes — the most comfortable work shoe made. Get yours while stock is complete. Sizes in stock 6 to 11. Loyd Burris Dry Goods.

The cotton picking and ginning has been quiet this week following the heavy rains throughout the territory last week.

Mrs. Josh Bryan of Rockwood was in the Mountain City Monday and informed the editor that she had already mailed Christmas packages to her sons Danny Dot and John Will in the Hawaiian Islands.

WARD SCHOOL P.-T. A. MEETS TUESDAY

"America" was the opening song lead by Mrs. E. D. McDonald, accompanied by Mrs. Virgil Priddy at the piano, when the Ward School P.-T. A. met Tuesday, October 20 at 4:30 P. M.

Courage and clear thinking are powerful antidotes for the folks who are forever stewing in their own juices worrying over things that can't be helped, was the main thought brought out in Mrs. Virgil Priddy's talk on "Don't Worry."

Mrs. C. D. Bruce discussed "Education, Bedrock of Democracy." She enumerated the things that were being done for defense and how we still might improve our methods in training for needs.

Mr. Jodie Baker gave a report on the amount of scrap material gathered by the Ward School children.

Mrs. D. D. Byrne's fourth grade children and Miss Ouida Casey's seventh grade group displayed the fire prevention posters that the children had so amply prepared.

Mrs. England reported dues collected from 31 members and urged that all who have children in school or are interested in P.-T. A. work to join the association and help raise our standard.

Mr. Baker reported that there was a possibility of there being milk served at the school lunch room at a small extra fee soon.

Miss Pope's room won the attendance prize for having the largest percentage of mothers present.

Out of town guest was Mrs. Bruce, mother of Charlie Bruce.

Our next regular meeting will be Tuesday, Nov. 17 at 4:30 P. M. at the Ward School Auditorium. A very cordial invitation to attend is extended to the public.

Many of the discoveries of science and industry would never have been made but for accident or error.

In 1795 a Berkshire paper-maker forgot to put sizing in his vat. The soft paper was considered a total loss until the boss tried to write on it. The stuff soaked up ink! He had "discovered" blotting paper.

Eighty years ago a restless American named Thomas Adams vainly tried to make a new setting for artificial teeth from a chunk of chicle gum. He accidentally bit off a piece and found it pleasant to chew. Chewing gum was born! Whether that may properly be termed progress is, of course, debatable.

In 1839, though, Charles Goodyear accidentally dropped on a hot stove some sulphur mixed with india rubber. It fused—and vulcanizing was discovered.

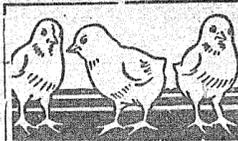

Entrusted by the ruler of Syracuse with the task of finding out whether the goldsmith had used all the gold delivered to him for making a crown, Archimedes pondered at length. One Saturday night he noticed how his body made the water rise, and then came to him two principles—that a body displaces a quantity of water equal to its own bulk, and that the loss in weight of the body immersed in water equals the weight of the water displaced. Excited by his discovery, the absent-minded philosopher leaped from the streets shouting "Eureka!" I have found it!

A Michigan woman used to brew a special tea that seemed to relieve drowsy. Scientists noted improvement in the heart condition of patients imbibing the tea, broke it down, discovered digitalis.

The boy Galileo, fascinated by a swinging chandelier while attending church services — and giving them a boy's usual attention — timed the swing with his pulse. He went home, tied weights to lengths of string, evolved the principle of the pendulum.

During World War I, with supplies from Germany cut off, American scientists were trying to find a means of making dyes fast, especially in denim, the material from which overalls are made. One experimenter accidentally broke his thermometer in a vat, the mercury went into the solution—and there was the fixative. —Texas Outlook.

Our commando raid on the icebox would have been a success last night, if Snooks hadn't delayed his marbles on the stairway right in our line of landing.

Poultry News

By W. E. GRIFFIN

Contented Chickens Lay Better

Don't put off getting those pullets into their winter quarters any longer. That's the advice which Bill Griffin of the Griffin Hatchery has for farmers and poultry raisers in this area. After October 1 cold rains and even snows come very suddenly, and farm flocks that are not prepared for these weather conditions are likely to suffer setbacks from which they will not recover until next spring, if then.

The poultry house should be thoroughly cleaned and disinfected before putting in the new layers. Each bird should be selected carefully for size and health, redness of wattles and comb, and trueness to breed characteristics.

At the time of worming the chickens are also treated for lice, applying a louse killing preparation that releases highly volatile fumes, or by dusting with an effective louse powder. Some people like to dip their chickens to rid them of lice. Dipping should be done during the warmest part of the day.

The additional eggs produced by worm-free and louse-free chickens is important at this time when the price of eggs is the best in years and when the government is anxious to have every layer produce at least a dozen more eggs than the average of last year.

If you cull your own flock catch the birds as quietly as possible. A good catching coop or catching gate helps in doing this. Since few farmers have this kind of equipment, it is advisable to let a trained serviceman do the job.

Two five-foot feeders per 100 hens are provided for the pullets. Allow 1 nest for every 4 or 5 hens, 8 inches of roost space per bird, and 3 1/2 square feet per bird of floor space for

lightweight breeds and 4 square feet for heavyweight breeds.

We figure the trouble with Washington is that the gold braid priority has busted through the red tape ceiling.

Some fellows buy their wives pretty things in the hope it will leave them speechless.

Not everyone who carries a brief case knows enough to talk briefly.

Most people favor that which will return them something for nothing or much for little.

But New York's GOP is still anticipating a Dewey morning in November.

Truth may be stranger than fiction, but it isn't nearly so marketable.
