

SANTA ANNA NEWS

"He Profits Most Who Serves Best"

VOLUME LVIII

SANTA ANNA, COLEMAN COUNTY, TEXAS, FRIDAY, JULY 16, 1943

NUMBER 29

NEWS OF OUR MEN and WOMEN IN UNIFORM

Pfc. Ford Peyton, from Camp Howze, is visiting homefolks while on a 10-day furlough.

Jim Daniels and Adolphus Ashmore who are in the Coast Guard, stationed at Orange, Tex. spent last week-end with homefolks here.

Lt. Archie Dean Hunter, enroute from Cherry Springs, N. C. to San Diego, Calif., visited with home folks here this week. A. D. Sr., of Consolidated Aircraft, Ft. Worth managed to meet his son here for a brief visit at home.

Pine Camp, N. Y.
July 8, 1943

Dear Mr. Gregg:

Please change the address of my paper to, PFC Roy E. Wells, Co. B., 75th Arm. Med. Bn., A.P.O. 255, Pine Camp, N. Y. We are here for three months of training.

I really look forward to the papers each week. You will never know how much good it does us mentally.

Thanking you,
Roy E. Wells.

S. E. Blanton S/C
37th USNCB % Fleet P. O.
San Francisco, Calif.
June, 29, 1943

Dear Editor:

I have been getting my Santa Anna News for the past three months. I sure do enjoy it. I usually pass it around to the rest of the boys as Texas is well represented here.

We are very busy here with our work. We get every other Sunday off and liberty every 18 days. So you see we stay busy and don't have time to get homesick. We have got used to cold showers and standing in line in the rain, and also the mosquitoes.

Thanks for sending the paper.
S. E. Blanton.

SKY SKIMMERS — Flying "freight cars" that drop out of the clouds and can land practically anywhere, are now being built in large numbers for U. S. Army Air Forces. Gliders are towed by bombers as shown on the right.

They carry a jeep, field artillery or 15 air borne troops, moving men and materiel to otherwise inaccessible areas, under fighter protection, and go into action almost instantly. Gliders are far cheaper to build and easier to maintain than the cheapest plane.

Infantile Paralysis Epidemic Spreading

Warnings come From State Health Department

The State Health Department has sent out a general warning to the public to guard against that dreaded disease, Infantile paralysis. The epidemic over the state is alarming, and is much worse than has been made known. In several towns and communities all public meetings have been closed as a precaution against the spread of the disease.

LOCAL WADING POOL ORDERED CLOSED

The Lions Club, Chamber of Commerce and City officials, join in a request to the management, that the local wading pool, or swimming pool, being used for children, be closed until further notice, due to the alarming spread of the epidemic.

Mosquitoes are said to be large contributors to the spread of the disease, and reports coming from over the town, indicate there are numerous mosquitoes in the town. This condition can be improved by the use of kerosene oil in all places where moisture is exposed that soon become breeding places for the disease carrying insects. The use of kerosene in pit toilets, watering place for chickens, livestock and other such places, and especially where waste water is allowed to stand and stagnate.

Kerosene liberally used in all breeding places, and especially in those supposed to be sanitary pit toilets, will greatly relieve the bad odors and aid to exterminate the mosquitoes. May we urge this matter not be postponed but be attended to at once for the safety and protection of all who live here. We have not been informed, but believe the City will supply the kerosene needed to use in all infected places.

July Is The Month To Transfer Pupils

All pupils, living outside of the Santa Anna School District, who plan to attend the Santa Anna Schools the ensuing year must be transferred during July. It makes no difference if they have been going to school in Santa Anna before, if they live in another district, they must be transferred. Children may be transferred in the County Superintendent's Office, or by seeing Mr. Byrne or Mr. Donham for they have transfer blanks.

Pupils who have moved into Santa Anna School District from another district in Coleman County should also transfer to Santa Anna if they intend to go to school here.

D. D. Byrne.

Crack US Division in Sicily Invasion; Looks to Rome

By Clark Lee

INS Staff Correspondent.

Aboard A U. S. Infantry Landing Barge off The Sicilian Coast, July 10 (8:10 a.m.) (Delayed).— Benito Mussolini's shore defenses crumbled with surprising rapidity as American troops swarmed onto the southeastern coast of Sicily before dawn today.

The initial landings were carried out under cover of a magnificent and spectacular bombardment by our warships.

I watched the first landings of this American unit from the bridge of the flagship of the supporting naval fleet. Then I boarded one of the infantry landing boats.

The only opposition of any consequence was that put up by enemy dive bombers which spotted us after waves of our troops were already on the beach.

By the brilliant light of magnesium flares they dropped 9 or 10 half-ton bombs which missed their targets and so fell without doing any harm.

A few enemy shore batteries in the region of Sconlitti attempted to duel with our cruisers and destroyers, but were quickly silenced.

Our troops ashore reported encountering only light machine-gun fire.

America's most thoroughly trained Army division now is in action against the Axis in Sicily.

For the time being its identity can not be disclosed, but this hard-hitting unit has gone into battle without any "withdrawal plan" in case of reverses. One of its crack officers explained the meaning of this in these words:

"There can be no question of pulling out, no matter what kind of resistance we encounter. We're going in to hit, hold and advance."

"We haven't even learned how to retreat or withdraw. The only way we know is forward, no matter what we're up against."

This particular outfit considers itself America's "elite," because it has the best and newest arms produced in the United States—and because of a new strengthened organizational set-up which if it proves successful may be extended to other divisional units.

KARL WALLACE IS PROMOTED TO COLONEL

It's Col. Karl Wallace now. News of the former WPA district director's promotion was received here Monday, along with a notice that he has been transferred from Fort Meade, Md., to Fort Dix, N. J.

Colonel Wallace was at one time executive officer of the 142nd Infantry. Later he commanded the 141st Infantry.

HIT-RUN DRIVER FLEES AFTER GIRL GETS BROKEN LEG

State and city officers late last night quickened their search for a hit-and-run driver who fled after striking down 6-year-old Neva Joyce Modawell at 12th and Chadbourne Streets about 3:30 Sunday afternoon.

The child, daughter of Mr. and Mrs. Clyde Modawell, 1120 N. Chadbourne, suffered a fractured right leg and was admitted to a local hospital. Parents informed officers they first saw the girl lying in the street as a black sedan sped away.

Released by U. S. War Department Bureau of Public Relations
PEPPED FOR INVASION—As soon as the landing is made men pour from the gliders, and under smoke screen protection, prepare to knock out enemy positions.

Coleman Officials Reject Pay Increase

COLEMAN, July 13—(Spl)—A request for an increase in salary by Louis Crump, county attorney who is serving in a special capacity for the federal government at Houston, was denied by members of the Coleman county commissioner's court Monday.

Crump, receiving a salary of \$2,600 per year, asked the amount to be increased to \$250 per month. His request was presented by his attorney, Judge Charles L. South.

During the previous county administration the salary of the county attorney was reduced from \$3,000 per year to the present \$2,600.

The county's tax rate was set at 43 cents on the \$100 valuation but there's a possibility the taxes in road districts might have to be increased because of a reduction in gasoline taxes over the state.

Evangelistic Services at the Presbyterian Church U. S. A.

You are invited to hear Dr. Samuel Joekel at the Presbyterian Church U. S. A. in an evangelistic meeting from July 25th to August 1st. Services twice daily, 10 a.m. and 9 p.m. Additional announcements next week.

Lions Club Committees For 43-44

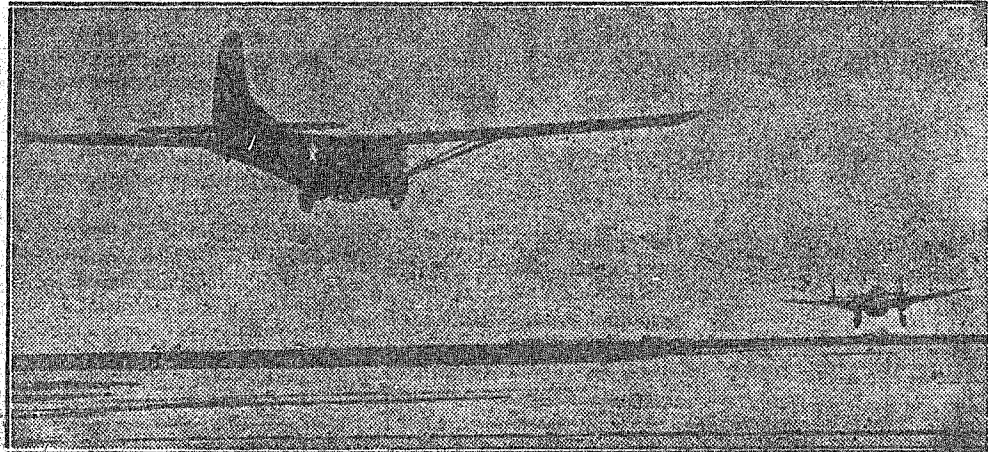

President D. D. Byrne announced the appointment of the following committees for the ensuing year, at the regular weekly luncheon Tuesday:

Attendance, Roy Reid and Rex Golston; Constitution and by-laws, F. C. Woodward; Convention, Rex Golston; Finance, O. L. Cheaney; Lions Education, M. L. Womack; Membership, A. R. Brown and Roy Reid; Program, H. C. Bowman and W. R. Mulroy; Publicity, J. J. Gregg; Sight conservation and blind work, J. W. Riley, Jr.; Boys and Girls work, Neal Oakes; Citizenship and Patriotism, George M. Johnson; Community betterment, J. Ed Bartlett; Civic improvement, W. A. Griffin; Health and Welfare, B. A. Parker; Safety, W. R. Mulroy; and Education, R. B. Thomas, Jr.

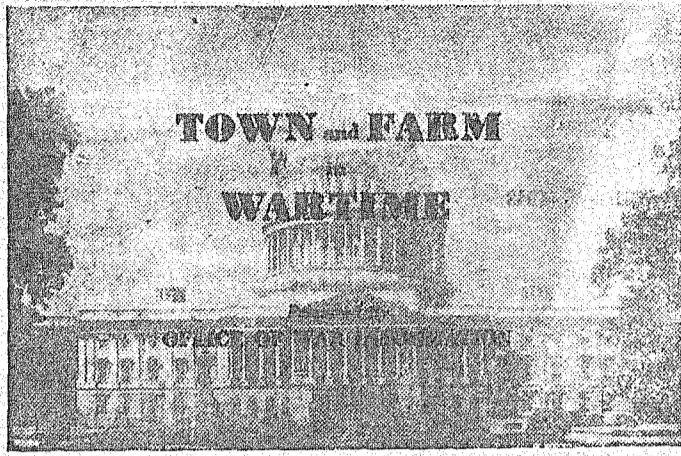

Apparently the Club is off to a good start on the proceedings for the incoming year.

LOCAL CITIZEN HURT AT TEXAS CITY

Word was received here over the week-end of a serious accident that befell Dave Hagar, employee of a defense plant in operation at Texas City, where, in, Mr. Hagar was badly hurt and carried to a hospital for treatment. Further details are lacking.

Released by U. S. War Department
Bureau of Public Relations

NO GAS TO GO TO GARDENS

Special rations of gasoline for travel to Victory gardens were discontinued July 12, although rations already issued for this purpose may be used as long as valid. This action was taken by OPA upon advise of the Department of Agriculture that gardens planted after that date would be too late to produce food to warrant extra use of tires and gasoline in cultivating them.

CO-OPS CAN REPLACE STOCKS

Farmers' cooperatives and any other dealers who sell farm supplies at cost or at a markup of not more than three percent, are permitted to replenish stock on farmers' certificates on a dollar-for-dollar basis, under a recent amendment of Priorities Regulation No. 19. Previously, the dealer could use the farmer's certificate to get supplies only up to 75 percent of his sales. The amendment enables farmers' cooperatives which sell approximately at cost to make full replacement of their stock.

CAN'T SEND RECORDINGS OVERSEAS

Discs or recordings containing personal messages cannot be sent to soldiers stationed outside the continental limits of the U. S. the War Department has announced. There is no objection to sending discs of personal messages within the continental United States.

GROWER PRICES FOR BERRIES

Grower prices for seven types of berries canned or frozen in 1943 have been announced by WFA. Processors will pay growers the following prices (cents per pound): red raspberries, 15; black raspberries, 13; youngberries, boysenberries, loganberries, and blackberries, 12; gooseberries, 8. Ceiling prices for frozen strawberries have been established on the basis of a grower price of 12 cents a pound for stemmed berries. For all berries each processor will pay 3 cents per pound more than the average price he paid under the OPA price regulations for the 1942 pack. The highest price processors may pay red sour pitted cherries is 8½ cents per pound.

AGRICULTURAL JOBS FILLED

During May, the United States Employment Services of the War Manpower Commission filled 1,005,489 jobs in industry and agriculture, an increase of 11.2 percent over April. Of these jobs, 297,725 were in farm work or food processing, an increase of 38.3 over April and 63.6 over May 1942. For January through May, the total placements were 739,044, an increase of 128.4 over the same months in 1942.

RATIONS FOR SICK

Although the need to conserve rationed foods is great, no hospital patient's health need suffer, the OPA has announced. Local rationing boards have given authority to provide supplementary allotments to meet the dietary requirements of patients in hospitals—whether or not such patients are on special diets.

MILEAGE FOR AIR RAID WARDENS

Air raid wardens, while not eligible for "C" ration books, may continue to get "B" books, acc-

ording to OPA Volunteers regularly performing work contributing to the war effort or public welfare who need supplemental mileage should have applications certified by some authorized representative of the agency for which the work is being performed.

FUEL FOR INCUBATORS

Fuel oil for incubators, brooders, and other equipment used in raising poultry, livestock, or other agricultural products can now be obtained regardless of the age of the equipment. OPA has recently removed these items from the list of equipment for which no fuel oil rations were previously allowed.

CASUALTIES OF WAR

Casualties of the United States Armed Forces from the outbreak of the war to July 3 total 91,644. This total, based on War and Navy Department reports, includes: dead, 16,696; wounded, 21,828; missing, 31,579; prisoners of war, 21,541. Of these, Army casualties total 64,621; Navy, 27,923.

TRAFFIC DECREASES IN RURAL AREAS

Traffic on rural roads in the East decreased from December through May to less than half of pre-war normal, according to the Public Roads Administration of the FWA. A minor exception is March when eastern traffic was 52 percent of normal. Traffic in the "western" area rationed since December 1, 1942, has settled down to less than two thirds of pre-war normal.

WINTER COVER CROP SEED

Large supplies of winter cover crop seeds, acquired by the Government in stabilizing prices for the 1942 crop, will be released for planting this summer and fall. AAA will realize about 20 million pounds of Austrian winter pea seed, for sale by the CCC to declare \$5.65 per hundredweight, F. O. B. Oregon points. Cover crops which are soil conservation measures, increases the nitrogen in the soil when plowed under and thereby reduce the amount of fertilizer required and release nitrates needed for munitions.

BANDAGE CLOTH SUPPLY ASSUMED

Adequate supplies of bandage cloth, both for civilian and military use, will be available. Looms making cotton cloth suitable for bandages and other specified uses will continue to do so, by a recent WPB order.

FARM SUPPLIES PRO-RATED

A distributor of farm supplies is now authorized to pro-rate deliveries on the basis of normal shipments in cases where the amount of farm supplies set aside by him does not completely cover all orders he receives. Before this recent amendment to General Preference Order M-330, a distributor was required to fill orders solely on the basis of preferences ratings.

LOCAL POULTRY PRICES

Regional Administrators of the OPA now can adjust local processors prices for dressed poultry. Regional Administrators also have power to change definitions of sellers and types of sales. They are not empowered to change the farmers' selling

prices for live poultry, however, and may not increase the selling price of poultry at retail, or to any ultimate consumer.

ENOUGH FLOOR COVERINGS

Smooth durable linoleum and printed floor coverings are being produced in substantial quantities to meet the greatly increased demand, WPB has reported. Used in new housing projects and in reconditioning old buildings, smooth surface floor coverings save lumber, nails, and labor, and contribute to sanitation.

MANY SHIPS LAUNCHED

The Nation's shipyards delivered 168 cargo vessels totaling 1,676,500 deadweight tons in June the Maritime Commission has announced. This may be compared with the record total of 175 for May and 157 in April. The June figures brought production for the first half of 1943 to 879 ships totaling 8,818,622 deadweight tons in the entire year 1942 the yards produced 746 vessels totaling 8,089,732 deadweight tons.

University of Texas News

Austin, Texas, July—Where does the North begin? At the equator, of course.

That question is answered in a new government film which the University of Texas Visual Instruction Bureau has added to its stock, for circulation to Texas schools, civic and community groups.

Called "Down Where the North Begins," this film tells the story of Ecuador—its geography, history and customs.

Another new motion picture, "Venezuela Moves Ahead," also comes from the same government agency, Office of the Coordinator of Inter-American Affairs.

Austin, Texas, July—More and more Texas communities are falling in line with weekly neighborhood gatherings, at the schoolhouse, for movies, singing and other informal entertainment. Mrs. Charles Joe Moore, director of the University of Texas Visual Instruction Bureau points out.

This summer, particularly, calls on the bureau for motion picture films to be shown to neighborhood audiences are increasing in number, she said.

"We are doing everything we can to help spread this movement, for we think it is a wholesome one that brings the entire family together for entertainment and entertainingly presented education."

The University bureau has more than 1,000 films which are available without charge except for transportation costs.

Austin, Texas, July—Copies of the fall term catalogue for the University of Texas are now available, Registrar E. J. Mathews has announced.

Health Suggestions

Following last week's suggestions for comfortable and safe living during hot summer days, Dr. George W. Cox, State Health Officer, today released a statement concerning the danger of over exposure to the sun.

"Sun Stroke is not thought to be due to the heat of the sun, but to certain direct effects of the sun on the human brain. It is likely to occur after the sun has shone excessively on the back of the head and neck," Dr. Cox explained. "This can be prevented by protecting the head and back of the neck from the sunshine," he added.

Dr. Cox asserted that exposure of the skin to the sun has some virtue since the action of the sunshine tends to kill the germs on the skin. Further, sunshine produces vitamin D from the fats in the skin and this product is absorbed and used by the body.

"In general the good effects of

sunshine are not due to the heat rays but ultraviolet rays," Dr. Cox stated. "It must be remembered, however, that it is these same rays which burn the skin and extensive application of direct sunshine to the skin may produce painful and severe burns which actually may endanger life."

The State Health Officer advises those who wish to obtain an extensive suntan to get it by slow degrees. Expose small portions of the skin to the sun for a short period of time. When tanning is established, exposing a greater area for a longer period of time should prove safe and comfortable.

MAKING SILAGE

COLLEGE STATION, July—

The next 90 days will be the peak silage-making period in Texas. To make good quality silage such feeds as corn, grain sorghums and sweet sorghums should at least be in the stiff dough stage, says E. R. Eudaly, dairyman for the A. and M. College Extension Service. It is better to have the grain getting hard provided the majority of the leaves still are green. When leaves are burned up they contain no vitamin A. Likewise, if the leaves are green and the grain is in the milk stage there is no vitamin A content.

The feed should be packed into the silo so as to exclude excess air. If it is chopped with a cutter the pieces should be in half inch lengths or less and distributed in the silo with pieces of stalk and leaves well mixed. If an ensilage cutter isn't available the trench may be filled by "shingling" in the feed in bundles. This is done by putting down a layer of bundles lengthwise of the trench. The second layer should be lapped half way on the third, the third half way on the second and so on.

Whether chopped silage or bundles are used, the trench

Coleman County Breeder-Feeder Association To Hold Annual Meeting

The Coleman County Breeder-Feeder Association will meet in the City Park at Coleman Friday evening July 23rd., in their annual meeting and election of officers for another year.

The program committee has arranged for a picnic luncheon to precede the business session. Dr. Verrnon Scott will give a lecture with slides on diseases and sanitation of livestock. Music and other events of interest will be on the program.

should be filled one foot above the level of the ground for each four feet of depth in order to prevent the contents from settling below the level of the ground. Covering the trench, first put on a five or six inch layer of dirt and wet it thoroughly. A second layer of equal depth should be placed over this, but should not be wet. Trench silos should be constructed to provide drainage.

Eudaly says that if the leaves of the feed being put into a silo are green and the stalks contain enough sap or juice to run out when twisted, water need not be added. If it is drier than this add enough water to make the silage feel damp when a handful is squeezed.

In filling a trench silo the packing can be done with a tractor or horses.

Congress Takes A Rest

As this is written, Congress is winding up a momentous and often trying wartime session, preparatory to taking a two-month recess.

During the last six months, Congress has ordered vast appropriations—by far the largest in the world's history—for prosecution of the war to a decision. While some of the money probably will be spent unwisely, I have supported every war bill calculated to carry this winner-take-all battle to the enemy, and speed our victory.

If spending more money ends the war one day sooner, thousands of lives may be saved. This Congress has taken steps to economize on the home front. But it must make sure that our fighting forces get what they need on the farflung war fronts.

Our airplane and ship construction program staggers the imagination. For example, one Flying Fortress costs \$250,000—and we're turning out 700 a month now. Yes, it will cost us a lot. But, it will cost the Axis more. And it will save America and the world.

Plans To Visit District

With the recess here, this will be the last News Letter to be sent out until September. I plan to open an office in the Post Office Building in San Angelo about July 20, so I can be of more direct service to the people of the district. My Office in Washington of course also will be kept open.

I intend to visit every county in the district during the summer and will, so far as practicable, make my visits known in advance so those who may want to talk with me about any subject or problem may do so with as little inconvenience to them as possible.

In this connection, let me emphasize that it is always most helpful to have the serial number of the soldier when I am making any inquiry about a boy in the service, his insurance or allotment. The same applies to inquiries about WPB priority applications, etc.

Farmers Bulletins

In this concluding letter, I again would like to remind that during the last three months we have had more than 2,000 requests for Farmers Bulletins, and that among these, about 60 of the senders overlooked signing their names to the orders. If you haven't received a response, please let me know so the request can be complied with.

Unity—Here, Too

Gen. Henri Giraud, commander-in-chief of the French armies in North Africa, is the latest foreign dignitary to visit Washington. While he reportedly is here on a military mission, his visit doubtless has much to do with the future of the differences between him and Gen. Charles DeGaulle, long-time leader of the Fighting French.

We criticize the French freely over their failure to agree on who will be their actual war leader, militarily and politically. I can't help but wonder if the French and other peoples among the United Nations don't question sometimes why we in the U. S. can't maintain a more united home front. Disputes among department heads, disagreements

Santa Anna Surgical Dressings

Four meetings were held last week. A total of 88 1/4 hours were worked and 1176 dressings were made. Attendance has fallen off because of the hot weather and we are asking that you come anyway. You'll find it as cool at the surgical dressing rooms as anywhere and you'll be busy and won't notice the heat. We have ice water supplied now. The boys in Africa and on Guadalcanal are not allowed to stop fighting because of the heat and neither should you stop making dressings.

Those present one or more times from Santa Anna: Mrs. E. D. McDonald, Mrs. Vera Shields, Mrs. Staff. Baxter, Mrs. Ross Kelley, Mrs. L. O. Garrett, Mrs. Mattie Dellinger, Mrs. O. L. Cheaney, Mrs. A. D. Hunter, Mrs. Will Mills, Mrs. Jack Woodward, Mrs. D. P. Wheatley, Mrs. W. E. Vanderford, Mrs. A. L. Oder, Mrs. E. G. Warren, Mrs. Frank Crum, Mrs. Chap Eeds, Mrs. Harry Caton and Mrs. Earl Hardy.

The Leady Club present on Thursday will meet again Thursday, July 22, Mrs. Virgil Newman, Mrs. John Brown, and Mrs. Ernest England.

The Mayo Club present on Thursday the 8th will meet again Thursday, July 22nd. Those present were Mrs. Tom Mills, Mrs. Jim Daniels, Mrs. Wm. M. Wheat and Miss Mary Mills.

Other clubs or organizations are urged to meet at the surgical dressing rooms.

County Wide Breeder Feeder Meeting Scheduled for July 23

Plans are being made for the annual meeting of the Coleman County Breeder Feeder Association, Friday July 23rd at the city park at 7:00 p.m.

The program committee composed of D. D. Steele, chairman, T. J. Allen, Bob Horne, W. E. Selman, E. W. Scott, and Raymond McElrath.

The proposed program will include outstanding speakers including prominent livestock men as well as Specialist in Veterinary Science. Moving pictures for the occasion will be under the direction of E. W. Scott, Vocational Agriculture teacher.

Election of officers will be held at this meeting. A large number of visitors are being invited from the surrounding counties.

Coleman Delegates To Attend Farmers Short Course at Abilene July 20-21

A large number of men and women, boys and girls are expected to attend the Victory Short Course at Hardin-Simmons University at Abilene July 20-21. A very interesting and helpful program is being planned which deals with the war time needs of the farmers and ranchmen. The morning program will be devoted to general discussions and in the afternoon demonstrations will be given by A. and M. Specialists. Those who are expected to be on

over mine and factory wages and inflation problems, and differences over post-war planning and co-operation—all these injure our unity, and keep us from producing and accomplishing the maximum.

We need more plain common sense—and less ill-timed promotion of Utopian fancies—in the regulation of private business and livelihood, where such is undertaken by the government. It is to be hoped that the force of public opinion will help bring more acceptable and more effective procedures into being. But in the meantime, and as the war goes on, we must be willing to compromise our personal interests insofar as possible when our nation's existence itself is imperiled.

That's what we're telling the French to do.

Points Out Location Where United Nations Prisoners Are Held In Italian Prison Camps

This pretty little Washington Miss is being shown on a map of Italy, locations of Italian prison camps where United Nations prisoners of war are held. The Red Cross volunteer also shows the Washington Miss the contents of the standard American Red Cross prisoners of war food parcel, which the International Red Cross forwards in sufficient numbers to make possible weekly distribution to each American military prisoner. (American Red Cross for the Office of War Information)

the program include E. M. Regenbrecht, Swint Specialist, George McCarthey, and Dr. W. A. Beney poultry specialists, J. F. Rosborough, fruit and vegetable production Miss Winifred Jenes, food conservation. Others from the Extension Service include Miss Bess Edwards, Assistant State Home Demonstration Agent, Miss Maurin Hearn, Dist. Agent and Parker D. Hanna, District Agent.

In addition to the above others who are expected on the program include Joe C. Humphrey, State Representative, Abilene, Texas; Mr. B. W. Riddle, County Agricultural Victory Council; Mrs. L. A. Croone, Chairman Co. Home Demonstration Council, Dr. Truett Watson, Business Manager Hardin-Simmons Un-

iversity, Mr. John Womber, Mgr. Abilene Chamber of Commerce. Anyone planning to attend this Short Course is requested to notify the Extension office either D. D. Steele, County Agent or Miss Jewell Hipp, County Home Demonstration Agent who expect to attend the Short Course.

PARALYSIS CASES SEEN INCREASING

AUSTIN, July 13 (AP)—The State Health department today announced 90 new cases of infantile paralysis (poliomyelitis) were reported for the week ending July 10, an increase of 10 over the previous week which officials said was not alarming.

The latest cases brought to 346 the total number reported to the state department for 1943.

Totals for the week ending July 10, by counties:

Bowie 2, Dallas 10, Eastland 3, El Paso 1, Freestone 3, Galveston 3, Gonzales 1, Gregg 5, Hamilton 2, Harris 11, Hill 1, Hunt 2, Jefferson 8, Johnson 2, Lamar 10, Lampasas 1, Limestone 1, Live Oak 1, Lubbock 1, McLennan 4, Mills 1, Tarrant 8, Wharton 1, Wichita 5, Wise 3.

INDEPENDENCE, Kan., July 31 (AP)—Bonnie Ruth Slauson, 21, "Miss Texas" at the Dallas state fair in 1940, a graduate of Baylor who was teaching art in Corsicana, Tex., schools, died today of infantile paralysis.

She was here from Corsicana with her mother and young brother for a visit to her father.

DALLAS, Tex., July 13 (AP)—State health officers from Texas and Oklahoma and Army officials will confer here on methods whereby the Army may help civilian health authorities combat infantile paralysis in the five-state area of the eight service command.

4-H Club Members To Assist In Cotton Insect Test Survey

The services of the 4-H Club Boys throughout the county are being enlisted to help farmers in the cotton growing areas in making a survey to determine the presence of cotton insect pests. The following boys have been selected as group leaders and are making insect nets for conducting the survey.

They are: Leonard King, Silver Valley; Howard Lee Lovelady, Rockwood; Leo Feeler, Voss; Charles Blackwell, Whon; Del Rae Stacy, Trickham; Wallace Crenshaw, Valera; Charles Miller, Brown Ranch; David Watson, Loss Creek; Charles Rae, Gouldbusk; James R. Boardman, Santa Anna; Boyd Stewardson, Shield; Allan Dyer, Crossroads; Walter Stewart, Bowen; and Marilyn Hagler, Coleman.

Cotton flea hoppers and boll weevil are appearing in large numbers in some sections of the county.

Farmers are urged to keep a constant check for these pests and apply the necessary poison before the infestation becomes severe.

17 DIE, 51 HURT IN FLORIDA BLAST

ELGIN FIELD, Fla., July 13. (AP)—Seventeen men were killed and 51 persons injured in an accidental explosion yesterday, the Army Air Field public relations officer announced today.

Two officers and 15 enlisted men were killed. A mortuary at Pensacola, Fla., said the enlisted men were negroes.

The public relations office declined to amplify its announcement.

GEORGE A. BUTLER

Houston, July 13.—The United War Chest of Texas has completed plans for the first state-wide unified war appeals drive ever conducted in Texas. George A. Butler, Houston attorney heading the organization, announced this week.

Plans to raise approximately \$5,000,000 as the share of Texas in the National War Fund are now being worked out following the perfecting of the state organization in Dallas, July 7. At the Dallas meeting Butler was named president and campaign chairman of the State War Chest. Gov. Stevenson was named honorary chairman. Other officers include Roy Farrar, Houston banker, treasurer, and Wayland D. Townner, formerly of the San Antonio Community Chest, secretary and general manager. Twenty-one vice presidents representing every section of Texas are to be named by the board of directors.

"Each community and each Texas county will determine its own role in the National War Fund program," Butler announced. "In every instance, the campaign will be carried out by the local leadership," he said. "The program is one of aid to our own boys on all the fronts of war, to our allies in every corner of the globe, and to the home front."

President Roosevelt's War Relief Control Board approved the following agencies for participation in the National War Fund which plans to raise \$125,000,000 in its national campaign this fall: The USO (United Services Organizations), United Seaman's Services, War Prisoners Aid, Belgian War Relief Society, British War Relief Society, French Relief Fund, Greek War Relief Association, Norwegian Relief, Polish War Relief, Queen Wilhelmina Fund, Russian War Relief, United China Relief, United Czechoslovak Relief Fund, United Yugoslav Relief Fund, Refugee Trustees and the United States Committee for the Care of European Children.

Italians Asked For It General Montgomery Says

LONDON, Wednesday, July 14. (AP)—Gen. Sir Bernard L. Montgomery told his British Eighth Army troops before they invaded Sicily "The time has come to carry the war into Italy and into the Continent of Europe—They (the Italians) asked for it and now they will get it."

In the message released today by the ministry of information, Gen. Montgomery declared: "The Italian overseas empire has been exterminated."

Farley Lunches With Garner At Home In Uvalde

UVALDE, July 13. (AP)—Jim Farley had lunch today with John Nance Garner at the former Vice-President's home.

Farley said he and Garner spent two hours talking "generalities." Neither would comment further.

BERLIN SAYS U. S. TAKES ROVIANA ISLE

NEW YORK, July 13 (AP)—A Berlin broadcast quoting a Japanese communique said tonight that American forces have occupied the island of Roviana and were bombed by Japanese planes.

The broadcast, recorded by NBC, said the island gave the American footing on two sides of the Kula Gulf.

The occupation of the island has not been confirmed by Allied headquarters. A Japanese communique on July 9 also said the Allies were attacking on Roviana a densely-wooded island off the New Georgia coast, a short distance from Munda Point.

Elliott Roosevelt's Fliers Photographed Sicily For Invasion

An Allied Force Command Post, July 13. (AP)—Allied troops invading Sicily carried new maps of the island, made from aerial photographs during the last three months by fliers commanded by Col. Elliott Roosevelt's North African Photo Reconnaissance Wing.

The fliers had photographed the island from one end to the other, completing the job after the fall of Tunis. Part of the time they used captured German photographic supplies and equipment.

SELECTIVE SERVICE NEWS

Final decision by the War Department on whether fathers must be drafted in large numbers this fall for the armed forces may depend upon how many women volunteer their services in the Women's Army Auxiliary Col. Claude K. Rhinehart, North Texas Army recruiting officer at Dallas, declared today.

"The Selective Service System has reached a point where the wholesale drafting of fathers is an imminent prospect," Colonel Rhinehart said. "But it can be avoided, if the unencumbered women of the nation respond whole-heartedly to the call for volunteers in the WAAC."

"Now that the bill taking the WAAC into the Army and changing its name to the Women's Army Corps has become a law, effective Sept. 30, there is no limit on the number of women that can join. Every woman who does join, and takes over the duties of a soldier, means just one less father that will have to be drafted."

"Women who have no young children of their own should be proud to offer their services to their county in order that some father may remain with his family—and of course, the WAAC won't accept a woman if she does have any children under 14 years old."

"Also there are many Army jobs that women actually have demonstrated they can perform with greater efficiency than men. In many cases, too, women can be trained much more quickly than men for an Army job with which they are unfamiliar."

"There's another thing to consider, too. Many men deferred from the draft are engaged in war plant jobs which cannot be done by women. It would be a waste to take such men and put them into the Army to do a job there that women could do as well or better."

"We are fighting a total war, in which every individual must do his part. Division of jobs should be such that those who can leave present homes and employment with least dislocation do so, without regard to whether they be men or women."

Program Completed for County Wide Breeder-Feeder Meeting

Dr. Verne Scott, Veterinarian, will give an illustrated talk on the diseases and sanitation of livestock. Outstanding livestock men from many parts of the country have been invited to be

HELICOPTER TO GO INTO QUANTITY PRODUCTION

This Sikorsky type of helicopter, which will be built in quantity for the Army Air Forces by Nash-Kelvinator Corporation, peacetime manufacturer of automobiles and refrigerators, can alight on land, water, snow, thin ice, a rooftop or a parking lot. The craft can hover motionless in mid-air; descend and ascend vertically without forward motion and fly backward, sideways or forward with equal facility.

present. Tom Patterson, secy of the Texas Hereford Association is expected to be present and have a part on the program. Musicians from Shields under the leadership of R. A. Milligan will furnish musical numbers for the program.

Election of officers and directors for the coming year will be held at this time.

The program committee consists of D. D. Stele, chairman; T.

J. Allen, Robert Horn, W. E. Selman, Raymond McElrath and E. W. Scott.

Arrangement committee consists of: Mrs. Raymond McElrath, Mrs. J. W. Vance, Mrs. D. D. Steele, Mr. Ray Jameson and Mr. Jim Dibrell. The arrangement committee has planned an old fashioned picnic and asks that all members bring a picnic lunch.

SANTA ANNA CHAMBER OF COMMERCE

Rockwood News

(Mrs. Ray Caldwell)

The Baptist meeting will be in progress by the time this goes to press. Bro. Riddell of Brownwood will do the preaching and his choir director will direct the singing. Come on friends and neighbors lets have an old time revival.

Mrs. N. J. Buttry is in Marlin for treatment this week.

Mrs. Lee McMillan is visiting with her daughter, Mrs. Crutcher of Burkett.

Mmes. Claude Box, Johnnie Steward, Carl Buttry and Ray Caldwell attended the singing at Gouldbusk Sunday afternoon.

Mrs. Edd Starnes and children of Trickham spent Saturday night and Sunday with her parents, Mr. and Mrs. Carroll Lovelady.

Russell Rhem and daughter, Joanna of Freeport visited with relatives over the week-end.

Miss Joan McCreary of Talpa is spending the week-end with Miss Billie Wise.

Sgt. Donal Williams of Victoria is at home on a furlough with his parents, Dr. and Mrs. W. G. Williams.

2c Seaman John Will Bryan is here visiting with his parents, Mr. and Mrs. Josh Bryan.

Mrs. Raymond Rhem and children have returned home from a most enjoyable visit with relatives at Lamesa and Big Spring.

Miss Frances Arnold is at the Sealy Hospital feeling better following an appendectomy.

Bro. Harrell is visiting his wife and daughter at Waco.

Mr. and Mrs. Hubert McIlvain of Fort Worth, John McIlvain, Jr. of San Antonio and Mrs. Minnie Bann and children of Cisco have been visiting their parents, Mr. and Mrs. John McIlvain.

Miss Oleta McIlvain and Mrs. Billie Black of Fort Worth spent the week-end here.

Mr. and Mrs. Bob Johnson and family, Mr. and Mrs. Clifton Straughan and sons, Mrs. Carl Buttry and Elton, Kate Marie Porter of Sweetwater, Mr. and Mrs. Earl Cozart of Whon, Miss Alpha Mae Johnson of Coleman, Mr. and Mrs. Clovia Tyson and children of Eldorado all enjoyed a fish fry on the river Monday night. The boys really made a good catch. They caught three good ones their weight being 46, 26, and 8 lbs. They fished at Parks Mountain on the Colorado.

Mrs. Lessie Cansy and son, Mr. and Mrs. Oral McGill and son, Billy of Houston are visiting with Dr. and Mrs. W. G. Williams.

Mr. and Mrs. Eugene Richardson and baby spent Saturday night with Mrs. Richardson's parents, Dr. and Mrs. W. G. Williams and Sunday with her brother, Blake and family.

Cleveland News

Looks as though we might get some rain. A good rain would be appreciated as there are so many in this community having to haul water.

Those attending the Scott and Hale reunion at Ballinger Saturday and Sunday were Mr. and Mrs. Joe Phillips and family, Mr. and Mrs. Andy Anderson and Mr. and Mrs. M. F. Blanton and daughters, Gladys Myrtle and Oneta Ann.

Mr. and Mrs. Carl Mathews and Mr. Claude Phillips visited Mr. and Mrs. Armour Vardeman at Albany, Texas Sunday. Mrs. Claude Phillips who has been visiting Mr. and Mrs. Vardeman the past two weeks returned home with them.

Mrs. Frances Irving is visiting Mrs. John Geer this week.

Mr. Harold Cupps and Darrel Phillips went to Fort Worth Thursday. They have employment at Consolidated Aircraft.

Mrs. John Perry and sons, James Wallace and Robert Ray visited Mrs. Hugh Phillips

Wednesday.

Miss Novella Geer visited relatives at Bangs several days last week.

A ten days meeting began at the Cleveland Church of Christ Friday night. Bro. Marshall Davis of New Mexico doing the preaching. Everyone is invited to attend.

Mr. and Mrs. Glen McClure and son visited Mr. and Mrs. Vernon Herring Sunday.

Hugh Phillips, Jr., visited Patsy Moore Thursday afternoon. Sgt. and Mrs. Evan Anderson returned to Camp Bowie, Brownwood Sunday night after spending a 10 day furlough visiting Mrs. Anderson's parents, Mr. and Mrs. Manley Blanton and other relatives in Santa Anna.

Watts Creek

Bro. C. L. Carroll of Richland Springs filled his regular appointment here Sunday. The attendance was good and we invite everyone back next Sunday.

Mrs. Bud Griffin and children returned to their home in Houston Monday, after spending a few weeks with Mr. and Mrs. Fred Brusenhan.

Mr. and Mrs. J. D. Henderson visited Mr. and Mrs. Loren Seals Sunday.

Mr. and Mrs. Roy West are spending a few days this week in Stamford.

Dinner guests of Mr. and Mrs. Sam McCreary Sunday were Mr. and Mrs. E. E. Woods of Coleman Mr. and Mrs. Edd Gilbert of Santa Anna, Pvt. Willie A. McCreary of Camp Wolters and Mr. and Mrs. Luther McCreary.

Mr. and Mrs. Payne Henderson, Jr. visited relatives in Rising Star Sunday.

Mr. and Mrs. Ray Brusenhan of Brownwood visited in the Fred Brusenhan home Friday.

Several enjoyed the singing in the C. F. Parker home Sunday.

Those visiting Mr. and Mrs. Buck West Sunday were Mr. and Mrs. Benney Woodard of Santa Anna, Mr. and Mrs. Charles Henderson and Jimmie Lynn and Mrs. Lois Henderson and Bob.

Visitors in the H. A. Hagler home Sunday were Mr. and Mrs. W. A. Seals and Mr. and Mrs. Lutian Vaughn.

Mr. and Mrs. Loyd Browning and children of Talpa and Bro. C. L. Carroll of Richland Springs spent Sunday with Mr. and Mrs. Payne Henderson.

Mr. and Mrs. Fred Brusenhan made a business trip to Gorman Monday.

The United States Coast Guard is charged with law enforcement upon the navigable waters of the United States and upon high seas and is frequently referred to as the Nation's maritime police force.

The first commission granted to any officer afloat was that issued by President Washington to Hopley Yeaton of New Hampshire to command "a cutter in the service of the United States of America." The birth of the United States Coast Guard.

The United States Coast Guard was founded in 1790. It is the oldest continuous sea service in our history.

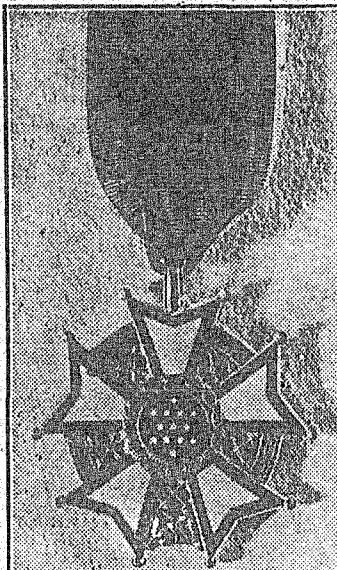

The United States Coast Guard has participated in every war since its founding.

One of the two pilots of the Navy Hydro plane NC-4 that made the first trans-Atlantic flight was a Coast Guard Officer, Lt. Cmdr. E. F. Stone.

The famous motto of the U. S. Coast Guard is "SEMPER PARATUS"—Always Ready.

In war and in peace the U. S. Coast Guard faithfully performs many and varied duties. There is an old maritime saying—"When all other ships come in, the Coast Guard goes out."

War Bonds should mean something more to you than just "a good sound investment." Figure it out yourself.

Released by U. S. War Department Bureau of Public Relations
LEGION OF MERIT—Newest addition to the War Department's list of awards is the Legion of Merit, pictured here. It can be won only by members of the armed forces of the United States and the Philippines who distinguish themselves by exceptionally meritorious conduct in the performance of outstanding services. It is issued in one degree and is rated between the Distinguished Service Medal and the Silver Star.

How to Protect Clothes from Mildew

These days every garment must be made to last as long as possible. You'll want to protect your clothes against mildew which is active in rainy and humid weather. Mildew is a fungus growth which not only leaves unsightly stains and a musty odor, but also weakens fabrics such as cotton, linen, rayon, and wool. There are several first aid and preventative measures which may be taken to protect your clothes.

1. Treat fabrics while mildew spots are fresh—before the growth has a chance to attack the fibers.
2. Fresh stains will usually come out after a simple sudsing with soap and water. If they persist, moisten the spots with salt and lemon juice and place the garment in the sun.
3. Old and stubborn spots are hard to remove without damaging the material. Don't risk a bleach on colored fabrics, but on uncolored materials Javelle water, sodium perborate, or a weak solution of oxalic acid often chases spots.
4. Sodium perborate is one of the safest bleaches for all types of material.
5. Don't use Javelle water on wool or silk.
6. If you use oxalic acid for bleaching, be sure to label it "poison."
7. To prevent mildew keep fabrics dry and well aired.
8. An open jar of calcium chloride will absorb moisture in the closet but must be renewed from time to time.
9. Heat from an electric lamp kept burning in a closet will sometimes dry the air enough to stop mold growth. An electric fan to increase air motion is an additional aid.
10. Shower curtains of duck or canvas are particularly susceptible to mildew attack. Don't leave them bunched together or sticking to the walls. Frequent washings with soap and water help to ward off fungus growth.

Notice from the publishers of the Fort Worth Star-Telegram states: Until further notice, we will be unable to accept new mail subscriptions, (renewals can be made). News dealers cannot increase their orders. This is effective at once, being necessary in order to meet the news print shortage.

Right is the opposite of wrong and wrong consists in inflicting injuries on other people.—Brif-fault.

Sales of Texas independent retail stores this year are 25 per cent above 1942, on the basis of records for the first five months of each year, the University of Texas Bureau of Business Research reports.

Out-patient clinics at the University of Texas Medical Branch at Galveston handled 2,527 charity cases from all parts of the state outside Galveston, between September 1, 1942, and March 1, 1943.

The University of Texas cotton research laboratory is making test of the maturity of cotton samples for the U. S. Army's Quartermaster Corps. Despite gas rationing, sales of

Texas filling stations during May were up 26 per cent over May a year ago, the University of Texas Bureau of Business Research reports.

Thirty-one new student nurses started training recently at the University of Texas College of Nursing in Galveston. Another new class will open October 15 to help meet the demand for trained nurses for work at the war fronts and on the home front.

This is a family war. Put your War Bond buying through the payroll savings plan on a family plan, which means figure it out yourself.

Improved Uniform International SUNDAY SCHOOL LESSON

By HAROLD L. LUNDQUIST, D. D. Of The Moody Bible Institute of Chicago. (Released by Western Newspaper Union.)

Lesson for July 18

Lesson subjects and Scripture texts selected and copyrighted by International Council of Religious Education, used by permission.

GOD ENCOURAGES MOSES

LESSON TEXT—Exodus 3:13-16; 4:10-17.
GOLDEN TEXT—Certainly I will be with thee.—Exodus 3:12.

Encouragement is something much needed, and not too often given. The word means to put some new thing into the heart of another, that is, to hearten and assure him, especially in the bearing of a heavy responsibility.

Moses, in all probability the world's greatest military and national leader, was about to lead his people out from under the mighty hand of Pharaoh. His final preparation for that epochal deed and all the years to follow was a personal meeting with God.

Possibly it was the mistake Moses had made and which caused him to be sent into the back of the desert, that now caused him to move with—

I. Understandable Caution (Exod. 3:13).

There is something remarkably fine about real humility. It commends itself to our thinking as the proper attitude of a mortal being, particularly in the face of spiritual responsibility.

Neither God nor man dares entrust a high and difficult mission to foolish man who brusquely "rushes in where angels fear to tread." The fact that one feels fully and unhesitatingly qualified to take over such a responsibility is almost a certain indication that he is not the man to assume it.

Moses' request for God's backing must have been acceptable to Him, for He gave Moses—

II. Unlimited Authority (3:14-16).

Moses went as God's messenger. He was authorized to put all the majesty and power of the Infinite One behind his words and acts.

The ambassador must have credentials. God's representative has them. When "they shall say"—what an important and difficult situation that creates. The one who speaks for God must expect not only the scornful bitterness of God's enemies, but also the unbelieving questions of those whom he seeks to serve.

"What shall I say?" asks Moses, and God answers that he may say that "I AM" had sent him. This name of God reveals Him as the eternal, independent, self-sufficient, self-existent, immutable, personal Being. Consider, Christian brethren, whose we are and whom we serve.

But Moses seems to have been unable to see beyond his own human infirmity even in the light of such a glorious revelation, supplemented as it was by miraculous powers, and we find him showing an—

III. Unjustified Humility (4:10-13).

Perhaps we should not call this humility at all, for in one so divinely called and encouraged it was an act of unbelief and almost impertinence.

When God calls a man He knows his limitations. Why then should one plead them as an excuse for not serving? The excuse of Moses that he was not a fluent speaker has been the standby of unwilling workers all through the ages. When asked to lead a prayer meeting, teach a Sunday school class, conduct a young people's meeting, thousands upon thousands have lamely thus excused themselves and missed a blessing.

The perfect answer of God (v. 11) merits attention. God made your mouth and mine. He gives us the power of speech. He asks not the eloquence of polished rhetorical phrases, or the flights of man's imagination. He wants but the incomparable eloquence of His own words on our lips.

No man should think too highly of himself, but let him beware lest he think too lowly about God. We are not sufficient for the opportunity. But God is more than sufficient.

Having called Moses, God saw to it that Moses went on with His work, even though now He had to call in Moses' older brother to help him. It was, in fact, an—

First Congress In Ten Years To Seriously Challenge The President, Recesses For Two Months Vacation

WASHINGTON, July 9—(UP)—Congress went home mad today. It is the first Congressional vacation since Germany invaded Poland in September, 1939.

The first Congress in 10 years to seriously challenge President Roosevelt's leadership wound up its first six months with nothing better than a tie on both domestic and international issues.

The "mad" was a carryover from the final test—in which the administration won by a one-vote margin on its insistence that food price subsidies are an essential part of the price and wage stabilization program and the fight against runaway inflation.

Senate Withdraws Attempt

The Senate withdrew, by a vote of 34 to 33, its attempt to outlaw the subsidized roll-back of retail butter, meat and coffee prices.

It was anti-climactic a few hours later when both the Senate and House approved with out a record vote the measure to which the anti-subsidy measure had been attached, and then recessed until Sept. 14.

It made the score virtually even, however, on the tug-of-war between the administration and Congress which began Jan. 6 with assembly of the most evenly divided Congress, along political lines, since the advent of the New Deal March 3, 1933.

Notable "draws" were: Enactment of a modified Ruml pay-as-you-go tax plan after the President indicated he would veto outright forgiveness of one year's taxes.

IV. Unnecessary Substitution (4:14-17).

Loving and patient is our God, but, mark it well, there is a boundary line to that patience. Moses went too far in his needless humility, and really reflected on the ability of God. God promptly substituted Aaron as the spokesman.

Gracious was He in thus providing a helper for Moses. But one wonders what Moses missed of blessing and power because of his slowness of heart. To decline the labor and the responsibility of service for God means loss far greater than we may ever know.

God's dealings with Moses speak eloquently to us of His willingness to enable and use a man who lacked some of the gifts for leadership. Let none of us be like Moses and become involved in needless worry about our gifts, and forget God's purpose and enabling power. When God calls, our gifts are not the controlling factor; in fact, they are not a great factor at all. The question then becomes, Is God able? Let us trust and obey Him.

An Unbeatable Warm Weather Combination

IT'S up to you, the homemaker, to liven up the family's leisure time now that war restrictions are keeping them at home. A few refreshments served in an attractive manner can easily turn a Sunday afternoon into a gala occasion, and what's more, your family will be delighted with the little fuss you have made over them. The party spread, photographed above, is really no trouble at all to make. The dainty sandwiches and frosty iced coffee are an unbeatable summer time combination. But be sure to make the coffee a bit stronger than usual to allow for melting ice.

When you serve sandwiches in warm weather, it is a good idea to make them with light spreads such as those shown in the illustration. The following are excellent: cream cheese, green pepper and celery;

watercress and mayonnaise; tomato aspic garnished with olives; chopped parsley and cream cheese; and chopped carrot and lettuce. Don't forget to cut the bread very thin and into varied shapes to make a more attractive sandwich plate. Assorted breads also lend variety.

There is nothing quite so tempting to serve with these sandwiches on a scorching summer day as iced coffee. You will regain your pep and cool off while enjoying its flavorful goodness. And, be sure to get the most out of your coffee by making it fresh each time you serve it. The ultimate in flavor is obtained by pouring freshly made hot coffee into a glass filled with ice. Add sugar and cream to individual taste. Many people prefer to take it plain with nothing added to the delicious coffee flavor.

The Senate farm bloc's shunting to the agriculture committee as a "club in the closet" against higher industrial wages, the President's veto of the Pace and Bankhead bills aimed at increasing farm income.

Subsidy Is FDR Victory

The subsidy victory was the major Presidential victory on the home front. Prior to that, the President had obtained almost unanimous Congressional approval on all matters involving international relations. The reciprocal trade and lend-lease programs were continued almost unanimously. Despite an avowed "economy" pledge, the Congress appropriated approximately \$115,000,000, most of it for war. The Congress used those appropriation measures, however, to strike at the administration of the domestic political and economic front. It cut the requests for the Office of Price Administration and the Office of War Information. It allowed only "liquidation" funds for the National Youth Administration, the federal crop insurance program and the National Resources Planning Board headed by the President's uncle, Frederic A. Delano.

Another "Must" Measure

Another administration "must" measure, increasing the statutory debt limit to \$210,000,000, was used by Congress to repeal the Presidential order setting a \$25,000 ceiling, after taxes, on wages and salaries.

The most clear-cut Congressional victory came when both the Senate and House ran up more than the two-thirds vote necessary to override the President's veto of the anti-strike bill.

On the political front, the President won confirmation with out a fight on his appointment of Tammanyite James E. McNally as U. S. district attorney for the southern district of New York.

Accused Federal Employees To Get Salaries, FD Says

WASHINGTON, July 13 (AP)—President Roosevelt said today he does not consider building a congressional prohibition against payment of salaries to three federal employees accused by a House committee of affiliation with subversive groups.

Once the legislators come back from their recess, the President told his press-radio conference, he will tell them so in a message accusing them of usurping functions of the executive and judicial branches of the government.

New York American-Laborite, to the House Judiciary committee.

The battle between the President and Congress, especially with its possible effects on the 1944 campaign in which most Congressmen expect Mr. Roosevelt to seek a fourth term, dominated almost every measure. It also was reflected in a resolution offered by Sen. Josiah W. Bailey, D., N. C., to amend the constitution to forbid more than two elective terms in the White House for any individual. That resolution still is pending in a Senate committee.

Mesquite Tree Eradication

At this time there is considerable interest being shown in killing Mesquite trees according to D. D. Steele, County Agent.

Kerosene—good results have been obtained with liberal amounts of kerosene applied at the base of the tree near the ground line. It may be applied with an oil can with suitable spout or with sprayer. There is no advantage in applying at the tree trunk more than 6 inches above the ground. A tree 6 in. in diameter requires about a qt. of kerosene for treatment. Enough should be used to penetrate the soil at the base of the tree for the depth of 6 or 8 in. Diesel fuel is just affected as a substitute when available. Sodium Arsenate has been found very effective in killing Mesquites. Unfortunately, however, it is very dangerous to livestock and care must be taken to keep them away from it to avoid losses. It may be applied in deep cuts made around the tree or a freshly cut stump. A stock solution may be made by dissolving

10 pounds of the powder in 6 pts. of boiling water. Liquid sodium arsenate may be made from white arsenate, lye, water as follows: Thoroughly mix, in dry form, two (13 oz.) cans of common lye with 6½ pounds of white arsenic (arsenic trioxide). Place this dry mixture in an iron or steel vessel that will hold at least two gallons and add hot water slowly. Stir with a long wooden paddle. Add the water just fast enough to prevent violent boiling. To the above amounts of dry chemicals a total of 5 pints of water should be added to make stock solution. This solution may be used full strength or diluted as mentioned for commercial liquid sodium arsenate.

The liquid sodium arsenate solution is applied to freshly cut stumps with a paint brush or a swab. It is especially important that all the exposed sapwood be treated with the sodium arsenate. If sodium arsenate is applied to standing trees in deep frilled girdles, it may be poured from a gallon oil can having long spout, tapered to a cut 3/16" diameter.

The best protection to livestock is to fence them away from the area that is being treated until after heavy rains have washed off any poison left on the stump or vegetation on the ground, into the soil or into the streams where it is diluted to a harmless degree. Small puddles of water with sodium arsenate in them are a hazard.

CAUTION—Avoid breathing either the white arsenic powder or the fumes from the boiling solution. Wear gloves and keep the material off the body elsewhere. The kerosene treatment is rather expensive and the sodium arsenate treatment is rather dangerous, hence, cheaper and less dangerous chemicals are being sought. It is thought that there is a possibility of affecting poisoning by cutting off the trees and letting them sprout, and then spraying the sprouts with a weed killer. Some of the commercial weed killing chemicals are not so hazardous to livestock as is sodium arsenate.

Progress On The Home Front

COLLEGE STATION, July.—Rural women who are fighting the Axis with war bonds, pressure cookers, and sharp hoes will report their progress at a war-time convention of the Texas Home Demonstration Association scheduled in Dallas August 17-19. "The Battle on the Home Front" will be the theme of their meeting.

Plans for the convention were made at a recent session of the executive committee held in Dallas. Executive members predict that approximately 300 delegates of the Association's 48,000 will come to share their ideas, despite the pressure of work on the farm and in the farm home.

Mrs. W. G. Kennedy of Hamilton County, the Association president, has announced that the convention will be streamlined in accordance with war demands—no banquets or elaborate entertainments. Speakers will be drawn largely from the Association's membership, and one feature of the program will be a pageant portraying the Association's activities during the last year. Episodes will be presented by the 4-H, marketing, education and recreation committees under the direction of Mrs. Leon Sullivan of Ellis County, vice president at large.

An election to determine the Association's officers for the next two years also is scheduled, according to Helen H. Swift, sociologist for the A. and M. College Extension Service, who serves as an adviser to the organization.

This is the Association's first convention to be held in Dallas. Mrs. John Peavy, chairman of the Dallas County Home Demonstration Council, is serving as chairman of local arrangements.

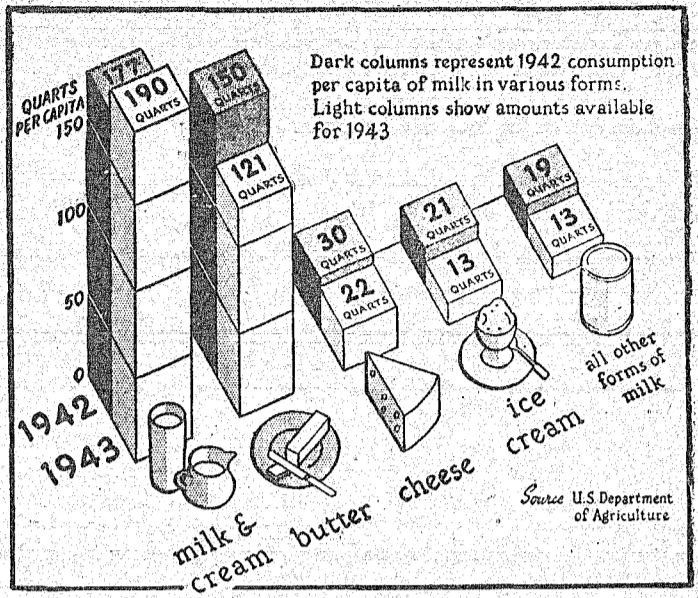

"Victory Pair" Nominated

COLLEGE STATION, July.—An elderly Hopkins County couple, Mr. and Mrs. O. P. Kent of Brinker, are deserving the title "Victory Pair" in recognition of their contribution to the war, believes Tressie N. Youngblood, their county home demonstration agent.

"Having made a great sacrifice, graciously by sending a son to the Army and a daughter into a vital war industry," the Kents have turned their attention to increased production of food, she says. They have had to achieve their goals without any extra help and have an amazing record for a couple advanced in years.

The Kents feed 10 milk cows which bring them a monthly income of \$132. Their poultry flock consist of 70 layers and 70 young chickens, and sales of poultry products bring in about \$9 a week. Although a large portion of the feed for poultry and livestock is raised on the Kents' small farm, their monthly feed bill runs about \$30. They have 5 acres of grain sorghum, 16 acres

DAIRY FOODS HAVE GONE TO WAR

To provide for the nutritional needs of the nation's fighting forces and for lend lease, civilians must get along with less dairy products in 1943 amounting to the equivalent of 39 quarts of milk. Last year the average person consumed 397 quarts of milk as milk or milk products. This was more than in any previous year. For 1943 there are only 358 quarts of milk available per person.

There have also been important shifts in the way in which milk is consumed. Last year the average person consumed the equivalent of 177 quarts of milk as milk and cream. This year there will be 190 quarts per person available in that form.

But in every other case the amount of dairy products available has declined. Last year 150 quarts of milk went into the making of the

16 pounds of butter the average American ate. This year we can only have 12.8 pounds of butter coming from 121 quarts of milk. Last year the average person consumed the cheese from 30 quarts of milk, the ice cream from 21 quarts of milk and condensed and dry milk from 19 quarts. This year there are only 22 quarts available for cheese for the average person; 13 quarts for ice cream and 13 quarts for milk in other forms.

Even though production is higher than last year all of the balance of the product is being used for the armed forces and for lend lease. Because of the exceptional nutritional and protective qualities of dairy products soldiers are given approximately twice as much of them as are available for the average civilian, points out the National Dairy Council.

of corn and peas, and one acre of peanuts.

The family's one and one-half acre garden includes large plots of tomatoes and white potatoes. Earlier in the spring the Kents canned 55 No. 2 cans of spinach from their garden. They also had 50 containers of food left from their 1942 canning. Mr. and Mrs. Kent have met the meat shortage by canning 13 pints of home raised turkey and by feeding two hogs to slaughter in the fall.

Mrs. Kent also finds time to assist her fellow home demonstration club women in the Brinker school lunch and canning program.

Disappointments are inevitable if you have ambition or hope.

Maybe, we ought to let a committee of Senators run the entire war.

There are Americans who doubt our ability to take care of ourselves in international affairs.

Rommel Reported Shot Down While On Way To Sicily

LONDON, Wednesday, July 14. (AP)—The Reuters correspondent in Stockholm quoted a German underground radio station today as reporting that Nazi Field Marshal Rommel was shot down by Allied fighter pilots on his way to Sicily Tuesday.

The Reuters correspondent said the report was circulated by the radio station "Atlantic."

Rommel was said to have been traveling in a transport plane under a strong fighter escort en route to Sicily to take over command there.

Griffin Hatchery

Santa Anna, Texas

Personals

A baby girl was born to Mr. and Mrs. Myron G. Myrick in the Sealy Hospital last Thursday afternoon. Mother and babe are reported doing nicely. Mr. Myrick is an instructor in the Army Air Corps and is now stationed in Utah. Mrs. Myrick is the daughter of Rev. and Mrs. S. R. Smith.

Mr. and Mrs. W. A. Hall have the pleasure of having all their children at home with them this week. They are Mrs. Claude Boone and son, Harry of Muskogee, Okla., Mrs. Glover McMillion of Wichita Falls, Mrs. J. E. Kirkpatrick and Angela of Amarillo and S/Sgt. Winston Hall, who is in the Army Air Corps, stationed at Lincoln, Neb. Winston will return to his post next week. Mr. McMillion spent last week-end in the Hall home.

Mrs. Leon Morgan and daughter, Nancy and Mrs. Hallie Bissett are visiting with relatives and friends in Brownfield, Tex.

Mrs. J. J. Bender of Houston, visited with her aunt, Miss Luella Chambers and her uncle and aunt, Mr. and Mrs. B. T. Vinson several days last week.

D. W. Nickens, local agent for the Santa Fe Railway company is in the Santa Fe Hospital at Temple, Texas for a check-up and recuperation in health.

W. H. Thate of Comanche, former Santa Anna citizen and operator of the local Piggly Wiggly store, was a visitor here Tuesday, and a luncheon guest of the Santa Anna Lions Club.

Mrs. Charles Trowbridge of Floydada, is visiting with her daughter, Mrs. John Will Vance and family in the Shield community.

Mrs. J. B. Jones and children of Ingleside are spending a few days with the editor and Mrs. Gregg. It is somewhat odd to have grandchildren around the home, but it also has a pleasant relation to see and hear them, we mean, except at times. Anyway, we're glad to have them and trust they all manage to keep well while on their visit here.

Miss Ernestine Pye returned to Fort Worth Tuesday after a brief visit with homefolks here.

Mr. and Mrs. R. E. Hewlett and children, recently of Ingleside, moved to Santa Anna this week to make their home.

Mr. and Mrs. Clyde Bartlett and sons of Merkel spent Sunday with Mr. and Mrs. Ed Bartlett. Their niece, Rita Grace Albright of Baton Rouge, La., who came with them, remained for a longer visit in the home of her grandparents.

Maj. and Mrs. Ross Mitchell and son, Don, were recent visitors in the home of Mrs. Mitchell's mother, Mrs. Fred Turner. They were enroute to Fort Belvoir, Va., from Pecos, where Maj. Mitchell was in the engineering corps. Also a guest in Mrs. Turner's home has been another daughter, Mrs. G. R. Goodloe. She has gone to Fort Branning Air Field, Neb., to join her husband, Pvt. Goodloe.

Mrs. Oran Henderson, after spending several days with her parents, Mr. and Mrs. Hardy Blue, has returned home.

Mrs. Loyed R. Simmons and little daughter Betsy, went to Dallas last week for a few days visit with relatives after spending several days here with the editor and Mrs. Gregg. They will join the husband and father in Fort Worth Friday of this week and start on their return trip to McLeansboro, Ill.

Mrs. Odell Collins of Amarillo is visiting her parents Judge and Mrs. Leman Brown.

Miss Mary Mills left Monday night for several days visit with her sister, Miss Wilma, who is attending school at Sul Ross, Alpine.

Mrs. Roy Reid is visiting in Mill Creek, Okla., this week.

Shower Honors Recent Bride

Mrs. Tom Bryan and daughter, Margaret honored Mrs. Billie Black, the former Miss Janie Stafford, with a gift shower Sunday afternoon at their home near Rockwood.

A green and pink color scheme was carried out with sweet peas, ferns and blooming willows. Mrs. Herman Estes was at the brides book.

The gifts were presented by Misses Oleta McIlvain and Margaret Bryan.

Punch and cake, with a corsage of sweet peas, and fern tied with pink ribbon as plate favors, was served to Mmes Howard Lovelady Lucy Shamblin, Herman Estes, K. G. Gore, Laurence Brusenhan, Josh Bryan, William Estes, J. P. Hodges, Sr., Aubrey McSwain, Sam McIlvain, Roy Stafford, John McIlvain, Marcus Johnson, Denby Wise, Frank McCreary, Sr., Hilton Wise, J. P. Hodges, Jr., Misses Oleta McIlvain, Alpha Mae Johnson, Ina Johnson, Fay Tisdell, Sue McCreary, Greta Underwood and Mrs. Dick Black and little daughter Dixie of Brownwood. Those sending gifts were Mmes. Emmett Woods, J. C. Ferguson, Miss Sammie McIlvain and Nealy Crutcher.

Shield Red Cross News

Red Cross surgical dressing workers at Shield have an enrollment of fifty volunteers, having completed 505 hours, making 7443, 2x2 sponges.

Starting Thursday, July 15, 4x4 surgical sponges will be made. Work room will be open each Thursday from 2:00 until 6:00 o'clock.

Last week workers included Mmes: C. F. Blanton, Ola Shelton, G. C. Cobb, B. B. Fowler, J. R. Gray, A. B. Carroll, Edgar Shelton, W. B. Watson, Darwin Watson, C. E. Evans, Aubrey Scarborough, Stella Rhodes, J. W. Dillingham, Jack Dillingham, E. S. Jones, Clyde Vercher, Herman Gilbreath, Lee Tatum, J. M. Stewardson and Misses Loyce Richardson, Joyce Richardson, Bettye Blanton, Edith Richardson and Mary Ola Milligan.

Baptist W. M. U. Meets With Mrs. Pearce Monday

The Baptist W. M. U. enjoyed an all-day meeting in the home of their teacher, Mrs. John R. Pearce, Monday, July 12, for their Monthly Bible Study. Nine members and one visitor attended.

Santa Anna Garden Club Elects Officers

Officers for the coming year were elected at the meeting of the Garden Club Friday morning on the lawn of Miss Kathrine Baxter's home.

Members answered roll call with topics of timely interest. Mrs. Frank Crum, president, read the constitution and by-laws of the club. Mrs. J. R. Gipson gave a talk on birds as friends to gardens.

Newly-elected officers to be installed this fall, are Mrs. Gipson, president; Mrs. A. R. Brown, vice president; Mrs. Maggie Culver, secretary-treasurer; and librarian, Mrs. R. C. Gay.

Cookies and punch were served to those mentioned and Mmes. Preston Bailey, A. L. Oder, Clinton Lowe, J. R. Banister, and Sam H. Collier, members; and Mrs. Gardner and Sue Ann, guests.

I trust in God,—the right shall be the right. And other than the wrong, while He endures. —Robert Browning.

Wins TSCW Award

Miss Frances Wall, Port Arthur, has received the Pauline Bishop Leman trophy at Texas State College for Women, Denton, for her musical achievements. The award goes yearly to the senior who has made the greatest artistic contribution to the college.

LEEDY RED CROSS

The Leedy Red Cross Circle will roll bandages Thursday, July 22. All ladies in the community are invited to attend.

Mrs. Virgil Newman, Pres.
