COMIC STRIP ADVERTISING

In the past there have been a number of salesmen through Santa Anna selling Comic Strip Advertising. Most of the ones that have been sold to merchants have turned out to be bad advertising and have cost the purchaser a lot more money than advertising should. This newspaper subscribes to mat services that make us able to supply almost any kind of copy for our advertisers without extra cost. When one of these comic strip salesmen enters your business and tries to sell you some kind of advertising we would be glad to have you call this office and if he is from one of the few in the country who do what we call legitimate advertising we will be able to tell you. Most of them will try to high-pressure you into taking their mats and may even tell you that when you pay for the mats you are paying for it to be published in this newspaper, but they are wrong. We have no contracts with any mat making companies to publish their advertising for them. An editorial that appeared in the last issue of the TEXAS PRESS MESSENGER reads in part, "Many Texas publishers are having a headache because of comic strip advertising. In some cases the over-eager salesmen leave the impression that the cost of the mats will pay for the space in the newspaper even though there is some fine print deep in the contract that says the advertiser must pay the newspaper for the space used."

Some of the basic faults of these strips are: (1) They are poor comics in the first place. (2) The cost of the strip is often as much as the cost of the space, thereby doubling the advertiser's bill. (3) The strips are often sold to firms to which they are not applicable.

More defects could be pointed out; but on the whole the results have been unsatisfactory to the advertiser and the experience has not been profitable for the publisher. Some Texas publishers are meeting this situation by notifying all advertisers that they will furnish illustrations and copy at no extra charge. And that is just what this paper will and has been doing for a long time.

This editor has been having some very unpleasant relations with a concern of this nature that sold some of this kind of advertising to a customer of ours and when the salesman called on this office he misrepresented himself and his company and then did the same thing to our customer.

We try to keep this kind of individuals from calling on you, but in some instances we have been unable to do so. We believe that all of you know our employees and know that when they call upon you they are representing this newspaper and when someone else calls on you and tries to sell you advertising it is from an out of town concern and the advertising will not do you as much good as if you contact one of us. We would appreciate it if, when this happens to you that you would call this office and we will give you the facts. The one thing you can be sure of is when you advertise in the Santa Anna News that your advertisement goes into 90 per cent of the homes in this trade territory and if the subscriber didn't want to get the paper they would not keep their subscriptions paid up.

Mr. and Mrs. Raymond Rouse and children of Kerrville visited from Friday until Sunday here with their parents, Mr. and Mrs. J. M. Rouse and Mr. and Mrs. D. L. Wallace.

"Citizenship" Discussed At Lions Meeting

Mr. Ray Hedges, manager of the Brownwood Chamber of Commerce, talked to the Lions Club on "Citizenship" at the regular meeting Tuesday. Mr. Hedges said "Make your town better and it will grow bigger. To do this a town must have leadership and cooperation."

The president appointed Geo. Johnson, O. L. Cheaney and Charlie Dendy on a committee for the repairs of the football stadium.

There were 44 members and two guests present beside the speaker. The guests were Mr. Weldon Chambers, the new high school principal and Mr. Arthur O'Neal of Brownwood, who was representing the Brownwood American Legion. Mr. O'Neal stated the Brownwood American Legion was sponsoring a turtle race in the Brownwood Open House Day.

The Boy Scouts challenged the Lions Club for a practice game of softball for Thursday afternoon. The game is to be played at the high school field.

Everyone is cordially invited to attend.

CLOSING NOTICE

The Santa Anna National Bank will be closed all day Saturday, August 23 due to the state election on the College Building Amendment. O. L. Cheaney, Cashier.

Mr. and Mrs. Earl Hardy and Reba Jean left Monday on a vacation trip to Carlsbad Caverns and to visit with Mrs. Hardy's relatives at Muleshoe.

Lions Club Coleman Kiwanis Play Friday

The Santa Anna Lions Club and the Coleman Kiwanis Club will meet in a softball game Friday night, August 22 at 8 p. m. the high school athletic field. The net proceeds from this game will go to the repair of the Santa Anna Football Stadium. The Coleman Club challenged the Santa Anna club and said they did not want any of the proceeds. They just wanted to play a ball game.

The Lions Club is going to get the stands at the football field in first class condition before the first ball game if possible. As most of us know, repairs cost a lot of money and the only way to get these needed repairs is through putting on entertainments and charging admission for them. Of course all of us want to back our football team and we want to have a good place to sit while we are rooting for them. The money you spend to see these ball games will all go to the repairs of the seats on the field.

The Lions Club team will be about the same as the one that played the Newman Nine last week and the Coleman team boasts some pretty good players also. So the game should be a lot of fun for the patrons to see.

Monday night, August 25 the Coleman Kiwanis Club will play the Coleman Lions Club in a donkey ball game. The proceeds of this game is to go for the Coleman football boys training camp expenses.

Dove Season Opens Sept. 1

Dove season will open September 1 and continue through October 15, both days inclusive. The bag limit on doves will be the same as it has been before. That is a hunter may get a bag limit of ten birds per day and must not have more than ten in possession. Shotguns must be plugged to three shell capacity and must not be larger than a ten gauge. No hunting will be allowed in game refuges and game preserves.

Dove hunters in this section of the country may find the hunting pretty slim this year. Apparently until about two months ago there was a big plenty of doves, but the dry weather must have caused them to migrate to some other place. In talking the situation over with several of the farmers over different sections of the county, this writer finds there are very few doves around.

There is apparently plenty of small grain left on the ground for the birds to feed on, and maybe if by any chance it would rain here, the doves would return to this section of the country.

Democrat-Voice Sells To Reporter-News Editor

Wendell Bedichek announced Monday of this week that he had purchased the Coleman Democrat-Voice from Sam Braswell, Jr. and that he would assume active management of the 62 year old newspaper on September 1.

Mr. Bedichek has been managing editor of the Abilene Reporter-News for the past 10 years and before that time he was employed on the staff of the Reporter-News as city editor and on the Big Spring Herald as managing editor. He received his degree from Abilene Christian College in 1924.

Sam Braswell, Jr. is now connected with a newspaper in Kerrville and for the last few months Mr. Jack Odom has been operating the Democrat-Voice.

Tri-Chapter Annual Encampment At Christoval

In keeping with a custom that started several years ago, members of the Santa Anna, Talpa and Burkett Future Farmers of America Chapters gathered in Christoval for their annual three day encampment. The purpose of this encampment is to get the boys better acquainted with each other. The recreation program for the boys included fishing, swimming, boating and hiking. An open type outdoor camp, including open fire cooking and under the stars sleeping, was used to assure ample appetite that could relish red beans and spuds without complaint.

Of special interest was a trip to San Angelo to see the picture "The Egg And I", where the entire group were the guests of Frank Crum, who also provided transportation for the trip.

Boys attending from Santa Anna were Maurice Kingsbery, Kenneth Vance, Jack Carroll, James Watson, Jimmy Frank Smith, Fier and Charles Bengel, John Henry Rutherford, Darwin Schrader, James Neal Williams and Earl Gill.

Mrs. J. F. Williams of Port Arthur is visiting her sister, Mrs. Jack Bates and family. All of them had a pleasant trip together to the Carlsbad Caverns last week.

Voters in Texas are asked to go to the polls Saturday and state your opinion as to whether five cents of the present seven cents ad valorem tax should be reallocated to what, if passed, will be known as the College Building Fund.

This College Building Amendment will reallocate five cents from the unused portion of the seven cents maximum levy permitted for the Confederate Pension Fund. The said five cents portion to be made available for a period of 30 years in order that 14 state supported institutions of higher learning may have reasonably definite building fund support. The schools to benefit under this program are John Tarleton Agricultural College, North Texas Agricultural College, Texas State College for Women, Texas College of Arts and Industries, College of Mines and Metallurgy, Texas Technological College, East Texas State Teachers College, North Texas State Teachers College, Sam Houston State Teachers College, Southwest State Teachers College, Stephen F. Austin State Teachers College, Sul Ross State Teachers College, West Texas State Teachers College and Prairie View Agricultural and Mechanical College of Texas.

State schools have for a number of years been carrying just about their capacity loads. Even before the war a lot of the schools were overcrowded. Now that the war is over and thousands of veterans are going to school under the GI Bill of Rights, most schools are badly overcrowded. The schools are doing their best to take care of all the students. This building fund will give the schools a chance to build additional buildings to better take care of their overloads.

Regardless of how you vote on this amendment, we suggest that you go to the polls and express your opinion.

Ward School Buildings All Arrive This Week

The third and last of the three buildings purchased for the use of the ward school students arrived here this week and the repairing of the buildings is in full swing.

The first of the buildings that arrived has almost been completed and the second will be completed in a few days. All the buildings will be ready for the opening of school. These buildings are being made to comply with regulations set by the State Department of Education and according to members of the school board the school will be the best Santa Anna has had in 20 years or more.

Sidewalks will be built around each of the buildings and two water fountains will be put in convenient locations for the children. The rest rooms will be located in the central building.

Lightning Hits Garage Tuesday

Tuesday afternoon a bolt of lightning struck the garage back of Jay McCoy's home, setting the corner of the building on fire.

There was a slight damage to the garage and a dog that was lying near a fence attached to the garage was killed. Bark was torn off a tree near the garage and the jar was felt by several in the neighborhood.

The fire was extinguished promptly by the Fire Department.

Leroy and Beverly Stockard returned home Monday night from Kerrville where they had visited with their sister, Mrs. Dick Powell.

'I Give You Texas' Boyce House

People are always writing, or phoning or dropping by to ask advice about a book they are planning to write. Almost without exception, they are seeking a short cut, a magic formula whereby one can get ahead in writing. Their faces fall when they are told that the only recipe is hard work, which is the recipe in just about any other field.

Hard work plus patience. For example, "Cub Reporter" is based on experiences and observations of this chronicler while breaking into the newspaper game back in 1916, and the two years which followed.

The idea of writing the book came about 1927. My mother had written a letter from Memphis, Tennessee, and enclosed clippings telling of the death of C. P. J. Mooney, editor of the Commercial Appeal.

After the work of getting out the Eastland Daily Oil Belt News was done, I sat at my desk and slowly read the clippings and then mused as twilight descended. The determination came to write a book about Mr. Mooney, my first editor, and the glorious crew of reporters of the "old C. A."

Years went by. Slowly, subconsciously, the project took form. Frequently, I thought of the undertaking but it had not matured. This, like the aging of certain beverages in the wood, is a process that cannot be hastened. There is no substitute for time, its sifting, its mellowing, its hallowing.

One day, a pen was dipped in ink and the writing began. The slower method of pen and ink gave a thought, a scene, an individual the full chance to unfold; it is the details which make a man or an event come to life on paper.

Nearly 50,000 words in ink — then revision, then typing it off on the machine, with changes of

words, adding touches as the task went along — and task it was, slow and hard.

And so Cub Reporter was written — 30 years after the happenings had taken place, 20 years after the idea of writing the book was born.

The whole project was done without a thought of whether the book would sell a single copy. It was something I had to do — something I wanted to do, a tribute to the memory of a great man, a salute to the forever perished days of glorious youth.

State Dept. Of Health Letter

Education of the public to the value of diphtheria immunization, has resulted in lowering the incidence of this dread disease, but Texas still had over 1,500 cases of this preventable disease last year according to records in the Texas State Department of Health.

"It is a generally accepted fact among public health authorities," Dr. Geo. W. Cox, State Health Officer said, "that any community may control its death rate from diphtheria. Immunization has been proved a safe and effective preventive measure. Any where immunizing treatment has been extensively used, diphtheria has steadily decreased."

"The most forceful weapon in the control of diphtheria is prevention through immunization, rather than cure of the disease after it has developed. Children can be protected against diphtheria by the use of what is known as toxoid. Young children are particularly susceptible to the disease. Accordingly, as soon as a baby is six months old, the parents are advised to take it to the family physician and have it immunized — protected by the use of toxoid. Other children in the family who have not had the protective treatment, should be immunized also, and this should

be attended to now before the school season begins. The immunizing agent is absolutely safe to administer; there is only a slight local reaction, and practically no constitutional or troublesome after effects. It confers a lifetime immunity in the majority of cases. To be certain that the immunization is complete, however, the child should be taken back to the physician, six months after the toxoid was administered and given the Schick test.

"It is within the power of the parents of this state, cooperating with their physicians and public health departments, to eliminate diphtheria from Texas."

Applications Being Accepted For Texas High-Way Patrol

Austin, Aug. 21 — The Department of Public Safety is now accepting applications from qualified young men to fill the 200 additions to the Texas Highway Patrol made possible under new appropriations voted by the recent legislature.

Examinations will be given sometime in September, Director Homer Garrison said. The first of four schools of 50 men each will begin about December 1.

"We are already receiving a lot of applications," Garrison said, "but many of the applicants cannot qualify. Our standards are high, as they necessarily must be."

Garrison said prospective patrolmen must be between 21 and 35 years old, not less than five feet eight inches in height, weigh not less than two nor more than three pounds for each inch in height, and be in perfect physical condition.

Candidates also must have lived in Texas at least a year and have not less than a high school education or its equivalent. Those tentatively accepted on the basis of competitive examinations must stand thorough character investigation before being appointed.

Garrison urged qualified men to write him at Austin for application forms.

The Department of Public Safety also announced that examinations are being given in Austin each Tuesday and Friday until September 1 to fill about 20 office positions.

The seed cleaner being used for cleaning clover seed, was moved from the Rex T. Garrett farm to the T. J. Allen farm last week. This cleaner is owned by the clover growers association and is moved by the growers from farm to farm as needed.

At a meeting of the Madrid Sweetclover Growers Association last Saturday a price of 35 cents per pound was set for lots of 2,000 pounds and up of seed and 40 cents per pound for smaller lots. Bags that were ordered some time ago were distributed at the meeting. Growers voted to authorize their association president, Rex T. Garrett, to handle all sales of seed. Each grower will declare the amount he has for sale and sales will be made this year in alphabetical order of growers names. Those attending the meeting were: Rafoed Evans, W. J. Curry, T. J. Allen, Rex T. Garrett, C. D. Parmer, W. P. Fletcher and Hugh Wheat from Coleman; Vernon Carr, Buck Means and Ike Hickman from Brownwood and J. S. Warner and B. Poland from Abilene.

Evan Wise, who farms at Rockwood, recently signed as a cooperator with the district. He has requested three miles of terrace lines as a start on about 20 miles which he hopes to build in the next several months.

L. W. Clare in the Novice conservation group has completed two miles of terraces using a road maintainer.

Extremely dry soil conditions are hindering progress of terrace construction. Many farmers have stopped construction or they are delaying it until the rains soften the ground so that the dirt can be moved.

HASN'T GONE UP**
It takes a lot of dollars these days to buy most of the items covered in the family budget—food, clothing, housing, etc. Spent for electric service, your dollars actually go further than before. This is true in spite of the fact that costs of operation and maintenance have gone up and up with almost everything else, except the hire of money.
Living costs continue to increase, yet the average cost of a kilowatt hour of service to residential customers has decreased 32.6 per cent since 1933.

Plain Facts About Honesty

LESSON TEXT FOR AUGUST 24—
Proverbs 3:3, 11:1, 3; 12:17-22; 14:5; 23:10, 11.

MEMORY SELECTION—Prove all things, hold fast that which is good. Abstain from all appearance of evil.—1 Thessalonians 5:21, 22.

EDITOR'S NOTE: Lesson subjects and Scripture texts selected and copyrighted by International Council of Religious Education, used by permission.

By WILLIAM CILBERTSON, D. D., of The Moody Bible Institute, Chicago.

THE Bible's presentation of the subject of uprightness of living, or plain, downright honesty in everyday contacts, is recognized by all who have given any attention to what it has to say.

The high ethical standard demanded by the Word of God is another evidence of its divine origin. Were men to evolve a moral standard of their own, it is quite evident that that standard would not be very much higher than their own attainments; in fact, the probability is that the standard would be lower than the attainment of some. However, the Bible allows for no deviation from the standard.

We who by nature are the children of wrath have undoubtedly failed when we measure our lives against God's pattern. How needful is God's work of providing and effecting salvation! Those who have been born of God are then confronted with living a life that meets the divine standard.

I. A Plea for Honesty (Prov. 3:3). HOW good it is when the Christian has a reputation for integrity in all his dealings. However, that outward manifestation is possible only if there is inward reality. Therefore, we move in order of emphasis to the greater truth at the conclusion of the verse. Truth is to be written upon the tablet of the heart.

Here is the plea for heart honesty. It is not enough by plausible argument or by feigned conduct to appear honest before men. It is necessary rather to have motives so sincere, to have a heart so honest, that all we do and say will reflect a character that is honorable.

It is out of the fullness of the heart that man speaketh. As the heart is, so is the man. Let us give attention therefore to this word from God.

II. A Factual Presentation of Honesty (Prov. 11:1, 3; 12:17-22; 14:5).

THESE passages of Scripture bring to our attention the consequences of dishonesty as well as the rewards of honesty.

For example, we know that dishonesty is an abomination to God (Prov. 11:1; 12:22); that perversity of heart has its own reward, in that the perpetrator of evil is sooner or later ensnared in his own sin (Prov. 11:3); that a lying tongue may be victorious, but that victory is short lived (Prov. 12:17).

On the other hand, the rewards of honesty are also made apparent. For we are told that probity of character is God's delight (Prov. 11:1; 12:22); that the very integrity of the upright shall be a guide to them (Prov. 11:3); that blessings to others flow from the tongue of the wise (Prov. 12:18); and that the lip of truth shall be established forever (Prov. 12:19).

III. God and the Life of Honesty (Prov. 23:10, 11).

THE reference here to the ancient landmark has to do with the removal of such evidences as would prove the claim of individuals to certain property.

We are to respect the rights of others. Honesty involves more than correctness of speech; it implies rightness of life. No subtlety of reasoning can lead us to the conclusion that we may have God's approval if by unfair means we take that which belongs to another.

Particular attention is given to the fact that we are to have regard for the fatherless. The Word of God constantly gives special attention to the fatherless and the widows. It would seem that God will particularly mark as amiss any unfair advantage taken over these individuals. In fact, this text stresses that God as their Redeemer will plead their cause against anyone taking advantage of them. Of course, there can be only one result when God opposes, and that is disaster to the individual who occasions his wrath.

Perhaps it is that very sense of helplessness that makes the fa-

Appeal For Student Nurses

With the aim of educating more women for the nursing profession to help relieve the present critical shortage of graduate nurses, the five Baptist hospitals in Texas are this month launching an intensive student nurse recruitment program preliminary to the opening of new freshmen classes in their schools of nursing in September.

Personal appeals will be issued to young women aged 17 to 35 through Baptist churches and Sunday schools over the state, to interest them in preparing for the nursing profession. Speakers will outline to the girls the advantages nursing offers of a well paid livelihood, position of community prestige and an opportunity to aid suffering humanity, officials stated.

"The demand for nurses far exceeds the supply," Andrew Q. Allen, volunteer director for the nurse recruitment campaign, stated. "Unless more young women answer the call and enter nursing, the people of this country will suffer for lack of adequate care in time of sickness. The shortage in civilian hospitals has been acute since the beginning of the war and has not been relieved since war's end because of the great number of nurses now required in veterans hospitals."

The varied fields open to graduate nurses today include hospitals, doctors' offices, industry, public health agencies, government service, nursing school fac-

New Crop Peanuts Find Good Demand

Peanut picking went forward with increasing tempo in South Texas this week, according to the Production & Marketing Administration, U. S. Department of Agriculture. Farmers' stock peanuts met good demand in that section, with more shellers preparing to begin operations.

Fairly good demand greeted new shelled goods at slightly higher prices. Shelled No. 1 Spanish sold in car lots at 16 1/2¢ per pound. Little oil sold, and only small quantities of meal move at around \$80 per ton in less than car lots.

Light scattered showers proved of little help to growing peanuts. Early plantings on the heavier soils wilted badly. However, August 1 conditions indicated a total U. S. crop of 2,137 million pounds picked and threshed, according to the Bureau of Agricultural Economics crop report. Such a yield would be roughly 100 million pounds greater than last year and slightly above the five year average. Higher estimated yields per acre offset reduced planted acreage.
