## Fed. Land Bank Makes Further Interest Reduction

The interest rate on all Federal Land Bank loans through National farm loan associations will be reduced to 3-1/2 per cent for all interest payable in the one-year period commencing July 1, 1935 and to 4 per cent for all interest payable in the two-year period commencing July 1, 1936, according to R. V. Wood, secretary-treasurer of the Coleman National Farm Loan Association. This announcement was made June 6th, 1935 when Mr. Wood was notified of the new loan rate by A. C. Williams, president of the Federal Land Bank of Houston and General Agent of the Farm Credit Administration of Houston.

This temporary reduction of interest on Federal Land Bank loans having installments due prior to July 1, 1935 is the result of new legislation, the Farm Credit Act of 1935, which was signed by President Roosevelt June 3. Interest payable on installment dates occurring after July 30, 1935, will be at the original contract rate, which is 4-1/4 per cent on loans now being made through National farm loan associations and varies from 5 to 6 per cent on loans made prior to April 1, 1935.

The Farm Credit of 1935 also provides for another important innovation. Under its terms, the Land Bank Commissioner now may make loans to finance the purchase of farms by deserving tenant farmers. Formerly, Commissioner loans could be made only for the purpose of refinancing debts, for repurchasing farms lost through foreclosure and for working capital. The Act extends to January 1, 1940 the time in which the Land Bank Commissioner may make direct loans to farmers on first and second mortgages. The Commissioner loan plus any prior encumbrances on the property may not exceed 75 per cent of the appraised normal value. Commenting on the new provisions Mr. Wood said: "The new provision enabling the Land Bank Commissioner to make loans for the purpose of purchasing farms provides a new opportunity for young farmers and deserving tenants to become farm owners and home owners in their own right. We shall be glad to talk things over with worthy tenants who wish to buy farms of their own."

Since May 12, 1933, when the Farm Credit Administration was established, the Federal Land Bank of Houston, acting for itself and as agent for the Land Bank Commissioner has made 42,738 loans aggregating \$129,192,350.00. This is almost as large as the amount of business carried on the books of the bank on May 1, 1933 after 17 years of operation. The interest rate reduction provided by the Act will affect only Federal land bank loans, all of which are first mortgage loans. The interest rate on Land Bank Commissioner loans, which are made on either first or second mortgages on farm property, will remain unchanged at 5 per cent.

## Y. W. A. PRESENTS PLAY

Members of the Young Women's Auxiliary of the Baptist Church will present the Missionary Pageant, "The Heroine of Ava" at the evening preaching hour at the Baptist Church Sunday evening. Services will begin at 8:15.

Box collection visited in Abilene last Thursday.

## Firing in Chaco Jungle Conflict To Cease Friday

BUENOS AIRES, June 12. (AP)—The cease firing order will resound all along the Chaco's blood-drenched battle lines Friday at noon, and three years of unbroken warfare that took an estimated 100,000 Paraguayan and Bolivian lives will end.

A peace protocol worked out by American neutrals during two weeks of negotiations here was signed formally by representatives of the two belligerents at 12:30 p. m. Wednesday. It set in motion machinery the neutrals hoped would bring definite settlement of the 50-year-old Chaco controversy.

Under its terms, hostilities will halt Friday at midday, to remain suspended until the neutral military commission which left Buenos Aires by airplane Wednesday afternoon fixes the lines for the twelve-day truce agreed upon.

Virtually every South American capital Wednesday night, night was en fiesta at the end of the long, bitter, bloody war, with celebrations approaching the peak of delirium in Asuncion and La Paz, capitals of Paraguay and Buenos Aires.

The glad news was flashed to the weary troops in the Chaco, who face only forty-eight more hours' peril of death from bullets, hunger and thirst.

## ATTEND COMMENCEMENT EXERCISES AT ABILENE

Miss Kathryn Baxter, Miss Josie Baxter, Mrs. A. L. Haley and Eugene Haley attended the Commencement exercises of Hardin-Simmons University at Abilene Thursday last week. Miss Baxter Polk, son of Mr. and Mrs. E. E. Polk, former Santa Anna residents, was one of the honor graduates. He completed his work in the University in three years.

Mrs. Haley and Eugene also attended the wedding of Miss Mary Elizabeth Bacon and Oscar H. Graham, Jr. at the First Christian Church in Abilene Thursday morning.

## NEW YORKERS HERE

Mr. and Mrs. H. H. Welch of New York City visited in the home of Mr. Welch's niece, Mrs. C. W. Tierney early this week.

Mr. Welch is employed on the New York American, and reports that 700 men are employed by the newspaper.

Mr. and Mrs. Welch traveled by boat from New York to Galveston, and plan to return home by rail at the conclusion of their six weeks vacation. They visited in the C. E. Welch home at Bay City last week, and christened the place "Bug City" because of the rude advantage the bugs take at night. Mr. Welch says if there are bugs here, they must be educated ones.

The couple plans to visit relatives in Fort Worth, Altus, Oklahoma, Wichita, Kansas, St. Louis, Missouri, Alton, Illinois, and Chicago, Illinois, before concluding their vacation.

## HEART OPERATION PROVES SUCCESSFUL

CLEVELAND, Ohio, June 12. (AP)—The first human to undergo a heart operation for angina pectoris, Joseph Krechmar, 48, walked out of Lakeside Hospital Wednesday, looking the picture of perfect health.

Krechmar was operated on Feb. 13 by Dr. Claude S. Beck. The doctor severed the pectoral muscle on the patient's chest and attached the cut end to the wall of Krechmar's heart. This was to give the heart muscles a supplementary supply of blood by absorption, the surgeon explained.

## Former Pastor Visits Here

Rev. and Mrs. J. W. Pattison and son John Pattison of Fort Worth were Santa Anna visitors Wednesday morning. Rev. Pattison was pastor of the Methodist Church here from 1905 until 1909, and is now retired.

Samuel Everett of Dallas came Saturday for a visit with his parents, Mr. and Mrs. Sam Everett.

## War Threat Renewed In North China

LONDON, June 12. (AP)—A Reuters (British) News Agency dispatch from Nanking today said that Minister of War Noyingchin had rejected the Japanese request that China's reply to Japan's North China demands be submitted in writing.

The dispatch said outbreak of fighting is feared after the time limit expired at midnight unless Japanese military authorities relaxed their stand.

## HIRAM R. BINGHAM, 78, PASSES AWAY FRIDAY

(The Eden Echo)

The thinning ranks of the men who made this country was further depleted Friday morning when Hiram Randolph Bingham answered the final summons. To say of him that he was a typical West Texas pioneer is not trite nor idle praise, for that describes him for those who know the kind of men who developed this land—hard working, honest in the extreme, kindly and neighborly, level-headed, jolly, and a success in his business of ranching.

Mr. Bingham was 78 years, 11 months and 2 days of age, having been born on June 29, 1856, in the state of Mississippi. He came to Texas 51 years ago settling near Coleman, then coming to Concho County about 35 years ago and making his home about twelve miles northeast of Eden.

He was one of the first sheepmen in this county, and was reputed to know as much or more about the raising of sheep, from practical experience, as any man in West Texas. He Bingham could go up and down the street and call every man he saw a friend, and every man was always glad to see him. He had time for a good word and a bit of pleasantries with everyone who spoke.

For several months he had been in bad health, and had gone to various clinics for examination and for treatment. He died at the home of his daughter, Mrs. Arthur Jackson, near Eden.

Survivors include his widow, who was formerly Mrs. Mary Amos and whom he married about forty-five years ago in Coleman County, three children by his first marriage, who are Mrs. Joe Kingston of Trickham, Tom Bingham of Trickham, and Bob Bingham of Wickett, and by his last union there survive Mrs. Myrtle Blackburn of Blanco, Mrs. George Wagner of San Antonio, Mrs. Elmer Hibdon of San Antonio, Deway Bingham of Eden, Mrs. Melvin Tollett of Eden, and Mrs. Arthur Jackson of Eden and a step-daughter, Mrs. Ellen Wade of Eden. Funeral services were conducted at the Eden cemetery Friday afternoon by Elder Will Hanley of the Church of Christ, of which deceased was a member. Funeral arrangements were under the direction of Chas. H. Latham of Eden Hardware Co.

Active pallbearers were Roy Loggans, C. A. Ballard, M. A. Valentine, A. T. Conn, Enno Behrens, and Zack Murray.

Editors Note: It was never our privilege to know Mr. Bingham in person, but we have heard some very fine comments concerning him. It is said of him that he helped to dig the first grave in the Trickham cemetery, helped to build most all the old-time rock fences on the Southern part of the county, and if he had an enemy he never knew it. He was a friend and true, trustworthy in every respect. He loved, trusted and served his Creator and is now resting in peace.

Miss Olga Niell left Wednesday for Greeley, Colorado where she has enrolled for special training in the Teachers College. Miss Niell has been connected with the Sealy Hospital and School of Nursing here for several years.

Larry Smith, son of Mr. and Mrs. Lawrence J. Smith, left Saturday night for Houston where he is visiting in the home of his uncle, Dr. Edward T. Smith and family.

C. M. Grady of Brownwood visited his daughter, Mrs. R. O. Gay this week.

## Elizabeth Wylie and Tom Simpson Are Married

The following announcement was sent to friends this week: "Rev. and Mrs. Ernest Holmes Wylie announce the marriage of their daughter Mary Elizabeth to Mr. Thomas H. Simpson on Friday, June seventh, Nineteen hundred and thirty-five, Santa Anna, Texas."

The wedding took place in the Wylie home at 3 o'clock in the afternoon. Rev. Wylie read the impressive ring ceremony, in the presence of Mrs. Wylie, Miss Kathryn Wylie, and Miss Mary Harriette Simpson.

Mrs. Simpson is a graduate of the local high school, being a member of the class of 1932. She attended Randolph College at Cisco and John Tarleton College at Stephenville, and has taught in the Cross Road school for the past six years.

Mr. Simpson, also a graduate of the local high school, is the son of Mrs. J. D. Simpson and her late husband. He has been manager of the Rose Gin since the death of his father.

The bride wore navy sheer with accessories of navy for the ceremony, which was performed on the occasion of her parents' 36th wedding anniversary.

Mr. and Mrs. Simpson are at home in the Ed Tisdal residence since their return Monday from Fort Worth, where they went immediately following the ceremony.

## OFF TO GALVESTON

The editor and Mrs. Gregg are spending this week out of town, leaving the several duties of getting out the paper to the children. If the paper happens to show up with a better edition this week, just pass the credit for it on to them.

This is being written Monday morning, and we plan to leave here early Tuesday for Austin, where the editor will visit the office of the State Park Board in the interest of procuring a building in the local park. We plan to leave Austin Wednesday morning for Galveston, where we will spend the remainder of the week, attending the annual convention of the Texas Press Association.

Several hundred Texas editors, many of them accompanied by their families, will spend Thursday, Friday and Saturday in the resort city for the first time in twelve years.

The City Dads, Beach Association and Chamber of Commerce fell short of their promises of entertainment in 1933 when the editors last met there, and have found it difficult to get the bunch back to see them. They have promised to redeem themselves this year, and to have a splendid program of entertainment and amusement ready for us to enjoy, and here's hoping. Galveston, at one time, was the most popular convention city in the state, and Texas editors were glad to hold the annual conventions there, but when they fell short of their convention promises the editors found other places to meet.

Upon arrival, after getting located for the week, the first act will be a plunge in the bay. Evening meal, then to bed for a night's repose. Seven o'clock Thursday morning, another plunge, dress, eat a broiled flounder, one cup of coffee, one glass of grapefruit juice and then ready for the days proceedings. The same program will follow for the remainder of the week.

## ATTEND WEDDING OF SON

Mrs. T. P. Sumner and daughter Dorothy attended the wedding of Miss Lorene Talley and her son and brother, Mr. Charlie Sumner at the Salem Church last Sunday morning. Mr. Sumner is well-known here, and Mrs. Sumner is a graduate of the local high school. She has taught school at Concho Peak, and taught the past year at Buffalo.

The young couple will make their home in Brownwood, where Mr. Sumner is employed.

Mr. and Mrs. G. W. Faulkner and son Fred of Dallas are here this week visiting relatives and friends.

## Commencement For Nurses

The Sealy Hospital School of Nursing Commencement program began Sunday night when Rev. Karl H. Moore, D. D., pastor of the First Baptist Church of Brownwood, delivered the Baccalaureate sermon at the First Baptist Church. Final Commencement exercises were held at the High School Auditorium Tuesday evening when Dr. Stewart Cooper of Abilene delivered the main address.

Sunday's program included the Processional, Solo, "Just for Today" by Mrs. Altus Bowden. Prayer led by Rev. Homer Vanderpool, Quartet, "I Want My Life to Count for Jesus" by R. E. Ward, Louis Newman, Emmett Day, and Lester Newman, and the Benediction pronounced by Rev. M. L. Womack.

Tuesday's program included the Processional, the Invocation by Rev. Vanderpool, the Salutatory address by Miss Martha Ganzer, Piano solo by Miss Lillian Sheffield, Introduction of speaker by Dr. R. R. Lovelady, Commencement address by Dr. Cooper, Harmonica Solo by Miss Myrtle Cantrell, Florence Nightingale Pledge by the Class, led by Miss Olga Niell, R. N., Presentation of Class for Diplomias by Mrs. Clifford Dyer, R. N., Presentation of Diplomias by Dr. T. R. Sealy, President of the School, School Song by the Student Body, Reading by Miss Edith Cannon, Valedictory Address by Miss Opal Freeman, the Benediction by Rev. Womack, and the Recessional.

Members of the Graduating Class are Misses Opal Freeman, Martha Ganzer, Susan McDermott, Lois Moore, Lillian Sheffield, Bessie Smith, and Thelma Taylor.

Those on the Hospital Staff are T. Richard Sealy, M. D., F.A.C.S., R. R. Lovelady, M. D., E. D. McDonald, M. D., C. O. Moody, M. D., W. Burgess Sealy, M. D., Mrs. Clifford Dyer, R. N., Miss Elizabeth Kelly, R. N., Miss Olga Niell, R. N., Miss Sybil Vinson, R. N., Miss Eula Sides, R. N., and Mrs. Myrtle Moon Lovelady, R. N.

Mrs. F. C. Woodward is President of the Advisory Board. Other members are Mrs. Clinton Lowe, Mrs. J. R. Gipson, Mrs. Lee Hunter, Mrs. Jodie Mathews, Mrs. W. I. Mitchell, and Mrs. A. U. Weaver.

## METHODIST MEN'S CLUB

Rev. Homer Vanderpool, pastor of the Methodist Church, is leading in the plans for the organization of a Methodist Men's Club Friday evening. The organization meeting will be a banquet at the Methodist Church. Plates are being sold for use to apply on expenses of representatives to the annual Young People's Conference which will convene in Georgetown soon. The young people will serve the banquet.

Rev. Vanderpool requests that all men interested in Brotherhood work attend the meeting Friday night, regardless of Church affiliation. Worthwhile programs will be inaugurated, and plans for activities of the Club will be discussed.

## KELLY DID SAY 'G-MEN'

FIRST, HOOVER DECLARES

WASHINGTON, June 10 (AP)—The term "G-men," popularly linked with the college-trained criminal hunter of the Federal Bureau of Investigation was first attached to them by a kidnaper, George (Machine-Gun) Kelly.

J. Edgar Hoover confirmed this today as he paused for a moment in announcing new details in the Weyerhaeuser kidnapping case.

"Our men surprised Kelly and his wife, Catherine, in an apartment at Memphis, Tenn.," Hoover said. "Kelly had made numerous threats and boasts and after his capture he kept talking about G-men."

"One of our agents asked him what he meant and he replied: 'Why G-men are Government men.'"

Mr. and Mrs. Fred Turner, Jr. of Midland visited in the Fred Turner home last Thursday and Friday.

## Bull Causes Truck, Three Cars to Wreck

GAINSVILLE, June 12. (AP)—The sauntering of a bull on Highway 40 two miles south of Gainesville today was blamed for the wrecking of a truck and three automobiles.

One man was slightly injured by flying glass.

The bull strayed onto the road and was struck by a truck bearing a cargo of peanut butter, which was scattered over the highway as the machine overturned.

The infuriated animal attacked the driver and a companion, forcing them to take refuge on the top of the wrecked truck for several minutes.

Two hours later an auto driven by Sam Herron, oil field worker, struck the sticky peanut butter, spun and overturned.

Mrs. W. R. Courtney and Miss Mammie Drahn of Fort Worth stopped their car at the scene of the accident. Moments later another car, driven by Harold L. Wooster, San Antonio, crashed into their machine, damaging both cars. Mrs. Courtney filed a complaint with County Attorney William Culp, charging Wooster with exceeding the speed limit.

The damaged cars were brought here for repairs.

## MRS. A. S. WILSON IS CLAIMED BY DEATH

Funeral services were held from the residence here Thursday afternoon for Mrs. A. S. Wilson, 60, who died Wednesday morning following almost a week of severe illness. She had been in ill health for several years. She was carried to a Coleman hospital last week but was brought home Saturday when hope for her was abandoned.

Georgia Allie Wyers was born April 18, 1875, at Ma Lin, Texas, and lived there until July 18, 1899, when she was married to Albert Sidney Wilson and they went to Brown county to make their home. They came here 42 years ago, and the family has lived here since that time except for six months. Mr. Wilson passed away in December, 1918. Two children died in infancy, and Annie Allison, nine months ago, and one son, Lawrence H., died three years ago.

Mrs. Wilson has been a member of the First Christian church here since it was built and organized 32 years ago.

Rev. M. L. Womack, Presbyterian minister, and Rev. Hal C. Wingo, First Baptist pastor, conducted the funeral services.

Mrs. Wilson is survived by seven children, ten grandchildren, one half-sister, and two brothers. Children are Mrs. Lester Blevins of Santa Anna, Mrs. E. L. Cotton of Stockton, Calif., Mrs. F. L. Farmer of Balingier, Mrs. George D. Durham of Port Arthur, Miss Bobbie Wilson, W. B. Wilson and Leon Wilson of Santa Anna. All were here during the illness and death except Mrs. Cotton. Mrs. Bertha Carver of Honolulu, half-sister, and T. B. Wyers, Jr. and Lee Wyers of Houston, brothers, were unable to be here.

Pall bearers were Sam Collier, Sam Diggins, J. E. Watkins, Jim Scott, O. L. Cheaney, and C. B. Verner. Flower bearers were Misses Besse Evans, Mary Oakes, Kathryn Rose Pinney, and Mrs. J. B. Jones.

Honorary pall bearers were R. L. Mobley, W. DuBois, L. Gene Hensley, B. T. Vinson, D. L. Pieratt, Dr. Jason Tyson, Ed Sewell, George Johnson and C. A. Walker.

NEW YORK, June 12.—Death struck simultaneously in three Brooklyn homes early today, in each instance its visitation accomplished through an ordinary coffee pot.

Mrs. Margaret Iba, 43, was found dead in her kitchen. The coffee pot had boiled over.

Nils Bjerkle, 61, had dozed, then died, sitting in a kitchen chair. The coffee pot had boiled over.

Mrs. Rose Johnson, 41, put the coffee on the stove and went back to bed. She died there. The coffee pot boiled over.

Routine police reports disclosed that in every case the gas flames had been extinguished when the pot boiled over.

## Old Newspaper Gives Account of Fall of Alamo

Austin, Texas, June 13.—Reports of the fall of the Texas Alamo may not have echoed around the world but they did reach throughout a great part of the United States of America, judging from various newspaper accounts of that year. One account of that tragic battle appeared in the Goshen Democrat, of Goshen, New York, on April 16, 1836, a copy of which has just come into the hands of the library of the University of Texas. It was the gift of William Kenneth Duryea, a student in the architecture department of the University, whose mother, Mrs. William H. Duryea, of Middletown, N. Y., sent it to him. It was through the efforts of Samuel E. Gideon, University professor of architecture, who is keenly interested in the preservation of any material relating to early Texas, that the gift was presented to the University Library.

The report of the fall of the Alamo, published in the Goshen Democrat, is practically identical with one published on March 28, 1836, in the New Orleans Post and Union, and reproduced on April 12 in the Arkansas Gazette. The University library does not have a copy of the Post and Union but does possess the Arkansas Gazette which carries the account.

The New York paper evidently received its report of the battle in a round-about manner. The article follows:

From Texas

The following intelligence was received by the express of the Courier and Enquirer on Monday last.

From the Louisiana Advertiser, March 23.

THE FALL OF BEXAR — THE ENTIRE OF THE TROOPS IN THE GARRISON PUT TO DEATH — COL'S CROCKETT AND BOWIE KILLED!

We are indebted to a gentleman, passenger on board the steamer Levant, from Natchitoches for the annexed letter giving the particulars of the fall of Bexar — it is a copy of one addressed to the editor of the Red River Herald:

"Sir—Bexar has fallen! Its garrison was only 197 strong, commanded by Lieut. Col. W. Travis. After standing repeated attacks for two weeks and an almost constant cannonade and bombardment during that time, the last attack was made on the morning of the 6th inst. by upwards of 2,000 men under the command of Santa Anna in person; they carried the place about sunrise, with the loss of 520 men killed and about the same number wounded. After about an hour's fighting the whole garrison was put to death, (save the sick and wounded and seven men who asked for quarter). — All fought desperately, until entirely cut down; the rest were coolly murdered. The brave and gallant Travers to prevent his falling in the hands of the enemy, shot himself. — Not an individual escaped, and the news is only known to us by a citizen of Bexar who came to our army at Gonzales but from the cessation of Travis' signal guns there is no doubt of its truth. The declaration of Independence you no doubt received, and you will, in a few days receive the constitution proposed by the republic.

"Cols. James Bowie and David Crockett are among the slain—the first was murdered in his bed; to which he had been confined by illness—the latter fell fighting like a tiger. The Mexican army is estimated at 8,000 men; it may be more or less."

A. Briscoe.

"Further particulars" of the War in Texas are given in the remainder of the article, which is about a column in length.

## Eugene Haley to Wolfe City

Eugene Haley, son of Rev. and Mrs. A. L. Haley, plans to leave Monday for Wolfe City, where he will be pastor of the First Christian Church. The Church offers full time work.

George M. Johnson and W. DuBois are attending the State Firemen's Convention in session in El Paso this week.

ON TEXAS FARMS

"Knee deep in June" is ok for the poet but apparently not for the dairyman if he is knee deep in Sudan grass gone to seed.

According to Extension Dairyman E. R. Eudaly, the value of Sudan grass is reduced about half if it is allowed to form seed.

He says it should be cut for hay just as it heads. If it is being grazed, but not kept down, mow half of it and two weeks later the other half.

Mow the permanent pasture too. Twice a year mowing will kill the weeds Eudaly says. Cut high the first time—three or four inches off the ground—and low the next time to get the suckers and new branches.

Plant now for trench silo filling. Three tons per cow is what will be needed. Cane or grain sorghum can be planted on the oat stubble if there is enough moisture.

Cows need dry feed too, Eudaly says. And roughages are cheaper than grain. So plan for one ton of hay or bunched feed for each cow.

SULPHUR SPRINGS: Farmers of Hopkins county are seeding their pasture land with bur clover, dallis grass, and lespedeza this spring.

County agricultural agent S. L. Neal recommends that the three kinds of seed be mixed together and fed at the rate of two pounds of the mixture to every 1000 pounds of feed.

Another method serves a two-fold purpose, in that the seed is not injured and is left in fertile places, and the stock does not bother the plant the first year.

Other farmers in this county are mixing the seeds with barnyard manure and putting it out in the pasture.

The Government's drought relief cattle buying removed about one million dairy cows from Texas farms, according to Eudaly. Remaining milkers should now be tested to be sure they are "worth their board and keep."

BRENHAM: Eight inches of rain in two days last month in Washington county convinced many of the value of terracing, according to C. Hohn, county agricultural agent. "Many of those who were skeptical about the ability of terraces found the greater part of their soil pushed out into the road and pastures, while those who had terraced their land found the terraces full of dirt which would otherwise have been lost," he states.

ARCHER CITY: Z. T. Burkett, dairyman living near Archer City, states that he is glad that he terraced thirty acres of land last fall. The land was seeded to oats for grazing purposes only. A freeze in February killed all the oats. He replanted the land in spring oats and his dairy cows have fed off the pasture since the oats were big enough for pasturing.

BEAVER CREEK: Buttons made from walnuts add distinctiveness to a dress. That is the opinion of Mrs. Ray Ackerman, wardrobe cooper at Beaver Creek Home Demonstration Club in Wichita county. She saws the walnut through the middle, removes the meat, adds a coat of shellac and has a one inch walnut button. Mrs. Ackerman has already received an order for one dozen of these buttons at 10 cents each.

DICKENS: "Cut the glove on a true bias of the material to insure a smooth fit," Mrs. W. A. Harris, Espuela Home Demonstration Club member of Dickens county said in giving a demonstration last month. She went on to say that when gloves have been cut, first stitch the lines on the back of the hand then sew in the thumb and inside finger pieces to back and front before sewing the side seam. The cuffs may be gauntlet or closed or any other preferred style.

SINTON: By using white wrapping paper given to her by the groceryman, a piece of scrap lumber for another shelf, and an old broom handle for another clothes rod, Miss Anita King, clothing demonstrator for the Miculaistic Home Demonstration Club in San Patricio county, has remodeled her clothes closet. The only cash expenditure was 30 cents for paint for the shelves, rods and the floor, which were given two coats of paint.

INTELLIGENT DRIVING

Rules for safe driving are many, but most of them simmer down to the simple formula of looking before you leap. Alertness at the wheel is the price of safety on the streets and highways, whether it's your own safety or that of others about or a wheel. A split second of inattention is sufficient to bring on an accident that may claim several lives.

Recently the Ladies' Home Journal published a list of ten safe-driving rules which have been approved by safety directors and experts. These ten rules cover, it is claimed, all the points essential for preventing accidents. Here they are:

- 1. I will know and follow the rules of the road and obey all signs and signals.
2. I will know my car and keep it in safe condition.
3. I will suit my speed to the conditions—to the traffic, to my clear view ahead, to the state of the road, the time of the day and the number of hours I have been driving.
4. I will never pass a car near the crest of a hill, on a curve, or at an intersection.
5. I will not fight for the right of way.
6. I will give understandable signals of what I am doing.
7. I will be patient in traffic.
8. I will be courteous to pedestrians.
9. I will try to make up by my driving for what others may

lack in skill or caution. I will remember that it generally takes two to cause an accident.

One of the most frequent causes of damage to automobiles and occasional injury to persons is not mentioned here. It is the habit of backing suddenly out from the curb, without regard to moving vehicles approaching from the rear. Women drivers seem especially prone to commit this act against public safety.

Another cardinal rule of safety is never to stop a car on the paved surface of highways. Always move as far away from the curb as possible, leaving a clear right of way for moving vehicles.

THE HIGH PRICE OF LEADERSHIP

There is a single reason why 99 out of 100 average business men never become leaders. That is their unwillingness to pay the price of responsibility. By the price of responsibility I mean hard, driving, continuous work... the courage to make decisions, to stand the gaff... the scourging honesty of never fooling yourself.

SUNRISE BREAKFAST

Early Tuesday morning members of the Junlor B.Y.P.U. met at the Baptist Church and proceeded to climb the mountain for a sunrise breakfast. In spite of the drizzle of rain, breakfast was prepared over an open camp fire, and was heartily enjoyed.

Johns present were Lillie Pearl Niell, Willyne Ragsdale, Mary Jo Gregg, G. T. England, Tom Robin and Roy England. Others who enjoyed the outing were Ara Belle Ragsdale, Vera Horner, and Queenie Gregg.

CHRISTIAN SUNDAY SCHOOL

There was a very gratifying increase in attendance last Sunday and some interesting special features. Among the visitors were Mr. and Mrs. G. W. Faulkner, Fred Faulkner, and Sammie Everett, all of Dallas. All of these have been faithful attendants here in times past.

The Sunday School begins promptly at 9:50.

EVENING PARTY

John and Burton Gregg entertained Saturday evening with a party at the home of their parents, Mr. and Mrs. J. J. Gregg.

The hilarious group enjoyed a mock Track Meet and various other games until a late hour when ice cream and cookies were served.

Present were Misses Helen Oakes, Elizabeth Morris, Mary Todd, Henrilee Ashmore, Ima Niell and Adelle Traylor, and Russell Wilson, Thomas Wristen, Lee Schattel, and the hosts.

Try smiling.

Pending Constitutional Amendments

H. J. R. No. 19 HOUSE JOINT RESOLUTION

Proposing an Amendment to Article III, of the Constitution of the State of Texas, by adopting a new Section to be known as Section 51-b, which shall prohibit the Legislature shall have the power to provide, under such limitations and restrictions as may be deemed by the Legislature expedient, for old-age assistance and for payment of same not to exceed Fifteen Dollars (\$15) per month...

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Article III of the Constitution of the State of Texas be amended by adding thereto a section to be known as Section 51-b, which shall read as follows:

"Section 51-b. The Legislature shall have the power by general laws to provide, under such limitations and restrictions

and regulations as may be deemed by the Legislature expedient, for old-age assistance and for the payment of same not to exceed Fifteen Dollars (\$15) per month each to actual bona fide citizens of Texas who are over the age of sixty-five (65) years; provided that no habitual criminal, and no habitual drunkard while such habitual drunkard, and no inmate of any State supported institution, while such inmate, shall be eligible for such old-age assistance...

"The Legislature shall have the authority to accept from the Government of the United States such financial aid for old-age assistance as that Government may offer not inconsistent with the restrictions hereinbefore provided.

Sec. 2. The foregoing Constitutional Amendment shall be submitted to the electors of the State of Texas on the fourth Saturday of August, 1935, at which election there shall be printed on such ballot the following clause:

"For the Amendment giving the Legislature the power to provide a System of Old-Age Assistance not to exceed Fifteen Dollars (\$15) per month per person and to accept from the Government of the United States financial aid for old-age assistance."

Sec. 3. The Governor of the State of Texas is hereby directed to issue the necessary proclamation for said election, and have same printed as required by the Constitution and Laws of this State.

Sec. 4. The sum of Five Thousand Dollars (\$5000), or so much thereof as may be necessary, is hereby appropriated out of the funds in the Treasury of the State, not otherwise appropriated, to pay the expenses of said publication and election.

S. J. R. No. 3 A JOINT RESOLUTION

proposing an amendment to Article XVI of the Constitution of Texas by striking out Section 20a to Section 20e, both inclusive; prohibiting the open saloon and vesting in the Legislature the power to define and enact laws against such; vesting in the Legislature the power to regulate the manufacture, sale, transportation and possession of intoxicating liquors...

"FOR the amendment to the State Constitution repealing State-wide prohibition, prohibiting the open saloon and providing for local option."

"AGAINST the amendment to the State Constitution repealing State-wide prohibition, prohibiting the open saloon and providing for local option."

If it appears from the returns of said election that a majority of the votes cast are in favor of said Amendment, the same shall become a part of the State Constitution.

Sec. 3. The Governor shall issue the necessary proclamation for such election, and shall have the same published and such election held as provided by the Constitution and laws of this State.

Sec. 4. The sum of Eight Thousand (\$8,000.00) Dollars, or so much thereof as may be necessary, is hereby appropriated out of the State Treasury to pay for the expenses of said publication and election.

such by the Governor and making an appropriation therefor. BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Article XVI of the Constitution of Texas be amended by striking out Sections 20a to Section 20e, both inclusive, and substitute in lieu thereof the following:

"ARTICLE XVI. Section 20. (a) The open saloon shall be and is hereby prohibited. The Legislature shall have the power, and it shall be its duty to define the term 'open saloon' and enact laws against such."

Subject to the foregoing, the Legislature shall have the power to regulate the manufacture, sale, possession and transportation of intoxicating liquors, including the power to establish a State Monopoly on the sale of distilled liquors.

"(b) The Legislature shall enact a law or laws whereby the qualified voters of any county, justice's precinct or incorporated town or city, may, by a majority vote of those voting, determine from time to time whether the sale of intoxicating liquors for beverage purposes shall be prohibited or legalized within that jurisdiction, and such laws shall contain provisions for voting on the sale of intoxicating liquors of various types and various alcoholic content."

"(c) In all counties, justice's precincts or incorporated towns or cities wherein the sale of intoxicating liquors had been prohibited by local option elections held under the laws of the State of Texas and in force at the time of the taking effect of Section 20, Article XVI of the Constitution of Texas, it shall continue to be unlawful to manufacture, sell, barter or exchange in any such county, justice's precinct or incorporated town or city, and supplying, vinous or malt liquors or medicated bitters capable of producing intoxication or any other intoxicants whatsoever, for beverage purposes, unless and until a majority of the qualified voters in such county or political subdivision thereof, in an election held for such purpose, shall determine such to be lawful; provided that this subsection shall not prohibit the sale of alcoholic beverages containing not more than 3.2 per cent alcohol by weight in cities, counties or political subdivisions thereof in which the qualified voters have voted to legalize such sale under the provisions of Chapter 118, Acts of the Regular Session of the 43rd Legislature."

Sec. 2. Such proposed Constitutional Amendment shall be submitted to a vote of the qualified electors of this State at a special election to be held throughout the State of Texas, on the fourth Saturday in August, 1935, at which election all voters favoring said proposed Amendment, shall write, or have printed on their ballots the words:

"FOR the amendment to the State Constitution repealing State-wide prohibition, prohibiting the open saloon and providing for local option."

And those voters opposed to said proposed Amendment shall write or have printed on their ballots:

"AGAINST the amendment to the State Constitution repealing State-wide prohibition, prohibiting the open saloon and providing for local option."

If it appears from the returns of said election that a majority of the votes cast are in favor of said Amendment, the same shall become a part of the State Constitution.

Sec. 3. The Governor shall issue the necessary proclamation for such election, and shall have the same published and such election held as provided by the Constitution and laws of this State.

Sec. 4. The sum of Eight Thousand (\$8,000.00) Dollars, or so much thereof as may be necessary, is hereby appropriated out of the State Treasury to pay for the expenses of said publication and election.

**RAILROAD WEEK**

This week, June 10 to 15, has been designated Railroad Week. Governor Allred issued a proclamation, and most mayors joined him with proclamations, designating the week as Railroad week.

All railroads west of the Mississippi river are cooperating in the observance of the week, and in all towns and places where several families live who are employees of the railroads, programs are being put on, educating the public to the value of the railroads and the services they render.

Several families in Santa Anna are employees of the Santa Fe Railway Company, and the Santa Fe pays more taxes into the school and city funds than any industry here.

The railroads throughout the country are patriotic, and are doing their part toward recovery, insofar as is consistent for them to do so. Reduced passenger fares and a more friendly service is the slogan.

Service clubs and chambers of commerce are uniting with railroad officials in their efforts to educate the public to the service the railroads are rendering.

Not long ago we ran a paragraph which said: Give a man enough rope and he will hang himself. Two readers of the paper have written in to ask us to be more specific and state just how much rope a man should be given. The letters state that the writers have in mind two men they would like to see hang and desire more definite information.

One can be a fairly good liar without much practice.

Reward is also its own virtue.

**NOBODY'S BUSINESS**

By JULIAN CAPERS, JR.

Austin, June 10.—The action of the supreme court of the United States in voiding certain vital essentials of the New Deal program is the biggest news in Texas, as elsewhere in the United States, that has broken since the European war. It is destined, many observers here believe, to have far-reaching economic and political reverberations in the Lone Star State.

The action of President Roosevelt, Josephus Daniels and other Democratic party leaders in advocating a revision of the constitution, immediately after the momentous decisions of the court, indicates that the political future of the Democratic party is to be profoundly affected, for one thing.

Any important Democratic development obviously will affect the people and the political leaders of one of the largest and most loyal of Democratic states. Texas' two senators and her many congressmen, all Democrats, must of necessity participate actively in whatever aftermath the court's momentous decisions may have. Texans today live unquestionably living in one of the most dramatic hours of the history of the American republic.

On the economic side, Texas business, along with the business of the remainder of the nation, must be profoundly affected by the court's NRA ruling. The NRA decision was so broad in its implications, as the president pointed out, that many other New Deal agencies probably will be affected.

The AAA program, its sponsors admit, will have to undergo important revisions to make it conform to the court's interpretation of the constitution. Texas farmers have received more in government-paid benefits under the cotton program than husbandmen of any other state; their economic condition has been improved by the indirect effect of the AAA program on commodity prices to an even greater extent. Texas farmers also have shared largely in the wheat, cattle and corn-and-hog programs.

Obviously, oil—Texas' greatest cash crop—will be affected. The NRA decision has definitely killed the Thomas oil control bill in congress, which Gov. Allred, Rail Commissioner Thompson and Atty. Gen. McCraw opposed. The state has launched upon a production control enforcement program, utilizing the new legislation passed by the session just ended. Illegal oil has been seized and sold for the benefit of the state treasury. The Connally hot oil bill, the essence of federal control in interstate commerce, is not affected by the adverse NRA decision, having been re-enacted to meet constitutional objections, and Austin officials are hopeful that this and a strong program of enforcement under state conservation laws, will keep the oil situation under control. But some oil operators admittedly were cowed into observance of state laws during the past few months by a threat of complete federal control as an alternative. Will they stay "in line" now, and is the state conservation program sufficiently adequate to prevent collapse of production? These are questions raised by the NRA decision that are of vital import to Texas and Texans.

Other lines of business in Texas, too, have an interest. If there is to be no NRA, must Texas business return to the old dog-eat-dog competitive basis which was abandoned for NRA? And if so, will the state's anti-trust laws—virtually abandoned during NRA's regime—control again? The very existence of the Texas anti-trust laws has been brought into question by the decision of the court of civil appeals at Austin in the anti-trust suits brought by Gov. Allred against the major oil companies. The district court held the suits were without merit, because the NRA has superseded the state anti-trust laws. On appeal by the state, the appeals court held the anti-trust laws were unconstitutional. The state supreme court must review the case, and its decision doubtless will be affected by the fact there is no longer any NRA.

Pending litigation testing out the validity of the Tennessee Valley Authority project is yet to be decided by the U. S. supreme court. The viewpoint expressed by the court in the NRA

and other cases does not lend an optimistic aspect to the TVA test. And in the Colorado River Authority, Texas has a closely parallel project, which promises to give work to 5,000 men, develop a great natural resource, and lower electric rates substantially thruout the whole central area of Texas.

Texas, too, doubtless will have an enormous stake in the four billion eight million work-relief program, with state, counties, cities, school districts and other governmental units preparing applications for millions of dollars of the fund. There is certain to be a greater cleavage of opinion in Texas, as elsewhere, over the doctrine of state's rights, than there was over Woodrow Wilson's program of international relations. Every intelligent voter in Texas within another year or two may have to decide whether he shall follow Franklin D. Roosevelt or go back to the ways of the founding fathers. It is going to be one of the most interesting and exciting periods in the history of the United States.

Often we hear people say that they have "hundreds of friends," but if they have they are indeed the luckiest of individuals. For if they begin to think a bit it might amaze them to realize that the very people they would truly count as friends in the true sense of the word might be counted on the fingers of one hand. Some people confound friends with acquaintances, forgetting that true, real friendship is a very lovely and rare thing. Friends are truly the golden gifts of life, and perhaps the following definition of a friend might be a good summary:

The sunshine of calamity.

The essence of pure devotion.

The ripe fruit of acquaintanceship.

One who understands our silence.

A star of hope in the cloud of adversity.

The jewel which shines the brightest in the darkness.

The link in life's chain which bears the greatest strain.

The first person who comes in when the whole world has gone out.

One who loves the truth and you, and will tell you the truth in spite of you.

We should keep our friendship in constant repair, and certainly one must be one.

It is about time we accepted the law and its enforcement as a science, instead of a high-class debating society.

We have plenty of pleas, speeches and precedents to fall back on, but mighty few facts.

We find out what this judge decided, or that lawyer said in most any important case, but what became of the characters?

What are our convicts doing, and how many are there? Of the first offenders, how many repeat? Why do some repeat, while others do not? Of those offenders who commit a second offense, how many commit a third or a fourth?

The big trouble with our system of justice is that we do not know what it has accomplished, much less why.

We have paid too much attention to the mill and not to the grist.

Crime is the problem we are still trying to solve by argument. In all others, we depend on investigation and are guided by results.

The history of crime and its treatment is a history of unfinished cases. Outside of those who are executed we do not know what becomes of the victims.

The penalties we provide for various offenses, their effect on the offenders and society, the idea of whether they are just or unjust and everything else connected with the system is mainly a matter of guesswork.

You can go thru the thousands of reports that have been compiled, the encyclopedias, digests, treatises and statutes, and find little of a convincing nature to show what results the administration of justice has actually produced.

The only fact that everyone seems to admit is that there has been an enormous increase of crime in this country that in no other civilized country are there as many thieves, murderers and forgers per 1,000 people that in spite of all the innovations and experiments we seem unable to improve the situation and that no one knows why.

Take your hard knocks and expect them. If you can show no bruises then you have not put up a good fight.

What's in your head can butt down mountains. If you only realize it and apply it.

**VACCINATION AGAINST TYPHOID RECOMMENDED**

Austin, Texas, June 5.—Now is the time, according to Dr. Charles D. Reece, Director, Bureau of Communicable Diseases, to be vaccinated against typhoid fever, a disease that has cost the lives of more than 2,000 Texans in the past four years.

Typoid fever has been eliminated in our army and navy through vaccination. The typhoid vaccine is not a serum. This preventative treatment of typhoid fever consists of three small hypodermic "shots" given every 5 to 7 days until three injections are given. Such a treatment protects you from taking the typhoid fever for two to three years.

Consult your family physician today in regards to typhoid prevention. Invest in typhoid protection against this often fatal disease. This form of protection insures you and your family against possible long confinement, great economic loss, and perhaps death.

You may be so unfortunate as to drink contaminated milk, water, or other food containing the typhoid bacilli and contract the disease this year. In selecting a place for a vacation choose one where you know that the water and milk supply is pure. Be sure that the kitchen and dining room are screened to protect food from flies. When camping it is best to boil water used for drinking, unless you know that it is pure. Clear, sparkling spring water may be polluted by drainage.

Hitler has served notice on thirty five million German women that their place is in the home and their business is having children. "A woman," says Hitler, "should have a job only when she cannot get a husband. If she can get neither a job nor a husband then she is to be regarded only as a state subject of inferior standing." The government loans \$250 to young couples who get married if the girl has given up a job. 525,000 men have jobs formerly held by women and in the past two years a quarter of a million more babies were born as a result of these government orders.

The Chautauqua orators have told their audience many times that it is possible for any boy to become president of the United States but none of them has been so visionary as to suggest that any American boy might one day have five billion dollars to spend.

**BEE'S FINALLY BRED—HONEY BEES THAT CAN WONT STING**

BURLEIGH, N. J., May 28 (AP)—A bee with a disposition as sweet as its honey is making this village a mecca for apiarists.

It can sting, but it won't. From all parts of New Jersey and neighboring States beekeepers are wearing a path to the door of Henry Brown, "inventor" of this latest improvement of nature.

Their interest sharpened by slings of the past, they come to watch Brown pluck at random among his 35,000,000 honey gatherers and place them in his mouth, his ears and inside his clothes.

"I started on this idea 12 years ago," said Brown, former Russian seaman. "I got tired of being stung by my own bees, so I crossed Cyprian bees—their're from Cyprus—with Italian bees and the mongrels stung worse than their parents. I kept crossing them down to the sixth generation and now I've got a bee that won't sting."

The World War, blameworthy for most everything nowadays, is now said to be the cause of America's \$350,000,000 annual cosmetic bill.

Not that the women of 1917 daubed themselves with war paint and found it becoming, but a drug trade journal says women before the war neglected their looks after marriage. While the men were overseas, shortage of dress material, which was being used for bandages, shorted dresses. When the men returned, their wives noticed approving glances of the husbands at the trim younger women they passed on the streets, and as a result they began trying to improve their own looks to keep in competition.

A bakers strike in Kansas City, Missouri has forced all of the housewives of the city to bake their own bread. In the opinion of an old timer who was raised on homemade bread the families of Kansas City will now get some real bread to eat. This old timer tells us that in his opinion there never was a loaf of home-made bread no matter how heavy and solid it might be that didn't taste better and wasn't more satisfying to him than the best loaf of DAKOTA bread he ever ate.

A quail farm is operated in Western Kansas. The quail farm is a wheat field near Kingman. The eggs are gathered every Monday morning and put in an incubator. Last summer records showed one quail laid 106 eggs. The farm plans to turn out 2500 quails this year.

With the help of 20 men, and logs and shingles donated by other citizens, the Arbor community in Houston county has built a relief canning center at a cash expense of \$10. Six more dollars for materials came from the home demonstration club which initiated the project.

Cash for concrete being scarce and old tin cans plentiful for the picking up, a Williamson county garden demonstrator has put down a hundred feet of tin can subirrigation. It is more work than concrete tile and not permanent, but beats no subirrigation at all, is the report.

Collis Bouldin in Gongales county has 150 acres of terraces which he allows paid for themselves in one April day when seven inches of rain fell—three and one-half of that within less than one hour. Without the terraces, erosion would have carried off his whole crop as well as the top soil, he says.

Robertson county had terraced 3,805 acres of land in 1933 by the end of April. Relief labor has been used and the Commissioners' Court furnished machinery at actual cost of operation.

In a county poultry contest in Llano county, first place went to the flock of R. Fishbeck whose flock of 22 hens produced an average of 29 eggs per month per hen. Second place winner was the flock of Robert Boxell.

**with an average of 24 eggs per month per hen.**

**KINGSVILLE:** The sale of canned chicken during the first four months of 1935 brought \$87.25 to Miss Pauline Arnt and her sister of the San Fernando Home Demonstration Club in Kleberg county, according to Miss Effie E McClane, home demonstration agent. Miss Arnt and her sister sold \$134 worth of canned chicken during 1934. Income from the sale of chicken has been used to pay for clothes, for music lessons and for shrubs used in yard improvement work, she said.

**SULPHUR SPRINGS:** Believing that a well arranged, well kept clothes closet contributes greatly toward prolonging the life of garments, Mrs. Robert Johnson, wardrobe demonstrator of the Center Hill Home Demonstration Club in Hopkins county has constructed an adequate closet, according to Miss Lorene Stevens, home demonstration agent.

A row of shelves across both ends and one near the top reaching the entire length of the closet provide space for folded garments, shoes and out-of-season garments. A rod is provided for hanging garments. The shelves were spaced to fit the objects to be stored. By using materials on hand, the closet cost Mrs. Johnson only \$2.15.

**MCKINNEY:** In spite of the dry weather since she sowed her yard in March, Mrs. M. L. Pittman, yard demonstrator of the Bloomdale Home Demonstration Club in Collin county, reports that she has been able to keep the plants alive by frequent cultivation which encourages growth and helps to conserve the moisture.

She told Miss Helen Dunlap, home demonstration agent, that she had her yard plowed up some weeks before to help mellow the soil, and that the mesquite sod obtained from the pasture was broken into blocks containing two or three plants which were set out about 12 to 14 inches apart.

**PAMPA:** Fifty Gray county 4-H club boys were furnished with State Certified mlo, kafir or hegarl seed this spring free of charge by a local civic organization, according to Ralph R. Thomas, county agricultural agent. The only requirements made by the organization were that the boys be enrolled in a 4-H club, that complete records be turned in to the county agent when the demonstration is completed, and that each boy enter an exhibit in the 4-H club show to be held in the fall.

It is expected that each boy who plants a feed crop this year will use the feed in some kind of an animal demonstration when the crop is harvested. All boys carrying on poultry and beef calf demonstrations at the present time will plant feed crops this spring, Thomas said.

**LAMESA:** "Contouring on five thousand acres of the Higginbotham-Harris farms in Dawson county prevented the land from blowing," Roscoe Holton, manager, told Joe C. Williams, county agricultural agent. Mr. Holton says that in cases in which the land was listed deep and contoured, the land was damaged very little. At least 20,000 acres more will be contoured as soon as crops are harvested, Holton said.

I favor the policy of economy not because I wish to save money but because I wish to save the people of this country—Calvin Coolidge.

**DEMONSTRATORS STORIES**

By Alice Glenn Young  
"My tufted bedspread isn't costing me anything," said Mrs. Edgar Shelton, bedroom demonstrator of the Shields Home Demonstration Club, and proceeded to prove it. Mrs. Shelton used five sacks that originally contained laying mash for her hens. These sacks were ripped open, washed thoroughly, and bleached until all the colored markings had completely disappeared. Mrs. Shelton sewed these five sacks together with flat seams so as to make the spread as smooth as possible. To get the thread to use for tufting Mrs. Shelton took the string that was used to tie the cake sacks and washed and bleached it. This string is almost like the regular tufting thread and works up nicely. A design was chosen for the spread to cover all seams so that they would not be noticeable. Mrs. Shelton is going to have a very pretty spread which will add much to the appearance of her bedroom.

Miss Mattie Lee Taylor, bedroom demonstrator of the Brown Ranch Home Demonstration Club, is going to have a tall old fashioned bedstead cut down to use in her bedroom. The bedstead has a very tall head board that is highly decorated with carving. Miss Taylor plans to have all of this carving removed as it isn't particularly attractive and does catch a lot of dust. After looking at some of the newer bedroom suits she has decided to have the head board cut down to look newer and more attractive. Miss Taylor has chosen a design of simple curves that will add much to her room and be easy to clean. This is just an example of what can be done to make old furniture new and attractive at a very small cost and at the same time make your home more attractive and liveable.

Mrs. Tom Popnoe, yard demonstrator of the Silver Valley Home Demonstration Club, has made a lot of progress with her yard since the first of the year. The majority of her rose, jasmine humile, and privet cuttings have lived and are growing nicely. Through the use of cuttings Mrs. Popnoe has planted her yard and with a very small outlay of money. She made her cutting bed in January or February, setting out something like 100 cuttings. Many of her cuttings were killed during the cold weather but enough lived for Mrs. Popnoe to begin the plantings around her home and start her rose garden. Cutting beds are very good investments as they cost very little and are easy to make and care for. Mrs. Popnoe found in planting her yard.

Mrs. R. G. Gardner, member of the New Central Home Demonstration Club, remarked that her family was now eating eight different kinds of vegetables from her garden. The vegetables are carrots, peas, Swiss chard, beets, snap beans, onions, lettuce, and potatoes. Every person should have at least two vegetables every day, one leafy and one starchy, to get the necessary vitamins and minerals in his diet. By having a garden with such a variety of vegetables in it Mrs. Gardner is furnishing her family with enough fresh vegetables to fill the daily diet requirements and keep them strong and healthy. She will also have enough vegetables from her garden to can for winter use so that her family will have a balanced diet the year round.

**Broadcasts of the National 4-H Club Camp at Washington, D. C.**

The story of the National 4-H Club Camp will be told by 4-H club members, Federal and State extension leaders during two radio programs to be broadcast on Monday, June 17, and Wednesday, June 19. The National 4-H Club Camp, to which are eligible two 4-H club boys and two 4-H club girls chosen from each State and Territory because of their excellent records as club members, will be held in Washington, D. C., from June 13 to 19. The camp is held annually to help 4-H members to become better acquainted with the work and facilities of the Department of Agriculture, and to confer with representative members from all parts of the country.

These broadcasts can be heard from 11:30 a. m. to 12:30 p. m. on June 17; and 12:00 p. m. to 12:30 p. m. on June 19 over WFAA, Dallas.

**COMMITTEE ANNOUNCES SHORT COURSE PLANS**

**COLLEGE STATION:** "Every phase of agricultural operations from house to field is included in the program for the twenty-sixth annual Farmer's Short Course to be held at A and M College from July 28 to August 2," says Roy W. Snyder, chairman of the Short Course committee.

"What's more, every subject is tied up definitely with the theme—'The Changing Country Life,'" he added. "The AAA, through its adjustment programs; the Federal Housing Administration, through its encouragement of building and improvement; the work in soil erosion control, are all represented."

Several programs are arranged around the subject of housing. There will probably be one showing some of the details of building and repairing, a program on house planning from the artistic standpoint, and something on storage for the whole farm home. There will also be exhibits showing water systems.

For making the home more attractive, plans have been made for special programs on home beautification such as control of rose diseases and insects, and soil management. This follows the program on rose propagation given in 1934.

Special demonstration courses in syrup, fruit juice, cheese, and mattress making, the potting of plants, and the making of purses and moccasins have been planned in which individuals take an active part instead of listening to lectures.

A program on wild game conservation and the place of wild fowls on Texas farms and ranches has been scheduled. Poultry products come in for their share of attention with a demonstration on scoring poultry products to be given by Miss Zetha McInnis, home industries specialist.

According to the new plan being tried this year, each program has been assigned a certain day. On Monday, the day will be devoted to hogs; on Tuesday, sheep; Wednesday, beef cattle; Thursday, work stock; and on Friday, this special meeting on wild game preservation.

Since AAA discussions have been taking place all over the country, the Short Course committee has planned discussion groups on each commodity. These discussions will be given on the same days that the production program on a particular commodity is given.

Friday morning has been set for the wardrobe contest in which the women will model the dresses they have made by foundation patterns. One whole afternoon program will be devoted to the dyeing and cleaning of fine fabrics, and other programs will be given over to home improvement, recreation and other subjects.

A banquet has been planned honoring county winners in the bedroom improvement contest. At this banquet the State winners in bedroom improvement will be announced.

A special night program for the boys and girls has been planned when gold star pins will be awarded to the 100 most outstanding club boys and the 100 most outstanding club girls of the State. These boys and girls will be entertained Wednesday night, July 31, at a banquet in their honor.

In addition to the regular Short Course programs planned by the Short Course committee, special conferences are being planned by the Texas Home Demonstration Association; the Bee Keepers' Association; the Rural Pastors' and Laymen's Conference; the Registered Certified Seed Breeders' Association of Texas; the Texas Agricultural Writers' Conference; the Agricultural Workers' Association; and the Superintendents of Rural Schools.

**When Spring Is in the Air**

This is the time of the year when that seasonal disease, spring fever, runs its course, an exchange observes. One of its more common manifestations is an urge to clean up one's property, in order to get rid of winter's accumulation of rubbish, both indoors and out. These clean-up campaigns also contribute toward fattening the property owner's pocketbook, inasmuch as they eliminate many ordinary and unnecessary fire hazards. Santa Anna will do well to remember this, as she tries to repeat her fine fire record of 1934.

When a retired farmer moves to town to rest he persists in getting up at 5 o'clock in the morning. A town man's idea of retiring is getting up at 8 or 9 o'clock in the morning.

**THE GRADUATE**

By Glue Wiedler  
A little preaching to my own son which may well be applied by other parents to their own.

My son, I have done all I can for you now. Thru hardships and denials of many necessities I have given you every advantage that was within my means this far in your life. Advantages which I could easily have had without distress to any one, but were denied me.

There are three more to follow you thru school and you now have to exert your energies in a livelihood of taking care of yourself in many of the necessities and wants of life.

Now this is what I want you to know and I realize that you have carefully viewed the examples of many young men who have chosen the wrong course of life.

There are two ways of making a living. One by honest labor, be it by brain or brawn. The other is the easy way, trying to get something for nothing. In other words you will have to choose between two jobs.

At one of these jobs you will have to work 8 or 9 hours a day, probably 6 days a week. You will receive a man's pay after you have accustomed yourself to the work and proven yourself useful to your employer. You will be free after working hours and have your evenings to yourself. Until you take the marital step and establish a home of your own, you still have this home. You will have your own room as in the past, eat dinner with your mother and me and your brothers and sister. If you like, go out with your friends.

You can have a sweetheart and with her go to entertainments, the theatre and church

**occasionally, vacation trips and all the things that tend to make you happy.**

Of course, there will come days when your work will seem monotonous and not worth while. You may think you know more than your employer. But if you stick to this job you will always be a man, have your freedom and live a normal, useful, happy life.

In the words of my old friend Elbert Hubbard, "Carry the message to Garcia, and some day you will arrive."

The other job you may be tempted to choose is the seemingly easy money job—trying to get something for nothing. But you will be a law-breaker. Eventually you will be working for the state in a miserable factory with the most miserable men. When night comes they will lock you up and you will sleep on a narrow cot. You will have no sweetheart, no friends, no amusements, no father or mother to dine with you and nothing to hope for or look forward to.

These are the two jobs. Which one are you going to choose?

The vicious circle: Man works himself half to death getting together a little property on which to pay taxes and then finishes the job getting the money together to pay the taxes.

Of course it was an old fashioned person who said: the farmers generally keep their stock off the highways but parents turn their youngsters loose out upon the roads every night.

Someone suggests as a means of paying off the public debt a public lottery. According to this person's way of thinking the gambling spirit of the American people would result in the debt being paid off in a year.

**COLEMAN JUNCTION, N. D. C.**

"Mattresses of the new type do far superior to the old type," members of the Coleman Junction Home Demonstration Club learned at the meeting last Friday in the home of Mrs. Jimmie Lee Van Dyke. The assertion is confirmed by their distinguished appearance. They are smart and well tailored, and colorful and beautiful in their simplicity. And most important of all, they have smooth surfaces, free from knots and cotton tufts; and there are handles for convenience in turning them. They are also exceptionally light weight.

Mrs. Hardy, bedroom demonstrator, will be awarded a mattress for drawing, one of the lucky numbers in the county.

All Home Demonstration Clubs are looking forward to a most enjoyable encampment in August.

The hostess served cake and lemonade to nine members and one visitor, Mrs. Lyle Fearce of Camp Taylor, Kentucky.

The next meeting will be Friday, June 21, at the home of Mrs. Jim Winslett.

A number of years ago those living along the railroad tracks were visited at more or less regular intervals by tramps seeking a handout at back doors. As a rule they were ragged and dirty and had no pride in their personal appearance. Some were even quite forbidding in appearance. Since the coming in to general use of the automobile the "tramp" has disappeared from most sections.

Our ambition is to one day drive a ninety ton caterpillar tractor on a narrow road and meet all the road hogs who have crowded over on our side of the road during the last dozen years.

*An Item that has not Increased*

Through the American principle of private initiative in business, electric rate reductions have been continued along with improvement in service. According to the United States Bureau of Labor Statistics, electric service costs for the United States as a whole are now **39% lower** while the cost of living now is **38% higher** than in 1913.

According to the National Industrial Conference Board, food is now **25% higher** than 1933, clothing **22% higher**, and rent **8% higher**. Total taxes, including the numerous Federal taxes the consumers pay indirectly, have increased at an alarming rate and for the average family now amount to more than ten times the cost of electric service.

Net average rate for all the 160 communities served by the West Texas Utilities Company is today more than **60% below** that of 1923. Electric service is cheap. You should use more of it.

YOUR CHILD AND THE SCHOOL By Dr. ALLEN G. IRELAND Director Physical and Health Education New Jersey State Department of Public Instruction

THE SWIMMING HOLE Children should never be deprived of the pleasure, the exercise, or the safeguard which swimming affords.

It's folly to be always saying "No." And it's worse to scare the child. Probably the sensible move is to get acquainted with the swimming hole.

There are many instances where that "ole swimmin' hole" has been transformed into a place of beauty and a cause of community pride.

(Should a child's summer meals differ from those of winter? Next week Dr. Ireland will give advice on this problem.)

Lackey's Surprised by Children Mr. and Mrs. H. L. Lackey were very agreeably surprised last Sunday when their children unexpectedly arrived to visit with them.

Children from out of town were Floyd Lackey of Stephenville, Mr. and Mrs. Curtis Woodard and children of Lamesa, and Mr. and Mrs. Grady Adkins and children of Winters.

A woman reader of the paper informs us that she can tell by the way a woman carries her baby whether it is her first or her fourth.

NEWSPAPERS ERRORS

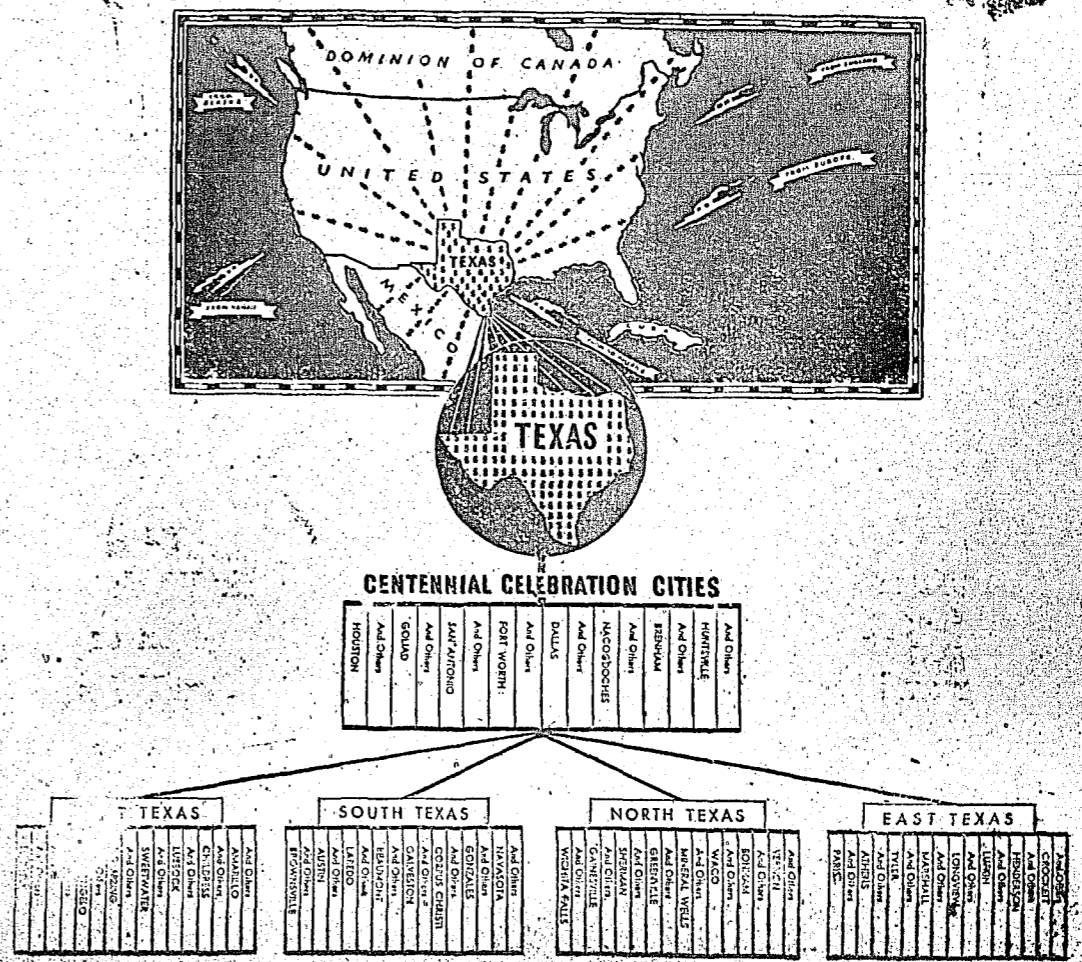

Yes, newspapers make mistakes. There is no concealing the fact, because the errors themselves are spread where all the world may see them. But is there as much inaccuracy as people often think? In no business and in no profession, save that of pure science, is the premium on accuracy so high, the penalty for inaccuracy so prompt and the proportion of accuracy so great.

There isn't a newspaper man anywhere who does not know that, trivial though his error may be, some one will catch it. Even when it escapes the watchful editorial gaze, even when no one in the office picks it up, even when he himself is unaware of it, there are still the

old subscribers—thousands of them—vigilant, alert, aggressive, resentful, eager to put their finger on the "break" communicate with the editor and "show up" the writer and the paper. These old subscribers are by far the most valuable assets a newspaper can have. Their militant microscopic scrutiny is the finest possible corrective influence.—Canton Times

With so many government inspectors snooping about, it is rather easy for impostors to pull their stuff. In Nashville a bandit armed with a fake search warrant gained admission to two homes and robbed them of several hundred dollars. The price of safety—common sense.

Mr. and Mrs. Ernest Swan and Miss Jewell Buford of Coleman visited Mr. and Mrs. W. L. Swan Friday night. Miss Pauline Williams had the misfortune of receiving a rattle snake bite last week, but seems to be recovering all right now. Mr. and Mrs. G. A. Brinson, Mr. W. L. Swan, and Mr. Jesse Swan drove to Lake Brownwood Sunday afternoon.

Methodist Church

Sunday June 16. Morning: "Two Men and Ten Grasshoppers." Night: "Personality Plus." First of a series of sermons on "Peculiar People." Plan to attend both services Sunday. Our Church School attendance is growing. Make a special effort to be out next Sunday at 10:30. Prayer meeting at Red Bank June 26th. No prayer meeting June 19th. Rev. Vanderpool will be in Dallas attending the School for pastors. Mens' Banquet this Friday night at 8 o'clock. Plate 40c. All men invited to attend. Bring a guest with you. This will be the organization meeting of our club.

Baptist Church

Last Sunday was a fine day with us. Best Sunday School attendance we have had in some time. We are especially glad to see so many of our young people who return from college and teaching come immediately into the services. Next Sunday will be "Mission Sunday" with us. The pastor will preach a missionary sermon at the morning hour and we will make an offering to Missions. The night service will be given over to the pageant "The Heroine of Ava," a missionary playlet presented by the Y.W.A. We invite you to worship with us. HAL C. WINGO, Pastor.

Christian Church

We gladly invite you to attend our services. Let every member come. The stranger is welcome. It is a good place for the home people to go, therefore, all are invited. "The Man in Thornes and Purple" will be the preacher's subject Sunday morning. We shall be pleased to have you attend all the services. M. B. WOMACK, Minister. Audas, Smith has returned home from Abilene, where he completed his work in Hardin-Simmons University last week. V. L. Grady left Monday for a two weeks visit in the Hayden Miles home in Midland. Mr. and Mrs. Bill Stiles spent last weekend visiting in Christoval. Misses Mary Nell and Julia McClendon of Brownwood visited friends in Santa Anna Sunday.
