meritorious service in Korea during the period 2 July through 2 November 1950. Throughout the campaign while serving in the capacity of a cook for the Headquarters Company Mess he afforded valuable assistance to his section and aided greatly in the maintenance of a high state of moral within the company. Although often times handicapped by poor facilities and frequent moves, he discharged his duties with a cooperative attitude. In addition to his assisting in the procurement and preparation of field rations, he performed duties as a truck driver. Cpl. Down's outstanding performance and devotion to duty aided materially in the successful accomplishment of his organization's mission and reflect great credit on himself and the military service.

### You're Due To Meet Mr. Chigger Again This Summer

With a few well placed bites a tiny little six legged animal, so small it's hardly discernible without a microscope, can make a red-eyed, itchy insomniac out of a sound sleeper.

Whether you call them red bugs, harvest mites, chiggers or Eutrombidium alfreddugesi, their scientific name, State Health Officer warns you're due to meet them this spring and summer, especially in lawns of Bermuda grass.

Chiggers, Dr. Cox says, can spot an unkept lot a block off, and take to those places like a hungry chicken takes to corn. When you're enjoying a lounge outside on a balmy spring evening, they'll go to work. The itching starts at bedtime, and continues all night.

Seems as though chiggers have declared open season on humanity beginning about May and lasting until cold weather of fall and winter reduces their (the chiggers') numbers. Contrary to common belief, Dr. Cox says, they do not burrow into the skin, but merely attach themselves by

their mouthparts and suck blood until they're engorged.

That severe itching is caused by an anti-coagulant material they inject into their host, according to the health official. Favorite spots seem to be feet, hands and stomach. Secondary infections in the form of boils and sores results from persistent scratching.

Dr. Cox says chiggers are tough to control in heavily wooded sections, but in lawns, camp sites and picnic grounds where grass can be cut close, the job can be done inexpensively and without much trouble.

He recommends dusting or spraying the area with crude benzene hexachloride at the rate of 2 to 5 pounds per acre.

"Your summer will be more pleasant for the effort," the doctor advised.

Homer Fletcher of Austin, visited from Wednesday to Friday of last week with his mother, Mrs. Mary Fletcher.

### Local Red Cross Way Short Of Goal; Drive Still Open

Mr. Hardy Blue, chairman of the local Red Cross Drive, reports that the drive is just over the half-way mark of the set quota. So far \$367.20 has been contributed, with the goal being \$600.

Mr. Blue states that some of the workers are still on the job, but most people seem to think the drive is over. The drive will remain open for some time yet, and if you have not donated to the Red Cross and would like to, you may do so by leaving your donation at the Santa Anna National Bank, or leaving it with Mr. Blue.

noon was spent in making extensive plans for the furtherance of the program of Advance. Every woman in the Methodist Church is to be given an opportunity to participate in carrying forward this great work.

A good attendance was noted at the Monthly Men's Breakfast. Using the first Psalm as a bases several important questions were answered in brief talks by T. K. Martin, J. T. Garrett, Dow McBride and O. L. Cheaney.

The Board of Education met on their scheduled night, at which time further plans were made for the Vacation Church School to be held May 28 to June 6, as previously announced. This group, to which is delegated the entire educational program of the church, realizes the bigness of the task, and puts forth every effort that our church school may be provided with the best materials, teaching personnel and equipment possible. Mr. Hardy Blue, as general superintendent, is chairman of this Board of Education. He is known and loved by all from the youngest in the Nursery to the oldest in the Adult Division and has the hearty cooperation of the entire staff of workers.

The "Spaghetti Supper" last Friday evening was a decided success. The food delicious, the flowers beautiful, and the attendance good, considering the fact that a bad dust storm blew up just before the hour for meeting. F. Z. Payne, Jr. was Master of Ceremonies. The pastor spoke in "Evidences of God's Confidence in Me". A number of short films were shown on the new movie projector, the purchase of which is being sponsored by the Youth Division as a Memorial to Tommy Martin. Mrs. Ruby Harper and her corps of helpers deserve much credit for the delightful occasion, which was so successfully put over with such a short time for publicity and preparation.

Let us not forget our regular Monthly Family Night with its Fellowship Supper the third Wednesday evening. Featuring a "Fishing Party" some of the women are responsible for the program. Every one is invited to this and all other activities of our church if you are not obligated elsewhere. A most cordial welcome.

Mr. and Mrs. C. Turpin of Gorman visited Thursday afternoon with Mr. and Mrs. Mace Blanton.

**NEW YORK WINS**

Tom Mills, Jim Harris and Hardy Blue were in Austin last Friday to watch the New York Yankees play a practice game with the University of Texas. The Yankees won by a 5-3 score. The group reports being in rain most of the way to Austin, but prevailed to bring much of it home with them.

**'We Are His People'**  
Lesson for April 15, 1951

WHEN A Christian today in church repeats the ancient Psalm, "We are His people," if he knows what he is saying he is ascribing himself with Abraham, Isaac and Jacob. The God of the Bible is not a "great first cause" or a "principle" of any sort. First, last and always He is the God of the Covenant. Over and over again He is called the "God of Abraham, Isaac and Jacob."

The stories of these men are not mere campfire tales of legendary ancestors. They are the story of how these men were related to God in a solemn covenant; they were "God's people" in a special way. In the New Testament we find the strange yet stirring declaration that God was "not ashamed to be their God."

**The Living God**  
THE FULL meaning of what the Bible has to tell us about God can be discovered best by coming toward an understanding of what the covenant idea means. What is meant by the Covenant God, one who makes covenants with men?  
First of all, it means that God is living. He is not a mere observer of events with which He has nothing to do. If we could put it into modern American language, God does not sit in the bleachers; He plays the game. He does not, as it were, read the newspapers to see how the war against evil goes on; He is out on the field directing the battles.

God is not something to be talked about, a problem, an X. He is not a creation of men's minds; God is not a name for an idea. He is more alive than any one who thinks about Him. He is more real than any who ever doubted Him.

**Only Persons Make Covenants**  
THE GREAT difference between things and people is that people have wills of their own. And God is a person. You will not find in the Bible any statement directly saying that God is personal, or a person; but every time a Covenant between God and man is mentioned, the idea of personality is there.

No one who ever knew God would think of calling Him "It" even with capital letters. If we say "He" about God it is not because we think He is masculine; it would be quite as true to call Him Mother-God as Father-God. As Dr. Reynolds, Presbyterian missionary to Korea, has pointed out, all the best qualities we associate with motherhood are in the Bible attributed to God. So if we call God "He" what we are emphasizing is that He is personal, that He has intelligence and will of His own, no vague "It" or "That" or "All."

Then the Covenant God is one who takes the initiative. The Bible tells of a God who does not wait on a snow clad peak of eternity till lost mankind somehow breaks a trail up the vast ranges to His lofty throne. It tells of a God who walks in the valley of the shadows, seeking men. All religions have gods, some of them very "high and lifted up"; but only the Bible reveals the true God, whose mercy does not have to be bought or coaxed, but a God who approaches man in mercy, a God who is all-giving Love.

**God Makes His Own Terms**  
AT THE same time, God remains God. He is not on a level with man. He takes the initiative, but also He makes His own terms. We cannot dictate to Him. We cannot draw up our own contracts, so to speak. God made promises to Abraham, Isaac and Jacob, and we are "heirs of the promises."

But these promises are not promiscuous. To put it quite simply: God is not on friendly terms with every one. He is a friend to all who will be His friends. But with those who turn their backs, who go their own ways, who care little or nothing for His great purposes, who do not seek His will, God makes no covenants.

God's will is the welfare of mankind. God's will is the destruction of evil, the creation and triumph of good. God is light and in Him is no darkness at all. If we love darkness rather than light, we have no right to be called His people. We cannot call ourselves His people because we are Americans, or because we belong to some church; we can call ourselves His people only if our hearts are in tune with His.

**Buzz And The Off-Key Baritones**

Reverend Lester of the church out on Hillsboro Road coaches his Young Peoples' Choir late Thursday afternoons—after high school basketball practice lets out.

Buzz Ellis pastures cows next to that church. Around 5 o'clock they need to make a lot of racket about wanting to go home. That made it kind of rough on the choir.

When Buzz learned what was going on he said to Reverend Lester: "I never yet heard of a cow that could moo on key. So, I'll just move 'em in a little earlier..." This started me to thinking. Buzz

doesn't go to that church. And he's so tone-deaf he couldn't carry a tune in a bucket!

From where I sit, you might say that Buzz didn't have much in common with those singers. But he doesn't divide folks into groups he's "with" or "agin." Your politics, your personal preferences—or the fact that you like a moderate glass of beer—mean nothing either way to Buzz. He's a real neighbor to everybody!

## Compliance With OPS Regulations Left To Merchants

Securing copies of federal price ceiling regulations and compliance with them is the responsibility of the individual merchant.

Ellis H. Boyd, Fort Worth District Director of the Office of Price Stabilization, said that deadlines are rapidly approaching for several types of business, and that doing business without complying with regulations will be in violation of the federal laws.

"Our enforcement staff is being organized and investigators will be sent into our 53-county district to check on compliance with the regulations," Boyd said.

Each of the regulations has been well publicized through our newspapers, the radio stations and the Chambers of Commerce in most cities. It is now up to the merchant, large or small, to get a copy of the regulations and comply.

"We have conducted meetings in every area of the district, in an effort to assist the merchants," Boyd said.

Boyd said that the Fort Worth office is anxious to help every businessman in the district. He pointed out that most merchants want to comply with the program of stabilizing prices, which is for the benefit of every resident of Texas and the United States.

"There are some chisellers, I'm sure, but most of our merchants are good men. We are simply urging them not to delay any longer in complying with these regulations. It's just good business for everyone of them to help us make this program work," Boyd concluded.

The director added that merchants seeking information should write the Fort Worth District Office of Price Stabilization at 2914 W. Lancaster for information concerning the regulations.

All types of business and industry must keep all records of the base period, December 19, 1949 through January 25, 1951. These records must be on file in the place of business and available for inspection by a representative of the OPS.

Boyd listed several of the categories affecting the majority of businesses in the Fort Worth District.

They are as follows:  
Livestock slaughtering - Several regulations apply, but a slaughterer who has not registered by April 15 will be prohibited from butchering livestock after that date.

Restaurants, cafes and all types of eating and drinking places, went under special regulations April 1. They must file a report with the District OPS at Fort Worth by April 30.

Service Stations were placed under regulations that govern the sale and delivery of gasoline, greasing and lubricating oils, purified petroleum gas and some other products, effective March 25. They must file a report and post correct prices in their places of business as indicated by the

regulation.  
Retail and wholesale grocery stores are under special regulations that control 60 percent of the food items. This regulation became effective April 5, and all grocery concerns, wholesale and retail, must be in compliance by April 30.

Numerous other types of retail firms are under Regulation No. 7, and there are 2,044 such stores in the Fort Worth District, such as department stores, men's clothing, women's apparel, shoe, furniture, household goods, floor coverings, and several others. Price charts under this regulation must be filed with the Fort Worth office prior to April 30. Unless these charts have been acknowledged by this office prior to May 30, the retailers under this regulation cannot sell items listed under regulation 7.

This regulation has been amended to include musical instruments, radio and television sets, phonographs and records, houseware, notions, luggage, sporting goods, silverware, chinaware, glassware, jewelry, watches and clocks.

## First Baptist Church News

The Loyalty Campaign at the First Baptist Church is still the main emphasis in the church program. The first six Sundays of the campaign show the following progress over the same Sundays a year ago: Sunday School average attendance 246 as compared with 213; Training Union average attendance 83 as compared with 58. Similar progress is noted in the church attendance. The pastor has stated that the 10 weeks Loyalty Campaign is not over. Each one can help to make the last four Sundays the best of them all.

Aubrey Brewer, Training Union Director, was all smiles last Sunday evening when 123 were present. That meant an 123% attendance, because the enrollment is only 100. Twenty-one attended the Junior Training Union picnic last Saturday morning in Ranger Park. The picnic was under the direction of Mrs. S. R. Beard, Mrs. Granville England, Mrs. Paul Pembroke and Mrs. Harry C. Wigger. Rev. Wigger has announced as his sermon subjects for Sunday, April 15: Morning, "A Zealous Lord"; and evening, "Precious Promises."

Sixteen from Santa Anna helped to swell the Coleman County Baptist Worker's Conference attendance to more than 350. The meeting was last Monday night at Gouldbusk Dr. W. A. Todd. Howard Payne College, was the inspirational speaker. The May 19 meeting will be at the Whon Baptist Church. The Whon Church received the attendance banner.

A full house enjoyed the Colorful Choir from the Little Zion

Baptist Church, Brownwood. This program was sponsored by the local Brotherhood. The Associational Brotherhood will meet at Santa Anna, Tuesday, April 17. Supper will be served at 6:30 p. m. All the men are invited to attend.

## Preserve That Flavor In Coffee

Since coffee is a favorite beverage in most American homes, home management specialists with the Texas A. & M. College Extension Service state that the coffee maker is important and it should have good care.

The home management specialists warn that good coffee can be made only in a clean coffee maker. After each use, wash the coffee maker with hot water and soap or other dish-washing detergent and rinse with clear water. A brush is a handy tool for reaching parts difficult to clean by hand. If stains appear they should be removed by methods recommended for the particular metal of which the coffee maker is made.

In choosing a coffee maker, specialists advise looking for one convenient to use and the right size for the family. When company comes coffee can be made twice or a larger coffee maker can be kept in a reserve for such an occasion.

The handle should be comfortable to hold and placed so that the coffee may be poured easily. The top should be constructed so that it will not fall off easily. A lid or spout with a sharp point facilitates pouring and likely will not drip. Seams or crevices should be avoided because they collect sediment which becomes rancid and gives an off-flavor to coffee.

### ACC To Host West Texas Seniors Friday, April 20 for Training

Ablene Christian College will be host to hundreds of West Texas high school seniors April 20 for the first annual Abilene Conference on Citizenship and Vocational Guidance.

The one-day program is designed to help area students emerging from high school this spring become good citizens. It will do this by telling them, in general, about the opportunities in America and, more specifically, about those in the vocation of their choice.

Sponsored this year by the West Texas Chamber of Commerce and ACC, the conference will rotate among Hardin-Simmons, McMurry, and ACC in years to come.

The program will have two sessions, morning and afternoon.

In the morning, students will hear talks by John Ben Shepherd, Texas Secretary of State, and Robert Stripling, former legal counsel for the House of Representatives' Un-American Activities Investigating committee.

The afternoon will be devoted to vocational guidance meetings. Seniors will receive help here from Abilene citizens who have been successful in various fields of work.

Students attending the conference will be guests of the college for lunch; their sponsors will be guests of the Abilene Chamber of Commerce.

The ACC a capella chorus, band, and quartet will entertain the visitors during the day.

Early this week, John Stevens, dean of Men at ACC and coordinator of the program this year, said some 700 students representing high schools within a 100-mile radius of Abilene had already sent word that they were coming to the conference. About 200 more are expected to attend.

"We hope to help them to be better citizens," Dean Stevens said. "We especially want to help them with a problem that is on

all of our minds right now—choosing the right lifework."

### Auto Accident Deaths And Injuries Took Sharp Jump Over 1949

HARTFORD, CONN. (SpI) — Automobile accident deaths and injuries in the nation took a sharp jump last year over 1949, according to figures released today by The Travelers Insurance Companies.

The report indicates that the 1950 death toll of 35,500 is the greatest since 1941, peak year in highway and street deaths when 40,000 were killed.

The injury total soared to a new all-time high of 1,799,800 in 1950, displacing the previous high of 1,564,000 established in 1949. The 1941 figure was 1,438,000.

These statistics are highlights of "R.I.P.," seventeenth in the annual series of traffic safety booklets issued by The Travelers. The Hartford insurance firm maintains an accident statistics bureau which collects and analyzes data from the 48 states and the District of Columbia.

Among specific causes of deaths and injuries, excessive speed once again raised its record. "Speed took 13,300 lives last year,

Speed caused 475,500 injuries last year. Speed was the dreadful mistake made by one of every three drivers involved in last year's serious accidents," says the booklet. Although there was only a small increase in the total number of pedestrian fatalities during 1950, there was a sharp increase in the number of persons killed crossing streets between intersections. "Jay-walking" took the lives of 3,740 last year, an increase of 24% over 1949. Last year, for the second time since the war, the percentage of 18 to 24-year-old drivers involved in fatal accidents took a downward turn. But the booklet points out that while drivers in that age group "Make up well under 20% of the total of all drivers last year (the group was responsible for more than 24 percent of 1950's fatal accidents".

Every now and then someone tells us, "Why so and so from Somewhere visited us all last week and you didn't have a thing about it in the paper?"

Or perhaps we neglected a wedding or a death, even... or a club meeting.

# Oil Activities IN COLEMAN COUNTY

H. A. Birdwell has completed the No. 1 M. E. Harris, Samuel Sprague Survey 864, a Breneke Sand test, two miles northwest of Santa Anna and has asked discovery allowable and new field designation for that project.

It is 3,000 feet from nearest Breneke Sand production and is separated by dry holes, the operator claims.

On 24 hours potential test it gauged 33.06 barrels of 45.2 gravity oil in 24 hours flowing through 3/4 choke with 25 pounds pressure on casing and 15 pounds pressure on tubing from the open hole at 1,849-72 feet. Operator treated with 60 quarts of nitro.

Anzac Oil Corp. has completed one well in the Anzac-Morris field and has staked location for a second.

No. 36-H J. P. Morris Estate will be a new location in that area 16 miles northeast of Coleman. Location is 2,195 feet north and 200 feet west of the northeast corner of Section 73, HT&B Survey, but in J. Harris Survey 77. Projected depth is 2,900 feet with rotary rig.

Anzac has completed the No. 15-H Morris, J. Harris Survey 77 for 55.5 barrels of 45 gravity oil in 24 hours pumping from the open hole at 2,271-81 feet. Operator treated with 20 quarts of nitro.

Charles W. Scott is to drill two 2,200 foot rotary offsets to production in the Ogden-Mabee field four miles north of Talpa.

No. 1-A Bouldin will be 1,810 feet from the north and 330 feet from the west lines of Section 318, Frances Owen Survey.

No. 2-A L. Bouldin will be 1,810 feet from the north and 990 feet from the west lines of Section 310, Frances Owen Survey.

Both are Serratt Sand projects.

Richard B. Whittle has spotted two new locations in the Santa Anna field.

The No. 1 Ozro Eubank is to be one and a half miles west of Santa Anna, 150 feet from the south and 165 feet from the west lines of 40-acre lease in J. Scott Survey.

Same operator's No. 2 Ozro Eubank will be 150 feet from the north and 450 feet from the east lines of Block 2, Jonathan Scott Survey 665.

Both are projected to 1,990 feet with rotary rig.

An offset to production two miles west of Santa Anna has been spotted by Davis & Calvin, et al. It will be the No. 4 C. D. Bruce, 1,450 feet from the north and 1,400 feet from the west lines of Block 6, J. Scott Survey 665. Permit depth is 1,975 feet with rotary.

Two Coleman County wildcats were spotted Friday.

In the area one mile east of

Tapla, H. M. Naylor Oil Co. is to drill the No. 1 H. M. Parker as a 4,500 foot rotary wildcat, 330 feet from the north and east lines of E. T. Survey 113.

Charles W. Scott of Dallas is to drill the No. 2 Belle Broad (Ben Cox) in the area one mile southwest of Silver Valley. Location will be 1,770 feet from the north and 1,007 feet from the east lines of Section 7, HT&B Survey and 933 feet northwest of a gas producer.

Projected depth is 3,590 feet with rotary.

H. M. Naylor Oil Co. has also spotted an offset to production two miles northeast of Talpa, 3,810 feet from the north and 330 feet from the east lines of Section 310, Frances Owen Survey. It will be the No. 3 C. E. Kennedy. Permit depth is 2,500 feet with rotary rig.

Al Brown and Melvin Rubin will drill the No. 1 L. R. Heff, a 2,500 foot rotary offset three miles southeast of Coleman, 330 feet from the east lines of Block 16, Daniel A. Murdock Survey 738.

Kingery and Harmonson No. 1 A. C. Middleton, HT&B Survey, A-413, wildcat three miles south of Silver Valley, has been plugged at 3,620 feet.

Anderson, Ward & Jones, et al. have spotted a 3,900 foot rotary wildcat, four miles southwest of Novice.

That prospector will be the No. 1 Stevens, 1,400 feet from the south and 4,850 feet from the east lines of Section 22, H. Warfield Survey.

Three more wildcats were staked in the county on Monday.

A 4,000 foot rotary test was spotted by Homer E. Ogden, et al. in the area four miles north of Talpa. It will be the No. 1 E. O. Herring, et al. 150 feet from the south and 660 feet from the east lines of W. E. Pritchard Survey No. 122.

W. O. Fortenberry has staked a 1,990 foot rotary prospector two miles west of Santa Anna, 150 feet from the north and east lines of Block 53, J. D. Dillon Survey 755.

Two miles northwest of Santa Anna, Frank Wills of Brownwood is to drill the No. 1 Ethel M. Bobo as a 1,900 foot cable-tool wildcat, 2,767 feet from the east and 1,285 feet from the south lines of South Soraque Survey 664.

H. M. Naylor has completed the No. 3 Kennedy, Section 310, Frances Owen Survey, offset one mile northeast of Talpa. It gauged 655 barrels of 42 gravity oil in 24 hours pumping from the open hole at 2,180-2,200 feet.

An offset to production one mile south of Shield has been staked by K. L. Fenner of Albany.

That will be the No. 1 J. Richard Dillingham, 1,620 feet from the south and 3,478 feet from the west lines of Block 11, L. C. Manson Survey 80. Permit depth is 1,850 feet with rotary rig.

W. E. Step and L. J. Maxwell,

et al. have re-entered the No. 2 Mrs. George Sparkman, S. Crooks Survey, an offset to Breneke Sand production two miles south of Coleman, and completed that project.

It gauged 12.83 barrels of 43 gravity oil in 24 hours flowing through 48-64 choke with 70 lbs. on casing and 30 pounds in tubing from the open hole at 2,108-25 feet.

Gas-Oil ratio was 31,150-1. Operator had temporarily abandoned that project in November of 1949 when trouble was encountered because of too much gas.

H. M. Naylor Oil Co. has plugged and abandoned the No. 6 E. E. Evans, North Talpa Serratt Sand offset one mile north of Talpa, Section 68, Block 2, BBB & C Survey, at 2,323 feet.

An old-timer is one who remembers that when two girls discovered a man following them they called a cop. Now they match for him.

Most men don't deceive their wives. They just think they do.

The fellow who plays second fiddle usually has to listen to a lot of chin music.

Nature is wonderful. A million years ago nobody knew that we'd have to wear glasses; look how conveniently she has led our ears.

The reason your money doesn't come back to you is that it travels too fast to make a u-turn.

We were not surprised that the wife won a slogan contest. But what did amaze us was that she said anything in 25 words or less.
