## Mountaineers Lose To Bangs Friday; Journey To Clyde For 2nd Con. Game

The Mountaineers suffered a 7-6 defeat in their first conference game when they journeyed to Bangs last Friday night. The game was fairly even throughout and was anybody's game until the final whistle blew. During the first period Santa Anna penetrated to the Dragon 3-inch line but failed to muster enough power to force the ball over on their fourth attempt. Early in the second period the local lads got a break when the Dragons fumbled on their 22-yard line and the Mountaineers recovered. Charles Scarbrough picked up a first down, pushing the ball down to the Bangs 5. Melvin Pollock took the ball on the next play and crashed it over for the first counter. Bass failed to kick to extra point and the Mountaineers led 6-0 at the half.

Very early in the third period Bangs pulled a three-way reverse that ended up in a pass that was completed for 42 yards and their only TD. The pass was from Pierce to Tyson. Tyson converted and Bangs took the lead. Midway in the fourth period the Mountaineers penetrated to the Bangs 11-yard line and lost the ball on downs. Bangs punted to the Mountaineers and they returned the ball to the Bangs 29-yard line, one ground play lost a yard, a pass was no good, another attempted pass lost 13 yards on a fumble, another pass was no good and Bangs took over. Hard driving line plays pushed the Mountaineers back to their own 2-yard line where Bangs fumbled again and the locals recovered. The Mountaineers completed two passes as the game ended with them being on the 50-yard stripe.

Santa Anna made 6 first downs and Bangs 7; Bangs gained 156 yards rushing, Santa Anna 115; Santa Anna lost 26 yards rushing and Bangs 16; Santa Anna attempted 14 passes, completed 3 for 98 yards and Bangs attempted 5, completed 3 for 55 yards; both had one pass intercepted; both punted four times, Santa Anna for 72 yards and Bangs for 121 yards; Santa Anna received two penalties for 10 yards and Bangs received 5 for 55 yards; Bangs lost the ball 3 times on fumbles, Santa Anna none.

### JOURNEY TO CLYDE

This week the Mountaineers will journey over to meet the Clyde Bulldogs. In district competition Clyde has won 2 games, one a forfeit from Rising Star and the other a 32-7 defeat to Bangs, and last week they took a 27-0 beating at the hands of Cross Plains. Clyde had been predicted to win over Cross Plains by one touchdown.

The only comparison that can be made between Santa Anna and Clyde is the Bangs games. Clyde beat Bangs 32-7 and Bangs beat Santa Anna 7-6. However, in overheard conversations after the Santa Anna-Bangs game, (and one person who really

## High School Band To U. of T. Band Day

The Santa Anna High School Band, under the direction of T. K. Martin, will attend Band Day at Texas University November 17. Two awards will be given in Class B. A first division award will be given for a band of 55 members or more and a second division award for a 55 piece band. The awards are the same for Class A bands.

We will leave early the morning of November 17 and return that night. We will march in a down-town parade at 10 a. m. and attend the Texas University-T.C.U. football game that afternoon.

The band has also received an invitation to Mid Western, but will not be able to attend because the date conflicts with other school activities.

should know stated that if Bangs played like they did Friday night all the time they would not have lost either of their other conference games) it gives this writer a feeling that the Mountaineers stand a very good chance to overcome their defeat last week and bring home a winner.

The better the crowd the Mountaineers have at Clyde rooting for them the better their opportunity to win. Let's all be there rooting for them.

### DISTRICT GAMES

Conference games in District 7-A this week will find Santa Anna at Clyde; Bangs at Cross Plains; and DeLeon at Wylie. The only non-conference game will find Class B Baird at Rising Star.

Results of games in the district last week saw Santa Anna fall to Bangs 7-6; Cross Plains smothered the favored Clyde Bulldogs 27-0; and Rising Star fell to Wylie 33-6.

## Charles Hale Returns From Korea

Sgt. Charles Hale, son of Mrs. Claude Hale, returned to Santa Anna to spend a month leave after being in Korea since September of 1950. Flying from Seoul to Tacoma, Washington in 4 days he came by train from there.

In the radar service, he was usually a few miles back from the front lines, but for eleven months he was near or between the lines of fighting. On August 29 he was presented the Bronze Star for meritorious service.

Sgt. Hale will report to Fort Worth on November 17 for re-assignment.

## City Library Has Many New Books

Some of the most talked of new books are now on the shelves of the City Library, as the policy of the Library Board is to keep the reading public up to date.

New books received or ordered within the last two weeks are too many to mention, some of the more popular being "Kon Tiki" by Heyerdahl; "The Home Place" by Fred Gipson; "White Man Returns" by Keith; "Joy Street" by Keyes; and "Proud Flags" by Mason.

Several of the Hardy books for boys and the Nancy Drew mystery books for girls are also new in the library, as are three new books about Texas. Norman Vincent Peale's "The Art of Real Happiness" and Montserrat's "The Cruel Sea" have been received here recently.

The library is open from 2 to 5 every Saturday, and library cards are for sale there, at 50 cents for 3 months or \$1.50 for a year.

Mr. and Mrs. W. E. Vanderford visited in Oglesby and Waco last week.

Great Lakes Naval Training Station, Ill., has the largest indoor swimming pool in the world.

The first rodeos on record were held in Greece.

Chinese checkers is unknown in China.

## Claud T. Conley Buried October 11

Funeral services for Claud T. Conley, age 71 years, 6 months, and 19 days, a resident of Santa Anna since 1904, were held at the Church of Christ Thursday, October 11, at 4:00 p. m., with the Rev. George Hughes of Blanket officiating. Conley died in the local hospital at 8:00 p. m. Wednesday, Oct. 10, after an illness of about two weeks.

Claud T. Conley was born to Mr. and Mrs. Will Conley at Round Rock, Texas, March 21, 1880. He came to Santa Anna in 1904 and has made his home here since that time. He was married to Miss Eva Cheney of Trickham, at Coleman, February 9, 1924. To this union two children were born, both of whom survive.

For the past several years Mr. Conley had been employed as caretaker of the local cemetery. He was a member of the local Church of Christ.

Survivors include the widow, Mrs. C. T. Conley of Santa Anna; two sons, Winston Conley of Temple and Ralph Conley of Odessa; two grandchildren, Tony Conley, 4, of Odessa and Sherry Lynn Conley, 18 months, of Temple.

Pallbearers were: Clifford Stephenson, W. L. Campbell, Emzy Brown and J. D. DeSha of Santa Anna; Tom Preas of Brownwood and M. C. Doan of Houston.

Interment was in the Santa Anna Cemetery under the direction of Wright's Funeral Home.

Friends and relatives from a distance who were here for the services were: Mr. and Mrs. George Cheney of Crockett; Mr. and Mrs. Erwin Cheney and son of Corpus Christi; Mr. and Mrs. Hayden Gooding, Granger; Mrs. Lorena Conley, Lubbock; Mr. and Mrs. Whit Tabor of Talpa; Mr. and Mrs. Tom Preas and daughter of Brownwood; Mr. and Mrs. Howard Doan and Mr. and Mrs. M. C. Doan of Houston; Mr. and Mrs. Ralph Conley and son of Odessa; and Mr. and Mrs. Winston Conley and daughter of Temple.

## Social Security Man In Coleman Tuesday

Ralph T. Fisher, manager of the Abilene office of the Social Security Administration will be at the Department of Public Welfare in Coleman, at 1:00 p. m. on Tuesday, October 23, 1951. Persons wishing assistance with retirement claims or death claims under the Social Security Act, or needing information about their social security accounts, should call at that time for necessary help and information.

Students who gave up their summer jobs to return to school should put their social security account number cards in a safe place until they are again needed. "The card and number used this year, for perhaps the first time, will be the same one used for the balance of the individual's working life," Mr. Fisher stated.

Next summer, or during the Christmas Holidays, the student asking for a job will again be requested by any possible employer to show his social security number. Many employers will not hire unless the number accompanies the work application," Mr. Fisher continued.

"A lost card or misplaced account number card may mean delay in going to work and could mean the loss of a job opportunity. Our office can replace lost cards, but it takes time. The account number card should be safeguarded and shown to each new employer on the day the employee starts work. Correct benefit payments at old-age or at death depend entirely on correct reporting of the name, account number and wages by every employer," Fisher concluded.

Mrs. Gene Rinne and little son and Mrs. A. B. Little visited with Mrs. Derrel Warnock in Brownwood Monday.

## WARD SCHOOL FOOTBALL GAMES TUESDAY NIGHT

The Santa Anna Ward School football team will play the Wylie Ward School on the local high school field Tuesday night, Oct. 23 at 7:30 p. m.

## Salvation Army Drive Over The Goal

Miss Ruby Harper, chairman of the local Salvation Army, stated this week that the annual drive has exceeded the quota and that several more dollars are expected to come in before the drive is closed.

The quota was set at \$300 and to date \$319 has been reported in. Bernice Collins, chairman of the Colored and Latin-American section, reported in \$28.50, which is an excellent amount from so small a group.

# Proposed Constitution Changes Discussed

Five proposals to amend the Constitution of the State of Texas have been submitted to the citizens of the state, to be voted on November 13, 1951. Below we are giving our readers the best interpretation of the amendments that we can gather together. We do not intend for the analysis below to tell anyone how they should vote on any of the proposals, but we do feel that the general public should be given an opportunity to study each of the amendments in order that you might be better prepared to vote wisely when you go to the polls. The analysis given below has been prepared by the Texas Industrial Conference, and it attempts to reveal the good points, as well as the bad points, of each proposed amendment.

### H. J. R. No. 6

Eliminating all requirements as to citizenship and as to residence in Texas for eligibility to receive old age assistance, aid to the blind and aid to dependent children; and authorizing expenditure of an additional \$7,000,000 per year for these public assistance programs.

The provisions of House Joint Resolution No. 6 constitutes a complete substitute for the present Section 51a of Article III of the Texas Constitution. If adopted by the voters of Texas, this proposed amendment will rewrite all the "State's constitutional provisions in regard to old age assistance, aid to the needy blind and aid to needy dependent children. Two of the changes proposed are fundamental:

1. H.J.R. No. 6 would remove all requirements of residence or citizenship for public assistance.

2. H.J.R. No. 6 would permit the Legislature to provide an additional \$7,000,000 per year for public assistance by raising the limit on annual expenditures from \$35,000,000 to \$42,000,000.

The Constitution as it now reads requires that a person must be an actual bona fide citizen of Texas before he can receive public assistance payments from the State. H.J.R. 6 takes out this requirement; to receive aid under it a person would not have to be a citizen of either Texas or the United States.

The Constitution now provides that citizens of Texas, in order to qualify for old age assistance or aid to the blind, must have resided in the State five out of the last nine year including the one year immediately preceding application. H.J.R. 6 would remove all requirements for residence in the State, in order to qualify, and provide further, that any applicant for old age assistance or aid to the blind, otherwise eligible, may not be excluded if he has resided in the State five out of the last nine years including the one year immediately preceding application.

Needy children who are citi-

## Dr. Edward Taborsky To Speak In High School Auditorium Tuesday

An opportunity seldom afforded citizens of small towns will be presented to the citizens of this area when Dr. Edward Taborsky, Political Science professor of the University of Texas, speaks at the high school auditorium Tuesday, October 23 at 1:00 p. m. Dr. Taborsky is being brought to Santa Anna by the Lions Club and all who are interested are invited to hear him. There will be no charge of admission.

Dr. Taborsky was educated in Prague and in 1938 was Secretary to the Czech Minister for Foreign Affairs. When the Nazis marched into Prague in 1939 he escaped to England. From 1939 to 1945 he was secretary to President of Czechoslovakia, Dr. Ed-

ward Benes. He accompanied Benes on his official visits to see the late President Roosevelt in 1943 and Stalin in Moscow in 1943 and in 1945. He also met Stalin, Molotov and other "men of the Kremlin". He resigned in 1948, after the Communist seized power in Czechoslovakia. He has taught in two European Universities and one in Ohio.

This talk should prove very interesting and everyone who is interested in the affair of our nation and other nations should be present to hear him. Dr. Taborsky has contacts with the underground forces now and is able to give some very enlightening information on what is being done over there.

zens of Texas must have resided in the State one year immediately preceding application in order to qualify under present constitutional provisions. If the child is less than one year old his mother must have resided in the State for one year preceding his birth. H.J.R. 6 would make any needy child eligible for aid, and provide further, that any child otherwise eligible who has lived in the State for one year may not be excluded from aid, or if the child is under one year of age, he could not be excluded from aid if his parents or other relative with whom he is living has resided in the State for one year immediately preceding his birth.

Thus, H.J.R. 6, if adopted, will make it unnecessary for an applicant for public assistance to have ever lived in the State.

It is impossible to estimate the number of additional persons who would become eligible for public assistance under a program in which no requirement of either residence or citizenship is included. In 1949 the State Department of Public Welfare rejected more than 1400 applications because of present constitutional requirements of residence and citizenship. In addition more than 300 grants were terminated because of residence requirements. Under provisions of H.J.R. 6 all these persons would be eligible.

Within one year after the legislature changed the definition of "need" in 1941, making more people eligible for assistance, there was an increase in the number of old age assistance recipients alone of 25%.

An additional \$7,000,000 a year would not be enough, at present rate of payment, to provide for a similar increase in the number of old age assistance recipients. Such a number of people on the rolls would result in a decrease in average payments for all three programs of public assistance.

There is strong legal opinion to the effect that the legislature would not have authority under the proposed amendment to impose residence and citizenship requirements by law. Submission of the amendment in this form by the legislature and its adoption by the people would remove the present requirements and indicate their intention that such requirements should not be imposed.

A new provision would be added by H.J.R. 6 that any applicant or recipient, including a spouse of any property after June 1, 1952 shall be ineligible for assistance until the proceeds, or fair value, have been spent for normal living expenses. After June 1, 1957 this provision would be applicable to anyone who disposed of any property during the preceding five years. If the pro-

ceeds of the sale are used to purchase like property, such action would not affect eligibility.

Two other important changes are made by the Resolution: first, the amount of money which may be paid from State funds for old age assistance is increased from \$20 to \$30 per month per recipient; second, the minimum age of blind people who can receive assistance is reduced from 21 to 16 years.

The proposed increase of \$7,000,000 a year in State funds would not be automatic. A special session of the legislature would be required if the additional funds are to be available immediately. Based in the Comptroller's current estimate of State income the legislature would not be able to appropriate such additional funds without imposing new taxes.

In accepting or rejecting this amendment to the Texas Constitution, voters will decide whether they believe the proposal will provide larger payments, or whether it will add so many to the rolls that citizens now receiving assistance will be required to share their already inadequate payments; whether a broad program of payments to aliens and non-residents is to be preferred to one confined to bona fide Texas citizens and residents; and whether the taxpayers of this State are able to, or ought to, assume responsibility for support of persons who owe no allegiance to this State or Nation.

### H. J. R. No. 2

Increasing the amount of bonds authorized for the Veteran's Land Fund from \$25,000,000 to \$100,000,000; Making Texas Veterans of Service in the Armed Services after 1945 eligible for benefits; and making clear the authority of the Legislature to pay interest and maturing bonds out of the State's General Revenue Fund.

House Joint Resolution No. 2 would completely rewrite Section 49-b of Article III of the Constitution of Texas. This section was adopted in 1946 by a vote of 80,022 to 29,935. It authorized issuance of \$25,000,000 in State bonds for purchase of lands which may be resold to veterans of World War II and created a Veteran's Land Board composed of the Governor, Comptroller of Public Accounts and the Attorney General.

H. J. R. No. 2, if adopted, would increase the amount of bonds which the Veteran's Land Board can issue from \$25,000,000 to \$100,000,000. The Constitution now provides that such bonds shall be issued as needed, in the opinion of the Board under legislative authorization. The proposed amendment would eliminate the requirement of legislative authorization.

## Echoes From The Alamo City

BY MRS. A. L. ODER

### SUNDAY MORNING

It is now ten minutes until six and I have been up since a few minutes after five, have had my breakfast, and will begin my

Echoes. It is hard for me to break an old habit of getting up a little earlier on Sunday, than other days.

H. C. L.

One of the most talked of subjects is the high cost of living, and like the weather, which also comes in for a lot of discussion, not much is done about either.

Food prices continue to soar—Jumbo Eggs, or so they are called, were selling a few days ago for eight cents each, and they were not so large either. Other eggs 90 cents per dozen, okra, 35 cents per pound and sweet potatoes 15 cents per pound.

I heard an evangelist preach one night last week, on the excuses the three men in the Bible gave for not going to the big supper, to which they were invited. He made it very interesting. After the service in expressing my appreciation of the sermon, I remarked that if the

young man, whose excuse was, he had married a wife and could not go, were living now, it would be different. He would be only too glad to take his bride, where both could get a big free feed.

### I HAVE PIECED ANOTHER QUILT

Yes, I have been silly again. Every time I piece a top or finish a quilt, I resolve that will be the last, but such resolutions are as hard to keep as the ones I make at New Year's. A woman will take large scraps, cut them into small pieces, and sew them back together, often a thousand or more, to make a top, and then comes the job of putting the blocks together, if an all-over pattern was not used.

The lining, thread and cotton add quite a bit of expense and the quilting is a big job, but when it is done, we have a warm cover we might not have otherwise.

I see I am beginning to weaken and very likely after I get home, and have quilted the top, I have made here, I will start on another one.

### SUNDAY SCHOOL AND CHURCH

After writing the above, I had my dinner done early, and house straightened and got to Sunday school before the opening. Enjoyed a fine lesson, with discussion on "Jacob Receives the Promise" and his flight from Esau, whom he had almost robbed of his birthright.

Although Jacob—the deceiver—was also deceived and paid heavily for all his sins, and mistakes, yet God could use him and his to establish a great nation. God can also use us, even though we are imperfect. Our young minister preached a very good sermon on "Who is a Christian". It showed considerable thought, and his illustrations were quite good. As I understand it the word Christian is in the syllables, and the "ian" or second syllable means follower of that which goes before. Hence, a Christ—ian is a follower of Christ, and we can learn in the Bible how to follow Him. It is as simple as that.

**Seeing God's Hand**  
 Lesson for October 21, 1951

NOBODY is ever, in all his life, actually as wise as he thinks he is when he is about 17 years old. We have a remarkable case of this in the Bible, the story of a man whose viewpoint, between his 17th and 50th birthdays, completely changed. It is the story of Joseph.

Dr. Foreman

At the age of 17, Joseph was about as nearly insufferable as any one ever has a chance to be. He was the oldest son of the favorite wife of a wealthy cattle-owner named Jacob. Old Jacob needed all the hands he could use, to look after his sheep and cattle, and he put all twelve of his sons to work. Eleven of them had real work; Joseph, though next to the youngest of them all, was a kind of boss or overseer. At least that is what his father intended.

He dressed the boy not in working clothes like the others but in fancy clothes, and used to send him around to see what the other boys were up to. Naturally Joseph's brothers did not take to all this; in fact they hated him so hard that they were on the point of murdering him.

On the very day of the proposed murder, however, the brothers discovered a chance to sell him as a slave. So Joseph was sold off to some traveling slave-traders, and for all his brothers knew or cared, he was off to a lingering death.

**Where Was the Hand of God?**

JOSEPH expressed no opinion about this at the time. (He was probably gagged.) But judging from his general character and behavior at that time of his life, it is no trouble to guess his thoughts. He was "fit to be tied"; indeed, he must have been tied on a camel's back, for no slave-trader in his senses would make Joseph walk the 200 miles to Egypt.

The better his condition on arrival, the higher the price. (As it turned out, a very wealthy man bought him; perhaps only a wealthy man could afford him.)

If you had asked Joseph while he was being hauled down to Egypt and the slave-market, where is God in all this? Joseph might well have answered: "Nowhere. The devil is in this, or my devilish brothers. Nobody means any good by it. The only reason they are selling me instead of killing me is that they are making a little by it; these slave-traders are certainly not in business for their health. I am the only son my father trusted, and now I shall die a wretched death in a strange land."

**The Wisdom of the Years**

**Amendments**

(Continued from Page One)

This amendment and accompanying legislation show a definite intention that these bonds shall be a binding obligation of the State of Texas, to be paid from the State's General Revenue Fund if receipts to the Veteran's Land Fund are insufficient to pay interest and maturing bonds. H. J. R. No. 2 by specific reference provides that these bonds shall be executed upon the terms now prescribed by Senate Bill 29 (adopted in 1949) as it may be amended and "by other laws that the legislature may hereafter enact." The last legislature enacted Senate Bill 351 which will become effective if this amendment is adopted. This bill provides that if the Veteran's Land Board shall determine that during the following biennium there will not be sufficient money in the Fund to pay principal and interest on the bonds, the legislature shall appropriate from the General Fund of the State sufficient moneys to meet such obligation.

The law now provides that bonds shall carry the signatures of the Chairman and Secretary of the Veteran's Land Board. Senate Bill 351 would require in addition that such bonds shall be signed by the Governor of Texas, attested by the Secretary of State, and that the seal of the State of Texas shall be affixed.

The program of assistance in purchasing lands is confined at present to veterans of World War I. The proposed amendment would extend this assistance to Texas veterans who have served in the armed forces of the United States subsequent to 1945 as may be included by legislative act. Senate Bill 351 would include, under the program veterans serving as much as ninety days by December 31, 1952.

The Constitution now provides that the program of assistance shall continue "for a period of eight years from the effective date of this amendment" (adopted Nov. 7, 1946). H. J. R. No. 2 would extend the period of assistance to December 1, 1959.

Administrative expenses of the Veterans Land Board are paid from the General Revenue Fund. For the fiscal year ending August 31, 1950, these expenses amounted to \$106,479. For the fiscal year 1952 the legislature appropriated \$150,000 and for 1953 it appropriated \$140,000.

On August 31, 1950, the Veteran's Land Fund had a cash balance of \$7,361,875 and owned U. S. Government bonds amounting to \$1,700,000. It had purchased land in the first year of its operation costing in round figures \$17,000,000.

The voter will be faced with some hard decisions in connection with this amendment: (1) Whether the original program

which was expected to be self-sustaining is to be retained or is to be expanded into a larger program which legislative enactment indicates may not be self-sustaining; (2) whether the voter believes the State of Texas can wisely undertake a debt four times as big as this program originally contemplated.

H. J. R. No. 37  
 Providing for investment of the permanent University Fund in Securities other than bonds issued or guaranteed by Governmental units and agencies.  
 House Joint Resolution No. 37 would add a new section, designated Section 11a to Article VII of the Texas Constitution. It would permit investment of the Permanent University Fund in any securities approved by the Board of Regents, including common and preferred stocks of corporations.

Money received into the Permanent University Fund can now be invested "in bonds of the United States, the State of Texas, in counties of said State, or in School Bonds of municipalities, or in bonds of any city of this State, or in bonds issued under and by virtue of the Federal Farm Act." Only the interest accruing on such investments can be appropriated by the Legislature.

H. J. R. No. 37, if adopted, would authorize the Board of Regents to invest in any securities they deem proper. Specific authority will be granted for investment in preferred and common stocks. Not more than 50% of the Fund could be invested in stocks at any given time. Not more than 1% of the Fund could be invested in securities issued by any one corporation; and not more than 5% of the voting stock of any one corporation could be owned. Investment in stocks would be restricted to that of companies incorporated within the United States, which have paid dividends for ten consecutive years or longer immediately prior to the date of purchase. All stocks eligible for investment, except bank and insurance stocks, would have to be listed upon an exchange registered with the Securities and Exchange Commission.

This amendment would make an important new source of funds available to the business and commerce of the State. The authority granted to the Board of Regents would be absolute, subject to the restrictions noted. These restrictions and the character of the people who have always composed the Board would seem to provide adequate safeguards against speculation or unwise investment. There would, of course, be some element of risk in the broader field of investment which the amendment would authorize.

On Sept. 1, 1950, the fund amounted, in round figures, to \$104,000,000. Investments were: City, County and District bonds, \$9,000,000; U. S. Government bonds, \$4,000,000; 3% State of Texas Bonds, \$500,000; and 5% State of Texas Bonds, \$200,000. A comparatively small amount was in cash. In the fiscal year 1950 the Permanent University Fund earned \$2,575,000 in interest.

An interesting question will be raised if this amendment is adopted: Section 11, of which this amendment would be a part, provides that the interest on the fund may be appropriated. The question arising would be whether dividends received would be considered interest and subject

to appropriation, or would become a part of the Permanent Fund.  
 The proposed amendment would be self-enacting and effective upon proclamation of its adoption.

H. J. R. No. 22  
 Authorizing the Legislature to provide a statewide system of retirement and disability pensions for appointive officers and employees of the counties  
 House Joint Resolution No. 22 would add a new Section 63 to Article XVI of the State Constitution. Under it the Legislature could provide a statewide system of retirement and disability pensions for appointive officers and employees of the counties, which may be administered by the same body which now administers the municipal employees retirement system or by a separate authority. Participation by each county would be voluntary and must first be authorized by vote of the qualified voters of the county. The voter would not have to be either a property owner or a taxpayer.

This resolution is identical with an amendment rejected in 1949 by a vote of 205,425 to 95,280, except that it specifically prohibits any appropriation by the Legislature to pay any benefits under the system of retirement and disability pensions it authorizes. It does not prohibit appropriations of State funds to pay administrative expenses of the proposed system, nor does it prohibit a loan of State funds to the system.

In 1946 the people of Texas added Section 62 of Article XVI, which, among other things, provides that each county shall have the right to set up and administer a retirement, disability and death compensation fund for its appointive officers and employees. This section provides contributions shall not exceed 5% of the compensation paid by a county, to each participating employee, to be matched by an equal contribution by the county but not to exceed \$180 per year. It prescribes the type of securities in which such funds can be invested. It makes recipients of benefits from such a fund ineligible for any other pension retirement funds or direct aid from the State of Texas unless the fund contributed by the county is released to the State.

Under this section already in the Constitution, and within the limitations set out, a county can now set up and administer for its appointive officers and employees any retirement, disability or death compensation fund it desires and its voters approve. The proposed amendment does not include death benefits.

Still another retirement plan for officers and employees of Texas counties will become available in September, 1951. House Bill 603 enacted by the 52nd Legislature will permit any county to place its officers and employees under the Federal Social Security system on the same terms and with the same contributions as are required of employers and employees in private industry. Participation by any county will be voluntary and can be brought about by action of the Commissioners' Court without an election. Benefits to covered officers and employees will include death and survivor provisions but not disability benefits. County employees covered by another retirement system cannot be included under the Social Security System at the

same time.  
 It should be noted that either the present system administered by counties, or coverage under the Social Security Act, requires a fund to which both employees and the county contribute. The statewide system of retirement and disability pensions proposed by H. J. R. No. 22 does not itself call for any specific method of financing. Under it there could be established a retirement and disability system entirely paid for by the counties.

The statewide system of retirement and disability pensions proposed by H. J. R. No. 22 would be one which each county could take or let alone, but it would be such system as the Legislature sets up and could change at will.

S. J. R. No. 8  
 Raising the Tax Rate for rural fire prevention districts.  
 Senate Joint Resolution No. 8 would amend Section 48-d of Article III of the Texas Constitution. This section was adopted in 1949 by a vote of 153,253 to 145,298. The only change which the proposed amendment would make is an increase in the maximum tax rate authorized for rural fire prevention districts from the 3-cent limit established in 1949 to a 50-cent limit on the \$100 valuation.

Other provisions of this section of the Constitution would remain the same. The tax provided cannot be levied except by vote of the people residing in the district. There is no constitutional requirement that a voter be a property owning or taxpaying citizen. There is no definition of "rural fire prevention." The Constitution sets no limit on the size or power of such a district. The method of administering districts is left entirely to the legislature.

The legislature at its regular session this year passed Senate Bill 326 which will become effective if Senate Joint Resolution No. 8 is adopted at the election in November. Senate Bill 326 provides that fire prevention dis-

tricts may be established in contiguous territories outside incorporated cities, towns and villages on the basis of an election in which legally registered voters in the proposed district may vote whether property owners or not. In the same election five District Fire Commissioners would be elected. If the district is adopted, another special election must be called by the District Fire Commission for adoption of a maintenance tax.

### Blue Bonnet Club Has Family Spending Program October 11

The Blue Bonnet Home Demonstration Club met October 11 at 2 o'clock in the home of Mrs. Woodrow Wilson. Miss Thelma Casey, club president, welcomed six guests. Miss Gladys Darden, specialist in home economics, Miss Thelma Casey, district agent, Miss Mary Alice Smith, County agent, Miss Wanda Miller, assistant agent, Miss Ruth Dean and her mother, Mrs. A. H. Dean of Trickham.

After the opening, recreation and a short business session, the program was turned over to Miss Darden. The following is a part of her most interesting talk on: "Planning Your Family Spending."

What is good family management? It is using what you have in the best way you can to get the most things possible to fill your family's needs and wants.

Have you ever heard a family called "poor managers?" When you do you may know that they are being judged by the speakers family standards. If the family that is called "poor managers" are getting their necessities and happiness from it's income it is using good management, as the wants and needs of each family differ. One family may use its money to buy a car as it will fill their wants and needs, while the next family will remodel their home to get what they want from their money. As long as the family money is used to bring the most happiness and fills the needs of the family it is well managed.

The wants and needs of a family change so often that a standard budget isn't practical. The budget that will work for one family won't work for the next family of the same size as their wants and needs differ, so there is a need for each family to work out a spending plan of their own. What does your family want for its money? What are you working for? Do you spend your money for the things you really want or do you let your money dribble away on unimportant things?

Wise planning may not increase your income but you can

have more of the things you want and need when all members work together on a plan for spending your money. It can also increase the family happiness. When a member asks for something he wants and is reminded that the family is saving for something the whole family wants or needs he will not feel denied but will feel that he is sharing with the whole family.

There is a bulletin B-183 on "Farm and Home Planning" issued by the Agricultural Extension Service. It is available at the county agents office or by writing to Texas A & M College at College Station. It will be a big help in working out your spending plans.

Knowing what you want is the first step toward getting the most for your money. Writing your wants and needs down on paper will help you to realize your goals. In beginning your plan, make a list of:

1. The things you hope to get over a long period of time:
  - a. A comfortable house equipped with labor saving equipment.
  - b. A more productive soil on the farm.

Large expenditures such as these may need to be included in several years' plans.

2. Then list the things you want for the coming year:
  - a. To build and equip a bathroom.
  - b. To plant ten acres of hairy vetch.

The annual plan for guiding the family spending during the year should be made so that you are working toward your long-time goals.

You may think that learning to handle money in a planned way is awkward, takes too much time and not very helpful at first but you'll be making your money buy more things you want most.

After a question and answer session the club was adjourned and the hostess served refreshments to the visitors and Mmes. D. W. Bouchillon, J. D. Williamson, John Lauder, Rube Lobstein, Rex Garrett and Miss Thelma Casey.

The next meeting will be Thursday, October 25, at 2 p. m. in the home of an associate member, Mrs. Ulmer Brannon. —Reporter

### WMS Meeting Has 40 Women Present

The Woman's Missionary Society met with Mrs. Harry C. Wigger at the First Baptist Church parsonage Tuesday evening, Oct. 16, at 7:00 p. m. There were forty women present to enjoy the good program arranged by the program chairman, Mrs. Otis Bivins. The well carried out theme was: Preparation for the Purpose of God. Mrs. Carson Horner presented "Our Christian Magazines"; Mrs. Vernon Rowe, "Devotional"; Mrs. E. K. Jones, "Carefully Called and Chosen"; Mrs. Aubrey Parker, "Responsibilities of our Seminaries"; Mrs. Richard Horner and Mrs. D. R. Hill, "Letters from our National Seminaries"; Mrs. Dennis Kelley read Cablegrams from our National Seminaries; and Mrs. J. Ed Bartlett presented the "Question Box". Mrs. Bivins lead in reading "An American's Creed" and Mrs. Lewis Newman led that closing prayer. The hymn, "All Hail the Power of Jesus Name" completed the program.

Mrs. Wigger presided over the business meeting which preceded the program. Year Books were distributed and plans were made for the coming year.

### PTA Family Night Well Attended

A large crowd attended the annual P. T. A. Family night Tuesday, October 16 at the high school auditorium.

Mrs. Paul Pembroke, president, presided and Rev. Carroll Thompson opened the meeting with the invocation.

After a short business meeting, Mrs. J. H. Martin's Grade School Choral Club sang two numbers. Two numbers were also rendered by the High School Choral Club under the direction of Mrs. Carroll Thompson. Three numbers were rendered by the school orchestra under the direction of T. K. Martin, band director.

The attendance award went to Mrs. J. F. Turner's First Grade, for having 66% attendance present.

The membership committee reported progress in their work and stated they now have a membership of 65.

The Hospitality Committee served ice cream to all present and Rev. Harry C. Wigger dismissed the group.

### Week of Prayer Program at Rockwood

The Woman's Society of Christian Service met at the Rockwood Methodist Church Monday afternoon in observance of a "Week of Prayer" with Mrs. Tom Bryan leading the program.

Mrs. John Hunter brought the meditation; Mrs. M. A. Richardson and Mrs. Marcus Johnson discussed the needs to be met by "Week of Prayer" gifts.

The regular fourth Monday social will meet with Mrs. Uless Maness Monday afternoon at 2:30, October 22.

Attending were Mmes. Tom Bryan, J. C. Ferguson, M. A. Richardson, Fox Johnson, Jack Bostick, Aubrey McSwane, W. G. Williams, Uless Maness, J. C. Hunter, Marcus Johnson and Bob Johnson.

### Self Culture Club Has Meeting

"Furniture Styles" was the subject of study when the Self Culture Club met at the City Library last Friday with Mrs. Preston Bailey as hostess.

Mrs. Joe Mathews was program leader and told of the furniture designs of the famous English craftsmen, Chippendale, Hepplewhite and Sheraton. Mrs. Bailey spoke on the great American designers, stressing the work of Duncan Phyfe, and pictures were shown of the masterpieces of all these men.

Mrs. Andrew Bodé of Del Rio was a guest, and there were nine members present.

### Tommie Sue Holmes Marries In B'wood

The First Christian Church in Brownwood was the scene of the Saturday afternoon, October 12, wedding of Miss Tommie Holmes, daughter of Mrs. Kate Holmes of Brownwood and formerly of the Whon community, and Cecil King, son of Mrs. Inez King, of Bangs. The Rev. H. Daniel Morgan, pastor of the church officiated at the 1 o'clock service.

The bride wore a royal blue suit with black and white accessories and her corsage was white gardenias. Mrs. Carol Holt was the bride's only attendant and she wore a rust colored suit with brown accessories. Her corsage was of pink carnations.

Dr. Carol Holt served as best man.

Mrs. King is a graduate of Santa Anna High School and has been employed in Brownwood for the past year. The bridegroom attended Bangs High School and has employment with an insurance firm in Brownwood.

Following the wedding the couple left for a wedding trip to San Antonio. After they return they will make their home at 1307 Durham, Brownwood.

Maurice Curry of Fort Worth, spent the week end in the home of his parents, Mr. and Mrs. Cecil Curry.

Mrs. Leonard Sutton and Mrs. Sue Walker of Junction, spent Sunday in the home of Mr. and Mrs. Mace Blanton.

We can order a rubber stamp for you at the News Office.

Mrs. R. B. Archer is in Dallas attending the State Fair and visiting relatives.

Mrs. Neal Biggs of San Angelo was a recent visitor in the W. E. Vanderford home.

Mrs. Paul Tucker of Snyder, visited several days last week with her mother, Mrs. S. K. Moredock.

### Citation by Publication THE STATE OF TEXAS.

TO: Robert E. Covert Defendant, Greetings:  
You are hereby commanded to appear before the Honorable 35th District Court of Coleman County at the Court House thereof, in Coleman, Texas, at or before 10 o'clock A. M. of the first Monday next after the expiration of forty-two days from the date of the issuance of this citation, same being the 12th day of November A. D. 1951, then and there to answer Plaintiff's Petition filed in said Court, on the 26th day of September A. D. 1951, in this cause, numbered 7511-A on the docket of said court and styled Ada N. Covert Plaintiff, vs. Robert E. Covert Defendant.

A brief statement of the nature of this suit is as follows, to wit: Plaintiff alleges that she is a resident citizen of the County of Coleman, State of Texas, and has resided in said County and State for more than 12 months preceding the filing of her petition. Plaintiff alleges that she and the Defendant were lawfully married in Booneville, Arkansas on March 6th, 1951, and alleges that on or about June 12, 1951, and prior thereto the Defendant was guilty of excessive cruel treatment directed at her of such a nature as to make their further living together as man and wife insupportable. Plaintiff alleges that no children was born of the marriage and no community property accumulated. Wherefore Plaintiff prays the court that she be given judgment of a divorce from Defendant, as is more fully shown by Plaintiff's Petition on file in this suit.

The officer executing this process shall promptly execute the same according to law, and make due return as the law directs.

Issued and given under my hand and the Seal of said Court, at office in Coleman, Texas this 26th day of September A. D. 1951.

Attest:  
T. H. Corder, Clerk,  
35th District Court, Coleman County, Texas, 39-42c

## Patsy Wagner Wins Top Award In Fire Prevention Contest

### "How to Have Fewer Fires"

By Patsy Ann Wagner

Fire is a very destructive thing which no one likes. Everyone says this yet they don't always do their best to prevent it. Each year hundreds of acres of valuable forest property is destroyed by fire. Most of these can be prevented if the people will cooperate. Some people say that lightning causes forest fires. This is true; it causes some fires but only a very small percent of them. Most forest fires are caused by careless smoking and camping. Smokers can stop their part by crushing or stamping out cigarettes (or cigars) but at any rate be sure they're out before discarding them. When a smoker lights up a cigarette, cigar or pipe, he just lets his match fall anywhere if he is a careless smoker. All smokers should blow out the match then break it in half for extra safety. A good camper makes sure his fire is out before leaving it. Even if one spark is left it could cause a fire.

Wouldn't it sound odd to say that a person burned down his own home? That is exactly what happens many times. Most fires in the home are caused by carelessness. We can prevent most of these by taking a few careful precautions. Any person can do these if they will think and make them a habit. Always keep matches out of the reach of small children and in a safe place from rats and mice. Most small children don't know how destructive a match can be. A rat or mouse could strike a match and destroy your own home. Don't let rubbish collect in basements or attics. Rubbish in the home is one of the most destructive or dangerous fire hazards there is. Burn all trash in a wire container of some sort or a barrel. If you burn your trash in a barrel don't let it get too full or it won't help a single bit. A burning piece of paper blown away from the rest of the trash could destroy many valuable things, including lives. Always have electricity and heating systems installed properly and checked often. These two things can be very helpful or harmful according to the way they are used. Don't store oil mops in an extremely hot place or they may catch on fire. Never put your iron away while it is still hot. We should never leave electrical appliances turned on and leave them to do something else. Never put pennies behind fuses in your home. Another precaution is to never smoke in bed. You may go to sleep and drop the cigarette.

There are quite a few schools, hospitals, and other public buildings destroyed by fire each year but not as many as forests and homes. In schools about the same things apply as those for the home. We have fire drills in schools so we will know what to do in case of a fire (keep calm but be quick). This won't prevent a fire but may save lives. In schools we don't have as many fire hazards as at home but they are just as dangerous. Sometimes in schools chemicals explode but very seldom. We should be careful with them just the same.

More lives are endangered in public buildings so we should be more cautious. Of course heating systems and electricity still apply in all public buildings. We must be cautious with smoking in public places.

We don't hear of too much farm property (other than houses) being destroyed by fire. I think this is because there are not as many people on farms. Sometimes pastures or crops are destroyed by fire. About the same precautions should be taken around farms as around forests. If a farm pasture or crop caught on fire a fire truck couldn't come that far and put it out. They wouldn't have time.

Fire, in general, isn't a pleasant plaything. As a matter of fact it destroys more than we can imagine. We, as a group of people, destroy our forests, homes, lives, schools, other public buildings, and farm pastures and crops through carelessness. Are you guilty of carelessness? Let's keep our records clear. Watch your step; the next property or life destroyed by fire may be yours.

## First Baptist Church News

The Laymen's Day Services at the First Baptist Church last Sunday have been regarded as being very successful and uplifting by those who were present.

The women reported a great meeting Tuesday night at the parsonage with some 40 women present for the W.M.S. program.

At the Laymen's Day services, Glynn McClure, the retiring Brotherhood president, presided over the morning services; and Julian Whitley, the incoming president, presided Sunday evening. Devotionals were given by Tom Upton and Lester Newman. Artie Irby brought the special music in the morning. A trio: Louis Newman, Lester Newman, and Artie Irby, sang a special for the evening services. An all men's choir was used at both services.

Twenty-one men listened to a program presented by local men at the Brotherhood Tuesday evening. The Brotherhood officers were installed at Tuesday's meeting. They were Julian Whitley, president; Lester Newman, 1st vice president; Emzy Brown, 2nd vice president; F. B. Hill, 3rd vice president; Vernon Rowe, secretary; and J. B. Howington, treasurer.

It has been announced that there will be a baptismal service at the 7:30 p. m. service Sunday. At the service the pastor, Harry C. Wigger, will speak on the subject, "Your Chance of Reaching Heaven". Sunday morning the subject will be "The Call of the Trumpet".

## Get Two At The Same Time

College Station, Texas — The hornfly population of the state has reached the danger point. That's the word from James A. Deer, associate Extension entomologist of Texas A & M College. He reports the weather of the past few weeks — repeated showers with warm temperatures and

above average humidity — has been responsible for the hornfly population increases.

Deer says cattle owners should immediately take the necessary steps to rid their herds of these pests. Here's why: a heavy infestation will cause cattle to go into the winter in a weakened condition and if they become heavily infested with lice during the winter, there'll be more trouble. Hornflies and lice are both blood suckers and the result will be anemic cattle.

According to Deer, cattle treated now for hornflies may also be treated for lice. This combination treatment will save time and labor and is insurance against cattle going into the winter in a weak condition. For the combination treatment, Deer recommends that livestock producers spray their animals with a solution containing four pounds of 50 per cent wettable DDT powder and four pounds of six per cent gamma wettable BHC powder to each 100 gallons of water.

Toxaphene may also be used. He recommends using a spray containing only five-tenths of one per cent of this material.

Finally, Deer suggests that livestock owners contact their local county agricultural agents if they need more information or help in preparing and using these sprays. The important thing is — get rid of the pests now.
