

The Big Spring Herald

Big Spring, Texas, Friday, August 3, 1923

By Jordan & Hayden

KIX NO. 46.

DEVELOPMENT IN THIS SECTION

County Secures Tenth Well

Well - Cushing No. 1

County Gets Tenth Well

Texas, July 28.—The producing well in the Mitchell field was brought in Thursday week when Texas and No. 4 of the Underwriters and Refining Company, and the Railway Company survey, with indications of becoming the largest producers in the section. The well is full of oil from the Morris, penetrated at from 2990 to 3065 feet. Three hours of pumping produced over 100 barrels of oil, but did not lower the hole.

The new producer is approximately one-half mile southeast of Sloan at Smart No. 1, and the two are a number of miles apart. The men believe this line down the eastern slope of what is to be a large oil pool will offset these wells west and north, extending into as yet untouched territory.

H. C. Miller No. 1

Sloan Oil Company, is on top Morrison pay at 2,610 feet expected in early next week. The test is located one-half mile from Sloan's Smart No. 1. Texas and Pacific No. 3 of Underwriters Company is drilled to 3,000 feet. All of these tests drilled to the lower or Morrison, found around 3,000 feet. The runs for the month of July already established a new record any one month since the new was made in April, 1922. For any previous month only seven tank cars. To date the runs of all have been run with a probability of several more before August 1.

El Grande Oil Company

El Grande Oil Company, El Grande and owners of the pipe line, are unloading additional field equipment at El Grande for extensions of their line there. As development into new territory, extending production is followed up line extensions.

Enders-Cushing No. 1

Enders-Cushing No. 1, of the Ranch Drilling Association, is a shot of one hundred and twenty-five feet. The well is braced with the shot and they are now out. Just what the shot will do will not be known until the well has been cleaned out. In case there is not sufficient for commercial purposes the well will be plugged between 3800 and 4010 feet. Oil indications were in the well and give it another shot.

McDowell Well No. 4

McDowell Well No. 4 is progressing steadily at 4000 feet but progress is slow as much metal being encountered. Valentine Day and his associates, Germany and Eck are staying on the job and since they are working they are going to complete it as rapidly as possible. It is impossible to guess how much more will take to complete the well as the presence of iron in the well has retarded the work to a great extent and it is not known how much more may be encountered.

Elite Hat Shop to Move

The Elite Hat Shop will move from their present location in the Ellis building on East Second street to ideal quarters in the department store of J. & W. Fisher and will be ready with a display of New Millinery for Fall in their new home on August 10th.

The new location will enable them to carry a larger stock and show the fine line of millinery to much better advantage.

Lamesa Citizen Accidentally Killed

W. E. Looney, one of Lamesa's most prominent and beloved citizens lost his life in Big Spring about 6:45 o'clock Tuesday morning due to a most deplorable accident. He was struck in the breast by a load of shot when a shot gun was accidentally discharged, and death was instantaneous.

The accident took place at the home of his wife's parents, Mr. and Mrs. B. E. Howell, just south of the high school building. He was loading some things into his automobile preparatory to returning to his home at Lamesa, and it is thought in putting a section of a cot into the car he struck the trigger of the shot-gun which was in the car and projecting out over the door; the end of the barrel being just an inch or two from his chest when it was discharged. A daughter had just entered the garage to summon her father to breakfast as the accident took place.

Mr. Looney who was 48 years of age had resided in Lamesa the past twenty years, and took a leading part in working for its upbuilding, and no man was held in higher esteem. He was engaged in the real estate and insurance business.

As a mark of respect to a beloved citizen, every business house in Lamesa closed while the funeral was being held at 10 o'clock, Wednesday morning. No church was large enough to accommodate the crowd of friends attending the funeral so services were conducted in a tabernacle by Rev. Smith, pastor of the Methodist Church. The funeral procession was more than two miles long and the floral offerings were many and beautiful.

The funeral party left Big Spring for Lamesa at 11 a. m. Tuesday morning. Twenty-five automobiles containing friends from Lamesa met them just outside our city limits and accompanied the remains to that city. Mayor W. R. Purser and family, Mr. and Mrs. B. E. Howell and other relatives and friends went to Lamesa.

Deceased is survived by his wife and two daughters, aged fourteen and seventeen, his mother, four brothers, Mayor B. F. Looney of Colorado City, John Looney of Cameron, a brother in Arkansas another in Colorado, and other relatives and to these who are bowed in grief over the loss of one dearly beloved is extended the deep sympathy of many friends.

Union Meeting Notes

The union meeting is still going on in town. And the people seem to be enjoying them as they are still turning out in large crowds. And each sermon by Geo. Tucker seems to be better. We have three more nights. Let us make the most of them. There have been a number already who have decided for Christ and his service. And we trust that many more will before the close of the services Sabbath evening.

Rev. Geo. Tucker will speak on the following subjects:
Friday—The Devil Outwitted.
Saturday—Ten Lepers.
Sunday—11 o'clock—Finished Life of Jesus.
4:00 p. m.—The Horse Race.
8:15 p. m.—Indefinite Decision.

Mother of A. J. Gallimore Dies

Mrs. Mary Carswell of Athens, Texas, died at the home of her son A. J. Gallimore in this city at 6:45 o'clock Sunday morning, July 29th. Death was due to heart trouble.

Mrs. Carswell had arrived here from her home in Athens about two weeks ago for a visit with her son here and with her other son, Walter Gallimore at San Angelo, and became ill during this visit. The remains were sent to Athens, Texas, Sunday evening and interment was made Monday afternoon.

HUNT FOR POTASH TO BE CONTINUED

Unavoidable Delay in Shipment of Material the Only Drawback to Progress

Inability to secure shipments of material is delaying progress on the development work of the Potash Company of America, south of Big Spring.

Heavy timbers for the shaft are enroute but until they arrive it will be impossible to make further progress. Judge W. F. P. Fogg states such delays may interfere with the schedule they had mapped out, wherein they expected to have the shaft sunk to a depth of eight hundred feet by October 1st.

The fuel question is another one that will have to be solved. At present McDowell well No. 1 is supplying fuel oil for operations at McDowell No. 4 but not sufficient for the work on No. 4 and the Potash company and it may be necessary to order fuel oil—instead of cleaning out No. 1 to increase the supply. The bringing in of No. 4 as a big oil well would mean much to the Potash Company as it would insure plenty of fuel oil for the many separating and manufacturing plants they expect to have in operation when they begin to bring potash crystals to the surface in commercial quantity.

A government geologist was here this week to investigate progress of development work and expressed himself as being greatly impressed with the thorough and comprehensive plans the Potash Company have formulated and the businesslike manner in which they are carrying out such plans.

Mitchell-Martin

At the home of Miss Judith Bourland at Roanoke, Texas, at 10:30 o'clock Wednesday morning, July 25th, the ceremony was performed which united in marriage W. V. Mitchell of Waco and Miss Cora Martin of Big Spring.

These popular young people stole a march on friends and relatives as their plans were kept secret until after the wedding. The bride was visiting Miss Bourland at Roanoke, having recently left here for a two weeks' visit. The bride is the daughter of Mrs. H. O. Martin of this city, a charming and accomplished young lady and held in highest esteem by a wide circle of friends. She has been one of the popular teachers in the Big Spring schools. The groom is a young man of sterling worth and will make good. At present he holds a position with the M. K. & T. railway at Waco, and it is in that city that the happy couple will make their home.

We join many friends in extending congratulations and best wishes.

Injured in Auto Wreck

A serious auto wreck in which Miss Rose Morgan of this city was seriously injured and the lives of twelve or thirteen others were endangered, took place on the highway east of Coahoma, last Sunday night, due to reckless driving.

A truck conveying thirteen young people from Iatan Lake to Big Spring was struck in the rear by a big Buick roadster, driven by W. D. McDonald, with force sufficient to cause it to overturn, spilling the occupants, but only slightly injuring one or two in addition to injuring Miss Morgan.

Three charges have been filed against W. D. McDonald as a result of this wreck and he made bond for appearance; the hearing to be held next Monday.

Farming Pays in West Texas

Howard County has quite a few successful substantial citizens who have thoroughly demonstrated that farming is profitable in this county. One among these is T. F. Nabors, who came to our county as a renter something like 13 or 14 years ago.

After farming around on the halves and on the shares he landed on C. D. Read's farm three miles north of town and in one year he paid \$2,000 rental on this place. This was sufficient to convince him that land that would produce at this rate was worth owning so he purchased a 240-acre tract of Mr. Read. Whether or not he made a good deal can be guessed when you learn he refuses to sell for a price nearly three times what he paid for the place. He states it is not for sale at any price as he don't know where he could find one that would insure bigger returns or one that would suit him better.

Mr. Nabors attributes his success to diversification as there is no time during the year that he does not have products to market—these include in addition to cotton, feed, etc. butter, milk, eggs, watermelons, cantaloupe, beans, peas, roasting ears, okra, fresh pork and sausage.

As an instance to show that it pays to look after the garden crops he states that on one acre he raised three crops during one year and received \$500 for same. He first planted this acre in early cantaloupes and sold \$300 worth. When the cantaloupe crop was gone he had watermelons coming along on the same patch and sold \$150. Late in the fall he planted the acre in turnips and sold \$50 worth and in addition had all he needed for home use and gave many away.

He stated that the man who gave all his time and attention to feed and cotton crop was certainly overlooking the little money making crops which enable a farmer to go on a cash basis.

Mr. Nabors always has home cured ham and bacon to supply the needs of his family and plenty of lard. The packing company's prices do not worry him.

He has one hundred and forty acres in cotton this year that is looking fine and his feed crop, some of which had to be planted five times, is also looking good. He states that he has the best prospects for a bumper cotton crop that he has had since he has been in the county, but that he never counts his bales until they are turned out by the gin.

If the crop turns out as he hopes it will, one of the plans he proposes to carry out is to erect a modern bungalow on his farm.

The Herald editors visited Mr. Nabors' farm Monday and if you could have seen the lead of roasting ears, watermelons and cantaloupes they gathered while there you would have been compelled to decide as they did that Mr. Nabors has one of the best farms in the county and furthermore he is one of Howard County's best farmers.

Important Highway Meeting

T. H. Johnson, vice president of the Puget Sound-to-Gulf Highway, wishes to impress upon our people the necessity of sending a large delegation to the annual meeting at Fredericksburg on August 17th and 18th. It seems there is a move on foot to destroy the good work that has been accomplished on this highway and unless the folks along the line wake up a few men will be in charge of affairs.

LYNCH DAVIDSON HERE AUGUST 9TH

Former Lieutenant-Governor Lynch Davidson to Speak in Big Spring at City Fed. Entertainment

Lynch Davidson of Houston, Texas, former Lieutenant-Governor of Texas, will be the guest of the City Federation Thursday, August 9th and will deliver an address on the courthouse lawn on that night.

While it is generally expected that Mr. Davidson will announce for Governor in 1924 his mission here is not for that purpose. He is making a series of addresses in Texas and was invited to come here by the City Federation. His schedule includes addresses at Groesbeck, Aug. 6th, Big Spring Aug. 9th, Denton, Aug. 10th, San Saba Aug. 14th, St. Joe Aug. 15. He has stated that none of these addresses will be of a political nature, except in so far as he may discuss the affairs and problems of government in a general way.

While we are not boosting Mr. Davidson or anyone else for governor just at this time we do know that the people of Texas would make no mistake in electing him should he decide to make the race. In the first place Lynch Davidson is a successful business man rather than a politician. He made good as lieutenant-governor, and his first interest is the welfare of his native state.

It is well known how he made the railway line, owned by the state, a paying proposition after it had been a costly failure under many different managements. He gave his time, effort and money to save the Orient railway in Texas from being abandoned and folks along that line of railroad will not forget his helpfulness in this enterprise. He is able and anxious to do much for the upbuilding of our state, much more than we can expect of the professional politician.

Anyway it might be well for you to know Lynch Davidson better, and a good way to do so would be to come to Big Spring, Thursday, August 9th, meet him and hear what he has to say. He is an interesting and entertaining talker and it will be worth your while to be here.

Everyone in West Texas is extended a cordial invitation to be in Big Spring August 9th to meet Mr. Davidson.

A Suggestion for the Boy Scouts

The summer vacation offers an opportunity to consider what the school building needs to make it habitable and comfortable for the school children this fall. Are any of the window panes broken and out permitting the rain, wind, dust, and birds to enter at will? or any other minor repairs needed?

Summer vacation time is also the season for "campers." Fortunately not all "campers" are vandals, but an unlocked school building and an abundance of unprotected fuel in the school yard does offer an invitation to the passing "camper" to help himself, a temptation that is not often resisted.

Here is your opportunity, Boy Scouts, to protect your school yard by a good fence and keep the gate locked. Put the windows in good condition. Repair cost and so does protection, but what is spent for protection almost invariably lessens the repair bill. A rural school building with the windows closed and protected by shutters or wire screens, doors securely fastened, gates locked, tells to any passer-by a story of a community and pupils that take an interest and pride in their school plant. Such a community invites the best class of settlers; the others pass on.

If there are no Boy Scouts in the district the boys and girls could organize a School Improvement Club and do this work.

President Harding Dead

Warren G. Harding, president of the United States was claimed by death at 9:30 o'clock Thursday night at San Francisco, Cal., according to a message received here.

His death comes as a great shock to the nation. Bulletin the past few days were to the effect that his condition had passed the danger mark and his recovery was certain, though it would be slow.

George Clinton Cauble Dead

The announcement of the death of George C. Cauble brought sorrow to many in this city. He passed away at Gainesville, Texas, at 1:55 o'clock Tuesday afternoon July 31st, following an operation to relieve an acute attack of appendicitis.

Mr. Cauble and family, his sister, Mary Cauble, and his wife's father, G. D. Griffice, were making an auto trip when George became ill as Henrietta, Okla. After securing some medicine from a physician they started towards Gainesville, and when six miles out of town he became very ill, and stated he could not drive the car any farther. After a three hour stop at the roadside, George drove back to Henrietta and from there they went to Gainesville by rail. Arriving at the sanitarium at Gainesville Sunday afternoon, the physicians decided an immediate operation was necessary. When they found the appendix had burst and gangrene had set in, the physicians informed the family that his chances for recovery were very slight. George's parents left here Sunday night and were at the bedside of their son during his last hours.

Deceased was aged twenty-six years, eleven months and eleven days and had made his home here practically all his life. He was an honest and upright young man, big hearted and genial, and everyone honored and respected him. He was an employe of the railroad shops here up until the strike last July, and since then he has been working at the G. D. Griffice blacksmith shop here.

Funeral services were conducted at the family residence on Benton street at 3 o'clock Thursday afternoon by Rev. Geo. J. Ruth, pastor of the Christian Church, and a large concourse of friends followed the remains to their last resting place in the I. O. O. F. cemetery.

He is survived by a wife, a son, J. B., aged six, and a daughter, aged four; his parents, Mr. and Mrs. James Cauble, and five sisters, Mrs. Dee Foster, Mrs. Eugene Crenshaw, Mrs. J. H. Coots, Mary and Johnnie Mae Cauble, and to these who mourn for one dearly beloved is extended the heartfelt sympathy of our entire community.

Pioneer Citizen Passes Away

Jack Rogers, a pioneer citizen of Borden County and identified with the cattle industry of West Texas for forty years or more died at his ranch home near Gail, Texas Tuesday night, July 31st. He was known throughout this section of Texas and was loved and esteemed by everyone. He was a citizen any community could well be proud of for when he gave his promise it was as good as a bond. And what is more, he practiced the Golden Rule in all dealings with his fellowman.

Funeral services were conducted Wednesday evening and the remains were laid to rest in the cemetery at Gail.

To the wife and children and other relatives, who mourn for one dearly beloved, is extended the heartfelt sympathy of many friends.

Boy Suffers Broken Leg

While playing with some more boys on the loading platform at the T. & P. freight depot, Tuesday afternoon, the twelve year old son of Mrs. L. N. Loudermilk had the misfortune to have a leg broken. A pile of heavy grain doors toppled over and his foot was caught between these and a stack of barbed wire. Had he been a little slower in jumping he might have been crushed beneath the heavy stack of lumber.

Fire Destroys Small Garage

A combination garage and work room in the rear of J. B. Hodges' home was destroyed by fire about 6:30 o'clock Monday evening. In addition to the building, material and candy making equipment belonging to the Elite Confectionery was destroyed. The total loss is estimated at about \$1000 and there was no insurance on the property. The fire originated in a small shed on the adjoining lot, just south, and spread rapidly.

A charming daughter was born to Rev. and Mrs. E. N. Strother at Dallas, Texas, on Sunday, night, July 29th.

Herald want ads get fine results.

Henry Ford

The automotive industry was young and undeveloped when Henry Ford worked nights around a crude machine bench he had built in his barn. He was working out an idea—and in carrying it through he was forced to economize at every turn—if he was to succeed.

Today the world's greatest motor manufacturer—and mentioned as a Presidential possibility, his words of encouragement to those who want to succeed are:

"Study intelligent spending. Therein lies the secret of successful saving. The buyer who studies the value received for the dollar handed out is the thrifty citizen who always owns a saving account. His dollars are available for wise investment. He is in position to grasp opportunity whenever it appears—all of which leads to financial success and independence."

To form connections with this established banking organization puts you in position to take advantage of unusual and sound investment opportunities.

West Texas National Bank Big Spring, Texas

As the Editor Sees It

Keep the community spirit alive. It will keep the town alive. One man alone can accomplish wonders, but ten men working harmoniously together can accomplish ten times as much. There is no limit to what a whole community can accomplish. But first of all we must have the community spirit, a willingness to exert ourselves individually and collectively in the interest of our common good. Community spirit keeps the town alive. The town keeps you alive. Who wants to die? When a number of dogs see a juicy bone within reach how many will retire and leave the bone to the others—before they are whipped, or "buffaloed"? The same applies to Europe. Commercialism—foreign trade—is the bone, and each governmental dog is determined to get the lion's share. Because of this greediness there is no unity of purpose in their advocacy of peace, no desire to settle the raging controversies in a fair and just manner. Mr. Wilson's league of nations couldn't do it. Mr. Harding and his world court idea will not be able to do it. The big banking interests of the world could do it, but they won't—because they fatten on war. Americans will be safer and more prosperous on this side of the water during the next five or ten years, provided our government has wisdom enough to keep out of the European mire. The cat that crawls into a hot oven must expect to be scorched. We don't care to be the cat. If you can't think, don't talk. Talking without thinking does a tremendous amount of harm in this world—even in this community. Very few people are judged by what we actually know of them, for as a rule we know but little—only what we see on the surface. The

heart of another man is always a hidden mystery to us. But we do judge others by what we hear of them, and we hear that which people have to say, whether they first stop to think or not. Unkind words are like weeds. You may curb them for the moment, but they spring up again—because the root is still there. A misstatement may be corrected, but the suspicion still remains with many people. If you can't think, don't talk. Some people are exceptionally bright, or smart, or intelligent, or whatever you choose to call it, but they incur enmity because they are too blunt. They say what they think, and their thoughts, though they may be gems of truth, sometimes touch tender spots. Others know little and say less. They are good listeners because they do not possess the ability to become anything else. Their silent attention is often misconstrued into a compliment by the one who is talking. "Keep in the middle of the road." Too Much Goat Because there is an enormous amount of surplus wheat in this country farmers are facing a tremendous loss through a reduction in the price of wheat, while everything that he buys is still "up in the sky." The proposal that this wheat be stored in bonded warehouses scattered throughout the farming communities until it is required for actual consumption, or a foreign market is created for it, appears to be about the only solution that offers any degree of hope to the farmer. It is suggested that large granaries on farms be bonded by the government, and that adjacent farmers store their surplus wheat in these bonded granaries. This would enable farmers in need of immediate funds to borrow against their wheat in bond. It is believed that this method of disposal would keep the price of wheat in proportion to the cost of other necessities of life. The entire nation is dependent upon the farmer. He should not be made a doormat for the rest of the human family. "Too much goat" does not appeal to him.

Mr. and Mrs. W. A. Ricker were here the forepart of the week from their ranch in Reagan County. Mr. Ricker reports having just completed a neat bungalow on his ranch. Mrs. H. C. Read and Mrs. Earl Read left Saturday night for an extended visit with relatives in Cleveland, Ohio. WE HAVE THE COOLEST STORE

Scire Facias to Revive a Judgment.

THE STATE OF TEXAS. To the Sheriff or any Constable of Howard County—Greeting:

Whereas, it appears from the records of the District Court of Howard County, Texas that John B. Littler recovered a judgment in said Court on the 5th day of September A. D. 1916, against E. T. Tarpley, G. L. Allen, and wife, Ethel Allen, Otis Estes, Mamie Estes and Marie Estes for the sum of \$1400.00 with interest thereon from date till paid at the rate of eight per cent per annum, and cost of suit, in an action on four Vendor Lien Notes in the sum of \$196.60, each, signed by E. T. Tarpley, the said judgment also providing for a foreclosure of Vendor's Lien on and against The South East 1-4 of Section No. 10 in Block No. 34, Tsp. 1 North, Certificate No. 2156, T. & P. Ry. Company Survey, in Howard County, Texas, and provided for an Order of Sale to be issued directed to the Sheriff or any Constable of Howard County directing said officer to levy on said land and sell same and apply the proceeds to the payment of said judgment;

And whereas, it appears from the records of said court that said judgment remains wholly unsatisfied and that an Order of Sale and Execution has not issued thereon within twelve months after the rendition thereof; and whereas the records of said court show that Grace Hollis Price is now the owner of said judgment as shown by written transfer filed with the papers of said cause and the said Grace Hollis Price has applied to this court praying that said judgment be revived and that same have the same force and effect as it had when originally rendered and that an Order of Sale on and against said land be issued on said judgment, that is now dormant.

Now, therefore, you are hereby commanded to summon E. T. Tarpley, G. L. Allen, and his wife, Ethel Allen, Otis Estes, Marie Estes and Mamie Estes, and their unknown heirs, if any, by making publication of this citation once in each week for four consecutive weeks previous to the return day hereof, in some newspaper published in your county, if there be a newspaper published therein, but if not, then in the nearest county where a newspaper is published, to appear at the next regular term of the District Court of Howard County, Texas, to be held at the Court House thereof in Big Spring, Texas, on the first Monday in September A. D. 1923, same being the 3rd day of September A. D. 1923, then and there to show cause, if any they have, why the said judgment should not be revived and show why an Order of Sale should not issue thereon, authorizing the sale of said land to satisfy said judgment as same is of record in this court in Vol. 3, Pages 432, 433 and 434 Minutes of this Court according to the force, form and effect of said judgment as originally rendered; and further, to do and receive what our said court shall then and there consider of them in this behalf.

Herein fail not, but have you before said court, on the first day of the next term thereof, this writ, with your return thereon, showing how you have executed the same.

Witness J. I. Prichard, Clerk of the District Court of Howard County, Texas.

Given under my hand and the seal of said Court, in the City of Big Spring, this 30th day of July A. D. 1923. (Seal.) J. I. PRICHARD, Clerk of the District Court of Howard County, Texas.

County Judge's Order

The State of Texas, County of Howard.

Whereas, on the 14th day of July A. D. 1923, three petitions were presented to me, one of them being signed by a majority of the legally qualified voters of Common School District No. 13 in Howard County, Texas, and one of them being signed by a majority of the legally qualified voters of Common School District No. 19 in Howard County, Texas, and the other one being signed by a majority of the legally qualified voters of Common School District No. 20 in Howard County, Texas, said Districts being contiguous Common School Districts in Howard County, Texas, praying that the County Judge of Howard County, Texas order an election to be held in each of said Districts, to wit: Common School Districts Nos. 13, 19, and 20 in Howard County, Texas, to determine whether or not the said Districts shall be consolidated as provided for by Acts of 36th Legislature of Texas, Second Called Session, Chapter 65, the New Consolidated District to be known as Consolidated Common School District No. 13, said petitions being in every respect in conformity with law.

Now, therefore, I, James T. Brooks, in my capacity as County Judge of Howard County, Texas, do hereby order that an election be held on the 18th day of August A. D. 1923, in each of said Common School Districts Nos. 13, 19 and 20 in Howard County, Texas at the School House in said Districts, (the election in Common School District No. 13 shall be held in the School House known as Auto School House, the election in Common School District No. 19 shall be held in the School known as Fairview School House, and the election in Common School District No. 20 shall be held in the School House known as Davis School House) to determine whether or not Common School Districts Nos. 13, 19 and 20 in Howard County, Texas, (as heretofore established) shall be consolidated—the New Consolidated District to be known as "Consolidated Common School District No. 13" the metes and bounds of which shall be as follows:

Beginning at the Northwest corner of Section 4 in Block 33, Township 2 North in Howard County, Texas—

Thence Southward 4 miles with the West Boundary lines of Sections Nos. 4, 9, 16 and 21 in Block No. 33, Tsp. 2 North in Howard County, Texas, to the Southwest Corner of said Section No. 21—

Thence Westward one mile with the north Boundary line of Section No. 29, Block No. 33, Tsp. 2 North in Howard County, Texas, to the Northwest corner of same—

Thence Southward one mile with the West boundary line of said Section No. 29 to the Southwest corner or same—

Thence Westward one mile with the North Boundary line of Section No. 31 in Block No. 33, Tsp. 2 North in Howard County, Texas, to the Northwest Corner of same—

Thence Southward one mile with the West boundary line of said section No. 31, to the Southwest corner of same—

Thence Westward two miles with North boundary lines of Sections Nos. 24 and 25 in Block No. 34, Tsp. 2 North in Howard County, Texas, to the Northwest corner of said Section No. 25—

Thence Southward four miles with West boundary lines of Section No. 25, Block No. 34, Tsp. 2 North in Sections Nos. 31, 29 and 24, Bauer and Cockerel Surveys, in Howard County, Texas, Southwest Corner of said Section No. 24—

Thence Westward 3 miles with South boundary lines of Sections Nos. 24, 23, and 22, Bauer and Cockerel Surveys, in Howard County, Texas, to the Southeast corner of said Section No. 22—

Thence Eastward two miles with South Boundary lines of sections Nos. 7 and 8 in Block No. 33, Township 1 North to Southeast Corner of said Section No. 8—

Thence Northward one mile with East boundary line of said Section No. 8, to the Northeast corner of same—

Thence Eastward two miles with the North Boundary lines of Sections Nos. 9 and 10 in Block No. 33, Township 1 North in Howard County, Texas, to the Northeast Corner of said Section No. 10—

Thence Southward one mile with the East Boundary lines of said Section No. 10, same block and township with South boundary lines of Section No. 11, Block No. 33, Township one North and Section No. 7, Block No. 32, Township one North in Howard County, Texas, to the Southeast Corner of said Section No. 7—

Thence Northward two miles with the East boundary lines of Sections Nos. 7 and 6 in Block No. 32, Township one North in Howard County, Texas, to the Northeast Corner of said Section No. 6—

Thence Eastward 1-2 mile with South boundary line of Section No. 44 in Block No. 32, Township one North to a point in said line—

Thence Northward 1-2 miles parallel with the East and West Boundary lines of said Section No. 44 to a point, same being the center of said Section No. 44—

Thence Eastward 1-2 mile parallel fifth North and South lines of said Section No. 44, to a point in East line of said Section No. 44—

Thence Northward one and one-half miles with the East boundary lines of Sections Nos. 44 and 41 in Block No. 32, Township 2 North, to Northeast Corner of said Section No. 41—

Thence Westward 2 miles with North boundary lines of Section Nos. 41 and 42, Block No. 32, Township 2 North—to the Northwest corner of said Section No. 42—

THE STATE OF TEXAS, To the Sheriff or any Constable of Howard County—Greeting:

You are hereby commanded to summon A. A. Abbott by making publication of this Citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your county, if there be a newspaper published therein, but if not, then in any newspaper published in the 32nd Judicial District; but if there be no newspaper in said Judicial District, then in a newspaper published in the nearest District to said 32nd Judicial District, to appear at the next regular term of the District Court of Howard County, to be held at the Court House thereof, in Big Spring, on the 1st Monday in September A. D. 1923, the same being the 3rd day of September A. D. 1923, then and there to answer a petition filed in said Court on the 30th day of July A. D. 1923 in a suit, numbered on the docket of said Court No. 918, wherein Violet Abbot is Plaintiff, and A. A. Abbott is Defendant, and said petition alleging that plaintiff has been an actual bona fide inhabitant of this state for more than twelve months next preceding the filing of the original petition in this case, and has resided in Howard County, Texas, for at least six months next preceding the filing of said petition; that plaintiff and defendant were married in Howard County, Texas, on the 3rd day of November A. D. 1919 and lived together as husband and wife until or about the 15th day of April A. D. 1920, when defendant left plaintiff without cause on plaintiff's part with the intention of abandoning plaintiff; that defendant's leaving plaintiff was without plaintiff's consent; that said marriage relations still exist; and that more than three years have elapsed since defendant left plaintiff with the intention of abandoning her; plaintiff prays for a decree of divorce from the said defendant.

Herein Fail Not, but have before said Court, at its aforesaid next regular term, this writ with your return thereon, showing how you have executed the same.

Given under my hand and seal of said Court, at office in Big Spring, this 30th day of July A. D. 1923. (Seal.) J. I. PRICHARD, Clerk, District Court, Howard County.

HORSE RACES FEATURE OF STATE FAIR

Days' Program. With Six Days Daily, Announced for 1923 Exposition

Racing will be revived at the Fair of Texas, Dallas, Oct. 15th year.

There are to be an added attraction of the amusement program will be six running events over seven days, beginning Saturday Oct. 13 and ending Saturday Oct. 19.

The second week of the Fair, after the grand rodeo and "stam-pede" detailing ranch life in Texas, will be a pioneer days, will be a

of nearly twenty purses of dollars will be offered for several racing events, including "Texas Derby" and two hand-icaps for which will be an- nounced later. The Texas Derby probably be run on Dallas Day of the Fair.

STATE FAIR POULTRY SHOW HIS HOBBY

WALTER BURTON
Superintendent Poultry Department
Walter Burton, superintendent of the State Fair Poultry Department, made the annual Poultry Show at the State Fair of Texas, his hobby has been his ambition to the State Fair show each year, of the leading shows in the country. Increased show space and facilities will be found this year thanks to his effort.

AS MANY HOLSTEINS COMING TO STATE FAIR

OTIS BROWN
Secretary Holstein-Friesian Club of Texas
Holstein-Friesian breeders throughout the State Fair, Oct. 12-23, next in greater numbers than ever before, according to Otis Brown, Secretary of the Holstein-Friesian Breeders' Club of Texas. Mr. Brown expects an exhibit of Holsteins at the 1923 State Fair that will eclipse any previous showing of the popular breed.

WILL JUDGE SHEEP AND GOAT SHOW

W. Miller of the University of Texas will judge sheep and goats at the State Fair of Texas, Oct. 12-23. Mr. Miller is a recognized authority, and is recommended by the animal industry department, A. & M. College of Texas. Before coming to Dallas for the State Fair, he will judge at the San Angelo Fair.

and girls of the State Farm had a wonderful time during the Fair encampment of 1922. They have a far better one at the 1923 Fair. Fair dates this year, Oct. 12-23. See premium lists for details.

SPECULATE ON UPPER ETHER

And That is About All Modern Scientists Have So Far Been Able to Accomplish.

A meteorologist may be a learned man who studies out a certain per cent of the causes of sudden changes in the weather and wonders about the other per cent.

The scientific theory is to proceed from particulars to general, and we haven't yet enough facilities for collecting the particulars.

It is reasonably easy to find out what is going on in the atmosphere at the earth's surface a thousand miles away, but what is going on in the atmosphere ten miles up? There's the rub.

There are no signal stations up there and we haven't yet utilized the airplane to "radio" to the weather bureau the performances of the air currents and other phenomenal developments of the upper ether.

We don't suppose that all the weather comes from Middle West or the arid Southwest. A lot of it, we suspect, comes right down perpendicularly. Why shouldn't it? If hot air rises, cold air descends. Well, then, there is a whole universe of that frigid atmosphere less than five miles away, with no strings tied to it.

We think, some day, we shall have an apparatus for piping or drawing it down in any quantity desired in midsummer and saving ice thereby; but all we seem to know about it now is that it's there.—St. Louis Globe-Democrat.

BRIDAL LORE OF INTEREST

Each Month Seems to Furnish Some Characteristic Concerning Mrs. Newlywed.

Bachelors who anticipate joining the ranks of the mated may perhaps find the following superstitious bridal lore of interest: A January bride will be a prudent housekeeper and good tempered. A February bride will be an affectionate wife and a tender mother. A March bride will be a frivolous chatterbox, given to quarrelling. An April bride will be inconstant, not intelligent, fairly good looking. A May bride will be handsome, amiable, of a happy disposition. A June bride will be impetuous and generous. A July bride will be pretty and sweet, but somewhat quick tempered. An August bride will be both amiable and practical. A September bride will be discreet and much liked. An October bride will be pretty, coquettish, loving, but jealous. A November bride will be liberal, kind, but wild of disposition. A December bride will be good looking, fond of novelty, entertainment, but extravagant.

Ingenious Coal Transportation.

An eastern coal company, in opening up three new mines, situated close together, was confronted with the problem of transporting the output to a river, four and one-fourth miles away, with steep and rugged hills intervening. A railroad around the hills or through them appeared to be too expensive in first cost and in operation, so it was decided to bore a small tunnel through the hills and convey the coal on a series of belts. The distance of four and one-fourth miles, in which there is rise of 300 feet, will be made with 20 conveyors in series, each delivering the coal to the one ahead. At the leading end, the belt will be five feet wide for receiving the coal direct from the mine cars as they are hoisted up the shaft, and will carry the coal 1,500 feet to the next conveyor, which will be four feet wide. The unloading belt at the river will be four feet wide, and will deliver to four or six other belts, which discharge the coal through chutes into barges.

Strange Experience.

One day when I hitched our hound dog to my sled a hunter fired his gun in a neighboring cornfield. The dog was frightened by the report of the gun and started off at an incredible speed. It was too late for me to get off, and I was seated on the sled as it careened dangerously around corners and threatened to upset. I shouted, but he only increased his speed. The sled, an old wagon at an alarming pace, and the dog jumped over the shafts. My heart was in my throat when the sled met the shafts with a sickening crash. I was conscious of a delightful feeling and came to on top of a soft straw pile on which I had landed.—Chicago Journal.

Could Make What He Needed.

A recent writer on John Burroughs claims that his chief pride was not in his writing, but in the fact that he could make almost everything he needed with his own hands. From Edwin Wildman's sketch of Burroughs in his book, "Famous Leaders of Character," we learn that the great naturalist could fashion ax handles, candles, toys, ink wells, slate pencils, even trout lines, and that when he set to building his own study at Riverby he was able to make not only the shingles, window frames and nails, but even the furniture.

Her Version of Thunder.

Rosie's mother had been weeks at the spring house cleaning. Papering had been done, woodwork varnished, etc. Carpets and rugs had been off the floor for some time and the noise of furniture being pushed over bare floors had become familiar. When the first thunder was heard Rosie said: "Mother, God is cleaning house, I hear him rolling the table over the floor."

We haven't very many Straw Hats left and we want to clean out our stock and not carry any over to next year, so we are offering them for quick action at

It Tops Them All!

"Hunting Big Game in Africa"

with gun and camera is the big offering at the

MONDAY AND TUESDAY
August 6th and 7th

The sensation of a hundred thrilling pictures condensed into a single marvelous entertainment!—THERE'S NOTHING LIKE IT ON EARTH! You've never seen anything like it before—you never will again!

- A devastating stampede of trumpeting elephants charging the camera.
- A ferocious leopard hurls itself at the dauntless picture-hunters.
- An enraged rhinoceros charges headlong into the eye of the camera.
- A thrilling battle of a troop of elephants in the crater of an extinct volcano.
- The warthog—the Pansy Bonehead of the Forest—charges headlong into the Ford with unexpected results—and for once the Ford isn't rattled.
- This is the picture that thrilled all New York when it played for three solid months at the Lyric theatre at \$1.65 per seat.

THE STATE OF TEXAS
To the Sheriff or any Constable of Howard County—Greeting:
You are hereby commanded that by making publication hereof in some newspaper published in your county once in each week for four consecutive weeks previous to the return day hereof, you summon Elmer Runyan, Robert Drumm, Wm. Baker, J. B. Baker and J. D. Love to appear at the next regular term of the District Court of Howard County to be held at the courthouse thereof in Big Spring on first Monday in September, 1923, the same being 3rd day of September, 1923, then and there to answer a petition filed in said court on 2nd day of August, 1923, in a suit numbered on the docket of said court, No. 922 wherein B. G. Bly is plaintiff and Elmer Runyan, Robert Drumm, Wm. Baker, J. B. Baker and J. D. Love are defendants, said petition alleging:
That plaintiff owns and has possession of Lots Nos. 10, 11 and 12, in Block No. 3, in Boydston's addition to Big Spring, in Howard County, Texas, but claims a long while ago held or apparently held by said defendants and which they might regard as a cloud upon plaintiff's title which he is entitled to have removed; that any claim any of the defendants have had or seemed to have in or upon said premises or any part thereof have been forfeited and none of them are entitled now to urge such claim and particularly for the reason that plaintiff and those whose estate he has, claiming said premises under deeds duly registered, has had peaceable and adverse possession thereof, using and enjoying the same and paying all taxes due thereon for a period of more than five years next before the commencement of the suit, and he prays that all said claims be annulled and be no longer a cloud against his title and that his title be forever quieted as to all of said claims.
Herein fail not, but have before said court on the said first day of its next term, this writ, with your return thereon showing how you have executed the same.
Given under my hand and the seal of said court in Big Spring, this 2nd day of August A. D. 1923.
(Seal) J. I. PRICHARD, Clerk, District Court, Howard County, Tex 15-11.

Ten Pigeons in 1,000 Mile Flight.
Ten homing pigeons were released here at 10:45 a. m. Saturday morning for a flight to Indianapolis, Ind. They were shipped to this city by C. W. F. Husted of Indianapolis, Ind., with instructions to K. S. Beckett, agent for the American Railway Express Company, to release them on or before 11 a. m. Saturday or Sunday.
After circling over the city twice, the pigeons headed towards the north.
Be Here August 9th
Make your arrangements to be in Big Spring on the evening of August 9th. The City Federation is to have an Old-Fashioned Ice Cream Supper at this time. Then, too, the Colorado Band will be here to furnish music for the occasion and Hon. Lynch Davidson will speak here Thursday night, August 9th.

Films African Big Game After Dozens of Others Fail

The enormous difficulties of African photography which have caused many expeditions to return empty-handed and have barred the making of feature films on the locale, have been solved by two California cinematographers, H. A. Snow and Sidney Snow, whose Universal Picture production, "Hunting Big Game in Africa" will be shown at the R. & R. Lyric theatre next Monday and Tuesday, August 6 and 7th.

The film was packed in tin trunks. After exposure in the day's heat, it was developed the same night within the portable movie-laboratory. Previous photographers had trusted to chemically impure river water, but this expedition used rain water in the developing baths, collecting and storing it for the desert journeys.

Working at night kept the emulsion from peeling off the base. Many a cinema house in Capetown has had the experience of seeing a whole feature dissolve to sticky glue. Guarding against heat was only one precaution, for static, insects that eat the film, and other pests plague. Every step was marked by the utmost care, and ceaseless experimentation resulted in a technique that defied climate.

Another great difficulty in Africa has been that of getting up close to the animals. The "still" photographer solved it by means of the "camera trap," i. e., a string which the beast stepped on and which snapped his picture, but there has been no known means of making the animals picture himself moving. The Snows put a familiar American invention to work, and were no longer obliged to depend on telephoto views. They "got" all the large beasts in close-up, and show for the first time the intimate life of the jungle. Personal bravery in the hunt combats did the rest. Sidney Snow the chief cinematographer was with his father on the gun firing line everywhere.

Notice to Home Buyers

23 acres good land, one and one-fourth miles of town; 4-room house and out buildings. \$2,000 will buy it; terms.

640-acre dairy, poultry and stock farm, 2 miles of town, \$3,000 worth of improvements, fine well and windmill. \$15 per acre; good terms.

THE ELITE HAT SHOP

BIG SPRING, TEXAS

Drunken Pigs

Guinea pigs that have been drunk six days a week for six years are being studied by scientists of Cornell University Medical College. They get their jag by inhaling alcohol fumes—much more potent than drinking, for the intoxicant reaches them through their lungs.

Worse and more of it, these drunken guinea pigs seem not to be injured by their chronic drunkenness. They are as heavy as prohibition guinea pigs, also as healthy, and live as long.

But the alcohol takes its toll in the second generation. Few offspring are born to the alcoholics, and the ones that are born are decidedly inferior to the offspring of abstainers.

The third generation of guinea pigs, born from hard-drinking ancestors, are better than the second generation, but not up to normal.

The fourth generation, however, puzzle John Barleycorn's enemies. For, while only the hardy ones live, the survivors are stronger, heavier and more alert than guinea pigs whose ancestors indulged not in the fiery cup.

All this, of course, is a sort of post mortem on J. Barleycorn, an attempt by scientists to learn the truth about alcohol's effects in heredity. About 7,000 guinea pigs have, to date, been used in the experiments.

It's too early in the game to make definite announcements. But it begins to look as if the experiments show that alcoholism is bad for individuals but that it may benefit the race by weeding out the unfit—eliminating weaklings early in life or preventing their birth altogether.

Dr. Charles R. Stokard, head of the Cornell guinea pig investigators says:

"Should any one desire to apply these experimental results to the human alcohol problem, it might be claimed that some such elimination of unfit individuals has benefited the races of Europe, since all of the dominant races have a definite alcoholic history, and the excessive use of alcohol was decidedly more general three or four generations ago than it is today."

Similarly, it will be at least three generations before the effects of liquor prohibition can be estimated with accuracy. The effect on our generation will be much less than on our descendants.—Abilene Reporter.

Home for Rent

I wish to rent to responsible party for not less than one year a three-room residence, at \$10 per month. Address P. O. Box 744, Big Spring, Texas.

James T. Brooks left Thursday evening for Ellis County where he will visit a sister and other relatives. Mrs. James T. Brooks who has been attending an O. E. S. meeting at Sweetwater will join him at Sweetwater and accompany him on the trip to Ellis County.

King Tut necklace, ear screws, and vanity cases in the most beautiful designs. Clyde Fox Jewelry & Drug Co.

Foreign Policy is Now America's Direct Need

In your issue of July 29 was an article entitled "Issues Lacking in Presidential Race." This idea is conveyed so often by the press generally that the question arises: What can be the object of such expressions? Is there a desire, on the part of the press or any considerable part of it, to mold public opinion and create the understanding that the next political campaign will be one of persons and not of issues? It would indeed be an imposing spectacle to see this Nation, at such a time in the world's history, engaged in such a farcial contest.

Regardless of propaganda, of the growth of demagogy and the decline of true statesmanship there is an issue—an issue not made by mouthing politicians and self-styled statesmen, an issue born of these troublous times ever present, persistent, crying for solution which if ignored means national and international disaster. Almost five years after the armistice has been signed, after the administration which had carried to a successful issue our participation in the World War has been repudiated by the voters at election, we find ourselves nationally without the semblance of a policy with respect to the most pressing question of today, our foreign relations. Promising to cooperate with Europe in some sort of an association of nations, thus misleading millions of voters, and upon false representations winning an election, the present administration came into power. Still preaching cooperation, regeneration, eternal peace, the party betrayed the cause of world peace and understanding.

It was Calhoun who said: "I know but one road to political success, my duty, and where that path leads me I shall follow, though I go alone." Democratic leaders would do well to adopt this principle. Nothing was ever plainer in the history of the world than the duty of the United States with reference to the affairs of Europe. It is extremely difficult to be patient with followers of La Follette, Hiram Johnson and the self-styled "Liberals;" those who so solicitous for the welfare of the poor benighted farmer; those bitter enemies of that monster "Wall Street;" those sublime patriots who fear that we will taint our purse and spotless nationalism by association with European nations, when we consider, as common sense and economic law so plainly teaches us, that there is no chance of alleviating the condition of the farmer or of remedying domestic conditions until our foreign relations are established on a firm footing.

What the farmer really needs to day is a market; credit is all right where properly extended and sensibly appreciated, but credit unlimited can not recreate the depleted foreign markets. Europe must be put on her feet so she can pay for the products we have to sell, either in money or exchange of commodities, and until this condition is brought about, and our position with the nations of Europe defined and established—all this legislation to relieve

the situation is unscientific, economical and pure malice which must result eventually. The issue has been made conditions which call for change relief, problems have arisen, ing solutions, but Republicans refuse to recognize the issue. Many of the individual members the party see all too plainly the demand, but the organization more intent on party solidarity on public welfare, studies to placate the irreconcilables and the divergent and opposing elements together, sufficient to present front.

The Democrats have this tunity, and if they neglect future is doubtful. There is no for relief. America must be position among the nations of world. Aside from any duty to our allies, keeping with our dead, or any which might move us; as a plainness proposition it is not only advantage, but an absolute necessity that Europe be on a basis of stability that she in a position to buy our goods. The only sensible manner in this can be accomplished is some association with the rest of the world, and since there is an organization in which nations participate, in being functioning as a cooperative why not join it?

The method and manner should not much concern Democrats; if reservations required to bring us in, well as the important thing is to Republicans, Democrats, ents, men and women of all of ordinary political belief, thousands desire membership league for the United States some object to unreserved unequivocal entry into the present. There is no sensible reason why can not join hands and get together. If reservations be make them; qualify the action as you please, but let the met fairly and the party design a fixed and settled foreign membership in the league, un-terminated effort on the part Government to work for the and tranquility of Europe.—Spiller in Dallas News.

Panther Draw Notes

There was a nice crowd out to Sunday school last Sunday. Let us boost for the Sunday School.

T. A. Hardin and Mrs. L. Hardin and children returned Saturday night from a visit to friends in Hamilton County. They pulled thru a lot of mud on their way home. Mrs. Hardin's daughter, Mrs. Singleton and children came home with them for a short visit with relatives in this locality.

Miss Ethel Phillips spent Saturday night and Sunday with Mr. and Mrs. Ballard in Big Spring.

Mr. and Mrs. H. Phillips, Misses Ovey and Mary Hardin and Sterling Connell attended preaching, singing and baptizing at Richland Sunday afternoon.

Olie Phillips visited his parents, Mr. and Mrs. John Phillips Saturday night and Sunday.

Last Thursday night Mr. and Mrs. Pittman gave the young people a party. They played games, sang songs and Mr. Pittman played the guitar—just had a good time in general. Those present were: Messrs. Johnnie, Herbert and Victor Phillips, Lee and Charlie Hardin, Sterling Connell and Jesse Overton; Misses Zella Ballard, Winnie and Ovey Hardin, Ethel and Ruby Phillips, Marie, Elouise and Hortense Pittman.

Herbert Phillips took dinner with his cousins, Rueben and Jesse Overton, last Sunday.

Mr. and Mrs. Settles and Hugh Dubberly have been attending the union meeting in town recently.

P. A. Pittman and Herbert Phillips went to church in Big Spring Monday night, while J. J. and Johnnie Phillips attended the I. O. O. F. lodge.

Mr. and Mrs. L. P. Day spent Sunday at R. E. Overton's. Mrs. Janie Connell of Electra arrived Tuesday morning on a visit to her sister Mrs. H. Phillips, and other relatives of this community.

G. W. Overton went to town Tuesday after his winter supply of coal, a warm job at present, but this coal will be better appreciated when the weather is near zero.

Everette and James Overton left Tuesday morning for Lamesa, Stanton and Midland. They are out sightseeing, and will visit their brother John, near Midland while gone. One of the Panthers.

Brown Items

A large crowd of homefolks and visitors from other communities attended the ice cream supper at Mr. and Mrs. Wm. Etheridge's Saturday night. A five-course dinner was served the crowd, each course consisting of new varieties of ice cream and cake. A good time was had by all.

The ball game scheduled for Saturday was stopped by the heavy rain in the afternoon. For the life of us we couldn't have told what team we would have ruined if we had been able to finish the game, for the opposing team was about 50-50 Knott and Auto.

The Brownites met at 11 o'clock last Sunday and organized Sunday School. Mr. Etheridge is superintendent and Eddie Jeffcoat is assistant, and we wish everybody would come out every Sunday and lend us your presence as well as assistance.

Ellis Stark was given a farewell party Tuesday night at the home of Mr. and Mrs. Anderson Epps. The best wishes of all the Brownites are offered Mr. Stark.

The greater part of our community was treated to a fine rain Saturday, but part of us are still saying: "Every day in every way it grows drier and drier; the grasshoppers grow bigger and bigger, and the rabbits get hungrier and hungrier. But ain't West Texas fine, and especially if Knott gets the Tech! Oh, Boy!" XXX.

Woods-Satterwhite

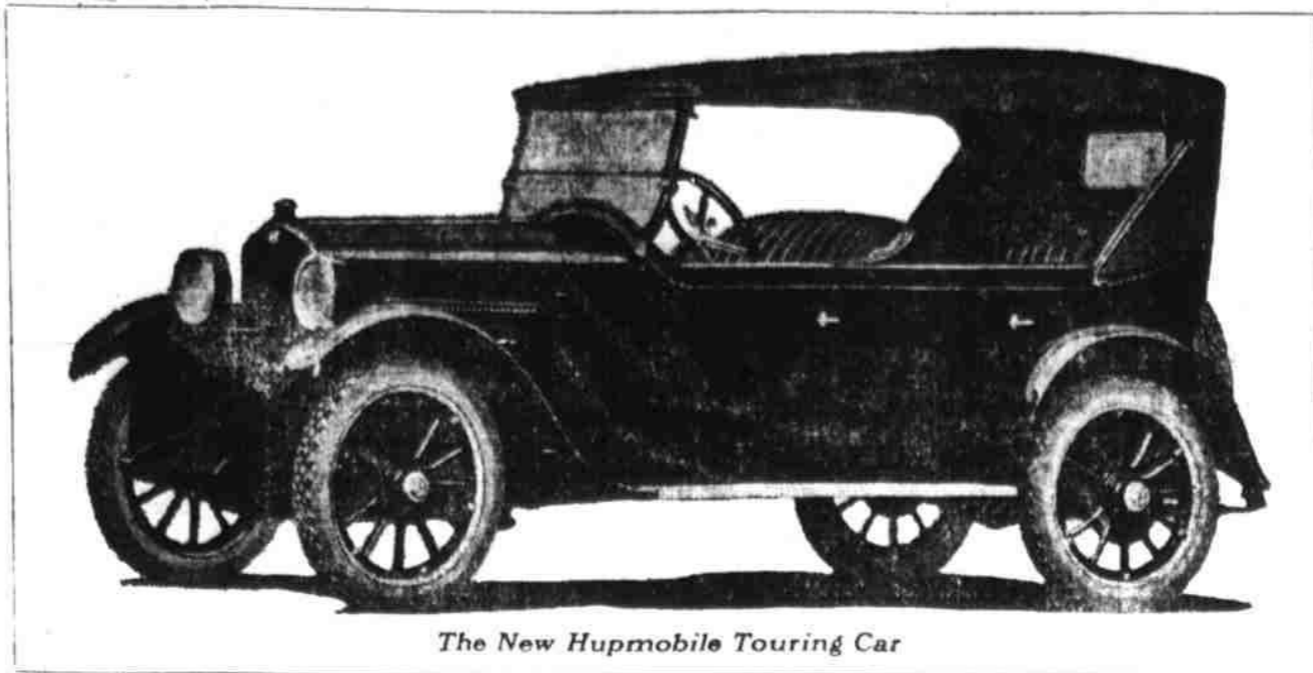

At the home of Mr. and Mrs. W. W. Satterwhite in this city on July 14th, County Judge James T. Brooks performed the ceremony which united in marriage Joe Woods and Miss Vida Mae Satterwhite. The bride is the daughter of Mr. and Mrs. T. E. Satterwhite and is a young lady who is loved and esteemed by all who know her. The groom is one of our well known and dependable young men residing in the north part of our county.

We join many friends in extending best wishes for a full measure of happiness and prosperity.

Cotton Advances \$6 a Bale

The government cotton crop condition report of 67.2 per cent of normal with an indicated yield of only 11,516,000 bales resulted in a rise of more than \$6 a bale on the New Orleans cotton exchange Wednesday.

The trade has looked for a condition report of 70 per cent and a crop forecast of 12,000,000 bales.

The New Hupmobile Touring Car

\$1250 - FREIGHT AND WAR TAX EXTRA

The New Hupmobile

Longer--Larger--More Powerful
A Wonder in Performance

In this new car, Hupmobile far excels its own previous high mark. Hupmobile has always been top value in any market—this car is even better than any that has gone before.

Its wheelbase is longer. Its body designs are new and more roomy. Its beauty is greater. Its comfort and convenience and easy riding are still greater features.

Mechanically, the new Hupmobile embodies noteworthy changes and improvements which evidence themselves in the finest kind of performance.

Where the Hupmobile was powerful before, this new car is more powerful. Where it was quick and smooth in its action, this new car is even more quick and smooth.

The net of all that can be said about the new Hupmobile is that it out-does and out-performs all previous models, splendid as they were.

No one but Hupmobile owners themselves, perhaps, fully appreciate what this means. They know the Hupmobile, and how much better it customarily does all things that are asked of a motor car.

Scores of them have seen the new Hupmobile and have driven it. In not a single instance did these experienced Hupmobile partisans say anything but that the new Hupmobile more than fulfills every promise made for it.

Whether or not you are a Hupmobile owner, it behoves you to see for yourself how wonderfully this new Hupmobile performs, how comfortable it is, how smoothly and evenly it runs at all speeds and every speed.

THE NEW HUPMOBILE is here, awaiting the inspection and trial drive which we can safely promise will be a new high point in your motoring experience.

Now Easier Than Ever to Own a

Ford
Through the
Ford Weekly Purchase Plan

\$5.00—will enroll you and start you on the way to ownership. We will put the money in a local bank, at interest. Each week make an additional payment. Soon your payments plus the interest paid by the bank will make the car yours.

So plan to get out into the fields and woods—down to the beach or stream—the family and you—in the Ford Sedan. It is ready for business or pleasure anytime you step into the driver's seat and put your foot on the starter button.

It is a car for all weather with real comfort for everyone. And now it is within your reach. Come in today—get full details.

Stokes Motor Co.

Just Keep on Smiling

Yes, keep on smiling and give the glad hand, and be the oasis in a desert. But O God, these gloom peddlers are sure a thorn in one's flesh, meet one and converse with him a short while, and if you give heed to what he says, but goodness gracious, it looks like the whole structure was going to fall. The drought and the grass hoppers, wheat market gone all to thunder, and beef below par, taxation, war and pestilence indeed makes a dark picture. But O gollys, walk down the street and meet one of these optimistic fellows, with a ray of sunshine spread all over his face, the grip of the hand and the music of his voice, puts gladness in a fellow's soul. O yes, one of these fellows who is always smiling, extending the glad hand, is like a spring away out in the desert. Did you ever trace a water course for days in a desert place, and then all of a sudden you happen upon a spring, bubbling up out of there, see the weeping willows, hear the kiddie sing, the water lilies blooming, the cattle and the horses come to quench their thirst, and then one can lie down in the shade and forget the parched desert. That's the kind of a fellow we like to meet, yes, it gives us a new lease on life. And here in Albany, and also in Shackelford County we have many gloom peddlers, and doggone, we wish that they would leave us alone. Of course it's a little dry and the grasshoppers have got our cotton and gone, but it's not so bad after all, for the reason that we have made a fair small grain crop, grass is good, and the cattle are fat, and the oil development is still going on, and really we think that in the next ninety days we will be in the midst of a great era of oil development—every indication points in that direction. Then why go around peddling this gloom stuff. You know financial conditions are governed by the status of the human mind. Yes, in the midst of prosperous conditions, let the bent of the human mind, we mean collectively, become pessimistic, and you have got a panic. O yes, just start down the street, and every fellow you meet, give him a good dose of gloom stuff, and it spreads like the seven year itch, and then everybody goes to drawing in their horns, this project and that project is stopped or delayed for the clouds of gloom to blow away, and the first thing you know, you have

staged a panic, money goes into hiding, the banker gets scared, will turn down gilt-edged paper, and thus the gloom wave spreads like wild fire. Why folks we are in fine shape; here are our two banks, have a million dollars on deposit, and the cattle are fat upon a thousand hills—why worry? Why yes, the United States owns the major portion of the world's gold supply, and the problem that confronts our financiers is to stop the influx of the yellow metal, tess we drain Europe and Asia of all their gold. Yes folks, let's keep on smiling, and continue to give the glad hand, why frown and grouch? For the Lord goodness, didn't you know that America is the greatest and grandest, and the richest nation in the world? O yes, we are worth as a nation over three hundred and fifty billion dollars, and still our wealth is piling up, and shuckin' out here in grand old Shackelford County we have worlds of fine land, as rich as there is in the world, fine water holes, and while it is dry and somewhat discouraging, yet there is another year coming, and we don't see any sign of the poor house over the hill. So look up and smile and be pleasant, and strut down the street, and put on airs like a millionaire, and stop meddling this gloom stuff. Albany News.

Don't Take a Chance
Is your property protected from loss by fire? If not you are assuming a heavy risk. You know what an uphill task it was to save the money to build a home or invest in business. It would be an even harder task to save enough to rebuild or recoup your losses if fire should destroy your property and you had no insurance. Don't take a chance. Let us show you where it pays to keep your property insured. We take pleasure in trying to aid you. A. J. GALLEMORE, 45-1f. Big Spring, Texas.

Hon. Lynch Davidson of Houston, former lieutenant-governor of Texas, will speak in Big Spring, Thursday night, August 9th. Everybody invited. Come and bring the folks.

Western Motor oil, the best oil made, for your auto. Sold under a positive guarantee. Get it here **BANKHEAD GARAGE.** 39-1f

Mexican heat powder for the baby. Cunningham & Philips.

A Trifling Contribution

As a bit of commonplace felicitation the speech of the President at Vancouver is unobjectionable, certainly. It can have given no offense to the Canadians to call attention to the fact that Canadians fear no American invasion and Americans need stand no guard against Canadians—save, it is true, in the small matter of the introduction of contraband liquor. But as a contribution to the problems of the world the speech was rather trifling and even perutile, particularly in those portions where Mr. Harding sighed with vicarious self-righteousness and advised Europe to go and do likewise.

If all Europe were well fed, of one blood and of one tongue, as is the case with us and Canada, then we might expect peace and understanding and confidence there, even as we have it on our continent. But Europe is hungry and desperate, of a score of races and tongues, suspicious because her peoples do not and can not know each other, and a prey to events stretching back a thousand years. To stand at this distance, with our tongue thrust in our cheek and to rail at them for not following our example, is easily done. But it is not easily justified.

If the President had put the sufficiency of his remarks to the test of our southern border, instead of our northern one, he might the more readily have come to see the low merit of what he said at Vancouver. Lecturing Europe on conditions in which we could take a helping hand and have not is something of a habit with our smaller-minded public men. There is little risk in it for the provincial politician. But Mr. Harding's is no provincial responsibility and he can not measure up to it by holding to the provincial point of view.

The world grows more peaceful in proportion as it gathers understanding that overleaps national borders and economic stability within those borders. Aloofness and refusal of Nation to go along with Nation have brought the world to sorrow and catastrophe. And yet our people are aloof and refuse to go along with the rest of the world in the search for peace and the means to enforce it. Mr. Harding has the conscience to write a bit at that, perhaps, without the will to revolt at it or the tact to recognize it, and refrain from vaunting our superiority over a divided and distressed Europe. Dallas News.

Fine Bucks for Sale

Have 20 full blood Moreno De Lain young bucks as good as the best, for sale. The mother of these bucks sheared 13 pounds four years running; these being raised by my father, E. I. Bedell. These bucks will be shipped on September 1st. Engage what you want, subject to approval, at \$25 per head. See or address: Clay Bedell or Sam Childress, at Childress ranch, 25 miles southeast of town, Big Spring, Texas. 45-4p

Royal Neighbors Entertain

The members of the Royal Neighbors, Chapter No. 7277, enjoyed a delightful time from 3 o'clock to 6 o'clock on Thursday afternoon at which time a Forty-two Party was in order. A large number were present to take part in the games and enjoy the delicious punch and cake that was served.

Dispersion Sale of English White Leghorns and "Aristocrat" Banded Plymouth Rock yearling hens and cock birds. For a limited time we will offer some real bargains. Now is the time to improve your flock. Leasdale Farm, Big Spring or see Lawrence Simpson at the Herald Office.

In some places they are handling reckless auto drivers by charging them with assault with deadly weapons, when thru carelessness or fast driving they are responsible for auto accidents. It is unsafe for a careful auto driver to be on the highways when these killers are in action. We have had enough near escapes due to this class to cause our folks to take action before some innocent folks are slaughtered.

J. M. Manuel last week purchased a lot on South Scurry street from E. M. LaBeff and has let the contract for the construction of a modern six-room bungalow. This residence will be just south of Mr. LaBeff's home.

Mrs. Grace Cardwell of Toyah is here for a visit with her parents, Mr. and Mrs. Can Powell and her sister, Mrs. J. O. Tamsitt.

Mr. and Mrs. Joe Tuckness were here Sunday from Mitchell County for a visit with her parents, Mr. and Mrs. Jim Crenshaw.

SWEET SLEEP FOR MOSQUITOES. CUNNINGHAM & PHILIPS.

More Than Interest

One of the railroad systems of this country makes a practice of keeping about \$1,500,000 on deposit with local banks along its lines.

These banks have instructions to make loans from this fund to business men who are patrons of the road. Only a nominal interest is charged.

Good horse sense in that kind of railroad management. They might invest the million and a half in other ways and earn more interest. But interest is not what they want. The management wants profits.

The million and a half enables many business enterprises to keep moving at increased speed. That in turn produces more freight for the road to haul, and the freight produces the profits the road is looking for.

FURNITURE

If it is the best in furniture you want at reasonable prices—phone 141 or call at our store. W. R. Purser & Sons.

Mr. and Mrs. Dell Hatch had as their guests this week: Mr. and Mrs. H. S. Hooper, Frances, Jessie, Horace Jr., of Lorena, Texas; Mr. and Mrs. Neal Montgomery, Miss Helen, Eldridge, Frank and Gordon Lee Montgomery of Westbrook; Mr. and Mrs. Neal H. Montgomery Jr. of Colorado; Mr. and Mrs. Wiley Blow and Hollis Ganey of Westbrook and Eugene Graves of Lorena.

They say that the Colorado Band is a "humdinger." It is to be here Thursday, August 9th to play for the old-fashioned Ice Cream Supper to be given by the City Federation on the court house lawn. Crank up "Lizzie" and bring all the folks to this jollification.

Friends in this city are in receipt of a letter from B. Reagan at San Marcos in which he states that he has been left afoot as thieves have appropriated his "jitney." We hope that he recovers it shortly so he can visit his old home town, Big Spring.

Don't miss the old-fashioned ice cream supper on the courthouse lawn August 9th. Hear Lynch Davidson's address. Also music by the Colorado band.

Mr. and Mrs. Dick Hatch and sons, R. F. Harris and Buck Nall enjoyed a fishing trip on the Concho the forepart of this week.

W. A. Ricker enroute from Fort Worth to California stopped over in this city the first of the week for a visit with relatives.

The Colorado baseball team was here last Friday for a game with the Big Spring team, the locals winning by a score of 7 to 6.

Mr. and Mrs. Spencer Leatherwood returned Monday evening from a fishing trip on the Concho.

When convinced that you know it all, it is time to begin checking up on how little you do know.

TRY A MALTED MILK THE WAY WE MAKE IT. CUNNINGHAM & PHILIPS.

It must be mighty disappointing to the pessimist when his predictions of evil fail to come true.

Pierrette stationery... As good as the powder. Cunningham and Philips.

The fellow who travels the road of least resistance also treads the path of least profit.

No matter how smart you may be, there are others just a little smarter than you are.

Small minds are never worried over big things. They don't reach that far.

Mexican heat powder... for children and grown-ups. Cunningham & Philips.

Even the biggest liar unhung is a paragon of virtue in his own estimation.

Great minds do not all run in the same channel. The channel is too small.

Finger nail files... hand brushes at a bargain. Cunningham & Philips.

Dr. Campbell

Smoke a good pipe. Cunningham & Philips.

All women are beautiful—in the society columns.

Wait, and it may come to you—if others don't want it.

WEST TOOTH BRUSH. CUNNINGHAM & PHILIPS.

J. W. McCutchan was here this week from his home at Lamesa.

Few women object to compliments, especially when they are not deserved.

When convinced that you are right, move cautiously. You may be wrong.

FIGURE NOW ON PAPERING THAT ROOM. CUNNINGHAM & PHILIPS.

Ben Miller brought to the office of the Chamber of Commerce this week the champion cowpea of this season. This specimen, which was grown by his father at his home here, measured twenty-four inches in length.

Howard Goodpastor of Chicago enroute to Arizona was a visitor in Big Spring this week. Mr. Goodpastor led the singing in the First Christian Church revival here in April. He sang a solo at the union revival here Tuesday night.

Mr. and Mrs. W. S. Dewey have moved to this city from Knott. Mr. Dewey was compelled to dispose of his store at Knott on account of ill health. He recently suffered a stroke of paralysis but is now some better.

Mose Thomas, the genial little messenger boy for the Western Union Telegraph Company, left Wednesday morning for El Paso to enjoy a well earned vacation. While in that city he will be the guest of Mrs. Maud Barclay and daughter, Miss Carmen.

Delva Looney of Lamesa was here this week for a visit with her family of B. E. Howell and Purser.

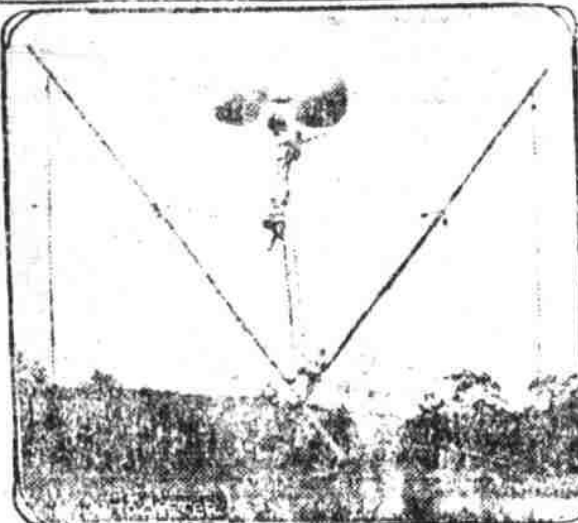

The best thing this country does is to get out of Europe. Miss Saylor's candy. Cunningham & Philips.

Chas. F. Morris was here for the forepart of the week.

Something to Think About

Fighting Gypsy Moth from the Air

Uncle Sam is aiding in the fight being waged against the dreaded Gypsy Moth, which has been doing great damage to crops in New Hampshire. Photo shows army air service balloons inflated 100 feet above ground by an unusual rigging while they each spray 25 pounds of powder to the acre every 5 minutes.

Not a Dream

An aeronautical engineer of the army has perfected a device, which he calls a cycleplane, whereby he flies through the air by means of a foot propulsion, similar to the "pumping" of a bicycle. On his first trial he flew twenty feet at a height of a few inches from the ground.

Not very far, and not very high, but enough for a start.

Some people, upon reading of his achievement, will ridicule the idea, just as Fulton, and Edison, and Marconi and other great inventors were laughed to scorn during the infancy of their wonderful inventions.

Other pessimists or doubters will become sarcastic and term it another "newspaper yarn."

There are even those who will ponderously and knowingly declare that the inventor has "bugs in his beaver."

But a few of the serious minded will reserve judgment. It is possible that this army engineer has taken the initial step toward flying without the aid of the unreliable gasoline engine.

The future craft for aerial travel has yet to be constructed. It will replace the present aeroplane, which is too unwieldy, unreliable, and dependent upon explosive gas.

When finally perfected it will sail through the air with the same ease that automobiles now glide over the surface of the ground.

There will be no crashing to earth at the first mishap, as is the case with the plane of today, because some means will be found to overcome the attraction of gravity.

You will be as safe in the air then as you are on land today.

We think we know something of air travel today, but as a matter of fact we are only scratching the surface of aeronautical infancy.

Christian Endeavor News

Sunday evening under the tabernacle the young people of the Christian, Methodist and Presbyterian churches met to have their union meeting. A very interesting program followed with Mrs. Chas. Dunn leader.

There were several members from each society on the program.

Not only were the young people there but there were visitors from all the churches. There were two musical numbers on the program that were very enjoyable.

Sunday evening there will be a union meeting of all the churches at the Methodist Church at seven. All that can possibly get there be present. I know an interesting program will be given. Come and take part in the singing and prayer if you aren't on the program for anything else, but be sure and come and bring someone with you. There ought to be one hundred young people there. We will let one hundred be our goal. Come and help us reach the hundred mark. Don't forget the place and time. Come, be on time and bring someone with you. Reporter.

Card of Thanks

We wish to extend our heartfelt thanks to friends and neighbors for the many kindnesses shown during the illness and death of our beloved husband, father and grandfather. Your great kindness in our time of sorrow shall ever be remembered and appreciated and we ask God's blessing on each and all of you.

Family Fun

A very green young woman decided to start a poultry farm. She bought a hen and a setting of eggs and having no knowledge of poultry she wrote to a farm journal and asked how long the eggs would take to hatch out. The editor replied: "Three weeks for chickens and four weeks for ducks."

Some weeks later she wrote again to the paper: "Many thanks for your information. However, at the end of three weeks there were no chickens, and as I did not want ducks I took the hen off."—Boston Transcript.

Marketing Cantaloupes

T. F. Nabors is now marketing fine cantaloupes each day and his melons find a ready sale as folks have long since learned he raises the special Nabors cantaloupe and they have a delicious flavor. In addition to marketing melons in this city he always keeps a supply of cool cantaloupes at his residence, 3 miles north of town, so you can call and secure them at any time, any day.

Robt. Helms returned last Friday from a business trip to Strawn.

An ivory comb, very heavy for the dollar... Cunningham & Philips

Miss Santa Hart of Weatherford arrived on the Sunshine Special Monday morning for a visit with Mrs. Mary Holmes.

Mrs. J. E. Wright and Miss Cora Pate after a six weeks' visit with their sister, Mrs. B. B. Fox, returned Tuesday evening for their home at Fort Smith, Ark.

Cigars and cigarettes... Cunningham & Philips.

Mr. and Mrs. Swan Jones returned Monday morning from a visit with relatives at Sapulpa, Okla.

A building and loan association is really needed in our city. If we could make it easier for folks to own homes our city would make a much more rapid and substantial growth.

Pierrette stationery for one dollar a box... Cunningham & Philips.

H. H. Padgett treated the Herald force to a treat Wednesday bringing us two fine big watermelons which were indeed enjoyed.

McCall Gary, after spending his vacation here with his parents, Mr. and Mrs. F. F. Gary, left Monday morning for Dallas, where he holds a position with a Radiophone Company.

O. E. S. Entertains Grand Matron.

A delightful time was in order as the Masonic Temple last Friday night at which time the members of the local chapter of the Order of Eastern Star entertained in honor of their distinguished guest, Mrs. Mattie Sebitt of Higgins, Texas, Grand Matron of the Grand Chapter O. E. S. of Texas, who was here on her official visit.

Seventy-five or more members were present and took part in the evening's program which included an exemplification of the work and short talks. Delicious refreshments were served at the close of the interesting program.

Mrs. Effie Houghton of Memphis, Texas, a member of the Grand Examining Board, and enroute from Peos to Colorado to conduct a school of instruction, was also a guest of the local chapter at this time.

City Federation Meets August 8th.

The regular monthly meeting of the City Federation will be held at the Rest Room at 4 o'clock next Tuesday afternoon. Important business is to be discussed at this meeting and all members are urged to be present.

Albert M. Fisher Co.

D. C. Maupin was here this week from Abilene where he has been for some time erecting a residence for J. E. Mundell.

W. R. Cole and daughter, Miss Josephine, arrived Tuesday evening from Tarrant County for a visit with relatives in this city.

Born to Mr. and Mrs. Rex Reagan of Lamesa on Saturday, July 28, a charming daughter. Mrs. Reagan was at the home of her parents, Mr. and Mrs. Ira Wasson in this city when the daughter arrived.

Some girls are worth their weight in gold, and yet their mothers are never satisfied until they give them away.

W. H. Robinson, B. F. Miller, Cecil Miller and L. Fuqua returned Sunday from an auto trip to Austin, San Antonio and other points in South Texas.

Don't fail to make plans to attend the Old Fashioned Ice Cream Supper in Big Spring, August 9th. Hon. Lynch Davidson is to be there; also the Colorado band.

Howard County melons are now coming in regularly and our folks prefer these delicious flavored melons to those raised elsewhere.

Mrs. C. E. Vaughan who has been visiting a daughter in Los Angeles, California, the past four months, returned to her home in this city Monday.

Smith McKinnon underwent an operation for appendicitis at Mercy Hospital here Thursday morning. His many friends hope for his speedy recovery.

Mrs. Chas. W. Davis attended the O. E. S. School of instruction at Sweetwater Thursday.

Kansas and Oklahoma are now experiencing an excessive hot wave and great damage to crops is reported.

W. S. Wingo brought in some samples of cotton from his place west of town this week and it certainly looked mighty good. The early planted cotton stalk was nearly waist high and covered with bolls while a stalk of late planted cotton showed a wonderful growth.

Solomon was a wise old bird. He accumulated so many mothers-in-law they quarreled among themselves instead of raising him.

J. B. Hodges, manager of the J. M. Radford Grocery Co., was a business visitor in Abilene the forepart of the week.

Mr. and Mrs. T. A. Howell of Cameron after a visit with his brother B. E. Howell and wife, left Wednesday for their home.

Herald want ads get fine results.

B. A. Purser recently purchased home place in the Cole & Street addition.

R. E. Lloyd left Wednesday morning for Lampasas being there by the illness of his brother H. W. Lloyd.

Mr. and Mrs. M. H. Jones and Morris, and Miss Mary Jones left Friday morning for an auto trip to Corpus Christi.

Herald want ads get good results.

Reagan County Wildcat Producer Having Trouble With Hole

Trouble has developed in the bottom of the hole of the wildcat producer brought in on State University land in Reagan County section of West Texas May 28 by the Texon Land and Oil Company as result of the collapse of the wall packer used to shut off water, and the owners are now preparing to pull it and five-eighths inch casing and reset at 3010 feet. This well attracted wide attention when it began flowing by heads, amounting to about 100 barrels of 38 gravity green colored oil daily, and is one of the most encouraging strikes yet made in the far West Texas country, where wildcatting has been taking place for a number of years with only a few small producers obtained, except in Mitchell County. The Texon producer entered the pay at 3026 feet, and has since settled to less than 40 barrels daily. It is reported that the tools have been run into the hole and drilled deeper since it first began flowing by heads, but the report cannot be confirmed.

The Texon Company is selling its production for fuel to other wildcat drillers in this section, while some is being shipped via tank cars to Rio Grande Oil Company's refinery at El Paso. A rig has been completed for a test to be drilled immediately 800 feet west of the discovery well, and timbers are being moved in for another test to the north.

A small high gravity producer is assured from the wildcat test of F. W. Hunter (formerly Safety First Oil Company) on the Will Allen ranch, which has been reported showing oil for the past three weeks after drilling into a grey lime pay at 3775-80 feet to a total depth of 3787 feet. This well is located about three miles west of Ballinger in Runnels County, and about 40 barrels of 44 gravity oil in addition to a quantity of water was bailed from the hole last week. The hole was bailed dry and is now swabbing and bailing about five barrels of oil and the same amount of water daily. It is predicted that the production will be increased if the lime pay is given a shot. The quality of the oil is the best that has been obtained from a wildcat test in West Texas. Oil Weekly.

Daily Newspapers Show Speed

If you noticed the Star-Telegram, Record or Dallas News of Tuesday morning you would have noted an account of the visit of the Technological College locating committee to Big Spring. Here the story of the visit was written in Big Spring and printed nearly 300 miles away, and appearing in the newspapers which were delivered in our city Tuesday morning by 9 a. m. That's some speed, and shows that the Texas dailies are live-wires. The representatives arrived in Big Spring about 3 p. m. and prepared their stories at the office of the Chamber of Commerce here and wired them in to Dallas and Fort Worth by 4 p. m. so they could be printed in the papers that were sent out of Fort Worth and Dallas evening mail. If the program was not just as carried out, or if a few names were omitted from a program it was because changes may have been made after the article had been written and sent in, or overlooked in the rush to get the news over the wire.

Big Spring folks certainly did appreciate the fine articles setting forth Big Spring's claims for the Texas "Tech," and are strong for the press representatives who accompanied the locating committee to our city.

Leaves for Big Spring

Prof. and Mrs. P. B. Bittle, daughter and son, left Friday morning for Big Spring where they will make their home, Prof. Bittle having accepted the superintendency of the city schools of Big Spring. In the departure of these splendid people Henderson has lost one of its most estimable families. The News has previously reviewed the valuable services rendered the Henderson schools by Prof. Bittle during the past twenty years. The citizenship of Big Spring is to be congratulated upon securing the services of Prof. Bittle, for there is no man in Texas who possesses more of the qualities necessary in a man who is to direct the minds of the youth than does P. B. Bittle. Rusk County News.

24-HOUR SERVICE
Night, as well as day service at the Bankhead Garage. *1-15

She Is Not for Sale

That's the way a lot of families feel about good old Bossy. She has been a faithful friend of the family, giving all the milk they could use and even some for the neighbors.

Of course you always think that you feed her well but do you? Just plenty of feed does not always mean proper feeding. Good old Bossie must have a ration that she can really turn into milk.

Cow Chow produces more milk and more butter fat because it contains elements that are deficient in the average ration. It keeps cows from robbing their bodies for milk-making nutrients and lengthens the milking period. By feeding Cow Chow you not only produce more pounds of milk, but you keep your cow in better condition.

Just try Cow Chow for a month, feed it as directed, and watch the difference.

"Well! Strong!"

Mr. Ann Clover, of R. F. D. Winfield, Kans., says: "I was suffering from a chronic case of womanly troubles, and I was afraid I was going to get worse. Each month I suffered with my head, back and sides—aching, nervous feeling, and I was getting worse. I tried to try medicines as I was getting worse. I finally found the right remedy until someone told me of CARDUI."

CARDUI

The Woman's Tonic
I used two bottles before I could get any great change, but after I had used three I was feeling much better. I am now strong and well. I can recommend CARDUI, for it certainly helped me.

The Jokeshop
George M. Cohan says that life is a proposition after all, and Cohan proves it by citing the various members of a certain high school graduation class of five years ago.
A graduate wanted to be a Congressman, and is now doing a song about it in vaudeville; another wanted to be a prize-fighter, and is now a pastor of a great church; a third wanted to be a doctor, but his boy of the class didn't care

what he did, and he has just been elected to Congress (perhaps the only one that realized his ambition); and the class president—the boy who avowed that he would purify politics—has just bought a new Packard from his bootlegging profits!

Firpo, the South American giant, was educated to be a druggist, and came to own a very fine drug store in his home town, but now he is a prize fighter instead; George Luks, the man who is near the top as an artist, was educated to be a physician; Clemenceau, the "Tiger" of France, was educated to be a pharmacist, as also was William Cullen Bryant, the American Poet; George Ade, the \$50,000-a-year writer and humorist, was educated to be a banker. The list might be extended indefinitely.

Most of us follow the line of least resistance. We are Democrats or Republicans, because our father was; we are Methodists, or Baptists, or Presbyterians, because our father was; and we become preachers, or teachers, or stenographers, or lawyers because our father and mother made the decision while we still were in swaddling clothes. Marriage used to be arranged in the same way and still is in some countries.

It took the world a long time to realize that a man or woman is the best judge of his or her life partner. It has taken the world a long time to realize that a boy or girl may have some sense in the selection of life's work. But it is coming. It is a slow moving vehicle, but it is moving.

The old system of saying to a boy, when he enters school, "Here are the books you must study, and this is the career that you must pursue, and this you must, and this you must not," has been responsible for more square pegs in round holes and round pegs in square holes than could be counted from now to the end of time.

Already in some schools, after the primary grades, students are allowed to study what they like. They are

encouraged to do the things they enjoy doing and, after all, that is the foundation of success in life. If a man's work is drudgery, the chances are a million to one that he is in the wrong job.

If life is a jokeshop, is it not because those living make it so? Southwestern Machinery.

PHONE 389 FOR PURE MILK

We can now supply you with pure milk from tested cows. To further insure absolute purity we have installed a Clarifier which removes all foreign matter from the milk. Get pure milk. From now on our price is 7 cents per pint and 12 1-2 cents per quart. THE BIG SPRING DAIRY COMPANY. J. T. Parrish, Proprietor.

Perhaps all arrangements, as to committees, entertainments, etc., for the Tech committee were not just as you might have planned, but they were arranged with a view of securing the Tech for our city, and if we are successful in getting the school that's all we should care for. When working for the good of our community we should tackle the job assigned us in a whole-hearted spirit. The critics can always tell how it should have been done.

Successful farmers of our county state that the outlook for the cotton crop is the best it has been during the past fifteen years. With a good stalk, it is beginning to fruit rapidly and with a good underground season, there is nothing but a calamity to prevent a whopping big crop being made.

Big Spring in the preparation of her brief as well as in presenting her case to the members of the Tech locating committee, depended solely on her merits, and did not try to stress the demerits of any other city in the race. If we cannot win on the basis of merit we certainly do not deserve the college.

affairs of life has but little to do with his weight. As some one has said: "From the chin down a man is worth about \$3 a day; his income depends upon what he is worth from the chin up."

If a man breaks the shell of a small job and becomes a factor in the adjoining fields, it is his own doing; if he swells up, and then shrivels and begins to rattle again, it is his own doings.

"If you do no more than you are paid for, how can you ever expect to be paid for more than you do?"

If a man gets too big for his job, a bigger job will be found for him. But, if he comes to think that he is too big for his job, the chances are you can hear the rattle without straining your ears. W. D. Trotter in Southwestern Machinery.

At a resort in France earlier mentioned that a woman's bathing costume should not weigh more than six and one half ounces. Without further information on the subject we assume that six ounces is for the water proof silk cap and the other half ounce for the bathing suit. We are glued to this good old town of ours.

A lot of hats are being cast into the ring. But we don't want a hat for president.

"Tech" Locating Committee Notes.

The members of the Technological locating committee are now on the last lap of their strenuous trip of inspection. They are inspecting Tulla and Amarillo today and will visit Claude and Memphis Saturday. They complete their inspection of Vernon the 37th town on Monday, August 7th.

It is believed that they will hold a meeting at Dallas and Fort Worth within a few days thereafter and attempt to reach a decision as to the location of the college.

The members of the board feel, it is stated, that unless a decision is made at once they will be flooded with supplementary data, briefs and telegrams and this they desire to avoid. Then, too, they are all men of large affairs and they are anxious to return to their regular duties.

It is believed that an announcement as to the location of the college will be made before August 15th.

FLOOR COVERINGS

We can furnish you the best in floor coverings at reasonable prices. We especially wish you to call and examine our Gold Seal Congoleum art squares 9X12 and our line of Axminster Rugs. W. R. Purser & Sons.

Roscoe Man Buys Ranch

On last Saturday T. B. Carlisle of Roscoe closed a deal for the purchase of the Teale ranch in Glasscock County. In addition to 1929 acres of land owned and 640 acres leases there is a good six-room house well and large surface tank, making it an especially good ranching proposition. Mr. Carlisle plans to move his family to this ranch in the near future. The deal for the purchase of this ranch was made thru the T. H. Johnson Land Company.

Am prepared to do hemstitching for 7 1-2 cents per yard and guarantee work to be satisfactory in every way. Workroom opposite postoffice—open from 8 a. m. to 6 p. m. Phone 200. Mrs. Chas. Eberley. 40-tf.

We make veal loaf fresh every day. Try a pound or two for that picnic. Pool-Reed Co.

Justice is blind until it reaches your case.

Cotton Usually Made or Ruined in August

I presume it is in order for me, along with many others, to make predictions as to the Texas cotton crop. I expect the Government report due on Aug. 1 to make the condition of the Texas crop as of July 25 about 75 per cent of normal, which is 2 points below last month (June 25) and 3 points above last year (July 25, 1922.)

The Texas crop is usually made or ruined between July 25 and Aug. 25, and I believe the condition will decline about one-quarter to one-third of a point a day for the next thirty days unless we should have pretty general rains in the meantime so that we may have in Texas below 4,000,000 or above 5,000,000 bales, depending upon the effect that weather, weevils and worms may have on the plant.

Texas made her biggest crop in 1912. On Aug. 25 in that year the condition was 78 per cent and the yield that season was 4304 bale per acre (500 pounds). Such a yield on 14,077,000 acres, this season's acreage, would mean 6,058,740 bales. However, on July 25, last year, the condition was 72 per cent and on Aug. 25 it was down to 59 per cent.

Now, no one can foretell whether this season conditions will be a repetition of 1912 or of 1922. Let us therefore hope for the best and be prepared for the worst. — W. I. Yopp in Dallas News.

Officers at Fort Worth in an effort to stop reckless driving of automobiles are advocating the passage of a law whereby an intoxicated person once convicted should forever after be prohibited from operating a motor vehicle. Some "half-wits" who drive cars should come under this same ruling.

INVESTIGATE A REAL OIL STOVE

We want you to call at our store and permit us to show you the merits of our Buck's Giant Oil Stove. These are four burner stoves and they make good. Call and see them or phone 141. W. R. Purser & Sons

Notice — Women — Notice
Do you want a real labor saver? J. N. Cowan is agent for the Apex Vacuum Cleaner. Any one desiring to have this household necessity demonstrated will please phone 304 15-tf.

BIG SPRING HERALD

BY JORDAN & HAYDEN

\$2.00 A YEAR IN COUNTY
\$2.50 A YEAR OUTSIDE COUNTY

Entered as second class matter at the Postoffice, Big Spring, Texas, under Act of Congress, Mar. 8, 1897.

Big Spring, Friday, August 3, 1923

AS THE EDITOR SEES IT

In theory a man is supposed to be the master of his business affairs—a woman the mistress of her home.

In actual practice, however, it works quite the opposite in many cases.

Some women are but slaves in their homes, with brutal husbands lording it over them, while other husbands are henpecked in their business affairs by wives who are more masculine than feminine.

More moral courage and physical pep and determination on the part of the abused wives and the henpecked husbands would restore the equilibrium and increase the happiness of many homes.

To achieve success, there should be but one master of a business, but one mistress of a home.

The flapper is cutting quite a swath these days. She is making a bunch of noise.

She smears her face with grease and paint, pulls out her eyebrows, bobs her hair, walks with a swagger, cultivates slang and is languidly familiar with the boys. In addition, she generously concedes to her mother the privilege of washing the dishes, making the beds, scrubbing the floors, doing the washing, cooking the meals, and performing the thousand other duties around the home.

Twenty years more of flapping will transform the butterfly flappers into a feminine scarecrow, whom no man will want to wed.

She who flaps today, tomorrow will have to pay.

Do you want to clean up fifty thousand dollars in a hurry?

Take note of the fact that Mr. Bok of Philadelphia has offered to pay that amount for the most practical plan for putting an end to wars.

The plan submitted that appears to Mr. Bok to be the most practical will win the prize. If it is put into execution and works out as expected another fifty thousand will be paid.

Your plan may be better than any other. Why not submit it?

Some people pass a public school building and admire or condemn its architecture.

Others pass it without notice or thought.

A limited few in passing, reflect upon the splendid work that is being done by the teachers within the walls for the welfare of the rising generation.

In which class are you?

Which is the blacker of the two, the net or the kettle?

Periodically a reform movement sweeps over some city. Grand juries return indictments against "big men." The prosecuting attorneys are confronted with an embarrassing problem. They must make a showing or be classed among the supporters of crooked politics.

But there is always a way out, for both the pot and the kettle.

Long and expensive trials are held, the prosecutors make glowing speeches bristling with fiery denunciation, and fill the newspapers with bunk.

The "right kind" of a jury is selected, the trial drags along until the public becomes weary and immersed in other affairs, and a verdict of acquittal is brought in.

The defense is jubilant, the prosecution is discreetly silent, and the public soon forgets.

The "big men" are the pots—the prosecutors are the kettles. They are both black.

Eat at the Best Place

Shorty Baird's is the best place to get what you want to eat, prepared the way you like it. Chili and Short Orders always on tap. Bar Chocolate and Candies, Cigars and Tobacco on sale. Come and see us. 29-tf

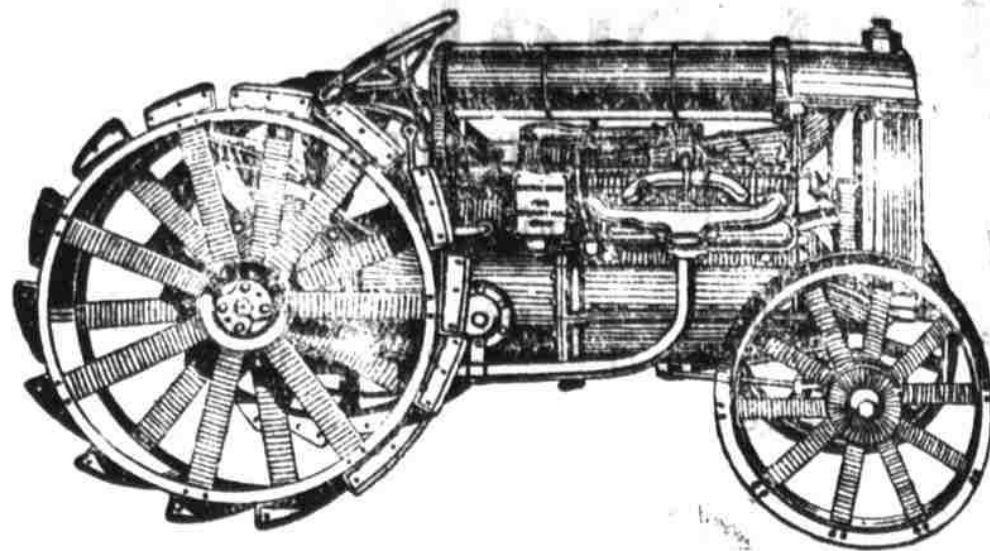

Fine Lots for Sale

Better secure a resident lot in College Heights before the locating committee announce the Texas Tech is to be placed in Big Spring. A word to the wise is sufficient. See me at once. J. F. HAIR. 39-tf

Just phone us that steak or roast order. We guarantee the quality to please you. Pool-Reed Co.

Fordson

TRADE MARK

Every bolt and bar made of the toughest steel that science can produce; every piece of metal put there for a special purpose with ample reserve strength to withstand the most unusual strain; and every drop of kerosene that goes into the tank transformed into power—that is the Fordson Tractor.

Whether it is required to drag the implements of agriculture across the fields or to turn the wheels of stationary machines, the Fordson will do all that is claimed for it and more.

We will gladly demonstrate to you this the most powerful tractor for its size on the market.

Stokes Motor Co.

4th and Main St.

Big Spring, Texas

Farm Land for Sale

I have several sections of fine land around the new town on the Highway in the northwest corner of Howard County for sale. There is no finer farming land on the South Plains and prices and terms are right.

We have recently sold more than three thousand acres in that portion of this county to twenty different farmers who are going to build homes and improve same.

If you want a home on the South Plains don't overlook the fine farming proposition here afforded.

I would like to show you this land. See or write R. L. COOK 45-tf. Big Spring, Texas.

Appointed to Naval Academy

Roy P. Jones, a former Big Spring boy, has been appointed to attend the U. S. Naval Academy at Annapolis. The following item in reference to same appeared in the Dallas News, July 30th:

Roy P. Jones, son of Mr. and Mrs. Theodore Jones, 1718 Bennett avenue, has been appointed, upon recommendation of Congressman Hutton W. Sumners, to enter the United States Naval Academy at Annapolis, it was announced Saturday. Mr. Jones is 20 years old and has lived in Dallas for the last five years. He came to Dallas from Big Spring and was a graduate of the 1922 class of the Sweetwater high school. He has been employed at The Dallas News for several years.

Mr. Jones has been active in young people's work at the Munger Place Methodist Church and is president of the Senior Epworth League of his church. He will leave Dallas Monday for New Orleans for the final examination before entering the academy August 6th.

Let An Expert Solve Your Troubles

Ed Gray, one of the best automobile mechanics in the state, has accepted a position with the BANKHEAD GARAGE, and is now ready to serve you. If you are having trouble with your car bring it to our garage and let him tell you what causes the trouble; for he knows his business and will tell you how it can be corrected. Then, too, if you want any work on your car it will be done by an expert and at a price that is reasonable. Satisfaction is assured patrons of the BANKHEAD GARAGE.—advertisement-38-tf.

This House We Live In
This house we live in is a wonder-
ful structure, nobody but a God
could have made and furnished it.
It was the last and the best of all
His creation. We do not know much
about it, we do not know just how
God made it nor how long He was
on the job, all that kind of stuff is
purely speculation, because during
the creative period there was no one
here to keep tab on the doings of
creation. Of course the Bible says
that the Creator took the dust of
the earth and formed man, and
breathed into his nostrils the breath
of life, and he became a living soul,
and that's the best definition that
we have of the building of this human
structure. But theology is out-
blowing just now over how long God
was on the job of building this taber-
nacle of clay, but that does not con-
cern us; what we are bothering about
is to understand it just as it is to-
day. We imagine, and man can do
nothing without imagination, can't
build a rat trap nor put a handle in
a hoe, construct an airplane nor
build and make a steam engine run
without imagination is on the job.
And that reminds us that a mechan-
ical genius has patterned the steam
engine after this house that we live
in, in other words he must under-
stand the anatomy of the human body
to understand the science and the
workings of the iron horse. Now we
started out to say that we imagine
that God took all the elements or
terra firma, yes, plucked from the
vegetable and mineral kingdoms,
gold and silver, mercury, platinum,
lead and zinc and iron, and mixed
the whole with vegetable matter, then
gave it life. But just how He gave
it life, how He made it grow, stand
alone, walk and leap, run and jump,
slay and eat and think and kill,
build governments and pull them
down, build shrines and set up imag-
inary gods, and with clubs and
swords and cannons he has forced
the rest of the tribes to come around
to his way of thinking, worship his
god and bow down at his shrine, and
cough up offerings to appease the
wrath of an angry god. We say
that we don't know how it was all
brought about, but this we do know,
he is here and wonderfully made,
and when we trace his bloody foot-
steps back down through the vista
of time, we often wonder why God
made man, and why He implanted in
his being all these elements of de-
struction. But now if we don't stop,
the first thing that we know, we will
be rambling around in the house of
speculation, blindfolded and stum-
bling and falling over crazy theories,
because if God were to come down
and attempt to tell us of His cre-
ation, He would first have to give us
a good mind to comprehend. All
along down the ages we have found-
ed schools, and philosophical and
scientific minds have wrestled with
and discoursed very learnedly,
built theories and wrote books about
this house, the mind or the soul that
kept house therein. Of course this
essence that we call mind or soul is
an illusive thing, can't be defined
nor explained, all of a sudden it will
orate like an angel, builds a house
of poems, make the canvas talk and
marble breathe, and like the igno-
rant Scotch plow boy who gave to the
mouse immortality, engaged the old
and new bridge in a realistic dialog,
gave to his mother tongue, Scotland,
a new vernacular, and yet Bobby
Burns never went to school, lived
and died in poverty, and yet, he left
the world one of its brightest poetical
gems. We say that it cannot be ex-
plained. But this house in which it
lives is matter, dust, clay, but how
it took on flesh, blood and bone and
gristle, too hard for us, but it is all
here, and the greatest fact in all
creation is man. A great many peo-
ple say that they will not believe
anything that they do not understand
and cannot be explained. Well
Sonny, let us remind you that some
of the greatest facts in the world
cannot be proven. Then another
thing, the mechanism of this human
structure really cannot be explained,
the anatomist, the surgeon's knife,
dissecting rooms and scientific minds
have wrestled with the mystery of
its workings for all these centuries,
and yet, we do not know much about
the building. For instance, the cir-
culation of the blood, the ventilation
of this house we live in is incompre-
hensible. O yes, the little red por-
ters that are eternally on the job,
going hither and thither to all parts
of the building, loaded down with
carbonic acid ventilating all depart-
ments, and were they to take a vaca-
tion, the structure would collapse.
And then its a three-story structure,
and in the middle chamber is loca-
ted one of the most complete labora-
tories in all creation. Yes, the fact
that goes down the red lane to the
kitchen is taken in charge by expert
chefs in all the different depart-
ments, dissected and analyzed, the
refuse and bad matter thrown into
the scapheap, and then the fuel
that passes muster is converted into

blood, flesh, and bone and gristle,
yes the mechanics are always busy
mending the bad places, throwing
out the refuse, picking out the poi-
son, and if a microbe break into this
chamber they pounce upon it and it's
wonderful structure, and it's very
dispensed with in short order. A
little that we know about it after all
these centuries of investigation. —

One reason we are losing respect
for law is because laws are becom-
ing too numerous. Why we can't
begin to learn of half of them until
we are punished for breaking them.
There were 12,000 new State laws
enacted last year and the tendency
seems to increase the number as
rapidly as possible. Law making
should be suspended until we learn
what we can and cannot do, accord-
ing to law.

Lynch Davidson to Run for Governor
The editor of the News has learned that Hon. Lynch Davidson of Houston will soon announce his candidacy for Governor of Texas, before the Democratic primaries next July. This is welcome news to West Texas, and particularly to West Texas people living along the Orient railroad. The Orient has no better friend than Mr. Davidson, who is a broad-gauged and successful business man.
In event of his candidacy, which now appears certain, the News predicts that Lynch Davidson will be Texas' next governor.
If Mr. Davidson is elected, he will do great things for the Orient. Of that the News feels confident. In view of what he did for the Texas State Railroad, soon after his term of office as lieutenant governor expired. The State Railroad was about to be abandoned. The legislature asked Mr. Davidson to attempt to save it. With his accustomed energy and vision he took hold of the worn-out system, completely rebuilt it, made it a money maker, and then leased it to the Southern Pacific at a big profit to the State. He turned \$93,000 back to the treasury, and never took a dollar from the state, either in financing the State Railroad, or in compensating himself for his labors. The work he has already done for the Orient has been at his own expense.
The News believes that the other candidates for Governor ought to withdraw in Mr. Davidson's favor, for the best interests of the state, but they will hardly do that. Big Lake News.
This is the same Lynch Davidson that is to be in Big Spring, August 9th. He has accepted an invitation of the City Federation to speak here on that date and a cordial invitation is extended everyone to hear the interesting message he will have to deliver.

You are never without friends—long as you are a friend to yourself.

Free Speech
Man has ever tried to bury and destroy truth, and never yet succeeded. Roman emperors attempted to destroy truth, but truth destroyed them, and with them the civilization they had debauched. Men tried to destroy truth during the Dark Ages, but somewhere, somehow, the torch maintained its fire, and the civilization of today grew out of the ignorance and superstition of the times when learning was anathema. The Bolsheviks tried to destroy truth when they burned God in effigy, and made religion a crime; now it is truth which is destroying Bol-herism. Men gone mad with self-esteem and the "dignity" of their position often attempt to destroy truth, when it is in the form of criticism, but inevitably that which is mighty prevails.
In New Mexico an intrepid editor criticized a court. The court sentenced him to jail for a long sentence on charges of criminal libel and contempt of court. Whereupon Governor Hinkle comes to the rescue with a complete pardon in both cases, holding that the liberty of free speech and a free press had been infringed and that the editor was only exercising his right as a free American citizen in saying what he thought.
The American people had a taste of what suppression of free speech meant during the war. For political and military reasons it was then necessary; now it is no longer necessary. Free criticism can't hurt an honest government, an honest official, an honest court. To deny any man the right to criticize is to make the body or the man criticized, sacrosanct; and, as the old woman said as she looked at the giraffe, "there ain't no such animal."
All honor to Governor Hinkle whose Americanism includes not only clear thinking, but honest courage!

Western Union Rebuilding Line
Work has been started by the Western Union Telegraph Company on the putting in of new poles and general repairing of the company's lines from Sweetwater to Big Spring, the total expenditure for the work to be in the neighborhood of \$30,000. New poles will be put in all the way from Sweetwater to Big Spring at the rate of \$15 to the pole, in addition to the expense of labor and other construction work.
The crew is working out of Sweetwater at present. The crew is in charge of A. A. Vandergrift. Five special cars of the Western Union Company, including sleeping, dining, tool, water and utility cars are parked on a siding of the T. & P. railway yards to afford accommodation for the workmen.

Services at Catholic Church
Mass will be at the Catholic Church on every 1st, 2nd, and 4th Sunday at 9:30 a. m. Rev. S. Kistner, Pastor.

If Uncle Sam is in need of diplomats we take pleasure in recommending the members of the Texas Technological locating committee. These men are artists—not a town no matter how large or how small, but feels since the visit of the committee that their chances for the college have increased 100 per cent. It certainly requires diplomacy to make each of 37 zealous contestants believe they are the real article.

F. F. Gary returned last Saturday night from New York City where he had been to purchase a large and select stock of fall and winter dry goods and furnishings for the store of Gary and Son. Mr. Gary reports good looking crop conditions all along the entire route.

Miss Reba Orenbaum left Friday night to spend the week-end with friends in Abilene. From there she will go to Fort Worth, Dallas and Sulphur Springs, Okla. for a two weeks' vacation.

O. H. Morris and family enroute to their home at Lamesa, after a three weeks' visit with relatives at Pittsburg and other points in East Texas, were visitors in Big Spring Saturday.

Guaranty Fund Banks to Get Big Dividend

Austin, Texas, July 28.—J. L. Chapman, Commissioner of Insurance and Banking has advised guaranty fund banks that they will receive a \$300,000 dividend on or about August 15, and possibly a \$1,000,000 dividend on or about Dec. 15. This is repayment of assessments for the guaranty fund used to pay depositors of closed banks and is collected by the liquidating division in realizing on the assets of the defunct banks.

During the last ten months the liquidating division collected \$1,234,333 and expects \$100,000 monthly during the summer and \$250,000 each month during the fall. The division has collected \$69,000 from surety companies on bonds of defaulting bank officials and has additional claims now pending aggregating \$70,800. The division now has \$570,000 on hand and will easily be able to pay the \$300,000 dividend next month and probably as much as \$1,000,000 in December.

Cox Creditors to Get 10 Per Cent.

Houston, Texas, July 29.—Creditors of the Cox Realization Company, last of the companies promoted here by S. E. J. Cox, will get 10 per cent of their claims, under an agreement of a majority of creditors filed with the United States District Clerk here. Settlement on this basis was confirmed by Federal Judge J. C. Hutcheson, on recommendation made by F. Charles Hume, referee in bankruptcy.

Claims of unsecured creditors total \$78,405.34, the twenty-nine who signed the acceptance claiming \$66,624.54. About \$9,500 in cash is on hand. Court costs are \$1,675, leaving about \$7,840 for creditors. —Dallas News.

Potash in 1922

The Interior Department announces that returns received by the Geological Survey, from the producers of potash in the United States indicate that the output in 1922 amounted to 25,176 short tons of crude potash salts containing 11,714 short tons of actual potash (K₂O). The sales amounted to 22,028 short tons of crude potash containing 11,313 tons (K₂O) valued at \$463,512. About 30,000 short tons of crude potash were held by the producers December 31, 1922.

Nothing is tempting to the person who is beyond temptation — but there are no such animals.

Pride or Apology

Mr. Farmer, do you greet strangers in your community when they ask about or look at your schoolhouse, with a thrill of pleasure and pride, or with an apology and an explanation? Is your schoolhouse of the shanty or shack variety—four walls and a roof—or is it a real school home, an educational workshop, a recreational center for the whole community to which all give the same appreciative care they give their home?

A representative of the U. S. Bureau of Education visited a rural county in a southern state whose people have built 15 really beautiful schoolhouses which accommodate all the children in the county. Each building has attractive grounds planted with native trees, grass, shrubs and flowers. Each was planned for beauty as well as usefulness, thoughtfulness, rather than money. Best of all, each building has a spacious auditorium. The children use it four or five hours a day. The adults use it four or five more. In each of them there is a handsome curtain of red or velvet in light colors harmonizing with the decoration of the walls and wood-work.

Agricultural Exhibits at Fairs

We cannot afford to overlook preparing agricultural exhibits for the West Texas Fair at Abilene, the State Fair at Dallas and the All West Texas Exhibit that will be taken to State Fairs thruout the north, to the Cotton Palace at Waco, and other fairs in Texas. This is one of the best ways to place our county before the people in an effort to secure homeseekers. Counties that have prepared such exhibits for a series of years are the ones that attract those seeking new homes in West Texas. We have but to note the case of Dawson County to see the truth of this statement. Many homeseekers pass thru Howard County, where the land is just as good and the price of land less, in order to get to Dawson County because they have seen the Dawson County agricultural exhibits and have definitely decided that Dawson County is the promised land.

It is not a bit too soon to begin planning for agricultural exhibits now if we want to secure more homeseekers for Howard County.

Keep this in mind and when you have exceptionally good specimens of any field or garden crops, save them for the exhibit.

ROBS CALOMEL OF NAUSEA AND DANGER

Medicinal Virtues Retained and Improved—Dangerous and Sickening Qualities Removed. Perfected Tablets Called "Calotabs."

The latest triumph of modern science is a "de-nauseated" calomel tablet known to the drug trade as "Calotabs." Calomel, the most generally useful of all medicines thus enters upon a wider field of popularity—purified and refined from those objectionable qualities which have heretofore limited its use.

In biliousness, constipation, headaches and indigestion, and in a great variety of liver, stomach and kidney troubles calomel was the most successful remedy, but its use was often neglected on account of its sickening qualities. Now it is the easiest and most pleasant of medicines to take. One Calotab at bedtime with a swallow of water—that's all. No taste, no griping, no nausea, no salts. A good night's sleep and the next morning you are feeling fine, with a clean liver, a purified system and a big appetite. Eat what you please. No danger.

Calotabs are sold only in original, sealed packages, price thirty-five cents for the large, family package; ten cents for the small, trial size. Your druggist is authorized to refund the price as a guarantee that you will be thoroughly delighted with Calotabs.—(Advertisement 41-131).

GRIN

"Just grin when you come in,
And make it wide, not tight and thin.
Say "Hello Bill," and "Howdy Jack,"
And slap the other guy on the back.
Stick out your mit and crack a joke,
If no one laughs no bones are broke;
An' bye'n bye you'll make your tribe
A place where sunshine will abide,
That radiates good cheer and wins,
Because you grin when you come in"

Home for Sale

My home place at 204 Johnson street is for sale. If you want a most desirable home or a close-in place where you can accommodate roomers and boarders, see me at once, or phone 79 or 97. JOE. B. NEEL. 32-1f

Of course it is not safe to bank on a cotton crop until after you have the fleecy staple picked and ginned; but from all signs and indications just now old Howard County should produce the greatest number of bales of cotton this fall that has yet been produced in our county.

G. O. P. EVEN TAXES THE FLAG OF OUR COUNTRY

An appeal to "rescue the nation's flag from profiteering bunting trusts" has been made to Attorney General Daugherty by Edward C. O'Brien, chairman of one of the committees in charge of the Lake Champlain historical pageant, who says that prices quoted to him by dealers were from 50 to 500 per cent higher than before the World War. Mr. O'Brien's committee wished to buy a large number of flags for use in connection with the Champlain celebration.

If Mr. O'Brien had turned to a copy of the Fordney-McCumber law he would have found a partial explanation of the "bunting trusts" and the profiteering of which he complains to Attorney General Daugherty. Ordinary wool bunting is "protected" by a duty of from 37 cents a pound plus 50 per cent ad valorem, to 45 cents a pound, plus 50 per cent ad valorem. There is a tax of about 60 per cent ad valorem on silk flags, and a tariff of about 45 per cent ad valorem on those of cotton and mixtures of cotton.

This Republican tariff gives the profiteers an opportunity to add and pyramid the duties on materials from which the United States flag is manufactured, and they don't hesitate to take advantage of it. Among other arguments used by the promoters of the Fordney-McCumber tariff was that of patriotism. There has been profiteering in everything else and now, according to Mr. O'Brien, there is profiteering in the nation's flag.

SKINNING THE GOVERNMENT

Taxation presses heavily upon millions of people who make our honest tax schedules.

It is light upon the tax dodger whose wealth enables him to employ an attorney to devise ways and means of skinning the government.

Tax dodging has been practiced until it has become a fine art.

Securities are hidden away and not listed. Charitable contributions are enormously padded. Expenses are listed that have never been created. On every hand and in every way the government is swindled by thousands and thousands of men of wealth and politicians with a pull who know how to work the game.

The poor man in his heart may not be any more honest than the rich man. But he owns little, can not afford to hire a tax dodging attorney, doesn't know the ropes himself, and considers it safer to pay a just tax rather than take the chances of being caught.

That's why taxes are higher for the poor man than they are for the rich, and it is why they will continue to be so until a system is devised which will compel all people to pay in proportion to the value of their possessions and incomes.

HOW TO USE VACATION

The chief business of the child for the first twelve or fourteen years of his life should be to grow strong physically. During the school term of eight or nine months he is usually living in a more or less unnatural way, sitting still for longer periods than he should, following out processes of logically arranged thought, and much too often doing things in which he has little real interest. His natural growth, physical and in many cases mental, is more or less interfered with.

Vacation time gives a good chance to overcome some of the drawbacks of our schools. Three months of long hours in the fresh air and sunshine, tramping, swimming, hunting, fishing and playing, a moderate amount of physical labor for which the child is held responsible, plenty of plain wholesome food, sleeping out of doors, and he will return to his school in September with browned body, alert mind, and a fund of information that the school could not possibly give him. His interests will be widened, his muscles and mind strengthened, and he will have learned how to use his leisure time.

'Dancing Dollar' Makes Stable Wage Impossible

On July 7 a dollar could purchase only 64.8 cents worth of goods, compared to its value in 1913, according to statistics of Prof. Fisher, money expert, basing his figures upon a compilation of prices of a number of essential commodities.

In January, 1922, the dollar bought 72.6 cents, compared with prices before the war. The low level of the dollar in purchasing power was reached in May, 1920, when it bought only 40.5 cents, compared to the 100 per cent dollar of 1913.—Labor.

Victor Mellinger left Saturday night for northern and eastern markets to purchase a large stock of fall and winter dry goods and furnishings for the Grand Leader.

SUPERIOR

STOCK & POULTRY FEEDS

Millions of Baby Chicks are Killed!

—Every year because of improper feeding. Superior Chick Starter is a scientifically prepared feed for Baby Chicks. It contains Dried Buttermilk and Ground Bone, both of which are of known value in preventing bowel trouble and reduce the mortality among baby chicks to a minimum. Insist on Superior Feeds—You'll recognize them in their red chain bags.
