

## Press Points

Joe Bennett, Publisher

First of all I wish to express my sincere appreciation to the person or persons who are responsible for STEALING our paper rack from in front of the office. I just wish if the one or ones who are responsible had come in and told me they needed money that bad. I would have given them at least the amount left in the paper rack each night (probably one quarter or two) because the cost of the rack itself is a very large amount compared to the amount of money that's ever left overnight in it. So if you know the whereabouts of the rack I would appreciate getting it back. It's a shame that someone has to do something like this for kicks. Because it couldn't have been for the money.

The weatherman was sure good to us again as we got some more much needed moisture. Amounts ranged from just short of two inches up to three inches. It was marvelous and we thank our blessed Lord for it. Give Him your thanks at your next quiet time with Him.

We congratulate the Gorman track teams on their performances in the track meets and wish them the best in the regionals.

Also congratulations to the UIL Literary winners. We hope you do exceptionally well in regional competition and future events.

We also add our "Best of Luck" wishes to the Gorman Red Hots gymnastic members on their performance at the meet in Ranger and sure hope they do great in the State Meet next month.

We are finally getting the picture of Bill, Shirley and Julie in this weeks issue, along with the picture of the academic awards winners. We misplaced the picture we were going to use for the students winning academic honors, and will print the extra photo we took the night of the banquet. We apologize to all these folks for the delay in getting the pictures in the Progress. We hope to do better next time.

And remember to smile - - because God Loves You!

## Daisy L. Slaton Presented "John Campanius Holm" Award By Bureau

**1976-1989: Thirteen Years And 1000 Arthroscopic Surgeries Later**

A.E. Pino, M.D., Orthopedic surgeon in the area since 1970, performed his 1000th arthroscopic surgery at the De Leon Hospital on April 6, 1989. Dr. Pino pioneered arthroscopic surgery in Central Texas performing his first arthroscopy at the Blackwell Hospital in Gorman, Texas, on April 6, 1976. At that time, this was an unknown operation by the majority of the bone specialists, but 13 years later has become one of the most common operations performed by orthopedic surgeons in injuries of the knee.

The operation is performed on an out-patient basis which produces significant hospital savings, decreases infection rate and other complications, and shortens the time it takes to return to work and sport activities. All procedures are done using a telescope like instrument that is inserted inside the joint through a small stab wound with other small tools. The telescope is attached to a miniature television camera, a video tape recorder, and a monitor. Taping the operation allows better documentation, patient education, understanding and teaching. All major joints like shoulder, elbow, wrist, hip, knee and ankle can be approached by arthroscopic surgery for diagnosis and treatment of diseases like rheumatoid arthritis, arthritis, gout and traumas, and sport-related injuries including cartilage tear and ligament tears. Some fractures can also be satisfactorily treated with the aid of arthroscopy.

Dr. Pino has written numerous papers in the field of arthroscopy including: "Abrasion Arthroplasty," "Arthroscopy: Our Experience in 500 Cases," "Arthroscopy in Diagnosis and Treatment of Fractures about the Knee," "Arthroscopy seminar (chairman, Chihuahua, Mexico, 1987)," "Arthroscopy in Diagnosis and Treatment of Fractures about the Wrist" (to be read at the 51st Annual Meeting and Scientific Session of the American Fracture Association in San Antonio, Texas, April 23-26, 1989; he is also chairman of this meeting).

The office of Dr. Pino is located at 206 N. Texas St., De Leon, Texas 76444, 817-893-2097.
