RANGER CLOSED IN CELEBRATION OF JULY FOURTH

Crowds Here From All Over Oil Field for Big Holiday Program.

Practically every store in Ranger, the banks and freight offices of both railroads were closed today in observation for the holiday and for the big Fourth of July celebration which opens at Nitro Park today with the game with Abilene and closes with the gigantic fireworks display.

At 2 o'clock this afternoon it was announced that the road race would start at 3 o'clock from in front of the Elks Club on Main street with at least two entries, J. M. White and J. C. Jones in a Ford roadster, and A. L. Ward in a Studebaker.

Mr. White will drive the Ford entry if there are more than two entries, otherwise Mr. Jones will drive. Mr. Ward will drive the Studebaker. The name of his mechanic was not available.

The recent rains, especially heavy in the Lacassa and Caddo sections, made it doubtful in the minds of promoters and several of the drivers whether it would be advisable to hold the race.

A number of Ranger swimmers and their friends left today for the water carnival held under the auspices of the American Legion in Thurber.

The majority of Ranger residents, however, after weighing their chances for a good time in more distant climes, decided that their home city, as usual, afforded the best opportunity.

The Merchants' Association band will furnish the music both at the ball game and for the fire works exhibition. In addition, a radio outfit with a loud speaker has been installed at the park and will perform both during the afternoon and evening under the hands of expert radio men.

BERLIN EXPECTS MONARCHISTS TO MARCH ON CITY

Murder Ring Stabs Maximilian Harden, Famous Editor; Expected to Recover.

BERLIN, July 4.—Monarchist forces are reported today to be marching on Berlin, where communists and workers are demonstrating in favor of the republic.

The monarchist murder ring struck another blow at liberty in Germany late yesterday, when Maximilian Harden, famous editor and enemy of the nationalists, was stabbed and beaten by two assassins.

The attack was made in the Gruenwald, near the spot where Dr. Rathenau was assassinated a week ago.

One of the assailants was captured. Papers found on his person showed he is a member of the Association of National Minded Soldiers, a revolutionary and royalist organization.

FINGERS TO NOSE, UNIONS' REPLY TO LABOR BOARD

You're Out of It; We'll Settle With Carriers, Their Reply to "Outlawing."

CHICAGO, July 4.—Declaring that the 400,000 striking shop workers have no desire to promote further misguided efforts of the United States railroad labor board, the executive council of the shop craft organizations today informed the board that they stood ready and willing to meet with representatives of the carriers to reach an agreement on their differences.

The statement, issued from the office of B. M. Jewell, president of the shop crafts, flayed the board for its "outlaw" ruling of Monday and declared the organization no longer owed allegiance to the board.

The attacking free state forces in Sackville street are now holding the republican irregulars under control, with intermittent heavy firing throughout the morning.

IRISH INSURGENTS DESERTING AS FREE STATE FORCES ATTACK LAST STRONGHOLD.

DUBLIN, July 4.—Eamonn de Valera was wounded today by free state shell fire, according to reports from the last rebel stronghold near the Hamman hotel, which was in flames this afternoon.

The attacking free state forces in Sackville street are now holding the republican irregulars under control, with intermittent heavy firing throughout the morning.

The outcome was rather dubious, as President Grable of the union said he would tear up the strike order only if the board rescinded the wage cut order which went into effect Saturday.

It is understood the orders for the walkout are written and signed in the Detroit offices of the organization. They will be held up pending the outcome of the conference.

It is believed if the labor board will offer a rehearing of the wage reduction order, maintenance of way leaders will agree to call of the strike.

Member Walter McMenimen are representing the board at the conference. In the meantime, there were few developments in the strike of 400,000 shop craft workers.

In line with their fixed determination to do all in their power to bring law enforcement to Eastland county by aiding the loyal citizens of the county and city in putting only proved men on guard over their homes and government, the citizens' committee of Ranger this morning announced a list of county candidates, whom they strongly recommend as men who will carry out the wishes of the people and live up to their pledge.

Headed by the name of W. J. Barnes, candidate for county attorney and J. D. (Dug) Barton, candidate for sheriff, the list includes the names of V. V. Cooper for county commissioner, J. N. McFatter for justice of the peace and P. P. Palmer for constable.

These selections, the statement accompanying the list declares, "were made only after the closest investigation of the record of each candidate and regardless of personal friendships, blood relations or business ties. It does not necessarily reflect on any of the other candidates in the race, but simply that after an extensive investigation the candidates selected have, in the opinion of the Ranger men active in the law enforcement fight, been found to be the men for the respective places," the statement reads.

OIL ROYALTIES PAID U. S. TOTAL FIVE MILLION

WASHINGTON, July 4.—Uncle Sam's money bags have been bulged to the extent of more than \$5,000,000 as the result of royalties received up to June 1 from oil and gas operations on leased government lands in certain western states...

Total net royalties reported by the bureau to the general land offices up to the first of June amounted to \$5,201,308.89. In the month of May royalties amounting to \$551,021.88 were reported. Of this amount \$252,022 was credited to California, \$273,654 to Wyoming, and \$25,340 to Montana.

During May 240 oil and gas prospecting permits were received by the bureau from the land office, making a total of 7,568 permits of this nature. A total of 287 leases has been granted.

Production of petroleum from the Cat Creek, Wyoming, oil field, from government land during May was 128,252 barrels, the bureau said, adding that two wells were completed on government lands in Wyoming and five were being drilled.

The greatest producing well on government land in California has been brought in by the Pan-American Petroleum company in the Elk Hills district of the naval reserve, with an initial daily production of 2,200 barrels, the bureau declared.

SOAP IS CRYING NEED IN RUSS RELIEF WORK

NEW YORK, July 4.—"We have sufficient food for the present and enough clothes. Our crying need is soap, plenty of soap, 200,000 pounds of it! Thousands of children are in need of it."

That is what Miss Thekla Holingsworth Andrew, field worker for the Near East Relief Fund, said yesterday. Miss Andrew said:

"When we ask for 200,000 pounds of soap it seems as if that is an enormous amount. Perhaps it is. But when one considers that more than 100,000 little children depend upon us for the necessities of life it doesn't seem so large."

"It averages less than two pounds of soap to each child. We are not asking for toilet soap. We want practical laundry soap. This is absolutely necessary. The first thing a child receives on arriving at our stations is a good washing. That is considered above everything else. Cleanliness begets health."

AMERICAN WOMAN FINDS RARE COINS IN FRANCE

PARIS, July 4.—An American woman, Belle Skinner, of New York, is the first person to discover important buried treasure in France since the war. When spading in the region of the devastated town of Hattin Chatel, which she is rebuilding, she turned up a pot containing 400 rare coins.

Many of the coins in the pot dated before the discovery of America, most of them being from the fourteenth and fifteenth centuries. Some of them bear the effigy of the Duke of Lorraine, who defended northern France before the Swedish invasion before the fourteenth century.

All buried treasure belongs to the government, but Miss Skinner will be given 10 per cent of its value, which it is understood she will donate to the Metropolitan museum.

The condition of the growing crop is 72 per cent, which forecasts a yield of 137 pounds per acre and a total production of 3,525,000 bales.

TERRIFIC HEAT OF CALIFORNIA DESERT COSTS THREE LIVES

BRAWLEY, Cal., July 4.—Death from "heat prostration" was the verdict reached by a coroner's jury here at the inquest over the bodies of three men who died in the desert a few miles southeast of Niland, Cal., last Saturday.

The men were J. J. Everhart and Henry C. Brown of Los Angeles, and David Wilcox, an aged prospector, who had lived in many western mining districts.

Wilcox's body was found about ten miles from Niland, beside a small wagon drawn by two burros, which were standing patiently in the intense heat.

Everhart's body was found in an automobile about six miles from Niland, and a short distance away was Brown, still alive. He was rushed to a hospital here, but died soon after his arrival.

It was estimated the temperature where the deaths occurred was between 132 and 152 degrees.

SAN ANTONIO, July 4.—Wylie Rivens, farmer, 75, was drowned near here when the automobile in which he was driving alone overturned and imprisoned the aged man beneath it in a pool of water by the roadside. A messenger from Kelly field found the body.

FIRECRACKERS DROWN NOISE OF BURGLARY

By Associated Press.
PEORIA, Ill., July 4.—Using slabs of bacon as skids, burglars slid a safe of the Chicago Beef company into an ice box, where they looted it of \$100, while accomplices stood in front of the building and fired many packages of fireworks.

STUNT FLYER CUT TO PIECES BY PROPELLER

CHICAGO, July 4.—Louis James, nationally known aviator, was cut to pieces in midair and his mangled body dropped in the midst of thousands of people Sunday at Homewood near here, while attempting to change from one plane to another during a celebration under the auspices of the Homewood Post of the American Legion.

In his attempt to make the transfer to the other plane, James was seen to grasp the rope ladder and then the upper and lower planes to sheer together throwing the rope ladder on which James was dangling

into the propeller of the lower ship. James' body was seen to crumple and a moment later, his hands still clutching a portion of the ladder, he plunged into the midst of the crowds below. He was dead before he hit the ground.

The two pilots of the planes, their nerves shaken, made a rough but successful landing.

actual gauge. This well has been producing about 350 barrels for several days, but as it showed forty feet of water the owners decided that a shot would improve it.

The pipe line company that is running the oil is putting in an additional four-inch line to take care of the production and will be ready to use the additional line late today. They

previously had a two-inch line to the well. All of the production is being cared for today.

Dyer et al., who has a well that has been producing 250 barrels from the top of the pay, on the Howard survey to the north, have decided to deepen their well and give it a shot. Both of these wells are producing from the 3,600-foot horizon.

PYLE DRIVES IN RUNS AS PHILLIPS BLANKS EAGLES IN TIGHT GAME

Scintillating Pitchers' Duel Goes to Nitos in Fast Time, 2 to 0.

PYLE DRIVES IN—36 A baseball game as was a baseball game went to the Nitros yesterday, 2 to 0, in the first entanglement with Abilene.

Both Lefty Phillips and Keisler, the Eagles' kid hurler, pitched great ball and were backed by flashy fielding, which bordered on the spectacular at all times. Lefty, however, had the best of the argument. He allowed only three hits—one of them a scratch on a slow roller to Flagg. He had perfect control, not walking a man. And his strikeouts list of seven twice included Jawn King—to the tumultuous delight of the gang. One of Jawn's strikeouts came with a man on first and effectively put the kibosh on any scoring threat.

Keisler yielded only four safeties, but two of them were extra base slams from the bat of Tom Pyle, which drove in one run and put the other in counting position. Keisler also issued free transportation to seven which put him in hot water several times, and it was only because his widebreaking curves baffled the Nitros that he escaped with as little damage as occurred.

The Nitros hopped off with a one-run lead in the first round. Craig hit a bouncer just to the right of second, which White reached by fast work but could not grasp firmly. With two out and Dude still roosting at first, the Nitro siege gun came to the plate. Jawn King shifted to the right and the Parson crossed him by sending a liner into deep left center, driving in the run and winding up at third.

That one-run margin endured until the eighth, growing smaller and smaller as the game drew toward a close and chances for comebacks grew fewer and fewer. Lefty and his crowd were turning the Eagles back in one-two-three order, round after round, but that right field fence is short and one can never tell in what direction a lucky biff might be headed.

But in the eighth, Keisler's generosity proved his undoing. He walked Dockery. With the Parson up again he took a chance, which he had refused to do in the third, after Dockery had spanked a double into left. He took one chance too many, for the Rev. laid a sizzling drive down the third base line for two bases, putting Dockery on third. White trapped Conley's grounder and threw him out in a chase between the plate and home. Dockery got back to third. With a fresh lease on life, Leedy rapped a short liner to right on which Speck counted the second score. The Parson ended the rally by an attempt to piffle third.

Although two runs behind, the Eagles tried gamely in the ninth, but Dockery took Keisler's long fly after twice sprinting backward, Craig came in fast and snared Whitehead's liner, and Leedy ended up an afternoon of fast performance by knocking down Lyall's bouncer near second base. Morton yielded nine hits but the Swatters could not drive runs across, while Caney's double in the sixth drove in the only run of the game. The second battle, between Hitt and Gressett, was decided in the eighth, when Shell doubled and scored on Bupp's single. The scores: First game—R. H. E. AMUNDSEN BEGINS PERILOUS TRIP TO FLY ACROSS THE NORTH POLE

NOME, ALASKA, July 4.—Capt. Roald Amundsen, the explorer, is on the first lap of the Arctic journey on which he will attempt to fly across the North Pole. He sailed from Nome Thursday afternoon in his exploration schooner, the Maud. From Point Barrow, the northern extremity of Alaska, he plans to take off in about three weeks in an airplane flight which he hopes will land on the Island of Spitzbergen or on Cape Columbia, Grants land, northern Greenland. With the Norwegian explorer sailed Elmer G. Fullerton, a Canadian member of the British royal air forces, who will pilot the 185-horsepower Junker monoplane in its flight.

GUS LEEDY SIGNS TO PLAY WITH NITROS

Mister, Pete Davis celebrated his new oil well yesterday by endorsing the Nitros with a humdrum second baseman in the person of Gus (Grappo) Leedy, late of Thurber, Texas, where he baseballed with the fast independent team. Gus was over here last week it will be remembered, but wouldn't stay because he had a steady job with Thurber which he couldn't afford to quit for a couple of months' basebaling, although he wanted to come. His first requisite in signing was a steady place after the baseball season, and this Pete provided, in addition to the several hundred dollars he has spent this year for the welfare and betterment of the team. Leedy will make him a good hired hand at that, but the act makes Pete's interest evident. Pete says right out loud that the Nitros are going to be among those prominently present during the second half, and he gave their chances a big boost yesterday by persuading Gus to leave the cloistered precincts of Thurberville to cast his lot with Ranger. Gus is only 18 years old, but he is hefty and his work in two games has shown that he is a smart ball player as well as a flashy fielder. He should also be a hitter, as he stands at the plate well and takes a nice cut at the ball. His bingle yesterday put the cinching run across the platter. Thanks, Pete, er, that is MISTER Davis.

AMUNDSEN BEGINS PERILOUS TRIP TO FLY ACROSS THE NORTH POLE

At this point some one called the attention of the party aboard the Maud to a flock of geese winging their way steadily into the north. They swung close to the Maud and were accepted by the crew as an omen of good fortune. A native woman, Mary Tootsessalik, who has accompanied Amundsen on previous polar trips, came aboard to bid him farewell. From the Maud the Nome citizens who went out to see Amundsen off were taken aboard the Bear and amid the shrieking of many whistles and cheering from many craft, the explorers waved a farewell on the afterdeck of his little schooner as it pulled out. The Bear conveyed the Maud from the Nome roadstead. Capt. Thomas A. Ross of the Nome coast guard station was at the wheel of the Maud when she departed, and piloted her for ten miles.
