LITTLE BROTHER TO BE ADOPTED BY ELKS' LODGE

Plans Laid at Convention For Each Lodge to Aid Poor Boy.

ATLANTIC CITY, July 11.—Plans to act as big brothers to 1,500 poor boys and send them through college came up at the opening of the Elks' convention here today. The proposal that each Elks' lodge in the country adopt a poor boy was discussed at the business session of the fraternal order.

Atlantic City belonged to the B. P. O. E. today as special trains from every direction bore some of the 50,000 delegates that are expected here before the week is over. Some of the nation's most prominent men are to speak. General Pershing has promised to review the "prosperity pageant" Thursday.

TWO ARRESTED HERE ON CHARGE OF AUTO THEFT

Two men, charged with the theft of a Buick roadster from a Breckenridge drifter some three months ago, were arrested here last night by Police Chief Shell McDowell and Deputy Sheriff John Barnes. One of the men was released on a \$600 bond in this county and a \$1,000 bond in Stephens county. The other, who is said to have been implicated in a number of other thefts here, was taken to Breckenridge. No charges were filed against him here. Both were comparatively young men and lived in Ranger.

The car in question is said to have been kept by the men in a local garage for the last three months. Officers, suspecting that it was stolen, made investigations and kept their eye on the machine but made no arrest until they had obtained all the evidence desired in the case, it is said.

GRAND JURY DENOUNCES ACTS OF STRIKERS AT HOUSTON

HOUSTON, July 11.—Charges that a reign of lawlessness and terrorism has been inaugurated by the striking railroad shopmen and their sympathizers are made in a report of the Harris county grand jury, made public today. The report declares men are daily being beaten and that streets are blocked by gangs of men seeking to prevent entrance to the railroad shops, who beat men and have killed at least one.

Officers are either unable or unwilling to prevent disorders, the report declares, and calls on the officials of Harris county to do their utmost to put down violence.

SAN ANTONIO, July 11.—Maria Piaz, pretty 15-year-old Mexican girl, sobs bitterly today after having been unwittingly the storm center of a tragedy late Sunday, a result of which her fiancé is dead and her brother is held on a charge of murder.

Joe Acurio, 21, whose wedding with Maria Piaz was set for Sunday night, lies in the morgue with a knife wound through his heart. Ramon Piaz, Maria's brother, is in jail charged with slaying his intended brother-in-law.

Machine Gun Fire Answers; Sheriff Complains Wild Shots Terrify Town.

By Associated Press.

BLOOMINGTON, Ill., July 11.—More than 300 shots were exchanged by state guardsmen and snipers marked the first night of the troops' occupation of the Chicago & Alton shops here. Two men hidden in a gully north of the shops fired twice at sentries shortly before 3 a. m. Three hundred rounds of automatic rifle fire were poured into the gully. At daylight the place was searched but there were no sign of the snipers.

Shooting was resumed at 7:15 o'clock when a sniper fired at a sentry on the north side of the shops. No one was injured on the soldiers' side.

It was unofficially reported by guard commanders this morning that two more companies of troops would arrive today. It also is understood that non-union workers are to arrive today from Chicago. Arrangements have been made to meet the train with two companies of soldiers to guard the men to the shops.

Crowds of strikers and sympathizers began to besiege the shops at 10 o'clock this morning and machine guns were set covering every entrance.

SHERIFF PROTESTS AGAINST WILD SHOOTING OF TROOPS

By Associated Press.

SPRINGFIELD, Ill., July 11.—Sheriff Morrison of McLean county today called Adjutant General Black to protest against the alleged shooting of state troops on guard over the Chicago & Alton property at Bloomington.

"They are hitting the houses," Morrison said, and pointed out that the state troops had been sent to Bloomington to protect the workmen in the road shops and for no other purpose and that they had no authority to declare martial law, the sheriff still being the principal peace officer in the county.

The adjutant general said that no more troops would be sent to Bloomington, although companies were being held in readiness for an emergency.

Colonel Culbertson, in command of the state troops guarding the shops at Bloomington reported today to the adjutant general that only three shots have been fired there, one from outside the military line and two on the inside, one of which was accidental.

STRIKE CAUSES CUTTING OFF OF T. & P. SLEEPERS

On account of the strike, the set-out sleepers both at Ranger and Eastland have been discontinued by the Texas & Pacific for the present, it was announced this morning by S. B. Tunnell, freight and passenger agent here. It was explained that the strike of the car men had made it impossible to provide the necessary inspections and repairs on but a limited number of Pullmans.

The Breckenridge sleepers will be continued, as this point is on the C. & N. E. road, not affected by the strike. Reservations on the Breckenridge sleepers may be made at the local station.

CLOUDBURST AT KANSAS CITY.

KANSAS CITY, July 11.—Heavy rains fell over the Southwest last night, greatly improving crops in some sections and causing heavy damage in others. The storm reached cloudburst proportions in Kansas City and was accompanied by a high wind. Trees were uprooted, windows smashed and other property damaged. Electric light, telephone and other wires were blown down. Rivers in this vicinity are rising but no serious damage is expected.

CRABAPPLE CHAMP!

Ownership of the most productive crabapple tree in Eastland county or for that matter in West Texas, is claimed by L. M. Cook, residing three miles north of Ranger on the Caddo road. In support of his claim, Mr. Cook this morning produced one small limb less than 18 inches long, which bore 50 crabapples. The tree has a 30-foot spread, he said, and it is impossible to estimate the production. The tree is the only one of its kind in a four-acre orchard.

FIVE KLANSMEN IN CHURCH RIOT WANTED IN TRIAL

Austin Case Is Postponed Until Aug. 14; Detectives at Work.

By United Press.

AUSTIN, July 11.—On motion of the defense, the trial of Edgar Shelton, member of the choir of the tent revival of the South Austin Baptist church, charged with disturbing religious worship by attempting to unmask one of five masked and robbed klansmen who entered the tent Sunday night to offer the revivalist \$50 with which to aid in defraying the expenses of the revival, was postponed until Aug. 14, when the case was called this morning in the Travis county court. Postponement was due to the fact that Shelton's lawyer was engaged in the trial of a case in district court.

The state was ready for trial. County Attorney John W. Hornsby announced that all of the state's witnesses have been summoned and were ready to testify. The five klansmen who were in the mixup have not been summoned because their identity was not known, according to the county attorney. "I am making an effort to have the klansmen identified," Hornsby said. "Several detectives are at work on the case."

The court room was crowded with men and women.

MORATORIUM FOR GERMANY HELD LIKELY

Belief Is Expressed After German Representative Meets Reparations Commission

By Associated Press.

PARIS, July 11.—A moratorium on Germany's cash payment for the remainder of this year was thought to be quite possible in circles close to the reparations commission today, after Dr. Fischer, chairman of the German war debts commission, had met with all members of the reparations body in a hurriedly called informal session.

The French government is opposed to an immediate meeting of the allied powers to discuss the reparations situation and will only consent to such meeting as a final step, it was made plain in official circles following a conference between Chairman Dubois of the commission and Premier Poincare.

By Associated Press.

Scores Attracted by Huge Flaming Cross Near Eastland Road Get Distant View; Rumored Parade Fails to Materialize.

While several score of people from Ranger and Eastland looked on from some distance away and while others in Ranger waited on the downtown streets in anticipation of a Ku Klux parade, klansmen from many parts of the county last night initiated a large class of candidates in a pasture about three miles south of Ranger, just off the Eastland road. A huge fiery cross, and a large American flag made a colorful background.

Robbed and hooded guards thrown around the pasture kept spectators 200 yards from the fiery cross of gas piping.

The wind, blowing strongly against the burning gas, caused a noise that prevented the words of initiation ceremony and talks that followed, from reaching the ears of the spectators. Ranger people, who had trailed the rumors of a Klan parade to the scene of the initiation, had no difficulty in finding the spot chosen by the klansmen, the road at this point being congested with cars coming from the direction of Eastland and Ranger shortly before dark.

Guards with flash lights turned back spectators at one of

the roads leading off into the pasture but left another unguarded. Cars proceeding along the latter road were halted, however, before they could proceed close enough for the occupants to recognize the features of the robbed klansmen, who were grouped in a circle with raised hoods. Spectators arriving early found the klansmen having trouble in keeping the fifty-foot cross burning, because of the high wind. The cross was then lowered somewhat and the gathering did not break up until midnight.

Because of the distance, the more or less flickering light and the activity of the gathering, it was impossible to estimate the number of the candidates, although the number of figures in civilian clothes appeared to exceed a hundred.

The report that the Klan would parade in Ranger for the first time in its existence spread over the city shortly before dark with the rumor that the parade was forming just off the Eastland road. Those driving over the Eastland road to catch the first glimpse of the parade found no difficulty in spotting the gathering place.

ADMINISTRATION LAYS PLANS FOR COAL RATIONING

Wartime Rules to Be Put In Effect If Mining Is Not Resumed.

By United Press.

WASHINGTON, July 11.—A system of coal rationing will be necessary if the coal miners and operators do not agree to resume mining operations within two or three weeks, a high official of the government in close touch with the situation said today. Plans are now being drawn up for a voluntary revival of the wartime conservation policy employed by the fuel administration and they will be put into operation if the strike is continued, it was learned.

The first step in the rationing and conservation program would be to give priority on coal shipments to those users upon whom the life of the nation depends to a large extent.

Representatives of the non-union coal operators will be called together at the end of this week to consider means of dealing with the smaller operators who are selling coal in advance of the maximum recently set by voluntary agreement, Secretary Hoover said today.

RADIO TO END WORLD UNREST, MARCONI SAYS

By Associated Press.

NEW YORK, July 11.—Wireless as a medium of substituting goodwill for suspicion among the nations of the world was the hope expressed by Guglielmo Marconi, in an address accepting the John Fritz gold medal awarded to him for the invention of wireless telegraphy, at a gathering of noted scientists.

"I have long realized," Marconi said, "that in America, more than anywhere else, the most cordial and generous encouragement is given any honest endeavor to supply science with useful and practical purposes.

"I consider myself fortunate that much of my early work in radio has been carried out in this country, for I cannot help feeling that you realize that wireless communication has become useful and often necessary on sea and on land, besides tending to increase and simplify the facilities for closer communication between distant peoples on this earth, thus contributing, I hope, to make good will take the place of the unrest and mutual suspicion which unfortunately seems at present to be a dominating feeling among many nations."

By Associated Press.

The wife is in a hospital at Cotulla, and the husband is believed to be here with three of their six children, Sheriff Wildenthal reported.

WASHINGTON, July 11.—The United States will not be dry for 25 years, Prohibition Commissioner Haynes estimated.

While the country is theoretically dry under the prohibition law, it cannot reach a state of complete aridity until all liquor supplies are exhausted. Approximately 38,000,000 gallons of liquor remain in federal warehouses and at the present rate of consumption for medicinal purposes, it will require 25 years to exhaust the supply.

ROANOKE, Va., July 11.—Not a single clerk has struck at the general offices of the Norfolk & Western here this morning at 10 o'clock, the time set for the general walkout, according to a statement at the offices of the railroad's president at 10:30.

HARDING PLANS USE OF REGULAR ARMY IN STRIKE

By United Press.

WASHINGTON, July 11.—President Harding has determined to use whatever force is necessary during the rail strike to prevent any interference with the mails or tieup of interstate commerce. From Attorney General Daugherty and other administration leaders it was learned that the President has decided on stern measures on the part of the federal government from the outset of the walkout, because of the approaching paralysis of the nation's industrial life as a result of the coal and railroad strikes.

The administration plan for meeting the rail strike calls first for employment of United States marshals to guard the mails and other trains carrying supplies in interstate commerce. If these guards are not sufficient, there is little doubt that federal troops will be ordered out.

MINE 229 YEARS OLD OPENED BY LIGHTNING BOLT

GLENRIDGE, N. J., July 11.—The rediscovery of a copper mine worked in 1693 is expected to follow the effects of a bolt of lightning which tore a large hole Wednesday night in the yard in front of the dwelling of James Myron here. Town officials and Police Chief Higgins were looking over the ground Thursday to guard against possible cave-ins and to determine the extent of two underground passages opened up. The hole torn in the yard by lightning is bowl shaped, about ten feet in diameter. The earth has sunk to the depth of fifteen feet and two elbow holes have been opened at the bottom. The existence of an old copper mine was discovered near the Myron property forty years ago, following a blast in a stone quarry. B. Emmons Corby, operator of the quarry, unearthed a number of miner's tools and paraphernalia at the time. The copper was first mined in the Glenridge district in 1693, it is the opinion of some that the rediscovery of the ancient mines may lead to the finding of drifts that never were worked.

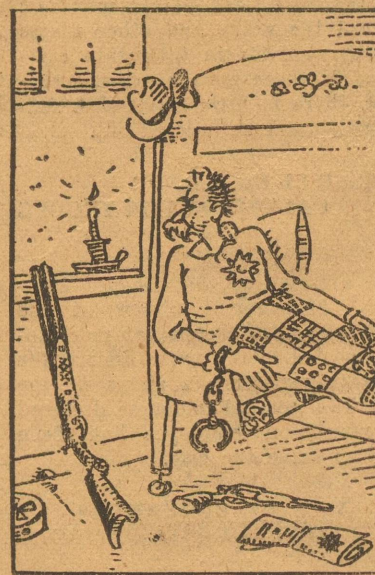

OKLAHOMAN BOUND AND HOME SET AFIRE

HUGO, Okla., July 11.—Bound hand and foot with a wire clothesline, R. A. Howard, 65 years old, Spanish war veteran and proprietor of a dairy here, was rescued from his burning home by J. T. Reed, a neighbor, who heard his cries about 1:30 o'clock Monday morning. According to Howard, he was seized by two masked men when he arose at 1 o'clock to take a dose of medicine. A third man, also masked, then appeared with a wire clothesline taken from Howard's back yard and "hog-tied" him. The attackers then poured kerosene over the house, fired it and left Howard to his fate. Reed, who lives next door to the Howard home, happened to awaken. He turned in a fire alarm and rushed over to the house, and, hearing Howard's cries, dragged him out. Howard was alone, his wife having left on a visit a few days ago. He is at a loss to find any motive for the attack, declaring that he "didn't have an enemy in the world" that he knew about. The fire was extinguished by the local department and caused little damage to the house.

MAN KILLED IN HOME; TWO DRY AGENTS SHOT

BELLVILLE, Ill., July 11.—Chief Prohibition Enforcement Agent C. F. Short of the East St. Louis district and Slim Farmer, one of his deputies, were shot and seriously wounded late Monday while attempting to raid a home here. John Rinberg, owner of the home, barricaded himself, but was shot and killed by the agents.

DOG HILL PARAGRAPHS By GEORGE BINGHAM

The Tickville Town Marshal last night dreamed that he captured a big bank robber, but that the fugitive got away. He says hereafter he is going to take his handcuffs to bed with him. Sidney Hocks was over to Tickville the other day and heard one fellow tell another confidentially that he had heard on good authority that the cashier of the bank had five pairs of socks. Washington Hocks says he has lived a long time and knows nearly everything except women.

DENVER MAN CONFESSED MURDER

Orville J. Turley, "business chance" broker of Denver, is under arrest for the brutal murder of Mrs. Emma Wise, owner of a fashionable Capital Hill lodging house there. Turley confessed, according to the police, that he lured Mrs. Wise to an untenanted house in West Denver on the pretense of making an advantageous business deal for her, beat her with his fists, choked her to death with a rope around her neck and thrust her body into a furnace pipe. He is held on a murder charge, but it is thought he will enter an insanity plea.

HARDING INTERCEDES TO SAVE LIFE OF DOG

HARRISBURG, Pa., July 11.—The President of the United States and Mrs. Harding and Governor William Sprout, of Pennsylvania, it became known today, interceded for the life of a dog that was supposed to have been condemned to death at Lansdale, Pa., because it was owned by an alien, contrary to Pennsylvania law. The dog's life had been saved and the alien, Jacob Silverman, a farmer, fined \$25 before the presidential appeal reached Justice of the Peace Howard Boorse. The alien has taken an appeal from the fine and "Dick" Silverman, part St. Bernard and part mastiff, is in the care of the Society for the Prevention of Cruelty to Animals. The President in his appeal to the governor said: "I think you will have to count this letter a personal one, rather than an official communication. I write it at the suggestion of Mrs. Harding, though I am happy to do so, because of the appeal which has greatly stirred her feelings. I have no less forcibly. I inclose the anonymous letter and the newspaper clipping which came to Mrs. Harding. If the story is correct a Russian immigrant has a faithful dog which he loves, and because his possession of the dog in some way conflicts with the state law the devoted animal has been sentenced to be shot. I have tried to put myself, loving a good dog as I do, in the position of this poor immigrant, and I know the perturbation that fills his soul. I once had to have a dog killed that I greatly loved, and I recall it to this day as the sorest trial of my life. I am not familiar with the law invoked. According to the newspapers, an alien is not permitted to own a dog. Surely there must be some way to comply with the spirit of the law and allow this poor foreigner to retain his treasured animal friend."

NEGROES BARRED IN PRIMARY ELECTION

AUSTIN, July 11.—Negroes are prohibited from participating in the Democratic primary by a decision rendered Monday by Judge J. P. Alexander of the Nineteenth district court of McLennan county, who was in Austin today. The ruling was in the injunction case brought against the county Democratic executive committee of McLennan county to restrain it from carrying out rules and regulations prohibiting negroes to participate in the primary. The case was heard at Waco last week. Judge Alexander today denied the injunction, holding that it was a party primary and that the committee has authority to prescribe regulations as it sees fit.

NEFF PROMISES AID FOR STATE SCHOOLS

AUSTIN, July 11.—Relief for the rural schools of the state, was the subject of a conference held Monday by about 30 county school superintendents and principals of the county schools with Governor Neff. Governor Neff assured the delegation that when the legislature convenes next January he will ask the law makers to appropriate at once a sufficient sum of money to run the schools the coming school year, the usual length of term, such as has been maintained in the state for the past several years. It was made plain by the governor that there was really no occasion for a called session of the legislature, as the legislature that convenes next January in regular session can provide all necessary relief for the maintenance of the public schools for the coming year.

EX-JUDGE CONVICTED OF TYING WIFE TO BED, SETTING HOUSE ON FIRE

SALT LAKE CITY, Utah, July 11.—Omer R. Woods, a former probate judge in Idaho, staps convicted of the murder of his wife, Maryetta Woods, who was burned to death as she lay in bed in the Woods apartment house here last Jan. 9. It was the contention of the prosecution at the trial that Woods killed his wife to collect \$16,000 life insurance.

The jury verdict was murder in the first degree, and as there is but one penalty for that offense imposed in Utah—that of death—Woods on July 11 will be asked to state by which method he shall die. In case he makes no decision the court decides upon either hanging or shooting, the two execution methods of the state.

Testimony at the trial of Woods was of a most startling nature. Evidence brought out that the dead woman's hands and feet had been tied and her body thrown upon the oil soaked bed.

Woods defense was that his wife had been murdered by two burglars who ransacked the house.

WOMEN FEARFUL BOBBED HAIR MAY CAUSE BALDNESS

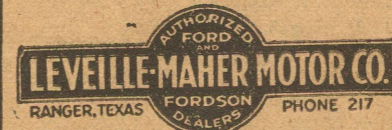

WASHINGTON, July 11.—The fearful prospect of a nation of bald-headed women following in the wake of the bobbed hair craze has divided Washington beauty parlors into two bitter camps, while in the distance rumbles the thunder of an impending curling-iron war.

When hair is bobbed, it is explained, a tight hat usually is worn through which air does not reach the scalp, and which retards the growth of the hair.

In fact, it has been solemnly affirmed that the crowning glory, starved for ventilation, frequently gives up the battle and falls out.

WOMAN A Long Sought Relief for Women

Woman's highly nervous and complex organism is very easily affected by the strain of her duties.

Especially is the back the point of severe strain and the cause of suffering. It is the pressure of strained, movable bones of the spine on the nerves that causes disturbed functions and leaves women fagged-out.

For this reason, women folk find Chiropractic of benefit. We Chiropractors adjust the spine, thereby removing the pressure from the nerves. Normal nerve function is thus restored and Nature goes about its work unimpeded, to build up the system, strengthen the weak and diseased organs and increase the disease resisting power of the body.

CIRCUS STUFF GIVES NITROS LAST DITCH WIN

One of those thrilling finishes which the Nitros often attempt and sometimes achieve was put across in fine style yesterday and the home gang won a 10-inning battle, 10 to 9, evening up the series with the Broncs. The victory put the Ranger performers within one game of a fifty-fifty standing and today's battle—the last here for nine days—determines whether they leave home even-stepped or two games below par.

Consistent and hearty slamming in the last few innings earned the Nitro victory. Going into the ninth two runs behind, consecutive homers by Dockery and Ammons—pinch hitting for Leedy—knotted the count, and in the tenth, Lybrand's drive against the wire, followed by Zapalac's sacrifice and Binie White's drive to the clubhouse, put over the winning run of what in later innings turned out to be a fiercely fought battle.

Early in the game, the Nitros had pursued their usual course of spotting the opposition to some several runs and getting none themselves. Their play, while technically O. K., was of a carefree sort which refused to be worried. This exhibition of sangfroid was admirable for its excellence but it wasn't what the folks had laid down six hits to see, and so a change of heart that came over the Nitros about the sixth round was highly indorsed by those who had the courage to remain for what threatened to be a dismal climax.

Although there were several neat bits of play during those first six rounds, notably a fast play at first with Conley and York officiating, a quick stop and throw by Skipper Jim which headed off a run at the plate, and the snappy retrieving of Dockery which nabbed Scoggins at second in trying to stretch a hit, the Broncs had piled up a six-run lead on this and that. Mostly it was due to a fly hit by Robertson, with two down, two strikes on him and the bases full, which the wind wuffed over the fence. York had little on the ball after the first inning, and his wildness added to the Bronc score.

Nitros Group Knocks.
For some unknown reason, in the sixth round the Nitros became inoculated with an intense desire to win, and began grouping their knocks with a commendable consecutiveness. Previously the only break in the clouds of gloom had been the fourth, when Dockery managed to score on an infield out, after leading off with a triple.

Binie White—who yesterday played a bang up offensive and defensive game, by far the best he has yet shown with the Nitros—led off with a slam to right and was followed by doubles administered by Craig and Pyle, counting two runs. It was the Parson's only pinch hit of the day, as hard luck pursued him in other attempts. Once he slammed a liner back at Ray which the Bronc pitcher never saw, but which happened to hit his glove.

Similar misfortunes met other Nitros at various critical times during the fraying, holding down the score. Craig, Dockery and Conley all hit hot ones directly at Greer, which would ordinarily have gone safe. Dean was directly in the path of a liner by Flagg. White ripped out a screaming liner to right center, which rolled along the top of the fence and dropped back inside. It was a matter of inches that the drive did not go over, which would have added two to the Nitro total.

Couldn't Stop 'Em.
In spite of Lady Luck's back hand slaps, however, the zealous Nitros had their tail in the air and was rearing to go. They drove Ray from the box in the eighth, Leedy leading off with a homer, and added two more when Muns failed to stop the hitting. In the ninth they patted out the two circuit clouts and after Lybrand had opened the tenth with his hit, Scoggins tried his pitching wares. White's blow cut his mound duty short.

SERBIAN PRINCE ACCUSED OF POISON PEN

Prince George of Serbia, son of the late King Peter and elder brother of King Alexander of Jugo-Slavia, has been accused by M. Pachitch, Jugo-Slavian Premier, of writing menacing letters. The Premier has asked the French government to restrain him, as he has been living in Paris for years, having renounced his rights to the throne in 1909. One view is that he is a member of the Serbian "Black Hand," which is credited with conspiring against the "White Hand," which favors King Alexander.
