Two Vehicle Wreck Leaves Ten Injured

Six Hospitalized In Three Hospitals

One person is critical and five other persons hospitalized following a jarring car-pickup accident near Muleshoe Thursday afternoon shortly after lunch.

Two-year-old Michele McDonald of Dimmitt was rushed to Lubbock Methodist Hospital shortly after the accident for treatment of head injuries received when she slammed into the windshield of a late model car driven by her mother, Mrs. O.D. McDonald.

The accident occurred at an unmarked intersection on a dirt road five miles northwest of Lubbock in Parmer County. Involved was the car driven by Mrs. McDonald and a pickup driven by Pilar Lopez of Lubbock, who was also seriously injured in the wreck.

It is uncertain as to what time the accident occurred on the rather remote dirt road as one of the injured youths from the accident made his way to a home approximately a mile from the site to summon help.

The Bailey County Law Enforcement Center received first word of the accident at 1:17 p.m. and dispatched two ambulances from Muleshoe. An ambulance from Friona was not utilized when it arrived as all the injured had been transported to West Plains Memorial

Hospital in Muleshoe by the two ambulances and private conveyances.

Texas Highway Patrolmen Robert Sheed and Glen Fant, of Farwell, who investigated the accident said Lopez was traveling east and Mrs. McDonald south when the two vehicles collided almost dead center in the intersection. Both vehicles came to a rest in a field on the southeast corner of the intersection. The Lopez vehicle had damage to the left front and was believed to have overturned one time before it came to a stop and the McDonald car was heavily damaged on the right front and right side. The right side of the windshield and both side windows on the right side were knocked out of the car in the initial impact. The automobile did not overturn.

Hospitalized in Muleshoe, Lubbock and Dimmitt are five of the accident victims. They are Mrs. O.D. McDonald, who was taken to Lubbock Methodist

SP/4 Paul Edward Wolfe, 20, died on Wednesday, December 2, in Vietnam of a disease he contracted while serving in that Asian country with the U.S. Army. Army officials who contacted his parents said he had been ill and hospitalized since October 17 with a tropical disease. He took pneumonia and the complications caused his death.

The soldier had moved with his parents to Tucumcari, N.M. from Muleshoe approximately a year and a half ago from Muleshoe. He was born in Hawthorne, Nev. and was a member of the Immanuel Baptist Church in Tucumcari.

Services and burial will be held in Muleshoe, according to Frank Ellis of Singleton Funeral Home, but are pending the arrival of his body in the United States. His body is expected to arrive in approximately 10 days.

Survivors include his parents, Mr. and Mrs. Elmer Wolfe, Tucumcari; one sister, Mrs. Carl Dugan, National City, Calif.; one brother, Harry Wolfe, Tucumcari and grandparents, Mr. and Mrs. Ted Allen, Muleshoe.

Muleshoe Police Chief Harold White led off the parade with the local Scout color guard next. This was followed by the Muleshoe Junior High School Band, performing under direction of MJHS Bandmaster Bob Badger, as Santa Claus was in and out of the parade on his very modern golf cart.

Then came the beauties, floats, Scouts, marching elves, antique cars and trucks and the Muleshoe High School Mighty 'M' Marching Band with twirlers Monica Griffiths and Marilyn Pool leading the way.

To the delight of the youngsters Santa Claus stopped along the parade route to visit and

Immunization Will Be Given For Diphtheria

Due to the increasing number of Diphtheria cases reported in the West Texas area, the Muleshoe schools, in cooperation with the County Health Officer, Dr. B.O. McDaniel, will sponsor a free immunization program in each of the four schools for school age children.

The serum has been ordered by Dr. McDaniel and when it arrives, the inoculations will be given immediately to the students who have signed parental permission slips, according to Tom Jinks, Special Services Officer for the Muleshoe Independent School System.

THE REDNOSED REINDEER--Muleshoe Young Homemakers had the second place float entry with their portrayal of the twelve reindeer, young Christmas carolers, lots of greenery and snow. Even the vehicle pulling the float was rigged up as a large chimney. The sleigh was loaded with gifts that Santa's young helpers were to help distribute on Christmas Eve.

GOOD GRIEF! CHARLIE BROWN--The Muleshoe Jaycees won third place in the float entry contest for their Charlie Brown float. By Carey Sudduth
Many things happen at Jun-ior High around Christmas. One of these things is the Student Council sponsored "Toys for Tots" campaign. The homeroom with the most points, on a one point basis, for each usable good, will receive a prize. All the boxes full of collected goods will go to various places.

Another activity around Christmas time is the door dec-orations. Each homeroom will decorate its own door on De-cember 10th and 11th.

Scout Rally Is Scheduled For Thursday

Jerry Hutton, membership chairman of the George White District of the Boy Scouts of America, announced that a community wide Boy Scout Rally is scheduled for Thursday, December 10, at 7 p.m. in the Mary DeShazo Elementary School cafeteria.

According to Hutton, Boy Scouting is that part of the Scouting Movement especially designed for boys 11, 12 and 13 years of age. The purpose of the Scouting movement, he said, is to promote the ability of boys to do things for themselves and others, to train them in Scoutcraft, and to teach them patriotism, courage, self-reliance and kindred virtues.

Boys attending this rally will have an opportunity to join any of the Boy Scout troops in Muleshoe.

Troops that will be represented at the rally will include Troop 633, sponsored by the Methodist Men, with Roland McCormick as Scoutmaster; Troop 634, sponsored by the Bailey County Fire Department, with C. Owen Jones as Scoutmaster and the newest Troop in town sponsored by the Catholic Church of Muleshoe, with Tommy Black as Scoutmaster.

Other committee members who will attend the rally include Walter Bartholf, Vic Benedict, Jeff Smith and Ken Cole.

This is another of the projects of '65-NS.' Therefore, concluded Chairman Hutton, all boys 11, 12, and 13 years of age and their parents are invited to attend this community wide Scouting event in Muleshoe on Thursday, December 10.

Parental permission forms are being sent home with each and every student in the Muleshoe School System. These forms are to be returned to the student's homeroom teacher as quickly as possible, so that when the serum arrives, shots can be given immediately.

This inoculation will serve as a booster for those students who have been previously immunized, but have not received a booster shot within the past year.

If a student has never been immunized, it is essential that this student must have a follow-up shot in six weeks in order to complete the series, said Jinks.

The shots will be given by the school nurses, Mrs. Imogene Tiller, R.N. and Mrs. Betty Jo Davis, R.N., in cooperation with the County Health Officers.

And No Depression Claims! Legislators casting about for new sources of tax revenue seem, strangely enough, to have overlooked a promising proposal once offered to England and the world by Jonathan Swift.

"I propose," said the satirical Swift, "that a tax be levied on female beauty."

"But could we make the women pay enough to make it worth while?" a listener inquired.

"Ah, yes," replied the wily Dean. "Let every woman be permitted to assess her own charms—then she'll be generous enough."

Mrs. Wyle Bullock, Worthy Matron, was unable to attend, due to illness. The Chapter voted to send a Christmas "Love Offering" to our Eastern Star Home, in Arlington, and to the adopted sis-

Wrap Up your Christmas gifts with style this year, by taking a clue from the innovators who are using everything BUT standard wrapping papers to give gifts an original new look. Fabrics, wall coverings, self-adhesive vinyl papers; even such "mundane" coverings as newspapers and butcher papers have a fresh look when they're appropriately trimmed.

Going To Waist is the fashion focus of the new long look. The waistline, now, is clearly defined, and there are more ways than just belts to accomplish it. LOUISA'S LETTER

Dear Louisa,

I have been happily married for twenty years—that is until this year. As long as my husband and I were hard up for money we worked together and made the best of what we had. But this past year, a relative died and left us quite a lot of money. My husband is very smart and he has been able to use it to make much more. But, Louisa, this money has not brought us happiness. It has given us comforts and luxuries that we never had before but I feel that it has taken my husband from me. He has time now for all the sports and cocktail parties. Instead of a family group as we were before this inheritance, enjoying simple pleasures together as we could neither afford expensive trips or baby sitters at that time—we are either whooping it up with the drinking crowd or I am at home alone trying to keep a watch on my two teenagers. I

don't approve of drinking—I think it is a dangerous and an insidious habit to get into.

What can I do? My husband has me worried.

Distressed—Ill.

Answer:

Riches certainly do not make for happiness. The trouble with many people is that their values are all wrong. They have the idea that high society means a round of social gatherings with money thrown around. They try to keep up with a fast crowd and destroy all of the worthwhile things that make for real happiness in their effort to keep up with or to out-do the Jones's.

Perhaps your husband is just having a fling and will realize what he is doing before it is too late.

Busy Student Council Undertakes Projects

By Becky Sain

The MHS Student Council attended the District Convention of Student Councils Saturday, Dec. 5, in Littlefield. The council is running for the office of Parliamentarian of the District. Campaigning for an office in district is similar to campaigning for an office in each individual school. The campaign speech will be given by Martha Chapman. Several schools have been contacted to support the MHS nomination.

Fifteen members of the MHS council are planning to attend the convention. The four voting delegates are Monica Griffiths, Becky Sain, Betty Chandler, and Lee Ann Yerby. If MHS wins the office, the Council will run for a state office.

An essay contest is being scheduled by the council. Each class will be judged separately. There will be two prizes awarded to each class. First prize will be \$5.00 and second prize will be \$2.50.

Each class topic is different. The freshman class topic is "Why I Am Proud to Be An American." The sophomore topic is "What Makes Our School Unique." The junior class topic is "What I Think About the Drug Problem," and the senior class will write on "What I Think About War."

Honor Students For The Month

The first half million bales of cotton classed on the High Plains through November 20 this year, according to the first crop quality report compiled by Plains Cotton Growers, Inc., is characterized by the highest fiber strength ever, the best grades since 1965 and exceptionally good micronaire. But staple length of the crop is following the downward trend started in 1969.

The PCG quality report is a regular harvest season service to textile mills, the cotton trade and others around the world with an interest in the qualities and quantities of cotton available from the High Plains area. Reports are issued periodically during the harvest season with a final wrap-up as the last bales are being ginned.

Grade, staple and micronaire figures on about every tenth bale are supplied to PCG by USDA classing offices at Brownfield, Lamesa, Levelland and Lubbock. Pressley (fiber strength) and elongation tests are run by the Textile Research Center at Texas Tech University on "plugs" from the same four offices. Cross-classification and percentage distributions of quality factors are done by computer.

Average staple on the first portion of this year's harvest, almost a third of a total crop now estimated at 1,738,500 bales, came to 31.2 thirty-seconds of an inch. This compares with a 31.4 thirty-seconds average reported on the first 350,000 bales from the 1969 crop and a final 1969 average of 31.5 thirty-seconds. Staple length of Plains cotton in 1968 reached an all time high average of 32.3 thirty-seconds. But

there was poor demand in both 1968 and 1969 for the longer staple cottons and farmers for the last two years have moved toward planting shorter stapled varieties. The same slack demand for longer stapled, higher quality cottons is a feature of cotton marketing this year.

Fiber strength of 1970 crop cotton on the Plains promises to be the highest ever recorded. PCG's first report reveals classings to date have a Pressley average of 88,300 pounds per square inch. Last year's first quality compilation showed an average Pressley of only 83,700 psi, and the best average for an entire season on the Plains was 82,000 psi, established in both 1968 and 1969.

A good micronaire year is virtually assured for the area this year as the first third of the crop has had an average "mike" reading of 4.1. Last year's first report carried an average micronaire of 4.0, and the final season reading came to 3.7. That average on the 1969 crop was the highest achieved on the Plains since micronaire became an official factor in the "green card class" in 1964, and there's a chance the record may be broken again this year.

Grades on the crop thus far have caused at least one cotton official to remark "I've never seen so much white cotton." Cotton classed "white" through November 20 this year has totaled 52.3 percent of the crop, far above the 13 percent that fell in that category for the 1969 season. Still, cotton grades this year are not the highest seen on the Plains. Slightly over 61 percent of the total crop was graded white in 1965.

Light spots so far this year

have made up 39.4 percent of the crop as compared to 44.9 percent at this stage of the harvest last year. Full spots, which at this time in 1969 were accounting for 14.4 percent, this year have dropped to 7.5 percent. Less than 1 percent of the 1970 crop so far this year has fallen in the tinged, yellow stained, light gray and gray areas, as compared to 14.8 percent in 1969.

PCG officials note that if good harvesting weather continues a final report on the quality of High Plains cotton, covering virtually the entire crop, may be possible by around Christmas.

SS Service Now Expanded For This Area

People in Muleshoe will soon have expanded social security service, according to an announcement by John G. Hutton, District manager of the Social Security Office in Lubbock. "Beginning immediately, any telephone subscriber in Muleshoe may phone the Lubbock office direct without a toll charge," Hutton announced. This service will be possible through the Enterprise toll system.

A person in Muleshoe will simply dial the long-distance operator and ask for "Enterprise 8-3339". If the caller does not have the Enterprise number, he will dial "Directory Assistance" first and ask for the Social Security Administration Enterprise number in Lubbock.

"This expanded service will enable a person in Muleshoe to call toll free to transact almost any kind of social security business," said Jimmie J. Latimer, field representative for Muleshoe. This service will include filing an application for benefits, changing address, filing an annual report of earnings, filing a Medicare claim, or simply inquiring about any of these services.

New Legislation Designed To Protect Buyer

COLLEGE STATION -- Each year, up to a million credit cards are lost and three hundred thousand are stolen. To protect a consumer plagued by disappearing credit cards, Congress has passed a new law that will be effective Jan. 23, reports Doris Myers, Extension specialist in home management.

The new law states that an individual will not be liable for any loss from unauthorized use of his card after he has reported its disappearance to the issuer. Notice may be by telephone or by letter.

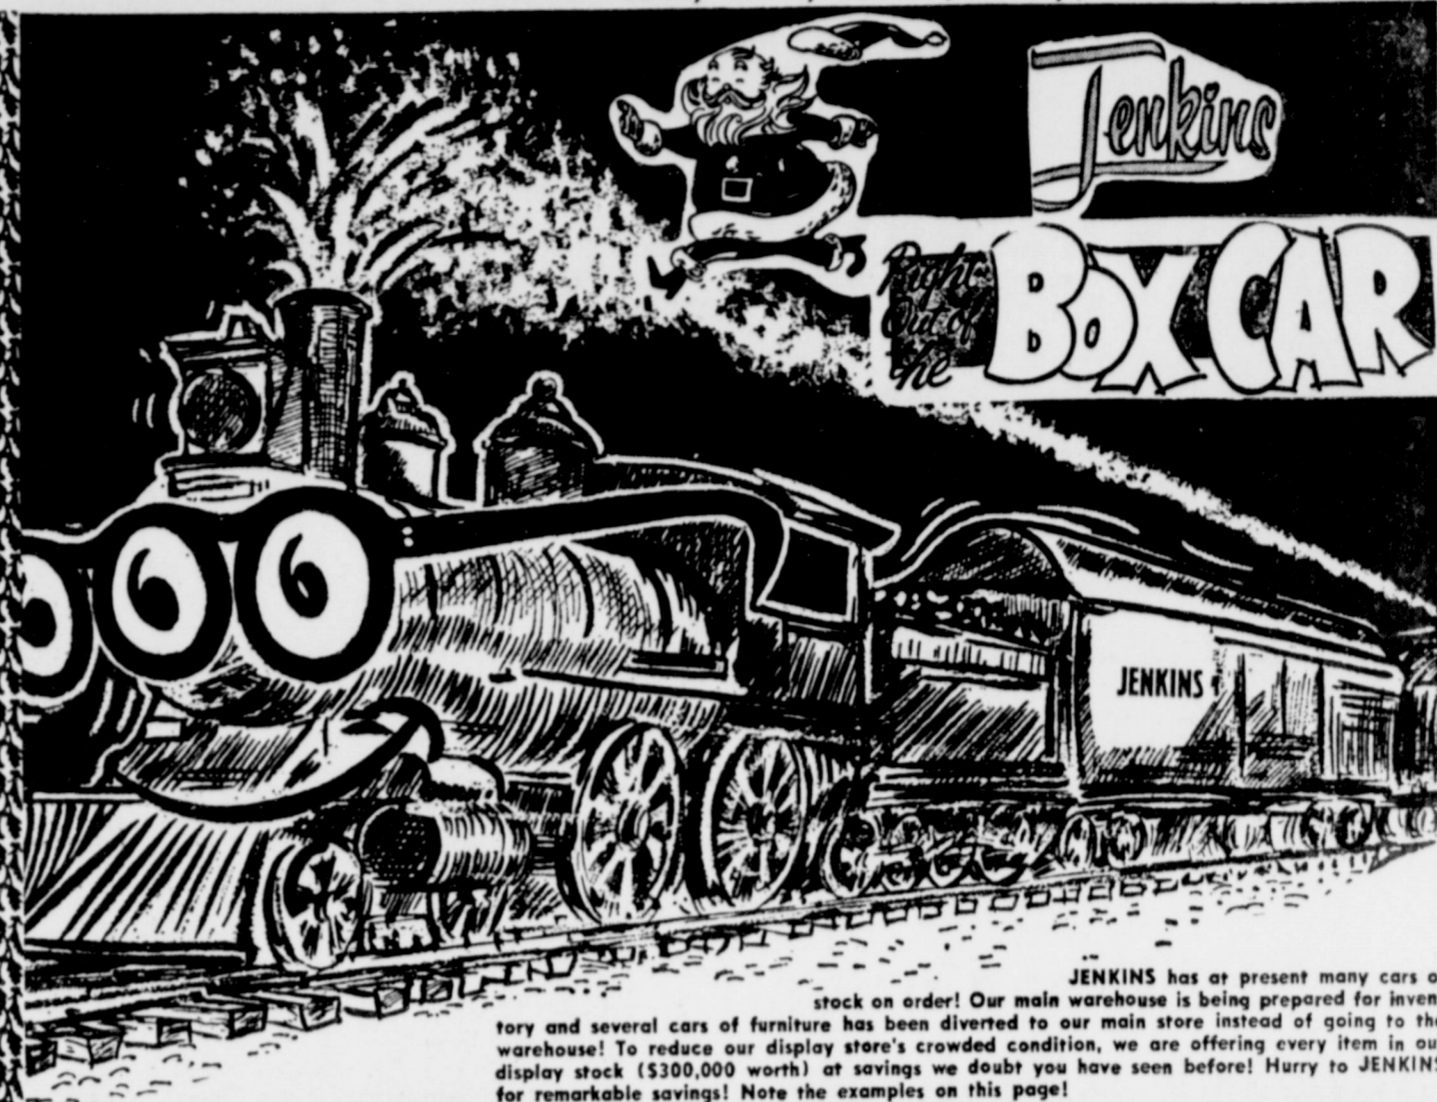

Most companies will cancel use of the card once they have been notified. If the notice is by letter, cancellation is effective the day the letter is postmarked. For losses occurring before notification, liability is limited to \$50.

The \$50 liability applies separately to each card that is lost. So, if a billfold or purse containing five credit cards is misplaced, the potential maximum liability is a total of \$250. If a husband and wife lose their cards on a joint account, however, the total liability is limited to \$50.

The new law also prohibits banks and other firms from mailing out unrequested credit cards. Companies must inform the user of his rights and potential liabilities, plus they must assume the legal burden of paying for liabilities the card holder may suffer.

KIDNAP WARNING

Washington -- Senator William B. Saxbe (R-Ohio) told Congressmen that the White House had warned that senators and representatives may become targets for abduction by revolutionaries. He said the only preventative was to make it a federal offense for anyone (in government) to accede to this kind of thing.

Dear Editor:

The explanation going around Muleshoe of the "about face" of the commissioner's race in Precinct 4 after the recount is that the absentee ballots had not been counted. This is not true. There were 9 ballots for Precinct 4 in the absentee box; five for Harlan and four for Moraw.

When the votes were recounted in the Muleshoe box 1A, there were 72 for Moraw rather than the 65 first reported. These ballots were NOT overlooked because according to two of the men appointed to recount the ballots, all 72 were folded together.

When the officials of the election were discussing how to conduct the election so that two precincts could vote in the same box, one official suggested that there be two stacks of ballots, one with Moraw's name marked out for Precinct 1 voters and one stack of the normal ballots for Precinct 4 voters. This would prevent any mistakes. But this was turned down. Instead, those voting in Precinct 1 marked their ballot P 1 and those voting in Precinct 4 marked their ballots P 4. Later when it was determined how many votes were needed it would have been a simple matter to take 7 ballots that were "branded" P 1 and change that "brand" to P 4. Did this happen? I don't know, but it could have.

By the way, our group received a proposal through the Hospital Director's lawyers which we couldn't accept, I am sorry. If we could have come to terms it might have been in time for the Muleshoe merchants to have benefitted by some extra Christmas shopping.

Peasant blouses, with their gathered necklines and full sleeves, are favorites with young women. These are effective when worn with braided skirts—also a peasant style.

It takes a Good Eye...

TO THREAD A NEEDLE

Did you ever thread a needle?
... Most everyone has, it
takes a good eye, for the
opening is small. Did you
ever try to thread one while
someone else held the needle?
... This is almost impossible. All
this brings us to the point that ...
*there are some things that we must do
ourselves.* We can not send someone
else to church for us, we can not
have someone else worship the
Lord for us. These things
are strictly on an
individual basis.
ATTEND CHURCH
... YOU'LL BE
GLAD THAT
YOU DID.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

Studies Underway On Grain Sorghum

LUBBOCK--Research by two members of the Texas Tech University Department of Agricultural Economics shows that enough grain sorghum is produced in the High Plains of Texas, Oklahoma and Eastern New Mexico to feed about four million head of cattle annually.

Research on grain sorghum market structure of the High Plains conducted by Prof. Richard J. Foote of agricultural economics, and research associate Jesse Carter Snodgrass, was financed through a special item of Research in Agriculture in the Texas Legislative Budget.

The report concluded that if surplus water were brought in, grain production and cattle feeding could increase substantially.

"If supplemental water supplies are not obtained, areas now in cotton and vegetable production could be shifted to feed grains, if it would be the most profitable use for this land and water," said Foote.

"Improved technology could result in expanded feed production with no expansion in land or water resources.

"The study," he said, "was made to determine the major characteristics of the current market structure for grains. It may suggest ways to develop a more efficient marketing system, thus enabling the High

Plains to realize the full economic potential of both grain sorghum production and cattle feeding."

The study determined flows of feed grains produced on the High Plains through various market channels, especially to local feedlots, and obtained information on current market practices.

"In recent years, substantial increases have taken place in both the quantity of grain sorghum produced and the number

of cattle fed," said Foote. "The semi-arid climate of the High Plains and relatively warm winter temperatures are factors that have encouraged cattle feeding."

Cattle feeding is carried on to some extent in virtually all sectors of the area, he said, with the largest concentrations in the central and northern portions. Another area of high concentration is the western part of the area in Chaves County, N.M. "Cattle feeding has been ex-

panded in all parts of the study area, primarily due to the surplus of grain in Texas and Oklahoma," Foote said. "This surplus grain has given feeders a lower feed cost than experienced in other sections of the U.S."

Study results show grain sorghum was used in larger quantities than any other feed grain by feedlots. It represented 95 per cent of the total grain used and 97 per cent of the purchases made.

"About half of the grain storage capacity in the area was held by 10 per cent of the firms with a capacity of three million bushels or more per firm," Foote said.

"About 90 per cent of the feed grains handled by elevators was sorghum grain and for a third of the elevators, this was the only grain received."

In the north, the study revealed, 38 per cent of the purchases of feed were on a weekly basis and in the south and the Pecos Valley, about 65 per cent were on an annual basis. "Most large feeders buy under contract," said Foote.

"Most of the feedlots indicated they tried to buy when they thought prices would be low and price was the most important criterion with respect to choice of suppliers."

ON GAS BRANDS

Detroit - Senator Philip Hart, (D-Mich) said recently that various brands of regular gasoline are substantially "as alike as aspirin tablets." As a member of the Senate Antitrust and Monopoly Subcommittee, Hart and others collected samples of regular gas over the U.S. and had them tested at a government laboratory.

Friona Downs Eighth Girls In Two Games

By Prisca Young
The Junior High A and B girls played Friona at the Friona Junior High Gym on November 30.
The B team score was Muleshoe 22, Friona 36. The high point man for Muleshoe was Diane Dale making 10 points. The forwards and guards worked hard as a team but they just could not hold Friona down.

The A team score was Muleshoe 21, Friona 31. High points man for Muleshoe was Lavern Carpenter with 8 points. The Mullettes worked hard but just could not score the extra 11 points needed.
Both the A and B team played a fine game.

LAIRD & CAMBODIA
Secretary of Defense Melvin R. Laird suggested the broadest use yet of U.S. air power in Cambodia--in the face of congressional concern over U.S. involvement there--were based on protecting American forces over the border in Vietnam.

Although it is still three weeks until Christmas Day, Christmas is very much here. Today is the big day with Santa making a personal appearance and eight floats in our annual Christmas Parade. Christmas is a wonderful time for the young as well as the young in heart; it's a time when everyone acts their best and makes an extra effort to be on their best behavior.

We certainly appreciate those who helped get our Christmas program ready. We appreciate Jeff Smith, our grand Christmas Parade Marshal; Mrs. Elizabeth Black and her art class are due a big thank you for fixing up and painting the Nativity Scene. I'll guarantee you, you'll never believe how the looks of Santa's Workshop has changed, thanks to Orbie Chandler, Manuel Arrazola and Joel Nowlin.

Let us all enjoy Christmas, and we hope we can keep the Christmas spirit throughout the coming year.
