

THE WEATHER
West Texas—Tonight and Thursday partly cloudy, probably showers in south portion; colder tonight except in southwest; freezing in the Panhandle.

RANGER DAILY TIMES

A Newspaper Of and For the People

SENTENCE SERMON
We seldom find persons whom we acknowledge to be possessed of good sense except those who agree with us in opinion.—La Rochefoucauld.

VOL. V. RANGER, TEXAS, WEDNESDAY EVENING, APRIL 9, 1924. Price Five Cents No. 268.

TEXAS REPUBLICAN PREPARING DEFENSE

Senator Wheeler Declares the Republicans Fear Uncovering By Him of Great Conspiracy

COUNTRY CLUB BUILDING GOING UP VERY FAST

Walls Nearly Completed and House Warming Planned for Near Future.

So much progress is being made on the new clubhouse of the Ranger Country club at Hagaman lake that a public opening of the clubhouse is contemplated for the latter part of next week.

The formal opening will take the nature of a complimentary dance for members and their friends, J. M. Dodson, president of the club, said today. Members will be permitted to invite their friends.

A dinner-dance for members only will probably follow the public dance. Morally dances for the club's membership will be given. A chicken roast for the pleasure of the members will also be programmed.

All of the dances and dinners at the club will be restricted to members and only those having membership cards will be invited. The club's parties will not at any time take the nature of a public affair, it was stated today.

Half of the stone construction is completed and all of the huge window frames are in. Contractor Massey of Strawn had seven men at work on the clubhouse Tuesday. The big fireplace on the east side of the building is partly completed.

Work on the new road to the clubhouse is making rapid progress this week. Saunders Gregg, road contractor, is doing the work. The route, which was staked out a month ago, is being scraped and rolled, preliminary to the graveling. The new road will read from the Mineral Wells road to the clubhouse direct and is much shorter than the old road.

Ranger Population Shown To Be Above Ten Thousand Mark

The question most often asked of a newspaper man in Ranger is, what is the city's population, or "how can I figure it out?" He is helpless to give an answer, but one in a while there are some figures available that will give a basis for figuring approximate populations.

The scholastic enrollment figures compiled by J. M. Dodson of the Ranger Independent School district, show a total of 1,999 boys and girls who will be seven and under eighteen years of age on Sept. 1 of this year.

In 1920 when the federal census was taken, the city was given a population rating of 16,229. The number of scholastics in 1920 was 2,455. If the present scholastic enrollment of 1,999 is taken as the numerator and 2,985 as the denominator, times 16,220, the result is 10,800 in round numbers. This is one method of its short history in 1923, the scholastic enrollment only fell off 23 boys and girls.

CONFIDENCE OF TEXAS DEMOCRATS PUTS CLAMP ON THE PURSE STRINGS
DALLAS, April 9.—That the democratic party will win without their financial aid is the feeling encountered when attempts to raise party funds among democrats are made in Texas, according to Hal E. Sevier, personal representative of the chairman of the national financial committee.

"However, despite this feeling, we have been very successful throughout the state," Sevier said.

Klan Vote Seats Republican Mayor In Kansas City

KANSAS CITY, April 9.—Albert I. Beach, republican, was elected mayor of Kansas City in Tuesday's election by a majority of 4,794 over Frank H. Cromwell, the democratic incumbent, the vote being: Beach, 66,446, Cromwell 61,652.

Beach was charged with being the klan candidate by his opponent and klan influence was generally credited with being an important factor in his victory.

REPUBLICANISM IN GERMANY IS FACING TEST

Reichstag Elections, May 4, Will Prove Sentiment Towards New Government.

By CARL D. GROAT, United Press Staff Correspondent. Berlin, April 9.—Republicanism in Germany is facing its greatest test since the infant democracy was established.

Reichstag elections to be held May 4 will register the will of the German people as to whether republicanism shall flourish or whether men of monarchistic trend shall guide the republic's destinies.

In advance it appears that the ultra-reactionaries will win a tremendous victory.

Whether their victory will be long-lived is another question, which only the future can answer.

But the campaign has now progressed sufficiently to show that the nationalist and "Folkish" elements have a big lead. They now hope to achieve through the ballot what they failed to achieve through the Kapp Putsch and the Munich beer-cellar revolution.

That is to say, they seek establishment of old Pan-Germanic customs, elimination of "Marxism," expulsion of Jews, adoption of a stiffer, brusquer policy toward France, eventual scrapping of the Versailles treaty, introduction of tariffs which would shield the farmer-princes and the "suffering" industrialists—largely at the expense of the home consumer.

Heftiger, monarchist to the core, would be the foreign minister, and if he followed the principles proclaimed in the campaign, it would not be long before Germany stood defiant before France. The nationalist and Folkists (fascists in perhaps a better term) believe that Germany has been too much humiliated.

They insist upon "Germany's rights." Many firebrands among them even preach a "Revanchekrieg"—war of revenge—against France. The sooner the better, say they.

Rip up the Versailles treaty, they demand! Let us again have our place in the sun, again our "Tag." The chances of victory are all the greater since the Socialists long since proved their inability to guide the republic's destinies. Furthermore, the democratic elements of Germany have shown themselves either impotent or lacking real enthusiasm and real energy.

CISCO DAILY NEWS UNDER NEW MANAGEMENT
The Cisco Daily News is under new management. The editorial, advertising and business departments all have new heads, according to an announcement made by the owners.

Boyce House, formerly connected with the Eastland Oil Belt News will edit the News. He succeeds H. G. Head as head of the news department, who goes to the Breckenridge Daily American. J. C. Knowles, former foreman of the commercial print department, becomes business manager, succeeding V. D. Ringwald. Pierre Munsey, formerly of Woodward, Okla. house, will be advertising manager.

"FRAME-UP" OF NO AVAIL SAYS MONTANA MAN

Probe of Daugherty and Department of Justice to Continue, Wheeler Declares.

WASHINGTON, April 9.—Denouncing the indictment against him as a "frame-up" by the republican national committee to balk the uncovering of a great conspiracy, Senator Burton K. Wheeler of Montana today declared the investigation of the department of justice and former Attorney General H. M. Daugherty would not be stopped by the indictment.

Wheeler, chief prosecutor of the Daugherty investigating committee, was indicted late yesterday by a federal grand jury at Great Falls, Mont., on a charge of illegally accepting a fee in connection with oil land cases for the Gordon Campbell interests since he became a member of the senate. The money is alleged to have been paid to Wheeler as a member of the law firm of Wheeler and Baldwin of Butte, and not as an individual. The size of the fee, according to an official of the department of justice, was \$30,000.

"Knife" Opponent
Declaring his indictment at Great Falls for alleged unlawful receipt of money in connection with the procurement of oil leases from the interior department was "part of the most damnable conspiracy ever started in the United States," Senator Burton K. Wheeler of Montana today charged on the floor of the senate that he had been "framed."

Wheeler said he had been informed that the republican national committee several days ago knew that he was to be indicted. Department of justice sleuths have been investigating his history for months, he declared.

The young democratic progressive made a complete denial of all the charges and said that they have been made against him since he began the investigation which preceded the resignation of Attorney General Daugherty from the cabinet.

"This was done solely for the purpose of injuring me and detracting from the work of our investigating committee, which has unearthed a conspiracy in the shadow of the dome of this capitol," Wheeler said.

Record Is Open
"I ask you to investigate and I will tell you that you will never find one dishonest thing in my life."

Wheeler told the senate of several attempts that had been made to "recall him off," in his investigation. "Shortly after the investigation started the republican national committee made an attack on me as the protector of the I. W. W.'s," he said. "They have sent their miserable sleuths to Montana to frame a member of the United States senate."

"I'm not asking for sympathy. I am able to take care of myself, but I want the senate to know the truth."

ACCEPTS OFFICE AS PUBLIC DUTY, ATTY-GEN. HARLAN F. STONE SAYS
By United Press. WASHINGTON, April 9.—"I accept the appointment of attorney general as a public duty and because it presents an opportunity to further the cause of clean and efficient government under the leadership and with the firm support of the president," Attorney General Harlan F. Stone declared today in taking the oath of office.

LOOKS LIKE SOMEBODY IS SEEKING MELLON'S SCALP
WASHINGTON, April 9.—According to a letter received by Senator Couzens, Michigan, and introduced before the senate committee investigating the internal revenue bureau, a "little black book" listing the "Mellon companies" was kept on file in the income tax unit of the bureau.

Stephen T. de la Mater, alleged custodian of the book, denied on the witness stand that the book existed or that any favoritism had been shown the "Mellon companies."

Senate To Probe Charge By Wheeler He Was 'Framed'

WASHINGTON, April 9.—The senate voted today an immediate investigation of the charge by Senator Burton K. Wheeler of Montana that he had been "framed," in the indictment returned against him yesterday at Great Falls, Mont.

Following a stirring speech in which he denied the charges and declared it was a move to block the senate Daugherty investigation, Senator Walsh, his colleague, introduced a resolution providing for an investigation of this charge which was promptly passed.

COOLIDGE GETS INSIDE TRACK IN PRIMARIES

Far Ahead of Johnson in Michigan; Leading Him in Nebraska and Illinois.

DETROIT, April 9.—President Coolidge's majority over Senator Hiram Johnson in the Michigan presidential primaries Tuesday probably will total 120,000, returns from accumulating precincts indicated today.

Henry Ford's lead over W. N. Ferris is slowly increasing, later returns failing to show any falling off in the vote for Ford.

COOLIDGE GETS NEBRASKA
LINCOLN, Neb., April 9.—President Coolidge is leading Hiram Johnson by 15,567 votes in 865 precincts out of 1,936 in the Nebraska presidential primaries of yesterday. The vote in 865 precincts shows: Coolidge 38,783, Johnson 23,216.

ILLINOIS FOR COOLIDGE
CHICAGO, April 9.—President Coolidge today was leading Hiram Johnson in the Illinois presidential primary by 19,650 votes in an unofficial count from 2,487 precincts out of the state's total of 5,758 precincts. The count shows: Coolidge 185,525, Johnson 165,481.

Singing Convention In Atwell, Saturday Continuing Sunday

An old time singing convention will be held at Atwell, Callahan county, on Saturday and Sunday, April 12 and 13, when the Eastland county convention meets in annual session, according to an announcement made by G. R. Irwin, president of the organization.

Singing classes and individuals from all over Eastland and adjoining counties are invited to attend the convention and take part in the singing. As song books are never any too plentiful at these conventions, each class is urged to bring their books with them.

An old fashioned basket dinner will be spread at the noon hour on Sunday and all those who come to spend the day are requested to take a lunch.

DISTRICT COURTS ARE WORKING ON DOCKETS

Tuesday was appearance day in the 91st district court and only a few non-contested cases were disposed of. There was no case on trial this morning.

Judge Hill of the 88th district court was engaged yesterday in the trial of a civil case of Adams & Company vs. the Texas Pacific Coal & Oil company. This suit involves about \$10,000 worth of casing. Argument in the case had not been concluded when the court recessed for noon today.

PRINCE OF WALES PROMISES TO QUIT STEEPLECHASING
LONDON, April 9.—The prince of Wales after a "serious talk" with his father, King George, has promised to give up dangerous steeplechasing, it has been learned. The young prince lost three front teeth recently in addition to other injuries when his mount threw him and kicked him in the face in his latest accident.

CROWLEY NAMED PRESIDENT OF THE NEW YORK CENTRAL
NEW YORK, April 9.—T. E. Crowley today was elected president of the New York Central railroad, succeeding A. H. Smith, deceased.

THE WEATHER
West Texas—Tonight and Thursday, partly cloudy, probably showers in south portion; colder tonight except in southwest; freezing in the Panhandle.

EXPERTS POINT WAY TO GIVE GERMANY AID

Would Make Some Changes in Versailles Treaty's Financial Provision to Be Fair.

PARIS, April 9.—Gen. Charles G. Dawes today delivered to the reparations commission the report of the commission of experts of which he is chairman. The report virtually recommends the rewriting of the financial provisions of the treaty of Versailles. It is a "business like" plan for obtaining reparations from Germany while balancing her budget and stabilizing her currency.

At the same time there was submitted a report of the second experts commission headed by Reginald McKenna dealing with German wealth abroad and means for its return.

The Dawes report proposes: Creation of a bank of emission to issue paper money for Germany and to handle the reparations account. Taking over of the German railways by a company which will run them for the benefit of both Germany and her creditors.

A foreign loan of 800 million gold marks to stabilize the German currency and take care of her immediate needs.

Obtaining reparation payments from the sale of railroad and industrial bonds and the revenue from the monopoly on luxuries.

A sliding scale of reparation payments from one billion gold marks the first year and increasing as Germany prospers.

France and Belgium must release their economic hold on the Ruhr, but may retain their armies of occupation.

The report is hailed as the most momentous document since the Versailles treaty which it would, in a measure, revise. General Dawes and his colleagues, including Owen D. Young, based their entire findings on the hypothesis that "the fiscal and economic unity of the reich will be restored." Germany is not told what she must pay and left to find the money. In this respect the document differs from the Versailles treaty.

The experts, through limited control and supervision, would have the allies share with the late enemy an interest in the responsibility of a known business and in making every German bear a fair share of a fair burden.

ALLEGED K. OF C. OATH LIBEL CONVICTION IS DISMISSED BY COURT

AUSTIN, April 9.—The case of J. W. Bugg, convicted in Live Oak county of "unlawfully and maliciously publishing and circulating a writing purporting to be the oath of the fourth degree of the Knights of Columbus oath," and fined \$1,000 was reversed by the court of criminal appeals, and prosecution ordered dismissed.

The opinion written by Presiding Judge Morrow held that the pleading is defective in failing to state the manner in which the publication of the alleged libel would affect the reputation of the parties named in the information and there was no proof that these parties reside in Live Oak county or the state of Texas.

RADIO NOT POPULAR IN DISTANT AUSTRALIA
PHILADELPHIA, April 9.—Radio thus far has failed to make much impression on a vast continent in the South Pacific ocean—Australia. There is only one broadcasting station on that continent, located at Sydney, and it does not reach beyond the Sydney neighborhood.

This is the state of affairs as regards radio in Australia, according to J. Graeme Baisille of Melbourne, director of radio and telegraph communications for the Australian government, now in America.

"State control is to blame for the backward state of radio in Australia," declares Vasilie. "We lack the enterprise to push the thing along. There are not enough receiving sets in and around Sydney to make the station there worth while to the government. The Australian public is not grieving much because it has no radio service."

Huge Stinnes, Rich Man Of Germany, Is Now Critically Ill

BERLIN, April 9.—The condition of Hugo Stinnes, German industrial magnate and reputed one of the richest men in the world, is very "critical," it was reported here this evening. Stinnes has been ill for several weeks with gall stones.

HAMON BOASTED OF HIS ACTION SAYS WITNESS

Told That "He Signed Check That Nominated Harding For President."

WASHINGTON, April 9.—Further testimony concerning alleged "deals" to secure the republican nomination for Warren G. Harding was given the senate oil committee today. J. F. Vaughn, Harlingen, Texas, the first witness called, declared that Jake Hamon told him that he had "signed the check that nominated Harding for president."

Vaughn, formerly a farmer at Duncan, Okla., said he had known Hamon for 18 or 20 years and that he had talked politics with him after his return from the Chicago 1920 national convention.

"He told me he had 'motives' for supporting Harding and if need be would spend \$1,000,000 to carry Oklahoma republican," Vaughn testified. "He never explained what his 'motives' were."

MENTAL CONDITION OF NAVY OFFICER YET HAS AUTHORITIES GUESSING

MARE ISLAND NAVY YARD, April 9.—Lieut. Ervin Brown, U. S. navy corps, accused of absconding with \$120,000 of the navy funds, today was under observation at the navy hospital here. He was brought from San Francisco, where he was found in a park drive, apparently mentally unbalanced. Hospital attendants here said they were not sure if he was insane or merely feigning. He at times appears rational and has admitted his identity as a naval officer, but apparently sane, but denies any knowledge of absconding with money. He said he wanted his wife, who returned to the authorities \$75,000 of the money he is alleged to have taken, to remain in Los Angeles and take care of the kids.

DAVENPORT AND JONES MEET AT GEORGE HILL FOR CAMPAIGN DEBATE

Judge George L. Davenport and Judge Joe Jones, rival candidates for judge of the 91st district court, spoke at the George Hill school house Tuesday night in the interest of their candidacy. Judge Jones spoke first and was followed by Judge Davenport. Jones then had a few minutes rejoinder.

Judge Jones' speech, according to some of those present, was along the same lines as other speeches he has been making over the county in which he charged Judge Davenport of shielding, what he terms, the "road gang." Judge Davenport, in his speech, defended his record on the bench and pointed out the absurdity of Jones' charges against him.

Besides the two candidates, for district judge, W. J. Herrington, candidate for tax assessor, was present and made his announcement.

Only a small crowd, which was composed of both men and women, was present.

THREE OIL PROMOTERS PLEAD GUILTY TO MAIL FRAUDS AS CHARGED

Pat Marr, the alleged "mole" mind" has refused to change his plea of not guilty and is prepared to make a vigorous defense against a total of 20 accusations of mail frauds and conspiracy. Today's proceedings were largely devoted to the identification of page advertisements of Marr and his associates.

CREAGER GETS EVIDENCE FOR COUNTER BLOWS

Has Letters From Satisfied Land Buyers to Offset Others Heflin Will Show.

WASHINGTON, April 9.—R. B. Creager, republican national committeeman of Texas, did not interfere with the investigation of his land companies but co-operated to the "fullest extent," George Hill, Creager's attorney declared today as the postoffice committee prepared to continue its investigation of alleged land frauds in Texas.

Hill said that he was prepared to have Brush Simmons, chief postal inspector declare that Creager never intimidated he wanted the investigation of himself "squashed or let up." Additional letters refuting the charges against Creager's character will be presented to the committee by Hill. He will also present scores of letters received by Creager from land buyers in which they assert they are satisfied with their purchases.

"I am also going to present to the committee the eight indictments returned against James R. Page, unofficial prosecutor of the committee, by the district court of Hidalgo county," he said.

Meantime, Senator Heflin of Alabama and Page were preparing for submission to the committee a score of letters and resolutions which they said condemned land sales in the lower Rio Grande valley and also bear upon Creager's character.

I. & G. N. RAILROAD NEEDS RICH STEPFATHER, WITNESS TESTIFIES

AUSTIN, April 9.—Testifying before the railroad commission on the third day of the hearing of the proposed I. & G. N. and Gulf Coast merger, Thornwell Faye, chief executive officer to the receiver of the I. & G. N. from the first period of receivership down to the re-organization declared the "greatest need of the I. & G. N. was a rich stepfather."

He heartily supported the proposed merger. Faye said the I. & G. N. had a bonded indebtedness of \$37,000,000 as against \$23,000,000 before and it failed to pay interest and would again unless it had help.

Shortly before the road was removed from receivership the estimate of New York bankers was approved by Faye, who said \$10,000,000 was needed to rehabilitate and put the road in shape.

TENT IS WANTED FOR SICK MAN WHO CANNOT GET INTO HOSPITAL

An appeal for a tent to be used by a sick man, suffering from tuberculosis, has been sent out through Mrs. George Armer, for the Ranger Child Welfare club.

The man is young and possibly can be cured if given the right attention. As he is not a citizen of Ranger, he cannot be admitted to the City-County hospital, but since he is living here, the hospital authorities will see that he has proper care if a tent can be provided for him to occupy.

Those interested in the case feel that this is a matter concerning the health of Ranger people as well as of the man himself and the patient should be isolated as soon as possible. Mrs. Armer can be reached at 441 Pine street.

COUNSEL FOR PEDDY CLAIM NEARLY READY FOR SENATE
WASHINGTON, April 9.—G. E. B. Peddy, who was defeated by Senator Earle B. Mayfield for the senate, obtained a majority of 1,046 in uncontested ballots in the recount made by the senate committee hearing the Peddy petition. Luther Nichols and Scott Woodward, counsel for Peddy, claim here today.

MAIN FACTS OF BIBLE HISTORY LITTLE KNOWN

Test of Sunday School Pupils Shows Surprising Lack of Information.

By MONA A. JOHNSON
(In the Christian Herald)

The West Virginia Sunday School association recently completed an inquiry, conducted through the courtesy of the teachers and principals of a number of representative junior high schools in various parts of the state, for the purpose of ascertaining how the pupils know about the main facts of Bible history. Over a thousand boys and girls, the great majority of them regular attendants at Sunday school, were asked the following questions:

1. Name five Old Testament books.
2. Name five New Testament books.
3. In what book of the Bible are the Ten Commandments found?
4. Tell one thing you know about (a) Jacob; (b) Moses; (c) Samuel; (d) Samsun; (e) Elijah.
5. Write any verse in the Bible and give the book, chapter and verse where found.
6. Who spoke the Beatitudes? Write any one of them.
7. Write the first ten words of the Lord's Prayer.
8. Who came first (a) the Apostle Paul or John the Baptist? (b) Joseph, who was sold by his brothers, or Moses?
9. Write either the first verse of Psalm 1 or the first verse of the twenty-third Psalm.
10. What was (a) Herod; (b) Jordan; (c) Carmel; (d) Nazareth; (e) Lazarus.

Certainly these are representative questions and it would not require a highly specialized knowledge of the Scriptures to answer them all correctly. Yet the average pupil could answer only about one-third of the questions correctly. Only 27 per cent could name five books of the Old Testament, 29 per cent knew five New Testament books, and but 9 per cent knew who spoke the Beatitudes and could quote one of them.

It was on question seven, however, that the most surprising showing was made. Only 32 per cent of the papers graded showed a correct version of the first ten words of the Lord's Prayer, although it forms a part of nearly every Sunday school service! Some pupils gave "Now I lay me down to sleep," some a part of the twenty-third psalm, while a number made no attempt at all. Most of the errors, however, occurred in attempting to spell the word "hallowed," and many of the versions given, such as "hail we," "how would be," and "how it" showed that the pupil's understanding of the meaning of the word was faulty as his spelling. Many of the answers to other questions would have had a humorous aspect, had the ignorance not been so lamentable. To one up-to-date boy the word "Jordan" meant only a make of automobile, and a number associated "Carmel" with "a sticky kind of candy."

Has it ever occurred to you that your school house is the logical spot for an exhibition of the county's resources? Such an exhibit is an assured success in several sections of America. Sometimes the exhibition is known as the "Junior Fair;" at Hadley, Mass., it is known as "Trophy Day." In North Carolina the exposition generally opens on "Good Roads Day." In Ohio and Montana permanent exhibitions have been established. It is truly and eye-opening, a source of genuine wonder to many a man who has lived all his days in the community.

Have you seen our line of fine rugs—20 per cent off this week. Jones-Cox & Co.—Adv.

DON'T JUDGE PICTURES BY THE FRAMES AROUND THEM

Most people are so heartless and possess so little of the quality of human kindness that all they see in anyone is what is on the outside. Naturally those who are handicapped in presenting a pleasing appearance by pimples, blotches, "breaking out," eczema, etc., on their skin are not going to get any attention. That is the reason you find such folks backward and shrinking from the "cold shoulder" they have come to expect.

You can "make the frame as lovely as the picture really is" by simply getting rid of those skin blemishes, if you will just use the wonderful Black and White Ointment. Then your good nature and sweet ways will stand out without any drawback, and folks will want to be around you. It is economically priced, in liberal packages. The 50c size contains three times as much as the 25c size. All dealers have it.—Advertisement.

HEALING CREAM STOPS CATARRH

Clogged Air Passages Open At Once—Nostrils Cleared.

If your nostrils are clogged and your head stuffed because of catarrh or a cold, get Ely's Cream Balm at any drug store. Apply a little of this pure, antiseptic, germ destroying cream into your nostrils and let it penetrate through every air passage of your head and membranes. Instant relief.

How good it feels. Your head is clear. Your nostrils are open. You breathe freely. No more hawking or snuffling. Head colds and catarrh yield like magic. Don't stay stuffed up, choked up and miserable. Relief is sure.—Advertisement.

NATIONAL BOYS' WEEK PROGRAM IN EASTLAND

National Boys' week in Eastland will be one long remembered by the boys if the present plans of the committee in charge do not miscarry. The entire week will be given over to programs that will be of special interest to every boy. The committee in charge of the program met at the Eastland Chamber of Commerce last night and discussed plans for the week's program.

The first day will be Sunday, April 27. On this day special programs will be arranged in all of the churches of the city, and the sermons will be directed for the special benefit of the boys.

Monday will be Boys' day in school and an interesting program is being worked out for that day. Tuesday is boys' day in industry. On this day the boys will be invited to go to the store, factory, office or line of work in which they are interested, at 2 o'clock, where they will be initiated into the inside workings of that business, given an idea of how that business or industry is conducted, and if possible will be allowed to take actual part in conducting the business. For example, if a boy is interested in automobiles, he can go to a garage where he will be turned over to men who know the automobile who will give him instructions as to how that business is run, he will be instructed so far as possible as to how to repair and care for the car.

If a boy wishes to know how a dry goods store is run, he will be given an opportunity. If he desires to know more about the medical profession, there will be doctors who will be glad to assist him. Already places for 200 boys have been found amongst our business men.

Wednesday, April 30, is Entertainment and Athletic day. Plans are underfoot to make this a very interesting day for all of the boys. Thursday is Boys' Day at Home. Every father is expected to spend the evening home with his own boys, play games with them, and get better acquainted with them. If there are no boys in the home, invite some boy who has no father.

Friday is known as Loyalty and Health day. This program will be given after supper and will likely consist of a loyalty parade participated in by all of the boys, followed by a mass meeting of the boys and their fathers at the city hall.

Where a good speaker will address them. Saturday is known as Boys' Day Out of Doors. Plans are also underfoot to make this a big day for the boys. The program for this day is to be announced later.

The Lions, the Rotary and a number of other organizations of the city are co-operating to make National Boys' week a successful one from the standpoint of the entertainment and benefit of the boys of Eastland.

THURMAN HAS DOG HUNT REPRODUCED FOR THE RANGER ROTARIANS

John W. Thurman presented an entertainer at the Rotarian luncheon in the Gholson hotel today who, for uniqueness, was one of the best heard here in some time. Thurman was one of the enthusiastic hunters in the recent wolf and fox hunt at Leary, and brought to the luncheon a perfect reproduction of a band of hounds in full pursuit of the wolf, even to the final "kill" of the prey. He also had the entertainer take off dogs chasing a hog out of a corn field, and a swift running railroad train.

Cus Coleman reported on the district convention of Texas Rotarians at Wichita Falls, from which he had just returned. He made a recommendation in connection with that meeting which the Ranger Rotarians took under advisement.

Dr. L. C. Buchanan, recently elected president of the Ranger Rotarians, presided.

COHEN PASSES SMITH IN MANHATTAN NOMENCLATURE

News reports inform us that the Cohens are now the leading family in Manhattan, having passed the Smiths.

Smith was a good scout while he lasted. He freed the country, built its industries, farmed its waste places, subdued the desert. He extended the government and institutions of the United States from the Atlantic to the Pacific, from the Great Lakes to the Gulf.

Smith had his faults but we hate to see him go. After all he is only gone from Manhattan. And if we know as much about him as we think we do, he is probably badly riled. We can almost see him digging in now and vowing that he won't retreat another inch for anybody. We hope he doesn't, for as sure as you are here or there, he has in his heart the ideas, customs and traditions that made America great, things which are just now being kicked about the gutters of New York.—Exchange.

BE READY...

... Business success depends in a great measure upon being prepared to meet the uncertainties of changing conditions. Every success depends upon being ready. With the coming of Spring, bringing with it its scores of fires and many other enemies of property and savings, it is well to be ready. This company is adequately equipped and thoroughly prepared to save you money on insurance and make you a satisfied patron. Try us with your next policy.

DALLAS BUSINESS MAN ADDS HIS TESTIMONY

L. Coppage Tells of Relief From Stomach trouble of 15 Years Standing and Gives Tanlac Full Credit.

HARLEY SADLER PLAYERS GETTING FINE AUDIENCES

A large audience greeted the Harley Sadler players Tuesday night, which was their second night in Eastland. The large tent, which is located just northwest of the post-office, was filled and parking space for automobiles was at a premium on the streets in the vicinity of the lot on which the tent is located. Many out of town people attended the show.

Each member of the Harley Sadler company is a finished artist in his or her particular representation, but Mr. Sadler is the star of the entire troupe. Each attraction that has been offered has been of the better class of plays and the "comedy between the acts" is a feature of the performance.

The Sadler shows are being presented under the auspices of the Eastland fire department, which gets a percentage of the revenue from the shows during the week.

INVISIBLE WIRES ARE WELDED UNDER MICROSCOPE

Wires so small that one hundred of them would be required to make as much as a hair are used in an instrument for measuring small electric currents in telephone and radio equipment and in adjusting circuits in the vacuum tube used in long distance telephone lines.

These small wires must be welded together and to larger wires. This welding is done under the microscope by specially developed tools. But at that it is a more delicate operation than anything the watchmaker has ever had to do.

Prior to the war these instruments came from Germany. When the supply from abroad was cut off it became necessary for American laboratories to develop them. This has now been done and the product is superior to that which formerly came from overseas.

The destructive Japanese beetle has gained a strong foothold in New Jersey.

MEDICAL MEN HAVING FINE MEETING IN CISCO

Visitors and delegates attending the meeting of the Northwestern Medical association at Cisco yesterday and today were guests of the Eastland Medical society at a barbecue at the power plant lake near Eastland at 12:30 today.

The trip was made from Cisco to Eastland in automobiles, a large number of people from here having driven over about 11 o'clock to accompany the visitors to Eastland.

Following the luncheon the party was shown over Eastland after which they returned to Cisco. The meeting at Cisco closes this evening.

No. 10557.
SHERIFF'S SALE.
THE STATE OF TEXAS,
County of Eastland.
By virtue of a certain order of sale issued out of the honorable District Court of Eastland County, Texas, on the 12th day of March, A. D. 1924, by Roy Nunnally, clerk of said court, against C. L. Bordeaux for the sum of Nine Hundred Seventy-Nine and 21/100 (\$979.51) Dollars and costs of suit, in case No. 10,557 in said court, styled Joe Young versus George Speer and C. L. Bordeaux and placed in my hands for service, I, J. D. Barton as Sheriff of Eastland County, Texas, did on the 24th day of March, A. D. 1924, levy on certain real property situated in Eastland County, Texas, described as follows to-wit: Lots five (5) and six (6) in Block Thirty (30) of the Joe Young Addition to the City of Ranger, Texas, and levied upon as the property of C. L. Bordeaux and on Tuesday, the 6th day of May, A. D. 1924, at the courthouse door of Eastland County, in the City of Eastland, Texas, between the hours of ten a. m. and four p. m. I will sell said real property at public vendue, for cash to the highest bidder as the property of said C. L. Bordeaux by virtue of said levy and said order of sale. And in compliance with law, I give this notice by publication, in the English language, once a week for three consecutive weeks immediately preceding said day of sale, in the Ranger Daily Times, a newspaper published in Eastland County, Texas, and in the Ranger Daily Times, a newspaper published in Eastland County, Texas, on the 25th day of March, A. D. 1924.

J. D. BARTON,
Sheriff Eastland County, Texas.

"GO OUT AND GET NEW YORK," WILL BE THE CRY OF OTHER BIG LEAGUE TEAMS WHEN SEASON OEPNS SOON

By HENRY L. FARRELL (United Press Sports Editor) NEW YORK, April 9.—Next Tuesday 16 major league ball clubs will step out on the right foot or the wrong foot in the general direction of the 1924 world's series.

As the teams line up for another race, that may be reasonably expected to be as good, if not better, than any of its predecessors, there will be but one set of instructions whispered to 14 of the starters: "Go out and get New York. Use your own judgment, but do it."

Most of the baseball populace re-moved from the spacious territory known as the metropolitan district, feel that baseball is becoming enfeebled by an attack of "New Yorkitis" and that to restore the grand old national pastime to its former state of virility, some pennant serum must be injected into another part of the baseball anatomy.

One side of the baseball house which has for its constituency the National league clan, may have its lust for the devitalization of New York satisfied, for it seems that the Giants have been least improved at a time when they were most in need of improvement to hold their own in the attempt at a new record of four pennants in a row.

The American league side of the family, reconciled to the belief that New York will die only in old age, may have to bear up with the hope that if the demise of the Yankees is not in the cards this year, it must necessarily come sooner or later. The susceptibility of the Yankees to any attack of a jinx that is supposed to attend an effort at more than three consecutive championships will not be because of any frail condition of the constitution, but would come only from an overwhelming accumulation of strength and power from the opposition. There seems to be nothing of that sort in prospect.

The monks first started making Munich beer in the twelfth century.

Want Ads Will Pay

Heavyweight Challenger Coming from Chile.

QUINTIN R. ROJAS

South America has developed another "Wild Bull," who will soon come to North America to take on the best of the heavyweight fighters, with an eye to securing a match with Jack Dempsey. He is Quintin Romero Rojas, of Santiago Chile, champion heavyweight of that nation.

CLAVICHORD WAS BACH'S FAVORITE INSTRUMENT

"Now let me show you the most perfect of all keyed instruments, and Mr. Dolmetsch takes you over to the clavichord he has made in his own workshop, a gem of craftsmanship," writes H. W. Wortham in the London Morning Post. "As he plays upon it and displays its marvelous subtleties of tone, you understand why it was Bach's favorite instrument, and register a vow to possess one yourself some day."

"Mr. Dolmetsch, to whom it is clearly a favorite child, will not even allow that its small tone makes it unsuitable for modern concert performances. He has played to 2,000 people, and its tone, he asserts, has carried perfectly. True, it is too tender an instrument ever to play concerted music, or even to accompany the human voice."

"Is it surprising," he asks, "that this divinely shy instrument has been unable in a noisy bustling age to compete with the modern piano, which in mere strength can nearly equal an orchestra."

WOMAN PAYS FINE TO CITY FOR DISTURBING THE PEACE

A young woman who gave her name as "Mrs. McClum" pled guilty in city court this morning to disturbing the peace and was fined \$11.70.

The woman with another younger companion entered the Fern cafe and started a disturbance, according to Mrs. A. T. Bingham, wife of the restaurant proprietor. She asked them to leave the place, whereupon the younger woman did, but the "Mrs. McClum" refused. Mrs. Bingham then started to assist her out. Officers were called and the woman was put under arrest.

COMING TO Ranger and Cisco DR. MELLENTHIN

SPECIALIST In Internal Medicine for the Past Twelve Years

DOES NOT OPERATE

In Ranger on Monday, April 21 at the Gholson Hotel

And in Cisco on Tuesday, April 22 at the Daniels Hotel

Office Hours: 10 a. m. to 4 p. m.

ONE DAY ONLY

No Charge for Consultation

Dr. Mennenthin is a regular graduate in medicine and surgery and is licensed by the state of Texas. He does not operate for chronic appendicitis, gall stones, ulcers of stomach, tonsils or adenoids.

He has to his credit wonderful results in diseases of the stomach, liver, bowels, blood, skin, nerves, heart, kidney, bladder, bed wetting, catarrh, weak lungs, rheumatism, sciatica, leg ulcers and rectal ailments.

Below are the names of a few of his many satisfied patients in Texas.

John W. Hairston, Route 4, Cameron, Texas, stomach trouble.

Mrs. B. E. Howell, Big Springs, Texas, high blood pressure.

Mollie Counts, Point Blank, Texas, heart trouble.

Mrs. T. P. Gunnels, Gause, Texas, gall stones.

T. E. Aker, Maybelle, Texas, adenoids. (daughter).

Mrs. M. L. Long, Pilot Point, Texas, gall stones.

Remember above date, that consultation on this trip will be free and that his treatment is different.

Married women must be accompanied by their husbands.

Address: 211 Bradbury Bldg., Los Angeles, California.

Such popularity must be deserved

RADIO—sweeping the country—daily gains new devotees by thousands.

Chesterfield—matching Radio's swift rise—is gaining thousands of new smokers every day. Such popularity is never an accident.

It can't just happen—it must be deserved.

Chesterfield has come up fast because men know, by Chesterfield's better taste, that here is real superiority—of tobaccos and blend!

Chesterfield CIGARETTES

They Satisfy—millions!

Pullman Car Porter Lectures in College.

J. B. FORD, Pullman Car Porter

John Baptist Ford, a Pullman car porter, delivered the first of a series of lectures on transportation to a class of students at Dartmouth College.

Scientists Sees Wonderful Change In Next 200 Years

BIRMINGHAM, Eng., April 9.—Professor F. W. Burstall, dean of the faculty of science at Birmingham University, in an interview disclosed visions of the earth circled with towers, stored with the concentrated energy of the air and sun, forming power houses to run the affairs of the future world.

In the time to come, say 200 years hence, life on this planet will of necessity become very much simplified, said Burstall. The coal, oil and ores which are the foundation of our present civilization will not last indefinitely. Mankind will be driven to other resources. They will turn back to the tropics, where life can be easily maintained, and northern latitudes will only be revisited in the summer season to get ores to smelt for engineering purposes.

Alcohol will be the motive power in that age of science. Then Professor Burstall drew a vivid picture of

equatorial towers soaring to the skies, extracting carbon dioxide from the air, subjecting it to catalytic processes, and finally uniting it with water vapor and forming alcohol, to be drawn off at the bottom of the towers like tapping a tank of gasoline.

"You must understand," he said, "that life will not be encumbered with all the absurd contrivances which are necessary to our present state. When a man gets up 200 years hence he will choose a particular flying suit of wear, according to his plans for the day. Then he will only have to pour in the alcohol and fly away."

"With everybody living near the Equator, very little clothes will be required. All the needful food will be easily raised by mechanical cultivation. Housing will be simplified. There will be no problems of the open grate or central heating, for of course, everything will be communal in that day."

Between 1885 and 1890, the period when electric street cars began to prove practicable, there was much discussion as to what to call the man operating the car. Engineers and other authorities insisted that it must be motoneer or motoneer—but the public settled the dispute by calling him the "motorman."

FEE FOR SERVICE CARS AND DRAYS IN RANGER CUT RIGHT IN HALF

License fees for service car men and draymen were cut in half Tuesday at the meeting of the city commissioners. Formerly \$15, the license will henceforth be \$7.50.

This action was taken following the appearance of a committee of five service car men and draymen before the commissioners at the city hall to protest against the payment of the old fee. The committee's spokesman pointed out that present business does not justify this fee and also that the city of Breckenridge does not impose any fee upon service car men operating in that city.

The commissioners after listening to the service car men's plaint reduced the fee, to which the latter agreed.

ERNEST WOOD ENTERS CONTEST FOR COUNTY CLERK

E. E. (Ernest) Wood of Eastland has announced his candidacy for county clerk of Eastland county, subject to the action of the democratic primaries in July.

Mr. Wood, who is a middle-aged man, came to Eastland nearly 35 years ago, arriving in the county in March, 1890. He served three years as district clerk of the county and the balance of the time he has spent in the various county offices, and as an abstractor.

His long and varied experience as an abstractor and in the county offices peculiarly fits him for the place he seeks. He is, perhaps, more familiar with the records of the county than any other person.

He will make an active campaign during which he will endeavor to see as many voters of the county as possible and personally solicit their vote and influence.

BIBLE THOUGHT WHY NOT?—O ye simple, understand wisdom: and, ye fools, be ye of an understanding heart.—Proverbs 8:5.

SERVICE IS THE ANSWER.

The Oil Belt News continues to voice its sentiments of hatred towards the Ranger Times and the Eastland Telegram in the same old, uninteresting strain. It appears so intent on spreading its doctrine of hate mingled with an appeal to the business interests of Eastland to advertise in its columns that it neglects to give its readers a little of the news they pay to get. It even accuses other newspapers of using a threat of boycott, a most ridiculous suggestion. Only such a newspaper as the Ku Klux Klan and published to spread its propaganda, even thinks of such a thing as boycott. If it would try to give its readers and advertisers service, which, paying for, they have a right to demand, it would not have to cry loudly for readers and advertisers.

Newspapers that give service, such newspapers as the Ranger Times and the Eastland Telegram; newspapers that have no interest to serve other than the interests of all the people and the entire community without regard to clique, class or denomination, such as the Ranger Times and the Eastland Telegram; newspapers that continue to increase their lists of readers and their advertising clientele by giving them everything they pay for and then some more, such as the Ranger Times and the Eastland Telegram, do not need to appeal for readers, to thank a merchant for advertising or indulge in a doctrine of hate.

The reader and the merchant pay for service. That is what they want—not thanks for the money paid by them. They want results, and when they read the news columns or advertise in the columns of the Ranger Daily Times or the Eastland Daily Telegram they get the service they pay for.

MEASURING COMMUNITY

Practical business men and business methods have developed a new system of measuring the business importance of a town or city by the extent and character of its automobile registrations.

A locality low in registrations is either financially weak or lacking in enterprise.

A locality high in registrations of high priced passenger cars indicates a residential district inhabited by people of means.

A locality high in registrations of low priced cars is a territory of strictly utility activity.

A locality high in truck registrations and with low priced passenger cars is a modern industrial and mercantile community.

Automobile registrations also constitute a guide to the banking business and its participation in community development. The community that still depends on old methods of transportation is decadent. We live today in a world of wheels where time is the greatest asset. Ten years hence steam railroads will be considered "slow freight" and used only for that purpose.

During the past month Henry Ford's railroad earned \$296,030 as against \$39,615 for the same month last year. The original investment was \$5,000,000 and he expects to earn \$9,000,000 this year. Henry will now be assailed harder than ever by the big fellows who are not enjoying a slice of his prosperity, and who are kept busy explaining the whys and wherefores.

MUSCULAR ACTION CARRIES FORWARD AFTER DEATH

LONDON, April 9.—Medical experts of London are engaged in a controversy which might be labeled "Do the Dead Speak?"

Frederick Allen and his wife were found in an apartment. Allen had killed his wife, then shot himself. The landlady heard the shots and knocked. Allen opened the door and blurted out, "For God's sake bring a doctor and the police before I bleed to death."

The medical examination revealed that the first shot which Allen had aimed at himself had gone right through his brain and passed into the wall. The deduction by the doctors is that when Allen's landlady saw him and heard his intelligent request for a doctor, he was already dead. Voice and muscles were merely obeying the command which had issued from the brain a second or two previously.

There are numerous cases known to medical authorities where extraordinary things of this nature have occurred. One instance is recalled where a large body of rioters were shot down and where one of them was observed to remain seated on a wall, to all intents alive, although it was found afterwards that at that time he had a number of wounds which must have been immediately fatal.

Some instances in point were also recorded during the war, one relating to an Irish soldier who, during a bayonet charge, had his head blown off. He went on for some distance.

PAINS IN BACK

Arkansas Lady Says Mother Gave Her Cardui and She Had No More Trouble of This Kind.

Lamar, Ark.—Mrs. Edith Seeman, here, recently made the following statement describing her experience in the use of Cardui:

"I had pain in my back and sides; had sick headaches and my nose would bleed. I couldn't sit up at all.

"My mother gave me Cardui. I took about a half bottle and at this... I was able to get up and help with the work. Next time I took it again, and now, after taking two bottles, I do not have any trouble at all at this time. I gained, my skin cleared up, I am healthy and strong.

"My mother took Cardui for a weak, run-down condition. It did her more good for weakness and nervousness than any medicine she has ever taken. She took six bottles in all. We recommend it and certainly know its worth."

The foregoing is one out of thousands of statements which have been received from users of Cardui, the woman's tonic. If you are suffering from womanly ailments, try Cardui. It may be just what you need. At your dealer's. NC-156

EARLY HISTORY OF TEXAS TOLD IN OLD RECORD

Record of Legislature of Coahuila and Texas Placed in University Library.

AUSTIN, April 9.—Valuable historical manuscripts and records relating to the early history of Texas are contained in the library of the University of Texas...

The originals, which were never published, were located by Dr. E. C. Barker, professor of history in the university, two years ago in the congressional archives at Saltillo.

"The historical importance of these manuscripts," says Professor Barker, "can hardly be overestimated. For three years (1824-1827) the legislature sat as a constituent congress, framing the constitution of Coahuila and Texas, and at the same time passing the necessary legislation for Texas the most important law passed during this period was the colonization act under which Anglo-American immigrants settled the province."

"It is interesting to compare this first Texas legislature with that which will assemble in January, 1925, just a hundred years later. It consisted of 12 members, sitting in a single house, as the Congress of Coahuila still sits, and Texas at the beginning was allowed but one member. Its representation was increased in 1828 to two members and in 1834 to three.

Baron de Bastrop. The first representative of Texas was the Baron de Bastrop, a mysterious Dutch nobleman who settled at San Antonio about 1804. He was much interested in the Anglo-American settlements in Texas and worked ably for their advancement.

Stephan F. Austin's brother wrote in 1825: "The old baron has strove hard for us. I know not what would have been our fate if he had not been a member of the legislature. Our situation would have been a deplorable one indeed."

Bastrop died in February, 1827, just as the constitution was finished. He was succeeded by two other San Antonians, J. A. Navarro and Miguel Arciniega. In 1830 Stephen F. Austin was elected and became the first of their own blood to represent the American settlers.

"The journals contain much that is of interest to the lawyer as well as to the historical student; and it is to be hoped that the thirty-eighth legislature may provide for their translation and publication. They would constitute an appropriate and useful centennial monument, commemorating a hundred years of constitutional government in Texas."

Rug sale, 20 per cent off this week. Jones-Cox & Co.—Adv.

ALL-DAY SINGING SERVICE SUNDAY IN CISCO CHURCH

There will be an all-day singing at the East Side Baptist church in Cisco Sunday, April 20, according to an announcement made by Rev. C. C. Evans...

RAIN MAKER CONFESSES TO ONE DEFEAT BY THE SUN

SAN FRANCISCO, April 8.—J. A. Coleman, California's official "rain-maker," conceded defeat to the sun on his second attempt. Colloman, who had a contract with county officials to make rain on April 7, capitulated to "Old Sol" when the mercury went up to 86 and the skies cleared.

REMEMBERS WAGE WORKER

YONKERS, N. Y., April 8.—A burglar held up Herbert Miller, grocery store clerk, and looted the till of \$203. Before he left the store, the kindly bandit paid Miller his week's wages of \$40.

Worms that Dance on Waves Are Puzzle to Science

Millions of tiny worms that "dance" in the moonlight on the surface of the sea during the ebb-tiding season, and transform the waves into the appearance of...

Alarm Clock Feeds Poultry and Turns on Lights

Poultry can be supplied with grain automatically at any desired time from a feeder operated by an alarm clock. The apparatus scatters the material in proper amounts over a 20-foot space, insuring the fowls sufficient exercise in gathering it.

Wire Hook to Thread Needle Saves Time, Aids Eyes

To save time in threading a needle, a device has been patented in Europe recently that performs the operation quickly, even in poor light. A slight pressure of the finger pushes a hooked wire through the eye of a needle that has first been placed on top of a small spring.

Police Learn Eyelid Talking to Balk the Criminal

Detectives in Canada are being taught to code by means of which they can communicate with one another by dropping, raising or other movements of the eyes, and also how to "talk" secretly by means of finger touches, by twisting of a cigar, ingering of a mustache and twiddling fingers behind the back. This is being done so that they can transfer their thoughts when in the presence of criminals or prisoners. It is declared that communication with the eyelids can be as rapid as the ordinary man typewrites.

Removing Water from Mortar

When mixing concrete it often occurs that too much water is added, making the mixture too thin to work properly. Of course, more sand and cement can be added, but this is not always desirable, as it increases the quantity of concrete, and this may not be necessary. A good method of removing the excess of water is to place a few common bricks in the mixture for a few minutes, and it will be found that the bricks absorb so much of the water that the mixture soon becomes workable.

Cure for Grabbing Clutch

To overcome the grabbing tendency of a clutch on a light car, a driver installed an additional pedal plate, attached to the regular pedal by means of four bolts and coil springs, the bolts fitting loosely in holes drilled for them and the springs keeping the plates separated. The bolt used are 1/4 in. in diameter and 2 1/2 in. long. They are slipped through holes drilled in the lower plate and reamed out so that the bolts can slip in and out easily when the pedal is under pressure.

Not much larger than a watch, a phonograph which can be slipped into the pocket and has space for ten double disk records has been invented by a Hungarian.

The sound produced by the machine is said to be so amplified when it is placed on a tumbler that the tiny instrument can be used to provide music for dancing.

Food From American Kin Promises To Thin Out German Bread Lines And Lessen Danger of Epidemics

Clamor for bread! Cameras always interest children, hence the intent expression on the faces of the little ones in the group shown above. But the women, wives and mothers of Dusseldorf, Germany, have just one mission in life—to procure enough food to relieve the distress of their families. They are striving to crowd into a small bake shop and get bread. More than half of them are doomed to the bitter disappointment that must come because of Germany's food shortage.

FROM MINER'S HUT TO IMPOSING PALACE.

Imposing Holyrood Palace, in Edinburgh, is to be the new residence of James Brown, M. P., newly-appointed Lord High Commissioner to the General Assembly of the Church of Scotland. Brown started life as a miner and married a mill girl. He became active in Laborite politics and was elected to Parliament from South Ayrshire. His new office as Lord High Commissioner is one that for two and a half centuries has been held by members of the highest Scottish nobility.

THURSDAY EVENING
Delphian society meets at 9:45 o'clock at Gholson hotel.
Lions club luncheon 12:15 o'clock at Gholson hotel.
Thursday Bridge club meets at 2:30 o'clock with Mrs. F. T. Brahaney.

METHODIST SOCIETY PLANS GET-TOGETHER PARTY
The ladies of the Methodist missionary society met Monday afternoon in regular session and planned a get-together and get-acquainted party for next Friday night at 8 o'clock at the church. Light refreshments will be served and a general

good time is promised. The recent church census taken in Ranger disclosed the fact that there are 600 Methodists in the city who are not affiliated with the First Methodist church of Ranger. All these Methodists as well as all old members of the church and all prospective members are cordially invited and expected to attend this party.

MR. AND MRS. FLAHE ENTERTAIN WITH DANCE
Mr. and Mrs. Arthur Flahie entertained with a dancing party at their home in the Prairie camp, Tiffin, Monday night. A lunch was served the guests of which there were about 20 present from Ranger and Tiffin.

ST. RITA'S SCHOOL GIRLS TO GIVE BAKE SALE
The young ladies of St. Rita's school will have a bake sale at the Stafford drug store on Saturday, and will also serve luncheon at the noon hour. All sorts of delicious home made things will be for sale and the patronage of the general public is invited.

His Honor, the Mayor Will Preside Over Corporation Court

It is now not only Mayor Hodges but also "Judge" Hodges.

The city commission in continuance of its retrenchment policy dispensed with the services of a city court judge and also city attorney, Tuesday evening, at the regular meeting. Each office pays a salary of \$75 a month and the elimination of these places will mean a saving of \$150 per month.

R. H. Hodges told his fellow commissioners that the new task imposed upon him was not attractive, but he would serve in the interests of the city's financial retrenchment program.

L. H. Flewelling has been city judge for the last year and Milton Lyman, city attorney.

Blackwell Road To Be Graveled At Cost Of Property Owners

Blackwell road will be paved with gravel, following an agreement Tuesday evening between the city commissioners and a representative of property owners of that street.

Edw. R. Maher, representing the property owners, appeared before the city commission with a proposition that the latter would pay for all gravel, curbing and gutters on the entire thoroughfare, except for the gutters and curbing in front of several lots which approximate 200 feet in length.

The owners of these lots cannot be located at present, Maher explained, but the property owners do not want to delay the work any longer as the improvement have been planned for several months. The city will bear this cost and will later assess the property owners when they are located.

The improvement of this street will provide a paved thoroughfare from Commerce street to the Prairie Oil

& Gas company properties, the main office of Chestnut & Smith corporation, the Cooper school building, St. Rita's church and school and a substantial residential district, including Desdemona boulevard, Vitalious street and Blackwell street.

PERSONALS

A party of Ranger club women will leave tonight on the Sunshine for Colorado City to attend the annual convention of the sixth district, Texas Federation of Women's clubs.

Among those going from Ranger are Mrs. M. H. Hagaman, vice president of the district; Mrs. O. L. Phillips, chairman of legislature; Mrs. John W. Thurman, chairman of Child Welfare, and Mrs. G. H. Bohning, delegate from 1920 club. Mrs. John H. Moyer, delegate from the New Era club will not leave until Thursday night. Mrs. Besse Luke, who is to sing on the program for president's evening, will also leave Thursday night. The ladies expect to be at home again on Saturday.

O. L. Phillips left Monday night for Fort Worth to attend a convention of druggists being held there. He is expected back on Thursday.

Golf celebrities play at night by electric light. Havers, Sarazen, Johnny Farrell, Kirkwood and others

try their prowess at night at St. Petersburg, Fla. The fairway from tee to the green at the first hole was lighted with electric lights of high candlepower, and those players who did not stay on the fairway were out of luck.

A new electrical utility cooking appliance that is designed to toast bread and pop corn has been put on the market. It is made of pressed steel, heavily nickel-plated, the heating element is of nickel chromium resistance wire, and the appliance is furnished with six feet of cord with detachable plug.

Cleaning and rearranging the storeroom or attic is generally considered one of the meanest tasks of spring house-cleaning. Because of lack of ventilation it is hot, dusty work. Take your electric fan with you when you start this work. Its breezes will rob this task of much unpleasantness.

A Brazilian tannery, said to be the largest in South America, is completely electrified. All tanning, cutting and curing machines are driven by electricity.

Want Ads Will Pay

A breakfast to warm the cockles of a hungry man's heart—Kellogg's Corn Flakes.

To get the original, say it all—say "I want Kellogg's Corn Flakes."

"Good to the Last Drop"

THE old-fashioned hospitality which yet lurks in each of us prompts thousands of hosts to serve Maxwell House Coffee—for can one be content to serve one's guests anything except the best?

The never-failing dependability of Maxwell House Coffee endears it to the housewife. The sealed tins guard for her all the rich, inimitable flavor.

MAXWELL HOUSE Coffee

Why suffer from Rheumatism?

HEALTHY blood courses through your veins, there is no such thing as inflammation or neuralgia of the muscles and joints. S. S. S. is what you need to retain that old time vim and vigor and vitality, when you turn down the final stretch of life.

Mr. M. A. Farmer, Elyria, Ohio, writes:
"S. S. S. relieved me of rheumatism and nervousness. It is the best medicine for building up the blood."

S. S. S. is made of carefully selected and scientifically prepared and proportioned herbs and barks. Only pure vegetable ingredients are used. Stronger healthier bodies—bodies able to withstand the onslaughts of diseases are the results of S. S. S. All leading drug stores carry S. S. S. The large size is the more economical. When rich, red,
