

Heavy Vote Nears Record Of Last Year

A total of 524 Big Spring voters had cast ballots at 1:30 p. m. today in the city commissioner's election.

SMOKING VOLCANO—Huge clouds of smoke rise from Mount Hekla near Reykjavik, Iceland.

Sugar Rationing Gets Extension To October

WASHINGTON, April 1. (AP)—Sugar rationing gained a new seven-month lease on life today.

Spain Is Said Still Monarchy

MADRID, April 1. (AP)—Overwhelming parliamentary approval was forecast today for Generalissimo Francisco Franco's proposal to declare that Spain, although her throne has been vacant for 16 years, is still a monarchy.

Five Whites, Four Negroes Head School

AUSTIN, April 1. (AP)—A board of directors of five white men and four Negroes was named today by Gov. Beauford H. Jester for the newly-created Texas State University for Negroes.

Chinese Communists Open Surprise Drive

NANKING, April 1. (AP)—The Chinese Communists have opened a surprise drive in North China which has carried to within 16 miles of Kaifeng, Honan Province capital.

House Rejects Proposed Ban On Closed Shop

Voting Machine Breaks, Forcing Roll Call Ballot

AUSTIN, April 1. (AP)—The House today rejected—with an eleven-vote margin—the proposal for a constitutional ban on the closed shop in Texas.

The House voted 89-52 for Rep. Marshall Bell's open shop constitutional amendment, but it fell short of the necessary 100 votes required to submit constitutional changes to the people.

The proposal is subject to another vote in the House at any time. Rep. John Bell moved to reconsider the vote and spread on the journal, allowing proponents to bring the measure up again at any future date.

Rep. Charles Murphy of Houston and others in favor of writing into the constitution the stipulation that "no man shall be denied the right to work because of membership or non-membership" in a labor union, argued that the people themselves should be allowed to decide the issue.

Ministers Say 'No Decision'

MOSCOW, April 1. (AP)—The Foreign Ministers Council discussed German reparations and the level of German industry for more than three hours today and at the end of the session announced they had reached "no decision."

This was to have been a show-down meeting expected to indicate possibilities of a German settlement of current problems at Moscow. The fact that no decision was reached was considered by some diplomats as possibly indicating little or no progress towards breaking the deadlock.

Mourning Period In Mines Starts

John L. Lewis' United Mine Workers quit their soft coal pits today beginning a six-day stoppage to memorialize the tragic deaths of 111 Centralia (Ill.) miners.

Iceland Volcano Devastates Farms

REYKJAVIK, Iceland, April 1. (AP)—Mount Hekla continued to spew forth flaming lava today, blanketing grazing land in southern Iceland with a four-inch covering of ashes and threatening to devastate 17 farmsteads about 25 miles southwest of the volcano.

Mrs. Allen Upheld By Phone Probers

AUSTIN, April 1. (AP)—The State Industrial Commission spooked all parties in the Odessa telephone dispute, but ruled that Mrs. Elizabeth Allen should not be dismissed or removed as evening chief operator in the West Texas city.

King George Of Greece Dies Of Heart Ailment

Fun-Loving Monarch Served Short Time

Dapper, fun-loving King George II of Greece, one of the two last monarchs in the turbulent Balkans, had reoccupied his unsteady throne but a half year when death removed him today from a scene of civil strife and recrimination from left wing foes at home and abroad.

Paradoxically, the King of the Greeks was no Greek himself by blood. He was the son of King Constantine, who himself was twice removed from the throne by popular distaste. His grandfather came from Denmark and his mother was a sister of the late German Kaiser, Wilhelm II.

George was but five and a half feet tall, had Danish features and was ordinary looking except for his monocle. He wore elevator shoes to make him appear taller.

He commanded Greek troops as a prince in 1922 in the war against Turkey and was accused of treating them as cannon fodder. But when his father was driven from the throne, he became King of the Hellenes.

The Greeks decided after 18 months that they had had enough and he went into exile for 12 years. He talked of moving to California and growing oranges, but instead, visited the capitals of Europe and their night clubs and enjoyed a little hunting.

He was recalled to the throne after a military coup in 1935 but soon was overshadowed by the military dictator, John Metaxas. He fled into exile for a second time in 1941 when the Germans invaded Greece and lived mostly in London on \$5,000 a year during the war until his recall to the throne after a plebiscite last September.

He was married for a time to Princess Elizabeth, daughter of King Ferdinand and Queen Marie of Romania, but she ended the childless marriage with a divorce. His last visit to the United States was in 1942, when he sought a lend-lease grant for Greece. The late President Roosevelt feted him at the White House.

During his last brief reign, the mild-mannered and unassuming George strove desperately to reconcile bitter political differences between the rightists, who were in power, and the leftists who anted at his government from guerrilla strongholds in the mountains near Yugoslavia, Bulgaria and Albania.

Late last month President Truman asked Congress for a \$400,000,000 loan to Greece and Turkey. George's return to the poor, rocky little kingdom of 7,000,000 people was marked by increased internal violence and sharp rebuffs particularly from the Russian-led Slav bloc of countries.

He lives in an ostensibly simple life in a palace occupying an entire block in the center of Athens.

WASHINGTON, April 1. (AP)—President Truman today asked Congress to extend rent controls a year beyond the present June 30 expiration date.

In a message of the two houses, Mr. Truman said the nation "is still faced with a critical housing shortage," and that rental units particularly "are still radically out of balance with demand."

The President's message went to Congress as the House banking committee voted tentatively for a 10 per cent increase in rent ceilings and to repeal all government controls over building materials and construction.

Prince Paul Takes Troubled Throne

King George II

ATHENS, April 1. (AP)—King George II of Greece died suddenly today and his brother, Prince Paul, will be sworn in as monarch at 7:30 p. m.

The king, 56, died of a heart attack. Immediately after the new king is sworn in, the government and monarch will issue messages to the people.

George, who spent many years of his reign in exile, was returned to his throne last September by a plebiscite.

Former Premier George Papandreu said the king died at 2:30 p. m. (6:30 a. m., CST). He said the king recently had been complaining of pain caused by angina pectoris.

The king, twice exiled from his country, returned to Greece after an election decided upon continuance of the monarchy. This election has been attacked as unrepresentative by Russian factions, but its fairness was upheld by American and British delegates who observed the polling.

The death brought a new angle into the question of American aid to Greece, now being debated in Washington.

The king died at the height of a critical period in his country's history—at a time when a United Nations inquiry commission was in the Balkans studying his nation's charges against her three neighbors—Albania, Yugoslavia and Bulgaria.

The Greeks have charged her neighbors with encouraging bloody guerrilla warfare in the north and with having territorial ambitions directed against Macedonia and Thrace, Yugoslavia, Bulgaria and Albania on the other hand, have charged that Greece's border troubles stemmed from suppressive tactics of the Royalist government.

The king was born July 20, 1890, son of King Constantine. He was of Russian, German and Danish blood.

He became George II of the Hellenes after his father abdicated in 1922. Three months later he was ousted by a revolution. He spent the following 13 years in exile, living on \$5,000 a year in London.

He recouped his throne in 1935 and deposed a dictatorship. He fled before the Nazi invasion in 1942. He went to London to spend the remaining years of his exile before the postwar plebiscite put him back on the throne.

In London, Greek Leftists said the death of the king would mean no change for the time being in the situation in Greece.

"There will be no change," a Leftist leader said, unless President Truman takes this opportunity to effect a change in the regime. The leader, who has close connections with the left wing elements inside Greece, recalled that

WASHINGTON, April 1. (AP)—With some members protesting they need more time to study the measure, the House Labor Committee today cleared for 34 hours a vote on a bill designed to block Monday's threatened nationwide telephone strike.

Chairman Hartley (R-N.J.) announced the committee will meet again tomorrow, and a report will be issued.

"They will either vote the bill up or down at that time," Hartley sought a vote today, but he said some members protested they had not had an opportunity to see or study his measure. The bill would authorize the government to obtain a court order to stop a telephone strike or any other affecting national health, welfare or interest.

Local postal receipts for the month of March showed a decrease from the same period a year ago.

The total for the 31-day period just completed came to \$7,828.61, compared to \$8,146.87 for March 1946.

Postal Receipts In March Down

WASHINGTON, April 1. (AP)—The Palestine supreme court granted today a plea by the city of Tel Aviv that the military, military court and prison officials be required to show cause why Dov Bela Gruner should be hanged for anti-British violence.

The Jewish community, in a petition signed by its president, Mayor Israel Rokach, demanded that the officials give reasons for the execution of Gruner's death sentence, claiming that the sentence and conviction violated terms of the British mandate for Palestine.

Hearing was set for Thursday in Jerusalem court.

A&M Military Panel Dismisses 14 Cadets And Punishes 21 Others

COLLEGE STATION, April 1. (AP)—A military panel at strifetop Texas A&M college, with clock-like regularity, last night dismissed 14 senior cadet officers from the corps and meted out punishment to 21 others, ranging from reduction to the rank of private to a few demerits.

Six of the officers were declared innocent of the charges, which were insubordination and disobedience to orders.

President Asks For Extension Of Rent Controls

WASHINGTON, April 1. (AP)—President Truman today asked Congress to extend rent controls a year beyond the present June 30 expiration date.

In a message of the two houses, Mr. Truman said the nation "is still faced with a critical housing shortage," and that rental units particularly "are still radically out of balance with demand."

The President's message went to Congress as the House banking committee voted tentatively for a 10 per cent increase in rent ceilings and to repeal all government controls over building materials and construction.

Mr. Truman told Congress he now has no objection to pending legislation transferring rent control functions to the housing expediter, since recent legislation requires the liquidation of the office of temporary controls which he originally recommended to administer rent controls.

The President said a survey in 88 cities by the bureau of labor statistics and of the census during 1946 found vacancies in rental units "virtually non-existent."

Gruner Death Sentence Hit

JERUSALEM, April 1. (AP)—The Palestine supreme court granted today a plea by the city of Tel Aviv that the military, military court and prison officials be required to show cause why Dov Bela Gruner should be hanged for anti-British violence.

The Jewish community, in a petition signed by its president, Mayor Israel Rokach, demanded that the officials give reasons for the execution of Gruner's death sentence, claiming that the sentence and conviction violated terms of the British mandate for Palestine.

Hearing was set for Thursday in Jerusalem court.

Dunlap Appointed Acting Collector

Local employes of the Bureau of Internal Revenue were informed this morning that John B. Dunlap of Dallas has been appointed acting collector of internal revenue of the Second district (Dallas).

Dunlap, formerly a colonel in the First Cavalry division, succeeds Herbert Arnold, who resigned recently to enter private business.

63 SIGNED—NO VETOS

AUSTIN, April 1. (AP)—Gov. Beauford H. Jester has signed into law a total of 63 bills since the 50th legislature went into session. There have been no vetoes.

Willis M. McCormack, of Dallas, president of the senior class, was reduced from rank of cadet major to private, put on probation and given 15 demerits.

When a student has 30 demerits on his record he must go before a faculty for disciplinary action.

Questioning of all of the cadets followed a similar routine.

Meloy, who led the questioning, told the cadets their rights of appeal, asked them if they saw the order with which they are charged with disobeying, then if they believed it correct that in a military organization a group should attempt to vote senior officers out of office.

While the hearings were being held here, the state Senate unanimously adopted a resolution calling for a joint legislative committee investigations of conditions at A&M the House of Representatives had voted a similar resolution last week.

US Constellation, built in 1794 and first United States man-of-war to capture a warship of another nation, was recommissioned during World War II and served for a brief period as flagship of the Commander in Chief, Atlantic Fleet.

Beef tallow was the standard lubricant for pistons and cylinders of early steam engines.

Judge Wilson Denies Rumor He Will Stay Until Dooley Okayed

WASHINGTON, April 1. (AP)—"There's nothing to it," Federal Judge James C. Wilson told the Fort Worth, Texas, Star-Telegram last night of a rumor circulated by Sen. W. Lee O'Daniel that he had agreed to stay on the bench until Joe B. Dooley, Amarillo, was confirmed by the Senate as his successor.

Recovering from a recent illness at a ranch near Junction, Texas, Wilson said "I know nothing about it and there's nothing to it."

In lodging new complaints against Dooley's nomination to the federal judge for northern Texas, O'Daniel yesterday said he had asked the Senate judiciary committee to request the Federal Bureau of Investigation to check into rumors of an agreement between the Dooley law firm, and Judge Wilson.

According to the rumors, O'Daniel said, Judge Wilson agreed to stay in office until Dooley is confirmed. Then one of Judge Wilson's two sons would be made a partner of the Dooley firm.

One of Judge Wilson's sons, James C. Wilson, Jr., Fort Worth attorney, branded the rumor "as so much bunk," and declared that nothing like that had ever been discussed with or by him to anyone.

Judge Wilson's other son, Horace Wilson, who lives in Amarillo, said: "I can assure you from my standpoint that such charges are fabrication, and I can almost assure you of the same for my brother. He is well established in Fort Worth and I have very pleasant association with Stone and Stone (the law firm with which he is associated)."

"I have been informed of no such deal. Judge Wilson would never dream of such an outrageous thing. It has never been suggested, imagined or contemplated."

O'Daniel has protested Dooley's nomination. The Amarillo attorney was recommended by the senior Texas senator, Tom Connally.

The committee gave O'Daniel until tomorrow to file a bill of particulars citing all objections to Dooley's nomination. The nomination is to come up April 14, for possible final action.

Moscow Confab, Moscow River, Both Jammed

MOSCOW, April 1. (AP)—The deep, dull sound of heavy explosions awakened Muscovites and visiting diplomats alike today and because it's April Fool's Day here, too, it took a little while to find out that the Russians were dynamiting the ice in the Moscow river to free the stream from the jaws of winter.

Upon hearing this news, some of the high-powered attendants of the council of foreign ministers sleepily asked each other if the blasting might be of any significance to the Big Four conference, which is as jammed up as the river.

Regardless of when the ice in the river, and in the conference begins to break, one thing is becoming clear to foreign observers: Russians feel that the US policy of firmness toward Russia is actually a policy of hostility.

One western diplomat commented across a dinner table last night: "The ice may be breaking in the Moscow river, but you can almost hear the diplomatic ice freezing in the Kremlin."

In any event, Prime Minister Stalin has not yet had a talk with Secretary of State George C. Marshall, who has now been here 23 days. Stalin has conferred with both the other visiting foreign ministers — Bevin of Britain and Bidault of France.

Mexican Publisher Fatally Wounded

MEXICO CITY, April 1. (AP)—Vicente Villasana, 61, owner and publisher of the Tampico daily newspaper "El Mundo" was fatally wounded last night in a hotel room.

Ciudad Victoria police said that chief of Ciudad Victoria Police Julio Osuna was in the room with Villasana at the time of the shooting. Police said Osuna would be questioned.

The publisher was reported to have been shot with a .45 calibre bullet.

Police said no arrests had been made.

NEW BUST—This bust of Winston Churchill by Jacob Epstein was recently placed on exhibition in a London gallery.

Oil Dock Area In Haifa Under Pall Of Smoke

JERUSALEM, April 1. (AP)—Smoke from bomb-hit fires continued to rise from the ruins of part of the far-flung Haifa oil dock area today, 36 hours after an underground attack that laid waste to an estimated \$4,000,000 worth of oil products and equipment.

Investigators still were kept away from the disaster scene by the terrific heat and by burning oil in two tanks. Fourteen tanks were destroyed in the blaze, which followed three explosions early yesterday morning.

Palestine government officials called another conference today to ponder official reaction to the blasts. A British spokesman yesterday said "the community will pay" for damages to the oil installations, but added that actual plans by which reparations would be levied had not yet been drafted.

Troops manning roadblocks on approaches to Haifa were checking the identities of every person entering and leaving the city. Roving patrols were checking identities inside the city, but no searches were reported and there was no curfew.

Slayer Suspect Back From Brazil

NEW ORLEANS, April 1. (AP)—A 26-year-old seaman, Irvin Goodspeed, charged with murder in the slaying of a Dallas morning news contract carrier, was returned here last night from Brazil where he had been arrested by Brazilian police.

J. L. "Buck" Jameson, sheriff of Montague county, Texas, who flew to Brazil to bring Goodspeed back to the United States, said he had filed murder charges against him in the slaying of Marlin Camp, whose body was found on a roadside last Oct. 31 five miles east of Bowie, Texas. Camp had been shot twice in the head.

Goodspeed was described as an ex-convict by Jameson.

Texas Ranger R. L. Badgett accompanied the sheriff to Brazil to return Goodspeed and returned with them aboard the SS Murray M. Blum, which docked here last night.

They were met here by Texas Ranger Captain M. T. Gonzales, who came to supervise Goodspeed's return to Texas.

The seaman was arrested by Brazilian police Dec. 6 aboard the oiler SS Denison Victory in the Harbor of Santos.

There are about 20,000 syllable characters in the Chinese language of which about 500 are in common use.

Beazley Glistens As Cards Win, 7-2

ST. PETERSBURG, Fla., April 1. (AP)—Pitcher Johnny Beazley, so discouraged at one time last year that he announced he was quitting baseball, passed the first test on his comeback trail yesterday as the St. Louis Cardinals trimmed Cincinnati, 7-2. The Red Bird hero of the 1942 World Series showed plenty of stuff during his three-inning mound trick during which he fanned two, walked none and yielded three hits.

Hock-day or Hock Tuesday—the second Tuesday after Easter—is a traditional English festival day commemorating the date on which the English many centuries ago arose against Danish invaders.

Texas Lawmen Told To Abandon 10-Gallon Hats

DALLAS, April 1. (AP)—Texas constables were advised yesterday to change their ten-gallon hats and cowboy boots for more conservative dress and to keep up-to-date with all the modern crime detection methods and weapons.

Dallas Police Chief Carl Hanson, addressing the annual convention of the Constables Association of Texas here, said that the constables' appearance affected their efficiency in many instances and advised the use of courtesy along with caution. He praised the "wholesome spirit of cooperation" among all law enforcement bodies in the state.

Officers elected on the opening day of the two-day meeting were Robie Love, Dallas, president; J. Aemlabreth, Houston, Bill Hauck, San Antonio, and K. D. Wright, Houston, vice-presidents; Carl Dixon, Houston, secretary.

Directors chosen were W. O. Bankston, special Dallas Deputy sheriff; Joe Allen, Corsicana; Jack Townsend, Houston; Jerry Bacon, San Antonio; and Lloyd McKee, Corpus Christi.

PROUD SMOKE EATER—Well booted for the occasion, five-year-old Edward De Lugs of Chicago takes advantage of a spring day to put his fire engine in tiptop shape for any possible emergency calls.

British Protest Refusal Of Visas For Russ Wives

LONDON, April 1. (AP)—Fifteen British men protested to Prime Minister Attlee last night against a Soviet government decision to refuse exit permits for their Russian wives.

Most were married in Moscow while on wartime duty.

"You will understand this (decision) means separation from our wives and children for the rest of our lives," the telegram said. "We most earnestly beg you not to regard the Russian refusal as final. We cannot believe it is intended to wreck the lives of 32 ordinary people.

"Therefore we implore you to ask Generalissimo Stalin if he will reconsider this so fateful and terrible decision."

It is believed that the name "Nickel" derives from "Kupfer-Nickel," meaning "Old Nick's Cooper," given to the metal by early-day miners in Saxony because it was difficult to smelt and work.

Red Blood Cells Must Be Kept Up If You Want To Feel Alive

Thousands Now Regaining Old Time Pep, Vigor and Drive By Releasing Vibrant Energy To Every Muscle, Fibre, Cell

Overwork, undue worry, and lack of certain foods often reduce the red-blood strength—and starved, weak, puny blood just hasn't the power to keep up your energy and drive.

Every day—every hour—millions of tiny red-blood-cells must pour forth from the marrow of your bones to replace those that are worn-out. A low blood count may affect you in several ways: no appetite, underweight, no energy, a run-down condition, lack of resistance to infection and disease.

To get real relief you must keep up your blood strength. Medical authorities, by analysis of the blood, have by positive proof shown that SSS Tonic is amazingly effective in building up low blood strength in non-organic nutritional anemia. This is due to the SSS Tonic formula which contains special and potent activating ingredients.

Also, SSS Tonic helps you enjoy the food you eat by increasing the gastric digestive juice when it is non-organically too little or scanty—thus the stomach will have little cause to get balky with gas, bloats and give off that sour food taste.

Don't wait! Energize your body with rich, red-blood. Start on SSS Tonic now. As vigorous blood surges throughout your whole body, greater freshness and strength should make you eat better, sleep better, feel better, work better, play better, have a healthy color glow in your skin—firm flesh all out of low places. Millions of bottles sold. Get a bottle from your drug store. SSS Tonic helps Build Sturdy Health.

Eppler Victor Over Prather

ABILENE, April 1. — Lightweight Jimmy Eppler turned in an impressive victory over Chuck Prather of Stephenville for the only Big Spring victory in a series of three-round scraps unrevealed here Monday night.

Eppler, 135-pound champion of the Big Spring Golden Gloves boxing tournament, was always ahead although Prather made it interesting for him.

In other bouts involving Big Spring fighters, Johnny Hooper, featherweight, lost to Jimmy Smith, Eastland; Ray Fortune, Abilene, defeated John Burns; and the veteran Clell Whetsel, Abilene, tapped out a decision over Billy Bob Whittington.

A dozen scraps made up the program, witnessed by approximately 1,000 fans.

Order Shutting Down Seeligson Field Is Halted

AUSTIN, April 1. (AP)—Enforcement of a Railroad Commission order which would have virtually shut down production in the important Seeligson oil field was halted today by the 126th District Court.

The Shell Oil Company and others joined in seeking an injunction against the enforcement of the order—to have been effective today at 7 a.m.—issued by the Railroad Commission in an effort to halt wastage of casing head gas, or that produced incidentally with oil.

Higher court adjudication was assured when the state immediately filed notice of appeal. It was considered certain the case would wind up in the State Supreme Court.

District Judge Roy C. Archer issued the order granting the injunction approximately 13 hours before the commission ruling requiring operators in the field to legally utilize casinghead gas, or shut down, was to have been effective.

The oil companies contended that materials for erecting plants to process the gas as directed by the commission has been ordered, but were not now available. The Railroad Commission contended they have had ample time to comply with directions to utilize the gas.

Fine Comes Home

FORT WORTH, April 1. (AP)—It will be "Old Home Week" for another Boston Red Soxer today. Tommy Fine, who lives nearby, will share the pitching chores with Joe Dobson against the local Cats of the Texas League. Yesterday in Houston Hughson won a pitching duel from his first cousin, Jack Creel, when Johnny Pesky lashed out a triple that gave the Sox a 4-2 win over the Houston Buffs.

Texans Graduate From FBI School

WASHINGTON, April 1. (AP)—Four Texans were among 89 peace officers from all parts of the country who have just been graduated from the FBI special 12-week academy.

They are Wharton County Sheriff T. W. (Buckshot) Lane, Cuero; Chief of Police Rufus Taylor, Dallas; Police Lieutenant Edward Preston and Charles S. Bond of San Antonio, Chief Criminal Investigator for the Bexar County District Attorney's office.

When the FBI goes on a case throughout the country, its agents immediately contact the graduates of the academy (the 34th session has just concluded) who live in the vicinity of the crime. The G-man thus has immediate contact with a man who knows the locality and who knows how the FBI operates.

Aeronautics Bills Submitted To Jester

AUSTIN, April 1. (AP)—Several pending aeronautics bills have been submitted as emergency legislation to Gov. Beauford H. Jester.

One would allow two or more municipalities to jointly own or operate an airport and another would give municipalities airport zoning authority to become eligible for federal aid.

A MESSAGE FROM THE CHIEF OF STAFF

The Time of Need Is Now

The Selective Service System, which helped build so magnificent a wartime Army, is being discontinued as an immediate source of men for Army service. Its record is one of distinction, and the Nation's gratitude goes out to all those responsible for the efficient administration of that system, as well as to the millions of selected men who served with such courage and devotion.

From now on we are engaged in a great test, to see whether a system traditionally American in peacetime—the volunteer system—can give us the stable, well-trained Regular Army our current international commitments require.

We have come to a crucial turning point in the development of our military establishment. Building an all-volunteer Regular Army is not a job for the War Department alone; it is a job for the American people—a task of writing the insurance against the chaos of another war.

Here are the basic facts: To carry out our present assignments, we must maintain the Regular Army at a strength of 1,070,000 men. This will require a constant flow into the Army of 30,000 men a month. These men must be of high quality, and every one must be a volunteer. Thus we face a persistent question: Can we do the job?

The task is enormous. Never before have we even considered raising and maintaining a peacetime Regular Army of a million volunteers. There are no sign-posts to go by, no experience on which to base sure forecasts. But such obstacles have never deterred this Nation before.

I have confidence in the young men of America, whose opportunity it is to choose this fine profession. And I believe we can do the job—if we have three things: public understanding, public support and public action.

National observance of Army Day and Army Week is made possible by public support. This has come from the fine young soldiers who have volunteered, from individuals, and from organized groups. Now, as we strive to build a Regular Army to help enforce world peace and security, I ask those who have given so generously of their help to redouble their efforts.

They can do so in the knowledge that the United States Army offers able young Americans not only three things every man wants—good pay, a real career, a chance for advancement—but also the honor and dignity which is associated with national service in time of need.

The time of need is now.

Dwight D. Eisenhower
CHIEF OF STAFF

A GOOD JOB FOR YOU

Bill Turns Realtors Into Warring Camps

By PAUL BOLTON
Herald Austin Bureau

AUSTIN, March 31.—Moderately far down on the crowded calendar of the Texas House is a proposed piece of legislation which has turned the real estate dealers into a warring camp.

It's a proposal to establish a real estate commission for the licensing of dealers, to replace the present licensing by the Secretary of State's office. Bystanders say that generally the smaller independent real estate dealers are opposing the measure. Many real estate boards have endorsed it.

And standing by two watch the fight is Leo Darley, securities commissioner in the Secretary of State's office. The outcome is not too important, personally, to him, since when the registration of real estate dealers was added to his division, he was NOT given an increase in salary and very little increase in force—four inspectors and two stenographers.

Darley has some questions. He's asked them of the supporters of the bill. For instance:

There are now 26 thousand real estate dealers in Texas. The business is booming right now; the roll grows at the rate of about 40 a day. To keep up with all of these dealers, his department now uses the facilities of the Secretary of State's office, including the IBM card system. If the new commission should be established, IBM

machines are not now available; how many stenographers would it take to handle better than 26,000 cards a year?

As another instance: The chief, or one of the chief, purpose of the new bill is to set up some sort of test to establish the qualifications of the dealer. What are the qualifications of a man who buys and sells real estate other than a knowledge of property values and financial stability?

And as another instance of Mr. Darley's questions, the chief fault in the present law is the difficulty of getting a case established against a "shady" dealer because his fellows who know of his practices refuse to testify against him. How can a new law improve that condition?

The bill sponsored by Senator Howard Carney very largely follows the present law except that it sets up a commission of three. The qualification for commissioner is that he has engaged in real estate business and held a dealer's license for at least five years prior to the appointment.

This commission would select an executive secretary and administrator, to run the office and perform the duties now performed by the securities commissioner.

While the bill does NOT set up any further personnel, it provides that all fees shall be placed in a separate fund in the treasury to be used at the will of the Commission, for paying salaries, travel expenses and other necessary expenses.

Coupled with the increase in the basic license fee from \$3 to \$10, this was of particular interest. The secretary of state's office consistently has spent from one-half to one-third of the amount taken in from dealers, with the remainder going into the treasury. Last year their appropriation was \$18,000, their receipts \$49,000.

If the basic license is raised to \$10 for 26,000 licenses, it will mean an appropriation of \$260,000 to the commission.

The so-called "grandfather clause" provides that all licenses issued by the Secretary of State shall continue in force until their expiration date only. However, all licenses—under the present law and the proposed law—are renewable yearly. In fact, Darley says, the chief trouble encountered is from dealers who fail—often through negligence—to renew and continue to operate, thus constituting a law violation.

DUCK REFUGE—Joe Schramer, Chicago, Aurora & Elgin conductor, feeds some of his 250 wild duck friends beside the Fox River at Batavia, Ill. The flock now winters there instead of going south.

Salvation Army Naming A New Nat'l Commander

Commissioner Ernest Pugmire, Eastern territorial commander of the Salvation Army since 1942, is to assume the directorship of all national affairs of the organization on April 25. Capt. Olvy Sheppard, head of the local SA post, announced today.

For the past two years Pugmire has served in the capacity of national head of the SA in addition to his other duties. The fact that a full-time post of national commander has been created was taken as evidence of the growth of the national organization and recognition of it by the International Salvation Army.

He will be succeeded by Commissioner Donald McMillan, present national secretary, as commander of the Eastern territory. Col. George Darby, property secretary of the SA Eastern territory, was named to a newly-created post of secretary to the national commander.

Pugmire is a native of Kansas City, Mo., and has a background of service in the SA Central territory, New York, Canada, China and Japan.

Another Lady Is Free Of Stomach Gas And Headache

One lady said recently that her stomach used to be like "gas factory." That is, when she ate a meal it seemed to turn right into gas. She was always bloated, had awful stomach gas pains, daily headaches and constant irregular bowel action. Now, however, this lady says she is FREE OF STOMACH GAS and she says the change is due to taking INNER-AID. Her meals scree with her. No gas or bloot after eating. Headaches and constipation are gone. "Oh! what relief!" states this lady. "Why don't other gas and constipation sufferers get INNER-AID." INNER-AID contains 12 Great Herbs; they cleanse bowels, clear gas from stomach, act on sluggish liver and kidneys. Miserable people soon feel different all over. So don't go on suffering! Get INNER-AID. Sold by all drug stores. (adv.)

FORD Offers the Lowest Priced Cars In Its Field!

The Ford three-window, six-cylinder business coupe is now back in production. The price has been reduced twenty dollars below the price which prevailed last fall when production on this model was temporarily suspended.

This reduction, together with those of January 15 ranging up to fifty dollars, makes the Ford business coupe and the two-door sedan the lowest priced cars in their field.

This is in keeping with Ford's policy of offering the greatest value at the lowest possible cost.

NEW CLEANING PLANT—The W. & K. Cleaners, 1213 W. 3rd street, represent a comparatively new cleaning establishment in Big Spring. While placing emphasis on quality workmanship, W. & K. also stress rapid service. This does not necessarily mean one-day service, but frequently the staff is able to turn out garments, cleaned and pressed, the same day they are received. The plant is handily located on the Stanton highway inside the city limits and ample parking space is available. (Jack M. Haynes Photo.)

All Jobs Serviced At Motor & Bearing

Most any mechanical problem which might confront an automobile owner can be solved easily at the Motor and Bearing Service, 1605 Scurry St., where no job is too large or too small to merit attention of expert mechanics and machinists.
If the Motor and Bearing Service should list any particular type of work as a specialty right now, it probably would be rebuilding motors. They are equipped to restore all makes and models of used automobile motors to the peak of operating efficiency. In addition, they usually keep a few rebuilt motors in stock, ready for immediate installation for car owners who need quick service.
Those who wish to have their own auto motors rebuilt are assured of the best workmanship possible. The Motor and Bearing Service uses all new parts in the rebuilding process when replacements are indicated. If a piece of equipment is worn, beyond good performance, a used part is never substituted, but a completely new piece is installed.
However, the Motor and Bearing Service does not confine its work to rebuilding engines. Other work for which the firm is particularly known includes rebasing, connecting rods, crank shaft grinding, cylinder reboring, cylinder head surfacing, bearing resizing and valve work.
They also are prepared to offer motorists block replacements and a host of other services designed to keep cars in good condition.

Kyle Gray Now Handles Cargo Anywhere In US
Transfer Company Is No Longer Restricted To Southwest Area

Expanded services now make it possible for the Kyle Gray Transfer company to handle moving jobs anywhere in the United States.
The announcement was made this week by the owner and manager of the lines, who formerly served a territory covering Texas, New Mexico, Arkansas, Oklahoma and Louisiana.
The firm has nine trucks and moving vans in operation, carrying livestock, furniture and all household equipment, feed and oil field machinery to all parts of the nation.
It was back in 1936 that Gray started his business on a small scale operating one truck himself. Branching out gradually, he moved to a location on Rannels street where he operated until January 1946. Additional trucks and growing business called for a larger firm, and the transfer company was moved out on the east highway where it now has ample parking and temporary storage space.
The safety record of the company is very outstanding. Drivers have achieved an enviable record for the concern and Gray states that drivers have not had any wrecks involving other vehicles since the company started business in 1936.
Becoming more popular is Gray's service of packing and moving household goods. Movers carefully pack everything from China to pictures and table lamps along with furniture and other household furnishings.
Assisting Gray with book work and office business is his wife Mrs. Gray. The company offers day and night service to those with a moving job to be done and arrangements can be made quickly by telephone.

Burnett Machine Announces Two New, Featured Services

Two new services are being announced currently by Burnett Machine company, just over Coleman hill on the east highway.
One is the dealership for famous Waukesha power units; the other is that H. D. Hodges now operates, the welding department of the company.
Hodges, a veteran craftsman in the welding field, enjoys one of the greatest followings of any welder in this area because of his work. His reputation, built upon the thousands of jobs he has turned out, is equally strong among the oil and industrial fields as it is in the agricultural realm. A job that meets specifications and holds and holds is a Hodges trade mark.
R. G. Burnett, owner of the business, also has announced the dealership for the Waukesha units. In the field of stationary power, few power sources have the wide following possessed by Waukesha. These sturdy, economical engines are compared in the mechanical field to a rugged draft horse in the animal drawn field. Not only do they deliver maximum power, but they deliver it hours and hours on end without taxing the engine.
These units, by minor adjustments, are convertible either into gasoline or natural (or butane) gas burners, giving them a great flexibility and making for great economy of operation. Drillers and pumpers hold them in exceptionally high regard, and they are popular in all fields demanding steady, stationary power.
In addition, Burnett features the rebuilding and conditioning of large mobile and stationary power units of all types. He deals in reconditioned and rebuilt engines, and can be had by calling day or night to meet any emergency.
Precision machine work of all types always has been and still is a feature of the Burnett service, and can be had by calling day or night to meet any emergency.

Labor Restrictive Bills Are Pondered

AUSTIN, April 1. (AP)—The session's second major bill restricting union labor moved to the Senate today after passage of an overwhelming vote yesterday in the House.

It was a measure by Rep. Cecil Storey of Longview, prohibiting strikes against the state government or any political subdivision. The House rammed it through on final reading by a vote of 107 to 19.

Passed to final reading, but lacking enough votes for immediate final passage were two other labor restrictive bills. One would make unions financially responsible for damage done by pickets when picketing is held unlawful by the courts. The other would prohibit "mass" picketing—that is, picketing by more than two pickets at one entrance of a struck plant, or placing pickets within less than 50 feet of each other.

Earlier this session, the House passed and sent to the Senate a bill prohibiting the closed shop. The Senate amended it to exempt the railroad brotherhoods, and the House refused to concur. The measure is now in the hands of a conference committee for adjustment.

Both House and Senate yesterday put in their longest and hardest work of the session. House committees worked to midnight.

A bill creating a state board of chiropractic examiners was passed on second reading by the House by a vote of 88 to 58. An amendment requiring 60 hours of college credit before a person could qualify for a chiropractor's license was defeated.

Finally passed by the Senate and sent to the House was a measure requiring that schools meet certain safety requirements in the present plants and in building new ones. Its author, Sen. T. C. Chadwick of Quitman, said it was intended to prevent such school disasters as the New London explosion that killed 294.

The Senate concurred in House amendments and sent to the governor a bill allowing state colleges and universities to charge student activity fees so that veterans may make claims for them under the G. I. Bill of Rights.

The resolution proposing submission of a constitutional amendment to give state-supported colleges and universities a \$60,000,000 building program went to a conference committee after the Senate refused to concur in House amendments.

Sen. George Moffett's proposed constitutional amendment calling for automatic redistricting by a board if the legislature fails to follow the mandate of the constitution—as it has for more than 20 years—was passed on second reading by a 17 to 8 vote. It

would need 21 votes for final approval and submission to the House.

The House passed finally and sent to the Senate a bill allocating \$148,000 for use by the Upper Colorado River Authority in negotiating with the federal government on a dam project. No new money is involved; the bill merely permits the UCRA to utilize funds already on hand from past tax reductions.

Committee action yesterday included: Setting of April 9 as the date for hearing a proposed bill increasing the gasoline tax two cents a gallon, by the House committee on highways and roads. The bill was referred to that committee yesterday from the committee on revenue and taxation.

Killing outright of a proposed graduated tax on cigars, by the House revenue and taxation committee.

Favorable reporting of an anti-lynching bill by the House committee on criminal jurisprudence. The bill provides a maximum penalty of death and a minimum penalty of five years imprisonment on conviction of having participated as a member of a lynching mob in which the victim is killed. The death penalty would not apply in second-degree lynching in which the victim is not killed.

Deferring of action for one week by the Senate towns and city corporations committee on a bill to allow the state's largest cities to own and operate municipal parking stations.

Oil Production For Week Up

TULSA, Okla., April 1. (AP)—The Oil & Gas Journal reported today crude oil production in the United States averaged 4,888,003 barrels daily during the week ended March 29, an increase of 11,205 barrels over output for the previous week.

It was the fourth straight week that the national average has showed a gain.

The greatest increase for the week was reported by Kansas, where production was up 13,400 barrels to 281,150 barrels per day. Other states with notable gains were Illinois, up 3,800 barrels to 190,900; Michigan, up 3,065 to 44,230; Oklahoma, 2,550 to 370,400; and Colorado, 1,480 to 37,560.

Declines were registered by California, down 8,200 barrels to 906,400; Arkansas, off 1,500 to 79,900; Louisiana, 1,350 to 414,000; the eastern area, 1,300 to 64,500; and Mississippi, 1,100 to 87,245. Texas production was unchanged at 2,129,750 barrels daily.

28 YEARS LATE PAYING TAXES

ST. JOSEPH, Mo., April 1. (AP)—A man dropped into the office of County Collector Clifton Hulse yesterday and said he wanted to pay taxes on some property he owned—but he was 28 years too late.

Hulse checked the records, found the taxes were delinquent 28 years ago and that the property had been sold for the taxes two years later.

HEAVY SUGAR TO AID FRIEND

DETROIT, April 1. (AP)—Friends of George Bennett brought 25 pounds of small change to jail as bail money on a reckless driving charge, but Bennett didn't win his release immediately.

Police were busy for several hours counting the money—including 5,000 pennies. When they finished they had \$250, more than enough to release Bennett.

The Danish invasions of England in the 9th Century are credited with bringing about the unification of the many separate kingdoms of the country.

Total Of Federal Income Taxes Equals Total Spent On Luxuries

WASHINGTON, April 1. (AP)—How the congressional research service works was illustrated the other day when a question occurred to Rep. John Lyle of Corpus Christi during House consideration of the bill to reduce income taxes.

Lyle wondered how much money is spent in this country annually on strictly luxury and pleasure items.

So he telephoned the "legislative reference service," which is in the Congressional library, a mammoth building that faces the Capitol grounds. In a short time the researchers had dug up these figures:

In 1946 income taxes paid by individuals in the United States amounted to \$17,600,000,000. Expenditures by the American people for the same period for selected luxury and pleasure items totaled exactly the same amount as the individual income tax payments.

Automobiles purchased for pleasure purposes (figured on a basis of 25 per cent of total) cost \$686,250,000 and gasoline for pleasure driving, \$1,323,000,000; amusements, \$2,171,335,969; furs, \$917,061,705; luggage, \$407,117,132;

toilet goods, \$477,872,426; cosmetics, \$862,000,000; horse racing, \$1,830,287,495; liquor, \$7,770,000,000.

Lyle opposing the tax-cutting measure, said:

"The levying of taxes is one of the most unpleasant duties of a congressman in times of peace, but even more unpleasant than that would be to leave this chamber today with a sense of having cast a cheap political vote."

"Taxes are high, burdensome and severe, but they do not equal our responsibilities in our quest for peace and decency."

Similar comment came from Beaumont Rep. J. M. Combs:

15,000 Votes Due In Dallas Election
DALLAS, April 1. (AP)—About 15,000 votes were expected to be cast here today when Dallas voters go to the polls to elect a city council, and pass on extension of a fifty cents special school tax for another four years and on ten proposed amendments to the city employees retirement fund.

FOR GOOD GOING

MAGNOLIA SUMMER-PROOF SERVICE

Your car requires seasonal service... to condition it for temperature extremes. Magnolia SUMMER-PROOF SERVICE is just what your car needs... no more... no less... to put it in tip-top shape for good going through the summer of summer.

BOYS! GIRLS!

HOW TO FLY A KITE Safely!

- Fly kites away from electric wires.
- Use only dry cotton string.
- Don't climb poles to recover kites.
- Don't use metal or wire on kites or kite strings.

PARENTS!

For Safety's Sake, ask your kite flyer to fly his kite AWAY from all wires... and ask him not to try to dislodge a kite that has become entangled in the wires.

EVERYBODY is asked to call our office when they see a kite in our lines. The linemen will gladly get it down—undamaged if possible.

Your co-operation might prevent a possible interruption of electric service.

C. S. BLOMSHIELD, Manager

DON'T BOIL OVER!
MOBIL RADIATOR SERVICE
It isn't enough to just drain out anti-freeze. Your radiator should be flushed with Mobil Radiator Flush and rust-proofed with Mobil Hydrotone. Then, just to be safe against overheating and bearing burn-outs, we'll carefully check the fan belt, hose connections, and the condition of the thermostat.

NEW MOBIL OIL FOR NEW MOTOR POWER
Mobil Oil, with its constant cleansing action, helps keep sludge and grime from caking in your motor. Now's the time to change to fresh, summer-weight Mobil Oil for added surge and power from your Mobilgas.

MOBILUBRICATION SMOOTHES THE WAY
Make it easy on yourself and your car... put the glide back in your ride... with Mobilubrication. Your car will show its appreciation.

MOBIL GEAR-OIL SERVICE
Hot weather, high speeds, extreme pressures are tough on gears. Mobil Gear Oils provide the safe, sure protection they need for good going.

MOBIL TIRE SERVICE
A complete tire check-up. Need new ones? Get Mobil Tires. We do our best to make the owners glad they have them. Naturally, we give Mobil Tires extra care so they give you extra wear.

AIR-CLEANER SERVICE
Carburetor air cleaners need servicing at least every 1,000 miles for greater gas economy and a safer motor.

RENEW OIL FILTER
It helps Mobil Oil keep the engine clean... maybe a new element is needed. We'll check it.

OTHER SERVICES IF YOU NEED THEM!
Mobil Hydraulic Brake Service... Mobil Shock Absorber Service... Mobil Wheel Pack Service... A Mobil Upperlube Tonic Treatment... Spark Plugs cleaned and respaced or renewed... Mobil Battery Check... and for car appearance, a bright and shiny Mobil Polish and Wax Job.

Mobilgas AT THE SIGN OF THE FLYING RED HORSE!

Clearing The Way For Trading

Will Clayton, in a diplomatic sort of way, has declared removal of barriers in the interest of expanding international trade. To get to the meat of the coconut, this means tariffs.

The former premise is based upon the assumption that lowered duties places the American workman in competition to peasant labor, and that the forces of competition therefore would necessitate a lowering of wages.

Theatre Movement Gets Support

The presence of approximately 600 people for the theater group's first presentation, a one-act play, "Dust of the Road," at the city auditorium is doubly heartening.

Secondly, the response Sunday may be taken as indicative of interest in the theatre movement here. For years there has been an oft repeated but seldom executed desire for something similar to the little theatre in Big Spring.

The Nation Today—James Marlow—

Demos To Push Anti-Communism

WASHINGTON (AP)—You can be sure one of the Democrats' big talking points in the 1948 elections will be anti-Communism.

They're laying in a nice supply of anti-Communism ammunition now. Communism in this country, which has shown a big distaste for it, is an easy political football in any political campaign.

B. Schwellenbach, went up to Congress and suggested the Communist Party here be outlawed. And now his Attorney General, Tom Clark, has begun beating a drum for Mr. Truman's anti-Communist stand.

Affairs Of The World—DeWitt MacKenzie

World Revolution In Full Swing

Fear of another World War is a very natural public reaction to recent international events, but we shouldn't let that possibility—shocking as it is—blind us to an actuality which is of even more immediate importance, and that is this:

The Moscow-directed world-revolution for the spread of Communism, which was born with the establishment of the revolutionary Soviet government in 1917, is at long last in full swing on a truly global basis. It is mobilized to the utmost strength which Russia can muster pending her recovery from the ravages of war.

Washington government. The world is covered with a rash of events which are developments of the world revolution, some representing bloody violence and others tactical political maneuvers. Typical of the latter class are the food demonstrations in the British Zone of Occupation in Germany.

In Hollywood—Bob Thomas

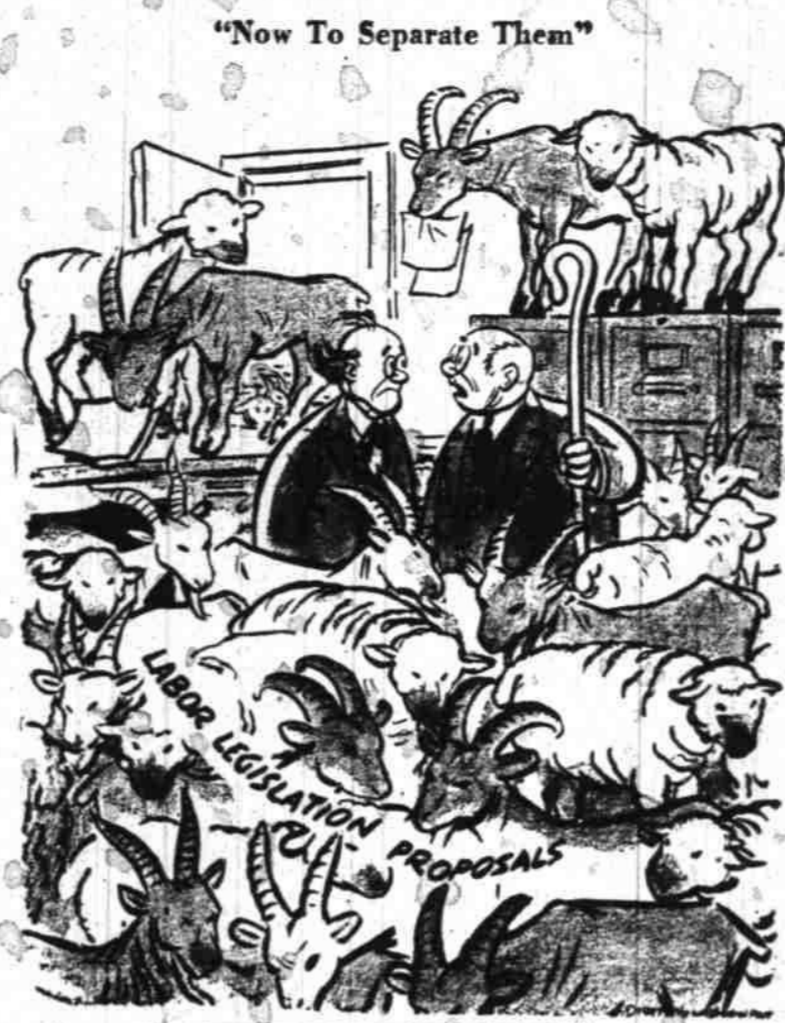

Young Film Pair Split Partnership

HOLLYWOOD (AP)—The successful screen partnership of Donald O'Connor and Peggy Ryan has come to an end. Donald says he and his former co-star have agreed that their careers will fare better on separate paths.

That will make Glenn Ford happy, as long as the pictures are made here. The couple decided he couldn't afford to fly back to see her, then he ran up a phone bill many times the trip's cost.

Observed Valley Dweller Edgar Buchanan: "They could have saved all that dough if they had called me up and said, 'Hey, Buck, how's the weather out there?' I could have told them."

Eleanor Powell returns from her successful dance tour next month and probably will accept one of the film offers she's had.

Hal Boyle's Notebook

Most Unusual Campus

LAKELAND, Fla. (AP)—A 60-year-old college president who never saw the inside of a schoolhouse of any kind until he was 18 is building here the most unusual campus in America.

Under construction now is a building development designed by the famous architect, Frank Lloyd Wright, in an ultra-modernistic style peculiar to Wright himself. Typical examples: a chapel without crosses, lights, a semi-circular library, hall has an inside garden, and skylights and it can double as an auditorium or music room.

The buildings are of yellow-colored concrete. Coquina shell blocks—made by student labor—glass bricks and steel. They will be linked by a mile-and-a-half esplanade or covered sidewalk of unique design. No feature of the architecture resembles the traditional gothic or sandstone and red brick horrors beloved on many campuses.

Dr. Spivey, a disciple of John Dewey, is strongly social minded. "I believe in a human college, not in an ivory tower," he said, "a college where science provides the tools and where education and religion point the way."

Poland Reconverts Liner Sobieski

GYDNIA (AP)—Poland's big transatlantic steamship, the Sobieski, which played an important part in troop movements during wartime, is being reconverted for peacetime travel.

Texas Today—Jack Rutledge

The saying is that if you work in a newspaper plant you get printers' ink in your blood and you can't quit. You wouldn't get printers' ink in your blood if you worked for the Gainesville Register.

Washington Merry-Go-Round—Drew Pearson

Maragon Protests Against Expos

WASHINGTON.—John Maragon, the Greek-born ex-narcotics agent who has been so close to President Truman, called at the executive offices the other day to protest to Secretary Matt Connelly the recent exposés published in this column on Mr. Truman's queer friendships.

In Rome, Italy, on his way to Greece, Maragon was standing in front of the Hassler hotel when Brig. Gen. William L. Lee, US air corps, drove up and parked his car across the street in a space disputed by an ATC bus.

Red-faced Senator Clyde Reed of Kansas is going to have apoplexy if the Reed-Bulwinkle bill to exempt railroads from the anti-trust laws does not reach a Senate vote soon.

Mr. Truman is fond of his friends—fonder perhaps than any President of the United States since Warren Harding. Various photographs were made of the birthday guests, including some of Truman and the B&O agent in poses indicating intimate friendship.

Maragon then moved into the White House. Maragon not only received a special White House pass and special parking space outside the White House, but he had in his pocket visual photographic proof of his intimacy with the No. 1 man of the nation.

Reed repeated his demand for immediate action, then remarked, obviously referring to To-bey: "The opposition is just a lot of noise."

ENVOY GETS BOUNCED

Maragon then, flew on to Athens where the Greek elections were in the process of American-British supervision. There, however, he met his Waterloo. John could dictate to the President's military aide, Gen. Harry Vaughan, but the state department was different. In Greece he ran up against Henry Grady, special American envoy for the supervision of the elections in Greece.

Arriving home, Maragon threatened to jump out the window because he had disgraced his "good friend Harry Truman," but kindly Congressman Paul Shafer of Michigan finally got White House Secretary Matt Connelly on the telephone and pacified him.

Reed, continued To-bey, "The senator from Kansas has said there is no opposition to the bill. I suspect that when the bill does come to the floor he will be surprised at the strength of the opposition."

TRUMAN'S GREEK ENVOY

Last year, however, Maragon persuaded those in high authority to send him to Greece with the Allied mission to supervise the Greek elections. Apparently he considered it part of his duty as presidential adviser on Greek affairs to be a first-hand observer.

And today you can still see John riding in the car of the White House military aide, or see pictures of the President

Editor of this paper (it prints both a daily and a weekly) is A. Morton Smith, the originator of the famous Gainesville Community Circus.

Different Kind Of Newspaper Plant

The saying is that if you work in a newspaper plant you get printers' ink in your blood and you can't quit. You wouldn't get printers' ink in your blood if you worked for the Gainesville Register.

Editor of this paper (it prints both a daily and a weekly) is A. Morton Smith, the originator of the famous Gainesville Community Circus.

Big areas were choked into inactivity, the Register came out on time—mimeographed. The issue is now a collector's item.

Spartans, Legion Clash At City Park Field Tonight

Motorists Play HCJC Wednesday

Pete Farquhar's American Legion team and the Big Spring Hardware Spartans, who registered victories in their opening games last week, clash in an exhibition softball game at the city park this evening. Game time is 7:30 o'clock or thereabouts.

The Big Spring Motor company team fell victim to both nines last week.

Dave Lillard, ace righthander, will probably toe the slab for the Legionnaires this evening and will have as mound opposition Johnny "Hawk" Davison.

Howard County Junior college and Big Spring Motor company have at it at the park Wednesday night. That outing is set for 8 o'clock.

The Jaycees were thumped by the Legionnaires last Sunday but the Formden have yet to score a victory after two starts.

Leon Glenn Bredemeyer is due to give the Jayhawks plenty of trouble. He's approaching the form he displayed last year, when he was one of the best pitchers in the Muni league.

Managers have until Saturday, April 5, to register teams for the Muni softball league, which will begin its season on April 14.

To date, only six clubs have been officially entered into the circuit. The schedule will be drawn up next week.

Chihose Nudged, 9-8

PHOENIX, Ariz., April 1. (AP)—The New York Giants celebrated their return to their initial spring training base yesterday by staging a six-run ninth inning rally to nose out the Chicago White Sox, 9-8. Highlighting the rally were two two-run homers by Clint Hartung and Willard Marshall, the latter's blow winning the game.

LOOKING 'EM OVER

With TOMMY HART

April's sport calendar is already chock full of events for local enthusiasts.

The Big Spring Longhorn baseball league Broncs, already in the midst of training, play several exhibition games and then plunge into their regular season's play April 23.

Conn Isaac's high school diamond crew opens its 3AA campaign April 11 and continues until the last of May.

Steer gridders begin 30 days of spring drills on April 14. There'll be at least two intra-squad games before the month is out.

Our Town's track squad goes to San Angelo this weekend, then competes in the area meet at Midland on April 12. Those who qualify go to the regional meet at Abilene two weeks later.

The Muni softball league opens play at the city park April 14 and chances are eight clubs will go to the barrier. Church leagues will also be active before the month is out.

Youngsters of the grade schools will probably participate in a city-wide track meet at the Steer stadium sometime during April.

Pat O'Dowdy has four grapple shows lined up for the West Texas Auction barn, one every Monday.

T-Sgt. Johnny Williams may get the Abilene boxing team to repay the visit made by the Big Spring fisticufflers.

Two local bowling teams take the maples in the ABC's annual tournament in Los Angeles April 29 and continue through the following day.

The village golfers are set for a busy 30 days. Ladder and ringer tournaments are being run simultaneously at the Muni course. Country club linksmen will visit Sweetwater near the end of the month for the annual invitational tournament there.

Midland's merchants and businessmen are co-operating to supply trophies to the top teams in the coming area track and field show, which comes off two weekends hence.

Putzy Gentry, who skipped the Texan Oilers of the Permian Basin league years ago, will manage the Seagraves Oilers of the Oil Belt semi-pro league this year. The Seagraves team is the defending champion in that circuit.

District 3AA's football fans are going to play more for their ducats to conference games next fall. The damage on reserve seats has gone up from 90 cents to \$1.20 each. General admission pastebards will henceforth go for 90 cents as compared to 60 cents in 1946. Students, some of whom find a dollar as hard to get hold of as ever, will continue to get gate passage for 30 cents each.

If they care to go as far as East Texas, local nimrods can engage in a deer hunt in five East Texas counties this summer.

The season in San Augustine, Sabine, Jasper, Newton and Tyler counties extended from Aug. 15 to Sept. 16. Another runs from Nov. 15 to Dec. 31. The summer season is the first of its kind to be passed since game laws have been enacted.

Several local polo followers are planning on going to Levelland the coming Sunday when Tom Mather and cohorts stage West Texas' first indoor polo match. J. Mather, a five-goal star from Morton, is a rider of international reputation. Another standout who will ride is Harry Evenger of New York.

Indoor polo rules call for teams of three men each. A larger ball is also used than for regular polo games.

Two of the three Big Spring riders who participated in the motorcycle field meet at Wichita Falls last weekend finished among the leaders in several of the events on the program.

Garner Thixton wound up second place in the dig-out race and third in the relay race while Olen Baldock, president of the local club, was among the high point winners in the stake race, placed third in the Australian, dig-out and relay races.

Included in the local group making the trip were Bill Henley, Desi Baldock, L. B. Lane, Linnie Olin Lane, Cecil Thixton, Ora Thixton, Garner Thixton and Olen Baldock.

Yanks Heading North
ST. PETERSBURG, Fla., April 1. (AP)—The New York Yankees will end their stay here by playing exhibition games with the St. Louis Cardinals today and tomorrow. The Yanks will start heading north Friday, stopping at Atlanta, Norfolk, Va., and Baltimore before reaching New York.

HSU DRILLS OPEN
ABILENE, April 1. (AP)—Coach Warren B. Woodson, sent 79 players through the opening day of Hardin - Simmons University's spring football training. Twenty-one linemen are back for next season.

SHORTSTOP PROBLEMS have beset the Chicago Cubs as they get set to open the fight for the National League pennant but Bobby Sturgeon (above) may ease Manager Charles Grimm's worries. Bobby hit .396 last season.

Detton Subdues Brady In Main Go At BSAC

Patrons who called at Patrick O'Dowdy's grapple club last night had the unusual privilege of seeing five tin-nears come to grips. O'Dowdy hadn't planned it that way. He paired off Floyd Hansen with Phil Romano and Dory Detton with Kenny Mayne.

Hansen and Romano waded through their assignment with a minimum of wear and tear but the Detton-Mayne collision, which was supposed to be as gentle as an old ladies' tea party, didn't turn out that way at all.

Mayne took a mauling and suffered an internal injury in the first seven minutes of the bout that forced him to retire.

Art Brady, who had been acting over-seer in both bouts, preferred to spell Mayne. His suggestion received a unanimous second from the on-lookers.

The Huntington Park, Calif. adonis made it interesting for Dory but in the end the Texan forced Arturo to rug up the white flag. A simple body pin turned the trick for Detton in six minutes.

Dory had had to come from behind to take the second fall with a crooked head scissors after Brady had gone out in front by applying a reserve leg nelson in a long 23 minutes.

Romano made a hit in his go with Hansen, twice applying the abdominal strain to force the Swede into retirement.

Romano finished off Hansen in something like 20 minutes in the opening fall and applied the clincher in 14 minutes.

In between, Hansen made full use of the hammer lock to win the second fall and save himself from a complete blanking.

Fem Softballers Convene Tonight

Final plans for the season's play will be cemented when members of the Big Spring girls' softball team meet at 7:30 o'clock this evening at the home of Catherine Redding, 424 Dallas street.

Most of the fems who will make up the team played last year under the banner of the American Legion. However, all positions in the starting lineup are open and anyone who desires will be given a chance to work out.

A nickname for the club hasn't been chosen but that will probably be taken care of this evening. The crew will be managed and coached by Leon Glenn Bredemeyer, pitcher for the Ford Motor company.

Fifteen business men are sponsoring the team. Each will buy a suit for the 15 regulars. The team will play most of its games with out-of-town teams.

Haney, Other Additions Improve Outlook Of Shreveport Sports

SHREVEPORT, La., April 1. (AP)—With the club certain to pack more power and the pitching in the hands of a half-and-half staff of tested veterans and sharp rookies, the Shreveport sports are prepared to settle for nothing short of the first division in the 1947 Texas League race.

Finishing seventh last summer and hobbled by the weakest attack in the league, the sports have had a major face-lifting in the interest of jacking them up several notches.

The outfield will be brand new, so will the catching staff and the infield and elbowing corps have been revamped.

Major additions to the club include Outfielder Nick Gregory, bought from Dallas; Outfielder Jay Haney, purchased from Fort Worth; Catcher Herb Crompton, bought from Toronto; and Pitcher Ralph Hamner, who was bought from Hollywood after refusing to report following his sale to Hollywood by the Chicago White Sox.

Hamner and Crompton were members of Shreveport's championship team in 1942. Hamner won 19 games for the club that season.

With Gregory apparently destined to play left field and Haney center, the scramble for the right field position is between Ed Kobesky, Henry Vallee and Jim Kirby, all newcomers here.

With the Keystone situation in the infield settled by the return of Al Mazur at second and Danny Reynolds at short, the other spots are in doubt. Chet Hajduk, part-time operator at first last season, is being challenged by Bob Pritchard, up from Paris of the East Texas League with the reputation of being a slugger.

Even Manager Sally Parker isn't safe at third. He is having to contend with Fred Daniels, a hold-over, and General J. P. Wood, former Southern Methodist University football hero, who also was with the club last summer.

The better looking rookies, most of them up from smaller leagues with fabulous 1946 records, include Johnny Wood, Art Trieschman, Leroy Youngblood, Bill Garland, Elton Davis and Warren Hacker.

The team that appears to have the best chance of upsetting the above order of finish is Pittsburgh. With Hank Greenberg and Ralph Kiner, last year's twin home-run kings, taking their big cuts in order, the Pirates might do almost anything—or nothing much. A fifth-place finish would represent a popular victory for the team's new owners, who include crooner Bing Crosby.

Cawthon Quits Detroit Lions

DETROIT, Mich., April 1. (AP)—Pete Cawthon, former football coach at Texas Tech College at Lubbock and for the past three years associate coach of the Detroit Lions, yesterday announced his retirement from active coaching.

Cawthon said he would devote his major attention to conducting a boys' summer camp in the Blue Ridge Mountains near Lexington, Va.

Favorites Move Up At Houston

HOUSTON, April 1. (AP)—Four of the nation's top tennis stars, ranking seeded players in the River Oaks invitation tennis tournament, take the court today.

The huge annual racket festival opened yesterday, with only one minor upset marring first-round matches.

Chick Harris, of Rice at Houston, eliminated Tom Mollou, of the Army Air Forces Ground Training School, 6-3, 6-1.

The 21-year-old Navy veteran from Corpus Christi played hard, straight tennis to eliminate the eighth-seeded Southern ranking favorite.

Motion Picture Actor Tom Reed, of Los Angeles, was an easy victim for veteran ninth-seeded Bryan "Buzzy" Grant, 6-0, 6-3.

Scheduled today are matches involving National Champion Jack Krammer, Frank Parker, defending River Oaks champion, Gardner Mulloy, and Bill Talbert.

In other top matches yesterday, fifth-seeded Eddie Moylan, San Francisco, disposed of Joe Barnes, North Texas State College at Denton, 6-1, 6-2; seventh-seeded Sam Tansel, Abilene, 6-0, 6-1; and eighth-seeded Frank Guernsey, Charlottesville, Va., beat Phillip Flotnik, University of Texas at Austin, 6-3, 6-1.

Alexander Graham Bell, inventor of the telephone, produced a telephone in 1880 that operated on a beam of light.

HOW ADVERTISING MAKES YOUR FUTURE BRIGHTER

Read how the modern methods of mass personal selling are constantly creating both security and opportunity for you!

WHAT ONE MAN SAYS:
RETAILER—Sure, my advertising pays. And indirectly all advertising pays me a profit. For firms that advertise grow big and employ more people, often at higher wages. That means more people have more money to spend in my store.

You'll agree that advertising has just one main purpose—to sell goods or services. And you'll agree that when more sales are made, there's just naturally more work to be done. So more sales mean more jobs. Yes, and better jobs, a chance for promotion, or for a raise in pay. More sales mean more jobs at the factory. More jobs at the mines and mills and farms that supply materials that factory uses. More jobs in the banks, railroads, stores, and the hundred and one businesses that benefit indirectly. That's how advertising—by selling more goods to more people—makes your job, no matter where you work, a better job, with a better future, and far more security. Remember this as you see and hear advertising doing its job of selling goods. Tell your friends how advertising works. And be grateful for it. For every hour of the day, advertising is making your home, your income and your personal future more secure.

- Other Ways Advertising Helps You:**
1. Brings you better goods for less money.
 2. Makes shopping more pleasant and easier.
 3. Has given us the world's highest standard of living.

Advertising... BY SELLING MORE GOODS TO MORE PEOPLE Makes your job more secure

Second Load From Cosden To Go At New Rate

Another trainload of petroleum products (20 cars) will be loaded at Cosden Petroleum corporation's refining plant here this evening for shipment Wednesday to the blending plant at Sweetwater.

This will bring to seven trains the volume handled under the trainload rate structure quoted by the T&P for products from Cosden. A revolutionary rate principle, the structure offers up to 60 per cent off single car quotations. Four trains were moved during February, two in March.

The volume is expected to pick up in June and again in July. Construction now is under way at a blending unit with a completion date tentatively scheduled for the last of May, and at Orme, between Fort Worth and Dallas, where the big blending unit is due to be ready the latter part of June. Orme will be the biggest outlet for the products.

Interest in the rate principle has progressed beyond the talking stage, for Premier Refining Co. has made application for the rate from its plant near Baird to Fort Worth over the T&P. Hearing is set for April 8 in Austin before the railroad commission. There have been rumors that an out-of-state concern also has made inquiry with the view of ascertaining if it can obtain such a rate structure. Currently, the quotations are applicable only in Texas upon proper application and hearing.

Lecturer Tells Of Path Leading To Salvation

Earl E. Simms, Austin, delivered a lecture on Christian Science at the city auditorium here Monday evening.

The lecturer spoke, in part, substantially as follows:

"The path of inspired spiritual living, the way of complete salvation, lies in obedience to Jesus' commands; following this path requires thinking, talking, and living as He did.

"It was the prayers of the righteous—which opened the way for the Saviour's coming. The Christian Scientist acknowledges Jesus the Christ to be the Son of God.

"Throughout the Christian history, many have sought to follow the path of inspired spiritual living. None has followed more closely the spiritual import of the Master's teachings than Mary Baker Eddy, the revealer of Truth to this age. Christian Science is so named because it is the Science of Christianity as Jesus practiced it.

"First tenet of the Mother Church is that as adherents of Truth, we take the inspired Word of the Bible as our sufficient guide to eternal life. The Christian Scientist holds the Bible's truths to be practical today.

"Christian Science teaches that prayer is constant spiritual thinking and that it reconciles us to God, whereby we become conscious of the all-presence of infinite perfection."

First Quarter Building Permits Drop \$200,000

Although sizable gains were registered during February and March, first quarter building permits in Big Spring dropped almost \$200,000 in comparison to 1946 figures.

March, which accounted for 44 permits covering \$105,450 in construction, was the heaviest for the current year. Totals for the first three months of 1947 amounted to \$262,220, as compared to \$454,260 a year ago.

March also was the heaviest month of the first quarter in 1946, with \$184,225. The first quarter last year produced more than one third of the year's aggregate, since CPA building limitations did not become effective until March.

This year, January accounted for \$87,135, February \$99,635, while last year January total was \$134,910 and February \$165,145.

License Office Doing Record Tag Business

The turn of the month brought no respite for employees of the county tax collector-assessor's office, busy since Feb. 15 selling new registration for automobiles.

A near record business kept the function open until nearly 7 o'clock last night and scores of people were lined up to get new tags this morning.

As of last night, a total of 4,529 passenger, 733 commercial and 278 farm vehicle plates had been sold. The total represented 108 more than the aggregate disposed of at the same time in 1946.

The department remained open during the noon hour today in order to accommodate persons who could not leave their duties at any other time but was to close promptly at 5 p. m. this afternoon and take a recess during the noon hour Wednesday.

Fields Succeeds Stall At Lumber Company

Gilbert Fields, formerly of Snyder, has succeeded W. A. Stall, manager of the Burton-Lingo lumber company in Coahoma. Stall has moved to Big Spring, where he is associated with the same concern.

Mrs. Fields is remaining in Snyder temporarily until her husband can arrange housing for her.

TROUBLE COMES TO M. WEAVER IN BATTALIONS

Paraphrasing the ancient adage, when M. Weaver's troubles arise, they come not as single spies but in battalions.

When Weaver sought to haul a car-load of grain to town from his place recently, he burned out the clutch in his vehicle. After the recent rains, he discovered the grain hadn't been stacked properly and a portion of it had been lost to the elements.

Last weekend, Weaver visited the local oil mill, leaving his vehicle parked on a rise above the plant. The brakes on the auto hadn't been set properly and it rolled down hill directly at him. The noise of the feed mill blotted out the sound of the approaching machine and, before he knew it, he had been scooped up, carried 15 feet and slammed into a stack of feed sacks.

He escaped serious injury but suffered a bruised head and a battered body, which required medical attention. His car required hospitalization, too.

King

Mrs. Allen—the storm center of controversy—that there was no testimony whatever charging her with the use of abusive language.

"Testimony charging violence and rudeness was not sufficient to justify taking the action suggested by the union (that she be relieved of her position and returned to the status of an operator)."

"Testimony regarding the charge that she was harsh and discourteous when supervising and correcting employees was both pro and con, but the evidence submitted on these issues does not justify this board in asking for the removal of Mrs. Allen as evening chief operator."

Mrs. Allen

both President Truman and the British government had acknowledged publicly that the present Greek regime was not perfect.

(The return of the monarch to his throne aroused opposition which had never subsided. Greece, its people hungry and war-torn, became even more of a storm center in recent weeks when President Truman announced a plan to bolster the ancient nation's sagging economy with a loan.

(The king's brother, Prince Paul, is 45 years old, the husband of Princess Frederika Luise, daughter of the Duke of Brunswick. They were married in January, 1908.)

Seven Awards Go To Cub Scout Pack

Seven awards were presented Monday night at a meeting of Cub Scout pack 29 in the Wesley Methodist Church.

Cosden Refinery is sponsor of the pack, and Garrett Patton, cubmaster, presented the awards.

Gold honor awards went to Benjie Compton and Clyde McMahan; bobcat awards, Johnny Fuglaar, wolf award, George Smith; bear award, Lynn Thames; den, chief shoulder cord, John Edwin Fort.

A motion picture film on cubbing was shown at the meeting, which was attended by 63 cubs and parents.

The first Commander in Chief of the Army and Navy to conduct living services for Navy personnel was the late Franklin D. Roosevelt, who officiated in the absence of a chaplain at Easter Sunday services aboard the yacht *Nourmahad* in 1934 with the crew of the USS *Ellis* present.

10 Absentees Cast School Trustee Votes

Ten absentee votes had been cast this morning in the Big Spring Independent School district trustee election. Ira L. Thurman, board secretary, announced.

The regular election is scheduled for Saturday, and requests for absentee ballots may be submitted through Thursday.

McCarty Fined \$75 On Driving Charge

Hugh Elmer McCarty, picked up March 21 on a charge of driving while under the influence of intoxicants, entered a plea of guilty and was fined \$75 and costs in county court Monday afternoon.

Pleads Guilty To Transporting Liquor

Alundio Lujan, arrested by Mitchell county officers last weekend and turned over to local members of the Texas Liquor Control board, entered a plea of guilty to the charge of transporting liquor in a dry area for purposes of sale in Mitchell county court Monday and was fined \$100 plus costs.

When apprehended, Lujan allegedly had a quantity of whisky and beer in his possession.

Cafe Undamaged

Big Spring firemen were called to Fox's restaurant, 3111 Runnels, at 6:30 p. m. Monday when a steam pipe in the kitchen broke. Little damage resulted from the incident.

Interest Increases In Contest To Honor War Dead

Interest gained momentum Monday in the Living Memorial contest, as new purchasers of crepe myrtle plants rushed to enter the competition.

More than a score of entries were listed at the chamber of commerce before the Monday night deadline, and final results still were being tabulated this morning.

Nursery operators reported heavy sales of crepe myrtle plants over the weekend, and apparently, most purchasers planned to enter the contest.

Judging will be conducted in September, with prizes of \$25, \$15 and \$10 for the first three places.

COMMON SENSE

We learn in grade school physiology that the body is made up of a bony framework, enclosing organs, and controlled by the energy from the brain through the nervous system.

Peculiarly, many forget this fundamental fact, and as time goes on, and when sickness is present in our own bodies, we may think of the affected area as a long structure in the body, rather than connected with the nervous system.

For example: in a case of heart trouble, the heart fails to function normally; consequently, symptoms of pain, shortness of breath, dizziness, et cetera, result.

It is only common sense to locate the Cause rather than to try to care for the heart as a separate part of the body.

When one stops to think that the heart has a hookup or nerve connection in two ways—one set of nerves act as an accelerator to speed up function, and the other as an inhibitor to slow down function, it becomes clear why the "machinery" must all be in order, to receive perfect results. How much better it is to restore the mental impulse supply for normal function.

It should be remembered that when any organ fails to receive its normal mental-impulse supply from the brain through the nervous system, it will cease to function normally.

This, then, is the basis for sickness or disease.
