

Will Allies Strike on Third Front?

If the second front in Europe is to be further developed or a third front opened, the blow or blows may descend from several possible directions. Dover, England, is only 20 miles from Calais, France. Southampton is 60 miles from Cherbourg, and Wick, Scotland, is 365 miles from mid-Norway.

Make Plans For Opening of Schools

Bovina Selected as Site of Dairy Show

Definite plans were announced this week for the initial Parmer County Dairy Show, which will be staged in Bovina on Saturday, August 28, at the former cotton warehouse.

County Agent Garlon A. Harper said today that committeemen were jubilant over the response obtained from registered dairy stock owners in the county, and predicted "an exceptionally good show" of interest to all residents.

Entries of registered, purebred and grade dairy cattle will be accepted for the show, Harper said, in the Jersey and Shorthorn breeds, following the lines of classes announced last week.

A premium list was being compiled this week, with a show catalogue to be printed and issued in the near future.

Leon Grissom will act as superintendent of the Jersey department, while Donald Watkins has been named to have charge of the Shorthorn division of the show.

No judge has yet been obtained, but a capable one will be on hand for the affair, sponsors said.

4-H Girls to Show

In addition to the regular entries, 4-H club girls over the county who have cows of their own are invited to enter them in a separate division, it was stated, and a number have already announced intentions of participating.

Mrs. A. H. Boatman will be the superintendent for the girls' show.

Mrs. Will Nittler will head up the committee on exhibits and demonstrations to be prepared by the home demonstration women of the county. The group plans to conduct a demonstration on the making of American cheese, and it was expected that a number of exhibits would be arranged in Bovina store windows.

Coyote Packs Cause Sheep, Poultry Loss

Coyote packs have been causing considerable loss to sheep and poultry producers in the northeast corner of the county, according to reports gathered here this week, and stockmen are becoming considerably upset by recurring losses of young lambs.

J. G. McFarland and G. B. Buske, it is understood here, after sustaining heavy losses, made two hunting trips which netted them 11 coyotes, a large kill for this area.

Means of eradicating packs are being taken up from all angles. The idea is advanced that the most efficient way to rid the county of the coyotes would be to secure a government trapper, who would systematically clean out the dens.

The biological survey station in Lubbock, in response to queries, sends information that they will send a trapper, and pay half his expenses, up to \$75, if—and herein lies the catch—the county will pay the other half of the expense.

Prominent men over the county have expressed a desire to have every stock or poultry owner who has sustained loss contact his commissioner and make a request that a trapper be secured.

EMPLOY TEACHER

Miss Edith Neill of Black, has been employed to teach the sixth and seventh grades in the Farwell school for the coming term, Supt. J. T. Carter reported today.

Carter also called attention to a resolution passed by the board on Monday night, recommending that all children of pre-school age should be vaccinated for smallpox before entering school this fall.

Tribune Job Printing Is Best

Jesko Family Has Trouble A-Plenty

The A. J. (Alex) Jesko family of the Midway community, sustained more than its share of trouble during the past week.

Donald, the 10-year-old son, got caught in a tractor and suffered a badly broken and lacerated arm. The mother, in her frenzy to get the child to a doctor, was overcome by heat while changing a tire.

When the father returned home from the hospital where he had gone to attend his son, he found that a number of cows which he had left unattended after dehorning, had become infested with screwworms.

Donald was returned to his home on Tuesday, apparently on the road to complete recovery.

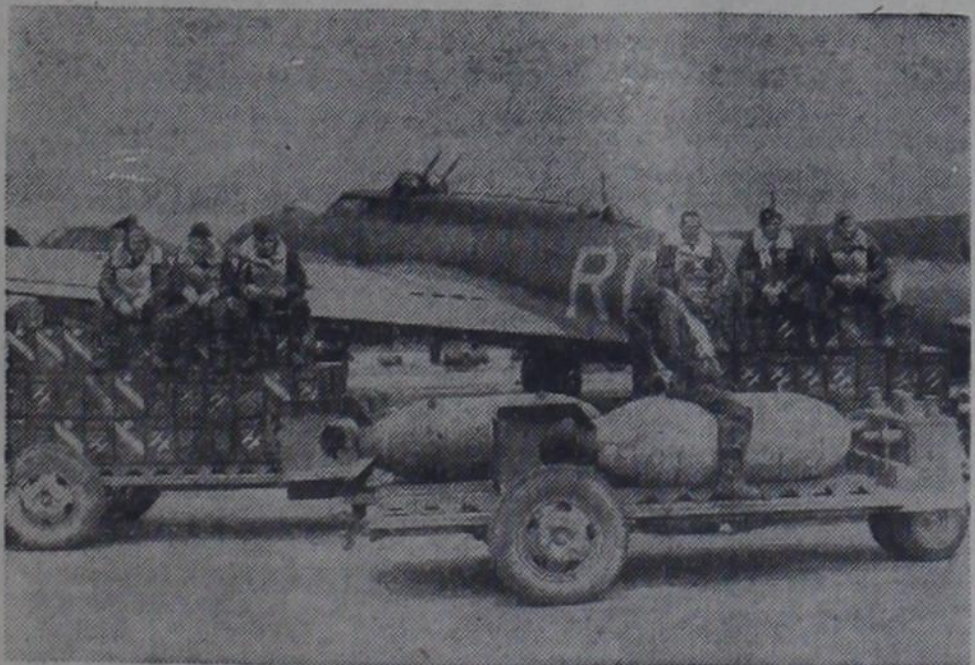

Good Crowds Attend Revival At Baptist

Despite the dry, hot weather fairly good crowds are being attracted to the revival meeting now in progress at the Baptist Church and are being rewarded by the earnest sermons of Rev. Thurston G. Rock, the evangelist.

Rev. W. C. Wright, the pastor, has announced that the meeting will continue until Sunday night, with services being held twice daily at 10:30 a. m. and 9:30 p. m.

Rev. Rock is pastor of the First Baptist Church at Hot Springs, N. M., and is a young man of extraordinary ability. He keeps his audience at close attention and his messages have been bearing fruit in conversions.

Nemesis to Axis Aircraft

The crew of a Flying Fortress sits on the scores of boxes of ammunition which feeds through 12 or more machine guns during an average raid. So effective is this defense that the big forts have been able to fly through to objectives in the face of the most powerful fighter opposition the Axis could muster. One crew member at right sits on a 2,000-pound "block buster" bomb.

No Information Here on Induction of Dads

"We have not been officially notified to start drafting fathers of pre-Pearl Harbor status," was the only comment a member of the Parmer County Selective Service Board would make this week when questioned about news dispatches emanating from Washington to the effect that non-essential fathers would be subject to the draft early in October.

A check-up at the office of the local board revealed that pending calls for August and September would likely exhaust every single and childless married man registered in the county (except those previously deferred as essential men).

"Just where we will get our men to fill calls after September depends on what changes in the regulations we may receive during the next few weeks," this board member said. Drafting of non-essential married men has been predicted by high-ranking Selective Service officials for the past months, and "it begins to look like that time is not far off," the local member added.

Drilling To Resume On Parmer Co. Test

Drilling operations on the Jarrett No. 1 oil test, located 7 miles northwest of Bovina, were scheduled to be resumed early this week after a forced shut-down of several days.

The well had attained a depth of approximately 500 feet when the shut-down occurred. Drilling was suspended at 490 feet for the setting of surface piping, and shortly after work was resumed, engine trouble developed and operations have been suspended for several days while the diesel engine was being overhauled.

The test is being made by the Stanolind Oil & Gas Company of Tulsa, Okla., on a block of leases secured northwest of Bovina only recently. The contract calls for a test to be sunk to 7,000 feet or to granite.

Bovina Farmer Has Five Sons in Service

B. B. Bates, Bovina farmer, is now sharing honors with Chas. Crume of this city, each having five sons in the service of their country.

Last week Mr. Bates signed the papers granting permission for his under-age son, Dean, to enlist in the Naval Reserve. Dean will not attain his 18th birthday until the 18th of September of this year.

Mr. Bates has had four sons in the Coast Guard for several months. They are: Earl of Houston, Robert of Corpus Christi, J. R. of Galveston and Wayne of Atlantic City, N. J.

He said that his latest volunteer would follow his brothers into duty as a member of the Coast Guard.

REV. C. A. CALHOUN, pastor of the Wesleyan Methodist Church of Clovis, who will do the preaching at a revival meeting to begin at the Methodist Church in this city on Sunday, August 12.

State Line Students To Be Transferred

School children in the State Line district—31 in number—will be transferred to other schools for the ensuing term, it was revealed here this week.

Under a consolidation setup, in existence the past few years, the school children of the State Line district have been enrolled at Pleasant Hill. Recently, it is understood, the consolidation was ordered dissolved.

This left the State Line district faced with the matter of choosing where their students would be transferred. Some will likely go to Bovina, others to Farwell and still others may go to Texico, depending on developments yet to be ironed out.

Representatives of the State Line district met with the Farwell board Monday night, which resulted in a tentative offer being submitted under which the students might be transferred here. It is understood that the Bovina district has also submitted an offer to take the State Liners.

"To those who want to taste a real pleasure in life, let us recommend giving something away to someone—even tho it be just a word of cheer."

THE PURPLE HEART AWARD one of the highest honors that can be bestowed upon a member of the armed forces, has been awarded to Lt. Wm. R. Roberts (above) in recognition of his services as a member of the Air Corps while on duty in England.

Lost Flyer Awarded Purple Heart Badge

The Award of the Purple Heart, in recognition for his service beyond the bounds of duty, has been received from the War Department by Mr. and Mrs. M. C. Roberts in honor of their son, Lt. Wm. R. Roberts, who is reported to have been killed in action on June 22.

Although reported officially as dead, the parents of the young flyer cling to the hope that he is yet alive. A letter received this week from Capt. Robert L. Post, who led the flight in which Lt. Roberts is reported to have lost his life, says: "I can tell you in all sincerity that we do expect to see Bill again".

The Purple Heart Award was transmitted here by Acting Secretary of War Robert P. Patton, under date of July 22 from his office in Washington.

IMPLEMENT SALE

F. F. Bozeman, auctioneer of Lazbuddy, is this week advertising a public auction of farm implements to be held at Bovina on Wednesday, Aug. 11, beginning at 1:30 p. m. The items listed in the sale are the property of Whitley and Meirsfelder.

Mr. Bozeman has invited the public to consign any item they wish to sell to the sale, with the promise that there will be plenty of buyers on hand. He said early this week that he was expecting a number of consignments.

The sale is being extensively advertised and is expected to draw a good crowd.

Officials of both Texico and Farwell schools were making preparations this week for the opening of the fall terms, with many details yet to be worked out.

At a board meeting held Monday evening, officials of the Farwell school decided to open the fall term on Monday, Sept. 6th. In Texico, official action is yet lacking, but one member of the board gave it as his opinion that school would get under way on August 30, a week earlier than in Farwell.

W. L. Freeman, member of the Texico board, said a meeting of the Texico officials would be held on Thursday night, at which time a definite opening date would be set. He said that it was hardly likely that the school would open before August 30. Supt. B. A. Rogers could not be reached for a statement.

Teacher Shortage

Supt. J. T. Carter of the Farwell school announced today that he lacked three members of having his faculty completed—all in the high school. He announced a complete teacher force for the grades. Supt. Rogers announced several weeks ago that his faculty was complete in all departments.

Farwell faces the probability of having to drop vocational agriculture for the duration with no successor to T. A. McCuiston, resigned, yet located. Mr. Carter said that he had been in contact with state school officials and none of them gave him any encouragement in his search. Many schools over the state have been forced by the lack of instructors to abandon agriculture this year, Carter said.

"I may find an ag man yet—I'm still trying," Carter said today, adding that the prospects were definitely not encouraging.

And House Shortage

Another headache that is causing school officials no little concern as the date for school openings approaches is the lack of houses to accommodate incoming faculty members. Every desirable house and extra room in the Twin Cities, so far as school officials could ascertain, is occupied, which led school officials to appeal to residents of the two cities to notify them immediately of any available accommodations for incoming teachers.

"We simply cannot expect teachers to come here if they have no place to live," was the opinion expressed by one school board member this week.

LEASES BROADVIEW STORE

Ray Ford, local produce dealer, has purchased a stock of groceries at Broadview, N. M., and is making plans to move his family there to take over the business.

He will retain his produce house in Farwell and has announced that Bert McClure will be in charge of the business.

IN HOSPITAL

Mrs. Lee Thompson, who had been receiving medical care for several days, was rushed to a Lubbock hospital in a critical condition the past weekend. Judge Thompson had not returned to his office as The Tribune went to press and no report was available on her condition today.

Victory Gardens Prove Profitable

Victory gardeners over Texico-Farwell, many of them fighting the multitude of insects that threaten to ravage their work for the first time in their lives, have been reaping the benefits of their sowing during the past few weeks.

With point rationing an accepted fact of everyday life, the majority of urban dwellers who had any space at all around their homes have turned it into gardens and practically all of them report "almost more than we can handle" along the production line.

Tomatoes, beans, cucumbers, radishes, onions, carrots and peas are the most popular, a checkup reveals while in a number of gardens pepper plants, okra, lettuce, cabbage, cantaloupes, corn, beets, pumpkins and potatoes are bearing in abundance. Most squash vines attacked viciously by bugs recently, are now things of the past, but they were prolific while they lasted.

Canning Is Diversion
Cooperative canning has become

as common as the pre-ration borrowing of a cup of sugar, and all pressure cookers are seeing full service. Vegetables and fruits that can be preserved by hot water and ovens are going into jars via these methods.

In fact, with all the canning going on, an evening of visiting with the neighbors is apt to turn out to be an evening of snapping beans or peas or slicing okra.

Operators report no available storage locker space, and many will be the family that will enjoy fresh beans, peas and okra (all adapted to freezing) during the winter months when the gardens are as bare as the ration books.

Several gardeners are featuring Idaho red potatoes for winter use, since this variety will keep well. The early white potatoes will bear storing for a few weeks, but it is not advisable to hold them too long. Winter onions are also being grown and hung up to "dry" when mature. Back-yard chicken pens have be-

come the vogue. Some home owners raised them merely for fryers, while other ambitious souls plan to keep their pullets for the expected egg-producing months. Quite a few of the fowls are finding their way to freezer lockers.

Local cafes have been enjoying the surplus of vegetables, several of them being able to serve "home-grown" garden truck. Chiefly, tomatoes are just now at the "turning" stage, with few of them being offered for sale.

The fruit crop, which was rather seriously hurt by freezes last spring, is going into jars and cans, too. The local ration board reporting many requests for sugar to save fruits and make jellies. Fruit which has been shipped in here, in most cases, has sold at such high prices that canning was prohibitive.

All in all, indications are to the effect that—rationing notwithstanding—most local tables will be well supplied with vegetables, fruits and meat (chicken) this winter.

YOU CAN HELP, TOO!
Round Up and Return
Deposit Bottles Today!

It's patriotic—and practical—to search for and return to your neighborhood dealer, empty MILK, BEVERAGE and BEER BOTTLES. You'll have your original deposit refunded . . . and what's more, you'll help your family and friends by assuring a greater supply of the liquids

for which these idle bottles are needed. MILK, BEVERAGE and BEER BOTTLES are sanitarily reesterilized right away by the bottlers. Return all these "stray" bottles in your home today and you'll help conserve vital material, machinery and manpower needed for the War Effort.

CONSERVE VITAL MATERIALS . . . IT'S A PATRIOTIC DUTY

ON THE FOOD FRONT

COLLEGE STATION—Mrs. Glen Reynolds of Avoca, Jones County is advising her friends to try a strawberry bed. From a three year-old plot 8 by 50 feet in size, Mrs. Reynolds obtained enough berries for 75 pints of preserves and all she and her husband could eat. In addition, she gave 50 pints to her neighbors.

A similar success story comes from Mrs. Forrest Stinnett of Odem, San Patricio County. By the first of July, Mrs. Stinnett had canned 23 quarts and 78 pints of figs from her trees. Some were given to relatives and neighbors.

Everywhere there is unparalleled interest in food preservation, according to reports from county home demonstration agents of the A. and M. College Extension Service. The Uvalde agent reports that frozen food lockers are filled to capacity, and that there is a long waiting list of customers seeking lockers. One home demonstration club in Pecos recently purchased cooperatively 18 bushels of vegetables from a truck farm near San Angelo to supplement what members can raise at home. Marketing committees in the Weimar and New Bielau clubs in Colorado have ordered

cooperatively a truck load of peaches for home canning. The load is expected to contain at least 165 or 200 bushels.

Recently the special food conservation agent of the Extension Service in Dallas County gave assistance to the members of the Fifth Ferrying command of Love Field as a large Victory Garden to supply the Officers' mess. The mess pantry recently has been enriched by 167 gallons of pickles and 550 cans of corn.

The path of a lot of family trouble leads from the frying pan into the courts

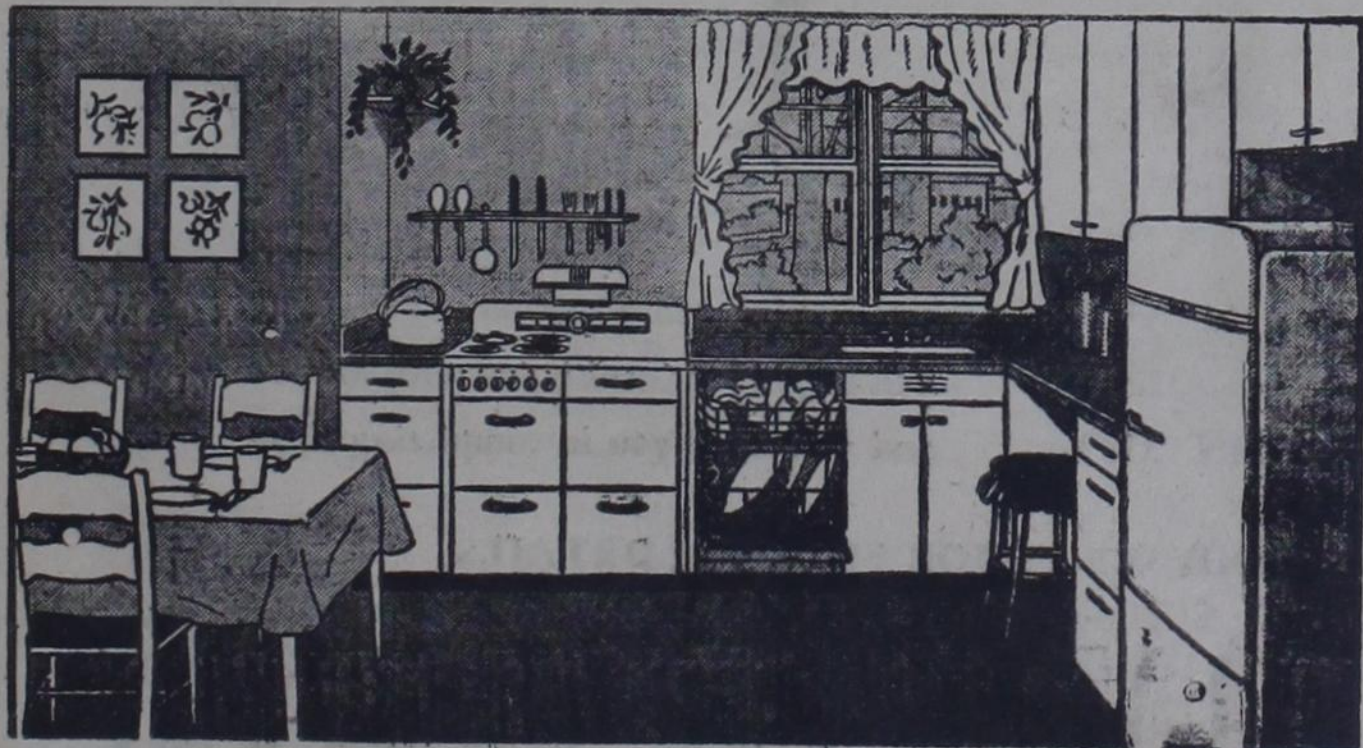

We are Building
OUR NEW HOME
in a Safety Deposit Box

"Our regular purchase of U. S. War Savings Bonds is building a nest egg that will build our new home after the war.

"We are collecting lots of ideas that we may put into our plans, but one thing we are sure of . . . and that is that our home will be modern electrically, all the way from its unseen adequate wiring in the walls, down to the shiny electric range in the kitchen.

"We notice that our friends with modern electric homes seem to have placed the operation on an almost effortless plane. Cooking is easy . . . there is always enough hot water . . . lamps, radios and electric appliances anywhere because there are lots of electrical convenience outlets.

"In our new home, too, electricity's various services will push the routine of running a home into the background, giving us more time and opportunity to enjoy the real pleasures of home."

Company

GRAIN QUALITY IMPROVES

COLLEGE STATION—Quality of Texas Wheat has greatly improved over a five year-period, and this year's crop is expected to continue the progress, in the opinion of E. A. Miller, agronomist for the A. and M. College Extension Service.

Mixtures of hard red winter and soft red winter wheats in Texas shipments have practically disappeared, he explains. A survey made by USDA marketing specialists reveals that in 1937, 357 carloads of wheat were reported in Texas. No shipments of mixed wheat were reported at markets in 1942. The previous year there were 15 cars of mixed wheat.

A greater decline in smutty wheat is something for Texas wheat growers to be proud of, Miller says. A total of 894 carloads of smutty wheat were reported for Texas during 1937, and in 1942 the number was down to 32. The "low year" for smut was in 1941 when only six carloads of damaged wheat were reported. This is due to a large extent to increased seed treatment for smut. Continuing this treatment will keep smut damage to a minimum.

A new variety, Comanche, which is a cross between Tenmarq and Oro, likely will become popular as soon as enough seed is available because of its good baking qualities, better yield and test weight than Tenmarq. There will be a fair supply of Comanche but not enough to meet the entire demand.

Wheat varieties, as well as combine-type milos, the new waxy white kafir, and an improved sudan grass were discussed at a series of grain-grading schools held recently under Mr. Miller's direction in Vernon, Plainview, Amarillo, and Perryton. The school at Lubbock was under the direction of Dr. A. W. Young, head of the Agronomy department at Texas Tech, the Agricultural Experiment Station, Triple-A, and the Texas Wheat Improvement Association.

Police departments of four states appointed woman recently to replace officers entering the armed services or war industries.

Health Notes

By Texas Department of Health

AUSTIN—Reports coming into the State Health Department indicate the presence of typhus fever in almost all sections of the state, without any particular apparent regard to city or rural population, according to Dr. Geo. W. Cox, State Health Officer.

In urging full cooperation from all communities in a campaign to exterminate rats and thus control the possible increasing incidence of typhus, Dr. Cox said, "It must be kept in mind that the rat acts as a reservoir of the typhus germ, and the rat flea is the means by which typhus is transmitted to man. Rats are known to travel many miles from one community to another, and is therefore obvious," Dr. Cox said, "that it will be necessary to conduct a vigorous rat extermination program over the entire State."

Dr. Cox recommends a four point extermination program in addition to the already widely used poisoning campaign which he asserts will assure more than temporary typhus control. This program includes making all food stuff inaccessible to rats through proper garbage storage, collection and disposal; rat proofing homes, business and public places; keeping at least two traps set and baited in every home which is not rat-proof; and proper educational measures.

In discussing the educational measures, Dr. Cox pointed out that since the typhus fever rat is known to inhabit practically every section of the state it will necessarily take state-wide cooperation to exterminate the pest. In order to do this the public must become adequately acquainted with the habits of the rat and the various effective control measures that may be applied.

Dr. Cox stated that the State Department of Health has available motion picture films on this subject and that the Department has also issued a bulletin outlining rodent control measures. "This bulletin will be mailed free upon request," Dr. Cox said, "and the films may be had for public showing upon application through local health units."

"I want," said the producer, "a young man who looks like Apollo, is tall, blueeyed, with a distinguished air, and a sense of humor."
 "So do I," sighed his daughter.

Baylor University To
Open September 14

WACO, Tex.—Declaring that war will not black out Baylor University's 98-year record of continuous service, President Pat M. Neff has announced that the doors of the oldest institution of higher learning in Texas will open as usual for civilian students on Tuesday, September 14.

Presence on the campus of a unit of pre-engineers in the army specialized training program will not alter plans for beginning Baylor's 99th year, President Neff said. The soldiers, having separate courses, teachers, schedules and quarters, do not conflict in any way with the regular routine of college life. Adequate living space for boys and girls will be provided in university dormitories and houses, he stated.

POINTS ON COUNTRY BUTTER

COLLEGE STATION—Preventing spoilage or waste and protection of producers are objectives of a recent OPA order reducing the point value of country butter from eight to five points per pound in certain localities. Authority for this reduction recently was granted district OPA directors in Texas and Louisiana.

Permission to reduce the point value is granted only where country butter is in danger of spoilage, and the privilege given only to producers who do not manufacture the product on a large scale.

Where farm families who make small amounts of butter for sale are in danger of losing some because of high point value, they should consult their local ration board.

PROGRESS ON HOME FRONT

COLLEGE STATION—Rural women who are fighting the Axis with war bonds, pressure cookers, and sharp hoes will report their progress at a war-time convention of the Texas Home Demonstration Association scheduled in Dallas August 27-29. "The Battle on the Home Front" will be the theme of their meeting.

Plans for the convention were made at a recent session of the executive committee held in Dallas. Executive members predict that approximately 300 delegates of the Association's 48,000 will come to share their ideas, despite the pressure of work on the farm and in the farm home.

Mrs. W. G. Kennedy of Hamilton County, president, has announced that the convention will be streamlined in accordance with war demands... no banquets or elaborate entertainments. Speakers will be drawn largely from the association's membership, and one feature of the program will be a pageant portraying the activities during last year. Episodes will be presented by 4-H, marketing, education and recreation committees under direction of Mrs. Leon Sullivan of Ellis County, vice president at large.

An election to determine the association's officers for the next two years also is scheduled, according to Helen H. Swift, sociologist for the A. & M. College Extension Service, who serves as an adviser.

Third War Loan Drive Begins In September

AUSTIN—"Back the attack with war bonds!"

That, Secretary Morgenthau, Jr., of the U. S. Treasury, notified Frank Scofield, Texas war bond administrator, will be the stirring slogan for the third war loan drive in September.

Secretary Morgenthau telegraphed Scofield that this trumpet call to Texans to invest more millions in war bonds for our fighting forces was inspired by the march of the United Nations against fortress Europe and Japanese bastions in the Pacific.

"Thousands of Texas volunteers, men, women and children, who daily back our attacks on the enemy by constant sales of war bonds and stamps will readily rally to the Secretary's war cry for the third war loan drive," Scofield declared.

"The United Nations are on the march," Secretary Morgenthau said. "The first rumblings of the big of-

fensive are being heard in all the Axis nations. Thousands of our men are storming Sicily. Tons upon tons of bombs are dropping on Germany. We are attacking Jap-held territory as never before. This is a great day for us."

Asserting this means the time has come for us to really tighten our belts on the home front, Secretary Morgenthau continued:

"We have come to a most crucial period of the war. The success that we will have on the fighting fronts will depend to a considerable extent upon the degree to which we here at home are willing to work and sacrifice for ultimate victory."

He emphasized that victory is going to be costly. Billions of dollars more must be spent to keep the material of war going to our men at the fronts. Your government will call upon you, the American people, for that money.

"The real war has now only begun. Everything is at stake."

MAKING SILAGE

COLLEGE STATION—The next 90 days will be the peak silage-making period in Texas. To make good quality silage such feeds as corn, grain sorghums and sweet sorghums should at least be in the stiff dough stage, says E. R. Eudaly, dairymen for the A. and M. College Extension Service. It is better to have grain getting hard provided the majority of the leaves are still green. When leaves are burned up they contain no vitamin A. Likewise, if the leaves are green and the grain is in the milk stage there is no vitamin A content.

The feed should be packed in the silo so as to exclude excess air. If it is chopped with a cutter the pieces should be in half inch lengths or less and distributed in the silo with pieces of stalk and leaves well mixed. If an ensilage cutter isn't available the trench may be

filled by "shingling" in the feed in bundles. This is done by putting down a layer of bundles lengthwise in the trench. The second layer should be lapped half way on the third, the third half way on the second, and so on.

Whether chopped silage or bundles are used, the trench should be filled one foot above the level of the ground for each four feet of depth in order to prevent the contents from settling below the level of the ground. Covering the trench, first put on a five or six inch layer dirt and wet it thoroughly. A second layer of equal depth should be placed over this, but should not be wet. Trench silos should be constructed to provide drainage.

Eudaly says that if the leaves of the feed being put into a silo are green and the stalks contain enough sap or juice to run out when twisted, water need not be added. If it is drier than this add enough water to make the silage feel damp when a handful is squeezed.

In filling a trench silo the packing can be done with a tractor or horses.

LEGAL NOTICES

CITATION BY PUBLICATION THE STATE OF TEXAS.

To E. H. Robinson, Lula Jones, Mrs. Mary Jackson and her husband, Jerome Jackson, R. H. Young, Charles T. Dycus, A. F. Hamm, Maude Wisdom, Amanda Jane Way, and her husband, J. C. Way, and the unknown heirs and legal representatives of E. H. Robinson, Lula Jones, Mrs. Mary Jackson, Jerome Jackson, R. H. Young, Charles T. Dycus, A. F. Hamm, Maude Wisdom, Amanda Jane Way, and J. C. Way: GREETING:

You are commanded to appear and answer the plaintiff's petition at or before 10 o'clock A. M. of the first Monday after the expiration of 42 days from the date of issuance of this Citation, the same being Monday, the 6th day of September, A. D., 1943, at or before 10 o'clock A. M., before the Honorable District Court of Parmer County, at the Court House in Farwell, Texas.

Said plaintiff's petition was filed on the 21st day of July, 1943. The file number of said suit being No. 1272.

The names of the parties in said suit are: Justine Monroe, joined pro-forma by her husband, Felix Monroe, as Plaintiffs, and E. H. Robinson, Lula Jones, Mrs. Mary Jackson and her husband, Jerome Jackson, R. H. Young, Charles T. Dycus, A. F. Hamm, Maude Wisdom, Amanda Jane Way and her husband, J. C. Way, and the unknown heirs and legal representatives of E. H. Robinson, Lula Jones, Mrs. Mary Jackson, Jerome Jackson, R. H. Young, Charles T. Dycus,

A. F. Hamm, Maude Wisdom, Amanda Jane Way, and J. C. Way, as Defendants.

The nature of said suit being substantially as follows, to wit: Suit in trespass to try title to all of Blocks 8 and 9, of the E. H. Robinson addition to the town of Farwell, Parmer County, Texas, plaintiff alleging that she was the owner in fee

simple of said property and in possession thereof, and that on July 1st, 1943 defendants unlawfully dispossessed her therefrom and withhold possession from her, and prays for judgement for title and possession of said land and for damages, and plaintiffs plead and envoke the ten year statute of limitations, Issued this the 21st day of July, 1943.

Given under my hand and seal of said Court, at office in Farwell, Texas, this the 21st day of July, A. D. 1943.

D. K. ROBERTS, Clerk District Court, Parmer County, Texas.
By Dorothy Lovelace, Deputy. (SEAL)

"Opinion, Mr. President, is divided as to whether the use of air power could by itself bring about the collapse in Germany or Italy. The experiment is well worth trying..."

Planes illustrated: Consolidated-Vultee B-24 Liberator

WHAT SAVED BRITAIN in the blitz of 1940? Some authorities say that the defeat of the Luftwaffe can be credited chiefly to a difference of only 13 points in octane number!

While the Germans had only 87 octane aviation gasoline, the good planes and gallant pilots of the R.A.F. had 100 octane. This gave the Royal Air Force reduced fuel consumption, and greater horsepower for faster climbing... greater altitude... extra maneuverability.

Phillips and the American petroleum industry are today supplying great quantities of 100-plus octane gasoline. This super-fuel increases enormously the fighting effectiveness of U.S. and all United Nations war planes.

No wonder the British Prime Minister is never more confident than

when predicting great air offensives to devastate Germany and Italy, to lay "the cities and other munitions centers of Japan in ashes."

Thanks to its long-range program of peacetime research, Phillips Petroleum Company was one of the first to take 100 octane aviation gasoline out of the laboratory and into mass production. The making of these American super-fuels is not merely a refining process; it is actually the synthetic production of chemicals!

That is why we say: Every time you see the Phillips 66 Shield, let it remind you that Phillips refineries, in addition to producing gasolines, lubricants, and fuel oils, are also gigantic chemical plants pouring out weapons for victory.

Local Happenings

Williams-Anderson Troth Announced

Mr. and Mrs. Johnnie Williams of this city this week announced the engagement of their daughter, Miss Flora Lee, to Lt. G. D. Anderson, Jr., son of Mr. and Mrs. G. D. Anderson of Farwell.

Miss Williams is a graduate of Texas Technological College, Lubbock, having received her B. A. degree there in February. For the past several months she has served as receptionist for the democratic national committee in Washington. She is here visiting at present, but plans to leave for Washington this weekend.

Lt. Anderson holds a B. A. degree from Texas A. & M., and was called into active service two years ago. He was stationed in England for several months, and at present is in North Africa.

Mrs. Leftwich Has Charge of Study

Mrs. Minnie Leftwich was in charge of the devotional period for the Wesley Bible Class, Tuesday afternoon, when the group met in the home of Mrs. B. N. Graham with Mrs. Anne Overstreet as co-hostess.

The sixth chapter of Ephesians served as the text for Mrs. Leftwich and she gave an excellent talk.

Refreshments of ice cream and cake were served to Mrs. J. H. Nabors and Mrs. Ned Wilde, guests; Mesdames S. C. Hunter, Roy B. Ezell, Lena Yoder, G. W. Atchley, J. H. Barger, Ralph Humble, O. B. Pipkin, Paul H. Tripp, B. E. Nobles, Minnie Leftwich, members; and the hostesses, Mesdames Graham and Overstreet.

To Washington

Mr. and Mrs. Baylor Triplett, Sr. have departed by car for Washington, D. C., where they will visit their son, Ensign Baylor Triplett, Jr., assigned to duty in that city.

Wesleyan Guild to Have Mission Study Lesson

Mrs. J. T. Carter will review the book "Latin America, U. S. A." as a mission study topic tonight (Wednesday) when the Wesleyan Guild of the Methodist Church has its regular meeting in the church parlors at 8:45.

The group recently concluded a study book on South America. The study tonight will deal with Latin American peoples living in the United States, Mrs. Carter said.

All Guild members and visitors who wish to attend are invited.

Sunday School Class Is Entertained

Mr. and Mrs. Raleigh Middleton entertained Sunday for Mrs. Middleton's Sunday School class from the Baptist Church, with Mr. and Mrs. Bob Barton assisting.

The group read and played games after which they attended church services in a body.

Mrs. S. J. Billington of Portales, former teacher, and Mr. Billington were visitors.

Members present were Verna Ruth Boen, Grace McDaniel, Beryl Brown, Alta Norton, Willie Joe Carpenter, Theda Branscum, Bobbie Lou Ford, Ella Juanice Bradshaw, Tom Grady, Jr. Guests were Nelma Jean Branscum, Carol, Roy and James Middleton and Benny Jim Billington.

Slide Film Shown At Lutheran Church

The slide film, "America As Our Fathers Found It" was shown at St. John's Lutheran Church at Lariat last Sunday night.

The picture illustrated America and the church as it was when it was first settled, and demonstrated the progress made, as well as listing some of the men who fought for the freedom of worship.

A free will offering was taken at the service.

Lazbuddy BTU Has Social Thursday

A lovely party was given in the home of Mrs. Frances Treider, last Thursday night, honoring the Intermediate training union class at Lazbuddy, of which Mrs. Treider is the leader.

A poem was read by Mrs. Treider, followed by a scripture reading, after which an enjoyable evening was spent playing games.

Refreshments of iced punch and sandwiches were served to Billye Rae Treider, Bobby June Treider, Lillys Treider, Raymond Treider, Bobby Edwards, Homer Paul, Anita Bewley, the leader, Mrs. Treider; and three guests, Sherman Taylor, L. A. Reed and Clarence Goodwin of Earth, Texas.

Former Texico Boy Is Married, July 24th

Announcement has been received here of the marriage of Miss Marie Horton and William Dean Curtis, former Texico resident.

The ceremony was performed in Los Lunas, Saturday, July 24.

Mrs. Curtis is the daughter of Mr. and Mrs. K. L. Horton of Clovis and has been employed as a printer clerk in the Santa Fe yard office at Belen, N. M.

Mr. Curtis formerly lived in Texico and attended the local high school. He was an outstanding basketball player and after college was a member of the famous "House of David" team for some time.

The couple will reside in Belen, where he is an engineer for the Santa Fe.

Walther Leaguers Have Soldiers As Guests

The Walther Leaguers of St. John's Lutheran Church entertained seven soldiers, Sunday, with a picnic dinner and various games.

Dinner was served under the trees at the church, after which a number of contests were held and an indoor baseball game enjoyed. For the evening meal the group went to the Muleshoe roadside park for a Weiner roast and watermelon feed.

Before the soldiers returned to camp at Clovis, they were guests in homes of several of their hosts.

To Amarillo

Raleigh C. Middleton, supervisor of the Parmer county FSA office, is in Amarillo today (Wednesday) attending a district meeting of workers. He will be back in the local office tomorrow.

Administrator Here

Miss Myra Hays, junior administrative supervisor for the Farm Security Administration, of Amarillo, was a visitor in the Parmer County FSA office the first of the week.

Scouts Enjoy Ice Cream

Scoutmaster Bob Barton reports four additional members to the Farwell troop during the past few weeks. At the regular meeting, held Monday evening at the school house, Fred Henry surprised the boys by treating them to a generous supply of ice cream, which the Scouts enjoyed to the fullest.

Mr. and Mrs. Johnnie Williams and family and Miss Marilyn Claire Anderson visited last Thursday in Pampa, Tex.

Mr. and Mrs. Lee Bradshaw visited his mother in Slaton, Tex., last week.

Miss Jane Lokey, who has been attending summer school at West Texas State in Canyon, has arrived home to spend the remainder of the summer with her parents.

Mrs. J. B. Coltharpe, who has been visiting her daughter at Ricardo, N. M., has returned to Texico.

Mrs. Minnie Leftwich will leave Thursday of this week for Las Vegas, N. M., for a visit with her son and family.

Mrs. Sam Aldridge and daughter, Pat, who have been visiting in Anton, and Miss Jean Ann Hart, who has been visiting in Arizona, have returned to their home here.

Clarence Knowles has gone to Modesto, Calif., to spend a few weeks visiting his son, C. E., who is connected with a large dairy at that place.

Mrs. F. E. Thompson and daughter, Edna Earl, arrived here the first of the week from Lynnewood, Calif., to spend a few days visiting old friends.

Mrs. Woodrow Lovelace and Miss Jacqueline Wilkison were shoppers and business visitors in Lubbock on Tuesday.

Mrs. Lizzie Hall, of Vernon, Tex., is here for a visit with relatives and friends.

Mack Nobles of Amarillo, and John Nobles of Midland, Texas, are guests of their parents, Mr. and Mrs. B. E. Nobles, this week.

NEWS FROM OUR BOYS IN CAMPS

HOOPERS VISIT HERE

Lt. and Mrs. Jeff Hooper and twins visited here last Wednesday. Lt. Hooper, former Farwell teacher, was recently commissioned in the Marine Corps. He is to report to San Diego for duty and Mrs. Hooper and children will reside in Abilene.

RETURNS HOME

Champ Landrum arrived home this week after having received an honorable discharge from the Navy.

HERE ON FURLOUGH

Master Sergeant Wendell Petree, of the army air base at Douglas, Arizona, is here to spend a 15-day furlough with his parents, Mr. and Mrs. Hazel Petree, and other relatives and friends.

RETURNS HOME

Herschel Johnson of near Friona, who has been on duty with the Seabees of the Navy, returned home this week, having received an honorable discharge.

HALL IN AUSTRALIA

Mr. and Mrs. W. W. Hall have received a letter from their son, Freddie, announcing that he has arrived safely in Australia, where he saw his first kangaroo. He reminded his folks that it is winter in that country at this time. Freddie was glad to get away from Fort Bliss, Tex., where he had been stationed for more than three years.

DRIVING A JEEP

Pvt. Vance Eason, son of Mr. and Mrs. F. M. Eason, is here from Camp Howze, Texas, on a short furlough. Vance says he has been assigned to driving a jeep and is thrilled with his duties.

TO BE TRANSFERRED

S-Sgt. Hulén Potet is here from Camp Forrest, Tenn., spending a furlough with home folks. He is to be transferred to Memphis, Tenn., in the near future, he reports.

JOINS NAVY

Paul Wurster, formerly employed at the Texico Port of Entry, but more recently located in Amarillo, is scheduled to leave this week for Santa Fe, N. M., for assignment in the Navy. Mrs. Wurster has returned to Texico and plans to remain here during her husband's absence.

IN SALT LAKE CITY

Pfc. James E. Beller, son of Mrs. Stanley Hillhouse, has been recently transferred to Salt Lake City from Sioux Falls, S. D.

ROYAL MOVES AGAIN

Sgt. Henry C. (Sam) Royal, grandson of Mr. and Mrs. Z. W. Petree of this city, has been recently moved from Salt Lake City to Gowen Field, Boise, Idaho.

WAAC AND WAVE HOME

Parmer County's first WAVE, Sarah Barnes, of Lazbuddy, was on furlough last week and visited a few days with her parents, Mr. and Mrs. Perry Barnes.

Auxiliary Florence Wallace, of Camp Wallace, Kentucky, visited friends here during the past few days. She is the former owner of the City Cleaners.

BOVINA VISITORS

Pvt. Bobbie Vassey left Wednesday for his camp after visiting in Bovina the past few days.

Cpl. Billie Starr, of the Marine Corps, left Monday to return to du-

ty after enjoying a 15-day furlough. Cpl. R. T. Harbor of Hereford, and Ray Staples were Sunday visitors in the Mr. and Mrs. George Trimble home.

Pfc. Myrtle Nichols and Pfc. Katherine Vassey are visiting with friends and relatives here. Both are from Camp Custer, Mich.

HERE ON FURLOUGH

Pvt. Gilbert J. Schueler of Fort Lewis, Washington, is here visiting his parents, Mr. and Mrs. Herman Schueler of Friona. Gilbert reports that he likes army life, but is enjoying a few days at home.

IN BERMUDA

Mr. and Mrs. W. I. Rundell are in receipt of a letter from their son, L. D., who is stationed in Bermuda. He writes that he is well and getting along fine, but would like to be back home to help with the farm work this fall.

Friona Church Of Christ Plans Revival

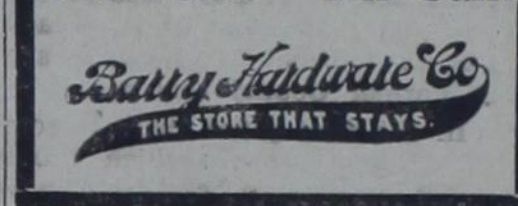

The Friona Church of Christ announces its annual gospel meeting, to be held August 8-18 by Orland W. Rury, former student of Abilene Christian College and now minister of the Albany Church of Christ.

Minister Rury is well known in this community, since he spent the early part of his life in Bovina.

The public is cordially invited to the services, which will be held nightly at 9:00 o'clock.

The dove, bird of peace, often fights with its fellows.

Glass Jars—Tin Cans

For the Lads Overseas

Now is the time to make your Christmas gift selections to be sent to the boys overseas.

Parcels for overseas must be mailed between Sept. 15th and Oct. 15th. Come in now and let us help you that gift problem for the lad on foreign soil.

We have a number of suitable gifts.

GOSPEL MEETING AT LARIAT

Ebb Randol, local minister, announced today that the Church of Christ at Lariat would begin a gospel meeting Aug. 13, with Evangelist W. B. Andrews, minister of the Oak Cliff Church in Dallas, to do the preaching. Hours for the services will be announced next week.

Mrs. Bess Henneman was a weekend guest of her sister, Mrs. Clyde Corey, in Amarillo.

Mrs. W. A. Kessie and Mrs. Vance Crume spent the weekend visiting friends in Amarillo.

Pure beryllium is three times lighter than aluminum and is harder than steel.

Certified Seed Being Purchased by Farmers

"I believe that we are going to have a nice acreage in Parmer county planted to certified wheat this fall," County Agent Garlon A. Harper said today, noting that a number of farmers were ordering certified seed wheat.

Principally, the agent stated, they are asking for Comanche—a newly-developed variety which is creating much interest—Tenmarq and Kanred. Harper added that it was his opinion that more requests were being made for Comanche seed than could be filled, since the supply of seed is limited.

The majority of farmers, he went on, expect to plant from 25 to 75 acres of certified wheat, which "is a very good starting acreage". Such wheat will not be offered for market next year but will be reseeded by the farmers, "and in time," Harper went on, "we hope to have most of the wheat in this county bearing the certified tag".

Comanche seed is being obtained from Chillicothe, Tex., while the other varieties, Kanred and Tenmarq, are bought from Swisher County operators.

Wheat Yield About Average for County

Ellis M. Mills, supervisor of the Parmer County AAA office, said today that figures run on some 200 wheat farms in the county revealed that the 1943 crop average was 12½ bushels per acre.

The figures were compiled from Commodity Credit Corporation loan applications received at the local office, he added.

SERIOUSLY ILL

Rev. Sam Freeman is reported to be seriously ill at the Scott & White sanitarium at Temple, Texas, where he was removed a few days ago after being confined to his bed here at the home of his father and mother.

Farming Talk

By GARLON A. HARPER
County Agricultural Agent

Texas A. & M. Extension Service

Plans are getting well under way for Parmer County's First Annual Dairy Show. There is no doubt in the minds of the men who are doing most of the work for this show as to the value of such an affair. However, some people may wonder WHY HAVE A DAIRY SHOW IN PARMER COUNTY? For these people I want to list some of the reasons I think we should have a dairy show in Parmer County this year.

In the first place there is something about a show which will increase the general interest in the subject. The fact that the farmers of the county bring in their best dairy animals and enter them in competition will attract interest and create interest in dairying in the county. Interest in dairying in Parmer County is something which we need and need badly. Those who have observed agriculture very closely in any area which is similar to ours will note that the farmers who have stuck with good dairy cows have always found a way to keep paying and keep going. Dairy cows of the right kind have saved many a farm and have in turn saved many a bank and local store from going under. We need not only more interest in keeping better cows. A little county show will advertise the presence of good dairy bulls and herds from which good foundation cows may be obtained.

Another thing a dairy show will do will be to give good advertisement to those breeders who have spent good money on improving their dairy cattle. These men need this advertisement and it will enable them to do more in the way of improvement if they are getting the proper advertisement.

Still another thing which this county show will do for us is to create some interest among ourselves in the work in our county. When a group of farmers get together on one problem and work it out it enables them to feel closer together in work on other problems. In other words, a show of this kind creates community interest and pride in what is being done and can be done.

With these things in mind I want to urge all farmers, businessmen and professional men in the county to give this show their very best support in attendance, advertising and encouragement.

CHILD BREAKS ARM

James Early, 3-year-old son of Mr. and Mrs. J. D. Stephens of north of Bovina, was brought here for surgical attention the first of the week, having sustained a fracture of both bones in the left forearm in a fall at the family home.

Performance Signups Are Slow In Parmer

Signing of performance sheets is moving slowly in Parmer county, according to Ellis M. Mills at the local AAA office, who stated that "only about 50%" of the Parmer county farm operators have signed such records.

No deadline has been set for the signing of performance sheets, Mills said, adding a note of warning in declaring, "Many farmers seem to believe that with the lifting of marketing quotas it is not necessary to sign these sheets. This is incorrect, for the simple reason that ACP payments are based on performance sheets and can not be made unless such sheets are properly filled out and listed at our office."

Mills added that the exceptionally late planting season was believed responsible for slowness on the part of many operators in filling out the performance sheets.

Hot, Dry Weather is Affecting Crops Here

A week of continuous exceedingly hot weather, combined with moistureless days and nights, has had a telling effect on the young crops of this section, farmers say.

With barely enough moisture to get the crops up in some instances, young crops had not developed sufficiently to withstand the extreme heat that has been beating down mercilessly on this region since the latter part of last week. The result is that some fields are reported to be on the verge of dying.

In more favored areas, where local showers have been more generous, crops are not showing the effects of the heat so noticeably, and are reported standing up well. This is particularly true in the Lazbuddy section and along the east side of the county, where rains have been fairly plentiful.

The mercury climbed to the highest point of the summer on Monday with a reading of 104 reported by the Santa Fe here. Monday's high followed readings of high 90's and 100 recorded over the past weekend and on Sunday.

Tuesday proved to be still another scorcher when the mercury stretched its slender neck to the 100 mark.

Farmers agree that young crops will suffer greatly unless cooler weather and rain come soon.

Campaign Opened For Late Plantings

COLLEGE STATION—High feed prices and the largest cattle population in Texas history have prompted the Texas & M. College Extension Service to launch a vigorous campaign for the planting of late feeds for hay, bundle feed or silage.

Livestock specialists and agronomists say if farmers who have the land and moisture respond wholeheartedly a feed famine next winter and spring may be averted.

South of an East line running through Dallas, farmers can plant hegari, blackhull and schrock kafir, darso, red top cane, cowpeas and soybeans as late as August 15th. North of that line, it is best to plant these crops by first of August. In any event, county agricultural agents can advise local farmers about adopted feeds.

Ordinarily, the farmer will have two alternatives. He can cut the feed before frost and let it dry for hay or bundle feed or get partially dry for silage. Or he can let the frost kill it. Then the feed can be used for hay, bundle feed or silage. Unless the silage is made immediately after frost, some water will need to be added. If the farmer lacks the machinery or labor to harvest these feeds as hay or silage, they can be left in the fields for cattle to graze all winter.

Specialists say it will pay to plant these feeds in rows rather than broadcast. That way, the crops will withstand more hot and dry weather and will yield a greater tonnage. Row planting also requires less seed per acre. They caution too, that cowpeas and soybeans must be harvested before frost.

A further help in meeting the food shortage will be the planting of small grains for winter pasture to protein in livestock rations.

MADE GOOD ON BEANS

Johnnie Williams of the West Comp community, is highly pleased with the results of his first experience in growing string beans under cultivation. Mr. Williams reported the latter part of last week that he has already gathered 68,000 pounds of beans from 12 acres with another small picking yet to be harvested. He estimated he would realize a profit of about \$200.00 per acre on the crop.

Mr. Williams also has other irrigated crops, including tomatoes and cantaloupes, which he is watching with interest.

"How did you get that black eye?"
"I was protecting a little boy."
"That was noble; who was he,"
"Me."

Ask For Return of All Empty Bottles

We'd make a bet that you have some empty deposit bottles kicking around the house and generally getting underfoot.

Well, if you have, then make it a point this weekend to clean out that garage or attic or store room or kitchen shelves—and return those bottles to the places from which they came.

This drive is being promoted for conservation purposes, since idle bottles can be sterilized for civilian re-use and will permit the glass industry to use even more of its facilities for manufacture of glass containers for food and other items required by the armed forces.

Opening date of the campaign was August 1, and every person is asked to cooperate in returning all empty deposit bottles on hand.

Concrete Floors For Grain Storage

COLLEGE STATION—Concrete floors in grain storage structures have the advantages of being rat proof and of providing a plentiful substitute for scarce building materials.

According to M. R. Bentley, agricultural engineer for the A. and M. College Extension Service, concrete simplifies construction, solves the heavy load problem in grain storage, and makes it possible to keep the whole building lower since wooden floors for permanence should be at least two feet off the ground.

Many farmers have hesitated to use concrete flooring in a grain bin or crib on account of the danger of it becoming damp and causing spoilage. Bentley recognizes reason for such fear, because if the floor touches water or damp soil the top will be damp.

In most locations he explains, there is no difficulty in building a concrete floor which will remain dry.

The essential factors in constructing a dry floor of concrete are to build it so that the under side will be at least four or five inches above the surrounding ground, and place a layer of gravel or crushed rock at least four or five inches thick beneath the concrete. Moisture of the soil will not move up thru crushed rock or gravel, or other similar material as it will through soil.

Bentley cautions however, that in a few locations water may rise and come in contact with the concrete. In such cases some method of waterproofing the floor would be needed.

If desired, concrete floors may be built high above the ground by using higher concrete foundation walls and a dirt fill.

WALTER FARWELL DIES

Walter Farwell, 80, financier and son of the late Charles B. Farwell, former U. S. Senator from Illinois, died in New York City on July 30. He was one of the major stockholders of the Capitol Freehold Land Trust, owners of many thousands of acres of farm and ranch lands in West Texas.

RECEIVES BURNS

Mrs. W. J. Matthews received painful burns about her hands, arms and face the past Saturday, when an accumulation of gas exploded as she opened the oven door of her stove. Mr. Matthews stated today that the burns were not serious, and she was recuperating rapidly.

Coffee Rationing Off; Sugar May Be Hiked

Oddity of the week: Most people are buying less coffee than before rationing was lifted.

This was the report gleaned from merchants, who state that a number of their customers, asked if they needed coffee, remarked, "No, we have some on hand". Before, the storekeepers say, many used stamps as fast as they became valid, even though admitting they had sufficient on hand.

Anyway, everybody reports, it's "cup" without any twinges of "concup" without an twinges of conscience.

Press releases from Washington continue to hint that sugar allotments soon may become more liberal, although nothing definite has been reported to the local ration board.

SANTA FE CARLOADINGS
The Santa Fe System carloadings for the week ending July 31 were 21,339 compared with 23,939 for the same week in 1942. Cars received from connections totaled 12,054 compared with 11,840 for the same week in 1942. Total cars moved were 33,393 compared with 35,778 same week for 1942. The Santa Fe handled a total of 34,270 cars the preceding week of this year.

AID IN SALVAGE CAMPAIGN
COLLEGE STATION—County workers of the Texas A. & M. College Extension Service in nearly 250 Texas counties have been asked to give assistance to the army in its current salvage program. County agricultural victory councils, boys' and girls' 4-H clubs, county home demonstration councils, and other groups will be asked to bring the campaign to the attention of rural people.

In this drive the scrap will not be sold but will be given to the army. Soldiers will collect it at rural mail boxes or other points convenient to farm people.
