

FROM THE HOPPER

By Hop Jr.

The days of the pioneers are not over, apparently.

Much like the hundreds of families who migrated westward in 1848 and 1849 in pursuit of the promise of prosperity and better living, there are whole families in this modern day who are doing the same thing.

The lure is still "gold," in many cases, but there are many other good reasons why families—especially young ones—are moving westward.

We had as our visitors for a few minutes last Thursday, the Jay Butlers of Corydon, Indiana. When the Butlers walked into the office all smiles Thursday morning, we were flabbergasted. They were about the last persons we ever expected to see again.

It so happened that we had made their acquaintance in Louisville, Kentucky, a couple of months ago when we were attending a meeting of the National Editorial Association.

They happened to be sitting next to us on one of the buses which we used to tour the country, and we struck up a warm friendship. They seemed to be very nice people.

One thing that impressed us was their curiosity for the Southwest in general and Texas in particular. Jay could tell more Texas Oil Millionaire jokes than we could, even though he wasn't a Texan by a long shot.

It was difficult for us to understand why they considered our part of the country to be a land of milk and honey, because we knew very well it wasn't. Still, they persisted in their comments about how lucky we were to be down in that "land of the big rich."

After the convention was ended, we parted ways and the Grahams thought no more of the Butlers, except to remark occasionally that it was strange we had made such a tremendous impression on them.

So when they walked into our place last week and announced that they had sold out back in Indiana and come west, we could hardly believe it.

As the story unfolded, we heard them say that they decided to take the big jump, so had auctioned off their furniture and household goods, and from the proceeds, had bought an old truck, piled their personal belongings into it, and headed out.

They did know where they were going, however. Jay had read an advertisement in a trade publication, and had taken a job as manager of a weekly paper at Deming, N. M.

After they had gone on their way to their new home, and the shock had worn off, we began musing over what it could have been that would cause them to pull up their roots and hit the road for the West.

Apparently, Jay had been successful back in Corydon. His paper looked it, anyhow.

The only conclusion we could reach in a matter such as this is that many Americans still have the urge to do better for themselves and are looking for opportunity.

They are willing to work their fingers to a nub if the future looks bright. And those people we have talked with who have sampled the outlook from place to place across the country tell us that there's still no place like the wide open Southwest for opportunity.

Ches Fowler will probably expect us to offer to eat crow, after that hairbreath race for governor. He told us about mid-day Saturday that it was going to be the closest race in history and we just laughed.

Alton Berry To Open Border Cafe

Alton Berry, proprietor of Border Service Station in Texico, announced this week that he and his family would open the old Truck Stop Cafe. It will be known as the Border Cafe and the owners will specialize in steaks and Mexican food.

New equipment is being purchased and Berry expects it to arrive in time for an opening next week. The cafe will offer 24 hour service, Berry says.

Mrs. Nabors In Lubbock Hospital

The condition of Mrs. R. G. Nabors, mother of Mrs. John Lovelace, is reported to be slowly improving this week. Mrs. Nabors has been confined to a Lubbock hospital with pneumonia for several days. Prior to having pneumonia, Mrs. Nabors was hospitalized for treatment of an allergy.

Mrs. Lovelace says that she hopes her mother will be able to leave the hospital in about two weeks. The Lovelaces planned to go to visit her mother Wednesday night of this week.

Mr. and Mrs. Duane Martin of Hobbs, N. M., were weekend guests at the home of his parents, Mr. and Mrs. W. E. Martin, at the home of her parents in Friona.

SITE OF FERTILIZER PLANT—This will be the site of a 12,000-gallon anhydrous-ammonia fertilizer tank which is being installed by Helton Oil Company in Farwell. Shown breaking the ground are Bobby Dollar, Moots Crane, and Joe Helton. The tank will be similar to the one filled with butane shown in the background.

Helton Oil to Install New Fertilizer Plant

An anhydrous ammonia fertilizer plant will be installed by Helton Oil Company in Farwell, it was announced this week by Joe Helton, owner. It will be in connection with the oil company and will be another service to farmers of the area, Helton says.

A 12,000-gallon tank is being installed near the butane and propane tanks, owned by Helton north of town on the state line.

"The tank will be installed and we will be ready for business by October 1," Helton says.

Plans are to have three applicators to rent to farmers. One applicator will be mounted on a tractor and two will be the pull-type, according to Helton.

While the applicators will not be ready before October 1, Helton says that possibly the tank will be filled and farmers can purchase anhydrous ammonia for their own applicators before that date.

This will be the first fertilizer plant of this sort in Texico-Farwell and the firm will handle Phillips 66 products.

Helton is adding the new plant because he sees the need for such a service in this area. "As long as we continue to irrigate here, the ground will have to be fertilized," Helton says.

Lions Club Hears Student Reports

The Texico-Farwell Lions Club met in the City Cafe in Farwell Monday night and heard reports from two Texico students. Susan Levins reported to the group on New Mexico Girls' State and Mikala Faville told of a recent trip to New Mexico's state student council workshop.

Susan was Texico's representative to Girls' State and the Lions Club helped sponsor her trip. Mikala was one of five Texico students who just recently attended the student council workshop at Silver City.

Also, at the meeting, plans were discussed for a coming caravan sales project, which the Lions are to conduct here Saturday, September 15.

The caravan sales is sponsored by the Texas Blind and all items which will be sold are manufactured by blind workmen. The project has a two-fold purpose. It helps to provide self-supporting employment for approximately 400 blind men and women in Texas working in shops throughout the state, and it also provides a money-raising project for Lions clubs across the state.

From benefits received from this sale, the local Lions plan to clear up an outstanding account on the Lions-sponsored youth program as well as to finance future projects of the club.

Items to be sold during the sale include brooms of all kinds, mops, dish cloths, ironing board covers, door mats, and brushes.

Kenny Smith Has Surgery

Kenny Smith, small son of Mrs. Ann Smith, was released from the hospital in Clovis on Tuesday after undergoing an emergency appendectomy there on Friday night of last week.

Kenny was rushed to the hospital about 10 p. m. Friday and surgery was performed at 12. His condition was reported as good this week.

New Buildings At Lazbuddie

Eight New Teachers, School Starts Monday

With three new buildings and eight new teachers, students of the Lazbuddie School District will start a new school year Monday, September 3, according to James G. Ward, superintendent.

Registration for both elementary and high school students gets underway tomorrow (Friday). "The busses will make their regular runs, arriving at school at 8:45 a. m., and students will be returned to their homes by noon," Ward says.

Also, Ward announces that there will be a general assembly at 8:15 on Friday evening. "All parents are urged to come at this time to meet the teachers and help get the new school year off to a good start," he says.

The Friday assembly will complete preliminary activities and

Monday will be the first full day of classes. Lunches will be served on that day.

The three new buildings that students will be moving into were completed at the close of last year. While classes were conducted in them for several weeks prior to the termination of school last year, this will be the first term begun in the new structures.

Included in the new buildings are an elementary school, which will house 300 students; an auditorium, with a 559 seating capacity; and an agricultural department, a 30'x120' structure, which includes a classroom, office, shower room, restroom, and shop. The shop is 30'x86'.

The new faculty members, the positions they will hold, and the universities from which they hold degrees are as follows:

Purl Tippey, science, math, and boys' basketball coach—B. S., Southwestern Oklahoma Teachers College; Mrs. Effie Tippey, first

grade—B. A., Southwestern Oklahoma Teachers College; Pete M. Friesen, sixth grade—M. A., Oklahoma University; Mrs. Fern Friesen, first grade—B. A., Southwestern Oklahoma Teachers College;

Morris Cooper, chemistry and social studies—B. S., Arkansas State Teachers College; Mrs. Billie Cooper, second grade—B. S., Arkansas State Teachers; George Washington, history and boys' football coach—B. A., Panhandle A&M College; and T. J. Williams, social science, health, girls' basketball coach, and assistant football coach—M. A., Texas Technological College.

Faculty members returning from last year are:

Ward, superintendent; James H. Haynes, high school principal and math; Mrs. Dodavah Lawrence, English; Fred Wilbanks, elementary principal and seventh grade; J. N. Black, agriculture; David Estes, fifth grade;

Mrs. Jane Estes, fourth grade;

McDonald Wins Race, Daniel Carries County

In a slight deviation from the way most of the Panhandle Counties went in the gubernatorial race, U. S. Senator Price Daniel rolled over his opponent, Ralph Yarborough, 1036-627 in Parmer County in the Democratic primary run-off Saturday.

Daniel, who carried the state by a narrow margin over his opponent, polled the most votes in six of the eight county precincts. Only Lazbuddie and Bovina went to Yarborough.

In the race for attorney general, Will Wilson was endorsed by county voters, 1055-455 over his opponent, Tom Moore.

On the local scene, incumbent

J. H. (Johnny) McDonald won another hitch on the Parmer County Commissioners' Court, representing Precinct 3. McDonald tallied 303 votes, as compared to 190 for his opponent, E. R. (Earl) Billingsley.

County-wide voting was somewhat less in the run-off than it was in the July primary, when 1663 voters turned out as compared to 1784 in July.

Complete official returns from the Parmer County clerk's office are as follows:

Black
Governor—Daniel 50, Yarborough 30; Attorney General—Wilson 50, Moore 23; Lieutenant Governor—

Ramsey 61; and Commissioner, Precinct 1—Day 64, Phipps 16.

Friona
Governor—Daniel 392, Yarborough 267, O'Daniel 1; Attorney General—Wilson 473, Moore 166; Lieutenant Governor—Ramsey 452; Commissioner, Precinct 1—Day 243, Phipps 415.

Bovina
Governor—Daniel 106, Yarborough 107; Attorney General—Wilson 134, Moore 62; Lieutenant Governor—Ramsey 78.

Farwell
Governor—Daniel 263, Yarborough 63; Attorney General—Wilson 205, Moore 82; Lieutenant Governor—

West Camp Baptists Schedule Revival

A revival meeting will begin at the West Camp Baptist Church on Sunday, September 2, announces Rev. T. L. Pond, pastor of the church.

Rev. Thurman Bryant of Cleburne, Tex., will be the evangelist for the meeting which will continue (Continued on Last Page)

Farwell Registration Underway, School To Open Monday

Registration is now in progress at Farwell Schools for the new term which will open Monday. The freshmen were scheduled to register this afternoon (Thursday) and the remainder of the high school will register tomorrow and Saturday, says Jack Williams, superintendent.

Tomorrow morning at 9:30, sophomores will register; at 2 p. m., juniors will register; and the seniors are scheduled to register Saturday morning at 9:30. Grades one through eight will

Budget Hearing Set By Commissioners

At the regular meeting of the Parmer County Commissioners' Court Monday, the county budget for the coming year was set up and a hearing has been set for September 10.

At the hearing, anyone wishing to go over the budget with the commissioners may do so.

Also, at the Monday meeting, the commissioners set the tax levy, which is 95c per \$100 valuation. Property valuations will be the same as last year. Included in these are \$4.00 to \$7.00 per acre on land, and \$500 for each irrigation well.

Present at the meeting were A. D. Smith, judge; Forrest Osborn, Henry Ivy, Johnny McDonald, and Charlie Jefferson, commissioners; and Hugh Moseley, clerk.

Ladies Auxiliary To Have Bake Sale

A bake sale, featuring many home baked goods, will be sponsored by members of the Ladies Auxiliary of the Pentecostal Holiness Church of Texico on Saturday, September 1.

To be held at the Furniture Mart building next to Stone's Variety, the bake sale will get under way at 10 a. m. Everyone is urged to help the Auxiliary by attending the bake sale.

register on Monday, the day classes begin.

School busses will run at the regular time Monday morning and the first meal will be served in the cafeteria at noon. "All students, who plan to eat in the cafeteria, must bring \$1.50 or \$6.00 Monday to pay for one week or one month in advance," Williams says.

Students are asked to report to school at 8:45 this year and not earlier than 8:30.

During the registration periods, books are being passed out, assignments are being made, so a full day of classes can be started Monday, Williams says.

Four new faculty members will be starting the year at Farwell. Included are A. E. Tatum, high school principal; Mrs. Lenora Tatum, third grade; Mrs. Winnie Bradley, junior high English; and Clare Florence, second grade.

Other members of the faculty and staff for the coming year are as follows:

High school—Mrs. H. K. Milford, A. D. Daniel, Mrs. Irene Jones, Mrs. Erma Jobs, Calvin Murray, Russell Young, Mrs. Laura Penick, Robert Morton, and R. B. Tucker.

Grade school—L. B. Penick, principal; Mrs. Elsie Cain, Mrs. Willie Daniel, Mrs. Loretta Pool, Mrs. Ila Huffaker, Mrs. Hattie Coffey, Mrs. Margaret Kennedy, and Mrs. Gladys Eggers.

Junior high—Mrs. Marie Ellyson, Tucker, Young and Shelby Jobs. Mrs. John Lockhart will again be school nurse and Mrs. Alice J. Tucker is school supervisor.

Lunchroom staff—Mrs. Maude Brown, supervisor; Mrs. Nora Billingsley, Commie Blain, Elsie Hardage, Annabell Hillock, and Mrs. Ernest Black.

Bus drivers—Jerry Dee Owens, David Willard, Roland Hillock, Douglas Hillock, Jerry Henson, Preston Cain, Jerry Venable, alternate, and H. R. Crook, maintenance foreman.

Custodians—R. S. Tucker and H. H. Petree.

NEW BUILDINGS—Shown above are three new buildings which have been added at the Lazbuddie School. The left panel shows the new 10-room elementary building, which will house grades one through six this year. It has a 300-student capacity. In the

center is the new 30'x120' agricultural building. Pictured in front of the building by the new Ford pickup, donated to the FFA chapter by the Muleshoe Motor Company, are J. N. Black, agriculture instructor; James Ward, superintendent; and George Washing-

ton, new football coach. At far right is the new auditorium, which has a seating capacity of 559. All three of the buildings were completed just prior to the time school was let out last spring.

THE TRIBUNE'S EDITORIAL COMMENT

Time For A Change... But Not That One

The Farmer ASC office is contemplating a move.

Providing the state committee will approve the county committee's request, the office will be moved to the downtown Carver business building formerly occupied by Bill and Eloise Liles, who operated The Paint Store.

The last time The Tribune obtained information relative to this location, the rent was quoted at \$103 per month. For a retail business, such a fee may be justified, both because of the ideal location of the building, and because of its recently modernized appearance.

However, \$103 a month is too much for Uncle Sam to pay for a place to house his county ASC office, especially when the fact is considered that he is not now paying anything for his present location.

At the time that the change was first considered, the prospects for a more suitable location than the courthouse may have been slim. But in recent weeks they have improved.

The Legion building, which is soon to become the new city hall, very probably will have enough extra space to make it practical to put the government offices there. The Tribune believes this possibility should be investigated.

As to what the charge of such a service to the federal government would be, it is too early to say, but surely it would be substantially less than the rent under consideration.

Besides the savings to Uncle Sam that would be effected with a change to the city hall instead of a private business (and don't forget who pay's Uncle Sam's bills), another important point needs to be considered.

That is the fact that Farwell badly needs suitable business locations, and that the one now being eyed by the ASC unit is one of the few desir-

able ones left in the entire business district.

The immediate argument to this would be, naturally, that the building is unoccupied, and there doesn't appear to be anyone anxious to move in. To this viewpoint, we would point back a few years to the time when the old AAA and PMA offices were housed in the location now occupied by Bradshaw Grocery.

At the time, that building was available for public office use, but as the community grew, there became a need of retail business locations that surpassed the need of the government for a downtown office location.

Farwell needs all the retail business locations it can muster. Taking a nice one out of circulation by placing a government agency in it will be no stimulus to downtown development—a field where this community is sadly dragging its feet.

ALL THE COMFORTS OF HOME—Carl Camp, former resident of Farwell and Bovina, poses just outside of his house on wheels. Camp has been touring the country for the past six years and makes this Chevrolet panel wagon his home. Pictured at the left, in the back of the vehicle, is his bed.

Old-Timer Pays Visit To Farwell Monday

By DICK HAPKE

Carl Camp, who lived in Farwell and Bovina from 1918 to 1925, was a visitor in these two communities the first of the week. Camp was a former operator of the Ford agency in Farwell and built and operated service stations in both Bovina and Farwell.

According to Camp, who has just passed 72, he built and operated the service station which is now Roberson's Shamrock in Farwell. In Bovina, he operated the old O. T. station, which was later known as Bovina Co-op.

Probably few residents of Farwell and Bovina now know Camp, but the old-timers remember him as a colorful individual. Living in Farwell at the time when the Cannonball automobiles were being manufactured, he has had his finger in numerous pies during his lifetime.

Although he was born in Georgia, Camp has spent considerable time in Oklahoma. It was in Oklahoma that he served as a deputy sheriff and a justice of the peace before coming to Texas for his health.

He arrived here the day before the old hotel in Farwell burned down in 1918. He has been a photographer all his life and recalls taking a picture of the hotel as it was burning, and still has the photograph today.

Building service stations in Farwell and Bovina, and operating the Ford agency was just the start of numerous business endeavors for the likeable individual. After leaving Farwell in 1925,

Camp and his son operated a tire store in Clovis for several months, before heading westward. He finally wound up in California, and built many service stations while on the way.

"I would stop in a town, buy a lot and start constructing a service station. By the time I would have one almost completed, I would have a buyer for the business, and would sell and move on to another town," Camp laughingly relates.

After spending a while in California, Camp returned eastward and built several tourist courts the same way. In constructing these businesses, Camp says he never did any of the carpenter work himself, but hired the work done, and was the overseer of each project.

Other work which Camp has been engaged in is working in a Naval gun factory in Washington, D. C., a Naval machine shop in Oklahoma City, and for a while with a railroad company in Amarillo.

Also, he claims to be an inventor. A gadget, which he has a patent on, is a still-water minnow trap. Camp says many of these items have been sold, and his sister is in charge of sales at Houston.

Being retired since 1950, Camp has spent the past six years traveling. He travels in a Chevrolet panel wagon, which he calls his home and he has been in every state in the union except five. "I've seen all there is to see," he says.

Quite a little of his time has been spent in fishing, and Camp's plans were to return to Oklahoma and

go fishing again as he left here. The panel wagon he travels in has all the comforts of home.

Included are a bed with an innerspring mattress, table and chair which he sets up outside the car when he cooks, and an electric razor, which he plugs into the cigarette lighter. Oh, yes, and a towel rack on one of the back doors.

As he continued on his journey, Camp said that "I am one man who will never be found in a hotel or tourist court." At night, in some town under a shade tree, he will be at home in his motor-powered house on wheels.

Farwell Homecoming is November 24. Make plans to attend now.

The only community circus in the world is the Gainesville (Tex.) Community Circus.

This is the fifth in a series of pictures of the younger generation of Texico-Farwell and surrounding area. Top row, left to right, are Brett, 2; Greg, 3; and Deborah, 6; children of Mr. and Mrs. Elmer Hargrove. Bottom row, Carl, 9, son of Mr. and Mrs. Carl G. Davis; Hal, 10, son of Mr. and Mrs. Joe Helton; and Steve, 4, son of Mr. and Mrs. Joe Blair.

Our neighbor, Mrs. John Rea, has brought over some of her homemade pickles several times this year, and now Ronny embarrasses us everytime he sees her by remarking "Mrs. Rea, we don't have any pickles now."

Usually, she rallies to the cause and brings Ronny a big dish of her "specials." To keep our son from leaving home and residing with the Reas, we thought we'd better get her recipe.

These pickles are very crisp, and the secret, according to Mrs. Rea, is to refrain from boiling them too long.

BREAD AND BUTTER PICKLES

Use 25 medium size cucumbers, which should be soaked in clear water overnight. Next morning, slice them, do not peel. Also slice 8 small onions lengthwise. Cover the onions and cucumbers with 1/2 cup salt and let stand one hour. Into a large kettle, pour 1 qt. vinegar, 2 cups sugar, 2 large tablespoons white mustard seed, 2 tablespoons celery seed, 2 tablespoons ground ginger, 1 tablespoon tumeric.

Bring this to a good boil. Turn the cucumbers and onions into this mixture. Let it come to a boil again and boil exactly 3 minutes, no more. If they are allowed to boil longer, they are soft.

FCDA Issues New Book of CD Terms, Laws, Publicans

A new Civil Defense Glossary providing a handy reference on CD terms has been published by the Federal Civil Defense Administration. The booklet also includes sections on legislation and executive orders authorizing a Federal civil defense program and its role in administering natural disaster relief, a "model" state civil defense law, and a bibliography of official civil defense publications. The Glossary may be obtained for 25 cents from the Superintendent of Documents, U. S. Government Printing Office, Washington 25, D. C., or free from state or local civil defense offices. A ranaculturist is a person who raises frogs for market use. A xylographer is a wood carver.

Citizens of Tomorrow

This is another in a series of pictures of the younger generation of Texico-Farwell and surrounding area. Top row, left to right, Hal, 7 months, and Ronnie, 2, children of Mr. and Mrs. W. H. Graham Jr.; and Meredith, 3 1/2, daughter of Mr. and Mrs. Robert Anderson. Bottom row, Caroline, 5 months, daughter of Mr. and Mrs. Anderson; Kelley, 15 months, and Pat, 3 1/2, children of Mr. and Mrs. Harold Norrod.

The muscle of the scalp is known technically as Occipitofrontalis. Alaska is more than twice the size of Texas.

"Dead" Air Cells Add To Comfort In Home

Scientists discovered long ago that "dead" air trapped in minute spaces is a poor conductor of heat. That's why mineral wool insulation, with its millions of dead air cells, minimize the transfer of heat. This action helps keep the interior of a house cooler in summer and warmer in winter.

Farwell Homecoming is November 24. Make plans to attend now.

NOTICE

I wish to take this opportunity to thank the voters of Precinct No. 3 for the nice vote given me in the Second Primary August 25.

I shall strive to carry out the duties of my office to the best interests of the people of Parmer County.

JOHNNY McDONALD

Wow!

WIN \$10,000 IN CASH

ENTER THE HOUSEPOWER CONTEST NOW!

NOTHING TO BUY

There's still time to enter the HOUSEPOWER contest. All you need do is get your official entry blank from any Southwestern Public Service Company office. The entry blank form contains complete entry instructions. But, don't delay... contest closes September 30th at which time all September entries must be received by Housepower headquarters. You may win any one of 200 valuable prizes plus the \$10,000 grand prize.

It's exciting, this HOUSEPOWER CONTEST! A \$10,000 grand prize plus 200 prizes in August and 200 prizes in September. If you hurry you can use two entry blanks and enter in both August and September. Remember that you must use the official entry blank to enter the contest. All Public Service offices have the official entry blank forms which include complete instructions on how to enter the contest.

LOOK AT THESE FAMOUS NAMES

Here's a list of those manufacturers whose products are featured as prizes in this powerful HOUSEPOWER CONTEST: ADMIRAL, BLACKSTONE, BULLDOG ELECTRIC, CORY, CROSLY & BENDIX, DORMEYER, EASY, FRIGIDAIRE, GENERAL ELECTRIC, HOBART, HOOVER, HOTPOINT, IRONRITE, KELVINATOR, MAYTAG, NORGE, PHILCO, PROCTOR, RCA WHIRLPOOL, REMINGTON RAND, SILEX, SUNBEAM, SYLVANIA, THERMADOR, WESIX, and WESTINGHOUSE.

IS YOUR HOUSEPOWER A PRIZEWINNER?

Speaking of HOUSEPOWER how's the Housepower at your house? If the TV picture shrinks or the lights dim whenever you turn on an appliance chances are your housepower needs the entry of an electrical contractor. Have your housepower checked... just call your electrical contractor for free wiring survey.

Social Events of Interest

Juanita Caldwell Weds Gorman Byrd

In a double wedding at the Immanuel Baptist Church in Norman, Okla., on Friday evening, August 24, at 8 o'clock, Miss Juanita Caldwell became the bride of Gorman Byrd, and her sister, Edith Caldwell, became the bride of Jimmy Ridenour. Mr. and Mrs. C. D. Caldwell of Norman are parents of the brides. Byrd is the son of Mr. and Mrs. Robert Byrd.

Rev. Marvin H. Hall, pastor of the church, officiated at the double-ring ceremony uniting both the couples in marriage. Each couple served the other as attendants.

The foursome stood before an archway decorated with white candelabra holding seven lighted tapers while the vows were spoken. Given in marriage by her father, Juanita was attired in a ballerina length dress of white lace featuring long sleeves, a full skirt and a scooped neckline outlined with pearls.

Her veil of illusion, which came to a point in the center back, was attached to a white headband covered with pearls and sequins. She wore a single strand of pearls, a gift of the bridegroom.

She carried an arrangement of red roses atop a white Bible. The Bible was the traditional "something old," and her ensemble was "something new." Something blue was a garter and something borrowed was a lace handkerchief belonging to her sister.

Mrs. Marty Jack played traditional wedding music at the piano and accompanied Roy Bogan who sang "Because" and "The Lord's Prayer."

Following the ceremony, a reception was held at the church. The refreshment table, which was laid with a lace cloth, was centered with an arrangement of pink roses. Other table decorations included the three tiered wedding cake topped with a miniature bride and groom, and the crystal punch service.

Presiding at the refreshment table were Mrs. Caldwell, Mrs. John L. Smith and Mrs. Ridenour. Miss Anna Bennett registered the guests.

Mr. and Mrs. Byrd are at home in Texico where she is employed by the local school system as a fourth grade teacher.

Mrs. Byrd was graduated from Norman Oklahoma High School and attended high school in Muleshoe for three years prior to moving to Norman.

She attended the University of Oklahoma at Norman and worked in the summers doing mission work with the Southern Baptist Convention. Her latest work was in Tucson, Ariz., with the Spanish and Indian people.

She received her Bachelor of Science degree in elementary education June 3, 1956.

Byrd attended Muleshoe High School and served three years in

the armed forces. He is presently engaged in farming near Farwell. Mr. and Mrs. Robert Byrd, Bobby and Gerald were in Norman to attend the wedding.

Alan Price Feted At Party Thursday

Alan Price was feted with a surprise party on his birthday, Thursday, August 23, at the home of his parents, Mr. and Mrs. Dale Price.

Friends and classmates of the honoree met at the garage of the Price home while Alan was out on an errand. When he returned, he found a garage full of teen-agers greeting him with "Surprise!"

The scene of the party, the garage, was decorated with multicolored streamers of crepe paper and gaily colored Chinese lanterns.

Favors were party hats and horns and key chains resembling hot dogs.

Mr. and Mrs. Price then served a supper of hot dogs, potato chips, relishes, lemonade and birthday cake to the group.

After supper the group listened to records played on Alan's new high fidelity record player, a birthday gift. Those attending report much fun was had on a scavenger hunt which followed. The team headed by Gerald Hardage returned to the Price home first to be declared winner.

Alan opened his gifts after the group returned from the hunt. Then David Willard found the piano; and with Gerald Hardage on cornet, Alan Price on bass and Arlin Smith on guitar, the group was entertained with more music. Susan Levins assisted the group as vocalist and sang several numbers.

Those attending the party included Johnny McCuan, Donnie Carpenter, Arlin Lee Smith, Larry Cooper, Jerry Henson, Gerald Hardage, Bert Williams, Susan Levins, Anita Moss, Mikala Faville, Mary Ann Walls, Jeanette Hughes, Angela Williams, Marian Smith, Doris Harriman, Phyllis Magness, the honoree, and his parents.

Rainbow Girls Have Swim Party

Five members of the Order of Rainbow for Girls, Assembly 158, Bovina Chapter, and their guests were entertained at a swimming party and supper in Clovis on Thursday evening, August 23.

The group enjoyed swimming at Hillcrest Park in Clovis prior to having supper at a Clovis restaurant.

Attending from Farwell were Misses Gari Lynn Crook and Kathy Martin. Mrs. Julia Leake, Mother Advisor of the group, accompanied them as sponsor.

Variety Club To Meet Tuesday

Members of the Variety Club are reminded of the regular meeting to be held Tuesday afternoon, September 4, at the home of Mrs. Flora Edwards in Farwell.

The group will meet at 1:30 and will make a quilt for Cal Farley's Boys' Ranch at Amarillo. Mrs. Edwards requests that members bring their scissors and thimbles.

Mr. and Mrs. John Getz and Mike and Mr. and Mrs. Joe Helton and Hal Ed made a business trip to Amarillo on Saturday.

Copley Twins To Present Recital

Don and LaVon Copley, twin son and daughter of Mr. and Mrs. A. W. Copley of Muleshoe, will be presented in a joint organ and piano recital on Sunday afternoon, September 2, in the First Methodist Church of Muleshoe at 3 o'clock.

The program will consist of two piano numbers, two organ numbers and two organ and piano duets. Cecil Bolton of Lubbock, instructor of the Copley twins, will play the orchestral accompaniment for selections which indicate such.

The 17 year old Copley twins are seniors in Muleshoe High School and are both members of the band. Don plays the trombone in the band and LaVon plays the clarinet and is also a majorette.

LaVon is organist at the First Methodist Church in Muleshoe and Don is assistant organist. Both are members of the American Guild of Organists.

In their recital Sunday the twins will be playing the church model Hammond organ and a Steinway grand piano.

The public is cordially invited to attend the recital.

New Son Born To Bob Harts

Samuel Lloyd is the new son of Mr. and Mrs. Bob Hart. The third child of the Harts, the young gentleman was born Sunday night, August 26, at 11:45 in Clovis Memorial Hospital and weighed eight pounds and 14 ounces. He has one brother and one sister, Bobby and Linda.

Maternal grandparents are Mr. and Mrs. Horace Blackburn of Muleshoe. Mr. and Mrs. Sam Aldridge are paternal grandparents.

Return Thursday From Short Trip

Mrs. Carl Davis and Glenna and Miss Jo Elaine Magness returned home last Thursday from a short vacation trip to points of interest in Texas, New Mexico and Mexico.

Arriving last Sunday evening in Carlsbad, the group toured the Caverns there before going to El Paso and Juarez where they enjoyed sight-seeing.

Prior to returning to Farwell, the group visited at Ruidoso, N. M.

JeDon Porter Here For Short Visit

Capt. JeDon Porter, son of Mr. and Mrs. John Porter, arrived here Sunday night for about a week's visit with his parents before reporting to Fort Ord, Calif., for duty.

Capt. Porter received his Captain's rating on his birthday which was August 11, and received his Wings on Friday, August 24, at Fort Rucker, Ala.

Blains Return From Vacation

Mr. and Mrs. Calvin Blain and children, Gary, Vickie and Kent, returned Sunday night from a vacation trip to Colorado. The Blains enjoyed sight-seeing at points of interest in Colorado and visited with her aunt, Mrs. W. B. Chumley and family, at Byers, Colo.

The Blains also visited with her grandmother, Mrs. Alice Norman, at Wichita Falls.

Hopkins Family Moves To Earth

Mr. and Mrs. T. A. Hopkins and son, Mark, left Wednesday of this week for Earth where they will make their home.

Mrs. Hopkins has accepted a teaching position in the Springlake elementary school and Hopkins plans to set up a television service shop in Earth.

Mrs. Hopkins formerly taught in the Farwell school system.

It's A Girl For Darrell Groffs

Mr. and Mrs. Darrell Groff are the parents of a daughter born Tuesday afternoon, August 21, at Clovis Memorial Hospital.

The first child of the Groffs, the little lady weighed seven pounds and has been named Diana Ranea. Maternal grandparents are Mr. and Mrs. W. E. Martin, and Mr. and Mrs. H. E. Groff of Odessa are paternal grandparents.

MR. AND MRS. DWIGHT SHERRIFF

Miss Norene Morgan Weds Dwight Sherriff

Miss Norene Morgan, daughter of Mr. and Mrs. Asa Morgan of Portales, and Dwight Sherriff, son of Mr. and Mrs. Roy Sherriff of Muleshoe, were united in marriage in an afternoon ceremony at the Baptist Student Union on the campus of Eastern New Mexico University on Thursday afternoon, August 9, at 3 o'clock.

Rev. Herbert Bergstrom, professor of Bible at the University, performed the double-ring ceremony as the couple stood before an archway covered with blue and white majestic daisies and greenery.

Flanking the arch were candelabras which were also covered with blue and white daisies. The back-

ground for the wedding setting was formed by palms and other greenery.

Providing music was Miss Carolyn Prude of Portales who played traditional nuptial selections and accompanied Miss Sylvia Arnsperger of Portales who sang, "The Love of God."

Miss Colene Cates, niece of the bride, was candlelighter. She was attired in a princess styled ballerina length dress of blue nylon over taffeta.

Attending her sister as matron of honor was Mrs. Carroll Cates of Borger. Mrs. Cates wore a ballerina length dress of blue nylon over taffeta and carried a colonial bouquet of white carnations. She wore a headband of matching blue nylon and net.

The bride, given in marriage by

her father, was lovely in a ballerina length dress of Chantilly lace over nylon net and tulle.

The fitted bodice was highlighted by a small round, stand up collar and long sleeves which came to petal points over her hands. Tiny nylon covered buttons ran down the center front of the dress which came to a point where the full gathered skirt joined the bodice.

Her fingertip veil of nylon illusion fell from a tiny white cap of lace and net embroidered with iridescent sequins and pearls.

Atop a white Bible she carried a triangular bouquet of roses and a gardenia. Three lines of tiny roses formed the triangle which was centered by an arrangement of other roses and a single gardenia.

Something old was an embroidered lace handkerchief belonging to her grandmother. Something new was her wedding ensemble, and something borrowed and blue was a garter belonging to a close friend, Mrs. Cova Randle. For luck she carried a sixpence in her shoe.

David Maddox of Dallas served as best man, and ushers were Jake Saylor of Muleshoe, Truman Kittrell of Farwell, and Carroll Cates of Borger.

At a reception held in the dining room of the building following the ceremony, Miss Audrey Mathis of East Vaughn, N. M., registered the guests.

The bride and groom and their parents stood in the receiving line. The reception table was laid with a lace cloth over powder blue and was centered with the wedding cake and an arrangement of blue asters.

Mrs. Barney Russell of Lovington served cake and Mrs. Wilma Liner and Miss Jo Ann Williams, both of Farwell, presided at the punch bowl.

For her daughter's wedding, Mrs. Morgan chose a blue crepe dress with white and blue accessories and a corsage of pink roses.

Mrs. Sherriff wore a dress of red and black with black accessories and a corsage of pink roses.

For a wedding trip to the Cloudcroft-Ruidosa area, the bride changed to a blue dacron dress with accessories of navy and white. She

wore the gardenia and roses from her wedding bouquet as a corsage.

After the wedding trip, Mr. and Mrs. Morgan are at home at 805 S. Chicago Avenue, Portales, N. M.

Mrs. Sherriff was graduated from Portales High School and received her B. S. Degree in home economics from Kansas State College.

She has done other work at the University of Colorado and at Texas Tech. She plans to continue as an instructor in the home economics department at Eastern New Mexico this year.

Sherriff is a graduate of Farwell High School and will be a senior at Eastern this fall where he is majoring in business and economics. Sherriff is also engaged in farming near Muleshoe at the present time.

Class To Meet

Regular monthly meeting of the Rebecca Sunday School class of First Baptist Church, Farwell, will be held at the home of Mrs. Johnnie Williams on Monday evening, September 3, at 8 o'clock. All members are urged to be present.

Rev. and Mrs. E. J. Keith and sons returned to Farwell last Thursday after vacationing in Andrews, Tex., and the mountains of New Mexico. The Keiths report a very enjoyable trip.

Mrs. Tinie Doshier returned home Sunday after visiting for two weeks with relatives in Dumas.

Cheerleaders Get Set For Football Season

Cheerleaders for the Farwell High School Pep Club have been busy the past two weeks selling ads for the football game programs. In recent years, preparation of the programs has become a project with the Pep Club.

In other meetings during the past few weeks, cheerleaders decided on new uniforms and recently made a trip to Lubbock to purchase sweaters and megaphones.

Head cheerleader for the coming year is Marian Smith. She will be assisted by Mary Ann Walls, Betty Smart, Naomi Hubbell, Ruby Hillock and Faye Routon. Sponsor of this group is Mrs. Joe Jones.

A representative of the group says that they are hoping they will be able to attend the first 1956 game for the Steers at Melrose on September 7.

Mrs. Dee J. Brown Visits In Texico

Mr. and Mrs. D. J. Brown and Joanne took their daughter-in-law and son, Mrs. Dee J. Brown and David, to Showlow, Ariz., this weekend where they met Dee J. who took his wife and son on to California where he is stationed at Camp Pendleton.

Mrs. Dee J. Brown and son had been here visiting her parents-in-law in Texico for the past week. Prior to visiting here, she visited in Seminole with her parents, Mr. and Mrs. Lee Hudson, for two weeks.

Is Visiting In Roth Home

E. L. Haines of Follett, Tex., arrived here last week to spend an indefinite length of time with his sister and family, Mrs. T. E. Roth, Ted and Bill.

During the weekend Haines accompanied Mr. and Mrs. Ansel Doolittle and Debbie to Deming, N. M., where they were guests of Haines' daughter and family, Mr. and Mrs. Ray Oakley.

Mr. and Mrs. E. M. Roop left Saturday for Ford, Kansas where they will make their home. Roop had been manager of Houston Lumber in Texico for 13 years prior to the recent closing of the Texico branch of the company.

Nancy Aldridge Here To Visit Parents

Miss Nancy Aldridge arrived here Monday to visit a few weeks with her parents, Mr. and Mrs. John Aldridge, before returning to school at the University of Oklahoma at Norman, where she will be a senior.

Nancy studied French at McGill University in Montreal, Canada this summer, and returned via Buffalo, N. Y., where she visited a college classmate. Nancy enjoyed a trip to Niagara Falls while there.

Last week Nancy was a guest of her sister, Mary Belle, in Houston, and Friday night Nancy attended a college friend as bridesmaid in a wedding at Norman. She plans to leave Farwell for Norman in about three weeks.

Hardings Return To Denton Tuesday

Rev. and Mrs. Nathan Harding returned to their home in Denton on Tuesday afternoon after being here with their parents, Mr. and Mrs. N. R. Harding and Mr. and Mrs. D. O. Rolland, for a few days.

Harding was ordained to preach by the local Baptist Church in an afternoon service at the church. Harding will be employed as a teacher in the school system at Denton Junior High School and will try to get a pastorate in a church nearby.

Mrs. Harding is enrolled at North Texas State College in Denton.

the Snapshot Guild

Don't always stay behind the camera. Have someone snap you at work on your hobby.

Picture Your Hobbies

Once the very learned physician, Sir William Osler, observed: "No man is really happy or safe without a hobby . . . Botany, beetles or butterflies—anything will do so long as he straddles a hobby and rides it hard."

And since April has been set aside as National Hobby Month, we thought it appropriate today to discuss how your camera can complement all your hobby interests.

For the hobbyist who collects shells, buttons, matchfolders, dolls, guns, stamps, glass animals, china and the like, a picture record of his collection can be a double source of enjoyment.

Because many of the items to be pictured are comparatively small ones, you'll have to figure on shooting from fairly close distances. With a box-type or fixed-focus camera you can only come within six feet of your subject. Should the item seem lost in the middle of your viewfinder at this distance, you'll need to add an inexpensive close-up attachment to your camera. Then you'll have no difficulty in shooting as close as three and a half feet.

Since this kind of picture taking is usually done indoors, some source of artificial light will be necessary. The simplest answer is a synchronized flash attachment which fits right onto your camera and eliminates the need for setting up lights. Today's cameras are equipped to handle this neatly—and there's no guesswork—for as you snap the shutter it automatically flashes the bulb at precisely the right instant.

Of course, there are some hobbies that couldn't ever have become "collecting" hobbies at all without a camera. For example, if you're interested in old automobile models, aircraft, railroad engines, bridges, statues or architecture, your subjects would be practically impossible to collect except on film. But with a camera in hand, you can have an impressive "collection" of any of these items without acres of space or vast sums of money!

—John Van Guilder

To Seymour

Mr. and Mrs. Mose Glasscock were in Seymour on Sunday to attend the annual Hash Knife Ranch reunion.

The Glasscocks accompanied friends to Lake Kemp that afternoon where they enjoyed water skiing.

C. L. Freeman, Jr. of Dallas planned to return to his home there today (Thursday) after visiting here since Monday evening with his sister and family, Mr. and Mrs. Dale Price and children. Freeman is employed by the post office department of Dallas.

Mrs. Verne Wellman of Milwaukee, Wis., arrived here this week to visit with her mother, Mrs. E. G. Blair, and to get her son, David, who has spent the summer here with his grandmother.

Arriving here Wednesday to visit with Mrs. W. W. Engram and other relatives was Miss Melva Jean Lewis of Wichita, Kans., who is enroute to California where she will attend school.

Mrs. Neal Weems and daughter, Erma, of Portales, returned home this weekend after visiting here two weeks with her parents, Mr. and Mrs. D. J. Brown, while Weems was attending National Guard Camp.

Mr. and Mrs. Ted Engram left Sunday for a vacation trip to points of interest in Colorado. They planned to visit in and around Grand Junction while vacationing. The Engrams planned to be away for about 10 days.

To Meet Next Week

Companion Class of the Texico Baptist Church will have its regular monthly social and business meeting on Thursday evening, September 6.

All members are urged to be present.

Mr. and Mrs. Ray Stone and children of Rialto, Calif., are visiting this week in Texico with his parents, Mr. and Mrs. Judge Stone.

Farwell Homecoming is November 24. Make plans to attend now.

"There should be safe bicycle paths in all cities so that executives could pedal to work" says Dr. Paul Dudley White, the heart specialist who treated President Eisenhower.

The U. S. Navy has declared war on traffic accidents by instituting a new safety campaign.

While Congress has been talking the past year about a Federal-aid highway program population has increased 2,800,000; motor vehicle registrations have gained 2,700,000 — and highway traffic is up 5.5 percent.

A new United States Army reserve school for Deaf Smith, Castro, Parmer and Oldham Counties has been announced. This school will begin on Thursday night, September 6, 1956, at 8 o'clock, and the classes will be held in the reserve armory at 103 Avenue E in Hereford, behind the Park Avenue shopping center.

Classes will be held in the civil affairs and military government branch, and all army reserve officers are invited to attend and enroll in this course. Classes will be held on alternate Thursday nights, the course containing 24 two-hour periods of instruction spread over a period of 10 months.

Student officers enrolled in the course will receive one day's pay for each class attended, at the regular rate of pay for such officer, based on his rank and length of service.

In addition, each officer will likewise receive retirement point credit for attendance at these classes.

Officers already enrolled for the school include Major Roy V. Miller and Lt. Bill Sheehan of Friona, and Captain Tom Berbeau of Farwell.

CARD OF THANKS

We would like to take this method to thank our friends and neighbors for the flowers, cards, visits and every act of kindness shown us during our recent accident and illness. Your thoughtfulness was sincerely appreciated.

NEWS FROM LAZBUDDIE

BY MRS. BERT GORDON

Attend Graduation At West Texas State

Mr. and Mrs. J. W. Crim, and Mr. and Mrs. John Norman Crim and Mr. and Mrs. Fred Curtis, of Farwell, attended the summer session graduation exercises at West Texas State College in Canyon last Friday night. Max Crim, son of Mr. and Mrs. J. W. Crim, received his Bachelor of Science degree and was also commissioned as a second

lieutenant in the United States Army Reserve. Also attending the exercises from this community were Mr. and Mrs. Jud Clark, Mr. and Mrs. Wayne Clark, and Albert Clark. Mr. and Mrs. Bert Gordon were there also to see her niece receive her Bachelor of Science degree.

Shower Given For Recent Bride

A bridal shower honoring Mrs. David Schandt, the former Miss Ruby Mallouf, was held in the basement of the Lazbuddie Baptist Church last week. The honoree's chosen colors of gold and blue were carried out in the decorations. The table was laid with white, and a lovely bouquet of golden-glow centered the arrangements. Sister of the bride, Betty Jo Mallouf, registered the guests, and in the absence of the honoree, her mother opened the gifts. The bride and her husband are making their home in Palm Dale, Calif.

Those present for the occasion were Mesdames Carrie Withrow, Bert Gordon, C. C. Graef, Gene Phillips, James Welch, L. B. Ham-bright, Wesley Barnes, W. S. Menefee, T. L. Baker, C. K. Roberts, Earl Peterson, John Agee, and the honoree's mother, Mrs. Abe Mallouf, and sister, Betty Jo Mallouf.

Has Bible Study

The Pauline Cammack Circle of the Lazbuddie W.M.U. of the Lazbuddie Baptist Church met in the home of Mrs. Luther Ham for Bible Study on Monday. Those present to study the book titled "Favorite Scripture Passages" were Mesdames Carrie Withrow, W. S. Menefee, Dan Cargile, Wesley Barnes, A. E. Redwine, F. W. Greene, Bert Gordon, Raymond Houston, John Littlefield, and the hostess, Mrs. Ham.

Mrs. F. W. Greene, Mrs. Ella Mae Plummer and Dorothy Plummer visited in Hereford Tuesday with Mr. and Mrs. Ralph Paul and

family.

Mr. and Mrs. J. W. Crim and Miss Alma Hawkins returned home Tuesday after visiting Pvt. J. Weldon Crim at Fort Ord, Calif.

Mr. and Mrs. Earl Peterson visited several days in Tulsa, Okla., with Mr. and Mrs. John Vaughan. Mrs. Vaughan is the Petersons' daughter.

Jim Gordon spent the weekend in Brownwood where he attended the summer graduation exercises at Howard Payne College.

Mr. and Mrs. Luther Ham visited in Lubbock on Tuesday.

Mr. and Mrs. Max Crim of Amarillo visited his parents and other relatives on Wednesday.

Mr. and Mrs. Raymond Houston, Marie and Eugene visited the first of the week in San Angelo with Mrs. Houston's sister.

Carol Sneed of Hereford spent several days with Donna Redwine and other relatives last week.

Mesdames W. S. Menefee, Claud Heath, C. K. Roberts, T. L. Baker, and J. L. Withrow attended W.M.U. camp at the Plains Baptist Assembly grounds near Floydada last Thursday and Friday.

Rondel Long of Hereford spent several days last week with his grandparents, Mr. and Mrs. W. S. Menefee.

Mr. and Mrs. John Agee visited in Oklahoma City on Friday and Saturday with Mrs. Mary Henderson, mother of Mrs. Agee.

Mr. and Mrs. Raymond McQuery of Lubbock visited in the J. W. Crim home the last of the week.

Mr. and Mrs. Jess Pendergrass and Susan visited recently in Abilene with her mother, Mrs. L. C. Hester, for several days.

Mrs. Mae Mahon recently returned from a trip to McKinney, Texas, where she visited friends and relatives.

Mr. and Mrs. George Crain returned last Wednesday from Waco where they spent several days visiting friends and relatives.

Mr. and Mrs. John Norman Crim and Mr. and Mrs. Max Crim are vacationing this week in Dallas, Houston, Galveston, San Antonio and Austin.

Mr. and Mrs. Abe Mallouf and children left Monday for California to visit their daughter and other relatives.

Visitors in the Luther Ham home for the latter part of the week were Mr. and Mrs. Cleo James and Mr. and Mrs. Pat McShan of Bangs, Texas.

Janell Hudnal of House, N. M., visited the past week with her grandparents, Mr. and Mrs. Claud Heath and Mr. and Mrs. Delbert Hudnal.

Returning home from school this week were Miss Winnie Paul Ham, who has been attending the summer session at Texas Tech in Lubbock, and Miss Louise Ham who has been attending Odessa Junior College in Odessa.

Mr. and Mrs. J. R. Henry of Muleshoe visited in the Raymond Houston home Sunday.

Mr. and Mrs. Truman Gleason and children enjoyed a fishing trip at Lake Brownwood over the weekend.

Mr. and Mrs. George Syms and Adrian of Fort Worth visited briefly with the W. S. Menefees on Monday.

Mr. and Mrs. Dan Cargile recently returned from Fort Worth after visiting their son, Preston, and his wife and family. Danny Rue returned home with them after spending several weeks with her brother.

HD Club To Meet

The Lazbuddie Home Demonstration Club will meet September 5, at 2:30 p. m. in the home of Mrs. Junior Matthews. The program will consist of making plans for the advanced dressmaking class. All members are urged to attend and visitors are welcome.

NOTICE OF ORDINANCE

Now there came on to be considered an ordinance concerning "The Closing of Ave. 'G' between 6th and 8th Streets to traffic during School Hours".

On motion of Commissioner Meeks, seconded by Commissioner Hardage, the following ordinance was presented:

Whereas the City of Farwell desires to promote the public safety and the safety of our school children, be it ordained that Avenue "G" between the West line of 6th Street and the West line of 8th Street be closed to traffic between the hours of 8:30 a.m. and 4:30 p.m., Monday, Tuesday, Wednesday, Thursday, Friday, or such days that Public School is in session. Said ordinance to be effective Monday, September 3, 1956.

Motion passed by unanimous vote, all members present voting.

Learning To Drive Is Lifetime Job

"Learning how to drive is not a five-easy-lessons proposition—it's a lifetime job!"

That was the message to motorists today by E. C. McFadden of Dallas, Vice President of Employers Casualty Company and President of the Texas Safety Association, in connection with the vacation safe driving program which is being conducted this month in Texas by the Texas Safety Association, the Department of Public Safety and the National Safety Council.

He pointed out that the past

FROM THE AGRICULTURAL DEVELOPMENT DEPARTMENT
SOUTHWESTERN PUBLIC SERVICE COMPANY

SIMPLE, INEXPENSIVE DEVICE OFFERS 'ROUND-THE-CLOCK PROTECTION FOR BABY CHICKS

Poultry raisers can now go to bed secure in the knowledge that the safety of their baby chicks is guarded by a new protective warning device which rings an alarm bell should there be a temporary interruption of the flow of electricity.

Brooding with electric heat lamps is recognized as

a superior method of providing life-giving heat to baby chicks, and this new warning device creates still another advantage to the use of electricity. Under no other brooding method can such protection be installed with such simplicity and with such inexpensive outlay of cash.

Here's how it works: The device pictured rings an alarm bell awakening the farmer who can then take measures to protect his baby chicks. Necessary to its operation is the self-contained

mechanism which trips the alarm bell, the bell, and two ordinary A batteries. In another device available, the bell is contained within the tripper housing. Regular electric wire of proper size must be used to connect these devices to the electric circuit. Chicken raisers who might wish to build their own alarm device can do so through the use of an electro-magnet which will "break" whenever current fails to flow through it, thereby triggering the alarm system.

Although LeRoy Hutton's brooder alarm is homemade, when he saw the manufactured unit illustrated, his first words were, "Where can I buy one for my hens?" So impressed was he that he didn't even inquire as to the cost. However, the units are inexpensive and can be purchased for about \$10.00.

LeRoy Hutton raised 2,000 baby chicks under heat lamps with an automatic alarm unit. An overloaded circuit in the brooder house caused a fuse to blow, thereby interrupting the flow of electricity and causing Mr. Hutton's alarm to sound off about 3:00 a.m. the first night that his heat lamps were connected. Now Hutton rests well at night, knowing that his alarm will warn him of trouble in the brooder house.

decade has seen marked strides forward in automobile design and production, with the result that modern automobiles are faster and more powerful—and more numerous—than ever before.

"But the increased speed, power and traffic density require more control and greater skill in driving," McFadden said.

Urging all motorists to keep up to date in their driving habits, he said that many drivers on our highways today are still using driving

techniques as obsolete as the outdated model in which they first learned.

"A motorist has to be alert to rapid developments in our highway system, too, especially with so many superhighways springing up over the country," McFadden said.

"These smooth ribbon-like roads cutting across mountain and valley from one end of the country to the other are beautiful to drive on, but driving a modern high-powered car on them requires con-

trol, precision and highly developed driving skills," he said.

Pointing out that the comfort and ease of driving today has a dangerous tendency to dull the alertness of the driver to the increased dangers of modern traffic, McFadden cautioned all motorists, especially those on vacation trips, to drive safely and to keep alert at all times.

"A good motto for every motorist to heed," he said, is "Drive to Arrive Alive—Slow Down and Live."

Legumes Build Soil, Add to Pocketbook

"The complete answer to soil fertility is not found in commercial fertilizer," pointed out County Agent Joe Jones this week. It is time to seed legumes, and he is emphasizing their soil-building value.

"Commercial fertilizers are a necessity, of course, and are paying off in most cases for farmers," the agent says, "but it is a mistake to rely on them altogether for keeping your soil in top production."

Some farmers in the area already have seeded rye and hairy vetch—two of the most popular winter legumes on the Plains. General planting dates for these two soil-improving crops will last from now until about October 15.

In addition to soil improvement, vetch can be considered a cash crop, too, points out Agent Jones. Harvesting the vetch seed doesn't sound so far-fetched when one considers the coming soil bank program, and the demand that is almost certain to increase for legume seed.

Austrian winter peas are another popular winter legume in the area. The old stand-by forage crop, alfalfa, is coming in for new play as a legume. Farmers have long been aware of its soil-building characteristics, but ordinarily, they consider it an expensive crop to raise.

With the extra work necessary to ready the field so that it can be watered, and then to irrigate often, mow, rake, and bale the hay, and load it and remove it; there is a lot of elbow grease involved in producing alfalfa.

However, Jones believes that farmers are overlooking the real possibilities that alfalfa offers as a soil improvement crop alone. "It is not necessary to prepare it for harvest as hay," he says, "and it makes a very good legume."

The sweet clovers, including madrid and hubam, are two more legumes that farmers of the area have found well adapted to their farms. Ordinarily these two clov-

ers are seeded in late winter or early spring—usually February. Speaking of legumes in general, Agent Jones points out that the necessity of providing cover for the rough and windy High Plains weather should not be overlooked.

Farmers have reported success in merely planting their winter legumes in maize stubble fields, the agent explains. It is not necessary to leave the stubble untouched, but the ground should be handled in such a way as to leave enough on top for cover.

First Load Milo In Friona Tuesday

Pointing up how early some of the 1956 crop will be, the first load of milo in Parmer County rolled onto the scales of Continental Grain Company in Friona Tuesday morning at 10:05.

It came from the O. T. Patterson and son farm east of Friona. The load of Martin's milo weighed 12,280 pounds.

The Pattersons, who have 1,000 acres of grain sorghum this year, said that the first load made 4,300 pounds per acre, and that they had a "lot" of grain that would beat 6,000 pounds this year.

They didn't plan to cut any more grain this week, after the first load turned out to be high in moisture content.

The Patterson milo was planted on April 18, and in addition to a pre-watering, received three irrigations through the season.

This first load was 28 days earlier than the first load which rolled into the elevator to start the season last year.

 Clovis, N. M.

Production Rises As Acreage Shrinks In Cotton Picture

Cotton acreage has dropped in the nation 37 percent since 1951 but production by only 3 percent. In Texas, John McHaney, extension economist, reports the acreage of cotton dropped 42 percent during this same period but production only 1 percent.

Production is up because, he says, there is no better income-producing enterprise than cotton for the cotton belt. It is a dependable crop and responsive to improved cultural practices. He predicts that acre yields will continue to increase. Since 1951, nationally, yields are up 52.9 percent and in Texas 69.9 percent.

Too, production in the Far West has increased very rapidly where yields average around 700 pounds an acre. Other areas making noticeable production increases have been the Mississippi Delta, Lower Rio Grande Valley and the Texas High Plains.

McHaney points out cotton has been planted on the better land and that growers are also using better varieties, cultural methods, following stricter insect control programs, using more fertilizer and irrigation to increase production. Too, he believes, as more and more of the known production technology is applied, yields will continue to rise.

From the consumption standpoint, McHaney says cotton has not shared the increased use of fiber. In 1920, cotton's per capita consumption was 26.5 pounds and in 1954, 25.4 pounds. Per capita consumption of synthetic fibers in 1920 was only .1 pound while in 1954 it was 9.1 pounds. The per capita consumption of wool, silk and flax was 3.5 pounds in 1920 and 2.4 pounds in 1954.

Prentice Mills New ASC Manager

Prentice Mills has been named new manager of the Parmer County ASC office. Mills, who has been employed as an office manager trainee in the Parmer County office, fills the position left vacant by the resignation of Jim Whitfield.

Whitfield resigned August 1 to accept a similar position in Briscoe County.

Mills was named to fill the position by the county Agricultural Stabilization and Conservation committee last week. The appointment has been approved by the district and state committees, according to Joe Magness, chairman of Parmer County committee.

Prior to coming to Parmer County, Mills worked in ASC offices in Briscoe and Hale Counties.

Family HD Picnic Is Tomorrow Night

All Parmer County Home Demonstration Club members are reminded of the county-wide home demonstration club family picnic to be held tomorrow (Friday) night at the city park in Bovina at 7:30.

The county-wide picnic is being sponsored by the county home demonstration council and is for the purpose of acquainting all county club members.

Families are asked to bring a picnic supper and their own eating utensils. All home demonstration club members and their families are urged to attend.

 FARWELL, TEXAS

SOIL CONSERVATION DISTRICT NEWS

The Parmer County SCD Supervisors held their meeting last week. Supervisors present were A. L. Black, chairman; Joe Blair, secretary; and Matt Jesko, member. The annual SCD banquet which had been previously planned to be held on September 20, 1956, was postponed due to Friona's 50th Anniversary Celebration which is planned for the same day.

It is planned to be held later on in the year at a date yet to be decided upon.

Also during the meeting it was decided to hold a fall field day September 13, at 2 p. m. The meeting place has not been decided upon yet. We will let you know in this column next week where to meet. We plan to have about a 3 or 4 hour tour.

During the meeting two basic farm plans were approved by the supervisors. They were on the T. A. Smith and J. P. Miller farms.

"Nature does not give anything. It lends. It will continue to lend as long as the loan is returned. When nothing is paid back, nothing is lent. Nature keeps a constant balance between its income and loans. When the loans are not repaid the borrower, man, and not the lender, nature, is eliminated.

Anyone who ignores the balance of nature does so at his own peril!"

—From Our Use of the Land

Most of the trees which were planted in the district in the spring look good and are doing fine. One person who we think is doing an outstanding job is John Armstrong who lives south of Farwell. John has them in a cold frame with a slat top. They have good protection from the elements and still get plenty of sunshine.

THE PARMER FARMER

The "boys with the book learn- ing" were right.

It is a rare thing to find any farmer this year who still believes that our irrigation water comes from the Rocky Mountains or some other replenishable source, and who scoffs at the idea that our ground water is exhaustible.

Just two or three short years ago we remember hearing some rather crude remarks made about the men who are highly trained in the study of ground water, and who were warning us that our water could be used up in the foreseeable future.

All kinds of unusual stories were circulated among farmers as to the source of the water they were pumping through their irrigation wells, and it was commonly held that there was no cause for concern.

This year, more than ever before, minds have been changing on this vital subject. Literally hundreds of good wells on the irrigated High Plains have been unable to lift a pipe of water during the August around-the-clock rush to finish out crops.

Parmer County's wells are the strongest on the Plains, but even here, especially in the north and northwestern part of the county, many wells are producing at less than capacity.

As one travels east, going through the middle of the irrigation district, it is fairly easy to chart the best water in the area. Through the center of Parmer County, and on through Castro County along Highway 86, the wells are producing at maximum.

However, as one approaches the eastern part of Castro County, and proceeds into Swisher County, it

is easy to watch the production fall off. Generally speaking, the nearer a person gets to the caprock, the smaller the yield of the wells.

We hope that you do not consider us alarmists, but we want to emphasize that the weakening of the water production from east to west is spreading—more rapidly than some people realize.

The time for conservation is not when our water here on the Western Plains begins to fail—the time is now. We have an abundance of irrigation water. With sensible use and proper application, it should last for up to 40 years even if we don't find a way to recharge our supply.

We talked with Jim Terrell of Gifford-Hill Western this week. He thinks that the installation of concrete irrigation pipe is now being considered as a necessity by many irrigation farmers, rather than something simply nice to have.

A subject which has come up for considerable violent discussion in farming circles in the past few weeks has had to do with hybrid grain sorghums.

The Texas hybrids are not too easily distinguished from some of the older common varieties—such as Martin's. At least, they don't look too much different to our unpracticed eye. Maybe they do to farmers.

But the DeKalb varieties are easy to spot. The extremely loose heads set them apart from everything else. Some farmers say that these big, loose heads will close up as the grain reaches maturity.

Some say that they will remain open and will permit the air to dry the grain, and also that lice and mold trouble will be a thing of the past on this account.

Some farmers think the hybrids will produce in bulk, but that the grain won't be as heavy as common varieties. In fact you can hear just about any story you want to on hybrids this summer.

The thing to do, of course, is to wait another 45 days, and then the story will be known in full. Separate combining and weighing in is the only way to really find out how the new hybrids stack up.

No Rain—No Moisture Map.

The Eiffel Tower in Paris, France, is 984 ft. high.

The Leaning Tower of Pisa leans more than 16 feet out of the perpendicular.

SAFE - SOUND - SECURE

There are good reasons why more people insure with Farm Bureau than with any other Parmer County Agency.

LIFE—FARMER'S LIABILITY—FIRE—AUTO

THE HAPPY HOMEMAKER

It would be interesting to know how much food has been canned or frozen this summer by homemakers of Parmer County. Almost every family will be eating fruit and vegetables next winter that have been processed by various members of the family. A lot of it has been grown in our own county, too.

There has been quite a lot of discussion pro and con on the subject of eggs in the past few years. There are some who feel sure there is a difference in the taste of "caged" eggs and "yard" eggs. Then there are some who are just as sure of their position on the negative side. Frankly, we just don't know.

If you would like to have an inexpensive wading pool for your children who are not yet old enough to go to school, you may have the "makin's" right around the place. A large canvas tarp placed over a worn out tractor tire will make a very nice one for small children. The pool can be filled with the garden hose.

Some of the advantages of a pool of this type is that it can be moved easily and isn't any trouble to clean. There will be no sharp corners to injure little folks and the bottom will not be slippery. Most little folks we know enjoy playing in water and are not afraid of it unless it has soap in it.

A lot has been said and written on the art of making friends. We know, of course, that it is an important part in every person's life. Maybe some homemakers who are busy with caring for their homes and their children do not cultivate the art as much as they should.

A little poem along this line that will very much goes like this:

"Making friends is lots of fun,
 Shaking hands with everyone;
 Hearing what each has to say,
 As we meet them day by day;
 Swapping smiles and trading cheer,
 Makes us happy while we're here.

All the joy of life depends, On the art of making friends." So much emphasis has been placed on the importance of making friends to promote good business. We know that it is important from that angle, but you almost never hear anyone point out that the art is important from the standpoint of happiness. We think it should be emphasized from that standpoint, too.

In our opinion, there are a lot of homemakers (as well as people in other professions) who would be a lot happier if they had a better understanding of how to make friends. A lot of persons we have known who seemed cold and unfriendly were really just timid.

How many times do you suppose those persons to whom the phrase "stuck-up" is applied are just people who are a little timid to show friendliness? Solomon said, "The man that hath friends must show himself friendly." Could anything that we might write or say be better advice than that?

12 Wells Drilled In Parmer in July

Records at the Lubbock office of the High Plains Water District indicate that 12 irrigation wells were drilled in Parmer County during the month of July.

During the same month, 18 permits to drill were issued, which was the largest number of permits let in the District, which includes 13 counties.

Bailey County drilled 29 wells in July, Castro 15, Deaf Smith 23, and Lamb 9.

The Eiffel Tower in Paris was built for the Exposition of 1889 by Alexandre Eiffel.

8TH ANNUAL PARMER COUNTY FARM BUREAU CONVENTION

MONDAY, SEPTEMBER 24, 8:30 P. M.—BOVINA SCHOOL AUDITORIUM

Does Farm Bureau Really Represent You? Come Vote—See That It Does!

The Parmer County Implement Co. News

"The Place Where Most People Trade"

Wednesday, August 29, 1956 Friona, Texas

We have a new member in our family. She belongs to the Ben Jordans and she was born Sunday morning. Her name is Jeanne Beth and she weighs eight pounds and ten ounces. She is our third grandchild and now David, our four-year-old, insists that everybody call him "uncle David."

—P C I C N—

A survey of 1200 retail stores showed the five most popular services to be regular charge accounts, free delivery, parking lot, service for paying bills, and free gift wrapping. The Parmer County Implement offers you all these services except the free gift wrapping and we would free gift wrap one of the new Oldsmobiles for you if it weren't too beautiful to wrap.

—P C I C N—

Our Grandad, J. B. McFarland, went to visit his new great granddaughter at the hospital Monday evening. He had a little trouble getting across the new highway and ended up at the back of the hospital. He wanted to park in front where he usually parks so just drove across the lawn south of the building and the grass had been well watered. His car sank to the axle and he had to call a big winch truck to get his car back to hard ground. Anyway, he got to see his granddaughter while the truck was dragging his car out of the mud.

—P C I C N—

The world's finest combine is the International No. 141 with 76% sealed bearings, extra large capacity, power steering, and hydraulic brakes. This combine will give you cleaner threshing and longer life and the price is right.

—P C I C N—

All the white paint on the Glen Harrelson's car and their house and their neighbors' houses is the artistic work of their oldest son, Joden, who is three and can find and open paint cans that his mother has hidden.

Our friend, Mrs. H. K. Kendrick, who usually has a displaced elbow, or a sprained ankle, or an allergy, now has a new ailment that gives her a lot of trouble. On Wednesday night she was getting into bed when she felt something sting her on her arm. When she inspected the arm she had four welts on it. Deke said to her husband, "Pudge, I think a spider bit me," and fainted. Pudge called the doctor and Deke was in the hospital two days but she is home now and feeling much better, and wondering what new kind of trouble she will have next.

—P C I C N—

Have you seen the new McCormick 34F301 3-disk reversible plow? It reverses hydraulically and will plow 12 to 14 inches deep in any kind of soil. Let us demonstrate one on the new Farmall 400 with the fast hitch. We think you will be surprised at the way it will plow hard ground.

—P C I C N—

Among the new products which will probably be appearing shortly in aerosol cans are mouth and eye wash, baby lotions, toothpastes, body rubs, and a wide variety of foodstuffs. The Parmer County Implement Company has some I. H. red paint in aerosol cans that are ideal for painting small areas.

—P C I C N—

We hope you have met Friona's night watchman. He is Mr. Herman Helton from Hereford. Mr. and Mrs. Helton live in the Ray White house just west of the Friona club house. They have one daughter who is married and makes her home in Hereford. Mr. Helton will have a phone soon but if you want to get in touch with him call Mr. Jim Roberts and he can radio him since both cars are radio equipped. Mr. Helton goes to work at nine each night, not to watch your children but to help keep them and your property safe.

We have sold lots of sodium chlorate and we still have a lot to sell. From now until frost is a good time to use sodium chlorate for Johnson grass and bindweed control.

—P C I C N—

It won't be long before cotton harvest. For cleaner fields and better staple, use an IHC cotton stripper.

—P C I C N—

The Joe Douglas family enjoyed a trip to Conchas this weekend. Of course they had planned to fish, but left their bait and bait bucket home so everybody just had a good time water skiing.

—P C I C N—

For the grain harvest this fall you will probably need some new tires for your tractor, combine, truck, car or pickup. Goodyear tires—for sale at the Parmer County Implement Company—will give more wear and longer life for the money.

—P C I C N—

If you are going to need repairs for your binder now is the time to buy them. We have a complete stock on hand, now.

—P C I C N—

Mr. and Mrs. Bill Sheehan went to California last week to visit with Mrs. Sheehan's sister for a few days. Mary and Bill took their three youngsters with them and their three nieces also. The youngest child is seven months old and the oldest is nine years. Mary had planned to make the trip by herself. We don't know whether she decided it would be almost impossible to drive and care for six children or whether Bill decided he needed a vacation, too.

—P C I C N—

Corn harvesting is just around the corner. Prepare for corn picking with an International corn picker. Two-row mounted for Farmall tractors or a corn harvesting head for your combine.

NOT HARD TO SEE—This is a field of cotton that really got "chopped." To the right are several rows that were cut with a shredder about a month ago. On the left is cotton of the same age that didn't get the axe.

"Flat Top" Cotton Tried as Means Of Beating 2, 4-D

Accidental spraying of a considerable part of a 65-acre cotton patch on the farm of J. B. (John) Taylor of Friona resulted in a new approach to the problem this summer.

When weeds in feed surrounding the cotton field were doused with 2, 4-D, fumes from the spray drifted in a West Texas breeze and played havoc with Taylor's cotton a couple of months ago.

It was a severe case, and the plant hormone caused the cotton plants to behave peculiarly. Most of them took on unusual growth characteristics, and put on banana-shaped cotton bolls, twisted and pointed leaves, and grew taller than plants which escaped damage.

Taylor looked at his damaged cotton and decided the outlook was pretty grim. Apparently, he decided that he didn't have much to lose, so he tried some drastic measures. He resorted to "surgery" to remove the damaged part of the plant—just as is sometimes done in the field of human medicine.

Taking a stalk shredder, he adjusted the blades at a point about nine or ten inches from the ground. Then he hooked onto his tractor, and took off through the cotton, chopping it approximately half in two.

This extreme treatment was given 15 acres, and was tried in

several different places in order that the "topped" crop might be compared with the normal recovery from the spray that the rest of the cotton might make.

Taylor, who missed out on a cotton crop last year because of severe hail damage, now says that his crop—both the treated and untreated—is looking good. It appears to be late, however.

The topping action was taken about a month ago, and there is a distinct difference in the appearance of the field in areas where the shredder was used, as compared to normal areas.

Taylor says the idea to de-head his damaged cotton was his own, although there have been reports in circulation of other farmers who have tried similar measures.

There is not, naturally, any "top cotton" on the 15 acres. It has all been removed, and little evidence of the disfigurement that 2, 4-D leaves, remains on the plants.

The plants have continued to load up on the bottom, however, and nearly all of the bolls are normal in this new crop. The cotton is still blooming.

Taylor believes that it would be a mistake to say for certain whether his topping job was a wise move or not, until ginning time comes. Then he'll know.

The Blarney Stone is in Ireland.

NEWS FROM THE FARM BUREAU

By RAYMOND EULER

Miami, Florida, will be the destination of at least a half dozen Parmer County farmers and their wives in December, the way it looks today. They will attend the American Farm Bureau Convention the second week of the month. A special train will go from Texas, and most Texas delegates and members will probably get together on that train. We hope the number increases to a dozen or more couples.

The more farmers who know how Farm Bureau operates, and how large and important it is, the stronger will be our local membership. December is the ideal month for visiting Miami, too, they tell us. Until the train is full, any interested persons are eligible to ride it.

We'll have more details about reservations, rates, etc., in the near future.

The Farm Bureau weed committee boys have gathered and sent samples of various wheat seeds to PGC in Amarillo to have milling quality tests run. This project is for the purpose of assuring planters that the seed they plant will produce number one wheat, from the milling standpoint.

We consider ourselves fortunate. Wednesday afternoon, we were handed a nice piece of watermelon with fork and salt. Thursday afternoon, the fete was repeated. The friendly donors were first, the Gilbert Kaitwassers, and next, the Gilbert Schuelers. Neither of them admitted raising them, so don't take this as a cue to search their fields in the dark.

Here is a brief outline of the five points American Farm Bureau spokesmen handed platform chairmen of the Democratic and Republican conventions:

1. High employment, rising productivity, and good distribution of income.
2. Monetary and fiscal policies which will effectively contribute to the maintenance of a relatively stable general price level.
3. Policies which encourage foreign trade and investment.
4. Policies that encourage creation and use of private capital.
5. Preservation of the competitive principle.

Harry Hamilton, resolutions chairman, says he will welcome any suggestions from any farmer for proposed resolutions. You will also have an opportunity to present resolutions on the floor of the convention September 24. Consider this: He that turneth away his ear from hearing the law, even his prayer shall be abomination. Proverbs 28:9.

Problems of Real Attack Rehearsed

A demonstration of how a rural county near a large target city would go about caring for city evacuees was the highlight of the second meeting of the National Advisory Council of Rural Civil Defense.

Held at Federal Civil Defense Administration headquarters at Battle Creek, Mich., the recent meeting dealt with an actual "County Q" adjacent to "City P," with a population of 500,000.

Delegates from the three major farm organizations and other Council members used data from County Q in tackling such problems as stockpiling of food for the evacuees, financing of emergency operations in rural areas and radio-active fallout.

Other rural civil defense problems discussed concerned operating control centers, handling evacuees, obtaining supplies and estimating casualties.

Purpose of the demonstration was to provide the Council with more technical knowledge in deciding what a basic rural civil defense plan should include.

Cotton Growers List Reasons Why Present System Wrong

(Editor's NOTE: The following is a statement adopted by the Plains Cotton Growers early this month and forwarded to the USDA in Washington. It is a point-by-point presentation to support the Growers' reasons for requesting changes in the system of making cotton allotments).

Plains Cotton Growers is an organization representing cotton producers, ginners, oil mills, compresses, cotton merchants, and other businesses on the Plains. This organization is not a political pressure group, but an association dedicated to research, service, improvement, and promotion of Plains cotton.

We present the following points for your consideration:

1. The history of West Texas is one of constantly expanding cotton production, due to the favorable soil topography, and climatic conditions for efficient production. The trend of this expansion in 13 counties for the past forty years has been from 83,000 bales in 1915, to 897,000 bales in 1954—an increase from 2.7 percent to 26.1 percent in 40 years.

2. In 1956 the nation as a whole received an average acreage reduction of 3.9 percent. The Department of Agriculture, recognizing the national trend westward gave Texas only a 2.7 percent cut; yet the state committee did not recognize trends within the state, and gave West Texas a 7.0 percent cut, while giving East Texas a 7 percent gain, thus completely reversing trends.

3. West Texas planted all acreage possible in uncontrolled years, and all allowable in controlled years, thus building up a strong history, and decided upward trends.

4. An amount of 191,000 of these legally earned acres was taken away from West Texas by the state committee in 1956, and given to East Texas on the basis of "trend losses," and lumped along with hardships in the final figures. The Department's definition of trends, speaks only of "upward trends."

5. An additional 134,000 acres were granted to farms of 15-25 acres as hardships. The Department's definition of "small farms" to receive special treatment is up to 15 acres. We do not see on what authority the state committee gave special consideration to the 15-25 acre group.

6. The Texas state committee strongly recognized these upward trends in West Texas in 1954 and 1955 when they allocated 80 percent and 62 percent respectively of the state reserve for trends, but in 1956 they ignored trends entirely.

7. We believe the most equitable method of allotting acres is by the 5-year history. Those who plant their acreage earn this history and should retain it. Those who do not plant for reasons WITHIN their control, lose their history as the law provides. If they do not plant for reasons BEYOND their control, they are protected by the "adverse conditions at planting" clause.

8. The expansion of cotton production in West Texas did not in the least hurt East Texas, but in fact helped them; without the expansion of acreage on the Plains the total state allotment would be much less than now, because East Texas did not plant heavily even during uncontrolled years, and these acres would be lost to the entire state quota.

9. The record shows that many East Texas areas did not even plant their allotments in 1955, whereas West Texas has always planted its full allotted acres. East Texas did not plant in many cases because of the favorable prices for cattle and feed, but now that

these have declined they are asking for return of acres which they lost by default according to law.

10. The impression has been given that West Texas received a big increase in 1953 at expense of East Texas because an adjustment was made to area 1-S of 1,113,900 acres. The truth is this was an adjustment due to severe drought in 1953, and this was allotted by the USDA in Washington, and not by the state committee, and it had no adverse effect on East Texas. These represent acres which would have been planted if weather conditions had been favorable.

11. The impression has been given that hardships exist only on small or family size farms. We are in complete sympathy with family size farms and their problems, and recognize they do have hardships, but we also claim that hardships also exist on larger farms as well. Higher fixed costs, equipment and land investments, and greater expenses occur. Reducing acreage raises costs per unit of operation to a high degree, efficiency is reduced, and cotton becomes less competitive to synthetics and foreign production.

12. The policy of extracting acreage away from natural trends will lead to nothing but small farms, a situation certainly not intended by the law. The present average cotton farm across the nation now is only 17.5 acres, this average being composed of many small ones and a much smaller percentage of large ones. If carried too far, the taking away from the large to give to the small could lead to only one situation—that is, we would all be 15 acre farmers—and this certainly is not the intention of the law.

13. West Texas does not have representation of a cotton producer on the state committee. It is not democratic that such a large and important cotton producing area should go completely without a voice on the committee.

14. Many West Texas counties have no irrigation water, and their yields per acre are very low. It, therefore, required many more acres to make an economic unit.

15. West Texas has been reduced drastically more in acreage than other parts of the state, as evidenced by county figures which show percentage reductions of 1956 under 1953, the last year of uncontrolled acreage.

16. The state committee has been very inconsistent with respect to distribution of reserve, as follows:

In 1954 they allotted 80 percent of reserve for trends.

In 1955 they allotted 62 percent of reserve for trends.

In 1956 they allotted 0 percent of reserve for trends.

We see no change in the general situation which would justify this.

In 1954 no provision for hardships in the law.

In 1955 they allotted 19 percent for hardships.

In 1956 they allotted 63 percent for hardships.

We see no change in the general situation which would justify this.

17. The adjustments for small farms during the controlled acreage years are as follows:

1954 _____ 123,239 acres

1955 _____ 123,434 acres

1956 _____ 255,063 acres

3 Yr. Average—167,245 acres.

Equivalent to—2.25 percent of state allotment.

18. Our position is supported by the Plains Cotton Growers, the West Texas Chamber of Commerce, the Trans-Pecos Association, and by the Farm Bureau (a state-wide organization) which has made it an official state policy to ask that the state committee be permitted a maximum of 2 percent for ALL purposes.

19. Ten percent of 7,400,000 acres is a tremendous responsibility to put on a committee, especially with the wide variations which exist in the state of Texas. What group of men is really qualified to allocate such important amount of land and money? Granting full good faith, the relieving of one hardship only serves to create others. With such tremendous amount at stake, the pressures on the committee make it impossible to allocate acreage fairly.

20. Reduction of the percentage which the state committee may reserve is the best way to assure fair and equitable distribution of the state allotment. This reduces the bulk of the distribution to an arithmetical formula based on earned history, and will reduce contention, misunderstanding, possible law suits, and all other difficulties contingent to distribution of a large state reserve.

Plains Cotton Growers Request Allotment System Be Changed

Plains Cotton Growers, an organization of farmers and businessmen in the cotton business on the Plains, has requested the Commodity Stabilization Service to make some alterations in its methods of determining cotton allotments next year.

"We believe our suggestions will give a fair, equitable, and reasonable distribution of the state acreage reserve," says Arlin Hartzog, member of the group, and president of the Parmer County Cotton Improvement Association.

These things are asked of the secretary of agriculture:

Placing a limit on the state ASC committee of 2 percent of the total state allotment to use in all adjustment categories, except small farms.

Limiting the committee to 2.25 percent for small farm adjustments.

Appointment of a West Texas cotton producer on the state committee.

The Texas Plains now has no representation on that board.

Hellgate Bridge extends across the East River in New York at Hell Gate.

Mont Blanc is the highest peak of the Alps.

THE H. D. AGENT'S CORNER

Jimmie Lou Wainscott

Are you using the new one step cold pack method for canning certain vegetables? It's much easier and the vegetables taste and look much better.

Fresh lima beans, snap beans, carrots, cream style and whole kernel corn, English peas, black-eyed peas and summer squash may be canned by this method.

The directions for preparing green beans are as follows:

Wash beans. Trim ends. Cut or snap into one half inch pieces. Pack raw beans tightly to within one half inch of the top of the jar. Cover with boiling water, leaving one half inch space at the top of the jar. Add one half teaspoon of salt to pints, or one teaspoon salt to quarts. Close with two piece, self sealing closures. Process in pressure canner at 10 pounds pressure (240 degrees), pints 20 minutes, quarts 25 minutes.

Remember that for elevations of 3000 to 5000 feet the gauge must read 12 pounds instead of 10.

If you would like instructions, call, write, or come by the office and we will give you the new bulletin, N. P. 160, One Step Cold Pack Method.

"Older and wiser," is no wise crack; it's a scientific fact.

This is one of the points brought out in a review of research dealing with the effect of aging on personality and intelligence by Dr. E. V. Pope of Washington, D. C.

Intelligence actually increases in some areas as a person gets older, according to Dr. Pope. A recent study shows this is particularly true of the kind of intelligence involved in judgment or concept mastery—the integration of experience and knowledge. He points out that researchers are forcing us to change traditional notions about older people, especially the one that they don't learn readily.

CHARGE IT PLEASE.

Those seemingly magic words may mean trouble sooner or later for families or individuals who use them thoughtlessly. Mrs. Eula Newman, extension home management specialist, says there are many things to consider.

First of all, consider the product you are buying. It should last far beyond the time it takes to make the last payment. In that way you get the service out of a product while you pay for it.

It is a good principle to pay cash for quickly consumed goods.

Consider your resources or ability to repay. Prompt payments build good credit references.

Teachers' Society Prexy At National Convention

Members of the Delta Kappa Gamma Society, an international honor society for women teachers, recently held dedication ceremonies for the new National Headquarters Building in Austin.

Attending was Mrs. Charles Welker, Dimmitt, president of Delta Zeta, local chapter.

From Austin, Mrs. Welker went to New Orleans, La., where she attended the National Convention of the Society. The convention was attended by 1,467 members. Miss Margaret Boyd of Ohio, a member of the World Organization of the Teaching Profession, was named the first international president of Delta Kappa Gamma.

Parmer County teachers who belong to the Delta Kappa Gamma Society are Mrs. W. E. Williams, Mrs. Aubra Ellison, Miss Grace Paul and Mrs. Frank Truitt of Bovina; Mrs. Francis Fields of Friona; and Mrs. Cleo Milford, Mrs. Alice Tucker, and Mrs. Harry Whitley, all of Farwell.

PIG CROP DECREASES

A drop of eight percent in the nation's spring pig crop and an indicated reduction of seven percent in the number of sows to farrow this fall promise some relief for swine prices, says John G. McHaney, extension economist.

Early results from beef cattle performance demonstrations are a strong indication that rapid progress in beef cattle improvement can be made in both weaning weight and conformation grade of calves when such a program is put into operation.

4-H Vows Year Round Safe Driving

More than two million 4-H boys and girls have tied a string around their finger that may save their lives. Sparked by the eight top 4-H safety winners of General Motors college scholarships, these vigorous teen-agers have promised President Eisenhower to constantly remind themselves to make every day "Safe Driving Day."

And he, in congratulating them, declared that "4-H Club members can contribute much in their own driving and in their influence with others toward this goal."

The national winners met newsmen in Chicago at the 34th National 4-H Club Congress to which they and 33 other state 4-H Farm and Home Safety winners received all-expense trips from GM.

Urge Better Roads and Better Highways

"Traffic carelessness is the number one danger in farm areas just as in the city," they agreed. "The highway death toll can be cut only if we insist on better roads and better driver training to keep pace with today's better cars."

A typical national winner was Frankie Keith, 17 of Frederick, Oklahoma, who has been broadcasting a 15 minute traffic safety program over a local radio station for the past two years.

"I urge everyone to practice Christian driving," she said. "Let's put the Golden Rule to work on America's Highways."

Keep Community Accident Conscious

Other national scholarship winners are Clifton Benton, 17, Covington, Ga.; Leo S. Mann, 18, Otterbein, Ind.; Carl W. Bond, 18, Colfax, Iowa; La Donna Dirks, 17, Dodge City, Kansas; Mary Burwell Davis, 18, Warrenton, N. C.; Clayton Senecal, 15, Rutland, Vt.; and Peggy J. Hansen, 17, Lusk, Wyo.

Nine times more 4-H youths are active in safety work today than when General Motors first became awards donor for the program 11 years ago. Leaders expect this "safety army" to continue growing.

FALL SEEDING BEST

Fall seeding is best for establishing alfalfa stands. A soil test will show what fertilizers are needed by this favorite forage crop. The seedbed should be firm, clean and moist and only certified seed should be planted, says E. M. Trew, extension pasture specialist.

Mrs. Milstead's Sister Buried In Alabama

Mrs. Alton Milstead returned to her home in Farwell on Saturday night after having been in Rising Fawn, Ga., to attend the funeral of her sister, Mrs. Audrey Ann Gledhill, who died at Rising Fawn on Monday night of last week.

Funeral services were held for the 32 year old woman at the Mt. Carmel Baptist Church at Head River, Ga., on Thursday afternoon at 2 o'clock. Interment was in Sulphur Springs, Ala. Mrs. Gledhill had been seriously ill for several months.

Survivors besides Mrs. Milstead include the husband, Neil C. Gledhill, one son, Neil Gledhill Jr., three daughters, Wanda Kay, Alice Fay and Margaret Ann; her father, Homer E. Lee of Rising Fawn; one brother, Robert Lee of Trenton,

Ga., and two sisters, Mrs. Kathleen Forster of Rising Fawn, and Mrs. Parks Roberts of Chicago.

Lazbuddie Football Workouts Begin

Football workouts for about 30 boys started at Lazbuddie School on Monday of this week and both early morning and evening sessions have been conducted this week. When school starts next week, one session daily will be scheduled.

Lazbuddie gridders start playing 11-man football for the first time this year and open the season at home next Friday night against Friona's B team. Not only does Lazbuddie go into a new conference this year, but they also will have a new coach, George Washington who comes to Lazbuddie from Oklahoma, will handle the reins of the Longhorn aggregation.

Lazbuddie will be in a Class B conference along with Whitharral, Amherst, Happy, Hart, Bovina, and Kress.

Complete schedule for the season is as follows:

- Sept. 7, Friona B, here open
- Sept. 14, New Home, there
- Sept. 21, *Whitharral, here open
- Sept. 28, Farwell, here
- Oct. 5, *Amherst, here
- Oct. 12, *Happy, there
- Oct. 19, *Hart, there
- Oct. 26, *Bovina, there
- Nov. 2, *Kress, here
- Nov. 9, *Denotes conference games.
- Nov. 16, *Denotes conference games.

TEXICO BAPTIST NEWS
Rev. C. C. Morgan, Pastor

Good attendance was reported at both worship services at the church Sunday with 165 present for Sunday School and 92 at training union.

Good crowds have also been attending the revival which got underway at the church last Friday evening. Claude Farris Jr., evangelist, is preaching at the revival. Everyone is cordially invited to attend all services.

WMU and Auxiliary meetings were not held this week because of the revival.

On Tuesday, September 4, the church will be hostess to the annual associational meeting. Association-

through September 9. Rev. Bryant is a graduate of Southwestern Theological Seminary in Fort Worth and has done missionary work in the Bahama Islands.

Morning services will begin at 8:30 on weekdays and regular worship hours will be observed on Sunday. Evening worship begins at 7:30 with prayer meeting and booster band being held at this time. The evening preaching service will start at 8 o'clock.

Rev. Pond extends a cordial invitation to everyone to attend any or all services.

Basketball Workouts Set For Farwell Girls

About 20 girls are expected to report for practice for the senior high basketball team at Farwell this season, says R. B. Tucker, coach, who requests that all girls interested in coming out for basketball bring workout clothes and be prepared for working out on Monday, September 3, the first day of school.

Tucker says about 18 girls are expected to be out for the freshman squad this year and that there are about 30 girls on the grade school roster for the coming season.

Returning lettermen for the senior high squad include Mary Ann Walls, Angela Williams, Betty Smart, Phyllis Magness, Doris Pond and Jeanette Hughes, all seniors, and a junior, Naomi Hubbell.

NOTICE TO BIDDERS:

The Commissioners Court of Parmer County has authorized me to advertise for bids to be opened at the regular meeting of September 24, 1956 on the following machinery, to wit:

One Tandem drive motor grader with 115 hp. engine and with 13.00x24 10-ply tires on all wheels. Grader to be equipped with steering booster, cab, cab heater, 12-foot moldboard and two 2-foot extensions.

The county will offer in trade as part payment an Allis-Chalmers Motor Grader Model AD-40,

Serial Number 116, located in Precinct 4 of Parmer County, Texas.

The county will issue warrants not to exceed \$7,000 to have final maturity date of not later than April 15, 1959 bearing interest rate not to exceed 3 percent.

The Court reserves the right to accept or reject any or all bids.

Mrs. Maude Brown's Condition Unchanged

Mrs. Maude Brown, who has been seriously ill for the past few weeks, plans to go to Oklahoma City within the next few days to consult a specialist concerning her illness.

Mrs. Brown was taken to Amarillo early Tuesday for an examination and observation and returned to Farwell late Tuesday afternoon. Her illness has not yet been diagnosed and family members say her condition is unchanged.

FARWELL BAPTIST NEWS
Rev. E. J. Keith, Pastor

Attendance at Sunday's services was low. Each member is urged to be back in his place at the church next Sunday.

A good crowd attended the services at the church Sunday afternoon when Nathan Harding was ordained by the local church. Rev. Melvin Fields of the Friona Baptist Church questioned the candidate, and Rev. Abe Hester, pastor of the College Avenue Baptist Church in Lubbock, preached the ordination sermon.

Six members of the WMU met at the church Monday morning for Bible Study.

Regular meeting of the Brotherhood will be held Monday evening, September 3, at the church. Election of officers will be held and all

men of the church are invited to attend.

CARD OF THANKS

Illness such as I have encountered the past months brings home to me the dearth of friendship. It is impossible to tell you how much the words of encouragement, the cards and letters and all the acts of kindness from my friends, have meant to me.

My thanks to everyone and may God bless each of you. My thoughts are often with you.

Maude Brown

Farwell Homecoming is November 24. Make plans to attend now.
