

DISPLACED JAPANESE . . . Among the war orphans back from Mukden and Hsinking area pictured arriving at Shinagawa station is Ishiko Hosoda, 10, right, carrying the ashes of her mother in a white bag around her neck.

Heart Victim Buried Sunday Afternoon

Funeral services for N. M. McCurdy, 51, were held at the Lazbuddy school house last Sunday afternoon by Howard Stubblefield, Church of Christ minister, and burial took place in the Lazbuddy cemetery.

McCurdy, who had been a resident of the Lazbuddy community for 20 years, died of a heart attack last Friday afternoon, while engaged in hauling feed to cattle which were grazing on open wheat fields. Cliff and Cantrell, a 15-year-old lad, who was accompanying McCurdy on the feeding mission, said that the truck of bundle feed became stuck in a snow bank and McCurdy was working to get the truck out when suddenly stricken.

Young Cantrell went to the McCurdy home, 1 1/2 miles distant, to summon aid, and when members of the family reached McCurdy's prostrate form he was apparently drawing his last breath.

Haskell McCurdy, only son of the deceased, said that his father assisted him in working on a windmill in the forenoon and ate a hearty dinner. The older man made no complaint of feeling ill, the son reported. He added that his father had been affected with a weak heart for some time.

Of his immediate family, McCurdy is survived by his wife; one son, Haskell, a member of the U. S. Marines; and one daughter, Mrs. Jack Smith, Lazbuddy. Other survivors include one brother, Dee McCurdy, Bells, Texas and six sisters, Mrs. Lena Dixon, Oklahoma City; Mrs. Walter Engram, Whitewright; Mrs. Lena Engram, Blue Ridge; Mrs. Nora Webster, Whesminister; Mrs. Edna Martin, Oklahoma City; Mrs. Sweet Giles, McKinney. Two grandchildren, Katherine and Beverly Smith, are also listed as survivors. Aside from the Lazbuddy relatives, only Mrs. Dixon and the brother, Dee, were able to attend the funeral services.

COUPLE OVERCOME BY GAS

Mr. and Mrs. Woodie McDermitt, of the City Cleaners, were slightly gassed last Friday morning, when found by Mrs. McDermitt's sister, Miss "Snooky" Birchfield. Both became unconscious with the first contact of fresh air, and although feeling slightly sick, no medical treatment was necessary. The couple was overcome by lack of oxygen, occasioned by sleeping in a tightly closed room with an open fire.

DUNNS TO MAYOS

Mr. and Mrs. Jack Dunn departed Tuesday for Rochester, Minn., where he will enter the Mayo Hospital for a checkup and possible treatment. The Dunns, who have been making their home in Hot Springs, Ark., for several months, have been visiting relatives and attending business matters here the last few weeks.

Even a good egg has to be careful when the wife is boiling.

Abie Writes "30" To Newspaper Career

Mrs. Abie Crume, who has acted as combination reporter-linotype operator on the staff of The Tribune since the fall of 1932, is this week writing "30" to her newspaper career.

While the editor and staff will make every effort to get all local news as in the past, we ask your forbearance until we either (1) get another reporter, or (2) learn to take care of all the rounds. Any news items that can be turned in to the office will be greatly appreciated.

Asked about future plans, Abie grinned and said that was in the hands of Dr. Stork.

NEW TEACHER AT FARWELL

Mrs. Mike Tarantola, from Weatherford, Texas, was installed as instructor Monday morning at the Farwell schools. Mrs. Tarantola, whose husband is going overseas, is residing in the home of her sister and brother-in-law, Mr. and Mrs. C. E. Leach, of Farwell.

She is a graduate of North Texas State Teachers College at Denton, and beginning at midterm, will teach American History, Typing I, 8th grade Math, 8th grade English and sponsor the girls physical education department.

Mrs. Tarantola succeeds Miss Betty Rose, who tendered her resignation last week, after having served here since the opening of the current term.

EXES POSTPONE BANQUET

The Texico High School alumni banquet and reunion, scheduled for Thursday evening of last week, was called off due to the heavy snow which made it impossible for many of the exes to be in attendance. Joe Blair, president of the alumni association, said Monday that no definite new date had been set for the get-together. He indicated, however, that hopes for holding the banquet had not been entirely abandoned.

HUDSON IN CRUCES

Tom Hudson, of the Texico faculty, was in Las Cruces the first of the week, attending a meeting at which arrangements were outlined to move him to Clovis, move ag man Staley from Clovis to Las Cruces, and relieve L. C. Dalton, of the A. & M. staff, for field work. Hudson will likely go to the Clovis position the first of next week. Horace Woodburn, of Mountainair, has accepted the position of ag supervisor in the Texico school, but it was not known today whether he would take over his duties here next Monday or on January 20th.

MINOR ACCIDENT IN TEXICO

An unidentified truck, headed east, ran into a high line pole in front of the State Line wrecking yard, Monday evening about 8 o'clock, doing only slight damage to the truck but snapping the pole in half and putting out lights in the immediate area. Cause of the accident is unknown.

Brisk Snowstorm Ushers In New Year

January Court Term to Open Monday

Do You Want to Die Tonight?

Just Get Careless About Gas!!

Do you want to die tonight? If you aren't ready to meet the Grim Reaper, then take cognizance of the fact that a fire in your sleeping quarters is almost a sure invitation to death, and take a few precautionary measures—even if it means a mountain of blankets to keep you warm.

There have been a number of accidents—some deaths and some near deaths—during the recent cold weather, due to gas fires. Most of them, fortunately, have been minor, but other victims of carbon monoxide have not lived to tell the story. In several cases where the victims were not overcome, they owed their lives to the timely visit of a neighbor or relative.

You can't depend upon your nose—no matter how sharp you may believe your sense of smell to be—because carbon monoxide gas is odorless, colorless and tasteless. Victims who recuperate report that the gas made them stupid to the extent that although they realized something was sadly wrong, they didn't seem to be able to do anything about it. Even when carbon monoxide does

not form, a fire in your bedroom is dangerous. Tightly closed rooms are death traps as an open fire uses up the oxygen, leaving none for the sleeper.

Here are a few other tips: Poorly adjusted stoves may go out when gas pressure is low, and when the pressure comes up, unburned gas may escape to be breathed in by the sleeper. You may—or may not—wake up!

Have your home furnaces thoroughly checked, properly cleaned and installed, to prevent clogged flues. Such a condition in the flue simply forces carbon monoxide back into the house.

If you insist upon a warm house, at least be careful. Have your fires sufficiently high to prevent them "gasping" out, check all stoves to see that the mixture of air and gas is correct for sure burning, and just in case you might have overlooked some point—leave a window slightly open near where you are sleeping, to bring fresh air into the room.

And last but not least—don't rely on your conviction that accidents always happen to the other fellow.

Incorporation Vote At Bovina, Jan. 18

Responding to a petition presented him by citizens of Bovina, County Judge A. D. Smith has called a special election for the town of Bovina, at which time the voters will decide on the issue of incorporating the town.

The special election date has been set for Saturday, January 18th, and the voting booths will be opened at the school house. The polls will be open from 8 a. m. to 6 p. m.

The motivating influence behind the incorporation move is a desire to provide means of affording Bovina with an adequate water supply. Supporters of the incorporating idea, it is reported, are looking forward to the issuance of a bond issue, the money to be used in installing an adequate water distribution system. Supporters of the move contend that Bovina has been handicapped in its growth for many years due to the shortage of water facilities and lack of fire prevention.

Judge Smith stated today that legally qualified voters who reside inside the proposed corporate limits of the town of Bovina are eligible to vote in the election. "It is not required that the voter be a taxpayer," he added.

Building Program Is Launched By Legion

Determined to erect a Legion Hall in Farwell, members of the local American Legion Post, though small in number at present, have projected a building fund program that they hope to see completed within the next few weeks. Legion Commander Paul Wurster said today that they have set their goal to have the necessary funds in hand "within a couple of months".

Asked about a building site and other details, Wurster said that the first objective was to raise the money, and estimated that not less than \$3000 would be needed.

Due to weather conditions, only a few of the Legionnaires were present at the meeting held last Thursday evening at the courthouse, and another called session has been announced for Thursday evening of this week, at 7:30, at the same location.

"We find that the business men are getting behind our program with a splendid attitude," Wurster said, adding that professional men realize that a Legion Hall here will be an asset to the community. Already, the commander said, several 50 contributions are in prospect for the building fund.

Taking over his official duties in Parmer County, District Judge Harry Schultz, of Dalhart, will be on the bench next Monday, January 13th, when the January term of district court opens in Farwell at 10 o'clock. County and District Clerk Loyde E. Brewer reported today that the grand jury had been called to appear for the opening morning of the term, but added that it would be decided by Judge Schultz as to whether or not a petit jury will be called, after the initial day.

Twelve civil suits and two tax suits are on the docket for the coming term of court, as follows:

Oscar Pope vs. Homer McKenzie, damages.

Jack Woltman vs. O. M. Franklin Serum Co., damages.

A. T. Stowers vs. Janett Stowers, divorce.

Mack L. Bainum vs. R. Connelly, et al, Trespass to try title.

Josephine Hudson, et al, vs. Thirza Hudson, et al, partition.

Florence J. Parr vs. J. W. Parr, possession.

Eva Louise Miller vs. Carl Lee Miller, divorce.

Willie Norton Smith vs. Frank Smith, divorce.

Henry N. White vs. Mabel L. White, divorce.

Chester Cranfill vs. Bertha Cranfill, divorce.

Willis M. Parker vs. Joseph C. Winn, et al, TTT.

Kenneth Grissom vs. The Unknown Stockholders of the Oklahoma State Bank of Fredrick, Okla., et al, TTT.

The State of Texas vs. Felix N. Strickland, et al, delinquent tax suit.

The State of Texas vs. J. T. Suits, et al, delinquent tax suit.

Called to appear on the 13th for grand jury duty are:

C. M. Henderson, Sterlyn Billington

Clyde Hays J. I. Gober

M. L. McFarland, Joe Wilson

J. L. Shaffer, Floyd Schlenker

Frank P. Wilson, J. T. Jones

Carl G. Davis, Roy White

Carl Maurer, Joe Poindexter

Garvin Thorn, Clyde Magness

Semester Exams In Order This Week

Both schools of the twin cities have announced that their first semester examinations of the 1946-47 year will be given this week end.

Supt. H. A. Clift of the Farwell schools stated Monday that students of that school would take their morning classes exams on Thursday, while exams for afternoon classes would be taken Friday.

Superintendent of the Texico schools, B. A. Rogers, said early this week that their examinations would also be taken the later part of the current week.

Both schools are using the first of the week as a reviewing period to be in readiness for the approaching tests.

CAGE TOURNAMENT IS CANCELLED BY SNOW

The scheduled cage tournament at Oklahoma Lane failed to materialize last weekend, when the weatherman turned thumbs down on travel and dumped a good covering of snow over this region Wednesday night and Thursday.

Coach Jack Williams, of the Farwell school, said today that he understood the tournament might be held the last weekend of this month, but nothing definite could be learned.

The large majority of teams have practically full schedules for the season and it may be that brackets will have to be re-drawn, if the tournament is held at a later date.

New Job Puts Clerk Into Sickroom

It may have just been the weather, but friends of Loyde Brewer, new county and district clerk, who took office on January 1st, are having quite a laugh at Brewer's expense this week.

Taking over his new duties on Wednesday, Loyde lasted only through Thursday, when he went home and spent the remainder of the week flat on his back. He was on the job Monday, reporting that he hoped to be able to stay with his new duties.

Dressed in clouds of swirling snow instead of the traditional diaper, Young 1947 made his appearance here last Wednesday, accompanied by a brisk north wind and falling temperatures.

Not until Monday did this region of the Texas and New Mexico Plains begin to emerge from the most severe cold snap and snowstorm of recent years. On Monday, temperatures began to climb to a comfortable reading after four days of extremely cold weather that found the mercury hiding below the freezing mark and sinking under zero on occasions.

Thursday and Friday were the coldest days, with the readings at zero and minus three degrees early on these respective days.

The cold weather was ushered in on the heels of a snowstorm which arrived here late last Wednesday afternoon and continued during the night and part of Thursday, leaving a 4 1/2 inch covering on the ground.

The extremely low temperatures caused the snow to freeze to pavement, rendering travel exceedingly dangerous and slowing traffic to a snail's pace. No serious traffic mishaps were reported, however.

Bus schedules were interrupted and did not get back to normal until Monday afternoon. School buses of the Farwell school halted their runs until Monday, but the Texico buses continued to operate, although behind schedule.

Only a small amount of drifting was reported on country roads to block traffic, but in some instances the drifts were reported to be from two to three feet in depth.

Stockmen Are Busy
The snow storm caused stockmen grave concern, as they began hauling bundle feed and hay to the thousands of head of livestock now wintering on the wheat fields of this area. Bundle wagons and trucks made their way to the fields with little difficulty—thanks to the frozen ground which held up under the heavy weight.

Triplett & Pringle, of Bovina, who have about 7000 head of cattle grazing on wheat in Parmer and Curry counties, reported little difficulty in reaching their stock with supplementary feed.

"Our greatest trouble was water," Bob Pringle reported, adding that drinking water for the stock was cut off when windmills froze and ceased to function. Livestock losses from the storm were "very light", Pringle said, adding that not more than 25 head had succumbed. These, he explained, were among the cattle that had been brought here from South Texas, and were unaccustomed to cold weather.

B. N. Graham, secretary of the local waterworks, reported that a number of freeze-ups had been reported in the plumbing of local water users, but there was no general interruption of service.

Farmers agree that the wheat, which Sunday afternoon began to show a bright green face through the melting snow, will be greatly benefitted from the moisture resulting from the snow, and are looking forward to a good wheat yield this summer.

New County Clerk Is Vet Administrator

Loyde A. Brewer, newly elected County and District Clerk, who assumed office on January 1st, has been named Parmer County Veterans' Administrator by the County Commissioners Court, and he assumed these duties in connection with his official duties as Clerk.

Brewer, who is a former GI, succeeds former Clerk D. K. Roberts, who also served as Veterans Administrator during the past several months, following his appointment by the County Commissioners.

Veterans desiring aid or any information may contact the new Administrator at the county courthouse in Farwell.

LES MEANS IMPROVED

Les Means, operator of the Home Grocery & Market in Texico, is able to be home after receiving treatment in a Clovis hospital the latter part of last week. Means has been an asthmatic sufferer for several years and contracted cold last week to add to his misery.

G. L. Nicewarner, another asthmatic patient has also been rather poorly the past several days.

ESCAPE IN FRANKFURT . . . Although it must seem unusually tame to people who have looked aghast in terror as Allied bombers showered down their loads of death and destruction, the aerial show in battered Frankfurt proved a main attraction for war-weary citizens who tried to forget a multitude of troubles that beset them.

BETTER U. S. EATING MEANS MORE MARKETS

Feeding the American people is the farmer's job. So how well the American people are fed has a lot to do with the markets farmers can find for their products. Nutrition programs of the Department of Agriculture are aimed at better standards of diet—which mean greater demand for farm products and more money in the farmer's pocket.

Here's a summary of programs now being operated by USDA:

School Lunch:—Aimed at providing school children with nutritious meals, it also helps form good eating habits. Federal aid for school lunches has continued and expanded for 11 years. With the enactment of the National School Lunch Act this spring, Congress put the work on a permanent basis. All 48 States, the District of Columbia, and the territories have now signed school lunch agreements.

Direct Distribution:—Through this program the Department distributes fresh fruits and vegetables and other food purchased in connection with price-support operations. Commodities are turned over to schools for use in school lunches, or sent to institutions or welfare recipients. Has a stabilizing effect on market prices at time of peak production.

Home Food Preservation:—More than 6,000 community canning centers have been established through this program. Through these centers, local surplus foods are saved for family and school lunch use. Program is used to prevent food waste in peak production seasons, and provides means for canning commodities bought by USDA under the Direct Purchase Program.

Industrial Feeding:—Chiefly a coordinating program designed to extend the knowledge and practice of good nutrition. Machinery is provided through which all agencies in the field of nutrition can bring their educational resources into line with a common objective.

HOME TOWN DENTAL CARE AVAILABLE

Home town dental care for veterans with service-connected disabilities is now available in Texas, Louisiana and Mississippi, the Veterans Administration has announced.

Under the program, all veterans entitled to out-patient dental care at VA's expense have free choice of dentists participating in the project where VA dental clinic service is not available.

Veterans must obtain authorization for this local treatment from the VA regional office having jurisdiction. Regional offices in the Dallas Branch Area are located at Jackson, Miss.; New Orleans and Shreveport, La.; and Dallas, Waco, Houston, San Antonio and Lubbock, Texas.

Midget - - But Plenty Hot!

CHICAGO, ILL.—So small you hardly know it's there, this little model in front of the radiator (not the one on the left), displaces larger units and provides heat for 2½ rooms. Its many types of installation make it the most versatile in today's home-heating field. Stewart-Warner's new midget furnace is a self-contained, gas burning unit, installed by one man in three hours. It requires only a gas and an electric connection, and an air duct to the outside. Weighing about 70 pounds, it can be recessed in a room wall, ceiling or floor, or between two rooms giving ample warm air to both. It features automatic modulation to a pre-set temperature, warmed air propelled by blower, and a sealed flame. It is an adaptation of heating principles used in aircraft during the war.

CANYON BOYS DISCIPLINED

CANYON.—Officials of West Texas State College cracked down Saturday on two leaders of a student strike which closed the school in mid-December.

President J. A. Hill said Tiny Teague of Phillips, a prelaw student and strike leader, had signed an agreement apologizing for his part in the strike and pledging not to re-enroll at the school for the spring semester.

Jess Armstrong of Wellington, another leader of the strike which involved 1,200 students and led to an order from the board of regents closing down the school, said Saturday he had refused to sign an identical pledge. He was told, he said, that he could finish the semester by correspondence.

President Hill of the now reopened school said he personally drafted an agreement signed by Teague before the strike leader returned to his classes.

Under the pledge, Teague promised to refrain from criticizing the school or its officials, to work against any future student uprising and to leave the campus at once if he breaks the agreement in any way.

while finishing his term.

President Hill said other leaders of the strike—most of them former GIs—were being dealt with in individual conferences and that he was not seeking mass signing of the agreement.

The student went on strike and picketed class buildings on December 12 in a demand that the school's business manager be fired.

GET DISABILITY PAY

Approximately 131,000 veterans in Texas, Louisiana and Mississippi were receiving monthly payments at the beginning of December as a result of disabilities incurred during World War II.

The average monthly payment for the disabled veterans is approximately \$42, VA said. Of the 261,664 claims filed by World War II veterans in the Dallas Branch Area, 115,572 had been disallowed and 10,515 were pending.

Creases and matting in heavy blankets and rugs after laundering can be prevented by hanging them wet to drip dry rather than attempting to ring them out.

BUILDING PERMITS ON DECLINE IN STATE

AUSTIN.—Building permits in 46 Texas towns declined sharply in November according to The University of Texas Bureau of Business Research, dropping 29 percent from October.

Permits totaled \$11,800,290 for the month, which was only an 11 percent decrease from November 1945 for the towns reporting.

Without exception, the largest Texas cities showed decreases in permits for November.

Sherman, leading in cities reporting increases over October, has a 161 percent rise. Childress followed with a 105 percent rise, Brownsville reported a 95 percent gain in permits, Lubbock, a 72 percent increase, Seguin reports reflected a 54 percent gain, and Coleman permits rose 53 percent.

Permits granted continued more than double pre-war levels, however, in spite of the drop for the last two months. In November building permits were 162 percent above the average month of the basic 1935-39 period. The seasonally-adjusted index was 262 for the month of November, lowest of the year except for permits in May, when the index registered 242.

SYNTHETIC MOTOR FUELS

The U. S. Department of Agriculture's Northern Research Laboratory at Peoria, Ill., is experimenting on the practical production of synthetic liquid motor fuels from vegetable farm wastes, particularly corn cobs of which a ton may produce as much as 100 gallons.

RECUPERATING VETS MAY GET FURLOUGHS

Veterans Administration hospital managers have been authorized to furlough patients, whose treatment can be completed out of hospitals, to make beds available for other veterans awaiting hospitalization.

Those furloughed will be treated on an out-patient basis. Service-connected cases will be treated at VA clinics or on a fee basis by private doctors at government expense. Non-service-connected cases will be treated only at VA clinics and must pay

their own transportation or other expenses.

As of November 30, approximately 3,000 veterans were waiting hospitalization in Texas, Louisiana and Mississippi. Otherwise, only one was service-connected.

DON'T MIX DDT

DDT should not be mixed with whitewash nor applied on freshly whitewashed surfaces as fresh whitewash is likely to be sufficiently alkaline to decompose the insect eradicant.

WTCC Urges Education In Federal Taxation

ABILENE.—The West Texas Chamber of Commerce announced today it was urgently calling on the Texas delegation in the 80th Congress, convening January 3, to "immediately and forthrightly start working for drastic reductions in federal expenditures, specifically for an over-all budget not exceeding \$25,000,000,000 in the 1947-48 fiscal year."

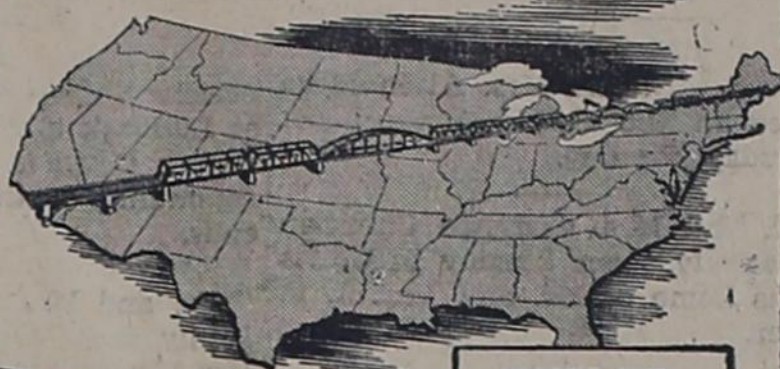

The plea was contained in personal letters to the national legislators, signed by WTCC President H. C. Custard; Jas. D. Hamlin, Public Expenditures and Legislative Commission chairman; and Manager D. A. Bandeen. It was based on action taken by the regional chambers' annual assembly November 8 following meetings by more than 100 taxpayers groups over the West Texas area during October. From these gatherings came the adoption of an 11-point "Taxpayer's Code of Ethics" declaring opposition to "big, wasteful, centralized and bureaucratic government as Public Enemy No. 1" and pledging individuals and organizational effort in working for a law holding federal expenditures to no more than 25 percent of the national income. A copy of the code was sent to each member of the Congressional delegation.

The government's budget for the fiscal year ending June 30 next is approximately \$41,500,000,000 of which more than 18 billion has been earmarked for peacetime military purposes. The WTCC economy appeal said: "We realize there is need for stressing the importance of and continuing a program of military preparedness during these disturbed times. But we submit that equal stress should be given the financial preparedness of the nation so that in case of emergency full production may be attained without costly delay, taxes may be paid and business equipped to do its full and untrammelled part in supporting and largely financing any program for keeping us continuously prepared."

The chamber pointed out that in the 20-year period of 1926-46 the national debt has risen from \$167

Rail oddities

THE COMBINED LENGTH OF RAILROAD BRIDGES IN THE UNITED STATES IS ALMOST 4000 MILES — A DISTANCE GREATER THAN THE WIDTH OF THIS CONTINENT.

WAGES AND OTHER COSTS UP 50%

ASSOCIATION OF AMERICAN RAILROADS 1946

per capita to more than \$2,000, "and now, even after World War II's end, the combined burden of public expenditures is consuming 40 percent of the national income. This reckless spending policy is gravely menacing the people's welfare and if continued will put an end to what we have been proud to call the American Way of Life. It will leave nothing for risk capital and savings with which to expand business and give employment. It will destroy free enterprise and private initiatives and fasten on the body politic a state controlled economy finally taking us into socialism or worse."

The letter concluded: "Our organization and the people of West Texas 2,000,000 in number believe the forthcoming 80th Congress holds, more than any other of the past, the key and answer to the nation's fate in the years ahead. By its attitude toward and action taken on fiscal matters and policies, the next Congress will have the say on whether the American people are going to return to a normal way of living in which ambition, ingenuity and hard work may rightly bring reasonable reward, or whether the government is to go on blindly spending itself into bankruptcy. We enclose you a copy of the 'Taxpayers Code of Ethics' with the earnest hope you will adopt it as your own, resolutely setting yourself against wasteful and wild federal spending and for a speedy return to the normal way of American life. In this we bid you Godspeed."

NEW MEXICO MILL HAS OILSEED CAKE MEAL

Oilseed cake and meal are still in relative short supply throughout New Mexico. In an effort to assist farmers and ranches who are having difficulty in locating cake or meal, the Production and Marketing Administration released the following information today.

Officials of the El Paso Cotton Industries, Division, Western Cotton-oil Company, Las Cruces, N. M., have stated they will reserve a substantial portion of their production to satisfy the needs of New Mexico farmers and ranches. The mill's operating capacity may delay filling of some orders. It was therefore suggested that farmers and ranches who need cake or meal or both, place their orders as far in advance as possible.

The company has a huge amount of cottonseed on hand and processing into cake and meal is now well under way.

Details as to price, shipping and etc., may be obtained from the company.

Health Notes

by Texas Department of Health

AUSTIN.—With the advent of cold weather, Dr. Geo. W. Cox, State Health Officer, has issued some timely advice concerning room temperature and its relation to health.

"It is very important that inside temperature be maintained at around 68 to 70 degrees," Dr. Cox said. "Thousands of homes are continually overheated in the winter, and a degree of heat is often demanded that would not be tolerated in the summertime."

In a room that is overheated, the body pores are open, and physical harm may result when outside temperature is encountered. Colds, influenza, bronchial troubles and even pneumonia may take advantage of this bodily abuse, and take a serious toll in sickness and even death.

"An inside temperature of from 68 to 70 degrees is not only more healthful, but actually more comfortable," Dr. Cox said. "When, added to these factors, the resulting economy is considered, it might be well to check up and see what your thermometer reads. A room temperature within the range suggested, plus the careful maintenance of proper humidity, will help to prevent needless sickness and protect the good health of your family."

SALES, INVENTORIES UP

AUSTIN.—Wholesaler's sales in Texas during October rose an average of 42 percent over the same month last year, with the greatest single increase appearing in the 202 percent rise of electrical goods sales, according to Bureau of the Census figures released by the Bureau of Business Research of The University of Texas.

In inventories of wholesale commodities, electrical goods skyrocketed 317 percent over October 1945, and overall rise of all wholesale inventories was 50 percent.

"The real wealth of our nation—food, minerals and fiber—comes from the soil, and conservation practices are prolonging the soil's usefulness for decades, even centuries."—John F. Cunningham, Dean of Agriculture, Ohio State University.

Pictorial History Of "Fighting 36th"

"The Fighting 36th," a pictorial history of the Texas division in combat, dedicated to those fighting men of the 36th who gave their lives for their country, takes its place as one of Texas' greatest history books. Yet this first full account of the activities of Texas' own 36th division far surpasses the usual history book. In addition to a spirited narration presented in poignant style, it is replete with some of the best action news pictures to come out of glory the Texas division blazed across the Continent of Europe. The remarkable story was compiled from combat records, verified by a personal check of the combat leaders and published by the 36th Division Association. An additional feature is the roster of the members of the division.

Fighting qualities of the 36th which are so vividly portrayed in this book can best be summed up by a statement made by Field Marshall Albert Kesselring, the ace German defensive specialist. Seymour Korman, Chicago Tribune war correspondent, asked Kesselring, "Tell me, Field Marshall, what do you consider the finest American division to have opposed you?" Without looking up and without a moment's hesitation, Kesselring sputtered, "Your 3rd and 36th Infantry Divisions. I've been constantly amazed by their audacity, at their long flanking tactics and the way they turned up in so many different places. I've had to pit my best troops against them."

The heritage of the 36th Division dates back to the Alamo when the 141st infantry made its sacrifice in the Texas Revolution. Composed of Texas National Guardsmen, the 36th was again mobilized into the Army of the United States on November 25, 1940, at Camp Bowie for World War II.

CARD OF THANKS

Words cannot express our appreciation to our many friends who ministered to our needs in our hour of sorrow. Your kind remembrances will forever remain with us, and may the Lord's blessings attend you always.

Mrs. N. M. McCurdy & Family.

DEMAND REMAINS HIGH. FERTILIZER IS SHORT

COLLEGE STATION—Almost a record supply of fertilizer is on hand now for the current fiscal year of American agriculture, but demand is still higher than the supply.

The USDA has announced that present American fertilizer supplies are more than double the amount used in prewar years, but the needs of agriculture cannot be fully supplied by the fertilizers on hand. Nitrogen fertilizers are especially short.

Shortage of railroad cars is a bottleneck for all phases of the fertilizer industry, USDA reports. Tank cars for the shipment of nitrogen and boxcars for phosphate and potash are among the particularly short items.

Only slightly larger quantities of phosphates and potash are expected to be available during the current fiscal year than were available last year, while nitrogen supplies will be slightly less than last year. Various set-backs, such as the coal strike have prevented production from reaching goals set for the year, but most of the loss in production is being borne by the export program rather than by the farmers.

Condition Critical

The condition of B. E. (Uncle Benny) Nobles, 89, who has been in failing health the past several months, was described as quite critical today. He has been failing rapidly the past several days.

Mr. and Mrs. Sam Billingsley, and Garland; Mr. and Mrs. Alvin Mace visited in the Buddy Jones home Thursday evening.

Mr. and Mrs. Clarence Christian and family spent Sunday in Clovis in the home of Mr. and Mrs. J. F. Foster.

Miss Wanda Boss, who has been employed in Riverside, California, returned to her home here last week.

Mrs. Verne Wellman and young son, of Wewoc, Wisconsin, arrived here last Wednesday to visit with her parents, Mr. and Mrs. E. G. Blair, and family.

Mr. and Mrs. Conda Jones and Mrs. Robert Rundell have been visiting in Corpus Christi, and other points in Texas.

Rev. and Mrs. Newton Starnes have been visiting his parents in Winona, Texas.

Henry Young, a Wayland College student, returned to Plainview after a two weeks visit with home folks.

Mart Payne, a teacher at Fields, N. M., returned to his duties after having spent the holidays with his parents, Mr. and Mrs. J. M. Payne.

Due to the weather conditions, the Oklahoma Lane singing class dismissed their get-together Sunday afternoon, but will meet again at 2:30, J. January 19th, for its regular singing. Everyone is cordially invited to attend.

Rev. and Mrs. Starnes were dinner guests in the home of Mr. and Mrs. Claude Primrose, Sunday.

The Oklahoma Lane schools were dismissed Wednesday afternoon, the blowing snowstorm left most all roads in that vicinity impassable.

Miss Bessie Ruth Caldwell and Francis Sudderth are back in school at Lubbock after spending the season's holidays in the Oklahoma Lane community with relatives and friends.

Mr. and Mrs. L. M. Grissom and family spent Sunday with Mr. and Mrs. Kenneth Grissom near Progress. Afternoon visitors were Mr. and Mrs. T. L. Kent and Doris Lee.

Mr. and Mrs. Dudley Green and daughter, of Hereford, were attending business matters in Farwell last Saturday, and paid The Tribune office a pleasant and substantial call while in the city.

Mrs. Richard Crume, of Lubbock, is visiting relatives here while her husband is attending business in this area. Crume is salesman for the Western Windmill Co., in Lubbock.

We wrote a book one time entitled "The Revolving Door", and the publishers rejected it as too revolutionary.

LEGAL NOTICES

CITATION BY PUBLICATION THE STATE OF TEXAS
TO: Anna Mae Lane and the unknown heirs, assigns and legal representatives of John Lane and Anna Mae Lane, deceased, GREETING:
You are commanded to appear and answer the plaintiff's petition at or before 10 o'clock A. M. of the first Monday after the expiration of 42 days from the date of issuance of this Citation, the same being Monday the 17th day of March, A. D., 1947, at or before 10 o'clock A. M., before the Honorable District Court

of Parmer County, at the Court House in Farwell, Texas.

Said plaintiff's petition was filed on the 7th day of January, 1947. The file number of said suit being No. 1386. The names of the parties in said suit are:

W. A. DOSSEY, as plaintiff and Anna Mae Lane and John Lane, deceased, and the unknown heirs, assigns and legal representatives of Anna Mae Lane and John Lane, deceased, Ethel Dossey, Charlie Dossey, Eula Covich, Jack Covich, Earl Lane, Lawrence Lane, Arnold Lane, Rose Mary Howell, Minta Lane, Norne Silva, Albert Silva, Jackie Packard, Eli Langford, Willis Langford, Wilbert Langford, Irene LaFoy, James Edward LaFoy, Ruby Bohannon, George Bohannon, Mildred Williams, Bill Williams, Frank McGregor and Jack Packard as Defendants.

The nature of said suit being substantially as follows, to wit: Plaintiff alleges that he owns an undivided one-half interest in the following described land:

North 85.6 acres of the West 1/2 Section 104, Kelly Subdivision, in Parmer County, Texas,

and that John Lane, who is deceased, owned the other one-half interest, but the heirs of John Lane, deceased, now own said land. Plaintiff prays for a partition of said land in kind and if the land is not susceptible to partition in kind, Plaintiff prays that a receiver be appointed with full authority to sell said land, employ counsel, pay abstract bills, court costs, and any and all other necessary acts to perfect the sale of said land.

If his Citation is not served within 90 days after the date of its issuance, it shall be returned unserved.

Issued this 7th day of January A. D., 1947. Given under my hand and seal of said Court, at office in Texas, this 7th day of January A. D., 1947.

LOYDE BREWER, Clerk, District Court, Parmer County, Texas (SEAL) 9-4tc.

ABOUT THE WATER CONSERVATION QUESTION:

Because of erroneous information being spread throughout the High Plains area that the Lubbock Chamber of Commerce and the Lubbock City Commission are in favor of legislation to regulate the drilling of wells and pumping of water in the region, the two groups held a joint meeting Friday, January 3, in the City Commission room to discuss the problem.

It was unanimously stated that neither the Chamber of Commerce nor the City Commission had ever agreed to back any such legislation and the following joint statement was issued by C. A. Bestwick, Mayor of Lubbock, and Roy Furr, President of the Lubbock Chamber of Commerce.

"The Lubbock City Commission and the Lubbock Chamber of Commerce have not advocated, proposed, approved or endorsed any legislation, rules or regulations in regard to protecting, controlling or allocating underground water.

"The two organizations are opposed to any legislative proposals until the people of this area have the opportunity to thoroughly study them.

"Both groups do advocate and propose a thorough study of the underground water resources of the area and ask the cooperation of all the citizens of this section in helping to put into effect protective measures if the study indicates they are needed."

The two groups voted to meet at the request of the High Plains Water Use and Conservation Association with directors of that organization, January 10. A number of similar meetings are planned with other interested groups to thoroughly inform them of the position of the Lubbock Chamber of Commerce and the Lubbock City Commission.

The Force that Holds Up the "Goblet of Venus"...

OIL-PLATES Your Engine!

Strange phenomenon of nature is the "Goblet of Venus"! Stranger still is the tremendous force of molecular attraction that enables the stem to support the huge bowl!

Utilizing this mighty force of molecular attraction, a special ingredient in Conoco Nth motor oil is attracted to working surfaces of your engine. In fact, so strong is this attraction that cylinder walls and other parts are OIL-PLATED.

And because molecular attraction holds Conoco OIL-PLATING up where it belongs... prevents it from all draining down to the crankcase, even overnight... you get these benefits:

1. added protection during the vital periods when you first start your engine
2. added protection from corrosive action when your engine is not in use
3. added protection from wear that leads to fouling sludge and carbon
4. added smooth, silent miles

That's why you'd be safer to OIL-PLATE your engine now... at Your Conoco Mileage Merchant's. Look for the red triangle. Continental Oil Company

Better OIL-PLATE Now!

Candlelight Service In Vincent Home Unites Couple

In a beautiful and impressive candle-light ceremony Friday, Jan. 3, at 9 o'clock, in the home of the groom's aunt, Mr. and Mrs. L. R. Vincent, Miss Geniene Collins, daughter of Mr. and Mrs. C. L. Collins of Hereford, became the bride of Clarence L. Summers, son of Mr. and Mrs. R. B. Summers of Farwell.

The double ring ceremony was performed before the beautiful improvised altar of palms, ferns, evergreens and baskets of white snapdragons, with tall, cathedral tapers on either side, the gas logs casting a soft glow from the beautiful fireplace in the background.

The rites were read by Rev. Crosby of the First Methodist Church of Hereford, on the groom's parents' 21st wedding anniversary.

The bride was radiant and lovely in a baby blue corde crepe dress, accented tiny gold buttons down the front and on the belt, with corba red accessories. She had a shoulder corsage of white carnations with white satin streamers, carrying out the bridal costume. She wore tiny tear-drop earrings for something old, her dress for something blue, and a dainty white lace handkerchief for something new, a gift from the bride's mother.

Miss Nell Summers, bridesmaid and sister of the groom, was attractive in a powder blue gaberdine dress with brown accessories. Her corsage was pink rose buds.

Don Summers, brother of the groom, acted as best man. The bride's mother was becoming in a Navy dress with Navy accessories to match.

Mrs. Summers, mother of the groom, was dressed in a black two piece dinner dress with black accessories and a red rose bud corsage.

Miss Chloe Jean Sasser of Clovis who presided at the guest book, was attired in a brown wool suit with brown and white accessories.

Immediately following the ceremony a reception was held in the dining room of the Vincent home. The serving table was laid with a lace table cloth with tall pink and white tapers in crystal candelabras on either end. The center piece was the three-tiered wedding cake, topped with a miniature bride and groom. After the first piece of the wedding cake had been cut by the bride and groom in traditional fashion, Mrs. Lester Vincent, aunt of the groom, dressed in a gold crepe dinner dress with silver trim and cherry accessories, served the cake, assisted by Miss Chloe Jean Sasser and Miss Nell Summers. Mrs. R. B. Summer poured from the crystal punch set.

The bride is a popular member of the Hereford younger set, having graduated from the Hereford High School in 1945. She was active in all the school clubs in her Senior year. After graduation, she was employed in an attorney's office. At present she is cashier at the Anthony department store in Hereford.

The groom is well known in Farwell, having lived here all his life and received his education in the Farwell schools. He enlisted in the Navy in 1944 in his Senior year and served 21 months as 1st Class Petty officer as radar operator. Nine months was spent in overseas duty in the South Pacific on the aircraft carrier "Hogga Bay". After receiving his discharge he has been employed as manager of the Hereford Freight Lines in Hereford.

The newly weds will make their home at 510 West 4th Street in Hereford, Texas.

Leave For California
Mr. and Mrs. J. W. Hulsey, who have been visiting here, left for their home in California the first of the week. They were accompanied by Mr. and Mrs. S. G. Billington, who plan to remain in that state for some time and may make it a permanent move.

Mrs. Overstreet Hostess To Wesleyan Bible Class

The Wesleyan Bible Class of the local Methodist Church met in the home of Mrs. Anne Overstreet on Tuesday, January 7, with Mrs. B. N. Graham acting as assistant hostess.

Mrs. A. D. Smith was in charge of the afternoon program with sixteen members present.

Those attending were; Mmes. O. B. Pipkin, S. C. Hunter, Boy B. Eezell, G. W. Atchley, A. D. Smith, Albert Thomas, Roy Thornton, Alice Cleary, Ralph Humble, Ruby Dixon, Grace Sanders, Lena Yoder, Jess Newton, Floyd Park, visitors included Mrs. W. H. Graham, and Mrs. Effie Johnson.

Refreshments were served at the close of the meeting.

Pink And Blue Shower Honors Mrs. Crawley

Mrs. Perry Crawley was honored with a pink and blue shower, held in the basement of the Baptist church, Friday night, January 3. Mrs. Mona Towns, Mrs. Inez North Mrs. Susie Schleuter and Mrs. Alvena Sharpe acted as hostesses.

A piano solo was given by Peggy Ann Greathouse, and a reading by Mrs. Dickie Magness.

The hostesses served cake and spiced tea to Mmes. Julia Hillock, Peggy Ann Greathouse, Billie Louise Phillips, Maxine Cook, Katherine Lockhart, Dickie Magness, Mae Porter, Trossie Blewett, Maude Brown, Jenoyce Ford, Lola James, Fern Haradge, Capitola Crume and the honoree.

A number of gifts were sent by those unable to attend.

One-Act Play Will Feature PTA Meet

A one-act play, "Training for Economic Efficiency", will be presented Thursday night at the regular meeting of the Farwell Parent-Teacher-Association, with Miss Ann Nabors acting as director of the playlet.

A short business meeting is scheduled for the evening, and a social hour will be held following during the play. All patrons and friends are invited to be on hand at the school at 7:30.

Move To Clovis

Dr. and Mrs. V. Scott Johnson and family moved the last of their household effects to Clovis early this week, where they will make their home in the future. Dr. Johnson transferred his office from Farwell to Clovis some several months ago, but since that time has maintained their residence here until this week. They have recently completed a new home in Clovis.

Please Turn Society Notes In To Office

The Tribune is asking special cooperation of all readers who enjoy a good society section in the weekly paper. This week terminates the activities of Abie Crume, who has handled the "soc" end of this paper for the past 15 years.

With her resignation, the remaining staff of The Tribune is put on the spot for local and society items, and asks that all local residents make a special effort to turn in reports of parties, weddings, special events and trips, either by mail or by phone, in order that the popular society section of the paper will not be neglected.

Miss Hazel Dishman, at 2131, and Mrs. W. H. Graham, at 3671, will be glad to take over the phone any and all society notes. If you prefer to write them yourself, mail them in to this office. Items must be in The Tribune office by Tuesday noon to appear in the issue of the week.

Guild Meets Tonight At ME Church

The Wesleyan Guild will hold a meeting tonight (Wednesday) at the Methodist church, in conjunction with the regular mid-week services at the church, it was announced today.

H. A. Clift, Farwell superintendent, will be the speaker at the evening gathering, taking as his topic chapters from the current study book, "The Fine Art Of Using".

The Guild announces that a business session will be held after the study topic, and urges all members to be in attendance at 7:30. This meeting will take the place of the regular meeting of the Guild, scheduled for next Tuesday night.

Family Reunion Held

A family social was held in the home of Mr. and Mrs. Conda Jones, when all their children and family's gathered for a visit. Those present were Mr. and Mrs. Robert Rundell, and family, Mr. and Mrs. Claude Primrose, Mr. and Mrs. Sam Billingsley, Mr. and Mrs. Lee Jones and sons, Mr. and Mrs. Buddy Jones, Mr. and Mrs. Jim Billingsley and family, Mr. and Mrs. Lowell Primrose, of Pampa, Texas, Garland Billingsley and Miss Loraine Barnett, of Clovis.

Birthday Party Held

Young Katherine Billington, celebrated her birthday on Saturday, January 4th, with a social in the home of her parents, Mr. and Mrs. Sterlyn Billington. Attending the affair were Mr. and Mrs. S. G. Billington, Jim and Cortez; Mr. and Mrs. Morgan Billington, Mr. and Mrs. J. W. Hulsey of California, the young hostess and her family.

Marriage Is Performed

Miss Alice Kent of Killdeer, North Dakota, and Newton S. Starnes of Oklahoma Lane, were united in marriage December 16, at 4:30 p. m. at Glendine, Montana.

Nattie Durnok was matron of honor and Alick Durnok acted as best man.

Rev. Starnes is the pastor of the Oklahoma Lane Methodist Church, and the couple will make their home there.

L. R. Vincent returned home just before the holidays plane trip to points in Pennsylvania, Kentucky, Tennessee and Arkansas. He boarded a TWA plane at Amarillo, accompanied by Leonard Smith of Clovis.

NEWS FROM OUR BOYS IN UNIFORM

DISCHARGES FILED

Cpl. Horace L. Gober received his release from the Army on December 6th. He has the A-P, Victory, good conduct and American theatre colors, was in uniform for 21 months, spending 10 months overseas.

Gunnery Mate Second Class James L. White was discharged from the Navy at Norfolk, Va., on December 22nd. He had served since January 13, 1942.

RECEIVES DISCHARGE

Cpl. Erwin Schwede, son of Mr. and Mrs. Walter Schwede of the West Camp community, arrived home the latter part of December, having been discharged at Denver, Colo.

Lt. Comdr. Alan Rogers and wife, who have been guests of his parents, Mr. and Mrs. B. A. Rogers in Texico, for several days, left Saturday. They stopped in Corpus Christi to visit, and will continue their trip to Florida, where he is stationed at a naval air base.

Mr. and Mrs. L. R. Vincent have returned home after spending the holidays in Dallas and Waxahachie. They report plenty of cold weather down state.

Licenses Are Issued, Marriages Recorded

Files at the office of County Clerk, Loyde Brewer show that a marriage license was issued to Clarence Lavance Summers and Miss Genevieve Collins on January 3, with the ceremony performed by Rev. Vel D. Crosby, Methodist minister, of Hereford.

A license was also issued to Miss Mary Louise Bell and Lester Wilbur Ferrell on January 4, with Rev. Harvey E. Carrell, local Methodist pastor, officiating on that date, and the marriage of Miss Bobbie Breeze to F. M. Powers, performed on October 23 by Jess Newton, has been recorded.

Bill the Butcher Says

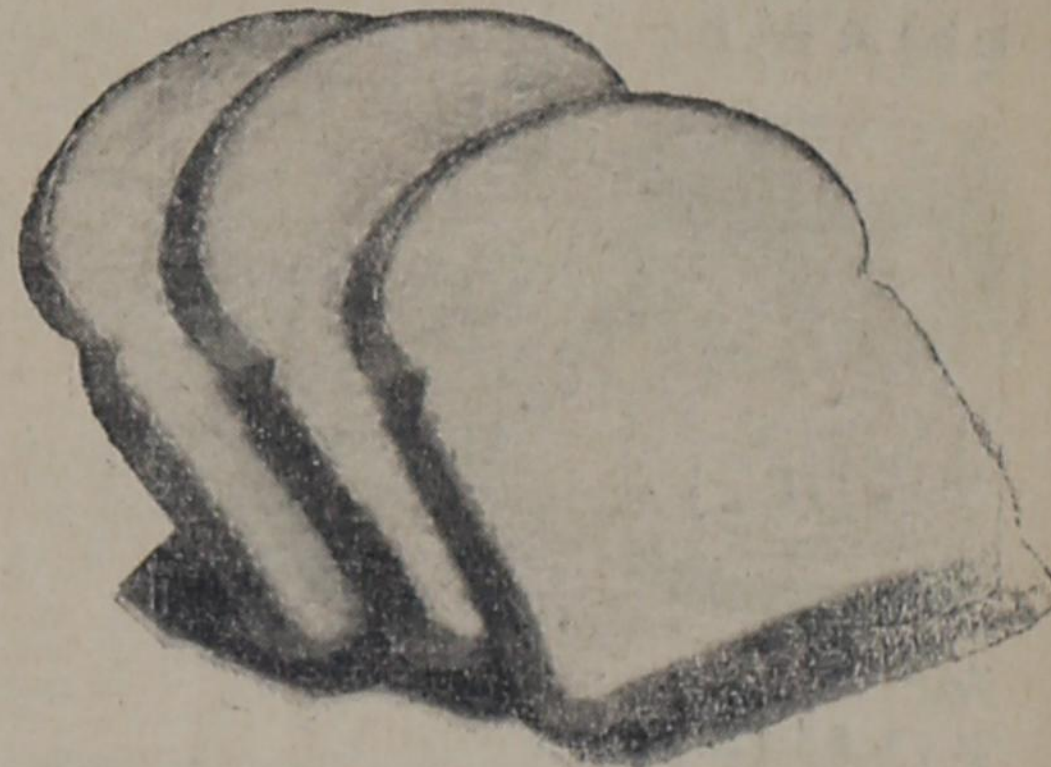

As the New Year gets underway, we are glad to be able to report that our market department is just about as complete as we could hope. Plenty of hams, bacon, lunch meats, butter, oleo and cheese, not to mention fresh meats, both beef and pork.

Tissue and syrups remain the only items that continue to be critical on our grocery shelves.

Butter is 10c lower now and you can get a 46 oz. can of White Swan Grapefruit Juice for 29c.

Bovina Happenings

Mr. and Mrs. A. G. White had as their guests for Sunday dinner, Mr. and Mrs. Buck Ellison and children and Miss Sarah Marie Venable.

Mr. and Mrs. A. T. Ray celebrated Christmas in a big way, it also being their twenty-third wedding anniversary, they had the honor of having all their children home for the first time in five years.

Those present were Mr. and Mrs. John Paul Ray, of Clovis, Mr. and Mrs. Bobby Ray of Star route of Clovis also Jimmy and Mary Ray. Mr. and Mrs. Ray Thorp also enjoyed these affairs.

W. E. Williams and John Wilson motored to Abilene, Wednesday to take their daughters Patricia and Willie Ellen back to college after spending the holidays at home.

Mrs. William Thornton took charge of the Home Ec department as teacher at Bovina school this week.

Mr. and Mrs. Aubrey Rhodes visited in Duncan, Oklahoma, over the holidays.

Mr. and Mrs. Frank Ayres and Wesley returned the first of the week from Oklahoma where they spent the holidays.

Nancy and Dan Johnston of Lubbock visited friends here the past week.

Mrs. Bob Johnston and Mike of Lubbock visited friends here New Year's day.

Some repair is being done in the auditorium at the school building, rearranging the seating in the auditorium.

Mr. and Mrs. Everett have a new house under construction in Bovina.

Mr. and Mrs. Natt Reed and family have returned from Fort Worth, where they spent the holidays.

There has been several sleighing parties in town this week and there was plenty of ice and snow for it too.

Mr. and Mrs. Ezra Englant and Mary Alice, Mr. and Mrs. Floyd Englant and children, and Mr. and Mrs. Pack Kessler spent New Year's day with Mr. and Mrs. Kessler in Friona. In the afternoon the group went to Tulia to visit the Elmer Englants.

INVOLVED IN WRECK

J. W. Ashcraft had a car wreck in

Monopolism

By GEORGE S. BENSON
President of Harding College
Searcy, Arkansas

Looking Ahead

NORWAY has little government-managed industry, as such. The only things wholly owned and operated by the government are the post office, telephone, telegraph, electric power, and railroads. There seems to be no agitation for extension of government ownership and management. In fact some leaders feel the trend is in the other direction and that the government has shown no ability to provide efficient service.

However, cooperatives are numerous in Norway. Entirely different from government management, they nevertheless control the buying and selling of almost everything and are monopolistic in nature. The effective organizations of the co-ops, while individually owned, have been used in some instances for extension of government control. Subsidies have been offered to farmers co-operatives in an effort to please everybody: the producers with higher prices and the purchasers with low prices.

Wait 'Til THE COMPLETE- You're Old NESS of the co-operative monopoly may be seen in the association of drug store operators, to which all operators belong. To open a new drug store a man would first have to become a member of the association and get its approval, after which he would appeal to the government which could never grant a license unless the applicant were admitted to the association.

Drug store operators admit no new members except at their own pleasure, and then seldom except to replace a member who has died. I was told that an aspirant

to the drug industry can seldom be admitted to the association and obtain permission to operate his own store before he is 45 years old.

Plenty of UNDER the right Frontiers kind of economic climate, the Norwegian people could raise their standard of living. And this right climate Communism can never provide. Norway does not lack for frontiers. Their farms produce as many bushels of grain per acre as our farms. The fishing waters of Norway are not surpassed. Possibilities for electric power are the best in the world. Manufacturing and lumbering offer only the ordinary difficulties. The country is not over populated. Yet their standard of living is not more than half as high as that in America.

When forward looking Norwegians try to modernize an industry, they are met squarely with the deadening hand of monopoly, either private or public. If one fishing company manages to find a way to sell its products at a good price, while another company exports its fish to Europe for a lower price, the former company pays a tax which goes to the second company for the sake of equalization.

This policy invariably discourages excellence and tends to mediocrity. A premium is thus placed on inefficiency and on failure to make money. But a realistic incentive system, based upon honest competition throughout, could soon make little Norway one of the most prosperous small nations in the world.

Hereford, Sunday afternoon, while enroute back to Ft. Sill, after having spent the holidays with parents and friends in Bovina. He was not injured, but his car was badly torn up. The occupant of the other auto was slightly injured. The accident occurred when the other car drove out in front of Ashcraft on the slippery pavement. J. W. took his father's car and went on to camp.

SCHOOL AUDITORIUM SCENE OF EX-STUDENT BANQUET

Ex-students and teachers of the Bovina school, along with local faculty members, gathered at 7:30 last Saturday evening for a gala alumni banquet, which was held in the auditorium of the local school.

A delicious turkey dinner, complete with festive trimmings, was served the many guests, who came from various points to attend the affair.

Bass Elliot acted as toastmaster and the welcome was given by Billie Starr, with Paul Smith responding. Johnny Glover gave the invocation and special music was a song by Patricia Wilson. Willie Ellen Williams gave a reading and the principal address of the evening was made by Ross Buckner, followed by group singing.

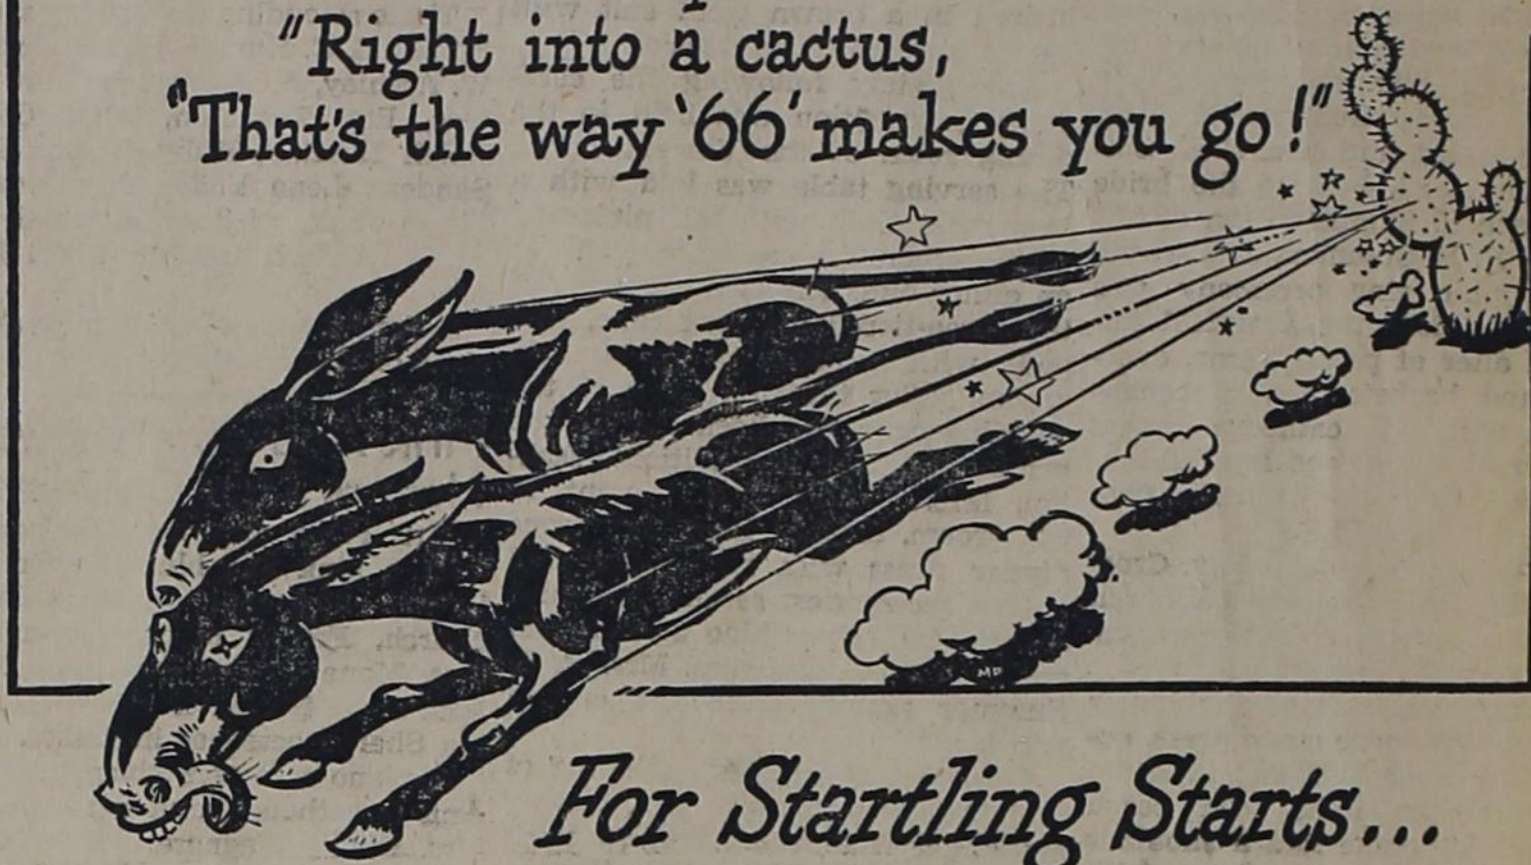

Ex-students dated as far back as 1913, with one representative of that class present. Other groups represented included 1946, 7; 1945, 13; 1944, 3; 1941, 2; 1941, 3; 1940, 1; 1939, 2; 1938, 3; 1937, 3; 1936, 7; 1935, 5; 1934, 1; 1933, 1; 1932, 9; 1931, 4; 1930, 1; 1929, 2; 1927, 3; 1926, 1; 1925, 1; 1924, 1; 1923, 1; 1917, 1; and 1916, 1. Ex-teachers

were Mr. and Mrs. Buckner and O. L. Smith.

New officers elected included Bass Elliott, president; Billie Starr, vice president; Aletha Wilson, secretary; Genevieve Ezell, treasurer; Mrs. Johnnie Glover, chairman program committee; Mrs. Vernon Estes, chairman food committee; Mary Cherry, chairman decorating committee.

Signing the guest register were J. W. Ashcraft, Tommy Airhart, Billy Bob Alverson, Willie Ellen Williams, Mr. and Mrs. Tom Ball, Ruth Bonds, Bobby Berggren, Lois Bates, Martha Bates, Mr. and Mrs. Eugene Boggess, Mr. and Mrs. Rouel Barron, Mr. and Mrs. R. A. Buckner, Jack Barnett, Martha Williams, Ted Brock, Mary Leatrice Cherry, Richard Crook, Jimmy Charles, Barbara Foster, Mr. and Mrs. Cherry, Mr. and Mrs. Pete Davies, Patsy Danner, Jean Danner, J. C. Denny, Bessie Denny, Mr. and Mrs. Bass Elliott, Mr. and Mrs. Aubrey Ellison, Mr. and Mrs. Marty Ezell, Joyce Edwards, Mr. and Mrs. Bill Eberling, Mr. and Mrs. Vernon Estes, Denzil Eberling, Mr. and Mrs. Gene Ezell, R. B. Ezell, Mr. and Mrs. Delton Grayson, Mr. and Mrs. Johnnie Glover, Jimmy Howard, Mr. and Mrs. Frank Hastings, Eula Hopingardner, Mildred Hopingardner, Donalita Hastings, Charles Hawkins, Ray and Gene Hart, Gordon Hastings, Mr. and Mrs. Elvin Hammonds, Mr. and Mrs. J. T. Hammonds, Mr. and Mrs. Bill Kyle, John Robert Kimbrow, Mr. and Mrs. Joe Looney, Joe Moore, Wynette Simmons, Betty Kimbrow, Mr. and Mrs. Howard Looney, Mr. and Mrs. Bill McDonald, Jack McDonald, Jerry Niece, Mr. and Mrs. Herbert Potts, Garland Potts, Betty Norton, Mr. and Mrs. Wilford Quickel, Dorothy Jean Rhodes, Nolan Rhodes, Mr. and Mrs. Earl Richards, Mr. and Mrs. Chas. Ross, Flossie Rhinehart, Mr. and Mrs. Melvin Stagner, Paul Smith, Mr. and Mrs. O. L. Smith, Mr. and Mrs. Delvin Smith, Mr. and Mrs. Rufus Standefer, Charles Don Smith, Harold Gene Starr, Billie Starr, Mr. and Mrs. J. T. HIGH COST OF LOW MILK PRODUCTION

COLLEGE STATION.—Underfeeding a good cow is one of the most expensive mistakes that can be made in dairy management, say dairy husbandmen of the Texas A. and M. College Extension Service.

From now until grass comes on again, most dairymen are faced with a real need for getting the greatest good out of each pound of feed, the dairymen say. This means that cows that do an unsatisfactory job of milk production when given an opportunity must be moved out, so that feed supplies can be utilized to prevent the underfeeding of good cows. Then the remainder of the herd should be fed a balanced ration according to production.

An average sized milk cow, capable of producing three gallons of milk per day, needs about 18 pounds of good hay and nine pounds of a suitable grain mixture. This feed will meet her production and maintenance requirements. If the hay allowance is cut in half, fifty percent of the nutrients required to produce the three gallons of milk is lost. In a short time, her production will come down to a gallon and a half, as she cannot draw her body reserves indefinitely to make up for the loss.

Plenty of good roughage is the basis of the ration. Feeding hay twice or even three times a day is preferable to putting out the entire amount at one time, the dairymen say. This will prevent waste and enable the cows to handle more efficiently the hay that they eat.

The Extension dairymen emphasize that the cost of producing a pound of butterfat or a gallon of milk from a low producing cow is always greater than the cost of producing the same amount from a good cow.

We've repeatedly told the daughter that we would like for her boy friend to be the kind of man who keeps his object in life before him at all times. Now we can't complain when he calls on her seven days a week.

ATTENTION, MOTHERS! If looking for a better remedy for Children's Chest Colds try Durham's Nu-Mo-Rub, the new Guaiacol-Camphor treatment. Remember—double the purchase price refunded if you do not find this Modern Chest Rub more effective —35c and 60c at

LEGAL NOTICES

CITATION BY PUBLICATION DELINQUENT TAX SUITS STATE OF TEXAS COUNTY OF PARMER
 TO George G. Wright, whose residence is unknown; Nettie M. White, whose residence is unknown; and their unknown heirs, assigns and legal representatives, whose names and residences are unknown, and the unknown owner and owners of the hereinafter described property and their heirs and legal representatives whose names and places of residence are unknown, and all other persons owning, having or claiming any interest or lien in the property hereinafter described.

You are hereby notified and commanded to appear and defend at the first day of the next regular term of the 69th District Court of Parmer County, Texas, to be held at the Court House thereof in the City of Farwell, Parmer County, Texas, at or before ten o'clock A. M., on the second Monday in January, A. D. 1947, the same being the 13th day of January, A. D. 1947, then and there to answer a petition in a delinquent tax suit filed in said court on the 20th day of December, A. D. 1946, in a suit numbered 1170, styled The State of Texas vs. George G. Wright, et al, on the docket of said court, in which The State of Texas, County of Parmer, are plaintiffs, and Friona Independent School Dis-

trict and City of Friona are impleaded party defendants, and show cause why judgment shall not be rendered condemning said hereinafter described property and ordering sale and foreclosure thereof for said taxes, penalties, interests, and costs of suit.
 Said suit is a suit to collect tax, interest, penalties, and cost on the following described property:
 Lots one (1) and two (2), Block sixty-two (62), of the original town of Friona, Parmer County, Texas.
 The amount of taxes alleged to be delinquent, due, owing, and unpaid for the respective years and in the respective amounts for each of said plaintiffs, intervenors, and impleaded party defendants, taxing units, on the above described property is as follows:
 Plaintiffs, Impleaded Party Defendants, and Intervenor That Are Taxing Units: State of Texas; Taxes Due, \$16.10; Years Delinquent, 1927-1946; To Whom Assessed: Unknown.
 Plaintiffs, Impleaded Party Defendants, and Intervenor That Are Taxing Units: County of Parmer; Taxes Due, \$18.14; Years Delinquent, 1927-1946; To Whom Assessed: Unknown.
 Plaintiffs, Impleaded Party Defendants, and Intervenor That Are Taxing Units: Friona Independent School District; Taxes Due, \$79.77; Years Delinquent, 1927-1945; To Whom Assessed: Unknown.
 Plaintiffs, Impleaded Party Defendants, and Intervenor That Are Taxing Units: City of Friona; Taxes Due, \$117.74; Years Delinquent, 1928-1946; To Whom Assessed, N. White, together with interest, penalties,

NEW INVENTION TALKS BACK . . . Designed by Dr. Donald H. Andrews, professor of chemistry at Johns Hopkins university, a new method of radio reception through superconductivity is shown by Donald (Sandy) Andrews, 5, son of the inventor, who holds the balometer, which is the heart of the new method of radio detection. Using no tubes, antenna, transformers, condensers or even electrical currents, the radio waves can be received and demodulated. Material is Columbian nitride.

public acceptance of aircraft on the list of equipment provided to meet a variety of demands in domestic transportation dates back to 1928. In that year the Santa Fe Railway joined with the Pennsylvania Railroad Company and Transcontinental Air Transport, Inc., in a co-ordination of facilities that made possible 48 hour coast to coast transportation service—the nation's first plane by day and train by night project.

"Santa Fe has filed applications with the Civil Aeronautics Board for authority for it, or its wholly owned subsidiary, Santa Fe Skyway, Inc., to operate as a common carrier of property and U. S. mail in the general territory served by the Santa Fe."

"The objective of the Santa Fe is fourfold."

"First, to meet the public demand for air speed where desired in the transportation of freight and mail."

"Second, to follow the Santa Fe practice of using the most efficient transportation equipment, facilities and techniques that are available."

"Third, to contribute to the development of an air transport system properly adapted to the present and future needs of the domestic commerce of the United States, of the Postal Service and of the national defense."

"Fourth, to carry by air that portion of the existing head end traffic of the Santa Fe Railway for which the Post Office Department and the shipping public demands air speed."

"The Santa Fe, for a number of reasons, looks to the Civil Aeronautics Board and the Congress of the United States for such rulings and statutes as may be necessary to the issuance of the certificates applied for. The Santa Fe has available an operating, engineering, and traffic staff long experienced in serving the Post Office Department and shippers of express and freight. Santa Fe Skyways, Inc., as a contract air carrier, has gained experience in the use of aircraft as a cargo carrier and has confirmed my opinion that there is a growing demand for air cargo service."

"The Santa Fe rail and highway services have a physical plant including station and warehousing facilities, handling devices, trucks, a communication system, and many other facilities all of which can contribute to the establishment of an efficient air operation serving many places not now served directly by air."

"The Santa Fe, as a heavy tax payer contributing to the support of Federal, State and local airports, and other aviation facilities, expects the privilege of using the facilities that it has helped finance."

"Santa Fe Railway has faithfully served the public throughout its vast territory by rendering an efficient rail and highway service in good times and bad. It is now the purpose of Santa Fe management to improve this service and to meet shipper demand through the use of aircraft."

Santa Fe Railway Includes Aircraft in New Equipment

The Santa Fe Railway System includes aircraft on the list of new equipment, facilities and techniques provided to improve general transportation service in 1947. In a statement to personnel explaining Santa Fe air transport policy, Fred G. Gurley, President, states that his company has fostered public acceptance of aircraft to meet a variety of demands in domestic transportation since 1928.

Referring to Santa Fe's air carrier applications, now on file with the Civil Aeronautics Board, Mr. Gurley stresses the rail and highway services' physical plant as an important contribution to the early expansion of air cargo.

His statement follows in full.

WHAT PRICE

Kitchen **FREEDOM?**

What price kitchen freedom? This question can be answered with three (three only) gas appliances! That's all it takes to have a kitchen that runs smoothly, turns out work with minimum effort, and doesn't leave you crying: "Oh, my aching back!" . . .

1. A Natural Gas range for good, quick dependable cooking.
2. A Natural Gas refrigerator with mammoth storage space for keeping large amounts of food.
3. And an automatic Natural Gas water heater furnishing an abundance of hot water to keep the kitchen "hospital clean" —

. . . that's the price of kitchen freedom; that's the freedom that has taken over the kitchen of America; that's the freedom that comes with an all-gas kitchen!

Strong Portales Team Topples Texico-ites

"The best team we have played this season", was the tribute paid the Portales Rams here this week, by Coach C. E. Sanders of the Texico school, whose hard-fighting Wolverines went down before the Rams, 40-26, last Saturday night on the Portales court.

Heigh was one of the deciding factors of the game, the coach reported, with the Portales squad averaging a good 6 feet for all 15 men used, while the Texico boys stretch a point to average 5-9. The game

was close throughout, with Portales leading 7-5 at the end of the first quarter, but sinking to a 15-15 tie at the half. The host team pulled away from the Wolverines in the third period, running up 23-30, but it was the final four minutes that told the tale.

With the score at 27-30, Portales, the locals lost Baldock on fouls and the opposition quickly took advantage of the Wolverine's weakness to sew up the ball game. Gilbreath led the scoring, taking 13 points for Portales, while M. Doolittle was a close second with 11 for Texico. Harp, of Portales, and Baldock, of Texico, were tied with 10 each.

Texico Loses Two To Fast Melrose Cagers

The Texico Wolverines lost both the "A" and "B" games to the Melrose Buffaloes last Friday night when the Melrose aggregations met them on their home court.

The "B" game was the first to be played and the visiting team easily won over Texico. The Buffs took the lead early in the first quarter and held it for the entire game, the score at half being 5-14 and Melrose keeping the edge 'till the final whistle, with the tally set at 28-17, Melrose.

White, Poteet, Curtis, May, Blain, Hale, Bridges, Doolittle, Stewart and Morgan all saw action for the locals while Firestone, Thomas, Burdine, Sprinkle, Bright, Sparkman, Newman, Kaemper and Crawley sparked for Texico's opposition.

High point men for the games were Bright for Melrose with 9 and Bridges for Texico with 6.

Although the game was a trifle faster, the main event of the evening was generally a repetition of the preliminary with the Wolverines counted out at 26-39.

The first quarter saw relatively little action, with the two teams "feeling" each other out to a score 2-6, Melrose. The second quarter was decidedly more interesting with both teams sinking a number of nice shorts making the count 12-19, Melrose, at the midpoint of the fray. A third round brought Texico not too far behind, 21-29, and the final sequence saw the visitors break away from the hard-fighting Wolverines 26-39.

The starting lineup for Melrose was: Pruitt and Grant at forwards; Rogers and Shumate at guards; and Conely at center position.

Starting lineup for Texico was as follows: Baldock and Pearce, as guards; while Fought and Doolittle served as forwards, and J. Paul at the center slot.

High point men of the games were Connelly for Melrose with 14 and Vought for Texico with 12.

Bill Merideth and Randaul from Clovis refereed the games.

Tribune job printing is best.

Steers Win Monday, Girls Lose Contest

The cage teams from Littlefield and Farwell split matches on the local court, Monday night, with the visiting girls and the local boys acclaimed as victors with the cessation of hostilities.

Definitely outplayed, the Farwell girls came out on the short end of a 10-28 score, with Wuthrick, of Littlefield, slamming in eight fielders and two free throws to lead the scoring parade. Inability of the Farwell guards to muffle her was chiefly responsible for the loss. Meeks was nigh for the locals, with a total of 5.

On the other side of the ledger, the Steers started off in good form and continued to hold a definite edge over their opposition during the game, which ended at a 38-24 tally. Quarter score ran 11-19-30-38 for Farwell; 5-10-16-24 for the losers, the scorebook reveals.

Back in sports again after an enforced rest due to a broken collarbone, which he sustained during the gridiron season, Thomas had his basket eye in top form Tuesday night, and ran up 16 counts for Farwell, while McCanlies didn't do so badly for Littlefield, scoring 12. Williams ran in 9 for Farwell, and Sisson was second for the losers with 7.

Meredith, of Clovis, called the games.

Friona Teams To Come Here On Friday Night

The Friona Squaws and Chiefs will be guests on the Farwell court, Friday night of this week, January 10th, when the two schools continue regular conference play, Coach Jack Williams reported today.

Undoubtedly, the Friona girls have the nod from the would-be sportscasters. However, the Farwellites have shown considerable improvement since their opening games, and should keep the affair from being too dull. It is quite possible that Coach R. L. Bates, of Friona, will see fit to give his second-string players a good deal of action

Ranchvale, Rosedale To Visit In Texico

Boys and girls representing the Ranchvale and Rosedale schools will appear on the Texico cage court this weekend, Coaches C. E. Sanders and Tom Hudson said today, with Ranchvale slated for Friday night, January 10, and Rosedale coming here on Saturday night, January 11.

Pre-game dope favored the Texico boys and the Ranchvale girls for the Friday night mixups. According to reports here, the visiting girls hold a perfect record for the year, but Texico hopes to come through with an upset. Previously, the Texico boys soundly lambasted the Ranchvale Team, and expect a repeat of this performance come Friday.

For Saturday night, two hot battles are expected. When Texico visited at Rosedale before the holidays, the entertaining boys took a close two-point victory, and Coach Sanders is grooming to the teeth this week in hopes of returning the compliment this weekend. The Texico girls took their game at Rosedale, earlier, and hope to stage a repeat Saturday, as a farewell gift to their coach, Tom Hudson, who leaves next week to begin teaching duties in Clovis.

The first games will be called at 7:30 this weekend, with regular admission charges made.

The guy who was all wool and a yard wide is now 50 per cent rayon, 30 per cent cotton and 20 per cent shoddy.

during the game.

On the other hand, the Steers of Farwell are the favorites in the boys' contest, providing they can keep awake. Season's play thus far has shown the locals to be both hot and cold, usually playing a dull first period and then beginning to hit their stride as the game progresses, and it could be that such a maneuver would give the Chiefs an advantage which the Steers could not easily overcome. The Steers played along in this manner against the Lazbuddy team, definitely the underdogs, just before the Christmas holidays, and came near having their perfect record of the season broken by the Lazbuddians.

Game time Friday is 7:30, and regular admission charges will be made at the gate.

To Littlefield Tuesday

Staging a return engagement, the Farwell squads will go to Littlefield next Tuesday night, with both boys and girls games being matched during the evening.

In a series played here Monday night, the Steers took their game handily, while the Littlefield girls spanked the Farwell players.
