

**CATHOLIC HONORS . . .** Jessica Dragonette recently received the "Order of Isabella the Catholic" in a ceremony at the Spanish embassy. The award was given in recognition of her interest in Spanish music and culture. Left to right are Spanish Ambassador Jose Felipe Lequerica, who made the presentation, Francis Cardinal Spellman, Jessica Dragonette and the Spanish charge d'affaires, German Barabar.

## Christmas Preparations Underway, Twin Cities

MRS. IRA W. TAYLOR

### Death Claims Pioneer In California Home

Word was received here Wednesday of the death of Mrs. Ira W. Taylor at her home in Rosedale, Calif. She died at 1 a. m. Wednesday morning and will be buried at Rosedale. Other details were not known here.

Mrs. Taylor truly was one of the pioneers of eastern New Mexico. She and her husband came here early in January 1899 and took up a homestead a short distance southwest of Texico. They remained on that place until late in December of 1943, when they sold out and left for the west coast. Mr. Taylor was employed on the construction of the Santa Fe railroad from Amarillo through here and was living in Texico when the first influx of settlers began to move here in 1902.

### Home Accident Sends Victim To Hospital

Miss Iris Thornton, daughter of Mr. and Mrs. J. R. Thornton, who live one mile north of this city, was taken to a Clovis hospital Saturday night for treatment for burns received while preparing the evening meal at home.

Miss Thornton was quite severely burned on the left side from her waist to her knee when she accidentally upset a vessel of hot water. She was taken to a hospital immediately and remained there until Monday.

She will be off duty as bookkeeper at the Security State Bank for some time, family members said.

### Twenty-Eighth Time To Renew Tribune

Mrs. E. A. Hromas dropped in last Thursday to renew her subscription to The Tribune, and revealed that this was the twenty-eighth time she had extended her name on the list of this newspaper.

Wonder if we have another subscriber who has been continuously on the list of this newspaper for a greater number of years?

"When we came here there was only one store in Bovina, and Farwell wasn't nothing," Mrs. Hromas remarked.

Need letterheads? Dial 2131.

## Larger Water Lines Now In Operation

### Tribune Will Publish Santa Claus Letters

Following our usual custom of twenty-two years, The Tribune will publish Santa Claus letters from the kiddies of this community.

Get your letters in early, kiddies, and remember that there will be just two more issues of the paper before Christmas. Mail them to Santa Claus, State Line Tribune, Farwell, Texas.

### Work Progressing On New Sharp Building

The new brick building, being erected by N. L. Sharp on his properties in north Farwell, was making progress this week after several months of delay.

The building, which will be 30x72 feet, got under construction two weeks ago after being delayed since last spring, Sharp said he expected to have the building ready for use shortly after the first of the year.

Just as soon as the building is ready, Sharp said that he expected to begin the manufacture of concrete pipe to be used in irrigation wells and for sewer purposes. The machinery has already been placed on the grounds, Sharp added, and he expects to be turning out his new product in a short time.

Arrangements have already been made for the limited crew that will be required to operate the new industry. Concrete pipe, ranging in size from 4 to 14 inches will be produced in the new plant.

### Auction Sale Of Furniture Stock Opens Friday PM

Ben O. Smart, manager of the local store of the Furniture Mart, is announcing a public auction sale of the entire stock of fine furniture carried in the Texico store.

The first sale will be conducted Friday afternoon, Dec. 10, at 1:30, and a second sale will be held on the same date, beginning at 7:30 o'clock. Sales will be conducted twice daily at these hours until the entire stock is completely sold out. Smart said that he expected the sale to continue "three to five days."

This sale is being conducted as a means of carrying out a dissolution agreement between the three interested parties in the business, and will not affect the store operated by the partnership in Amarillo. Smart said today, that according to his present plans he would restock the local store as soon as the dissolution plans were carried out.

Threats seldom accomplish any settlements, but they sometimes help.

V. C. Venable, superintendent of the Texico-Farwell Waterworks, stated today that installation of the new and larger water mains had been completed over the past weekend.

The new mains, which have been badly needed for a number of years, will bring better water service to a large number of users as well as make water service available for a number of new customers. A four-inch line has been installed from the H. Y. Overstreet home to the Farwell school, a distance of four blocks, and a new three-inch line has been laid from the school house north to the Booth properties on 7th Street. In addition to furnishing more water to present consumers and make service available for new customers, the new four-inch line will afford fire protection to the school properties.

Venable said today that the additional materials for increasing the pumping facilities at the local plant had arrived and that a crew of workmen were expected here this week from Plainview to make the installations. A new and larger pump is to be put in the new well and the pump now in use in the new well will be moved to the old well, which, when completed, is calculated to more than double the output of water from the two wells.

Under the present plan, the new 75 hp. pump will be installed in the new well, but it may be several weeks before the old well will be disturbed. Venable said that it would be taking too much chance to dismantle both wells at the same time. "We want to see if everything works properly before we pull the pump or the old well," he observed. Furthermore, he pointed out, it would require several days of constant pumping from the new well to remove the sand that always results when a well is disturbed.

### Grandmother Of Local Lady Dies At 95

Rev. and Mrs. Harvey Carrell and children left here early Wednesday morning for Snyder, Texas, to attend the funeral services of Mrs. Carrell's grandmother, Mrs. J. G. Patterson, who died at the family home in Snyder early Tuesday at the age of 95 years.

Mrs. Patterson, who is survived by her husband, had been bedfast for the past two years after sustaining a broken hip when she fell. She and her husband observed the 63rd wedding anniversary only recently.

Burial was made at Snyder.

### HAS OPERATION

Mrs. F. D. Stout, of Texico, sustained a tonsilectomy the past Thursday, at a Clovis hospital. She is reported to be recuperating, and is spending the week with her mother in the Broadview community.

## FROM THE HOPPER

By HOP

Truman Doolittle is looking forward to next February when his term as a member of the Texico school board will expire. "I will have just two more meetings," Truman observes gleefully. He agrees with every other man who has served as a school trustee that every man ought to serve at least one term as a school trustee. Regardless of how sincere a man's efforts might be to render his very best efforts for what he considers the best interest of the school and the community, there are always those who are constantly finding fault with the actions of the school trustees.

Before you find fault with the newspaper for its failure to publish news items that you think should appear in the paper, just stop and consider whether or not you have gone to the trouble of reporting the item to the news gatherers. We make an honest effort to gather all the worthwhile news every week, but it is natural that we are going to overlook some worthy events that should have appeared in the paper. After all, all the news items we find for the paper are those reported to us by others.

About the most unhappy married couple we know of is our Cousin Sally and her husband. Her birthday comes on Dec. 20, which means that she gets no birthday presents, and her husband's birthday falls in the middle of January when he is struggling over his income tax report.

Yep, just 16 days till Christmas. So far as I and my bank account are concerned, that's too long.

Illness and accidents are always keeping some of the force at my bank off duty. We often wonder why nothing seems to happen to the clerk that sends out those little overdraft notices.

### CAUGHT IN WRINGER

Sherryl Lynn, four-year-old daughter of Mr. and Mrs. Bill Kaffir, received a dislocated, and badly bruised arm, Tuesday afternoon when she became entangled in a washing machine at the Farwell Laundry.

## Plan Completion Of SCS Program

Completion of a program of work for a Soil Conservation District in this county is expected today (Wednesday), County Agent Ollie Linder said on Monday, in announcing that a supervisors' meeting would be held at the courthouse this morning at 10 o'clock.

At a meeting held last Thursday the program of work was fairly well organized, and complete details are expected to be ironed out today. Following the completion of the program, the data will be submitted to the state office for approval, and when this is forthcoming, the SCS office will be opened here.

Attending the meeting Thursday were Bill Clutter, supervisor of the Hereford office, and Mr. Smith, also of Hereford; John Aldridge, soil scientist from Dimmitt, and Bob Thurmond, Extension Service irrigation specialist from Lubbock, in addition to county supervisors W. L. Edelman, A. L. Black, Henry Reynolds and Agent Linder.

The agent said further that Mr. Dalkins, representative of the state SCS board, who is located in Plainview, would be here today to assist the supervisors in outlining the plan of work for the county.

Approval for formulation of a conservation district was given this county some time ago, but numerous details have to be worked out before the program can actually get underway. It is hoped that the Farmer county office will be opened the first of the year.

### Holstein Milk Cow Tops Sale Record

What is believed to be a record price paid for a single cow at a farm sale was established Monday when Col. Dick Doshier sold a single animal for a cash price of \$300.

The top cow went under the hammer at the Ace Arganbright farm sale south of Clovis Monday afternoon. Other cows, all of which were exceptionally good milk stock, brought from \$240 to \$280, with most of the twenty-five animals ranging around the \$280 figure.

Arganbright is not retiring from the farm, but sold most of his cattle to reduce the work on the place since his wife's health had failed.

## Business Activity For October Shows Decline

AUSTIN—Texas business activity in October continued the downward trend for the second consecutive month, the University of Texas Bureau of Business Research reported.

The Bureau's seasonally-adjusted index of business activity dropped 3 per cent from September, which had declined one-half of one per cent from the postwar high of 233 (1935-39-100) reached in August. Dr. John R. Stockton, statistician for the Bureau, said the decline for two consecutive months gave some support to the thesis that the peak has been reached and passed.

The decrease in the composite index was the result of declines of substantial proportions in three of the components, which were not balanced by the weak rise in two of the other three components, and no change in one. The greatest decline was in the department and apparel store sales (10 per cent), with electric power consumption dropping 8 per cent, and crude oil runs to stills, 1 per cent. The largest gain was 1 per cent in freight loadings in the

Southwestern district. Employment rose less than 1 per cent and pay rolls showed no change from September.

In comparison with a year ago, the composite index of business increased 12 per cent, and all of the individual components registered gains. Pay rolls showed the greatest increase over October 1947, with an 18-per cent rise. Department and apparel store sales climbed 15 per cent; electric power consumption, 12 per cent; crude oil runs to stills, 8 per cent; and employment and miscellaneous freight loadings, 5 per cent.

After adjustment for seasonal variation, bank debits for October dipped 3 per cent from September, making the third consecutive month this index has declined. Since the index of bank debits represents money spent for all purposes, it is a comprehensive measure of the volume of business transactions. A decline in this barometer for three successive months must be viewed as a sign that the volume of business activity

in Texas is contracting. The volume of bank debits was only 9 per cent larger than in October 1947.

The Bureau's index of postal receipts in Texas cities for October declined 3 per cent from September, to lend further support to the thesis that the rate of business activity has turned down. In comparison with a year ago, the index of postal receipts stepped up 9 per cent, and the October 1948 index was 246 per cent of the 1935-1939 base period.

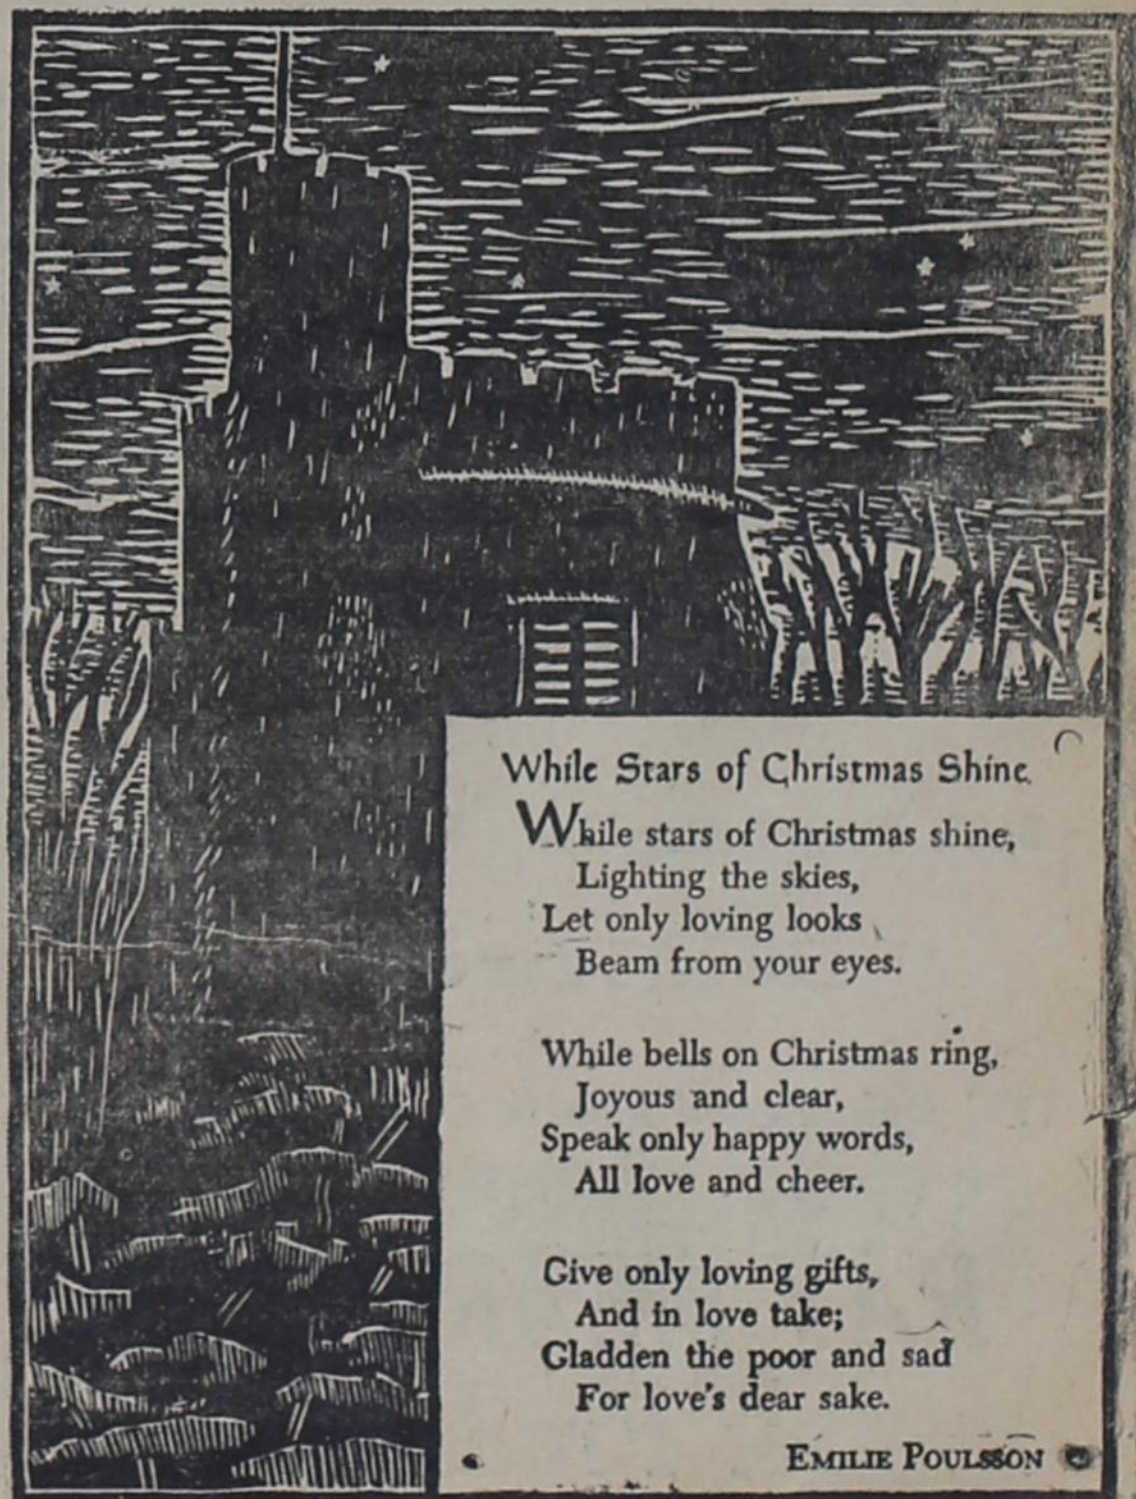

After adjustment for seasonal variation, October sales of Texas retail stores fell 3 per cent from September. The index of sales of durable goods stores dipped 1 per cent. Except for a rise of sales of eating and drinking places and drug stores, all types of business registered September-to-October declines.

Building permits in Texas cities dropped 31 per cent from September, to bring the level of the Bureau's seasonally-adjusted index to 471 per cent of the 1935-39 base period. The October index was 12 per cent below a year earlier, but the total val-

ue of building permits for the first 10 months of 1948 was 37 per cent over the like period in 1947.

The Bureau's index of cash farm income fell 25 per cent from September, after adjustment for seasonal variation. This decline left the index 22 per cent below the October 1947 level, and indicated that the peak of the boom in agriculture has been passed. The cash farm income for the first 10 months of 1948 was 9 per cent below the same period of 1947 and with all major crops selling at the support levels, there is little indication that the peak of last year will be passed in the immediate future. However, the October level was 328 per cent above the 1935-39 level.

The index of consumers' prices in Houston for October 15 was slightly below the level of September 15. The index of food prices in Houston slipped 1 per cent in the same period, while the other components rose. Food prices on October 15 were 6 per cent above a year earlier, while the over-all price index stepped up prices 7 per cent.

### While Stars of Christmas Shine

While stars of Christmas shine,  
Lighting the skies,  
Let only loving looks  
Beam from your eyes.

While bells on Christmas ring,  
Joyous and clear,  
Speak only happy words,  
All love and cheer.

Give only loving gifts,  
And in love take;  
Gladden the poor and sad  
For love's dear sake.

**Health Notes**  
 By Texas Department of Health

**AUSTIN**—Rheumatic heart disease a crippler and killer of children, is one of the leading causes of death and disability among children and young adults in the age group 10 to 25 years.

No vaccine such as those that prevent typhoid, diphtheria, smallpox and whooping cough has as yet been developed for its prevention and control, but we do know some of the danger signals and with a physician's early diagnosis, some of the damaging results of this disease may be prevented.

Quoting Dr. Geo. W. Cox, State Health Officer, "in general, the early symptoms of rheumatic fever are pain and swelling in the joints of the knees, ankles, elbows or wrists. The pain is felt usually in one of these joints and spreads to the others. Often a child gets irritable and cross without any apparent cause; he may cry easily and develop habits indicating nervousness. These symptoms may mean the beginning of an attack of rheumatic fever, and a physician should be consulted immediately."

Predisposing causes to this disease, which include frequent chilling, damp or overcrowded living quarters, poor diet, colds, an attack of scarlet fever or other infections caused by certain streptococcus

germs, should be carefully avoided. Protection against these predisposing causes may mean protection against rheumatic heart disease, and these safeguards should be observed. Have children examined by a physician at least once a year; see that they have a well balanced and nourishing diet; make certain that they get sufficient rest, and see to it that they are dressed according to the temperature of the room or the playground. Consult a physician at once if symptoms indicate that this disease may be present, and if the doctor describes complete bed rest, his advice should be followed exactly as given.

**Grubby Cattle Are Docked on Market**

**COLLEGE STATION**.—At the market, cattle with grubs are docked a half cent to a cent and a half per pound. This means around \$3.65 per animal, says C. A. King, associate extension entomologist of Texas A. and M. College. And that amounts up to quite a bit when you're the owner of a big herd.

Two million Texas cattle are slaughtered every year, and over one-third of these are grubby cattle. A more direct loss to the farmer is feed. He has to feed his cattle about 15 percent more than usual just because of the grubs.

The fall and early winter is the best time to treat cattle for grubs because this is the time of year the grub mature and fall off the animal to the ground, says King. The stockman has three choices of controlling grubs—dust, spray or dip. If you use the first method, dust the backs of the animals thoroughly with one part 5 percent rotenone and two parts tripoli earth or talc. King suggests using a fruit jar with 15 holes in the lid one-fourth inch in diameter. Rub the dust into the hair with the fingertips.

For a spray, mix seven and a half pounds of 5 percent rotenone in 100

gallons of water. Wet the backs of the animals thoroughly with a sprayer that has at least 250 pounds pressure.

Both lice and grubs can be controlled in a dip containing one pound of 5 percent rotenone and 10 pounds of wettable sulphur in 100 gallons of water. It'll take two dips 17 to 21 days apart, and the first should be made 10 to 14 days after the grubs are first noticed in the back.

Here's another way to picture the grub losses. Enough leather is lost each year to furnish shoes for one million people for a year.

The milk flow is reduced around a quarter, says King, but most important of all, is the five million dollars lost by Texas farmers.

That's a lot of money to pay for grubby cattle.

**VETERAN'S QUESTION BOX**

**Q.** My brother, a World War II veteran, made valid application for an automobile under Public Law 663 79th Congress, but he died before delivery of the car could be made. May it now be paid by the VA and delivered to his estate?

**A.** No. Payment for the car by VA is contingent upon its delivery to the veteran.

**Q.** I received a leg injury in an automobile accident recently which requires outpatient treatment. Will

VA furnish required treatment?  
**A.** Outpatient treatment is available only for service-connected disabilities.

**Q.** I assigned my armed forces leave bond to pay premiums in advance on my NSL insurance, but I need funds at this time. May I withdraw all or part of it?

**A.** Yes. Upon written request of the insured, all or part of the unearned premium may be refunded.

**Q.** I wrecked my automobile furnished by VA under provisions of PL 663. Will VA give me another car to replace it?

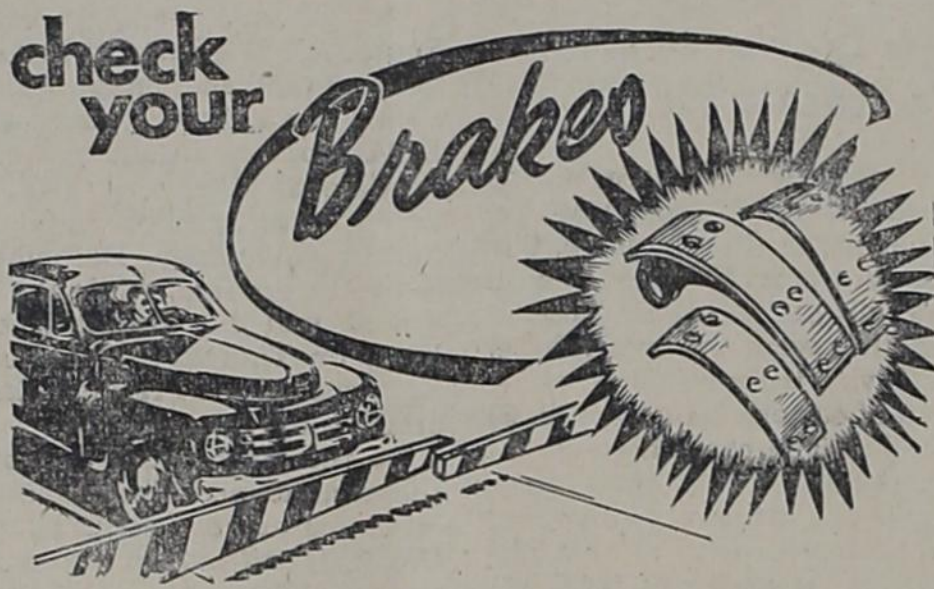

**A.** No. There is no provision under the law to provide more than one auto to an eligible veteran.

**IS GUEST LECTURER**

**LURBOCK**—Miss Leonore O'Neil, home service director for Gulf State Utilities with headquarters at Beaumont, has been guest lecturer in several classes and called meetings in home economics at Texas Technological college recently.

Miss O'Neil has conferred with the students and faculty principally on correct lighting factors and practical selection of electrical appliances for a home. She returned to Texas Tech this week on her fourth visit to the campus.

A number of Texas Tech graduates have been employed in home service work by Miss O'Neil.

# Yessir! that's my- "Lubri-tection!"\*

It's Super Quality and I'm Proud as a  
New Papa of Phillips 66 Premium Motor Oil!

Boy-oh-boy, here's something to point to *with pride!* Because "Lubri-tection" means lubrication *plus* protection . . . it means the kind of a job you get from a fine motor oil, expertly refined with varnish and sludge-retarding additives as added protection! Yes, this Phillips 66 Premium is a motor oil that actually *helps* your engine!

Phillips 66 Premium Motor Oil is a really good lubricant with extra additives and inhibitors to help prevent the formation of sludge and varnish. So remember the name "Lubri-tection"! It's the word that means Phillips 66 Premium Motor Oil . . . the word that means lubrication *plus* engine protection!

## PHILLIPS 66 PREMIUM MOTOR OIL

\* "Lubri-tection"—the protection rendered by an oil of fine base stock containing special detergent and oxidation inhibiting ingredients.

### Brighter Outlook For Household Appliances

COLLEGE STATION.—The picture for household equipment is a little brighter for 1949 than it has been for the past several years.

That's the story Mrs. Bernice Claytor, extension home management specialist of Texas A and M. College, brought back from the Outlook Conference in Washington, D. C.

In general, the supply of electrical household equipment seems ample. While there may be shortages in some localities, the supply of much equipment has been sufficient to make good progress in filling the backlog of demand.

"Prices continue to increase," Mrs. Claytor says, "but the rate of increase is slower. The demand for household equipment is greater since the end of the war than ever before, and that demand is expected to keep prices high for some time."

Rural power systems are expected to expand at the fastest rate in history in 1949, and this will mean a great increase in demand for electrical equipment, she says.

The production of home freezing units has increased greatly and the supply seems adequate, Mrs. Claytor says. The quality is better, but shortages of materials affects the quality of the equipment, and the initial cost is high, unless the family freezes a large percent of its food supply.

Automatic washing machines are quite popular and many families are replacing old machines with the automatic; however, community centers with laundry facilities put some check on the demand for washing machines.

As for refrigerators, Mrs. Claytor concludes, the demand is slowly leveling off, with the trend of purchasers to buy standard rather than deluxe models.

Support your local Chamber of Commerce.

### You Can Be Choosy In Picking Shrubs

COLLEGE STATION.—When it comes to picking out flowers and shrubs for landscaping the home, it's a good time to be choosy. You can afford to be, says Sadie Hatfield, extension landscape gardening specialist of Texas A. and M. College, because some plants look better in certain areas than other plants.

The colors in flowers or the berries or blooms on shrubs may clash with each other, and produce a gaudy appearance rather than an attractive one, says Miss Hatfield.

There's one thing that will help decide for the home shrub grower just what plants to choose, and that is the soil on which the plants are grown. For example, people in East Texas will have much better luck growing gardenias than those in other parts of the state. That's because East Texas has an acid soil and plenty of moisture.

Ceniza makes an attractive screen or windbreak, but again it has to be on the right type of soil—in this case, a basic or alkaline soil. Another good thing about the ceniza is that it has only a few insects and diseases that bother it.

Some flowers and shrubs have to have careful attention all the time. It doesn't take long for some to become choked out by weeds and grasses, or for insects or diseases to knock them out. Hardy, well-established shrubs will fight off these pests and live through hard times.

If it's the green color you're looking for, plant some evergreens. They don't die back during the winter months. Ceniza is an evergreen, and so are the pfitzer juniper, cherry laurel, and yaupon.

Summing it all up, the best plants to get are those that put up a good fight against the cold, heat, drought, diseases and insects, and will grow well in the soil of your section.

Good, sturdy plants suitable to your area will make for a well landscaped yard and an attractive home, says Miss Hatfield.

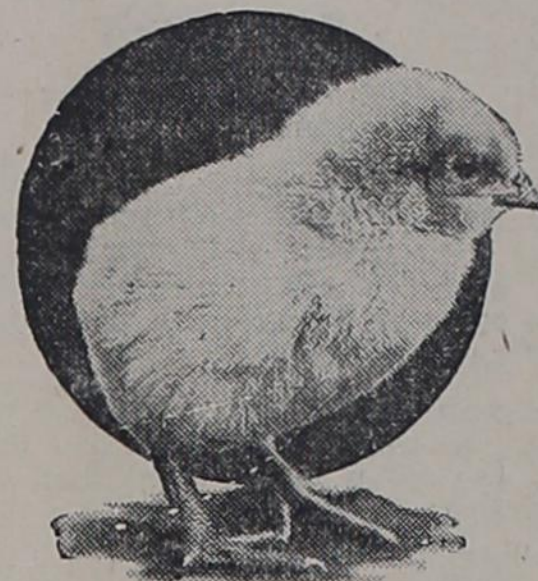

### New Testing Machine Is Added At Tech

LUBBOCK.—One of the British made Moscrop yarn testing instruments has been added to the testing equipment of the Cotton Research committee's facilities at Texas Technological college, through the gift of the Lane Cotton Mills of New Or-

leans. Mark Wood, supervisor of Cotton Research activities at Texas Tech, said the machine will be of particular value in testing relative weaknesses and strengths of single thread, and can be used for yarn testing at various steps in yarn making.

The donation to the Cotton Research committee specified the instrument is to be used for committee work at Texas Tech.

**Will Face Grand Jury Indictment For Theft**

Local officers said here today that Bob Pierce, who allegedly stole a tractor from the street in Friona some months ago, will face a Federal Grand Jury indictment in Amarillo next month.

Pierce is charged with appropriating a tractor belonging to Red McFarland, of Friona, and taking it out of the state, where it was allegedly sold to a San Jon, N. M., farmer. The tractor was recovered, officers stated. Pierce is said to be in the Army and is stationed in Washington state.

Prosecuting officers here said that the case was turned over to Federal authorities for investigation some months ago.

**Tech Takes Honors At Livestock Judging**

**LUBBOCK**—Texas Technological college, represented by two teams in intercollegiate judging at the recent international livestock show, has won recognition in the upper quarter of contest results.

In the international crop contest, held at Kansas City, Tech placed third to a first place win by Oklahoma A&M and a second by Nebraska.

The Texas Tech team ranked tenth in the livestock judging contest in Chicago with 4,502 points Oklahoma A&M placed first with 4,654, and Purdue second with 4,621.

Robert Cox, senior student from Lubbock, placed sixth in hog judging and ninth in catue judging. He was tenth high man in individual contestants from a group of 155.

In the separate contests, Tech was fifth in hog judging and tenth in sheep judging.

**MANY NEWSPAPERS**

The Navy today has more than 400 ship and station newspapers that are printed for the benefit of Naval personnel isolated from regular news services.

**Little Damage Done By Saturday's High Wind**

The high winds that swept this section throughout most of the day Saturday and far into the night seem to have done little damage here, reports indicate.

So far as has been reported, no wheat fields were blown out, but some farmers say the wind seared much of their growing wheat. A tin roof was ripped from one of the sheds at the Farmers Supply Co. and electrical service was disrupted briefly during Saturday night, but no other damage has been reported to property.

The winds kicked up considerable sand during Saturday afternoon as it bore down from the west. Shortly after dark, the wind changed to the northwest and came with a great increased velocity, averaging around 50 miles per hour, bringing in clouds of sand and dust. Farmers throughout the region had their fields in good condition with cober crops or freshly listed, which held the erosion damage to fields to a minimum. Country roads, where vegetation is kept down, suffered the worst damage.

The high wind was accompanied by a drop in temperature, but did not reach the lows expected, and no livestock losses resulted.

Much damage is reported north of Clovis, where insufficient moisture has kept the wheat from covering the ground. Also heavy damage is reported to the south, particularly around Lubbock, where drough-stricken cotton fields were ripped by the wind. Reports here the first of the week said that graders were being used at Lubbock to push the accumulated blow sand from the streets.

**BACK TO DALLAS**

Mrs. S. C. Hunter, who has been here the past several days attending business matters and visiting old friends, departed Friday for Dallas, where she is making her home with her son, Vernon, and family, since the death of her husband. Mrs. Hunter said that she planned to remain in Dallas during the remainder of the winter and would likely go to Illinois to visit her sister during the summer months.

**TO SHREVEPORT**

Marvin Hambrick, resident of this city, left here early Tuesday morning for Shreveport, Louisiana, where he will undergo medical examinations prior to an operation which he will undergo immediately if the examinations prove that he is physically able to undergo surgery at this time.

**When Your Back Hurts -**  
And Your Strength and Energy Is Below Par

It may be caused by disorder of kidney function that permits poisonous waste to accumulate. For truly many people feel tired, weak and miserable when the kidneys fail to remove excess acids and other waste matter from the blood.

You may suffer nagging backache, rheumatic pains, headaches, dizziness, getting up nights, leg pains, swelling. Sometimes frequent and scanty urination with smarting and burning is another sign that something is wrong with the kidneys or bladder.

There should be no doubt that prompt treatment is wiser than neglect. Use Doan's Pills. It is better to rely on a medicine that has won countrywide approval than on something less favorably known. Doan's have been tried and tested many years. Are at all drug stores. Get Doan's today.

**DOAN'S PILLS**

**Caution Is Theme Of Safety On The Farm**

Implement dealers are making another reminder this week that caution in using farm implements is one of the big factors in preventing farm accidents.

Newspaper accounts recently have told of men having their clothes caught in the augers of post hole drillers whils using the new machines on their farm, and several fatal injuries have resulted.

Post-hole diggers, more or less a novelty on most farms, usually get a lot of attention, and carelessness quite often results in fatal or serious accidents, dealers say, warning both operators and "lookers-on" to stay a safe distance from the auger when it is in action.

**Building Requirements Given For Veterans**

Minimum construction requirements, designed to assure veterans that the houses they purchase with the aid of GI loans are of sound construction, have been announced by Carl R. Gray, Jr., administrator of veterans affairs.

The standards, which will become effective December 15, apply only to proposed construction for sale to vets where VA is asked to give an appraisal of reasonable value before construction begins.

A veteran building a home for his own use may disregard the standards if he chooses, provided the house meets the requirements of the GI Bill that it is "suitable for dwelling purposes" and that the cost does not exceed the "reasonable value" as determined by VA.

**PACE IN HOSPITAL**

Wert Pace, junior member of the firm of Pace Brothers, local garage operators, was taken to a Clovis hospital Saturday night suffering with an infection in his mouth. Blood poisoning developed after he had jabbed his gum with a toothpick. He is said to be recovering satisfactorily.

**RAIL SHIPMENTS**

**AUSTIN**—Texas rail shipments of fruits and vegetables, totaling 73½ carloads in October, stepped up five-fold from September, the University of Texas Bureau of Business Research reported. In comparison with October, 1947, fruit and vegetable shipments fell 39 per cent.

**TEXANS LIKE FOLKLORE**

**AUSTIN**—If evidence is wanted that Texans have a strong tendency to use folk sayings and proverbial quotes in every-day speech, one University of Texas English professor has that evidence.

Dr. Mody C. Boatright has a collection of several hundred folk and "wise" sayings, along with proverbial rhymes and commonly-used expressions, which he will soon send to the American Dialect Society.

The Society asked Dr. Boatright to help collect proverbs from Texas for use in a future publication, "Dictionary of American and Canadian Proverbs". He began his task two years ago, and said he believes the material he now has is a fairly composite and complete sampling of frequently-used expressions.

An old-timer is one who remembers that when two girls discovered a man following them they called a cop. Now they match for him.

Verden, Okla., announce the marriage of their daughter, Willa Mae, to Alvin Gerken, of Anadarko, Okla., on December 2, in a single ring ceremony. Mr. and Mrs. Elvin Hammonds, of Bovina, attended the couple as best man and matron of honor. Mrs. Hammonds is a sister of the bride.

## Dairy Cows Need More Grain This Winter

COLLEGE STATION.—This fall and winter it may pay Texas dairymen to feed their cows more grain. Of course, it's a good idea for dairymen to always feed their cows well, says G. G. Gibson, extension dairy husbandman of Texas A. and M. College. Give them all the good roughage they will eat and feed them more grain, especially the higher producing cows.

This year there is a rather special situation. Texas has had a long drouth, but in some places light sprinkles are trying to put an end to it. With labor still a problem, the high prices for meat have caused a cut in the size of dairy herds. Gibson says that farmers now have about four percent fewer milk cows than a year ago. And if the total milk production is going to meet the big demand that customers are calling for, then dairymen will have to get more milk from the cows they have.

Gibson says that up to a certain point, each pound of grain added to the ration will boost the milk production a little higher. He points out that how much extra grain they get depends on how much they are getting now, and on the local price of grain compared to the price of milk.

In line with this idea of more grain for the cows, Gibson says the present butterfat-feed ratio 1948 of 25.7 pounds of feed to one pound of butterfat compared to 20.5 pounds of feed to one pound of butterfat in 1947 further bears out the possibility of feeding more grain under the present conditions.

This butterfat-feed ratio means just this—at present prices, 1 pound of butterfat will buy 25.7 pounds of grain. And last year 1 pound of butterfat would buy only 20.5 lbs. of feed. So that's an increase in the butterfat-feed ratio of 5.2 in a year.

There are large supplies of feed grains, and prices are more favorable now to heavy feeding than during the early summer. Research shows that when cows are fed 10 percent above the standard level, the aver-

age cow produces just four-fifths of a pound of milk for each pound of grain fed. And when you get to feeding up to 30 percent above the normal level, the average cow produces only half a pound of milk for each extra pound of grain, says Gibson. That gives some guide in feeding for more milk. It's just the old law of diminishing returns working again.

## TO LIVESTOCK SHOW

LUBBOCK—W. L. Stangel, dean of agriculture at Texas Technological college, leaves Lubbock today (Wednesday), to attend the International Livestock show at Chicago, representing the college and an official delegate of the Texas Aberdeen Angus association. The college judging teams for intercollegiate contests at the show left Nov. 19.

To the Woman Who Preserves Foods at Home—  
**Preserve Foods by Freezing** —  
it's easier, quicker—results are better

Freezing foods is simple. It's the easiest way of preserving... requires half the time, half the effort. There are only seven steps to follow for freezing... fourteen for canning.

With a Deepfreeze home freezer, you no longer spend long tiresome hours over a hot stove, or go through the drudgery of washing and sterilizing jars. You save time, work, food and money.

Freezing is nature's way of preserving foods. It seals in all the quality, flavor and food value... it retains the appearance, texture and color of the choice fruits and vegetables you grow or buy. And it keeps them SAFE from food spoilage.

The Journal of the American Dietetics Association (June issue, 1948), Cornell University, states that no case of food poisoning from frozen foods has ever been reported.

De Luxe Model C-10, 10 cubic ft., holds more than 350 lbs. assorted, perishable foods. \$449.50 delivered. Other models for any size purse—any size family. Small down payment. Easy terms.

There's only One!

24 YEARS OF GOOD CITIZENSHIP AND PUBLIC SERVICE

**LEGAL NOTICES**

**CITATION BY PUBLICATION  
THE STATE OF TEXAS**

TO: Nathaniel D. McNish and David T. McNish, the unknown wife or wives of Nathaniel D. McNish and of David T. McNish, and the unknown heirs, assigns and legal representatives of Nathaniel D. McNish, of David T. McNish, and of their unknown wives, GREETING:

You are commanded to appear and answer the plaintiff's petition at or before 10 o'clock A. M. of the first Monday after the expiration of 42 days from the date of issuance of this Citation, the same being Monday the 3rd day of January, A. D., 1949, at or before 10 o'clock A. M., before the Honorable District Court of Parmer County, at the Court House in Farwell, Texas.

Said plaintiff's petition was filed on the 20th day of November, 1948. The file number of said suit being No. 1456.

The names of the parties in said suit are: Leroy W. Berggren and John Aldridge, as Plaintiffs, and Nathaniel D. McNish, David T. McNish, the unknown wife or wives of Nathaniel D. McNish and of David T. McNish, and the unknown heirs, assigns, and legal representatives of Nathaniel D. McNish, of David T. McNish, and of their unknown wives, as Defendants.

The nature of said suit being substantially as follows, to-wit:

Suit in trespass to try title, plaintiffs alleging that on the 1st day of November, 1948, they were and still are the owners in fee simple of the South 1/2 of Block "A", Capitol Syndicate Subdivision, of Parmer County, Texas, and in possession of same, and that on said day the defendants entered thereon and ejected them therefrom and withold possession thereof from them, and that the reasonable rental value thereof during such time is \$50.00 which defendants, although demanded, have failed to pay.

In the alternative, plaintiffs plead and invoke the ten year statute of limitations as same applies to land titles in the State of Texas.

Plaintiff pray that defendants be cited to appear and answer, and that they have judgment for title to and possession of said land, for their damages, and for costs of suit, and for such other and further relief to which they may be entitled.

If this Citation is not served within 90 days after the date of its issuance, it shall be returned unserved. Issued this the 20th day of November, A. D., 1948.

Given under my hand and seal of said Court, at office in Farwell, Texas, this the 20th day of November, A. D., 1948.

Loyde A. Brewer, Clerk, District Court Parmer County, Texas. (SEAL) 6-4tc.

**CITATION BY PUBLICATION  
THE STATE OF TEXAS**

TO: James F. Thomason, Catherine Thomason, and the unknown heirs, assigns and legal representatives of

James F. Thomason and of Catherine Thomason, GREETING:

You are commanded to appear and answer the plaintiff's petition at or before 10 o'clock A. M. of the first Monday after the expiration of 42 days from the date of issuance of this Citation, the same being Monday the 3rd day of January, A. D., 1949, at or before 10 o'clock A. M., before the Honorable District Court of Parmer County, at the Court House in Farwell, Texas.

Said plaintiff's petition was filed on the 20th day of November 1948. The file number of said suit being No. 1457.

The names of the parties in said suit are: Oswell Jones and John Aldridge, as Plaintiffs, and James F. Thomason, Catherine Thomason, and the unknown heirs, assigns and legal representatives of James F. Thomason and of Catherine Thomason, as Defendants.

The nature of said suit being substantially as follows, to-wit:

Suit in trespass to try title, plaintiffs alleging that on the 1st day of November, 1948, they were and still are the owners in fee simple of the following described lands:

A tract of land out of that portion of the West 1/2 of Sec. 17, of Block "Z", of the W. D. & F. W. Johnson Subdivision of Parmer County, Texas, lying north of the R. O. W. of the P & N T Ry, containing 2.09 acres more or less and described by metes and bounds as follows:

BEGINNING at a point 1804.9 feet easterly and 30 feet southerly from the NW corner of said Section No. 17 (said point being 50 feet northeasterly from and measured at right angles to the main track of the P & N T Railway Company at engineers station 4473 x 37.5); THENCE Easterly 30 feet from and parallel to the north boundary line of said Section 17, a distance of 441.0; THENCE Easterly at an angle of 90 degrees 52 minutes right a distance of 413.56 feet, (said point being 50 feet from and measured at right angles to the center line of said main track); THENCE Northwesterly at an angle of 132 degrees 42 minutes right and following the north right of way line of said P & N T Railway a distance of 600 feet to the point of beginning.

And that on such day they were also in possession of said lands, and that the defendants on such day entered thereon and ejected plaintiffs therefrom and withold possession from plaintiffs, and that the reasonable rental value thereof during such time is \$100.00 which sum defendants have refused to pay plaintiffs.

In the alternative, plaintiffs plead and invoke the ten year statute of limitations as same applies to land titles in the State of Texas.

Plaintiffs pray that defendants be cited to answer and appear, and that on final hearing they have judgment for title and possession of said land, for their damages, for costs of court, and for such other and further relief to which they may be entitled.

If this Citation is not served within 90 days after the date of its issuance, it shall be returned unserved.

Issued this the 20th day of November A. D., 1948.

Given under my hand and seal of said Court, at office in Farwell, Texas, this the 20th day of November, A. D., 1948.

Loyde A. Brewer, Clerk, District Court Parmer County, Texas (SEAL) 6-4tc.

**Allen Named Secy. For Baptist Group**

Andrew C. Allen, director of public relations for the Baptist General Convention of Texas, has accepted the position as state Baptist Sunday School secretary. The announcement was made December 2 by Dr. Forrest Feezor, Waco, chairman of the Baptist Executive Board.

Allen has been considering the offer since his election at a meeting of the board at the centennial Baptist convention in Houston early in No-

ember. He succeeds Dr. G. S. Hopkins, who will retire December 31 after 23 years as state Sunday School leader.

A native of Petersburg, Hale county, the new Sunday School secretary is a graduate of the University of Texas in Business Administration. He also holds the Master of Religious Education degree from the Southwestern Baptist Theological seminary, Fort Worth, and the Master of Arts degree in Elementary Education from George Peabody college Nashville, Tenn.

Allen is to begin his new work on January 1. His office will be in the Baptist building, Dallas. Dr. Feezor indicated the matter of Allen's successor in public relations will be settled at the annual meeting of the Executive Board in Dallas, this week.

Only in a well planned feeding program, can we expect to keep down the death losses of both cows and their calves, says Banks.

## Texas Kids See Christmas Angels

As a Christmas gift to the children of Texas, the classic Christmas story of "The Littlest Angel" has been brought to life in Dallas. One of the life-size cherub figures is shown, above, to four-year-old Patsy Parker, of Ennis, by Arthur L. Kramer, sponsor of the free display. The huge exhibit, requiring twenty figures of angels, cherubs and birds to reproduce the characters in the story, is on display at Main and Akard Streets in downtown Dallas through Christmas Day.

**"IS YOUR TELEPHONE TAPPED?"** \* \* \* How can you tell if you have an "unknown guest" on your telephone wire? Should a new wire tapping law be enacted to prevent a recurrence of the famous Nancy Choremis case? Don't fail to read this absorbing story which appears in *The American Weekly*, that great magazine distributed with next Sunday's *Los Angeles Examiner*.

Tribune job printing is best.

### TO INSPECT PLANT

**LUBBOCK.**—Cheese class in dairy manufactures department at Texas Technological college will inspect the cheese and butter plant at Tulia Dec. 14.

W. H. Tinney, lecturer in dairy manufactures, will accompany the class to the Tulia plant.

Help keep Texico-Farwell clean.

## What 4-H Clubbers Do In Texas Homes

**COLLEGE STATION.**—If you've ever wondered just what the 4-H Club boys and girls in Texas do, here is the answer.

This is last year's record of nearly five thousand 4-H Clubs in Texas with a membership of over 110,500 youngsters.

These kids produced food, and they conserved food. And they made more food available to their families, as well as to families overseas. J. W. Potts, extension state 4-H club specialist of Texas A. & M. College, says they had more than 23,000 gardens. The boys have raised more than 368,500 chicks and turkeys. The girls had nearly 7 thousand poultry flocks.

The 961 thousand quarts of food these youngsters put up in cans and jars doesn't include the hundreds of pounds stored in the freezer locker.

Food wasn't the only item on the program by any means. These 4-H boys and girls helped make their homes more attractive and livable. The girls' projects included making more than 59,000 new garments and remodeling over 33,000 other items of clothing.

Fire and accident prevention programs also held the interest of many of the club members. They spent time improving their own health as well as that of their families and communities.

Soil and water conservation practices played a big part on the 4-H Club management. Besides this, they raised more than 54,500 head of livestock, while the girls were planning more than a million and a quarter meals.

That's what the record shows. In doing all these things, says Potts, they gained a better understanding of their places in the world today.

It's a sign of prosperity when men's pants bag at the pockets instead of the knees.

## Guest Plan Founder To Visit Austin, Dec. 14

Miss Iris Gabriel, founder and director of the "American Silent Guest Plan" which is now in progress in Texas to benefit hungry children, has informed Governor Beauford H. Jester she will visit Austin on Dec. 14.

Miss Gabriel will bring a medal to Governor Jester, sent by the mayor of Vienna in recognition of this state's help in the Silent Guest program last year. The medal will be the Viennese children's way of saying "thank you" for the food they received.

A similar campaign was launched again this year, on Thanksgiving Day. The Silent Guest drive, which will last until Christmas, has a goal of \$1,000,000 to be given to the non-profit United Nations Appeal for Children to help 230,000,000 undernourished and sick children throughout the world.

The plan asks that Texans set an extra plate at their tables during the holiday season, from now until Christmas, to entertain a Silent Guest—a hungry child who needs help.

Then, the price of that meal, for as long a period as the individual Texan can afford, may be sent by check or money order to the Silent Guest Committee, in care of the Governors Office, Austin.

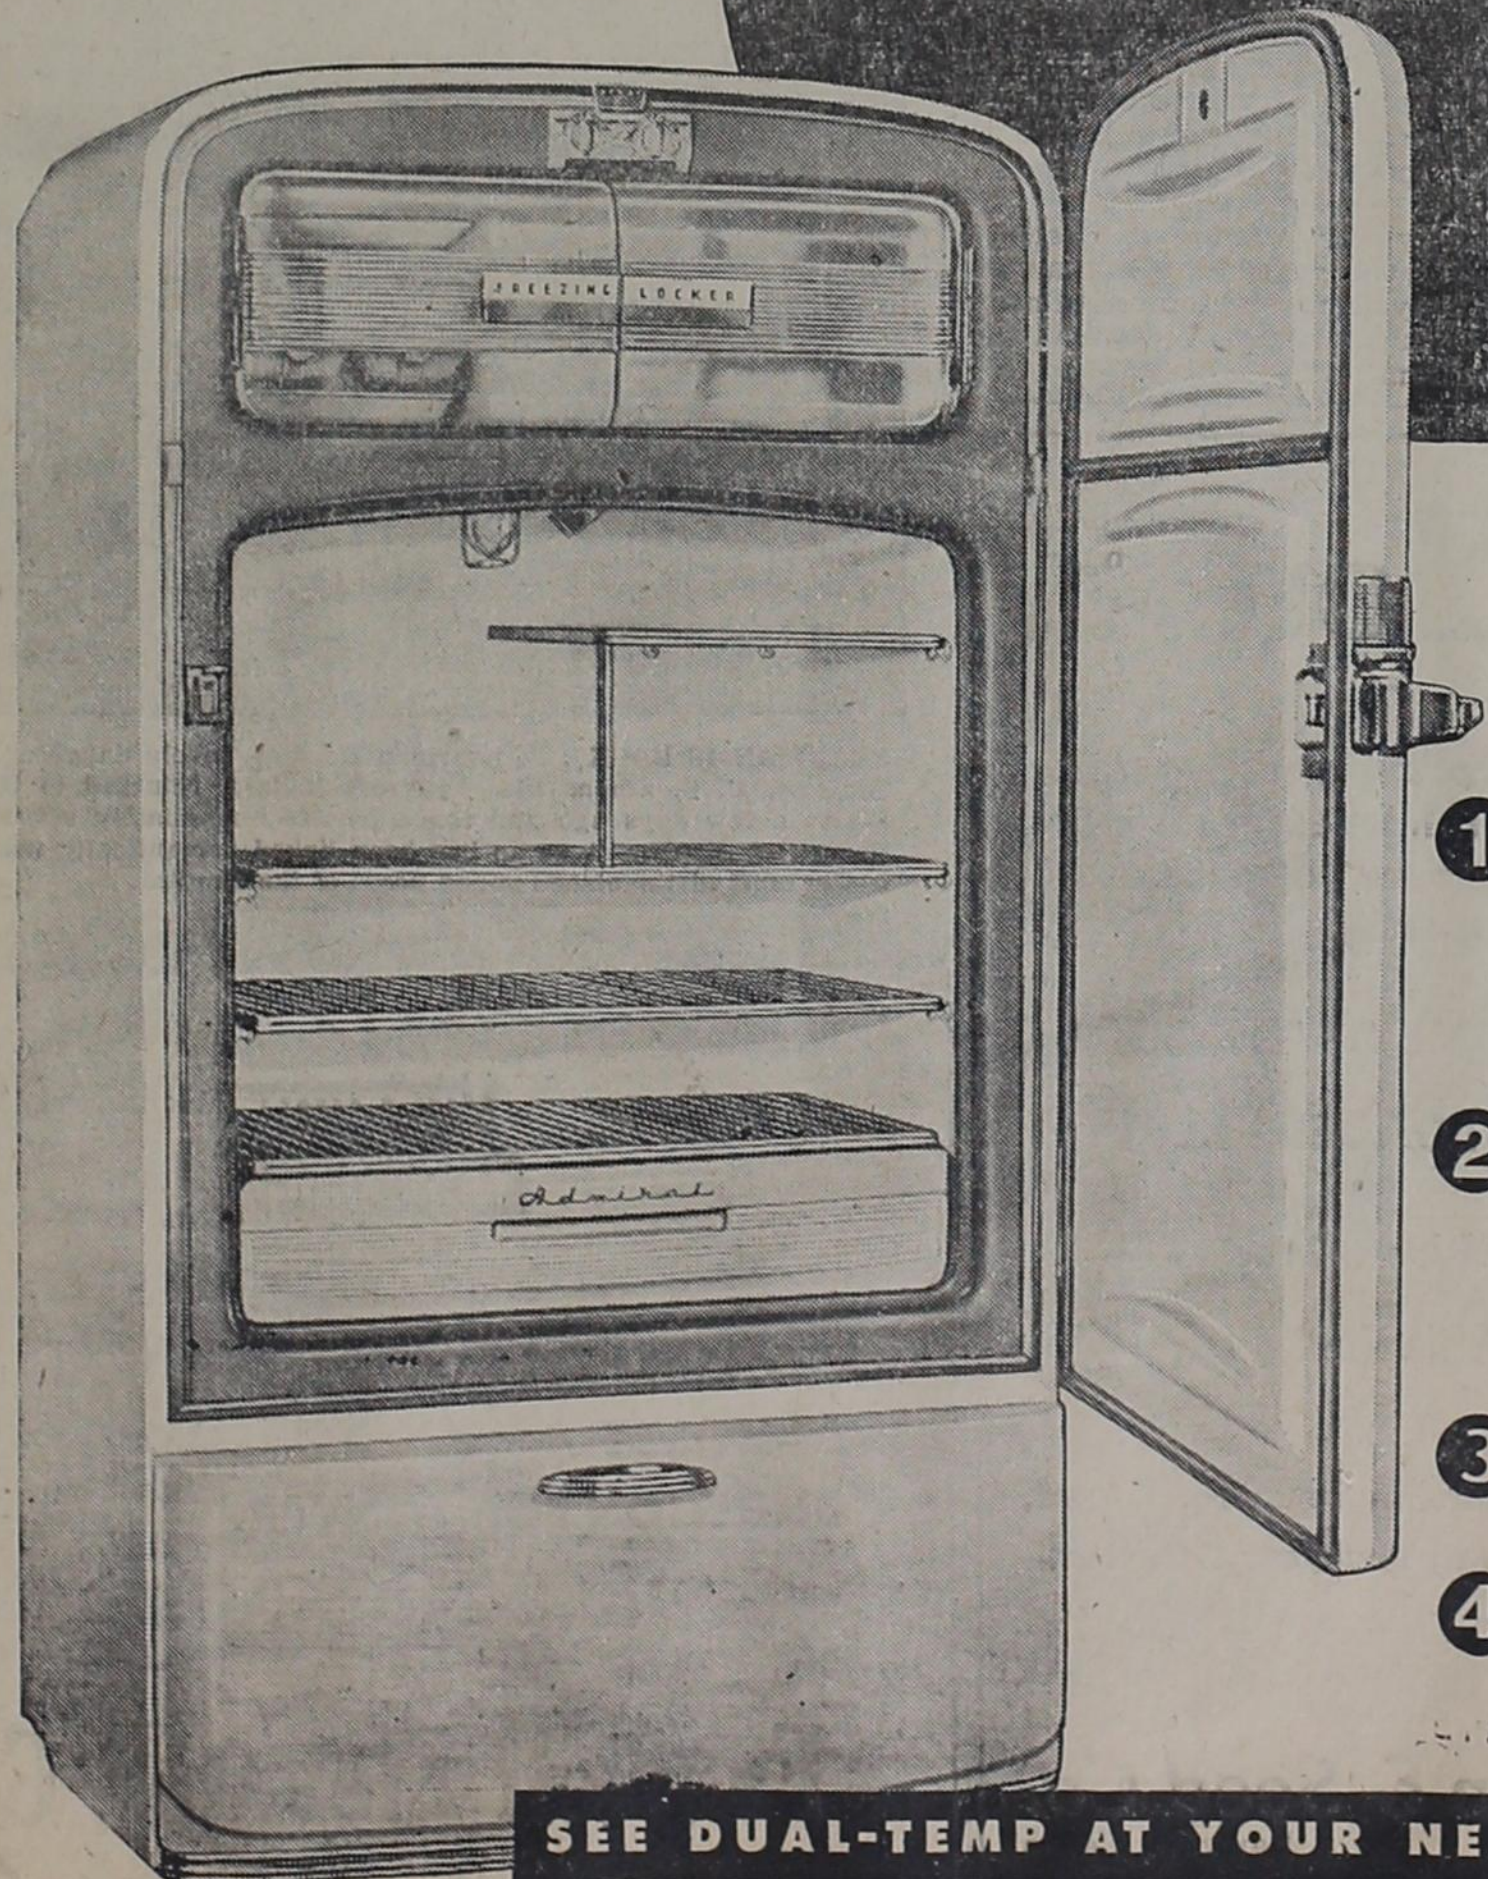

The UNICEF will distribute 75 per cent of the collections abroad, while 25 per cent will be kept in America to help our own needy children. Distribution will be entirely on the basis of need, with no discrimination against any group of hungry children. The relief organization is supported, financially, by the United Nations, so all collections will be used to buy food.

**"SIX MONTHS TO LIVE"** \* \* \* The Babe Ruth cancer fund is a testimonial to two men who had six months to live. Babe Ruth, whose death inspired it, and Sam Briskin, whose \$100 started it. ## Texico Cagesters Take Three of Five Games

Playing five-games the past weekend, the Texico cage teams held a good average at the end of play, having won three of the encounters. All games were played at Texico, with two teams from Pleasant Hill appearing on Friday night, and on Saturday night, play was with two boys squads from Elida and the girls from Bovina.

In actual interest, the Bovina-Texico girls' game was the highlight of the entire weekend. Score ran close during the game, with Texico hanging on to a slight advantage. Three minutes before the final whistle the count was knotted at 28-all, but the locals managed to bounce in a fielder and a free shot to grab the lead and win, 28-31.

McDaniel paced the Texico squad, scoring a total of 17 points during the game, while Ellison was high for Bovina, taking a count of 12.

In their other game of the weekend, the girls lost a 32-22 decision to the visiting Pleasant Hillers, being unable to stop the scoring of tall Bocox. Pleasant Hill held a 21-8 lead at the end of the first half, and the locals never managed to come within actual striking distance. McDaniel took 11 points for Texico.

The Texico boys turned the tables on the Pleasant Hill aggregation in the second game Friday night, however, and slapped the visitors down 34-24, in a game that was fast and furious.

Bridges was the high scoring individual of the evening, bagging 11 of the Texico points, while S. Chandler came in high for Pleasant Hill with 7.

A surprisingly one-sided game was that played between Elida and Texico boys on Saturday night, when the locals ran rough-shod over their opposition to win 45-14. Pre-game dope had it that Texico was decidedly the underdog, according to reports from the teams which Elida had bounced around this season.

Stewart took 14 for Texico, while Wall was held to only 4 points to lead the losers in scoring.

Playing their only match of the weekend, the local second-stringers lost a hard-fought game, 8-7, to the visiting Elida squad, Saturday.

If there were no despicable tightwads, where would us good fellows borrow money?

## Brackets Released For Bovina Cage Tourney

Brackets for both boys and girls who will take part in the invitation cage tournament at Bovina, which begins Thursday night, have been released this week and the Texico girls and the Farwell boys and girls are priming for their initial tourney workouts of the season.

Eight teams are slated in each division, with play beginning Thursday night and concluding Saturday night with the final games.

Double brackets have been lined up in each division. The boys' listing puts Bovina "A" opposite Lazbuddy at 9 p. m. Thursday; Three-Way vs. Adrian at 7 p. m. Friday; Friona against Vega at 9 p. m. Friday; and Farwell faces the Bovina "B" squad at 7 Thursday night.

Winners in the upper bracket play in the semi-finals at 2:30 Saturday, with the lower bracket winners on deck at 12 Saturday. Losers of the first round meet at 10 a. m. and 4:30 p. m., Saturday, in upper and lower divisions, respectively. The consolation match is slated for 7:30 Saturday night, while the champions will be determined at 9:30.

The Bovina and Texico girls meet at 8 p. m. Thursday; Vega plays Three-Way at 6 p. m. Friday; Friona clashes with Farwell at 8 p. m. Friday; and Lazbuddy contests Pleasant Hill at 6 p. m. Thursday, in the opening round for the girls.

Winners in the first round play at 11 a. m. and 1:30 Saturday in semi-final matches; while the losing bracket semi-finals come off at 3:30 p. m. and 9 a. m., Saturday, upper and lower groups, respectively. The consolation game is slated for 6:30 with the last game for the girls at 8:30 Saturday night.

Fisher and McDowell, of Clovis, have been secured as referees.

## Local Teams Contact Rosedale On Friday

The strong Rosedale aggregations will serve as hosts to the Texico teams on Friday night of this week, Coaches C. E. Sanders and F. D. Stout announced today.

Both games are expected to be exceptionally hard-fought, with reports indicating that the teams are fairly evenly matched in ability.

On a comparative note, both Texico and Rosedale have bowed before

the powerful Friona Squaws, with about the same margin of win being recorded in each case. The Friona boys also dumped Rosedale, in a tie play-off, by four points.

Texico's boys, having downed a highly-touted Elida quintet the past Saturday night without a struggle, are gunning for another victory, and are laying plans to keep their opponents in check this weekend.

## Phillips-Monohans Will Play At Lubbock, 11th

LUBBOCK—This will be the scene of one of the quarter final Class A football games this coming Saturday when the Phillips high school Blackhaws and the Monohans high school Lobos clash in a contest to determine the winners between Regions 1 and 2. The winner of this game plays in the State semi-final.

Both teams have established an undefeated and untied record of this season's playing in twelve games.

Monohans qualified for the game Saturday by defeating Ballinger, 33 to 28, at Ballinger, last Friday. Two outstanding backs, Waldo Young and Ralph Cathey, led the Lobos in their victories throughout the season. An examination of the line-up of both teams reveals that Monohans holds the weight advantage over Phillips. Monohans has defeated Seminole, Denver City and Andrews of this immediate area.

The Blackhaws qualified for the tilt by defeating Post, 41 to 0, at Amarillo, Saturday. Reports indicate that they have a slightly more balanced team than the Lobos and also have an outstanding back in Melvin Eldridge. In addition to Post, the Blackhaws have defeated Floydada, of this area, earlier in the season.

The game Saturday is to be played at Jones Stadium at Texas Technological College and is scheduled to start at 2:00. The Lubbock Junior Chamber of Commerce is sponsoring the advance ticket sales for the game and tickets may be obtained by writing the Lubbock Junior Chamber of Commerce, PO Box 723, and enclosing a check or money order for the number of tickets desired. Ducats are priced at \$1.50 for adults and 50c for children. Tickets may also be obtained by calling at the Jaycee office, or by calling at Wylie's Drug Store in Lubbock.

Information obtained from the visiting towns indicates that Phillips plans to have 1500 spectators and Monohans 2,000 fans at the game.

## Pre-Christmas Meet Comes Next Week

The annual invitation cage tournament sponsored by the Farwell school as a prelude to the Yuletide holiday season will open on Thursday night, December 16th, and continue through Friday the 17th and Saturday, the 18th, Coach Louis Purvis has announced.

Sixteen teams are scheduled to see action during the weekend, being evenly divided into eight boys' and eight girls' squads, he added. Included in the group for the boys are Bovina, Littlefield, Lazbuddy, Vega, Dumas, Adrian, Farwell, and, tentatively, Seagraves.

The girls' list is made up of Littlefield, Lazbuddy, Dumas, Springlake, Pleasant Hill, Texico, Bovina, and Farwell.

Very little can be forecast to date concerning the calibre of the tournament contestants, as the season is just under way. Pleasant Hill, which had an unusually strong team last year, has already dumped Farwell and Texico, and may make a strong bid for honors in the girls' division.

Some predictions concerning the outcome of the meet will likely be offered the first of the week, following the Bovina tournament which comes off this weekend. A number of teams are participating in both meets.

McDowell and Fisher have been named as officials. Three games will be played on Thursday night, beginning at seven o'clock, with three sets of three games each slated for Friday—in the forenoon, afternoon and evening. Semi-finals come off Saturday afternoon, with the last playoffs being slated for Saturday night.

## SCRIMMAGE GAMES HELD

Scrimmage games with the Pleasant Hill teams were played on the Farwell cage court the past Saturday night with the local boys taking a 38-17 walkaway over the visitors, while the girls lost a close 2-point decision, falling before Pleasant Hill 18-20. Coaches Louis Purvis and Jack Williams expressed themselves as well pleased with the showing made by their teams.

## Awtrey Team Dumps Local Bakery Team

The Crawley Bakery cage team, currently in play in the City League tournament in Clovis, went down before a strong Awtrey Implement squad from Melrose, last week, with the final count standing 17-34.

Sheets paced the Texico team with a high score of seven points, but was pushed out of individual honors by Dunlap, who racked up nine for the Melrose quintet.

Tonight (Wednesday) the Crawley team is slated to meet a group representing the REA, in continuing the tourney schedule.

## BACK FROM TEMPLE

Claude Dyer, who has been in Temple, Texas, for the past two and a half months, working in a restaurant owned by his brother, Charley Dyer, returned to his home here Sunday. Claude and his family had planned to move to Temple, but he stated upon his return home that "it was impossible to find a house in which to live in that city."

"Every four minutes an American dies of a disease caused by a common cold," says a medical journal. It must be awfully monotonous for the American.
