

Twin Cities Pass Holidays In Quietness, No Accidents

By and large, festivities were rather uneventful for the Twin Cities' observance of July 4, traditionally a day of considerable noisemaking and merriment. Unlike surrounding cities, many places of business in Texico and Farwell remained open through the "holiday," although not a great many cars were parked on Main Street.

Staying open were service stations, cafes, drug stores, and many individually owned and operated businesses. Closing were automotive houses, branch office of corporations, most grocery stores, and all government offices.

Occasional volleys of firecrackers could be heard throughout the day, but for the most part, the kids reserved their fireworks for nighttime.

No serious accident involving local citizens had been reported to The Tribune up until this (Wednesday) morning.

FARWELL SCHOOLS RECEIVE NEW BUS; SUMMER IMPROVEMENTS UNDERWAY

FROM THE HOPPER

By HOP

Although it will likely be early fall before the new courthouse lawn will begin to take on an attractive appearance, blooming summertime plants are already putting forth around the front foundation approaches.

Mrs. C. M. Crow has provided Caretaker Noble Goldsmith with a large collection of flowering annual plants which he has set out and some of them are now beginning to bloom. Among the collection are hardy zennias, touch-me-nots, and marigolds.

The sprinkler system installation for the large lawn is now completed, and the ground is being leveled off in preparation for the seeding of the lawn. Goldsmith said he intended to delay seeding of the lawn until the cooler days of the fall set in. In the meantime, the plot will be kept free of weed growth by constant cultivation.

The courthouse grounds are soon to be made a place of beauty instead of the eyesore that has prevailed the past several years.

Oil leasing in Parmer and adjoining counties has been on the upgrade the past several weeks with the result that more than 200 sections of land in Parmer County alone are now under lease. None of the lease contracts entered here lately carry drilling contracts, but oil men are keeping ahead of the oil pay that seems to be definitely moving in this direction from paying fields to the southeast and southwest of here.

Oil leases are being sought throughout this area and as far as Santa Rosa, N. M., more than 100 miles northwest of here. Oddly enough, a tier of counties along the Texas-New Mexico border, of which Parmer is about the center, is about the largest section in the entire state of Texas where oil has not been discovered. Looks like it is our time next.

To our way of thinking, however, the most unusual story that has come to the surface in recent years with regard to oil development has been the experience of the Capitol Freehold Land Trust, successors to the old XIT ranch of 3 million acres of land in the Texas Panhandle.

The vast oil and gas fields of the Texas Panhandle were once the property of the Capitol Company, but up to this date not one penny of oil money has come into the hands of the company.

With no thought of oil development, the Syndicate disposed of its vast holdings without retaining any mineral rights until during recent years—and no oil has been found on any of their present holdings.

That, it seems to us, is about the queerest quirk in the oil development game we have run onto. With all that millions of acres of land, it looks like a mathematical impossibility that they could have missed out so completely.

We hope all the local boys disposed of their stocks of fireworks this Fourth of July season. Its a pretty safe bet that the sale of fireworks will not be permitted in Farwell come another Independence Day.

BULLETIN

Rains of cloudburst proportions fell in the Oklahoma Lane community shortly after midnight Wednesday, doing damage to young crops. Only a shower of half an inch was received in Texico-Farwell.

Good Rains Fall Over Area Monday

Bovina Voters Approve School Bonds

DUMPING OF PAPER AT CITY GROUNDS MUST END, CITY COMMISSION WARNS

The practice of dumping paper and cardboard cartons at the city dumping grounds east of the city must cease immediately, members of the Farwell City Commission warned here today.

The dump ground property has just been turned over to the city, and already suits against the city are being threatened unless this practice is stopped at once, members of the Commission said.

Residents of Texico and Farwell are advised to burn all combustible materials on their own premises instead of sending them

to the city dump. Officials explained that paper and paper boxes that were hauled to the grounds were being carried to adjoining farm lands by the wind, creating a nuisance to the farmers, who were threatening to take legal action against the city.

Garbage haulers are being advised to haul non inflammable materials to the dump ground, and individuals who haul their own garbage are warned against the practice. "It must be stopped," a spokesman for the Commission warned today.

Call for Bids on City Sewerage System

Bids for the installation of Farwell's sewer system, together with the construction of a disposal plant, will be received at the office of Mayor C. M. Henderson up to July 17, according to a legal notice appearing in this issue of The Tribune.

Engineer W. D. Howren of Amarillo, who has been employed to draw up the plans and specifications, said in a long distance telephone message that the plans were being completed this week and would be on file at the office of Mayor Henderson.

A bond issue in the amount of \$40,000 for a sewer system was voted by the citizens of Farwell in a special election held on June 2 of this year.

The City of Farwell has just acquired title to the land to be used for the disposal plant, which is located east of the city being currently used as a public dumping ground.

Parmer Wheat Loan Rate May Be Worked Out This Week

Parmer County wheat loan rates for 1951 should be released by the department of agriculture this week, announces Joe Camp, secretary of the Parmer Production and Marketing Administration.

Asked for an estimation of the forthcoming release, Camp said he imagined it would be "a few cents more than last year." This probably will place the new rate somewhere in the neighborhood of \$1.95.

Another release, this time dealing with Parmer wheat allotments, should be out "around the first of August," Camp reported. This new allotment is based on wheat crops over the past four years.

Explaining how the individual allotment was arrived at, Camp explained that these steps were taken:

(1) A farmer's average acreage for the past four years is determined; (2) This acreage figure and all others in Parmer County is totaled to determine the over-all average of all Parmer farmers; (3) The Parmer County allotment is divided by the over-all figure to determine a percentage; (4) Suppose the figure is 80 percent—then Farmer Jones will be allotted 80 percent of his acreage for the past four years.

Secretary Camp said there probably will be an increase in county allotments for next year.

Seismograph Crews Must Secure Permit

Commissioners' Court decided that seismograph crews will have to secure permission from all landowners involved before drilling or exploring a vicinity, Loyd A. Brewer, county clerk, says.

No changes in tax assessments were made at the regular meeting Monday.

The court will meet as a Board of Equalization with REA from Hereford and Muleshoe at 2 p. m., July 10, at the Parmer County Courthouse in Farwell, Brewer added.

Never marry but for love, but see that thou lovest what is lovely.—William Penn.

J. E. McDonald Raps Agricultural Program

Declaring that the agricultural problem of the nation "is to be solved by the farmers and not by the swivel chair politicians in Washington," J. E. McDonald, agricultural commissioner of the State of Texas, took a rap at the present system when he addressed a meeting of the Parmer County Farm Bureau at Friona Friday evening.

The outspoken agricultural commissioner, who described himself as a "thorn in the side" of the present administration, said that he had no patience with the 70 to 90 percent parity, and said that the farmers should have full parity. "The farmers' dollar and the industrial dollar should be on the same level," he contended.

President Roy Miller of the Parmer County Farm Bureau, after opening the meeting, called on Raymond Euler, secretary of the Bureau who reported that the association had an original membership of 307, but 35 were delinquent at present on account of non-payment of dues. Euler complimented the farmers of the Rhea community, who boasted a membership of 100 percent, with 27 farmers belonging to the organization.

(Continued on Page 4)

With approximately only one-half of the eligible voters taking part in the election, the voters of Bovina Independent School District approved a \$125,000 bond issue last Saturday in a special election by a heavy majority.

Only 65 ballots were cast in opposition to the issuance of the bonds, while those favoring the bonds rolled up an even 100 votes in excess of the opposition, with 165 favoring the issue.

When interviewed late Saturday evening, Supt. W. H. Willoughby said that the School Board was scheduled to meet Monday of this week to canvass the votes and declare results of the election.

He said tentative plans of the School Board called for a completely new building to be used as a gymnasium and the conversion of the present gymnasium into an auditorium with permanent seating facilities for the accommodation of greatly enlarged audiences. Currently, and for the past several years, the present gym has been used as a combination gymnasium-auditorium.

Other improvements under consideration call for needed improvements on other buildings on the campus, including the cafeteria and the agriculture building.

A new lighting system for the present school building is also being planned and is to be included in the improvement program. Improvements about the athletic grounds, including tennis courts, are also under consideration, Willoughby said, adding, "if we have enough money."

Butler and Brasher of Lubbock have been employed to draft plans for the new building. Supt. Willoughby said it was hoped that all new improvements would be ready for opening of the fall term.

WATER SYSTEM INSTALLED

Installation was completed this week on the 180-spray watering system for the Parmer County Courthouse. Nobel Goldsmith, courthouse caretaker, said the new system will be adequate for a new lawn he hopes to plant this coming September. He planned to spend the intervening time eradicating weeds on the courtyard.

Voice of America's impact reported disturbing Kremlin.

The best and most general rain to fall here this year covered a wide section of the Texico-Farwell area Monday afternoon and night, bringing relief to young crops that were barely being kept alive by light showers.

For the most part, the rain seemed to center in the southwestern portion of Parmer County, along the east side of Curry County and in the West Camp community.

Early reports gathered here Tuesday afternoon, indicated that very little rain extended beyond Oklahoma Lane to the east, and Bovina to the north. The heaviest downpour came southwest of here with Dick Doshier reporting a damaging rain of 3 inches at his place. Neighboring farmers of Doshier's, including Ed Muckelroy, Joe Blair, and Orval Francis, reported a full inch.

The rain seems to have been good to the west of here, with Clovis coming in for a good drenching. Reports also say that good moisture was received in the Grady and Forrest region north of Clovis.

Farmers in the Oklahoma Lane Community give their rainfall at one inch, while east of the schoolhouse the moisture seems to have tapered off with only four-tenths of an inch being received five miles to the east.

Farmers in the Lariat section came in for another good rain—the third during the past week—with Fred Gerles reporting an inch at his place. Up the state line north of here, the rain did not extend much beyond 15 miles, although the Rhea community reports three-quarters of an inch.

In Farwell, the rain amounted to better than an inch, with some readings going as high as an inch and a half. Bovina got just under an inch. The moisture tapered off to the east of that city.

John Aldridge, who made a survey of the rainfall Tuesday morning, summed up the precipitation as covering "about 40 sections in the southwestern corner of the country." Showers of last week, particularly on Wednesday and Thursday nights, brought badly needed moisture to much of the Lariat section and to north and northeast Friona.

Farmers say that practically all of the struggling young crops, planted recently without sufficient undergrowth season, have been able to survive and will take on new life with the moisture of Monday night.

Farwell FFA Chapter Outstanding; Has 20-Acre Farm, Irrigation Well

By SONNY GRAHAM

What does it take to make a good vocational agriculture department? It takes a lot of things, and the Farwell High School department has a lot of them. For one thing, they have just completed installation of a deep-water irrigation well on their 20-acre farm in the eastern part of town that puts many other Texas ag groups of comparable size to shame.

The Farwell agriculture department is a unique school organization in that it is self-supporting. They are paying for the well themselves. They have not used any school tax money for their project, and they plan to finish payments on the farm, cost of the well, and improve their present holdings with future farm crops.

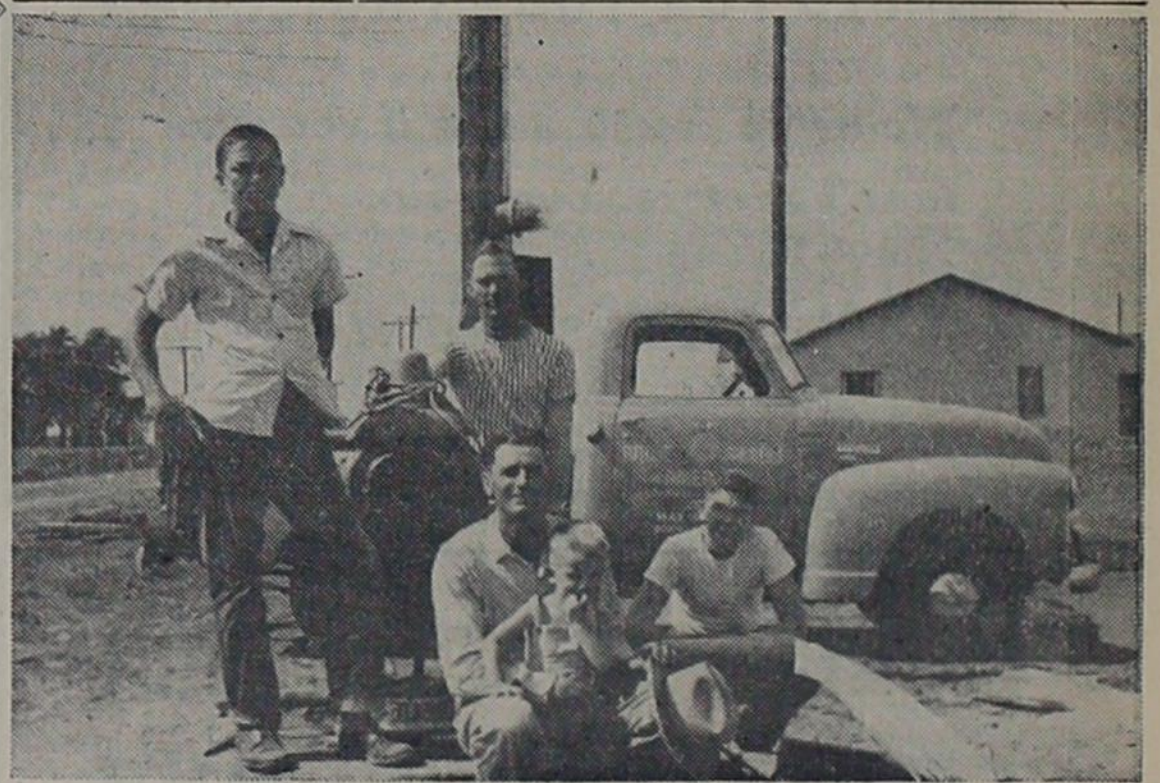

Records show that it is not unusual to find other schools that have ag farms, but oftentimes these farms are on loaned-out land. Although there are other agriculture departments in Texas that own farms, practically none are fortunate enough to have an irrigation well.

Conception of the farm, its purchase, development, and improvement up until the present time has been under the leadership of soft-spoken Robert L. Morton, playfully dubbed "Prof." by his teen-aged understudies when he came to the Farwell schools six years ago. The nickname stuck with the adviser and now he is addressed as "Prof."

Morton came here as an FFA adviser in 1944 from the Haskell school system. He succeeded T. A. McCuistion in that capacity, and has sponsored a lively FFA chapter averaging 40 members ever since.

He is now living adjacent the ag farm, where he handily disposes of his odd moments by keeping an eye on the new irrigation system. He is married and has two children.

FFA Club Interesting Study Heart of the school's agriculture setup is the chapter of Future Farm-

CULMINATION OF FOUR YEARS' WORK—Pictured with their new irrigation well in eastern Farwell are the FFA chapter adviser and three in-town members. They are, left-to-right, Junior Poteet, Leon London, Robert L. Morton, adviser, and his son, Jim; and George Duncan. Behind the group is parked a 1950 Chevrolet pickup loaned the chapter by Max Meadors Company of Clovis. The well pumps around 175 gallons of water per minute, and will irrigate the 20-acre farm.

ers of America, a division of a national organization that is one of the oldest, largest, and most distinguished agricultural groups in the United States.

The club and its work is an interesting study in itself. Practically all students who enroll in a vocational agriculture course become FFA members.

Morton emphasized the distinction between the FFA chapter and the vocational agriculture department of the school. The two have no real connection, he said. Morton explained that the FFA chapter was "the club" part of the agriculture department." He pointed out that "The FFA organization represents

and encourages leadership, training, and social activities."

The department of vocational agriculture is merely a division of the school curricula, and bears no tangible connection with FFA work, although the two generally are striving to arrive at the same ends.

Many Club Activities The chapter is justly proud of its participation in many fairs, showings, demonstrations, judgments, and the like.

"The biggest event is the Houston Fat Stock Show," said Morton. "We have gone only the past two years, and have taken a judging team."

Although the team failed to place (Continued on last page)

Health Directors May Launch Statewide Medical Survey

DALLAS—Acting at a time when the state of health of all Texans will be most important, in the face of possible impending crisis, the Texas Health Council today announced that it is now geared to launch a statewide survey of medical needs and facilities.

This organization, the first to announce plans for such a survey, has as its purpose to coordinate already existing efforts, and assist in case of national emergency or any eventuality.

Jerome K. Crossman, Dallas businessman and President of the Council, today said that no time will be lost in conducting the statewide survey at local levels to accumulate pertinent statistics and information which may or may not be needed in the near future. Plans for this survey have already been under consideration for some time, Crossman pointed out.

Regardless of the world's situation, the results of the survey will be most beneficial in carrying on the program of the Texas Health Council, which is an independent, non-political, non-profit educational corporation made up of leaders in industry and business, and including the professions such as legal, medical, dental, and medical service, united to improve and extend health facilities throughout the state.

The survey will cover the following points:

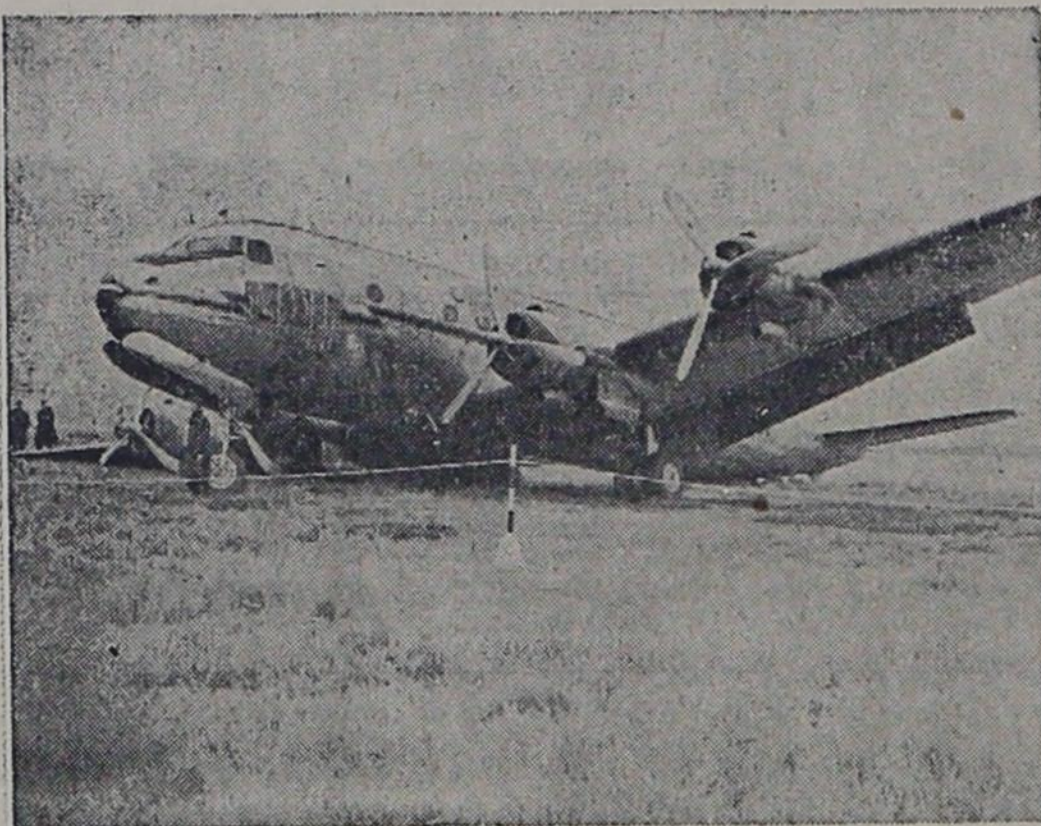

1. What is needed to furnish proper medical care
 - a. Doctors
 - b. Nurses
 - c. Hospitals
 - d. Clinics
2. What facilities are now available?

POLITICAL ANNOUNCEMENTS

The State Line Tribune is authorized to make the following political announcements, subject to the action of the Democratic primary election in July:

- For District Judge, 64th Judicial District:**
ROBT. (BOB) KIRK
E. A. BILLS

 4. What groups could be counted

LUCKY 13 . . . Thirteen persons aboard this DC-4 Colonial Airlines plane escaped without injury when the craft's right landing gear collapsed as it was landing at New York's La Guardia airport. The plane, coming in from Montreal, was half way down the runway at reduced speed when the gear collapsed.

on for cooperation?
5. Whether individuals could be counted on to help

Governor Allan Shivers has been invited to head the State Advisory Board of the Texas Health Council, as honorary chairman. This board will serve as specialists in drafting and directing policies and over-all programs of the organization.

Membership on the advisory board of the Texas Health Council will include representatives from such groups as the State Medical Association of Texas, the Texas State Dental Society, State Hospital Association, Texas Graduate Nurses Association, State Department of Public Health, Texas Education Agency, Texas Pharmaceutical Association, Medical Service Society of Texas.

lic Health Association, Woman's Auxiliary to the Texas State Dental Society, Texas Hospital Auxiliaries, diabetes, heart, cancer, tuberculosis, and rheumatism societies, Texas Federation of Women's Clubs, Texas Congress of Parents and Teachers, Texas Press Association, and Women's Auxiliary of the State Medical Association of Texas.

LEGAL NOTICE

CITATION BY PUBLICATION
THE STATE OF TEXAS

TO:
Charles A. Elmore, Mrs. Charles A. Elmore and the unknown heirs, assigns and legal representatives of Charles A. Elmore and Mrs. Charles A. Elmore Defendant, Greeting:

You are hereby commanded to appear before the Honorable District Court of Farmer County at the Court House thereof, in Farwell, Texas, at or before 10 o'clock A. M. of the first Monday next after the expiration of forty-two days from the date of the issuance of this citation, same being the 14th day of August A. D. 1950, then and there to answer Plaintiff's Petition filed in said Court on the 28th day of June A. D. 1950, in this cause, numbered 1525 on the docket of said court and styled C. D. Day Plaintiff, vs. Charles A. Elmore, et al Defendant.

A brief statement of the nature of this suit is as follows, to-wit:
Plaintiff brings this suit in Trespass to Try Title, alleging that on June 1, 1950, he was the owner in fee simple of Lots 5 and 6, Block 4, McMillen and Fergus Addition to the original town of Friona, Farmer County, Texas. On the second day of June, 1950, defendants unlawfully entered upon said land and dispossessed him, to his damage in the sum of Ten Dollars and in the alternative, plaintiff fully pleads the five year statute of limitations. Plaintiff prays for title and possession of said land, as is more fully shown by Plaintiff's Petition on file in this suit.
The officer executing this process shall

execute the same according to law, and make due return as the law directs.
Issued and given under my hand and Seal of said Court at office in Farwell, Texas, this 28th day of June A. D. 1950.

Attest:
Loyde A. Brewer, Clerk
District Court, Farmer County,
Texas
By Rosa Lee Tabor, Deputy
(Seal)

Bermuda, Johnson Grass Succumbs To New Spray

When trichloroacetate spray is used to eradicate Bermuda grass or Johnson grass, it should be mixed at the rate of one-third to three-fourths of a pound per gallon of water, says M. K. Thornton, extension agricultural chemist of Texas A. & M. College.

About one gallon of the spray will be needed per 100 square feet of area, depending upon the size and density of the plants. If applied during the months of June and July, this amount of trichloroacetate will kill practically all of the Bermuda and Johnson grass on the land.

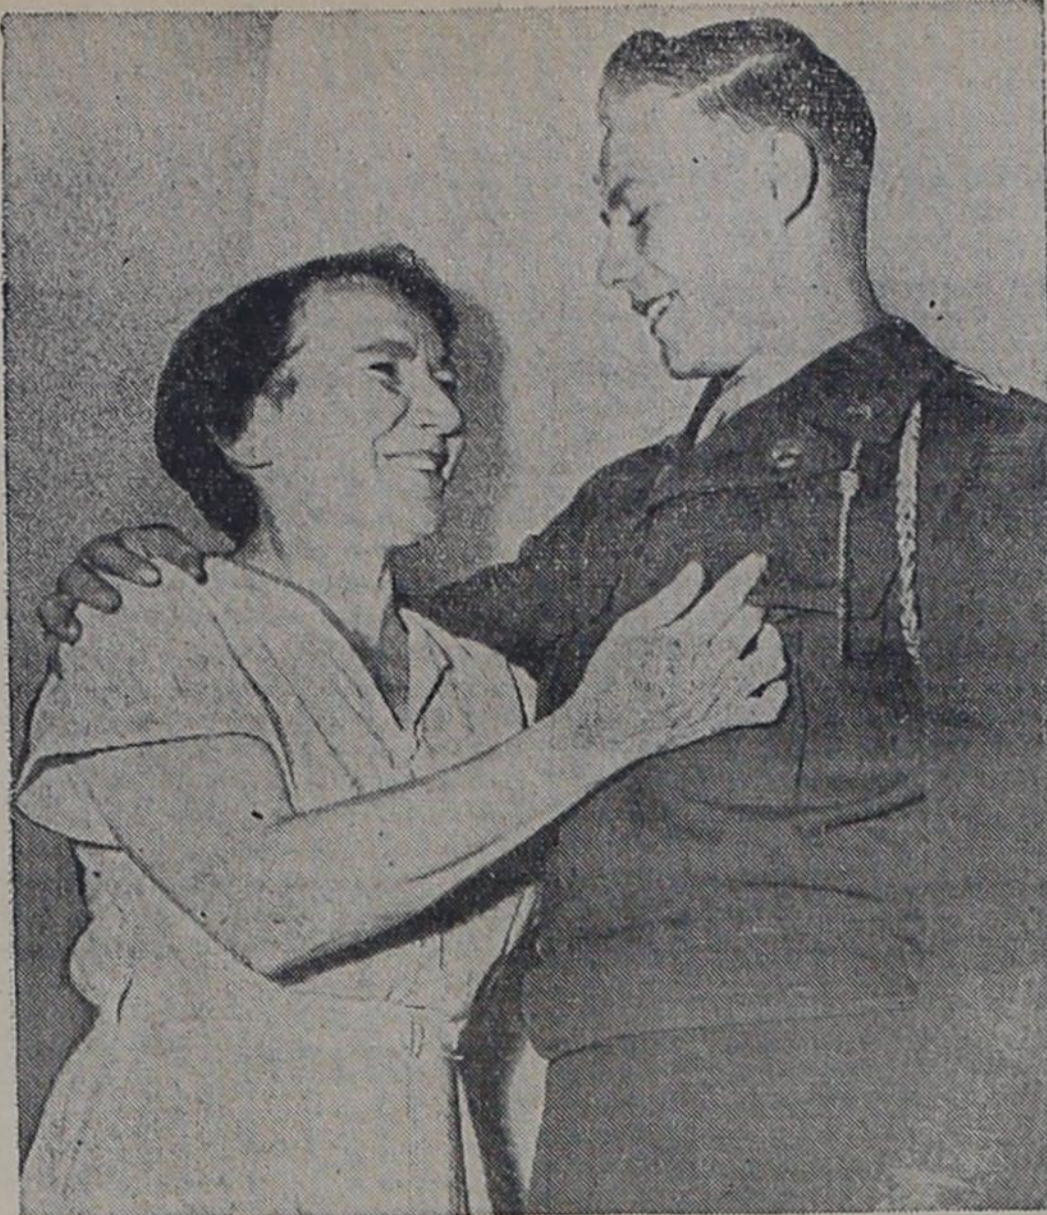

Thornton says that trichloroacetate, commonly called TCA, has been recommended for the control of

Johnson grass, Bermuda grass, and other grasses for some time, but farmers are still unable to buy the compound locally. Many of the large chemical companies manufacture the product, but do not sell it to the public in small packages.

TCA is particularly useful for the eradication of Bermuda and Johnson grass from fence rows, roadways, small spots in fields, and areas that are inaccessible for machinery. However, the cost of the compound prevents it being used for eradicating grass from large areas.

Normally some drying of plants can be seen in about 24 hours after the spray is applied, says Thornton, and most of the plants that are going to die will be dead within a week after being sprayed.

Hot, dry conditions with a moderate amount of moisture in the ground are favorable for spraying with TCA. The compound is water

SEES SON AFTER 14 YEARS . . . Mrs. Mary Franz of Uniontown, Pa., who recently regained her sight after 14 years of blindness, looks lovingly at the face of her son, Christopher, whom she last saw as a child of three. He was serving in Germany when his mother came out of darkness. The Fayette county Red Cross interceded with army officials, and the boy, now 17, was granted a 30-day furlough and flown home for the reunion with his mother who had asked to see him.

soluble, and it penetrates the ground in addition to acting on the tops of the plants. If a rain occurs immediately after the spray is applied, some of the TCA will be carried away in runoff water, some will leach out through the soil, and the percent kill will not be as high.

TCA may affect the growth of plant life for 90 to 120 days after the date of application. The chemical ac-

tion varies with different species of plants, and rainfall shortens the effective period of influence.

TCA to be efficient for the eradication of Johnson grass in a test run at the Blackland Experiment Station, Temple, Texas, and in tests run at experiment stations in other states. At the Blackland station, sodium TCA gave a 90 percent kill in 21 days and a 100 percent kill in

four and one-half months, at a cost of 41 cents per 100 square feet.

THE HOMEY TOUCH

A very dejected man walked into a restaurant one morning and sat down at a table.

"I want two eggs fried very hard, two slices of toast burnt black and a cup of weak, luke-warm coffee," he told the waitress.

"Are you sure that's just what you want?" she asked, amazed.

"To the letter." The waitress explained to the chef and managed to get the man exactly

what he had asked for. "Anything else, sir?" she asked as she put the order on the table.

"Yes, now sit down and nag me. I'm homesick."

MOCK ATOMIC BOMB ATTACKS

Mock atomic bomb attacks on Washington, Chicago, and Seattle, to be staged in the near future, will be used to map an emergency civil defense plan for American cities, according to the National Securities Resources Board. Results obtained in the three cities will be used as a guide for other cities, it is stated.

McDonald Raps—

(Continued from Page 1)

Opening his remarks, Commissioner McDonald characterized agriculture as "our fundamental basic industry, and our only indispensable vocation", then he went on to add that "from now on we might just as well realize that we are going to have a national farm program."

"Our farm program must be sound, one that will benefit others as well as ourselves," he declared. And then he launched into his criticism of the present program by declaring that he would never agree to allotments being in acres, but rather in units of bales, bushels and pounds. He cited as an example of the unsoundness of the acre system a condition that now exists along the Mexico border, where 320,000 acres have been taken away from the cotton allotments, particularly in Hidalgo County, with the result that the Mexican farmers across the border have stepped up their cotton acreage in competition with the Texas growers.

"There is nothing new about the unit system," McDonald observed, pointing out that it was the same program the manufacturer had used for the past 70 or 80 years. "Under the unit program, the farmer could build up his reserves, sell his allotted units at parity and dispose of his surpluses to foreign markets." Explaining his idea of the unit system, McDonald said that when farmers produced a surplus, these surpluses could be held over for the next year and sold at parity prices. "In that way the farmer would have an opportunity to build up his reserves, with the assurance that he would get parity prices for his products."

Concluding the program, a picture featuring the "Memphis Belle" was shown. Taken during actual combat during World War II, the picture showed a full-scale air attack on Germany by American planes, based in England. Among the ground crew members of that historic raid was a local man, D. K. Lindop, and the audience caught a fleeting glimpse of the local man as the film was unreeled.

NOTICE TO CONTRACTORS

By MRS. TURNER PAINE

SURPRISE BIRTHDAY PARTY

Thursday night, June 29, in the home of Mr. and Mrs. C. C. Christian, June Christian and C. W. Grissom were honored with a surprise birthday party. Games under the direction of Gene Vernor were enjoyed by the entire group. Cake and ice cream was served to the following:

Caryetta Grissom, Hettye Nann Randol, Dot Kent, Donald Christian, Wendol and Louise Christian and girls, Billie and Bobbie Foster, Dot and James Roach, Bobbie, Billie, and Laverna Christian. Cecil Mardis, June-Gay Looney, Melvin Terry, Lola Grissom, Mrs. L. M. Grissom, Troy and Phyllis Christian, Gene Verner, June Christian, Janean Ellison, C. W. Grissom, and Mr. and Mrs. C. C. Christian.

at Canyon Tuesday. Mr. and Mrs. Alton Berry, underwent major surgery at anyon Wednesday. Mr. and Mrs. James Berry and Mr. and Mrs. Alton Berry were with her and report that she is getting along fine. Mrs. T. W. Roberts, mother of G. H. Lindop, also underwent surgery last week in Sedona, Ariz. Mr. and Mrs. Lindop are still with her. The operation proved more serious than had been expected.

Mr. and Mrs. Lloyd Gober were given a housewarming Friday night in their new home. The hostesses, Mrs. Wendell Christian, Bessie Caldwell, Mrs. Tom Caldwell, and Mrs. Billy Meeks, served cookies and ice cream to an estimated sixty guests. Many lovely gifts were given the Gobers for their nice home.

Several friends and relatives gathered in the home of Doyn Merriman Saturday night to play canasta and help him celebrate his birthday.

Those enjoying the party were Mr. and Mrs. Alton Pruitt, Mr. and Mrs. D. K. Lindop and girls, Mr. and Mrs. Tom Lindop and children, Mr. and Mrs. Murrey Dial and children, Mr. and Mrs. James McDorman and children, Mr. and Mrs. Turner Paine, Orland Smith, Mr. and Mrs. Myron Hillock and children, Mr. and Mrs. W. P. Shelley, Mr. and Mrs. Doyn Merriman and children, and Mr. and Mrs. Alton Berry and children. Refreshments of ice cream and cake were served.

Granny Jones is on the sick list this week.

Mr. and Mrs. Jim Billingsley motored to Canyon this weekend.

Pat Berry has gone to Canyon to be with her grandmother, Mrs. E. A. Berry. She will stay a while and keep with the work while Mrs. Berry recuperates from an operation.

Several beneficial showers were received in the community Wednesday. Some places received a trace of moisture while some received over an inch. Another nice slow rain fell Monday night.

Mr. and Mrs. Alton Berry and family and Mr. and Mrs. Turner Paine and family spent Sunday with Mr. and Mrs. Leon Billingsley. Mr. and Mrs. Jim Ed McGuire, Mr. and Mrs. B. J. Foster, and Mr. and Mrs. A. B. Wilkerson and mother also called during the day.

Mr. and Mrs. Clyde Perkins and Mr. and Mrs. E. W. McGuire have been to Levelland this week.

Tom Lindop and boys motored to Farwell for a badly needed haircut Thursday.

Mr. and Mrs. J. H. Neill of Vernon and Mr. and Mrs. J. H. Neill Jr. of Chicago visited in the E. W. McGuire home this week. The J. R. Turlingtons were also visitors. Mrs. Neill is Mrs. McGuire's sister.

Mr. and Mrs. Wendell Christian and girls and Rev. and Mrs. A. D. Moore were guests of Earl Roberts Sunday.

Mr. and Mrs. Jimmy Nunley of Levelland are the proud parents of a baby boy. Dora Dean is doing fine and the baby, although he only weighed five pounds, is out of the incubator now. Mrs. Clyde Perkins is staying with them this week.

Mr. and Mrs. D. K. Lindop and Mr. and Mrs. Alton Berry went to Friona to see the Farm Bureau show "The Memphis Belle." This show was made while D. K. Lindop was in the army, and he appears sever-

al times in the cast.

The Methodist Men's Club met Monday night with ten members present. Brother Hanks of Muleshoe was guest speaker. Sandwiches, coffee, and pop were served. The next meeting will be the first Monday night in August.

The annual Fourth of July picnic was held at Oklahoma Lane Tuesday. A very large crowd attended. Skating and a ball game were the feature attractions. Gallons of ice cold lemonade were consumed by the crowd and everyone enjoyed the day very much.

Mrs. D. W. Carpenter is visiting her sister, who is ill, in Tulia this week.

Mrs. Jack Newman and Joan of Whiteface visited in the W. P. Shelley home Thursday.

Mr. and Mrs. Jack Faegan and children of Clovis visited in the W. N. Foster home and attended the picnic Tuesday.

Mr. and Mrs. Crawford Ruthart and girls of Canyon visited in the Jim Billingsley home and attended the picnic.

Mr. and Mrs. Seth Rollins and baby from California are visiting the T. E. Levys this week.

Mr. and Mrs. Ernest Foster, Mr. and Mrs. Edwin Foster and son, and Mr. and Mrs. Earl Cole of Clovis were among the familiar faces seen at the Fourth of July picnic. Mr. and Mrs. Pro. Roberts of Farwell also were visitors as were Mr. and Mrs. Clyde Sparks and family of Texico, Mr. and Mrs. Chester Magness and family, Mr. and Mrs. B. J. Foster and family of Farwell, Mr. and Mrs. Kenneth Grissom and family of Muleshoe, and Mr. and Mrs. Jim Ed McGuire and son of Tucumcari, N. M.

Greta Dell Kersey is home for the summer. Greta Dell attends school in Oklahoma City.

Lions Meet, Hear Talks Of Girls' Boys' States

Present at a meeting of the Texico-Farwell Lions Club last (Tuesday) night at the Legion Hall in Farwell were three local Girls' and Boys' State representatives that were sponsored by the club.

They were Jo Beth Engram, who represented Texico at Girls' State in Portales recently, and Caryetta Grissom and Jerry Pool, who represented Farwell Schools at Girls' and Boys' State in Austin.

After dinner, Lion Tailtwister Aggie Jones, superintendent of Texico Schools, introduced Miss Engram, and she related her experiences at the Portales meeting. Briefly, she explained how New Mexico Girls' State functions. She said the state meeting was modeled after state and federal governments, and included political parties, and a campaign for governorship of the meeting. Miss Engram said 142 girls attended.

Lion President Jack Williams, superintendent of Farwell Schools, introduced Miss Grissom, who explained the similar arrangement of Girls' State in Texas. She also told of the representatives' trip through the state capitol, where they heard Gov. Allan Shivers. She said 254 girls were at the meeting.

Pool, representing Farwell at Boys' State, explained in considerable detail the junior-sized governmental system employed at the meets, and recounted his experiences while visiting the state legislative chambers in the capitol. He said 452 boys were present. Explaining that he was a citizen of a "town" of 40 boys, Pool said these 40 planned a reunion five years after their separation at the meeting.

CONDITION IMPROVED

Mrs. W. L. Roberts who has been in the Clovis Memorial Hospital for the past several days in serious condition is reported well on the road to recovery. Relatives reported early this week that they expected her to be released from the hospital within the next few days.

Need letterheads? Dial 2131.

Mr. and Mrs. B. N. Graham are in Lamesa attending a family reunion of the Austins, Mrs. Gramam's family.

Mrs. John Porter left Friday for Brownwood where she will attend a family reunion of her mother's family.

Van Crume of Portales is visiting his cousin, Guwayne Cason.

Jane Claire Overstreet, who has been visiting Joan Cockrell in Snyder for the past few days, returned home Saturday. Miss Cockrell accompanied her for a visit in the Overstreet home.

Darlene Sprawls returned home Saturday after spending a few days in Sweetwater with the Clifts.

Valarie Dial and A. C. Henneman visited in Hereford with A. C.'s mother, Mrs. Bess Henneman, Tuesday.

Mr. and Mrs. Wilbur Farris of Clovis and Mr. and Mrs. Les Means were in Ruidoso over the weekend.

Mrs. C. H. Koons and three children returned to their home in Colorado Springs, Colo. last Tuesday after spending two weeks visiting in the homes of Mr. and Mrs. James Bruce and Mr. and Mrs. Mose Glasscock. She is Mrs. Bruce's sister.

Mr. and Mrs. C. E. Wiley of Maud, Okla., and Mrs. O. E. Cowser of New London, Texas, visited in the T. E. Roth home over the weekend.

Mr. and Mrs. Joe Craighead and daughters of Amarillo visited in the home of Mr. and Mrs. Harry Jesko in Farwell Sunday. Mrs. Craighead is a sister of Mr. Jesko.

Glenna Ruth Davis, daughter of Mr. and Mrs. Carl Davis of Farwell, returned home Thursday from Muleshoe where she visited her grandparents, Mr. and Mrs. Ebb Randon.

Mr. and Mrs. Scott Levins, Scott, Jr. and Susan Palmer, and Bob Scott Nordin, were dinner guests of the R. W. Andersons Tuesday.

Mr. and Mrs. Buck Bradshaw and family spent July 4 visiting with relatives in Big Springs.

Mr. and Mrs. Carl Mears of Groom spent the past weekend in the home of Mr. and Mrs. Ray Mears.

Mr. and Mrs. Fred Curtis, and Mr. and Mrs. Lovel Johnson spent the past Sunday visiting in the home of Mr. and Mrs. Lewis Johnson in Tucumcari.

Carl Davis made a business trip to Amarillo on Monday.

Ray Mears was attending business matters in Hereford the first of the week.

A committee of two on ways and means. One has her way, and the other provides the means.

WHITEHEAD-McDANIEL EXCHANGE VOWS AT ENMU BAPTIST CHAPEL, SUNDAY, JULY 2

In the soft glow of candlelight and before an improvised altar, Miss Grace McDaniel, daughter of Mr. and Mrs. Chas. L. McDaniel of Texico, became the bride of Gail Whitehead, son of Mrs. Beulah Whitehead of Roswell N. M., at the ENMU Baptist Chapel. Rev. Elmer Whitehead, pastor of Longs Baptist Church, officiated the double ring ceremony.

Pre-nuptial music was furnished by Miss Eloise Sharp of Aztec, N. M., who also accompanied J. C. Simpson of Portales as he sang "Always."

The bride was attired in a turquoise blue street-length dress with white accessories, and carried a white Bible on which rested a nosegay of white rosebuds featuring white satin streamers which fell from either side of the Bible.

For "something old" she wore a good luck coins in her slipper, which was given to her by her grandfather McDaniel, now deceased; her dress served as "something new;" and for "something blue" she carried a blue handkerchief belonging to her sister, Miss Esther McDaniel. For something borrowed" she carried the white Bible, belonging to her sister, Mrs. Kenneth Willis, of Grier, N. M.

Miss Mary Ruth Petree, roommate of the bride at ENMU, was maid-of-honor. She wore a rainbow colored dress complemented with white accessories.

Billy Wayne Whitehead, brother of the groom, served as best man. At the conclusion of the wedding, the couple dedicated their new home to the Lord and pledged their lives to Christian service. At the close of the dedication Jake Simpson sang, "I'd Rather Have Jesus," after which a prayer was offered by Rev. C. Paul Rich, visiting associate professor in religion at ENMU.

Following the ceremony a reception was held in the chapel lounge. The serving table was centered with a large wedding cake topped with a minature bride and groom. After the first piece of cake had been traditionally cut by the bride and groom, Mrs. Kenneth Willis, sister of the bride, served the cake and Miss Esther McDaniel, another sister of the bride, presided at the crystal punch service.

Mrs. Whitehead is a graduate of the Texico High School with the class of 1949, and will be remembered by her outstanding work in sports as well as other school activities during her high school years. She was a freshman at ENMU.

Whitehead was graduated from Roswell High School in 1946 and also attended ENMU, where he received his Bachelor of Arts degree. The couple will make their home in Roswell temporarily, it was announced.

Gloria Sanders Honored With Birthday Party

Gloria Sanders, daughter of Mr. and Mrs. Calvin Sanders, was honored with a party on her thirteenth birthday Friday night.

Gloria entertained her seventh grade classmates in Farwell and her closest friends in Texico.

Punch and cake were served to: Robbie Foster, Mona McDorman, Barbara Christian, James Roberts, Don Gerles, Leroy Williams, Peggy Hardage, Lavada Billington, Ysleta Brown, Don Pool, Gloria Dial, Billy Watts, Michael Ann Faville, Kenneth Ray Allred, Junior Potteet, Susan Levins, Madge Richardson, and Elaine Martin.

The evening was spent playing indoor games.

Miss Winegeart Is Bride Of Ernest Foreman

Miss Juanita Winegeart, daughter of Mr. and Mrs. J. H. Winegeart of Texico, became the bride of Ernest Foreman, son of Mr. and Mrs. L. E. Foreman also of Texico, in a simple ceremony performed in the Hamlin Memorial Methodist Church Saturday afternoon, with the pastor, Rev. Murphy Duncan, reading the double ring vows.

The bride wore a pale blue chiffon street-length dress accented with white accessories and wore a shoulder corsage of white gardenias.

Miss Glenda Doshier, close friend of the bride, was maid of honor, and was attired in a pink dotter swiss with white accessories and wore a matching corsage of the bride's.

Willie Joe Carpenter served as best man.

Immediately following the ceremony the couple left for Groom and Pampa, Texas, for a few days honeymoon trip. They will be at home in Texico, Thursday.

Auxiliary Working On Projects For Hospital

American Legion Auxiliary still is working on slip covers for the recreation room of the Veterans Hospital in Amarillo, Mrs. John Getz, president, says.

The local organization has material for the slip covers and samples to follow in making them. Anyone who might be interested in helping members of the club for the hospital project should contact Mrs. Getz.

The auxiliary also is collecting old lawn furniture that can be used by the hospital. The furniture does not have to be in very good condition, as the recreation department will repair it, Mrs. Getz points out.

A rummage sale is planned in September, she says, and asks people not to throw away anything that can be used in the sale.

Here From Oklahoma

Mr. and Mrs. Glenn Fowler and children of Carnegie, Okla., arrived here the past week to spend several days visiting with relatives in Texico-Farwell. They are visiting in the homes of her parents, Mr. and Mrs. J. H. Stone, in Farwell; her brother, Mr. and Mrs. J. E. Stone in Texico; and her sister and family, Mr. and Mrs. Johnnie Williams south of Farwell.

In Moore Home

Mr. and Mrs. Bob Drace and children of Abernathy, Texas, spent the past weekend visiting in the home of her parents, Mr. and Mrs. J. C. Moore, in Texico. Little Miss Mona Lynn remained with her grandparents for an extended visit.

Attend Family Reunion

Mr. and Mrs. J. H. Birchfield and their daughters and sons-in-law, Mr. and Mrs. Woody McDermitt and Mr. and Mrs. Clarence Meeks, are in Oklahoma for a family reunion of Mrs. Birchfield's family. It has been about 14 years since all the family has been together.

Birthday Dinner

Guests at a birthday dinner honoring Gloria Sanders, daughter of Mr. and Mrs. Calvin Sanders, Sunday were Mr. and Mrs. E. E. Boco, Mr. and Mrs. Joy Franks and son, Mr. and Mrs. Leroy Tucker, L. C. O'Neal and sons, all of Clovis; and Mr. and Mrs. Floyd Boco of Pleasant Hill.

Pat Aldridge Entertains With Weiner Roast

Pat Aldridge, daughter of Mr. and Mrs. Sam Aldridge, entertained with a weiner roast in the backyard of her home Tuesday night.

Hot dogs, potato salad, watermelon, and lemonade were served to Susan Levins, Michael Ann Faville, Gwendolyn Potts, John Potts, Darlene Hromas, and the hostess, Miss Aldridge.

Holladays Return Friday From Business Trip

Rev. and Mrs. O. O. Holladay and Cecilia were in Hamilton County and Fort Worth on business and visiting relatives the past week.

The Holladays left Monday and returned home Friday. While gone, they visited Mrs. Holladay's sister, Mrs. Phil Tilden of Southwestern Seminary, Fort Worth; and Rev. Holladay's brother, George E. Holladay, of Hico.

In Williams Home

Dinner guests in the home of Mr. and Mrs. Johnnie Williams, south of Farwell, Sunday, included the following:

Mr. and Mrs. Glenn Fowler and children of Carnegie, Okla., Mr. and Mrs. J. H. Stone, Farwell; Mr. and Mrs. J. E. Stone and granddaughter, Kathy, Texico; and the Johnnie Williams family.

Son Arrives Monday

Mr. and Mrs. Glenn Holland of Grady, N. M., announce the arrival of a son Monday morning at 1:30 in a Clovis hospital. The young weighed 8 pounds and 4 ounces. He is the new grandson of Mr. and Mrs. J. H. Winegeart of Texico.

Here From California

Mr. and Mrs. Seth Rollins and children of Pala, Calif., arrived here the past Wednesday for a visit with relatives and friends in this community. They are house guests of Mrs. Rollins' parents, Mr. and Mrs. T. E. Levy east of Farwell.

Visit In Johnson Home

Mr. and Mrs. M. C. Jackson and sons, Charles, Robert, and Ray, from Phoenix, Ariz., visited a short while with Mrs. Effie Johnson, who is Mrs. Jackson's aunt, Monday morning. The Jacksons were enroute to Spur, Texas, to visit in the home of Mrs. Jackson's parents, the J. A. Marshs.

In Martin Home

Visitors in the home of Mr. and Mrs. Raymond Martin Sunday were his parents, Mr. and Mrs. V. L. Martin, and Mr. and Mrs. Stafford Bradshaw. Mr. and Mrs. Marvin Hamrick called during the afternoon.

Guests Of Parks

Mr. and Mrs. Bunk Parks and son of Albuquerque, and Mr. and Mrs. Denis Bandy of Tucumari were weekend guests in the home of Mr. and Mrs. F. J. Parks in Farwell.

NOTICE

My office will be closed until August 1, as I am in attendance at a Chicago convention and taking a brief vacation afterwards.

Dr. Mary Leone McNeff
Farwell, Texas

Mr. and Mrs. Ansel Doolittle

MISS ROTH BECOMES BRIDE OF A. DOOLITTLE IN IMPRESSIVE HOME CEREMONY, JULY 2

Wedding vows were solemnized Sunday afternoon for Coeta Fern Roth, daughter of Mrs. T. E. Roth, and Ansel Doolittle, son of Mr. and Mrs. T. T. Doolittle, both of Texico, at the home of the bride's parents.

Rev. O. O. Holladay performed the double ring ceremony before an improvised altar of white gladiolas and yellow roses flanked by candelabra.

The wrought iron arch was entwined with greenery and topped with a cluster of white wedding bells tied with white satin ribbon.

Preceding the ceremony, Miss Patsy Engram sang "Always" and "I Love You Truly," accompanied by Mrs. Donald W. Wilkins, who also played the traditional wedding music. Miss Engram wore a blue and white organdy dress and Mrs. Watkins was attired in pink and white.

The bride, given in marriage by her uncle, C. E. Wiley of Maud, Okla., wore a street-length white taffeta dress trimmed with tiny covered buttons and lace. Her white halo hat of malene and straw and gold and white brocaded satin sandals completed her costume. She carried a white satin-covered Bible topped with white carnations and satin streamers.

Attending her sister as maid of honor was Carmen Roth, who was attired in a yellow organdy dress, with white accessories and a corsage of pink roses. William F. Ragland was best man.

The bride's mother wore a navy dress, white accessories and a gardenia corsage; the groom's mother chose a navy and white printed silk dress with white accessories and a gardenia corsage.

A reception was held immediately following the ceremony. The table was laid with a lace cloth over yellow linen. The three-tiered wedding cake, topped with a minature bride and groom, was placed on a round reflector and circled with tiny yellow roses and greenery.

Mrs. Claudine Doolittle served the cake, after it was traditionally cut by the bride and groom, and Mrs. Buddy Pearce presided at the punch bowl.

Betty Winton, of Clovis, presided at the guest book. Mrs. O. E. Cowser of New London, Texas, an aunt of the bride, also assisted with the reception.

The bride chose a brown and

white silk dress for her going away ensemble. She wore white accessories and the white carnation removable corsage from her brides' bouquet.

Mrs. Doolittle was graduated from Texico High School in 1950 as valedictorian of her class. Mr. Doolittle was graduated from Texico High School in 1949 and has been employed by a construction company.

After a short wedding trip, the couple will be at home on the Don Watkins farm east of Farwell.

Relatives and close friends of the family attending the wedding included Mr. and Mrs. Buddy Pearce, William F. Ragland, Mr. and Mrs. Donald Watkins, Rev. O. O. Holladay, T. E. Winton and daughters, Betty and Rebecca, of Clovis; C. A. Roth, Canadian, Texas; Mr. and Mrs. O. E. Cowser, New London, Texas; Kenny Blain, Maud, Okla.; Mrs. Claudean Doolittle, Clovis; Mr. and Mrs. Hugh Tucker, and Barbara, Phyllis, Robert, and Wayne; Miss Patsy Engram, Mr. and Mrs. C. E. Wiley of Maud; Mr. and Mrs. T. T. Doolittle, parents of the groom, and Sue; Mrs. T. E. Roth, mother of the bride, and daughter, Carmen.

Surprise Visitor

Fred Kepley was taken by surprise last Saturday night when his brother, A. E. Kepley and family of Fort Worth, arrived at his home east of town unexpectedly. The Fort Worth visitor is clerk and assessor of River Oaks, a suburb of Fort Worth.

Guests Of Stones

Guests in the home of Mr. and Mrs. J. E. Stone in Texico Sunday afternoon were Mr. and Mrs. Glenn Fowler and children, Carnegie, Okla.; Mr. and Mrs. Bert Williams, Farwell; Mr. and Mrs. Hal Stone, Clovis; Mr. and Mrs. Ray Stone and Kathy, Farwell; Mrs. Flora Lee Anderson and son, Johnny, Bovina; and Mrs. J. H. Stone, Farwell.

BIRTHDAY DINNER FOR MRS. HILARY TIDENBERG

A surprise birthday dinner was given for Mrs. Hilary Tidenberg in the Ward Thompson home Friday, June 30. A lovely dinner was enjoyed by all, and then Mrs. Tidenberg opened several nice and useful gifts.

Those present included Mrs. Sam Sides, Mrs. J. R. Caldwell, Mrs. H. D. Bradshaw, Mrs. Gene Hawkins, Mrs. Amos Steelman, Mrs. Joe Wilson, Mrs. Roy B. Ezell of Farwell, Mrs. Elton R. Venable, Mrs. Al Kerby, Mrs. E. J. Speegle, Mrs. E. H. Moody, Mrs. Charlie Jefferson, Mrs. Giles Williams, Mrs. John Stagner, Mrs. Mary McCleskey of Clovis, Mrs. Arnold Hromas, Mrs. Mel Gunn, Mrs. Ward Thompson and the honored guest, Mrs. Hilary Tidenberg. Several children also were present.

MRS. TROY ARMSTRONG HONORED ON BIRTHDAY

A surprise birthday supper party was given in honor of Mrs. Troy Armstrong in her home Friday

night, June 30, at 8 p. m. A covered dish luncheon was enjoyed by all and after the meal was finished, Mrs. Armstrong opened her many nice gifts.

Those present were Mrs. Doris Wilson, Mrs. John Kimorow, Mrs. Mollie White, Mr. and Mrs. E. H. Mooy and children, Mr. and Mrs. Pat Kunselman, Viola Loflin of Tulsa, Rev. and Mrs. E. J. Speegle and daughters, Mr. and Mrs. Hilary Tidenberg and son, Mrs. Lester Rhineheart and daughter, Mrs. A. G. White, Mrs. Nolan Rhodes, Mr. and Mrs. H. D. Bradshaw, Mr. and Mrs. W. C. Bryant and children of Amarillo, Mr. and Mrs. E. H. Ashcraft, Mr. and Mrs. Elton R. Venable and children, Mr. and Mrs. Charlie Jefferson and daughters, Mr. and Mrs. Harvey Alverson, Mr. and Mrs. Frank Pösch, Mr. and Mrs. Mel Gunn, Junior Barbee, Mrs. J. Sam Gaines, and Mrs. Troy Armstrong.

Hostesses for the party were Mrs. Charlie Jefferson, Mrs. Lester Rhineheart, Mrs. Elton R. Venable, Mrs. Frank Wilson.

A lovely birthday cake was cut and served by the honoree.

Mr. and Mrs. Harry Jefferson of Jal, N. M., visited in the Charlie Jefferson home Saturday night.

Mr. and Mrs. Joe Larence Langer left Friday for Snyder, Texas, after spending the past week visiting here.

Fred Langer and E. D. Baker left Monday morning for Serbert, Colo.,

to cut wheat.

Mr. and Mrs. Cecil Bunch and son were called to Lindsey, Okla., Wednesday night because of the illness of Cecil's father who suffered from a heart attack.

Captain and Mrs. E. W. Palm and family of Fort Benning, Ga., visited in the home of Mr. and Mrs. Sam Sides the past weekend while enroute to Eugene, Ore. Palm is a nephew of Mrs. Sides.

Mrs. Nolan Rhodes is visiting in the home of Mr. and Mrs. A. G. White this weekend.

Mrs. Elton R. Venable and Mrs. C. H. Jefferson were Clovis shoppers Friday afternoon.

Mr. and Mrs. Andy Harwood, sister of Mrs. W. J. Sides, and Mrs. Grady Dry and daughter are visiting their first time in Texas in Bovina. They are all from Albermarle, N. C.

Mr. and Mrs. Sam Sides, Mr. and Mrs. Arnold Hromas and children, Mary Sue Moody, and Mr. and Mrs. Scotty Barry were visitors in the W. J. Sides home Sunday evening.

Lindane Can Be Used For False Wireworms

Lindane, one of the newer insecticides, has shown promise for false wireworm control in tests conducted at the Lubbock Substation of the Texas Agricultural Experiment Station. H. G. Johnston, head of the department of entomology, Texas A. & M. College, states that up to now there have been no practical insecticides for the control of this insect.

False wireworm infestation is restricted to the Rolling Plains and South Plains areas of Northwest Texas. The insect is likely to attack

any crops grown, but is a major pest on small grains and sorghums. It works altogether underground, feeding on stems, roots and germinating seeds. Johnston says that estimating the damage caused yearly is difficult because the infestation is variable, occurring in spots throughout the

area from year to year.

Best control results were obtained from the application of eight ounces of 25 percent wettable lindane dust per 100 pounds of seed. Higher applications of the insecticide injured the germinating seed and the small roots of the young seedlings.

W. L. Owens, assistant in the department of entomology, Texas A. & M. College, who conducted the tests, says the farmer should make sure that the wettable powder is thoroughly mixed with the seed. Wettable powders can be bought that contain from 25 to 75 percent lindane. The 25 percent dust can be dumped into the planter box and

mixed with a minimum amount of stirring. The revolving plates mix the dust with the seed. If higher concentrations of powder are used, it should be thoroughly mixed with the seed before they are placed in the planter box. Pure lindane is not bulky enough to be used.

DELICIOUS FRUIT COMPOTE

Prunes, apricots, and dried pears make a delicious dried fruit compote. Use part orange juice for the liquid in which the fruit is cooked and add a slice or two of lemon, too. Serve with a topping of sour cream if desired.

Milk Should Be Included In Every Family Diet

COLLEGE STATION The spotlight during the past month has been thrown on one of our finest all-around foods, milk and milk products. The month of June carried a special designation as "Dairy Month," but according to Jimmie Nell Harris, associate extension foods and nutrition specialist of Texas A. & M. College, every family should plan to use milk generously in the daily menus.

She points out that children should have at least one quart of milk per day and that adults can profitably consume from one pint to a quart daily. Milk and milk products furnish fats, carbohydrates, and proteins in easily digestible forms along with calcium and other minerals, vitamin A and riboflavin. All are needed for properly balancing the daily diet.

One pint of evaporated milk plus one pint water; one and one-eighth cups of dried whole milk plus a quart of water; one quart of liquid skim milk plus three tablespoons of butter or one cup of dried skim milk plus one quart of water and 1 1/2 ounces of butter will, according to Miss Harris, be equal in food value to one quart of whole milk.

She says milk is a versatile food. It can be used as a liquid in meat loaves or in creamed dishes such as chickens, eggs, and many of the vegetables. It can be used in many of the cream soups.

Desserts provide the homemaker with many opportunities to use milk. There are custards, cream pies, sherbets, ice creams, puddings, and gelatin mixtures to name a few, and cool milk drinks are a favorite for hot weather. Children, especially, like milk and shakes of all flavors.

Sanitary Measures Are Urged To Prevent Dysentery

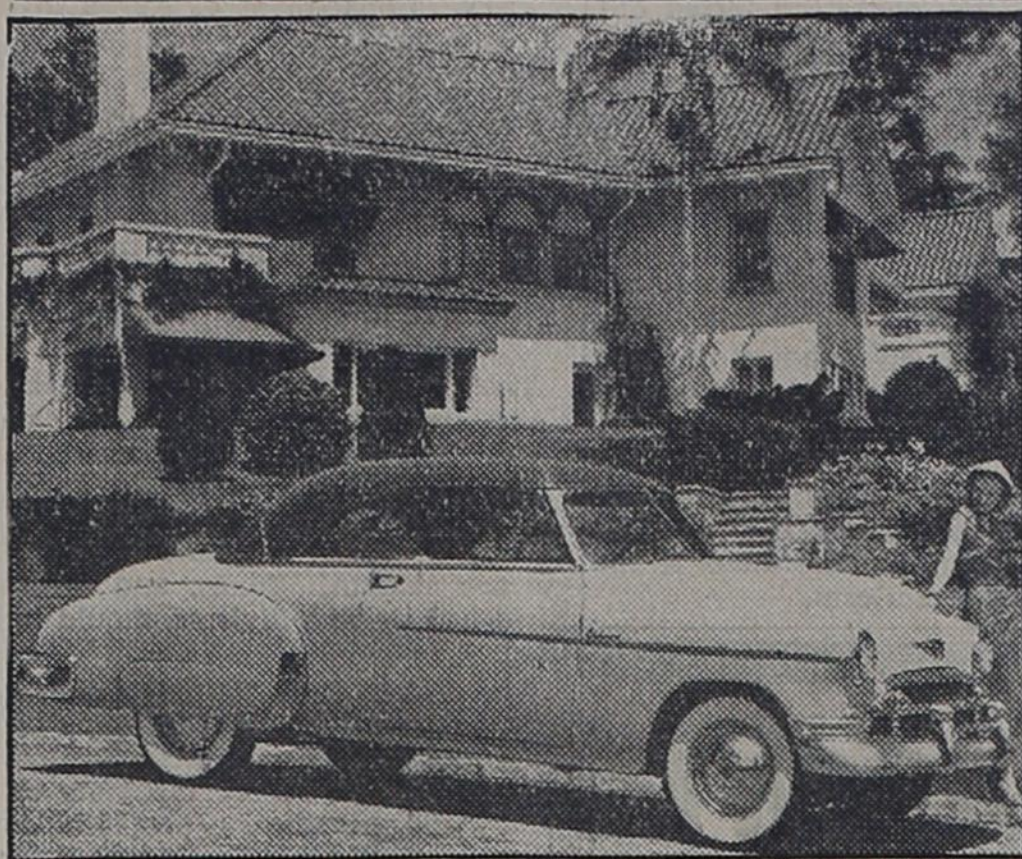

Commenting on the unusually high incidence of dysentery in Texas at the present time, Dr. Geo. W. Cox, State Health Officer, described dysentery as being an infectious disease characterized by diarrhea, pain in the abdomen, and toxemia. It is caused by a specific bacteria or germ. These germs cause inflammation of the lining of the intestinal tract which produces a pain throughout the abdomen and the discharge of many loose stools that frequently contain blood and mucus. Toxemia results from absorption of the poisonous substances produced by the germs.

"The germs gain entrance to the body through the mouth," Dr. Cox said, "and then make their way to the intestines in the same manner in which food does. When they reach the intestines they find conditions favorable to their growth and there they establish themselves at the expense of the person infected and produce their harmful effects."

Dr. Cox warned that dysentery effects children more often and more seriously than adults, frequently resulting fatally; however, he said, it may occur at any age. It is usually more prevalent during the summer season, and the great number of cases now being reported are unusual for spring.

"The germ is always expelled with the excreta of persons sick with dysentery and may continue to be expelled for some time after the patient recovers from the disease. These persons who still discharge the germs after they recover are called carriers and they occur more frequently in this disease than in the

majority of other infectious diseases. epidemic dysentery in this State."

"Food protection and adequate sanitary measures are more urgently needed now than ever before if we control the potential possibilities of Robert Fulton was a portrait painter before he became an inventor.

THE PAUSE THAT DISTRESSES

The lecturer was a celebrated doctor of law, and his talk was to be on "Fools." The chairman who was something of a wit, stood up to introduce him.

"Ladies and gentlemen," he said, "we are now to have a lecture on fools by one"—he paused, and there was loud laughter before he resumed—"of the wisest men in the country."

The lecturer then rose to speak. "Ladies and gentlemen," he said. "I'm no half so big a fool as the chairman"—he paused, and again there was laughter—"would have you suppose."

BIRDS IN MAILBOX

HOXNE, England—Business went on as usual while a little mother blue tit, a common English bird that looks like a canary wearing a blue bonnet, raised her family of eight fledglings in a nest she had built inside a corner mail box. Letters piled in around her and the postman unlocks the box when he collects the mail, but the bird doesn't seem to mind.

Reynolds Advises Testers On Preparing Samples

COLLEGE STATION—The most accurate seed analysis shows only the quality of the sample submit-

ted. If the sample selected is not representative of the bulk of the vetch seed to be used or sold, the tests will be of no real value to the seller or buyer, cautions E. B. Reynolds, agronomist in charge of the Vetch Seed Testing Laboratory at Texas A. & M. College.

The vetch testing laboratory was

established in 1948 to make germination and purity tests of vetch seed produced by Texas growers. Texas weather conditions were unfavorable for vetch seed production in 1948, and the laboratory tested only 364 samples of seed.

In 1949 the laboratory tested 1,400 samples. Good quality seed, however, was produced both years. Reynolds recommends that equal portions be taken from evenly distributed parts of the quantity of seed being sampled in order to secure a representative sample.

A probe, he says, should be used in order to reach all portions of the bag or bulk of seed being sampled. Composite samples should be taken to determine the quality of a lot of seed, and individual bag samples may be taken to determine if the lot of seed is uniform.

Two pounds of vetch seed should be submitted for the germination and purity tests. Samples should be mailed, preferably in small cloth bags, to the Vetch Seed Testing Laboratory, Department of Agronomy, Texas Agricultural Experiment Station, College Station, Texas.

The name and address of the sender and any identification marks should appear on the tag or label on the outside of the package, which may be sent parcel post. If information regarding the sample is enclosed in the bag or package, the package may require first class postage.

The results of tests made by the Vetch Seed Testing Laboratory can be used in securing official tested seed labels. Growers should apply directly to the Seed Laboratory Division, State Department of Agriculture, Austin, Texas, and forms furnished by that division should be used.

The Vetch Seed Testing Laboratory, Department of Agronomy, Texas Agricultural Experiment Station, will make and report the tests on purity and germination according to the rules and procedure adopted by the Seed Laboratory Division of the State Department of Agriculture.

They assume no responsibility for the accuracy in representing the seed actually for sale.

This testing service is free to the farmers of Texas, and the Vetch Seed Testing Laboratory again is ready to render prompt and efficient service to vetch growers, says Reynolds.

BREAD BOX

To insure the fullest protection of bakery products, keep the bread box clean. Wash and scald the container, and air-dry it thoroughly twice a week in winter and every other day in summer. Do not stand bread boxes near heat units in the kitchen, such as ranges, radiators, water heaters and clothes dryers. On the other hand a cold pantry will cause the bread to stale faster. Bread boxes should not be too airy unless the products themselves are stored in moisture-proof wrappers.

GLOVES CAUSE DEATH

MT. PLEASANT, Pa.—As Demetrius Harhai, 27-year-old coal worker, left the mine, he realized he had forgotten his work gloves. He dashed back into the mine to get them. Co-workers found his body a short while later, crushed under a fall of slate from the mine roof. It was the exact spot where he had been working all day.

BANK ASSETS

Assets of all kinds reached a new high level of \$180,000,000,000 at the close of 1949, according to Maple T. Harl, chairman of the Federal Deposit Insurance Corporation. This figure was \$2,000,000,000 higher than the previous record level reached in December, 1949, and represented an increase of \$4,000,000,000 compared with 1948.

Special Program Is Enjoyed By WSCS

Commemorating the tenth birthday of the WSCS, the Friona Methodist ladies held a special program at the church last Tuesday afternoon, with representatives from the Bovina circle as guests for the occasion.

"Ye Are the Light of the World," was the program theme of the day, with Mrs. Jake Lamb program chairman. The meeting opened with a song, "The Kingdom Is Coming," following which Mrs. Ernest Osborn conducted the meditation, "Who Lives in You?"

Mrs. James Tidwell sang a solo, "Follow the Gleam," and Mrs. Howard Ford spoke on "By His Light," after which the assembly joined in singing "Open Mine Eyes."

Mrs. Lamb spoke on "Giving Light," after which the ten candles on the birthday cake were lighted by Mesdames James Tidwell, Dick

Rockey, Mildred Hilton, Zora Gaede, Lucile Collier, Agnes Moyer, Fern White, Jim Shatler, Willis Parker, and Wilma Jones, with each making brief comments.

Prayer preceded a round-table discussion of current WSCS programs, conducted by Mrs. Lamb, and the afternoon was closed with a social in fellowship hall.

Signing the guest register were Mesdames Doris Poindexter, Vernon Estes, Roy Ezell, Wilbur Charles, C. F. Hastings, E. M. Ware, J. J. Hopingardner, Mabel Newberry, I. W. Quicquel, Rouel Barron, Billy Suderth, Lloyd Battey, L. H. Pesch, all of Bovina; Mesdames Jake Lamb, Mildred Hilton, Agnes Moyer, Zora Gaede, Blanche Boyle, Jim Shaffer, Dick Rockey, Willis Parker, Roy Slagle, Howard Ford, Lucille Collier, E. S. White, Pearl McLean, O. C. Jones, George Jones, Hadley Reeve, J. T. Tidwell, Valoris Osborn, and Dottie Orborn, all of Friona.

IN ALLEN HOME

Guests in the home of Rev. and Mrs. T. B. Allen this week were her

parents, Dr. and Mrs. I. A. Hicks, of Lubbock; and her sister and family, Mr. and Mrs. James L. Bearden and son of Levelland. The visitors arrived Monday to spend several days.

Youth Caravan Group To Arrive July 8

The summer Youth Caravan work of the Methodist churches is now underway, and on Saturday, July 8, the caravan quintet assigned to Friona will arrive to work with young people of the church for a week, Rev. J. E. Tidwell, pastor of the Friona church, announced Monday.

Included in the group assigned to Friona are Miss Mary Jane Turrentine of Lubbock, councillor; Miss Ruth Dixon of Vaughn, Miss.; Bill Turner of Houston; Miss Jane Sample of Lawrence, Kans.; and Miss Bonnie Jean McCurdy, of Conroe, Texas.

Caravan work is sponsored by Methodist churches with a view of promoting more and better activities for the younger members of the church, and the young people who actually do the caravan work are selected on recommendation by the church officials.

All must be 21 years of age and must have completed two years of college work or had the equivalent in experience. Councilors are required to have experience in youth work.

During their stay at the specified church—they move each week—the Caravan members make contacts with leaders and young people alike, reviewing work being done in the church by the young members and suggesting ways and means of improving and broadening such programs.

Meetings will be held nightly in Friona for young people 13 years of age and older, the pastor added.

Mr. and Mrs. Forrest Orborn serve as sponsors of the Friona young people's group, and Mr. and Mrs. Ernest Orborn are intermediate sponsors. Caravan members will make headquarters in homes of local people.

"WALKING BLOOD BANK" OFFERED BY LIONS

Friona Lions have offered to become a "walking blood bank" for the Farmer County Community Hospital in Friona, the idea being approved at the last meeting of the group, members said today.

Members plan to visit the local hospital, where their blood will be typed, and will be on call for blood donations any time they are needed, one Lion said, in explaining the project.

Blood type reports will be kept at the hospital, where they will be easily accessible should an emergency requiring transfusions be required.

Paving Petitions Are Circulating

Petitions in regard to street paving in Friona are being circulated this week, as residents and city officials seek to determine whether an extensive paving program will be launched within the city limits in the future.

Mack Bainum, mayor of the city, reported Monday that some forty streets were up for consideration in the "only proposed" paving program, with city officials leaving it up to

residents as to whether or not they will take on the financial burden of making their streets weather-proof.

Residential street paving, he explained, will be paid for by property owners. "In other words, I'll pave mine, and you hook on and pave yours," Bainum said. The city, should such a program be launched, will then ask a bond vote, from which alleys and street intersections will be taken care of, Bainum went on.

"This is all tentative," he emphasized. "We know that a number of residents will be willing and are anxious to support individual residential street paving, but whether or not such a program can be worked out will be determined by the petitions now being passed over town."

Local Boys Return Home From Camp

Fifteen junior boys of the Friona Baptist church, along with their sponsors, returned the latter part of last week from the Plains Baptist Association encampment for boys, held the early part of the week at the District 9 camp near Floydada.

Rev. T. B. Allen, pastor of the local church, and J. D. Sanders acted as sponsors of the Friona group, being assisted by Tim Magness. Rev. Allen reported that some 1036 boys and sponsors were registered for the three-day session.

Attending from Friona were Jackie and Jerrod Sheek, George Wayne Terry, Charles McReynolds, Bill Franklin, Ira Bruce Parr, Jimmie White, Jim Roy Clements, Ted Sanders, Charles Hough, Gary Sherrieb, Ralph Palmateer and Sonny Blankenship.

Plans were not definite this week as to which junior and intermediate girls will represent the church at the week-long camp opening next Monday and continuing through July 14, Mrs. Allen said, adding that she would attend as one of the sponsors of the Friona delegation.

Sewer Hook-Ups Now Cover Half Of City

Approximately one hundred residences and business houses within the city limits of Friona have now made connection with the city sewage lines, installed some months ago, Mayor Mack Bainum said today when asked about progress of the work.

Friona is one of the first small cities in this area to vote a bond issue which made sewerage an act-

uality, and Bainum said that the majority of the hook-ups to date were from private residences. One of the largest connection programs within the sewer limits involved the local hospital, with the work being completed some weeks ago.

Questioned about when the work might be completed, Bainum would not hazard a guess. At present, there is nothing compulsory about using the city system, "although it may become necessary in the future if there are any complaints about cess-pools," he added.

Baptist Circles Hold Joint Meeting, Tuesday

Circle 1 and Circle 2 of the WMU of the Baptist Church held a joint meeting in the auditorium of the church the past Tuesday afternoon, with a special mission study being conducted prior to the business session.

Mrs. Joe Tally was in charge of the mission study, and some twenty ladies of the two groups were on hand.

Following the program, reports were compiled in the business session.

Junkyard Revamping Still Continuing

Mayor Mack Bainum said on Monday that the re-vamping program at the Friona junk yard was continuing, with the contractors, Bird and Wallace, of Hereford, expecting to conclude the work in about two weeks.

Drives are being laid out, ditches dug for disposal of the usual assortment of tin cans, bottles, etc., and fences have been erected to keep junk-yard dumpers from indiscriminately scattering their haul over the drives and property, Bainum added.

DOCTOR DELAYED

Dr. C. C. Henderson, currently of Houston, who had planned to join the Farmer County Community Hospital staff Friday, June 23, has been delayed, but is expected to take up his duties in the local hospital "in about ten days," Manager Ralph Roden reported on Monday.

CONSECUTIVE WIN NO. 2 FOR BLUESOX; CAPTURE UNDISPUTED THIRD POSITION

In a game that went for an extra inning, the Texico-Farwell Bluesox squeezed out a badly needed win over Bovina on the opponent's home field Sunday afternoon.

Interest was peaked in the top of the ninth, when Bovina had the bases loaded and score was tied 8-8. Fielder Blackie Williams threw home a high fly that made possible a double play, and Bovina was retired, temporarily releasing tension.

When the Bluesox were up for their try in the extra inning, Don Ford, relief pitcher for the afternoon, homered with none on, untying the contest by a single run. Bovina was retired with little difficulty in the top of the tenth, and the locals took home their second consecutive win.

Manager Wilfred Quicquel was not present at the game Sunday, and consequently, no official score was kept by the Texico-Farwell group. However, team members related that Bovina jumped out in the lead early in the game with five runs in the second inning.

First scores for the Bluesox came in the next canto, as Pete Hughes drove home his habitual homer with Toby Booth on. Two other runs in the third set a 4-5 count at the end of the third.

Scoring tied up in the bottom of the eighth 8-8, and remained deadlocked until Ford's clout in the extra.

Starting Bluesox pitcher was left-hander Toby Booth, who, as is the usual procedure, was relieved by Righthander Ford in the fifth. Jerry Jones began the mound toting for Bovina, and was relieved by Robert Reed in the eighth.

This win puts the 'Sox in undisputed third position in the West Texas-New Mexico Amateur league. In first place is Muleshoe, still unbeaten, and Arnold's of Portales is in second position. Other league standings depend, of course, on outcomes of Sunday afternoon's games, as yet unknown here.

No box scores are available.

Farwell FFA

(Continued from page 1.)

in either show, it was rated both times in the top one-quarter of the entries. This has been an encouraging sign, and the chapter hopes to secure a win with their team some day.

Other activities include the Amarillo Fair and the Amarillo Fat Stock Show; the Lubbock Fat Stock Show; The Parmer County Fair and Fat Stock Show; and other miscellaneous exhibitions that the chapter is from time to time invited to attend.

In 1947 the Farwell chapter received an invitation to enter exhibits in the Roosevelt County Fair in Portales. They represented the only Texas entries.

"We took six boys and won six blue ribbons," Morton recounted. He chuckled as he quipped, "Since then we haven't received any more invitations... not even a fair catalog."

In that show, Duane Curtis won grand champion boar with his entry. Morton cited Curtis as one of his most outstanding show boys, particularly with hogs. He is the son of Mr. and Mrs. H. S. Crutis, and has won many blue ribbons at Amarillo and Lubbock. He was graduated in 1949.

Another outstanding member of former years was Hershel Harding,

son of Mr. and Mrs. Nathan Harding, who live five miles south of town. He is now enrolled at Texas Tech.

Dot Kent Is Sweetheart

There are usually three significant annual events for the FFA chapter. One of these is the selection of a chapter sweetheart. Last year they chose Dot Kent of Lariat to represent them. Miss Kent won the district sweetheart title and represented the Farwell FFA chapter at regional contests in Plainview.

Second annual event that is the cause of much interest is the father-and-son barbecue. Morton said this was one of the most enjoyable events of the year. Every chapter member brings his father to the school where chapter would-be chefs have barbecued a sizzling beef in an outdoor pit. This is one of the few opportunities for members and dads to get together simultaneously, and it is not unusual for the event to last four or five hours.

Unfortunately, the barbecue was missed this year because of conflicts with the school calendar.

Aggie Trip Best of All

But the biggest, the most looked-forward-to, longest remembered event is the summer trip, where every member with any adventurous blood in his veins joins with other aggie pioneers in a life-and-death struggle with the elements. The boys take any mode of transportation handily available, and have been known to go in cars, trucks, and buses.

Once they crammed themselves into the small area of a pickup bed where they exchanged kicks and insolent remarks until reaching Murray Lake in Oklahoma. Morton said, "The farther we went, the larger our feet became. There were so many of us, some boys gave themselves hotfoots intended for others."

There remains little doubt that the aggie trip is a never-dying source of amusement for the clubbers. Asked to recount some of his humorous classroom experiences, Morton said it would be far easier to consider some of the ag trips.

For instance, some of the boys have been known to lose as much as 15 pounds on a single week-long trip. All of the most Satanic traits seem to be uncovered on these trips, and every trick in the book, practical and otherwise, is brought out for a trial on some long-suffering fellow FFA member.

Red River a Jinx

Ag trips are notorious for their ability to pick unbearable weather conditions. Once, on a trip to Red River, N. M., 16 boys spent five miserable days trying to exist in the New Mexico mountains without so much as the country convenience of a tent.

"We lived like rats," one wiseroof-the-experience member said. Everything was dripping wet with rain. We couldn't find anything to make a fire. Our personal clothing and bedclothes were wringing wet, 24 hours a day. Sanitation was unspeakable, and existence was unbearable."

One day on this trip, the miserable clubbers were heartened by an afternoon of sunshine. They dried a large part of their belongings out in the warm sun, and erected a makeshift tent of an old tarpaulin for a little protection against what they considered inevitable future rainfall.

They weren't far wrong in their prediction. That night it began to rain—much harder than usual. The exhausted boys paid little attention

to the deluge descending outside their leaky tent, but attempted some badly needed sleep in comparative comfort.

However, they made the mistake of pitching their lean-to snorter near a river, and about 2 o'clock in the morning the swollen waters seeped under the sleeper's bedclothes and brusquely interrupted their ill-fated security.

Tried It Again

Surprisingly enough, the club again chose Red River the following summer, and Morton reports that precautionary measures were taken, and conditions were somewhat improved.

Other trips include a district encampment at Palo Duro Canyon in 1944; an outing to Conchas Lake in 1944; an outing to Conchas Lake in 1945; the pickup ordeal to McMurray Lake in 1948; and the longest and most successful of all, a bus trip to Daingerfield State Park in 1949.

For this trip, the chapter was able to secure one of the school buses and a driver. They enjoyed comparative comfort while camping in the park, and lived fairly normal lives, notwithstanding the incessant attacks of flies and mosquitoes, said Morton.

Daingerfield, some 550 miles from Farwell, is in the extreme eastern portion of the state, near the Arkansas border.

New Building in 1948

One of the most significant phases in the development of the Farwell FFA chapter was in September of 1948, when they moved into a new building of their own. The structure, 58x90 feet, was the home of the chapter and was shared with R. D. Hensley, school maintenance official, who maintained his shop and housed the school buses in the southern half.

"We still had plenty of room, though," remarked Morton. "We had an area 24x90 feet for classrooms, my office, and the vocational shop. We moved in before the building was completely finished, and consequently, some of the inside furnishings such as shelves and desks were of our own making."

The farm shop is shared by veterans' vocational agriculture classes which meet there weekly.

Besides a well-equipped farm shop, the department owns a bulldozer and a small industrial tractor, both war surplus equipment. They were loaned a 1950 Chevrolet 1/2-ton pickup by Max Meadors Company of Clovis.

Morton Draws Up Plans

"We had had some discussion on the possibility of enlarging or moving the agriculture department," said Morton, "so I just sat down and drew up some plans of my own for a combination ag building and bus garage."

The school approved his plans, and they were used for the construction of the building, except for a one-third enlargement.

O. T. Ryan, supervisor of Area 11 at the time the building was erected, said that the FFA building was "one of the best in the area." Area 11, encompasses all the Panhandle.

Farm Purchased in 1946

Again referring to the department farm, Morton said the 20-acre plot was purchased from the Capitol Freehold Land Trust for \$100 an acre. The department agreed to pay \$200 per year on the \$2000 indebtedness. At present they owe \$1600 on the land, plus around \$1500 on the farm well.

"Many people have wondered why we bought this particular plot of land," Morton stated. "For one thing, it was infested with bindweed. The reason that the location was selected was because of the accessibility of local boys. Many town members have trouble finding projects. With the farm here in town, it is possible for them to have projects here."

Long-range plans call for the construction of show barns and other buildings on the farm. However, Morton emphasized that these improvements probably were a long way off.

"At present our most pressing problem is the need for a tractor to work the land. Instead of going deeper in debt with improvements, we are anxious to convert the 20 acres into productive crops in order to retire some of our present indebtedness."

"Will Take a Tractor"

Although the department has never solicited donations from any individual or concern, Morton grinned and said, "We aren't above taking a tractor for the farm if anyone wants to help out."

The most profitable crop yet raised on the farm was wheat that last year yielded 15 bushels an acre. The department was able to take in "around \$600" on the harvest, although, of course, they were out some planting and cutting bills.

Once before, the department attempted to raise a row crop, but Morton termed the success of this venture as "only fair." He is now supervising watering of the plot, however, and they are going to plant 11 acres of Arizona hegari and nine acres of black-eyed peas.

Well Is Pride and Joy

Of course the irrigation well is the pride and joy of the agriculture department. It cost "at least \$1500," said Morton. The well was drilled by a rotary rig owned by N. L. Sharp, and is 283 feet deep. Completed and installed only last week, the well pumps around 175 gallons of water per minute.

"This isn't a large amount of water at all," remarked Morton, "but it will be sufficient for our farm."

Itemizing expenses, Morton recounted that the department had ordered 300 feet of casing for the new well. It cost them \$525.30.

"They sent us 300 feet and two inches of pipe," he laughed, "and billed us for the extra two inches."

Advisory Council Is New

Last year a new procedure was used to assist Morton with his official responsibilities. That was the formation of an "advisory council" of seven men. The original council included C. M. Henderson, president; Alec Bateman, vice-president; L. S. Pool, secretary; the late Frank Phillips, replaced by Joe Magness; Austin Jones, Dick Gerie, and Lester Norton.

Department Worth \$18,700

Asked how much he would value the entire holdings of the agriculture department, including the 20-acre farm, Morton said he had just completed an invoice that estimated total value of the Farwell vocational agriculture department at \$18,700.

Under the leadership of Morton, the Farwell ag boys have shown initiative and progress. They have their own farm, and some day may own show barn and other buildings on that coveted 20 acres of land.

Morton emphasized that credit for progress the chapter had made should be given the superintendent and the school board. "Supt. Williams and the board were always cooperative with our interests," he said.

Few Texas departments, regardless of size, can measure up to the aims and accomplishments of the Farwell agriculture department and its affiliated FFA chapter.

Progress Man Faces Penitentiary Term

Sheriff Hugh Freeman of Bailey County came here Monday to pick up Lawrence Stelzig of Progress, in Bailey County, who was arrested here over the weekend on a charge of driving an automobile while intoxicated.

Sheriff Freeman said that Stelzig was at liberty on probation on a similar charge in Bailey County, and would be removed to the penitentiary for violation of parole.

Stelzig was arrested by Sheriff Chas. Lovelace over the weekend when he ran his car into the rear end of a machine being driven by W. T. Meeks of this city. The accident happened near the Highway Park in east Farwell on Highway 70, officers said.

VACATION NEEDS!

Your vacation can be more pleasant where you go fully prepared. Stop in and let us supply you with such items as Thermos bottles, eye shades, first aid kits, suntan lotion, films, thermos jugs, flashlights and batteries, etc.

FOX DRUG STORE

Clovis Youth Held On Forgery Charge

Walter D. Carter, 25, who is understood to live in Clovis, is in the Parmer County jail, where he will likely remain until the Grand Jury convenes here in October.

Carter was arrested by Sheriff Chas. Lovelace last Friday and given a preliminary hearing before Justice of the Peace Jess Newton Saturday, where he was ordered held on a \$2000 bond for forgery. Officers said Monday he had been unable to post bond.

According to Sheriff Lovelace, Carter and a companion, unapprehended as yet, passed a total of six forged checks in the amount of \$52 each. Two of the checks were passed in Parmer County, with Fox Drug Store of this city getting one and the Williams Merchandise Co., of Bovina taking up the other. Four of the forged instruments went to Hereford merchants, officers said.

Sheriff Lovelace described Carter as "a two-times loser" having been previously convicted on two occasions.

The rash of forged instruments broke out when Carter is alleged to have come into possession of some blank checks printed for the Highway Cafe at Bovina, and were drawn on the Security State Bank of this city.

Leather Craft School To Be Held At West Camp

A two-day school in leathercraft will be held at the church at West Camp, July 11 and 12. Mrs. Roy Carney of Muleshoe will be instructor at the session and will specialize in the making of billfolds, belts, and purses.

The school is free to the public, and the only expense for students will be that of material with which to work.

The school is being sponsored by the Polly Anna Club of the West Camp community and the members asked that all who plan to attend bring their lunches as a picnic will be spread at the noon hour.

Classes in the leather art will convene all day, and persons contemplating attendance are invited to make plans for an all-day attendance.

CARD OF THANKS

It is with prayer and gratitude that we extend our appreciation for the many deeds of kindness that were so generously given us during the long illness and death of our beloved wife, mother and grandmother, Mrs. J. A. Richards.

Especially do we thank all who so graciously opened their homes to the out of town relatives. May God bless you all.

J. A. Richards family
